## MSM Campus to Be Host For Annual Science Fair

The ninth annual South Central Missouri Science Fair will be held on the MSM campus April 9 and 10, it has been announced by Dr. Arthur Brownlow of the geology department, chairman of the committee in charge of the event. The science fair is sponsored jointly by MSM and the *Rolla Daily News*.

In connection with the fair, an open house will be held on Friday afternoon and from 8 a.m. to 4 p.m. Saturday, April 10. Prospective students, their parents, high school teachers and counselors are especially invited to visit the campus. All departments of instruction and administrative offices will be open to answer questions of interest to the college-bound student.

A special feature of the open house will be a convocation for science and mathematics teachers at 1:30 p.m. Friday, April 9. There will be an informal discussion on trends in science and mathematics education with members of the MSM faculty. Following the convocation, a reception will be held in the Student Union from 3 to 4 p.m. for students, parents and teachers.

The fair is open to students in grades 10 through 12 in the 59 high schools in the 18-county South Central Missouri region. Students may prepare as individual or group projects. Exhibits on scientific principles or applications of those principles will include the areas of biology, chemistry, mathematics, physics, earth sciences and space sciences.

Counties included in the South Central area are Camden, Crawford, Dent, Douglas, Franklin, Gasconade, Howell, Laclede, Mar-

ies, Oregon, Osage, Phelps, Pulas-ki, Shannon, Texas, Washington, and Wright.

Exhibits are to be set up from 8 a.m. to 2 p.m. at Jackling Gymnasium, with judging from 2 to 5 p.m. Exhibits will be on display from 6 to 9 p.m. Friday, April 9, and from 8 until 2 p.m. on Saturday, April 10. Awards will be announced at 2 p.m.

Standards for judging are creative ability, scientific thought, thoroughness, skill, clarity, and dramatic value. Awards will be made in each division and the student with the entry judged most outstanding will receive an all-expense paid trip to the National Science Fair at St. Louis May 5-8.

APO, Scabbard and Blade, Blue Key, and Pershing Rifles will serve as guards for the event.

UNIVERSITY OF MISSOURI AT ROLLA

VOLUME 51

FRIDAY, APRIL 9, 1965, ROLLA, MISSOURI

NUMBER 25

## New Library Awaits Decision Of Legislature on Field House

A bill providing for an allotment of two million dollars is presently on the floor in the state legislature, and if it passes, MSM will soon add to its expanding campus. Tentative plans have already been formulated in the

event that the bill should pass.

The present Jackling Gymnasium will be razed at the beginning of this summer. The new MSM library will be built where the present gym and football field are now located. A Butler build-

ing will be erected on the tennis courts behind Harris Hall as a temporary replacement for Jackling Gymnasium. This structure will provide office space for staff members, check-out equipment rooms, dressing space and showers for two football teams, and storage space for all equipment. In the event that the money for the new field house is not allotted, Dean Baker will request that the new library be built at a different location. This would at least preserve the athletic facilities which we now have.

From conditions presupposed, pending the completion of new facilities, it has been recommended to drop the present physical education program until completion of the new building. When the new facilities are finished, courses are expected to be offered for both men and women under qualified instructors. These courses should be of special value to students enrolled in general courses. All classes will be activity classes and it is hoped that one hour credit will be given.

The intramural program will also be affected during the construction period. Under the present program, there are over 1,500 students representing 28 organizations participating in intramurals. Swimming, volleyball, and handball will be discontinued during the construction period. There is still a question as to whether accommodations for wrestling and basketball will be available or not. The remaining sports will continue following the present intramural program.

Arrangements for intercollegiate sports have also been tentatively outlined. In football four home games will be played on Jackling Field in 1965. In 1966, three home games will be played on the new field. The football stadium and dressing facilities will be available. The basketball team has made arrangements for practice and home games to be played at Rolla High School (1965-66 and 1966-67). There will be no facilities for swimming and the program will be discontinued until 1967. The baseball team will move to the new facilities for the 1965 season, but no dressing rooms or equipment rooms will be available.

These changes are all tentative, pending action by the state legislature on the proposed bill. It is certain that the new facilities will equal or surpass those of our rivals, and the sacrifices made during the next two years will be well worth while.

Architect's sketch of the new library.

## Christy Minstrels Perform Amid Turmoil and Confusion

The first performance by the Christy Minstrels started off rather well and those attending settled down to an hour of good music. About half way through the show the Student Union received a call saying that a bomb had been planted inside. The auditorium was quickly cleared and the Student Union searched. No bomb was found. Meanwhile mass confusion reigned as students milled around everywhere. Finally a note was read saying that the show would be held on the foot-

ball field. A mad dash followed. Once a person made his way to the football field he found more confusion. Nobody seemed to know for sure what was going on. All at once a mad rush for the bleachers started. Just as before it was more like a cattle stampede than a crowd moving from one place to another. Finally the crowd quieted down enough so that a man could announce that the Christy Minstrels would be there. The reactions of the crowd were mixed and amusing. There

were remarks ranging from the usual "Get the show on the road," to "Let's go to Rudy's" to a few others about the cold that can't be printed. One student even sat down and started to study his chemistry. All of a sudden everyone started moving toward the goal post until finally a closely packed ring of cold but enthusiastic music lovers was formed.

When a facsimile of order was restored and the students climbed down off the goal posts, the Christy Minstrels appeared. They started their show with "Saturday Night" and sang such favorites as "A Little Bit of Happiness," "Follow the Drinking Gourd," "This Land," "Green Green," and "Michael Row the Boat Ashore."

### NOTICE!

The Traffic Safety Office has announced the following schedule for parking lot No. 7 (Drill Field). This lot will be utilized for ROTC drill Monday, Tuesday, Thursday, and Friday during the morning hours from 7:30 to 11:30 a.m. Effective the fifth of April through the Twenty-Fifth of May. Free parking is available after 11:30 a.m. Read the sign at each entrance.

Karen and Ann entertain Miners.

## MSM Admission Policies Announced by Registrar

Admission policies and dates for closing of enrollment for new students at MSM have been announced by Robert B. Lewis, registrar and director of admissions.

Students planning to enroll for the first time for summer school must apply for admission by May 1, Lewis said. New student applications will be taken for the fall semester until August 1, and for the winter semester until December 15.

Graduates of fully accredited high schools who present the required units, rank in the upper two-thirds of their graduating class and are recommended for admission, will be admitted without examination, Lewis said. How-

ever, all freshman students are required to take the Freshman Placement Tests before completing class enrollment.

Students entering the University for the first time should complete and return an application for admission. In addition, the student should request his high school or college to send a preliminary recommendation or official transcript of record.

Students in the top third of their graduating class may apply for admission and admission may be granted any time during their senior year in high school. Students ranking in the middle third of their class may apply and be

(Continued on Page 4)

## New Developments Cited At Concrete Conference

Approximately 200 representatives of engineering, education, industry and governmental agencies whose work involves the use of concrete attended the annual Missouri Concrete Conference on the MSM campus March 25 and 26.

