Pan-Am Petroleum Corp. Promotes School Graduate

Mr. Donald H. Falkingham

Gulf Coast division at Houston.

A native of Sealy, Tex., Mr. Phenicie graduated from high school there. He attended Texas A&M College, the University of Texas and received a B. S. degree in mechanical engineering from Rice Institute.

Hired by Pan American as a junior petroleum engineer at West Edmond, Okla., in 1947, Mr. Phenicie was transferred to the Gulf Coast area, where he served in a variety of engineering jobs until 1952.

At that time he was transferred to Tulsa as a petroleum engineer, senior grade, and was later named reservoir engineering supervisor.

In 1958, he was moved to the Texas-Louisiana Gulf Coast division at Houston as assistant division engineer and then to Casper as division engineer. He held this position prior to his latest appointment as assistant division production superintendent.

Mr. Phenicie holds membership in the American Institute of Mining, Metallurgical, and Petroleum Engineers and other professional engineering organizations.

Mr. Falkingham, new Rocky Mountain division engineer, is a native of Illinois. Born at Lexington, he attended high school at Bloomington, and after graduation enrolled at the Missouri School of Mines, where he earned

(Continued on Page 5)

CASPER, WYO., Sept. 17, 1959.

Two key personnel changes in its Rocky Mountain division producing department here have been announced by Pan American Petroleum Corp. The changes were made public by C. L. Larson, Jr., vice-president and division manager.

John W. Phenicie has been pro-

moted to assistant division production superintendent and Donald H. Falkingham has been appointed division engineer, replacing Mr. Phenicie.

J. C. McCarthy, formerly Rocky Mountain assistant division production superintendent, has been transferred with the same title to Pan Am's Texas-Louisiana

MSM Alumni Association To Hold Annual Election Will Choose Officers and Directors

The MSM Alumni Association in its annual election will choose ten officers and directors for the terms of office that will expire at the end of the fiscal year, October 31. The offices to be filled are those of: President; Executive Vice President; Vice President, Areas 1, 2, 3; Vice President, Areas 4, 5, 6; Vice President, Areas 7, 8, 9; Secretary-Treasurer; three Directors at Large; and Director, Area 6.

There are eighteen officers and directors of the national Association and they are elected for a term of office of three years. In each of the other two years, four terms of office expire thus staggering the expiration dates.

The alumni elect the officers and directors by ballots that are sent to them by the Association. A slate of names is selected by the

Nominations Committee and is submitted on the ballot. Also a space is provided for the alumnus to write the name of a candidate of his choice if it is different than that of the Committee. About 35 per cent of the ballots are returned in this method of election.

The officers and directors are from all parts of the United States, thus giving a full representation of the alumni in the administration of the Association.

The present President of the Association is Melvin E. Nickel, of the Class of 1938, who is assistant Superintendent, Open Hearth, Wisconsin Steel Division, International Harvester Co., Chicago, Ill., and the Executive Vice President is Paul T. Dowling, of the Class of 1940, who is Vice President, Nooter Corporation, St. Louis, Mo.

NUMBER 4

Pershing Rifles Enroll 68 Pledges For Fall Semester Drill Training

Captain McGinnis, assisted by Lieutenant Tracy have the ball rolling early for the Pershing Rifles this semester. The group has made a fine start by enrolling 68 new pledges, who are now in rugged training. Near the termination of the period of training, the pledges will undergo a final initiation into the active group of the Pershing Rifles. To reward their long, difficult efforts, and to congratulate them for becoming a part of the organization, the pledges will be honored with a banquet in conjunction with the Military Ball. The Pershing Rifles will be in charge of the decorations for the Military Ball.

During the halftime activities of the M. S. M.-Lincoln U. football game, a detail of the Pershing Rifles with the Color Guard raised the new 49 star flag for the

first time on the M. S. M. campus as the R. O. T. C.-M. S. M. band played *The Star Spangled Banner*. In the future, including the coming Parents' Day game with Cape Girardeau, the Pershing Rifles will conduct halftime activities in conjunction with the R. O. T. C.-M. S. M. band. In some forthcoming game, the P. R.'s will conduct activities in some way involving the use of a small model cannon made by members of the group. This should prove to be interesting.

In the past, the Pershing Rifles have participated in the Veterans' Day Parade in St. Louis. However, no definite plans have been made for such a participation this year as participation occurs on invitation only. The Veterans' Day Committee is in charge of the invitation of groups which will

compose the parade.

In the Pershing Rifles active meeting, October 1, Robert K. Schuler was elected Executive Officer and John B. Kinder was elected Personnel Officer (\$1). Both Robert and John are seniors.

Westinghouse Chooses ME Graduate For Advanced Mechanics Program

Sidney Green, Bachelor of Science, Mechanical Engineering here June, 1959, and Westinghouse Scholarship recipient, is employed by Westinghouse, East Pittsburgh, Pennsylvania.

Mr. C. H. Ebert, Jr., Manager, University Relations at Westinghouse has informed me that Sid-

ney has been selected to be one of the twelve Westinghouse young Mechanical Engineers to be a student on the Westinghouse graduate training course. He will take the Advanced Mechanics Program leading toward the Master of Science Degree in Mechanical Engineering at the University of Pittsburgh.

SAME Field Trip Highlights Meet

The Society of American Military Engineers held their first regular meeting of the new school year on September 17 with approximately 125 members in attendance. Presiding officers were Ron Carver (President) John Kinder (Vice President) Allan Dunnivant (Secretary) and Gil McKean (Treasurer).

Plans for the coming field trip were discussed. This field trip will be taken on October 23 and 24 to St. Louis District of the Corps of Engineers. Transportation will be furnished for the trip by the Military. This trip is one on two scheduled for our Society this school year. Plans are now being made for our second trip to Vicksburg, Miss., which will be taken during the Spring semester.

Our next meeting will be held Thursday, Oct. 22, at 7:00 p. m. New memberships will be accepted at that time. See you at our next meeting.

