SATURDAY, OCTOBER 19

- 9:00 A.M. Registration — Student Union
to
Noon
9:00 A.M. Board of Directors, MSM Alumni Association — Annual Meeting — Student Union — Room 214
10:30 A.M. Centennial Committee — Annual Meeting — Room 104 — Mechanical Engineering Building
12:00 Noon* Class Reunion Luncheons — Classes of 1923, 1928, 1933, 1938, 1943, 1948, 1953, 1958 and 1963.
St. Louis Section Hospitality Hour — Conference Room Carney Manor Inn
2:00 P.M. Football Game — Miners vs. Warrensburg Mules — New Jackling Field (Alumni will occupy seats in the west stand)
6:30 P.M. Awards Banquet — Crystal Ballroom — Carney Manor Inn
9:30 P.M. Annual Meeting of the MSM Alumni Association — Crystal Ballroom — Carney Manor Inn
8:00 P.M. Homecoming Dance — Ballroom Student Union
to
12:00 P.M.
9:00 P.M. Presentation of Homecoming Queen and Candidates — Ballroom Student Union

Weaver to Dedicate Library

Everybody's going to have a good time Oct. 18-19 at UMR when students, faculty and staff, alumni and guests celebrate with homecoming festivities.

in nearly every fraternity and campus organization, banquets, receptions and alumni meetings.

Homecoming celebrators are

early arrival's dinner at the Carney Manor Crystal Ballroom.

Festivities will resume Saturday (Oct. 19) with registration from 9 a.m. to noon in the Student Union. The annual meeting of the alumni association board of directors will be held at 9 a.m. in the Student Union. The centennial committee will hold its annual meeting at 10:30 a.m. in Mechanical Engineering, 104. At noon, reunion luncheons will be held for the classes of 1923 at Baxter's; 1928 at Zeno's; 1943 at Frederic's; and 1933, 1938, 1948, 1953, 1958 and 1963 at the Carney Manor.

The football game (UMR Miners against the Warrensburg Mules) will begin at 2 p.m. on the New Jackling Field. An awards banquet honoring alumni faculty and friends of UMR will be held at 6:30 p.m. in the Carney Manor Crystal Ballroom. William C. Myers, Jr., president of the University of Missouri Board of Curators, will speak. At 9:30 p.m. the annual meeting of the alumni association will be held in the ballroom.

While the alumni, faculty, administration and guests are dining, UMR students will be enjoying the homecoming dance in the Student Union Ballroom where Lonnie Dean and the Van Dykes will be playing. The dance will be held from 8 - 12 p.m. The homecoming queen and her court will be presented at 9 p.m. at the dance.

To Be Dedicated Friday...

There will be a parade of the queen candidates, a rousing football game, house decorations depicting Miner-thought-up themes, dances in the Student Union and

expected to arrive in Rolla from all parts of the country on Friday afternoon (Oct. 18). They'll be registering in the Student Union from 1 to 5 p.m.

At 2 p.m. — something special this year — there will be a ceremony dedicating the new UMR library. Dr. John C. Weaver, president of the University of Missouri, is scheduled to speak. After the dedication there will be a tour of the library.

The homecoming parade — featuring 27 homecoming queen candidates — will be held at 6 p.m. in downtown Rolla. At 7 p.m. there will be a welcoming and

Advance Tickets to Be Sold In General Lectures Program

The UMR Student Council, meeting recently, outlined the policy for the sale of advance tickets for the Halloween General Lecture featuring Johnny Rivers and show

The Student Council stated that advance tickets will go on sale in the Student Union beginning October 23 and continuing until 3,500 tickets are sold or until October 30.

The purpose of this restricted ticket sales program, it was stressed by the Council, was to allow the maximum benefit to those students who have supported the bulk of the General Lectures program in their student fees.

The tickets will be sold to any Miner possessing a valid UMR identification card. He may purchase one or two tickets. The first ticket will cost one dollar (\$1.00), the second (for his wife or date) will cost two dollars (\$2.00). The total cost for two tickets will be \$3.00.

Each student must show his identification card both to purchase tickets and also to be admitted at the Rolla High School Gym. Only wives and dates will be admitted without an identification card.

If, however, the 3500 tickets are not sold in advance, the remaining tickets will go on sale the evening of Oct. 31 at the Rolla High School Gym to anyone on a first come, first served basis.

Admission Prices Raised By Athletic Commission

The Athletic Commission at UMR has recently decided that an increase in admission prices for football and basketball games will take effect this year. This increase will bring the prices in line with most of the other schools in the MCAA Conference. The ruling changed the prices of football games from \$2.00 to \$2.50 and the basketball game admission charge from \$1.25 to \$1.50. There was a general consensus among the board that since the proposed increase in student fees was not passed, the extra money needed

for the athletic program would have to come from higher admission charges. The extra revenues would be used partially for new equipment and for the replacement of old equipment and old worn out uniforms, pads and other miscellaneous things which are involved in the athletic program. The rest of the money will be needed to counteract the increased cost of transportation and feeding on the road of our teams when they travel to play away from Rolla.