The two-day professional clinic is co-sponsored by the department of civil engineering and the extension Division of MSM in cooperation with the Portland Cement Association and the Missouri Redi-Mix Association.

The conference was inaugurated by the civil engineering department several years ago for the purpose of presenting papers and reports on the latest developments in the manufacture and use of concrete.

Ten papers and a panel discussion were presented in the three technical sessions held in the Civil Engineering Auditorium, and dinner meetings were held. The conference adjourned after the Friday morning session.

## Debaters Enjoy Success In Initial Year at MSM

For the first time in its history MSM has a debate team. The groundwork for this team was laid last year when the Forensic Club was started. Last year, however, the Miners did not get into any intercollegiate competition. Under Professor Bess the overall team record this year was 12 wins and 14 losses. Among the 12 wins were 2 victories each over M. U., St. Louis U., and Drury.

The negative team has proved very successful this year compiling an 8 win and 5 loss record. In the State Tournament they tied for first with a 4 and 1 record. They defeated Cape Girardeau, Maryville, Drury, and Warrensburg. Each member of the team as well as the team itself received a certificate of excellence. Maurice Brubaker and Dave Cantwell make up the negative team. Brubaker is a senior in the EE department. He is a native of Gulfport, Miss., and debated for Castle Heights Military Academy in Lebanon, Tenn. They were State Runner-up his senior year. He did his high school debating at Overton H. S. in Memphis they compiled an impressive 8 and 3 record.

## Placement Office Helps Students Find Summer Work

From time to time the Placement Office has information on summer jobs which are made known to the student body by means of bulletin board announcements. If a student is interested in these announcements, he should come to the Placement Office for further information.

These announcements appear every two weeks through the recruiting season, which begins about October 1 and ends around the 15th of April. The interested student should sign the name sheet in the Placement Office for the job opportunity in which he is interested. This lets the company know which students are really interested enough in the job to take the time to look into it.

Therefore, it is extremely important that the student keeps himself fully informed as to the information contained on the campus bulletin boards. It should be made a daily habit of observing the contents on the bulletins boards.

## Students May Receive Commissions After Two Years of ROTC Training

In addition to the existing four year program, the United States Army now offers college men an opportunity to be commissioned as second lieutenants after only two years of participation in the Reserve Officers Training Corps (ROTC) program.

The new two year program, to be taken in the junior and senior years, opens ROTC opportunities to the man who, for some reason, was unable to participate in the basic course in his freshman and sophomore years.

The program includes two six-week summer training periods, prior to the junior and senior years, in addition to on-campus instruction during the school term. The student entering ROTC in his junior year receives monthly pay of \$40. This is \$13 more than was authorized before the new ROTC law was passed. Cadets attending the basic ROTC summer camp will receive \$78 per month. Cadets attending the advanced ROTC summer camp will receive \$120.60 per month, the same rate paid students in the four year program.

The pay increase was authorized for the ROTC students when President Johnson signed a bill last October to provide wider opportunities for ROTC in high schools, colleges, and universities.

Under the new Federal law, scholarship assistance will be available for specially selected

students enrolled in the four program. This includes \$50 monthly pay, payment for tuition fees, books and laboratory expenses. Two year scholarships will also be awarded for the junior and senior years.

An interesting provision of the law authorizes foreign students to enroll in the program, when they have been approved by the Departments of State and Army.

The federal law initiates a new era for the ROTC program at a time when it is increasingly apparent that reliance upon this source of officers for the Armed Forces is higher than ever.

The U. S. Military Academy at West Point, N. Y., and the Officer Candidate School, Fort Riley, Kan., train officers for the Army, but they cannot possibly commission all of the young men needed to fulfill the world-wide commitments of the U. S. Army. Approximately 500 Army officers enter active duty from West Point annually. Twice that number of ROTC graduates are commissioned as Regular Army officers each year, and 10,000 more enter active duty as Reserve officers each year.

The Army places even greater importance today on the ROTC program as a source of officers for both the Active Army and its Reserve forces. Forty-five percent of the Army officers presently serving on active duty are ROTC graduates. Sixty-five percent of the Army's first lieutenants and 85 percent of the second lieutenants were commissioned through the Reserve Officers Training Corps program. The Army depends upon many of the country's colleges and universities to provide a sizeable share of its

military leadership. The ROTC graduates bring to the Army the diversified educational backgrounds and leadership qualities which are essential to safeguard the security of our Nation and the peace of the world.

For complete information about the new ROTC program and criteria for qualification for ROTC scholarships, interested young men are urged to contact the professor of military science of the ROTC detachment.

## UPTOWN THEATRE MOVIES IN CINEMASCOPE Starts Thursday April 8-11

Admission:

Adults 75c — Children 35c

## 'Strange Bedfellows'

Rock Hudson & Gina Lollobrigida

## RITZ THEATRE MOVIES ON WIDE SCREEN

Fri., Sat. April 9-11 Saturday Continuous From 1 p.m.

## 'Robinson Crusoe on Mars'

## 'The Disorderly Orderly'

Jerry Lewis & Glenda Farrell

## Wed., Thurs. April 14-15 'Summer Holiday'

Cliff Richard & Laurie Peters

## NEWS OF THE WEEK

**Saigon, South Viet Nam:** For the first time American planes have bombed North Viet Namese bridges, cutting the rail line between Hanoi and the major bases and cities to the south. American pilots who took part reported the first sighting of MIG aircraft. These three aircraft made a pass at one of the navy planes and then withdrew in the face of the 110 Navy and Air Force jets over the target.

**Vandenberg Air Force Base, California:** America's first nuclear power plant designed for future space missions has been launched on an Atlas-Agena rocket. The satellite was sent aloft and the nuclear power plant was successfully turned on after the satellite had reached a polar orbit. This was the first space vehicle to carry its own miniature nuclear reactor.

**Berlin, West Germany:** East

Germany has warned the western allies that international conflicts could erupt if the West German parliament is allowed to hold a session in West Berlin. East German police are continuing to harass civilian traffic on the autobahn (110-mile highway connecting West Berlin and West Germany) apparently seeking to turn back members of parliament enroute to Berlin.

**Moscow, Russia:** The mysterious death of a young Ghanian two weeks ago has resulted in new efforts by dissatisfied African students to leave the Soviet Union. Students have been protesting in various ways. Some have boycotted classes. A few have found the money to leave the country. Diplomatic sources say that the student complaints cover racial, financial, and educational issues.

## CIRCLE K OUTSTANDING TEACHER AWARD

In connection with the Circle K Outstanding Teacher Contest (see Miner of March 26), students are being given a chance to help select a teacher for the award. Student's should mark the ballot reproduced here in the Miner, and return it to the Student Union within a week.

