William Crede

Chosen IFC

Man of the Year

At their annual banquet the IFC presented their Man of the Year award to Bill Crede of Phi Kappa Theta. The presentation took place Thursday, May 14, in the Student Union.

Bill was selected from a group of five semi-finalists which included Maury Green from Pi Kappa Alpha, Doug Schellman from Phi Kappa Theta, Keith Bailey from Lambda Chi Alpha, and Lonnie Shalton from Sigma Nu. Candidates were selected on the basis of organizations membership, offices held, personality, and scholarship. Bill was chosen IFC Man of the Year by a faculty committee headed by Dean Ponder.

Bill, a graduating senior in Mechanical Engineering, came to MSM from Westphalia, Missouri. Some of the positions which he has held are Editor-in-Chief of the Rollamo; President, Secretary, and Alumni Secretary of Phi Kappa Theta; Treasurer and Alumni Secretary of Blue Key; and Vice-President of the St. Pat's Board. He also holds membership in Pi Tau Sigma, SAE, SAME, and the Newman Club. His college career includes a very impressive array of honors and awards, some of which are Theta Tau Freshman of the Year, Gold Key, FEF Scholarship and Who's Who in American Colleges and Universities.

Gods Smile Upon 1964 Greek Week Festivities

Overall Trophy

Kappa Alpha emerged victorious from close competition for the overall Greek Week trophy after Saturday's Greek Week Games.

Kappa Alpha scored its winning points by taking first place in the queen contest, second place in the best booth competition and a tie for first place in the games at the Grotto.

Lambda Chi Alpha ran a very close second with points for second place in the queen competition, fourth place for most money at the carnival, and a tie for first place in the games. Sigma Nu took third place in the overall competition.

Carnival

The traditional Greek Week carnival whose proceeds go to the Boy's Town of Missouri, was held Friday evening. Sigma Pi was awarded first prize in both the best booth judging and in the "most money collected" contest at the carnival. Sigma Pi's booth was a model bowling alley and was a favorite spot for many people. The Sig Pi's collected a total of \$144.32.

Triangle's Pi Kappa Alpha's and Lambda Chi Alpha's booths contributed the second, third, and fourth largest amounts of money, respectively.

ROLLA, MO., FRIDAY, MAY 22, 1964

NUMBER 29

Variety Keynotes Selection Of Courses for Summer Session

The summer session at MSM will get under way June 8, Robert Lewis, registrar and director of admissions, has announced.

Registration for the eight-week session will be Monday, June 8, with classes starting the following day.

Students attending summer school this year will have the unusual experience of changing schools in mid-semester while attending the same institution. The school will officially change its name July 1 to the University of Missouri at Rolla. The August graduating class will be the first class to receive their diplomas under the new official name.

Classes are offered during the summer session in the following departments: Ceramics, Chemistry, Chemical Engineering, Civil Engineering, Electrical Engineering, Geology, Humanities and Social Studies, Mathematics, Mechanical Engineering, Mechanics, Metallurgical Engineering, Military and Physics.

Of special interest to area students who attend college elsewhere during the winter are courses available in the Department of Humanities and Social Studies.

These include American Literature, English Literature, Public Speaking, French, German, Economics and American Civilization.

Several short courses and summer institutes are scheduled for the Rolla campus during the summer months. Four summer institutes will be sponsored by the National Science Foundation: two for college teachers, one for high school teachers, and the fourth for outstanding high school science students.

The three teacher institutes will run concurrently for eight weeks starting June 8. They include an institute in computer science and mathematics for college teachers of chemistry and physics, and a summer institute for chemistry, physics and mathematics teachers. The institute in nuclear science and engineering is under joint N. S. F. and Atomic Energy Commission sponsorship. A seven-week N. S. F. summer science training program will be held for about 36 high school science students from June 8 through July 24.

Two non-credit eight-week evening courses will be offered by the School of Mines in cooperation with the University of Missouri Extension Service. "Introduction to Data Processing" is the title of a course to be given by the Computer Science Center on Tuesday and Thursday evenings. A course in basic electronics will be taught by the Electrical Engineering Department on Monday and Thursday evenings. Information concerning these courses is available at University of Missouri Extension Centers.

The Department of Chemical Engineering has scheduled five

short courses in paint and polymer chemistry. They are as follows: Introductory Polymer Course, June 8-19; Conference on the Chemistry and Physics of Polymers, June 22-26; Coatings Course for Architects, Painting Contractors and Maintenance Engineers, June 29-July 3; Paint Short Course for Beginners, July 6-17, and Advanced Paint Refresher Course, July 20-24.

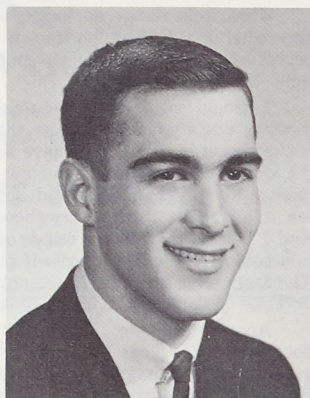

Fees for undergraduate classes are \$58.75 for the session. Graduate fees are \$10.75 per semester hour. For further information contact Robert B. Lewis, director of admissions.

Independents Elect Bob Jung Man of the Year

On May 11 at the May meeting of the Independents, the recipient of the annual Independent Man of the Year award was announced. Robert Bo Jung was presented with an engraved brass and walnut plaque by committee chairman Larry Roberts.

This award is given each year to the Independent who has done the most for the organization and for the school. It is based on a point system with points being awarded for work in Independent and campus activities.

Bo is an electrical engineering

ROBERT BO JUNG

major who hails from Affton, Missouri. A junior, he has been active in the Independents since he came here as a freshman. He has served as vice-president and president in this past year. Living in the dorms, he was elected to the Board of Governors by the MRHA for three semesters. Bo has been an active member in the Student Council as an Independent representative for two years.

Blue Key, Theta Tau, SAME, and IEEE also have Bo as a member. In the Student Union he has been vice-president of the Student Union Board. These many activities add up to a fine job done by our worthy Man of the Year winner, Robert Jung.

Sigma Pi, Kappa Alpha, and Beta Sigma Psi were the top three fraternities respectively in the competition for the best booth. (Continued on Page 4)

ROTC Brigade Review Attracts Visiting Cadre

The annual MSM ROTC Brigade Awards Review was held on Jackling Field at MSM, Monday, May 18th. Awards were presented to outstanding cadets by Dean Leon Herschkowitz, Colonel Daniel J. Minahan, Jr., Deputy Commander, XI U.S. Army Corps, St. Louis, and other distinguished guests of the MSM Military Department.

Dean Herschkowitz presented the Board of Curators Awards to Cadet Major Olin K. Conley, Senior, Troy Mo., and Cadet Staff Sergeant John R. Ruser, Jr., Sophomore, Poplar Bluff.

