MISSOURI SCHOOL OF MINES AND METALLURGY

VOLUME 52

FRIDAY, MAY 13, 1966, ROLLA, MISSOURI

NUMBER 29

THE JAGUARS

Campus Talent to Appear On Statewide TV Program

Two talent groups from UMR will appear on a statewide college television program, "Campus Talent '66" the week of May 15.

The Kappa Alpha Singers, a vocal and instrumental folk group, and the Jaguars, an instrumental jazz ensemble, will perform on the one-hour program on nine Missouri television stations.

In the Rolla viewing area, the show may be seen on Jefferson City Channel 13, KRCG-TV at 7:30 p.m. May 21; on Springfield Channel 3, KYTV, at 9 p.m. May 22; and on St. Louis Channel 4, KHOU-TV at 9 p.m. May 20.

The Singers, made up of Larry Yates, Dennis Hanlon, Gary Burks, and Jim Hunter, will sing "I'm Goin' Home." The Jaguars, composed of Jim Labit, Bill Meeker, Jack McAlister, Don Baughman and Don Copeland, will play "Harlem Nocturne."

Campus Talent '66 is composed of outstanding student performers from 9 Missouri colleges and universities. The act from UMR was selected by representatives of the Corinthian Special Productions, producer of the show, in auditions

held earlier in the spring on the campus. Final selection of acts in the show was made following completion of a 1,000 mile tour

In addition to UMR, other Missouri schools represented in the show include Drury, Fontbonne, St. Louis University,

THE K. A. SINGERS

through Missouri by the television crew and a mobile video tape cruiser. The show is sponsored by Southwestern Bell Telephone Co.

Southwest Missouri College, Stephens College, Washington University, Webster College, and the University of Missouri, Columbia.

Greek Mythology Reigns Over Spring Festivities

Greek Week activities will be in full swing this evening with the start of the IFC Carnival to be held at Lions Club Park from 6:30 p.m. to 12:00. The week-end's events began last night with the annual banquet, sponsored by the Interfraternity Council. Dr. Edward M. King, Dean of Men

at Bradley University, spoke to a capacity crowd in the Student Union on "Fraternalities — Are We Missing Their Purpose." Several awards were presented to fraternities and individuals for scholarship and campus achievement.

Each of the twenty campus fraternities will sponsor an entertainment booth for tonight's activities, competing with each other for awards given for the best appearance and most profit. All proceeds will go to St. James Boys' Town, which received \$1,000 from last year's carnival. The Reandos from St. Louis, Missouri will provide musical entertainment from 8:00 to 12:00 p.m.

The traditional Greek games will begin Saturday afternoon with the presentation of the Greek gods and queens at 12:30 p.m. at the Grotto in Newburg, Missouri. All the fraternities will be out to beat Kappa Alpha, last year's champion, in the chariot

games and the games to capture the overall trophy for the week-end competition. The Reandos will again provide music from 3:00 to 7:00 p.m.

Gene Kalhorn of Kappa Sigma will portray Zeus this year with Al Behring of Beta Sigma Psi as Hermes, Lou Goldfeder of Sigma Nu as Hephaistos, Gary Kincaid of Sigma Phi Epsilon as Hades, and Dick Paul of Delta Sigma Phi as Dionysos.

NOTICE!

All those assigned to take the Selective Service College Qualification Test Saturday morning, May 14, should meet in the Student Union at 8:30 A.M. All examinees must bring their ticket of admission and address card to the test.

Andrews Selected as Teacher of the Year

Dr. William A. Andrews, professor of civil engineering at UMR, has been voted "Best Teacher of the Year" by a student ballot.

The award was presented Saturday night at the annual variety show sponsored by Circle K, a national service organization affiliated with Kiwanis. Balloting was representative of the entire student body.

Dr. Andrews, who has taught at UMR one year, holds B.S., M.S. and doctor of science degrees from Washington University. He has taught at St. Louis

University, Washington University, and North Carolina State College.

Dr. Andrews is a member of the American Society of Civil Engineers, American Society of Engineers, and National Society of Professional Engineers. Among honors he holds are memberships in the Society of Sigma Xi, research organization; Tau Beta Pi, national engineering honorary fraternity; Pi Mu Epsilon, mathematics honorary fraternity, and Phi Eta Sigma, freshman honorary society.

Behring Named Outstanding Greek

The UMR Interfraternity Council, at their annual banquet May 12, 1966, presented the coveted award for Interfraternity Councilman of the Year to Allen G. Behring of Beta Sigma Psi.

Al has held the offices of president, rush chairman, and steward at Beta Sigma Psi fraternity. He was also president and secretary of the Interfraternity Council; president, vice-president, and secretary of the American Society of Mechanical Engineers; and pledge trainer of Theta Tau. He was a member of Blue Key, Pi Tau Sigma, Gamma Delta, Society of American Engineers, and a Student Union Committee member.

The remaining 6 finalists along

with Al will be UMR's representatives to Who's Who in American College Fraternities. They include: Bob Graham, Sigma Nu; Joe Kasten, Kappa Alpha; Gary Rueter, Kappa Alpha; Brunn Roysden, Sigma Nu; Dick Paul, Delta Sigma Phi; and Gary Kincaid, Sigma Phi Epsilon.

Bob Graham, as well as being a member of Sigma Nu, has been elected president, vice-president, and corresponding secretary of Theta Tau, treasurer and recorder of Sigma Nu, and is a member of Blue Key.

Kappa Alpha has two representatives to Who's Who. Joe Kasten has served his fraternity as recording secretary, treasurer,

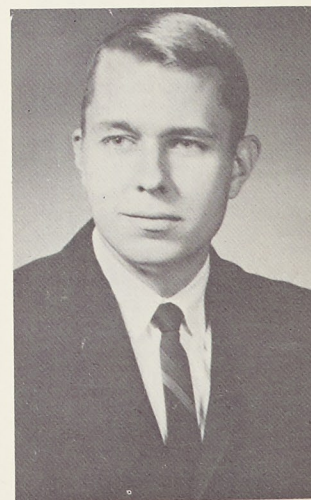

rush chairman, and assistant treasurer. He is a member of Tau Beta Pi, Blue Key, Alpha Phi Omega, and Intercollegiate Knights. Gary Rueter has also been very active in campus activities. He has served Tau Beta Pi as president, recorder, and secretary; Phi Eta Sigma as president, and Eta Kappa Nu as recorder and secretary. He is also a member of the Miner Board, IEEE, Blue Key, and was recently elected to Blue Key.

Brunn Roysden of Sigma Nu, as well as holding many offices in his house, is also a member of ASM, A.P.O., Intercollegiate Knights, Tau Beta Pi, Scabbard and Blade, Sigma Pi Sigma, Al-

pha Sigma Nu, Debate Team, and AFS. He has been photographer of the Hermes Staff.