List below one or several teachers whom you consider outstanding.

| Teacher's Name | Teacher's Dept. |
|----------------|-----------------|
| 1. ....        | .....           |
| 2. ....        | .....           |
| 3. ....        | .....           |

# Miner Editorials and Letters

## Please Sit!!!

Dear Editor:

Last Tuesday night a very shocking event took place on this campus. No, I am not referring to the bomb threat. What I am referring to is the actions of a group of Miners and others on Jackling Field.

After the New Christy Minstrels set up on the field, the audience formed a semi-circle around the Minstrels, and the people sat down so all could see. All sat down, that is, except a few people at the ends. When the people standing behind them asked them to sit down, they refused. They were asked time and time again by both faculty and students. One tall boy standing in the front row wearing a gray hat even refused to remove his hat when asked to do so.

These people are just as guilty of spoiling the fun for others as the person who made the phone call about the bomb in the student union. The performance was spoiled for the people standing behind them as it was impossible to see the show. I found it hard to believe that anybody at this school could be so self-centered as the people in front of me.

You people are as much a disgrace to the school as you are to yourselves. The school, the student body, the engineering profession, and you would be much better off if you did not register this fall.

Sincerely,  
Thomas R. Burjeck

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

## Miner Policies for 1965

This is the first issue of the MINER under new editorship. The assuming of my new duties has not been a great problem, thanks to the excellent work and the willing help of the retiring staff. However the mistakes during the first few weeks will probably be many, and we ask that you be tolerant until a workable routine is set up among the new men.

In the next year, our aim is to put out the best possible MINER, one that will be of interest to all. In attempting to fulfill this aim, we adopt the following policy:

1. An unbiased, factual coverage of all campus news which will be of interest to all of the students.
2. Complete impartiality toward all organizations on the campus.
3. Thorough sports coverage of both varsity and intramural sports.
4. Publication of a MINER of good appearance as well as good reading.

The MINER is written for the students, and we need the cooperation of all students and organizations at all times for the publication of a good MINER because the students are the determining factor in the composition of the paper. All suggestions for improvement will be heartily appreciated, and will be complied with to the greatest possible extent.

Ken Kuebler  
Editor-in-Chief

## On the Other Side of The Transit

good theatre is a privilege . . . .

"... the resident company of professional actors engaged in presenting fine theatre for the discriminating audiences in a civic, cultural, and professional project with a wide range of dramatic and literary experiences from the classics to the best of the temporary theatre." This is the preface to the program of a new repertory group of actors. The group — the Gateway Players — are not entirely new. They have existed for several years in the Saint Louis area, but it is just recently that they have both relocated and rededicated themselves. They now have a new location in Gaslight Square and what they offer to the theater-goer is of excellent quality. The theatre itself is merely a second floor brick-walled room which has been transformed with the help of low, yellow candle-lights on the walls and black risers with yacht chairs into a dignified theatre-in-the-round. The program offered is varied with such diversified playwrights presented as Shakespeare, Williams, Miller, Colette and O'Neil. With material like this the season has 'just got to be great,' but under the touch of director Jack Conner it becomes a real theatre experience. If you are interested in experiencing an evening a little different from the normal, I highly recommend a trip to Gaslight and to the Gateway Theatre. It is a privilege to have such a company available to us and we should surely take advantage of it.

## Miner Board Holds Elections

The meeting of the MSM Miner Staff was held on Tuesday, April 6. Greg Junge, outgoing editor-in-chief, presided at the meeting and staff members for 1965-1966 were elected.

Those elected are: Ken Kuebler, Editor-in-Chief; Charles Hansen, Business Manager; Don Flugrad, Make up Editor; Gene Albrecht, Managing Editor; and Frank Fix, Copy Editor. Professor Karl Moulder was elected Faculty Advisor.

## Easter Around the World

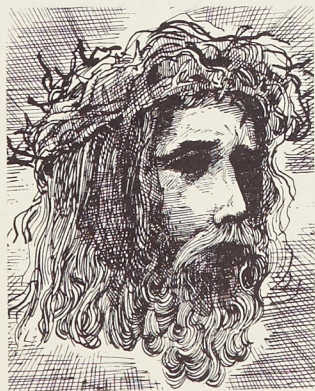

"He is risen." These words, found in St. Mark 16:6, are attributed to the angel of the Lord, speaking to the two Marys on the first Easter Morning. This year, on April 18th, 870 million Christians will repeat the phrase—in song, sermon, and prayer — as they celebrate the glory of Easter, symbolic of the rebirth of Christ.

In Jerusalem, swift runners will light torches from the holy fire, bear them back to kindle the torches of the faithful. Many Germans will hold aloft buckets of Osterwasser, Easter water, believed to have curative powers. In parts of the British Isles, some people may rise early on Sunday to see the sun dance . . . and certain citizens of the American South will listen for the sun to shout.

Almost everywhere around the world Easter Sunday is welcomed with rejoicing, singing, candle processions, and the ringing of church bells. Mexicans literally "dance in" the Easter morn — streets are jammed with colorfully costumed performers dancing all through the night of Easter Saturday. In Rio de Janeiro and in

parts of Cuba, huge floats, numerous bands, noisemaking and fireworks welcome Easter.

In Germanic areas like Austria and Bavaria, a festival preceding Lent, called *Fastnacht*, is part of Easter preparation; nonsense

plays, skits, and masquerades are held. And in America's own "Dutch" sections of Pennsylvania, some housewives celebrate *Fastnacht* by cooking doughnuts all day.

But why the worldwide hilarity,

many wonder, How can there be cause for revelry, a feeling of "glory," in so somber and solemn a story as the suffering, death, and resurrection of Jesus?

As if in affirmation, sounds of joy and merriment ring out around the world. German-speaking peoples actually tell each other special Easter stories (*Ostermarchen*) designed to produce laughter. A more vigorous demonstration of the belief that Easter is the season of renewed health and hope is in the widespread European custom of "Easter smacks." Men and women exchange good-natured blows to keep each other young and healthy, and to assure good luck for the year.

In Spain the affirmation of Easter is expressed in a riot of spring flowers decorating altars and church facades. This floral celebration expressed in the Spanish term for Easter, *pascua de flores* (Easter of flowers).

Everywhere, children hunt for brightly colored Easter eggs, symbols of birth and regeneration. But for Christians, the hopes and prayers for rebirth are captured in the simple yet dramatic message, "He is risen!"

## CRYING OUT LOUD

BY JOHN TENFELDER

How lucky to be a Miner! When I think of all the money I will save by only having four days off at Easter, I feel a warm glow rise within me — mainly, starting in my stomach and working its way up to my throat. Students from other schools are forced to spend hundreds of dollars in Florida and the Caribbean just because their University officials force a three week vacation on them. There the students drink and run around with wild women for lack of anything exciting to do, while here in Rolla we all feel the joy of having Math quizzes and experience the thrill of enlightenment after the Physics quizzes are handed back.