Finalists Chosen In Class of '66 Fountain Design

Four finalists have been chosen in the class of '66-sponsored fountain design contest. They are:

David P. Echert, ME
Mike Heimsoth, EE
Jim Huck, ME
Leon Wideman '68, CE

A distinguished panel of five persons consisting of: Dr. Merl Baker, UMR Chancellor; Mr. Paul Dowling, Nooter Corporation President; Professor Willard Summers, UM Landscape Architect; Mr. Robert Bruce, UMR Student Council President; and Mr. Harold Schelin, Class of '66, picked the finalists from a group of 50 student entries.

Three contest winners will be chosen from the finalists by a poll of the Class of '66. The first prize winner will receive \$100.

The designs of the finalists will be displayed in the lobby of the Student Union at Homecoming.

Major Views Explained by Candidates

HUBERT HUMPHREY

On the War on Poverty

There is no reason in America — with unequaled wealth and agricultural productivity — for anyone to go hungry.

It is immoral to allow some children to suffer from malnutrition while others in America are concerned about the dangers of overeating.

It is time to make an adequate diet part of the Bill of Rights of every American, and to be sure our farmers get a fair return for their product.

* * *

We have done more about poverty in the last four years than in the thirty that went before. But, there is still so much to be done. Our country is only half awake, half at work, about what poverty really means. For too many people, it's still only a bad dream — about a riot in a slum. I am going to drive it home hard in this campaign not just that poverty is wrong — but that it can be eliminated — by us — in our time.

* * *

The same courage that is required to wage war in Viet Nam must be applied to wage war on the vestiges of deprivation and poverty in this country. I think the American people would like to win a war in their own country. I think they would like to be able to do something for their own people and I think I can rally them to get them to do something for their own people.

* * *

The victims of poverty don't want to endure the indignity of the dole. They want skills, not scraps; work, not welfare; independence, not idleness; opportunity, not paternalism.

RICHARD NIXON

Outlines His Latin Program

There was a gasp from the 2900 students jamming the field house, but the questioner went on to challenge Nixon to detail his program for "revolution" in Latin America.

Nixon spoke without hesitation and without notes for almost six minutes in reply. The ovation he received from the college audience was the most significant event in a consistently successful day of stumping across east-central Wisconsin in preparation for the April primary.

"Latin America needs radical social change," the former Vice President began. "It needs a revolution. What it does not need is what Fidel Castro has imposed on Cuba."

Then, citing suggestions from Walter Lippmann and President Fernando Belaunde Terry of Peru, he outlined without hesitation what he called the "three key points for remaking Latin America."

First, he said, "the 200 million people living on the edges of that continent" should be given American aid in "building the great highway that will open the interior of that country."

"I don't know if that satisfies you," Nixon told Kellerman. "The kind of revolution I'm talking about doesn't mean going in and blowing up countries. But I think we've had enough marching feet in Latin America, and we need some helping hands."

The fieldhouse exploded in applause, and Nixon left to a standing ovation, whose importance transcended the immediate scene.

To campaign, aides, it meant that Nixon had not only survived but triumphed in the first con-

frontation with a youthful audience since he opened his comeback presidential campaign, gambling that he can sell himself to a new generation of voters as the man who can offer the "new leadership" he says America needs "for the last third of the century."

GEORGE WALLACE

On Senior Citizens

"To permit our senior citizens to live under conditions that provide less than the bare necessities of food, clothing, shelter and medical care is unthinkable and appalling. My concern in this field is not a position assumed for political gain. I have a long and consistent legislative record in support of measures benefitting the aged. I feel it is a man's duty to help the old."

In these words, Governor George C. Wallace renewed his pledge to help the senior citizens of Alabama when he addressed the State Legislature in its first regular session after he took office in 1963.

And throughout his four years as governor, just as he had done as a member of the Legislature, George Wallace gave the senior citizens of Alabama more than lip service. He gave them results.

When Gov. George Wallace left

office in January, 1967, old-age pensions were at an all-time high in Alabama — \$6 above the Southern average. Recognizing this, Gov. Wallace stated: "We are going to work for even more assistance to our senior citizens. We are proud of the advancement of aid to them, but we realize their growing needs and we are going to work toward fulfilling these needs."

It was while he was governor that the Commission on Aging was formed in Alabama and this commission has been credited with doing much for the senior citizens of the state.

The big breakthrough in aid for the elderly came when Gov. Wallace first took office. He immediately did away with whiskey agents who had been drawing huge sums of money as representatives of distillers. Instead, Gov. Wallace imposed a three per cent privilege license on these distillers and the money was earmarked for the senior citizens and the mentally ill.

Dr. Cain Appointed Chairman Of "New" Liberal Arts Division

At a recent meeting the University of Missouri Board of Curators, upon recommendation of President John C. Weaver, established the Division of Liberal Arts at UMR.

Dr. Merl Baker, chancellor for the Rolla campus, has appointed Dr. Marvin Cain to serve as director of this new division for the current academic year and Dr. Jim Pogue for 1969-70. Dr. Cain is chairman of the Department of Social Sciences and Dr. Pogue is chairman of the Department of Humanities.

During their terms as divisional directors, Drs. Cain and Pogue will serve administratively on the same basis as the school deans.

