The Missouri MINER

UNIVERSITY OF MISSOURI AT ROLLA

VOLUME 53

FRIDAY, OCTOBER 21, 1966, ROLLA, MISSOURI

NUMBER 6

WELCOME ALUMNI !

Alumni Schedule Includes Variety of Activities

Three thousand alumni are expected to return to Rolla for the annual homecoming celebration to be held on October 21 and 22. Graduates of nine classes will be honored at a round of reunions, dances, and dinners. The main event will be the homecoming parade, pep rally, and the football game with Central Missouri State at Warrensburg.

The activities begin Friday morning at 9:00, central daylight saving time, when the alumni will register at the Student Union. Guided tours of the campus and new buildings will run from 9:00 a.m. until noon and from 1:30 p.m. until 4:00 p.m.

Friday evening includes a social hour from 6:45 p.m. to 8:00 p.m., at the Carney Manor Motel, Highway 66 East. The homecoming parade through downtown Rolla will start at 7:00 p.m. at 6th and Pine.

Saturday morning, registration and guided tours of the campus will start again at 9:00 a.m. in the Student Union. The Board of Directors of the MSM University of Missouri at Rolla Alumni Association will hold their annual meeting in the Student Union.

At noon, the classes of 1921, 1926, 1931, 1936, 1941, 1946, 1951, and 1961 will hold reunion luncheons. The football game begins at 1:30, as the Miners play

the Warrensburg Mules on Jackling Field, West 10th Street. Chancellor and Mrs. Baker will host a post game reception in the Student Union until 6:00 p.m.

Later Saturday evening, there will be another social hour held from 6:30 to 7:30 at the Carney Manor Motel. At 7:30 an awards banquet will be held in the Crystal Room and at 9:30, the annual meeting of the MSM Alumni Association will be held.

Author and Publisher, Roger Price Dissects and Demonstrates Humor

On Wednesday, October 12th, the Student Union Board presented a lecture, entitled "A Grump a Day Keeps the Books Away!" It was given by the well-known humorist, and publisher, Mr. Roger Price.

Price has written for Bob Hope and other well-known comedians, and has appeared many times on television. He has also appeared at the London Palladium and many leading night clubs.

As an author and publisher he has turned out many humorous books. Among them being, "The Elephant Book," and What Not to Name the Baby." His recent project, "Grump" magazine, is

designed for the adult taste and is distributed all over the United States.

Mr. Price opened his lecture with a few jokes and funny sketches for which he made up the captions. He put the audience in a humorous mood with this and then explained why they laughed and the nature of humor. He diagrammed humor and divided it into two main groups: satire and jokes.

Satire is attacking or trying to change. Many old English writers used this method for attacking the king and the government. Irony is placed under this category. It includes slapstick,

riddles and anecdotes. When people laugh at something, they are not usually laughing at the joke but at the way it was told.

Humor is a quality which everyone does not have, but the ability to recognize it should be the possession of every person. The old definition of humor is the juices and fluids of animals. It has come down through the years to mean the quality of a person to laugh "Humor is a by-product of a civilized culture and keeps us alive." Without humor the world would be a mass of stereotyped and dull people. "The people who do not laugh, do not survive."

Humor is a quality which everyone does not have, but the ability to recognize it should be the possession of every person. The old definition of humor is the juices and fluids of animals. Student Union Board Plans Gala Homecoming Celebration

Mayor Eugene Northern and Mrs. Northern; the Alumni President; the Executive Vice-President, and their wives; the coaching staff; the Rolla High School band; the queen candidates; and the military band from Fort Leonard Wood.

At 7:30, the candidates for Homecoming Queen will be in-

terviewed by a committee composed of the Special Events Committee of the Student Union Board, officers of the Student Union Board, and alumni representatives. The evening entertainment will be a dance in the Student Union ballroom from 8:00 to 12:00. Music will be provided by Goldilocks and the Three Bears. In addition, many fraternities and independent organizations on campus will have dances that night.

On Saturday morning, the queen candidates will have breakfast with the interview committee at 8:30. At 11:00, the Student Union Board and the Special Events Committee will vote for the queen. Afterwards, the candidates will have luncheon at the organizations they represent. In addition, the pledges of different fraternities will hold a pledge relay race along State St.

At 1:30 Saturday afternoon, the candidates and their escorts will meet at the Student Union to go to the football game, which starts at 2:00. Halftime entertainment will include the UMR band and the coronation of Homecoming Queen by Chancellor Baker and Alumni President Kasten.

Saturday evening will see the Homecoming Dance at the Student Union from 9:00 to 1:00, featuring Johnny Polzin's band. And at 11:00, the Queen and candidates will be presented to the assembled group.