We sure are a lucky group to have such fine, self-sacrificing, understanding school officials who are willing to forego their own mid-semester break just to save us from having a dull boring time in places like Fort Lauderdale. One student from New York told me how delighted he was to have such a short vacation, "Now I won't be forced to go home over Easter to see my father who is dying of lung cancer in a stuffy old hospital," he chirped merrily. Boy, I could sure tell he was relieved; but then (strange as it may seem) it is not like that all over campus. One group told me how they had planned to rebuild a bombed Negro Church in Alabama, but because of the short vacation, they were now forced to do something constructive — namely bolster the Rolla economy by large purchases of fluid refreshments to keep them going over the weekend. So we see that the short vacation keeps the student busy on worthwhile causes instead of allowing playboy larks to prime vacation spots, such as Selma and Birmingham.

Since this is a privilege enjoyed by few students — of other schools, that is, we must stay awake and guard against "creeping vacationism," which consists of University officials adding unwanted days to our Easter Vacation. Just this year an extra day was tacked on — why if that were to continue at just one half that rate, by 1984, MSM students would be saddled with a vacation almost half as long as Washington U.'s of St. Louis.

This startling fact was what prompted me to write this article warning you to be on the lookout for radicals who want to lengthen our Easter Vacation. As that revered idealist, Karl Marx, once wrote, "To keep the common people happy, it is necessary to keep them working." So let's work extra hard next week, while all the other college men are out screwing off, to show the school officials that we too believe in such basic American ideas.

## The Grass Always Looks Greener Where Students Fail to Tread

Spring is here and with it has come the herd of "short-cutters," as many wish to call them. These people have the bad and destructive habit of cutting from one walk to another, across the grounds. Because of this the grass around many of our walk corners has been thinned and in some cases destroyed.

Much has been done in the past (especially by APO) to remind the students of their destructive, bad habits, but still many persist in saving steps across the lawn. Little can be done to keep people off the lawns besides reminding them of the beauty of the grass and the importance of keeping the grounds up. Let's keep our friends reminded and in so doing we will remind ourselves as well.

## Students Receive Trophies For Placing in S. U. Tourneys

Each year the Student Union Recreation Committee sponsors several tournaments in sports such as golf, table tennis, and billiards. These tournaments are open to any student and he may enter by placing his name on the

match play golf, Jerry Lebo in billiards, Jose Alvarado and Gustavo Menocal in table tennis doubles, Abdul AlHashimi in table tennis singles, John Morgan in hearts, and Geoffrey Goldbogen in chess. Winners of second place trophies

Student Union tournament first prize winners.

signup sheet in the Student Union.

The winners of the first semester's tournaments were recognized at last Sunday's Student Union movie during intermission.

The winners of first place trophies were Gerald Trantina in

were Robert Cage in match play golf, Don Metzger in billiards, E. Deng and H. Lin in table tennis doubles, Vincent Jozwiak in table tennis singles, Milton Cissell in Hearts, and Humberto Jimenez in chess.

## Bendix Honors SAE Organization As Outstanding Student Branch

The student branch of the Society of Automotive Engineers at MSM has been selected as an Outstanding Student Branch for the second consecutive year.

The award, sponsored by the Bendix Corporation, is presented annually to the most active chapters in two categories: chapters having more than 75 members and those having less. The University chapter is the largest in the nation with a total membership of 279. It was one of four chapters in its category to receive the award.

The award will be presented to J. F. Wooldridge, the student branch chairman, at a St. Louis Section meeting during the month of April.

In competition for the award, each student branch submitted a report on the year's activities and future plans. Among the local activities were various field trips; the annual Vehicle Safety Check, to be solely conducted by the student branch this year; the preparation of a series of 35 mm slides to be used state-wide by the Missouri Highway Patrol in their adult driver education courses; and programs representing both large and small industries.

The student branch officers for this year are James F. Woold-

ridge, chairman; James E. Schnarr, vice-chairman; Timothy M. Handlan, secretary; and Edward L. Schmidt, treasurer, all mechanical engineering students. George R. Baumgartner, assistant professor of mechanical engineering, is the faculty advisor.

## Red Cross; APO Hold Successful Blood Donation

The American Red Cross Blood Drive, held April 1 and 2, was quite successful. A total of 240 pints were given, surpassing the quota which the drive had anticipated. Of the 240 pints given, 175 pints were given by Miners indicating that 73 percent of the total blood given came from students attending MSM.

The Drive itself was sponsored by APO, an honorary service organization on the MSM campus. Under the direction of Doyle Powell, chairman of the blood drive, a contest among the organizations and social fraternities on the campus of the university was held with a trophy being given to the organization with the largest percentage of members donating blood.

First place was won by Theta Chi who had over 100 percent total donors giving from their house. Second place was won by Theta Xi, equaling nearly the percentage of Theta Chi. Third place was claimed by Kappa Alpha, who wound up giving the most blood from any one organization but not having quite the 100 percent needed to win.

The next blood drive will occur in approximately two months. Let's see if we can reach a higher number of donors willing to give during this next drive.

## Military Science Class Hears Kahle Speak on Latin American Problems

Doctor Louis G. Kahle, chairman of the department of political science, University of Missouri at Columbia, presented a lecture to the Military Science IV Class in the MSM Student Union auditorium on Thursday, March 25th, 1965. The subject was: U. S. Relations with Western Hemisphere Nations.

Dr. Kahle presented a very interesting lecture which was well received by the students, members of the faculty, and other guests attending.

Although he was born in Missouri, Dr. Kahle lived in Mexico until he was fifteen years of age and has visited Mexico repeatedly in recent years. In examining the problems of the Latin American Countries he was in a position to add a personal touch that added to his remarks.

Concentrating on the countries to the South of the U. S., Dr. Kahle stated that the U. S. and the Latin American countries were to gain from good relations. He

said we (the U. S.) had made some mistakes in the past; we are very close neighbors and had a lot

developed in Latin and South America early in the 19th century. Then we turned our backs on them and experienced deteriorating relations during the balance of the 19th century.

Stating that some of the Latin American governments borrowed money during the 19th century from European Nations, which resulted in revolutions when they couldn't repay the loans, Dr. Kahle said that Latin America came to be known as the place where "peace occasionally broke out."

The inter-american system, Dr. Kahle said, is a Regional System (one of the oldest in the world). It is very effective and has a co-operative spirit for economic development and mutual defense.

This lecture was the last of a series of four which has been sponsored by the MSM Military Department to orient the prospective commissioned officers in the MS IV Class on the Role of the United States in World Affairs.

DR. LOUIS G. KAHLE

now paying for them and will continue to do so.

Dr. Kahle said that the U. S. was prompt in extending recognition to the new Republics which

## Win a Honda just for being born

## Your own birth date may have already won you a Honda in Parker Pen's Birthday Sweepstakes!

For example, if your birth date is December 1st, 1942, your entry is 12-1-42. Just fill in the coupon below—take it to your Parker Dealer for his signature—and then send it to us. And you might as well know this: you winners have your choice of Hondas . . . the powerful C-110, or the deluxe CA-102. Congratulations!

