Week  
Begins!!*

VOLUME 51

FRIDAY, MAY 14, 1965, ROLLA, MISSOURI

NUMBER 29

Dave Brubeck, leader of the internationally famous Dave Brubeck Quartet, will be at the Rolla High School gymnasium Monday, May 17th, at 7:00 and 9:00 p. m.

## Cleve Named Man of Month

Blue Key has named Rich Cleve as their selection for April Man of the Month. Since his arrival here at MSM he has become well known through his hard work and pleasing personality.

Rich is a member of Kappa Alpha social fraternity and has served as both their treasurer and vice-president. Other offices he has held on campus include: president of Pi Tau Sigma; president

of ASME; and chairman of the Military Ball Board. He is also a member of Tau Beta Pi, Scabard and Blade, and SAE. In addition to his school activities Rich also holds the rank of cadet brigadier general in MSM's advanced ROTC program.

To top Rich's achievements while in school, he was elected to Who's Who this year. Congratulations to a true leader.

## Joe Robb Is Guest Speaker At First Athletic Banquet

A good start for an annual M-Club banquet took place Wednesday evening, May 5, in the Student Union Ballroom. This was the first time for the banquet which honored the athletes of MSM. The banquet was a "kick-off" for making the M-Club a functioning part of campus activities. Blue Key sponsored the affair and worked in coordination with the M-Club to make the banquet possible.

After a fine meal, a program consisting of introductions, presentation of awards, and a guest speaker was presented. Bill Farrell, President of Blue Key, made the introductions and announcements.

Farrell first introduced Coach D. Allgood, head football coach, who presented the awards for the outstanding lineman and backfieldman. Don Bacich was named as best lineman for MSM, while George Gasparovic was named as best in the backfield for MSM.

Bill Key, head basketball coach, was introduced and he presented the award for the outstanding basketball player of the year for MSM. Ralph Farber received this trophy along with much praise from Coach Key.

Next on the program was the announcing of the best trackman, the best swimmer, and the best intramural athlete, by Coach B.

Van Nostrand who presented the trophies. John King was announced as outstanding trackman, Kent Horner was announced as the outstanding swimmer, and Gary Shippy was announced as the outstand-

short talk on the past performance of St. Louis, its present status compared with other teams in the league, and a prediction of the Cardinals in the coming year. He indicated that St. Louis could pos-

Joe Robb addresses the athletic banquet.

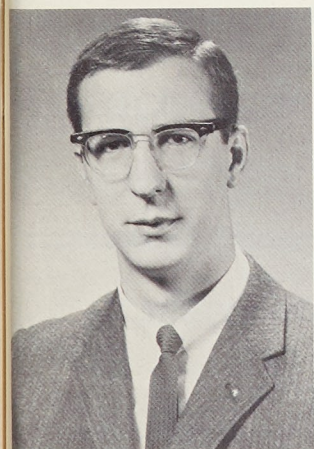

ing intramural athlete.

Bill Farrell then introduced the guest speaker for the evening, Joe Robb. Robb is a star player for the St. Louis Cardinals, professional football team. He gave a

sibly take first place in the NFL this coming year. Mr. Robb then showed a movie of the St. Louis Cardinals in the 1964 season. After the movie he answered questions from the floor.

## Bob Ricketts Chosen IFC Man of the Year

Bob Ricketts was presented with the Interfraternity Council man of the year award at their banquet, Thursday, May 13. Bob was selected from a field of 6 finalists on the basis of his fra-

BOB RICKETTS

ternity offices, scholarship, membership and offices in organizations and sports participation. The other five are listed on this page.

Bob has held the offices of president, vice-president, steward, guard, scholarship and religious

chairman in Kappa Sigma fraternity. Bob was also president and vice-president of Theta Tau, president of the American Institute of Metallurgical Engineers and of Alpha Sigma Mu, treasurer of the Blue Key, secretary of Alpha Phi Omega, a member of Tau Beta Pi and Sigma Pi Sigma and was elected Theta Tau Freshman of the Year for 1961-62. He was also a member of Who's Who in 1963-64 and again in 1964-65. The men of Kappa Sigma have very good reason to be proud of Bob and his enviable record.

### Bill Norfleet

Bill Norfleet, a member of Phi Kappa Theta Fraternity, has been active in fraternity affairs ever since his initiation. Bill has held the office of historian, treasurer, president, rush chairman, and is now a member of the Executive Council. His many offices on campus include the presidency of the Student Council and Alpha Phi Omega, vice-president of the Blue Key, business manager of the Rollamo Biard, and is a member of Theta Tau, AFS, and the ASME. Bill has been given such honors as Alpha Phi Omega Active of the Year and Phi Kappa Theta Active of the Year. He also holds an FEF scholarship and is a member of Who's Who.

### Thomas Gaylord

The men of Sigma Nu are proud of Tom Gaylord and his record of achievements for the past four years. Tom has been elected president, vice-president, and treasurer of his fraternity, president and secretary of Blue Key, president of Sigma Pi Sigma and Kappa Mu Epsilon and has been a member of Tau Beta Pi, Phi Kappa Phi, Theta Tau, and Alpha Phi Omega. While participating in all of these activities, Tom has maintained a 3.60 scholastic average. He has been named Sigma Nu Man of the Year, is a member of Who's Who, holds an undergraduate research grant from the NSF and an NSF fellowship for graduate work in E. E. at MSM and received the Phi Kappa Phi Book Plate Award.

### Tom Ferguson

Tom, a member of Triangle fraternity, has served his fraternity as president, treasurer, rush chairman, and corresponding secretary. His work on the IFC include many committee posts such as chairman of St. Pat's Queen's Tea committee. Tom is a member of AIME, ASM, and the Nuclear Society and has been active in the interfraternity bowling league, serving as president, vice-president, and treasurer. Tom has also been active in intramural

sports, competing in softball, football, basketball, volley ball, track, swimming, and bowling. Tom Ferguson has certainly given his fraternity reason to be really proud of him.

### Gary Koch

The men of Pi Kappa Alpha have many reasons to be proud of Gary. He has served the house as president, treasurer, asst. treasurer, secretary and pledgemaster. Gary has also been active on the Rollamo staff being editor-in-chief, literary editor, and associate editor. He has been treasurer of the Student Council and active on many of the Student Union committees. Gary has been vice-president of Alpha Phi Omega and is a member of the Newman Club, ASCE, SAME, and the Radio Club. Gary has also been active in sports, receiving his "M" in football. In intramurals he has competed in football, basketball, volleyball, and track. Gary has also been named to Who's Who.

### William Farrell

Bill Farrell, a member of Kappa Sigma Fraternity, has served his house in many capacities. He has been president, vice-president, scholarship chairman, leadership Chairman, and Rush Chairman to name a few of his house offices.

He has been president of AFS, ASM, Theta Tau and Blue Key and is a member of Alpha Sigma Nu, Alpha Phi Omega and the Student Traffic Committee. Bill has been active in intramural sports, especially football and basketball and has been a member of the rugby team. Bill was a St. Pat's Knight this year and has been able to maintain a 2.81 grade point while being active in all the above organizations. Bill has also been named to Who's Who.

