Alumni Association Plans Busy Homecoming Weekend

Three thousand alumni are expected to arrive at UMR for homecoming festivities Oct. 21 and 22.

Graduates of nine classes will be honored in a weekend of reunions, dances and dinners highlighted by the homecoming parade, pep rally and football game against Warrensburg.

Homecoming events will begin at 9 a.m. central daylight saving time Oct. 21 with registration in the Student Union. Guided tours of the campus and new buildings will be held from 9 a.m. to noon and from 1:30 to 4 p.m. At 7 o'clock that evening, the homecoming parade will be held in downtown Rolla. A social hour from 6:45 to 8 p.m. will be held at the Carney Manor Motel, Highway 66 East.

Activities will resume Saturday morning with registration and guided tours of the campus at 9 and the annual meeting of the Board of Directors of the MSM University of Missouri at Rolla Alumni Association in the Student Union. At noon, the classes of 1921, 1926, 1931, 1936, 1941, 1946, 1951 and 1961 will hold reunion luncheons. The football game will be kicked off at 1:30 with the Miners battling the Warrensburg Mules on Jackling Field, West 10th Street. A post game reception will be held by Chancellor and Mrs. Baker in the Student Union Ballroom until 6 p.m.

The evening activities will commence at the Carney Manor Motel with a social hour at 6:30 p.m. in the Crystal Room. An awards

President, Faculty, Attend Annual Chancellor's Reception

Dr. John C. Weaver, new president of the University of Missouri, and Mrs. Weaver were guests of honor at the annual UMR faculty reception Saturday evening, Oct. 1, in the Student Union Ballroom.

Over 700 guests were invited by Chancellor and Mrs. Merl Baker to meet the Weavers and 46 new members of the U.M.R. faculty. The guest list included U.M.R. faculty from Rolla and the St. Louis Graduate Engineering Center, and officers of the other three members of the University of Missouri System.

Col. David L. Gundling and Lt.

banquet will be held at 7:30 p.m. at the Crystal Room with the annual meeting of the MSM Alumni Association at 9:30.

Col. John W. Park presented the guests to President Weaver. Also in the receiving line were Mrs. Joseph Senne, president of the Coterie of Faculty wives and Dr. Senne.

The Drifters, a U.M.R. student orchestra, provided music for dancing. In an adjoining room, cranberry punch and cookies were served to guests from a table decorated in a pink and red color scheme. Presiding at the refresh-

ment table were Mrs. Otto Hill, Mrs. Sam Burton, Mrs. David Gundling, Mrs. Donald Siehr, and Mrs. Archie Culp.

Serving as host and hostesses throughout the evening were U.M.R. deans and their wives: Dr. and Mrs. Dudley Thompson, Dr. and Mrs. Wouter Bosch, Dr. and Mrs. Aaron Miles, Dr. and Mrs. T. J. Planje, Dr. and Mrs. Harold Fuller, and Dr. and Mrs. G. E. Lorey.

Girls - Hundreds Expected For Annual All School Mixer

Approximately four hundred young ladies are expected to arrive in Rolla on Saturday, October 8, 1966 for the annual UMR All-School Mixer. This year, because of the increasing popularity of the mixer, two dances are plan-

ned; one in the afternoon and one in the evening.

Both dances will be held in the Ballroom of the Student Union. The afternoon dance will begin at 1:30 p.m. and end at 5:30 p.m.; the second dance will begin at 8:00 p.m. and end at midnight. Dress for both afternoon and evening will be casual.

Music will be provided by Jerry Jay and the Sheratons. A featured attraction of the evening will be a dance contest.

Of the numerous Women's Colleges invited, acceptance has already been received from the following: Lindenwood College of St. Charles, Missouri; Cotley Col-

lege, Nevada, Missouri; William Woods, Fulton, Missouri; Christian College and Stephens College, both located in Columbia, Missouri. A large turnout from each of the above schools is anticipated. The girls will be transported by buses, which will begin arriving in front of the Student Union at noon on Saturday. Buses from the different schools will be arriving at various intervals throughout the afternoon.

The All-School Mixer is sponsored by the Student Union Board who expect the 1966 Mixer to be one of the Social highlights of the year, with attendance exceeding even the large turnouts of the past few years.

Student Union to Present Noted Humorist, Publisher

"A Grump a day keeps the Roobs away." This is humorist Roger Price's philosophy on life,

ROGER PRICE

and the students and faculty of the University of Missouri at Rolla will hear the noted author and publisher expound on it October 12 in the Student Union Ballroom.

Price has appeared many times on top television shows including "Get Smart," "Jack Paar," and "The Ed Sullivan Show," and he is now on tour in the United States. He has appeared as a monologist at the London Palladium, the Waldorf Astoria, and many other leading supper clubs.

Roger Price has written many humorous books including "Doodles," "Mad-Libs," "The Elephant Book," and "What not to Name the Baby," and is probably most noted for his recent project, "Grump Magazine." "Grump," of which he is editor and publisher, is distributed by Curtis to 600 cities in the U.S., Canada, Alaska, Hawaii, and Great Britain.

"Humor is no laughing matter," says Roger Price. You are invited to hear and see this famed humorist, writer, cartoonist, and publisher on October 12, at 8 p.m., in the Student Union Ballroom. The program is sponsored by your Student Union Board.

Engineering Stressed in Guidance Counselors Meet

The need for engineers and the increasing importance of the vocational counselor in a complex society were stressed by speakers from industry and education at the University of Missouri at Rolla's third annual engineering conference for high school guidance counselors.

