FRIDAY, DECEMBER 9, 1966, ROLLA, MISSOURI

NUMBER 12

Symphonic Brass Quintet Presents Unique Concert

The Symphonic Brass Quintet from the Conservatory of Music of the University of Missouri at Kansas City presented a program at the Student Union on Wednesday, November 30, at 8:00 p.m. The program began with a collection of songs that are heard today by all age groups. After the selection of modern songs, the Quintet played the old songs by some of the great master composers. Mozart, Beethoven, Bach, and Purcell are just a few of the composers that had their works presented by the Brass Quintet.

The Quintet, over the past ten years, has traveled throughout the country giving concerts and educational demonstrations for school children.

Maintaining the highest quality of performance throughout their career, the Symphonic Brass Quintet has received the highest of honors in recognition of their

outstanding contribution to the concert stage. Members of the ensemble are: James Spencer, first trumpet; William Trumbauer, second trumpet; Frank Frano, French horn; Irving Miller, trombone; and George Winn, tuba.

BRASS QUINTET

The Symphonic Brass Quintet presents its wide variety of music in the Student Union Ballroom.

Christmas Weekend Commences With Traditional I.F.C. Sing

The UMR Interfraternity Council will present the annual IFC Sing tonight at 7:30 in the Student Union Ballroom. Serving as master of ceremonies will be Charles M. Hansen, vice-president of the Interfraternity Council.

On the program for this evening will be entries from eleven fraternities, including ten chorus groups and six quartets.

A maximum of 100 points will be awarded to each participating group in the chorus and quartet divisions. Judging will be based on the following: tone—beauty, blend, and control; intonation — tone with regard to rise and fall in pitch; interpretation and musical

pitch; interpretation and musical effect—expression, style, phrasing-artistry, telling of ensemble, and vitality; technique — diction, rhythm, balance of parts, and precision; and other factors — choice of music, discipline, and stage appearance.

There will be no admission charged for this evening of entertainment. The Interfraternity Council wishes to invite everyone to attend the 1966 IFC Sing.

1966 IFC SING PROGRAM

"Riding the Chariot"	Triangle Quartet
"Joshua Fit the Battle of Jericho"	Kappa Alpha Quartet
"Good News"	Phi Kappa Theta Chorus
"The Green Leaves of Summer"	Beta Sigma Psi Chorus
"Jesus Met the Women at the Well"	Kappa Sigma Quartet
"Cool Water"	Sigma Nu Chorus
"Begin the Beguine"	Pi Kappa Alpha Chorus
"Lonesome Road"	Lambda Chi Alpha Quartet
"Never Walk Alone"	Tau Kappa Epsilon Chorus
"Halls of Ivy"	Kappa Alpha Chorus
"For Lovin' Me"	Kappa Sigma Chorus
"This Is My Country"	Pi Kappa Alpha Quartet
"Spanish Harlem"	Sigma Pi Chorus
Mine Blues Songs	Sigma Phi Epsilon Quartet
("Sixteen Tons," "Ballad of Spring Hill")	
"Shenandoah"	Lambda Chi Alpha Chorus
"Dear Heart"	Tau Kappa Epsilon Quartet
"Come and Go With Me"	Sigma Phi Epsilon Chorus
"Poor Jud Is Dead"	Delta Sigma Phi Quartet

Alumnus Dies in Viet Nam

Word has just been received that Captain Sylvan Bradley, a 1961 graduate of the Missouri School of Mines, was killed in Viet Nam on Friday, November 10, 1966, when enemy ground fire hit the helicopter he was piloting and the craft crashed and burned.

Captain Bradley, a civil engineering major, transferred to the

Missouri School of Mines in 1957 from Flat River Junior College and immediately became active in the Independents. He became a member of the Prospectors and was elected their treasurer and Student Council alternate in 1959 and their business manager in 1960. He served on the Student Union Board in 1960 as the news service committee chairman and was elected vice president of the Student Council in the same year.

A member of both the American Society of Civil Engineers and the American Society of Mechanical Engineers, Capt. Bradley served as a student assistant in the Civil Engineering Department the fall of 1959.

Captain Bradley was designated a Distinguished Military Student by the Military Department in the fall of 1960 and 1961; and was designated a Distinguished Military Graduate on May 28, 1961.

After graduating, Captain Bradley enrolled in the pilots' training program and after serving his

two year tour of duty, he applied for and was accepted into the Regular Army.

A memorial service will be held for Captain Bradley in the Irondale Gymnasium on Sunday, December 10, 1966 at 2:30 p.m. A fund is being established to donate an organ to the Irondale Methodist Church in his memory.

He is survived by his wife and one child.

ROLLAMO Schedules Group Pictures During Semester

This year the Rollamo staff will be taking group pictures at the end of the first semester instead of waiting until the second semester, as has been done in the past. This provides more time to put the book together and may possibly result in an earlier distribution of the Rollamo next year.

