# Don Gunther Chosen As St. Pat for 1960

Don Gunther of Phi Kappa Theta has been chosen St. Patrick of the 59-60 school year.

This is one of the greatest honors a Miner may receive and Don is certainly a very worthy recipient. His various accomplishments and interests bear almost no apparent limit.

Don has distinguished himself socially, scholastically, athletically and militarily.

Don's chief social accomplishments are: Phi Kappa Theta fraternity, where he held the offices of ass. treasurer and intramural Manager; The St. Pats Board, where he served as treasurer.

Don's scholastic achievements are: Treasurer of Chi Epsilon; (honorary Civil Engineering fraternity); membership in the Blue Key honorary fraternity, Theta Tau (professional engineering fraternity) and Who's Who in Engineering.

Athletically Don has distinguished himself by becoming intramural athlete of the year in 1959.

Don has received a distinguished military student award

and will accept a commission in the Army upon graduation.

Miscellaneous achievements of Don's include: membership in

Don Gunther

the national service fraternity Alpha Phi Omega, Society of American Military Engineers, American Society of Civil Engineers and the Miner and yearbook boards.

## Schedule of Events

### FRIDAY

1:00 P. M.—Beard Contest, South End of Pine Street.

1:30 P. M.—St. Pat Arrives by Handcar at South End of Pine Street to Lead Parade to 12th and Pine.

2:30 P. M.—St. Pat delivers his Annual Address and Presents Awards to Winners of the Beard Contest.

9:00 P. M.-1:00 A. M.—Masquerade Ball at the Student Union Building.

10:30 P. M.—Knighting Ceremonies, Awards for Float Contest, and Awards of Costume Prizes.

### SATURDAY

1:00 to 5:00 A. M.—Breakfast Dance following the Costume Ball at the Pi Kappa Alpha House.

1:00 to 4:30 P. M.—Dixieland Concert—Sammy Gardner — Kappa Alpha House.

2:00 to 5:00 P. M.—Jazz Concert—Sammy Tillman—Kappa Sigma House.

2:00 to 5:00 P. M.—Tea Dance—John Cotter—Sigma Nu House.

9:00 P. M. to 1:00 A. M.—Semi-Formal Coronation Dance at the Student Union Building.

9:30 P. M.—Coronation of the St. Pat's Queen.

NUMBER 22

## Richard Maltby to Play for Coronation in Student Union Building Saturday Night

Richard Maltby, conductor-arranger on Columbia Records and leader of the Richard Maltby Orchestra, is not only one of the most talented musicians of the day, but also one of the most imaginative. His creative mind has led him to explore the classical and symphonic realm as well as the popular dance medium. With such a thorough background, it is no wonder then that in the short space of a few months he emerged as one of the top dance bands in the country. Master of musical moods, Richard Maltby has the Band the Dancers' Demand.

Richard Maltby was born on June 26, 1914, in Chicago, Ill., the youngest of five sons. He began his association with music

Richard Maltby

during his early grade school days when he played cornet in the school orchestra. He continued playing and arranging for school orchestras throughout high school. Upon completion of high school he entered Northwestern University where he took liberal arts courses with the idea of NOT going into the music profession. However, he met Virginia Hosegood of Ripon, Wisconsin, who later became his wife, and insisted that he dedicate his talent exclusively to music.

Dick left Northwestern after one year to work with local dance bands while he continued his study of advanced harmony and orchestration under Leo Sowerby. On completion of his course, he toured with several dance bands

## Our St. Pat's Board Does It Again; Three Cheers

Well it is finally here. M. S. M.'s biggest campus celebration of the year is underway. The time for dumping the books and getting into a party mood and having a wonderful time is now at hand.

hard to believe, but this tremendous job is done by a small group of thirty-six Miners, who are known as the St. Pat's Board. There are two representatives from each fraternity on campus and

St. Pat's Board which represents all organizations on campus

Numerous events such as a parade, dances, and just having a good time is in store for those Miners who participate in St. Pat's this year.

It is probably wondered by some people on campus who plans, promotes, and handles the many preparations for keeping 3000 Miners happy for four days. There is obviously a great deal of work involved in planning, and carrying out the many facets of such an occasion as St. Pat's. It may be

four representatives from the dormitories. Half of the members are seniors and the other half are juniors.

There are many tasks performed by the St. Pat's Board some of which take much time such as the picking of the orchestra to play at the dances, the nominations of the queen candidates, and the judging of the beard contest. The members devote their time so that St. Pats will be an enjoyable celebration for all the students

who attend M. S. M. There are many other duties which the board performs, but they are too numerous to mention at this time. Committees are appointed by the president of the board to cover these various tasks.

The St. Pat's board receives no financial aid from the school or any other organization. All the money needed by the St. Pat's board is raised by selling dance tickets, and having movies shown during the school year.

The hard work and initiative of the members of this board enables the Miners and M. S. M. to have

(Continued on Page 12)

## Knights Named by St. Pat's Board

The St. Pat's Board has announced the names of those who are to be knighted by St. Patrick during ceremonies to be held this evening at the Masquerade Ball.

The seniors and their organizations are:

Acacia—John Donaldson.  
Beta Sigma Psi—Louis Kuhlmann.  
Delta Sigma Phi—Jerry Noggle.  
Kappa Alpha—Tom Englert.  
Kappa Sigma—Dave Phelps.  
Lambda Chi—Bob Riddle.  
Phi Kappa Theta—Rich Mosier.  
Pi Kappa Alpha—Richard Sch-nieder.  
Sigma Nu—Robert Freeland.  
Sigma Phi Epsilon—Lee Landers.  
Sigma Pi—Patrick Skow.

# Special St. Pat's Edition

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M.S.M.

In the past few years the M. S. M. campus has seen the gradual decline of a tradition almost as well known as St. Pat's itself. This tradition, that of "shillelagh" carrying, began years ago when the school was so small that the sophomores could make the entire freshmen class carry "shillelaghs." In those days the "shillelagh" served two purposes; first, they presented everyone with a visual reminder of the coming St. Pat's and, second, they united the freshmen class by placing a heavy burden on all equally. Today the "shillelagh" is an out-of-date tradition that fails to serve either of its original purposes; it fails in its first purpose because so few freshmen carry them that one is not nearly so impressed with the coming of St. Pat's as he is with the fact that only a small minority of

the freshmen are actually carrying them. They fail in their second purpose because so few freshmen carry them that it becomes sport for the other freshmen to steal their classmates "shillelaghs," this creates a conflicting rather than a uniting factor in the freshmen class.

This year Blue Key offered a solution to the "shillelagh" problem. It sponsored a contest with prizes for the best shillelaghs. This contest idea gives freshmen an incentive to create a work of art in which he can take pride. It creates a spirit of friendly competition between the freshmen (in place of the present struggle); and if the freshmen were required to carry their shillelaghs they serve just as well as logs as reminders of the approaching St. Pat's.

## Miners Traditionally Follow St. Pat's Day

The observance of St. Patrick's Day on the MSM campus has not changed considerably since its beginning 51 years ago. It all started when the MSM student body was invited to send a representative to Columbia to attend the St. Pat's festivities on the MU campus. The Miners collected money and obligingly elected John Bowles to be their representative on a very close ballot.

After finding that more money had been collected than was needed for the representative's trip to Columbia, it was secretly decided to have a similar celebration here in Rolla. A three-man committee of George Easley, Clay Gregory, and D. F. Forrester was selected to make the necessary arrangements and George Menefee was given the honor of being the first "St. Pat."

There was no holiday at that time, and all arrangements were made secretly. It was decided that the highlight of the festivities was to occur at the entrance of Norwood Hall. The entrance was appropriately decorated the night before, after the night watchman had been "taken care of."

The town was plastered with hand bills requesting the students

to be at the railroad station at 8 a. m.

The parade from the depot began after the arrival of St. Pat, being led by the MSM band. Every student had been supplied with a green sash and a shillelagh. At the Norwood Hall, St. Pat surveyed a quadrangle with a "crude transit" and requested that all his followers assemble in it. The good Saint then made a speech and interpreted the "hieroglyphics" on the Blarney Stone.

## Shocked Freshman Learns That St. Pat Was Definitely a Qualified Engineer

For several years now, a debate was waged pro and con as to whether good St. Pat was really an engineer. It is known for certain that he has been given several honorary degrees to that effect by various assorted and sundry engineering schools, but records of his claims to that distinguished title have been lost in the shuffle of mankind.

Some time ago, a freshman, while browsing through the library at MSM chanced upon a thesis written by a former student for his masters degree. The man had been a chem, and for his paper had elected to do extensive research on the origin and composition of Irish whiskey.

In his search, he was shocked to discover that the accepted formula was not the one which was first used. It seems that along about the 17th century there was

some change in the distilling process, and furthermore, this revision had been suggested by none other than St. Patrick himself.

Delving deeper, he was rewarded with the actual facts of the case as recorded by Patrick himself in his annual report to the Association of Scotch and Irish distillers in 1658. Prior to that memorable year, the good citizens of Ireland became obsessed with queer hallucinations whenever they partook of a little of the spirits. Pat attributed this to cross pollination of the grain crop with some unfamiliar vegetation by a terrific influx of crickets that year. The effect was that shortly after consumption, the drinker would begin to see snakes—all colored ones, but green seemed to predominate—floating about his head.

At first this was believed to be the evil spirits coming out in

those who saw them, but when good St. Pat began to complain of identical symptoms, a citizens committee decided that a time for action had arisen. Now Patrick was the leader to whom all people turned in time of trouble so he was asked to investigate this phenomenon which was causing havoc all over the Emerald Isle. One group of radicals had even gone so far as to suggest prohibition. This idea was soon thrown out.

