TOM GRESHAM

hails from Carthage, Mo., is one of the best known and most per-

Bob Elliott, New IFC President

Last Tuesday night the IFC held its last meeting of the year and held election of officers for

BOB ELLIOTT

the coming semester. Bob Elliott from Kappa Sigma was elected president. Bill Ligon was made

school in 1958. When given the four year Union Carbide Engineering Scholarship, Bill chose to study the field of Metallurgy here at MSM, and has accumulated a 2.86 overall grade point.

On campus, he chose to become part of the Pi Kappa Alpha organization, and held the position of president last semester. He is, or has at one time or another been an active member in Theta Tau, Alpha Sigma Mu (Treasurer), Gamma Delta, AIME, ASM, AFS, Glee Club and the MSM Band. His jobs on the Rollamo Board have consisted of Sports Editor, Classes Editor, and Business Manager. Subsequently, he was given the Rollamo Gold Key Award. Also, Bill served as Chairman of the News Service Committee of the Student Union Board. As a member of the Blue Key, he received the title of the Blue Key Man of the Month in January of this year.

When Bill graduates in June, he will be sent to graduate school, here at MSM, by the I.B.M. Graduate Training Program, under the direction of W. J. Kroll Fellowship for the Academic year of 1962-63. There should be no doubt that Bill Hallerberg has earned the title of the I.F.C. Man of the Year.

Thirteen Instructors To Leave MSM Next Year

With the exception of thirteen, who will not return, all the instructors have signed and turned in their contracts for the academic year of 1962-63. These thirteen are representative of nine departments on campus. In our Ceramic Department, Dr. D. E. Day is going on a military leave, and is not expected to return next fall.

From our Chemistry Department, Mr. Peter W. Blichenderfer is leaving because he will be entering the world of industry, while Dr. James W. Johnson has arranged for a leave of absence; he will be doing post-doctoral work at the University of Pennsylvania. And in the Electrical Engineering Department, Mr. James I. Latham has resigned as a teacher to work on his Doctor's Degree here at MSM.

Mr. Richard L. Burns, Graphics instructor, has received a leave of absence so he may enter the University of Missouri and complete the requirements toward his Doctor's Degree in Industrial Education and Engineering.

Switching to the Math Department, Mr. Paul D. Thomas will begin teaching Physics at North Dakota State University next September, while Mr. George G. Robinson, pending on the outcome of this year, has plans to

Independents Man of the Year

This year the Independents have chosen Richard Jauer to be their Man of the Year. Rich is indeed deserving of this award which is based on school activities and scholastic standing.

Ever since Rich came to MSM in 1958, from Afton high school in St. Louis, he has made his presence felt in almost every phase of school life. Living in the dormitories he was elected

NUMBER 29

Greek Weekend Highlighted by Queens, Carnival and Games

THE QUEEN

This year the Interfraternity Council started the tradition of electing three queens to aid Zeus in his duties as reigning god of the Greek Week games.

The queens were elected by the senior members of the IFC at the Kappa Alpha house Friday night. The girl who won the top honors was Pat Rutledge, the representative from Sigma Pi. The other two queens, elected to assist Pat, were Jeanne Peters from Triangle and Rose Mary Capps from Kappa Sigma.

Later that night, at the carnival held at Lions Club Park, the queens were introduced to the patrons from the town and school.

THE CARNIVAL

The Interfraternity Council sponsored a carnival last Friday night, purpose of which was to provide money for a contribution to Boys' Town of Missouri.

Two trophies were given away, —one went to the booth that collected the most money and the other went to the best decorated booth.

Phi Kap somehow collected the most money. They gave the IFC a total of \$65.49. Kappa Sigma was second with a donation of about \$60. The carnival netted a total of \$650.00.

Kappa Sigma traded places with Phi Kap in the decoration contest. The Kappa Sigs won the best decorations trophy with Phi Kap, TKE, and Triangle taking the next places.

THE GAMES

Saturday afternoon at the Grotto in Newburg, Mo., the IFC held its annual Greek Week games day. All the fraternities competed for the top honors in the games and they fought particularly hard in the Chariot Race competition.

There were six games and results ran like this: Beta Sig won the Egg Throw, Kappa Sig the Sack Race, Pi KA the Wheelbarrow Race, Beta Sig won again in the Chair Carry, Acacia won the Limbo Contest, and Kappa Sig took a second win in the Stilt Race.

The Chariot Race was run in two heats. Kappa Sig, KA, Sig Ep, and Beta Sig all won in the first set of races. In the final race of the day the KA's won. The

STUDENT COUNCIL ANNOUNCEMENT

Each semester it is the duty of the Student Council Executive Committee to submit to the Dean of the school a budget showing the proposed allocation of the funds available for distribution by the Student Council.

To facilitate the making up of the Student Council budget the following section was added to the new Student Council Constitution:

Article IV Section 5

Every organization intending to request money from the Student Council in excess of (\$100.00) One Hundred Dollars shall submit a budget to the Student Council during the first month of each semester.

The Student Council will be accepting budgets until October 6, 1962.

Miner Editorials

THANK YOU!

As the semester draws rapidly to a close, we take this final opportunity to wish the students, faculty, and staff of MSM a pleasant and enjoyable summer vacation. We hope everyone obtains the most from a richly deserved relief from the rigors of the school year.

Also we would like to thank everyone concerned for the cooperation given to the MINER and its staff, without which it could not exist. Designed as a school service, the MINER is effective only as long as it has the support of the entire student and faculty body.

We look forward to another year of publication, and until then, "Have a good time, Miners!"

The MINER has attempted recently to depict active campus life with an increased number of pictures. We would like to thank the Rollamo for its assistance, especially in relation to its loaning to us the photographic facilities it depends on. The Rollamo's cooperation has been deeply appreciated, and we know of no better place than here in which to express our thanks.

NEED FOR SERVICE!

This campus is blessed with an abundant supply of organizations, particularly organizations of a service nature. Although some of these groups have made noteworthy and heart-warming efforts to do all they can to help the student body, most have remained content to sit idle and collect praise.

It is all too true that service projects are hard to think of; however, much more could be done to help the students than is presently being done.

Perhaps the reason for the lack of effort is the rather limited field of activity covered by the local definition of service.

Instead of spending extra money on unnecessary activities which couldn't this money be spent offering prizes for the best contributions to a literary magazine of some kind. The students could in this way be encouraged to try their hands at thought provoking essays, short stories, and poems, or the production of a play might be considered. These activities would be of more service to the students than might presently be imagined.