Dick Paul, of Delta Sigma Phi has held many important offices in his fraternity as well as being an active member of many campus organizations. They include: Tau Beta Pi, Eta Kappa Nu, Phi Kappa Phi, Kappa Kappa Psi, Theta Tau, IFC, and Blue Key.

Gary Kincaid of Sigma Phi Epsilon is the final member of Who's Who in college fraternities. As well as serving his house in several offices, he is a member of Blue Key, IFC, Theta Tau, Intercollegiate Knights, Student Union Committees, Alpha Phi Omega, ASME and Pi Tau Sigma.

Chairman of Geology at UCLA Will Speak at UMR on May 9

Dr. John C. Crowell, chairman of the department of geology at U.C.L.A., will speak on the Tectonics of the Coast Ranges and Eastern Pacific Continental Shelf and Basin at 7:30 p.m., May 9, in Room 104 of the Physics Building at UMR. His talk will be the final in a series given by distinguished lecturers in a colloquium following the theme "A Tectonic Cross Section of the United States." The series is sponsored by the V.H. McNutt Memorial Foundation and the U.M.R. department of geology. Talks center on an imaginary cross-section through the United States with emphasis on the major geological structural features of our country, such as ocean basins, mountains, the Mississippi Valley, and earthquake

areas.

Dr. Crowell was born in Pennsylvania and grew up in Clairemont, California. He received his B.S. in geology in 1939 from the University of Texas and later did graduate work at U.C.L.A. After being with Shell Oil Company in Ventura, Calif., as a field geologist for 15 months, he joined the U.S. Army Air Forces and was trained as an oceanographic-meteorologist at U.C.L.A., the University of Chicago, and the Scripps Institute of Oceanography. During 1943-44 he was in England concerned with sea conditions for the Normandy Invasion and later served in the Near Eastern Theater.

He returned to U.C.L.A. after the war and obtained his M.A.

degree in oceanographic meteorology in 1946 and his Ph.D. in geology in the fall of 1947. Since that time he has been on the faculty of U.C.L.A. with interruption to accept a Fulbright Award in 1953-43 for research in Austria and the Swiss Alps.

Dr. Crowell has been chairman of the department of geology since 1957 and in 1962 was a Distinguished Lecturer for the American Association of Petroleum Geologists. He is an authority on the geology of the west coast including the special studies of the San Andreas fault and oceanographic work on the east margin of the Pacific basin. The general public as well as faculty and students is invited to attend this lecture.

UMR EE Department Opens Registration For Night School

Registration is now open for a course in commercial and industrial wiring which will be offered by the UMR department of electrical engineering and Extension Division June 10 through July 15.

Classes will meet for two and one half hours one or two nights a week at 7:30 p.m. in Room 101 of the Electrical Engineering Building. A total of 15 instruction hours will be given.

Prospective students may enroll by writing the Extension Division, University of Missouri at Rolla, 900A Rolla Street, or by calling 364-3417. Registration fee for the course, which covers the textbook, is \$20. The enrollment is limited to 25 persons.

Instructor for the course will be Larry Rushing.

Jackling Gymnasium Falls to the Future

With the destruction of Jackling Gymnasium for the purpose of constructing a new modern library an integral part of the history and glamor of UMR came to an abrupt end.

Jackling Gymnasium was made possible by the appropriation of seventy thousand dollars by the Forty-seventh General Assembly of Missouri in 1915. Since then it has served as an adequate recreational facility as well as a convenient center for social life at UMR.

Ex-Senator H. H. Hohenschild served as architect for the gymnasium, and the firm of McCaw and Long (Robert McCaw and Edwin Long) of Rolla served as contractors. The building was completed in 1915.

A description of the gymnasium is taken from the 1915-16 school catalog, as follows:

"The building occupies a space seventy-two feet wide and one hundred twenty-seven feet long, and is finished in dark red rough brick with gray terra-cotta trimmings. The interior is of fireproof construction, with concrete and composition floors, except in the gymnasium proper, which is floored with maple. Tile partitions are used throughout the building, and the roof is concrete, supported by steel trusses and covered with asbestos roofing.

On the ground floor, entered by the main entrance on the south of the building, are the cloak-rooms, locker rooms, training quarters, and visiting-teams' room, shower baths and swimming pool. The swimming pool is twenty by sixty feet, finished in white enamel and equipped with all modern appliances. The water supplied to the pool is circulated with a small motor-driven pump, and a constant temperature is maintained by passing water through a special steam boiler.

The mezzanine floor is on a level with Jackling Athletic Field, and opens upon a terrace which parallels the running track. On this floor are committee rooms, general toilet rooms, the auxiliary gymnasium, and balcony overhanging the swimming pool. On the second floor is the gymnasium proper. This room is seventy feet wide and ninety feet long, and is well equipped.

The gallery of the gymnasium

is a running track, with twenty-six laps to the mile. On this floor also is the examination room, office, and reception room. At the

south end of the building on the third floor, and opening onto the running track, is a large lounging and rest room."

Jackling Gym is destroyed to make way for University's progress.

Patrol Service for Students Available From Traffic Safety

The Traffic Safety committee recently made a unique service available to UMR students. A new policy called Holiday Patrol is now in effect for all desiring the "patrol." The service is designed as a safety measure for fraternities and eating clubs. An officer will patrol the various assigned establishments and check such things as water left running, open windows, gas leakage, and suspected foul play. The service will include all holidays and, in addition, the summer vacation. Mr. Tryon, of the Traffic Safety Office, said he expects all fraternities and eating clubs to take advantage of the program and announced that applications are now available in the Traffic Safety Office.

Chi Epsilon Initiates Dr. Needles Munger to Represent Mid-Missouri on ASCE Council

Dr. Enoch R. Needles, senior partner in Howard, Needles, Tammen and Bergendoff consulting engineers of Kansas City and New York, and 1914 graduate of UMR, was made a national honor member of Chi Epsilon, civil engineering honorary fraternity, recently in New York City.

The honor has been conferred upon only 26 men in the 44 year history of the national fraternity.

AIMS Holds Annual Outing and Banquet

After holding its spring outing in the afternoon, the AIME Student Chapter at UMR held the annual banquet at Baxter's Restaurant April 30, 1966.

Highlighting the evening was the presentation of the Old Timers Award to Mr. Martin A. Thieme, the outstanding graduating senior in coal mining, by Mr. Edward McNally of the McNally Pittsburgh Co. who spoke on innovation in the coal industry. Mr. Steve Marshall, president of the chapter, presented the Outstanding Senior Award (Metal Mining) to Mr. Gustavo Iraola. Also presented was the Outstanding Sophomore Award to Richard Phelps.