New Action Spot Features Chessmen For Party Weekend

This year's Homecoming at U.M.R. welcomes the opening of a new concept in weekend gaiety. "The Iron Wheel" looks to be the place for action Saturday night. The Chessmen, a well known from St. Louis, will be the featured sounds. To add that special flare, two Gaslight Square "Go-Go Girls" will be starring with The Chessmen.

The dance at "The Iron Wheel" will begin at 9:00 P.M. in Rayl Hall at 10th & Bishop. So bring your date to "The Iron Wheel" for a big night of Homecoming '66 Excitement.

Celebrated Pianist to Present Recital

Engineering students seldom have the time and rarely the opportunity to come in contact with a musician of the caliber of Dr. Wiktor Labunski. But, for those of you who enjoy classical piano or who would simply enjoy a change from textbooks and problem-solving, on October 26 at 8:00 in the evening, the Student Union Board will present Wiktor Labunski.

Dr. Labunski, a famous inter-

preter of the Polish composer Chopin, is professor and artist-in-residence at the Conservatory of Music of the University of Mis-

souri at Kansas City. One of the better known soloists in the Midwest, he has appeared with the Minneapolis, Cleveland, St. Louis,

Kansas City, and Toronto symphony orchestras.

Born in St. Petersburg, Russia of Polish parents, Labunski made his professional debut at the age of eighteen in Russia. He made his American debut at Carnegie Hall when he came to this country in 1928. The success of his New York appearance led to many engagements here and abroad.

Dr. Labunski joined the faculty of the Conservatory in Kansas City in 1937 and holds an important place in the musical life of the city. His series of lecture-recitals has been an annual event there for many years.

An impressive figure at the keyboard, Wiktor Labunski is also the composer of a symphony, a piano concerto, a duo-piano concerto, and many published smaller pieces. Labunski's live performance next Wednesday evening at the Student Union Ballroom will undoubtedly be one of the finest concerts of the season.

FAMOUS INTERPRETER OF CHOPIN

Dr. Labunski, Artist-in-Residence, at the Conservatory of Music at UMKC, will present his lecture-recital at UMR on October 26, 1966.

NOTICE!

Theta Tau Mums will be on sale before the Homecoming Game tomorrow afternoon. It will be an excellent chance to display school spirit and also present each girl with a souvenir of the Homecoming Game.

Counseling Department Created ; Sam Burton Chosen to Head Staff

Until recently, the student at this university, when confronted with a pressing problem which necessitated counseling, had no one to turn to except his departmental advisor. Although well qualified to handle problems in their departments and classes the majority of the advisors had little or no experience in the areas of counseling and were inadequate to fulfill the varied problems of the student. To help meet this crisis, a counseling staff was established at UMR with Mr. Sam Burton as head of the department. Gradually, the staff has expanded, and currently the student body has more adequate counseling services available than in past years.

In a university of this nature, where the majority of the students are oriented towards engineering and technical training, counseling is direly needed to help round out the student and help him in many areas that an advisor in engineering would be less capable of doing. The major problem seems to be that incoming freshmen are disillusioned with engineering. They regard it as a way of assurance of a job upon graduation and enter school ill-informed and poorly prepared towards engineering pursuits.

Engineering sounds great on paper, in a university catalogue, but in actuality the demands on credit hour requirements, work load per semester, and study time needed are greater than the neophyte can expect. Consequently our university has a higher than average drop-out or "flunk-out" rate or call it what you will.

Counseling, improved both qualitatively and quantitatively on

UMR ROTC Band To Display Talent In TV Production

The UMR ROTC Band and its majorette, Miss Myra Jane Wilson, were filmed for the "Campus Talent '67" television program on Oct. 19 on the U.M.R. campus.

The audio portion of the performance was taped at 1 p.m. in the Uptown Theatre.

Miss Wilson and the band were chosen from campus talent at auditions held here Sept. 21 by the Corinthian Special Production Co. Miss Wilson, the first woman student at U.M.R. chosen to be majorette, is an experienced twirler with many awards to her record. The band has appeared on national television and performed at the World's Fair in New York City under the direction of David L. Oakley, assistant professor of music.

The television program to be presented later in the year, is the second of a series sponsored in Missouri by Southwestern Bell Telephone Co.

Two talent groups from U.M.R., the Jaguars and the Kappa Alpha Singers, appeared on the "Campus Talent '66" program televised statewide last spring.

this campus would be a tremendous help and would immediately alleviate this thorny situation.

A survey of six other universities comparable in size to UMR, has shown that these universities have recognized a definite need and have provided a stronger counseling staff. The staff at these universities range from six to twelve full-time employees, while at UMR, there are only three full time and one part-time employee associated with counseling. Another survey taken by the University of Wyoming showed that higher grade average and a smaller drop-out occurred with the strengthening of the counseling services.

