Foundrymen Hold Fourth Biennial Conference at MSM

ROLLA, MO.—The Missouri School of Mines and Metallurgy held its fourth biennial conference of the American Foundrymen's Society on the campus of the Missouri School of Mines and Metallurgy on September 21st and 22nd. Cooperating with the host Missouri School of Mines and Metallurgy are the American Foundrymen's Society Chapters from the St. Louis District, the Missouri Foundrymen's District with chapter at Rolla, the Tri-State District with chapter at Tulsa, Oklahoma and the student chapter of the Missouri School of Mines and Metallurgy.

Attendance is expected to include 200 representatives of the foundry industry in a five state area. The Dean of the Missouri School of Mines and Metallurgy, Curtis L. Wilson, was to deliver the opening address to the general session on September 21st at 9:45 A. M. The conference was then to work in groups of special interest in Technical Sessions covering Steel, Iron, and Non-Ferrous Metals.

The General Conference Chairman is Robert C. Kane of the Duval Mining and Manufacturing Company of St. Louis. The speaker to the general session will be John A. Rassefoss, Director of Research of American Foundries. Presiding at the technical session on Steel is Charles Green of the Sterling Metal Castings Company and Robert J. Murphey of the LFM Manufacturing Company. Speakers at the Steel Sessions are Richard Gray of Air Reduction

Company, Russell Pardee of the Kaiser Aluminum and Chemical Company, Victor M. Rowell of the Archer-Daniels-Midland Company, and Thomas W. Seaton of the American Silica-Sand Company.

Presiding in the Sessions on Iron are R. W. Trimble of the Bethlehem Supply Division, Bethlehem Steel Company and Charles Diel of the Acme Foundry and Machine Company. Speakers on iron are Jeff Green of Sorbo-Mat Process Engineers, Howard Randall of International Nickel Company, A. Dorfmueller of Archer-Daniels-Midland Company and H. Otey Merriweather, Jr. of the Lynch-Burg Foundry Company.

Presiding at the Sessions on Non-Ferrous Metals are E. F. Hines of Nemco Foundry Company, and E. C. Austin of National Aluminum and Brass Foundry. Speakers on Non-Ferrous metals are Clyde A. Sanders of the American Colloid Company, Fred L. Riddell of the H. Kramer and Company and Robert Jacoby of the St. Louis Coke and Foundry Supply Company.

Serving on the Conference General Committee are Dean Curtis L. Wilson of the Missouri School of Mines and Metallurgy, and Dr. A. W. Schlechten, Dr. D. S. Eppelsheimer, Professor R. V. Wolf and R. L. Wright of the Missouri School of Mines and Metallurgy.

David R. Delling Gets \$1,000 Met. E. Scholarship

David Roy Delling, 25, of Melbourne Beach, Florida, has been awarded a \$1,000 senior-year scholarship to continue his studies in metallurgical engineering at Missouri School of Mines.

The scholarship, which makes Delling eligible to compete for a \$3,000-a-year fellowship, is sponsored by International Minerals & Chemical Corporation, the world's largest miner and processor of food producing minerals.

The IMC awards are made annually to 12 seniors majoring in agricultural or mining sciences. One student is chosen in each category by special faculty committees at 12 leading colleges. Winners compete in their senior years for \$3,000-a-year, three-year fellowships, one in each category. Called the Louis Ware

DAVE DELLING

scholarship program, it honors IMC's board chairman who for 20 years was president of the company.

Delling, who was born in St. Louis, Missouri, is the son of Mr. and Mrs. William R. Delling of Box 311 in Melbourne Beach. His father is a retired plasterer.

Delling's grade average for three years is 3.5 of a possible 4.0. He is a transfer student from the Overseas Extension of the University of Maryland. He hopes to specialize in non-ferrous process metallurgy.

