UNIVERSITY OF MISSOURI - ROLLA

VOLUME 54

FRIDAY, MAY 17, 1968, ROLLA, MISSOURI

NUMBER 30

Miners Pick Nixon Over McCarthy

Students Pick McCarthy In Choice 68 Primary

College students voted for Sen. Eugene McCarthy (D-Minn.) and an end to the war in Vietnam in Choice '68, the national campus presidential primary held April 24.

McCarthy polled 26.7 per cent of the almost 1.1 million votes cast, followed by Sen. Robert Kennedy (D-N.Y.) with 19.9 per cent and Republican Richard Nixon with 18.4 per cent.

A combined 62.6 per cent of the students voted for either an immediate withdrawal of American troops or a reduction in American military involvement in Vietnam against 30 per cent who voted for either increased or all-out military effort. Some 58 per cent voted for either a permanent or temporary halt to all bombing.

And 79 per cent voted for either job training or education as solutions to the urban crisis.

Following is a breakdown of the results, with about 90 per cent of the vote in:

For President	Votes	% of Total
Eugene McCarthy (D)	285,988	26.7
Robert Kennedy (D)	213,832	19.9
Richard Nixon (R)	197,167	18.4
Nelson Rockefeller (R)	115,937	10.8
Lyndon Johnson (D)	57,362	5.3
George Wallace (Amer. Ind.)	33,078	3.0
Ronald Reagan (R)	28,215	2.6
John Lindsay (R)	22,301	2.2
Hubert Humphrey (D, write-in)	18,535	1.7
Charles Percy (R)	15,184	1.4
Mark Hatfield (R)	7,605	0.7
Fred Halstead (Soc. Work.)	5,886	0.5
Martin Luther King (Ind.)	3,538	0.3
Harold Stassen (R)	1,033	.01

Referenda:

What course of military action should the United States pursue in Vietnam? (Figures are per cent of total)

Immediate withdrawal of American forces	17.6
Phased reduction of American military activity	45.0
Maintain current level of American military activity	7.0
Increase the level of American military activity	9.0
All-out military effort	21.0

What course of action should the United States pursue in regard to the bombing of North Vietnam:

Permanent cessation of bombing	29.0
Temporary suspension of bombing	29.0
Maintain current level of bombing	12.0
Intensify bombing	26.0
Use of nuclear weapons	4.0

In confronting the urban crisis, which of the following should receive highest priority in governmental spending? (in per cent of vote)

Education	40.0
Job training and employment opportunities	39.0
Housing	6.0
Income subsidy	3
Riot control and stricter law enforcement	12.0

President Johnson's name was on the ballot and Humphrey's wasn't because they were printed before Johnson withdrew from the race. Martin Luther King's name was on the ballot because he was assassinated after the ballots were printed. Humphrey got 58 per cent of the write-in votes, followed by Negro comedian Dick Gregory who had eight per cent of the write-ins and 2 per cent of the total vote.

A final total of about 1.2 million students were expected to vote in the election. Of 2,526 colleges contacted by Choice '68, 1,470 participated. But because this included most of the large schools, there was a potential vote of about five million out of a total of seven million U.S. colleges.

The primary was run by a board of all student body presidents and college editors, and was sponsored by Time magazine, which provided most of the funds, and by Univac, which compiled the ballots on one of its large computers in Washington. Students were also allowed to vote for second and third choices, allowing the computer to measure the depth of their support.

McCarthy appeared on 64 per cent of the ballots in either first, second, or third position, followed by Kennedy on 52 per cent of the ballots, Rockefeller on 47, Nixon on 42, Lindsay on 21, Johnson on 19, Reagan on 16 and Wallace on 10. The rest of the candidates had only small totals.

(Continued on Page 4)

The results of the Choice 68 presidential primary for the UMR campus showed some rather startling figures. In many areas, UMR students deviate an appreciable amount from the national results.

NOTICE!

Graduates may have as many guests as they wish at the May commencement exercises provided the ceremony is held on Jackling Field. If it rains and the ceremony is moved into the Rolla High Gymnasium, graduates will be allowed only two guests each due to limited seating capacity of the gymnasium.

The registrar's office will issue tickets in advance (two per graduate) to be used only in case of rain. Watch the bulletin boards for information on when the tickets will be issued.

The winner at UMR is Richard Nixon. Mr. Nixon received 29% of the UMR first place votes. Although he received only 7% of his Republican party first vote, more than 50% of the independent vote for first place and 28% of the Democratic first place votes. Senator Eugene McCarthy, victor on the national scene, received 20% of the total first-place ballots cast nationwide in the primary. Nationally, Richard Nixon polled 19% of the first-place votes.

The votes of the foreign students were compiled nationally also. Senator Robert Kennedy was the first choice of the foreign students at UMR with 35%.

At UMR, the top three, in order, are: Richard Nixon, Eugene McCarthy, and Robert Kennedy. Senator McCarthy picked up much support from the second and third place votes that he received.

On a nationwide level, the top three are, in order: Eugene McCarthy, Robert Kennedy, and Richard Nixon.

On issues involving our action in Viet Nam, the student body at UMR was a definite hawk. Definitely higher percentages for UMR want an increased effort in Viet Nam.

At UMR, 32.6% are for an all out effort to win in Vietnam. In comparison, the national percentage urging all out effort is 20.7%.

The national figures concerning an intensification of bombing show that 25.8% are for increasing the bombing. Here, 45% of the voters asked for an intensity of bombing.

The national averages showed that 3% of the voters favored the use of nuclear weapons. But the Miners voters had a 7.5% vote for nuclear weapons, more than twice the national average.

The Sandpipers Give Concert To Capacity Audience at UMR

Last Monday night, a group specializing in the soft sound of music, the Sandpipers, played before a near capacity crowd of Miners in the Rolla High School Gym. This final Student Council Lecture of

sound.

Although the performance did start a little late, the evening was rewarding for those who stayed. Bearing the hot salty atmosphere of the gym the Sandpipers did an

song from "Exodus." A wide variety of songs ranged from religious to the present day pop hits.