All too often, counseling is associated with disciplinary action. This concept is not entirely correct, for counseling should be a

Husband and Wife Team Hired by Same Company

As of Aug. 1, Nicola and Donald Nelson became the first husband and wife team from UMR to be employed in an engineering capacity. They are employees of the Electronics Division of General Dynamics in Rochester, New York. He is working in the company's Advanced Development Laboratory and she in the Radio Communications Laboratory.

Nicola and Donald are both graduates of UMR, having graduated in May, 1966. Donald received his Masters in Electrical Engineering and Nicola received her B.S. in the same field. They were married after the completion of

voluntary step by the student in which of his own free will he seeks help and guidance before the need for disciplinary action arises. In addition, many students are still influenced by the high school disciplinary action of "going to see your counselor." College is the time in one's life when he breaks away from parental influence and a need arises for many big decisions and resolution of conflicting ideals and standards.

In tune with the rapid advancement of counseling services in universities across the nation as a result of these studies, our particular university might pay heed to this and consider increasing and strengthening its counseling services. The department has made outstanding advances in the past few years and it is hoped that they will continue to grow in this vital area of need.

Mrs. Nelson's sophomore year.

Mrs. Nelson believes her work could be scheduled on an 8 a.m. to 5 p.m. basis but admits there may be times when she'll actually have to live with a job. She is now working on a tuning generator for a military radio receiver. The project, still in the paper and pencil stage, involves the designing of circuits and their adaptation to the new piece of equipment.

Throughout the various phases of her work, says Mrs. Nelson, "there is little rigorous physical labor involved. For this reason, the field of electrical engineering should interest other women."

Dr. Walter Hibbard Speaks At UMR's Chapter of AIME

Dr. Walter Hibbard, national director of the United States Bureau of Mines, Washington, D. C., and president-elect of the American Institute of Mining, Metallurgical and Petroleum Engineers spoke at the University of Missouri at Rolla on Oct. 19.

The public was invited and heard Dr. Hibbard's talk on "Government and the Mineral Industries" at the Lions' Den. The program, sponsored by the student chapter of AIME and the Southeast Missouri sub-section of AIME, was held after a 6:00 p.m. dinner for members of the organization.

One of the world's leading metallurgists, Dr. Hibbard has served as manager of the metallurgy and ceramics research of the General Electric Research and Development Center in Schenectady, N. Y. and associate professor of the Yale University School of Engineering. In 1957, he was a

member of the exchange delegation of United States metallurgists visiting the Soviet Union.

Holder of the doctor of engineering degree from Yale University, Dr. Hibbard is the author of more than 70 scientific papers and has been responsible for major contributions to the field of metallurgy.

Arkansas Twirler Delights Miners With Eye Catching Halftime Show

This year UMR supporters will have something to cheer about in the way of an eye catching halftime entertainment program. For the first time in the 40-year history of the ROTC Band, a baton twirler, Myra Jane Wilson, will become a regular feature of the Miner half-time show. Miss Wilson, a freshman majoring in computer science is an excellent example of the product of long hard

work. At Truman High School in Truman, Arkansas Myra was a featured twirler with the school band as well as their student band director. Being a winner of a number of twirling competitions at regional and state festivals it is evident that her professional dexterity will be a welcomed added asset to the UMR band. Just last year Miss Wilson represented Truman in the Arkansas Junior

Miss contest. In addition to twirling Miss Wilson also plays the flute in the concert band.

At our first home game, which was against Missouri Valley, the 80-piece ROTC band along with Miss Wilson provided an enjoyable program. As part of the pre-game festivities there was a military presentation of colors in which the band participated as a musical accompaniment. Drum major for the pre-game show was James P. Thomas, a sophomore civil engineering student from Willow Springs, Mo.

This Saturday will give the student body as well as alumni an excellent opportunity to witness and enjoy a fine half time performance.

Pledges Prepare For Pajama Race

The seventh annual Interfraternity Council Pledge Pajama Race will be held during halftime of the Homecoming football game on October 22. Twenty fraternities will furnish four men relay teams for one of the school's most popular events. Last year Sigma Nu won in a close race, and this year's race should prove to be quite exciting.

What a difference displays make for Homecoming. Last year Kappa Sigma took first honors with Lambda Chi Alpha second. Any ideas as to which house will have the best displays this year?

New Officers Announced

The members of Theta Tau, professional engineering fraternity, have chosen the new slate of officers to head the organization during the fall semester. The officers include: Richard Wohlberg, Regent; Donald Flugrad, Vice Regent; Pat Key, Scribe; David Weinrich, Treasurer; Robert Alexander, Corresponding Secretary; John Munsey, Pledge Trainer; David Otto, Inner Guard; and Bobby Cox, Outer Guard. Mr. Frank Capek, assistant professor of civil engineering, is the chapter advisor.

Pledging invitations were extended to twelve new men active in campus activities. The new

pledge class consists of: Jerry B. Adams, Clem Drag, Richard A. Dumay, Jerry K. Fuller, Richard E. Garrett, Douglas E. Hoepfner, Garry January, Michael J. Klosterman, John A. Muas, Timothy H. Neet, Steven W. Ohnimus, and Michael R. Woodruff.

