Bailey Elected President of St. Pat's Board

At the April 25th meeting of MSM's St. Pat's Board elections were held and the following men were chosen as officers for the 1963-64 school year: Keith Bailey, Lambda Chi Alpha's representative was chosen president; Harvey Welch, Kappa Alpha's St. Pat's Board representative, was elected to the office of vice-president; Al Buescher, from Phi Kappa Theta, will serve the board as treasurer; and Fred Hermann, Phi Alpha's representative, will fill the office of secretary.

The St. Pat's Board, besides planning and preparing the week-end during which the engineer's traditional patron, St. Patrick, is honored, also stages the Homecoming Dance each October and sponsors a benefit movie each semester at a local theater in Rolla.

Under the leadership of President Bailey and his fellow officers the St. Pat's Board is already beginning preparations for next year's festivities and its members are looking forward to a successful year.

Paul M. Dowling Guest Speaker at IFC Banquet

The first annual IFC Banquet preceded this year's Greek Week festivities. The highlights of the banquet was the presentation of the IFC awards. Clint Clark of Kappa Sigma was chosen as IFC Man of the Year. The IFC Scholastic Trophy was awarded to Pi Kappa Alpha. Earle Neubauer, president of Pi Kappa Alpha, accepted the trophy. The IFC presented a set of silver goblets to

NUMBER 31

Dr. Baker Tells His Plans for MSM While Visiting Here

"Are there any major changes you would like to see as Dean?" With this question began the first in what is hoped will be a long and successful series of student leader-dean banquets with our new and energetic dean-elect, Dr. Merl Baker. Dr. Baker handled this question with the reservation he must give many questions asked him during his first period of orientation to the school, "I have not had the opportunity to fully understand the situation at MSM, so I will only make this comment — Any legislation important to the growth of the school will be given immediate consideration and everything possible will be done in this direc-

tion." When asked his opinion on the future expansion or standstill on the institution, his reply was simply, "I believe my feelings on that can be summed up in one word — growth."

Attending the morning meeting and interview with Dr. Baker were various organizational heads, including Dale Marshall, of the Student Council, Doug Told, for the IFC, Keith Bailey, representing the St. Pat's Board, and speaking also from the viewpoint of a varsity athlete. Dennis Meehan spoke for the Independents, Don Bugg for the MRHA, Clint Clark, as past Student Council President, Charles Becker, as past St. Pat's Board President, Bob Sieckhaus, as past editor, Rollamo Board, Bill Crede, for the Rollamo Staff and Dave Blume and D. F. John, representing the Miner, were also in attendance.

In co-ordination with our obvious future expansion, many

possibilities were discussed for better acquainting the incoming student with type of work done here, the preparation required for success, and the job positions to be filled upon graduation. Dr. Baker suggested the Miner be sent to state high schools — not presently done — and that features articles on the curricula form both the undergraduate and professional view points be presented solely for the edification of these high school readers.

It was also pointed out that the attraction of capable out-of-state students can be an asset to the growth and reputation of the institution. Even with increased out-of-state tuition, MSM could prove economical to many from distant locations. Students from nearby states even tend to help the Missouri economy because they boost trade with this state upon returning to their own, and beginning work.

It was decided that larger state

"Miner" Fails by 4% to Rate "First Class" in ACP

Each year the American Collegiate Press, ACP, ranks nearly every regularly produced college publication in the nation. The competition increases so from yearly improvements that "the All-American paper of a decade ago might not make First-Class today."

Most of the campus realizes the strides the Miner has made in the last two years. It is interesting to compare it to other papers published by schools in the 2000-4000 enrollment range.

Under the rating system which gives ranks of All-American, and First through Fourth Classes, the Missouri Miner was given the Second Class honor rating, having 96% of the score needed for First Class.

The strong points in last semester's issues were: Coverage, or the extent the paper satisfies the school's needs, given 90%; headlines, type and printing, with an 89%; and makeup, or the way in which available material is arranged and treated in the paper, scored 82%. Falling behind were news and features writing, sports coverage and writing, and photography, with scores between 60% and 70%. The main criticisms here were a tendency toward overwritten yet lifeless presentation, and a set unvaried form of photography, without movement.

These points might be traced directly to the engineering background of the student body, however the paper does not compete with journalism school publications, such as the Columbia Mis-

sonian, and some of the outstanding collegiate publications are from such places as Rensselaer Polytechnic and Georgia Tech.

The staff of the Miner for the spring semester is incorporating many of the lacking points from the past, striving to gain the last 4% and go over the top.

Phi Alpha to Become Chapter of Theta Chi

A new fraternity will be on campus next semester. On May 18, 1963, Phi Alpha local will be installed as a Chapter of Theta Chi National Fraternity. Phi Alpha itself was founded May 23, 1960, by Micheal E. Deen. The to-be Brothers of Theta Chi have long waited this date with pride and great anxiety.

The Installation will be held at 2:00 o'clock in the lower dining room of Baxter's Restaurant on Highway 63. There will be an Open House at Phi Alpha following the Installation. Everyone on campus will be welcome. At 6:00 o'clock that evening, following the Open House, a banquet will be held in the College Inn of the Edwin Long Hotel. The list of distinguished guests that will honor the banquet with their presence will be: Dean Curtis L. Wilson, Assistant Dean Leon Hershkowitz, Assistant Dean Paul E. Ponder, IFC faculty advisor Karl M. Moulder, IFC President, the Presidents of each Fraternity on campus, and several National Officers of Theta Chi.

Doug Schellman Elected President Of Blue Key

At the last regular meeting of the year, Blue Key National Honor Fraternity held elections of officers for the fall semester of next year. Doug Schellman of Phi Kappa Theta was elected President by acclamation and succeeded Clint Clark in office. Bill Burchill of Acacia was elected Vice-President; Bill Crede of Phi Kappa Theta, Treasurer; Richard Schmidt of Kappa Sigma, Corresponding Secretary; and Lonnie Shalton of Sigma Nu, Alumni Secretary. Professor Bob Wolf was re-elected Faculty Advisor.

Blue Key has been a very active organization this past semester. During the St. Pat's celebration, Blue Key judged and awarded prizes for the annual shillelagh contest. Aluminum castings of the Blue Key emblem were sold in a nation wide sales campaign. This is the first year for this national service and indications so far point to a success. Plans were made for the MSM Blue Key directory to be put out next fall. It will contain more information

(Continued on Page 7)

IFC Elects for Fall Semester

The new president of the IFC for the fall semester of 1963 is Paul Gerhardt of Kappa Sigma.

