University President Visits Rolla Campus

UMR CENTENNIAL COMMITTEE

Meeting with Dr. Weaver, during his visit here March 3 are members of the executive group of the UMR Centennial Committee. They are from left: Paul Dowling, James J. Murphy, Dr. Weaver, Dr. Walter Remmers, and Raymond O. Kasten.

Dr. John C. Weaver, president of the University of Missouri, visited the campus of UMR Friday, March 3.

While on campus, Dr. Weaver presided at a meeting of the faculty and met with various other University groups.

Dr. Weaver had lunch with the executive group of the Centennial Committee. Out-of-town members who were present were James J. Murphy, St. Louis, chairman of the committee; Paul Dowling, St. Louis; Ray Kasten, Raytown, president of the Alumni Association; and Dr. Walter Remmers, Tucson, Ariz. Also in attendance were Chancellor Merl Baker, Gen. L. R. Cochran, executive director of the Centennial Program, F. C. Edwards, Dr. Dudley Thompson, W. W. Stevens, Prof. J. P. Govier, and J. D. Wollard of UMR,

and LeMoine Skinner, St. Louis. Mrs. Weaver was guest at a noon luncheon with Mrs. Baker and a group of faculty wives.

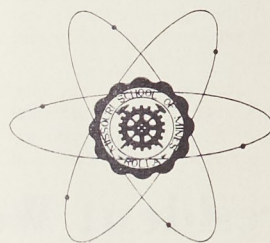

UNIVERSITY OF MISSOURI PRESIDENT

Dr. John C. Weaver, president of the University of Missouri, addresses a meeting of the faculty during his visit here March 3.

The Missouri MINER

MISSOURI SCHOOL OF MINES AND METALLURGY

VOLUME 53

FRIDAY, MARCH 10, 1967, ROLLA, MISSOURI

NUMBER 20

Thirteen Floats To Participate In Annual Parade

Only six more days remain before the wildest party weekend of the year once again engulfs the University of Missouri at Rolla campus. The coronation of St. Patrick's Queen of Love and Beauty will be held Friday night at 8 p.m., before the beginning of the Coronation Ball. Chairs will be set up in the armory to seat the school and local dignitaries and the audience. The St. Pat's Board will be dressed in tuxedos. The junior member from each organization will escort the organization's queen candidate. Following an intermission, the Miners and their dates will enjoy the music of Ernie Fields and his orchestra.

Saturday morning at 10 a.m., the 1967 St. Pat's parade will begin, led by St. Patrick himself and his queen. Thirteen floats will participate this year along with other attractions including the school's Pershing Rifles, the Military Band from Fort Leonard Wood, three equestrian units from Rolla, Salem, and Newburg, and the Springfield and Rolla Shriners Motor Patrol. The parade will be longer this year, starting at the old football field and ending at the Student Union. The sacred green stripe will once again be painted down Pine Street ready to accept the homage paid by loyal Miners.

Saturday afternoon, after the Knighting Ceremony, the Parker Hall-Fulton Hall parking lot will be the scene of an outdoor dance to the music of the Astronauts. The dance will be held in the Student Union Ballroom if the weather is bad. Finally, Saturday night, the Armory will vibrate to the sounds of the Buckingham. Trophies for the winning floats will be presented at this dance.

UMR, Fort Oratorio Society Perform in Combined Concert

A capacity crowd filled the ballroom of the Student Union on February 28th to hear the UMR-ROTC Concert Band and the Fort Wood Oratorio Society in a joint program. The evening concert was the first time that the two groups had appeared together. The concert was especially well received.

The 77 member band, directed by David L. Oakley, opened the program with the *St. Anthony Divertimento*, a four movement work for winds by Josef Haydn based on the "St. Anthony Chorale," and old and well known tune. This was followed by *Pageant*, a modern work for hand by Vincent Persichetti, an American Composer. The highlight of the band's presentation was the playing of *La Fiesta Mexicana*, composed by Missouri born H. Owen Reed.

The 60 voice Oratorio Society is directed by J. Richard Verduin, who founded the group at Fort Wood in 1961 under the auspices of the chaplains of Fort Wood.

The group has been active ever since and performs four or five concerts each year, consisting of major choral works. Especially impressive was *Rejoice in the Lamb*

by the contemporary English composer, Benjamin Britten. Other works which the society performed included Martin Shaw's *With* (Continued From Page 2)

ROTC BAND PERFORMS

The Fort Wood Oratorio Society performs with the UMR-ROTC Band in the Ballroom of the Student Union.

Research Center To Be Completed By Next Autumn

The new Materials Research Building or Graduate Center for Materials Research, as it is officially called, will be ready for occupancy by the Fall Semester. The completion and acceptance date is set for August 14, with the dedication being October 28 or 29.

The total cost of the new addition to the UMR campus is one million, one-hundred and twelve thousand dollars. The funds for the recent structure were acquired from two sources: one being \$750,000 from the 1963 Legislative Appropriation for space Science and Research and the University of Missouri. The second source was a grant of \$342,000 from the Office of Education, title two program.

The faculty that will occupy the new building will consist of five senior investigators, ten associate researchers, three post doctorate

(Continued on Page 4)

Campus Clubs Represent Wide Interests

By John Williams

Now that the second semester is under way, the first round of quizzes is nearly over, and everyone is fairly settled in their courses and has some extra time to become interested in some of the fine organizations that are available and in need of members. A partial list of these was published last September in the Miner, however many students, especially freshmen, may have been reluctant to join organizations for fear of taking on too much. In my opinion, now is the ideal time for the freshman specifically, and other students in general, to broaden their outlook and start to look

for that "something extra" that college offers. The local cinema, billiard halls, and intramural activities are fine for recreation, but the career-oriented engineering student should begin to search his chosen field outside of the text, try and find out what it will be like in industry and determine definitely if the original vocational choice is still the desired field of study.