New members initiated at the close of last semester include: Raymond Behrens, Robert Bruce, Tom Cadwell, Jerome Coleman, Charles Fehlig, Robert Fick, Wayne Filichowski, Frank Fix, Michael Fridley, Louis Goldfeder, John Mitchell, Charles Painter, Nixon Pendergrass, Richard Perkins, Richard Vedder, Arthur Verdi, and Charles Weniger.

MISS MYRA JANE WILSON

A welcomed addition to the ROTC band, Miss Wilson is the first majorette to perform with the UMR band.

Financial Facts...

BY KAREN CALFEE

It is all too true that the cost of today's college education is rapidly rising, and has become one of the greatest sources of financial worry for millions of U.S. families. At many institutions the money earned from summer and part time jobs is not enough to pay college fees, but now no high school graduate has to forego higher education because of insufficient funds. For the time being, scholarships, loans, and jobs, or combinations of these have caught up with the rising costs.

Since 1963, financial aid has risen from \$440 million to \$710 million per year through various programs. This fall \$58 million in outright gifts of \$200 to \$800 per student per year will help 133,000 students. The College Work Study Program provides students with full time summer work and 10 to 15 hours of work per week during the school year. 190,000 students will benefit from this \$147 million fund. National Defense Loans enable the student to borrow up to \$1,000 per year and are payable over a period of ten years at 3% interest with repayment beginning nine months after graduation. \$225 million is available this year for 500,000 students.

To obtain a guaranteed loan the student must find a private lender. The government will then pay the lender 6% interest while the student is in school and split the interest with the student after he graduates. Veterans who have served a minimum of 180 days active service since February 1, 1955, are eligible for up to \$150 per month through the new G.I. Bill. Next fall 520,000 students will be helped.

There are also 43 programs in the Department of Health, Education, and Welfare providing help for those interested in nursing, social work, and the sciences. Private endowments have enabled colleges to offer \$170 million in scholarships; \$40 million in loans; and \$140 million in part time jobs while the states contribute \$90 million in scholarships.

Even though financial need rather than brilliance is the primary guide in granting aid, there are thousands of scholarships available for bright students regardless of need.

Wash. U. Committee Studies Draft

St. Louis, Mo. - (I.P.) — A faculty-student committee on Selective Service at Washington University has been appointed and charged with examining the impact of Selective Service's action upon the University community, determining faculty and student opinion on relevant issues, and preparing recommendations for University action.

Fifteen members of the Faculty of Arts and Sciences have approved the committee's recommendations that the University report class standings to the Selective Service System upon the request of the student.

Resolutions of the Faculty of Arts and Sciences:

Clearly, in some ways, current Selective Service policy interferes with the principal function of a university. We fear that continued dependence upon class-standing lists will forestall students from attempting difficult courses, intensify the race for grades, and thus frustrate the educational process. Although we regard grades as a rough measure of student performance, we question the efficiency of such use in determining a class-standing list, especially in the freshman year.

When we use grades to determine such matters as entrance into graduate school, we are chiefly interested in performance within a major field rather than the total performance in all subjects throughout a college career.

Used conservatively, there is little doubt about the value of grades.

But Selective Service asks us to go beyond these careful procedures. It asks us to balance, for example, a poor showing in chemistry with a strong performance

in English and then to place the student in a precisely ranked relationship with the rest of his class.

Such experimentation is essential to the continued improvement of the university, even though it conflicts with the procedures proposed by Selective Service. This conflict indicates to us the dangers of using grades, grade point averages, and class standings for purposes for which none of them were ever intended.

Of course we realize that this use of class standings must be

considered in terms of its implications. In effect, class standings protect the . . . student in weaker schools, while the students at superior schools presumably can pass the Selective Service examination.

To abolish only the criterion of class standings is in fact to discriminate against the underprivileged persons in our society — presumably those whom members of the Faculty would most like to assist. In other words, a reassessment of the use of class standings requires a reconsideration of the whole pattern of present Selective Service policy.

MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

Our Man Hoppe

Howdy there folks. How y'all? Time for another tee-vee visit with the rootin'-tootin' Jay Family, starring ol' Elbie Jay — a lovable cuss whose only aim is making friends and keeping 'em. In their place.

As we join up with ol' Elbie today, he's packin his valise. And he's lookin' a mite grim around the dewlaps as his pretty wife, Birdie Bird, enters.

Birdie Bird (happily): Oh, Elbie, you're going out campaigning! It'll do you a world of good to howdy and press flesh again. Frankly, you've been just a wee bit testy lately.

Elbie: Arrrggghhh!

Birdie Bird: But I knew your fellow Democrats would finally persuade you to come out and help win the election. What happened? Did you finally hear from California?