EDITORIALS

Last week, the Missouri Miner football team took to the field before the cheers of many enthusiastic fans. These numerous fans were led by the new cheerleaders; nine energetic members of the student body. Through the efforts of the Blue Key and the Student Council, these cheerleaders were organized as a pep-squad for the Miners. The value of this all-out effort will be demonstrated in the future Miner games.

However, much criticism was rendered the cheer team by the spectators. The worst possible way to attend a game (besides coming and cheering for the opposition), is to cheer *against* the pep-squad. The members are out on that field to promote some semblance of order in the various cheers. Do you want to complicate the problem? Do you want the cheers to sound like the high school renditions of a football game? Keep your humor to yourself or reserve it for a time when the cheerleaders are silent. MSM needs the spirit imparted by these M-clad figures. Now, you do your part . . .

Hospital With Problems, Says Informed Student

To the Editor:

In the past issue of the *Miner* was an article about the medical services offered the students of M. S. M. May I attempt to answer the Very Irritated Miner, and give my opinion, please?

First of all, what I found out about the "extra money" we have been paying in fees. The annual allocation to the Infirmary for the year 1959-1960 was \$40,165. With our present enrollment of about 3040 this amounts to approximately \$13.20 per student per year, or about \$5.30 per student per semester (2½ semesters per year). Let me emphasize this fact, *not \$85.00, but \$5.30.*

Of the annual budget, about \$25,000 is for salaries, building maintenance, etc. Consider salaries; on a monthly basis, using the complete sum for salaries would be about \$2080 per month. (I believe most salaries are on a 12-month basis.) The present staff is 3 doctors, 4 nurses (registered), 1 technician, 1 cook, and 1 custodian. That's 7 professionals and 3 others with an average salary of \$208 per month. Remember this figure must be high because not all the \$25,000 is for salaries. These marvelous salaries that are rumored about simply do not exist. I know.

The remaining amount is about \$15,000 per year, or \$1667 per month for 9 months, which is budgeted by the Infirmary administration under the heading of "incidentals." That \$1667 is about 55c per student per month. The incidentals are: X-rays, medications, utilities, laundry, heating, groceries, etc. Please consider the two main items of this ac-

count, X-rays and medications. During the month of May last semester, for example, there were 53 X-rays made, and X-rays cost from \$7.50 to \$20.00. More X-rays are necessary now, incidentally, because of all the injuries incurred in intramural football. And as for medications, did you know that those "pink pills" (neosynepherine) that are talked about cost \$11.84 wholesale for 120. Given out 6 at a time, these cost nearly 60c. One prescription of these more than uses up one student's "incidentals budget" for a month. Incidentally, why not ask a druggist how much he charges for them. The clinic is presently seeing about 120 students a day—you figure out how much can be spent on each one.

Secondly, I would like to address myself to "Very Irritated." About the "adequate medical care we deserve." I understand deserve to mean what we pay for. Just remember, the school has reserved the right to limit medical care. Not much care can be assured for a fee of \$5.30.

About not being treated and/or admitted to Phelps County Hospital. (What are hospitals for?) Anyone, anytime, may go to the hospital, at their own expense, of course. In the case of an emergency the nurses will treat one immediately, call a doctor if necessary (usually one is in the hospital and if calling is necessary most doctors live closer to P. C. H. than to M. S. M.), and if admission is necessary, you will be. Emergency room fees run from \$3 on up, doctors' fees vary with treatment, hospital beds are \$8 to \$16.50 per day, and medica-

tions and equipment use would be extra. (That \$5.30 would play out fast—no?) It seems wiser to go to M. S. M. clinic where you receive the same care, and there is *no charge.*

About the increase in fees, and has it gone to the infirmary? I forgot to ask Dean Wilson when I spoke to him about this. Why don't you ask him?

About the fellow with the fractured maxilla. (I hope he is feeling as well as possible and recovering.) A registered nurse and a doctor decided the treatment necessary. It does not seem ethical for me to inquire or pass judgment on their diagnosis or treatment, having no medical training myself. Incidentally, I was told being in pain is seldom a criteria for admission, and in this particular case the pain was treated before the patient was discharged, as the patient did not want to stay. Later, when he wanted to be admitted to the school hospital, he was.

Lastly, about "stocking up on red and pink pills." Perhaps "Very Irritated" is right. If anyone but very capable and efficient school administrators, business of-

fice, and clinic staff have anything to do with the medical services, maybe the budget will run out and we will have emergency care only.

The impression left with me is that most of the clinic staff is "knocking themselves out" to give good service. Perhaps, if an effort were made to cooperate instead of to aggravate (one nurse, alone, saw 108 students last Friday—she hardly had time to read

the article in the *Miner* between patients), an even better medical service would evolve. In the meantime, let's quit looking a gift horse in the mouth.

A Somewhat Informed Miner.

Space-age thinking and communications

Reach for the stars.

That's what a company like Gen Tel — America's second largest telephone system — must do to find new and better ways to build tomorrow's communications services.

And that's what our large and highly trained staff of scientists and engineers continuously aim at. These are the men and women who are engaged in the development of new and promising techniques in fields such as memory systems, advanced electronics, high-speed switching, and data transmission.

Gen Tel has been research-minded ever since its small beginning. That's one of the

reasons we have grown into a system that has 1,745 exchanges in 30 states, providing modern service for over 3,700,000 telephones. Our lines carry 119 million conversations each week, and we're adding 3,750 new phones every week.

To keep up with our country's growth, we continue to think ahead, plan ahead, invest ahead. In fact, this year, alone, we're investing almost \$200 million in new facilities required to meet the ever-increasing demand for more and better telephone service.

These are typical examples of how we strive—not only to meet today's communications needs but to answer tomorrow's.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students

of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M.S.M.

To the Editor

Dear Sir:
It came to my attention only last week at the Washington U. football game, that MISSOURI SCHOOL OF MINES AND METALLURGY is becoming more and more known as Rolla. The announcer at the game mentioned the name MINERS once in his orational jibber, only once, and this I believe was an oversight on his part. Granted that everyone loves the town of Rolla, and all are proud to reside here nine months of the year, BUT, our school is still MSM. Isn't there something you can do about it? Why must the Missouri Miner team be called by the name of its town, rather than by the name of the school it represents? I've talked it over with a few of my friends and we feel strongly about something being done about it.