**PARKER**

Maker of the world's most wanted pens

**New Compact Jotter.** First girl-size ball pen made for girl-size hands. Uses the big 80,000-word Jotter refill. \$1.98.

**T-Ball Jotter.** The world's first ball pen with stainless steel—writes a clean, clear line up to 80,000 words. \$1.98.

**Parker 45 Convertible.** The pen that fills two ways—with handy reserve ink cartridges, or from an ink bottle. Standard model—\$5.00.

## ROTC Officers Announced By Military Department

Leadership positions for the MSM ROTC Corps of Cadets from brigade commander down to and including assistant squad leaders for the spring semester have been announced by the MSM Military Department.

Richard C. Cleve, with the rank of Brigadier general, has been appointed brigade commander. Members of the brigade staff, with the cadet rank of lieutenant colonel, are: Evan R. Thomas and Larry G. Harmon. Cadet Harmon is also student director of the MSM ROTC Band.

The 1524 man ROTC cadet corps brigade of three groups comprising twelve battalions, with a total of twenty-four companies, plus the band.

The First Group is commanded by Cadet Colonel Charles F. Seger, III; the Second Group is commanded by Cadet Colonel Russel C. Lindelaub; and the Third Group is commanded by Cadet Colonel Dannie R. Clarida. Group executive officers, with the cadet rank of lieutenant colonel, are: James D. Hunter, Howard Manning, and James D. Strickler.

Battalion commanders, with the cadet rank of lieutenant colonel, are: Thomas H. Hudson, James H. Schroer, Donald W. Umphrey, David E. Henard, Charles R. McDuff, Dennis R. Turner, Peter F. Johnson, Lloyd W. Bingham, Jr., Robert W. Hogue, Carl T. Reichert, Wesley L. Dowler, and William L. Wells.

The company commanders, with the rank of captain, are: Ralph S. Barr, John R. Ubaudi, Charles

J. Schutty, Robert J. Ronzo, William K. Beger, Alfred E. Klug, Jr., John R. A. Schuette, Kenneth L. Whites, James W. Haase, Roger D. Hicks, Ranney W. McDonough, James G. Yallaly, Thomas L. McKenzie, Kenneth E. Eimer, Cornell J. Price, Dale M. Kornfeld, Lease A. Ruddick, John T. Solook, Harold E. Fiebelman, Henry P. Taylor, Owen D. Rude, James R. Brooks, John H. Henry, and Lawrence A. Bobersmidt.

Other cadet commissioned officer positions, such as battalion adjutants and platoon leaders, are filled by students in the Military Science III and Military Science II classes. Cadet noncommissioned officer positions range from the grade of master sergeant down to the grade of corporal for the assistant squad leaders, and are filled by selected students from the Military Science III, II, and I classes.

The cadet corps at MSM is organized so as to provide the maximum opportunities for cadets to serve in positions of leadership.

## ASCE Hears Mr. Monsees Speak on Computer Uses

Mr. M. E. Monsees of the United States Army Corps of Engineers, Kansas City District, presented the program for the March 3rd meeting of The American Society of Civil Engineers. Accompanied by Colonel Wachendorf of the same district, Mr. Monsees spoke on the role of computers in our society and in particular, civil engineering projects within the Kansas City District. The pioneer development of computer programs for such tasks as profile plotting, determination

## Sixty-One Members of MSM ROTC Advanced Corps Initiated as Charter Members of Scabbard and Blade

Sixty-one members of the ROTC Advanced Course at MSM were initiated as charter members of the SCABBARD and BLADE, national military honor society, in ceremonies at the National Guard

armory, Stillwater, officiated at the installation of the charter and initiation of the members.

Prior to the initiation of the ROTC cadets, Doctor Merl Baker, Chancellor, and Doctor Dudley

initiated as associate members of the organization.

Brigadier General Lloyd B. Ramsey, Deputy Commanding General, Fort Leonard Wood, presented Chancellor Baker and

Armory in Rolla on Saturday, March 27th, 1965.

Edwin E. Glover, National Commander of Scabbard and Blade, from Oklahoma State Uni-

versity, Stillwater, officiated at the installation of the charter and initiation of the members. Prior to the initiation of the ROTC cadets, Doctor Merl Baker, Chancellor, and Doctor Dudley

initiated as associate members of the organization. Brigadier General Lloyd B. Ramsey, Deputy Commanding General, Fort Leonard Wood, presented Chancellor Baker and

In addition to Brigadier General Ramsey, other Scabbard and Blade alumni present were: Doctor Frank H. Conrad, Professor of Chemical Engineering, Colonel David L. Gundling, Professor of Military Science, Lieutenant Colonel John W. Park, Jr., Associate Professor of Military Science, and Captains Edward G. Rapp, Clyde M. Reedy, and Charles J. Vincent, Student Officers at MSM.

## BSU Sponsors Student Retreat

The Missouri Baptist Student Unions will sponsor a International Student Conference April 16-18th at Windeamere on the beautiful Lake of the Ozarks.

The purpose of the retreat is to provide an opportunity for international students in Missouri's colleges and universities to get better acquainted with each other and to discuss world situations. Some time will also be spent in recreation on the Lake as well as a guided tour to near-by points of interest.

The main speakers of the retreat are: Dr. Hugo Culpepper, who has served in China, the Philippines, and several South American countries; Dr. Vernon Davison, who has both taught and studied in Asia, India, and China; Dr. Patrick Hill, who is currently an instructor at the Nigerian Theological Seminary at Ogbomoso, Nigeria; Dr. Frank Owen, who is medical missionary in Indonesia; and Mr. Ronald Ham, who is a native of Australia and is currently the Baptist Student Union director at William Jewell College, Liberty, Missouri.

Cost of the retreat for international students is \$6.50. This pays for the room; the food will be provided. American students are also invited to attend, but must pay the full price of \$13.00 for the weekend. The group will leave the BSU in Rolla at 12:30 Friday, April 16th, and return Sunday afternoon. All international students on campus are invited to attend and should see Bill Thomas at the BSU before April 9th for additional information.

Left to right: Dan David, Ed Schultz, Mike Maloney, Gordon Parsons.

## May Is Proclaimed Safety-Check Month

Governor Warren E. Hearnes has proclaimed May as Vehicle Safety-Check Month in Missouri. Governor Hearnes said in his proclamation that proper safety maintenance of motor vehicles can reduce accidents and hazards on the streets and highways. The Governor has called upon every responsible citizen and community to join in this most important traffic safety program.

The Motor Vehicle Safety-Check Program is being sponsored nationally by the Auto Industries Highway Safety Committee and Look Magazine. The Program is conducted primarily in states without a motor vehicle inspection law. It is voluntary. The Missouri State Highway Patrol is the coordinator of the national program in Missouri.