The other new officers elected are: Ed Schmidt of Kappa Alpha, Vice-President; Hugh McCane of Phi Kappa Theta, Secretary; Baurly Green of Pi Kappa Alpha, Treasurer; and Lonnie Shalton of Sigma Nu, Judicial Board President. The Faculty advisor for the coming semester will be Associate Professor Robert V. Wolf.

The overall goal of the Interfraternity Council is to promote harmony and cooperation between the member fraternities. The proposed ideas for achieving this goal include: a coordinated rush week program; a cooperative food buying plan including the eating clubs; and a tool cooperative program with a local merchant.

Doug Told presents scholastic trophy to Earl Neubauer, representing Pi Kappa Alpha.

the retiring Dean and Mrs. Wilson. Doug Told, president of the Interfraternity Council and master of ceremonies for the evening made the presentations.

The guest speaker for the eve-

fraternities at MSM by saying that. "Though fraternities are dying elsewhere, their presence here at MSM seems very stable."

Dean Wilson reminded all of the over 150 fraternity men present to "work hard to always keep your fraternity strong" and to also work together to continue to unify a strong fraternity system. Dr. Wilson stated that, "the fraternities here have rendered a great service to the school and will continue to improve MSM in the future."

The banquet ended with the premiere showing of the 1963 St. Pat's film. Bill Burchill of the St. Pat's Board narrated the film.

Letters to the Editor

Comment on Student Council

May 5, 1963

Mr. Editor:

To comment, rather lengthily, on the editorial "A Need for Positive Thinking," I think it was without foundation and rather uncalled for.

The Student Council is not just an "organization," but a council of men designed to represent the entire student body in its relations with the faculty and the administrative officers of the school, and to correlate and regulate student activities. This indicates in plain and simple terms that the Student Council has more responsibility and more authority than any other student group on the MSM campus. This, however, does not indicate that this group is above criticism. On the contrary, it is not only accepted but welcomed — if it is constructive and has a sound basis. To say the least, your editorial was not only not constructive, but also unfounded.

When you state in your editorial that there is no room for minor differences and disagreements on the Council and that conflicts of interest must be overlooked, you indicate that you are unfamiliar with any type of organization. There is no organization on this campus in which there are no minor disagreements or no conflicts of interest. Unfortunately, not everyone can agree on everything. The whole basis of the Student Council is to iron out these disagreements and arrive at a decision which will benefit the greatest number possible. You know, just like the United States government.

You requested a description of the accomplishments of the 1962-63 Student Council from past president Clint Clark. Did you perhaps read this description? Does this sound like an "inactive and ineffectual" organization that can't overcome petty differences? To list a few of these accomplishments (and I hope you take note): the Campus Presidents' Banquet, the Dean Curtis L. Wilson Loan Fund, the FM educational radio station, the school promotion campaign, the Student Union expansion program, and the planning of a Student Traffic Court. Is that an "inactive and ineffectual" program? I seriously doubt it.

The future activities of the Council? Although just elected and organized, the present Council certainly does not give the indication it will be "inactive and ineffectual." Already, President Dale Marshall, an Independent, and Vice-President Doug Schellman, a fraternity man, have set up a program which promises to equal, if not surpass, the accomplishments of the past Council.

Through your editorial, I am forced to agree with you that many are ignorant of the Council activities, but I certainly didn't expect it from the editor of our campus newspaper. This shows not only ignorance but irresponsibility. I suggest you sharpen up.

I sincerely believe you owe the Student Council an apology.

Respectfully,
Robert Jung
Student Council

"Thanks" to the APO

Dear Editor:

The Phelps County Chapter American Red Cross wishes to thank all members of the A. P. O. for their work in behalf of the Blood Program this year. Special appreciation goes to Dennis Worley, who, as Chairman of the MSM Blood Drive, did a very competent job of recruitment of blood donors, and cooperating in every way to make this program a success.

Congratulations to Phi Alpha, the fraternity with the largest percentage of donors for this year.

Our gratitude to all who donated blood for the 1962-63 term.

Sincerely,
Alma Fuller
Chairman Blood Program

Humanities Will Be Emphasized by Dr. Baker

(Continued From Page 1)

high schools tend to yield more readily toward co-operation with a university program, and this is where work should be started in upgrading the entrance level of freshmen, allowing them to begin with more advanced work and therefore cover a greater area without upping graduation requirements.

Dr. Baker was quite emphatic on keeping the required hours at the present level. In doing this and still strengthening the curricula, he points out it will be necessary to trim the dead wood from the set-up. Old schedules requiring too much attention to processes and ideas no longer basic to engineering can be cut to fewer hours or deleted completely. The humanities, however,

will serve even greater purpose in the future, through their strengthening, if not increase. "When we realize that today's engineer is in many very important positions, it is easily seen that he must

have a more liberal base than yesterday's engineer, who needed a great deal of technical knowledge."

Although the new dean will not commit himself for or against a five year program, he thinks favorable about an "enrichment program" whereby a man will spend an extra semester, better acquainting himself with special-

MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M. S. M.

Chi Epsilon Initiates Members, Elects Officers

Chi Epsilon is the national honorary fraternity for outstanding Civil Engineering students. Chi Epsilon is dedicated to the improvement of the Civil Engineering profession as an instrument for the betterment of mankind; to recognize the fundamental characteristics of the successful Civil Engineer; to aid in the development of those characteristics; to encourage wherever possible any movement which will advance the best interest of engineering education; and to actively support, or, where necessary, to institute procedures and practice for the improvement of the Civil Engineering Department of the school at which the chapter is established.

Chi Epsilon selects its men on the basis of four attributes—scholarship, Character, Practicality, and Sociability—the four primary requirements of a successful engineer.

On April 30, 1963, Chi Epsilon initiated the following men: John M. Adsit, Dallas L. Brown, Dewey F. Brown, B. J. Choat, Edward G. David, Daniel W. Duncheon, David Fenton, Earle M. Hughes, Richard L. Jaquay, Allan H. LaPlante, Alan Lischer, Donald G. Peters, Lyle L. Pruitt, Billy H. Reid, Eugene A. Roeder, Haral W. Timmons, John L. Wendleton, Kenneth E. Buttry, Clarence R. Ellebracht, Elmer C. Hoepker, Billy L. Montgomery, Harry W. Padgett, Melvin L. Picker, John D. Smart, Clarence R. Warning, Phillip E. Custer, Dale E. Dobson, William L. Durham, Jim Roberts, Juh Ling Tang, Glen Taylor.

