NO ST. PAT PARADE

MISSOURI SCHOOL OF MINES & METALLURGY

THE MISSOURI MINER

VOLUME 46

ROLLA, MO., FRIDAY, FEBRUARY 19, 1960

NUMBER 18

Student Union Bldg. Expands Program

The Student Union, which is now in its second month of operation, is changing its opening hours for the second semester since most of the seven-thirty classes have been discontinued. (Consequently, Joe Miner has been getting a little extra sack time - Thank goodness!)

The new hours for the Union as effective Monday, February 15, are:

Monday 7:45—10:30 p. m.
Tuesday 7:45—10:30 p. m.

new course, "Loop 301" (Pool spelled backwards) taught by any one of the pool sharks and the best part about it is that there are no books, fees, tests, or shotguns of any kind whatsoever. So when you're at the Student Union and have a little time to spare yourself a cue stick, rack 'em and play.

Some of the coming activities coming up at the Student Union are: February 21—Movie in the auditorium, CITIZEN KANE,

ST. PAT

Design Contest To Stimulate Radical Ideas

If you are an undergraduate, a practicing engineer, or member of an engineering faculty, no doubt the urge to test your professional knowledge and skills with that of others working in your field has often entered your mind. Chances are that more than once you possessed a strong inherent desire to publish your convictions on some contemporary matter. Everyone is subject to that unavoidable phenomena called individuality. Aside from the many conventions of one's field of endeavor, there is always one's opinions or deviations from the normal, which combine to produce new and sometimes radical, ideas.

The third annual Alfred E. Raymond Award for \$1,000.00 is an invitation for graduate and undergraduate engineers to use their individuality characteristics on the subject of "Foundation of Structures."

Goal: One Thousand Dollars Annual Award. Practicing engineers, engineering faculty and undergraduates are invited to submit papers which will add to engineering knowledge as related to the "Foundation of Structures." The entry of manuscripts does not prevent publication.

Judges: Frank A. Marston, partner, Metcalf & Eddy, Consulting engineers, Boston, Mass.; William W. Moore, partner, Dames & Moore, consulting engineering, San Francisco, Calif.; Ralph B. Peck, professor of

(Continued on Page 3)

Annual St. Patrick's Highlight Event Off

The fifty year old tradition of the annual St. Pat's Parade through the streets of Rolla will be broken this year! The parade will not be held as scheduled upon the decision of the officials of MSM. The opinion is held, due to the city ordinance of Rolla, prohibiting the indulgence in alcoholic beverages on the streets of Rolla, and also the recently enacted state law, concerning the possession of liquor by a minor, that certain embarrassing situations and unfavorable publicity might arise in the course of the event. If the parade was held, the school officials were warned that local and state law enforcement officers and liquor officials would be on the alert for any violations

of these laws.

The student body, although heartily opposed to the discontinuation of the parade, is fully behind any decision rendered by Dean Wilson. However, at a combined meeting of the Student Council, St. Pat's Board, Interfraternity Council, and the representatives and president of the clubs, fraternities, and campus organizations on Monday, February 15, it was decided to petition Dean Wilson to replace the parade, all conditions being fulfilled. These conditions include reference to the Rolla City Ordinance and the Missouri law concerning the use of alcoholic beverages.

New Dorms Observe One Year of Life

With just a little over a year past since the new dormitories were opened on the M. S. M. campus, opinions vary greatly on conditions about living there.

Almost all the students agree that the facilities provided by the dorms are as good, if not better, than the average college student expects when he arrives to begin his college life. There seem to be a few complaints that are held by a large percentage of the students that live in the dorms. They are that the food could be a little better prepared and that the study hours in the evening could be kept a little better. Many students feel that there is too much noise in the dorms and that this hampers their ability to do a good job of studying.

Dickie Smith, Memphis, Tenn., is a freshman who has lived in the dorms for a semester and feels that the dorms provide good facilities for the student, but that he finds it hard to study due to the excess noise which is found in the afternoons and late into the night. He feels that the food in the cafeteria is fair in general, but that it could be greatly improved in some respects.

Harold Crader, Oran, Mo., who has lived in the dorms for three semesters, says that the dorms are improving all the time. He says that the studying atmosphere has bettered greatly in the last year. The main complaints he has is with the food and its preparation. It is good food, he says, but could be prepared with a little more care. Harold says the main complaints of the students living in the dorms is the food and the rule on dressing up no Sundays.

Richard Jauer feels that the dorms have a lot to offer to the new student. They have good-sized rooms and they are not crowded. He feels the main reason that people leave the dorms is because of the food and the ex-

(Continued on Page 3)

"Sabrina Fair" Presented by Coterie Theatre

The Coterie Little Theatre Group, a special interest group of The Coterie of Faculty Wives, will present Samuel Taylor's "Sabrina Fair" at the Rolla Junior High School Auditorium on the evenings of February 26 and 27, at 8:00 o'clock. The cast will be composed of faculty members and their wives, most of whom have had professional or extensive amateur experience in dramatic productions. The play will be directed by Mrs. Nora Fuller, a woman of considerable experience and education in the theatre.

The play itself is a four-act comedy written about a wealthy family living in one of the many exclusive sections of Long Island. The humor of the play is light but subtle, being built around the differences between the generations of the family. The play is set in modern times, having just recently been written. During the last decade it enjoyed a successful stay on Broadway.

The cast of the play is as follows:

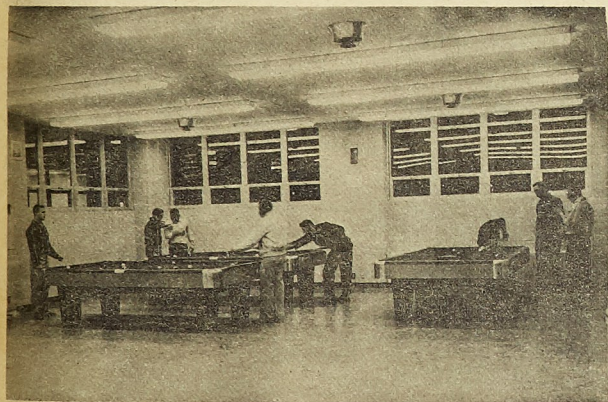

Prologue Shirley McGinnis
Maude Larrabee Kay Morgan
Julia Ward McKinlock

..... Louise Britton
Linus Larrabee, Jr. Jo Barr
Linus Larrabee P. D. Proctor
Margaret Martha Proctor
David Larrabee C. I. McGinnis
Gretchen Marge Laciny
Sabrina Fairchild

..... Ruth Ann Grismore
Fairchild R. L. Leutinger
A Young Man R. G. Murray
A Young Woman

..... Nancy Murray
Another Young Man .. C. J. Tracy
Another Young Woman
..... Janis Heagler

(Continued on Page 5)

A "Brick's View" of the billiard room of the M. S. M. Student Union Building

Wednesday 7:45—10:30 p. m.
Thursday 7:45—10:30 p. m.
Friday 7:45—11:00 p. m.
Saturday 7:45—11:00 p. m.
Sunday 7:45—11:00 p. m.