For the benefit of the freshman particularly, I would like to review some of these organizations that are open to second semester freshmen and how to proceed to join them.

First of all, one of the most important organizations one can join is his departmental organization. Many departments sponsor more than one organization in their department such as Mechanical Engineering sponsors the Society of Automotive Engineers (SAE), American Society of Mechanical Engineers (ASME), and the American Society of Tool and Manufacturing Engineers (ASTME). These organizations meet once or twice monthly, offer subscriptions to magazines and literature at reduced rates that have interesting material in your curriculum. The meetings feature guest speakers, films, and numerous

field trips.

They certainly help one to see how material that is being studied is applied in industry, therefore, everyone should make a serious effort to join his departmental organization and take an active interest in its affairs. Watch the daily bulletin for meeting time and place announcements and merely attend the meeting. Then, if interested, joining and applying for membership is the next step.

If your grades as a first semester freshman were 3.5 or bet-

UMR to Hold Science Fair For South Central Counties

The eleventh annual South Central Missouri Science Fair will be held at the University at Rolla April 14 and 15.

The event, sponsored by U.M.R., the Rolla Daily News, Lebanon Daily Record, Washington Missourian, and West Plains Quill, is open to students in grades 10 through 12 in the 59 high schools in the 18-county South Central Missouri Region.

In connection with the Fair, an open house will be held on Saturday morning from 8 to noon for prospective students, their parents, high school teachers, and counselors. All departments of instruction and administrative offices will be open to answer questions of interest to college-bound students.

For their entries in the fair, students may prepare as individual or group projects, exhibits on scientific principles or applications of

those principles in the areas of biology, chemistry, mathematics and computer science, physics, earth sciences, space sciences, and engineering.

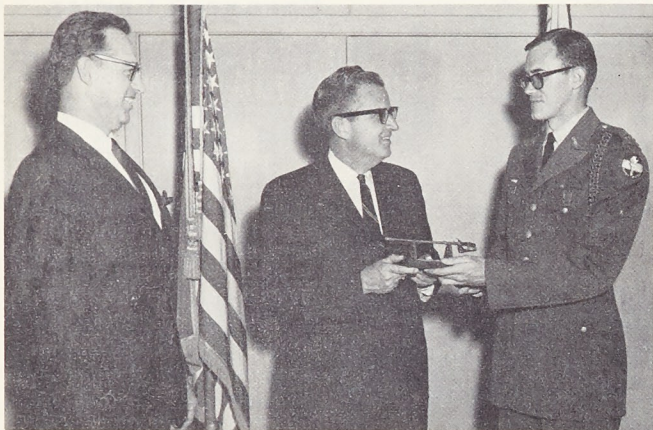

Awards will be made in each division and the student with the entry judged most outstanding will receive an all-expense paid trip to the National Science Fair to be held in May in San Francisco. A Science Fair Scholarship to U.M.R. will be awarded to a senior on the basis of scholarship and financial need. Standards for judging are creative ability, scientific thought, thoroughness, skill, clarity and dramatic value.

Exhibits are to be set up from 8 a. m. to 1 p. m. Friday in the National Guard Armory with judging from 3 to 5 p. m. Exhibits will be on display from 1 to 3 p. m. and from 6 to 9 p. m. Friday and from 8 until 2 p. m. on Saturday. Awards will be announced at 2 p. m. on Saturday.

Registration blanks and more information may be obtained from high school science teachers or the director of the event, Dr. Charles A. Johnson, professor of mathematics, 203 Harris Hall, University of Missouri at Rolla, Rolla, Missouri. Entry blanks must be received by Dr. Johnson before April 6.

Counties included in the South Central area are Camden, Crawford, Dent, Douglas, Franklin, Gasconade, Howell, Laclede, Maries, Oregon, Osage, Ozark, Phelps, Pulaski, Shannon, Texas, Washington, and Wright.

President Weaver Enters UMR Scabbard and Blade

President John C. Weaver receives a Scabbard and Blade membership saber from Cadet Captain Thomas E. Hays. UMR Chancellor Merl Baker observes the presentation.

University of Missouri President John C. Weaver was initiated into the University of Missouri at Rolla Company B, 16th Regiment, National Society of Scabbard and Blade, Friday evening, 3 March 1967.

Scabbard and Blade is a National Military Honor Society whose members believe that military service is an obligation of citizenship and that the greater opportunities afforded college men for the study of military science places upon them certain responsibilities as citizens. Members are selected by election only and are chosen from outstanding ROTC Advanced Course cadet officers and members of the University academic faculty who have shown a continuing and lasting interest in the military affairs of the University and an interest in promoting the cause of a sound national defense.

fense.

Cadet Captain Thomas E. Hays, Captain of Company B, 16th Regiment, was assisted by: Cadet Colonel Michael S. Clayton, Cadet Brigade Commander; and Cadet Lieutenant Lynn E. Meinershagen during the initiation ceremony.

"BEHOLD A PALE HORSE"

The film's masterful crossing of the lives of three men, violently different in all respects, and provides crackling drama against the background of post-revolutionary Spain. Gregory Peck stars as the aging loyalist guerrilla who has grown tired of being an exiled but legendary hero. Anthony Quinn plays the smug police captain who has sworn to capture Peck, dead or alive. Omar Shariff plays the young priest who dislikes most everything about Peck but sets out to save his life when he appears to be trapped by Quinn in Spain. The shows are at 2:30, 5:00, 7:00 p. m., Sunday, March 12, in the Student Union Ballroom.