## NOTICE!

The Traffic Safety Committee wishes to announce that the section of the Traffic Regulations regarding possession of, and registration of motor vehicles will be suspended for the last two weeks of the spring semester, beginning at 7:00 a. m. Monday, May 17th.

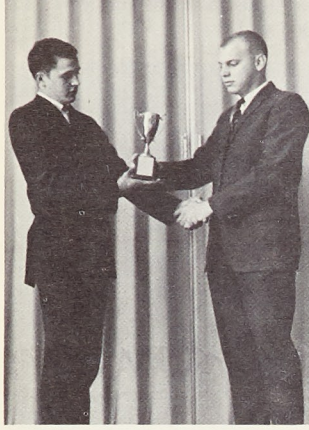

Campus parking regulations will remain in force.

## Phi Kappa Theta Takes First in Ugly Man Contest

This year Phi Kappa Theta won the annual Theta Tau Ugly Man Contest by turning in a total of \$260 for the March of Dimes. Sigma Phi Epsilon took second with a total of \$214, and Lambda Chi Alpha captured third place by turning in \$184.

The award was presented to the winners on Monday, May 3, in a ceremony at the Student Union. This year Theta Tau, as a result of money earned in the Ugly Man

Contest, contributed a total of \$1460 to the March of Dimes. This sum is the largest amount of money given to the March of Dimes by a single organization or campaign in Phelps County.

During the six years of ugly man contests on the MSM campus, Theta Tau has contributed greatly to the March of Dimes.

## Circle K Club Cites Dr. James As Top Teacher

In recent competition conducted by the Circle K club of MSM, Dr. William J. James was named to receive the first Annual Circle K Outstanding Teacher Award. Dr. James was presented an engraved plaque during the Circle K All School Variety Show held May 7th. at the Student Union.

Dr. James is Professor of Chemistry and Research Professor in Materials. Currently he is engaged in research and administrative work at the new MSM Materials Research Center. Up to this year, he was a teacher in the MSM Chemistry Dept. where he was widely respected and liked. Student comments reveal Dr. James to be a man who ran a well prepared and interesting class, and who took much interest in the development of his students.

Dr. James received his B. S. and M. S. from Tufts College, and his Ph. D. from Iowa State in 1953.

The recipient of the award was chosen by a selection committee, composed of representatives from all campus departments, and was based upon student balloting. Choosing a person for the award was difficult since there are so many outstanding teachers here on campus. However Circle K. believes that Dr. James is an excellent representative of a really fine MSM faculty.

## Rolla Arts Association Stages First Festival

Students and members of the faculty will have an opportunity to participate in the making of history by attending the Rolla Arts Association first annual Spring Arts Festival. The exhibit is currently in progress on the grounds of Pershing grade school at 6th and Main Streets in Rolla.

Formed at its first general meeting on January 30th, 1964, the Rolla Arts Association includes in its objectives the participation in, the encouragement, promotion, and promulgation of the arts in their several varieties and forms in the City of Rolla and the immediate Rolla area.

Realizing that the development of art centers must necessarily progress from humble beginnings, the persons who formed the Rolla Arts Association have been proceeding slowly toward attainment of the goals of the Association.

The Association was initially formed to comprise four divisions of the varied art forms, which are: Visual, Theater, Musical and Literary.

Believing that there is ample talent and potential talent in the Rolla area to result in Rolla's becoming a full-fledged art center, the founders of the Association included as one of their objectives, the provision: "To single out, encourage, assist and educate per-

sons who express a special interest in or exhibit a special talent for any one of the various arts."

In its effort to aid in the cultural development, the Arts Association has planned the annual Spring Arts Festival to give the public an opportunity to observe its annual progress, and to provide encouragement to the member artists.

The objectives of the Rolla Arts Association, which all point toward the cultural improvement of the Rolla area, cannot be accomplished without public appreciation and support.

The festival began yesterday afternoon. It will run through 7:00 p.m. today, and will continue through the hours of 12:00 noon to 7:00 p.m. tomorrow, and 12:00 noon to 6:00 p.m. Sunday.

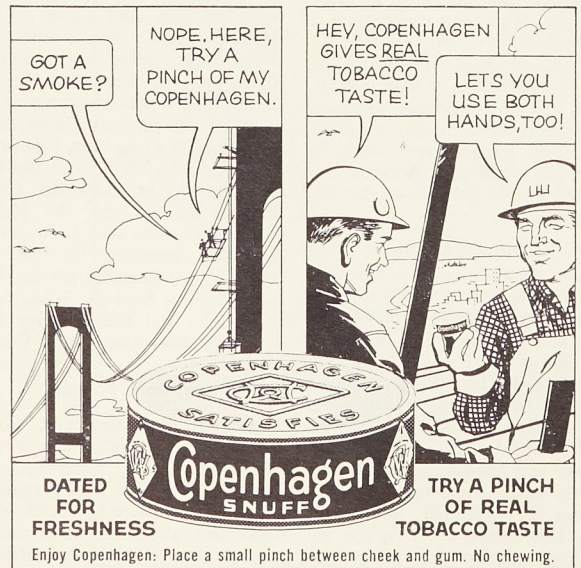

In addition to the paintings and sculptures to be exhibited by the Visual Arts Division, readings of literary works will be presented.

Mrs. Noel Hubbard (Ruth) will be cutting silhouettes at the festival on Saturday afternoon. Also two members of the Visual Arts Division will be painting and may be observed at their work on Saturday afternoon.

The Rolla Community Orchestra will present a concert at 3:00 p.m. on Sunday in the Rolla Community Hall.

"I KNOW I'VE COMPLAINED A LOT ABOUT THE FOOD HERE, BUT NOW THAT I'M ABOUT READY TO GRADUATE I'M BEGINNING TO LIKE IT."

## Friday Forum Will Feature Stephen Best

Stephen Best is a social researcher working for his doctorate at the George Warren Brown School of Social Work at Washington University. He is also chairman of the St. Louis chapter of the Fellowship of Reconciliation. The FOR is celebrating its 50th anniversary as an international fellowship of men and women who recognize the unity of the worldwide human family and wish to explore the possibilities of love for discovering truth, dispelling antagonisms, and reconciling people in a friendly society.

Friday's meeting will be the last of this year's Friday Night Forums: a lecture and discussion series on the great issues of our time. Students, faculty and the public are cordially invited to attend these Forums.

Stephen R. Best, St. Louis social researcher, will speak at the Friday Night Forum at 7:30 p.m. Friday, May 14, in the main lecture room of the MSM chemistry department.

Forum topic for the evening will be "The Population Explosion: Enough is Enough."

Modern medical developments, stricter sanitation codes, and a rising standard of living have combined to cut down on mortality rates and increase life spans throughout the world. With an ever increasing birth rate, unchecked by formerly accepted "natural" mortality rates, the world population is expanding with unprecedented speed. Men and governments are now projecting into the future to see what problems will arise in supporting this exploding population. They are also asking what steps can be taken now to set controls that will enable our descendants to deal effectively with these problems.