However, these new hours will not affect any of the facilities offered by the Student Union, some of which are pictured on this page. The first is the Stereo room where anyone, upon presentation of his (or her) student activity card, may check out records and listen to them in a moderately sound-proofed room.

Although the Stereo room is used considerably for card playing reading, and listening to music, it is comparatively small as compared to the size and popularity of the pool room. Billiard games are rapidly becoming the favorite sport of MSM. (besides that of dodging shafts), but if you feel guilty about taking time out from your books, then the Student Union is happy to announce its

starring Orson Wells, Joseph Cotten, and Agnes Moorehead. 6:00-8:00-10:00.

February 22—University Dames 7:30-9:30.

February 23—Student Council, 7:00-8:30. Pi Tau Sigma, 7:00-8:30.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students

of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M.S.M.

Letters . . .

Wood Pile

DEAR EDITOR:

It seems a shame that the State of Missouri should borrow money on an FHA loan so that it can build a Student Union here on the School of Mines campus, and then after building a very imposing structure, should ruin its appearance by placing a wood pile right in the front of it.

It is disgusting to drive up the street and have the entire view of the building ruined by this unsightly stack of wood for the fireplace right out in plain view. Surely some less conspicuous place can be found to store this wood?

Disgusted

Identification

DEAD EDITOR:

Why can't the students here at the School of Mines be issued identification cards with their pictures on them like the students do at Mizzou or many other colleges? It seems that this would aid in a number of ways.

One example is in the case of graduate students and many faculty members. These people have no identification whatsoever that could associate them with the School. This card would not be a pass as is the Activity Card but solely a means of identification.

How about it? Can't something be done about this,

Signed:

One who can't prove he is enrolled at MSM.

Suggestion

DEAR EDITOR:

A suggestion to make viewing the Film Classics in our new Student Union even more enjoyable than it already is, would be to stagger the rows of chairs so that the chairs in one row would be lined up between the chairs in the row in front of it. Thus every other row would be shifted one-half chair to one side.

Miner Etiquette

DEAR EDITOR:

I would like to take the time to commend the Miners who attend the general lectures. This commendation is long over due, but after Tuesday night's general lecture (Eddy Howard), I knew I could no longer withhold this high praise for such a deserving, well bred, and excellently mannered group of men (?).

It is sad, indeed, that all of the students that attend these lectures (and also those that don't attend) cannot have the good social etiquette that a certain large group of Miners have. This high standard of manners is shown at all general lectures—good or bad—as well as on the streets of Rolla.

Undoubtedly, all entertainers, visitors, and people in general are impressed with the School of Mines fine group of socially endowed engineers. I am convinced within a short time that the Humanities Department will have to drop "Amy Vanderbilt's Course on Etiquette" from the schedule and replace it with a new, "Miners Finer Points of Etiquette," which will be taught by any Miner caught leaving a general lecture in the middle of a performance.

I also think these Miners should be thankful for their good breeding and their overwhelming sense of common courtesy that has stayed with them after their exit from the sheltering wing of home life.

After this closing thought, I will let these previously mentioned Miners return to their important project of writing a new book entitled, "Suggestions to Amy."

"To think such a thought That Miners will be sought Not only for technical knowledge But for social abilities displayed while at college."

Sincerely, A Student

All Star Jazz Poll Taken By Playboy

Ten of the nation's top jazz artists have the unique distinction of having been chosen as the most popular by both the general public and their fellow artists. These are the results of the fourth annual Playboy Jazz Poll, constituting the nation's biggest and smallest music polls, as published in the magazine's February issue.

In addition to Playboy's nearly one million readers who were asked to vote for their favorite jazz artists, a select 26, winners of last year's All-Star Jazz Poll, were invited to pick their own favorites in each category. First in both the All-Star and All-Stars' All-Stars polls were: J. J. Johnson, Trombone; Paul Desmond, alto sax; Stan Getz, tenor sax; Gerry Mulligan, baritone sax; Errol Garner, piano; Barney Kessel, guitar; Ray Brown, bass; Shelly Manne, Drums; Frank Sinatra and Ella Fitzgerald, male and female vocalist, respectively.

Playboy's 1960 jazz poll was initiated last October when the magazine printed the names of the leading jazz artists in ballot form and invited readers to choose their favorites in each category.

All the winners-members of the 1960 Playboy All-Star Jazz Band and the 1960 All-Stars' All-Stars will receive the coveted sterling silver Playboy Jazz Medal. They

Troops Elect Band Council

At the regular rehearsal last Thursday evening, Edward L. Ellicott, Assistant Student Director, entertained nominations for a band council. Two members of each class were elected to serve for one year except seniors, who will hold office for only one semester. The band elected Cadet Captain Millard K. Underwood, Student Director, and Cadet Lieutenant Edward L. Ellicott, Assistant Student Director as the senior representatives; Bandsman First Class Donald W. Burlage and Master Bandsman Curtis W. Stevenson were the junior electees; Bandsman Third Class Joseph H. Grotzpetter and Wayne W. Richardson will represent the Sophomores; and Bandsmen Robert E. Fiedler and David A. Floyd were chosen from the Freshman class. Duties of the band council have not as yet been completely outlined; however, in general, they will administer the band and assist the director on all band matters. The newly initiated band council will work closely with the Kappa Kappa Psi National Band Honorary Fraternity for the betterment of the MSM-ROTC Band.

Rehearsing

The band is presently rehearsing for their next concert, scheduled for 29 March in the Rolla High School Auditorium. This concert will be performed jointly with Lincoln University. The 100-piece band will present the same concert at Lincoln University in the Kiel Auditorium in Jefferson City, on 31 March.

All musicians on the campus are invited to participate in this

Dizzys Corner

Re: St. Patty's Parade

Before this article is printed it will have been read by the good and righteous gentleman who is referred to as the "Preacher." In fact, it wouldn't have been printed otherwise.

Being an evil sort of person, that is one whose lips have been desecrated by the Demon Rum, and no doubt being a contributing cause of the recent ban of the St. Pat's Day Parade, (once I passed within 20 feet of a certain church on my way to "Bear's") (I blush) I, too, would like to shout in the wind.

Rumors

Rumors and rumors of rumors have been flying so fast lately that one is often confused as to the facts. An expert "Witness for the Persecution" was found in a local inhabitant who has some very outspoken views on drinking. He also resembles the Pogo character called the Preacher. He seems to speak in Old English text with a southern accent. My brief skirmish certainly did open my eyes.

Did you know that: (?)