Dave Anderson
Missouri School of Mines
Metallurgist

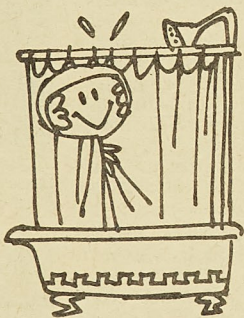

P. R. Pledges

This year has started very well with sixty-eight pledges. They are, Eugene Barnett, Larry Blackman, Lynn Branson, Howard Brooks, Andrew Bucchire, Jerrold Chervitz, Merrill Cobb, Virgil Coburn, William Condra, William Daly, William Davidson, Dale Decker, Jerome Denzil, William Dey, Dan Dickey, Norman Garber, Leslie Garrett, Michael Goodman, Dale Hagan, Sidney Hamm, Conley Harmon, Reynolds Hayden, James Heinzen, Robert Holmes, Roger Huston, Mark Jacobs, William Jacobs, Leonard Jalbert, Carl Jeans, Arthur Juenger, Claude Keathley, Ronald Klutts, James McDuff, Howard McLain, Terrence McMahon, Lesslie Maessen, Robert Marnell, Ronald Marshall, Stephen Marshall, Ronald Martin, David Maupin, Robert Morford, Harry Morgan, Mark Morris, Richard Musgrove, Leo Palmer, James Pappas, John Presser, Robert Plourde, Delbert Potts, Richard Rabenau, Cliff Rice, Thomas Richardson, Ronald Robertson, Robert Rydeen, Bruce Scott, Jerry Smith, Floyd Stamps, Edward Stanger, Gary Strebel, Phillip Theil, John Thogmartin, George Transue, Kenneth Varady, Edwin Wahle, John Wendleton, Kenneth Whaley, William Zimmerman.

Little Willie is so distressed, he got a pair of pink pajamas and a military hair brush for Christmas and now he doesn't know whether to go to Mizzou or Rolla.

QUALITY  CHECKD

TANG! New breakfast drink
you can keep in your room!

EARLY ELLEN: I get up so early to study that a glass of TANG tides me over until breakfast. It's delicious—and wakes you up better than a cold shower.

ALWAYS HUNGRY HAL: I'm a before-and-after-meal TANG man. It really fills in where fraternity food leaves off. Buy two jars. Your friends need vitamin C, too!

LAST MINUTE LOUIE: A fast TANG and I can make it through class... 'til I have time for breakfast. Fast? All you have to do is add to cold water and stir.

DEAD BEAT DON: I have to put in a lot of hours on my Lit. But since I have TANG on my bookshelf it really keeps me going even through the longest hours.

NEW! INSTANT!
Just mix with cold water!

**MORE VITAMIN C
THAN ORANGE JUICE!**

**GET TANG FOR YOUR
BOOKSHELF SOON**

TANG has real wake-up taste, more vitamin C than fresh or frozen orange or grapefruit juice. Plus vitamin A. TANG keeps without refrigeration so you can keep TANG right in your room.

A product of General Foods Kitchens

WANTED: Characters and captions for campus TANG-ites (like above). Must relate to TANG. Will pay \$25 for every entry used.

Address: TANG College Contest, Dept. GRM, Post Division, Battle Creek, Mich. (Entries must be postmarked before Dec. 15, 1959.)

Campus News

Alpha Phi Omega Elects Officers on Sept. 24th

by Bill Parker

Alpha Phi Omega, a national service organization affiliated with the Boy Scouts of America, conducted an election of officers at its first meeting of the year on September 24.

The four officers elected at the meeting are: Bill King, president; Myron Brunz, first vice-president; Tom Coyle, historian; and Carl Silverburg, sergeant-at-arms. Three officers are holdovers from last semester. They are: Jerry Shelton, second vice-president; Bob Brockhouse, secretary; and Dave Burk, treasurer.

The Beta Omicron chapter of APO has a number of activities which fit in the four-fold program of the national organization. This program consists of service to the students, service to the faculty, service to the members of the fraternity, and service to the nation as participating citizens. Local activities include a book exchange, a blood drive program, distribution of desk blotters, a student lounge, a motor pool, and a keep-off the grass campaign.

Pikers Enjoy Big Time in Suburb

As the tired and party wearied Pikers drifted back to Rolla after a weekend in that Rolla suburb called St. Louis, there were signs of many little horns beginning to bud. As a result of our victorious football team, the "Washout U." chapter furnished us with refreshments for a very gay and spirited evening. If the young ladies who were present are an example of what to expect at future dance weekends, then bird-doggers take note for a lovelier group has never been seen. However, if you don't believe me take a look out of your window for here they come for our Pledge Dance this weekend.

Among these girls are some who are wearing diamonds or fraternity pins. Rich Schneider became engaged to Betty Tetley on August 15 and Ralph Sheppard made Carol Meise his fiancée on August 28. Jerry Alyea pinned Miss Judy Schreiner on May 16. Jim Van Buren, a transfer from Northwestern University, pinned Miss Marilyn Tinnea on May 17. Miss Joan Tuger was pinned on August 7 to Frank Bender and Wayne Boswell lost his pin to Marilyn Pratte.

Meanwhile back on the intramural field, we have been defeated twice. Tech Club out-scored us in a hard fought game by the score of 30 to 14. And if it is possible, in an even harder fought game we lost to Kappa Sig by the score of 7 to 0. However, with their strained muscles about healed, the jocks are ready to turn the tables on all future opponents. Well, enough of this, it's time to

Mosamo Club Starts Year's Activities

Hello and happy TGIF, from the Mosamo Club of the Missouri School of Mines. Members of the Mosamo Club study the world interlanguage, Esperanto, and work toward more recognition and use of it. These Esperantists believe that through the use of a second international language, people can overcome all language

Kappa Sig Survives First Dance Weekend

Things were really hopping over at the Kappa Sig house this weekend as the first party weekend of the year arrived. The annual Pledge Dance seemed to be a great success as Sunday morning found many a tired fellow and his date. The new pledge class, consisting of 32 pledges, is to be congratulated on their fine decorations and for a real moving week end.