ST. JOSEPH LEAD COMPANY

## Mike Reed Named Recipient

Michael R. Reed, son of Harvey and Mabel Reed, 1128 North Main Street, Desloge, Missouri, has been selected to receive the St. Joseph Lead Company Freshman Scholarship at MSM beginning with the academic year 1965-66, according to an announcement by Chancellor Merl Baker.

Michael was selected for the award from among 8 applicants who were nominated by the school officials of the high schools in St. Francois County and within the towns of Herculaneum, Fredericktown and Potosi, Missouri.

In commenting upon the selection, Chancellor Baker said that the Scholarship Committee had no easy task in selecting one out of this group of outstanding young men, practically all of whom would have been acceptable recipients.

Michael Reed presently ranks 5th in his graduating class of 75, scored at the 97th percentile on the Pre-Engineering Ability Test and at the 87th percentile on the Ohio Psychological Examination. He is a member of his school's honor society and president of the science club. Michael's selection for the award was made on the

basis of his test scores, rank in class and recommendations from his high school officials, Chancellor Baker said.

The others who were considered for the award included Reginald Cleve, Farmington; Austin Ferguson, Rivermines; Michael Hahn, Desloge; Harold Gallaher, Bismarck; Randy Holdman, Bonne Terre; Gary McCord, Elvins; and Dale Riebold, House Springs.

The committee making the selection consisted of Paul E. Ponder, Assistant to the Chancellor and chairman of the committee; Professors C. S. Cave, C. W. Eshbaugh, K. C. Muhlbaier and R. E. Schowalter. Before making a selection, this committee went to Flat River, March 22, and interviewed the applicants.

The St. Joseph Lead Company, of which Mr. E. A. Jones of Bonne Terre, Missouri, is Division Man-

ager, first offered their scholarships at this campus of the University in the fall of 1950. It has been in effect for 15 years. The amount of the award has been increased and beginning with this fall will be \$750 for the school year. It is granted to an entering freshman and, subject to satisfactory progress, may be continued for three additional years. There are presently four holders of the St. Joseph Lead Company Scholarship at the University of Missouri at Rolla. They are Richard A. Pettus, freshman scholar; Tartford House, sophomore scholar; Robert W. Meyer, junior scholar; and James F. Wade, senior scholar.

In commenting upon the award, Chancellor Merl Baker said that it had been an important factor in providing educational opportunities for young men in the lead belt area.

## National Science Foundation Awards Research Grants to MSM

The National Science Foundation has announced the award of two grants totalling \$14,900 for research in ceramic engineering at MSM.

One grant, awarded Dr. Gordon Lewis, associate professor of Ceramic and research associate professor of materials research, will support a study of the vaporization in boron-phosphorus-oxygen system. This research is pertinent to the understanding of the evaporation of materials in space environments as well as high vacuum studies here on earth. The research will be conducted in the Materials Research Center.

Dr. R. E. Moore, associate pro-

fessor of ceramic engineering, is the recipient of the second grant to investigate the structural damage occurring in thermally shocked aluminum oxide. Aluminum oxide is one of the most refractory or heat resistant materials used in space, electronic and nuclear systems where sudden change in temperature are encountered which produce fracturing of the material. This fracturing is known as thermal shock failure. Research will be conducted in the ceramic engineering department by John Ainsworth, a doctoral candidate in ceramic engineering, under Dr. Moore's supervision.

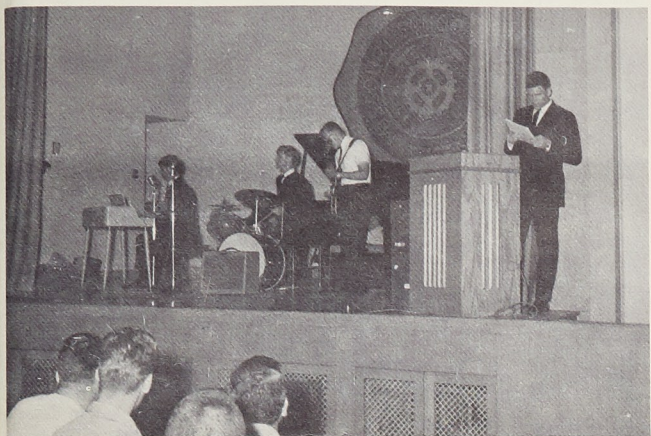

## Success Marks Circle K All School Variety Show

Last Saturday night, Circle K sponsored an all school variety show. We would like to thank all those, especially the cast, who made this show possible.

Earlier this semester, when we first began organizing this variety

day evening before the show, we held our first and only dress rehearsal. At last the night of the show. Judging from the response of a "full house" audience, we feel that the show was a real success.

The credit belongs mainly to

Gene Kalhoan emcees Circle K's variety show held in the Student Union.

show, we can remember everyone saying that it was a good idea, but — ! We optimistically accepted the challenge, and with two weeks to go, we placed posters on campus asking for auditions. Needless to say, a great majority of the people who signed these posters were not sincere. With a week to go, we were afraid all our efforts had been in vain. Thurs-

day evening before the show, we held our first and only dress rehearsal. At last the night of the show. Judging from the response of a "full house" audience, we feel that the show was a real success. The credit belongs mainly to the cast, but we feel we should thank a few people in particular who made this show possible: Mr. C. A. Thompson, of the Humanities Department, for helping us with our auditions; Mr. Burton, for his kind cooperation; Mr. Gene Kalhorn, who served as our master of ceremonies; and especially to you, the audience for your warm response.

It is Circle K's wish that this variety show, as well as "an" outstanding teachers award, becomes an annual event. We hope you feel the same. Thank you.

### NOTICE

Applications for loans for the 1965-66 school year are now being accepted, Paul E. Ponder, Assistant to the Chancellor announced today. Students interested in federal loans should submit applications no later than July 1 in order to insure consideration before funds are exhausted, he stated. Applications and information concerning these and other loans available in Mr. Ponder's office, Room 101, Parker Hall.

## Blue Key Inducts Fifteen at Annual Initiation Banquet

On Sunday, April 25, fifteen men were initiated into Blue Key. The initiation ceremony was held in the banquet room at El Char-Eve. The program consisted of an explanation of the history, purpose, and policies of Blue Key along with the administration of the oath. This unique ceremony and ritual was followed by an excellent after dinner speech given by Mayor Northern who spoke on "Civic Leadership and Responsibility."

Blue Key is proud to announce the initiation of the following men: James D. Hunter, Edward Tharp, Ralph Farber, James D. Strickler, James D. Chase, Gary Kincaid, Bob Graham, Dalton Welsh, Richard Paul, Gary Rueter, George Gasparovic, Allen G. Behring, Wesley E. Meyers, Kelly Martin, and Dan Goodman.

## Col. Jensen Heads ROTC Inspection

The Annual General Inspection of the ROTC at MSM is scheduled for Tuesday and Wednesday, May 18th and 19th.

The cadet Brigade Awards Review will be conducted at 4:30 p.m. Tuesday at Jackling Field as a part of the inspection. The public is invited to attend.