Following the main program humorous awards were made to faculty members by the graduating seniors.

This event also marked the assumption of their new duties by the officers for 1966-67:

President, John Pit; Vice-President, Ronald Ziegler; Secretary, Richard Phelps; Treasurer, Troy Hicks; Faculty Advisor, Prof. J. J. Scott.

NOTICE!

The Traffic Safety Committee wishes to announce that the section of the Traffic Regulations regarding possession of, and registration of motor vehicles will be suspended Saturday, May 14 at 7:30 a.m. until the end of the semester. On campus parking regulations will be enforced.

* * * *

There will be no parking on the south side of 16th Street on May 16 and 19 from 6:00 a.m. to 6:00 p.m.

Needles was nominated at the national convocation held in February in Lincoln, Neb., and was voted by the Supreme Council to be honored. The award was presented in ceremonies at the United Engineering Center in New York.

Needles, who holds B.S., C.E. and honorary doctor of engineering degrees from UMR, was a chief participant in the design and construction of the Pulaski Skyway, New Jersey Turnpike, and other highways and bridges in some twenty different states. He has served as director, vice president and president of the American Society of Civil Engineers.

UMR Nuclear Program Receives Support From AEC

Support in the amount of \$48,650 has been received for graduate study in nuclear engineering at UMR from the U.S. Atomic Energy Commission. This includes \$24,750 for equipment and \$23,900 for traineeships to the program.

Since 1961, Rolla's nuclear reactor, built under an AEC grant has been the only active reactor in Missouri. UMR offered the first nuclear engineering program

In 1946, he was named president of the American Institute of Consulting Engineers and later of the American Road Builders' Assn. and the Engineers Joint Council.

Two UMR professors took part in the program. Paul Munger, associate professor of civil engineering and member of the Supreme Council of Chi Epsilon, took part in the elevation ceremonies, and Jerry Bayless, assistant professor of civil engineering and advisor of the UMR Chi Epsilon chapter, presented Needles with a recognition award from UMR. Needles is also an honor member of the UMR chapter.

in the state and in 1959 granted the first M.S. degree in nuclear engineering in Missouri.

The new equipment, which will be used for laboratory courses in nuclear engineering study at the graduate level, will relieve the teaching burden on the reactor, according to Dr. Doyle Edwards, director of the nuclear reactor.

Included in the instruments is a subcritical assembly (a mock reactor which cannot go critical

on its own), and a pulsed neutron generator, an instrument which delivers a large number of neutrons in a short time interval. In between intervals, there is a delay in which neutrons from the previous pulse can be studied. The rate at which they disappear from given experimental systems reveals data to the researcher. A multi-channel analyzer, used in the study of neutrons, was received in conjunction with the generator.

The traineeships will go to four Ph.D. candidates in nuclear engineering. Three students now hold traineeships which will be renewed and one new student will be chosen soon by a faculty committee. Students currently working on Ph.D. degrees are as follows: Charles A. Myers, David E. Bartine, and Cleon M. Mobley. A stipend of \$2,600 is allowed each student per year.

The M.S. and Ph.D. degrees are offered in nuclear engineering at UMR. An undergraduate may receive a degree in metallurgical engineering with an option in nuclear engineering. The UMR nuclear training reactor is a swimming pool type, 19 feet long, 9 feet wide and 27 feet deep containing 32,000 gallons of water. An application to increase the present power of 10 kilowatts to 200 kilowatts is under study by the Atomic Energy Commission.

Lewis and Peterson Attend National Registrars Convention

Robert B. Lewis, registrar at UMR, and Associate Registrar Lauren Peterson attended the 52nd annual convention of the American Association of Collegiate Registrars and Admissions Officers in Phoenix, Arizona, April 19-22.

More than 1100 representatives of 700 colleges and universities of the United States and other countries attended. This was the largest convention ever held by the registrars. Among the featured speakers were Edward L. Katzenbach, Jr., director, Commission on Administrative Affairs, American Council on Education; G. Homer Durham, president of Arizona State University; Howard Pyle, president and chairman of the board of trustees of the National Safety Council; and Captain Kenneth Goodrich, USNR, chief, Manpower Division, National Headquarters, Selective Service System.

Included on the program were special workshops and panels dealing with such topics as Computer Scheduling; Admission of Foreign Students; Financial Aid for the Graduate Student; College Transfer Students; Electronic Computers; New Developments in Registration Techniques; and

the Registrar During the 1970's.

Peterson left the convention one day early in order to appear as the keynote speaker at a Data Processing Seminar on Registration and Record Keeping held at Great Bend, Kansas. He was selected to appear before the college administrators there because of the work which he has done in converting the record keeping and registration in the Registrar's Office at UMR to data processing.

Photo Club Elects Officers; Judges Photo Contest Entries

On Thursday, May 5, 1966 the Photo Club elected officers for the coming year. Julio Spiegel was elected president, Jim Greenfield was elected Vice President, and Eugene O'Neill was elected Secretary-Treasurer.

After the Photo Club's business meeting, members of the Rolla Visual Arts Club came in and judged the entries of the photo contest. In Black and White entries, Randy Burns was first, Morny

Oppenheim second, Walt Jarrett third, and honorable mention was given to Julio Spiegel. In Color entries, Morris Botkins took first, Mike Condren second, Howie Meyers third, and honorable mention was given to Bole Johnson.

Winning entries in Black and White are on display in the Student Union Reading Room. Other entries may be picked up at the Candy Counter of the Student Union.

Miner Editorials, Letters, and Features

Letters....

Preregistration has just been completed and I'm sure that many students are under the impression that no one really knows what's going on around here. After talking with your "Advisor" you find that somehow you're lacking 18 hours of "Humanities," you've just lost 7 hours because E.C.P.D. has changed the approved list of courses, and your department has changed its list of acceptable electives. You come to the conclusion that after only 6 more semesters of 23 hours each you just might graduate (If you're lucky). Not bad, considering you've been here for 8 semesters already.

Now don't misunderstand, some of our counselors are very conscientious men. However, they are not being kept informed on requirement changes. Many are not aware of what courses may or may not be taken to fulfill requirements, or which courses have been dropped or added to schedules.

To correct this situation I suggest a bulletin be printed each year prior to preregistration containing information regarding schedule changes, approved electives for each department, and which semester courses will be offered. These should be given to each advisor and made available to the student. This would facilitate better planning of schedules.

Meetings should be held both by the Registrar's Office and the respective department chairmen to bring advisors up to date on program changes.

With a little effort, a lot of worry, indecision, mistakes, and work could be eliminated, and there would be noticeable improvement in our counseling system.