Pat set about arranging a laboratory for his use and soon was at work testing various brews of his own concoction. It was a long hard job, because although he managed to develop several tolerable liquors, none could be found that had the same full-bodied flavor of real Irish whiskey. A year passed before St. Pat was ready to announce the ultimate success of his experiment. A long year of hard work and many tests. Pat was an exacting man, and would allow no one but himself to make the trials of his products, and consequently he was on many a good binge during the time.

The new product was soon placed on the market so that the terrible affliction which had gripped the Isle was released and once more the red nose became the mark of a good Irishman. Because of the sacrifice of our dear patron saint in performing all those personal tests it was decided that he should have some fitting reward. The nature of the beverage suggested that it be some suitable honor, and so Saint Patrick was made an honorary member of Theta Tau.

## Miners, Have You Heard Of the "Runestone"?

Many of you Miners enrolled in geology and mining have heard of the "Runestone," but for the rest of you it is an interesting and intriguing tale.

In the fall of 1898, a Swedish farmer living near Alexandria, Minnesota found a large flat stone embedded in the roots of an aspen tree. Dusting it off, he discovered it was etched with queer symbols on the face and one edge. The symbols when translated read:

"8 Goths and 22 Norwegians on exploration, journey from vinnland over the West. We had camp day After we came home found by two skerries one days journey north from this stone We were and fished one day After we came home found 10 men red with blood and dead Ave Maria Save from evil"

On the edge of the stone appears:

"Have 10 of our party by the sea to look after our ships 14 days journey from this island Year 1362."

This epic event has inspired composer, Paul Yoder, to capture the splendor of the Viking Age in sound. The result is the "Runestone Overture." It is another tribute to the musical genius of Yoder, who dedicated his composition to the Alexandria, Minnesota Annual Music Clinic. Captain Leighty and members of the MSM ROTC Band feel that this number is an excellent addition to our coming concert with Lincoln

University.

The portrait in sound, presented by the "Runestone Overture" stirs the imagination, and arouses the lust for adventure that drove the Vikings of old into the unknown. For all Miners with a spark of adventure in their soul, listening to the absorbing strains of the "Runestone Overture" is a must. The concert will be presented at 8:00 P. M. in the Rolla High School Auditorium on Tuesday evening, March 29, 1960.

## Dr. Ramdohr to Speak In the Geology Dept.

Dr. Paul G. K. Ramdohr, eminent professor of geology (retired) of the Mineralogical Institute of the University of Heidelberg will be a guest lecturer in the Department of Geology at the Missouri School of Mines March 21-25, 1960.

Dr. Ramdohr is touring eight major universities in the nation under sponsorship of the American Geological Institute. His lectures will emphasize the geology of some of the largest uranium deposits in the world. Observations on special sulphide-type deposits somewhat similar to the large lead and zinc deposits of Missouri will also be discussed, according to Dr. Paul D. Proctor, Chairman of the Department of Geology at the School.

Dr. Ramdohr's books on mineralogy have gained him world wide fame. These, together with numerous scientific papers and articles, make him one of the world's leading authorities in his field. Like many other geologists, Dr. Ramdohr is widely travelled. He has conducted research in Australia, South Africa, Northern Africa,

Canada, and Scandinavia. Many of his papers are based on these expeditions.

Though now nearly 70 years of age, Dr. Ramdohr continues a very active life in both travel and research. His plans call for approximately four months in the United States. During this time he will present his lectures at eight universities. He also plans to visit the many areas of geologic interest in the country before returning to Europe.

During his stay on our campus, four one-hour lectures will be presented on the dates indicated below: in the Geology Dept.

Monday, March 21: 9:30 a.m. Radioactive Haloes and other effects in minerals.

4:30 p.m. Comparison of Witwatersrand—Blind River—Dominion Reef—Serra Jacobina.

Thursday, March 24: 9:30 a.m. Observations on sulphide sediments.

3:30 p.m. The thousand year old deposit of the Rammelsberg-Harz mountains.

## RICHARD MALTBY

(Continued from Page 1)

including Little Jack River, Roger Pryor, Bob Strong, etc., travelling all the time with his wife and family and arranging for the orchestras as well as playing trumpet. In 1940 he decided to give up the trumpet and devote his time entirely to arranging, composing and conducting. Richard joined WBBM in Chicago as staff arranger. There he was able to gain more valuable experience writing for more diversified groups from large symphonic orchestras to choral work for the Great Lakes Naval Training Choir.

Besides his work at WBBM, Richard still found time to continue arranging in the dance band medium for bands in the Chicago area. One of his compositions "Six Flats Unfurnished" was recorded by Benny Goodman and proved to be one of Benny's biggest selling records. In the semi-classical field Benny Goodman performed Dick's "Fantasy on the Man I Love" at all of his symphonic appearances with great success.

Paul Whiteman came into Dick's life at this time, and he was to become closely associated with Paul for the next few years. Paul's first step was to place him with the American Broadcasting Company in Chicago as a conductor-arranger. Then, in 1945, Dick moved to New York since the potentialities for the future were greater in the East. The move proved to be a wise one. Besides his work at ABC, Richard was in great demand as an arranger on many television and

radio shows as well as backing singers on recordings.

In 1951, Richard Maltby was asked to do a series of recordings for Sesac Transcriptions called Jazz Classics. He was given free rein to experiment with all combinations and to use his imagination in writing original compositions. He has recorded over 250 sides for Sesac and many of these numbers are used in his dance library today.

Now established as one of the "big" bands in the country, Dick now records for Columbia records and Sesac Radio Transcriptions, turning out tunes that are good listening, extremely danceable, and always in good taste. He also continues to play the "one-nighter" circuit with increasing success. To date he has played many of the major colleges and has had successful stays at the Cafe Rouge of the Statler Hotel in New York City, the Blue Moon of the Shoreham Hotel in Washington, D. C., Roseland Dance City in New York, the Blue Note in Chicago, and many other top location spots.

Richard Maltby wrote for and conducted the Vaughn Monroe Color TV Show. He was personal musical arranger for Ethel Mermaid. Dick also appeared with his band on the Jackie Gleason-Paul Whiteman's Greatest Bands Show on TV. He has been guest conductor on the National Radio Fan Club on NBC several times and NBC Bandstand, and was guest "Star of the Day" on both Monitor and Weekday Shows.

## Request for Summer School Courses

A survey is being made to determine the number of students who want to go to summer school this year and the courses in which they are interested. If you want to go to summer school, fill in the form below and bring it to the Information Desk in the Registrar's Office as soon as possible.

## St. Pat Arrives for His Annual Visit

"St. Pat is here!" came the cry at 2:00 o'clock this afternoon. At this time, St. Patrick himself, patron saint of the engineers, made his fifty-second appearance for the Miners of MSM.

Since the last class on Wednesday, all loyal Miners had been preparing for this moment. Actually the preparation had begun long before this. For many weeks many Miners had been growing beards. For a week and a half the freshmen had been carrying shillelaghs. These cudgels had been used in an attempt to drive off all snakes that may have been lurking

on the MSM campus and in the town. Several weeks ago the organizations on campus had picked a candidate for the "Court of Love and Beauty," hoping that their nominee would be the honored St. Pat's Queen, chosen for this honor because of her beauty and charm. The finishing touches have been put on the floats, even though the weather has been anything but the best.

The custom of honoring the Patron Saint of Engineers in a three-day celebration had its inception at the School of Mines in 1908 and has grown into the present

colossal affair that it is today. Coming from the Emerald Isle far across the green sea, St. Pat annually arrives in Rolla for he knows that the MSM celebration is by far the largest of its kind in the country and is unparalleled by an other engineering school. It does his old Irish heart good to see the festivities of the Miners.

St. Pat brings with him two pages and four guards that will assist him in any way possible. They will be dressed in the traditional costumes that were prevalent in those times.

(Continued on Page 12)

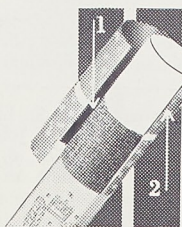

## The 1 out of 20 that didn't get smoked

There's a lot of satisfaction in pointing out something good to a friend. That's why it often happens that one cigarette out of a pack of Dual Filter Tareytons never does get smoked.

People break it open to demonstrate its unique Dual Filter containing Activated Charcoal. They may not know why it works so well, but they do know this: It delivers far more than high filtration... it brings out the best taste of the best tobaccos—as no single filter can!

Try a pack of Tareytons. We believe the extra pleasure they bring will soon have you passing the good word to your friends.

### HERE'S HOW THE DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL... definitely proved to make the smoke of a cigarette mild and smooth...
2. with an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!

NEW DUAL FILTER **Tareyton**

# Fifty-Second Annual Celebration

## DELTA SIGMA PHI

*Karen Marie Lange*

Karen Marie Lange, Delta Sigma Phi's candidate, is 21 years of age, stands 5 feet 6 inches tall, and has brown hair and brown eyes.

She is a graduate of Webster Groves High School, and is now employed as a secretary for a St. Louis firm.

Her favorite activities are swimming, water skiing, bowling and art.

Her escort will be Robert Bratton Pettibon.

## PHI KAPPA THETA

*Phyllis Tucci*

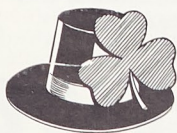

Miss Phyllis Tucci, representing Phi Kappa Theta Fraternity, is from St. Louis, Mo. Phyllis is a senior at St. Joseph's Academy on Lindbergh Avenue in South St. Louis County. After finishing school she hopes to attend Mount St. Scholastic College in Atchison, Kansas, to major in home economics and retailing.

Miss Tucci is a 5 foot, 7 inch, 129-pound brunette with flashing brown eyes. Her amiable personality is offset by her pleasing smile and mild manner.

Among her hobbies Miss Tucci numbers ice skating, singing and water sports.

Phyllis also does modeling at Stix, Baer & Fuller Company in St. Louis, as well as part-time work as a secretary.

This is Miss Tucci's first St. Pat's celebration, and she will be the guest of Brother Jim Tegethoff.