This new division is further recognition of the increasing role liberal arts must play in the academic and administrative structure of UMR if it is to continue its stature of excellence and its growth as one of four Universities of Missouri campuses. Not only does this new structure emphasize the contributions that the liberal arts make to the education of engineering and science students, but it also enhances the opportunities for other students to achieve a college education in the liberal arts themselves. At the present time, UMR offers the Bachelor of Arts degree in economics, English, history and psychology, with new degree programs anticipated in the near future. UMR is also one of the few universities in the midwest which offers courses in the liberal arts in conjunction with the very latest

courses in science and engineering.

The new division is composed of three departments: humanities, social sciences and physical education.

At the present time the Department of Physical Education does not have a degree-granting program, but serves UMR exclusively in providing the physical development so essential to a complete and well-rounded university education. Chairman of the physical education department is Professor Dewey Allgood.

This physical education department has been handicapped in recent years by inadequate facilities. The department is looking forward to an expanded curriculum in the new \$2.7 million multipurpose auditorium-gymnasium which is now under construction and should be ready for use sometime early next spring. The building includes space for indoor intercollegiate athletic events in addition to complete indoor intramural athletic facilities and will also serve the campus in several non-athletic capacities.

The Department of Humanities, in addition to the B.A. degree in English, offers course work in philosophy, French, German, Russian, Spanish, music and speech. The department faculty has essentially doubled in the past four years and is actively engaged in scholarly research as well as teaching.

The Department of Social Science offers the B.A. degree in eco-

nomics, history and psychology. In addition, it provides courses in sociology, political science and education. At present the department has 12 faculty members who hold the Ph.D. degree; several others will complete their doctorate during this academic year. Many of the department professors are engaged in research and scholarly writing in the fields of economics, history and psychology and are participating in both regional and urban programs in Missouri.

Still another example of this division's growth is the new humanities and social sciences building. Final funding was approved by the Missouri Legislature this summer and bids for the building will soon be taken. Construction on the \$1 million facility which will house departmental classrooms, offices and laboratories, will begin this fall with occupancy anticipated in early 1970.

Montoya's Superior Performance Captivates Capacity Audience

Carlos Montoya, world famous Flamenco guitarist, presented an outstanding performance on October 9 in the Student Union Ball-

room at 8:00. Playing before a capacity crowd of Miners with standing room only after 7:30, Montoya showed them his style of playing with very successful results.

After a brief introduction Montoya quickly captivated the audience with his first piece, "Alegrías," a Spanish gypsy song which brought a generous round of applause. And the more the crowd clapped the more outstanding his performance became. With such pieces as "Macarem En Tienties," a Montoya arrangement which brought to mind visions of exciting bullfights; "Bulerías," a rousing Flamenco gypsy song; "Zambrilla," another rhythmic gypsy song; "Tarrantos," "Garrotin," "Targo and Tanguillo," and more of the classic music of Spanish gypsy heritage with its pulsating rhythm, vibrato, and romantic nature, Montoya dominated the evening.

Montoya's perfected style of playing, a combination of "hammering on" — playing with one hand on the neck of the guitar, hammering the strings and other difficult and complex styles, was a great crowd pleaser at UMR.

Montoya received a standing ovation at the conclusion of his performance.

The program was presented by the UMR Student Union Board.

MONTOKA PERFORMING AT UMR.

James Murphy Selected UMR Alumni President

James J. Murphy and Peter F. Mattei of St. Louis will be installed as president and executive vice president of the University of Missouri - Rolla MSM Alumni Association at the association's annual meeting during homecoming at UMR Oct. 19. Murphy is president of the Murphy Company, St. Louis, and Mattei is executive director of the Metropolitan Sewer District, St. Louis. Dr. Thomas R. Beveridge, chair-

man of the UMR departments of geological engineering and geology, will be installed as alumni secretary-treasurer.

John A. Walker, general superintendent of Armco Steel Corporation, will be installed as alumni director of an area made up of Iowa, western Missouri, Nebraska, Kansas and Oklahoma.

Francis C. (Ike) Edwards is executive secretary of the association.

Campus Library Honored With Publication Exhibit

The University of Missouri Press has an exhibit in the Library (glass exhibit case on the third floor near the Special Collections Room). The exhibit will be in place for about a month.

One item of particular interest is the "From Start to Finish" of the book by UMR's Dr. Marvin Cain, "Lincoln's Attorney General, Edward Bates of Missouri." This gives a copy of a manuscript page, galley proofs, page proofs, jacket design, copper plate engraving, the finished book and a review of the book.

Other parts of the exhibit include some titles of interest in the following fields: History, Literary Criticism, Literary Frontier Series, Science, Recordings, Art, The University Studies, and the Lecture Series. Also shown are Honor Award Books and Honor Certificates.

Mr. Max Baird of the Press put up the exhibit.

AN EDITORIAL

On Athletic Prices . . .

The recent decision by the UMR Athletic Commission in favor of a general increase in athletic gate prices has serious implications which the Athletic Commission must not have realized.

By taking on the old supply and demand paradox, the Commission has increased the supply of tickets available (the new football stands and new gymnasium) and yet have also increased prices while the demand, for all practical purposes, remains constant.