Bill Gilbert

Student Council....

The Student Council of UMR held its regular meeting Tuesday, May 10, at 7:00 p.m. in the Student Union. This meeting was the first to be conducted by the newly elected officers and was attended by a large number of new Council members, also recently elected by their organizations.

President Schweigert announced that students could have cars at school after 5:00 p.m., Friday, May 13, without having them registered. Under new business, the Council approved the new constitutions of the UMR Karate Club and the student group of the Missouri Chapter of Professional Engineers. KMSM Radio then submitted a request for the Council's approval which involved an increase in their operating expenses. It was requested that the student fee, from which the station gets its revenue, be raised from 75¢ per student per semester to \$1.65. The extra money would be used to purchase new equipment, increase the power of the station, and expand its services. This particular request was not approved, but it was suggested that KMSM propose a somewhat lower increase and that they solicit student opinion on the ideas by putting an article in the *Miner*.

Appointments to various committees were made and the meeting was adjourned at 8:00 p.m.

Church Groups Schedule Upcoming Social Events

HOOTENANNY

A "Vacation Hootananny" will be sponsored by the Wesley Foundation on Wed. May 18, 1966. The hootananny will feature the KA Singers and other talented students.

Purdue Graduate Joins M.E. Staff

A new member of the faculty at UMR is Dr. William Gatley, assistant professor of mechanical engineering.

Dr. Gatley, who was previously an instructor in mechanical engineering at Purdue University, holds a Ph.D. degree in mechanical engineering from Purdue; M.S. and B.S. degrees in mechanical engineering from Washington University; and an A.B. degree in public affairs from Princeton University.

He is a member of Pi Tau Sigma, national honorary mechanical engineering fraternity; Tau Beta Pi, engineering honorary fraternity; Sigma Xi, honorary research organization; American Society of Mechanical Engineers; American Society for Engineering Education and Theta Xi social fraternity.

dent groups. The fun starts at 6 p.m. over at the Wesley House (8th & Main) so don't miss it. Also, the Wesley "Athlete of the Year" award will be presented at this meeting.

COFFEE HOUSE

UMR's last party weekend is here, "Greek Week." The Coffee House sponsored by six churches of Rolla will be open on Friday and Saturday, May 13th and 14th from 9:00 p.m. to 1:00 a.m. There will be entertainment by folk singers and other college groups. Coffee, cider and snacks will be served. All students and their dates are invited to Rolla's one and only coffee house, The Cellar Door, located in the Parish House of Christ Church Episcopal, 10th and Main Streets.

Thomas Jefferson Residence Hall Adds Touch of Luxury for Miners

Applications are being taken for the school year 1966-67 in the plush new Thomas Jefferson Residence Hall at UMR being constructed at 200 W. 18th Street. The seven-story 522-man building will be completed for occupancy when school starts next fall.

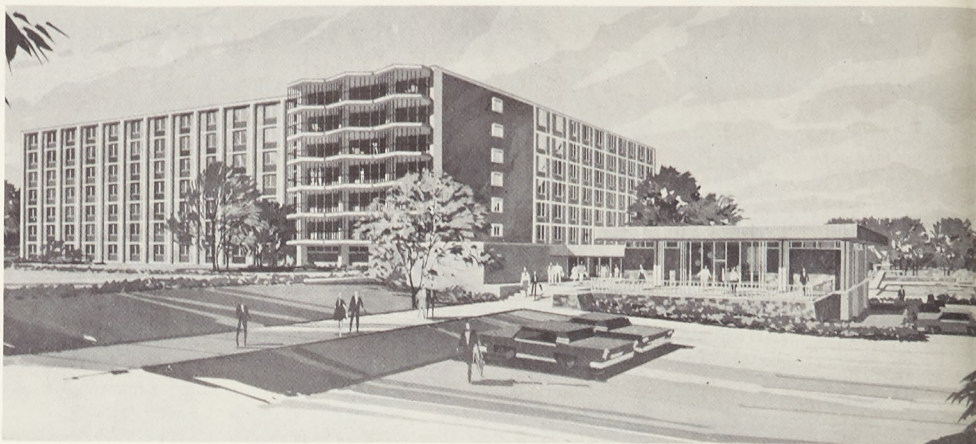

rooms, typing rooms, intercom paging systems, carpeted halls, and weekly maid service add to the luxury. Each room has its own mailbox in the lounge.

For entertaining, men and their dates may use the large heated pool

and their guests.

Twenty meals a week will be served in a cafeteria-dining room. A parking lot will be provided for a nominal fee set up in conjunction with University parking.

Applications may be made in the

The Thomas Jefferson Dormitory will afford such plush features as a heated swimming pool for its residents.

It is expected that applications assuring maximum residency will be received by July 1.

For \$525 a semester, students may live in an air-conditioned acoustically quiet two-man room with extra large beds and closets. Rooms are furnished with built-in bookcases and desks. Private phones may be installed. On each floor are two lounges each opening onto a balcony, one to be used for study and the other for television and recreation. Two community bathrooms and seven phones serve each floor. Seminar

with high dive, surrounded by a 30 by 60 foot terrace with access to the main floor lounge. A sunken pit fireplace and movable barbecue grills may be used for picnics. Rules for use of the recreation facilities will be set up by a governing board made up of student residents.

Recreation and billiard rooms, rooms which can be rented for parties, exercise rooms, hobby work rooms, and a snack bar will provide entertainment for the resi-

model room building on the dormitory site from 8 a.m. to 5 p.m. daily; or for information, call Mr. Edward Turk, 364-5766. Individual contracts may be signed for a year or for a nine-month school year, under University regulations. The Hall requires a \$25 deposit which will be returned at the expiration of the contract if there have been no damages caused by the student. Payments may be arranged either two or three times a year.

UMR Graduates' Starting Salaries Soar to New High for This Term

June graduates of UMR are receiving more job offers at higher starting salaries than ever before according to Leon Hershkovitz, assistant dean, placement.

This year a record of 520 companies interviewed about 432 prospective graduates on the campus. Every graduating senior has had the opportunity to find employment with about 20 per cent of the graduates continuing their schooling.

Salaries have taken another increase. Although records are not complete, starting June salaries

will probably average \$680 compared to the \$657 starting salary in January. Starting salaries for those with an M.S. degree will increase from last January's figure of \$800 to probably better than \$830. Holders of Ph.D. degrees will receive \$1,400 per month.