Pictures will be taken on December 14, 15 and January 4, 5. Dress for the pictures is coat and tie or appropriate uniform and dark socks. (The time schedule for the pictures can be found on page 4.)

NOTICE!

PREREGISTRATION for students now enrolled in school who will be returning for the 1966-67 spring semester will start December 12 and end December 16. For further information see the instructions in the front of the spring schedule of classes which are available in the Registrar's Office. All students should preregister, regardless of fall mid-semester grades.

UMR ROTC Band Receives Award For Appearance in 'Talent '67'

The UMR ROTC Band recently received a \$150 check from the Corinthian Special Production Co., of Houston for its participation in the filming of "Campus Talent '67."

The band and its majorette, Miss Myra Jane Wilson were

chosen in the fall to be filmed for the program. The show, to be presented later in the year, is the second of a series in Missouri sponsored by Southwestern Bell

Representing the band at the recent presentation of the check by UMR Chancellor Merl Baker, were David Oakley, assistant professor of humanities, and director

CAMPUS TALENT '67

Dr. Merl Baker, chancellor of the University of Missouri at Rolla presents a \$150 check to David L. Oakley, director of the band. At right are band members Charles Miller and Wayne Schoeffel.

The money will go toward travel expenses of the recent appearance of the band at the Cape Girardeau football game.

of the band; Charles Miller, cadet commander of the marching band and Wayne Schoettel, student director of the dance band.

'The Jaguars' Featured At Student Union Dance

Now that the football season is past, just what will you and your party-weekend date do for entertainment during those long afternoon hours this Saturday??? The UMR Student Union Board has one answer for this question, and those interested couples will find the Jaguars scheduled for appearance at the Student Union Ballroom tomorrow afternoon. The free dance will be staged from 1:00 until 5:00 p.m.

As a convenience for those with toddlers, a baby-sitting service will be free-of-charge in rooms

216-217 in the Student Union. Cartoons and refreshments will be provided for the children.

The Jaguars are a popular teen-rock group from Rolla and have appeared repeatedly at parties in this area.

Dress for the occasion will be coat and tie, and refreshments will be available. The campus community and local citizens are invited to this couples-only affair. The Student Union Board encourages all students with dates to take advantage of this free afternoon of entertainment.

UMR Debate Teams Take First in Tournies

The UMR Debate Team divided its forces this past weekend of December 2 and 3, by sending teams to Kirksville, Missouri for Northeast Missouri State's Annual Debate Tournament and to Greenville, Illinois for Greenville's 17th annual Debate Tournament. The Miner Debaters returned home victorious in both

instances.

The team of Bob Wolfsburger and Bob Jordan tied for first place in the varsity division of Kirksville's tournament. Wolfsburger and Jordan posted an overall record of three victories as against one defeat while debating both sides of the National Debate Topic. They defeated teams from Central Missouri State, Northwest Missouri State, and Lincoln University. Wolfsburger and Jordan were awarded a certificate of Excellence for their first place debating performance in the Tournament.

The Miner Novice Debaters were awarded first place at Kirksville. They posted an overall record of six wins and two losses, as

each of the two Novice teams was 3-1. The team of Steve Gardner and Neil Smith debated the affirmative side of the resolution: "That the United States should substantially reduce its foreign policy commitments." Gardner and Smith scored victories over teams from William Jewell, Northeast Missouri State, and Northwest Missouri State. They too were awarded a certificate of Excellence for their first place performance.

The team of Will White and Dave Flanagan debated the negative side of the resolution, as UMR's novice debaters. They won three debates and lost only one, as they defeated the debate teams from St. Louis University,

Culver Stockton, and William Penn College. White and Flanagan were also awarded a certificate of Excellence as a sign of their debating skills.

The Varsity Debate Team of Dave Cantwell and Brunn Roysden traveled that same weekend to Greenville, Illinois for the 17th Annual Greenville College Invitational Debate Tournament. Cantwell and Roysden debated both sides of the resolution on their way to a three and one record and a fourth place tie in competition with 47 teams from 17 different colleges and universities. They defeated teams from Millikin University, Southern Illinois University, and Greenville. Cantwell and Roysden were awarded two certificates of Excellence in recognition of their debating prowess.

The Debaters were accompanied on their trip to Kirksville by Mr. William Oesterling, faculty representative, and on their trip to Greenville by Professor Charles E. Bess, UMR Debate Coach.

The debate team is financed, in part, by an appropriation from the Student Council and by an allotment from the school administration. The UMR debate team plans to compete next in Kansas State's Tournament to be held on January 27 and 28.

Local Stations Will Present Campus Programs

University Revue, a half hour weekly program, will be presented by your Student Union Board on KTTR and KMSM Monday evenings at 9:30 p.m. The program is designed to provide enjoyable listening music and information on upcoming important student events.