Dean Herschkowitz also presented the Sons of the American Revolution Award to Cadet Staff Sergeant Paul E. Darnell, Willow Springs, Mo.

Colonel Minahan presented the Department of the Army Superior Cadet Ribbons to the outstanding cadets in each class: Cadet First Lieutenant John D. Smart, senior, Fulton, Mo.; Cadet First Sergeant James D. Stricker, junior, Rosendale, Mo.; Cadet Staff Sergeant Robert R. Callen, sophomore, Farber, Mo.; and Cadet Private Brunn W. Roysden, freshman, Fort Leonard Wood, Mo.

Colonel Minahan also presented the Association of the United States Army Award to Cadet First Sergeant James D. Stricker.

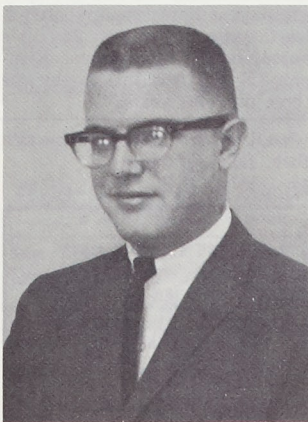

The Armed Forces Chemical Association Award was presented by Doctor Dudley Thompson,

Chairman of the MSM Department of Chemical Engineering and Chemistry, to Cadet First Sergeant Charles F. Seger III, St. Louis.

Colonel Glenn R. Taylor, Pro- (Continued on Page 6)

John Million Cited as May's Man of the Month

John Million was elected Blue Key Man-of-the-Month for May.

JOHN MILLION

John, better known as "Mills," is one of the best known and most

respected men on campus. His success can be directly attributed to his easy going personality and his ability to get a job done, promptly and efficiently.

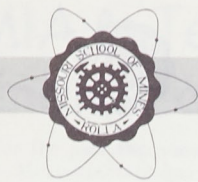

His activities while at MSM are numerous. He has held offices in virtually all of the major organizations in which he has been a member. These include: treasurer of the Interfraternity Council, treasurer and president of Theta Tau, corresponding secretary of Blue Key, and vice president of the American Ceramic Society. As a member of Delta Sigma Phi social fraternity, he has served on the executive council twice. "Mills" has also been honored by being chosen as a Greek God twice.

This man has definitely served his school well and is very deserving of being named Blue Key Man-of-the-Month. A salute to John Million!

NOTICE!

REMEMBER:

If you are not returning next fall, and are not graduating, put your name, student number, and mailing address in the Rollamo mail box so you receive your yearbook as soon as possible.

Miner Editorials

A Realistic View of America

Several weeks ago Senator J. William Fulbright (D-Ark.) delivered a penetrating address on American foreign policy. In his speech, Senator Fulbright called for a comprehensive re-analysis of our foreign policy in the realistic light of today's world.

The weeks following his address found Senator Fulbright assailed from all sides. A mild rebuke from President Johnson and numerous not-so-mild reactions have kept him embattled in controversy since his speech.

But what had the Senator said to arouse such a storm? The answer is that Senator Fulbright has done what has been done by no administration since President Truman's — he has taken a *realistic* view of America's position in the contemporary world. He has also taken the first major step toward enlightening the American public to the cold realities of our times.

Since the birth of our country, Americans have tended to view the nations of the world as either pro-American or anti-American. The rise of Communism has fostered this attitude to an even greater degree. But there is a grave error in this "black and white" philosophy — it totally disregards the existence of neutral nations! The American public blindly assumes that if a nation is not avidly pro-American, it is our mortal enemy. This situation simply does not exist.

An excellent example of the "black and white" inaccuracy is Cambodia. This free nation is by far the most stable in Southeast Asia, yet, it has been neutral since its formation in 1954. Although it is a Communist nation, Yugoslavia is another good example. Its philosophy and policies are much more acceptable to American aims than those of many of our allies.

Thanks to Senator Fulbright, the time of awakening has arrived for many Americans. It will be a time discovery — that free nations are not necessarily synonymous with American allies; that America can and does make mistakes; that what is "best for America" is not always good for the rest of the world. But most of all, it will be a time for facing reality — we must see the world as it is, not as we want to see it.

With these thoughts in mind, an informed, realistic American public can lift American foreign policy from the throes of the past to the threshold of the future.

GUEST EDITORIAL

The 'Pseudo-Event'

WE LIVE IN THE AGE OF THE PSEUDO-EVENT.

It no longer matters whether anyone heard the tree fall in the forest. What matters is whether or not the fall of the tree was documented on television.

The vast majority of Americans are no longer capable of believing something on their own authority. Indoctrinated since childhood by boytop offers of a "guaranteed genuine official" world, they seek desperately for Authority — and find it everywhere but in themselves . . .

Thus it is things no longer happen of themselves. They happen only after a sufficient portion of the public has been told they happened. And then only of the public senses that it was "official" all right that they happened.

I would suggest, for example, that the Goldwater "boom" of today is not a particle stronger than the same boom a year ago. What is significant is that people have now been told that it exists. Likewise, the civil rights revolution did not exist for middle class white Americans until they had been told about it. Never mind that they could see it all about them, everywhere, every day. They had to be told. And I believe that, in the minds of these same people, the same revolution could again cease to exist if the establishment were to tell them so. The facts seen by the self are nothing compared to the facts reported in Time Magazine, a notable spokesman for officialdom.

Another example. The use of news photographs, long a means to document a fact, has been discontinued on the Huntley-Brinkley program. An artist has been employed, instead, to do sketches of events. By almost the same token, the news itself on this program has been replaced by the employment of Huntley and Brinkley, who appear to bring the news into being, full-blown from their brows, simply by deigning to acknowledge it.

Despite the public's willingness to believe what is "officially" stated, it still has some hesitation on the really important things. Millions of Americans are not willing to wake up in the morning and be told who is the new president. They must sit up all night in front of their television watching the electric lights flash behind Walter Cronkite. Apparently they do not realize that the electric lights, and Cronkite are present only to make the event "official." Neither has anything to do with reporting the news.

Remember, if you will, how many Americans watched the solar eclipse on television when the real thing was going on in the heavens right outside their doors.

Or take another example. Is it morally correct to sell wheat to Russia? Three months ago, public opinion said no. Today, public opinion says yes. And yet I would bet you that no one has changed his mind on the question — if, indeed, anyone could really say on his own authority whether the sale was right or wrong. We "go along." As a nation, we're great at that. Every four years we choose who to go along with.

But still, a question remains.

Does the tree in the forest really fall, if nobody hears it? But

MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year.

Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M. S. M.

Mistake Found, Pershing Rifles Take Second

On May 7th, 8th, and 9th, Pershing Rifles, Company K-7, attended the Seventh Regimental Assembly held in Wichita, Kansas. During these three days Company K participated in standard squad, platoon, exhibition drill, machinegun crew competition, rifle team, M-1 disassembly and assembly, and individual drill.