## PI KAPPA ALPHA

Alpha Kappa chapter of Pi Kappa Alpha is indeed proud to present Miss Joan Tuger as their candidate for Queen of St. Pat's Court of Love and Beauty.

Miss Tuger, who was born and raised in St. Louis, attended St. Elizabeth's Academy, where she participated in many school activities. Besides being captain of the girls volleyball team, she was a class officer and a member of the dramatic club. Joan also won a Certificate of Poetry and a number of awards for her art work.

*Joan Tuger*

a field in which she has shown quite a bit of talent. She has attended courses in the Art School of Washington University and she intends to keep active in her art work in the future.

Some of Joan's many other interests are dancing, swimming, and traveling. After her high school graduation she toured most of Europe and a good portion of the eastern United States. When she returned from Europe she took employment in the Treasury Department of the Union Electric Company of St. Louis and that is where she is currently working.

Joan, who is pinned to Frank Bender, has been a regular attendant of Pi K. A.'s dances for the past two years. She is looking forward to this St. Pat's with the anticipation of a wonderful time.

## ACACIA

*Judith Blanche Smith*

Acacia's candidate, Judith Blanche Smith of Independence, Mo., is attending the University of Kansas City where she is majoring in medical technology.

Judy is 5 feet 6 inches tall, has honey-blond hair and brown eyes.

## KAPPA ALPHA

*Anita Sue Jackson*

Kappa Alpha's 19-year-old candidate, Anita Sue Jackson, from St. Joseph, Mo., is 5 feet 4 inches tall, and has brown hair and blue eyes.

Anita is completing her second year in music at St. Joseph Junior College where she is a member of Phi Theta Kappa and the National Honor Society for junior colleges.

She has had a lead role in many of the college's dramatic productions and was the top freshman student in 1958-59.

## SIGMA TAU GAMMA

*Dee Ann Fowler*

Sigma Tau Gamma's Queen candidate for this year is Miss Dee Ann Fowler. Miss Fowler is a resident of Alton, Illinois, and is presently employed by the First National Bank & Trust Co., in Alton. The job which she holds consists of the operation of tabulating machines and serving as a secretary.

Miss Fowler is a graduate of Alton Senior High School and was active in the Pep and Glee Clubs while she attended high school. Her main interests consist of dancing, bowling and swimming. A weekly event for her is bowling in a league for the First National Bank & Trust Co.

Miss Fowler is pinned to Robert Boschert, a member of Sigma Tau Gamma Fraternity.

Originally from St. Louis, Judy is a Past Princess of Job's Daughters (Bethel No. 6, Webster Groves), and now an honorary member.

Her many interests include water skiing, swimming, figure skating, bowling and bridge.

## THETA XI

The Theta Xi candidate is Miss Judy Feind, daughter of Dr. and Mrs. E. E. Feind of Rolla, Mo. Judy is an active member of the Beta Nu Chapter of Sigma Kappa sorority at Bradley University. In her sorority she has held the following offices: social secretary, rush committee chairman, assistant corresponding secretary, and publicity chairman. Judy also appeared with her sorority sisters in Pan-Fra Sing last year.

A sophomore, Judy, a speech correction major, spends her few

*Judy Feind*

free hours working at the Speech Clinic. This year, Judy was initiated into Sigma Alpha Eta, a professional speech correction society. Last year she was secretary of the Freshman Class. She also served on the Freshman Dance Board which was composed of four class leaders. For two years, Judy has worked on both the Homecoming Committee and the Campus Carnival Board. She has participated in the National Collegiate Speech Tournament, which is held on the Bradley campus, for two years. With all her activities, however, Judy has succeeded in maintaining a B average in her college work.

Judy has found a little time to participate in off-campus activities. Recently she had the opportunity of modeling in a series of television performances for one of Peoria's leading furriers.

## SIGMA PHI EPSILON

*Judy Campbell*

Sig Ep's candidate this year is Miss Judy Campbell. Judy is a resident of Brentwood, Mo., and graduated from Brentwood High School. This 20-year-old girl, 5 feet, 4 inches, dark-haired gal has graced many of the Sig Ep parties

## LAMBDA CHI ALPHA

*Jaxene Kinder*

Representing Lambda Chi Alpha, in competition for St. Pat's Queen, is Miss Jaxene Kinder. She is 5 feet 5 inches tall and has brown eyes and brown hair. She is a freshman at Southeast Missouri State College, where her major is speech.

Jaxene's main interest is acting, which led her to obtain a small part in the film "A Face in the Crowd." Her favorite activities are swimming and water skiing.

## TRIANGLE

*Elizabeth Antonacci*

The St. Pat's Queen Candidate for Triangle Fraternity is Miss Elizabeth Antonacci. She is 19 years old and lives at 7341 West Myrtle Avenue, Chicago 31, Ill. She is a 1958 graduate of Taft High School in Chicago. She attended Wright Junior College in Chicago for a year and now attends night school there. She is majoring in Physical Education. She works at the Chicago Iron Foundry in Chicago. She likes to water ski and bowl in her spare time.

Her escort for the weekend will be Allen Meskan. He is a senior majoring in Mechanical Engineering and a member of Triangle Fraternity.

with her pretty smile. Judy was last year's Greek Day Queen, and the men behind the red door hope Judy can add another throne to her list.

Currently employed as a receptionist for Lumbermen's Mutual Insurance Company in Clayton, Judy takes time out for bowling, swimming, and frequent trips to Rolla. Miss Campbell is presently engaged to Norm Frossard, a senior in Ceramic Engineering.

# St. Pat's Court of Love and Beauty

## SIGMA PI

Judi Chastain

Miss Judi Chastain is Sigma Pi's Queen candidate to rule over the festivities of St. Pat's of 1960.

Judi is 19 and is attending the George Peabody College for Teachers in Nashville, Tennessee, where she is a freshman. She is attending school on a partial scholarship. Her home town is Carmi, Illinois, where she received her first twelve years of education. She is an outdoor girl and enjoys water-skiing and swimming.

## SIGMA NU

Ellen Hartog

Sigma Nu's queen candidate for the 1959-60 St. Pat's ball is Miss Ellen Hartog. She is the daughter of Mrs. Paul D. Hartog of 7316 Huntington Dr., in St. Louis, Mo. Puppie, as she is nicknamed, is a 5 foot, 5 inch, blue-eyed brunette, and is 22 years old. She graduated from Normandy Senior High School in June of 1955, and is now employed as a receptionist for the Western Auto Supply Co. business office in St. Louis.

While in high school, she belonged to the High School Fashion Board of the Stix, Baer and Fuller store in St. Louis, a professional group of modern dancers called the Riverton Dancers, Normandy High Mixed Chorus, and Tri-Y. She worked on the school paper for which she and another girl wrote a humor column, and she belonged to the bowling club.

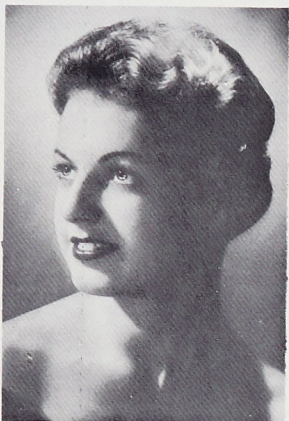

In the fall semester of her senior year, Puppie won the "Miss Young America in St. Louis" contest sponsored by "Seventeen" Magazine, which has a national circulation.

Her interests now still include modeling, along with water skiing, bowling, and swimming in which

## JUNIOR CHAMBER OF COMMERCE

Gloria Brewer, representing the Rolla Junior Chamber of Commerce, is an honor graduate from Rolla High School, class of 1957. She attended Central College for two years, where she majored in art and was associated with Pi Kappa Theta sorority. During her freshman year there she was a candidate for Homecoming Queen.

She is 20 years old, has light brown hair and blue eyes. Her favorite hobbies are art, water skiing and dancing.

Gloria Brewer

She is the daughter of Prof. John M. Brewer of the MSM Humanities Department, and Mrs. Brewer.

## KAPPA SIGMA

Dorothy Porter

Kappa Sigma's candidate to the 1960 St. Pat's Court of Love and Beauty is Miss Dorothy Porter. Miss Porter is a native of Bartow, Florida. She is a 19-year-old sophomore at Southwest Missouri State College in Springfield, Mo., and is a member of the Sigma Sigma sorority.

Miss Porter is a 5 foot, 7 inch brown-haired, hazel-eyed, young lady, whose favorite hobbies are swimming and bowling. Among the honors received by Dorothy are Miss Springfield (1959) and first runner-up to Miss Missouri (1959).

she holds her senior lifesaving award.

Miss Hartog has become well known at the Sigma Nu house since she became pinned to Bill O'Neal two years ago. Bill is a senior in the Petroleum Engineering Department and will receive his degree in June of this year.

## TAU KAPPA EPSILON

Gloria Krieger

The Tau Kappa Epsilon candidate for St. Pat's Queen 1960, is Miss Gloria Krieger, who is also the Sweetheart of Beta Eta Chapter.

This beautiful 21-year-old redhead is a junior at Southeast Missouri State College where she is majoring in vocational home economics and education. Although Gloria is president of her sorority, Sigma Sigma Sigma, a member of the Home Economics Club, and many other campus organizations, she still finds time to work in a downtown women's shop in Cape Girardeau, Mo., her home town.

Miss Krieger's beauty is exceeded only by her sparkling personality as was shown when she was chosen First Runner-up to Miss Cape Girardeau in a preliminary contest of the Miss America Pageant.

Gloria is an active member of the Trinity Lutheran Church in Cape, where she can be found on Sunday mornings, teaching a children's Sunday School class. She is also affiliated with Gamma Delta, the national Lutheran organization for college people.

When not working, going to school, or studying, Gloria turns to her hobbies of swimming, playing tennis, and just plain relaxing.

In viewing Miss Krieger's personality, beauty, stately manner, and other qualifications, we at Tau Kappa Epsilon truly believe Gloria to be the perfect girl to reign as St. Pat's Queen of 1960.