Although some extremely high salaries are offered based on age, experience, high scholastic attainments, these figures are based on averages.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

SIGMA PI

These past few weeks have been busy ones at the big white house. Tuesday, May 3, officers for the fall semester were installed. They are: President, Charles Rowland; Vice-President, Lyndell Cummins; Treasurer, Kent Rogers; Assistant Treasurer, John Tyn-dorf; Secretary, Lincoln Cochran; Herald, Neal Kolchinsky; House Manager, John Berger; Pledge Trainer, Harold Hughes; Rush Chairman, Fred Bondurant; Parliamentarian, Tom Joslin; Chairmen of Social Account, Tom Joslin and Bruce Worth. Also recently elected were Merle Steckel, Student Council, and Richard Johnson, Junior St. Pat's Board Representative.

Many of these new officers attended a conclave of all chapters in this province held at Springfield. Those attending were: Charles Rowland, Lyndell Cummins, Ken Rogers, and Merle Steckel.

The men of Sigma Pi are the current holders of the IFC Bridge Tournament travelling trophy, which is now sitting in the trophy case just completed by this year's pledge class. Members of the house bridge team were Chuck Luke, Neal Kolchinsky, Don Houser, Christ Christopher, and Chester Vogt. Thanks go out to these men.

Congratulations are in order for Brothers Turco and Luke. Brother Mike Turco was chosen by Alpha Chi Sigma as the outstanding freshman chemical engineering student of the year. Brother Luke was chosen Intramural Athlete of the Year by the intramural managers. Immediately following the Awards Banquet, he rushed to the intramural field to take over with the score 12-0 against him in the first inning. He shut out Tech Club the rest of the way on two hits and hit a home run to win his own ball game 14-12 and maintain our undefeated standing. This feat won him mention in Bob Burnes' column in the St. Louis Globe-Democrat.

TAU KAPPA EPSILON

Last Saturday, during their Public Service Weekend, men of Tau Kappa Epsilon Fraternity at over 200 different colleges and universities in the United States and Canada donated their time and manpower in service to their communities, each chapter selecting its own service project. For the chapter at Rolla, the action, which was headed by chairman Guy Hutchison, was centered around clean-up and maintenance projects in town. Several men went to the Rolla Cemetery, where they mowed and trimmed the grass and removed refuse from the premises. Two truckloads of Tekes combed Elm, Rolla, and Pine Streets, removing waste paper and other debris before the unpredictable Missouri rains came and prevented further progress.

The Teke Public Service Weekend is designed to serve the community by improving public facilities, performing valuable services, or contributing in other ways to community welfare. At the same time, the interest of college students in their community is exemplified.

The Tau Kappa Epsilon Fraternity was founded in 1899 at Illinois Wesleyan University. Today, it is the largest college fraternity, consisting of 218 chapters, having 19 thousand undergraduate and 55 thousand alumni members.

BETA SIGMA PSI

Beta Sig has recently elected its new officers for the fall semester. The new executive board is made up of the following men.

Assuming the job of president is Rich Vedder, a junior from St. Louis, majoring in Civil Engineering. Don Fleming, another junior majoring in Civil Engineering, is First Vice President. Second Vice President is Dennis Hartman, a sophomore majoring in Civil Engineering. The new Rush Chairman is a sophomore in Computer Science, Gary Koenig. Carl Rowold, a sophomore majoring in Mechanical Engineering, will take on the job of Treasurer, and Ed Stevens, a junior in Civil Engineering, is the Recording Secretary. Rich Bergsieker, a sophomore in Chemical Engineering, has been chosen Commissary, and the Athletic Manager is Ed Mueller, a freshman in Civil Engineering.

Other newly elected officers are:

Rich Janis, Corresponding Secretary, Dave Mueller, Assistant Commissary, Gary Hoffman, Assistant Treasurer, and Pete Sauer, Social Chairman.

Plans for a new Beta Sig house are moving ahead rapidly, with construction scheduled to begin next fall. The new house will be located at No. 2 Nagagomi Terrace, next to the present Kappa Alpha house. It will provide living quarters for seventy-two men, and is scheduled for completion in September 1967.

ALPHA EPSILON PI

On May 8, 1966, the Nu Deuteron colony of Alpha Epsilon Pi was reinstalled as a chapter in the national AEPi Fraternity. The reinstallation banquet was held in the Crystal Room of the Carney Manor. Special guests were Mr. Harry B. Smith, Supreme Master; Mr. George S. Toll, National Executive Secretary; Dr. Dudley Thompson, Dean of Faculty; Dean Leon Herschkowitz, chapter sponsor; Rabbi Baseman, Fort Leonard Wood Chaplain; and Mr. Leslie Blumberg, faculty ad-

visor.

Alan Spector was master-of-ceremonies for the banquet and received the new charter. Marshall Faintich presented Dr. Thompson with an initial donation for the Richard L. Cooper Scholarship-Loan Fund, a new loan fund established by Nu Deuteron in memory of Ricky Cooper. Ken Colbert presented advisor Les Blumberg with a plaque and a watch, as Les will be leaving the University of Missouri at Rolla.

Brother Jules Subow was awarded the Alpha Epsilon Pi Undergraduate Achievement Key, presented for outstanding work in behalf of the national fraternity.

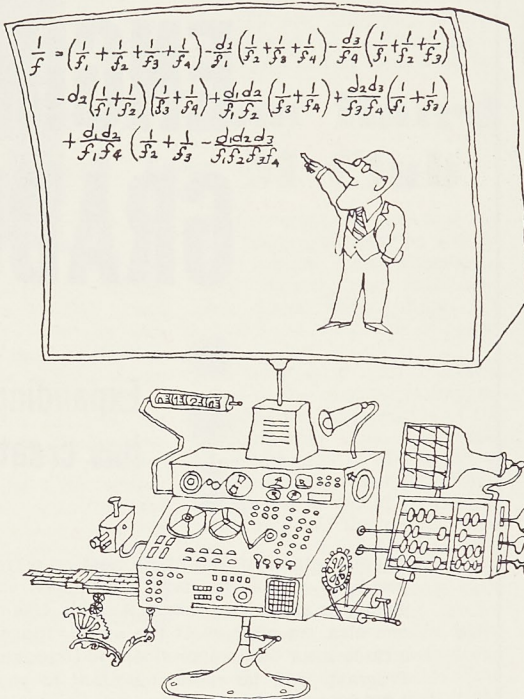

AEPi was organized at MSM in 1947, but was deactivated in 1952 because of the loss of men to the Korean War. In 1963, five men: Richard Cooper, David Faintich, Greg Goldbogen, Jerome Kipper, and Jules Subow; recolonized Nu Deuteron, and it has grown to its present size of twenty-one actives and three pledges. Alpha Pi is looking forward to a bigger and brighter future.

UMR Faculty Members To Teach in St. Louis

With the increasing demand for technological education, the St. Louis Graduate Engineering Center will for the first time offer a broad range of engineering courses to be taught by Rolla faculty members here in St. Louis.