The Company finished second in standard squad and standard platoon drill, tied for second in machinegun crew competition, and took first in exhibition drill. During the last four years Company K's exhibition drill team has been defeated only once in competition. Several individuals took honors during the assembly. Robert Callen won first in M-1 competition for the second consecutive year. James Moss won first in sophomore individual drill, and Ronald Rusch won third in advanced cadet individual drill. Floyd Gonzalez and Ronald Renaud received awards for outstanding service in Pershing Rifles during the last four years. Ronald Rusch received the regimental commander's award for outstanding service in Pershing Rifles.

The highlight of the assembly came when Company K was selected as the most outstanding company in the Seventh Regiment. The Seventh Regiment encompasses Missouri, Kansas, Arkansas, and Oklahoma. All of a company's activities and achievements during the year are included in winning this award.

When the assembly was closed, Company K had placed first four times, second three times, and missed winning the roving trophy for outstanding company attending the assembly by only 26 points out of nearly 1500 points. Company K had won this trophy the three previous years.

what if it were an imaginary tree, and yet everyone heard it? Did it, then, fall?

Letters to the Editor

Dear Sir,

At the recent Pershing Rifles Seventh Regimental Assembly in Wichita, Kansas, an unfortunate incident occurred in the scoring of events in which the companies of the regiment were competing. At the close of each annual regimental assembly, a trophy is awarded to the company scoring highest in the competitive events. Based on total scores at the close of competition, your company from MSM was in first place and entitled to the trophy.

Unfortunately, an error had been made which was not discovered until after the trophies and other awards had been presented at the Awards Assembly. The correct total scores resulted in the trophy rightfully belonging to another company whose score was higher than that of your company by a narrow margin. When this situation was explained to Cadet Floyd A. Gonzalez, the company commander of your Pershing Rifles company, he displayed outstanding sportsmanship and leadership. Graciously relinquishing the trophy which his company had been awarded, he explained the circumstances to his unit and led them in a cheer for the winning company. As the bus carrying your cadets departed the University of Wichita, his leadership and the high morale of his unit were further demonstrated by the fact that all individuals were singing spiritedly.

The leadership of Cadet Gonzalez and the outstanding sportsmanship and high morale of the entire unit are worthy of the highest praise and reflect great credit upon MSM and the National Society of Pershing Rifles. Please convey to these cadets my sincere appreciation and great admiration for their sportsmanship and fine conduct in this unfortunate incident.

On the Other Side of The Transit

By Bob Everding

Virginia Woolf,

Virginia Woolf,

Who's Afraid of Virginia Woolf?

Take one rationally outspoken history professor and his loud, lusty, ironic and bitter wife; add one repulsive biology teacher and his ever-vomiting and ever-bland wife; spice with discussion, near-attack, drinking, argument, recrimination, shocking language, more drinking and "fun-and-games;" bring to a slow boil for three and one-half hours in a post-party encounter and you have the recipe for one of the best plays of our times. *Who's Afraid of Virginia Woolf?* — a Critic Award Winner and a Broadway hit for the past twenty months — is the product of the new *avant garde* playwright Edward Albee.

As entertainment the play is varied, potent and very enjoyable. But the real greatness of this work lies in the deeper meaning within the story. What Albee has written is a view of America and its present-day civilization. What he hypothesizes is that man has stepped down on that "ladder of evolution" and that to re-ascend is

impossible. What Albee pessimistically says is that our society is doomed to a continuous gradual fall into the abyss of degeneration.

In delivering his message, Albee has employed the use of symbolism. In the title itself — an obvious parody of the children's song "Who's Afraid of the Big Bad Wolf?" — Virginia Woolf represents the world as it is today. An imaginary son, in the play itself, represents a guise of "fantasy" that society places before itself in order to blind sight of the reality of the world in which it lives. When the son dies (again, imaginary), the protective shield is shattered and the play ends almost tragically as the wife answers the title-question, "I am . . . I am."

But the playwright does not stop with a generalized attack on our society. Throughout the course of the play, he "speaks-out" on science, morals, fidelity, religion and many of the other facets of our modern civilization.

Whether Albee's views are right or wrong is a decision left to the individual. But, regardless, Edward Albee must be considered one of the most influential writers of the modern theatre and of our times.

Faculty appointments and resignations which will go into effect next semester are as follows:

Chemistry and Chemical Engineering

Resignations: David W. Bunch, Instructor.

New: Raymond L. Venable, Ph. D. 1963, Louisiana State University; Harvey H. Grice, Ph. D. 1941, Ohio State University; Efton L. Park, Ph. D. 1964, University of Oklahoma.

Civil Engineering

Resignations: Donald L. Evans. New: Glenn R. Taylor, M.S. 1963, MSM; Richard Handy, Ph. D. 1956, Iowa State College.

Electrical Engineering

Resignations: H. P. Brueggemann, Leland L. Long, R. L. McNally.

New: Giles C. Sinkewicz, M.S. 1960, MSM; Ralph Carson, Ph. D. 1964, University of Illinois; Frederick Lynch.

Geology

Resignations: G. C. Amstutz.

Graphics

Resignations: Richard L. Burns.

Humanities

Resignations: Christopher Durer. New: James G. Harris, Ph. D. 1949, M.U.; Charles E. Bess, M.A. 1931, M.U.; James C. Pogue, Ph. D., M.U.

Math

Resignations: William Kabeiseman, R. H. Lassley, Charles C. Limbaugh, James C. Helm, and Don Rogier.

New: Bill E. Gillett, Ph. D. 1964, Oklahoma State University; Frederick T. Grossman, M.S. 1960; Lanny E. Grigsby, B.S. 1960, Buena Vista College, Storm Lake, Iowa; James Cavin, B.A.

MSM Honors Class of 1914 At Commencement

The Missouri School of Mines and Metallurgy will honor the Class of 1914 at Commencement Exercises, May 31st, at 5:00 p.m. The graduates of this class will be presented with 50-Year Recognition Awards.

There were twenty-five graduates in the Class of 1914, and of this number ten are deceased and the addresses of three are unknown.

Dr. Merl Baker, Dean of MSM, has contacted the remaining twelve inviting them back to the campus to personally receive the award. Nine of this number have found it possible to return. They are: L. J. Boucher, Indialantic, Florida; Clyde W. Hall, St. Petersburg, Florida; Llewellyn Lodwick, McAllen, Texas; Roy N. McBride, Dallas, Texas; Gilbert F. Metz, Vero Beach, Florida; Dr. Enoch R. Needles, New Vernon, New Jersey; Riley M. Simrall, Canon City, Colorado; Arthur F. Truex, Tulsa, Oklahoma and John N. Webster, San Antonio, Texas. Five of this group received their degrees in Mining Engineering; five received their degrees in Science; one in Civil Engineering and one in Metallurgical Engineering.