The two-day conference ended Friday afternoon, after sessions orienting the counselors to engineering as a profession and to the different branches of engineering.

At the closing luncheon Friday, Harold Kreuger, Ellington general manager of the Ozark Lead Co., Kennecott, Corp., spoke on "Missouri's Metal and Mining Industry, a Challenge for High School Students."

Because there is little tradition of a mineral economy in the state, many Missourians have a lack of knowledge about career oppor-

tunities in the mineral industry, Kreuger said. The dramatic discoveries of large deposits of ore in Missouri and the need for educated persons to exploit these deposits make the mineral industry one of opportunity for engineers in every field, Kreuger said.

Kreuger was introduced by Robert P. Vienne, vice president, Acme Structural Inc., Springfield.

Also stressing the need for engineers and scientists was E. A. Ballman, manager, Wood River, (Ill.) Refinery, Shell Oil Co., who was the speaker at the conference dinner Thursday evening.

Speaking from the viewpoint of the oil industry, Ballman said that graduates from all branches of engineering and science could find good jobs today.

"There is no limit to the opportunities for achievement for the engineer," Ballman said.

Presiding at the dinner meeting was Thomas E. Kalin, mechanical design engineer, power

division, Black and Veatch, Kansas City.

The importance of engineering

GUIDANCE COUNSELORS DINE

Counselors at the third annual Guidance Conference enjoy a relaxful supper in the Crystal Room.

from an educator's angle was discussed by Dr. Lynn Martin, director of institutional research at U.M.R.

"The American public schools, with the pupils, teachers and parents involved, are by far the Nation's most gigantic single enterprise. . . The academic community is central to the major concerns of American society. . . however, the engineering schools are perhaps even more important since there is virtually no industry today which does not require skills and services of engineers in this era of science and mass technological production," Martin said.

Counselors from selected high schools in Missouri and surrounding states were invited to attend the conference which was initiated by the University to orient high school counselors to the engineering field. Financial support is given by 30 interested firms and individuals who employ engineers.

Dr. Kreidl Elected To Glass Commission

A UMR professor has been elected to the position of vice-president of the International Commission on Glass.

Dr. Norbert J. Kreidl, professor of ceramic engineering and research associate in the Graduate Center for Materials Research, was chosen for this honor at the annual meeting of the organization held Sept. 12 through 17 at Tokyo, Japan. He will serve for the term 1966 through 1969.

Dr. Kreidl, who has represented the American Ceramic Society on the Commission from 1952 to 1965 and who served on its executive committee, addressed the group on the use of the electron microprobe in analyzing defects in glass.

The International Commission on Glass, founded in 1933, organizes the international glass congresses every three years, and conducts other international glass programs as the international arm of the glass and ceramics societies of all glassmaking countries. The next international symposium on colored glass takes place in Czechoslovakia in 1967.

Before joining the U.M.R. faculty this summer, Dr. Kreidl was visiting professor of ceramics at Rutgers University and was a scientific consultant to Bausch and Lomb, Inc., New York. A native of Austria, he holds a Ph.D. degree in physics from the University of Vienna.

Dr. Kreidl has been engaged in silicate research at the Kaiser Wilhelm Institute in Berlin and

has been associated with the glass industry in Czechoslovakia with research, production and management responsibilities. In 1938, he came to the United States as assistant professor of glass technology at Pennsylvania State University. While there, he served as consultant to Bausch and Lomb and in 1943 he joined that company as chief of the division of inorganic chemistry and glass research. He became chemical research director in 1949 and subsequently director of materials research and development, a position which he held until 1965.

Dr. Kreidl's fields of research have included the constitution of glass, optical properties, color, radiation effects, infrared materials, rare materials, and high pressure. He is the author of nearly 100 articles published in technical journals in the United States and Europe and holds a number of U.S. patents in glass technology.

Besides his membership in the International Commission on Glass, he is a fellow of the American Ceramic Society and is chairman of the advisory panel to the National Bureau of Standards, Division 09. He was chairman of the Gordon Research Conference on Glass and has been a delegate to the Inter-Society Color Council.

UMR Students Have High Grade Point For Spring Semester

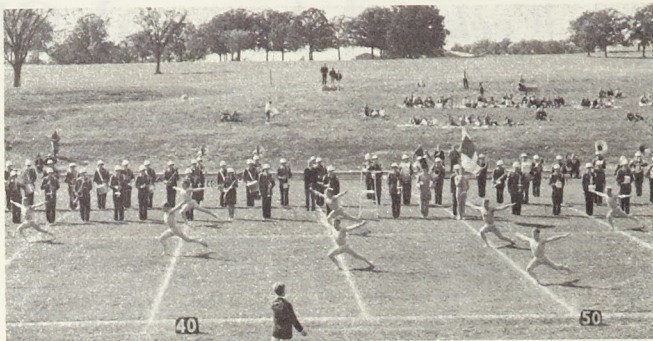

The scholastic averages for all fraternities and classes for the Spring Semester, 1965-1966, have been compiled and tabulated by Mr. R. B. Lewis' office. According to these statistics the entire undergraduate grade point was a 2.39. This was based on 3,347 UMR undergraduates.