The weekend was highlighted by a formal dance Saturday night. The Rhythm Rockers from St. Louis provided the music and dancing could be found until the wee hours of the morning.

Things will get back to normal this Monday morning as everybody gets back in to the old grind. One bright light in all the gloom is that another party weekend will be coming on November 7 at Homecoming.

Kappa Sig has also been doing well in the football competition and their record now stands at 3-0 after wins over Sigma Tau Gamma, Pi Kappa Alpha and Phi Kappa Theta. Keep up the good work boys.

Congratulations are in order for Jim Webb, who got married this weekend. Congratulations Jim.

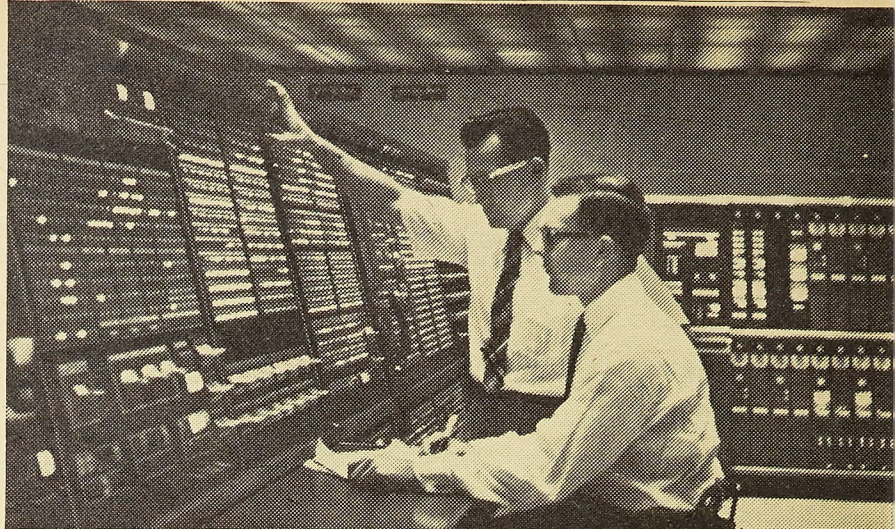

Lambda Chi Alpha Moves Party to Rolla

It was quite a contrast this week-end as compared with last, since the party moved from the Washington U. campus down here to Rolla. From what I have heard, many tales have emerged from the party week-end. Things even went as far as a full fledged investigation - isn't that right Ken! We didn't hear too much out of Brother Keeler this week-end. His little French import seemed to keep him pretty busy - is this it Keels? Saturday night everyone danced to the hot music of China Brown and listened to the crazy sounds of Mrs. Brown. There were quite a few new faces around the house this week end plus an old standby - G. B. from Mizzou. As you all know she took care of Chipper this summer. Also, we were glad that Brothers Lee and Dennis Hedington could make it down for the festivities and so was Sam.

Our football team is setting quite a pace this year with three wins and no losses. Our defensive unit has been doing a great job with but one touchdown scored against them in three contests. The tennis squad has yet to lose a match while chalking up three wins. However, we could use a little support in the stands.

barriers. In fact, in a few weeks some of the advanced members will actually begin writing natives of foreign countries in Esperanto. Last Tuesday the beginners started their first lesson in the Esperanto handbook.

Sponsor of the club is John M. Brewer, Assistant Professor of English. The Mosamo Club's officers, elected at the semester's opening meeting on September 22, are: President, Andy Elias; Vice-President, Bob Howell; Secretary, Bill Jud; Treasurer, Ronald James; Estraro, Kraig Valentine; Reporter, Paul Reichert.

W. E. DEFENSE PROJECTS ENGINEERS are often faced with challenging assignments such as systems testing for the SAGE continental air defense network

ENGINEERS explore exciting frontiers at Western Electric

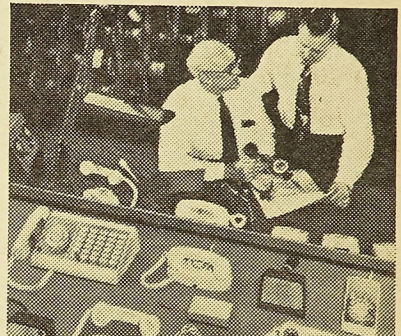

If guided missiles, electronic switching systems and telephones of the future sound like exciting fields to you, a career at Western Electric may be just what you're after.

Western Electric handles both telephone work and defense assignments . . . and engineers are right in the thick of it. Defense projects include the Nike and Terrier guided missile systems . . . advanced air, sea and land radar . . . the SAGE continental air defense system . . . DEW Line and White Alice in the Arctic. These and other defense jobs offer wide-ranging opportunities for all kinds of engineers.

In our main job as manufacturing and supply unit of the Bell System, Western Electric engineers discover an even wider range of opportunity. Here they flourish in such new and growing fields as electronic switching, microwave radio relay, miniaturization. They engineer the installation of telephone central offices, plan the distribution of equipment and supplies . . . and enjoy, with their defense teammates, the rewards that spring from an engineering career with Western Electric.

Western Electric technical fields include mechanical, electrical, chemical, civil and industrial engineering, plus the physical sciences. For more detailed information pick up a copy of "Consider a Career at Western

Electric" from your Placement Officer. Or write College Relations, Room 200E, Western Electric Company, 195 Broadway, New York 7, N. Y. And sign up for a Western Electric interview when the Bell System Interviewing Team visits your campus.

TELEPHONES OF THE FUTURE—Making telephone products for the Bell System calls for first-rate technical know-how. Tomorrow's telephone system will demand even more imaginative engineering.