Elbie (grumpily): Yep. They said I was first in war, first in peace, and first in the hearts . . .

Birdie Bird: Oh, Elbie, that's wonderful!

Elbie: . . . of 42.6 percent of my fellow countrymen and maybe I'd like to campaign in Pennsylvania.

Birdie Bird: My, how generous of them. And what did Pennsylvania say?

Elbie: They said my personal appeal was desperately needed. Most likely in New York or Ohio.

Birdie Bird (frowning): How confusing.

Elbie: Right. So I called in all the party strategists. And I told them humbly: "Friends, I'm willing to use my immense magnetism and tremendous popularity to help any Democrat in this great land of mine achieve victory. I don't care how far I got to go in this glorious cause."

Birdie Bird: That's nice, Elbie. Where are they sending you?

Elbie: Asia.

Birdie Bird: Asia?

Elbie: Well, they figure it'll help the Democrats at home if I show folks all the friends I've made for us in Asia.

Birdie Bird (brightening): That makes sense. And you've been wanting to see Japan . . .

Elbie: I don't seem to be going to Japan. Something about the State Department not wanting to topple their government.

Birdie Bird (consoling): Well, there's a lot of other places — Indonesia, Burma, India, Pakistan, Cambodia . . .

Elbie (scowling): They appear to have been left off this itinerary. But at least I'll get a warm welcome from all my friends over there (Checking his list.) All six of them.

Birdie Bird (cheerily): And I don't recall when anyone's gone so far to campaign for his friends at home.

Elbie (gloomily): Maybe so. But one thing's beginning to fret me. Where am I going to go to campaign in 19 and 68?

Your First Step as an Engineer Is Vital!

Be Sure . . .

Consider Cessna

Cessna is the world's leading manufacturer of business, pleasure, and utility aircraft. Cessna helps you grow professionally with these worthwhile advantages:

Responsibility to work on total projects with a minimum of red tape / opportunity to follow a design through development, tooling, and production to the customer / diversity of assignments and the avoidance of specialization / the excitement of designing for people, with the added pleasure of flying what you design / midwest location, with a progressive, cultural-minded community / home of two universities and one college / opportunity to pursue advanced degrees.

Learn the complete Cessna story from the Cessna personnel representative who will be on campus for interviews on October 21, 1966.

Profs. Wolf, Kerr Experiment With Long Distance Teaching

The University of Missouri at Rolla has been experimenting in mechanized teaching. The official name for it is tele-lecturer. It is taught from Room 120 of the Civil Engineering Building. There are two classes taught a week by Professor Robert V. Wolf and Professor R. H. Kerr. Prof. Kerr teaches a mathematics class on Thursday night and Professor Wolf teaches a class on non-destructive testing on Thursday night.

The class is taught like a normal lecture except that students are one hundred and thirty miles

away in St. Louis. The device is plugged into a normal telephone line to the University of Missouri at St. Louis. The instructor is able to talk to the students on a two-way basis. They can ask questions right from their seat and the different microphones around the room will pick it up. The instructor also has a panel in front of him on which he can write and it is instantly rewritten

and projected on a screen in the classroom in St. Louis.

This class is only an experiment, which is part of the graduate studies program at UMR, but it is hoped that this method will be able to be used for more classes in the future. According to Professor Wolf, there is a lot to be learned from this type of mechanized teaching.

Officers Chosen To Govern SAE For Fall Semester

The Society of Automotive Engineers new officers for the fall semester are Michael J. Browne, president; Jerry Vaughan, vice president; Terry Homan, treasurer; and Greg McClain, secretary.

The Society of Automotive Engineers, organized nationally in 1905, and at the University in 1953, is a professional organization intended to be a source of information to engineering students and others about the automotive industry and related fields. Regular monthly meetings are held with field trips scheduled to automotive and aircraft industries.

Folksingers Hold Open Hootenanny At Cellar Door

Rolla's first Coffee House, the Cellar Door, will be open for Homecoming weekend, from 9:00 p.m. to 1:00 p.m. on both Friday and Saturday nights. The Cellar is located in the parish house of Christ Episcopal Church at Tenth and Main Streets.

Entertainers for the two evenings will include Linda Brown, Fred Deitrich, Pat Elliot, the Shoup Trio, the Woodhill Trio, and Bev and Dan, folksingers; Myra Jane Wilson, baton twirler, Linda Ayars, dancer, and Paul Thomas, ventriloquist.

NOTICE!

The Traffic Safety Committee has announced that the new parking area located at 14th Street and State Street is ready for use. A campus parking permit is not required for this area.

Hughes announces new openings on the TECHNICAL STAFF.

Assignments exist for Engineers graduating in 1967 with B.S., M.S. and Ph.D degrees in ELECTRICAL ENGINEERING.