The three young men comprising the Sandpipers are Mike Piano, the fanciful leader of the group; Jim Brady, a mellow, but serious musician, as he writes most of the group's lyrics; and Richard Shoff, the witty humorist who proved quite popular with the audience.

Adding to the pleasure of the Miners was a rising side group of two young women known as Sunny and Stormy. This rising young group was well received by the students as the vivacious Stormy and Sunny chanted their new sounds in music.

In one regard the Sandpipers were a new experience for some of the UMR students. Most of the students here are accustomed to the fast-beat sound of modern pop music. The Sandpipers are a group who deviate from the familiar sound, yet manage to produce a new type of sound which is soft and mellow. To many, this type of soothing rhythm is a means of relaxation - a slow, warm beat. All in all this warm music was well received by the audience.

The fine performance provided a short recess in studying before the upcoming finals. The Sandpipers and the lively group of Sunny and Stormy provided an evening of fine entertainment for everyone.

THE SANDPIPERS - IN CONCERT.

the year proved to be just as successful as the other groups which performed before the UMR student body throughout the year. Throughout the entire evening the group sang a number of hits, all popularized by their unique soft

excellent job. Their famous record, "Guantanamo," was recognized as one of their better hits. They also sang such songs as "Impossible Dream, Louie, Louie, What I Say," a medley from "West Side Story," and the theme

Senator McCarthy Is Prime Candidate For Presidency According to Choice 68

Washington, May 2 — Results released today of the first nationwide primary ever held in the U.S. showed Senator Eugene McCarthy decisively outscoring a large field of announced and unannounced candidates.

Of the 1,072,830 votes cast by students on over 1200 campuses in CHOICE 68, McCarthy was the first choice of 285,988, followed by Senator Robert Kennedy with 213,832 votes and Richard Nixon third with 197,167 votes. Over 44% of the students who voted will be eligible to go to the polls this November.

Results of the April 24 nationwide election were announced by Robert G. Harris, Executive Director of the student-organized vote, at a press conference this afternoon at Sperry Rand's Univac Division offices in Washington, D.C.

Total first place votes for other leading candidates were 115,937 for Nelson Rockefeller, who had not announced his candidacy when the vote was held, and 57,362 for President Johnson who had withdrawn his.

Vice President Humphrey, who was not on the ballot, garnered 18,535 write-in votes, over 60% of all write-ins cast. No other candidate received a significant write-in vote.

Students also indicated their second and third class choices for president on the ballot. McCarthy led in second choices with 209,820 votes, followed by Kennedy with 175,914 Rockefeller with 170,319, and Nixon with 118,960.

No other actual or potential candidate made a significant showing in first-place votes. Among them, however, George Wallace

garnered 33,078 votes, Ronald Reagan 28,215, and John Lindsay 22,301. The Socialist Worker candidate, Fred Halstead, managed just under six thousand votes while Harold Stassen barely exceeded one thousand.

McCarthy scored well in all parts of the country but built his lead particularly in the East, where he led Kennedy by a large margin. In the South, Kennedy was the leading Democratic candidate, but Nixon outpolled both Kennedy and McCarthy in the southern states.

Some 11,000 foreign students also voted in the election, registering 36% of their vote for Kennedy. McCarthy was the foreign students' second choice with 28%.

Among the 1,072,830 students whose votes have been tabulated thus far, over 90% of the indicated total student vote, the great-

est number registered their party preference as Democratic, followed by Independent, then Republican. Within Democratic ranks party support was greater for Kennedy than McCarthy, but the Minnesota Senator showed greater strength among Republicans and Independents. Among Republicans, Rockefeller drew considerable support outside his party.

In the election, which was jointly sponsored by Sperry Rand's Univac Division and TIME magazine as a public service, students were also asked to indicate their preferences on military policy and bombing in Vietnam and on priorities for relieving the urban crisis. About 45% of the students voted for reduction of the nation's military effort in Vietnam, 29% for temporary suspension of all bombing, and 21% for all-out bombing.

The most popular means of alleviating the urban crisis were education and jobs, both about equal.

Nationwide Choice 68 Poll Results Express College Student Views

Washington (CPS) — Choice '68 Executive Director Bob Harris has just announced the results of the national campus primary and had opened the floor for questions.

A television reporter sitting in the front of the rather Spartan auditorium at Univac's building here leaned forward and asked, "What is the significance of this vote?"

The answer seemed so obvious Harris had a little trouble answering the man. The significance ought to be easy to see: the pundits, from Reader's Digest to the Washington columnists who have been saying that the majority of students aren't as much against the war, aren't as left wing as the demonstrations make it appear, are wrong.

A look at two simple sets of statistics points this out:

— More than 62 percent of the students voted against the war, with 45 per cent calling for a phased

reduction of the American military commitment and 17 per cent demanding immediate withdrawal. Less than half that number — 30 per cent — favored an increased or all out military effort. A miserable seven per cent support the present policy.

— If one divides the candidates into two groups, the "liberals" and the "conservatives," the students voted overwhelmingly, 61.6 per cent to 30.4 per cent, for the "liberals."

Such a division is partly arbitrary, of course. But one can group nine candidates — McCarthy, Kennedy, Rockefeller, Lindsay, Percy, Hatfield, Halstead, King, and Stassen — as "liberals" on the basis of their desire for some kind of end to the war and swift, decisive action to deal with the problems of racism and poverty. The other five candidates — Nixon, Johnson, Humphrey, Wallace, and Reagan — can be classed as "conservatives," with the basic view of continuing the fight in Vietnam and using force to put down racial unrest.

Both sets of statistics, then, make the point clear: a substantial majority of students — almost two-thirds — oppose the war and want action to bring black people into full participation in the society.

This is not to say that activists — the kind who take over administration buildings when intransigent administrations balk at even minuscule change — are in the majority. But it is obvious that their causes, if not their tactics, or their proposed solutions, have the support of a majority of students.

But the press — and the Establishment view which the press as a whole represents — is unable to see this, probably mostly because they don't want to see it.

The emphasis given by the press is one of the keys, not just in morning after coverage (which was lousy-page 27 in the New York Times, no mention in the Washington Post), but in the coming weeks and months. The press could make Choice '68 as significant as New Hampshire, Massachusetts, or Indiana. But the press probably won't.