Western Electric

MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Burlington, Greensboro and Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Lincoln and Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Teletype Corporation, Chicago, Ill.; and Little Rock, Ark. Also Western Electric Distribution Centers in 32 cities and Installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

In the winning fashion of Arrow knit shirts—you sport championship style. The flattering collar features the buttondown in front and center back. Built-in comfort, enduring fit in 100% cotton knit. Interesting patterns in long or short sleeves. \$5.00 up.

—ARROW—

Each Saturday see the NCAA football "Game of the Week"—NBC TV—sponsored by ARROW.

Triangle Installs New Kitchen and New Chef

The time has finally arrived and we are now eating in our new kitchen. It sure is good to be back to normal and everything will be in shape for "Parents' Day." We wish to thank Acacia, Phi Kappa Theta, Pi Kappa Alpha, and Sigma Phi Epsilon for their help and for making arrangements for us to eat. The pledges are all busy keeping our new kitchen spotless and we have a new cook who is doing a fine job.

Our football team was victorious again this week, winning over Theta Xi by a score of 75-7. The starting team was the only team scored on. Other units that played were our "Go Team," "The Chinese Bandits" and a couple of other crack squads. We hope to capture another trophy so everyone is out to back the team.

Our new house advisor is Mr. Frankenburg, an associate member. He took over for Mr. Davidson who has helped us a lot and we wish to thank him for his time.

Even though we didn't have a party this weekend some of the "boys" had their own party. J. J. Digger and "T-Head" led the way.

Beta Sig Suffers Loss In Intramural Game

Last weekend was a busy one for the members and pledges. Friday night our pledges were taken out and disposed of the evening with the pleasant task of getting acquainted with Rolla. However, in the process some of the actives became lost due to the skillful leadership of Big Ed. All ended well with everyone reporting back eventually.

To add to the joy of the Miner victory Saturday, the members migrated to the fair grounds for an afternoon of relaxation. It seems that a small contingent led by 'hang loose' Rich became too relaxed. In fact they were so relaxed that they almost didn't make it home. The entertainment for the afternoon was supplied by 'limber hips' Cleo. 'She' has been whipping up some new routines and, with the assistance of high flying Norm, ran through them for the members. Everyone seemed to enjoy the little show and

showed their appreciation wholeheartedly.

The Beta Sig football team suffered their first loss last week. It was not a bad loss for the team was in their playing hard up until the final gun.

With the rest of the month tied up in knots, the Beta Sigs should have a good October.

Phi Kaps to Have Dance Weekend

Starting tonight our first dance weekend for the school year will be in progress during most of the 72 hours available to us before school begins Monday.

Preparation for the weekend was a strain on some of the fellows. Brother Rephlo especially, has been secret about his date, although those long distance phone calls and perfume soaked letters, are pretty hard to hide.

Brother Fitzgibbons liked the technique he used at the Washington University party so well that he has been working all week on the record played so it will take longer to change records.

After winning two, our football team finally lost in a hard fought game to Kappa Sig, by a score of 19-0. Brother Gunther was defeated in tennis singles last week by Don Mose of Kappa Alpha.

We would like to welcome the following men into the Brotherhood of Phi Kappa Theta: Don Holtzman, Jim Wanderlich, Pat Duval, Mike McDonald, Dennis Trautman, and Richard K. Farmer. We know these men will add greatly to the fraternity.

Tech Co-op

With the support of about 20 spectators, our team fell to Engine's sway, 14-12, after taking the first one from Pikers 26-14. Let's not fail to support our team; perhaps with a few more rooters we would have won.

The food's been excellent—enough to keep those professionals (Gay, Early, Wilson, O'Mealy, etc.) Bearly in shape and they say they'll beat them again. Remember, victory came from Bear tracking through previous seasons.

Now my girl bleaches her hair, she'll be a blond dumb, at least that's what she says.

Delta Sig Fears a Monsoon May Prevail

As the monsoon season descends upon the great tropical rain forests of Rolla, lights are seen through the gloom. They emanate from the Delta Sigma Phi house, where in spite of the torrential rains, a party is being held. Though the current weather would seem to dictate a Noah's Ark party, it will be semi-formal, complete with combo. It is our pledge dance, to be held at the Grotto in Newburg.

The new officers of the pledge class are Charles Johnson, President; and Harold Kuhn, Secretary and Treasurer. With such guidance, this pledge class could be the best in at least a semester.

The football team won another this week, beating Sig Pi 15-0. No time to relax though, two more games next week.

Work week end was held last weekend and fine results rewarded the efforts. The chapter room and dining room were painted from stem to stern, and various smaller projects were completed.

Well, no time for any more news, the keys on this typewriter

have bruised my finger tips and they must of course be treated in the usual method. "Dean's Cold Compresses," just 25 cents.

Sigma Pi Indulges In Story Telling

Well, school has started! it's fairly obvious to anyone listening to the comments made as everyone returns from classes. After a cheerful week end (?) for the few that didn't go home, there was the usual storytelling and we were entertained by Rich Swanson and his Elvis Presley records. We were supposed to be entertained anyway.

Our football team keeps getting closer to Victory, but due to bad breaks (bones included) they have yet to find the right combination.

It was decided that Ed Rutledge had the most impressive qualifications among the pledges and he was elected "Keeper of the Rolls" a very honored position indeed. Congratulations, Ed! It seems the R. A. committee has found a Permanent selection for their weekly award. Congratulations Bob, we know you'll keep up the good work.

Independents Form Bowling League

A bowling league, formed from the ranks of the Independents has been formed. This league will bowl each Thursday night at 9:30 p.m. As several more teams are still to be filled, interested independents should sign up. This can be done by calling George at EM 4-2121, or by coming to the ABC Bowling Alley, Thursday at 9:15.