The Class of 1914 is having a Dutch Treat Breakfast at 8:00 a.m., Sunday Morning, May 31st, in the ballroom of the Student Union.

1961, MacMurray College; Charles Hatfield, Jr., Ph. D. 1944, Cornell University.

Mechanics and Mechanical Engineering

Resignations: Richard Wallace, Richard Johnson, Richard G. Murray, Virgil J. Flannagan, Charles White.

New: Mehdi Nejad Bahadori, Ph. D., University of Illinois; Robert B. Oetting, Ph. D. 1964, University of Maryland; Charles J. Haas M.S. 1962, Colorado

AIME Named Campus' Best Professional Society

For the second straight year the mining section of the American Institute of Mining, Metallurgical, and Petroleum Engineers has been chosen as the Professional Society of the Year in the contest sponsored by the Blue Key National Honor Fraternity.

By repeating as winners, AIME mining section, has earned the right to display the traveling trophy for another year, which is currently on display in the Mining Building.

In winning this high honor, which is based upon percentage of department's membership in the society, attendance at meetings, speakers, field trips, and awards and services to members, AIME

New Officers Elected by IFC For Coming Year

The new president of the IFC for the fall semester of 1964 is Gary Nickens of Sigma Phi Epsilon.

The other new officers elected are: Gary Bardon of Phi Kappa Theta, Vice-President; Gary Brunner of Sigma Nu, Secretary; John Dierker of Sigma Pi, Treasurer; and Larry Littlefield of Pi Kappa Alpha, Judicial Board President. The Faculty Advisor for the coming semester will be the Associate Professor Robert V. Wolf.

The overall goal of the Interfraternity Council is to promote harmony and cooperation among the member fraternities.

NEWS of the Week

Saigon, Viet Nam: Three Viet Cong agents were caught while they were trying to mine a bridge in South Viet Nam. Secretary of Defense McNamara was due to cross the bridge on a tour of South Viet Nam two days later. The three agents admitted they were part of a Communist plan to kill Mr. McNamara. The life of U.S. Ambassador Henry Cabot Lodge also would have been endangered by the plot.

U.S. Planes Crash: Three U.S. Military plane crashes claimed the lives of 87 persons last week. The crash of a jet transport near Manila, in the Philippines, killed 71. The crash of a Navy Patrol plane in the Atlantic Ocean near Spain killed the crew of 10. In still another crash in Alabama two student paratroopers were killed.

Washington: Attorney General Kennedy, Senator Dirksen, and a bipartisan group of Senators have reached agreement on amendments to the civil rights bill. The purpose of the amendments is to make an easier task of breaking up the Southern filibuster on the bill. The group feels that the proposed amendments do not weaken the bill in any way. Many of the amendments involved clarification of language. Several of the changes involved the crucial problem of enforcement of the bill.

The Hague: The North Atlantic Treaty Organization plans to renew pressure on Russia on the reunification of Germany. The plan, which was drawn up by West Germany's foreign minis-

try, will be studied by the Ambassadorial group in Washington and then presented to Russia at a suitable time. The Germans feel that the Western countries should discuss this plan this summer and present it to Russia this fall. The purpose of the plan is to reunify Germany with emphasis on self-determination by the German people.

Cuba: Three raids by anti-Castro troops were made on Cuba last week. Sources are vague on the second two raids, but the first brought angry protests in the UN from Havana. Seventy-thousand bags of sugar were destroyed in the first raid. In a note to Secretary General U Thant, Havana claimed that the United States Central Intelligence agency is directing the attacks from Florida and that peace might be endangered by such activities.

Blue Key Elects Officers for Coming Semester

At the last meeting of Blue Key, officers were elected to serve for the coming semester. Succeeding Lonnie Shalton as president is Tom Gaylord, former alumni secretary. Bill Norfleet will take over the vice presidency, and Bob Ricketts is the new treasurer. The corresponding secretary, who is a recent initiate, is Jim Bertlesmeyer. Bill Farrell was elected the new alumni secretary.

These officers are already quite busy in preparing for the coming senior picnic and also in organizing the student directory. Under president Gaylord's able direction, the coming year looks like one of much promise for Blue Key.

Greek News

Dierker Heads Slate at Sig Pi

Sigma Pi recently elected new officers for the fall semester of 1964. Congratulations are in order to John Dierker, president; Chester Vogt, vice-president; Fred Harrison, alumni secretary; Charlie Rowlan, recording secretary; Don Houser, historian; Carl Tegtmeier, house manager; and Roger Ubaudi, pledge trainer.

Records are being toppled by Sigma Pi, the most recent being at the Greek Week carnival when Sigma Pi collected a record total amount with their swing-bowl booth. They also walked away with two trophies in the carnival competition: the trophies for most money collected, and for best decorated booth.

On Saturday night of Greek Week, Sigma Pi held its annual Orchid Ball. Music was furnished by the Majestics.

Sigma Pi has elected Miss Pat

Rutledge as its new sweetheart. Pat is a freshman at M. U. Columbia and was the 1961-62 Greek Week Queen. Congratulations to Pat.

Seven brothers will be lost through graduation in May, including Bernie Ebert, Tom Johnson, Ken Masters, Mark Morris, Ed Rutledge, Bob Wagner, and Ralph Wink. The presence of these men will be missed, however, a strong rush program is underway.

Tekes Elect Woodward to Top Position

TKE prepares for the fall semester with the installation of new officers and the addition of an old TKE tradition.

Congratulations are extended to the new officers, Fraters David Woodward, president; Jim Peck, vice president; Marv Byington, secretary; Richard Wingate, historian; Paul Cook, treasurer; Tony Romano, chaplain; Harb Henry, pledge trainer; Phil Bertrand, sergeant at arms; Barry Dew, assistant pledge trainer; and John Mitchel, steward.

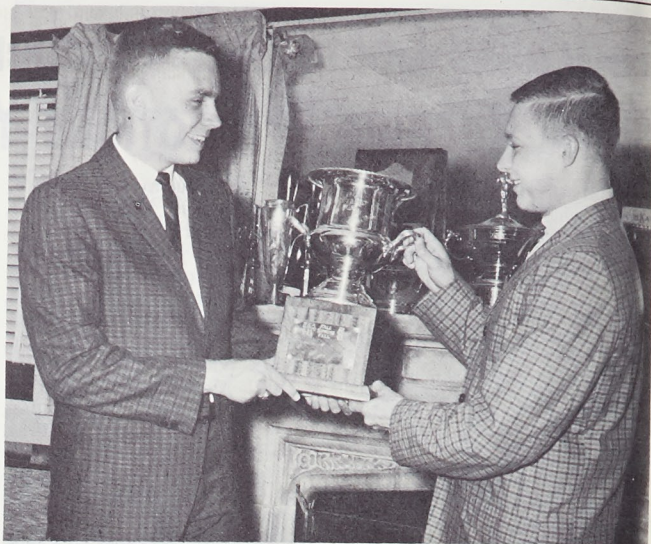

A large bell has been donated by Mr. and Mrs. Marvin Byington, grandparents of Frater Marv Byington, to the TEKE chapter here at MSM. In keeping with the tradition of many other TEKE chapters across the nation, and to help promote school spirit here at MSM, this bell will be rung at football games when the Miners score a touchdown or extra points and at other special events.