MISSOURI SCHOOL OF MINES AND METALLURGY

VOLUME 48

ROLLA, MO., SEPTEMBER 22, 1961

NUMBER 2

C. E. Dept. Has Two New Profs For This Fall

The Civil Engineering Department has added two new members to its faculty for the 1961-62 academic year:

Dr. Thomas S. Fry, Associate Professor, comes to MSM from the consulting firm of Knoerle, Graef, Bender and Associates, Inc. of Chicago. Dr. Fry received his B. S. Degree in Civil Engineering in 1950, his M. S. in 1953 and his Ph. D. in 1959, all from the University of Illinois. His major interest was in the field of Soil Mechanics and Foundation Engineering. His duties as Chief Soils Engineer for Knoerle, Graef & Bender included directing the Soil Mechanics Division which plans and supervises soils and foundation investigations for projects being designed for the firm. This supervision included boring location, inspection, laboratory testing of samples, analysis of data and preparation of reports. Dr. Fry is a registered professional engineer and holds membership in the American Society of Civil Engineers, National Society of Professional Engineers and the Society of Sigma Xi.

Lt. Col. Frank A. Gerig, Jr., Associate Professor, received his B. S. in Military Science from the U. S. Military Academy at West Point in 1941 and graduated with honors. Col. Gerig received his Master's Degree from the California Institute of Technology in 1948. He is also a graduate of the Army Advanced Engineering School and U. S. Army Command and General Staff College. In addition to his army experience as an Engineer Officer, Col. Gerig has had four years teaching experience at the U. S. Military Academy. His assignment before coming to MSM was in the Army Chief Engineers Office, Pentagon Building, Washington.

Student Union Board Makes Important Plans for Fall Semester

The Student Union Board and Council are getting ready for another year, but before the new year starts there is a special note of "Thanks" which must be given to Paul Ray, Bob Watson, Jim "Tex" Baselme, Tom Paine, and everyone that helped them, for the tremendous job they did this summer in their capacity as Student Union Board and Committee members.

Getting back to this school year, one of the first events planned and carried out by the Student Union Organization was a mixer for all new students with the faculty. From all indications this endeavor was very successful and plans are being made to make this an annual affair.

Another event being planned as a first this year is a Homecoming Queen Contest. The Student Union Council hopes that this will also become an annual event. The final plans and arrangements are now being made for this year's Homecoming Queen Contest and for the Homecoming Dance at the Student Union which is October 21. There will be more information about homecoming at a later date.

Right after Homecoming the Student Union Games and Tourn-

aments Committee is planning a Ping Pong Tournament. That date will be October 23, so get that paddle hand in shape.

This Sunday, September 24, at 6:00 and 8:30 P. M. the movie "The Mating Game" will be shown. This racy comedy starring Debbie Reynolds, Tony Randall, Paul Douglas, Fred Clark, and Una Merkel is about an internal revenue agent, a shrewd farmer, and his daughter. It combines boisterous Mack Sennett routines with appealing human characterizations. Based on the novel that tilted lightly at

Britain's welfare state, the film moves the locale to Maryland and concerns a farmer who operates on a barter-economy and has never paid taxes. When a malicious neighbor brings a tax investigator down on him, the farmer and his beautiful, rollicking daughter (Debbie Reynolds) get the investigator so bemused with the help of the Spring season and some home-made liquor, that he almost forgets his purpose in coming there.

If you are interested in serving on any of the Student Union (Continued on page 2)

Bob Hyberger Elected C Treasurer

It has been announced that Bob Hyberger has been elected treasurer of the Interfraternity Council. The Interfraternity Council is composed of representatives from various social fraternities on campus. Each fraternity has two delegates - a junior and a senior delegate. The IFC serves as the policy making body for the group of fraternities at MSM. One of its most outstanding social functions of the year is Greek week.

(Continued from Page 1)

Committees or on the Council, right now there are applications available for News Service, Mixer, and Music and Literary Committee Chairman, and for membership on any of the Committees. Applications can be obtained from the candy counter in the Student Union; therefore if you are at all interested please fill out an application now.