Combined Concert

(Continued From Page 1)

a Voice for of Singing, Titcomb's Behold Now, Praise the Lord, and the Welsh Melody Let All Things Now Living.

Both groups combined to perform Finlandia by Jean Sibelius as the closing number. A joint concert by the two groups is being planned for next year at about the same time.

The band presented a concert in the evening of March 2nd at John F. Hodge High School in St. James, with all sales from tickets going to the St. James High School Band.

In May, sponsored by the ROTC and the Student Council, the band will present two concerts and perform in two parades as a part of the Cotton Carnival in Memphis.

SCHEDULE OF EVENTS

Friday, March 17

- 12:00 St. Pat arrives on a Hand Car at Moutray's
- 1:00 Reception for St. Pat's at Moutray's
- 3:00 Contests at Lions Park
- 8:00 Queen's Coronation at Armory
- 8-12 Ernie Fields and His Orchestra providing music for the Coronation Ball

Saturday, March 18

- 9:30 Painting of green stripe down Pine Street
- 10:00 Parade featuring St. Pat and His Queen
- 1:00 Knighting Ceremony at Old Football Field
- 4-7 Open Air Dance on Parker Hall Parking Lot featuring The Astronauts
- 9-1 Dance at the Armory featuring The Buckingham

UMR Debate Team Ranked High In State Tournament at Cape

New Semester Standards Chosen by Tau Beta Pi

The UMR Debate Team journeyed to Cape Girardeau last Friday for competition in the annual Missouri Association of College Speech Directors Debate tournament. Two members of the team tied for second place and returned home with three certificates of excellence for debating efforts in the junior division.

Steve Gardner and Will White posted a total of four victories against one defeat on their way to that second place tie. Gardner and White defeated teams from St. Louis University, Southwest Baptist, and Southeast Missouri State. Their only defeat came at the hands of Northeast Missouri State.

The team of Bob Wolfsberger

and Bob Jordan also debated in the junior division. Their overall record was two wins and three losses, although they did have higher speaker ratings than the team of Gardner and White. Wolfsberger and Jordan defeated teams from William Jewell College and from Southwest Baptist College.

Both teams alternated to debate the affirmative and the negative side of the resolution: That the United States should substantially reduce its foreign policy commitments.

The debaters were accompanied on their trip to Cape Girardeau by Mr. William Oesterling, faculty representative. Mr. Oesterling served as judge in the debates and as judge in the Individual Oratory Finals.

The UMR Debate Team is financed by both the Student Council and the school administration. The Miner debaters next plan to attend the National Open Debate Tournament in East St. Louis, Illinois on March 31.

Rolla Professor Given Award for Achievement

A UMR professor will be listed in the 1967 edition of "Outstanding Young Men of America."

Dr. Bill L. Atchley, associate professor of engineering mechanics is among approximately 10,000 young men, age 21 to 35, chosen throughout the country for the honor. The men, selected by a national board of editors, were chosen for their outstanding achievement in their respective fields. The annual listing is sponsored by the Montgomery, Alabama Junior Chamber of Commerce.

The book, which includes introductory messages by the honorable Arthur J. Goldberg and Leonard Bernstein, will be published in May.

The selection of grade point cutoffs and ratification of by-laws were the main items of business at the second Missouri Beta chapter meeting of Tau Beta Pi honorary engineering association presided over by president Don Shank. Other new officers for the spring semester include Wayne Hopkins, vice president; Tom Sears, corresponding secretary; Tom Meek, recording secretary; Dennis Greer, treasurer; and Harold Scheline, cataloger.

Faculty adviser is Dr. Robert B. Oetting, associate professor of mechanical engineering. Grade-point cutoffs for each class were as follows: first and second semester seniors having completed 75% of the required 143 hours for graduation, first semester — 3.00, second semester — 2.979; second semester juniors having completed 62.5% of the required 143 hours — 3.40; first semester juniors having completed 50% of the required 143 hours — 3.75. These requirements include the upper one fifth of the senior class and the upper one eighth of the junior class based on 143 hours for graduation.

The chapter will elect electees in a meeting on March 8. A smoker to introduce electees to active members will be held in the Student Union, March 22. Electee week will start April 7 and end Friday, April 14 with the electee examination. The formal initiation will be the following afternoon with an initiation banquet at the Thomas Jefferson Hall in the evening. The last two meetings of the semester include elections and installation of officers for the 1967 fall semester.

Dr. Kisvarsanyi Speaks At First AIME Meeting

Dr. Geza Kisvarsanyi was the speaker at the first meeting of the year in Viburnum of the A.I.M.E. Southeast Missouri Subsection. He gave an illustrated talk on the geology and mining at the Kiruna Iron Ore District in Sweden. He pointed out the close similarity between the Swedish and Missouri iron-titaniferous magmatic injection types of iron deposits.

to the all weather ore harbor of Narvik in Norway for export. The Kiruna mines are in the front lines of advancement in automation and mechanization of underground mines.

Missouri's Chief to Speak

Governor Warren E. Hearnes of Missouri will give the principal address at the luncheon to be held April 18 immediately following the inauguration of John C. Weaver as president of the University of Missouri.

Dr. Raymond Peck, chairman of the inaugural committee, said the luncheon will be presided over by James A. Finch, Jr., judge of the Supreme Court of Missouri and former president of the Board of Curators.