Some might say that engineering students lack talent along these lines. This is not completely true. It may be harder for them to do well in these fields but they are not necessarily incapable of doing well. Scientifically inclined people are quite often most appreciative of this sort of thing and with effort can do fine work along these lines. If other leading technical schools can produce such things, MSM can too. And if MSM is to produce along these lines it is the duty of the leading service organizations to promote these productions.

THE MSM STORY?

Orange County State College of California, being a college similarly small and unsuccessful in sports as we here at MSM, devised and hosted the first "Intercollegiate Elephant Race." They dreamed up the athletic endeavor "to win by a 1 to 0 default victory."

But, alas, on Dumbo Downs Day, the students awoke to find their little campus overrun by 15 of the brutes! Not being ones to back down, the students decided to hold the competition.

The main event of the day, the varsity races, were filled with lumbering excitement. Modoc, the skittish entry from Long Beach State College and the first pachyderm to jump from the gate, plodded down the track of oats at a frightening speed, decided to take a detour, stepped on a man's foot and ended up entirely off the track. But Modoc was still declared the winner, as he was clocked at 23.85630 seconds for the 95-yard dash.

In spite of this record, Harvard University's Sonita won the Sweepstakes Award. In fact, every elephant won some kind of trophy.

Orange County State College, the host campus, won the treasured Elephant Racing Fan Club of Long Beach State College Trophy — a gold plated shovel, for cleaning up afterwards. Seems like we usually get the same short end of the stick!

Congratulations to APO For Year of Real Service

During the course of a school year, an average Miner devotes himself to several purposes, ends, ideas. The foremost of these will be his pursuit of an education, of course, but at times his attention will be momentarily swayed by a week-ends entertainment, the possibility of summer employment, etc.

During the course of a school year, an average MSM organization has the chance to accomplish many things, and of these, most are coincident with the wish of the Miner to gain an education. That is, almost every campus group is orientated to supplement an MSM student's courses.

But there is an organization on campus which offers no more to a Miner than a chance to serve. Alpha Phi Omega this year sponsored blood drives, book stores, guest guides, surveys, to mention only a few. And offering this, membership is up 200 percent.

If any one or more of the departmental and honorary groups held as much interest, by providing as much enthusiasm and purpose, as does APO, we would see a change in organizational standings, in their worth, and in the well-roundedness of the Miner.

Let's congratulate Alpha Phi Omega and thank them for making it an effective, hard moving organization for us.

MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M. S. M.

vice-president; Doug Told and Dave Decker were elected treasurer and secretary respectively.

The retiring officers thanked the IFC for its support, and they asked it to continue all the old and new traditions followed this year.

Bob Elliott, the new president, has served as junior representative to Tom Gresham, the former president. Bob has been active in Theta Tau, a national engineering fraternity. Likewise, he has shown abilities as a member of the Student Union Board, where he is now social director.

This year, he held the offices of vice-president of the Met. section of the AIME and vice-president of the AFS as well.

The Student Council Is Your Organization

Meeting of May 8, 1962.

The meeting was called to order at 7:00 p. m. by President Clark.

Wayne Leimer, Cadet Commander of the Pershing Rifles, reported on their trip to Norman, Oklahoma and explained the trophies which they won.

COMMITTEE REPORTS:

Tom Wilson reported a balance of approximately \$2000 in the treasury.

Jacket Committee — Jeff Herbst reported jackets for second year members would be ordered as soon as proper sizes of members were obtained.

MIAA — Dale Marshall reported on the trip to Cape Girardeau Leadership Seminar May 4-5. Those attending were Ed Benn, Mark Martin, Les Blumberg and Dale Marshall. Cost of the trip was \$32.87.

Pamphlet — The article concerning student council activities in the MSM Book has been revised instead of a separate pamphlet being written.

Volunteers were called for those who are interested in serving on standing committees of Student Council as well as student organizations.

OLD BUSINESS:

Larry Gilmartin reported the cost of a pay phone for the infirmary was too high. He is to see Dean Hershkovitz about the possibility of the school placing a pay phone in the infirmary.

NEW BUSINESS:

Volunteers for summer contact on campus for the Student Council were Abrams, Mark Martin, and Jeff Herbst.

A thank you note from the library staff for appropriations was read by President Clark.

He also read a letter concerning an act of vandalism allegedly on the part of members of the student body. Larry Brunjes moved the council appropriate \$30.00 to pay for damages caused by the vandalism. Meehan seconded. Ed Benn moved the motion be amended to place an editorial in the Miner in regards to the actions of these students and the degrading effect it has on the school. Motion and amendment carried.

Dale Marshall mentioned alternates of the council should be assigned to boards and committees of student organizations for better publicity contact.

He also mentioned the control of the Rollamo Board and Miner Boards and expressed that the council should have members present when Board members for the Rollamo and Miner are chosen.

Kelly Martin discussed the need for a sidewalk on the west side of the Student Union building. Also the need for trash cans outside the Union. It was reported these trash cans had been ordered.

There being no further business, the meeting adjourned at 7:40.

MALOLO® PENNANT STRIPE in all over print or with stripes at focal points. *Orange or blue combinations in sea-worthy 100% cotton. Jackets or trader pants \$6.95, trunks \$3.95.

CLIPPER STRIPE pullover deck shirt of luxurious cotton knit with tone striping on front and ¾ sleeves \$7.95. Cotton lined Hawaiian trunks \$6.95. Colors of white/blue, *pewter/tan or beige/taupe.

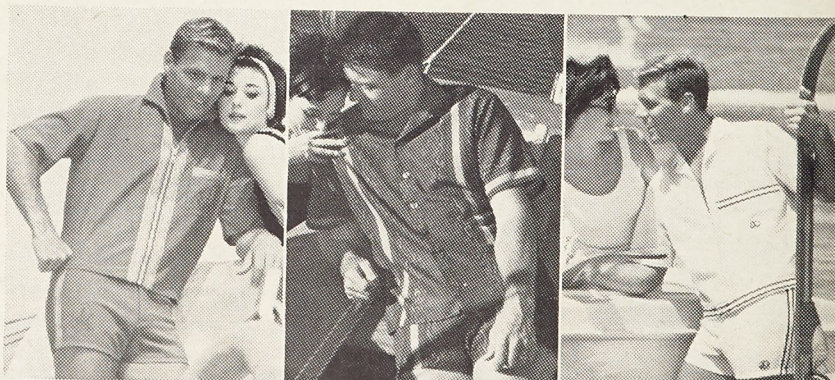

SEA LANE bold color stripes knit smartly of 100% cotton in combinations of *orange, blue or yellow. Bottom band cardigan jacket \$7.95 atop Hawaiian length trunks \$6.95.