Some in the press will probably try to discredit it, because of the turn-out, (although more people voted than did in the New Hampshire or Massachusetts primaries) and the fact that Vice President Humphrey wasn't on the ballot (although he probably would have drawn votes primarily from the conservatives and left the liberals' 61 per cent almost untouched).

But most of the press will probably ignore it, which will mean that its impact will be slight and those in the Establishment, like convention power brokers, who are inclined to ignore students anyway, will be able to do so.

That will have dire consequences for all phases of the Establishment — from President Johnson to Dow Chemical Company.

It is safe to say that a majority of the students who voted in Choice '68 still believe the American political system can be saved and is worth saving. But if a million such students can make their opinion so clearly known and yet be laughed at or ignored, then the message from the Establishment to the students will also be clear: We aren't going to pay any attention to your views. The only way you can win a hearing is to interfere with us so blatantly that we have to notice you.

The students can have only one answer to that.

Choice 68 Poll Favors Reduction In Vietnam War

Washington, May 2 — Students polled by the nationwide CHOICE 68 National Presidential Primary last week voted in favor of a phased reduction of U.S. military activity in Vietnam, temporary suspension of the bombing, and education as the area that should receive the highest priority in government spending to meet the "urban crisis." The poll was sponsored by TIME magazine and Sperry Rand's Univac Division.

45% of the students polled favored reduction of U.S. military efforts in Vietnam and 17% favored immediate withdrawal, while 21% voted for an "all-out U.S. military effort."

29% voted for a suspension of bombing, 28% for cessation, while 25% voted to intensify the bombing in North Vietnam. 11% favored the current level of bombing, and 4% favored the use of nuclear weapons.

Education and job training were favored for top-priority in federal urban spending with 40% and 39% respectively. Riot control was third with 12%. Housing with 6% and income subsidy with 3% were fourth and fifth.

"BRIDGE ON THE RIVER KWAI"

William Holden, Alec Guinness, Jack Hawkins, Sessue Hayakawa. Filmed in the teeming jungles of Ceylon, this overpowering spectacle concerns the inmates of a Japanese prison camp in the early days of World War II. Alec Guinness plays the captured British Colonel; Sessue Hayakawa the Japanese commander. The two men though enemies have a natural respect for each other. Holden cannot understand this relationship between victor and vanquished. Fearing Guinness' definition of honor as much as Hayakawa's ruthlessness, he escapes. But because of his knowledge of the camp he is "drafted" to lead a squad of commandos to destroy the bridge. Shows are at 2:00, 4:30, and 7:00 p.m. in the Student Union Ballroom.

Students Work in Industry on Cooperative Training Program

Students at UMR can work for A's and B's one semester and a paycheck the next. That's what about 400 are doing who are enrolled in UMR's cooperative engineering-science training program.

The plan allows students to alternate a semester of study at UMR with a semester of actual work in industry. Students can begin the program after their freshman year and can keep alternating school with work until graduation - about five years later. It takes them on the average of one more semester to complete college, but in most cases, their financial earnings from their work semesters will just about put them through college.

Says one co-op student, "Not only did I support my college education, I gained valuable experience in actual industrial work which allowed me to obtain a high-paying job upon graduation from UMR." In five work semesters, students may add up to over a year's on-the-job experience.

According to Ed Vaughn, director of the program at UMR and associate professor of petroleum engineering, the program has been in effect since 1955 at UMR and is growing more and more popular. At present, there are over 80 companies throughout the United States participating in the UMR co-op program.

About 12 percent of the UMR student body takes part in the plan - a percentage far too low to fulfill industry demand.

"Any student who has demonstrated during his freshman year that he is able to complete an engineering or science education in a satisfactory manner is allowed to apply for the program," says Professor Vaughn. Students are given a list of industries all over the country who want students to alternate school with work at their plants. Industries who are interested in the program get a list of UMR students who want to work. Industry representatives come to campus and interview the students, invite them to visit the plant and usually to come to work. In most cases, the industry offers the student a full-time job upon graduation - usually at a higher pay rate than if the student had no job experience.

Students go to work in many different types of engineering and science industries. Among the many industries which participate are the Ford Motor Co., Lockheed Missile and Space Co., the McDonnell Douglas Corp., Missouri Pacific Railroad, Monsanto Co., National Aeronautics and Space Administration, Phillips Petroleum Co. and the U.S. Army Corps of Engineers. Students work at many different kinds of jobs which acquaint them with industrial work not only in their field

but in many other areas - giving them a well-rounded look into the job world.

According to Professor Vaughn, there are many different ways for a student to earn part or all of his college expenses including scholarships, fellowships, loans and part-time jobs.

"The co-operative engineering-science training program carried on at UMR and at many other universities across the nation," he says, "is one of the best ways for a student to go to school and earn money and, at the same time, obtain on-the-job experience. It gives him a good insight into his career choice and a better opportunity for higher starting salaries starting out in jobs."

"It's a good way to go to college," he says.

The Missouri MINER
UNIVERSITY OF MISSOURI AT ROLLA

SECOND FRONT PAGE

"If we study cooperatively, RUGPAD suggests I take the GOTHIC PERIOD, GIL VICTORIAN, ED ROMAN, AN' HE'LL STEAL A COPY OF THE TEST."

UMR Students Choose Outstanding Teachers

Twenty University of Missouri - Rolla faculty members have been chosen Outstanding Teachers for 1967-68 by their students and fellow faculty. Chancellor Merl Baker has announced.

Recipients of the awards were selected in a campus-wide vote, scored by computer on the basis of a weighted combination of normalized student vote, honor society vote and faculty vote.

Seven of the 20 will receive monetary awards in addition to teaching award certificates. Six, chosen at random by computer from those ranked highest by undergraduate students, will receive undergraduate teaching awards of

\$500 each from Standard Oil (Indiana) Foundation, Inc. Another award of \$250 from the MSM-UMR Alumni Association will go to a faculty member picked by computer at random. (Previous winners of cash awards were not eligible this year.)