## INDEPENDENTS

Jerrie Lou King

Representing the Independents is Jerrie Lou King, aged 19, 5 feet 4 inches tall.

Jerrie, a resident of Phoenix,

## ROLLA ROTARY CLUB

Miss Sue Joslin, daughter of Colonel and Mrs. LeCompte Joslin, 604 State St., has been chosen by the Rolla Rotary Club to be their candidate for St. Pat's Queen, 1960.

Sue was born into a Rotary background. Both her grandfathers, De Vere Joslin and the late D. B. Followill, were charter members and past presidents of the Rolla Club. Her father served as club president in 1958. Sue was one of twenty-five young people

Sue Joslin

invited in 1956 by the Rotary Clubs of England to tour their country for a six-week visit. The group was entertained in the private homes of English Rotarians.

Sue is 19 years of age. She is a graduate and honor student of Rolla High School. She was a member of the Modern Music Masters, the Thespian Society, French Club and A Cappella Choir. She took part in both her Junior and Senior plays. Sue was a member of the Order of Rainbow for girls and served in a number of stations.

She is now a sophomore at Central College in Fayette, Mo. Her major is business administration and her minor is in French. Sue has been on the Dean's Honor Roll and her social sorority is Delta Pi Omega.

In 1959 Sue was chosen Honorary Cadet Major at the R. O. T. C. Military Ball at Westminster College, Fulton, Mo.

Sue is a member of the First Baptist Church in Rolla and the P. E. O. Sisterhood. Her hobbies are swimming and sun-bathing at Oak Meadow Country Club, dancing, golf and art work. During her vacation months, Sue is employed at the Hope Dress Shop in Rolla.

Both her father, LeCompte Joslin and brother, Jim Joslin, are graduates of the Missouri School of Mines. Sue, at the age of 6, served as flower girl for Queen Lenore Jones (Morris) at the 1946 St. Pat's Ball.

Sue loves her home town of Rolla and has lived here all of her 19 years.

Arizona, is a member of Alpha Delta Pi sorority at Missouri University, where she was recently a freshman candidate for the Miss Mizzou contest.

Her escort at St. Pat's will be Brant Casteel.

## ROLLA LIONS CLUB

Jerena Arthur

Miss Jerena Lee Arthur has been selected by the Rolla Lions Club as its candidate for Queen of Love and Beauty to reign over this year's St. Pat's festivities. This selection has been made in accordance with the recent invitation extended to the service clubs of Rolla by the MSM St. Pat's Board.

Jerry, as she is better known, is the daughter of Mr. and Mrs. Clarence Arthur, who reside at 302 East 10th. She is a graduate of Rolla High School and is now a junior at Missouri University.

She attended the Missouri School of Mines during her freshman and sophomore college years.

Jerry's high school activities were many and varied, such as the marching band of which she was vice-president, A-Cappella Choir, Modern Music Masters, Debate Club, Exchange Editor of Rolla High Echo, Senior Editor of the Growler and Future Teachers Association.

Miss Arthur is a member of the Kappa Alpha Theta Sorority. She has been active in the Order of Rainbow for Girls and in 1956

(Continued on Page 6)

## BETA SIGMA PSI

Carol McCoy

Beta Sigma Psi is proud to announce their selection to St. Pat's Court of Love and Beauty, Miss Carol McCoy. Miss McCoy is an 18-year-old, 5 foot, 6 inch, brown-haired, blue-eyed young lady hailing from St. Charles, Mo.

She is presently employed as a teller in a local St. Charles bank. In her spare time she enjoys swimming, bowling, water skiing and dancing. Recently she became engaged to Ronald Anderson, a senior in Mechanical Engineering.

## 1959-60 Miner Football Team Beats Wash. U., Springfield

The 1959 Miner Football Season wound up November 7, 1959, with the MSM-Men clobbering the Springfield Bears by a 32-8 tally. During the season the Miners finally beat the Washington University Bears, to start off the season, by a 27-15 score. The Miners had not beaten the Bears in three years, and the victory was a welcome one. The Miners had been previously beaten by the Lincoln University team, by a 14-

30 margin. The MSM-Men then downed Pitt State, 20-7, and Warrensburg, 34-20. The Miners then lost the next three games, to Cape, Kirksville, and Maryville by 30-7, 20-7, and 7-6 margins, respectively. The season ended with the Miner record standing at 4 won, 4 lost, with a .500 rating, and putting the MSM-Men fourth in MIAA standing.

The '59 Miner team consisted of many fine players, well recognized in the MIAA Conference.

The Miners placed three men on the MIAA all-conference first string, and one on the second team. Louis Meisenheimer, Chuck McCaw, and Tom Cooper rated the first string, while Bill Wheeler was listed second string back. Paul Wiegard and Tom Cooper were listed among the MIAA leading scorers, as well as the Conference and all-game leading score listing. Chuck McCaw was rated fifth in the punting contest.

Top row, left to right: 17—Jerry Rhineberger; 16—Henry Peterson; 51—Ron Avery; 64—Craig Meier; 11—Morris Boren; 19—Paul Weigard.

Bottom row, left to right: 65—Allen Early; 73—Robert Pettibon; 72—Dean Moss; 74—Bob Tooke; 81—John Sullivan.

## 1959 Season Results

Miners	Opp.	Miners	Opp.
Lincoln .....	14 30	N. E. Mo. State (Kirksville) .....	7 20
Washington U. ....	27 15	N. W. Mo. State (Maryville) .....	6 7

S. E. Mo. State (Cape Girardeau) ....	7 30	MIAA STANDING—FOURTH	

## MIAA 1959-60 All Conference Team; Sturm Makes Second String Team

The 1959-60 M. I. A. A. All Conference Basketball Teams, as selected by the conference coaches, were announced today by Commissioner John Waldorf.

Twenty-six men were nominated for positions on their all conference selections by the coaches. This years conference race ran true to form in that no team went through their conference schedule undefeated. This fact was reflected in the balloting, particularly for positions on the second all star team, which Carl Wilks of Springfield and Leland Jackson of Maryville edged by the narrow margin of one vote.

Gene Jordan, Maryville, Larry Swift, Kirksville, and Carl Ritter of Cape were all unanimous selections of the coaches for a position on this years all star selection. Jerry Burditt of Kirksville and Clifford Kinser and Jerry Kirksey of Springfield and Leslie Hemmer of Cape nosed out for first team positions.

The first team as chosen by the conference coaches, is composed of three seniors, one junior and one sophomore. As a team the first five men set a new conference record by scoring 2151 points for the season,—an average of 97.52 points per game.

The teams as selected were—  
*First Team*

Gene Jordan, Maryville, Senior  
Larry Swift, Kirksville, Junior  
Carl Ritter, Cape, Sophomore  
Clifford Kinser, Springfield, Senior.

*Second Team*

Leslie Hemmer, Cape, Junior  
Jerry Kirksey, Springfield, Junior.  
John Sturm, Rolla, Junior  
Ronald Gray, Cape, Junior  
Louis Sandbothe, Warrensburg, Senior.

Top row, left to right: 24—Gene Brenning; 30—Roy Sharp; 14—Bob Lewis; 32—Larry McCarter; 22—John Sturm; 70—Clifford Rice; 52—Terry Wiegard; 54—Tony Stone; 12—Wayne Lucas.

Bottom row, left to right: 44—Jim Lemon; 34—Larry Martin; 60—Jerry Linsey; 4—Larry Dix; 62—John Bosnas; 20—Tom Lampe.

## Basketballers of '59-'60 Season Have 7-16 Record

This year's team showed at times the talents and ability of an outstanding squad, but did not come up with the combination for a winning season. The Miners played well on their home court by not losing a home game in the 1959 part of the season.

The future looks good for next season with 10 returning lettermen and two starters. Martin and Lemon, the two starters, will have the able assistance of Bosnas, Kinsey, Lampe, McCarter, Lucas, Sharp, and Wiegard.

Sturm will be missed in the 1961 season. He ended his career by being picked for the all conference second team while in the two previous seasons he was picked for the first team.

At times, as in the win over the Washington University Bears, the M. S. M. cagers controlled the boards both offensively and defensively.

The Miners showed their winning potential at instances through the season. Two examples of this were the close contest given the MIAA conference champions of Kirksville and the nip and tuck loss to a strong Harris Teachers College. Although this was not

an outstanding season, it was an improvement over last season's record. Let's all turn out next year to cheer our team to an even better season.

### NOT A CHANCE

A fellow who came into a dentist's office to have a tooth pulled was so frightened at the prospect that the dentist sympathetically offered him a shot of whiskey. Then the fellow asked for another shot and gulped it down. The dentist then asked kindly: "There, young fellow. Do you feel any braver? Got your courage back?"

"Yeah," snarled the man, "and brother, I'd like to see anybody touch my teeth."

# Swimming Team Posts 7-1 Seasonal Record Rifle Team Represented At Midwest Indoor Meet

During the past season, the MSM swimming team posted a 7-1 record in dual meets and a victory in the YMHA invitation swimming meet in St. Louis.