Chi Epsilon also announces the initiation of two Chapter Honorary Members. Chapter Honorary Membership may be granted to one, who by the virtue of his professional accomplishments in the field of Civil Engineering has attained a degree of eminence in the profession. He must also exhibit experience and ability worthy of emulation by young Civil Engineers.

Chi Epsilon is proud to announce the initiation of two such members: Dr. Thomas Fry and Prof. Frank Gerig Jr.

On May 14, Chi Epsilon elected the officers for next semester. The chapter will be headed by Graham G. Sutherland III as President; Charles Lyons, Vice-President; Lyle L. Pruitt, Secretary; Clarence R. Ellebracht, Treasurer; and Elmer C. Hoepker, Marshall.

Cards '63 Opener Guest MSMBand

The MSM-ROTC Band, under the direction of David L. Oakley, has been selected to present the half-time show at the St. Louis Cardinals Opening Home Game, October 13, 1963. The group has performed previously at St. Louis Cardinals events.

Television coverage of the show will include most of the nation, except the St. Louis-Rolla area. Approximately 60 band members will be used to present the show, which will be a 12 minute presentation.

Gene Roeder Named Blue Key Man of Month

Blue Key has named Gene Roeder as their selection for May Man of the Month. Gene is from Creve Coeur, Mo., where he attended Clayton High School. While here at MSM he has become well known through his hard work and pleasing personality.

He is a member of Kappa Sigma social fraternity where he has served as Vice-President, and a member of Theta Tau where he has held the offices of Corresponding Secretary, Scribe, and Vice-Regent. He is a member of the ASCE and Chi Epsilon. Gene is listed in Who's Who and has consistently been on the Dean's List.

He is active in the Undergraduate Research Participation Program, which is part of the Undergraduate Science Education Program that is sponsored by the National Science Foundation.

Cotton Carnival Next Performance for Band

The MSM-ROTC Military Band will appear in Memphis, Tennessee, on May 18th as a part of the annual Cotton Carnival, the largest band and float spectacle in the world. Over 100 college, high school, civic, fraternal and military bands will mix with 125 highly decorated floats throughout the four day Carnival week. Thousands of visitors will view the annual event.

The Band Company to perform in Memphis will consist of 54 members including a color guard

provided by the School's championship Pershing Rifles Company. The band will perform as one of 10 select bands in the Carnival's "Pre-Parade." Each of these 10 bands will perform just ahead of the Grand Parade doing solo spots and special numbers before the crowd. The MSM-ROTC Band has been assigned several serenade areas at which the band will stop and play to the audiences. Television coverage of the band's activities will be available in certain areas of the south only.

The Band is under the direction of David L. Oakley, and is a co-operative effort of the School of Mines and Metallurgy and the Department of Military Science.

Hartman Treasurer Of Gamma Delta

Don Hartman, of MSM, was elected Treasurer of the Midwestern Region of Gamma Delta, the International Association of Lutheran Students, at the annual convention which was held at Maryville April 19 and 20. The Midwestern Region includes chapters at colleges in Missouri, Arkansas, Tennessee, Kentucky, and Southern Illinois.

Don, who is now completing his

AIME Hears Talk On African Mine

Mr. John Beall, Editorial Director of the "Mining Engineering Magazine" was the guest speaker of the mining section of AIME May 8th. He gave an informal talk on "Professionalism in Relation to Mining in Africa." He showed several interesting slides of different mines in Africa that he took on a recent trip there.

New officers were elected for the 1963-1964 school year. They are as follows: President, Jerry Davis; Vice President, Gary Boyer; Secretary, John Henry; Treasurer, Larry Fuller.

The chairman of the Mining Dept., Professor Govier, announced that John Henry had been selected as "Outstanding Sophomore in Mining Engineering" for the 1962-1963 school year. He will be presented a set of mining engineering handbooks.

This award and the award for the "Outstanding Senior in Mining Engineering" will be presented at the Senior Banquet which will be held Friday, May 17 at the Houston House in Newburg.

BSU to Have Canoe Joust

Tomorrow, Saturday 18th, the BSU is holding its annual jousting match at the Lions Club Park. The contest is between the freshmen and the upperclassmen, and the freshmen have always won. The idea of this jousting match is this: Two teams of two men each, one the canoe paddler, and the other the lancer (holding an eight-foot padded pole) are the contestants. Each lancer tries to dunk his opponent in the lake, and when one succeeds he is, of course, the victor. There is a tradition to dunk the BSU Director in the lake when the festivities are over. It certainly shouldn't be broken.

Kappa Sig Has Election Of New Officers

Kappa Sigma recently held elections for the fall semester of 1963. These elected were: Jim Warner, President; Ron Hellman, Vice-President; Bruce Bridges, Master of Ceremonies; Dave Wayne, Secretary; Dale Brown, Inner Guard; and Jim Chase, Outer Guard.

Elected earlier this semester as the new junior representative to the Student Council was Jim Chase, to the IFC was Bruce Bridges, and to the St. Pat's Board was Dale Brown.

This year's rush chairman is Bill Farrell.

Beta Sig Closes Social Year and Elects Officers

Beta Sig closed its social year successfully this past weekend with the celebration of Greek weekend. The booth Friday night was a real success. Saturday night the Crescendoes provided the rhythm for the "Art Carney Sewer Party." The Beta Sigs and all visitors really enjoyed themselves.

The Beta Sigs elected next fall's officers last week, also. Mike Meehan will be running the house as president, Gary Lohmann as pledge trainer, Norm Meyer as house manager, Jim Seward as treasurer, Don Hartman as secretary, Rich Meyer as commissary, Al Behring and Jim Winkelmann as rush chairman, and Dave

Weinrich as corresponding secretary.

Beta Sigma Psi would like to thank the Rolla merchants who contributed to the success of the booth.

Triangle Is Winner Here

Triangle's officers elect for the coming fall semester are:

President, Paul Kornberger; Vice-President, Ron Koenig; Treasurer, Ron Swearingen; Asst. Treasurer, Art Simmons.

Congratulations are in store for the trophy winning bowling and softball teams. Also for winning

first place in the booth contest for I. F. C. Greek Weekend.

It is a pleasure to welcome a new brother and advisor to Triangle; Bro. Thomas S. Frey of the Civil Engineering Dept.

Triangle was quite fortunate to have several of its more prominent members visit during the past several months; Mr. Arthur Schwerin, Founder; Mr. Herbert Scobie, Executive Director; and Mr. Paul Dowling, past MSM Alumni President.