These figures tell several very interesting stories. The 2,429 independents on campus had a 2.40 grade point as compared to a 2.37 compiled by 918 fraternity members. Co-op student trainees had a 2.79 which was the highest by any group on campus. These averages showed that the longer you can stay at Rolla the better grade point you will have. Seniors had a 2.70 while Juniors had a 2.43. Sophomores (2.26) and Freshmen (2.27) were both well below all-men's average.

House Five (2.68), House Six (2.60), and House Two (2.59) led the independents in grade point. Acacia (2.77), Beta Sigma Psi (2.56), and Sigma Phi Epsilon (2.55) were the leaders among the fraternities on campus. Of the twenty fraternities, eleven were over all-men's average. Nine of the twelve dormitory units were above a 2.39. Neither one of these statistics include the many students who live in private housing.

Miner Half-Time Features Danish Gymnastic Team

A feature of the half-time show at Saturday's football game between UMR Miners and the Missouri Valley Vikings was a 10-minute demonstration by a world-famed Danish gymnastic team from the Ollerup Physical Education Academy.

DANES PERFORM HERE

cation Academy.

The demonstration followed a presentation by the U.M.R.-R.O.T.C. band which featured a twirling exhibition by Miss Myra Jane Wilson.

The gymnast team, which is on a two-month tour of the United States, is currently on a three-day visit to Fort Leonard Wood, and was brought to Rolla through the cooperation of Robert Dillon,

Fort athletic director.

The group has performed before audiences in Europe, Asia, Africa and America, thrilling their audiences with their exhibition of precision calisthenics and tumbling.

University Revises Academic Regulations

Many changes have taken place on our campus during the past year. Probably the most important changes have come in the field of Academic Regulations. It's imperative that every student be aware of these changes.

The first major change deals with permissible schedules. The revised rule states — The normal schedule consists of not more than 19 credit hours in the School of Engineering and the School of Mines and Metallurgy, 18 credit hours in the School of Science, and 18 credit hours for unclassified students. A student with an accumulated grade point of 2.5 or higher may, with the permission of his advisor, take extra hours according to the following schedule:

Cumulative grade point average 2.5 or above — 1 extra hour.

Cumulative grade point average 2.75 or above — 2 extra hours.

Cumulative grade point average 3.15 or above — 3 extra hours.

For additional hours or for any schedule exceeding 23 hours, including military courses, the student must petition the Dean of his school. The normal schedule specified above may be increased by the credit hours prescribed for Military Science for ROTC

enrollees. The normal schedule for a first semester freshman shall be 17 credit hours. A total of 19 credit hours may be scheduled by ROTC enrollees.

The second major change concerns dropping courses. The new rule reads: If a student officially drops a course in which he is doing passing work, no final grade will be recorded. If a student officially drops a course after six weeks from the beginning of classes, a grade of F will be recorded (on his record by the registrar) *unless extenuating circumstances* (Continued on Page 4)

Campus Talent '66 Selects UMR Band

Tryouts for a statewide television show, "Campus Talent '66," starring performers from Missouri Colleges, were held for University of Missouri at Rolla students on September 21, in the Music Building.

The program, to be presented later this fall, is the second of a series sponsored in Missouri by Southwestern Bell Telephone Company. The producer, B. Calvin Jones, said that a video tape mobile unit would be on the UMR campus about the sixteenth of October, to tape selected talent.

A huge array of talent — including a jazz band, singers, a folk group, pianists, and other instrumentalists auditioned for the show, but in the final decision, the UMR marching band, featuring its new majorette, Miss Myra Jane Wilson, were chosen for the show. Miss Wilson, majoring in computer science, is the first majorette in UMR history —

Theta Tau Seeks Exceptional Freshman

Theta Tau, the national professional engineering fraternity, will be accepting applications for the Theta Tau Freshman of the Year Award. Applications will be available at the Student Union candy counter October 10th, and will be accepted through October 17th. Applicants should deposit the completed forms in the Theta Tau mail box at the candy counter. All sophomores who were freshmen on the UMR campus last year are urged to apply for this distinguished honor.

Theta Tau sponsors this award each year to bestow reward and recognition on the outstanding freshman of the year for his ser-

vice and achievement on the UMR campus. It is indeed fitting that Theta Tau sponsor this award, having itself established an outstanding record of achievement and service since its founding here 50 years ago. The UMR chapter, one of twenty-seven across the nation, was established on the former Missouri School of Mines and Metallurgy campus February 5, 1916, and since then has grown to a position of promi-

nence and esteem.

Some of the services Theta Tau renders include the Theta Tau Calender which has just recently been issued, and the Ugly Man Contest for the benefit of the March of Dimes. The Freshman of the Year Award is yet another, and Theta Tau urges all eligible students to apply for this unique campus distinction.

ASME Elects Officers; Schedules Next Meeting

Newly elected officers for the American Society of Mechanical Engineers are: Charles J. Fehlig, president; Bill M. Murray, vice president; Gerald W. Vaughn, treasurer; and Barry James Gaul, secretary.

The Society is one of several professional organizations with student chapters on the campus. The purposes of the student chapter of the American Society of Mechanical Engineers are to present to the student some of the theory and practice of mechanical

engineering, to present a proper perspective of engineering work and opportunity and to promote a professional awareness and fellowship.

Activities include meetings, field trips and well-known speakers in the area of mechanical engineering.

An ASME meeting will be held Wednesday, October 19 at 7 p. m. in Room 107 of the Mining Building. Refreshments will be served, and memberships will be accepted.

NOTICE!