Recipients of the Standard Oil undergraduate teaching awards are Professors O. K. Crosser, chemical engineering; Samir B. Hanna, chemical engineering; Glen Haddock, mathematics; B. K. Robertson, chemistry; Michael Grimes, electrical engineering; Bobby G. Wixson, environmental health. Dr. A. J. Penico, mathematics, will receive the alumni association award.

Others in the outstanding teacher group are Professors Ward R. Malisch, civil engineering; W. A. Andrews, civil engineering; Jack Bobbitt, English; Robert L. Davis, engineering mechanics; K. G. Mayhan, chemical engineering; G. E. Vaughn, petroleum engineering; R. F. Bruzewski, mining engineering; Charles Antle, mathematics; T. S. Chen, mechanical engineering; A. E. Morris, metallurgical engineering; Robert Wolf, metallurgical engineering; Herbert Alcorn, computer science; J. P. Govier, petroleum engineering.

Seven of these outstanding teachers were listed in the 1966-67 group. They were Professors Hanna, Bruzewski, Wolf, Andrews, Malisch, Bobbitt and Mayhan. Dr. Andrews also received the Circle K. Outstanding Teacher award in 1966.

Outstanding Engineers to Be Awarded Professional Degrees

A total of 16 who have made outstanding contributions to engineering will be awarded professional degrees at the UMR commencement exercises May 26.

The ceremony will be held at 2:30 p.m. on the old Jackling Field or, in case of rain, in the Rolla High School Gymnasium. Over 700 UMR students will be awarded degrees.

Recipients of the type of professional degrees they will receive include: Robert E. Peppers, plant

superintendent for the St. Joseph Lead Co., Herculeaneum, metallurgical engineering; James R. Patterson, president of Central Constructors, Inc., Sikeston, civil engineering.

From St. Louis will be John R. Bodine, vice president of the Bodine Foundry Co., metallurgical engineering; Ralph A. Ecoff, Jr., vice president-chief engineer of the Nooter Corp., engineering mechanics; Norbert W. Maurer, structural consultant for Sverdrup and Parcel, Inc., engi-

neering mechanics; Fred C. Schneeberger, retired president of Picker X-Ray, Mississippi Valley Inc., electrical engineering, and R. Ray Shockley, vice president and general manager of Southwestern Bell Telephone Company's Missouri - Illinois area, electrical engineering.

Robert K. Boyd, vice president and member of the board of directors of the Guy F. Atkinson Co., Los Angeles, Calif., civil engineering; A. Daniel Fentzke, manager of research and development of special refractories for the Hartford Division - Emhart Corp., Hartford, Conn., ceramic engineering; Frank C. Appleyard, director of mining and exploration of the United States Gypsum Co., Chicago, Ill., mining engineering; Theodore S. Weissmann, assistant to the vice president - management planning and controls of the space division of the North American Rockwell Corp., Downey, Calif., ceramic engineering.

Ellsworth W. Hudgens, general manager of Dow Industrial Service Division of Dow Chemical Co., Midland, Mich., chemical engineering; Ralph Emerson McKelvey, director - engineering of the Timken Roller Bearing Co., Canton, Ohio, mechanical engineering; Robert C. Perry, director of automotive sales of the glass division of Pittsburgh Plate Glass Co., Pittsburgh, Pa., mechanical engineering; William H. Gammon, vice president and director of the Ashland Oil and Refining Co., Houston, Tex., chemical engineering and Robert L. Topper, executive vice president of the Pyrofax Gas Corp., a subsidiary of Texas Eastern Transmission Corp., Houston, Tex., mining engineering.

Math Department Holds Faculty Award Dinner

Eighteen members of the mathematics faculty at the University of Missouri - Rolla were honored at the mathematics department faculty award dinner Friday evening, May 10 at the Carney Manor.

Service pins were presented by Dr. J. R. Foote, chairman of the mathematics department, and to faculty members who had completed 5, 10, 20 and 25 years on the UMR faculty.

Rolf M. Rankin, professor emeritus of mathematics, received a special award on the occasion of the fifth anniversary of his retirement. He retired in 1963 after 41 years on the faculty and served as department chairman from 1942 until his retirement.

Professor D. H. Erkiletian, the only other mathematics staff member who has served over 25 years, also received special recognition. He joined the Rolla faculty in 1942.

Four were given 20-year service pins. They were Professors Charles A. Johnson, Ralph Lee, S. J. Pagano and Richard H. Kerr.

Ten-year pins were presented to Professors Thomas S. Baird, Carl S. Cave, Richard E. Oeffner, Ronald J. Rozell, Jack M. Scrivner, Lyman T. Smith and Frank G. Walters.

Receiving pins for over five years of service were Professors Herbert R. Alcorn, Lee J. Bain, August J. Garver, James W. Joiner and Howard D. Pyron.

Dr. Foote reviewed the accomplishments of the faculty during the past year, making note of extra-curricular work and special honors received by faculty members. The awards were presented as a surprise to the recipients. Dr. Foote said that he hopes to make the award dinner an annual affair.

NOTICE!

The library staff wishes to take this opportunity to thank all the students and organizations who have volunteered help in moving to the new building. Because of the delays in finishing and furnishing the building, it was not possible to make the move during the present semester.

The offer of student help through Prof. Wolf, representing the Interfraternity Council, and Mr. Lou Moss and Mr. Bob Ward, Student Personnel Office, is greatly appreciated.

However, we plan to greet you in the new building when you come back to school this summer or next fall.

Miner Editorials, Letters, and Features

Letter From LBJ

THE WHITE HOUSE
WASHINGTON

TO THE 1968 GRADUATING CLASS
UNIVERSITY OF MISSOURI AT ROLLA

Few moments equal the joy, the satisfaction, and the fulfillment of graduation. It is a personal and permanent victory, an honor to last a lifetime. To each of you I extend my sincere congratulations.

The time is past when our national interests could be served by a few who elected to make their country's affairs their own. The complexity of our age and the particular burden history has thrust upon us -- to preserve freedom where it exists and to foster it where it does not -- demands every American hand and every American heart. The greatest responsibility falls to those who have the most to give.