Naval Reserve Unit Proposed

All those interested in membership in a Naval Reserve Composite Company for the Rolla area please contact Professor John M. Brewer, Room 305, Rolla Building, as soon as possible.

Initial membership required for organization of the Composite Company includes at least fifteen. The Composite program is non-pay and is designed to provide general type training for reservists in areas where specialized training is not available. The mission of the program is to provide training sessions for Naval Reserve personnel who wish to remain active in the Naval Reserve. Qualified personnel will include men and women, both officer and enlisted, of all ranks, rates, designators and ratings.

There are sixty-five Composite Companies in the Ninth Naval District.

Nick Marvich Elected President Of Triangle Fraternity

SIGMA TAU GAMMA

Freshmen Week saw the return of all the Taus to the Manor 200 East Twelfth. The Tau house received a new look with application of paint and a lot of sweat. New construction also enhanced the looks of the "Penthouse," providing more room for the brothers on the 3rd floor.

The Sig Taus welcomed an alumni, Jerry Cadden, back to do aduate work in Metallurgical engineering; and a transfer student from Beta Chapter at Kirksville, Gene Schnieder, a Junior majoring in Civil Engineering.

Sunday, a new brother was initiated into the brotherhood of Sigma Tau Gamma Fraternity. The Sig Taus welcome brother Bill Ragland of Berkley, Missouri, a Mechanical Engineering sophomore.

PHI KAPPA THETA

School is once more upon us, and at the Phi Kap house, puzzled faces and countless formulas are once more in evidence. The week before classes began, however, was quite different. The five members returned, and the week was spent in painting much of the inside of the house, and making general repairs. One side of the lawn was dug up and re-

seeded, and the house was cleaned from top to bottom so it would be ready for the start of school.

ACACIA

The Men of Acacia are now considered to be professional painters?—as our work week enabled us to paint our house, ourselves, and a couple of cars and various miscellaneous items.

The annual watermelon feed sponsored by Acacia was enjoyed by all who were able to attend.

TRIANGLE

At Triangle a new regime has undertaken the plagues and problems of the old. It consists of Nick Marvich, President; Ronald Deutschmann, Vice President; Dwane Baumgardner, Treasurer; Bill Ligon, Assistant Treasurer; Nick Overall, Corresponding Secretary; Dennis Reeder, Recording Secretary; Tom Stark, House Manager; and Jim Stark, Steward.

A congressman's wife sought the advice of a fortuneteller who prophesied, "Prepare yourself for widowhood! Your husband is about to die a violent death."

The wife sighed deeply and asked, "Will I be acquitted?"

Textbooks Aren't Rabbits—

—so we don't have an endless supply of them. Naturally we can get enough to supply every student, but frequently we have to order books before we have accurate class enrollment figures. Sometimes we underestimate the popularity of a course (we're human, too!), and the only rule we can apply is a democratic one, "first come, first served".

So come to the store early, when we can give you the very best possible service. And if you're disappointed because we don't have one of the books you need, rest assured that the publishers are staying up late these nights to service our orders. We'll get them for you as soon as possible.

We do believe that you

should own your own books, for they are the basic tools of learning. Without them you will be like a carpenter without his hammer. Penny

for penny, page for page, books are the best "buy" of your college career. So come into the store right away. We are anxious to serve you.

SAE Meeting Wednesday Eve

The MSM student branch of the Society of Automotive Engineers last spring elected new officers for the fall term. President is Bob Boschert; Vice-President, Ron Stretch; Secretary, Jim Guest; Treasurer, Harry Morgan. Committee chairmen are as follows: Program, Don Brewer; Membership, Don Reiss; Publicity, Jim Philpott; Safety Check, Bill Koehlein; Refreshments, Jim Clippard. Mr. Baumgartner is the new faculty advisor.