Colonel Hugh H. Waggoner,

Superintendent of the Missouri Highway Patrol, also urged all Missouri Citizens and communities to take part in the National Motor Vehicle Safety-Check Program this year. He said, "Our traffic records for 1964 show that in known cases, five per cent of the 25,998 accidents investigated involved defective vehicle equipment. This is a dramatic indication that more than a few of the vehicles on our streets and highways are in dire need of safety maintenance."

"A part of an over-all safety program is vehicle inspection," the Colonel continued. "At the present time Missouri does not have a vehicle inspectional law, so we must rely on the best substitute, voluntary vehicle safety-checks. Any civic organization, school, church, fraternal group

or any person interested in sponsoring a free motor vehicle inspection program in their community is urged to contact either the local safety council or the State Highway Patrol Troop Headquarters in their area for information," the colonel concluded.

## Handel's Messiah To Be Presented By MSM Glee Club

Again this year the MSM Glee Club will be presenting selections from Handel's oratorio *The Messiah*. This year the Glee Club will be performing with the Rolla High School Choir and Rolla citizens.

In keeping with the theme of *The Messiah* the performance will be given the evening before Palm Sunday, April 10th. This year's performance will be in the Student Union Ballroom at 8:00 p.m. All are invited and there is a special invitation extended to all students to hear their Glee Club.

## Army ROTC Scholarship Program To Begin in September of 1965

The Department of the Army announced today a college ROTC scholarship program to begin in September 1965 which will provide financial assistance to 1000 qualified students throughout the United States.

Authorized by the recently enacted public law 88-647, the ROTC Vitalization Act of 1964, four-year scholarships will be awarded to 400 students and two-year scholarships to 600 students.

Four-year scholarships will be granted to individuals who are entering college for the first time. Two-year scholarships will be awarded to selected college students completing the second year of the four-year Army ROTC program.

The Army will pay these students \$50 a month, plus their tuition, textbooks, and laboratory fees for attendance at colleges with four-year ROTC programs. Payment of \$50 per month will be made from the date the scholarship begins until graduation, to include summer months, except for one six-week summer training camp where the student will be paid at the rate of \$120.60 per month, plus transportation.

To be eligible for these scholarships, a student must be a male U. S. citizen who meets the prescribed physical standards. The four-year applicant must be between 17 and 21 years of age on June 30, 1965. The two-year applicant must be under 23 years of age on June 30, 1965, and must be a cadet in good standing in the second year of his Army ROTC training.

Applications must be made during April and postmarked not later than May 1, 1965.

Students who reside in Missouri and Illinois who desire to apply for the four-year scholarship program should write to the Com-

manding General, Fifth United States Army, ATTN: ALFGC-RC, 1660 East Hyde Park Boulevard, Chicago, Illinois 60615, for detailed instructions and application forms.

Students who desire to apply for the two year scholarship program may submit their applications to the Professor of Military Science at MSM.

Final selection will be made by the Department of the Army. Applicants will be notified during July as to whether or not they have been selected.

Successful applicants for a four-year scholarship may attend any school for which they qualify and which offers the four-year Army ROTC course. They must pursue a course of study leading to a baccalaureate degree.

An applicant who is awarded a scholarship must enlist in the Army Reserve for six years at the time he accepts the scholarship. Upon graduation from college and the successful completion of their Army ROTC studies, the scholar-

ship students are required to accept, if offered, either a Regular or Reserve commission as a second lieutenant and to serve at least four years on active duty in the Army.

The Army ROTC program is conducted in 247 colleges and universities throughout the country and produces over 10,000 officers each year for the Army. Scholarships are being added to this program for the first time this year in view of the importance of the ROTC program to the Army.

## Blue Key to Sponsor Annual Contest For Society of the Year

The annual Professional Society of the Year contest, held among all professional societies on the MSM campus, is once again being sponsored by Blue Key National Honor Fraternity.

The award is based upon several categories, among which are active participation of members, promissory speakers at meetings, field trips, overall service to members, and awards to members. Selection of the winning society is by an impartial faculty committee.

Society presidents are reminded that the deadline for entries is April 30. All entries must be in the Blue Key mail box in the Student Union on or before this date in order to be eligible.

Last year's winner was the Mining Section of the American Institute of Mining, Petroleum, and Metallurgical Engineers, and the first place trophy, a plaque with the winning society's name engraved on it, is currently on display in the Mining Building. Each winning society earns the right to display the plaque for one full year.

The overall purpose of the contest, besides recognizing professional society on campus is to attempt to better the professional societies on the MSM campus, and to make them of more service to their members.

### NOTICE!

Phi Beta Iota announces that an organizational meeting will be held shortly after mid. All students interested in becoming charter members should watch the daily bulletin for further details.

## Theta Chi Holds Initiations and Regional Conclave

In the past few weeks two important events have shaped the activities of Theta Chi.

On February 13, five new brothers were initiated. They are: Kent Caruthers, Don Meyer, Jim Meyer, Bob Pahl, and Ray Turek. Following the initiation there was a banquet in honor of the new brothers.

This past weekend was a most

informative one for five brothers and four pledges from Theta Chi. These men attended the Prairie Fire Regional Conclave of Theta Chi, held this year at the Theta Chi Chapter at Iowa State University, Ames, Iowa. Aside from learning new techniques in rush alumni relations, and other important aspects of fraternity life they looked at the entire Greek system at Iowa State, which has consistently won the "Outstanding Greek System" award from the National Interfraternity Council. The weekend also was full of social activities, since this was Iowa State's Greek Week. Everyone had a wonderful time at the parties and other social affairs.

## Nothing can take the press out of Lee-Präst slacks

Not that it's on his mind right now. And it needn't be. Those Lee-Präst Leesures can't help but stay crisp and neat. No matter what you put them through. They have a new permanent press. So the crease stays in. The wrinkles stay out. Permanently. And that's without ironing. No touch-ups, either. They're made from Lee's special blend of 50% polyester and 50% combed cotton. For wash and wear... with conviction.

Incidentally, that permanent press is the only change we've made in Leesures. They still have that lean, honest look... smart, tailored fit. New Lee-Präst Leesures. Test their permanent press yourself. It isn't necessary, but it's a great way to spend an evening. From \$5.98 to \$7.98.

## Lee-PRÄST™ Leesures®

H. D. Lee Co., Inc., Kansas City 41, Mo.

## Mrs. C.L. Wilson Presented Award At WAAIME Meeting

Mrs. Curtis L. Wilson, Apt. 1002, No. 10 Plaza Square Apartments, St. Louis, was honored by the Women's Auxiliary to the AIME, with a national honorary membership presented at the recent annual meeting of the organization.

Mrs. Wilson is the wife of Dean Emeritus Curtis L. Wilson of MSM and has for many years been active in the St. Louis and Rolla Sections of WAAIME.

There are only 15 national honorary members at any one time, with only one vacancy filled this year. The honorary membership is given only to women of long and devoted service in the organization.