I cannot tell you the extent of America's influence in shaping the new order of world affairs -- though I believe it will be great.

I cannot measure our national ability to abolish ignorance and sickness and injustice wherever these ancient enemies degrade humanity -- though I believe it is limitless.

I cannot predict that America's future will match and exceed the brilliance of her past -- though I believe it will.

The answers will not come in my lifetime, but in the future -- your future. I am confident that you who have proved your ability to achieve, to endure, and to win, will serve that future with distinction.

Lyndon B. Johnson

McCarthy Wins Choice 68 With Democrat Vote

(Continued From Page 1)

Rockefeller, however, led in total number of second and third place votes with 244,608, followed by McCarthy with 238,233, and Nixon with 213,040.

Rockefeller was also mentioned more often as a second or third choice behind the two leading Democrats than was Nixon. For example, of those who voted for McCarthy 42 per cent voted for Rockefeller as a second or third choice to 19 per cent for Nixon. More Kennedy voters named McCarthy as their second or third choice than vice versa. Sixty-six per cent of those who voted for Kennedy would take McCarthy as a second or third choice, compared to 56 per cent who would take Kennedy if they couldn't get McCarthy.

Bob Harris, executive director of Choice '68, said there would be many more results from the computer to be compiled from cross-checking various votes against one another. Some of the early results from such cross-checking included:

Not surprisingly, 85 per cent of those who named McCarthy as their first choice preferred either a phased reduction of military activity or immediate withdrawal from Vietnam. Kennedy followed with 69 per cent of his supporters favoring one of those alternatives. Reagan and Nixon's supporters were those most heavily in favor of an increase in military activity in Vietnam.

McCarthy ran strongest on the two coasts, with Kennedy generally running second. McCarthy ran weakest in the South, where Nixon ran strongest but Kennedy ran a surprising second.

There was no basic difference in voting among age groups, which Harris said presented a good argument for letting 18-year-olds vote. About 44 per cent of the voters will be eligible to vote in November. Most of the candidates ran about the same among those eligible to vote and those not eligible to vote.

Kennedy got more Democratic votes than McCarthy but the Minnesota senator was the overwhelming choice of independents, beating Kennedy 116,000 to 56,000, and also held a slight edge over him in Republican votes. Rockefeller got slightly more Democratic votes than Nixon but the former vice president was the overwhelming favorite among Republicans, leading Rockefeller by 74,000 votes. Neither of the two Republicans did very well among independents.

Thirty-seven per cent of the students listed themselves as Democrats, 29 per cent as Republicans, and 33 per cent as independents.

McCarthy Supporters Want U.S. Out of Conflict in Vietnam

Washington, May 2 -- Over half of the supporters of Senator Eugene McCarthy, winner of the CHOICE 68 National Collegiate Presidential Primary, voted for either a phased reduction of U.S. military activity in Vietnam or immediate withdrawal of U.S. troops. The primary was conducted on college and university campuses last week and was sponsored by TIME magazine and Sperry Rand's Univac Division.

85%* of McCarthy's supporters preferred either a phased reduction in U.S. military activity or immediate withdrawal of U.S. forces from Vietnam. This figure represents the most support for those two courses of action among all the candidates. 56% of McCarthy's supporters preferred phased reduction while 29% preferred immediate withdrawal of U.S. forces. 51% of those voting for McCarthy also favored a permanent cessation of the bombing in North Vietnam.

69% of Kennedy's supporters preferred either phased reduction or immediate withdrawal of U.S. military activity in Vietnam; 50% voted for phased reduction and 19% for immediate withdrawal. 30% of Kennedy's supporters voted for permanent cessation of

the bombing, while 33% voted for a temporary suspension of the bombing.

Reagan and Nixon were the two Republicans representing the most support for increased and all-out military effort in Vietnam. 65% of Reagan's supporters and 52% of Nixon's chose those two courses of action.

56% of Wallace's supporters preferred all-out U.S. military effort in Vietnam.

Reagan and Wallace represented the most support for use of nuclear weapons on North Vietnam. 12% of Reagan's supporters voted for this bombing policy, while 54% of his supporters chose intensified bombing. 19% of Wallace's supporters preferred use of nuclear weapons while 54% chose intensified bombing.

Nixon represented the greatest support for maintaining the cur-

rent level of bombing, with 15% of his supporters voting for that choice.

Lindsay, Hatfield, and Rockefeller were the three Republicans with the most support for immediate withdrawal from Vietnam and phased reduction of U.S. military activity. 68% of Lindsay's supporters, 68% of Hatfield's, and 63% of Rockefeller's voted in those two categories.

All candidates drew strong support for education and job opportunities as deserving highest priority in dealing with the 'urban crises,' Wallace, Reagan, and Nixon, however, were the only candidates also drawing significant support for riot control and stricter law enforcement as the top priority course of action. 48% of Wallace's supporters, 32% of Reagan's, and 20% of Nixon's voted for riot control and stricter law enforcement.

MINER

Curators Ballot Award Contract For New Stadium

A construction contract for new stadium facilities at UMR was approved by the Board of Curators of the University of Missouri at its regular meeting in Columbia May 10.

This new construction will include a steel grandstand, press box and dressing facilities. The grandstand and press box will be built on the west side of the field opposite the existing grandstand. The new grandstand will increase UMR's seating capacity by 2,000 to 5,500.

The dressing room facility, which is to be constructed at the south end of Jackling Field, will provide locker rooms, meeting, training and storage rooms, offices and shower rooms for athletic teams and events. At present there are no dressing rooms or similar facilities available at the UMR football stadium.

Construction on these facilities will begin immediately and completion is anticipated in time for use this coming fall. The Maggi Construction Co., Inc. of Rolla was awarded this contract for \$223,699.00.

Want to help drill an oil well?

You're about to graduate in physical science, biological science or mathematics. You're looking for a company that offers unusual opportunities for advancement.

We're a leader in domestic and international oilfield service operations. We're looking for candidates for our Drilling Fluid Technologist School scheduled for June and July. If you think we've got a lot in common, fill out the coupon below and mail it to us.