Jim Weinle of Sigma Pi Fraternity and Jerry Lebo of Theta Xi Fraternity will act as program announcers. Past radio experience by both Jerry and Jim include announcing for hometown radio stations.

A variety of music will be featured on University Revue including Jazz, folk, classical, mood, popular, and easy listening tunes.

Why not take a study break or study which listening to University Revue Monday at 9:30 p.m. on KTTR and KMSM.

Bowling Tourney To Be Sponsored By Falstaff Co.

As in previous years, Mr. Bill Mueller of the Falstaff Distributing Company and the Student Union will sponsor the annual Association of College Unions — International Bowling Tournament. The tournament will be held the weekend of January 7 & 8.

Each bowler will bowl a total of 6 games, 3 at ABC Lanes and 3 at Colonial Lanes. The entry fee will be \$3.00. Trophies will be awarded in both the scratch and handicap divisions. The top independent and Greek organizations will also receive a trophy and bowl each other for a traveling trophy the following weekend.

The main purpose of the tournament is to pick 5 bowlers to represent the University at the regional tournament, to be held this year at Central Missouri State College. Everyone is eligible and encouraged to enter. You may sign up December 12th thru 23rd, and January 3rd thru 6th in the Student Union. For more information contact either Bob Weber at 364-1195 or Chip Jozwick at 364-5061.

IFC Holds Bridge Tourney

Bridge tournament held in the Student Union by the IFC.

Brains and wits clashed as the bi-annual Interfraternity Council bridge tournament got into full swing on November 22 at the Student Union. Professor Cole directed and tabulated the tournament play. Twelve fraternities entered in close play, and Phi Kappa Theta ended up on top. Final results were:

1. Phi Kappa Theta 202

2. Theta Xi 193.5
3. Kappa Alpha 192
3. Lambda Chi Alpha 192
5. Pi Kappa Alpha 188
6. Sigma Tau Gamma 185.5
7. Tau Kappa Epsilon 181
8. Triangle 174.5
9. Beta Sigma Psi 171.5
10. Alpha Epsilon Pi 166.5
11. Sigma Phi Epsilon 159
12. Sigma Nu 154.5

Faculty Seek Advanced Degrees

Among faculty members on leaves of absence from UMR are professors working toward advanced degrees at other colleges. Others on leave are doing research and in other ways advancing their knowledge in their fields.

Working toward Ph.D. degrees are as follows: Myron G. Perry, assistant professor of mechanics,

attending the University of Illinois; James Joiner, assistant professor of mathematics attending Peabody College; Terry A. Smith, assistant professor of economics and Paul Ponder, director of student aids and awards studying at the University of Missouri, Columbia; Donald E. Modesitt, instructor in civil engineering, attending Oklahoma State University; LeRoy E. Thompson, instructor in civil engineering, attending Rice University.

Professors working toward Ph.D. degrees under National Science Foundation support are Karlheinz C. Muhlbauer, associate professor of mechanics attending Vanderbilt; Paul R. Munger, assistant professor of civil engineering, attending the University of Arkansas; Gordon L. Scofield, professor of mechanical engineering attending the University of Oklahoma; and Darrell R. Thoman, instructor of mathematics, attending UMR.

Doing research in his field is Dr. Alfred C. Spreng, professor of geology. Dr. Paul Proctor, dean of the School of Science is serving the United Nations inaugurating programs in geology and mineral resources research at the Mid-East Technological University in Ankara, Turkey. C. R. Christiansen, professor of mining engineering is advisor to the department of mining engineering at the National Engineering University, Lima, Peru. Dr. Arliss V. Mar-

tin, assistant professor of chemical engineering is teaching in the Abadai Institute of Technology in Iran and Dr. Mehdi Bahadori, associate professor of mechanical engineering, is a faculty member in that department at Pahlavi University, Shiraz, Iran.

Advanced Oil Painting To Be Offered at UMR

An advanced course in oil painting will be given beginning Dec. 12 at UMR.

The study, presented by instructor H. Ramon Sparling, experienced artist, director and teacher, will stress art history and a study of the characteristics of oil and other media as well as practice in drawing and painting.

Classes of two and a half hours each will be held two nights a week at 7:30 for a total of 40 instruction hours. Fourteen registrations will be required in order to present the course. Registration fee is \$60. For further information and enrollment, contact Department C., University Extension Division.

Sparling has designed for some of the major companies in the nation including Anheuser Busch Co., United Air Lines, Bell Telephone Co., and Trans World Airlines. He has held private show-

NSF Science Institute To Be Held This Summer

The University of Missouri at Rolla has recently received a \$94,340 grant from the National Science Foundation to sponsor a summer institute in chemistry, physics, and mathematics for secondary

school teachers.

The institute, under the direction of Dr. Harold Q. Fuller, acting dean of the school of Science and chairman of the physics department, is one of about 450 held all over the country.

Seventy-five high school teachers are expected to participate in the eight-week session which is part of the over-all program of NSF to improve the subject matter training of the science and mathematics teachers of the secondary schools in the United States. It is thereby hoped that the education of the youth in these fields will be greatly improved.