THE SEAFARING MAN IS A Catalina MAN

(with an All-American Look)

Kayser-Roth Product.

Prof. Moulder Rated as Most Active Member of Faculty

The Miner this week salutes one of the most versatile men in the faculty. But his outstanding attribute comes when one considers that his interests are greatly spread also through the workings of the student body. The man is Karl Moulder, and a look at his history in education lends light to his present high activity.

KARL MOULDER

From his home in Lebanon, Karl traveled to Drury College in Springfield and graduated with a pre-med degree, concentrating on chemistry and biology. After gaining this bachelor's, he returned to teach 5 years of high school in his home town before spending the same length of time with the Armed Services in WW II. He finished as Captain in the Sanitary (now Medical Service) Corps, serving as bacteriologist.

After his service hitch, Professor Moulder worked with Ralston Purina in their Biochemical Laboratories in St. Louis. From here he went back to school, this time for bacteriology graduate work at Iowa State. Through some quirk,

Professor Moulder's present capacity at MSM got a foundation here at an Iowa technical school, when he joined the faculty of the English Department.

By 1947, Professor Moulder had earned his MA from Washington University, with his thesis on Shakespeare, (he later lacked only his time in residence for a doctorate from M. U. on this same subject.)

In the fall of that year he came to MSM and immediately began serving in the widespread capacities so necessary to the life of the campus. As he had been initiated into Kappa Alpha while at Drury in 1933, he became KA Adviser here on arriving. He was also quick to assume a position of guidance with the Interfraternity Council, serving as IFC Faculty Advisor, also from 1947 to date.

Beginning as Instructor of English, the Professor has run the gamut of courses here, through grammar and literature to his present specialties, German and Shakespeare.

Campus life became a bit more hectic again for Karl in 1952 when he began advising the Board of this paper. He serves as Miner adviser at present. Also, in 1954, he began work with the St. Pat's Board and beginning this year he is supervising the Rollamo Board.

When backboning five major campus organizations is not enough to occupy Mr. Moulder's non-teaching time, he concentrates on contemporary and classic art. He has a collection in pencil and oils and ink, by men like Thomas Hart Benton and Renoir and Picasso, in quantity which allows only temporary showing of each in his home.

As a citizen, Karl actively supports the Lions Club, the Episcopal Church, and the Republican Party.

Letters to the Editor

On April 28, 1962, a complaint was registered to the city police concerning the breaking of a neon sign belonging to a local merchant. The sign was proven to have been broken by students of the School of Mines. The damage done was around thirty dollars. This may not seem like much to a so-called student who has nothing to do but waste the money his parents have earned to send him to school — he is surely wasting it if all he gets out of college is to willfully destroy another person's means of income — but it can mean an awful lot to the person who depends on the sign to help him earn his living.

Two students fitting the description of the persons breaking the sign were questioned after being caught running from the area. However they refused to admit anything, so nothing could be done except for the fact that one of them was held in the city jail pending prosecution for illegally buying beer.

Such an incident, the doing of two individuals, can, and does, reflect a bad name on the entire student body to say nothing of the school itself.

As is pointed out by this incident often the guilty party is protected by various legal technicalities, or more often is just plain never caught. However the fact still remains that "A Miner tore something up." This leads people to think we have nothing to do but run around at night destroying things. We all know this is far from the truth.

For our own benefit, the students of this school must take it upon ourselves to see that such actions cease to happen, for they cause nothing but ill-feeling between the town and the school. This is ultimately passed on to the student body through the faculty by them giving the students more to do. Think of this before doing anything that may bring it about.

The Student Council

Education is comparable to agriculture in that ideas are planted in minds as seeds are planted in the ground. In an engineering or trade school the educator hopes for as high a return for his trouble as possible. He plants many ideas and gives them little time or trouble, simple hoping that a low percentage of the numerous seeds will mature. The fibers, fruits,

and other products are delivered to the populace.

The liberal arts educator, however, plants just a few ideas. These are laid in select soil, and then patiently watered and fertilized. They germinate and grow to large and beautiful plants, like the flowers are so lively and inedible.

Paul Reichert

Blue Key Elects Officers and Plans Student Directory

At the last regular meeting of Blue Key, the officers for the following semester were elected. Retiring president Robert Thurman conducted the election. Wade Martin, past secretary, was elected to succeed as president, while Clint Clark took over vice-president from Gordon Hunter. John J. Schwaller presented the books to Tod Jester, the new recording secretary-treasurer. Charles Becker was elected the new Corresponding Secretary and Doug Schellman took over as Alumni Secretary.

Work has already been started on next year's Student Directory, the main project of the fraternity, and again this year, as in the past, Blue Key will act as ushers at the Baccalaureate Exercises and Commencement to be held Sunday, May 27, 1962.

Science Foundation Grants \$25,000

Word has been received from the National Science Foundation that the sum of \$25,000 is hereby granted to the University of Missouri for the support of an Undergraduate Instructional Scientific Equipment Program under the direction of Dr. Harold Q. Fuller, Department of Physics, Missouri School of Mines and Metallurgy, Rolla, Missouri. The object of this program is to assist colleges and universities in the crucial task of meeting the major requirements for competent scientists and engineers by obtaining funds on a matching fund basis. This program was initiated for the first grants during this fiscal year. The money available for the program for the first year was very limited and, likewise, the number of proposals which each college or university could submit were limited. This number depended upon the number of graduates in science and engineering which the college had in 1959. According to this basis of submitting proposals the Missouri School of Mines and Metallurgy was permitted to submit three proposals. The program seeks to identify situations in a state of constructive ferment where there is a likelihood that substantial progress is being made which will be enhanced by the availability of certain kinds of instructional equipment. Basically, the proposal for a grant should answer three questions:

(1) Does this disciplinary area offer an instructional program of high quality, indicating an awareness of modern trends?

(2) Is the requested equipment likely to assist the institution markedly in the implementation of this instructional program?

(3) Does it appear that the institution can make maximum use of the grant?