The team outscored its opponents in total points by 443 to 310. The scoring is as follows:

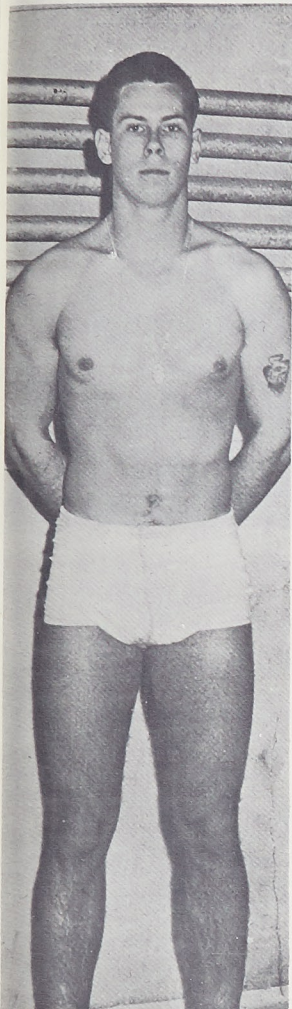

MSM	Opponent
68	Western Ill. University 26
55	Washington University 40
34	St. Louis University 60
54	Westminster 38
59	Pittsburg State Teachers 36
58	Westminster 27
55	Indiana State 40
53	Louisville University 42
443	310

Rich Greeley was the individual high point man for the season with 60 points. Second was Jim Phillips with 52 points. Other top scorers were:

Gary Broyles	47.50
John Woodward	46.00
Bill Daley	39.00
Russ Cox	35.00
Art Farnham	34.00
Jim Staley	30.75

Three pool and varsity records were set this year. Gary Broyles set the record in the 220-yard free-style. Jim Phillips set a record in the 160-yard Individual Medley and Roy Smith set a record in the 200-yard Individual Medley.

In the YMHA meet in St. Louis medals were received by Broyles, Greeley, Miller, Phillips, Smith, Peterson and Woodward. The team was awarded the highest point trophy at this meet.

Rich Greeley  
High Point Man

Back row: T. Miller, R. Greeley, G. Broyles, J. Phillips, R. Cox.  
Middle row: L. Peterson, J. Staley, J. Woodward, A. Farnham,  
M. Bruns, B. Daley.  
Front row: J. Catron, B. Scott, R. Smith.

The Missouri School of Mines Rifle Team was among 68 marksmanship teams representing universities, colleges, military schools and high schools from a thirteen state area in the mid-west entered in the 25th annual Little Camp Perry indoor rifle meet held from March 3 to March 5 at Boonville, Missouri. The number of teams was the largest in the history of this nationally recognized event, some 450 shooters were present for the competition.

One of the features of the event was a shooting clinic conducted for the benefit of the competitors by Captain Thomas Atwood, army national service rifle champion for 1959; First/Lt. Daniel Puckle, winner of the 300 meter rifle event of the third Pan American games; and M/Sgt. Jack Beach international rifle team coach. The Miner team began applying the techniques of the international shooters to their own shooting at the first practice session after the match.

The MSM Advanced Team, consisting of Tom Bohley, captain, Bud Cook, Darrell Kilburn, and Jim Chesworth with Ned Hutchins as an alternate finished fifth out of eleven in their division.

The result of the match were as follows: first place, South Dakota

State; second place, Creighton University of Omaha, Nebraska; third place, University of Illinois; fourth place, Minnesota University; fifth place, Missouri School of Mines; sixth place, Iowa State; seventh place, Westminster College; eighth place, Nebraska University; ninth place, Missouri University; tenth place, Southern Illinois University; eleventh place, Kemper Military School.

It is felt that the MSM team did quite well considering the caliber of the competition present at this match.

A basic ROTC Team composed of Don Burton, captain, Dan Eppelsheimer, John Harrison, and Don Laughlin was also entered so that they could gain experience in competitive rifle shooting for future years.

At this rifle meet it was also possible for competitors to qualify for expert classification in the prone and standing positions. Those who won Expert medals in the prone position were: Tom Bohley, Bud Cook, Darrell Kilburn, Ned Hutchins, Dan Burton, and Jim Chesworth. The only man in the Rifle Club to win an Expert medal in the standing position was Jack Wright.

# Sigma Nu Wins Both Intramural Boxing And Wrestling; Crowd of 1800 Present

by Ed Schwarze

The place was Jackling Gymnasium. The time, seven-thirty last Friday evening. The event, intramural boxing and wrestling. The winners, Sigma Nu and Sigma Nu.

Yes, this year Sigma Nu made a clean sweep of intramural boxing and wrestling by scoring a total of thirty-four points in boxing and thirty-nine points in wrestling.

Sigma Nu's Tom Cooper riding Runner-up Don Beverlein of Kappa Sig

There were six Sigma Nu boxers and five of their wrestlers in the finals Friday night. Of these eleven finalists, four of their wrestlers and one boxer took championship medals. Kappa Sig, with nineteen points, and the Tech Club, with sixteen points took second and third places, respectively, in the boxing field. Sig Ep with thirty points, and the Tech Club with twenty-three points, placed second and third, respectively, in wrestling.

The tournament finals were preceded by the preliminary bouts, held both Wednesday and Thursday evenings at seven-thirty p. m. and running through a schedule of approximately twenty matches per night. The matches were run off alternately starting with a wrestling bout, followed by a boxing event, and then another wrestling bout. There were some real good matches in these preliminaries. Just to mention a couple, the 135-pound boxing bout Thursday was won by Mike Taylor, who had started off slow against his opponent, Eddy Kopaskie, but came back strong the last round and a half. Another interesting and unusual round was when Ray Parker defeated Ed Klages by a knockout within the first minute of the first round.

Friday night's competition was probably the more thrilling, since each bout would determine another champ. The first match of the night was the 118-pound wrestling event in which Tom Beckman of Sig Ep met Charles Campbell, a Tech Club entry. Campbell just missed pinning Beckman in the second round as the clock ran out, but he came back strong again in the third

round and pinned him fifty seconds after the third round had started. In the 118-pound boxing class, Ron Fenelon of Sigma Nu defeated Howard Finkelstein from Shamrock Club. Finkelstein put up a real good battle, but Fenelon was just a little too much for him. In the next match Ed Kozeny, a Sig Ep entry in the 126-pound wrestling class, defeated Ted Jones of the Engine Club. Kozeny won the match on points, 5-2. The next event, the 126-pound boxing bout, was a real slug-fest between Bob Moxham of Sigma Nu and Art Herschbach of Tech Club. Art downed his opponent twice in both the first and second rounds to win the fight on points. The next fight on the schedule was the 135-pound wrestling event in which John Glaysiewicz, a Sig Ep entry and winner over Paul Silvers Thursday night, pinned Jan Coester of Sigma Nu in the last 18 seconds of the second round. This makes the second year in a row that Jan has been the runner-up in the 135-pound class. In the 135-pound boxing class, Mike Taylor of Tau Kappa Epsilon won over Bob Nelson, another Shamrock entry, in a very close match. In the following wrestling bout, Wesley's Tom Jordan defeated Triangle's Ladi-

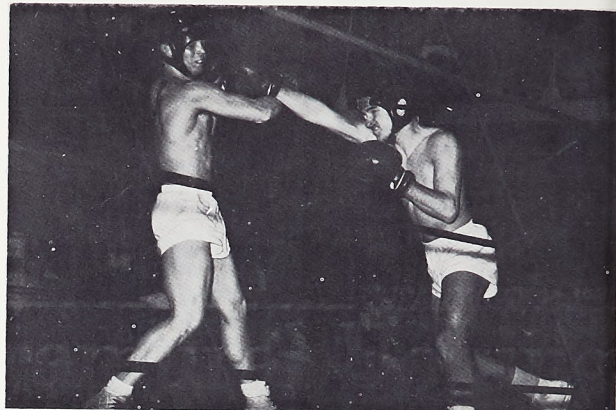

mar. Aubrecht in the 145-pound class. Jordan had beaten Larry Peimann Wednesday night and Lyle Johnston Thursday night while Aubrecht had downed both Roger Anderson and Bob Free-land. The 145-pound boxing finalist, Lee Landers of Sig Ep and Don Muse of the Engine Club just literally beat each other to a pulp. Muse came in strong at the beginning of each round, but Landers' long arms enabled him to land the most number of effective blows and win the match. In the next mat contest, James Verdi of Sigma Nu defeated Mike Kearny of Sig Ep in a close fight. At the end of the second round, Verdi led on points two to one, and he scored one more point in the third round for an escape to win the round. In the 155-pound boxing class Erick Norman of Kappa Sig edged out Bill Butcher, a Sigma Nu entry and champ of last year's 155-pound weight class in a real close fight. Following the 155-pound boxing event was the 165-pound wrestling bout. Here Lenny Lumar of Sig Nu out-pointed Bill Kirchoff of Kappa Sig in a real good wrestling event. Both of these fighters knew wrestling and both had beaten at least two other fighters in the preliminaries. In the twelfth event of the night some real hard punches were thrown by the two 165-pound entries. Here Bill Cooke of the Tech Club defeated Ray Parker in a close match that went all the way. In the 175-pound wrestling class Tom Cooper of Sigma Nu defeat-

ed Don Beurelein of Kappa Sig on points, 2-0. This was the third straight year that Cooper has won the championship in one of the wrestling classes. One of the best enjoyed fights of the night

was the 175-pound boxing bout between Charles Becker of Kappa Sig and Paul Weigard of Sigma Nu. Becker, a freshman, who fought Wednesday night for the first time in his life, defeated Weigard in a real bloody battle. This makes the second straight year Weigard has been runner-up in the 175-pound class. In the last wrestling bout of the evening Charles McCaw, a Sigma Nu en-

schreck of Sigma Nu with a technical knockout. Mesken floored Mannschreck three times in the first round, which is automatically a TKO.

A crowd of some 1800 persons waded through the snow to see these fights and it's pretty safe to say that even though their favorite fighter may have lost the match, all enjoyed these bloody episodes.