Military Society Elects Officers, Hays Is Captain

Officers for Scabbard and Blade have recently been elected at UMR. They are as follows: Thomas Hays, Captain; Lynn E. Meinershagen, 1st Lieutenant; R. Bruce VanDover, 1st Platoon Sergeant; Richard F. Rankin, 2nd Lieutenant; Robert L. Hilgendorf, 1st Sergeant and Ted E. Dinkel, 2nd Platoon Sergeant.

Scabbard and Blade is an honor society for students of merit in military science and military tactics. The group was organized by the United States Armed Forces military department to raise the standards of military education in American colleges and universities. Membership, based on character and military proficiency, is limited to students enrolled in the ROTC program.

Our Man Hoppe

The theory that the late President Kennedy was actually shot by six medieval crossbowmen in a gas-filled balloon was first advanced by a free-lance journalist and service station attendant, Mr. Homer T. Pettibone.

His book, "Behind the Inside Report on the Exclusive Disclosures Exposing the Warren Commission," was an instant bestseller.

Appearing on Meet the Press, Mr. Pettibone explained that his work was the result of three years solid research 18 hours a day.

"I have," he said proudly, "read every single book that exposes the Warren Commission and advances a new theory. All 378 of them."

"The purpose of my book," he said with dignity, "is to exonerate the innocent, persecute the guilty, resolve history and make a million dollars."

* * * * *

On his wildly successful nationwide lecture tour, Mr. Pettibone displayed a huge blowup of frame 247 of a fuzzy home movie which clearly showed a gas-filled balloon in the sky. Either that or a water spot on the film.

He then went into a complex analysis of vectors, demonstrating that the deed could only have been performed by a medieval crossbow that shot around corners.

"As proof," he would say triumphantly, "let me point out that no crossbow arrow was found at the scene. Indeed, six crossbow arrows were never recovered! And due to the average loading and firing time of the average medieval crossbow — 27.2 seconds — this obviously means that it would require six medieval crossbowmen to fire all six unrecovered arrows."

Critics hailed Mr. Pettibone's theory for "its freshness and originality." Experts agreed that it was "consistent with the known facts." The public liked its simplicity and aficionados its mystery. So it was universally accepted and the nation slept easier knowing how the deed was done.

But Mr. Pettibone had made only half a million dollars.

So he wrote a second book, "The Return of Behind the Inside . . . Etcetera." In this he produced a deposition from a fifth cousin twice removed that Officer Ruby (cq) had once expressed an interest in medieval crossbows while Jack Tippitt (cq) had seen "Richard, the Lion-Hearted," (a movie in which crossbows were extensively employed) in a theater only 13.7 miles from the home of Oswald Lee Harvey. (cq)

From there, Mr. Pettibone went on to prove conclusively the existence of a conspiracy involving the Right Wing, the Secret Service, all news media, Congress and Troop 102, Boy Scouts of America. Its undeniable purpose: the takeover of the nation by medieval crossbowmen!

* * * * *

Unfortunately, the public had turned its attention to a child star who had died from a mysterious overdose of sleeping pills, and nothing much was done to ban crossbows.

"Good heavens!" cried Mr. Pettibone. "The whole nation's in this conspiracy."

Unable to face this horrible fact, he shot himself with a crossbow. A Coroner's Jury hastily ruled his death a suicide. A friend later wrote a book proving definitely it was a suicide. The book didn't sell.

MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

Class Rank Evaluation Comes Under Heavy Fire

(I. P.) — Of what use is the familiar "rank in class" evaluation of college students? Not much, according to officials at Haverford College, who recently announced that they would no longer maintain such lists.

In fact, they say, class rank is not only "imprecise" and "academically indefensible," but use of this criterion in Selective Service procedures is forcing draft-conscious collegians to sidestep courses which might be more educationally beneficial to them in favor of classes where grades are likely to be higher.

Officials at Haverford admit that the emphasis placed on class rank by the Selective Service system brought the issue to a head. But they quickly add that they have long been uneasy about an evaluation system that "compares the incomparable" and lets a tenth of a percentage point place one student ahead of another.

"The decision to abandon class ranking was made clearly and only for academic reasons," asserts President Hugh Borton. He cited instances where an increasing number of students have advised the dean that they were not taking certain courses because of an anticipated effect on their class standing.

"It seems clear," concluded Dr. Borton, "that the fact that a student's numerical rank in class will be used to determine his draft status is interfering with the best selection of courses."

Dr. Borton contended that a student's choice of courses, within requirements for his degree, should be based "only on the potential intellectual value and interest of the course."

The college said that its registrar will no longer prepare a class rank list for future classes. Inquiries will be answered with a statement that the college has abandoned numerical ranking. Haverford transcripts sent to other institutions will be accompanied by a detailed explanation of the college's grading procedures.