Pi Kappa Alpha Elects Officers

The men of Pi Kappa Alpha recently chose their leaders for the fall semester of the 1964-65 school year. Serving as president will be Clyde A. Vandivort. David C. Karr will be vice-president. Acting as treasurer will be Ralph W. Sullivan. The position of steward falls into the hands of Bryan A. Stirrat. The job of house manager went to Daniel K. Goodman. The pledge training program is to be headed by Gary C. Koch. The job of secretary was given to Frank W. Kelton. Other

elected officers include David C. Hoffmeister, assistant treasurer; Frederick S. Roth, assistant steward; and David L. Hunt, assistant house manager. Two faculty advisors will be Robert Wolf and William Lodholtz.

Early last April the Brothers of Alpha Kappa Chapter instituted a Dream Girl Formal. Needless to say, this function was a great success. This is the only true formal dance held by the MSM chapter. The festivities took place at the Chase Park Plaza Hotel in St. Louis. The name of the winning candidate was withheld until the "Big Night." Precisely at midnight on April 11, 1964, Miss Sharon Marie Adams was crowned the Dream Girl of Alpha Kappa Chapter. Escorting Miss Adams was her fiancée, Mr. Glenn Harrison. Alpha Kappa is truly proud to have such a fine Miss represent our chapter.

Pi KA receives IFC scholastic trophy for the third time in two years. The presentation was made at the IFC banquet, May 14.

Greek Week

(Continued From Page 1)

Queen's Tea

Miss Kathy Flood, representing Kappa Alpha, was elected queen of the Greek Week festivities at the Queen's Tea on Friday evening. Betty Jennings, representing Lambda Chi Alpha, and Linda Musgroves from Sigma Phi Epsilon were elected to the positions of attendants.

The Tea was held in the downstairs of the Pi Kappa Alpha house. Each of the candidates was wearing a cocktail dress and was interviewed by all of the senior members of the IFC.

After the candidates had been interviewed, they formed a semi-circle and introduced themselves once again. They then were escorted upstairs while the ballots were cast.

Games

The Saturday activities of Greek Week started with the lighting of the torch in front of Parker Hall. Last year's overall winners, Kappa Alpha, then ran the torch the 11.2 miles to the Grotto to

start the Greek Week games.

The games were the highlight of Greek Week and were held in honor of the gods: Harold Meier, Lonnie Shalton, Ed Schmidt, Rich Terry, and Hugh McCane, and the queen and attendants, Kathy Flood, Betty Jennings, and Linda Musgroves. The gods and queens arrived in chariots and reigned over the games from a throne in front of the games area.

The games, consisting of the egg throwing contest, the chair race, the wheelbarrow race, the stilt race, the egg-head race, the balloon race, the Limbo, the three-legged race, and the always interesting chariot race, then began.

The preliminary heats of the chariot race were run first and were followed by the other games.

After all the other games had been completed, the crowd gathered to watch the final heat of the chariot race. Sigma Phi Epsilon, Kappa Alpha, and Lambda Chi Alpha had achieved the best times in the preliminary heats and were ready for the run-off.

The Lambda Chi team was slightly in front by the first corner and by making a wide turn was

(Continued on Page 6)

The Reviewer's Stand

"THE VICTORS"

Six of Europe's top glamor stars play opposite a half-dozen of America's leading males in Carl Foreman's "The Victors." "The Victors" is the first film by Foreman since his great hit of "The Guns of Navarone." Like "The Guns of Navarone," "The Victors" was written, produced and directed by Carl Foreman, but is different in that it is based on truth and is an episodic tale of World War II.

"The Victors" is a stirring, frequently moving story which points up the futility of war. Foreman's theme in the film is how war affects people, women as well as men.

The war drama by Columbia, begins with the Battle of Britain and continues with the same squad of G.I.'s through their fighting and loving in Italy, France, and Berlin. Germany's Romy Schneider and Elke Sommer plus Greek Melina Mercouri and France's Jeanne Moreau play opposite the American male actors, Vincent Edwards, George Peppard, George Hamilton and Peter Fonda.

For a stirring war drama and the ugly truth about war, moviegoers should view "The Victors" at the Uptown Theatre, May 28-30.

STUDENT COUNCIL MINUTES

The regular meeting of the Student Council was called to order at 7:00 P.M. by President Norfleet. Roll was called and the minutes of the preceding meeting were approved as written.

Treasurer's Report

Koch reported that there is now a balance of \$1,391.51.

Committee Reports

Awards Plaques. Carter reported that the Dean is now signing the shingles. They should be given out in the near future.

Old Business

Student Council Man of the Year. There was discussion on the merits of such an award. It was decided to refer this to a committee to obtain some definite plans.

New Business

Farrell moved to accept the constitution of the Chinese Association. Second by Jung. Motion passed.

Farrell moved to accept the constitution of the Independents. Second by Jung. Motion passed.

Farrell moved to accept the constitution of the MSM Rugby Club. Second by Pack. Motion passed.

Farrell moved to accept the constitution of the Engineers Club. Second by Kammann. Motion passed.

Farrell moved to accept the constitution of Circle K. Second by Abramowitz. Motion passed.

Announcements

Bo Jung asked that all committee chairmen return the files of last year's business by May 12th.

The tentative date for the Student Council Banquet is May 24. This is to include all of last year's regular members.

Miners Support Phelps County March of Dimes

The best Phelps County March of Dimes drive in recent years was completed with another successful Ugly Man Contest by Theta Tau. 1964 Campaign Chairman, Lynn

tion to all groups participating in the Ugly Man Contest. "It is no secret that without the Miner's and their contest, the Phelps County March of Dimes would be

A check for \$1650.00 is presented by Theta Tau representative John Million to Phelps County campaign treasurer Darrell Bradford.

Martin, has released figures showing that the Ugly Man contest raised 30% of the total Phelps County contribution. The 1964 Ugly Man contest was up about 18% over last year. The entire county-wide campaign was up nearly 35%.

Lambda Chi Alpha walked away with top honors this year, raising some \$453 for the March of Dimes. Phi Kappa Theta brought in \$284.52, Pi Kappa Alpha \$270.00, Delta Sigma Phi \$201.00, and Tau Kappa Epsilon \$121.96.

Ugliest Man honors went to Lambda Chi's Keith Bailey. According to Jerry Hartenberger, 1964 Ugly Man Chairman, next year's goal is \$2000.00.