The St. Pat's Board announces the beginning of the annual sweatshirt design contest. A prize of two sweatshirts will be awarded to the designer of the best sweatshirt. The board requests that all designs be turned in to the junior member of the designer's respective organization on or before October 26, 1966. If you have any questions, please contact Larry Miller, 364-4219, or Charles Fehlig, 364-4023.

WHERE IDEAS
UNLOCK THE FUTURE

"Development" is one of the most-used words at Bendix... it is one of our most vital functions. And to undertake development there is no substitute for people. So here we have a standing welcome for people who can bring us the professional training which modern manufacturing development requires.

Now, for example, we are offering career opportunities to electrical engineers specializing in microwave circuit design, electronic product design, electronic test equipment design, manufacturing and facilities. Unique applications in electrochemistry, materials engineering and manufacturing engineering provide new fields of activity both for chemical engineers and mechanical engineers. Industrial engineers are needed in methods and facilities engineering.

If your academic training qualifies you for our development program, we cordially invite you to schedule an interview with our representative when he visits your campus.

Parking Poses Problem

Have you driven a car to campus recently, only to find that you had to leave it three or four blocks away? If so, you are undoubtedly aware of the acute traffic problem at UMR. If not, you might be well-advised to continue on foot.

In this era of vast improvement and expansion at one of the largest engineering schools in the nation, we find ourselves floundering in the sea of civilization's most common and perhaps most aggravating nemesis since Henry Ford — parking.

A new addition to the north of the Mechanical Engineering Building will eliminate one existing parking lot, and the ever increasing enrollment will further contribute to an already critical situation.

Because the state cannot appropriate money for the construction of parking lots, funds must be raised by other means. The increase in the car registration fee this year will hopefully provide enough capital to install parking facilities as soon as property adjacent to the campus becomes available.

Already one lot is being graded for parking at 14th and State Streets. According to Mr. John Tryon of the Traffic Safety Office, this area, which will hold approximately 150 cars, should be ready sometime this semester.

In another effort to alleviate the problem of too many cars and too few parking spaces, the Traffic Office has modified its registration rules. In the past second semester freshmen could register an automobile if they had a 2.80 grade point. This year eligibility is restricted to sophomores and above.

These and any future efforts to cope with the parking problem at UMR should be applauded by students and faculty alike. Let's just hope that it will be neither too little nor too late.

UMR Buys New Analyzers For Study and Research

The UMR has purchased two multi-channel analyzers from the Nuclear-Chicago Corp., Des Plaines, Ill., for use in a nuclear engineering area study and a physics project.

The instruments, costing \$11,910 and \$8,500 respectively, were purchased by the University from the lowest bidder.

The instrument in nuclear engineering will be used for research and as part of a graduate training project with a pulsed-neutron generator. The work is under the direction of Dr. Doyle R. Edwards, associate professor of nuclear engineering and director of the reactor.

The analyzer in the department

of physics will be used for research on the "Mossbauer Effect," under the direction of Dr. Robert Gerson, professor of physics. William R. Denno, Buchanan, Mich., candidate for the Ph.D. degree in physics, is the graduate student working on the project.

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

Are Colleges' Moderate Many Fighting for a Lost Cause?

(ACP) — The most important student cause of all is lost in the din of raucous rebellion, graduate student Jay Farrington writes in the *Daily Texan*, University of Texas.

This cause is paradoxical. It is propagated by a vast majority of students, but no marches or signs are seen. This cause has no name, but its voice is heard. It doesn't shout, but its whispers decide the fate of a nation. In short, we are the moderate many.

Academic Changes

(Cont. From Page 3)

stances are certified by the instructor of the course. The fee for dropping a course after six weeks is still \$5.00.

This rule likewise applies to those students who are dropped by the Registrar at the request of the instructor. If a student is dropped by an instructor after the six week limit he will receive an F unless extenuating circumstances are certified by the chairman of his major department (or the Dean of Faculties if he is an unclassified or special student).

All of this information is contained in *The Manual of Information 1966-1967* which is now available in the Registrar's Office.

We are not the new left or the reactionary right, but we are blasted by both. We are in the precarious position of having weakened our traditional ties, but without having severed them completely. We question war and legislation and religion, but rather than seeing them as absolute evils, we propose an evaluation of each as a functional organism with defects. We abhor some dictatorial practices of University administration, but do not propose to overthrow it and take charge ourselves. We see the University as neither hallowed halls of ivy nor as a free love club for the promotion of anarchy.

We realize that the Board of Regents should control, but we will not allow them to strangle. Academic freedom means free thought, but stemming from order rather than chaos. Sexual freedom is desirable, but sexual license is destructive. We deplore capricious protests since the voice of dissent is sacred. It should be reserved for the protection of deserved liberties. We should take care lest our shouting over everything at once brings a response to nothing.

For we are yet infants in free thought. We still have many more years of evolution ahead of us before

we can run with our new ideas. First we should learn to walk, for now we crawl around and take each new idea and pop it into our mouths. Before swallowing, we should taste, and before tasting, we should examine for some ideas could injure our young digestive systems. Then, as we mature, we can truly handle any diet without danger.

But our greatest accomplishment is another paradox. We, who strive constantly to maintain balance between the extremes, we who often disagree with many causes are the ones who protect the right of dissent and the right to have causes.

Latin Americans Choose Officers

In elections held recently by the Federation of Latin-American students (FBLA) chose its new officers for the fall semester. Those elected included: Gustavo Flores, President; Julio Spiegel, Vice President; Edward Garcia, Secretary; Frank Benavides, Treasurer; Frank Guada, Public Relations.