Registration has been set for June 9 at the St. Louis campus of the University of Missouri at 8001 Natural Bridge Road. Classes will begin the following week on June 13 and will continue until August 4. The Graduate Center which now has its offices in University City at 737 Kingsland Avenue will offer ten graduate level engineering courses and expect an enrollment slightly in excess of one hundred. Ordinary enrollment during the fall and spring semesters is about four hundred. These are all candidates for the M.S. degree.

The fall semester registration is set for September 9 and 10 with classes beginning on the 12th.

If communications were good enough you could stay in the sack all day

Moving your body around is highly inefficient.

If communications were perfect, you would never have to. Of course, you would still have to get exercise. But that's your problem.

We want to make it easier for you to contact people, learn, get information, attend lectures, and hold meetings.

We developed Picturephone* service so you can see as well as talk when you call. And be seen, too. We introduced Tele-Lecture service (two-way amplified phone calls) to let you hear lecturers in distant locations. And so you could ask them questions no matter how far away they were.

Right now, many students can dial from their dormitories to a language lab. Soon a student will be able to dial into a computer thousands of miles away to get information for his courses.

Depending on the nature of the information, he might get his answer back audibly, printed on a teletypewriter, as a video image, or a facsimile print.

Some of these services are available now. Others are being tested.

For the next week or so, better get a move on.

KME Studies "Big Number"

Dr. John M. H. Ohmsted, head of the mathematics department at Southern Illinois University, was the guest speaker at Kappa Mu Epsilon's spring banquet, May 6. Dr. Ohmsted's topic was "How Big of a Number Can You Write in One Minute?" By ruling out infinity, division by zero, and $(X+1)$ where "X" is the largest number a competitor may write he proceeded to prove that a multiple factorial of "n" factorials is greater than the same number raised to the exponential power "n" times. Dr. Ohmsted then used mathematical induction to derive and prove a new set of mathematical terms. He then defined these terms and wrote a number within the one minute time limit which was a billion times larger than the present national total expenditure. Hard to imagine? Yes, it does spin the mind's imagination to picture the BIG number.

Membership in Kappa Mu Epsilon is open to students of any major provided they meet the mathematics requirements. Minimum requirements are: Students in good standing in any department of the University of Missouri at Rolla; enrolled in two or must have completed one course and enrolled in another math course on the 300 level; a grade-

point average of 3.00 in mathematics; an over all grade-point average of 2.60. We were pleased to have a high percentage of math majors in this semester's initiates. Kappa Mu Epsilon Zeta Chapter is proud to recognize the admittance of eleven new members. Rafael J. Barreto, Marshall B. Faintich, John L. Guy, Robert F. Kahrman, Richard R. Kunkel, Charles J. Nueman, Jr., David L. Otto, Herschel K. Pickett, Virgil E. Stubblefield, William E. Vierck, and Robert C. Weber.

UMR Zeta chapter hopes the student body enjoyed and utilized the film program on mathematics which was presented last week.

G.E. Representative Stresses the Importance Of the Professional Engineer in Industry

Mr. William Immer, P.E. of General Electric spoke before the April 28th meeting of the Student Chapter of the Missouri Society of Professional Engineers. Mr. Immer gave an explanation of the present status and future need for registration in industry.

Eleven companies were quoted concerning their policy and opinion regarding registration. The companies included General Electric, Armco Steel, Philips Petrole-

Western Electric, and E.I. DuPont. Their remarks included Mechanical Electrical, Chemical, Civil engineers - engineers in every field in industry.

Electrical, Chemical, Civil engineers - engineers in every field in industry. All companies were very much in favor of registration and many offered preparation courses, paid time off for study, and payment of fees for study and licensing. Some companies will put the

word "engineer" into the title of a position only when the person holding it is a registered. P.E. These bases were used to explain the increasing need not only for registration after graduation but of the value of being an EIT before interviewing.

The next meeting of the Student Chapter will be Thursday, May 19, at 7:30 P.M. in 114 Civil Engineering Building. Election of officers for the coming semester will be held.

LATE NEWS

for 1966 ENGINEERING GRADUATES

Expanding military and commercial business
has created even more openings.

As you contemplate one of the most important decisions you have yet had to make, we suggest you consider joining us at Pratt & Whitney Aircraft. Like most everyone else, we offer all of the usual "fringe" benefits, including our Corporation-financed Graduate Education Program. But, far more important to you and your future, is the wide-open opportunity for professional growth with a company that enjoys an enviable record of stability. You will be working on challenging new problems of propulsion.

And make no mistake about it...you'll get a solid feeling of satisfaction from your contribution to our nation's economic growth and to its national defense as well.

Your degree can be a BS, MS or PhD in: **MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE OR APPLIED MECHANICS.**

For more specific information (and immediate action) concerning a career with Pratt & Whitney Aircraft, write today (or use coupon) to Mr. William L. Stoner, Engineering Building 1-A, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

Springfield and Principia Host Miners in Triple Meets

Two triple meets kept the Missouri Miner cindersmen running last week, as they traveled to Principia College and Southwest Missouri State for the final regularly scheduled action of the spring season. Springfield hosts the MIAA Conference track meet this weekend.

At Elsah, Illinois, Principia, UMR, and Central Methodist College were pitted against each other, and the three schools finished in just that order. Principia swept eight firsts, including the two-mile run, 440 relay, and mile run, to amass 88½ points for first. The Miners scored 71, and Central Methodist totaled 17½.

Stan Notestine finished second in the two-mile run, however, his time of 10:10.4 was good enough for another UMR school record. Paul Woley took first in the shot put with a toss of 44 feet, 10½ inches. Eugene Ricker also won two events. He ran the 100-yard dash in 10.2 and the 220 in 23.6. Ricker also placed second in the triple jump.

John King won the 440 in 50.7 seconds, David Gray ran the 120-yard high hurdles in 15.4, and Don Arney completed the 880 in 1:59.4.

Gale Bullman's squad couldn't do quite as well against the competition at Springfield. SMS took first with winners in eleven events and a total of 90 points. The University of Tulsa totaled 57 points, and the Miners wound-up with 34.

UMR's only first was an outstanding one as the mile relay team ran the course in 3:22.0. This was good for a new school mark. Quarter times for the four relay men were: Don Arney, 51.2; Tim Shanholtzer, 50.3; Don Duren, 50.6; and John King 49.7.

Ricker ran the 220 and the 100 just behind Haren of Tulsa, and Gray placed second in the 120 high hurdles after Douglas of Springfield.