The inspecting team will include Colonel Denmark C. Jensen, Professor of Military Science, Missouri Military Academy, team chief; Major Ivan W. King, University of Missouri, Columbia; Captain James B. Statler, Kemper Military School and College; and Major Walter J. Connell, Hq XI U. S. Army Corps, St. Louis.

## Professor Wolf Presents Paper

Prof. Robert V. Wolf, of the metallurgical engineering department of MSM, has presented a paper at the National Castings Congress of the AFS, held in Chicago May 11 to 14.

The paper, which was presented to today's session is entitled "The Effect of Moisture Content on the Action of Sea Coal in Foundry Sands." The paper was done in conjunction with Robert Endres, a graduate student who received his M.S. in metallurgical engineering at MSM, and is now employed by New Jersey Zinc Co. in Pennsylvania.

Also attending the Chicago meeting was Gerald Wille, graduate assistant in metallurgical engineering, and two officers of the student chapter of the AFS.

## An Open Letter to MSM Students

Dear Students:

We have notice that MSM students are often blamed for pranks and disturbances off the campus. Realizing that this blame is not always justified and that it is more popular to criticize than to praise, we want to cite an example to the contrary.

On the evening of May 3 at about 8:30 p.m., a car leaving a parking space on Rolla Street, backed into our little red Karmann Ghia (VW) and drove away without even determining whether damage had been done. Three MSM students observed the act and alertly took the license number of the other vehicle. They then went to the extra trouble of trying to locate the owner of the damaged car — finding us at the ABC Bowling Alley. With the information these boys gave us, the police were able to locate the "hit and run" driver who has arranged to have his insurance company pay for the repairs.

These students could easily have ignored the incident and we would have been unable to learn who was responsible. The fact that they observed that a violation of the law was occurring and that they accepted the responsibility as citizens to see that restitution might be made, is very heartening. From this experience, we want to extend our praise of the character not only of these three young men, but also, to all other MSM students who might have done the same thing under similar circumstances.

In the excitement of following through with reporting to the police as quickly as possible, we neglected a most important item — we failed to get the names of the three students! In order that we might more properly extend our appreciation for their actions and the trouble and expense they saved us, we would appreciate having any one or all of them contact us by telephone or a visit in our home.

Sincerely and appreciatively,  
Mr. and Mrs. C. T. Galloway  
1100 Joyce Ave.

## And Time Is Not

(Author Unknown)

College Life is

the Grand Make-Believer  
the Bitter Reality  
the Party that never ends  
the Race that is never won.

It is the Alice in Wonderland standing on her head  
talking to Pogo about calculus,  
With Hail Alma Mater soaring in the background,  
And the feel of peanut butter sticky on his thumbs  
and a beer glass on the floor.

It is a retreat which the world can never touch,  
A place of silence and peace,  
Where the moment of international crisis is the point  
after touchdown.

And the most unforgettable character is . . . Yourself.

The religion is faith,  
the creed is hope,  
The motto is "Next we study."

Never before  
nor after  
are you ever so close to reality,  
and yet so vitally withdrawn from it.

The sorrows are deep, deathly sloughs of despair and  
dejection —

The loneliness comes creeping and overwhelms you,  
And there is no one and nothing to fill the racking  
silent void.

And then you have a chocolate soda.

And there is the joy  
and ecstasy, the love  
that spills over and pours down the avenues  
of your life reaching even counselors  
and department heads.

And the rustle of leaves,  
And the string of cars glistening on a rainy night that  
Fill you with a peace and love that no cathedral  
of poem can ever give.

They simply are, these four years,  
And we never will them,  
We sometimes appreciate them,  
And we spend the rest of our lives reliving them.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

## WOMEN

## "The Best Opposite Sex We Have"

"Women may not be much," said Will Rogers, "but they're the best opposite sex we have."

Unfortunately, men, they know it. Your job: make 'em feel special. All it takes is a bit of basic psychology, mixed well with showmanship. Don't be afraid to borrow the tested techniques of experts, past and present.

Say the right thing. Telling a woman she's beautiful is not

necessarily a surefire compliment, observed a man-about-town, the Earl of Chesterfield, over 200 years ago. He advised his son to praise only the average girl on her beauty — but compliment the very pretty or very homely woman on her intellect! The beauty, according to this line of reasoning, is fed up to her nearly teeth with compliments on her looks — and the homely girl wouldn't believe them.

Modern men know that all women like to be told they're smart — but be careful how you do it. Never say "You're very well-informed — for a woman." Never, never say, "You think just like a man."

There will come that inevitable moment when she demands, "Do you love me?" Don't blush or stammer, like some single men — and don't, as too many husbands do, snap back, "Of course. Why do you always ask me that?" Instead, gaze into her eyes and say fervently, "You don't know how much!" This satisfies her and gets you off the hook — particularly if you don't know how much, either.

Understand her signals. Men realize that women have a language all their own, and the smart ones try to understand it. If you can master even a little of the lingo, you're ahead of the game. One key point to remember is that most women speak in superlatives: a hat is not just pretty or becoming, it's "gorgeous" or "darling." Beware, therefore, of faint praises: when she tells you your new tie is "very nice," don't wear it again with her. She hates it.

Listen for the significant pause. If she hesitates just a few seconds before saying she'd be happy to cook dinner for your long-lost school chum, forget it. You'll be in the doghouse if you make her go through with it.

Of crucial importance is the "contrary hint": when she says, "I don't want anything for my birthday," she really means, "Don't forget my birthday." If she says, with a light laugh, "Look at that woman over there dripping mink," she's actually saying, "I wish you could afford mink, dear."

## What Are Civil Rights?

The United States today is infected with a gory, bloody, running sore — a sore named the Civil Rights issue or freedom and Equality for all in America. Are civil rights something that the white race has had bestowed upon themselves and the colored races have been denied?

I do not deny that Negro people have and are being discriminated against for many reasons. However, no one has counted the white people that have been discriminated against. The whole discrimination picture is four times as large as is publicly claimed today. Negroes discriminate against negroes, negroes discriminate against whites, whites discriminate against negroes, and whites discriminate against whites. In general, PEOPLE DISCRIMINATE AGAINST PEOPLE. Why? Because we have values — values by which we determine what we like and dislike. We are receptive to that which we like, and we shun that which we dislike.

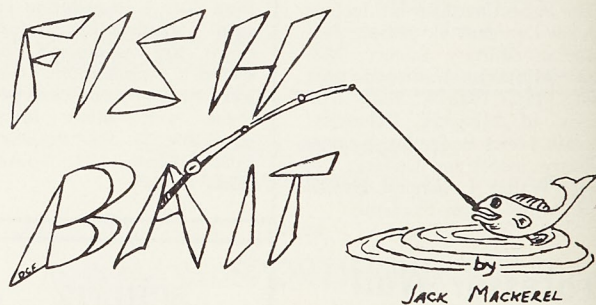

I deduce from this that discrimination will always be inevitable as long as an irrational human animal inhabits this earth.

The Civil Rights power struggle seems to be nothing more than another expression of this human irrationality.