MSM students were honored to see in the July issue of the S.A.E. Journal pictures of Prof. Jones receiving a plaque in recognition of his services as faculty advisor, and Gerald Gaylord and Larry Roberts displaying the traveling banner won by them in the student paper contest.

The first meeting this fall is scheduled for Wednesday, September 27.

Major Putney May took his daughter Patricia to the opening of a lavish Broadway musical. To the Major's embarrassment, the show proved raucous and vulgar. Toward the end of act one, he confessed to his daughter, "I'm sorry I brought you, Pat. This is not a show for a young lady like you." "Don't give up so early, Pop," the unperturbed Pat assured him. "Maybe the second act will be livelier."

Personality Column

Congratulations are in order for Jack Brenner who pinned Miss Claire Stevens this summer and to Ned Hutchins and Rich T. Johnson who succumbed to the lures of femininity this summer and got married.

John Limberg of St. Louis was pinned to Miss Evie Meyer also of St. Louis.

John True also announces his pinning of Miss Judy Watkins of St. Louis.

Traditional cigars were given by Jim Gormley for pinning Miss Darlene Wenta of St. Louis and Roger Scott as a result of his recent engagement to Miss Myrna Eggerding also of St. Louis.

ONCE MORE, UNTO THE BREACH

With this installment I begin my eighth year of writing columns for the makers of Marlboro Cigarettes, as fine a bunch of men as you would meet in a month of Sundays—loyal, true, robust, windswept, forthright, tattooed—in short, precisely the kind of men you would expect them to be if you were familiar with the cigarettes they make—and I hope you are—for Marlboro, like its makers, is loyal, true, robust, windswept, forthright, tattooed.

There is, however, one important difference between Marlboro and its makers. Marlboro has a filter and the makers do not—except of course for Windswept T. Sigafoos, Vice President in charge of Media Research. Mr. Sigafoos does have a filter. I don't mean that Mr. Sigafoos personally has a filter. What I mean is that he has a filter in his swimming pool at his home in Fairbanks, Alaska. You might think that Fairbanks is rather an odd place for Mr. Sigafoos to live, being such a long distance

Loyal, true, robust, windswept, forthright, tattooed....

from the Marlboro home office in New York City. But it should be pointed out that Mr. Sigafoos is not required to be at work until 10 A.M.

But I digress. This column, I say, will take up questions of burning interest to the academic world—like "Should French conversation classes be conducted in English?" and "Should students be allowed to attend first hour classes in pajamas and robes?" and "Can a student of 18 find happiness with an economics professor of 90?"

Because many of you are new to college, especially freshmen, perhaps it would be well in this opening column to start with campus fundamentals. What, for example, does "Alma Mater" mean? Well, sir, "Alma Mater" is Latin for "send money".

What does "Dean" mean? Well, sir, "Dean" is Latin for "don't get caught".

What does "dormitory" mean? Well, sir, "dormitory" is Latin for "bed of pain".

Next, let us discuss student-teacher relationships. In college the keynote of the relationship between student and teacher is informality. When you meet a teacher on campus, you need not salute. Simply tug your forelock. If you are bald and have no forelock, a low curtsy will suffice. In no circumstances should you polish a teacher's car or sponge and press his suit. It is, however, permissible to worm his dog.

With the President of the University, of course, your relationship will be a bit more formal. When you encounter the President, fling yourself prone on the sidewalk and sing loudly:

*"Prexy is wise
Prexy is true
Prexy has eyes
Of Lake Louise blue."*

As you can see, the President of the University is called "Prexy". Similarly, Deans are called "Dixie". Professors are called "Proxie". Housemothers are called "Hoxie Moxie". Students are called "Amoebae".

This uncensored, free-wheeling column will be brought to you throughout the school year by the makers of Marlboro and Marlboro's partner in pleasure, the new, unfiltered, king-size Philip Morris Commander. If unfiltered cigarettes are your choice, try a Commander. You'll be welcome aboard.