Employee Relations: Baroid Division National Lead Company
P.O. Box 1675, Houston, Texas 77001
Please send me more information about a career as a Drilling Fluid Technologist.

Dr. Martin Luther King's Death To Affect Civil Rights Push

CPS COMMENT

What is there left to be said about Dr. Martin Luther King, Jr.?

Too much has been said already, and by men who would do better to keep silent — politicians who would as soon have been seen in friendly company with Mao Tse-Tung as with King joined their voices to the lamentation. But this was predictable.

It's best to say very little — to say that King was a man of faith and superlative courage, a man who misunderstood the realities of power in this country and the more subtle ways of race hatred, but who held to his word. The hatred from the right and the disdain from the left cannot change these things.

But it's not so important now to discuss what King was like.

What is important is to consider whether or not his murder will make a difference. More than one columnist has written that, yes, it will, that Dr. King's death will do more to advance the cause of the Negro than any demonstration he might have led in his life, and just look at the Open Housing Bill. . . .

Legislative measures like the open housing bill should not be dismissed out of hand. Very possibly it will be of some value over time to the black middle class, though for now it serves mainly as a grotesque comment on America, illuminating very clearly how much more we as a people care for property rights than for human rights.

It is difficult not to see the bill as a gesture. And the same, unfortunately, can be said of much of what colleges and universities have done in response to the murder.

A large number of schools have established Martin Luther King, Jr. scholarship funds, and many have established committees to work in one way or another for more rights for black people.

A few schools have gone further. Stanford University, for one, has pledged to double the number of its "minority group" students; to double the proportion of its minority group employees; to admit ten minority group students who do not meet the standards of admission; and to give black students top priority for financial aid.

The president of the University of Iowa has ordered the study of the feasibility of establishing an Institute for Afro-American Studies, and has authorized an increase in the school's admissions staff to look for more black students (the competition for "qualified" black students, which has been heated in the past few years, promises to become even more so).

Much of the response to the murder has come from students. At Rogers University in New Brunswick, N. J., for example, students held a march into the city to protest discrimination. The student council there has taken the

position that any fraternity practicing discrimination ought to be banned from the campus.

Students at Colgate University in upstate New York held a sit-in in the administration building to protest fraternity discrimination there. The students association at the University of Minnesota has sponsored a sit-in at the office of the mayor in St. Paul, protesting the stockpiling of rifles similar to those used in Vietnam by the city's police department. And so forth.

These efforts ought not to be derided. They are preferable to doing nothing at all, simply holding a march or two and leaving it at that.

But that they are sadly inadequate, there should be no doubt.

The Kerner Report on last summer's upheavals in the cities said the United States is becoming two societies, "separate and unequal." It's a catch phrase, too much of one really, because it conjures up images of the old Jim Crow days, with separate bathrooms, segregated movie houses and seats in the back of the bus. Nevertheless, not much thought is required to suggest what is really implicit in the phrase.

It is no secret that this is what "unequal" means. The point is, if this country is to avoid developing into a larger model of South Africa, then the balance of institutional power must be radically changed.

It would be nice to imagine that the country's colleges and universities, with their brand new urban studies departments and their search for black "talent," are in the process of aligning themselves with the ghettos, but nothing could be further from the truth. Like any growing institution a university thrives on money, and ghettos are not where the money is to be found. The universities are as locked into the white Establishment as IBM.

Can this be changed? Not likely, but students ought to make the effort. The campaign of Sen. Eugene McCarthy indicated that students can make a difference politically, though it's true that the comparison between getting out the vote for McCarthy and attempting to realign the power balance of the country is obviously a distant one.

Nevertheless, students should work for such a realignment, because hardly anyone else is doing it, and because it could be the country's last chance.

It won't simply be a matter of getting rid of fraternities that discriminate, nor of pressuring administrations to admit more black students.

Universities won't make a dent in the country's institutional racism until they threaten to deny white society what they so willingly now provide — its intellectual support.

Students, therefore, should organize now to put greatly increased pressure on their school administrations and boards of trustees, and they should encourage faculty

members and alumni groups to do the same. They should press to have their schools cut off research aid to any institution, whether public or private, that will not support massive aid programs to the ghettos.

They should demand that university officials intervene with all their powers on behalf of ghetto dwellers in conflicts with governments, whether local, state or national. At public universities in particular, they should encourage important members of the faculty to give notice they will leave unless state legislatures move to implement major programs of social improvement.

There are a great many other goals that students can work for, but these can be worked out at individual campuses. It's not difficult to discover the many ways in which universities contribute to racism in this country. The difficult part will be devising strategies to change this situation.

The murder of Martin Luther King, Jr., following close on the announcement that negotiations will be starting in Vietnam, provide an excellent starting point for students to begin fighting racism in meaningful ways. The fight should have begun in earnest long ago, but it's better to begin now than not at all.

Chancellor Urges Union Of Schools and Industry

Closer interaction between industry and technological education was urged today by Chancellor Merl Baker of UMR in a speech to Springfield community leaders at the Hickory Hill Country Club. The dinner meeting was conducted by the Springfield Chamber of Commerce.

Chancellor Baker deplored the "brain drain" that has occurred in Missouri since World War II. "A loss of population is always damaging to economic development, but when the loss includes a predominance of our top brainpower, it is even more severe," he said.

Dr. Baker listed climate, natural resources and beauty, transportation and geography as plus factors which should attract the nation's top people. However, because of the lack of employment opportunities, the reverse is taking place, he said.

"Missouri has about two per cent of the nation's college age population, yet we graduate almost three per cent of the nation's B.S. engineers," the chancellor pointed out. "Missouri has a valuable asset in this productivity of engineers, and this will be increasingly important to the state. Let's keep the graduates here and have the industry move in to gain their services, not the reverse," he added.

Chancellor Baker cited UMR's position as the leading technological university, not only in Missouri, but also in this region. The Rolla campus has the largest engineering enrollment west of the Mississippi River and ranks eighth nationally in producing engineering degrees.

Among UMR's contributions to industry, he named technical manpower, short courses and conferences, cooperative research programs, extension courses. Indirectly, he said, UMR aids economic development by attracting new businesses, venture capital and government investments, by providing new ideas which produced continued progress and by production of Ph.D. level engineers and scientists each of whom contributes about \$50,000 annually to the economy.