Linksmen Enter League Meet With 7-3 Mark

With the six-team league meet being the only competition remaining on the 1966 varsity golf schedule, Bud Glazier's men have a seven-win, three-loss mark to show for the highly profitable season. The Miner linksmen ended regular season play at Jefferson City last Thursday, as they met and lost to Lincoln University, 9½ to 8½.

Fred Parks was the low scorer for UMR, but Lincoln's Perry Leslie took the medalist honors with a 73 for the course. The only two Miners to win their matches were Larry Parks and Steve Coats. Parks downed Bob Leslie 79-80, and Coats won over Bob Scuggs 84-85.

(Continued on Page 8)

Tennis Squad Wins Over Westminster; MIAA Next

Coach Ray Morgan's tennis squad rounded its season mark at three wins and three losses last week with the only remaining competition scheduled at the MIAA Conference Meet at SMS this weekend. In a rescheduled contest, the Miners downed the tennis-men of Westminster by the score of 5-4.

Bob Whelove, Ken Link, Jerry Bridges, and Larry Estes all defeated their opponents from Westminster, while the combination of Whelove-Montrey won in doubles, 6-2 and 6-4.

Springfield will host the annual conference tennis matches held this afternoon and tomorrow, and Northeast Missouri State is expected to give the other six squads a tough roe to hoe. In the words of NEMO coach Ralph Pink, "... we should have our strongest squad, personnel-wise since I have been here." Pink has coached Bulldog tennis for the past six years.

The doubles team of Hank Montrey and Geof Goldbogen took second in the doubles championship last year. In the finals, UMR was defeated by Killian-Elmore of Kirksville. The Miners placed fifth in the overall scores of the league meet.

Varsity Baseball

MINERS vs. CAPE

Today, 3:00 P. M.
Tomorrow, 1:00 P. M.

NEMO Headed For Ninth Title

Kenny Gardner's Kirksville track team will be going for their ninth straight MIAA Outdoor title this weekend, but the Bulldogs can expect strong competition from Springfield and Central Missouri State of Warrensburg. The Kirksville squad, led by Ed Schneider, scored 96 points in last year's meet. Springfield was second with 67, and Warrensburg third with 47. UMR finished last with a single point.

Gardner lost only four men and still has such strength as Schneider, Wayne Clinton, and the three Taylors.

The Miners' 440-yard relay team of King, Gray, John Thompson, and Dave Zuckey finished fifth in the stiff league battle.

The conference outdoor meet will complete the Miners' spring track schedule.

Professor Tom Baird Honored by M-Club

The UMR M-Club chose Professor Thomas B. Baird as the faculty member who most supported the University's athletic program for the 1965-66 school year. All faculty members with the exception of those on the University's athletic committee are eligible.

Professor Baird has been one of the hard working faculty members responsible for the accelerated support in the UMR athletic program. In the words of one coach when questioned concerning his feelings in regard to Professor Baird's attributes: "Professor Baird has taken a great personal interest in our entire program. His willingness to work with

SMS TAKES SERIES, 2-1

Huegerich Pitches 6-5 Win Over Springfield

Leo Christopher's Miner baseball squad visited Southwest Missouri State last weekend for a three game series, but even with perfect weather UMR could win only one of the contests. In a single game Friday, SMS fell to the combined pitching of Ken Shuey and Ron Huegerich 6-5. Springfield took both halves of a double header on Saturday, 9-8 and 12-5.

The Bears hit Shuey right off the bat Friday, and before the first inning was over, they led the Miners 3-0. Lalumondiere smacked a home run, good for all three runs.

UMR led off the bottom of the second with two singles and a double. Broccard's two-bagger scored two runs, and a later double by Spector tallied two more to make the score 4-3. In the second, Springfield starting pitcher Cummings was relieved by Caray.

Spector Homers

Doubles by Huegerich and Johnson in the fourth, and a home run at the hands of Phil Spector in the fifth gave the Miners two additional runs. Springfield scored again in the fifth and made the tally 6-4. Huegerich allowed one more run to cross the plate in the bottom half of the seventh be-

fore the final out was made.

Caray was declared the losing pitcher, while Miner Ron Huegerich received the win. UMR had 9 hits and 2 errors, and the Bears totaled 7 hits and no errors.

Shuey Relieved In Second Game

A three-run Miner first inning lead the following day was short lived as the SMS Bears came right back with a three hit, four run spurt. Once again Shuey could not withstand the blows of the opposition and had to be relieved in the first. Nixon came in for relief, and the case was the same for Springfield. Cummings once again could not hold his own and the Bear hurler was replaced by Wilson.

Two hits in the second gave UMR the tying run, and three more hits and a run in the third gave the Miners a one run advantage. Springfield's Hogan slammed a round-tripper in the third inning, and two men crossed the plate as a result. One more run made the score 7-5 in favor of SMS.

Play to 8-8 Tie

Hogan lined his second home run of the afternoon during the fifth, giving Springfield a three run lead. A combination of hits plus a two-run homer in the seventh tied the score at 8-8, and SMS failed to pick up the winning run in their half of that inning.

The disputable eighth did produce the required run for Southwest, and the final score was 9-8. Nixon received the loss, and Wilson was the winner.

Although the Miners did connect 11 times in the first game of the Saturday doubleheader, only 8 men were able to score. The UMR squad had no errors, while SMS errored twice.

Both pitching and hitting failed for the Miners in the final game of the series, as UMR lost to SMS 12-5. Fiene handled the Miner pitching for 4⅓ innings, allowing 5 hits and 8 runs. He did strike out 3 Bears before Ranaveski came in during the fifth. Ranaveski, seeing action for the first time this year, gave

FINALS THURSDAY

Intramural Track Prelim's Scheduled for 4:30 P.M. Tuesday

Intramural track competition will be held Tuesday, May 17, and Thursday, May 19, with all entered organizations having a chance to prove themselves on the cinder track. Preliminaries will take place on Tuesday, beginning at 4:30 p.m., and the finals will be staged on Thursday, also at 4:30.

An organization may not enter more than two men in one event, and each contestant may only compete in two events, plus the

relay.

A schedule of preliminary races will be posted on Monday, May 16, and it will include the heat each individual is entered. Six men will qualify for the finals, with the following points awarded for the first five places: first place, 5 points; second, 4; third, 3; fourth, 2; and fifth, 1.

The mile run will be run in two heats. The shot put event will consist of three throws with six men qualifying; three throws will

also make up the finals. The discus event will be organized similar to the shot put. Seventy-yard high hurdles will contain five hurdles at a height of 39 inches, and the one-hundred twenty-yard low hurdles will be at a height of 30 inches.

There will be three tries for each height in the high jump, and three jumps in the preliminaries and finals of the broad jump. The 440-yard relay will consist of running three teams to a heat.