UMR Extension Division Offers Wide Variety of Useful Skills

Two and a half years ago, there was established on this campus an Extension Division. The Extension Division concerns itself with continued education for graduate students and courses for undergraduates who work during the day. It offers credit courses identical with the University's courses. It also offers non-credit short courses for professional men who want to bring themselves up to the modern methods. Not only does the Extension Division offer courses, but it also sponsors conferences and workshops. The Extension Division sponsors such events as Parent's Day and Engineer's Day.

At the present, G. E. Lorey, dean of the Extension Division, has classes being conducted in St. Louis, St. Charles, Cape Girardeau, Mexico, and Neosho besides here. He hopes to increase the program to include the entire state of Missouri. He also initiated, this year, a telelection-telewriter taught course.

By using the telelection-telewriter a professor can lecture to one class in Rolla while another class in St. Louis can hear him and ask questions. All the notes he writes on a special screen are reproduced for the class in St. Louis. The telelection-telewriter has proved itself to be of great value to the Extension program due to a lack of teachers. Next year, the Extension Division is planning about four of these type classes in St. Louis.

The rapid expansion of the Extension program is somewhat limited due to campus facilities, but it hopes to have its own build-

ing in the future. It is also cramped for space on the St. Louis campus; but, likewise, is hopeful of having a building of its own.

The Extension Division is governed by the administration of the University of Missouri at Rolla, but does not receive government subsidies like the undergraduate schools. All of its expenses must be paid for by the enrollees. Therefore, they can not offer any special course unless there are enough students to cover the costs.

The Extension Division brings a little variety to this campus. It varies from courses in science and engineering to courses in oil painting, and dental technician training. The diversity of interest and talent of the faculty are put to good use by the Extension Division.

In the future, the expansion of the Extension program will add a great deal to this campus.

Kappa Phi to Receive Delta Tau Delta Charter

UMR's Kappa Phi social fraternity will affiliate with Delta Tau Delta national social fraternity Saturday, December 10, 1966.

More than 200 persons will participate in the ceremonies which will make Kappa Phi fraternity the 95th chapter of Delta Tau Delta national fraternity.

Formal ritual ceremonies will begin at 9:30 a. m. at Delta Omicron Chapter of Delta Tau Delta at Westminster College in Fulton, Mo. An installation banquet will be held Saturday evening at Carney Manor Inn, in Rolla, with over 200 persons expected. Thomas C. Clark, Associate Justice of the U. C. Supreme Court and President of Delta Tau Delta will present the charter and will be the main speaker.

The Arch Chapter, the governing body of Delta Tau Delta, will attend. They are: Justice Tom C. Clark, President; Robert L. Hartford, Vice President; W. H. Andrews, Jr., Second Vice-President; DeWitt Williams, Treasurer; William P. Raines, Secretary; Frederick D. Kershner, Supervisor of Scholarship; William R. Earnshaw, President Southern Division; Robert W. Kroening, President Western Division; Joseph D. Boyd, President Northern Division; H. Watson Stover, President Eastern Division. Other Delta Tau Delta officials to be present are: Alfred P. Sheriff, III, Executive Vice-President; Robert O. Snyder, Toastmaster of the Banquet; and Phil R. Acuff, Vice-President of the Western Division who will present the membership certificates.

School officials attending will be: Chancellor Merl Baker, Dean Dudley Thompson, and Director of Student Personnel, Sam Burton.

Officers of the UMR chapter are: Ronald R. Smith, President; Thomas J. Fritzing, Vice-Presi-

dent; Peter A. Dunkailo, Recording Secretary; Donald C. Scarpero, Corresponding Secretary; Michael Hoff, Treasurer; Eric Aschinger, Guide; Leroy E. Kraske, Sergeant-at-Arms.

Faculty advisors to be initiated are: Dr. Efton L. Park, Professor of Mechanical Engineering, and Dr. Kenneth G. Mayhan, Professor of Chemistry.

Alumni members to be initiated are: Jerry L. Fortner, Jerry R. Harpole, Stephen E. Krieger, Edward T. Lillie, Charles J. Schutty and Phillip H. Schutty.

Delta Tau Delta is one of the largest and oldest international fraternities. DTD was founded in 1859 at Bethany College, Bethany, Virginia.

West Virginian To Speak at UMR

The next regular meeting of the American Institute of Chemical Engineers will be held on December 14 in G-6 of the Chemical Engineering Building. The guest speaker for the evening will be a representative from the West Virginia Pulp and Paper Company, located in Covington, Va. His topic will be, "A Career in the Paper Industry." A door prize will be given and refreshments will be served.

Sig Tau Pledges Defeat Sigma Pi Pledge Team

Last Friday night the Sig Tau Pledges played the Sig Pi pledges in a game of football, under the University's intramural rules. This was the first year for a traveling trophy which goes to the winner; three consecutive victories and the trophy is retired. The losing team has the shame and humiliation, plus the expense of the celebration, and the unwelcome task of after game maintenance problems.