Newman Club Discusses Plans For Next Year

The final meeting of the Newman Club for the 1962-'63 school year was held on Thursday, May 9. The business meeting consisted

mainly of a discussion of plans for next year. An outing is planned for soon after the beginning of the 1963-'64 school year, and various mixers and social activities are being considered.

The guest speaker was Mr. Larry McVey, a member of the speakers bureau of the Papal Volunteers. He explained the concept of this organization in which the laity of the Church work with the religious in twelve Latin American countries. This organization serves a very definite purpose in the organization of the Church.

The rule of every worth-while man is that no serious job ever shall receive less than his best thought and effort.

Waiting for the mail, a tardy guest, service in a restaurant, departure of a plane, or a drink in a disorganized household — these are life's major tribulations.

Clockwise from bottom: Jet-smooth Chevrolet Impala, Chevy II Nova 400, Corvette Sting Ray, Corvair Monza Spyder

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet—well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the care-free feeling you get on

a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he

has just the model and color you want — be it Chevrolet, Chevy II, Corvair or Corvette—ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.

AT YOUR CHEVROLET DEALER'S

CHECK HIS TNT DEALS ON CHEVROLET, CHEVY II, CORVAIR AND CORVETTE

Excused From Studies? Common Practice in 1878

When final exams approaching very soon, wouldn't it be great to get an excuse from studies?

Back around 1878, this was a fairly common practice at MSM. During this time, many petitions for release from studies, especially prior to final examinations, came before the faculty. Parents frequently consented to their children's demands and signed petitions asking for excuses from final examinations. In the case of those students excused prior to the examination, no grade was to be recorded beyond the regular semester's work.

In May of 1879, all petitions for excuse from final examinations were finally denied. From this point on, the faculty of the school used a system of unfavorable publicity for the so-called 'wayward and disobedient' student. A series of blacklists were reported at the close of each semester. This list included the names of students who had received demerits, unexcused absences, and tardies.

The lives of many of the students of this time were thoroughly investigated. Extensive meetings were held between student and faculty concerning various disciplinary issues. This system

of handling matters of behavior proved quite weak since the demerits if a student was willing to repent and 'pledge to respect the rules of the school'.

Many years have past since that time and many changes have been made. Today the necessity for such action is questionable and its effectiveness in best serving its functions seems nil.

Over \$250,000 In Assistance to MSM Students

Many students on the MSM campus each year receive financial assistance from the school in the form of loans and scholarships. This assistance is applicable to students in every department and class.

The scholarships range in value from \$100 to the \$1250 Albert E. Buck Memorial Scholarship. They are awarded on the basis of scholastic achievement and financial need. In the 1962-63 school year, 278 students received scholarships awarded by the school with a total value of \$75,446. In addition, 36 scholarships with a total value of approximately \$17,355, were awarded to MSM students for the 1962-63 year by other organizations and individuals. These are scholarships for which MSM does not select the recipients.

The loans have a wide variety of values depending mainly on the needs of the student. During 1962-63, 366 students received loans through the school, totalling \$120,684. During the same period 61 students received loans, worth \$36,635, through the United Student Aid Fund program operated in cooperation with banks and the school.

Commencement Speaker to Be D. D. Wyatt

DeMarquis Dale Wyatt, Programs Director of the National Aeronautics and Space Administration, will be commencement speaker at the 90th annual Commencement exercises to be held Sunday, May 26th at MSM. Wyatt is an alumnus of this world famous institution of engineering and applied science. The exercises are slated for 5 p.m. CST at the school's Jackling Field, and following the address by Wyatt nearly 550 degrees, including bachelors and masters as well as professional degrees will be awarded. The School is ranked 10th in size and 6th in the number of degrees awarded in undergraduate engineering.

In 1941, Wyatt received the de-

gree of Bachelor of Science in Mechanical Engineering from MSM. In 1942 he served as an instructor in Mechanical Engineering, a capacity which he held for two years. He then joined the National Advisory Committee for Aeronautics at Lewis Flight Propulsion Laboratory, Cleveland, Ohio, as a research engineer; specializing in supersonic propul-

sion research. He rose to Associate Chief, Propulsion Aerodynamics Division and was transferred to NACA Headquarters, Washington, D.C., in September 1958. With the absorption of NACA into the National Aeronautics and Space Administration (NASA) on October 1, 1958, he became Technical Assistant to the Director of Space Flight Development. In February he became Assistant Director of Program Planning and

Coordination of Space Flight Programs; and on June 1, 1961, became Director, Office of Programs.

In the position as Director, Office of Programs, he is responsible for integrating NASA technical program requirements and agency resources into an operable program. The Office reports to the Associate Administrator of the National Aeronautics and Space Administration.

TILL WE MEET AGAIN

With today's installment I complete my ninth year of writing columns in your college newspaper for the makers of Marlboro Cigarettes. In view of the occasion, I hope I may be forgiven if I get a little misty.

These nine years have passed like nine minutes. In fact, I would not believe that so much time has gone by except that I have my wife nearby as a handy reference. When I started columning for Marlboros, she was a slip of a girl—supple as a reed and fair as the sunrise. Today she is gnarled, lumpy, and given to biting the postman. Still, I count myself lucky. Most of my friends who were married at the same time have wives who chase cars all day. I myself have never had this trouble and I attribute my good fortune to the fact that I have never struck my wife with my hand. I have always used a folded

It's a rare and lucky columnist

newspaper—even throughout the prolonged newspaper strike in New York. During this period I had the airmail edition of the Manchester Guardian flown in daily from England. I must confess, however, that it was not entirely satisfactory. The airmail edition of the Guardian is printed on paper so light and flimsy that it makes little or no impression when one slaps one's wife. Mine, in fact, thought it was some kind of game, and tore several pairs of my trousers.

But I digress. I was saying what a pleasure it has been to write this column for the last nine years for the makers of Marlboro Cigarettes—a fine group of men, as anyone who has sampled their wares would suspect. They are as mellow as the aged tobaccos they blend. They are as pure as the white cellulose filter they have devised. They are loyal, true, companionable, and constant, and I have never for an instant wavered in my belief that some day they will pay me for these last nine years.

But working for the makers of Marlboro has not been the greatest of my pleasures over the last nine years. The chief satisfaction has been writing for you—the college population of America. It is a rare and lucky columnist who can find an audience so full of intelligence and verve. I would like very much to show my appreciation by asking you all over to my house for tea and oatmeal cookies, but there is no telling how many of you my wife would bite.