1. A Saint is a man of God, therefore the Saint Pat's Parade is ridiculous. (Imagine riding in a manure spreader and guzzling alcohol.)

2. It only takes one drink for you to become a drunkard.

3. A man can't be a Preacher of God without hating likker.

Very enlightening, what?

Toleration

The good, reverent righteous Preacher has this to say about Alcohol as a beverage in any or every form: "Drinking is Evil: even drinkin' in Toleration."

Toleration?

Amen.

Wanting to know more on the subject, I asked where one can obtain biblical information about the Demon. "Preacher" can quote 55 passages for "Reference on the Evils of Drink." He will say them for you—all you need do is ask. In fact, they're printed on a four page slick paper bulletin; dedicated to the purpose of "helping you to have a life that is free from Alcohol."

Quotations

For instance, Reference Number 15, comes from Proverbs 23: 29-30—"Strong drink produces sorrow, woe, contentions, babbling, wounds without cause and redness of eyes."

It's not a direct quote from the Bible, but the idea is there (vaguely.) Look it up. "Who hath woe? Who hath sorrow? Who hath redness of eyes?"

"They that tarry long at the wine; they that go to seek mixed wine."

Don't drink boiler-makers? Martinis?

Preacher and I parted with his feelings on the parade, which are concerned basically with the Mor-

concert as well as other musical performances scheduled for the Spring Semester. The MSM-ROTC Band still has about 12 uniforms to issue to those interested in becoming members. Those desiring to join the MSM-ROTC Band, see Captain Ralph M. Leighty, Director, in the Military Building.

al Issue and the Flagrant misuse of the Law—you haven't lived until you're heard the word "Flagrant" in a righteously indignant southern drawl.

"If the parade hadn't the drinking I'd be heartily in favor of it, but if it continued as it has been I'm glad it's gone."

There is an amazing similarity between the sounds of the words "riotous" and "righteous."

Big Gun

The next interview for Dizzy's Hall of Fame was with the "General." General has a civic duty to perform; to aid in execution of his duty he has gold braid encrusted clothes and a following of what appears to be the social security club of Greater Rolla. Woe be unto he that lays a hand on him. They have a new gun—a big gun; a gun that shoots. Tear gas. Vomiting gas. The shells go through brick walls. Gas grenades. His faithful Indian companion, "Hon-est Ben," said they even had weapons that they didn't know how to use.

Welcome to the Missouri School of Mines, extension of the Missouri penitentiary at Jefferson City.

Minority Rules

Backed into a corner by the Ministerial Alliance (of the fifteen members only four were present at the meeting where our parade was lost.) The general has no choice but to strictly enforce the city ordinance of January 14, 1957, concerning the drinking of beverages alcoholic on the streets of Greater Rolla. He's unfortunate the poor chap right in the middle.

He has not and does not intend to deputize anyone for the parade. The Gestapo rumor is quite false.

One Dizzy Cheer for the General.

The sad case is that the students want the parade, the administration wants the parade, and the vast majority of the townspeople want the parade, but all of us are too concerned with our own interests to compromise. We, the Miner, will feel the greatest blow; after all it is our holiday.

Perhaps our only course is to show these others that the Miner will keep their St. Pat's, parade or not, by some other means.

Step Forward

Congratulations to the Independent organizations who for the first time in many years are going to carry shillelaghs that look like shillelaghs, not like logs. Their feelings for this school makes me proud to be a Miner. What do you say to that, Doms? Fraternities? Looks like the "untouchables" have come up with an answer that will work.

Think I'll meditate in a moist dark corner of Bear's.

Amen you all—

Dizzy

A plumber advertised for a helper. A young man showed up. "Got any references?" he was asked. "Yep," he said, "but I'll have to go get 'em."

"Never mind," said the plumber, "I see you got experience."

Playboy Poll

(Continued from Page 2)

will also be featured in Volume IV of the Playboy Jazz All-Stars LP album, on Playboy's own label through the cooperation of the entire recording industry and will star in a special summer long Play boy Jazz Festival.

Favorites in the 1960 All-Star Jazz Band as selected by Play-boy's readers were:

Leader: Stan Kenton.

Trumpets: Miles Davis, Louis Armstrong, Dizzy Gillespie, Chet Baker.

Trombones: J. J. Johnson, Kai Winding, Bob Brookmeyer, Jack Teagarden.

Alto Sax: Paul Desmond, Earl Bostic.

Tenor Sax: Stan Getz, Coleman Hawkins.

Baritone Sax: Gerry Mulligan.

Clarinet: Benny Goodman.

Piano: Erroll Garner.

Guitar: Barney Kessel.

Bass: Ray Brown.

Drums: Shelly Manne.

Misc. Instrument: Lionel Hampton, Vibes.

Male Vocalist: Frank Sinatra.

Female Vocalist: Ella Fitzgerald

Instrument Combo: Dave Bru-

beck Quartet.

Vocal Group: Four Freshmen.

The All-Stars' All-Stars were

named by the ballots cast by

Louis Armstrong, Chet Baker,

Count Basie, Earl Bostic, Bob

Brookmeyer, Ray Brown, Dave

Brubeck, Ella Fitzgerald, the four

Freshman, Stan Getz, Dizzy Gil-

lespie, Jimmy Giuffre, Benny

Goodman, Lionel Hampton, Cole-

man Hawkins, the Hi-Lo's, Milt

Jackson, J. J. Johnson, Stan Ken-

ton, Barney Kessel, Shelly Manne

Gerry Mulligan, Oscar Peterson,

Sonny Rollins, Jack Teagarden

and Kai Winding.

Winners of this most exclusive

of the nation's music polls were:

Leader: Duke Ellington.

Trumpet: Dizzy Gillespie.

Trombone: J. J. Johnson.

Alto Sax: Paul Desmond.

Tenor Sax: Stan Getz.

Baritone Sax: Gerry Mulligan.

Clarinet: Buddy DeFranco.

Piano: Erroll Garner.

Guitar: Barney Kessel.

Bass: Ray Brown.

Drums: Shelly Manne.

Misc. Instrument: Milt Jack-

son, Vibes.

Male Vocalist: Frank Sinatra.

Female Vocalist: Ella Fitzger-

ald.

Instrumental Combo: Modern

Jazz Quartet.

Vocal Group: Lambert, Hen-

dricks and Ross.

Dorm

(Continued from Page 1)

pense. He personally feels that the food is as good as any place in town, but that as everything it has its ups and downs. The expense, he feels, is offset by what the student gets in return for his money. Included in the cost of the dorms is someone to clean your room, wash eating dishes, and general care of the place. Richard feels that this more than offsets the added expense of living in the dorms.