In the later afternoon. The field had a close resemblance of a Chinese rice paddy. The game's fate was decided in the opening minutes when Sig Tau pledge Ted Kurtz ran back an intercepted pass. The defensive unit sparked and accounted for three touchdowns, two on interceptions by Kurtz. Other leading scorers were Kostic, Kothys, and Doering, each with two touchdowns, and Nail with one touchdown.

The final score: Sigma Tau Gamma's pledge class 60, Sigma Pi's pledge class 7.

'TIS THE SEASON TO BE JOLLY

I know how busy you are—studying, going to class, helping old grads find their dentures after Homecoming—but, hark, the Yuletide is almost upon us and it's time we turned our thoughts to Christmas shopping.

We'll start with the hardest gift problem of all: what to give the man who has everything. Well sir, here are some things I'll bet he doesn't have: 1) A dentist's chair. 2) A Mach number. 3) A street map of Perth, Australia. 4) Fifty pounds of chicken fat. 5) A pack of Personna Super Stainless Steel Blades.

"What?" you exclaim, your eyebrows leaping in wild incredulity. "The man who has everything doesn't have Personna Super Stainless Steel Blades? What arrant nonsense!" you scoff, making a coarse gesture.

But I insist. The man who has everything doesn't have Personna because everyone in the dorm is always borrowing them. And small wonder! Wouldn't you be there with an empty razor and a supplicating sidle if you heard somebody had super-blades that were super-sharp and super-durable; that scrape not, neither do they nick; that shave you easily and breezily, quickly and slickly, scratchlessly and matchlessly; that come both in Double-Edge style and Injector style? Of course you would!

So here is our first gift suggestion. If you know a man who shaves with Personna, give him a safe.

Next let us take up the thorny problem of buying gifts when you have no money. Well sir, there are many wonderful gifts which cost hardly anything. A bottle of good clear water, for example, is always welcome. A nice smooth rock makes a charming paperweight. In fact, one Christmas back in my own college days, these are exactly the gifts I gave a beauteous coed named Norma Glebe. I took a rock, a bottle of water, a bit of ribbon, and attached a card with this tender sentiment:

Here's some water

And here's a rock.

I love you, daughter,

Around the clock.

Norma was so moved, she seized the rock, smashed the bottle, and plunged the jagged edge into my sternum.

Here now is a lovely gift for an American History major—a bronze statuette of Millard Fillmore with a clock in the stomach. (Mr. Fillmore, incidentally, was the only American president with a clock in his stomach. James K. Polk had a stem-winder in his head and William Henry Harrison chimed the quarter-hour, but only Mr. Fillmore of all our chief executives had a clock in his stomach. Franklin Pierce had a sweet second hand and Zachary Taylor had 17 jewels and Martin Van Buren ticked but, I repeat, Mr. Fillmore and Mr. Fillmore alone had a clock in his stomach. Moreover, Mr. Fillmore was the first president with power steering. No wonder they called him "Old Hickory!")

But I digress. Returning to Christmas gifts, here's one that's sure to please—a gift certificate from the American Society of Chiropractors. Accompanying each certificate is this fetching little poem:

Merry Christmas, Happy New Year,

Joyous sacro-iliac!

May your spine forever shine,

Blessings on your aching back!

May your lumbar ne'er grow number,

May your backbone ne'er dislodge,

May your caudal never dawdle,

Joyeux Noel! Heureux massage!

Eagles Open Season With Two Wins

Miners Down Harris And Central Methodist

The Missouri Miners got off to a winning start last week, downing Harris Teachers College 97-86 in the season's opening contest Thursday and Central Methodist 78-66 in a Saturday night game. These two non-conference triumphs launched an aggressive twenty-game UMR schedule which includes ten battles in the Missouri Intercollegiate Athletic Association.

It was UMR all the way against the Central Eagles, although Billy Key and his charges did experience some difficulty in the second half. The Miners enjoyed a 39-24 halftime edge, but heavy scoring and consistent rebounding by Central cut the lead to nine points after the intermission.

Senior Stan Maxey, veteran play-maker for the Eagles, sparked their second half drive with 16 points and totaled the high for the game (19 points). The only other Central player in double figures was Don Brashears who totaled 10.

MINERS REBOUND — Off the backboard is a loose ball which seems to have escaped most of the reaching hands.

For the Miners, it was quite a different story as five men hit double figures. Sophomore center Wayne Lewis led the squad with 17, but was closely followed by Randy Vessell who had 16 and Mackie Andrew with 15. Tom Borgemeyer and freshman Bob Brown from St. Louis McBride High each tallied 10.

The Central Eagles out-rebounded UMR 58-56, but a field goal percentage of 45.4% for the Miners gave them the edge. Central hit 24 out of 73 attempted from the field for 33%. Lewis led the Miner rebounders, having swept 16 from the boards. John Head picked-up 7 rebounds.