S.I.U. Downs Miners 44-0 in First Football Game of Season

by Charlie Marlow

Last Saturday the Missouri Miners and the Southern Illinois Saluki played at the M. S. M. field. It was a hard hitting, driving football game. The Miners were rated underdogs forty to nothing and this was very close to the final score.

In the first half the Miners played real good ball and it looked as if they were going to give the Saluki a run for their money. It was mostly a passing game for the Miners while the Saluki played a ground game.

In the first quarter S. I. U. went over for a touchdown on a series of belly plays. They kicked for the extra point. This was the score at the end of the first quarter: seven to nothing in favor of S. I. U.

In the second quarter the Miners got down to the S. I. U. ten yard line. Immediately afterwards S. I. U.'s star halfback, Bullock, got kicked out of the game because of a personal foul. Then Martin intercepted a S.I.U. pass on the thirty yard line of S. I. U. We still didn't score and S. I. U. scored once more, making

the score at the end of the half thirteen to nothing.

In the second half the Miners ran out of steam and S. I. U. took over to score five more times,

making the score forty-four to nothing.

All we can do now is hope the team can recover and defeat Washington U. this Saturday.

Career Cues

**"Cure for job boredom:
I made my favorite
pastime my career!"**

Richard Bertram, President
Bertram Yacht Co., Division of Nautech Corp.

"When you stop to think what percent of our total waking hours is spent bread-winning, you realize how tragic it is for any man to work at an occupation he doesn't enjoy. Besides frittering away life, it reduces chances of success to just about zero. I know... because it almost happened to me!

After college, I did what I thought was expected of me and joined a solid, Manhattan-based insurance firm. I soon found office routine wasn't for me. I lived only for

lunch hour when I could walk to the Battery and mentally sail with the ships that stood out in the Narrows... and for the summer weekends when I could go sailing. Fortunately, the company I worked for is one of the leading insurers of yachts and after two years I was transferred to their Yacht Underwriting Department. Enjoyment and interest in my work improved immediately 100%.

After World War II, I started my own yacht brokerage firm and yacht insurance agency in Miami, combining my marine insurance background with an even closer relationship with boats.

My only problem ever since has been a feeling of guilt that my work was too easy. I love boats and boating people. That affection has paid me rewards way beyond the financial security it has also provided.

The moral's obvious. You have an odds-on chance for success and happiness working at what you enjoy most — what comes naturally! And if it's not just frivolous, your life's work could well be what you now consider just a pastime. It's certainly worth thinking about, anyway!"

Richard Bertram, while still in his early thirties, became one of the country's leading yacht brokers. Today he heads up eight companies covering yacht manufacturing, insurance, repair, storage, finance and brokerage. A resident of Coconut Grove, Florida, Dick became a Camel fan while still in college.

And to make any time pass more enjoyably...

1960-61 Intramurals

Sigma Nu First

by Ed Divine

Taking first place with the highest total number of intramural points was Sigma Nu with a total of 1,485.75 points. Tech Club was runner up with a total of 1,422.75 points. The other ten places went to Lambda Chi Alpha, Kappa Sigma, Phi Kappa Theta, Prospectors, Pi Kappa Alpha, Triangle, Sigma Phi Epsilon, The Doms, Engineers and Tau Kappa Epsilon.

Sigma Nu racked up most of their points in Handball, Basketball, Wrestling, and Track. They were champs in each of these events and runners up in Cross Country, Volleyball, Golf, and Boxing.

The keen competition in intramural sports was proven again last year when four standing intramural records were shattered. Coyle from Sig Tau Gamma leaped 5' 11 $\frac{7}{8}$ " for the new high jump record. Usher from Sigma Nu received credit for the new low hurdle record of 0:13.9 and the high hurdle record of 0:09.3, and Kauffman from Prospectors sailed the Discus 128' 1" for the new record.

Hats off to all the organizations who participated in the intramural program last year.