FELA is an international organization intended to bind their members together through social and cultural activities.

Fraternities Announce Pledges and Officers

LAMBDA CHI ALPHA

The Alpha Delta Zeta of Lambda Chi Alpha Fraternity is very proud to announce its winning of the first place trophy for public relations and second place trophy for publicity at the fraternity's National Assembly this summer. These awards have been long sought after by the chapter and congratulations go out to Vice-President Howard Stine for his fine work in heading these projects.

On September 22 the house pledged 20 men. They are: Darrel D. Twente, James E. McCracken, Jeffrey G. Leonard, Frederic L. Holliger, John R. Warner, Steven M. Gardner, Ronald M. Reis, Raymond J. Burle Jr., Edward E. Blanke, Ronald W. Anderson, Gary J. Rehagen, Stephen L. Ray, William E. Keohane, David L. Stritzel, Gary R. Bryan, Barry K. Winscher, Eddie E. McGraw, John E. Branham, Terry L. Ungerer.

During this past weekend seven new men were added to the list of brothers in Lambda Chi Alpha. Those initiated were: Daryl L. Jones, David A. Butterfield, J. Peter Legsdin, Dennis L. Zullig, Joseph E. Vogler, Larry P. Pittman, and L. Bennett Branum.

PHI KAPPA THETA

Fifty students have been pledged to Phi Kappa Theta, social fraternity, at the University of Missouri at Rolla. They are Steve Lampe, Bill Freebersyer, Terry Boschert, Leonard Hartwig, Thomas Schneider, Bill Schuck, Ron Smith, Leon Schellman, Dave Wand, Jim Rowan, Paul Siebert, Rich Klug, Dennis Shea, Jim Stokes, Charles Schwaller, Greg Paule, Jack Grawe, Paul Viox, Ted Walford, John Parker, Tom Jones, John Baz-Dresch, Leslie Roettgen, Ray Kalbac, Rich Huber.

Robert Tikwart, Timothy Corbett, Steve Hilmes, Joseph Siebert, Jim Kwiatkowski, Jim Drewes, John Meehan, Joe Padbert, George Kimmich, Lynn Frasco, James Rechner, Glennon Schmidt, John Roche, Richard Eimer, Robert Klump, Michael Windish, Robert G. Brown, Richard W. Bish, Charles Cooper, Joe DiPaola, Ted Morgan, Dan Maune, Ray Miner, Dick O'Hearn, and George Spanel.

DELTA SIGMA PHI

Delta Sigma Phi social fraternity has recently pledged the following: Ron Thompson, Cliff Hawkins, Bill Akin, Don Gibbons, John Conway, Fred Milicoat, Steve Walkenback, Terry Brooks, Scott McClain, Ron Lee, Larry Culbertson, Merrill Sommer, Randy Wiegner, John Niederschmidt, Dennis Ray Murray, Arthur E. Stanze, Richard J. Powell, Michael J. Termini, Terrence R. Ward, Terry A. Twichell, George L. Lee, Martin Spencer, Gerald R. Vaughn, Gary S. Latta, Daniel Edward Maschmann, Richard K. Rogers, and Ron Leipholtz.

TAU KAPPA EPSILON

Teke brought in the new school year by pledging the following: Rich Burris, Tom Collier, George Frenz, John Lambert, John LeBrell, Carm Moehle, Dave Ryan, Ron Orcutt, Greg Praznik, Bill Ray, Charles Schatte, Dennis Stefanic, Dennis Sylvester,

Charles West, Bill Steiner, Joe Arallo, Al Mahanna, Rob Smith, and John Weisenmeyer.

In addition to the pledge class, two men have been initiated. Richard Teutken and Steve Constance are those who are now in the bond. The addition of these men makes up the loss of four fraters during the summer to the blissful state of matrimony. Paul Woley, Bob Vasquez, Jim Bayless, and Dave Anderson are the lucky ones who are assured of dates for party weekends.

TRIANGLE

Triangle social fraternity at UMR has recently elected new officers for the 1966-67 school year. They are Michael Walker, president; Richard Hahn, vice president; Michael Wall, recording secretary; Robert Feugate, treasurer; Edward Burbank, house manager; John Rue, steward; Jim Wegrzyn, assistant steward; John Guy, assistant treasurer; Paul Christman, cor-

responding secretary; and John Harris, assistant house manager.

Eleven students have been pledged to Triangle. They are Charles Laderoute, John View III, Ronald Starr, Glen Bush, Tom Dismuke, Ted Irons, Gary Oehrle, George Motsegood, Ken Hickenbotham, Stephen Drawe and Dale Montgomery.

KAPPA PHI

Kappa Phi is to receive its charter from Delta Tau Delta Fraternity on December 10, 1966 it was recently announced. The announcement was made at a dinner at the Chapter House by Western Division President Robert Kroening. The granting of the charter and the initiation of members into Delta Tau Delta will be at the Westminster Chapter of Delta Tau Delta. The chartering will be followed by a banquet here in Rolla.

The receipt of the Delt Charter will be the culmination of almost exactly three years work since

the founding of Kappa Phi in the December of 1963.

PHI BETA IOTA

The Phi Beta Iota social fraternity at UMR recently elected its new fall semester officers. They are Donald A. Langford, president; T. Mike McMillen, vice president; Lonny L. Ludwig, secretary; David G. Skitek, treasurer; William Wiswell, scholarship chairman; William Studyvin, steward; James A. Youngman, house man-

ager; and William Wiswell, pledge trainer.