The result???

One and a half weeks ago we had one of the worst crowds for a parent's day football game in recent years. Homecoming, although certainly better, threatens to fall short of previous years because Miners can "stay home and watch the Cardinal game on T.V. and save the \$2.50 (his date's admission) for beer."

A solution????

The athletic commission should reexamine its policies and consider a new priced "student" ticket. The "student" ticket would sell for \$1.75 or \$2.00 (rather than the \$2.00) to college age men and women not enrolled at UMR. The result could only be to reduce the already heavy burden of the Miner and allow him and his date to enjoy a UMR football game.

• MILDENSTEIN

GUEST EDITORIAL

Miner Responsibilities . . .

Every party weekend, Miners are faced with the often frustrating task of acquiring motel accommodations for their dates. The difficulties of this problem have compounded by the actions of thoughtless and disrespectful students in the years past. It seems that a considerable percentage of the University students who leased motel rooms for party weekends have proven themselves not capable of exercising the degree of judgment and consideration which is normally expected of young adults. The case in point is the wanton destruction of motel property, which is neither inexpensively nor conveniently replaced. Coffee tables, lamps, drapes, carpets, mattresses and even doors have been on the list of items which have had to be replaced after a party weekend. Such damage may not be maliciously intended but it is none-the-less unnecessary.

Motel owners are not unreasonably disturbed about accidental damage which is voluntarily brought to their attention by the person responsible, and most often they will not demand recompense if the damage is not great and obviously unintended.

On the other hand, the motel owners and managers of Rolla and the surrounding area have verbally agreed that any undue degree of discourtesy and/or damage to motel property during Homecoming weekend will result in an unequivocal refusal to lease any accommodations to UMR students for future party weekends. It would, therefore, seem advisable, if we wish to find suitable, convenient accommodations in the future, to conduct ourselves in a manner befitting the maturity and fairness with which we wish to be regarded.

LITTLE MAN ON CAMPUS

Vietnam Representative Speaks Of Peace in Southeast Asia

By D. GARETH PORTER
College Press Service

A 28-year-old representative of South Vietnam's lower house has made the Assembly's first serious peace proposal departing from the uniform hawkishness which the Assembly has displayed on the war issue.

In an interview with College Press Service, Deputy Ly Qui Chung, leader of the "People's Bloc" in the Assembly, called for a halt in the bombing of North Vietnam and a token U.S. withdrawal to set the stage for negotiations. He advocated a political amnesty and guarantee of participation in elections as a party for the Southern Viet Cong.

Chung, a former journalist and prominent campaign aide to Tran Van Huong when he ran unsuccessfully for the Presidency last year, has established himself as the leader of the liberal left forces in an assembly where reaction has held sway. Last March, he tried to introduce a motion for a debate on a no-confidence vote against the then premier, Nguyen Van Loc, with Huong. In April, he organized a group of deputies who drafted a "message for peace" to leaders in both North and South Vietnam, appealing to them to negotiate "under the sign of mutual concession."

Last month, Chung outlined publicly a proposal for postwar Vietnam which he called a "Malaysia-type regime." He advocated a withdrawal of all foreign forces and bases and the participation of

the National Liberation Front as a lawful, but non-Communist, political party.

Later, in an interview with CPS, he elaborated further his suggestion for negotiating a peace settlement. The first phase of the settlement would involve moves toward deescalation by the U.S. and North Vietnam, beginning with a complete halt in the bombing of North Vietnam. If this were followed by a reciprocal act by Hanoi, he suggested that the U.S. pull back five or ten thousand troops from Vietnam. This could be done, he pointed out, without affecting the war effort, but its psychological and symbolic

importance would be very great for it would show North Vietnam that the U.S. is bargaining in good faith and would make it easier for the U.S. public to support the war.

The second phase envisioned by Deputy Chung would then consist of "true negotiations on precise points." The primary object would be the mutual withdrawal of North Vietnamese and American troops so that the problem would once again become an internal South Vietnamese matter. At this point, Saigon would make a solemn promise that there would be no vengeance against those who

OUR MAN HOPPE

Presidential "Plot" Revealed

Herewith is another unwritten chapter of political history from The Making of a Loser — 1968. Its title: "The Greatest Plot of All."

* * *

At the time, political observers were at a loss to explain the strange developments of the 1968 presidential campaign. Their private consensus was that the democratic process had gone mad.

Why had the Republicans nominated their weakest candidate? Why had the Democrats followed suit? Where was George Wallace getting the seemingly-unlimited funds to wreck what little chance the major party had of garnering a majority? What was a Spiro Agnew? Who...

But in retrospect it can now be seen that the eventual winner waged one of the most brilliant campaigns in the annals of politics.

The story begins with the surprise withdrawal from the race on March 31 of President Johnson, who had no hopes of re-election, saddled as his Administration was with Vietnam, riots and growing public unease.

With President Johnson out of the picture, the pieces fell in place one-by-

one just as the eventual winner planned.

The Republican pros, emboldened by this sign of Democratic weakness, passed up a proven vote-getter like Rockefeller in favor of a two-time loser, closer to their hearts, Dick Nixon.