Yes, all qualified people deserve the right to vote; but in America, all people expect the right to vote whether they are qualified or not. Certainly, we have unqualified whites voting and qualified negroes who are not allowed to vote. Why? Because in America, some influential people have taken advantage of the right to be a bigot, a hypocrite, and a fool.

If by civil rights, one means the opportunity to prove himself a respectable member of society, then I approve. However, the picture of civil rights that I have been shown suggests that I must step aside and make way for someone and his wishes simply because he has had a hard time or because he has a special color to his skin. This is not an example of equal opportunity. And equal opportunity does not mean equal ability.

President Johnson's Great Society seems to believe that it will be better off by hurting itself in this fashion. America was a great society a long time before LBJ came along, but it was not the great society defined in his terms.

Is school work getting you down? Are the pressures of life and love more than you can bear? Are you tired of spending long hours gazing at those boring text-books? If you can answer yes to five or more of the above questions I have the answer to your problems — QUIT SCHOOL!

Who needs school anyway, you could have a job right now as a factory worker that pays at least \$2.25 per hour or better. While all your friends are PAYING to go to school, you could be GETTING PAID to do probably less work than they have to do!

Imagine . . . no more quizzes to study for, no long nights working on Physics or Mech Materials, and most of all . . . DATES! That's right, you're a free man now, you can afford to live it up, booze it up, and have a good time every night while those 'dolts' are spending their best years sweating out grades.

You probably think there is a loop-hole in this somewhere, but you're wrong. By the time your former classmates get into industry, you will probably already be making more than half of what their starting salaries will be. But don't worry, you'll be up for promotion in at least five years. And if you don't like the way things are going, by then you will have enough seniority to speak with the president of the company and voice your complaints. I'm sure that he will be more than happy to help you out in any way that he can — after all, he was your classmate seven years ago!

## ★ TEXTBOOKS ★

## The Cost of Engineering

The photo below typifies a Miner bewildered by a huge stack of textbooks required for four years of engineering education at MSM. You might also notice an empty wallet lying by the books.

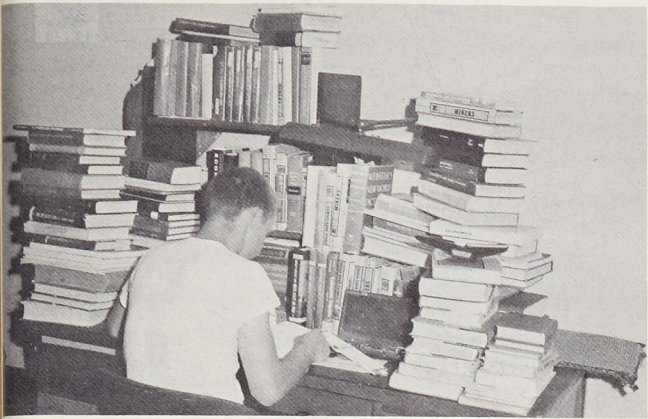

The books shown below are

quired but serve as valuable references (Handbook of Physics and Chemistry, Dictionary, Problem Working Aids).

Engineering textbooks today are an Achilles' heel to Miners. Even if he can afford to pay the prices

One would say that the above amount is not necessarily accurate because one can buy second-hand books from friends or from the APO Bookstore. This is true, but when you add that all these books have resale value, you're being pretty optimistic. If you're lucky, you can go down to the friendly corner bookstore and resell your books to the gracious proprietor for half-price, often less.

All of these factors included, engineering is indeed an expensive pursuit, a large portion of your limited finances being used for a vast array of text books necessary for a good engineering education.

A lot of money!

those needed by a typical chemical engineering student for a four year program.

As far as estimates go, these books retail for about \$250. This sum does not include engineering forms, special papers, worksheets, a slide rule, drawing instruments, and other books which are not re-

set by the local retailers, he finds himself burdened with books of no practical use after completion of the course, books with little or no resale value, or books that are good for more than one course, only to have an understanding department change books about mid-way through the material.

## MSM Students Place First in District Competition of AIMME

Research papers by students from MSM took first place in both undergraduate and graduate competition at a district competition of the AIMME at the University of Oklahoma, Norman, April 30.

The winning undergraduate paper, titled "A Digitalized Computer Procedure to Predict Water Flood Frontal Motion for Two Phase Non-Homogenous Systems," was authored and presented by James W. Crafton, Trenton, a senior in petroleum engineering.

Tom C. Wilson, Kansas City, presented results of research on aquifer-energized hydrocarbon reservoirs, titled "Radial Water Encroachment — An Approximation," which won first prize in the graduate competition. Wilson is a graduate student in petroleum engineering.

The papers from MSM were in competition with papers from the University of Oklahoma, Tulsa University and Oklahoma State University.

Dr. Robert E. Carlile, assistant professor of petroleum engineering, faculty advisor on the research studies, accompanied the students to Norman.

## Fellowship Award To Be Initiated

The establishment of a graduate fellowship in ceramic engineering by the A. P. Green Fire Brick Co., Mexico, Mo., has been announced by Dr. T. J. Planje. The fellowship will be initiated in September, 1965.

Recipients will be limited to students interested in fundamental studies pertaining to refractory materials with research work to be done within the general area of the company's interest. The recipient may pursue work toward the master's or doctor's degree.

The fellowship will provide a stipend of \$2750 for eleven months plus fees and tuition. Additional funds are provided for equipment and other expenses.

The A. P. Green Fire Brick Company also makes available a \$500 scholarship each year to a senior student in chemical engineering and awards a medal each year to an outstanding member of the graduating class.

The ceramic engineering department at MSM is the third largest in the country in the number of undergraduate degrees granted.

## University Dames Install Officers At Annual Banquet

"Southern Enchantment" set the mood for the evening of May 6 when the University Dames held their annual May banquet honoring the members whose husbands will graduate from MSM in May or August.

A hoop-skirted Southern belle greeted the guests at the door. A single rose, beautifully hand made, graced each place at the table along with the attractive program booklet.

The evening was a full one including a business meeting, presentation of diplomas to graduating wives (P. H. T. Degree: Putting Hubby Through), and installation of the new officers for 1965-66. Many happy guests received door prizes, graciously donated by a large number of Rolla merchants.

The entertainment was an unusual fashion show depicting styles in women's clothes from the 1880's through today. Models wore authentic dresses from the periods they represented. Fashions of today were shown through the courtesy of local stores.

This was the last meeting of University Dames for the 1964-65 year. The next meeting will be held after the fall semester resumes.

## AIME President Speaks at Meeting

Thomas C. Frick, president of the AIME spoke before the Student Chapter of MSM Friday, May 7, on "Fossil Fuel Resources of the United States."

Mr. Frick, a recognized authority in petroleum production and author of the 1872-page McGraw-Hill "Petroleum Production Handbook," predicted a shortage of crude oil and gas in the United States within a decade or two. He said, however, that "much of our future need will be met by production of oil and gas from shale and from coal."

Mr. Frick commented that "the United States is blessed with over one-third of the world's supply of good-grade coal from which gas can be produced to meet our needs for hundreds of years."