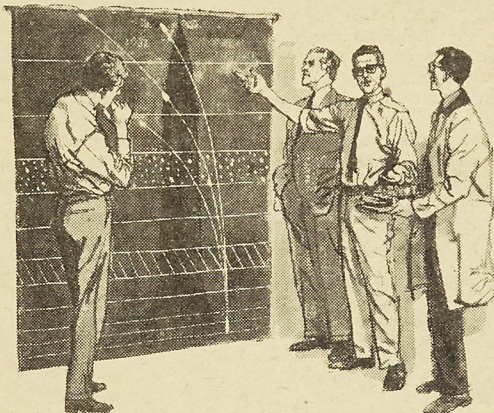

Promotion

(Continued from Page 1)

a B. S. degree in petroleum science.

Hired by Pan American as a roustabout at Wewoka, Okla., he was transferred in various engineering jobs in the firm's Mid-Continent area. In 1951, Mr. Falkington became field engineer at Rangely, Colo., and was appointed district engineer at Cody, Wyo., in 1953. He held this position prior to his latest promotion as division engineer at Casper.

Mr. Falkington is a member of the AIME, petroleum division.

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees:

- Mechanical Engineering
- Electrical Engineering
- Industrial Engineering
- Metallurgical Engineering
- Chemical Engineering
- Aeronautical Engineering
- Ceramic Engineering
- Mathematics
- Industrial Design
- Physics • Chemistry
- Engineering Mechanics

Shooting for the moon...and beyond

The High Capacity Static Inverter,

latest electronic achievement from General Motors, provides exceptionally stable and precise frequency control for power and guidance requirements of missiles and rockets.

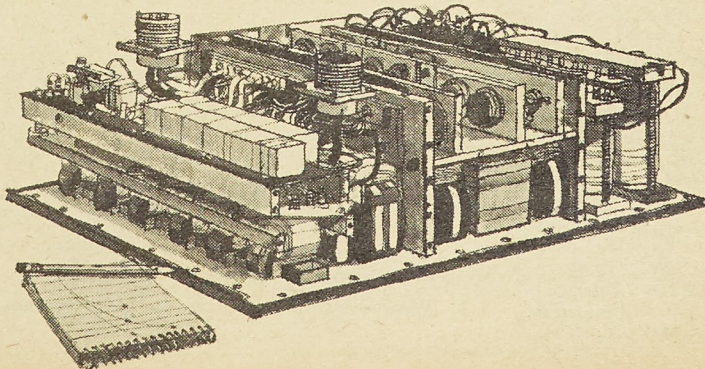

The minds of inquiring scientists and engineers are the spark that brings the wonders of tomorrow to the threshold of today. At General Motors the sky is the limit for men who work in these and other highly specialized fields.

If you're looking for a place to develop your talent . . . and let your imagination soar, consider the opportunities in science and engineering at General Motors, working on products such as electronic components, automobiles, astronautics, diesel and diesel-electric engines, inertial guidance systems, aircraft engines and equipment.

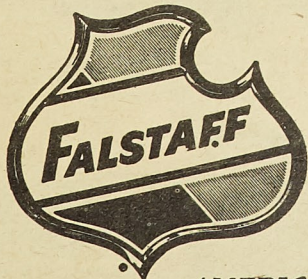

You can grow vertically and laterally in your career at GM . . . vertically through the Division where you work, and laterally through the other Divisions of the Corporation. In addition, GM offers financial assistance to employees who wish to enter or progress in postgraduate studies.

Step into a job with a real future. See your placement officer or write to General Motors, Salaried Personnel Placement, Personnel Staff, Detroit 2, Mich.

Miners Take Second in Row, Beat Kansas Teachers 20 - 7

by Jerry Luecke

Last Saturday afternoon Gale Bullman's gridiron Miners wound up their string of non-conference games by whipping the Pittsburg (Kansas) Gorillas 20-7, on a rain-soaked Jackling Field.

The visiting Gorillas entered the contest with a one victory, one defeat record. In previous games the Gorillas outdistanced Springfield 18-7, and lost to Warrensburg by a narrow 27-26 margin.

Before a large and enthusiastic crowd, the Miners opened with a flourish. After taking the opening kick-off, the Miners marched downfield 70 yards in seven plays for a touchdown on the strength of Tom Cooper's fine running, a Wheeler-to-Cooper aerial, and a helpful fifteen yard penalty. Pat O'Mealy's conversion attempt failed and the scoreboard saw the Miners on top 6-0 with just three minutes of the game having elapsed.

In this very first series of plays, the Miner interior line showed their prowess as they opened up hole after hole for the Miner backs against what was considered to be a very tough line.

After receiving the kick-off, the Gorillas moved for a couple of first downs, but their attack soon ground to a halt when freshman defensive back Arnold Hill intercepted a long Pittsburg pass.

From that point the Miners clicked off nine plays good for 72 yards and the second Miner touchdown of the game. A Wheeler-to-Cooper pass play climaxed the touchdown drive. The Miners' attempt for a two-point conversion failed and the score read 12-0.

The Miners scored again in the second quarter when the diminutive Arnold Hill snatched another Gorilla pass to set up the touchdown drive. On the second play from scrimmage after the interception, Paul Wiegard, a fugitive

O'Mealy on His Way

from the defensive platoon who was replacing the injured Ted Deranja at fullback, raced 45 yards to the one yard line. Wiegard then punted across the goal line for the third and final Miner touchdown of the game. Pat O'Mealy then drove across for a two point conversion making the score 20-0.

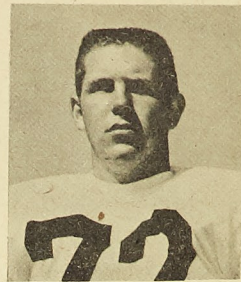

The Gorillas rang up their lone tally late in the third quarter when Paul Schleicher ran a Charley McCaw punt back 47 yards for the TD. The Gorillas added the point after making the score 20-7.

In the second half, due to a fierce combination of penalties, fumbles and a soggy field, the Miner point making machine was held to a standstill; however, the 20 point first half bulge was enough to give the Miners their second victory in three games.