Bill Cook in action during his win over Ray Parker of Sigma Nu

try and winner of the heavyweight wrestling crown last year by a score of 1-0, again won a close match over Jim Washburn of Tech Club. Washburn led at the end of the second round on points, 1-0. Then McCaw got one point for an escape and two for a takedown to

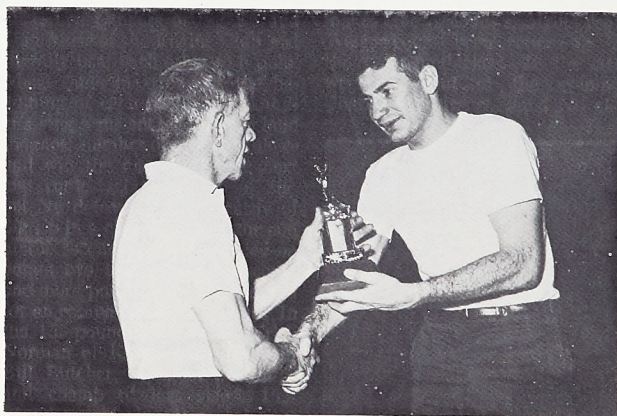

The teams and order of placement are as follows:

## WRESTLING—1960

## Origin of St. Pat's Celebration This Year Marks Fifty-second Anniversary

"Read all about the proposed St. Pat's Board in this issue and be prepared to vote on it Thursday, December 11, at Parker Hall." This announcement was taken from a December 9, 1930, issue of The Missouri Miner.

On Thursday, December 11, the student body voted on and adopted the St. Pat's Board by a three-to-one majority, the most important student body vote in the history of MSM. For this was the beginning of St. Pat's as we know it today. Not a mediocre party weekend, but a well organized, well financed celebration, managed by an experienced group.

The St. Pat's Board of 1930-31 not only raised enough money to finance St. Pat's that same year, but made over 600 dollars, thus removing any doubts about the success and future of the St. Pat's Board.

Money that year was obtained by the St. Pat's Board by various means, some of which are continued to this day. One of their first efforts to raise money was a

raffle, the main prize being ten dollars in cash. Other prizes, kindly donated by friendly Rolla merchants, ranged from a bottle of cough syrup to a pair of Bostonian shoes. School spirit must have been great in those days to get fifty cents for those raffle tickets.

Wednesday night, January 21, they held their first benefit show, "The Passion Flower," starring Kay Johnson, Kay Francis and

Charles Bickford was shown at the Lyric Theatre and the proceeds were shared with the St. Pat's Board.

A bridge tournament and benefit dance rapidly followed to add to the increase in funds.

That St. Pat's celebration exceeded all former occasions of its kind and laid the foundation for the St. Pat's celebration as we know it today.

## Shillelagh Tradition

The shillelagh, as carried by many of our freshmen, reminds us that it was St. Patrick who drove the snakes from the Emerald Island. But there is a story behind this, and this tale when unfolded reveals many of the exploits of St. Patrick over 1500 years ago.

The great mountain of St. Patrick in Ireland was the refuge of our patron saint for many years. One day, while St. Patrick was inside the cave praying for the welfare of his people, all the demons of Eire came down and gathered at the base of the mountain.

In great droves and swarms they came, some as serpents crawling on the rock, others as monstrous birds of prey, filling the air and darkening the sky. St. Patrick, reaching for his golden bell, rang it lustily. The bell was a symbol of his gospel, and the sound of it was heard throughout Ireland, bringing peace and joy to all. Hearing the bell, the demons scattered, and were so frightened they fell into the sea and were drowned. From that time until seven years later, there was not an evil creature in the whole of

(Continued on Page 12)

## Symbol of Safety

### Dames Present Slate of Officers

The University Dames held their second meeting of the semester in Parker Hall auditorium last night, March 3. The slate of officer candidates selected by the nominating committee was presented. Watch next week's Miner for a list of these candidates. This will give the members who weren't present a chance to think about their selection so they will be prepared to vote in the April election.

There will only be two more meetings of the Dames this semester. However, they will be big ones and promise lots of fun and excitement for all of us. In April, of course, we will have our election of officers for the school year of 1960-61. The Program Committee is already very busy on its plans for the May Style Show and banquet for our graduating members. Let's all plan right now to attend that banquet and give our senior girls a farewell they will always remember. Just think, we will all be graduating someday, too. (We hope, huh!?) Probably if any "single" Miner ever read this column he would be a little amused at the terms used in reference to Dames graduating, senior girls, etc. They can't know what it means to have someone sharing every test, every phase of their education as the wife of a student does. The term "we" is used so automatically that we use it in reference to everything concerning our married life, even the educations our husbands are working for. One of the best and happiest ways to share in your husband's college life is to participate in University Dames. So why don't you girls who have never been to a Dames meeting join us for our next meeting in April. They are held the second Thursday of the month at 8:00 in Parker Hall auditorium and besides the business meeting, we always have a good program and delicious refreshments (free). So, ask your husband to baby sit for you April 14 and come to Dames.

Remember, watch the Miner for news of Dames. Our thanks to the Miner Staff for allowing us a little space each week in their paper.

## for Life Insurance Buyers

### Policyowners of College Life of America Protected by Strict Indiana Insurance Law!

Safety is the first requirement of any life insurance policy. And it's absolutely guaranteed with The College Life Insurance Company of America's famous BENEFACITOR Policy. Indiana law requires investment in only approved securities and wide diversification of investments. In addition, it requires that reserves be actually on deposit at all times with the State of Indiana. Organized under Indiana law—and additionally regulated by the laws of the 36 other states and the District of Columbia in which it operates—The College Life Insurance Company of America automatically assures the ultimate in safety and security.

It will pay you to get full information about College Life's BENEFACITOR Policy and its 7 unique bene-

fits. See your College Life representative today for full information about this policy. Be sure of that name—the College Life Insurance Company of America, headquartered in Indianapolis, Indiana—for the first and finest.

**BEST'S—Nation's Leading Insurance Reporting Service says:** "The College Life Insurance Company of America is conservatively and capably managed, has reputable backing, and has made substantial progress since organization. The results obtained by the company have been very favorable—We recommend this company."

## Fraternity News

### Mrs. Ventemiglia Adds To Total Chapter Weight

Msgr. Kaiser our chapter chaplain has been assigned to Jefferson City as Pastor of Immaculate Conception parish. Phi Kappa Theta will always remember him for his sincere interest in the fraternity. We wish him the best of luck in his new parish, and hope his memory of us is a pleasant one.

Boxing and wrestling saw only two of our entrants win any matches. Chuck Hollenbeck won his first boxing bout but was unable to continue because of a nose injury. Hugh Murray, our heavy weight wrestler, also won his first match but lost the following night. These men and all the other guys from the house did a fine job and showed the kind of winning spirit that was lacking in these sports for many years at PKT.

With another St. Pats on the

way, just about everyone from the house has a date and things are shaping up for a real wild weekend. The float committee and just about everyone else has been working diligently on our entry in the parade. This year the theme will be Ben Hur and it will feature the famous chariot race between Ben Hur and Medusa.

Mrs. Ventemiglia single handedly increased the weight of everyone by at least five pounds last Saturday as the annual pizza feast took place. Mrs. Ventemiglia has, for the past three years prepared pizza that would make any red blooded Italian proud of his country. Let's keep Vince from graduating so his mom will be down again next year. Vince, you're not smiling.

### Pikers to Feature Gene Mitchell Friday Morning

The Pikes are in full swing with the festivities now that the St. Pat's vacation is here. The snow caused a delay in the work on our float, but with the help of many workers Bob Tooke, who is the "big" boss of the project, has shaped the mass of lumber, wire, and paper into an outstanding model of a viking ship. From all indications this weekend should be enjoyed by everyone. (How about the interview trip Doug?) We are planning a breakfast dance featuring Gene Mitchell's Band from 1:00 a. m. to 5:00 a. m. here at the Pike house. All couples are welcome.

We are happy to include a new

addition to our pledge class. Jim McDuff, from Manchester, Missouri, was officially pledged last Monday evening. Congratulations Jim!

Pikes have also been active in the field of sports. Point winners in the boxing and wrestling matches were Smiling John Galvin, Ken Nelson, and Jim Edwards. Volleyball was the sports event for this week. Also, it should be mentioned that Don Janning has finished his cabinet and is selecting members for his club.

Following the last round of exams before St. Pat's everyone eagerly welcomed the vacation with a big "here's to all."

### Dr. Bosch Speaks to Beta Sig at Initiation Of Eight New Brothers

Beta Sig is proud to announce the activation of the following men: Dave Bruegge, Dave Decker, Wilhelm Gerhardt, James Harle, Larry Pieman, Wayne Scheer, James Stadlerman, and Harold Warner. These men have worked very hard as pledges and I'm sure they will be a great asset to Beta Sig as actives. Jim Stadlerman was chosen "Honor Pledge."

Before being activated, however, the pledges made an unexpected move. They walked out Saturday, March 5, while everyone was still sleeping. The actives were quite surprised but the pledges were even more surprised when they finally returned home only to find their clothes being washed for them. They were real happy about the whole thing, I think.

The walkout wasn't the only thing that took place while everyone was sleeping. A few fellows was taken for quite a bit of money Saturday morning, March 12, as some unknown, smooth fingered devil, helped himself to their money. As is the case with every detective story there is always a hero and a villain. In this particular case Leo was the hero as he chased the crooks away from

room 3. He put up a terrific fight but only in vain. While Leo was being questioned by the press he made the following statement. "I hit him so hard he rolled down the stairs and out the front door, never to be seen again." Tough luck. The villain was lovely Dave as he did his best to protect the crooks and believe me he did a real good job as he locked our furious, blood hound, Duke in his car. Dave being the nice guy that he is will probably help the fellows financially who were hit the hardest.

A most enjoyable talk was given by Dr. Bosch of the Paint and Chemistry Department this past Sunday evening at the initiation banquet. His talk was a very interesting one and his humor, as most of the fellows will agree, is unmatched. We are all very grateful to him for taking the time to speak with us.

With St. Pat's here everyone is looking forward to the usual good time. The theme for the dance tonight is a western one. A lot of work has been done by our Social Chairman, Louis Kuhlmann and his committee in preparing the decorations.