The Democrat pros, figuring that even the most ineffectual candidate possible could beat Nixon, nominated him.

And it was the eventual winner, of course, who secretly financed the entire Wallace campaign.

By mid-October the public was thoroughly appalled by the whole miserable business. The polls showed that 17.2 per cent disliked Humphrey and Wallace more than Nixon; 15.8 per cent had more contempt for Nixon and Wallace than Humphrey; 12.3 per cent hated Nixon and Humphrey more than Wallace; the remaining 54.7 were undecided which of the three would be the greatest disaster.

It was into this chaotic situation that still another bombshell was dropped. On October 21, Mr. Johnson revealed that he had long promised Humphrey that his loyalty would be rewarded with the Presidency. "And as of right

now, he's got it," said Mr. Johnson, "because I resign."

The experts promptly ascribed Johnson's resignation to a last-gasp attempt at giving Humphrey some stature. But most gloomily predicted that, even so, all three candidates would go down to defeat. They did.

* * *

For on election-eve a familiar figure strode before the nationwide television cameras to make a dramatic appeal for a write-in vote for himself.

After vigorously attacking "the sorry record of the Humphrey Administration," he called for a change. He cited his experience in high office and noted that he was neither a two-time loser, a sycophant nor a Southern know-nothing.

Here, obviously, was precisely the candidate a confused Nation had been yearning for. Thus it was that the most brilliant campaign of the greatest master politician of them all came to a successful fruition.

And Lyndon B. Johnson was elected President in a landslide.

Miner Eye on Art

By PHYLLIS McNALLY

The terminal dates of the Renaissance cannot be clearly fixed, for the changes which characterized it appeared in different countries during different periods of time. In general, this period lasted from the middle of the fourteenth century to the middle of the seventeenth.

Feudal systems, small wars, and primitive communications in a geographically isolated world tended to frustrate coherent art development. The Church thus became the main vehicle for art development.

This means of development demitted trends in Art. It emphasized the spiritual, the intellectual, and the abstract. Upon this culture the Renaissance took root.

The Renaissance broke down the isolationism of the Middle Ages. These new ideas and ideals dissolved both physical and cultural boundaries.

Many medieval attitudes survived the reevaluation of the Renaissance. The spiritual emphasis of the Middle Ages was challenged by interests in the physical world. The life of sensation and experience replaced abstract intellectualism. Men wanted individualism.

This individualism was the

main factor behind the vast rebirth of art. Each artist wanted to establish himself in his works. He no longer was bounded by the lines and colors of his predecessors. The Renaissance truly was a "rebirth." The culture of centuries was reborn to an entirely new and different life for the individual not the commune of the feudal system.

Student Forum

Dear Students:

I hope that each one of you will attend our athletic contests and support our Miners teams with enthusiasm and vigor during the year. Unless you are directly involved one does not realize or appreciate what your support means to our players and coaches. There is little doubt it has caused our teams to play above their ability. Unfortunately, a small minority group not representative of our excellent student body has caused everyone concern and great embarrassment by the use of obscene language at these events.

I feel strongly that the time has come for each one of you to evaluate this situation thoroughly and let everyone know that it has gone far enough and it must be cleaned up.

Continue to give the Miners your enthusiastic support. Hope to see you at the games for another exciting year with Miners sports.

Thanking you.

Sincerely,
Billy A. Key
Athletic Director

Miner Wit Expresses Itself In the Form of Desk Graffiti

Many years ago in the classroom of an obscure university an ingenious monk introduced his latest invention in the field of educational aides — the desk. Five minutes later one of the students (studies show he was an ancestor of a Miner) was seen to be carving something into the top of the desk. There was something inviting about the soft wood, something disgusting about a clean flat surface, and an inner drive to stay awake in class by doodling.

Here at Rolla many Miners have answered the ancient call of the desk top and written in it their piece of mind. Every room is filled with these wooden manuscripts covered with bits of wisdom. As one walks through a classroom he first notices only the four letter words and gross remarks about the teachers. However among all the ?!@%::\$ and @!!\$ are lines of wit left there by anonymous prophets of our time:

"And the sign said, 'The words of the prophets are written on the subway walls and tenement halls. . . .'"

. . . and carved in the desks of Miners, one might add to Paul Simon's explosive song.

Engraved in the annals of the UMR classrooms are relics of Miners gone by. Many are plays on words, some unprintable but most extremely witty. Others are comments on our world as it is today. Still others are as if someone is rattling the bars of his jail cell, complaining about his treatment and looking forward to the day he gets out.

Listed below are some of the printable compositions found on the desks of Miners. In addition there are a few printable gems found etched in the walls of the johns. For the unprintable ones I refer you to any classroom or john on the UMR campus.

George Wallace for dictator.
Apple pie makes you sterile.
God, we love you.
God is not dead, He's hiding in Argentina.

NOTICE: Tomorrow will be concluded due to lack of interest. However, the attendance at yesterday broke all records.

NASA shoots a big moon.
Kill for peace.
Chastity is its own punishment.
In composing as a general rule strike out every other word you have written. You have no idea what vigor it gives your style.
War is good business — invest your son.

This location of the University of Missouri indicates that — oral activity resulting in a partial vacuum.