The luncheon will be held at Rothwell Gymnasium where facilities can be set up to accommodate several hundred guests.

University Dames To Meet Monday

The University Dames will meet Monday, March 13 at 7:30 p.m. in the Student Union Ballroom. The program is one which will certainly be of interest to all Dames.

Mr. F. E. Smith of Southwestern Bell Telephone will speak on "The Role of the Wife in the Business World Today." His comments will be on how the wife can be of benefit to her husband in his new position. This is indeed a timely topic for all Dames.

Our Man Hoppe

President Johnson, as you know, keeps magnanimously offering to stop bombing North Vietnam. If Mr. Ho Chi Minh will just promise to do something nice for us in return.

To check on the progress of this latest bold stroke in American diplomacy, I dropped over to the State Department for a chat with Mr. Homer T. Pettibone, Deputy Assistant Curator of Peace Feelers.

I found him opening a long, narrow package labeled, "Peace Feeler — Do Not Crush." He examined its contents with a frown. Was it a response to the President's offer?

"It appears so," said Mr. Pettibone. "They say here that if we will stop bombing them, they will unconditionally promise to stop shooting down our aircraft with Russian-built SAM missiles."

* * * *

Marvelous, I said. Nothing's angered us more than their unfair use of SAM missiles against our planes. But what of conventional anti-aircraft guns?

"Oh, they've already agreed to stop firing those if we'll halt the bombing. Nor will they challenge us with MIGs. Say, this is new. If we stop bombing them, they pledge to stop accusing us of causing widespread civilian casualties."

That sounds important, I said. Nothing's given us a worse black eye in the world press than these accusations they keep making.

"It could be the breakthrough we've been looking for," agreed Mr. Pettibone thoughtfully. "And then again it couldn't. Let's see what else is in their package."

He shook the cardboard container over his desk and sorted through the pieces that fell out. "Ah," he said, "they'll now agree to stop installing so much sewer pipe."

Sewer pipe?

"It looks like sewer pipe, but we happen to know they're using it for air raid shelters. I see they've also tossed in some specifics. If we'll stop bombing their oil storage depots, they'll stop sending clouds of black smoke up to 20,000 feet."

A help in smog control, I said.

"And if we'll stop bombing their bridges, they'll stop rebuilding them in four hours."

A constant frustration to our military, I said. These sounded like major concessions.

"Yes, we knew our policy of force would bear fruit," said Mr. Pettibone proudly. "And now if we'll stop bombing them, they're willing to promise to stop being bombed."

* * * *

What more could we ask, I said jubilantly. Peace was just around the corner. As soon as he delivered the news to the White House . . .

"I'm afraid there's no point in that," said Mr. Pettibone, stamping the package "File for Reference" and tossing it in a broom closet.

"Oh, I realize their concessions look good on the surface," he explained. "But how do we know they're sincere?"

Traffic Safety Provides Three Courts of Appeal

BY JIM PUNTCH

Miners who receive tickets for traffic violations have three courts of appeal, according to John A. Tyron, Director of Traffic Safety.

The first court is comprised of a student committee. Students on this committee have to pass certain requirements, such as having a driver's license, and never having been on probation. A student receiving a ticket, and wishing to appeal it, can fill out a petition to appear before the board. When the board convenes, about once a month, the student appears before the board and appeals his case. The board has the power to grant or deny the petition.

If the student board denies his appeal the student may then petition the faculty Traffic Safety Committee. Once again the board has the power to grant or deny the student's appeal.

Should the student have his appeal rejected again, he may appeal to the administration to have his ticket revoked, but very few students, after having been turned down by both the student and faculty board, ever follow this course of action. All of the student's appeals are handled within the University.

Traffic tickets are given out for such offenses as: parking on University lots without a permit, parking in restricted areas, parking so that you block a sidewalk, or failing to display a certificate of vehicle registration. Students can also be ticketed for moving violations such as speeding, while on University property.

Since its inception three years ago, the student board has proved to be a fair and impartial judge on its fellow students. On petitions brought before them last year the student board granted 64 and rejected 10. The faculty committee granted 20, and rejected 26 of the petitions appealed to them.

The Traffic Safety Office hands out from 75 to 100 tickets a month, but Mr. Tyron estimated that only about 20% of the students who could appeal their tickets do so, and that most tickets are taken care of through his office.

Graduate Center Offers Variety Of New Facilities

(Continued From Page 1)

appointees, and sixty graduate students.

The facilities and new equipment that will be available with the completion of the new building total to the amount of \$300,000. The new equipment includes: Electron Microscopes, infrared, ultraviolet, and mass spectrometers, ultra-high vacuum and x-ray defraction facilities. The total floor space covering 30,000 square feet.

The materials research program is a joint activity of the Ceramic, Chemical, and Metallurgical Engineering, and the Chemistry, and Physics departments.

The research program is designed to train students in independent research along with direct exposure to applied programs and progress. There are two objectives of the center's program: technical and academical.

The technical objectives are:

1. Investigation of the physical-chemical behavior of materials.
2. Investigation of physical-chemical changes resulting from environmental factors.
3. Evaluation of and solutions to reliability limitations of materials behavior as employed by engineers.

The academic objectives are to:

1. strengthen the graduate programs of the University related to research.
2. attract creative new faculty and graduate students to UMR.
3. stimulate further campus-wide faculty and student interests
4. create and maintain an environment which promotes interactions between the faculties and the students.

Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

Free Day Gives Miners Longer Easter Vacation

Mr. Bernard Schweigert
President, Student Council
206 Student Union
University of Missouri at Rolla
Rolla, Missouri 65401

Dear Bernard:

This letter is confirmation of the discussion which you and I had in my office on Thursday, February 23, 1967, concerning the request of the Student Council that Tuesday, March 28, be designated as the floating free day for this academic year.

I agree whole heartedly with you and the Council that "the Student Body should not suffer because of the action of less than one per cent of the students." Nevertheless, the actions of a very few have reflected on the vast majority of the Student body. It is encouraging to me that so many of our students have expressed in word and deed the fact that they do not agree with the few and do not condone their actions.

It is significant, to me, that the Student Council would go on record with the statement, "Presently we are looking into methods of curbing such happenings in the future and will strive to see that what happened last fall will not repeat itself."

Mr. Sam Burton reports that, at Chancellor Baker's request, he has sought to determine "Whether the Student Council was making appropriate plans for next year's Halloween activities" and, in talking with the Student Council President and committee chairman, reports that "They have recommended moving the burning of the outhouse to the intramural athletic field. They also have recommended other activities be planned. The Student Council committee will use the ideas presented by the groups Chancellor Baker asked to consider the matter." Mr. Burton states, "I see no reason why the 'Free Day' should not be granted."

It is my opinion that for the most part we have one of the finest student bodies in this country. I believe that the attitudes and actions of the large majority of our students are those of responsible and mature citizens. In particular, the efforts of the Student Council are commendable, as are those of the fraternities also.

Accordingly, I have recommended to Chancellor Baker, and he has concurred, that the request of the Student Council be granted; that is, Tuesday, March 28 be designated as a "free day" for this academic year. In this particular case (not as a matter of general policy) I have recommended also that the period beginning Monday, March 27, at 12:30 p.m. be included in the "free day." Thus, the negative hour rule would not become effective for this holiday until 7:30 a.m. Wednesday, March 29.

It is my understanding that you will assume the responsibility for advising students via the Student Council and other student organizations and will have an announcement made in the "Miner."

Sincerely,
Dudley Thompson
Dean of Faculties

LAMBDA CHI ALPHA

Officers have recently been elected for Lambda Chi Alpha social fraternity at UMR for the spring semester. They are as follows: Gary January, president; Ted Warren, vice president; John Munns, secretary; James Vangilder, treasurer; Al Faenger, pledge trainer; Dick Edwards, rush chairman; Melvin Sundermeyer, ritualist; Joe Moore, house manager; Steve Rowland, business representative; Bill Arrar, kitchen man, and Bill Trothkamp, social chairman.

Lambda Chi Alpha was organized nationally in 1909 and U.M.R.'s Alpha Delta Zeta chapter was established in 1917. The fraternity's aims among its members both socially and scholastically. The chapter participates in all campus functions and in the intramural athletic program.

TAU KAPPA EPSILON

Tau Kappa Epsilon would like to announce its new officers for spring 1967. They are: President, John B. Mitchell; Vice President, Dick Pendergrass; Secretary, Paul Woley; Treasurer, Larry Reardon; Pylortes, Bill Stewart; Historian, Claude Maxwell; Pledge Trainer, Rich Winget; Chaplain, Het Moutrie; Steward, Paul Eckert; and Assistant Pledge Trainer, Ave Fandel.

This semester TKE has initiated seven men and has at present, seven pledges. The new initiates are: John Lambert, Ron Orcutt, George Renz, Greg Praznik, and Dennis Stefanic. Our pledges are: Rich Morris, Carm Moehle, Charles West, Al Mahanna, Paul Vaughn, Andy Hubbs, and Bill Kickmeyer.

DELTA TAU DELTA

Officers have recently been elected for Delta Tau Delta social fraternity at UMR. They are as follows: Dale L. Ricks, president; Eric D. Aschinger, vice president; Ron N. Vermillion, treasurer; Kenneth K. Hamann, corresponding secretary; John H. Raaf, recording secretary; James Williams, guide; John Gregory, sergeant-at-arms, and David Dennis Beardsley, assistant treasurer.

urer.

Delta Tau Delta, a social fraternity at UMR, received its charter on this campus this year, when it became the 95th chapter (Epsilon Nu) of Delta Tau Delta in the United States.

DELTA SIGMA PHI

A new fraternity house for Delta Sigma Phi, one of UMR's 20 social fraternities, was officially dedicated in ceremonies Feb. 19.

About 100 members of the fraternity, faculty members, and guests attended the dedication which preceded a luncheon.

The new red brick house on Route 3 will accommodate 72 men in 36 double rooms. A round house near the living quarters provides a modern dining room, chapter-recreation room, and reception room.

According to Dr. Dudley Thompson, U.M.R. dean of faculties, who spoke informally at the luncheon, the new fraternity house as well as other new houses and dormitories recently built at U.M.R., represents the excellent living facilities provided at U.M.R. for its growing enrollment.

Delta Sigma Phi was founded on the U.M.R. campus March 10, 1957.

Among out-of-state guests present at the dedication was Al Tillman, professor of English at the University of Illinois, who is on the board of governors for the international fraternity of Delta Sigma Phi.

SIGMA PI

Three principal addresses by nationally known dignitaries were delivered by electronic means at the annual Founders' Day Banquet of the UMR chapter of Sigma Pi Fraternity last weekend. This Saturday evening dinner, held at the Carney Manor Crystal Room, commemorated the seventieth anniversary of the national founding of the fraternity and the following day's initiation of eleven men into the Alpha-Iota Chapter.