A question and answer period followed Dr. Baker's speech.

Despite fiendish torture dynamic BIC Duo writes first time, every time!

BIC's rugged pair of stick pens wins again in unending war against ball-point skip, clog and smear. Despite horrible punishment by mad scientists, BIC still writes first time, every time. And no wonder. BIC's "Dynamite" Ball is the hardest metal made, encased in a solid brass nose cone. Will not skip, clog or smear no matter what devilish abuse is devised for them by sadistic students. Get the dynamic BIC Duo at your campus store now.

UMR Bahai Club Chooses Delegate

Mr. Farhang Darabi who is serving as Vice-President of Bahai Club has been appointed to represent Bahai Club of UMR in a National Bahai Youth Conference which will be held in Wilmette, Illinois, June 22-23.

Over 1,000 students and representatives of many different Bahai Clubs of different universities and colleges all over the United States plan to attend the conference.

One of the plans of the Conference is to find a more effective way of introducing the message of Bahaullah which is unity and peace, and to find a unified way that all different Bahai Clubs can cooperate and work with United Nations, especially for this year of 1968 which has been known as Human Rights Year by the UN.

MINER SPORTS

Miner Nine First in Division, Take Title From SMS Bears

By Chuck LaJeunesse

The UMR baseball squad captured the MIAA Southern Division Title from the Bears of SMS last week despite the fact that the game was rained out. On Saturday, May 11, after only two innings of play, foul weather ended the final contest played in determining the division champions. The Miners led that ballgame 2-1. As it turned out, since rained-out games were not to be replayed, the Miner's better record, 4-3, became the deciding factor in choosing the titleholder.

This victory puts the ballclub into post-season competition. On Friday and Saturday of this week, the Miner nine will face the Mules of Central Missouri State in a best two out of three series for the MIAA conference championship. The schedule includes a twin-bill on Friday and a third game on Saturday if needed. Winners of this series will have earned the right to play in the NCAA small college championship. Need-

less to say, the Miners will be fighting tooth and nail.

It would be fair to assume that the Miner ballplayers and their coach, Leo Christopher, are looking towards the next two weeks with anxious anticipation. Here are some of coach Christopher's comments. "The boys are in real good spirits and, needless to say, quite happy with our accomplishments. If our pitching holds up

we'll do OK. We may have trouble because we're down to only four pitchers with Carpenter having trouble with his grades and Termini out with a shoulder injury."

"Warrensburg has some of the best pitchers in the nation. I believe two of them are ranked in the top five among small colleges. They have a well balanced team, but so do we."

Cindermen Finish Sixth Break Four Records

By Glenn Jensen

It was a gloomy day in Warrensburg on Saturday, May 10, as bad luck continually dogged the UMR trackmen. The Miner squad smashed four school records but still managed only a distant sixth place in the conference standings.

Northeast Missouri State of Kirksville captured their twelfth straight MIAA championship, they were followed closely by Cape Girardeau with respective point totals of 87 and 78. Springfield was a distant third, tallying 44 points while Warrensburg scored 29 points. To round out the scoring, Maryville was fifth with 21 points as the Miners tallied 13 points.

Dave Gray broke the UMR record in the high hurdles during the preliminaries, but fell during the finals and did not place. Dave ran a 14.6 timing in the preliminaries to better the old mark of 14.8 seconds. Dave also beat his 440 yard intermediate hurdles mark as he placed third in 55 seconds. His previous record was 56.6 seconds.

Steve Ballman smashed his own 880-yard run record as he clocked in at 1:55.2. Steve placed second in a strong field of half-milers. In

the three mile run, Stan Notestine improved upon his old record by 35 seconds as he was timed in 15:20.9.

Misfortune showed up in the form of injuries as both Don Arney and Terry Grieve qualified for the finals in the 440-yard dash and the broad jump respectively. Neither, however, was able to perform in the finals and both failed to place.

The 1968 season was one of many record breaking performances, and a look at the members of the squad will reveal the reason. The total of 26 men who were with the team all season composes the largest squad in the history of the school.

Leading this year's team in total points scored was co-captain Dave Gray. Dave compiled 93 1/4 points as compared to his nearest teammate Don Arney, who scored 80 1/2. Next on the list is sprinter Bob Smith who netted 53 points. Pole vaulter Paul Smith scored 50 points this season and was followed closely by Steve Burns with 46. Next on the list are Stan Notestine with 36 points, Steve Ballman 35 1/2, Leonard Stout 33, Terry Grieve 27, Lorenzo Hill 25, and Ed Hanstein 24.

NEMS Takes Fifth Title Miners Sixth in MIAA

By Chuck LaJeunesse

The UMR netmen could not seem to make any effort successfully last weekend as they failed to score in the MIAA Tennis Championship match held at Warrensburg. It was Kirksville sweeping the match as they took four of the seven individual hon-

ors. The crown was their fifth in as many years.

The scoring and positions went as follows: Kirksville, first with 27 points; Springfield, second with 18 points; third was Maryville with 14 points; Cape Girardeau was fourth with four points; and fifth and sixth spots went to CMSC and UMR with three and zero points respectively.

In Friday's play, Joe Reynold in the number one singles match fell to Maryville's Bob Schelling by scores of 3-6, 6-4, and 1-6.

In the number two singles match, UMR's Rich Hill was soundly defeated by Cape's Lou Conley 2-6 and 0-6. Bob Fleckal, who drew a bye on the first round, lost to SMS's Lynn Morris by scores of 2-6 and 2-6 in the third of the five singles events.

In the fourth singles play, Neil Rousch was defeated at the hands of Don Bowman of CMSC 3-6 and 1-6. Dick Herrin, despite the fact that he had beaten the same man earlier in the season, could not seem to settle down as he lost his first round of the number five singles competition 4-6, 6-4, and 8-10.