This grant will be very helpful to the Physics Department in improving their undergraduate program. Additions will be made in the equipment for the general physics lectures, general physics laboratories, and advanced physics laboratories. This equipment will be added to the department over the next two years. The granting of this sum of money to the Physics Department is concrete evidence that they have a well conceived and planned undergraduate program.

CRAM COURSE NO. 5: SHAKESPEARE

Continuing our series of pre-final exam cram courses, today we take up the works of William Shakespeare (or "The Bard of Avon" as he is jocularly called).

First let us examine the persistent theory that Shakespeare (or "The Pearl of the Antilles" as he is affectionately referred to) is not the real author of his plays. Advocates of this theory insist that the plays are so full of classical allusions and learned references that they couldn't possibly have been written by the son of an illiterate country butcher.

To which I reply, "Faugh!" Was not the great Spinoza's father a humble woodcutter? Was not the immortal Isaac Newton's father a simple second baseman? (The elder Newton, incidentally, is one of history's truly pathetic figures. He was, by all accounts, the greatest second baseman of his time, but baseball, alas, had not yet been invented.) It used to break young Isaac's heart to see his father get up every morning, put on uniform, spikes, glove, and cap, and stand alertly behind second base, bent forward, eyes narrowed, waiting, waiting, waiting. That's all—waiting. Isaac loyally sat in the bleachers and yelled, "Good show, Dad!" and stuff like that, but everyone else in town used to snigger and pelt the Newtons with overripe fruit—figs for the elder Newton, apples for the younger. Thus, as we all know, the famous occasion came about when Isaac Newton, struck in the head with an apple, leapt to his feet, shouted, "Europa!" and announced the third law of motion: "For every action there is an opposite and equal reaction!"

(How profoundly true these simple words are! Take, for example, Marlboro Cigarettes. Light one. That's the action. Now what is the reaction? Pleasure, delight, contentment, cheer, and comfort! And why such a happy reaction? Because you have

started with a happy cigarette—a felicitous blend of jolly tobaccos, a good-natured filter, a rollicking flip-top box, a merry soft pack. As Newton often said, "You begin with better makin's, you end with better smokin's." Small wonder they called him "The Swedish Nightingale!"

But I digress. Back to Shakespeare (or "The Gem of the Ocean" as he was ribaldly appellated).

Shakespeare's most important play is, of course, *Hamlet* (or *Macbeth*, as it is sometimes called). This play tells in living color the story of Hamlet, Prince of Denmark, who one night sees a ghost upon the battlements. (Possibly it is a goat he sees: I have a first folio edition that is frankly not too legible.) Anyhow, Hamlet is so upset by seeing the ghost (or goat) that he stabs Polonius and Bare Bodkin. He is thereupon banished to a leather factory by the King, who cries, "Get thee to a tannery!" Thereupon Ophelia refuses her food until Laertes shouts, "Get thee to a beanery!" Ophelia is so miffed that she chases her little dog out of the room, crying, "Out, out damned Spot!" She is fined fifty shillings for swearing, but Portia, in an eloquent plea, gets the sentence commuted to life imprisonment. Thereupon King Lear and Queen Mab proclaim a festival—complete with amateur theatricals, kissing games, and a pie-eating contest. Everyone has a perfectly splendid time till Banquo's ghost (or goat) shows up. This so unhinges Richard III that he drowns his cousin, Butt Malmsey. This leads to a lively discussion during which everyone is killed. The little dog Spot returns to utter the immortal curtain lines:

*Alack, the play forsooth was sad and sobby,
But be of cheer—there's Marlboros in the lobby!*

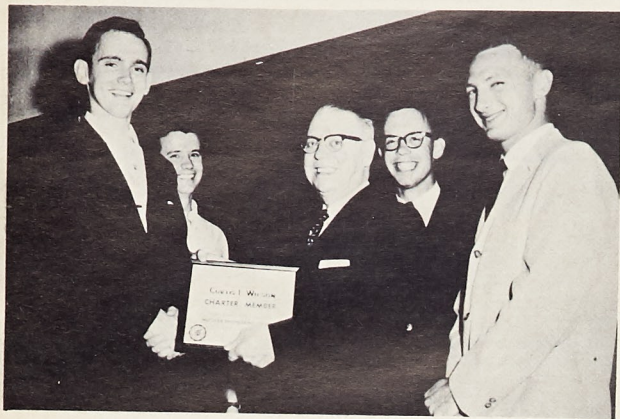

© 1962 Max Shulman

As the slings and arrows of outrageous finals loom closer, perchance the makers of Marlboro are not untoward to offer this friendly suggestion: Get thee to a library!

Nuclear Society Presents Membership to Dean

At the May 8th meeting of the MSM Nuclear Engineering Society, a very interesting movie entitled "The Radioisotope" was shown and enjoyed by all of the Nucs. The highlight of the meet-

graduate work at Columbia University in New York City during the summers of 1923 and 1924, and then in 1926 went to Europe where in 1928 he received his Ph. D. degree from the University of Goettingen in Germany. He re-

Dean Wilson Receives Membership

ing was a presentation of an honorary membership of the new engineering society to Dean Wilson.

The charter members of the society thought it a necessity that our Dean be a member of the society. Dean Wilson has been a key figure in the development of our campus in the twenty years that he has been here. He has brought this school up with the best in the country so that today it is world-renown for its engineering facilities and instruction. He has been especially active in acquiring the nuclear reactor for our school. For this and many other reasons, the Nuclear Engineering Society found it necessary to present him with the honor. It is indeed quite satisfying to have him accept the membership and become affiliated with our group. Dr. Curtis L. Wilson was born and raised in Baltimore, Maryland and attended high school there. He then went west and enrolled in the Montana School of Mines and graduated in 1920. He worked as assistant research engineer for the Anaconda Copper Mining Company until 1921, when he joined the faculty of Montana School of Mines as instructor in Metallurgy. He did

turned to Montana School of Mines as Professor of Metallurgical Engineering and in 1941 came to Rolla, Missouri to his present position.

He was awarded the honorary degree of Doctor of Engineering by Washington University in St. Louis (1954) and by Montana School of Mines (1955). He is Vice President of the American Society for Engineering Education and also Vice President of the National Society of Mining Engineers. He is presently Chairman of the Governor's Science Advisory Committee for Missouri.

Dean Wilson has been an active member of Rotary since 1928. In 1933-34 he served as President of the Butte Rotary Club and in 1935-36 as District Governor of Rotary of Montana. He is now a member of the Rolla Rotary Club and the Rolla Chamber of Commerce. In 1951 he received the Community Service Award of the Rolla Chamber of Commerce.