Hitler is alive in the white house.

Keep the faith, baby.
Get right with God.
Socrates drinks hemlock.
Help stamp out virginity.
Missouri, show me how.
God is dead Himmel.
Himmel is as good as dead God.

Don't defame school property.
Fe, Fi, Fo, Fum, I smell the beer of a UMR man.

Rolla has been found to be incapable of supporting life as we know it.

Chicago, August 1968 — the police state begins.

Love-ins are fun.
Help stamp out vandalism.
Like a rat in a maze

The path before me lies
And the pattern never alters
Until the rat dies.

Flying saucers are real. The U. S. Air Force is a hoax.
Draft beer not students.
Someone ate chicken man.
It's not the apple in the tree that gets into trouble; It's the pear on the ground.

Frodo lives!
God is dead — no I'm not.
Support mental health or I'll kill you.
Take LSD and be stupid — speed kills.

This class is rough,
The subject is deep.
I'd cut and go home.
But I need the sleep.

Anonymous
Kill your instructor today!
This desk will soon be put in paper back form!

LITTLE MAN ON CAMPUS

"WELL, MY FIRST REACTION WAS: WHAT KIND OF A DUMB STUPID BLIND DATE HAS THIS JERK-OF-A-ROOMMATE OF MINE LEFT ME ALONE WITH — THEN —"

Flying lessons. Apply here:

That's right. You, too, can be a pilot.

Join the United States Air Force and qualify for pilot training. Become a leader with executive responsibility.

Well, what else? A pilot is the officer in charge of a million dollars worth of high flying, sophisticated supersonic equipment, isn't he?

Yes, and you'll wear a snappy blue officer's uniform, enjoy officer's pay and privileges. You'll probably travel to exotic foreign lands, and have a secure future in the biggest scientific and research organization. World's biggest.

You'll be where all the exciting Space Age breakthroughs are. Where it's happening. Now. Today. Right now. This minute. The Air Force is the "now" place to be.

If you yearn to fly and don't try the Aerospace Team, you'll miss your big chance.

Let that be a lesson!

FRATERNITY NEWS

Local Fraternities Assemble Decorations for Homecoming

By DON RUETER

The primary concern of the twenty fraternities on the UMR campus the past few weeks has been preparing for the upcoming Homecoming activities. The fraternities are very busy assembling

their displays for the judging of the decorations on Saturday morning. The first place winners in the Homecoming decorations last year, Kappa Alpha, will be going all out to capture the first place trophy for a second consecutive year.

In addition to working on the many varying decorations, the pledges of the UMR fraternities are actively working out in preparation for the annual Pledge Pajama Race to be held during the pre-game activities at Saturday's game.

Several young men have also been initiated by two UMR fraternities recently. Sigma Pi, on October 13, 1968, initiated the following seven men into their brotherhood: Gene Miller, an M.E. from Hazelwood, Mo.; Joe Elliot, an E.E. from O'Fallon,

Mo.; Glen Conger, a Ceramics major from Berkley, Mo.; Bob Marshall, a Ceramics major from Hazelwood, Mo.; Denny Heisler, a C.E. from Carbondale, Ill.; Mike Johns, a Metallurgy major from Plano, Ill.; and Randy Salvati, a Computer Science major from St. Louis, Mo.

Kappa Alpha also initiated seven men into their brotherhood this past weekend. The new initiates are: Michael Behan, an M.E. from St. Louis, Mo.; Harry Beyer, a C.E. major from Kansas City, Mo.; David Boyd, a C.E. major from Kansas City, Mo.; Robert Brinkman, a C.E. major from St. Louis, Mo.; Philip Craig, an A.E. major from Springfield, Ill.; Dale Faerber, a Chem. Eng. major from St. Louis, Mo.; and Dave Neuwirth, a Chem. Eng. major from St. Louis, Mo.

Tau Beta Pi Policies And Purposes Explained

Tau Beta Pi held their third meeting of the year last Thursday. Eligible candidates for membership were chosen at this meeting.

This semester's officers are: Darrel A. Mank - President; Gregory K. Haseltine - Vice President; Lawrence V. Field - Corresponding Secretary; James E. Cahalan - Recording Secretary; Kenneth B. Wise - Treasurer; and Robert C. Gullic - Cataloguer.

The purpose of Tau Beta Pi is to offer appropriate recognition for superior scholarship and exemplary character to technical students and professional persons.

Tau Beta Pi is primarily a student organization. The honor conferred by election to membership is significant because of the Association's high eligibility stand-

ards, because it comes from the students themselves, and because of the world-wide reputation of the society. Tau Beta Pi's position of respect in the engineering profession has been earned because it has continued to be guided by the high purposes for which it was founded.

Tau Beta Pi urges all engineering students to utilize the opportunities presented to them in college, to learn well the technical material presented, and to participate in extracurricular activities which are necessary for the development of the whole man. Not all students can become members of Tau Beta Pi, but the Association's ideals of excellence in scholarship and character and its emphasis on liberal education are the attributes of the truly professional person.