Campaign Chairman Lynn Martin reports that return of the borrowed coin collectors and canisters has been very slow by those groups using them during the Ugly Man competition. If these aids are not returned, it will cost the county chapter about \$50.00 to replace them for next year's March of Dimes campaign.

Martin expressed his apprecia-

very weak." The 1964 campaign grossed \$5582.00.

Dr. Eppelsheimer Receives AFS Service Citation

Dr. Daniel S. Eppelsheimer, chairman of the Department of Metallurgical Engineering at MSM, received the American Foundry Society Service Citation at the annual meeting of the Society in Atlantic City recently.

The Citation, which was established to honor those who have made outstanding contributions to the Society, was awarded Dr. Eppelsheimer "for dedication and encouragement of young men toward careers in cast metals and outstanding service to the Society, especially in the field of education."

A native of Chicago, Dr. Eppelsheimer received his B.S. and Doctor of Science degrees from

Harvard University. He was a research metallurgist for Union Carbide and Carbon Research Laboratories, a research associate professor of industrial engineering at the University of New Hampshire, and chief physical metallurgist and sales manager of Metal Hydrides, Inc., before joining the School of Mines faculty in 1946. In 1963, Dr. Eppelsheimer was appointed chairman of the Department of Metallurgical Engineering.

Whetton Lectures To Mining Classes

Prof. John T. Whetton, Leeds, England, presented a series of lectures to mining classes and held conferences with members of the mining engineering faculty and graduate students at MSM May 11 and May 16.

Prof. Whetton, who is traveling under the auspices of the Society of Mining Engineers of the American Institute of Mining, Metallurgical and Petroleum Engineers, is an expert on rock mechanics and coal mining.

Prof. Whetton's topics were as follows: "Coal Problems of Great Britain and the World," "Development and Reconstruction of Coal Mines in Great Britain," "The Study of Ground Movement," and "Damage Due to Mining Subsidence."

Prof. Whetton, who is at present a private consultant in mining, surveying and geophysical surveying is a former faculty member of the University of Durham and Leeds University. He has had wide practical mining experience in Great Britain and on the continent and was a post-war technical mining adviser in the Ruhr, Germany. He was a lecturer for the Nuffield Foundation and Research Council of Canada in 1960. He has served as president of the Midland Institute of Mining Engineers, England.

"Gentleman's Agreement," starring Gregory Peck, Dorothy McGuire, John Garfield, Celeste Holm, June Havoc, Albert Dekker, and Dean Stockwell.

Phillip Green (Peck), a magazine writer doing an article on the prevalence of anti-semitism in America, decides to pretend he is a Jew. What he encounters, in his office, social group, with the woman he loves, shocks and confuses him. He sets about trying to bring to the world what he has learned through his experiences.

GREEK WEEK

(Continued From Page 4)

able to avoid the entanglement of the Kappa Alpha and Sig Ep teams. From there the Lambda Chi's made a good hand-off and easily proceeded to the finish line with Kappa Alpha following second and Sig Ep third.

After a quick tabulation of points it was discovered that Kappa Alpha and Lambda Chi were tied for first place in the games with Sigma Nu third. The gods decided that the best way to settle the tie was to have another chariot race between KA and Lambda Chi.

In that race, Lambda Chi's fast first team outran the Kappa Alpha team to the corner and was able to win the race and the Greek Week Games trophy.

ROTC Students Receive Awards

(Continued From Page 1)

fessor of Military Science, MSM, presented the Armed Forces Communications and Electronics Association Award to Cadet Major Olin K. Conley.

The American Ordnance Association Award was presented by Doctor Aaron J. Miles, Chairman of MSM Department of Mechanical Engineering to Cadet First Lieutenant Bernard C. Ebert, Jr., St. Louis.

Professor Ernest W. Carlton, Chairman of the Department of Civil Engineering, presented the Society of American Military Engineers Award to Cadet Lieutenant Colonel Graham G. Sutherland, III, senior, Scotia, New York, and Cadet First Sergeant Danny R. Clarida, junior, New Burnside, Illinois.

Colonel Robert H. Nau, U.S. Army Reserve, Professor of Electrical Engineering, and President of the Missouri Department, ROA, presented the Missouri Department ROA Awards to: Cadet Captain James A. Baker, senior, Morris, Ill., Cadet Platoon Sergeant Charles R. McDuff, junior, New Orleans, La., Cadet Sergeant Carl H. Westenberg, sophomore, Pleasant Plains, Ill., and the Rolla Chapter ROA Award to Cadet Captain James A. Baker.

The Boy Scouts of America Award was presented by Gerald B. Rupert, Instructor in Mining Engineering, MSM, and representing the Big Piney District, Boy Scouts of America, to Cadet Lieutenant Colonel Floyd A. Gonzalez, Blue Springs, Mo.

The Distinguished Military Musician Award was presented to Cadet First Sergeant Larry G. Harmon, Rolla, by David L. Oakley, Director, MSM ROTC Band. Mr. Oakley also presented the Kappa Kappa Psi Award to Cadet Private James J. Beeson, St. Charles, Mo.

Colonel Minahan, representing Major General Walter A. Jensen,

Commanding General, XI U.S. Army Corps, St. Louis, also presented the Army Commendation for meritorious military service to Colonel Glenn R. Taylor, Professor of Military Science, who is retiring from the Army on June 30, 1964.

Music for the parade and ceremony was furnished by the MSM ROTC Band.

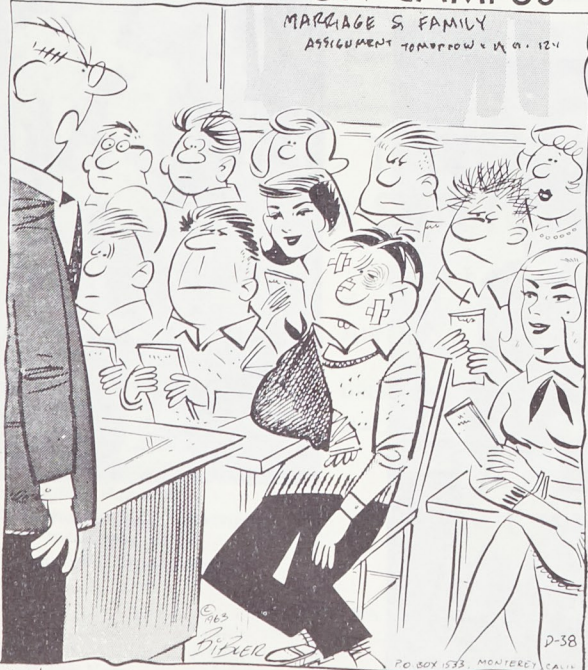

Gamma Delta Holds Banquet

On Sunday, May 10, Gamma Delta, International Association of Lutheran Students, held their annual Spring Banquet at which Dr. Donald Deffner spoke on "We—the Church." His speech was given after a delicious meal and group sing.