It is indeed an honor to have such a distinguished member in the Society of Nuclear Engineers. The Society wishes to applaud Dean Wilson for his works on campus and elsewhere.

Professor Nau of MSM Receives Reserve Officers Assn. Awards

On May 5th, Colonel LaCompte Joslin, Let Colonel Robert H. Nau, and his son Dana S. Nau, attended the Thirty-sixth Annual Convention, Department of Missouri, Reserve Officers Association of the United States at the Officers' Club, Lambert Field, St. Louis, Missouri. Honored guests were Major General C. J. Herrick, Commander of the XI Corps; Rear Admiral L. C. La Barge; Major General R. A. Palladino; Major General Wm. H. Harrison; Brigadier General R.H. Strauss; and many others. The address at the Department Banquet was given by the Honorable Edward V. Long, U. S. Senator from Missouri. Senator Long was introduced by Governor John Dalton's brother, Colonel W. Wm. Dalton, USAFR.

During the banquet Colonel LaCompte Joslin was presented with the Unit Citation for 100 percent membership in the Re-

serve Officers Association of the 2nd Engineering Training Group which he commands and whose headquarters is at Rolla.

Colonel Robert H. Nau, President of the Rolla Chapter Number 24, and Professor of Electrical Engineering at MSM, was presented two awards, one of which was a check in the amount of \$50. to his Rolla Chapter because he won the Missouri Department membership contest by increasing the chapter membership from 15 members last year to 52 members this year, being a 350 percent increase. This increase of 350 percent was nearly double that of the closest chapter contender. The other award, presented to the outstanding Chapter President, reads: "Lt. Colonel Robert H. Nau, USAR, has served with distinction the Department of Missouri of the ROA as President, Chapter Number 24, during

(Continued on Page 8)

ChE Dept. to Host Summer Paint Chemistry Course

For the fourth consecutive summer, the Department of Chemical Engineering and Chemistry of the Missouri School of Mines and Metallurgy will host the Summer Short Courses in Paint and Polymer Chemistry. The courses, which have achieved national attention, are taught by Dr. Wouter Bosch, Professor of Paint and Polymer Chemistry. Before coming to the school, Dr. Bosch initiated these courses at North Dakota State University in 1948 and has conducted them every succeeding year.

The 1962 series will consist of five courses throughout June and July, and will be held in the Old Chemistry Building. The PAINT SHORT COURSE FOR BEGINNERS is scheduled for 4-15 June and will consist of 20 lectures, 10 discussion periods and 10 laboratory sessions. This will be followed by the PAINT SHORT COURSE FOR HIGH SCHOOL CHEMISTRY TEACHERS from 19-26 June. This is sponsored and financed by the Educational Committee of the Federation of Societies for Paint Technology, with headquarters in Philadelphia, Pa. From 9-13 July a COATINGS COURSE FOR ARCHITECTS, PAINTING CONTRACTORS AND MAINTENANCE ENGINEERS will be held. The POLYMER CHEMISTRY CONFERENCE is scheduled for 16-20 July and the purpose of this course is to give scientific and technical employees of the Plastics, Fiber, Elastomer and Synthetic Resins industries an opportunity to obtain advanced training in this field. The final course will be the ADVANCED PAINT REFRESHER COURSE, to be held from 23 through 27 July.

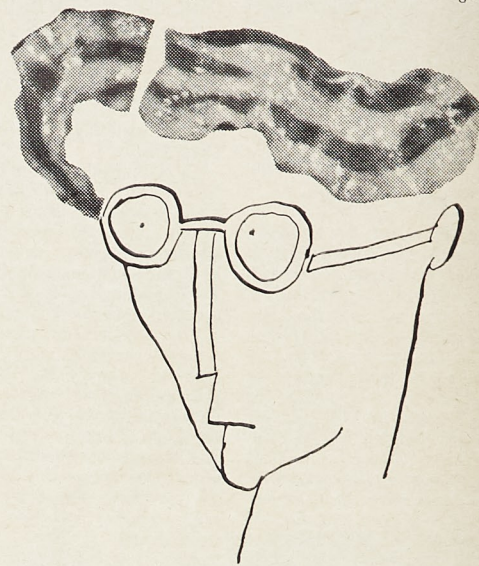

Dr. Tolman to Deliver Commencement Address

Dr. Carl Tolman, chancellor of Washington University of St. Louis, will deliver the address at the commencement Exercises at the Missouri School of Mines and Metallurgy. The ceremonies are scheduled for 5 p. m. on May 27th at the School's Jackling Field, when an estimated 540 degrees will be awarded.

Dr. Tolman, geologist, educator and administrator, was born at Lacombe, Alberta, Canada on May 7, 1897. He received a degree of Bachelor of Arts from British Columbia in 1924. He then went to Yale University where he received the M. S. in 1925 and his Ph. D. degree in 1927. He joined the faculty of

Washington University in St. Louis in 1927 as assistant professor of Geology. He was promoted to full professorship in 1945, having been an associate professor since 1939. He served as chairman of the Department of Geology and Geological Engineering of Washington University from 1944 to 1953. Along with this chairmanship, he was likewise dean of the Graduate School of Washington University from 1946 to 1953. In 1953 he was appointed vice chancellor and dean of faculties, and in 1961 was made chancellor of Washington University.

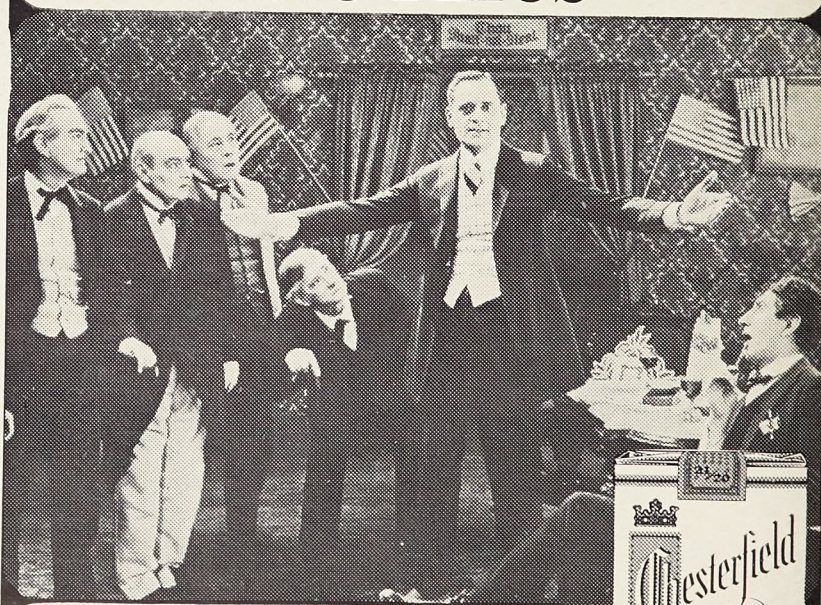

During World War I Dr. Tolman (Continued on Page 9)

Nothing rasher for your hair than grease. Let Vitalis with V-7 keep your hair neat all day without grease. Naturally, V-7 is the greaseless grooming discovery. Vitalis® with V-7® fights embarrassing dandruff, prevents dryness, keeps your hair neat all day without grease. Try Vitalis today. You'll like it!