At HUGHES-FULLERTON, newly awarded contracts have created assignments ranging from research to hardware development and operational support of products and systems in the field. Our current activities involve the advanced technologies of phased-array frequency-scanning radar systems, real-time general purpose computers, displays, data processing, satellite and surface communications systems, surface-to-air missile systems, and tactical air weapons command/control systems.

For additional information on the opportunities offered at HUGHES-FULLERTON in Southern California—and to arrange for a personal interview with our Staff representatives, please contact your College Placement Office or write: Mr. J. E. Tenney, Member of the Technical Staff, HUGHES-FULLERTON, P. O. Box 3310, Fullerton, California 92634.

National IK President Visits Osage Chapter

Dave Distler, elected national president of the Intercollegiate Knights at the National Convention held last spring in Las Vegas, visited the Osage Chapter of the Intercollegiate Knights.

Dave is a student at the University of Washington and is touring the country in the hope of organizing new IK chapters at vari-

ous schools. During his brief stay at Rolla, he spoke to the Osage chapter about his trip and presented president Joe Ditto and advisor Brewer with keys from the national office. He complimented the chapter on its fine work and for being one of the most outstanding young Intercollegiate Knight chapters in the country.

Delta Sigma Phi Settles Down to Work in New Home

After being settled in our new home the men of Delta Sigma Phi are looking forward to a very successful year. Already we have initiated twelve new members into our brotherhood: James Alexander, Jerry Graham, William Hodges, Fred Jones, Ward Merrell, Charlie Myles, Rex Rodebush, Bruce Taylor, Cecil Taylor, Robert Teter, Allen Townsend, Rick Ubel.

Our intramural football team is tied for first place in our league after compiling a record of three wins with only one loss.

Last week we held a promising rush party which was attended by thirty-two rushees. This gave new

freshmen an opportunity to see our new home.

Steve Mueller was elected to the office of vice president of our house, and the past month has also seen Brother Tom Leslie being elected president of the Student Union Board.

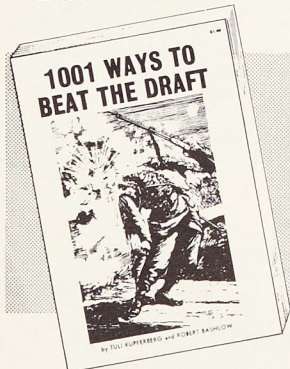

Independents Hold Yearly Elections

Newly elected officers for the 1966-67 school year are: William A. Wolf, president; Timothy Bodell, vice president; Joseph D. Pridgeon, secretary; Robert J. Mueller, treasurer, and William Henchan, sergeant-at-arms.

The Independents is an organization composed of non-fraternity men and non-sorority women, and has the largest membership of any organization on the campus. Its purpose is to provide social activities and campus representation to non-fraternity students at the University.

Who says your only future at International Harvester will be in farm equipment?

This snorkel-equipped fire-fighter is only one of hundreds of different trucks made by International, world's largest producer of heavy-duty trucks. We're also a leader in construction equipment. Our farm equipment business is at an all-time high. We're an important steelmaker, too. We even make marine engines. And we're rapidly expanding our aerospace side.

When you choose a career with International Harvester, you choose a career in POWER. Providing mechanical power for everything from high-speed tractors to helicopters is our business. A two-billion-dollar-a-year business. Because our work at International Harvester is so diversified, we need not only engineers, but also graduates in accounting, business administration, liberal arts and the basic sciences. We offer an ideal combination of opportunity, responsibility and individual treatment. There's plenty of room for you to grow at IH.

Does this look like a plow?

International Harvester puts power in your hands

Interested? Contact your Placement Officer to see an IH representative when he visits your campus. Or write directly to Supervisor of College Relations, International Harvester, 401 North Michigan Avenue, Chicago, Illinois 60611.

THE MISSOURI MINER

PAGE 7

Miners Throw Game Away; Springfield Bears Triumph 39-10

MIAA Conference play opened up for the Missouri Miners at Springfield last Saturday night, but the results were far from pleasing to the many UMR fans who made the trip. Jim Mentis' Bears took advantage of six misdirected passes to total a 39-10 victory for their first league win.

Three of those tosses from Ron Lewis were tipped by their intended receivers to the opposition, and four of the six interceptions set up touchdown plays. Bear cornerback Harold Wheeler swiped three and set-up two scoring plays.

The Miners started off to an early lead on Art Verdi's 36-yard

field goal. Then SMS quarterback Tom Young scored on a three-yard run in the first quarter to wipe-out the Miner edge. From that point on, it was Springfield's game by at least two touchdowns.

UMR did score in the third period when Lewis tossed a four-yard pass to Gene Ricker. Verdi kicked the conversion. The TD gave Lewis a career total of 21, (far surpassing any other UMR player) and Ricker 13.