In his speech, Dr. Deffner gave each member of the Christian Church seven challenges to follow daily in his life. He challenged us to exemplify our Christian faith daily in the kind of life we live. He challenged the unbeliever just to try Christianity before rejecting it.

"We" the Church are composed of groppers, groupers, and grippers. Dr. Deffner said, "We often forget who we are—we become groppers, grippers, or groupers, but not grippers of each others' hands and of Christ's in the fellowship of the Church." His speech was inspiring and thought provoking to all in attendance. All-in-all the banquet was a great success and a great conclusion to the year's activities.

THE MISSOURI MINER

PAGE 7

Tech Club Captures Intramural Title for Third Straight Year

Totalling almost 200 points more than the nearest competitor, Tech Club has decisively copped the 1963-64 intramural championship. For the third straight year, the members of the club have seen the winning circle, this time with over 1900 points to their name. Lambda Chi Alpha was second to the top team scoring 1709.25 intramural points, as compared with 1900.25 for the Tech Clubbers. Last year's tally of 1629.25 was a far cry from the 1964 tally, the main reason being increased popularity and participation in intramural sports. Sigma Nu trailed Lambda Chi by a mere 4.75 points, totaling 1704.50 to pick up the third place position. Kappa Sigma found fourth place as a final resting spot (1626.25 points), and the Engineers Club wound-up in fifth with 1455.50. Phi Kappa Theta scored 1356.25 for sixth place.

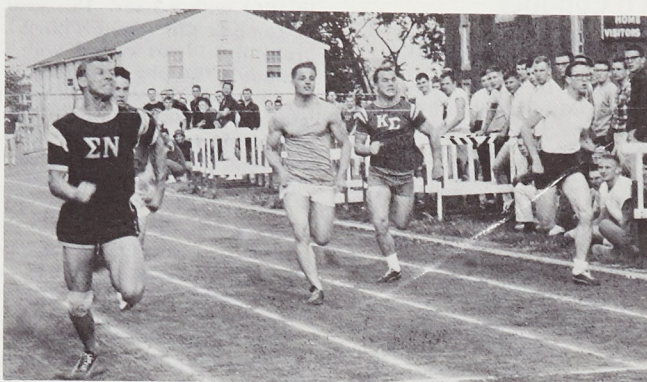

Tech Club wrapped-up championships in four sports this year. Besides pulling the 250 intramural points for the basketball trophy, the organization won first in handball, rifle, and horseshoes. Second place awards came in cross country, wrestling, and softball. Lambda Chi was the champ in track, swimming, and golf, taking second in basketball.

From Football to Track

The intramural season started off with flag football, and Sigma Nu topped the field of 26 teams with Triangle coming in second. Winshono, representing the International Fellowship, won the table tennis singles championship to lead that team to the victor's position. The Prospector's team of Peterson-Montrey came in second to the Engineers Club squad of Schroer-Moxhams in the doubles department. Never-the-less, the Prospectors Club took second place in those standings.

Kappa Sigma found a first place spot in the cross country competition, as the combination of Van Rhein-Killoras cleaned-up. Bleiler took the individual championship for Pi Kappa Alpha, and Bickel of the Tech Club was the runner-up. George Gasparovic won the singles honors for Tech Club in handball, and the team of Couse-Wargo swept the doubles end, giving the "Techers" an undisputed first place. Sigma Tau Gamma and Prospectors tied for the runner-up position.

Jack Suetterlin took the high triple series for the Engineers Club in bowling. Gary Kelso was the runner-up for Triangle. Phi Kappa Theta and Lambda Chi

Shippy runs 50-yard dash in 5.6 to win it for Sigma Nu.

Alpha were the champion and runner-up, respectively, in the volleyball playoffs, and Prospectors took the tennis singles spot too last fall. Wesley came in second in that competition. Tennis doubles were held this spring, and Triangle brought home the first place trophy, with Sigma Nu in the second spot.

As mentioned previously, Tech Club won the rifle championship totaling 801. Kappa Alpha was the team runner-up with 779. Lambda Chi was awarded the golf trophy as Parks set a new record for the individual medalist (152). Team runner-up was Sullivan-Abrens of Pi Kappa Alpha. Tech Club took both the singles and doubles firsts in horseshoes this year, Bickel triumphing in singles, and the team of Schafer-Kiez winning the dual matches. Lambda Chi came out victorious in the

swimming with MRHA taking the runner-up spot.

Lambda Chi Tops Track

Once again Sigma Phi Epsilon emerged as the top wrestling squad, scoring 41 points. Tech Club was next in line with 30. Kappa Sigma won the softball playoffs after experiencing a perfect season against the other members of their league. Tech Club lost to Kappa Sig in the final game, thereby coming in second. Track was won by Lambda Chi, the runner-up being Sigma Nu.

This season's activity marked the appearance of two new organizations to the list, International Fellowship and Army Association. With the number of teams standing at 26, next year's intramural program should soar to new heights as more and more students realize the values of this excellent extra-curricular activity.

Allgood Signs Thirty-two In Freshman Recruiting

The latest report from Dewey Allgood concerning the football recruiting program for next season includes 32 men who will be attending "the University of Missouri at Rolla" for the first time, either as freshmen or transfer students. By far the most outstanding list is the roster of possible tackles. Eleven men are signed up as tackles, and the list of half backs shows eight players. Centers, quarter backs, and full backs have three apiece, four guards, and only a single end.

According to Coach Allgood, the end position is the only one in which we are definitely hurting. It must be remembered, however, that the above numbers do not include the men who are presently attending MSM and are planning on signing up for the team. As of this writing, the outlook is pretty good for next season's squad.

Dean Baker once mentioned that it is everyone's duty to help recruit athletes for the school's teams. It is true that in the past few years, some of the athletic teams at MSM have not been producing. Now that the big change is upon us, we can do our part. If you have a friend who is interested in sports, encourage him to try-out for the varsity team. While at home during the summer, contact fellows who will be attending "UMR" next fall and are athletically inclined. Your help will be greatly appreciated by the Athletic Department, and possibly next year Missouri School of Mines will be holding a new position in sports as well as a new name.

'63-64 Intramural Program Boasts Five New Marks

Five new marks were set during the course of events of the 1963-64 intramural sports program. Track, golf, and bowling saw records set in some form or another.

Three records were broken in the track competition, two at the hands of Lambda Chi's (the champion organization), and one by a member of the MRHA. Ellison threw the discus a total of 130 feet, 4 inches for one mark, and Wristin ran the 70-yard high hurdles in 9.1 seconds. Petry high jumped 6 feet, 3½ inches for the third record.

A new course record was established in the medal play golf tournament, only a few weeks old. Parks of Lambda Chi Alpha made the rounds in 152 strokes.