For many of you this is the last year of college. This is especially true for seniors. To those I extend my heartfelt wishes that you will find the world outside a happy valley. To juniors I extend my heartfelt wishes that you will become seniors. To sophomores I extend my heartfelt wishes that you will become juniors. To freshmen I extend my heartfelt wishes that you will become sophomores. To those of you going on into graduate school I extend my heartfelt wishes that you will marry money.

To all of you let me say one thing: during the year I have been frivolous and funny during the past year—possibly less often than I have imagined—but the time has now come for some serious talk. Whatever your status, whatever your plans, I hope that success will attend your ventures.

Stay happy. Stay loose.

© 1963 Max Shulman

* * *

We, the makers of Marlboro Cigarettes, confess to more than a few nervous moments during the nine years we have sponsored this uninhibited and uncensored column. But in the main, we have had fun and so, we hope, have you. Let us add our good wishes to Old Max's: stay happy; stay loose.

Professor Nau Presents Paper

Professor Robert H. Nau presented a technical paper, "An Artificial Transmission Line — A New Design" at the Sixth Symposium on Circuit Theory, on May 6 and 7 on the campus of the University of Wisconsin, Madison, Wisconsin.

The new line was designed by Professor Nau and built under his direction in the Shop at the Electrical Engineering Department of the Missouri School of Mines. He has used four of these new lines for two semesters in his Network Analysis Laboratory, EE 264. All tests give within two percent of the results for which Professor Nau calculated data for the many test conditions before the artificial transmission lines were built for the laboratory.

Also attending the Circuit Theory Symposium were Doctor and Mrs. Richard Harden, of the Electrical Engineering Department. Dr. Harden's interests have been in network synthesis. He obtained his Ph.D. three years ago at the University of Florida in this phase of electrical engineering.

AIME

(Continued From Page 1)

Section, accepted a plaque from Clint Clark, President of Blue Key. The plaque is to be placed in the display case of the Mining Building for the 1963-64 school year. The name of the AIME Mining Section and year of the award is engraved on the plaque. In forthcoming years the winning societies names will be added to the plaque, and it will be placed in the department display cases of the winners.

It is hoped that in future years there will be an increased interest and participation in this competition in an effort to better the professional societies on the MSM campus and make them of more service to their members.

IFC GREEK WEEK

PHI KAP TRIES TO GIVE AWAY \$20

GREEK WEEK QUEEN

Three queens were elected by the Interfraternity Council this year to aid Zeus in his duties as reigning god of the Greek Week games.

The queens were elected by the senior members of the IFC at the Delta Sigma house on Friday night. Mary Ann Schaeffer, the representative from Sigma Phi Epsilon, took top honors in the contest. The other two queens elected to assist Mary Ann were Bobbie Knowton from Kappa

Alpha and Ginny Colton from Sigma Tau Gamma.

Later that night, at the carnival held at the Lions Club Park, the queens were introduced to the patrons from the town and from the school.

IFC Carnival

The Interfraternity Council sponsored a carnival last Friday night. All proceeds from the carnival went to Boy's Town of Missouri at St. James, Missouri. The carnival was held at the Lions Club Park.

The IFC awarded two trophies—one for the booth that collected the most money and one for the best decorated booth.

Triangle managed to collect the most money. They gave the IFC \$83.80. Kappa Sigma was second with a donation of \$71.25. The carnival netted approximately \$600.

The trophy for best decorations went to Delta Sigma Phi Kappa Sigma and Beta Sigma Psi took the next two places for decorations.

DEAN WILSON LIGHTS THE TORCH

K.A. Takes Overall Trophy In Saturday Games at Grotto

The Grotto at Newburg, Mo. was the site of the annual Greek Week games and pageantry. Pi Kappa Alpha won this year's games trophy and Kappa Alpha won the overall Greek Week trophy.

The highlight of the games was the annual chariot race. The final race was run between the winners of three preliminary heats. Sigma Phi Epsilon, Tau Kappa Epsilon, and Kappa Sigma all won in the first set of races. The Tekes were victorious in the final race.

Included among the various games were: the Egg throw, the Sack Race, the Wheelbarrow Race, the Chair Carry, the Limbo Contest, the Stilt Walk, and the Egghead Contest.

The activities of the day began with the lighting of the torch by Dean Wilson in front of Parker Hall at 10:30 Saturday morning. The torch was run the twelve miles to the Grotto by the members of Kappa Sigma, last year's overall winners. This task will be handled by Kappa Alpha next year. Zeus, portrayed by Hugh Murray, and the four lower gods reigned over the festivities. Bill Ligon as Hermes, John Million as Hephaistos, Doug Told as Hades, and Ralph Wink as Dionysos, reigned along with Zeus, the Queen, and her two assistants.

79 P.H.T. Degrees Granted By University Dames

On May 9, 1963, 6:30 p.m., in the Student Union Ballroom, the Annual May Banquet of the University Dames was held with approximately one-hundred thirteen members present. The Invocation was given by Mrs. Curtis L. Wilson.

After the dinner, Mrs. Wilson spoke of her twenty years as Sponsor of the University Dames, in her farewell speech. She will be retiring with her husband this year. The University Dames will truly suffer from her absence.

A business meeting was then held which included the Annual Reports for 1962-1963. Presentation of the bowling trophies was held. Those receiving the awards were as follows: Maxine Dunham, Sandy McGray, Karen Zeitzmann, and Lynn Harris.

The Graduation Class of 1963 University Dames is seventy-nine in number this semester. Diplomas, which represented the P. H. T. Degree, (Putting Hubby Through), were presented to these girls.

The Chairman of the Banquet Committee was Mrs. Terry DeLong. The various people who helped direct the committee's activities were: Publicity Chairman, Dorothy Jean McCullough; Art Director, Wanda Oltman; Style Show Chairman, Donna Gales; Door Prizes Co-Chairmen were Carola Lina and Joan Schoeninger; Ticket Sales Chairman, Beverly Fink. The Banquet Committee would like to take this opportunity to thank Bob Oltman for the engineering and carpentry ability he so generously offered for the work on the stage decorations. They are indeed grateful for his time and energy which he spent helping them to complete our plans.

The installation of the new officers for the 1963-1964 term was officiated by the retiring president, Mrs. Ruth Betts. The new officers are: President, Pat McKinnis; Vice-President, Billie Miller; Recording Secretary, Joyce Harpole; Corresponding Secretary, Claudia Byington; Assistant Corresponding Secretary, Marty DeMay; Treasurer, Shirley Gray; Assistant Treasurer, Judy Coates.