The Miners were out-rushed 235 to 36, and the passing wasn't much better with 15 out of 43 passes complete. The Bears scored five of their touchdowns on

MISSOURI VALLEY FALLS AGAIN

Junior Varsity Wins Second Straight Game

By Ed Wilson

The Missouri Miner football team, junior varsity division, again beat Missouri Valley and this time the score was a 40-0 shut-out.

Leading ground gainers were: Schoemehl with 77 yards on 15 carries, Williams with 66 yards for 17, and Nimmo who had 7 carries for 31 yards. On the passing aspect of the game, Grawe attempted 23, completed 7 for 129 yards; Miller attempted 6, completed one for 35 yards; and Colombo who made 7 out of 17 tries for 66 yards.

In all the offense made 230 yards on 15 completed passes. Catching passes for touchdowns were; Schoemehl from Miller for 35 yards, Stout from Grawe for 5 yards, Knussman from Colombo for 10 yards, and one for 16 yards to Francis from Colombo. Running the ball over the line to

BOTH WINLESS IN MIAA

UMR Entertains Central Before Homecoming Crowd

The highly-rated Missouri Intercollegiate Athletic Association moves into its second week of football action this Saturday with the Missouri Miners searching for their first league victory. University of Missouri at Rolla coach Dewey Allgood will pit his club against the Mules from Central Missouri State, before an expected capacity Homecoming crowd at the new UMR Jackling Field.

Both the Miners and the Mules are recovering from sizable setbacks suffered in the first round of MIAA play this past weekend. UMR visited Springfield Saturday night but found the Bears too big to handle. Six intercepted passes gave Springfield the 39-10 win.

Cape Girardeau overpowered Central Missouri by the score of 34-14. Senior quarterback John Repp threw the only touchdown pass to Jim Morton, and Morton ran 25 yards for the other TD.

Allgood will start his usual passing offense with Ronnie Lewis at the helm. Lewis continues to sparg the Miner aerial attack with some 40-plus tosses per game.

Gene Ricker will be Lewis' objective, with Rich Erxleben, sophomore halfback from St. Louis Cleveland High School, hopefully providing the necessary fill-in. Erxleben has been continually

hampered by an ankle injury, and the 1965 "back-of-the-year" watched that UMR-SMS dual from the bench.

Scouting reports indicate that the man to stop Saturday will be Mule wingback Jim Morton. The deadly combination of Monton-Repp will be supplemented by split end Keith Browne, now a senior on the CMS squad.

Game time Saturday will be 1:30 p. m. (CDST).

MEET THE MINERS

By Lloyd J. Lazarus

This week the Meet the Miner spotlight switches from football to cross country.

The outstanding harrier this season is Stan Notestine a sophomore C.E. This year Stan has set a four mile record on the new track with a time of 22:12.2 and during spring track ran the two mile in 10:10.2.

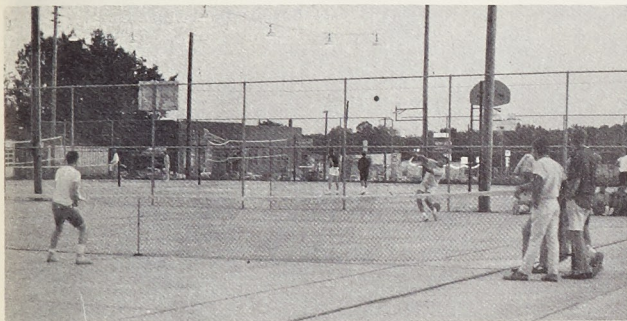

Stan is a member of the M (Continued on Page 8)

Baeyen and Nations Lead Pikers to Tennis Crown

by little david

Bob Baeyen and Reggie Nations pooled their efforts and won the Tennis Singles Championship for this season. In so doing they amassed a total of 43.5 points for

and amassed a total of 84 points for their organization. The Fifty Niners accepted third place and in so doing acquired 81 points for their club. Fourth place and 78 points was secured by Sigma Nu fraternity.

TENNIS SINGLES COMPLETED — As in previous years, 'mural tennis doubles will be played in the spring semester.

Pi Kappa Alpha Fraternity. Last years champions in this event were Bob Conzelman and Barry Graul of Kappa Alpha fraternity.

Runners-up in this competition were Brewer and Dixon representing the Fifty-Niners Club. They received 42 points for their efforts. Third place and 40.5 points went to Kappa Sigma fraternity, while fourth place is being shared by Sigma Nu fraternity and the Shamrock Club each receiving 38.25 points.

The individual champion in this event was Bob Flickle of Sigma Phi Epsilon fraternity and the runnerup was Tom Hubbard of Kappa Sigma fraternity.

Thus the intramural tennis season has come to a close for this year. Next spring the season will open again according to schedule with the doubles competition.