"The game was actually won in the first half," noted Coach Key. Mechanical errors and a Central shooting streak brought the Eagles within nine in that half. "We played better defense the first half," added Key. "Lewis played a real good game, and Vessell and Andrews both performed well."

The Miners open conference play at the Rolla High Gym tomorrow night at 7:30 p.m. against Southwest Missouri State.

Vessell Hits 27 Against Harris

By Greg Julian

For the third time in a row the Miners have left the basketball court with Harris Teacher's College and have come out on top, this time by a score of 97-86. Leading the Miner attack for the first seasonal game was Randy Vessell who tallied ten field goals and seven free throws for 27 points.

Even though Harris Teacher's College never got a hold of the lead they held tight to UMR in the first half. With 6:00 remaining in the first half the score was 24-23 Miners, and with 2:40 left the score was tied 32-32. During the second half, however, the Miners caught fire to push their lead to 68-47 and 12:00 left in the game. Harris then took advantage of the Miners slackening defense and with 6:00 left the score was 75-71 in favor of the Miners.

A major contributing factor to the Miners success was their rebounding ability. They collected 44 to Harris' 27. Wayne Lewis, a 6' 5" sophomore, was valuable here as he pulled in 12.

On the court the Miners hit 40 out of 70 F.G.A. for 57% and Harris Teachers College connected on 32 out of 63 also for 51%.

According to UMR's Coach Key the ball club played a pretty good offense even though their scoring came in spurts. However, the team didn't play as good a defense as he would have liked to see. This was definitely due to their lack of experience which he hopes to correct by their next game.

HORNETS FALL — John Head quickly pulls a fumble away from two members of Harris Teachers College.

Bears Succumb to Salukis Also Fall to Adams State

By Bill Conner

The Salukis of Southern Illinois University accomplished what no MIAA team could as they roundly defeated Southwest Missouri's Bears 19-0.

With a backfield which included three sophomores, one the quarterback who had not started before, and the others who had made their starts a week earlier, SIU simply overpowered the Bears. Tim Kelley of Savannah, Mo. was the Salukis regular place kicker. He led SIU to 321 yards in 62 carries.

In the opening period SIU recovered a Bear fumble and Kelley passed to John Ference on the 16. Fullback Tom Wirth carried on three of the four following plays to the Bear 2-yard line, and Pemberton, a junior from New Jersey, scored from there.

Southwest Missouri then missed its second scoring chance. The Bears first chance had come in the opening minutes as Gary Jaqua recovered Terrence's fumble of the opening kickoff. Behind the quarterbacking of Tom Young the Bears reached the Salukis 14 only to lose the ball on downs. On their second try, they got to the 13-yard line as Young passed for 15-yards and a personal foul penalty aided the drive. But again the Bears were forced to give up the ball on downs.

After receiving a penalty which set them back on their eight-yard

line the Salukis drove 92-yards for the second touchdown. Pemberton found success off right tackle and around right end and used these routes for gains of 21, 19, and 13 yards. Kelley rolled out on one third down play, then passed to Terrence for 17 on another third down to the Bear one-yard line. Pemberton ran the right end for the score. In the fourth quarter, SIU took over on their 25. Pemberton soon cracked off the right side for 70 yards and the touchdown. Springfield advanced to the Mineral Bowl with their unblemished conference record, but Adams State found victory over the Bears in the first game.

Arkansas Tech completed only one of eight pass attempts but compiled 433-yards rushing to defeat Southeast Missouri State's Indians 33-21. This was the final game for both teams.

Cape Girardeau now has a 5-5 record. The victory was the third for Arkansas Tech against 6 defeats.

Miners to Host Top-Ranked SMS In League Action

With two straight wins under their belts, Billy Key and his University of Missouri at Rolla Miners are well primed for Saturday's duel with defending league champ Southwest Missouri State. Consecutive victories over Harris Teachers College (97-86) and Central Methodist (78-66) set the Miner mark at 2-0, identical to that of Springfield.

Springfield has a definite height advantage over the Miner squad, and this combined with the return of all-conference men Dan Bolden and Don Carlson, will put UMR to the first real test of the season. Bolden scored 25 points for SMS in last Thursday's game against Emporia State.

Junior guard Randy Vessell has up-held last year's honor of leading Miner scorer with his two-game average of 22 points. Vessell totaled 27 in the season opener with Harris on December 1. Sophomore center Wayne Lewis from Greenfield, Missouri, led all UMR scorers with 17 points at Central Methodist last Saturday and grabbed 16 rebounds as well.

Charles Andrew, Key's senior guard from St. Joseph, Missouri, scored 14 and 15 points in the first two games. The 155-pound, civil engineering student averaged 11 points per game last season and has shown marked improvement.