He continued, "We will, however, have to change and improve our methods of recovering fossil fuels from the earth (or under the sea). This means we must train more qualified young men in

the profession of minerals (including petroleum) engineering."

## Photo Club Names Contest Winners

The results of the MSM photo club contest are as follows: Black and white division, 1st place — Jerry Olney, 2nd place — Jim Slocum, 3rd place — Walter Jarrett, honorable mention — A. R. Van Steenberg and Jerry Olney. Color Division: 1st place — A. R. Van Steenberg, 2nd place — N. Patolia, 3rd place — Onur Ege-men, honorable mention — G. Iraoka and Micheal Stieferman. The winning prints will be displayed in the Student Union Music Room, May 17 to May 21. The remaining entries may be picked up now at the Student Union candy counter.

## Greek News

## Sigma Pi Wins Intramural Softball Championship Trophy

With the arrival of spring, a young man's thoughts turn to baseball. At Sigma Pi, the word is SOFTBALL, and the reason is 1965 Intramural Softball championship trophy. Allowing not a single hit in the final game, Chuck Luke pitched the Sigma Pi softball squad to a 5-0 victory and the championship last Thursday night. Two nights previous, the champs whipped Sigma Nu 15-3 in the semi-finals.

In honor of the seven straight victories and the trophy, Sigma Pi hosted a festive "celebration" the night of the final win. All who attended were able to share the taste of victory, with the brothers.

For the past several weeks, the men of Sigma Pi have been working to improve the appearance of the building complex, with main emphasis placed upon the lawn and shrubbery surrounding the house. This past week various committees have been at work on the preparation for Greek Week.

The Brothers of Alpha-Iota

Chapter are hoping to equal and surpass last year's accomplishments of first place trophies for Best Decorated Booth and most money collected. Men and dates are being conditioned for participation in the Greek Week Games, keeping a watchful eye on the overall trophy. The "Imperials" will provide musical entertainment for the casual dance scheduled for Saturday night.

A new slate of officers for the coming year was elected Monday night. Chester Vogt was elected president, Al Hulett, vice-president; Bob Niehaus, corresponding secretary; Jim Strzelec, alumni secretary; Lincoln Cochran, historian; George Cauble, house manager; Chet Adamick, pledge trainer. With new blood to lead them, the men of Sigma Pi are ready to overcome year-end problems and confront the unknown of summer and the new semester.

## Thirteen Attend TEKE Conference In Kansas City

Twenty-one brothers have just attended the TEKE Leadership Conference in Kansas City. There were 13 chapters from Missouri in attendance, as well as two from Kansas and one each from Illinois, Nebraska, and South Dakota.

Beta Eta was fortunate enough to bring home two top honors given by the St. Louis Alumni Chapter of TKE. Frater Dave Woodward was given a trophy as the most outstanding TEKE in Missouri and the chapter received another trophy for the top TEKE chapter in Missouri. We also received an award for having the greatest percentage of members in attendance.

On the 4th of April Craig Loughridge was initiated into the bond. This brings house strength to 55 actives and 4 pledges.

The spring pledge class has elected officers. They are: Bill Jones, president and Mike Petersmeyer, secretary-treasurer.

This past weekend the TEKES honored Mothers Day by having a banquet for their parents.

## Beta Sig Holds National Convention in St. Charles

The past three weeks have been quite busy days for the members of Beta Sigma Psi. On Saturday night, April 24, Gary R. Koenig was initiated into active membership. Gary is a freshman majoring in Physics.

On the weekend of April 30 through May 2 Beta Sig held its 40th National Convention at the Three Flags Restaurant and Motel in St. Charles, Missouri. The members of Eta Chapter turned out in full force to hear Mr. Louis

Roth, Vice-President of the National Interfraternity Council, talk about many of the aspects of the fraternity idea. Saturday night was highlighted by a mixer with nearby Lindenwood College.

Monday, May 3, marked the election of new officers for the coming fall semester. Al Behring will head up the slate as president. Under Al will be Frank Ollinger, first vice-president; Karl Ziegler, second vice-president; Steve Mueller, rush chairman; Rich Vedder, treasurer; Al Panhorst, commissary; Ed Stevens, secretary; Jim Rosenkoetter, athletic manager; Neil Wiese, corresponding secretary; Jerry Fehlig, social chairman; Chuck Ericson, assistant treasurer; and Gary Koenig, assistant commissary. Professor Paul Munger will again be faculty advisor and Pastor William Friedrichs, pastoral advisor. Installation of officers was held on Monday night, May 10.

## Parents Picnic Is Theta Chi Success

At the Theta Chi house seven new members are busily scampering around. The proud mother is shown with the seven new pups. This blessed event occurred three weeks ago, on April 12, and the pups are growing bigger and stronger every day.

This past weekend our Parents Club held its annual picnic in St. Louis. All the parents from the St. Louis area attended as well as some out of state parents. The brothers, their dates, and the parents all had a wonderful time and are looking forward to one just as good next year.

Greek Week preparations are now starting to swing into high gear at our house. Several of the brothers are procuring equipment for our booth while others are working out for the Greek Week games and the chariot race. We are planning a joint street party Saturday night with Triangle and Acacia fraternities. The party will be held on State Street between Eighth and Ninth Streets. The band will be "The Outcasts" and will play from 10 p.m. to 2 a.m. With serious preparation and a lot of hard work we hope to make this our best Greek Week celebration ever.

Wouldn't you really rather own a Buick? It may be easier than you think to own one.

## Phi Kap Elects Kuebler President

The brothers of Phi Kappa Theta have recently elected new officers for the fall and spring semesters of 1965-1966. These men have already assumed the responsibilities of their offices. The officers are: Ken Kuebler, president; Bernard Schweigert, vice-president; Mike Evans, secretary; Jim Braun, treasurer; Bill Norfleet, John Koeper, and Tom Bersett, Executive Council; Charles Boillot, steward; Clem Drag, alumni secretary; Frank Fix, historian; Walter Gregory, sergeant-at-arms; Bob Roos, assistant treasurer; Tony Lexa, financial secretary; Don Flugrad, St. Pat's Board Member; and Clem Bremmer and Tom O'Keefe, faculty advisors.

The active chapter was host last weekend to the alumni who returned to reminisce by-gone days. The alumni also suffered a defeat in a softball game from the hands of the active chapter.

## LITTLE MAN ON CAMPUS

## GRADUATION AWARD

Graduation day... a big day for academic and extracurricular awards. That hard-earned college degree... and for the man who has taken full advantage of his college years, a special award from the President of the United States—a commission as an officer in the United States Army... the gold bars of a Second Lieutenant. That's an award you can earn by taking Army ROTC.

Those gold bars mark you as a man apart from other men—a man able to work with others—to inspire them. They mark you a leader.

An Army officer's commission is proof to the world that your country places its trust and confidence in your judgment and ability—proof that you have what it takes to make a decision and then act on it.

These are qualities built by Army ROTC training... qualities that will pay off for the rest of your life, no matter what your career—military or civilian.