A style show entitled "Every-

thing Is Coming Up Roses" was the main attraction of the evening. A rose garden complete with a

fountain, set the scene for the showing. Eight attractive models; Judy Clark, Pat Cusumano, Audrey Fuerst, Donna Gales, Sandy

Kirchoff, Shelia LaPlante, Cira Marquez, Michele Todd; and eight children; Gregory Bunch, Nickie Fuerst, Juan C. Marquez, Randy Yoakum, Jr., and Miss Rene Yoakum made the show a complete success.

The final event of the evening was the drawing of the door prizes. These prizes were donated

by sixty-seven Rolla merchants. Seventy persons obtained gifts from the drawing. A most enjoyable evening was spent by all.

BLUE KEY

on each student due to the new IBM processing of registration. It will contain the name, curriculum, school address and phone number, and hometown and home address of each student. Undertakings by the "Special Projects Committee" included a "Professional Society of the Year" award, an MSM events and organizations booklet,

and a Blue Key Manual of Information. Each month, a "Blue Key Man of the Month" has been chosen to honor students who have been very active in campus affairs. To top the year off, the 1st Annual Senior Picnic will be held for the graduating seniors on Monday, May 20. This has indeed been an active and service filled year for Blue Key Fraternity.

John T. Hollaway Gets Scholarship

John Thomas Hollaway, son of Mr. and Mrs. Thomas V. Hollaway, St. Peters, Missouri, has been named recipient of the White-Rodgers Company Scholarship for the 1963-64 school year at MSM.

Hollaway has consistently appeared on the Dean's Honor List, has received the Phi Kappa Phi Book Plate Award, and is a member of Tau Beta Pi Honor Fraternity and a pledge of Eta Kappa Nu Honor Fraternity. He is married to the former Blanche O'Brien of Jennings, Missouri, and they have three children. When in Rolla, they reside at 1509 Holloway.

The White-Rodgers Company has established this scholarship for a senior in the Department of Mechanical or Electrical Engineering, with selection made by a faculty committee and final approval by the company.

KRIEGER

G. R. Correll Receives Second ASM Scholarship

For the second consecutive year the MSM Chapter of the American Society for Metals is honoring Glen Roy Correll in recognition of his receiving one of the society's \$500.00 ASM Foundation for Education and Research scholarships.

Glen is 19, and is a first semester junior in Metallurgical Engineering. His home is in St. Catherine, Mo. and he is a graduate of Brookfield High School class of '61. He is a member of Phi Eta Sigma, national freshman honor fraternity colony at MSM.

Glen is one of 61 young people from as many colleges and universities in the U. S. and Canada to receive these \$500.00 awards. Each year, 61 schools are eligible to award scholarships to metals

and materials engineering students.

The ASM Foundation for Education and Research annually allots \$30,500.00 for the scholarship program. This amount represents ten percent of the total scholarship money available nationally from all sources for metallurgy students.

Established in 1952, the \$750,000.00 grant, is believed to be the largest foundation of its type ever established by a technical society from its own resources, according to Richard Schmidt, MSM Chapter chairman. The recognition of Glen is one of numerous observances taking place throughout the U. S. and Canada this Spring among 124 ASM chapters.

Phi Eta Sigma Accepts Freshman Honors Society

The MSM Chapter of the Freshman Honor Society has been officially accepted into the Phi Eta Sigma National Freshman Honor Fraternity. This announcement was made at the regular meeting on May 7, 1963. The acceptance was confirmed by a letter presented by Prof. Grimm from James E. Foy, Grand Secretary of the Phi Eta Sigma Fraternity. The installation ceremonies are scheduled to be held early next semester.

At this meeting Dean Wilson, Dean Hershkowitz, and Prof. C. J. Grimm were elected to be installed as Honorary members.

The officers and founding members of the MSM Freshman Honor Society are as follows: Jerrol L. Boehmer, President; Roger A. Herzog, Vice-President; Thomas E. Austin, Secretary; Robert P. Madding, Treasurer; Arthur L. Nickless, Historian; Thomas A. Hrastich, Correspondent; Dannie

R. Clarida; Carus V. Clarke; Glen R. Correll; Robert L. Ricketts; Jorge M. Rodriguez; James E. Shelby, Jr.; John D. Smart; James D. Spencer; Edward L. Tharp; James F. Wade; and Phillip L. White.

Also at the meeting on May 7, the pledges chosen from current freshmen were accepted into the local chapter and will be Charter Members at the installation. New officers were elected from this group to take office immediately following the installation. These men are: Gary D. Rueter, President; Truett V. DeGeare, Vice President; Richard R. Paul, Secretary; James B. Peterson, Treasurer; Thomas L. Baumann, Historian; David S. Shimamoto, Correspondent; J. H. Barks; B. L. Basden; L. D. Bennett; C. R. Borgman; G. M. Breuer; R. L. Brown; W. R. Brown; C. D. Cooper; D. E. Crow; P. E. Darnell; G. B. Dre-

Does a man really take unfair advantage of women when he uses Mennen Skin Bracer?

All depends on why he uses it.

Most men simply think Menthol-Iced Skin Bracer is the best after-shave lotion around. Because it cools rather than burns. Because it helps heal shaving nicks and scrapes. Because it helps prevent blemishes.

So who can blame them if Bracer's crisp, long-lasting aroma just happens to affect women so remarkably?

Of course, some men may use Mennen Skin Bracer because of this effect.

How intelligent!

DR. BAKER

(Continued From Page 2)

Other possibilities in curriculum additions discussed were the entirely new departments of Architecture, Industrial Engineering, and another branch of the ROTC program, either Air Force or Navy. Dr. Baker would appreciate student opinion on the relative need and desire for these departments. This, of course, must be co-ordinated with the most economically feasible choices.

Varsity sports came up in casual conversation quite often. Dr. Baker was quite familiar with the intramural program, but not aware that intercollegiate contests could play a big hand in campus activities. He was assured by those present that this is exactly the problem—a cycle of non-support, lack of publicity and declining interest. He assured the group of the possibility of greater athletic scholarship funds being offered incoming and presently enrolled students, providing they are enlisted from present sources, those of alumni gifts and non-academic funds. He also supports a lightened load for athletes during heavy sport seasons, the financial aid compensating for the extended time in school.

A subject discussed at quite great length was the faculty. The instructing graduate student is looked on quite favorably by Dr. Baker because of the grad student's energy and recent familiarity with the material, however the dean believes that teaching skills must be taught and tested before qualifying him to instruct. Too many times it is the case with older professors near retirement, there is no particular incentive for change, and the course becomes stale. At Kentucky, Dr. Baker reports a foreign exchange program with Indonesia helped many older professors in their presentation by giving them an opportunity to acclimate to new conditions overseas. He intimated the possibility of such a program at MSM.