The Miner defensive unit did a fine job holding the Gorilla offense in check, and kept Pittsburg's fleet back, Eddie West, well under control. The visitors were held to 13 first downs, 134 yards rushing, and completed just 3 of 14 pass attempts while having

(Continued from Page 7)

Shower Room Interview Power Lineman Dean Moss King-size Tackle Sparks Miner Line

A very tough man on the Miner line this year is Dean Moss, who wears No. 72 and plays first string right tackle. Dean, a junior, used his height, which he says is "5' 18", to great advantage against Pittsburg last Saturday. He knocked down one pass and leap-

ed high to intercept another. Throughout the game he made a large percentage of the tackle as Pitt tried to gain yardage up the middle.

A Kansas City, Missouri, high school graduate, Dean is a member of Lambda Chi Alpha, playing intramural basketball and volleyball and handling shot put for his fraternity.

Dean, a double E major, in which he carries a grade point of about 2.35, plans to complete his senior year during the summer of 1961. An advanced ROTC student, he will then serve his tour of duty. He is a member of a number of campus organizations: the A. I. E. E., A. P. O., St. Pat's Board, and, of course, the "M" club. Hunting and fishing are among his hobbies.

Warrensburg Game Tonight

by Robert Putz

Our Missouri Miners will play Central Missouri State at Warrensburg tonight at 8:00 o'clock. The two teams should be about evenly matched, each having beat Pittsburg and lost to undefeated Lincoln University. Warrensburg played Lincoln last Saturday in ankle-deep mud and was downed 6-0. Although Lincoln beat us by

a wider margin, Warrensburg edged Pitt by only one point, so it averages out about even.

One of the main threats to the Miners will be the 182-pound halfback, Jerry Boyce, a junior from Kansas City, Mo., who scores about half of CMSC's touchdowns on passes and long runs. He has scored 30 points so far this year.

Freshman Gridiron Tigers

MANTLER, MILTON: Freshman tackle from St. Louis, Mo. Majoring in electrical engineering. Largest freshman lineman (230 lb.) on the team.

OLSON, ROBERT: Freshman quarterback, with some experience at fullback and guard. From Morris, Ill. He is majoring in metallurgy.

POHLIG, KENNETH: Freshman quarterback. Played on C. A. C. and City Championship in high school. From St. Louis, Mo.

REININGER, BOB: Freshman from Mt. Vernon, Ill. Majoring in metallurgy.

RIGGS, CHARLES: Freshman tackle from Malden, Mo. Picked on Little Six Coaches team. He is majoring in civil engineering.

STRINGER, LARRY: Freshman from Taylorville, Ill. He is majoring in civil engineering.

SULLIVAN, MIKE: Freshman will be trying out for end. He is brother of John Sullivan. He attended St. Mary's High School at Independence, Mo.

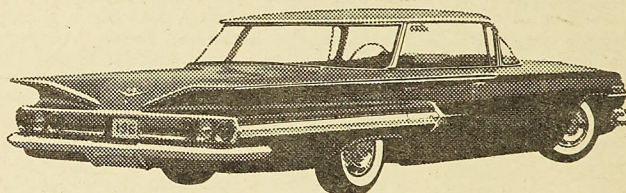

WARE, CHARLEY: Freshman guard from Lebanon, Mo. He has very little experience. Majoring in electrical engineering.

WELSH, DALTON: Freshman end from St. Charles, Mo. He is majoring in electrical engineering.

TOUCH DOWNS
by
TOM DUNN

THIS WEEK'S PREDICTION: Warrensburg vs. MSM—score 27-19 in favor of the Miners (see preview).

Ted Deranja, sophomore full-back for the Miners, was sidelined for the Pitt game due to a knee injury.

Missouri U. downed Iowa State 14-0 in their first big eight (8) conference contest last Saturday.

Arnold Hill, a Miner freshman, intercepted three passes Saturday and showed lots of ability on the defensive as he was continually in the right places at the right times.

The Miners are experiencing unexpected success on the ground, gaining over 300 yards rushing in the Pitt game, due to the excellent job being performed by the offensive line—special credit is due Louis Meisenheimer, Jim Marble, Charles McCaw, Joe Gay and Dean Moss (see interview).

CHEERLEADERS! The Miners got something new—Cheerleaders—nine (9) of them—and **SIX** are **GIRLS**. Led by Al Toigo, a senior from New York City, and sponsored by the Blue Key, the cheerleaders have been organized and led cheers at last Saturday's Pitt game. The appearance

of the cheerleaders and their efforts to lead the Miner rooters added much to the spirit of the crowd and will go a long way in getting more people out to see the Miners play some more exciting football. The cheerleading squad is composed of Sharon Hall, a freshman from Rolla; Sonja Bates, a freshman from Rolla; Dixie Collins, a freshman from Rolla; Judy Smith, a freshman from Rolla; Jean Sluzaluis, a freshman from Rolla; Jo Anna Hebbberger, a freshman from the state of Oregon; Tom Nickleson, a junior from Springfield, Mo.; Don Buller, a junior from St. Louis.

The Student Council is presently considering buying cheerleaders uniforms.

Be sure and watch for the squads new animated cheer at the Parents Day game next week.

It goes:
M . . . M . . . M-I-N
E . . . E . . . E-R-S
M-I-N-E-R-S
MINERS, MINERS,
YOU'RE THE BEST

The cheerleaders would like to thank the Pitt crowd for their fine support at the Pitt game.

Football Play Tops Intramural Sports

The weather for the last two weeks has been very damp, but fortunately only a couple or three intramural football contests have been rained out. Flag football, probably the most popular of all intramural sports, has nearly reached the half-way mark.

With this year's games being played on the new intramural field for the first time, the league system has been returned to us. Electrically lighted, it is possible now to play six games in one afternoon-evening session, whereas before there was barely enough light to last through four full games.

Those teams with the winning records, 2-1, 3-0, etc., are out every afternoon now practicing for all they're worth, hoping that they will become strong enough to knock off the other top contenders for the championship. There are approximately eight teams which are still contending for the top spot. These include Triangle, Sig Ep and TKE in League I. In League II, Kappa Sig, Tech Club, and the Engineers Club are battling it out for first place, and in League III, Lambda Chi and Sig-

ma Nu are at the head. Although these teams, as of now, are setting the pace, don't count out the other 16 teams. It has been known

in the past for the slow-starting teams to come back and take the title; therefore don't count your winnings before they're won.