**If you're good enough to be an Army officer, don't settle for less. Stay in ROTC.**

## Sigma Pi Captures Softball Title, Tech Club Leads Pack

Undefeated in seven straight games, the men from Sigma Pi swept through their league and the final playoffs to soar to the 1965 Intramural Softball championship. Behind the no-hit pitching of Chuck Luke, Sigma Pi shut-out the Fifty-Niners 5-0 in the final contest last Thursday night. In a decision for third place, Sigma Nu defeated Sigma Tau Gamma 15-8. The championship team is awarded 280 intramural points for the accomplishment, with second place receiving 270, third 260, and fourth 250.

Playoffs for the top four positions began last Tuesday, with Sigma Pi opposing Sigma Nu on the North Field and Sigma Tau Gamma meeting the Fifty-Niners on the South diamond. Sig Tau was edged by the Fifty-Niners 8-7, in a game which found two closely matched teams pitted against each other.

The other duel resulted in a Sigma Pi slug-fest which routed the men from Sigma Nu 15-3. Luke was once again the winning hurler; Gary Shippy was the losing pitcher for Sigma Nu. The team from Sigma Pi was coached by Ches Vogt.

Final playoffs last week marked the end of the intramural softball season which began on April 1. Each organization entered participated in from five to seven games, with most squads practicing several times a week. The time and practice required by intramural softball should not go unmentioned, and each organization deserves credit for the part it played.

## Golf Squad Cops Second in MIAA Tourney

The Missouri Miner golf squad, under the direction of Lt. Col. John Short, copped second place in the 1965 MIAA Golf Tournament, second only to the Springfield Bears of Southwest Missouri State. The Bears totaled 782 strokes, as compared to 789 for the Miners. Central Missouri State was third in the six-team competition with 806, Maryville was fourth with 817, NEMO of Kirksville placed fifth (820), and Cape Girardeau was last with 826 strokes.

Jim Dobis of the championship Springfield team was low man for the two day event, rounding the circuit of 36 holes in 149. His totals were 38, 40, 36, and 35. The remainder of the top club includes Larry Pegg (155), Jerry Rosenbaum (155), Drew Greig (161), and Darly Stacey (162).

Bill McCracken and Larry Parks each totaled 153 for the tournament, the low for MSM and third low for the entire group. John Solook scored 156 strokes, and Steve Coats and Bill Stoltz each totaled 163.

## MINER BASEBALL TODAY

MSM VS. CAPE GIRARDEAU  
AT ROLLA

Triangle, Prospectors Club, and Lambda Chi Alpha tied for fifth with 4-1 records, and Kappa Alpha was eighth with a 4-2 mark.

### Close Race for First

The top three teams in the overall intramural point standings are separated by a mere fifty points. With rifle, horseshoes, tennis doubles, and track yet to be included in the final standings, the lead could very well change hands. Major changes in the status of the top ten since the last report would include the drop of the Engineers from eighth to eleventh, and Sigma Pi's move from twelfth to the number ten spot.

Team	IM Pts.
Tech Club	1668.5
Lambda Chi Alpha	1633.25
Sigma Nu	1617.0

## MSM Rugby Blacks Battle St. Louis Bombers to 3-3 Tie

Last Sunday the St. Louis Bombers fought off the Rolla Blacks, who threatened seriously in the closing minutes, and held them to a 3-3 tie. The Bombers, one of the first rugby teams in

the MSM Blacks and Golds. The Blacks, with one year experience, had only one loss and that by a score in the final minute of play by the Ramblers Primus. This loss in league play plus a forfeit to

Tom Van Rhein shown tossing the ball in rough rugby play against Ramblers Secundus.

the nation, were champions of the rugby league in St. Louis and had recently defeated Notre Dame 14-3. Notre Dame recently has been called the best team in North America and Canada by "Sports Illustrated." The majority of the game was defensive as shown by the fact that both scores came on penalty kicks and neither team crossed the goal line. Rolla's penalty kick was made by Tim Handlan, and the Bomber's by Al Vonder Harr. The strong defense of the Blacks was led by Jim Debold, whose several key tackles changed the score of the game. Don Bacich, Mike Lutzenburger, Matt Coco, and Dick Woodfield led the Rolla Blacks in many important plays.

This game ended the season for the Bombers when snow prohibi-

ted travel, put the MSM Blacks in a third place league tie. The MSM Gold team, with no experience previous to this year, defeated the St. Louis University Blues and Clayton for an eighth place ranking in the ten team league.

The members of both the Blacks and the Golds are already looking forward to next season, and with the added experience they gained this season, hope to win the league next year. The team also would like to invite anyone interested in playing next year to contact Dale Schaeffer at 364-2314.

The MSM Blacks and Golds wish to express their thanks to the Administration, Student Council, and the Coaching Staff for making this season possible.

## Montrey and Goldbogen Second in MIAA Doubles

By Bruce Worth

The Miner tennis team placed 5th in the MIAA conference tournament played here last Saturday. The doubles team of Hank Montrey and Geof Goldbogen took 2nd in the doubles competition.

The action in the doubles semifinals found the team of Montrey-Goldbogen (M S M) defeating Cook-Taylor from Warrensburg, 6-1, 6-4. In the finals Montrey-Goldbogen were defeated by Kilian-Elmore (Kirk) 7-5, 6-4.

The final team scores were 1. Kirksville, 23; 2. Cape Girardeau, 18; 3. Warrensburg, 10; 4. Northwest Missouri State, 8; 5. MSM,

3; 6. Southwest Missouri State, 1.

The Miners ended the season with a 2-4 record and one rainout. Prospects look good for next year with the experience gained from this season.

Hank Montrey in action at MIAA tennis tourney Saturday.

## Kirksville Takes Eighth Track Crown

By Lloyd J. Lazarus

Coach Kenny Gardner's Kirksville track team captured the MIAA Outdoor championship Saturday for the eighth straight year. The Kirksville team, headed by Ed Schneider, scored 96 points. Runner up was Springfield with 67 points, lead by Jean Antoine. Springfield was picked for third of fourth and their second place finish surprised everyone including the experts. Third place went to Warrensburg with 47 points. Cape Girardeau was fourth with 36 points and Maryville fifth, scoring 18 points.

MSM finished last, scoring 1 point when the team of John King, John Thompson, Dave Gray, and Dave Zuckey finished fifth in the 400 yd. relay.

Ed Schneider of Kirksville and Jean Antoine of Springfield tied for high point man of the outdoor meet with 16 1/4 points each. Schneider finished first in the 880 yd. Dash, which he set a meet record of 1 min. 53.9 sec., mile and 2 mile runs and was a member of the winning Kirksville mile (Continued on Page 8).

KEY — (K) Kirksville, (CG) Cape Girardeau, (W) Warrensburg, (M) Maryville, (R) Rolla, (S) Springfield.

### Singles Finals

1. Ray Hinds (CG) defeated Dennis Mueller (K), 6-2, 6-1; 2. Ron Mochlenhof (CG) defeated Bruce Nelson (W), 6-1, 6-1; 3. Frank Gantt (K) defeated Bob Schilling (M), 4-6, 7-5, 6-4; 4. Wendell Kilian (K) defeated Larry Harms (M), 6-2, 6-0; 5. Jack Taylor (W) defeated Warland Griffith (M), 4-6, 7-5, 7-5.