Also relating to the quality of professors, Dr. Baker highly commended the teaching course being given on a campus wide level at the School of Mines. He also pointed out a student rating system employed successfully elsewhere, whereby each student critiques his instructors. These evaluations are read by either or both that instructor and the dean, and are aimed at further improvement. "Anything which can be done to make the professor more conscientious of his responsibility in teaching is good," said Prof. Baker. (It might be noted Dr. Baker does not feel his administrative duties will allow him to instruct courses for at least the first year).

The idea of field trips came up, and found much favor in the new dean, however he recommends they be scheduled during one particular period to avoid conflict with much heavy classwork.

Dr. Baker, being closely concerned and concerned with research work, is emphatic on the growth of that area. "It is reasonable to expect that undergraduate research work will double here in two years," he commented. The state is sending much money to Washington, and it's not coming back home. I'd like to see this being used in research grants which will boost employment opportunities of graduate and undergraduate students, with work being accomplished in

Rev. E. W. Bartley To Speak at Baccalaureate

The Reverend Elbridge W. Bartley, Jr., Minister of the First Methodist Church of Rolla, Missouri, will deliver the Baccalaureate address at MSM on Sunday May 26th at 10:00 a.m. The Baccalaureate service is a part of the School's 90th annual Commencement activities, at which time nearly 550 degrees will be awarded. Both the Baccalaureate service and the Commencement exercises are slated for Sunday the 26th at the School's Jackling Field.

Reverend Bartley received his A. B. degree from Central Metho-

dist College in 1937 and his B. D. degree from the Vanderbilt University School of Religion in 1940. He held student pastorates in Armstrong, Missouri, and in Nashville, Tennessee. He has served as pastor of the Roanoke Methodist Church of Kansas City from 1940 until 1943, and as a U.S. Navy Chaplain assigned to duty with the 52nd Marine Defense Battalion and the Second Marine Division, from 1943 until 1946. From 1946 until 1948 he served the Ironton and Arcadia Methodist Churches, from 1948 until 1954 the Normany Methodist Church of St. Louis, and from 1954 until he came to Rolla in 1959, he was minister of the Charleston, Missouri, Methodist Church.

Reverend Bartley is married and has five children. His father is also a Methodist minister in Missouri, and he is a seventh consecutive generation minister.

He is active in the area Methodist Conference serving on the Conference Boards of Education, and on Conference and District areas of ministerial Training and Qualification. He is the Conference Director of Older Adult Work.

He also feels strongly about the integration of this research experience into the classroom. "Every outstanding professor should teach at least one undergraduate course. If he is doing well in research he is very likely to be a good teacher." This will increase the number of working professors, thereby decreasing duplications in professors, offering a more diversified look at one's chosen field.

Dr. Baker expressed gratification at the opportunity to speak with this group and the occasion was as well met by the student leaders in attendance.

Reverend Bartley is married and has five children. His father is also a Methodist minister in Missouri, and he is a seventh consecutive generation minister.

He is active in the area Methodist Conference serving on the Conference Boards of Education, and on Conference and District areas of ministerial Training and Qualification. He is the Conference Director of Older Adult Work.

Mullen Takes First in Pole Vault, MSM Finishes Fifth

Last Saturday, Maryville was the scene of the 1963 MIAA Outdoor Track Meet. The conference loop, which was the final competition for this season, found Kirksville taking first place with 105½ points, Warrensburg second with 46, and Springfield third with 40. Cape was next in line with 29 points, MSM fourth with 11 tallies, and host Maryville last with 5½ points.

The Miners nabbed first place in the pole vault contest, as Ray Mullen vaulted a height of 12 feet, 6 inches. Jay Alford grabbed fourth place in the broad jump and fifth in the high jump. Roger Buecher came in fifth in the javelin throw. The Miner mile relay team continues its best

year as it took fourth in the meet. It is composed of Ted Moore, Craig Dunn, Ed Tharp, and John King.

Five records were set Saturday in the meet. Murdock of Springfield made a record javelin throw of 198 feet, 7 inches. Snyder of the winning Kirksville squad ran the mile in 4:20.1, and Weigand, also of NEMS, ran the 440 in 49.1 seconds. Clark of SMS ran the 2-mile in 9:36.5, and the Kirksville mile relayers took only 3 minutes and 21.1 seconds to complete the circuit.

The MSM season point totals of those having 20 or more points are as follows:

John King	42½
Jay Alford	41
Doug Mullen	35
Bill Kauffman	32
John Brown	22

perhaps establish a few more. Kent is majoring in Chemical Engineering and is a member of AICE, Kappa Alpha, and the M-Club.

Kent Horner Named M-Club Athlete for May

Kent Horner of University City, Missouri has been selected by the M-Club as "Athlete of the Month" for the month of May. Kent the leading point maker on the swimming team with a total of 87.50 points, set a school record this year in the 200 yard butterfly event with a time of 2:30.3 minutes. Besides the butterfly he swims the individual medley, and the 400 yard free style relay. Only a sophomore, Kent has two more years remaining of varsity competition in which Coach Van Nostrand expects him to better his record and

History in Sports

By Tom Johnson

BASEBALL 1869 — Present

In 1869 with the decline of the baseball amateur, the Cincinnati Red Stockings started a revolutionary procedure. They became the first professional baseball team. People all around the country were astounded by the idea and said that it would never work but Cincinnati went ahead anyway. The captain of the team received a salary of 1400 dollars with the other players getting from 1000 dollars down. The Cincinnati club won 39 straight before being tied and finished the season with 55 wins and the tie. The Red Stockings were defeated 8 to 7 in 11 innings by the Brooklyn Atlantics to break the winningest streak in pro baseball history at 78 wins.

With the success of Cincinnati, a group of former amateurs got together to form the National Association of Professional Ball Players. Ten clubs started in the league in 1870 and eight finished. In 1874 the rules were changed to allow ten players; the extra player being stationed between first and second. The rule was removed the next year. 1875 was the last year for the National Association of Professional Ball Players. This league ran into the same trouble as the old amateur league; that of scandals and big gambling.

The present National League came into being in 1876. This is considered the beginning of modern baseball. Since its beginning, the National League has weath-

ered six baseball wars.