A special telephone-speaker hook-up, installed in 16 separate centers across the nation, connected each of the participating chap-

ters with the national headquarters of the fraternity in Vincennes, Indiana. Speaking from the campus of Vincennes University was Grand Sage Lyle H. Smith of Minot, N.D., and Honorary Grand Sage, Judge Curtis G. Shake, of Vincennes. Speaking by tape from NASA headquarters in Houston was astronaut Walter M. Schirra, Jr., a member of the three-man Apollo Spacecraft team.

Several presentations were made to an outstanding pledge, active, and alumni of the Alpha-Iota Chapter, including the annual Sigma Pi Founders' Award. This year, the Founders' Award was given to Dr. Lawrence Bahn, chairman of the Department of Chemistry at Southeast Missouri State Teachers College at Cape Girardeau, Missouri.

Dr. Bahn graduated from UMR in 1946 with a B.S. in chemical engineering. He obtained his masters degree from Washington University in St. Louis in 1949 and a Ph.D. in nuclear chemistry from the same school in 1962. Later that year, he was named to the chairmanship at Cape Girardeau.

The Founders' Award is given by the Alpha-Iota Chapter to an alumnus of the University of Missouri at Rolla, who has contributed greatly to his field of work in engineering or science, as well as to the fraternity.

UMR Concrete Conference Draws Large Attendance

About 150 representatives of engineering, education, industry and government agencies attended the annual Missouri Concrete Conference at UMR Thursday and Friday (March 9 and 10).

The conference got under way at 8 a. m. Thursday with registration in the Civil Engineering Building where all technical sessions will be held. Six papers and two panel discussions on the latest developments in the manufacture and use of concrete were presented in sessions Thursday morning and afternoon and Friday morning.

Thursday noon and evening meetings were held in the College Inn of the Hotel Edwin Long. Luncheon speaker was E.C.L. Wagner, Jefferson City, retired general manager of the Associated General Contractors of Missouri. Rex M. Whitton, Kansas City consulting

engineer, former Federal Highway Administrator, spoke on "The Need for Highways and Housing" at the dinner meeting.

The two-day event was sponsored by the U.M.R. department of civil engineering and Extension Division in cooperation with the Missouri Ready-Mix Association and the Portland Cement Association.

NOTICE!

All prospective graduates who have not made application for a diploma please check in the Registrar's Office immediately.

Freshman Leadership Awaited

(Continued From Page 1)

ter you will be invited to pledge Phi Eta Sigma, a national fraternity honoring scholastic achievement as a freshman. Inter-Collegiate Knights is a similar organization that is service-oriented and requires the freshman and sophomore to have 3.0 overall or better.

In the area of service, such organizations as Alpha Phi Omega and Circle K may be easily joined and provide the student with many projects of worth to aid the campus and community. Organizations such as Blue Key and Theta Tau are service-oriented fraternities and are open to upper classmen meeting grade-point and minimum hours completed requirements. Generally, they are not open to freshmen.

Many fine religious organizations exist on campus. The Liabona Fellowship provides weekly bible study and discussion, and Gamma Delta (Lutheran), Wesley (Methodist), Baptist Student Union, and Newman Club (Catholic) meet regularly and invite interesting speakers, discussions, and plan outings.

The area of spring athletics is very wide. If one is interested in track, golf, rifle competition, or tennis it might be worth while to try out for these sports. The athletic clubs such as rugby and soccer provide sports for those who aren't interested in varsity sports or wish to supplement them. As in the case of all the above mentioned organizations, they post meeting times regularly in the school daily bulletin (posted each day on the Student Union Bulletin Board).

Lastly, do you have any special interests? Do you like to write for the school paper or would you be interested in school radio station KMSM? If so, merely contact any member who will be glad to assist you in joining. There are numerous clubs such as Karate, Judo, radio, photo, Forensic (debate), spelunkers (cave exploring), M-Club (varsity lettermen), Pershing Rifles (military), and Rock Climbing Club.

The opportunity is there for the freshman who now feels that he is secure academically and has interest in broadening his outlook while at college. Organizations are invaluable in providing a way of meeting new friends and gaining that "something extra" that the classroom alone cannot provide. Look into organizations of your choice and join them; you will probably never regret it.

ICC Elects New Officers

ICC has recently elected officers for the spring semester. They are as follows: A. R. Lehman, Jr., president; Michael S. Clayton, vice president; Tom Dougherty, secretary, and Larry Choate, treasurer.

The Inter Co-op Council is a student organization which serves as an advisory council for the several cooperative eating clubs on the Rolla campus. The cooperative eating clubs were formed many years ago to provide meals of high dietary standards to students who do not reside in fraternities or dormitories on a cooperative low cost basis. The clubs participate in campus social events and in intramural sports and other activities.

The regular meetings of the Inter-Co-op Council are intended to resolve the problems which may arise that are common to the eating clubs, and to act as an advisory group to any club that may request advice.

NEWS for ENGINEERING GRADUATES

Continued expansion of our military and commercial business provides openings for virtually every technical talent.

As you contemplate one of the most important decisions of your life, we suggest you consider career opportunities at Pratt & Whitney Aircraft. Like most everyone else, we offer all of the usual "fringe" benefits, including our Corporation-financed Graduate Education Program. But, far more important to you and your future, is the wide-open opportunity for professional growth with a company that enjoys an enviable record of stability in the dynamic atmosphere of aerospace technology.

And make no mistake about it . . . you'll get a solid feeling of satisfaction from your contribution to our nation's economic growth and to its national defense as well.