BETA SIGMA PSI

Fifteen students have been pledged to Beta Sigma Psi, social fraternity, at UMR. They are Floyd Bailey, Mike Beishir, Larry Berkbigher, William Bochert, Lynn Degenhardt, Mike Ewing, Phillip Hensen, Donald Kroeter, Ray Massey, Steve Muchow, Mike Schmidt, Peter Silkworth, James Vaughn, Bob Warmann and Robert Wussler.

ENGINEERS SCIENTISTS...

WOULDN'T YOU RATHER BE WITH NO. 1?
SEE US ON CAMPUS OCT. 11 AND 12.

Come see how you fit in with the company that gives your career all the room in the world to grow.

Come have a close look at Humble — the company that provides more petroleum energy to this nation than any other domestic oil company — the one that's literally No. 1 — America's Leading Energy Company!

Let us tell you about the specific opportunities we have for you. Humble and its affiliated companies* offer a variety of rewarding careers to engineers at all degree levels. Our activities include oil and gas exploration, production, manufacturing, transportation and marketing — and the management of all these. In addition, our affiliates are engaged in both pure and applied research. The latter encompasses the entire field of petrochemicals and other petroleum products and processes.

You can always take a smaller job. But only now... when you are just starting... are there so many opportunities for a lifetime career with No. 1.

Why not try us on for size — make a date with your placement office for an interview!

***IMPORTANT NOTE: We are also interviewing for these affiliates:**

UMR Debate Team Attends Conference

Members of the UMR Debate Team journeyed to Warrensburg, Missouri for the Midwest Debate Conference last Friday and Saturday. The conference featured discussions on United States Foreign Policy Views and Argumentation and Debate Concepts.

Attending the Conference were debaters Dave Cantwell, Brunn Roysden, and Bob Jordan along with Professor Charles E. Bess, UMR Debate Coach.

The National Debate Topic for 1966-1967 is: Resolved: That the United States should substantially reduce its foreign policy

commitments. Highlights of the conference included an address on "U. S. Foreign Policy and U. S. Commitments" by Ambassador Randolph A. Kidder of the United States State Department and an address entitled "New Perspectives in U. S. Foreign Policy" delivered by the honorable Dr. George McGovern, United States Senator.

Other featured guests were Dr. Wayne Brockriede, University of Colorado, who spoke on "Using 'Toulmin' in Debate" and Dr. Roger Hufford, Clarian State College, who discussed "Using the Comparative Advantage Case in Debate."

Representatives from twenty-three other colleges and universities joined the UMR team in two workshops concerning "Using Evidence" and "Constructing the

Debate Case."

UMR's Debate Team is jointly financed by the school administration and the UMR Student Council.

Faculty Reception

(Continued From Page 2)

Wives of new faculty members were presented corsages by Mrs. Charles B. Basye, chairman of the Newcomers Group of Coterie, and two fellow Coterie officers, Mrs. James H. Tracey and Mrs. John R. Betten.

Guests were greeted in the foyer by Miss Edith Fort, Mrs. John Taylor, Mrs. Edward Stiffler, and Miss Mary Lou Castleman.

Honor Fraternity Chooses Leaders

Chi Epsilon national Civil Engineering honor fraternity at the University of Missouri at Rolla has recently elected its officers for the 1966-67 school year. They are Truett V. DeGeare, Jr., president; Charles W. Rowland, vice president; James W. Gilstrap, secretary; James W. Carl, treasurer; Houston Godfrey, marshal; and James H. Evans, editor of Transit.

Chi Epsilon is dedicated to the purpose of maintaining and promoting the professional status of civil engineering. Activities of the UMR chapter include assisting the department of civil engineering, especially in providing guides and demonstrations for the University's open house events such as Parent's Day, Engineer's Day and the regional fairs held on campus.

TED SMITH

(B.S.M.E.) of the Bethlehem Steel Loop Course knows where the action is. He's on the move at the nation's most modern steel plant —our Burns Harbor Plant in northern Indiana.

Join the action. First step: pick up a copy of "Careers with Bethlehem Steel and the Loop Course" at your placement office. Then sign up for a campus interview. Our 1967 Loop Class has openings for technical and non-technical graduates (and post-grads) for careers in steel operations, research, sales, mining, accounting, and other activities.

DEAR REB:

Art student keeps getting the brush-off.

DEAR REB:

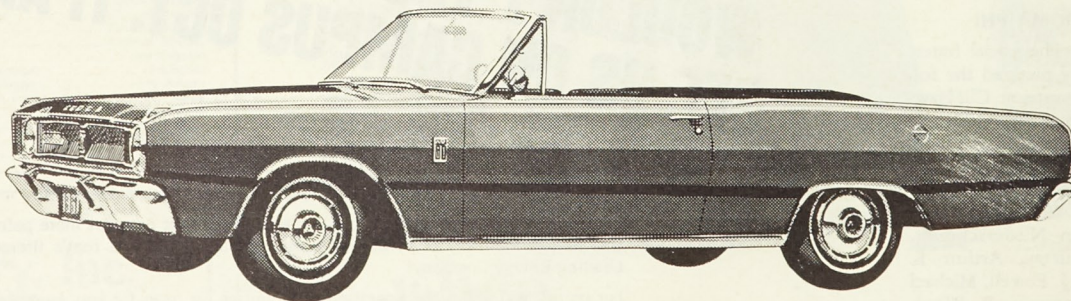

I'm a regular Renoir on the canvas, but on campus I just don't seem to make the scene. There was one campus cutie that used to admire my paintings, but now she's too busy admiring some guy's new Dodge Dart. She says riding in this guy's Dart is like art; every time they go out, they draw a crowd. What can I do? I just have to see this girl again. It's not that I'm in love with her, I haven't finished her portrait yet.