New Party Weekend In Final Planning For Independents

By DON RUETER

Planning has reached its final stages for the proposed Independent's Weekend. Designed to simulate, at least in spirit, the fraternities' Greek Week, the Independent's Weekend is hoped to become an annual affair. The weekend of November 9 has been designated for this year's Independent's Weekend, with the Miners scheduled to meet Northwest Missouri State College here at 1:30 p.m. that Saturday.

Activities are slated to begin Friday night with a hayride at Pietsch's farm from 6:00 to 9:00 P.M. Campus Club, Engineer's Club, and Shamrock Club will be holding staggered parties from 8 to 12, 9 to 1, and 10 to 2 o'clock, respectively. Saturday's action begins with the Miner's football game against Maryville. That night there will be a dance for all Independents from 9:00 P.M. to 1:00 A.M. featuring a psychedelic light show.

Independent's Weekend is a product of the joint efforts of Thomas Jefferson Residence Hall, the MRHA, the ICC, and the Independents. It is hoped that all Independents will actively support this new idea, as a good showing this year could blaze the path for an expanding tradition.

In addition to the planning of the proposed new party weekend, the Prospector's Club has selected their new campus representatives for the 1968-69 school year. The new representatives are: Charles Turlin, Dick Houchin, Jerry Parsons, Bill Sanders, Mike Poston, and Jim Kelly on the Board of Control of P-Club; Dave Ripley and George Kite on the St. Pat's Board; Jerry Parsons and Kieth Cross on the ICC; Tim Montgomery and J. R. Pierce on the GDI Board of Governors; and Mike Poston on the Student Council.

NOTICE!

Newman Center's program Tuesday, Oct. 22 at 8 p.m. concerns itself with learning and living the Lord's Supper - Topic: "They Knew Him in the Breaking of the Bread." Knights of Columbus Hall; rides provided.

Wesley program for Wednesday, October 16, 6:00 p.m. will be the second of a three-week series on Politics '68. Mrs. Margaret Lloyd, Republican candidate for sheriff, will speak for Richard Nixon. All interested students are welcome to attend.

It's not often an engineer gets to design a company.

When he does, he tends to take care of his own kind.

He designs a company that is one heck of a good place for an engineer to work.

You can tell LTV Aerospace Corporation is an engineering oriented company.

The ratio of engineers to everybody else is exceptionally high.

The computer support is tremendous.

The Robert McCulloch research laboratory is the newest and one of the finest big labs in the country.

The engineer who wants to be a technical specialist here can do as well as the engineer who gets into administration.

The engineer who wants to keep working on an advanced degree can do it right here.

And the projects: they range from deep space to the ocean floor - military and commercial aircraft, V/STOL; launch vehicles; extra vehicular activity research and development; high mobility ground vehicles; missile systems; computer, technical and management services.

No question about it: the engineers at LTV Aerospace are taking care of themselves.

An LTV Aerospace representative will tell you how to get in on it.

Our Man Hoppe

By Arthur Hoppe

Our Man Hoppe Examines Plight Of the Undecided 1968 Voter

You may recall the case last year of Hirschel N. Rightly, 42, of South Menachee, Wis. Mr. Rightly achieved a fleeting moment of fame when reporters discovered he was the only man in the country who liked the war in Vietnam.

Unlike the Hawks who wanted to end it through escalation or the Doves who wanted to end it through de-escalation, Mr. Rightly wanted to keep it going because he liked it.

"What's so odd about that?" he said on Face the Press. "After all, if we're spending \$30 billion a year on it, somebody must like it."

Mr. Rightly was released last month from the Flowery Dales Sanitarium. Since then, in an effort to return to a normal life, he has been following the election campaign. And, like millions of normal Americans, he became an undecided voter.

Indeed, he seemed well on the road to full recovery until his last visit with his psychiatrist, Dr. Zang Froid. (cq)

* * *

"Well, well, well," said Dr. Froid, "you've become an uncommitted voter. That shows good judgment in this peculiar election year. I can't make up my mind myself."

"I'm glad to hear that, Doctor," said Mr. Rightly. "My friends kind of shake their heads when I say it."

"Shake their heads?"

Newest Fraternity Creates Interest In Current Topics

Gamma Alpha Delta, formerly the Community Improvements Council, was organized by Fred Lamar of the Wesley Foundation and is the newest service fraternity on campus. It is now in the process of being recognized.

This organization serves a two-fold purpose: 1. To familiarize the student with topics of current interest, and 2. To give the student an insight to poverty and teach him how to combat this plight.

Gamma Alpha Delta will accomplish this latter purpose by setting up a program in which different organizations on campus go into the ghetto areas in St. Louis for a weekend of work on improvements in these areas.

The program of current interest topics varies. For the months of September-October the main topic has been POLITICS '68. Gamma Alpha Delta has contacted a number of speakers, both prominent local businessmen and faculty members, who are knowledgeable in this field. Three of our fraternities are especially fortunate in having Representative Richard Ichord and Mayor Eugene Iversen speak in their houses.

For the months of November-December, Gamma Alpha Delta is setting up a similar program entitled, "Remedy for a Riot."

"Yes. For example, if I say I'm thinking of voting for Mr. Nixon..."

"But it's perfectly normal, Mr. Rightly, to want to protest Humphrey's obsequious ties to the disastrous Johnson Administration."