Richard also feels the dorms are an important part of the campus and that in a little while they will have a variety of facilities to offer the student. They are installing their own radio station, social activities, and recreation program. He feels that in a few years people will come to this campus with a better idea of what the dorms have to offer and will make up their minds before they come whether they want to live in the dorms and work to make them a better place to live, or if they want to live some other place like

Request for Summer School Courses

A survey is being made to determine the number of students who want to go to summer school this year and the courses in which they are interested. If you want to go to summer school, fill in the form below and bring it to the Information Desk in the Registrar's Office as soon as possible.

Department	Course Number	Name of Course	Sem. Hrs.

Name _____ Date _____

a fraternity or private home.

Overall it seems as if the dorms have been a great success in their first year of being on the M. S. M. campus. The only important complaints seem to be with the studying atmosphere, food, and expense. With the work now being done by a group hoping to improve some of these things the dorms should provide a place for the student to enjoy his living conditions on campus and help to

make him a well-rounded individual.

TOMORROW BEGINS TODAY AT CONVAIR / SAN DIEGO FOR YOUNG ENGINEERS AND SCIENTISTS

Interviews at
Missouri School of Mines
Thursday and Friday,
Feb. 25 and 26

CONVAIR/SAN DIEGO CONVAIR IS A DIVISION OF GENERAL DYNAMICS
3302 PACIFIC HIGHWAY, SAN DIEGO, CALIFORNIA

As an engineering, mathematics or physics major, you will soon be called upon to make one of the most important decisions of your life: *Choice of Association.*

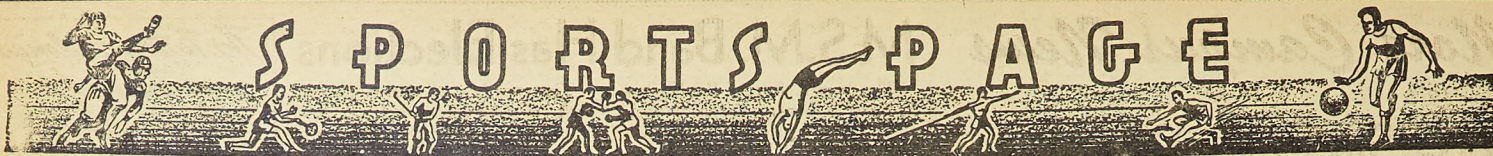

In making that decision, we hope you will choose the aerospace industry and Convair/San Diego. But whatever your choice, the selection of association must be made with meticulous care and keen awareness of what that decision will mean, not only immediately, but in years to come.

To arrive at such an important decision, you will need all the information available to you. That is why Convair/San Diego is suggesting that you carefully read a new booklet prepared for the express purpose of helping you make this vital decision.

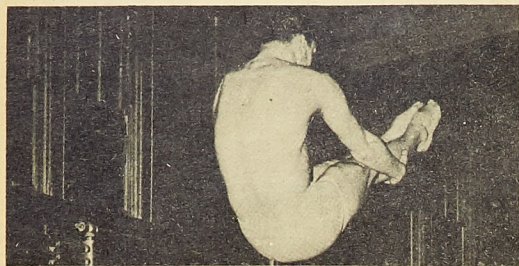

Within the twenty-four pages of this brochure, you will find detailed information about Convair, the General Dynamics Corporation, and the work of each group within the Convair/San Diego engineering Department.

Whether or not you decide to discuss your career with us in more detail, we sincerely believe you will be better equipped to make your decision after reading this brochure.

If your placement office does not have a copy, we will be pleased to mail you one. Simply write to Mr. M. C. Curtis, Industrial Relations Administrator, Engineering,

Swimmers Splash by KSTC, Westminster

Art Farnham, fancy diving specialist

by J. W. Woodward

Last Saturday afternoon before a capacity crowd at Jackling Gym, the Missouri Mines swimming team met and defeated a strong K. S. T. C. team from Pittsburg, Kansas, in the most exciting meet of the season. The Gorillas had posted a very impressive record this year in meets against such swimming powers as K. U., K. State, Emporia, Nebraska State, Westminster and St. Louis U. With this victory, Coach Burr Van Nostrand's swimming team showed great strength in their last home meet of the season. In the next two weeks the team will be on the road, swimming against Indiana State, University of Kentucky at Louisville, and Maryville Teachers College.

Greeley of MSM and Scherer of K. S. T. C. were the high point men of the meet, having perfect scores of 11 3/4 points each. The final score of the meet was 59-36.

The K. S. T. C. team took an early lead, by winning the first event of the day. It was a very close race between the two 400-yard Medley Relay teams. The Miners' relay team of Jim Phillips, Bill Daley, Larry Peterson, and Tom Miller came within three seconds of the strong Pittsburg relay team. Then in the 220-yard Freestyle, ace distance man Gary Broyles of MSM put the Miners in the win column by beating Jim Woestman, sprinter and distance man for K. S. T. C., in a close, hard-fought race. Russ Cox of MSM took a third place. In the 60-yard Freestyle, Greeley and Woodward of MSM took first and second to give the Miners the lead for the first time during the meet. The Miners never gave up the lead again.

K. S. T. C. swimmer Scherer took first in the 160-yard Individual Medley. Roy Smith and Phillips placed second and third helping the Miner cause. Art Farnham and Myron Bruns took first and second for the Miners in the Fancy Diving. Larry Peterson and Jim Staley took second and third behind the K. S. T. C. workhorse, Scherer, in the 200-yard Butterfly.

Rich Greeley of MSM took first place in the 100-yard Freestyle. Woestman of K. S. T. C. took second and John Woodward of MSM took third. The Miners then led by the score of 36-25.

The meet began to tighten as the Pittsburg Gorillas won first in the next two events. However, the depth of the Miner squad kept the team ahead by holding down second and third places in the two events. The 200-yard Backstroke

went to K. S. T. C. with Miners swimmers Phillips and Jerry Catron taking the all-important second and third so badly needed. The second and third places were taken in the 440-yard Freestyle by Cox and Bruce Scott swimming hard for the Miner cause.

It was in the 220-yard Breaststroke that the Mines team clinched the meet. Daley of MSM swam himself to a first place in this event and "Big Jim" Staley took second with a final burst of energy to clinch the meet. The last event of the day was a point of pride for both teams and was a hard-fought battle. The Mines team of Greeley, Broyles, Miller and Woodward won the 400-yard Freestyle in near-record time. All members of the Miner squad scored points making the win a great team victory. The next Miner meets will be road trips. The team will swim against Indiana State, the University of Kentucky at Louisville, this Friday and Saturday.

Westminster Meet

In a duel meet against Westminster, the MSM swimming team won a decisive victory. It was the second time this year that these two teams had met and several individual rivalries as well as a team rivalry had developed. Although the final score was 65 to 27, the victory was still hard fought. Rich Greeley of the Mines team was high point man of the meet with 11 3/4 points. Two pool records were set by the Miner swimmers and one record was set by a Westminster man.