540 Degrees to Be Granted At Commencement

The Reverend Hartford C. Inlow, Minister of the First Christian Church of Jefferson City, will deliver the Baccalaureate Address at the Missouri School of Mines and Metallurgy on Sunday, May 27th at 10:00 a.m. The ceremony will begin the school's commencement activities, which will see approximately 540 degrees granted in 17 fields of science and engineering. The ceremony will be held on Jackling Field. Reverend Inlow received his A. B. degree in 1940 from Texas Christian University with his major in Public Speaking and minors in Philosophy and Bible. He did graduate study in Psychology and Sociology at the same school in 1946. He received his B. D. degree in 1951 from the Graduate Seminary of Phillips University in Enid, Oklahoma and his graduate study followed in 1956 at Butler University.

A veteran, he served for 2½ years with the 70th Field Artillery Brigade of the 45th Division, and as a naval aviator in World War II, serving almost five years in the Atlantic and Pacific Theaters

of Operations and as a flying instructor at the Pensacola Naval Air Station. He attained the rank of Lieutenant Commander.

His pastorates began while he was a student at Texas Christian University and at Phillips University. Since he has served as Minister of the First Christian Church at Eureka, Kansas, as Associate Minister of the Central Woodward Christian Church in Detroit, as Minister of the First Christian Church of South Bend, Indiana from 1955 to 1961. He assumed his present pastorate as Minister of the First Christian Church of Jefferson City in February 1961.

He is a Scottish Rite Mason, a Member of the American Legion and Sertoma International, and in 1955 was recipient of the George Washington Honor Medal from the Freedoms Foundation of Valley Forge for his sermon, as "an outstanding contribution to a better understanding of the American way of life."

Inlow is married, with three children. His wife is a Special Education teacher with the Jefferson City Public Schools.

University Dames Install New Officers and Hold Banquet

The Missouri School of Mines and Metallurgy chapter of the University Dames ended the spring semester with a banquet and fashion show in the ballroom of the Student Union, Thursday evening May 10.

Mrs. Ruth Betts was installed as the new president for the coming school year in an impressive candlelight ceremony. Other new officers installed were vice president, Janis Click; Recording Secretary, Marlene Bagley; Treasurer, Doris Brockman; Corresponding Secretary, Darleen Dunker; Assistant Treasurer, Sharon Lee, and Assistant Corresponding Secretary, Villa Richardson. The retiring officers were president, Dona Evans; vice president, Beverly Breakey; Recording Secretary, Sharon Minton; treasurer, Carol Dyhouse; Corresponding Secretary, Betty Willyard; Assistant Corresponding Secretary, Dottie Grimes. Installation service was performed by the retiring president. Each new officer was given a lovely carnation and rose corsage. The retiring president was presented a University Dames pin with a president guard. The sponsors were each presented gold or silver bud vases.

Preceding the installation the members and guests enjoyed a lovely banquet. Serving as a centerpiece for the main table was a beautiful arrangement of various colored irises, majestic daisies, roses and carnations. Mrs. Curtis L. Wilson, a University Dames sponsor, gave the invocation. Other sponsors present were Mrs. Eppelsheimer, Mrs. Dudley Thompson and Mrs. J. Kent Roberts.

Following the banquet the graduating members of the organization were presented their diplomas by the retiring president and vice president. The diploma is an honorary one, recognizing the wife of the student and to give her some tangible evidence of the years her husband has spent in school. Ph. T. diplomas were presented to: Jo Ann Alcorn, Norma Bishop,

Joan Blase, Beverly Breakey, Connie Bub, Jean Burris, Phyllis Cadden, Sue Campbell, Gail Copp, Sandra DeLarm, Barbara Dunn, Ivy Eberhart, Mary Ellen Egge-man, Marcella Hake, Pat Hatfield, Ruth Haushalter, Charlotte Hoffman, Betsy Howard, Roberta Huebner, Nancy Hutchins, Jo Ann Hyberger, Sue Jacobsmeyer, Judi Jokerst, Rose Jones, Orvilla E. Kerr, Maryln King, Linda Downy, Jane Campbell, Miriam Hendricks, Janis Click, Rosalie King, Phyllis Kotthoff, Betty Lawrence, Carolyn Littleton, Patricia Lodholz, Judy McDonald, Verna Miller, Sharon Minton, Doreen Netter, Rosie Payden, Dottie Piekarz, Glenet Quinn, Frieda Roberts, Patricia Roberts, Carol Smith, Shirley Smith, Peggy Snelson, Joyce Staley, Rita Struckhoff, Janet Turner, Norma Tidwell, Carolyn M. Urton, Linda Vaxer, Lana Van Doren, Betty Willyard, Elizabeth A. Wilson, Joyce Yates, Julia Wilson, Donna Evans.

The fashion show was narrated

ROTC Cadets Obtain Pilots License

Cadets Larry K. Henderson and Edward A. Kriege recently obtained their civilian pilot licenses from the Federal Aviation Agency, Colonel Glenn R. Taylor, Professor of Military Science, announced today.

Cadets Henderson and Kriege established a precedent by qualifying for and passing the Federal Aviation Agency examination for a civilian pilot license entirely through the ROTC Flight Training Program at MSM. This is the first time ROTC men have qualified for the Federal Aviation Agency civilian pilot examination, without additional training, in the history of the ROTC Flight Training Program throughout the United States.