### Kappa Sigma Does Well In Boxing and Wrestling

The Kappa Sigma house Friday night was filled with an air of accomplishment as the expected good showing in boxing and wrestling became a reality. The runner-up position in the boxing competition and the fourth in the wrestling competition improved the standings from last year and it is hoped that these will improve even more next year. Congratulations to Charlie Becker and Eric Norman, who brought home the bacon, by taking the 175 and 155 boxing championships respectively. Bill Kirchoff and Don Buerlien's runner-up spots in wrestling added to the showing of the house. Thanks to the fellows who spent their time and effort in preparing for the competition. Also thanks to all who supported the contestants the three nights of the matches.

There is still an air of suspense around the house as the pledges plan their walk-out. With this break in the weather it should come soon. Make it a nice warm weekend will you guys.

Plans are underway for a barn party to be held at the house the Friday night of St. Pats and it should prove to be one of the better parties of the year. Thanks are also in order for Tom Gresham, who has been working feverishly to get the new stereo system in before St. Pats. Thanks for your time and effort Tom and for a fine job.

There has been word spread around the house by Harold Brady that there are not enough pledges to remove his golden locks. Pledges you aren't going to let this challenge go unanswered are you?

### Sunday Afternoon Party Planned by the Theta Xi's

As our last week's headlines indicated, the Theta Xi's are ready to party, party, party for St. Pat's. Some of the older members can't believe that St. Pat's, 1960 has rolled around, but where there's a will, there's a way! Many traditions, transactions, and happenings will be following the true Theta Xi spirit. The glorious festivities will begin on Wednesday, last class.

Let's float off on St. Pat's cloud to picture the fabulous weekend at the Big White House on the Hill. Almost all of the dates will be imported and some as far off as the East Coast. Paul Laz, Art, and Neal can brag about that last comment, so brag! The cloud drifts over the Float Parade on Friday afternoon and now the evening surprise meal. We don't believe that even the Steward knows what it'll be. All will enjoy the Masquerade Ball with the orchestra of Buddy Morrow and

then the "special entertainment" by the two Petes' (Lan and Szar) at the house. Any more hockey games guys? Or who's the latest to be "it?" Val may even smash his St. Pat's favor! By now everyone is really floating over to the partying of Saturday. The night should prove to be a rambunctious one for sure. Richard Maltby will be providing the entertainment in the "earlier" hours of the night with the tuxes and formal glowing once again. At the "later" hours in the Theta Xi house, we'll be dancing to the music of a five-piece band from one to four. Sunday is the time to come down from our touring cloud to bid farewell to St. Pat's, 1960. Such fond memories!

This promises to be a bigger and better St. Pat's than ever before. Come one, come all and let's really show our appreciation to the Patron Saint of Engineers.

P. S. Vote for Jack Brenner, the Ugliest Man on Campus.

### Sig Pi Plans Another Great St. Pat's Float

As the time for the St. Pat's parade draws nearer and nearer, it looks as if Sigma Pi fraternity may again have its float entry finished on time although there were some very serious doubts in some people's minds just a few days ago. Work on the float progressed very well this past weekend on the float under the leadership of Brother Skow and his committee despite several interruptions for the purpose of snowball fighting (we are hoping of course that Assistant Dean Hershkovitz does not read this article.)

The Sigma Pi volleyball season gets off to a flying start this week with games Monday and Tuesday nights. We have high expect-

tations of the team this year although it will be playing without one of its big guns, Brother Wolsey, through these first two games.

Our hard luck front living room window has fallen out again! I believe that Brother Pfeiffer has volunteered to fix it this time although it is rumored that the window might have been slightly cracked when put up by Brother Randolph the last time this unfortunate accident occurred.

Well, until next week, this is your Sigma Pi reporter saying "LET'S HAVE A PARTY!!"

Oh, by the way, is there anybody who would like to take care of a still unhousebroken mascot for the weekend?

### Kappa Kappa Psi Pledges Four New Men at Meeting

At its monthly meeting Kappa Kappa Psi, honorary band fraternity, pledged four new men. The new pledges and their instru-

ments are: Wayne Schoeffel, clarinet; Bart Lammers, trombone; Rich Porter, frenchhorn; and Gregg Miller, baritone. We of

### Wesley New Threat In Intramurals

This year for the first time Wesley is posing a threat in intramural sports. So far this year we have managed to field a team in almost all of the intramural competition. The number of wins versus losses may not appear to be favorable, but our record is noticeably much better than in previous years.

Part of the result of a rejuvenated athletic program was in evidence last week as Tom Jordan led the Wesley Wrestling Team into fifth place in overall standing. This was accomplished despite the fact that one of the Foundation's most promising entrants, Larry Cooley, had to drop out of competition as a result of a two week bout with the flu.

During the St. Pats festivities Wesley will not hold any type of planned program. Despite this fact the house will be open to anyone that wants to drop by. As soon as the snow clears away there will be volleyball and horse shoe games held in the backyard for any aficionados of these sports.

Last Sunday after rescuing Dr. James from a snow drift, we assaulted him on the reasons a man has for choosing a teaching career. Does a teacher have a real feeling of fulfillment from his job. The spontaneous response left him reeling at times under the rapid fire questions posed to him by the group. Many members who are uncertain about their choice of engineering as a profession asked him if there was any way to be sure of your choice.

Monday night the executive council met to discuss plans for the coming visit by the SMS Wesleyans. A committee was set up to plan activities and decorate for the occasion. The theme has been chosen and appropriate decorations will be supplied.

March 25 will mark another first for the Wesley Foundation. At 6:30 p. m. we will hold our first Friday night meeting. To start off a new era in the W. F. Dr. Feind has been asked to tell about hypnosis and its uses. Hypnosis has a large value in a physician's practice as Dr. Feind will point. There might be a demonstration if time would permit. Even though his program will be enjoyable, don't forget April 15 and the visit from co-eds west of here.

Kappa Kappa Psi are happy to welcome these men to our growing organization.

Kappa Kappa Psi has several projects underway at the present time. The most ambitious of these is the selection of a new band director. Some of our more qualified members are aiding the school administration in its search for a qualified individual to direct the band.

Another of our projects is the construction of a new sousaphone rack. This rack will be placed in the band room and will make possible much better care of these large instruments.

Plans are already underway for a jaunt to Pittsburg, Kansas, for our District Convention which is to be held sometime in April. Several members are planning to attend. What we are wondering is whether they are going for the purpose of legislating or for the purpose of partying.

We want to welcome the girls to Rolla and hope they enjoy St. Pat's as much as we hope to.

## More Campus News

### M.R.H.A. Men Decorate Dorms with Snow Gallery

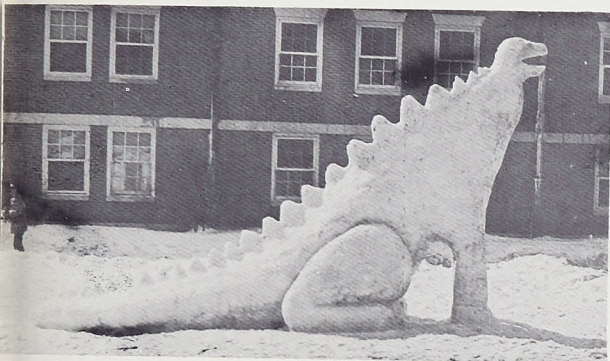

Members of MRHA showed considerable talent as a Snow Gallery emerged from the drifts which had filled the Quadrangle between the dorms. Many varied and sundry shapes take form under the hands of men who have displayed tremendous amounts of talent and imagination in their art creations.

The Board of Governors under the prompting of the PA's offered a prize of \$5.00 as a goal for these scheming sculptors. However this amount was quickly raised to \$12.00 with \$5.00 and \$3.00 being added for second and third places. Under the stimulus of the increased prize money the snow began to really fly in earnest. The entries snowballed from then on. Saturday afternoon there were numerous bands of workers dotting

soused soul hung onto a lamp post while a laughing Buddha sat nearby. Other parts of the quad sported a fawn, and a roguish artist studying his curvaceous work and perhaps wished he had had a chance to know his models better. "Good-by Cruel World" was portrayed by a dejected soul pulling the handle while he stood in the commode.

At six o'clock all work was halted as Mrs. R. Nolte, Mrs. M. Cole and Mrs. C. Remington Jr., wives of various instructors at MSM, judged the conglomeration of statues. The dinosaur won first prize with the sanitary suicidist and the Buddha taking second and third respectively. The sportscar and arts-works exhibits were given honorable mention.

Sunday the MHRA invited the

First Place in Snow Contest

the block while they feverishly tried to beat the deadline on the Snowman Contest.

The whole thing began when a frustrated Miner returned from a couple of tests and to show his state of mind constructed the infamous "Joe Miner" receiving the Royal Blue MSM Shaft. This was on Friday afternoon. During the night a dinosaur was conceived and the coming dawn greeted us with the sight of an eleven foot snow monster in the Quad.

As the day wore on more familiar shapes sprang up in the forms of "Motorcycle Mack," a Sphinx, which was guarding the entrance to House 6. It wasn't long until the staccato of exhausts reverberated thru the air as the Maesarat stood enticing onlookers to dreams of sport cars and the thrills of this type of racing.

It wasn't long until the remains of a caveman were found before the carnivorous dinosaur. A poor

citizenry of Rolla to stop by and view the spectacle. Cameras clicked incessantly as children posed beside the Sphinx or dinosaur. Warm weather left some of the figures in need of repair but all were still standing as the sun dipped out of sight.

Photographers from the Post Dispatch and Rollamo, came over to take more pictures, along with local papers. This unprecedented favorable publicity caused Bruce Scott, MRHA president to remark "This is the greatest thing that ever happened to the dorms!"

#### THAT'S ENCOURAGING

Jeff, enamored of his blonde kindergarten classmate, told his mother the romance was making progress.

"Sally spoke to me," he said. "What did she say?" inquired Mon.

"I hit her and she said, 'stop that.'"

## Sigma Phi Epsilon Provides 3 Champs, One in Boxing and Two in Wrestling

The muscle-benders of Sig Ep gave a good showing in the boxing and wrestling finals Friday night. We had three champions and two runners-up out of the seven men entered.