Rich Greeley of MSM sprinted himself to a pool record in the 60-Yard Freestyle surprising everyone including himself. The Miner 400-Yard Freestyle relay team of Broyles, Miller, Greeley, and Woodward set a new pool record in this event. Ives of Westminster hit a very excellent time in the 60-Yard Individual Medley breaking his own record previously set this year.

The first event of the day was a very close and hard fought battle between the two 400-Yard Medley relay teams. The Miners team of Phillips, Daley, Peterson and Miller took first. This was Peterson's first meet of the season's first meet of the season and he hit very good times for only working out two weeks. The swimming duo of Broyles and Cox took first and second in the 220-Yard Freestyle for MSM. Greeley and Woodward took first and second in the 60-Yard Freestyle for

(Continued on Page 5)

Miners Clobbered By Powerful SMS Bears, 74-52 Toll

Larry Martin was exemplary of excellent defense as the Miners were able to contain the best two-some combination the MIAA has seen in many a season in Kinser and Kirksey. But containing the pair was not sufficient to score a victory as the Springfield Bears topped the Miner five 74-52 in a hard fought battle last Saturday night at Springfield.

High scorer for the evening was Kinser with 16 points, his teammate Wilks tied for second honors with the Miners Lewis, both dunking twelve points for the evening.

The game started slowly before the teams warmed up, but this didn't last long as Martin, Brenning, Lemon and company warmed up, but this didn't last long as Martin, Brenning, Lemon and company went to work on a good defense which enabled the Miners to stay relatively close to a real strong title contender in the MIAA. The other half of the pair, Kirksey, was able to net only 7 points as opposed to his 16 points all game average.

The Miners again very inconsistent on the offense, failed to produce an outstanding scoring personality as Sturm was held to 6 points, Lampe to 4 and Lemon to 4. Martin was a scoring surprise s he scored in double figures with 11 points on the field-goal and 9 free throws.

This game brings the Miners over all record to 7-13.

TOTALS	FG	FT	F

Art Farnham Chosen Man For February by M- Club

Art Farnham

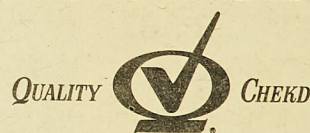

The athlete of the month chosen at this month's "M" Club meeting is Art Farnham.

Art is a junior, majoring in me-

chanical engineering, and hails from Marshall, Mo. He was chosen athlete of the month for his fine record on the swimming team, where his specialty is fancy diving. His first year on the springboard resulted in a total of 13 points and last year he was one of the leading point makers with a total of 35 points. This year Art is well on his way to being one of the top point makers again for he has won first in fancy diving in the first six meets the team has had, giving him a total of 30 points already this season. This record was not compiled against easy competition, but against some of the best swimming teams in this area, among which were Washington U. and St. Louis U. In the St. Louis U. meet, which was the swimming team's only defeat this year, Art scored the only first place. Last year he did the same thing against a tough S. I. U. team.

Although Art was chosen for his ability in swimming, his talents are many and varied. Besides lettering two years on the swimming team he is a two-year letterman in track, where he has been a consistent point maker in the pole vault. He is also a member of the varsity football team where he has seen service as a quarterback. This gives him the distinction of being the only three-sport athlete here at the School of Mines.

you look better in an Arrow shirt

INTRAMURAL Sports

Boxing and Wrestling Workouts on Slate

This year's intramural boxing and wrestling competition is only a few more days off, and the entering contestants are now in the full swing of getting themselves in shape for the event. The matches will start March 9th and the finals are scheduled for March 11th.

All contestants must weigh in March 7th between the hours of eight a.m. and five-thirty p.m. Anyone failing to weigh in will be disqualified. Each contestant is allowed two trainers in their corner, but these trainers are not allowed to coach, signal, or speak to the fighter while he is in the ring. The chair is not to be removed from the corner until the gong sounds to start the round.

In last years results Triangle pinned down the wrestling crown, while the Engine Club KO'ed the boxing title. The individual champions in boxing were Reid Bohning of Kappa Sig 118, Dave

Schimanski and Mike Vancil both from the Engine Club winning the 126 and 135 pound class respectively, Rodney Scott, a dorm entry 145, Tom Nicholson of the Prospectors Club 165, Louis Whitehair Engine Club 175, and Wayne Vuson of Theat Xi, heavyweight. The wrestling champs were Don Mega 118 and Bill Love 126 both Triangle entries, Glen Niblock 135 and Tom Jordan 145 both from the Prospectors Club, Leslie Davis also from Triangle 155, Tom Cooper, Sigma Nu 165, Charles McGrady, Dorm 175 and Charles McCaw of Sigma Nu heavyweight.

This year's matches may prove to be even more interesting than last years as there are 72 contestants signed up for wrestling and 55 for boxing. Although these fights may be shorter than professional matches, they're by no means less interesting; so don't miss them.

Miner Bucketmen Take On Mules, Kirksville to Close MSM Season

Tomorrow night, MSM will take on Central Missouri State in Jackling gym at 8:00. The Miners are tied with the Mules from Warrensburg for fifth place in the conference, with 1-7. The Mules edged the Miners in the Christmas tournament and have also beaten us another time this season, 77-53.

The Miners play their last game of the season against the Kirksville Bulldogs of Northeast Missouri State, next Tuesday the 24th at 8:00 in Jackling gym. Kirksville is in first place in the conference with 6-1. The Bulldogs defeated the Miners soundly earlier this year, 96-68. This last game ought to be a good one, so come on up and see it.

Westminster Swim

(Continued from Page 4)

Smith and Phillips of MSM took second and third behind Ives of Westminster in the 160-yard Individual Medley to give the Miners a 27-7 lead after four events. In the Fancy Diving, Art Farnham continued his winning ways by defeating Weber of Westminster. Burns of MSM took third in this event. Staley and Peterson took second and third in the 200-Yard Butterfly for MSM. Greeley and Smith of MSM took first and second in the 100-Yard Freestyle. In the 200-Yard Backstroke, Jerry Catron of MSM lost to Garber of Westminster in a close race. Russ Cox took first in the 440-Yard Freestyle for MSM and Bill Daley of MSM won the 200-Yard Breaststroke for MSM. The last event of the day was won by the MSM foursome of Broyles, Miller, Greeley, and Woodward.

A local youngster horrified his parents when he commented he was going down to the bookie joint—until they discovered he meant the public library.