Normally upon completion of the ROTC Flight Training, the students pursue several additional hours of training at a civilian aviation school in order to qualify for a civilian pilot license. Forty hours of various types of in-flight training instruction are required (cross country, solo, instrument, etc.). Only in the case where a Federal Aviation Agency approved flight instruction school certifies a student as being proficient can any portion of this forty hours of instruction be waived.

Mr. Lee Maples of Maples Aviation Company, Rolla National Airport, certified to the proficiency of Cadets Henderson and Kriege prior to their taking the FAA civilian pilot examination.

Cadets Henderson and Kriege entered the MSM ROTC Flight Training Program in the Fall of 1961.

by Mary Lou Nabors. The trellis and white picket fence were covered with various colored carnations, accented against the green background. The fashion show was presented against a background of May poles and garden flowers. The arch ways and white picket fence were accented against a green background. The ramp running the full length of the ballroom was decorated in green and white with various colored carnations. Models were Sandy Kirchoff, Connie Bub, Dottie Piekarz, Lynn Harris, Sandy Crockford, Pat Bingamon, Marty DeMay, Rosie Payden, Jean Foster, Phyllis Kotthoff, Beverly and

Pershing Rifles Elect Officers for Coming Year

On the 8th of May the following men were installed as officers of the Pershing Rifles. Company Commander is Michael S. Goodman. Executive Officer is Ronald C. Marshall. S-1 is Ronald Rusch. Kent Schwiager is the new S-2. The S-3 is Jim McDuff. Ronald Renaud is the new S-4 and Terry McMahon is the new Public Information Officer.

These men were nominated and elected by the Pershing Rifle Company K on April 10 of this year.

For their outstanding service to the Pershing Rifles, the following three cadets were given special recognition by Company K. Michael S. Goodman received the Pershing Rifle Silver Achievement Medal. Cadet Bruce Joiner received the Pershing Rifle Bronze Achievement Award; and Ronald Rusch received the Pershing Rifle Bronze Achievement Award. These awards can only be given to deserving men at the discretion of the Company Commander.

a ruling god, the games took on a more traditionally Greek appearance. The reigning god, Zeus, and the four lower gods, together with three queens, all rode to the games area in the best looking chariots. And the torch which Dean Wilson lit in front of Parker Hall at 10:30 Saturday morning, was run all the way to the Grotto and its arrival there marked the official opening of the games.

The Esquires, from St. Louis, provided the music for the festivities and the weather, which was splendid, provided the needed touch which made the games for 1962 the most successful yet.

Newman Club Discusses Federal Aid to Education

Federal Aid to Education was the topic for discussion of the Newman Club at their May third meeting. Four members of the MSM faculty acted as moderators of the discussion. Mr. Allard of the physics department gave the opening discussion, after which small groups were formed, head-

Chances are, you know that Greyhound fares are less than any other form of public transportation. What you probably don't realize is how much less. For a pleasant surprise, check the money-saving Greyhound fares below. You'll see at a glance why it always pays to insist on exclusive Greyhound Scenicruiser Service...and leave the driving to us!

No other form of public transportation has fares so low. For example:

| Rolla to: | | JOPIN, MO. |
|-------------------|--------------------------------|--------------------------------|
| ST. LOUIS, MO. | One way 3.60 Round trip 6.50 | One way 6.00 Round trip 10.80 |
| SPRINGFIELD, ILL. | One way 6.65 Round trip 12.00 | TULSA, OKLA. |
| CHICAGO, ILL. | One way 10.50 Round trip 18.90 | One way 9.00 Round trip 16.20 |
| DETROIT, MICH. | One way 17.35 Round trip 31.25 | OKLAHOMA CITY, OKLA. |
| SPRINGFIELD, MO. | One way 3.90 Round trip 7.05 | One way 12.25 Round trip 22.05 |
| | | KANSAS CITY, MO. |
| | | One way 7.20 Round trip 13.00 |

The Above Fare Quotations Are Less Tax

BAGGAGE! You can take more with you on a Greyhound. If you prefer, send laundry or extra baggage on ahead by Greyhound Package Express. It's there in hours...and costs you less.

ELECTIONS HELD

SIGMA PI

The Alpha-Iota chapter of Sigma Pi fraternity recently elected their officers for the second semester. The following men were elected to office:

President, Paul Becher; Vice President, Ralph Wink; Recording Secretary, Bernie Ebert; Alumni Secretary, Nick Alonge; Herald, Chester Vogt; House Manager, Bill Loth; Rush Chairman, Mark Morris; Intramural Manager, Arvin Erickson; Social Chairman, John Dierker.

BETA SIGMA PSI

On Monday, May 7, Beta Sigs held their elections for the coming semester. The following were elected to the respective offices: Dave Decker, President; Harold Meier, rush chairman; Larry Beimann, first vice president; Jim Harle, second vice president; and Professor Munroe, faculty advisor.

SUCCESSFUL GREEK WEEK

It's back to studying now for the Kappa Sigs after a most enjoyable and successful Greek Week. The IFC Festival at Lions Park, Friday night, proved to be outstanding with the ingenious booths, and much fun was had. Kappa Sigma was awarded "Best Booth" with the "Ring-a-Duck," and came in second in regard to the amount of money collected.

Saturday morning, approxi-

mately forty-eight Kappa Sigs participated in running a torch twelve miles to the Grotto, signifying the start of the Greek Games. The flame burned throughout the day on an altar similar to that used in the Olympics.

Kappa Sigma was honored to have Miss Rosemary Kapps chosen as runner-up to the Greek Week Queen, and also was honored to be awarded the trophy for "Overall Games Winner."

Saturday night, a joint party was held at Lions Den Hall with Sigma Nu. A rocking group known as "The Spiders" emitted some sounds and all present had a ball.

Newman Club Wins Award

Mens Sana (The Sound Mind), the publication of the Newman Club of the Missouri School of Mines, won the Publications Award at the recent Central States Province Convention. The Central States Province consists of the Newman Clubs of the states of Kansas, Nebraska, Missouri and Iowa.

The paper, still an infant, states its purpose as twofold. First, to instill a greater association between the club and its members, and second, to inform the members of what is going on around them and in the club, and to remind them of their duties as Newmanites and Catholics.

Members of the Publications Committee mimeograph the paper and mail it to all members of the club, neighboring clubs, and friends. The articles are written not only by the paper's staff, but also by the officers and individual members. The general outline consists of a commemorative cover, Chaplain's editorial, news and editorials, and a feature article of the month.

Mens Sana, which is published monthly, was originated by the club's publicity chairman and the paper's first editor, Bill Bridegroom. His work has been carried on by the current editor, Richard Kraut.