Of the two boxing entrants, Lee Landers took first place in the 145 pound class, while George Krieger gave a very good showing in his first year with the gloves. In wrestling, Tom (the beast) Beckmann took second place in the 118 pound wrestling class. The 126 pound class saw a new champion this year in "smiling Ed" Kozeny. John (the beard) Gladysiewicz won in the 135 pound class with a fancy bit of New York wrestling. A second place went to Mike (killer) Kearny in the 155 pound class. Mike was, as some may remember, the 145 pound champ in 1957. Ken Delmain gave a very good showing in the well-filled 165 pound class. While winning only one, we be-

lieve that Ken gave a more fearsome appearance than any of his very worthy opponents. (Grrrrr)

On the more carefree side of the picture we believe it noteworthy to mention that the party boys and basketball team went to Cape for the annual Sig Ep State Basketball Tourney. The guys at Cape furnished us with the most prized of all possessions, GIRLS! And of these there were plenty! A party was given by the Cape chapter Saturday night after the games.

Events followed events and by the time the evening (?) was over the St. Charles Hotel was really "pumped up". "Good guy" Nolfo and "Bad Guy" Landers got together with "Teacher" Kearney to bring back some tales of woe and wit. A wonderful time was had by all and Ken Delmain probably knows "Henderson Street" better than most people living in Cape.

But even though Jerry Chatham

"lost his reputation," Mo Gamma finished third in the tourney.

## Right down the alley

of America's second largest telephone system

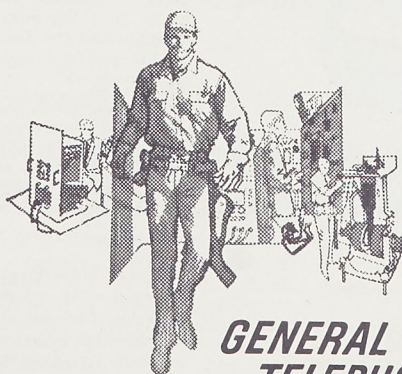

Never before has America known such sustained growth and expansion. New industries, new plants, new additions to old plants—each day reveals dramatic changes on the industrial horizon.

And to help provide the new and greater communications systems for this building boom is our daily work at General Telephone.

You'll find a good example of what we mean in Muskegon, Michigan. Here Brunswick-Balke-Collender has just completed huge new facilities to keep up with the demand for its world-famous automatic pinsetters. In the same area, foundries, oil refineries and three new chemical plants are going round the clock.

And as Muskegon grows and prospers, its communications requirements become more complex and compelling. That's why Gen Tel, in the past three years, has spent more than \$36 million in its Michigan operating areas alone—improving, increasing, expanding its telephone services.

This is a typical example of how we strive—not only to meet today's communication needs, but to answer the needs of tomorrow, too.

It is tradition that on being knighted, the seniors have to kiss the Blarney Stone. Many people are familiar with the Blarney Stone and have heard stories about it. But few know the true story or even know how it got to Rolla. For those who have not heard the true legend, and especially for the freshmen, the following account is given.

The Irish people have as a race, for generations been connected with a rare and fabulous stone, known only as the mysterious "Blarney Stone." It is mysterious in that it exerts an effect upon people with whom it comes in contact, that has hitherto been unexplained. Many explanations as to its power have been forthcoming from intelligent and less fortunate men alike, but no one as yet seemed to come upon the right solution to the problem.

In the year 1907, near Dublin, Ireland, an unusual stone was unearthed, while an excavation was being made for Casey Hall of the Dublin School of Mines. The stone was covered with moss and bore unusual inscriptions, written in the oldest type of writing known—hieroglyphics, which is common on old stones. The construction boss in charge of the work decided that the stone was of some importance and decided to take it to Dublin, where the inscription on the stone might be deciphered.

On his way to Dublin the construction boss met other travelers, and when he spoke to them he found himself obsessed with the overwhelming desire to exaggerate as well as inaugurate strange stories that he was at a loss to attribute to himself, for he was an honest Irishman. It is said that those travelers to whom he talked were amazed at his abilities along those lines, and word of him spread throughout the whole of Ireland.

When the man reached Dublin with the stone a professor examined it, but was unable to translate the inscriptions. The professor was affected in the same way. Many men, including professional translators, examined the stone, and all were affected by the strange influence it held over those who touched it. The fame of the stone spread throughout the civilized world, and it was called the "Blarney Stone."

The stone disappeared, until the year 1909, when it was found, of all places, in the small town of Rolla, Missouri. A policeman named Paddy McFinnity, noticed the stone lying on the ground in front of the local pool hall, as he walked down Pine Stret. He was compelled to pick the stone up by some mysterious force, and immediately took it to the campus of M. S. M. in hopes that some professor might be able to translate the inscriptions on the face of the stone.

By some odd coincidence the day on which Paddy found the stone happened to be St. Pat's and this officer, under the influence of the stone handed it to St. Patrick, who was just finishing his speech in front of Norwood Hall. St. Pat experienced little trouble in translating the inscription. To his assembled followers he read aloud, "P. F. O'Flannigan, C. E.,

**St. Pat's Board**

(Continued from Page 1)

a celebration to be proud of and one to look forward to every year. The students of M. S. M. should help the St. Pat's board when ever they can even if it is just through buying a ticket to one of the board's sponsored movies or by actually helping with St. Pats. With the St. Pats board and the help of the M. S. M. students will always have a St. Pats. and a celebration to remember.

M. E., Consulting Engineer. St. Pat then kissed the Blarney Stone and again spoke to the crowd in a manner in which only St. Patrick could express himself. He commanded the seniors to come forward and kiss the stone as he had done and explained to them that it was a great honor to be allowed to do so. The seniors chose their most popular members for the ceremonies and the seniors chosen were then knighted into the order of St. Patrick and became true engineers and kissed the Blarney Stone. From 1909 to the present time all of the degrees that the school gives have been given to P. F. O'Flannigan and he is now one of the greatest engineers in the world.

**REALLY CONSIDERATE**

"Madam," said the judge severely, "you are charged with creeping into your husband's room and shooting him with a bow and arrow. Will you now tell the jury your reason?"

"Yes, your honor," was the reply. "I didn't want to wake the children."

**SHILLELAGH TRADITION**

(Continued from Page 9)

Ireland.

The life of St. Patrick was spent in freeing his people from the dreaded cult of devil-worshippers, the Druids. He was born in Scotland in the year 387, of a Roman father and a French mother. At the age of 16, young Patrick was sent into slavery. Later he was taken into Ireland, and there sold to a Druidical high priest named Milchu, whose evil ways Patrick was later to fight.

After six years a shepherd for Milchu, Patrick returned to Scotland. He believed that it was divine providence that had protected him while a slave, and he then decided to make a tour of the monasteries, intent on becoming a priest. Later he was sent to England to fight the pagan hordes.

In 433, Pope St. Celestine I commissioned him to work as a missionary among the Irish folk. He first planned to return to the castle of Milchu, and impart him

with the blessings of the Children of God.

But old Milchu, having no desire to become a Christian, and thus subject himself to a former slave, piled all his furniture and treasures in the middle of his castle, ignited the pile and sat down in the middle of it, thus ending his troubles.

Our patron saint found it no easy matter to convert the Irish people to Christianity, but he eventually succeeded in turning some of the powerful Irish kings to the Christian way, and from then on the people were easily led.

St. Patrick was usually equipped with a large staff, topped with a cross, and wearing a rough shirt and sandals. His sleeping places were usually caves and rocks, his favorite being the mountain named after him. He spent the last years of his life in visiting the churches he had founded, and on March 17, 493, he left the world in death. He had reached the age of one hundred and six.

**Arrival of St. Pat**

(Continued from Page 3)

Usually it was a bleary-eyed Miner that spotted the time-honored flat car coming down the tracks. But this year a new touch was added to start the festivities rolling. As St. Pat neared the Frisco Station he was cheered on by an enthusiastic crowd of clear-headed, bright-eyed Miners. Even though it is reported that several tears came to his eyes as he thought of the past parades, it was still evident that he was proud of his followers as they braved the elements to pay most SOBER homage to their Saint, the greatest Saint of all, St. Patrick.

**PRACTICE MAKES PERFECT**

There once was a young lady named Tess

Whose necking was rather a mess

But in less than a week

She acquired a technique

And now she's a social success.

Any man who think he's more intelligent than his wife is married to a smart woman.

**A Campus-to-Career Case History**

Field assignments, plus theoretical lab work (above), keep Larry Carmody's engineering career stimulating.

## If your future is engineering, put yourself in Larry Carmody's shoes

Lawrence M. Carmody formed some firm convictions about his future engineering career while a senior at Illinois Institute of Technology.

"I wanted to do significant work," he says, "and have a variety of assignments that would broaden me and keep my job interesting. I wanted to make good use of my schooling and express my own ideas. And, like anyone with ambition, I wanted all the responsibility I could handle and real opportunities to keep moving ahead."

Larry got his B.S.E.E. degree in June, 1955, and went with Illinois Bell Telephone Company in Chicago. He first worked in the Radio and Special Services Group of the Transmission Engineering Division. There, in addition to receiv-

ing more advanced training, he:

- designed mobile radio systems
- did path studies of radio circuit routes
- worked on a special air-to-ground communications project for an airline
- did field work for a new, transistorized walkie-talkie system developed by Bell Laboratories.

Today, Larry is gaining further valuable experience by planning and designing statewide long-distance facilities involving microwave, carrier, and cable systems—projecting circuit needs as far ahead as 20 years. His recommendations often represent hundreds of thousands of dollars in equipment and facilities.

"Telephone company engineering is 'tops' in my book," says Larry.

Like to be in Larry's shoes? Many young college men are pursuing careers just as rewarding with the Bell Telephone Companies. Why not find out about opportunities for you? Have a talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.