Coterie

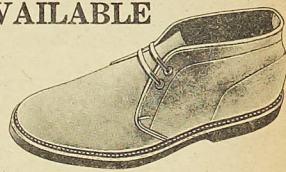

(Continued from Page 1)

Paul d'Argenson
A. W. Schlechten
The cast and crew have worked hard to present to the community a play that is interesting and above-average for amateur groups. Tickets may be purchased for 75 cents (\$1.00 for reserved seats) from Prof. G. E. Lorey in Fulton Hall, or from any of the cast. The Coterie of Faculty Wives,

the organization from which the theatre group stems, is a little known group whose purpose is to provide social activity and entertainment for its members, their families, and the students. On February 10, for instance, the Coterie sponsored a show of wearing apparel from foreign lands. All foreign students were invited, and the show proved to be both interesting and informative to many.

shaping the course of power
...in hydraulics

General Motors engineers measure the torque and efficiency characteristics of torque converter blade designs with high velocity fluid flow, using electronic measurement devices to solve for unknowns in highly complex mathematic design problems.

What's your specialty, your first love in science and engineering? Astronautics? Automobiles? Electronics? Jet Power? Refrigeration? Basic Research? You'll find opportunities in all of these fields and many more at General

Motors. Because GM is a company where you and your talent can really go places. There's no dead-ending here. You can go forward by working on a variety of challenging projects, moving up through your division, and there's also a possibility of moving across to other divisions. Interested in postgraduate studies? GM provides financial aid. There's also a summer program for undergraduates. You gain work experience while vacationing from school. Get the story on a rewarding GM career from your Placement Officer or write to General Motors, Personnel Staff, Detroit 2, Michigan.

GENERAL MOTORS

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees: Mechanical, Electrical, Industrial, Metallurgical, Chemical, Aeronautical and Ceramic Engineering • Mathematics • Industrial Design • Physics • Chemistry • Engineering Mechanics • Business Administration and Related Fields.

PROSPECTIN' the Conference

During the play since last issue of the Miner, the conference standings remained the same as the teams were unable to give any startling upsets. Maryville was successful in defeating Cape 66-60 in an overtime period. Their fourth of the season. One Miner-Maryville game was played in double overtime while the other was decided one point in favor of Maryville.

The league standing as of the date of this article is as follows: Kirksville 5-1 — Springfield, 5-2 — Cape 4-3 — Maryville 4-4 — Rolla 1-5 — Warrensburg 1-5.

With only two games left this season the Miners are hoping to improve their record in an effort to break out of the cellar tie with Warrensburg. The Miners meet Warrensburg on Saturday evening for a rematch at home, in their previous meeting, January 12, Warrensburg was the victor. MSM has gained its sole conference victory at the hands of fourth place Maryville in a double

overtime thriller. The Miners' final game will come next Wednesday against first place Kirksville at Jackling Gym with the Miners rated as the underdogs.

Kirksville is at present assured of virtually no less than a tie for first place unless the Miners should get extra hot and upset them next Wednesday.

Sturm has moved up to fifth place in scoring competition for all games played with a 16.72 average and to ninth place in the conference scoring with an 11.84 average.

The first 19 games of this season has seen the Miners hit 40 per cent from the field as they sank 530 field goals in 1293 tries and 655 per cent from the line with 405 in 617 attempts. In the individual column, Sturm leads the field goal with 472 per cent while Schaefer has 818 per cent from the free throw line. In the field goal division Lemon is second with 428 per cent and Lewis is third with 412 per cent.

More Campus News

Kappa Sig Ends Weekend, Readies for Intramurals

The Kappa Sigma house took on a summer look this last weekend as the second annual beach party was held Saturday night. As the evening progressed, a large crowd dressed in Bermudas, sarongs, and towels could be found helping to make it one of the best parties of the year. Our thanks to the brothers and pledges who contributed their time to decorating and shoveling sand Saturday afternoon.

Congratulations to Brother Paul Albrecht, who became pin-

ned to Miss Sue Tiemann of St. Louis, Friday night.

Wrestling and boxing prospects look good and it is hoped that a first or second place will be taken by the persons entered in the various weights.

It seems as if some people had a hard time keeping tabs on their dates this past weekend. How about it, J. P. K.? It seems as if we have another Gower Champion in the house. If the dancing shoes fit, wear them, Charley Becker.

Three Are Pinned at Candlelight Ceremony

Being partied out until St. Pat's all of us here at Lambda Chi are settled down for another month of intense studying.

Last Saturday night we had our annual Sweetheart Dance, and the crowning of the Lambda Chi Alpha Crescent Girl of 1960. The Crescent Girl is Dixie Wolf, wife of Brother Al Wolf. She was announced during a candlelight pinning ceremony, in which three other couples were pinned. Brother Tom Place pinned Miss Cindy Harvey, Brother Ken Lux pinned Miss Carol Coleman and Brother Byrl Engel pinned Miss Jean Hooton.

The party weekend saw many interesting things happen. Brother Homan says that he is thoroughly interested in cheerleading now,

which is actually quite strange. He never used to even go see any games. Oh well, I guess time marches on.

By the way Nipper, what's this about your plan to start a new entertainment group known as "Nipper and the Shockers"?

Word is circulating that a certain all night cafe is looking for people who would be willing to scrape pickles off the wall during party weekends. How about that Rog?

Pledges take heed. If you have a date with what seems to be a winner of a girl, don't let her out of your sight, because some clever active might spirit her right out from under your nose. If you don't believe me, just ask one of your pledge brothers.

Sig Tau Pledges Eight, Has Great Weekend

After a great party weekend it was hard for anyone to get interested in hitting the books, but finally we managed to quit day-dreaming and start grinding. We found out one thing, chickens are up and hogs are down—isn't that right, Ski? It seems as if Cookie has taken some of Hot Rod Leach's tactics. What was the fine, again, Jim. I guess the girls from M. U. got back, for their chauffeur, Mehdy came back to Rolla safe and sound.

We would like to take the opportunity to welcome our new pledges: John Brown, Dale Eads, Earnest Creek, Jim Jordan, Arthur Loeschner, Harry Morgan, Michael Norman, Harry Penrose, Paul Ray, Leroy Royer and Leslie Sheets.

So far it looks like a rough season for the active chapter. While the pledges are waiting for the ice to melt, we're trying to figure out a way to drain good ole Frisco Pond. Well, men, let's keep a sharp eye on these new pledges.

St. Pat's Awaited by Beta Sigmas

Once again, as we open our books of knowledge we look back with satisfaction on another week end well spent. Aside from the flowery nostalgia, our Valentine's dance had the making of a good week end.

Friday night seemed to be a little slow, so Leo, with best intentions of course, showed up to delight everyone with the sparkling personality of his old flame. God, you've got guts, Leo!

By some stroke of ill fate, our own Manhattan Rog had no bet-

ter luck Saturday than the previous night. Despite his fervent efforts, he received his greatest coup de grace: shot down by Flo two nights in a row. Concerning Popp and his date, we have heard rumors that Ray is nominating his benefactor and favorite pledge to the office of president.

And, as the days advance, our thoughts will turn to the excitement and inherent delirium tremens of the coming St. Pat's week end.