Due to the fact that this was

FIRST SEASON OVER

Aggressive Spirit Shown By Rugby Football Club

By Ed Skwiot

The 1963-1964 school year was marked by an addition of a new sport on campus, Rugby Football. The team was formed by interested individuals and since it was not school-sponsored, took the form

Defeat hit harder in the next game as the Bombers "bombed" the Miners 17-3. MSM played well but not well enough to topple this long-established team.

The first taste of victory came on April 19, when Ramblers Se-

ed at Washington University, May 10th. Rambler Primus, top team in the league, finally stopped the Miners by taking a 9-0 victory. This cost the Miners their third place position as they slid down into the number five spot when the final standings were tallied.

The first season of Rugby play at MSM has been interesting to observe, as one could see how team spirit can make up for lack of experience. We may look forward to an even better team next fall as new players are added. The possibility of a second and third team has been discussed, and if interest continues, this dream will become a reality.

Miners take the offense against Ramblers Primus.

of a club, similar to many independent Rugby teams. Formation took place in the first part of the spring semester, with practices usually held on Saturdays. The Miners became part of the Missouri Rugby Football Union and were scheduled to play established teams in St. Louis.

The first game was played against the independent Rebels on April 5th, the Rebels being the victors in the contest. The Miners' inexperience was evident but was not as great a handicap as the Rebels had no doubt planned on. More important was the spirit that was shown throughout the entire game.

cundas, fourth place holders at that time, were the victims of the aggressive spirit that had been building up on the MSM team. The final score was 6-0, Miners. The momentum carried through to the following contest against the St. Louis University Billikins as the Miners fought the Bills to a 3-3 tie. By this time the Miners had moved into fifth position in the MRFU standings. MSM continued to roll as the St. Louis U. Blues were defeated the next weekend by a score of 9-0. Again the MRFU standings were shuffled with the Miners taking over third place spot.

The last season game was play-

Athletic Department To Conduct Summer Program

During the 1964 summer session at Missouri School of Mines and Metallurgy, the Athletic Department will conduct a recreation program for those students who are enrolled. In the past, groups have been allowed to form from all organizations. This policy will continue this year, in other words, give your group a name.

If you are enrolling in the summer session, form a group and select a team manager. Fill out the entry blank provided below, including your team name, manager, and his address, and turn it in to Burr Van Nostrand at the athletic office.

A softball program is being set up, and the team entries should be submitted as soon as possible so that the program can get underway early in the session.

SUMMER RECREATION PROGRAM

Return to Athletic Office

Sports in Review

By Ches Vogt

The MSM cross country squad started off its season with a victory on October 9, as they downed Westminster of Fulton by the score of 23-38.

The meet, being run at Fulton, showed the opposition placing men in the first and fourth positions, but the visiting Miners took the remaining spots. In the 3 mile run, for the Miners, Bacon came in second; Winchester took third place; Stiefemann, fifth; Dowdy, sixth; Lee, seventh; Burgard, eighth; and Carter, ninth.

After defeating Westminster in the first meet the team met a string of losses. The first setback was a heart-breaker, with the squad losing to Lincoln University by the score of 30-27.

The following Saturday the team went to the Springfield Invitational Meet, where they finished fifth out of six. The winner was Kirksville, followed by Oklahoma City University. Cape Girardeau came in third, Washington University (St. Louis) fourth, Missouri School of Mines fifth, and Murray (Kentucky) sixth.

The next week, November 9, the team traveled to the MIAA meet at Warrensburg for the final meet of the schedule. The Kirksville Bulldogs ran away with first place while amassing only 27 points and taking the first four places. Cape Girardeau came in second with 57 points, Springfield totaled 88 for third, Warrensburg 90 for fourth, and the Miners totaled 126 to come in last.

Although the Miners didn't run away with honors and the outcome of the Cross Country season left much to be desired, great expectations are predicted for future years. This being the first year of competition for all of our men, experience has been the greatest gain. There were no returning varsity lettermen at the start of the season, so the squad had to start from scratch.

The team consisted of two juniors, two sophomores, and seven freshmen. The junior line-up included Ted Moore and Ed Tharp. The sophomores were Larry Winchester, and Charles Dakin. Those seeing action for the first time this year were Jim Dowdy, Mike Stiefemann, Kenneth Burgard, Bob Carter, Jim Meisenheimer, Lonnie Harmon, and Gary Lee.

The team next year should do fairly well since there are no graduating sen-

iors. This could be considered a building year for Coach Spencer's men, and the experience gained this season will be invaluable for next year's team.

SIDELINES

by BRUCE T. GREGG

On May 11 the Intramural Managers' Meeting was held at which time Triangle Fraternity was selected as the Consolation Trophy Winner, and Gary Lohmann of Beta Sigma Phi was elected Intramural Athlete of the year. The tennis singles tournament was discussed and voted to be held in the fall with upper and lower brackets. Next year's teams will be seated by last years standings and the winner of the two brackets will play in a double elimination. They also voted in favor of adding the mile run to next spring's track meet to be run in two heats. Also the possibility of limiting softball to a slow pitch was voted down by 9-8.

This was quite a year for Intramural Track with three records being broken; High Jump, 70-yd. High Hurdles, and Discus. The record in the High Jump was set last in 1961 by Coyle of Sigma Tau Gamma at 5' 11 1/8". It was broken this year by Petry of MRHA at 6' 3 1/2". Usher of Sigma Nu broke the 70-yd. High Hurdles in 1961 with 9.3 sec. This year the record was broken by Wristen of Lambda Chi Alpha with 9.1 sec. In 1963 McKell of Tech Club broke the Discus record with 128' 6 1/2" and this year Ellison of Lambda Chi Alpha captured the record with 130' 3".

Lambda Chi captured first place this year in Intramural Track with two of their men breaking records, thus coming up from their fourth place position last year to the very top this year. They amassed a total of 35 1/2 meet points and 130 intramural points. Sigma Nu came in second with 125 followed by Tech Club with 120.

This last weekend provided for many here on campus, Man's Most Favorite Sport, which precludes the spring semester final exams each year. I am sure that at that time every true Miner turned aside the most pronounced role as an enthusiastic student to don the laurels of an experienced athlete. Now that the fun's over I wish you all luck on your final gun session, the one that counts the most.

The picture of the total intramural outcome was much higher this year than last which shows a combination of more participation, increased competition, and an added boost of spirit. Tech Club again captured the championship in intramurals raising their total point count over last year by almost 300 points. This year's total was 1900.25. Lambda Chi Alpha, coming from fourth place last year rost to second place followed by Sigma Nu who again finished third.

Out of all the Fraternities, Sigma Pi is congratulated for having achieved the greatest rise in position in the final Intramural Standings over that of last year.

MISSOURI RUGBY FOOTBALL UNION FINAL STANDINGS

	W	L	T	Pts. For	Pts. Agnst.	Games Bhd.