The convention was held in Kansas City, Mo., on May 4, 5, 6. Five members of the local club attended. They were Donald Muhlbaier, President; David Lindsay, Bill Bridegroom, Lynn Buhr, and Andrew Riess.

NOTICE!

Open House of the MSM Model Railroad Club

Stalag 17 At S. U. Sunday

During World War II a group of G. I.'s are thrown together in a notorious German prison camp. When two of the prisoners are shot and killed in an attempt to escape, it becomes obvious that there is a spy among them. Suspicion points to Sefton (William Holden), a cynical sharp-tongued G. I. who spends his time scheming up rackets and trading with the Germans for special privileges. The G. I.'s beat him unmercifully. Let alone in the compound, Sefton is determined to find out who the informer really is, and sets a trap. In this tight drama are sprinkled some uproariously funny scenes.

Starring William Holden, Don Taylor, Otto Preminger, Robert Strauss, and Harvey Lembeck.

sonable men on campus; he is liked for his friendly smile and positive outlook on life. His fresh ideas combined with his leadership qualities have gained for MSM students many improvements through the organizations he represents.

He has gained this "Blue Key" honor primarily because of the outstanding work that he has done in various campus organizations. Tom is a member of Kappa Sigma fraternity and was twice elected (in consecutive semesters) president of the IFC. He has served on the Student Union Board and Council as Social Chairman and he has held the offices of Circulation Manager for the Miner and Theta Tau Treasurer.

Besides these achievements Tom has won many outstanding honors. Among these are Who's Who in American Colleges and Who's Who in the Greek World. Tom has been made a Knight of Saint Patricks Court and most recently was chosen to portray the greek god, "Hermes," at the Greek Week festivities held last weekend.

After graduation this spring, Tom will work for "Schumberger Overseas" and will attend school in Paris during his first three

Miners Place Fourth in M. I. A. A. Conference Golf Competition

The MIAA held its conference golf meet on Friday, May 11, on the links of Whiteman Air Force Base. The six teams of the MIAA: Springfield, Warrensburg, Cape, Kirksville, Maryville, and Rolla, all participated in this event.

The meet itself consisted of two 18 hole rounds of play, which were both played off in the same day. Each team was allowed six entries, the scores of only the five top men were counted in the team totals.

In this meet the Miners placed fourth, but the teams who out-

scored the Miners did so only by a close margin. The totals, as amassed by the various teams, ran as follows:

| | |
|-------------|-----|
| Springfield | 797 |
| Kirksville | 802 |
| Warrensburg | 809 |
| Rolla | 811 |
| Cape | 837 |
| Maryville | 958 |

After the first round the Miners had the lead with 398 against the 399 totals of Springfield and Kirksville. As a whole, the Miner team averaged 79 for the first 18, 82 for the second.

The top golfer for this event

was Robert Cain, whose 153 stroke total earned him the position as first medalist. Bob plays for the Warrensburg team. Hubert Jones, an MSM golfer, earned a medal with his 158.

The rest of the Miner golfers posted equally good scores. Tom Konkle shot 160, as did Bob Gollofer. Bill McCracken posted a 165, Stan Nodland a 168, and Jack Turner came out with a 174.

Ron Koenig Intramural Athlete of the Year

At a meeting of the intramural managers last Monday night, Ronald (Butter) Koenig was elected as Intramural Athlete of the Year. Just a junior in Civil Engineering, Ron has already managed to gain the respect of his opponents in every major sport.

He was the spark that brought Triangle to its football championship last fall, by his performance as team high scorer and number one defensive back. He also represented his fraternity by placing fifth of fifty-four entries in tennis singles. "Butter" has also participated in handball and wrestling. He was a starter and great

influence on both the volleyball and basketball teams. Both of these teams came in second place in league competition.

He will round off the year in softball and track. In softball, Ron is the teams leading hitter and has played first base, caught, and pitched on the so far undefeated team. With his help, Triangle has hopes of this year's championship. You wouldn't know it by his size, but Ron has been a great help in track by entering in the 50 yard dash and serving on the 440 relay team. Congratulations to well-deserving Ron Koenig on his selection as Intramural Athlete of the Year.

Miner Track Team Places Slow Fifth in MIAA Meet

The Kirksville Bulldogs racked up their second straight MIAA outdoor track championship last Friday and Saturday at Warrensburg. The Miners pulled in a distant fifth behind Warrensburg, Springfield, and Cape Girardeau. Maryville finished sixth behind the Miners.

The powerful Kirksville squad was led by Leroy Berry. Berry set a new record in the 100 yard dash with an exceptional time of 9:6 seconds. He finished second in the 220 and was a member of the 880 yard relay team that set a new record of 1:27:1. His relay teammates were Milt McPike, Jim Taylor, and Chuck Taylor.

There were four other track records broken at the meet. The two Taylors, McPike and Jim Weigand set a record in the mile relay with a time of 3:20:9. Weigand also turned in a record performance in the quarter mile with a

time of 49:5 seconds.

Dale Collier of Kirksville set a new shot put record with a heave of 51 feet 6½ inches. Warrensburg's John Taylor lowered the high hurdle record to 14:4 second.

Ray Mullen, a freshman at MSM turned in an outstanding performance for the Miners as he set a new school record in the pole vault. Ray cleared the bar at an even 13 feet, his best effort of the year. His best vault this past year was 12 feet, 8 inches. Nick Barr held the old record at 12 feet, 10¼ inches.

Jay Alford and Dennis Heeger were the only other individuals to score for the Miners as Alford finished second in the high jump and Heeger third in the broad jump. The 880 yard relay team, composed of King, Fugate, Van Horn and Ravens, rounded out the scoring for the Miners with a fifth place finish.

Missouri U. Downs MSM In Tennis Competition

By Howard McCormack

The Miners played Missouri University, Tuesday, May 8, in a Tennis Singles and Doubles Match to suffer a 6-1 set-back at the hands of the Tigers.

Don Mason made the only Miner score by defeating Chuck Hume of the Tiger squad in a singles match. Dale James, Ken

Scott, Al Panhorst and Gordon Link of the Miner Squad all were defeated in the remaining singles matches.

Mason and James fought a hard doubles match against Van Horn and Kaplan but were finally beaten 6-2, 9-7, by the Mizzou team. Hume and Skelton of Mizzou downed Miners Scott and Panhorst to finish the match.