M.S.M. Band Has Elections

The Kappa Kappa Psi National Band Honorary Fraternity held their January meeting at the home of the MSM-ROTC Band director, Captain Ralph M. Leighty. Officers for the new year were elected. Retiring president, Millard K. Underwood, conducted the meeting at which William E. Mathews, trumpeter and past secretary, was elected President of the organization. Joseph H. Grot-peter, trombonist, succeeded Donald W. Burlage, trumpeter, as Vice President; and Robert L. Miers, clarinetist, will be acting secretary.

During the meeting the need for a new director was discussed, since Captain Leighty will be transferred to another assignment this summer. All applicants for the directorship of the band are being interviewed by Colonel Lloyd L. Rall, Professor of Military Science and Tactics and Honorary Member of the fraternity; Captain Ralph M. Leighty, Director; and Millard Underwood, Student Director.

The meeting of the Honorary Fraternity for this month was held in the new Student Union on Tuesday evening, 9 February with William E. Mathews presiding. The fraternity, devoted to the betterment and interest of the band, decided to prepare the historical record of the MSM-ROTC Band as their semester project. Bill Mathes, Ted Ellicott, and Wayne Richardson volunteered to do the research on this project.

The fraternity sponsored an instrument repair film which was shown to all the MSM-ROTC Band members this week. The film showed minor repairs which the musician could make on his own brass or reed instrument. It is felt this film was most beneficial in teaching the bandmen care and maintenance of the musical instrument he plays, whether it is his or is owned by the school or the Army.

The next monthly meeting of the fraternity will be held March 8, 1960. Those desiring to pledge the fraternity will be considered.

A Campus-to-Career Case History

"My talk with the Bell System interviewer is really paying off"

Today, less than five years since he graduated from Michigan State University, Donald J. Zigman is an Accounting Manager for Wisconsin Bell Telephone Company in Oshkosh—with seven supervisory and 93 clerical employees reporting to him. His group handles billing for 350,000 telephone customers and processes \$1,500,000 in revenue each month.

Don has moved ahead fast—and steadily—but no more so than the Bell System interviewer told him he might.

"That guy made a real impression on me," says Don. "He didn't guarantee a bright future for me. He simply described the kind of varied job experience I'd get, outlined the on-the-job training I'd go through, and pointed out the advancement opportunities I'd have along the

way. The only thing he promised me was that I would have 'maximum exposure for self-development.' He was 100 per cent right there. My training has been terrific—and I've had every chance to advance that I could possibly hope for."

After joining the company, Don spent eight months in the Plant Department learning the roots of the business. He got experience as a lineman, installer and repairman. He was transferred to Accounting in December, 1956, working in the Methods and Results section. Thirteen months later, he was Supervisor of that section—and, 14 months after that, he became Accounting Manager.

"How much farther I go now is entirely up to me," says Don. "One thing I know: the opportunities are here."

Don Zigman graduated with a B.A. degree in Economics and English. He's one of many young men who have found interesting careers with the Bell Telephone Companies. Learn what opportunities you might have. Talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.

Mission For Students At St. Patrick's Church

A Mission for Catholic MSM students will be given at St. Patrick's Church beginning Sunday, February 21, at 7:30 p.m. Each day thereafter, a 45 minute talk will be given at 4:30 p.m. and at 7:30 p.m. Students may attend either the afternoon or evening talks. During the week a ten minute talk will be given each week-day morning at the end of the 6:30 a.m. Mass. The Mission will end at 4:00 p.m. on Sunday, February 28.

The Mission talks will be given by a Franciscan Father, Rev.

Alvin Schlubeck, who has had experience in parish work as an Army Chaplain in Europe during the war, and in giving parish missions.

A Mission is similar to a retreat and consists of a series of spiritual talks to inspire new fervor in faith, bring home a realization of God's divine truths in one's personal life, and to deepen one's religious and spiritual life. Non-Catholic students of any faith are welcome to attend.

The Mission is sponsored by the MSM Newman Club.

St. Louis Section SAE's To Hold Paper Contest

The St. Louis section of SAE will have their annual Technical Papers Contest March 11, 1960, at Parks College in East St. Louis. This annual contest is held between Parks College and the Missouri School of Mines.

Three speakers from each school will be selected to compete for top honors. Students that place in MSM's local technical contest will be picked to represent the Missouri School of Mines in the sectional contest. The local contest will be held March 4, 1960, at 4:00 P. M. in Room 107 of the

Mining Building.

The sectional contest has prizes of \$50, \$30 and \$20 for the students who win the first three places and everyone who enters the sectional contest will get their first year of SAE membership dues paid, after graduation. The MSM's local contest will, also, have cash prizes.

Material for the contests may be selected from any technical subject. Those interested may see Prof. Jones, 106D M. E. Building.

AIME Presents Mr. Adams With Paper on Materials

The Metallurgy section of the American Institute of Mining, Metallurgical and Petroleum Engineers will hold a meeting at 7:30 p.m. on Wednesday, February 24 in room 217 Fulton Hall.

At that time Mr. Jack Adams will give a presentation entitled "Semi-conductor Materials." Mr. Adams is an employee of the Rare Metals Division of Eagle-Picher Company. This presentation should be of interest to a large number of non AIME members and all interested students are invited to attend. Following the presentation will be a question and answer period sufficient to allow clarification of any obscure point.

Election of a member to the office of treasurer will occur following the presentation. The person selected will hold office until the

first meeting in February 1961, and should therefore be ranked as not more than a second semester junior. Refreshments will be served after the election.

Old Lady: "Which platform for the Boston train?"

Porter: "Turn left and you'll be right."

Old Lady: "Don't be impertinent."

Porter: "Oh, very well, then, turn right and be left."

Mrs. Rhodes was fussing around her daughter on her wedding morning. "One last word of advice, dear," she told her daughter. "Remember the successful wife never argues with her husband—she just cries."

MSM Glee Club Officers Elected for Semester

The MSM Glee Club held its elections for the spring semester. Tuesday, February 9. The following officers were elected: Jim Summitt—President; Bill Mathews—Vice-President; Milt Leet—Secretary; Ray Leininger—Treasurer and John Stephens—Librarian.

Plans for the activities of the spring semester were discussed. Included were the trips to KOMU-TV, Columbia; William Woods College, Fulton; Fort Leonard-Wood and other possible performances.

The highlight of last semester was the trip to Lindenwood College, where a good time was had by all.

If you are interested in joining the Glee Club, the practices are every Tuesday at 6:30 p.m. in the Rolla Building.

The Glee Club is under the direction of Prof. John M. Brewer.

Sara is a teen-ager.

The other day one of Clara's classmates said that her mother was in the hospital.

"I'm awfully sorry to hear that," Sara said. "I hope she'll be all right."

"We don't know how bad it is," the girl said. "Something's wrong with her semicolon."

We've finally figured out why Robin Hood robbed only the rich—the poor had no money!