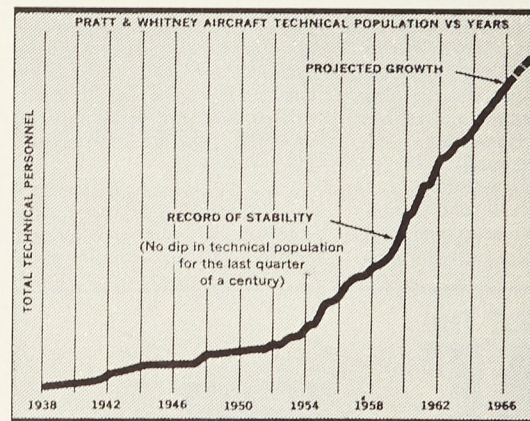

Your degree can be a B.S., M.S. or Ph.D. in: **MECHANICAL, AERONAUTICAL, CHEMICAL, CIVIL (structures oriented), ELECTRICAL, MARINE, and METALLURGICAL ENGINEERING • ENGINEERING MECHANICS, APPLIED MATHEMATICS, CERAMICS, PHYSICS and ENGINEERING PHYSICS.**

For further information concerning a career with Pratt & Whitney Aircraft, consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

MINER SPORTS

FRIDAY, MARCH 10, 1967

THE MISSOURI MINER

PAGE 7

Varsity Cindermen to Open Schedule Against Springfield

Coach Gale Bullman's Missouri Miners will open the 1967 University of Missouri at Rolla varsity track season this Saturday, March 11. Southwest Missouri State will host UMR and William Jewell College in a dual meet, starting at 1 p. m. in Springfield. This year's edition of the Miner cinder squad appears improved over last season's group. "We'll be better than last year," said student coach Ted Moore, continuing, "At least we'll have an average man in each event." Despite last year's thirty-man quad, five entries went unfilled.

Nine lettermen return to the UMR team, including Don Arney, Don Duren, and Stan Notestine. Arney, a sophomore civil engineering student from Kansas City, ran the half-mile in just under two minutes last year against Principia. Together with Duren, the two comprised half of the UMR mile relay team which finished fifth in the MIAA Conference Meet that same year.

Notestine Injured

Notestine holds the school record in the mile run, but an injury earlier this year may keep him out of action most of the season. Junior Paul Woley, from Jennings, Missouri, is returning to attempt to top his record shot out of last season, and David Gray will once again be running the hurdles. Gray placed fifth in the Springfield Relays of 1966.

Leonard Stout began practice sessions a few weeks ago throwing javelins 186 feet (the official UMR record is 186 feet, 7 inches). Unfortunately, an injury has resulted in a fractured hand, and Stout may be sidelined the entire year.

Ten Freshmen Out

Ten freshmen are trying-out for varsity berths, and according to assistant coaches Charles Finley and Moore several of them are going to make it. "Most of these men haven't run in competition," added Moore, "and we can't be sure of just how they'll perform." Both coaches mentioned Steve Ballman, a freshman Chemical Engineering student from Palos Verdes, California. Ballman ran the half-mile in 1:56 while in high school. The record at UMR is 1:59.

Also notable are Robert Smith, David Jones, and Don Pink. Smith may prove to be a good replacement for Eugene Ricker, while Jones shows promise in the 440. Pink may provide a challenge for Woley's shot put mark. With the distance men in shape

UMR VARSITY TRACK SCHEDULE 1967

Saturday, March 11	Wm. Jewell & Springfield	Springfield
Saturday, March 18	Conf. Indoor Meet	Columbia
Wednesday, March 29	Washington University	St. Louis

Friday, May 5	Principia & SWMS	Rolla
Fri., Sat., May 12, 13	Conf. Outdoor Meet	Cape Girardeau

MEET THE MINERS

Bullman, Finley, and Moore to Coach Track

The head coach of the University of Missouri at Rolla Varsity Track squad is a man who came to this campus in 1937 to serve as Athletic Director, head football coach and track coach. Professor Gale Bullman coached at Washington University in St. Louis for ten years prior to his arrival at UMR thirty years ago.

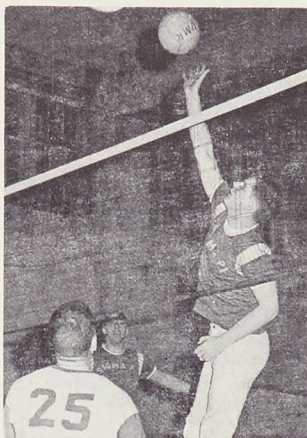

He was a nationally known football player at West Virginia Wesleyan where he graduated in 1925. Professor Bullman also holds a law degree from Washington University and is a member of the Missouri Bar Association.

In 1964, Bullman relinquished his head football coaching duties to his long time assistant Dewey Allgood. Since that time, he has devoted his full time to the tasks of the Athletic Director and var-

sity track coach. Assisting Coach Bullman will be Charles Finley and student coach Ted Moore. Finley graduated from Southwest Missouri State College in 1959, and had very successful football teams at Sarcosie and Lebanon, Missouri. Moore, who was one of UMR's top cindermen several years ago, is doing graduate work at UMR at the present time.

Phi Kappa Theta Sweeps Intramural Volleyball

Phi Kappa Theta Fraternity defeated Sigma Nu in the championship round of the 1967 intramural volleyball tournament held this past week. In Monday

Steve Neusel of champion Phi Kappa Theta stands ready to counter a spike by Don Dressler of Sigma Pi.

night's play, the Phi Kaps won their seventh straight game and their second title in the past four years of competition.

In the consolation final, the Fifty-Niners Club downed Kappa Alpha for third place. Sigma Phi

Epsilon placed fifth in the final standings, and Beta Sigma Psi took sixth place.