The first was the formation of the American Association in 1882. There were few conflicts in schedules and both leagues prospered. The Union League was formed in 1884 but lasted only one season. In 1890 players wanted more money and when it was not granted, formed the Players League, better known as the Brotherhood. This was disastrous for all three leagues. The Brotherhood folded at the end of 1890 and the American Association, deep in the red, folded at the end of 1891 while the National League was able to survive the conflict.

The next push came in 1901 by a group headed by Ban Johnson. They got together and formed the American League. The Americans got their players by simply offering National players much more money. For several years the Nationals tried to fight but the American League was extremely well founded financially and survived to become recognized as the second major baseball league.

In 1913 the Federal League was formed and started the push toward being recognized as the third major league. They soon found however that the cities would not support two and three teams in one town and so they soon folded.

The last push has been recent. A group of men headed by Branch Rickey threatened to form a Continental League and by doing so forced the National and American Leagues to expand to ten clubs each.

Don Mason Triumphs in MIAA Tennis to Lead Conference

By Tom Joslin

On May 10 and 11, the Miner tennis squad competed in a MIAA tournament held at Maryville. Although the Miners didn't win the meet, they did grab the biggest first place in the tournament.

Don Mason took first in the number one singles to gain four team points for the Miner squad. He won his first match on a bye, but showed his true ability as he went on to win the event. In the preliminary, he defeated Mueller of Kirksville 3-6, 6-4, and 10-8. Mueller had been rated as one of the best players in the conference before this match and was the winner of the Kirksville tourney in the number one slot on April 20. In the finals, Mason defeated

Fronabarger of Springfield 6-2, 4-6, and 6-4. Fronabarger had previously beaten Mason in three matches in other meets this year. Don's triumph in this conference tournament shows him to be the best player in the entire conference, coach Morgan commented.

In the number two singles competition, Kim Thein lost his first match to Gantt of Kirksville 7-5 and 6-0. Gantt went on to win this event for his team.

Bob Whelove won his first match against Corley of Maryville 1-6, 6-4, and 6-0. This win gained one team point for the Miner squad. Bob lost his preliminary match, however, when he met Muchvichit of Warrensburg Walsh of Cape later defeated

Muchvichit in the finals to win five points for his team.

Because of a bye in the first round of the fourth place competition, Geof Goldbogen headed right into the preliminaries of that event. He was defeated by Cheval of Kirksville 6-0 and 6-1. Al Panhorst was knocked out of the fifth place competition in his first match which he lost to Robertson of Kirksville.

The Miner doubles team of Mason-Whelove lost in its first place meet with the Kirksville team of Mueller-Harris 6-3 and 8-6. In the second place doubles competition, the Miner team of Thein-Goldbogen lost to the Cape team of Moehlenhof-Stahlschmidt 6-2 and 6-1.

Although the Miner Squad gained only five total points in the tournament, the performance of Don Mason is something of which MSM can be very proud.

SWIMMING

ers were defeated in their own pool by Principia College. Horner was the Miner high point man with 11.75 points. Although the Miner 400 yard freestyle relay team came through with a win for 7 points, the Principia depth proved too much for MSM as they won 57-38.

In another meet with Westminster, the Miners beat the Bluejays 48-46. The Miner 400 yard freestyle relay team overcame a Westminster lead by winning their event.

On February 9, we lost to Pittsburg State 80-15. MSM took only three second places in this meet. At Warrensburg, MSM was defeated by Central Missouri State 51-42. The Miners took several first and second places in this meet, as they did in their next meet with Indiana State which they lost 52-42. In this meet, MSM pool records were broken in the 200 yard freestyle and in the 500 yard freestyle by Indiana State.

The Miner Swimmers lost to Louisville U. 59-36. Tom Miller placed a first in the 100 yard freestyle, and Horner got a first in the 200 yard butterfly in this meet.

Our last meet gave us another defeat by Principia 52-42. MSM took 5 firsts in this meet. Miller and Horner tied for Miner high point man by scoring 10 points apiece. The usually-winning Miner 400 yard freestyle relay team was defeated in this meet.

High point men for the season were Kent Horner with 87.5, Tom Miller with 59.5, and Blaine Rhoades with 51.5 total points. Other men with considerably high individual points were Roger Buecher, Carl Rydberg, John Schiefer, and Robert Kadwell.

Three MSM pool records were set by members of the Miner squad. Kent Horner set a record of 2 minutes 30 and 3 tenths seconds in the 200 yard butterfly. Blaine Rhoades set a record of 2 minutes 17 and 7 tenths seconds in the 200 yard freestyle. Robert Kulhan was timed at 6 minutes 52 seconds in the 500 yard freestyle for a new record in that event.

The Miners lost Tom Meitz, a good freestylist, and Bob Kadwell, a mainstay on the 400 yard medley relay team, for the spring semester due to injuries. These losses definitely hurt the Miner squad.

The Miner Swimmers' chances for a winning season went down the drain when they ended their season with one win and ten losses.

The season's first meet took place at MSM against Hendrix College. The miners lost to Hendrix by a score of 51-44. John Schiefer led the individual scoring with 7 points; he made these in the 500 yard freestyle and in the 220 yard freestyle.

The second meet was against Westminster College at Fulton, Missouri. The Bluejays dominated this meet by defeating MSM 58-37. The three Miners who tied for high point man of our team scored 5 points apiece. They were: Bill Lamers, Kent Horner, and Tom Meitz.

On January 11, the Miners went to St. Louis where they were defeated by Washington U. 80-13. WU swimmers took a first place in every event in this meet and took 7 out of 11 second places. The next day, the Miners met the St. Louis U. Billikens and were defeated 53-41. The Bills took 7 out of 11 first places in that meet. Buecker took first in the diving and Horner placed first in the 200 yard butterfly for the Miners.

In another disastrous meet, the Min-

Hubert Jones Medalist for MIAA Tourney

The 1963 MIAA Golf Meet was held at the Maryville campus last weekend with all six teams of the Missouri Intercollegiate Athletic Association participating. Although SMS of Springfield and Cape took first and second with 763 and 774 strokes respectively, the Missouri Miners snapped up third place with a total of 784 strokes. Kirksville took fourth place with 786, and Warrensburg ended up in the fifth position with 813 strokes. Host Maryville settled for last with a total of 851.

Hubert Jones of the Miner squad was medalist for the tournament. Jones took the coveted first spot with totals of 71 and 74, making a total of 145 strokes.

Scores for the Miners are as follows: Stan Nodland, 80 and 76; Bob Pohl, 75 and 82; Jack Turner, 83 and 75; Toby Hafeli, 82 and 85; and Bill McCracken, 79 and 85.