The doubles competition fared no better as UMR's first team, consisting of Reynolds and Rich Hill, was defeated by SMS's Tom Adams and Dave Hart 1-6 and 4-6. Our last effort, put out by Bob Fleckal and Dick Herrin, who drew a bye on the first round, fell short of its mark in losing to SMS's Lynn Morris and Jack Weimer 4-6 and 5-7.

Coach Morgan also had more pleasing information to bring home. He has again been selected as chairman of an committee to have six singles and three doubles matches per meet instead of the present five and two system. "The boys work pretty hard and we hate to leave them home," he said. "The coaches are generally in favor of it, but the athletic directors can't see the extra cost of transportation, lodging and the like. Golf does it, the "big eight" and the "big ten" also do it. So why can't we?"

SMS Golfers Throw Miners Second Loss In Conference Meet

By Glenn Jensen

Russel Orms of Springfield led all golfers as SMS captured the 1968 MIAA conference match. The tournament, held at Warrensburg, was scored on the lowest total of strokes for 36 holes.

Southwest Missouri won with 797 strokes and remained the only team to defeat the talented Miner squad which finished second with a team score of 810. Kirksville managed third with an 814 total and fourth, fifth, and sixth went to Cape Girardeau 837, Warrensburg 839, and Maryville 869.

Orms fired a 149, two strokes ahead of UMR's Fred Parks. Other top ranking linksmen were Allen Dennis SMS, Steve Monroe SMS, and Mike Brake of Kirksville who all shot 157 scores.

For UMR, Fred Parks had a 36-hole total of 151, Don Traut fired a 159, Steve Coats a 161, Bob Palmer 167 and Bob Brinkhoff 172.

During the first round on Thursday, the Miners had their troubles on the par 72 Whiteman Air Force Base course. The squad was tied for second with Kirksville, sixteen strokes off the pace set by the SMS golfers. The team improved considerably on Friday and overcame the Bulldogs, but fell short of the powerful Springfield team.

The Miners ended their season with a 12-1 record for dual competition, their only loss coming at the hands of conference "champs," Springfield.

'Mural Managers Select Fix as Athlete of Year

The intramural managers of the respective campus organizations met last week to select the intramural man of the year and also the winner of the consolation trophy. Elected by the managers as the intramural athlete of the year was Frank Fix of Phi Kappa Theta. Frank was a member of the champion Phi Kap volleyball team. Sigma Phi Epsilon was the recipient of the consolation trophy.

Various topics were discussed and passed by the managers during the meet. With the field house nearing completion the program will be altered accordingly next year. New weight classes have been established for the wrestling competition. They are as follows: 123, 130, 137, 145, 152, 160, 167, 177, and heavyweight. Varsity athletes who are on spring sports teams will be permitted to take part in the bowling tournament. Three changes were instituted into the softball rules. A fifteen run rule after three innings of play will be observed next season. Also when a game is in progress and is stopped because of rain it will be rescheduled and start from the beginning. On Monday, Tuesday, Wednesday, and Thursday there will be 9:00 contest.

The following rules were clarified and stated as such:

1. Students on Co-op program are not eligible to participate while away from UMR.
2. Graduate students must pay the activity fee to be eligible.
3. Greeks and independents must be financially affiliated to be eligible.

Coach Van Nostrand requested that all organizations have their intramural manager for next year notify his office as soon as possible.

Red Keeps Intramural Fields in Excellent Condition for Play

By Sports Feature Writer John Berger

Much of the credit for the continued successful intramural program we have here at UMR each year belongs to Charles "Red" Worstell. Results of his fine effort are displayed every time a varsity or intramural team steps onto a well maintained field. Even with the expanding facilities, which creates more complex problems each year, his excellent work continues.

Mr. Worstell, who is a native of Bixby, Oklahoma moved to Rolla in 1930 and has made his home here ever since. Red, a grandfather of just 4 weeks, has three daughters two of which are married and the third is presently in the 5th grade at Benton School.

During World War II Red was with the 112th Calvary Division where he was in a machine squad. In the South Pacific during the Phillipine Campaigns, he was awarded three Bronze Stars. After the war Red worked at several jobs in and around Rolla. UMR obtained his services in 1952 and he became a member of the Athletic Department four years later. He has served in this position for 12 years.

In his spare time Red has a variety of outside interests. For several seasons Red has been catcher for the Ridgeview Christian Church Softball team where

the switchhitter has batted a respectable .300. He also enjoys horseback riding, hunting, and fishing on a 920-acre farm belonging to his brother-in-law's and himself. Charles also plays an occasional game of handball, a sport in which many students claim he has only nominal success!

Red is very happy in his work

here at UMR and is proud of the exceptional interest and cooperation shown by the students through all the intramural and varsity sports. He has attributed the increasing popularity and quality of the intramural program to the expanding facilities and an increased emphasis placed on the program by the athletic department.

Intramural Champions for 1967-68

INTRAMURAL RESULTS 1967-68

Team and Individual Champions

Table Tennis

Singles Champion	Peters, Engineers Club
Singles Runner-Up	Gnelest, Campus Club

Lambda Chi, '59ers Sweep Softball Semi-Finals

By Larry Bauer

Lambda Chi Alpha and 59ers Club set the stage for a climactic season of softball by winning their semifinal events to advance to the championship game. The 59ers scored all their runs in the first inning to down Sig Ep 4-1, while Lambda Chi outslugged MRHA 9-5 later on in the evening, May 9.

MRHA drew first blood in the first inning on a single, two walks, and a passed ball but Lambda Chi came back in the second to tie the score at 1-1 on back to back singles and a run scoring double play. The third inning provided most of the fireworks of the contest. MRHA opened the inning by scoring three runs on a homer by Marty Brenner and then adding one more on a single, a fielders choice, and then another single.

Undaunted by the sudden 5-1 deficit, Lambda Chi rallied on four singles, two walks, an error, a wild pitch, and a hit batsman to score five runs. They increased their margin in the fourth inning by scoring three more runs. When the dust cleared, the score stood at 9-5.

Neither team was able to tally in the remaining innings and Lambda Chi emerged the victor into the finals, on Tuesday night, May 14. David Cobb pitched for MRHA while Ted Warren took over for injured Larry Helfin for Lambda Chi Alpha.