Phi Kappa Theta finished fourth last year and first in 1964, while the Tech Club swept first place in 1966 for the second year in a row. Lambda Chi Alpha was the runner-up last season.

Top prize for the winner was a trophy and the 300 intramural points which go with the championship. Sigma Nu received 290 points, the Fifty-Niners 280, and Kappa Alpha 270 points.

Baseball Practice Begins With Many Frosh on the Diamond

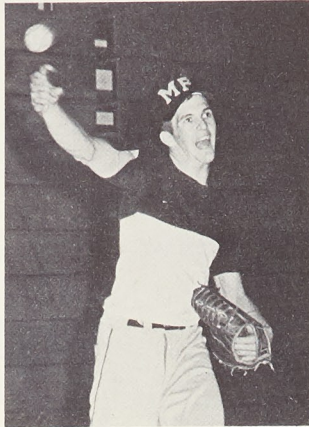

The University of Missouri at Rolla began varsity baseball practice last Monday in preparation for this spring's 18-game schedule. Forty-three men are currently out for the squad, with fifty percent of them freshmen eyeing varsity positions. Coach Leo Christopher and his group open the season on Monday, March 27, when they will meet Buena

Vista College at the UMR baseball diamond.

Larry Johnson and Ron Huegerich were the only two lettermen lost since last year's season, however, Phil Spector may be out the entire season on a hand injury incurred last summer. Spector pitched several wins in last year's campaign.

"If our pitching comes through,

we'll do good this year," noted Coach Christopher, now in his third year as director of the UMR squad. He went on to add

LOOK OUT! — Forty-three Miners are getting into shape for the '67 baseball season.

that two of his newcomers are shaping-up into very promising moundsmen, but that football and basketball have taken away two others who had outstanding potential.

Christopher expressed displeasure of the recent weather conditions in the area explaining, "Although we have been only practicing since last Monday, there were only two days when we could work-out on the diamond." The Miner mentor also stated that the lack of proper facilities and indoor equipment has kept his team weeks behind the remaining MIAA Conference schools, who began practice several weeks ago.

At the opening of the second quarter the Clayton team came back strong, and after a hard fought battle made a try. Their conversion after the try was good. The Blacks came back as Handlan scored again on a penalty kick. The game came to a close with a final score of 6-5 in favor of the UMR Blacks.

UMR Rugby Team Scores One Win, Two Defeats

Rebels vs. Blacks

The Rebels first score came in the first five minutes of play. They missed the conversion after the try. Their second score came when their scrum half ran the ball over and also making the conversion good. When the second half opened up so did the UMR Blacks. They controlled the ball and soon managed a score by Ed Sloan, the forward hooker. Tim Handlan made the conversion after the try good. The game came

the Bombers on an early score. The conversion was good. The Miners were ready to fight back as Tim Handlan managed to score on a penalty kick before the half was up. As the second half opened and then came to a close the score stayed the same. The Bombers edged one out with a 5-3 final score.

UMR Blacks vs. Clayton

In the first half, the Blacks ran through smooth ground maneuvers and the forwards were hand-

KNOCK 'EM DOWN — Miners pile on a lone opponent in one of the recent games.

to a close with a final score of 8-5 in favor of the Rebels of St. Louis.

Bombers vs. UMR Blacks

As the first half opened so did

led under the leadership and excellent ball control of George Fries. The Miners jumped out front as Tim Handlan scored on a drop kick from 30 yards out.

Central Swims To Second MIAA Title

Central Missouri State College's defending MIAA swimming and diving champions, successfully retained their crown during conference championship competition Thursday, Friday and Saturday, Feb. 16, 17, and 18.

The Mules collected 77 points as they splashed by strong swim efforts of Northwest Missouri State College, with 61 points; Southeast Missouri State College's 26 total; and Southwest Missouri State College's 20 point finish.

New conference records were set in 11 of the 15 events scheduled for the meet, one in the new event added to this year's conference championships the 1650 yd. freestyle.

Three time winner and recipient of Outstanding Swimmer Trophy, John Clover, Northwest Missouri, set records in the 1650-yard freestyle, 200-yard freestyle, 100-yard freestyle, and was a member of the Northwest team setting a record in the 400-yard freestyle relay.

SIDELINES

BY JIM WEINEL

Coaches Bullman, Moore, and Finley have 24 hopefuls trying out for varsity track positions, but perhaps the greatest relief for them is the fact that they should have all entries filled with suitable personnel. Most of you track enthusiasts will remember that the Miners had five events vacant last year and several men were competing in events which they had not trained for earlier. In addition, it appears that UMR will make a fine showing in the mile relay. Ted Moore is confident of this and he adds, "We've got at least six people who can run pretty good quarters. This is what it takes to comprise a fast four-some." Last season, UMR ran the mile relay in 3:21.2, which is just one tenth of a second under the MIAA Conference mark of two years ago. Unfortunately improvements were not held just to the Miner squad, and the time was good for only fifth place in 1966. Don Arney and Don Duren are back from that group, and the additional talent may put UMR ahead in this event.

Construction of the proposed athletic facilities may be just a couple of months away now that additional funds may be appropriated. The original allotment of two million dollars proved to be inadequate when bids were called for several months back however, the Missouri Commission on Higher Education has recommended that the Federal Government approve a grant of over \$700,000, under Title I of the Higher Educational Facilities Act of 1963. The additional funds will enable the University to build the complex including most of the facilities which are needed for the physical education and athletic programs. So far there has been no word from federal authorities on this topic.