Bible, Psychology and Dreams Under Study by The Wesley Foundation

Some of you may have wondered about the study groups you've heard of in the Wesley Foundation. Their name tells exactly what they are, groups of interested students, who are going to devote time to areas of common interest. Here are a few details on the study groups.

One of the most controversial areas for thought and study is psychology and religion. The text used by this group is Freud's *Death and Rebirth of Psychology*. The purpose of the group is to establish a closer feeling of fellowship through devotion and study. One of the prime features of this group will be a study of depth psychology and case histories. The principles of group dynamics will also be applied to this group.

In addition are two Bible study groups. One is on Luke and the other on Genesis. The RVS of the Bible is the main text for these two groups with added insight being gained through use of the Interpreters Bible. The group originally had been set up to study both Luke and Acts since these two books are by the same author. Acts has since been dropped for the time being since there was a large interest in detailed study of Luke. The second group which is studying Genesis has been in num-

erous spirited discussions of the creation story and evolution.

A group of skeptics has banded together to assault Rev. Barefield on the subject of Dream Interpretation. Here you will learn more about dreams and their symbolism. The subconscious expresses itself through dreams when it can't any other way. This

group is not intended to make every member an expert, but rather acquaint them with the basic concepts of dream analysis.

Besides these three groups there will be several other study groups, which will discuss at a later date.

This Sunday the main feature of the program will be a movie entitled "Forget Richard." In this film John Parker finds that it is sometimes difficult to apply Christian principles to situations resulting from complex business operations. The film will be followed by an open panel discussion.

Hurry up and drink your tomato juice before it clots.

MECHANICAL, ELECTRICAL, CHEMICAL ENGINEERS — AND CHEMISTS:
BE A

BIGGER FROG

IN A SMALLER POND AT HAGAN CHEMICALS & CONTROLS, INC.

Small pond? Small enough that you won't be a platoon-system trainee, or a number on a king-size roster. We're looking for just 20 qualified graduates this year.

Yet, at Hagan, you'll be part of a company big enough to number among our thousands of customers: 98 of the 100 largest industrial firms in America; 40 of the 50 largest utilities; and thousands of other industrial, municipal and household customers.

WHAT DOES HAGAN MAKE AND DO?

Controls and Instrumentation. We design, manufacture and sell automatic control and instrumentation systems for use in power plants, steel mills, aeronautical testing facilities, and in many basic process control applications—including electronic instrumentation.

Industrial Water Service. Our Hall Service Engineers help thousands of industrial plants prevent costly water troubles, by on-the-job consultation and service for every type of industrial water problem—from procurement to disposal.

Calgon and Hagan Chemicals. Calgon phosphate compounds, and Calgonite detergents—including popular household versions of each—are among the many chemicals we process and sell for water treatment in utility, industrial, municipal and household water systems.

HOW WE TRAIN ENGINEERS AND CHEMISTS AT HAGAN

Mechanical and electrical engineers, for our Mechanical Division, receive six months training, including: laboratory work; classroom instruction; on-the-job train-

ing with a Field Engineer; and rotation in various departments. Then, assignment as a Field Service Engineer—where possible in a territory of your choice.

Chemical engineers and chemists, for our Hall and Calgon Divisions, receive six months training, including: classroom work; on-the-job training with a Field Engineer, and rotation in various departments. Then assignment to a District Office—where possible in a territory of your choice.

What's ahead for you? Hagan is growing fast. Field Service Engineers and Chemists have excellent opportunities for positions in Sales Engineering, or administrative work.

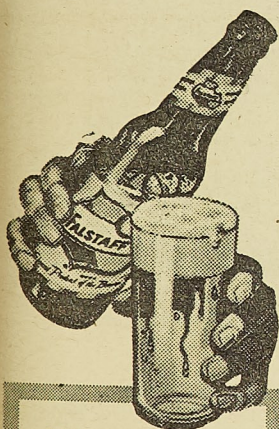

For specific details on type of work, travel, benefits, etc., make an appointment through your College Placement Officer to learn about the opportunities for you at Hagan. Remember, you start as one of a select team of only 20 graduates.

HAGAN CHEMICALS & CONTROLS, INC.

Hagan Building, Pittsburgh 30, Pennsylvania
Divisions: Calgon Company, Hall Laboratories

University Dames Hold First Semester Meeting

The University Dames held their first meeting of the new semester in Parker Hall auditorium Thursday, February 11. The members registered and paid their dues for the second semester.

The business meeting was conducted by Donna Blevins, president of the organization. The committees for this semester and their chairmen were appointed as follows: Program Committee-Pat Troell, Chairman; and Ann Van

Fossen, Co-chairman; Membership Committee, Jan Commens; Courtesy Committee, Shirley Martin; Arts and Crafts, Donna Greenwood and Gail Branhof; Newspaper, Betty Hickox; Beginning Bridge, June Wisdom; Hostess Committee, Janice Flanagan, Chairman and Bernice Moore, Co-chairman. Pat Troell and Ann Van Fossen are chairman and co-chairman of the May Style Show. Judy Cooper is the

chairman of the nominating committee and this committee will present its selected slate of officers at the March meeting. There were two advisors present at the meeting. They were Mrs. Grawe and Mrs. Schrenk. After the business meeting was concluded, the program chairman introduced the speaker for the evening.

Betsy Nau, wife of Professor Nau of the Electrical Engineering Department, was the guest speaker and gave a delightful narrative on her career as a puppeteer. She used marionettes she had made herself and explained their construction and operation. She gave short excerpts from plays she had performed in the past. Mrs. Nau

used her talent as a puppeteer to take the Dames, many of whom are mothers of children, 'back to their childhood days and the land of make believe. In her hands, the marionettes came to life and provided an interesting and thoroughly enjoyable evening. At the conclusion of the program the members adjourned to Room 114 of the new Civil Engineering Building for refreshments of soft drinks and cookies.

The next meeting of the University Dames will be held on March 3, the first Thursday instead of March 10, the second Thursday. The guest speaker for that meeting will be Mr. Tracy of General Electric.

The College Life Insurance Company of America

One of The Nation's Fastest Growing Life Insurance Companies

The College Life Insurance Company of America's spectacular growth, during the last ten years, has made life insurance history from coast to coast.

The company was conceived to serve the specialized insurance needs of college men throughout the nation. This service has earned recognition of The College Life Insurance Company of America by important groups in the industry. For example, Best's Life Insurance Reporting Service, the recognized authority, gives The College Life Insurance Com-

pany of America its "Recommended" rating.

Founded in Indiana, where insurance laws are among the most stringent in the nation, The College Life Insurance Company of America has now extended its services to states from Canada to Mexico, and the Atlantic to the Pacific.

To fulfill your insurance needs investigate The College Life Insurance Company of America—and ask their representative about their BENEFACITOR policy and its 7 unique benefits, designed especially for college men.