COLOR ME BLUE

DEAR COLOR ME BLUE:

Make your next sitting at your Dodge Dealer's. After you find out how easy it is to own a Dart, you'll be out painting the town. And don't worry about finishing the portrait. With Dart, you'll find you have many models to choose from. Get the picture?

*Sincerely,
Reb*

Here's the picture that's worth a thousand ah's. '67 Dodge Dart GT. Dart gives you more show and go than ever before, and it still has that nice low price. Plus a long list of standard equipment. Like padded instrument panel, padded sun visors, outside rearview mirror, carpeting and so much more.

DODGE REBELLION OPERATION '67

Miners Swamp Vikings, 29-7

Thousands Cheer Allgood's Squad to Season's First Victory

A monotone horn signaled the finish of the battle, and a gang of cheering players hefted their beaming coach into the air and across the field. This scene probably took place at a hundred different schools across the country last Saturday, but there couldn't have been a happier coach than UMR's Dewey Allgood. In the Inaugural Game at the new Jackling Field, Allgood's Missouri Miners swamped a hard hitting Missouri Valley squad 29-7, in UMR's first win of the season.

It was cold and windy in the stands, but the action was fast and furious on the field with the Miners taking to the air for two touchdowns and running-out two more. Halfback Art Verdi kicked a 20-yard field goal as well as two PAT's.

Freshman Eddie Lane picked-off three of four Viking passes swiped by the Miners, and two of those set up TD plays. He ran back the first steal 42 yards to set up the first UMR score on an 8-yard Lewis to Ricker toss.

With seven minutes left in the first quarter, Lewis threw the ball to Sophomore Bruce Starnes, and the four-yard pass was good for six points. Verdi's field goal

came with four minutes remaining until halftime, but the Valley Vikings were to be heard from yet.

The Vikings scored with one minute left on the clock, as Bob Thomas passed five-yards to junior end Rich Bittle. From this point on into the third quarter, it looked as if the Miners had run into trouble. Viking passes began to hit their mark, and the UMR offense was stopped cold.

A close play one yard from the Missouri Valley goal line gave Lewis another touchdown to his credit with two minutes left in the third period. The score stood at UMR 23, Missouri Valley 7.

Sophomore fullback Ken Austin carried the ball two-yards for the final tally of the game, but the Vikings continued to threaten throughout the rest of the battle.

The Miners hit only 16 out of 46 pass attempts for a total of 137 yards (8.6 yards per pass). Viking quarterbacks threw only 26 times, and 10 completions gave them almost 17 yards per pass.

On the ground, the Miners held the advantage, totaling 125 yards. The Vikings racked-up 119 yards, but were pushed back 44 for a total of 75 net yards gained.

Miner coaches expressed some displeasure with the final statistics, especially those for passing. "Lewis was getting the ball in there," commented Bud Glazier, "but there was just too many drops."

The UMR season record stands at one win and two losses.

SCORE BY QUARTERS

M-Club News

Fall semester "M" Club officers were elected at the first meeting. They are Eldon E. (Gene) Ricker, president; Thomas J. Owens, vice president; Robert M. Nicodemus, secretary; Charles H. Weninger, treasurer; and Kenneth A. Blazek, pledge trainer.

The "M" Club is made up of students who have won athletic letters in any major intercollegiate sport. The purpose of the organization are to promote sportsmanship at the University, to create a better spirit among athletic teams and to encourage participation in sports.

UMR BOOSTERS FILL STANDS

Three thousand fans watched the Missouri Miner football squad down Missouri Valley last Saturday.

UMR Seeks Second Win At William Jewell College

The University of Missouri at Rolla varsity football squad will be shooting for their second win in four starts this season, as they invade William Jewell College at Liberty this Saturday night. Barring any unforeseen developments, the UMR Miners are expected to be in top form for the 7:30 p.m. contest, with junior Ronnie Lewis calling an all-out air attack.

Both the Cardinals and Miners are primed with victories over the past weekend. UMR displayed a balanced passing and running attack in the 29-7 romp over Missouri Valley Saturday, and the Cardinals whipped Maryville 14 to 7.

MIAA REPORT

MIAA Teams Triumph in Weekend Games

By Bill Conner

NORTHEAST MISSOURI STATE at Kirksville romped over Pittsburg (Kansas) State in non-conference play 49-14. The Bulldog's first touchdown came on the first play from scrimmage with a 60-yard run by Rick Reeves. Five other Bulldogs scored TD's and Mike Biel had seven conversions for the top scoring honors. Pittsburg's two touchdowns came in the fourth quarter.

SOUTHWEST MISSOURI STATE came from 6-0 behind at the end of the first half to rock Washburn 21-6. Tom Gold scored twice and Jay Cummings once, with quarterback Tom Young passing once to each for the tallies.

CENTRAL MISSOURI STATE at Warrensburg took advantage of fumbles to beat Emporia (Kansas) State 23-14. Richard Hayes took one fumble for a 35-yard score and John Richison took a second for 29-yards. The third touchdown also came on a recovered fumble and was scored by Ken Brumley.