The intramural table tennis champion was also chosen this past week with the Prospectors Club furnishing the victor for the second year in a row. The feat was accomplished this season through the guidance of Hank Montrey, Gary Gaines, and Bob McMillian. This team managed to make a clean sweep in this contest by placing first in both the singles and doubles divisions gaining 87 points for their club.

Arkansas State Tops In SMS Invitational

By Greg Julian

Arkansas State captured first in the SMS Cross-Country Invitational Meet held last Saturday. UMR placed 11th out of the 15 participating schools who ran the 4 mile course. Rolla's Stan No-testine led the Miner attack and placed 46th among the 107 men who finished. The meet included

Cape and Maryville Win

By Bill Conner

Central Missouri State College, which entered conference play with a 2-2 record went down to defeat 34-14 under the big power of Southeast Missouri State College. Cape Girardeau started conference play with a mark of 1-3. The Indians scored after a pass was intercepted on the Indian 16 by Dan Giannola and an 84-yard run by Walt Smallwood. John Diepenbrock took a 38-yard aerial from Gregg Brune for the third touchdown.

In the third period Mike Smith burst through for a 67 yard TD, and Jim Farrell went over from the one yard line. The Mules' TD's came in the fourth quarter on a 25-yard run by Jim Morton and an 11-yard pass from John Repp to Jim Morton.

Northwest Missouri State College at Maryville slid by Northeast Missouri State College 24-21. In pre-conference activity, the Maryville Bearcats were 1-3 and the Kirksville Bulldogs were 3-1. Two touchdowns on punt returns enabled Maryville to stay with the Bulldogs through halftime when the score stood 21-21. The Bearcats' winning field goal came in the fourth quarter.

all of our conference teams.

This is the first time that Arkansas State has broken into the winners circle in many years. Last year Cape Girardeau placed first ahead of Kirksville who has traditionally taken the title.

On Tuesday, October 25, the UMR harriers travel to Jefferson City to play Lincoln University. This should prove to be an exciting meet because of the close match held between these two teams last September when Rolla won 26-29. At that time Lari Dunlap of Lincoln set a new track record of 23 min. 25.5 sec., closely followed by Keith Brown of UMR with 23 min. 20.2 sec.

Valley Vikings Fall to Varsity Rifles

The UMR Varsity Rifle Team defeated the Missouri Valley College Vikings Rifle Team at Rolla by a score of 1004 to 751.

Wilfred Pomeroy was topfirer for the UMR team with a score of 265. He was followed by George Crandell, 250; Richard Whelove, 248; Carl Duffner, 241.

The top man in the match for the Vikings was Mr. Miller with a 214.

The UMR second team, led by Mike Huston, firing a 260, almost beat the first team with a total of 994.

The next scheduled match for the Miner's Rifle Team will be with Wichita State University at Wichita, Kansas on October 15th, 1966.

MINERS vs. BEARS

(Continued From Page 7)

the ground and one by air. Both teams were penalized an equal number of times for 55 yards.

UMR coaches noted that the SMS squad was big and once they gained momentum, it was difficult to stop them. Burr Van Nostrand commended freshman linebacker Joe Stroud for his 12 hits and 7 assists. Lorenzo Hill totaled 8 hits and 7 assists.

MEET THE MINERS

(Continued From Page 7)

Club and last year because of his outstanding performance he was awarded an athletic scholarship.

Stan feels this years team is better than last years because everybody is in shape and they plan to stay that way. This is obvious by just watching the men during practice. Everybody tries his hardest even though it is only practice. Everyday Stan spends two hours at hard practice.

Stan feels that the only thing the cross country team needs now is a fifth man who can keep up with the other four and we will have a winning season.

SIDELINES

BY JIM WEINEL

The varsity football squad now has a season mark of two wins and three losses, and it's interesting to note that each of those three defeats has come in a night ball game! Although there is no doubt that at least two of those opponents outsize the Miners, there may be some correlation between these losses and playing under the lights. Since the Miners are definitely a passing ballclub, it seems reasonable that the unaccustomed conditions could affect the passers and receivers to an extent. Unfortunately the only solution to this part of the problem lies in the completion of the new stadium, whenever that may be.

Last week I received a letter from a UMR freshman who was quite disturbed at the lack of varsity wrestling here at the University. The inclusion of varsity wrestling has been a long time quest of Athletics Director Gale Bullman, but it too must remain out of the picture until new facilities are realized. I have been assured, however, that as soon as the new field house is ready and equipped, the wheels will begin to grind toward this competitive and exciting sport.

With three intramural sports completed to this date, the overall point standings show just how close this year's competition may be. Lambda Chi Alpha and Pi Kappa Alpha are tied for the lead with 181.5 points apiece, and Kappa Sigma is third with 180. The KA's are in fourth place with 179.25, and Tech Club ranks fifth with 176.5.

Address questions and comments to "Sidelines," c/o THE MISSOURI MINER, UMR, Rolla, Missouri.