MINER FOOTBALL

(Continued from Page 6)

four passes intercepted. Three of the four thefts were engineered by the amazing Arnold Hill and the other by Tackle Dean Moss.

Pre-season Revue of Conference Play

by Ray Strebler

Last weekend has given us a fair sign of the way the football teams are shaping up for the conference play to come. All in all, it looks like a tough season for everybody, including the defending champions from Cape Girardeau. Nearly all of the teams have hopes of capturing the championship, and even the cellar Bearcats are looking toward the season's play with optimism. Rugged weather conditions throughout the state may well have produced some very misleading scores, but the signs indicate that almost every team has improved upon last year's gridiron men. Our favorite conference team, the Miners, looks good after reversing last year's defeat by Washington University, holding Lincoln to a 30-14 score (as opposed to the previous 46-0 loss), and improving (20-7) upon last September's 22-31 upset victory over Pittsburg, Kansas.

On the other hand, Warrensburg still has almost all of last season's team with all of the benefits of a new crop of men and a year's worth of experience. Their 6-0 defeat by Lincoln University is an indication of their worth under tremendous opposition. A 55 yard run by halfback Lewis Heffner set up Lincoln's first-quarter touchdown. Despite a chaos of 19 fumbles, that was the lone score. M. S. M. bowed to Lincoln by two touchdowns on a clean field. Pitt, Kansas, lost to Warrensburg 27-26 earlier this season, so compare that score with last Saturday's Miner victory.

Springfield's Bears stood against tough opposition and continued in their winning ways by downing Missouri Valley 13-7. An 85 yard run on the opening kick set up their victory although the Vikings managed to tie the game in the second period. Again, for

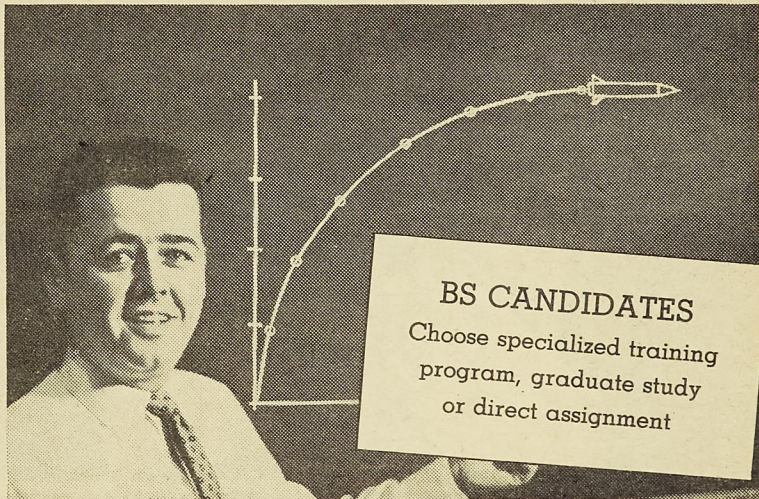

comparison, we have their earlier defeat by the men from Pittsburg by an 18-7 score, and their 3-1 record against outside opposition.

Kirkville's excellent backfield, coordinated with an admirable freshman line defense, played a gruelling bout with Saint Ambrose last Saturday and humbled them 12-6. Their 3-0 record is thus far the best in the conference with only a 36-22 point advantage. Each of its three games was won by only one touchdown—one of these coming by a 50-yard run with only seconds to go. Six to nothing was the final score, about as close as they come. Perhaps good weather or a fumble or two could have left them with a 0-3 record.

Cape, the champ, has won only one of its three games (that one by a wide margin of 33-0), but prior to last Saturday's game (a 14-0 loss to Hillsdale) they still had the best total point score even though they were tied with the Miners for the lowest won and lost record in the conference. Two aerial fumbles cost the Indians last Saturday's game when they fell to William Jewell 13-7. In the pass receiving category, at last report (30 September) they had four of the top eight pass receivers on the conference list. The Miners' Cooper and O'Mealy held down the first and second slots.

Maryville, with a one win-one loss-one tie record, is barely holding its ground. With most of last year's squad ready for conference competition, they have a won and lost record surpassing only Cape Girardeau.

All in all, the conference is in the best shape it has been in for years. The chances are high that none of the teams will close the season undefeated, so watch for some surprises.

... As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part-time at the University of Pennsylvania or Rutgers University.

Or, you may prefer a different path ahead . . . RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments. Experienced engineers and interested management guide your progress. You may receive assignments in design and development

of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in electron tubes, semiconductor materials and devices, and space electronics.

Your experience or advanced education may point your way to direct assignment. Dozens of RCA engineering fields lie open to the man who's thoroughly acquainted with the direction he wants to take and whose qualifications open this path to him.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

October 16

Mr. Robert Haklisch, Manager
College Relations, Dept. CR-5
Radio Corporation of America
Camden 2, N. J.

Right now, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a résumé to the address shown at right:

Still young and beautiful at age 75!

THEY SAID IT COULDN'T BE DONE...

But America's
most famous
lady does it!

No Paris design of '59 is more lovely than this ageless beauty, a gift from France 75 years ago. Miss Liberty has welcomed millions to these shores with the words, "Give me your tired, your poor, your huddled masses yearning to breathe free... I lift my lamp beside the golden door."

A cigarette that's Low in tar
with More taste to it!

THEY SAID IT COULDN'T BE DONE...

But L&M does it!

When you're in New York, be sure to make the trip over to see Miss Liberty. And wherever you are right now, enjoy the cigarette that's kindest to your taste.

That's L&M: Low in tar, with more taste to it. No wonder more Americans switch to L&M every day! Live Modern... switch to L&M!

Live Modern with L&M

KINDEST

TO YOUR TASTE!