Saturday's contest begins a four-game, pre-holiday homestand which includes last year's conference runner-up Central Missouri, on Monday, December 12, McKendree College, and Sam Houston State College of Huntsville, Texas. Game time for all home contests at the University of Missouri at Rolla is 7:30 p.m.

Houston Edges Miner Rifles In Oklahoma Invitational

The UMR Varsity Rifle Team returned recently from the Oklahoma State University Intercollegiate International Invitation Smallbore Rifle Tournament with high hopes that their 4245 team total would withstand assault by the six remaining teams to fire in the forty-five team tournament. These hopes were crushed today when the official tournament results showed that the University of Houston (from Texas) had nipped the Miners by only two points in the possible 4800 point double team match. This was the second time in two tournament appearances this year that the Miner firers have missed capturing the tournament title by only a few points. Following the Miners in the closely contested Oklahoma Tournament were two other Texas teams, Arlington University and Texas A & M University.

The Miners, disappointed in their failure to capture first place, clearly established the UMR Varsity Rifle Team as one of the outstanding teams in the country. The selection of a member from each of the Texas teams on the 1965-66 National Rifle Association All-American Smallbore Rifle Team is an indication of the caliber of competition that the Miners faced in this tournament.

Tabulated results of individual performances during the tournament have not yet been received. Richard Whelove and Wilford Pomeroy led the Miners with

1083 and 1082 scores respectively and were followed by team members George Crandall with a 1054 and Robert Hill with a 1026. These scores are expected to capture several individual awards.

Master Sergeant William D. Merideth, UMR Rifle Team Coach will travel with the Miners to Manhattan, Kansas, on December 3 to participate in the Eighth Annual Kansas State University Invitational International Small Bore Rifle Tournament. The dedicated Miner firers will be trying hard to capture the tournament title for UMR.

MEET THE MINERS

By Lloyd Lazarus

Randy Vessell scored 262 points last year to lead the UMR basketball team in scoring. Randy also averaged 13.8 points per game leading the team in that department.

Before entering UMR he attended St. Joseph High School in Farmington, Missouri where he played guard on the basketball team. That is the position that Randy now plays for the Miners.

Randy feels that with victories this weekend against Springfield and Warrensburg there is a very good change that the Miner team can take the conference championship. He also feels that this years team will finish with a better overall record than the team of the year before.

Randy stated that the reasons for this improved outlook is that the starting team has played together for two seasons and that the teamwork has improved greatly. There is also the fact that this years team has the experience that other Miner teams have lacked in the past few years.

Tom Borgmeyer came to UMR last year from Moberly Junior College after completing two years of study there. Before entering junior college Tom played basketball for Fatima High School located at Westphalia, Missouri. Since entering UMR Tom has played forward for the varsity cagers.

Tom hopes for this season are for the basketball team to make a better showing in conference play and to improve the team's overall record. He also feels that this year's team has the ability and the spirit to do it.

Tom is a member of Tech Club and is now in his junior year of study in the Civil Engineering department.

SIDELINES

BY JIM WEINEL

There can't be a better way to start off a season than with victory and the Missouri Miners have gotten a double dose. Wins over Harris Teachers (Coach Key's team from just a few years ago) and Central Methodist have brought UMR to the start of conference play in the MIAA. The Miners open league play tomorrow night against the Springfield Bears, who are picked to win the title for the second straight year.

Miner Coach Billy Key will be looking for all of you fans who were spectators to last week's victory. Just this past week he told me to express his "appreciation for the wonderful crowd participation at the Harris game." Key continued, "I hope that this will continue throughout the season, with the same mature enthusiasm that was shown last Thursday." Coach Key stressed that while cheering is so all-important to a squad, profanity and name-calling do not belong on the college scene.

Several freshmen have been seeing varsity action, and if they keep up the good work, they'll probably see quite a bit more. Bob Brown, that 6-foot-4, freshman forward from McBride High School in St. Louis, clicked on three out of three field goals at Central Methodist and scored four or five charity tosses awarded to him. Bob Hurt from Springfield Parkview also saw about seven or eight minutes of play in that game.

Address questions or comments to "Sidelines," c/o THE MISSOURI MINER, UMR, Rolla, Missouri.

Soccer Club Victorious Over Forest Park J.C.

The newly-formed UMR Soccer Club found victory in the first game of the season over Thanksgiving vacation, as they downed Forest Park Junior College 1-0. Tom Ward scored the winning goal in the game played at Carondelet Park in St. Louis.

Professor Tom O'Keefe, who is coach and advisor for the group, had nothing but praise for the men. "All things considered, the defense played an outstanding game. The forwards played together well and moved the ball quickly," continued O'Keefe. He noted that it was quite an accomplishment to defeat an old established squad.

"The entire squad hustled extremely well," added Coach O'Keefe, who is a professor in the metallurgy department. "We were missing a few of the men due to the holidays, but the results were definitely encouraging."

O'Keefe will attempt to schedule another game before the year is over, but most other schools are winding up their soccer schedules about this time.