Mrs. Wilson has held all offices in the local section, and for many years was chairman of the educational fund. On the national level she served for several years as a vice president, and was also chairman of the program for the national meeting in St. Louis two years ago. She has been an official delegate to national meetings many times.

Mrs. Wilson's selection to the national honorary membership was sponsored by the Rolla section, of which she is an honorary member.

## MINER SPORTS

FRIDAY, APRIL 9, 1965

THE MISSOURI MINER

PAGE 7

### Tech Club Upsets Phi Kap For Mural Volleyball Crown

Phi Kappa Theta was upset in the finals of last week's intramural volleyball championships as Tech Club defeated the Phi Kaps and won the trophy and 280 intramural points. In the consolation final, Lambda Chi Alpha won over Kappa Sigma for the third place award.

Tied for fifth in the final tally were Sigma Nu, Kappa Alpha, and the Army Association. For their efforts, these teams receive 230 intramural points. The second through fourth spots are given 270, 260, and 250 points, respectively.

Last season's results found Phi Kappa Theta taking their second consecutive first place award, with Lambda Chi coming in second. Tech Club was third.

#### Bowling Mark Set

Jozwik of the Fifty-Niners Club smashed the individual high series mark in the intramural bowling tourney, totaling 680 pins for the three games. The previous record was set last year by Jack Suetterlin (600 pins). The Engineers Club emerged champs of the two-day tournament, held this year at Colonial Lanes in Rolla.

The Engineers totaled 2886, setting an all-time record for the number of pins dropped by a team. Triangle took second place with 2713, Prospectors Club third with 2628, and the Fifty-Niners fourth with 2624 pins.

Gary Kelso of Triangle was the runner-up for the high man series with his 604. Kelso was also

runner-up last season with 595 pins. During that same competition last year, the Engineers Club topped the list of entries with 2789, and Triangle was second with 2655.

Members of the winning Engi-

neers Club squad include Backer, Stangel, McGillicuddy, Smith, and Bader.

Intramural points gained by an organization entered in bowling decreases by five points for each place, with 140 as the top award.

### MSM Linksmen Lead In Evangel Rain-out

Varsity golf opened its season at the University of Missouri at Rolla last Friday, with a glimpse of what may be the most successful round of link matches in recent years. Each one of Lt. Col. John Short's seven men entered

(53) of the Evangel squad. Parks and Stephen Privitt (43) led over Evangel linksmen Torsch (51) and Frecheit (54).

It is still in doubt whether the rained out meet will be rescheduled at a later date.

#### UNIVERSITY OF MISSOURI AT ROLLA GOLF SCHEDULE — SPRING 1965

Friday, April 2 — Evangel College ..... Rolla (MSM Course)  
Saturday, April 10 — Washington U. .... St. Louis (Crystal Lake)  
Wednesday, April 14 — Drury College ..... Springfield  
Friday, April 23 — Concordia Seminary ..... St. Louis (Forest Park)  
Saturday, April 24 — NEMS, Kirksville ..... Rolla  
Tuesday, April 27 — Westminster College ..... Fulton  
Saturday, May 1 — SWMS, Springfield ..... Rolla  
Friday, Saturday, May 7 & 8 — MIAA Conference ..... Rolla

against Evangel Friday were leading at the end of nine holes when the match was called because of adverse weather.

Bill McCracken and Larry Parks were leading the pack with totals of 38 for the nine completed. McCracken and Buddy Jones (40) led over Sloan (41) and Wagonner (51), while John Solook (42) and Bill Stoltz (41) edged Ball (44) and Wahl

According to Col. Short, the team is rather young with only two men due to graduate this June, McCracken and Solook. The present combination of these experienced men along with the new blood injected this spring is expected to produce winning results throughout this season. One of the most promising freshmen is Buddy Jones, attending MSM on (Continued on Page 8)

### Miners Mark Good Times Despite Cold Weather

By Lloyd Lazarus

The cindermen of MSM, taking 11 of 17 first places, rolled over Evangel College track team 83 to 62 here last Friday. This was a big and important victory for the Miners, as it was their first win of the season. Since the start of the season they have been hampered by the extremely poor practice conditions, caused by the typical spring weather of this region.

The times for the field events were fairly good taking into consideration the cold and dreary weather conditions that persisted during the meet.

In the first event, Zucker, Ricker and King combined for a first place in the 440 yd. relay in 45.6 sec. Moore and Scheibel took first and third respectively in the Mile; the winning time was 4:51.5. King then took second in the 440 yd. dash. Ricker then took first in the 100 yd. dash with a time of 10.5 sec. Gary took first with a winning time of 16.9 sec. and Kucenas third in the high hurdles.

For the third time our runners placed first and third, this time in the 880 yd. dash with Tharp placing first and Walsh third in 2:04.3. In the 220 yd. dash, Ricker took second. Weitzel then took first in the 330 yd. hurdles in 44.0 sec.

The two mile event followed, in which Damotte finished second and Scheibel third. The last track event was the mile relay in which Ricker, Moore, Tharp, and King took first in 3:38.8.

The spotlight then turned to the Field Events where Faintich and Beard finished second and third in the discus. Hood took first and Grabski second in the Pole Vault with the bar at the height of 11 feet. Bickel took the high jump with a leap of 5 ft. 8 in. Florence threw the shot 42 ft., 4 in. to take first place in the shot put, Faintich taking second.

In the Broad Jump Schaefer took second for MSM. The javelin throw was won by Wizwell with a toss of 165 ft. 6 in. with Florence taking third. The final field event was the triple jump in which Lewis took third.

### Sports Calendar

#### VARSITY TRACK

April 13 ..... Principia, at MSM  
April 21 ..... Washington University, at St. Louis

#### VARSITY TENNIS

April 9 & 10 ..... Four-team Tournament, at NEMO  
April 14 ..... Drury College, at MSM  
April 20 ..... Washington University, at St. Louis

#### VARSITY BASEBALL

April 14 ..... Drury College, at MSM

#### VARSITY GOLF

April 10 ..... Washington University, at St. Louis  
April 14 ..... Drury College, at Springfield

#### INTRAMURAL SPORTS

April ..... Softball, Tennis Doubles, and Horseshoes continue.

| Campus Club              | 170.0   |

### SIDELINES

BY JIM WEINEL

Although scrappy Tech Club seemingly can't be budged from the top position in recent intramural point standings, the remainder of the leading ten suffered quite a shake-up in the latest results. Sigma Nu previously led Lambda Chi Alpha by almost 30 points, but when the cards were dealt this round, Lambda Chi jumped into second by a margin of 20. The next three go to Kappa Sigma, Phi Kappa Theta, and Pi Kappa Alpha as before, however, the previously-ranked-seventh TEKE's have plummeted to twelfth.

Kappa Alpha marked one of the biggest moves, a leap from tenth to seventh, and the Engineers took over eighth from the Prospectors, now in the tenth spot. The Fifty-Niners are still holding down ninth, and Sigma Pi has made the jump from number 12 to eleventh.