### Doubles Semifinals

1. Mueller and Gantt (K) defeated Jim Schilling and Bob Schilling (M), 6-2, 6-2; Hinds and Moehlenhof (CG) defeated Jim Ellison and Bruce Nelson (W), 6-4, 6-0. 2. Kilian and Dave Elmore (K) defeated Bruce Horrell and Warland Griffith (M) 6-0, 6-2; Hank Montrey and Geof Goldbogen (R) defeated Bill Cook and Jack Taylor (W), 6-1, 6-4.

### Doubles Finals

1. Hinds and Moehlenhof (CG) defeated Mueller and Gantt (K), 6-4, 7-5. 2. Kilian and Elmore (K) defeated Montrey and Goldbogen (R), 7-5, 6-4.

## HURLERS ALLOW 36 HITS

## Pitching Fails as MSM Drops 2 of 3 Road Games

You can't say that Leo Christopher's squad isn't hitting the ball. They amassed 36 hits in the past three games, and on the road at that! But then their opponents for the past three contests have a total of 36 hits also. Maybe this is why the Missouri Miners won only one of those three, resulting in a 5-4 mark with three games yet to be reported.

It's a sure bet that the Harris Hornets were out for revenge on their twin set-back on April 24, and revenge they got as the Teachers slipped by the Miners 8 to 7 last Wednesday. Then Saturday, an all-out attack on the McKendree Wildcats resulted in a split decision, the Miners taking the first contest 13-11, and McKendree the second 14-10.

**White was blue. You could have colored the Harris hurler anything but happy, as the Miners jumped off to a four run first inning. Led by a single at the hands of Mike Hahn, the men from MSM collected five hits in that inning, including a triple by Allen Spector and a homer by Rich Schrick.**

Harris scored two runs in the bottom of the third off Miner pitcher Hanlin. MSM tallied another in the fifth as Spector smashed a home run, but a three-run fifth for Harris tied the score. Three more Hornets crossed the plate in the sixth, and the two run ninth inning Miner rally was not enough to win the decision.

Hanlin was relieved by Vogt in the fifth, but Huegerich was credited with the loss having pitched the three run sixth. White was the winning pitcher, with relief from Schbig.

McKendree blasted Ken Shuey and Bill Miller for five runs in the first innings of a twin-bill against Lebanon, Illinois, college. The Miners went scoreless until the fifth, when a five hit attack (including doubles by Ussery and Dave Riley) produced the needed number to tie it up. The Wildcats scored three more in the sixth on a two-bagger by Joe Huffman and a sacrifice by Richardson.

**Al Spector belted a grand-slam homer in the Miner seventh as the squad combined to total eight runs on five hits. Dick**

**Schrick and Joe Hanlin also had round-trippers with one man on board in each case.**

A three run seventh for McKendree was not enough to offset the Miner margin, and the final score was 13-11. Both teams hit twelve time safely. Bill Mueller was declared the winner.

Al Locarni and Manny Formoso hit two-run homers for the Wildcats, and Korte, Locarni, and Huffman each had doubles.

The big inning for McKendree in the second contest of the day came in the bottom of the first. After a one-run first by the Miners, the Wildcats totaled six runs in only three hits. MSM hurlers walked four men in that inning.

From that time on, McKendree was in the lead to stay, the final score being 14-10. The Wildcats totaled 14 hits as compared to MSM's 8.

Extra base hits for MSM were hit by Howard and Spector, the later smashing two doubles and Howard getting one.

### KIRKSVILLE WINS TRACK (Continued From Page 7)

relay team.

Antoine was first in the 330 yd. hurdles and triple jump, establishing records in both. His time in the hurdles was 38.7 and in the triple jump he covered 47 ft. 4 in.

This season the MSM track team compiled a 2 and 5 record in Dual Meet competition. In both the MIAA indoor and outdoor track meets we finished last with one point.

High point man on the MSM track team for the season was John King with 40 $\frac{3}{4}$  points followed by Ted Moore with 23 $\frac{3}{4}$  points and Kent Florence with 23 points. Paul Weitzel and Emil Damotte scored 22 points and Dave Gray made 19 points.

## SIDELINES

BY JIM WEINEL

Intramural Athlete of the Year is the title of the award, and this year it was bestowed upon Gary Gene Shippy of Sigma Nu. The honor is given by the "M" Club through the Intramural Department, and the recipient is an outstanding intramural athlete who has been an asset to the program through sportsmanship and skilled participation. Gary has contributed greatly on both counts, having competed in football, volleyball, basketball, softball, and track in his four years at MSM. Besides displaying good sportsmanship, the senior Civil has been a key promoter for the University intramural program. Shippy will graduate in January 1966. Varsity athletes are not eligible for this award.

During the intramural managers meeting at which the above election took place, Kappa Sigma was selected the winner of the intramural consolation trophy. Factors considered in the selection of this award are sportsmanship of the members of the organization, entry into all sports, and having the entries in by the particular deadline. To be eligible, an organization must not have won a major trophy during that year. Ten out of the twenty-eight clubs were considered eligible, and after several ballots, Kappa Sigma was declared the recipient.

It is unfortunate to note the lack of interest taken by some of the intramural managers of the teams entered in the program. With some twenty-six organizations eligible for competition, only thirteen managers were present at the latest meeting (all were notified of the date and time). Members of these organizations should make it a point to select a manager who will take the responsibility to perform the duties of the position. These duties include voicing an opinion and voting upon such things as the IM Man of the Year and the Consolation trophy.

### NOTICE!

You are most cordially invited to an Indian movie to be shown on Saturday, May 15, 1965. The movie entitled "Phir Wohi Dil Laya Hoon." The film is in Eastman color with English subtitles. The showing will be at 1:30 p. m. at the Uptown Theater.

## Key Signs Three Prep Basketball Stars for Fall

The Athletic Department of the University of Missouri at Rolla has announced the signing of three prep school basketball players. They are Dick Baggett, a 6-foot-3 forward from Marion, Illinois, Ronald Eken, 6-foot-5 forward from Lincoln, Missouri, and Wayne Lewis, a 6-foot-five center from Greenfield, Missouri.

Dick Baggett of Marion High School, helped lead his team to a

22-win, 7-loss season. He scored a total of 436 points during the season for an average of 16 points per game. Baggett also grabbed a total of 301 rebounds. The prospective Miner was selected to the first team on the South Seven All Conference Team and received special mention for all-state.

Ron Eken, the forward from Lincoln High School, scored a total of 470 points during the season for an average of 18 per game. He pulled off 13 rebounds per game and was an all-conference selection. Eken made the Central Missouri Class "S" All-District team and ranked fourth in his graduation class.

Wayne Lewis, from Greenfield High School, scored 483 points this past season for an average of 19 per game. Lewis averaged 14 rebounds a game for a squad which won 19 and lost only 8.