SOUTHEAST MISSOURI STATE was shaded by Austin Peay 28-27. Cape held a 27-14 lead into the fourth quarter. Ron Parson scored on a pass from center on an attempted punt gave Peay the ball on Cape's 29 with less than three minutes to play. John Ogle went over from the 8 and Parsons converted.

MARYVILLE was tripped by William Jewell 14-7 after a fumbled punt was recovered in other non-league action.

Notestine Sets Course Mark As Miners Lose to Washington

By Greg Julian

UMR harriers suffered their first defeat of the season last Saturday from Washington University, 32-33, on Rolla's new four mile course. Returning letterman Stan Notestine, sophomore, paced the race and set a new record for the course of 22 minutes 12.2 seconds.

Coach Ted Moore is looking forward to the possibilities of Freshman Keith Brown who placed second on Rolla's list during the W. U. match with 23 min. 6 sec.. Ron Tracy ranked third for the home team while Don Duren, a previous track letterman took fourth. Don's mile relay team broke the school record last year and Ted is expecting a lot of good times from him during his first season in cross-country. Larry Schiebel, Jr., also a returning letterman, punched in for Rolla's fifth highest runner.

Tomorrow the harriers go to St. Louis to challenge Harris Teacher's College. Ted feels that UMR has an excellent chance to win, due to the fact that this is Harris's first year in cross-country.

Ted is very optimistic for this year's team because of their previous accomplishments. In previous years returning lettermen were scarce and each new team had to go through the painful

process of experience. However, this year there are several returning lettermen and if Keith Brown lives up to his expectations the UMR harriers will probably have the best season in their history.

UMR TO MEET JEWELL (Continued From Page 7)

defense with middle backer Gary Beets and 210-pound junior tackle Dave Freeman providing the Cardinal punch. Allgood had five of his own starters injured in the Valley game, however, later x-rays proved the broken bones to be a variety of pulled ankles and bruises. Sophomore halfback Rich Erxleben (St. Louis Cleveland) was once again sidelined in the first three minutes of play with a head injury.

Norris Patterson's single wing ballclub will feature Dave Schroeder as signal-caller and Bob Buschmann as chief pass receiver. Freshmen continue to take the spotlight on the young UMR squad, and this past week it was 18-year-old Eddie Lane from Fredericktown. Lane tied the school mark for pass interceptions by snagging three out of four total for the Miners. Two of those three set up touchdown plays.

NOTICE!

It has been the policy on this campus to allow only collegiate athletic awards to be worn. This excludes all high school letters. The "M" Club requests that all students who wear high school jackets please remove the letters.

SIDELINES

BY JIM WEINEL

Those recently-built temporary stands over at the new Jackling Field were almost filled to the 4000-plus capacity Saturday despite the televised Mizzou-UCLA contest. Even though that major battle took the top spot in the Nielson ratings, thousands of UMR football fans saw a hepped-up Miner squad drub the Valley Vikings 29-7. Winning the inaugural game on a new grid can do wonders to a coach's spirit, and with this being the first victory of the season, Dewey Allgood and company were quite pleased. It is hoped that this student and community interest will follow the Miners throughout the remainder of the season. Do your part to help it become a winning season. Next home game: October 22, Homecoming.

If you haven't noticed from the game or the statistics, the Miners are a passing team. Says Charley Finley, UMR end coach, "We're not set up to run; we're set up to throw the ball since we feel that we can do best at passing." He indicated that this does have an advantage in that they can fall back to the ground plays if conditions warrant it. Finley noted that "a rushing offense that has to resort to passing may be in big trouble."

For those who didn't make it over to the cross country course Saturday for the women's meet, the field of entries didn't quite meet the expectations of varsity coach Ted Moore. The run included about a dozen girls, with Terri Mount taking first in 6 minutes and 22.7 seconds.

Address questions and comments to "Sidelines," c/o THE MISSOURI MINER, UMR, Rolla, Missouri.

MEET THE MINERS

By Lloyd J. Lazarus

Bob Nicodemus at 190, sophomore, is this year's starting fullback for the Miner eleven. Last year he had a very successful season as a defensive halfback. Bob is a very good blocking back and this is one of the reasons Ron Lewis doesn't have to worry when

he goes back to pass. Bob is also the one who gets the call when there is a third down and short yardage situation. He has averaged 2.2 yards per carry and scored two touchdowns.

Bob can also be proud of his scholastic record. He is on a full paid scholastic scholarship. Last year he amassed a 3.89 overall grade point and was made a member of Phi Eta Sigma, the freshman honorary fraternity. This semester he is historian of the organization. He is also a member of Alpha Phi Omega, a service fraternity, and secretary of the "M" Club.

Bob believes there is quite a lot of potential among the freshmen on the team and "It takes a while to get things going right, but, now that we won one; that's what we needed to get us going."

'Mural Golf Scheduled For October 8-9

Barring adverse weather conditions, the 1966 intramural golf tournament will be run off this weekend, October 8 and 9. With eighteen holes scheduled for both Saturday and Sunday, play will get underway at 1 p.m. on the eighth and at 9 a.m. on the ninth.

The tournament will start at Tee number 1, which is west of the golf shop and across from the Phelps County Hospital. USGA Rules will govern play, except where modified by local rules.

In the event of inclement weather Saturday, the match will be played Sunday (18 holes only). If weather prevents play on Sunday, the 18 holes played on Saturday will decide the tournament.