The meet will be run on the new varsity track, next to the intramural fields. Check the bulletin board on the athletic "butler" building for your organization's heats and entries.

MINER GOLF

(Continued From Page 7)

Prospects are excellent for a UMR-MIAA title win this weekend, with the only strong opposition coming from defending champion Springfield and a scrappy Warrensburg group.

The Miners finished second to SMS last year, and the Missouri Mules were third. In regular competition this spring, UMR split with Warrensburg, and lost a 9½-8½ squeaker to the SMS Bears.

UMR vs. SPRINGFIELD

(Continued From Page 7)

out 3 more runs. Mike Riley pitched the sixth and struck-out two men to end the inning.

UMR could score no runs in the top of the seventh and went down. Fiene was the losing pitcher and Newell went the distance for the Springfield win.

The Miners had 5 runs on 3 hits and 1 error, but none of those three were extra-base hits. Newell struck-out 11 Miners.

UMR will host a three-game weekend against the Indians of Cape Girardeau this afternoon at 3 p.m. and tomorrow at 1:00 p.m. The Miners are currently 2-5 in MIAA Conference play.

SIDELINES

BY JIM WEINEL

Students Question Delay

The end of the spring semester brings about many questions from students around campus, and this year they almost invariably center around something which has become a touchy subject with university officials: the proposed field house. Jackling has been razed (nearly one year behind schedule) and construction of the new library is progressing at this time. It is interesting to note that ground has not yet been broken for the new field house, but even more interesting is the fact that it has not even been put up for bids!! Word is out that the "available" funds are inadequate, however no official statements on the situation can be found.

Administration to Sell Chairs??

One other facet which may prove to hold more truth than rumor (much to the discomfort of Miner football fans) is the football stadium which is to accompany the new field house. It is understandable that construction of the "multi-purpose" building would require several years, but it was made clear that the stadium would be ready for use in 1966. In the April 9, 1965 edition of the MINER, it was announced that three home games would be played on the new field in the fall of 1966, and "the football stadium and dressing facilities will be available." It is apparent that responsible individuals in charge of this phase are "spinning their wheels" and getting absolutely nowhere. In three short months, the football season will be upon us, and along with it, a ridiculous dilemma. A portable folding chair may become standard equipment for UMR football fans next fall, but has anyone invented a portable dressing room???

Recruiting Successful

Gridiron Coach Dewey Allgood and his staff have been diligently searching for recruits since the season ended last fall and have come up with about 15 hopefuls. Allgood's practice of keeping their names to himself points to the importance of the "letter of intent" which is advantageously used by the larger schools. "The only thing hurting us is money, or the lack of it," comments the mentor. It's too bad that the \$50 fee increase next fall can't be put to this use!!

Address questions and comments to "Sidelines," c/o THE MISSOURI MINER, UMR, Rolla, Missouri.

On Campus with Max Shulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

THE COLLEGE PRESIDENT: HIS CAUSE AND CURE

Oh, sure, you've been busy, what with going to classes, doing your homework, catching night crawlers, getting married, picketing—but can't you pause for just a moment and give thought to that dear, dedicated, lonely man in the big white house on the hill? I refer, of course, to Prexy.

(It is interesting to note that college presidents are always called "Prexy." Similarly, trustees are always called "Trixie." Associate professors are always called "Axy-Pixy." Bursars are called "Foxy-Woxy." Students are called "Algae.")

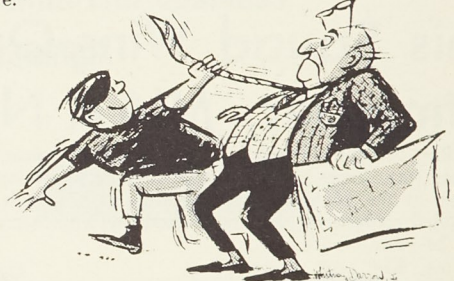

But I digress. We were speaking of Prexy, a personage at once august and pathetic. Why pathetic? Well, sir, consider how Prexy spends his days. He is busy, busy, busy. He talks to deans, he talks to professors, he talks to trustees, he talks to alumni. In fact, he talks to everybody except the one group who could lift his heart and rally his spirits. I mean, of course, the appealing, endearing, winsomest group in the entire college—delightful you, the students.

It is Prexy's sad fate to be forever a stranger to your laughing, golden selves. He can only gaze wistfully out the window of his big white house on the hill and watch you at your games and sports and yearn with all his tormented heart to bask in your warmth. But how? It would hardly be fitting for Prexy to appear one day at the Union, clad in an old rowing blazer, and cry gaily, "Heigh-ho, chaps! Who's for sculling?"

No, friends, Prexy can't get to you. It is up to you to get to him. Call on him at home. Just drop in unannounced. He will naturally be a little shy at first, so you must put him at his ease. Shout, "Howdy-doo, sir! I have come to bring a little sunshine into your drear and blighted life!" Then yank his necktie out of his vest and scamper goatlike around him until he is laughing merrily along with you.

Then hand him a package and say, "A little gift for you, sir."

"For me?" he will say, lowering his lids. "You shouldn't have."

"Yes, I should," you will say, "because this is a pack of Personna Super Stainless Steel Blades, and whenever I think of Personna Super Stainless Steel Blades, I think of you."

"Why, hey?" he will ask curiously.

"Because, sir," you will say, "though you are no longer a young blade, still you gleam and function. Full though you are of years and lumps, rheumy though your endocrines and flaccid your hamstrings, still you remain sharp, incisive, efficacious."

"Thank you," he will say, sobbing.

"So it is with Personna," you will continue. "Naturally you expect a brand-new blade to give a close, speedy shave. But how about a blade that's had hard and frequent use? Do you still expect a close, speedy shave? Well, sir, if it's a Personna, that's what you'll get. Because, sir, like you, sir, Personna is no flash-in-the-pan. Like you, sir, Personna abides."

He will clasp your hand then, not trusting himself to speak.

"But away with gloom!" you will cry jollily. "For I have still more good news to tell you of Personna!"

"How is that possible?" he will say.

"Hearken to me," you will say. "Personna, in all its enduring splendor, is available not only in Double Edge style but also in Injector style!"

He will join you then in the Personna rouser, and then he will bring you a steaming cup of cocoa with a marshmallow on top. Then you will say, "Good-bye, sir. I will return soon again to brighten your dank, miasmic life."

"Please do," he will say. "But next time, if you can possibly manage it, try not to come at four in the morning."

© 1966, Max Shulman

Prexy and undergrad, late and soon, fair weather and foul—the perfect shaving companion to Personna® Blades is Burma Shave®. It comes in regular and menthol; it soaks rings around any other lather. Be kind to your kisser; try Personna and Burma Shave.