The MSM-ROTC Bands were originally to be given housing within the proposed field house complex. However, it is understood now that a reduction in the appropriation asked for has eliminated this plan. Instead, when the temporary athletic building to be constructed on the campus tennis courts is vacated, Professor David Oakley and Company will move into it.

MSM's first baseball squad will be coached by a man who saw action in professional leagues. Coach Leo Christopher played professional baseball in the Yankee organization, and also instructed baseball in pre-season training camps in Florida. Leo has been on the basketball coaching staff at MSM for the past four years and has attended the University of Missouri at Columbia and Rolla. Having a coach with a background such as Leo has will undoubtedly benefit the young Miner squad.

"EVERY AMERICAN A SWIMMER . . ."

## Twenty Students Complete WSI Course as Trained Instructors

For the past several years, a Water Safety Course has been offered by the MSM Athletic Department for the convenience of University students. This course, a part of the National Red Cross Water Safety Program, is the final phase of the Red Cross's teaching program. It is designed to teach individuals the basic instructional methods for teaching swimming and lifesaving.

The course has been conducted here under the direction of MSM Head Swimming Coach Burr Van Nostrand, and is one phase in the Red Cross's objective to make "every American a swimmer, and every swimmer a lifesaver."

Missouri Miners completing Part 2 of the Water Safety instructors course after finishing nearly 50 hours of water work are: Don Amos, Herb Bergroschke, Keith Cross, Calvin Cuneo, Frank Durbin, Clarence Good, Jim Goessling, Gordon Houf, Wilbur Krogstad, John Leblanc, Ted Marsh, Steven Mason, Tom Prokrefke, Robert Rands, Michael Romero, Tom Taylor, Darwin

Walker, James Weigand, Leland White, and James Greer. These students are authorized to teach swimming or lifesaving courses.

Van Nostrand, instructor-trainer for the National Red Cross, commented "This is one of the finest groups of young men I have worked with, and I am confident

they will do a good job teaching." The MSM coach continued, "since becoming an instructor-trainer, I have worked with over 200 Water Safety Instructors (that is to say, trained them), and this group ranks with the best." Members of the group will be teaching all over the United States.

## Varsity Netsmen Bounce Evangel in First Meet

By Bruce Worth

This past Friday, April 2, the MSM tennis squad bounced over Evangel College, 6-3. The weather was drizzly and overcast, but the Miners made it a bright day with their first tennis victory of the season.

Hapless Evangel College lost four matches out of six in the singles and dropped two out of three in the doubles. The action went like this:

In the singles, Kim Thein of MSM defeated Mike Kilgore of Evangel 6-3, 6-1; G. Goldbogen of MSM defeated Paul Goward of Evangel, 6-2, 6-1; Hank Montrey of MSM defeated Duane Cilke of Evangel, 6-0, 6-0; Tom Austin of

MSM defeated Lyndel Vering of Evangel, 3-6, 6-3, 8-6; Lou Ogle of MSM lost to Roger Quigley of Evangel, 11-9, 3-6, 6-1; Larry Field of MSM lost to Rich Williams of Evangel, 6-3, 6-2.

In the doubles the Thein-Goldbogen combo defeated Kilgore-Cilke of Evangel, 7-5, 6-4; Montrey-Austin of MSM whipped Goward-Vering of Evangel, 6-1, 6-1; Ogle-Field of MSM lost to Quigley-Williams of Evangel, 6-3, 6-0.

This Friday and Saturday the Miners travel to the Kirksville Indoor Tennis Tournament and will be playing their toughest competition. This will be the real test of how good this year's Miner Tennis Squad really is.

## MSM Graduate Heads Army Branch

Capt. William H. Love, who received his B.S. in mechanical engineering at MSM in 1959, has been sworn in as a member of the Regular Army at Watervliet Arsenal, where he is chief of the manufacturing branch.

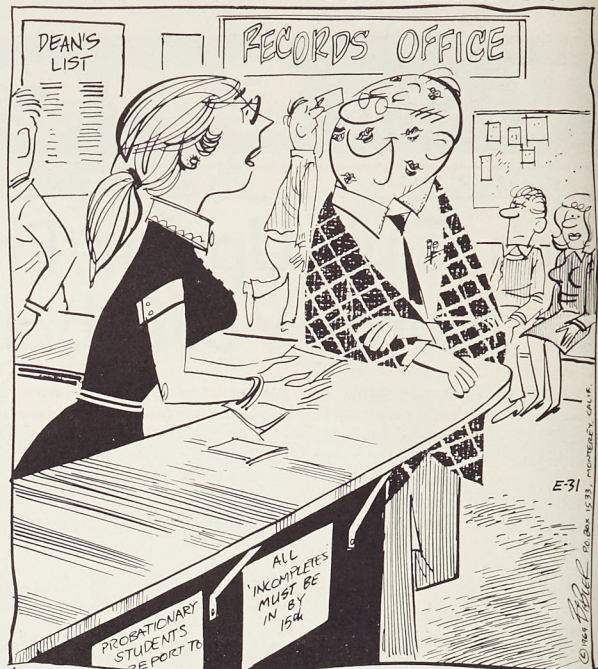

Captain Love, who has been on active duty as a member of the U.S. Army Reserve since 1960, attained career status following an interview before a board of Regular Army staff officers and approval by the Congress and the President.

A native of Granite City, Ill., Captain Love is a graduate of Granite City High School. Before entering active service he was employed by the Goodyear Tire and Rubber Co., Akron, O. Captain and Mrs. Love have a daughter, Karri Lynne, 4.

**MSM GOLFERS**  
(Continued From Page 7)  
a golf scholarship. Buddy also plays varsity football.

Tomorrow the MSM golf squad journeys to St. Louis for a match against Washington University at the Crystal Lake course. The men from MSM meet Drury College on April 14, at Springfield.

Although the first encounter was played on the University course, the remaining events at Rolla will be played at Oak Meadow Country Club. It is fortunate that these men will have the opportunity to use a course similar to those of their opponents.

Alan H. Rolla became a prize at two weekends parents, and teaching high school. He attended the Southern Science Fair on the third floor of the Rolla Daily News. Entered in the high school boys' 10-12 grades, provided school was in the Missouri region.

Alan Lynn H. another student who received first prize in the following categories: Dent, Crasage, Gasconade, Franklin, Washington, Texas, Wright, Shallowell, Douglas, and rabbits could not have any previous Missouri Science Fair. Students entered the following categories: chemistry, mathematics, earth sciences, and an exhibit may result of subjects in science classes or more special investigation by a student in a science or her interest.

In connection with the open house was held on Saturday, April 9, at the departments of instructional and administrative offices to answer questions of

J. S. Wi. Sharp Increase in Draft

The sharp increase around 14,000 compares with a 900 for March. The quota itself was 1,000 over the number planned for that month. It is also expected that the quota for May will be 4,000 men. Defense officials are working in the draft (Continued on