"The what? No, it's Mr. Nixon's charisma that gets me. I start jumping up and down when he passes by. And I yell, 'Tell us the story about your Mom baking the apple pie again, Dick!! What humility! And the way he's scrupulously avoided stirring up controversy by taking a stand on the issues. What statesmanship! Of course, I may support Mr. Humphrey instead.'"

"Because you suspect Nixon's still the same old Tricky Dick?"

"Not at all. It's Mr. Humphrey's impressive stature, noble features and firm grasp of our problems that stir me. When he smiles, I smile. When he weeps, I weep. What leadership! But I may end up voting for Mr. Wallace."

"You've got a death wish?"

"Oh no. It's his courage in saying what he thinks. The way he's built his campaign from scratch. What a man of the people! No wonder so many normal Americans like me are undecided - what with three great candidates to choose from."

MORMON RELIGION EXPLAINED

Mormon Church to Hold Open House for Miners

As a means for the students, the faculty, and the general public to become acquainted with the beliefs and the activities of the Mormons, an Open House will be held at the Church of Jesus Christ of Latter-day Saints (Mormon) on Sunday afternoon, October 20th, from two until four. The Church is located on the corner of Highway 72 and Southview Drive in Rolla.

Guides will conduct the visitors through the church and show them mounted displays, which illustrate basic principles of belief. Explanations will also be given concerning the activities of the children's organization, the youth organization, and the women's organization. There will also be time

for answers to the questions of the visitors.

A special attraction at the Open House is the short film "Man's Search for Happiness," which received wide acclaim at the Mormon Pavilion at the New York's World Fair.

The purpose of the Open House is to enable local people to meet the Mormons in their own church and to become acquainted with them and their beliefs. There will be no request for contributions or offerings. A special invitation is being extended to university students and faculty members to come to the Open House and to increase their understanding of one of the religious groups in Rolla.

Our manufacturing program is for engineers who want to run things as well as design them.

Do you like the idea of running a factory as well as designing one? The idea of controlling the quality of products as well as developing systems to produce them? The idea of motivating people as well as supervising them?

If you do, you'll like the idea of the General Electric Manufacturing Management Program.

It'll prepare you for a management position in a variety of engineering areas: manufacturing engineering, plant engineering, quality control, materials management and factory management.

And don't let the "program" part throw you. You'll start working the first day. And you'll work hard. Because you'll be working on real problems. Problems that have to be solved now.

Our representative will be on campus soon. So if you think you've got what it takes to take charge of things, why not talk it over with him?

GENERAL ELECTRIC

An equal opportunity employer

ON CHICAGO RIOTS

House Un-American Activities Committee Reports

WASHINGTON (CPS) — In a speech several weeks ago, Maryland Governor Spiro Agnew called for a "greater national sense of humor." Last week the House Committee on Un-American Activities (HUAC) and its subpoenaed witnesses responded to the call: HUAC by taking itself seriously, and the witnesses for refusing to.

The committee was looking for evidence of "subversive activities" involved in the last week of August in Chicago. It brought to Washington leaders and anti-leaders of the political and cultural peace movement — most prominently Dave Dellinger, Tom Hayden and Ronnie Davis of the National Mobilization and Jerry Rubin and Abbie Hoffman of the Youth International Party (YIPpies).

This was the first formal meeting of the radical leaders and "system" politicians since Chicago. If what happened is any indication of meetings to come, it is apparent that the politicians will sidestep the New Leftists rather than attack them as they have in the past.

In a normal HUAC hearing, a case against subpoenaed witnesses is built by the Committees staff; then amidst the usual publicity the witnesses refuse to say anything under the protection of the First, Fourth and Fifth Amendments. This time it was different.

The first witness, Bob Greenblatt of the National Mobilization, spoke at length on his activities in anti-war work. (He was the first of what HUAC called the "hostile" witnesses. Earlier the "friendly" witnesses gave a summary of Mayor Daley's report on the week's activities.) Dr. Quentin Young, of the Medical Committee

for Human Rights, successfully managed to monopolize his time on the stand with well-planned propaganda on the medical needs of demonstrators everywhere.

Periodically one of the other witnesses would interrupt the testimony with comic relief. After Jerry Rubin stood up once to make an announcement, Committee chairman Richard Ichord (D-Mo.) proclaimed, "The chair is not conducting a circus here today." Earlier, while one of Daley's police infiltrators was testifying,

Abbie Hoffman asked to be excused to go to the bathroom. His request was granted.

Plagued by interruption and witnesses who didn't see things his way, Chairman Ichord constantly repeated the intent of the hearings: "We want to find out," he said, "if communists in this country inspired and took part in the riots in Chicago. . . and if certain organizations in the United States have connections with foreign communist powers."

Ichord found his main troubles with Dr. Young. The Committee was trying to establish that Young loaned Ronnie Davis \$1000 to lease office space for the Mobilization in Chicago. Davis had traveled to Hanoi last spring, and this was enough to link him in the Committee's minds with all sorts of anti-U.S. activities. Young quietly replied that he does not ask for travel dossiers from people to whom he loans money.

After more haggling over the

legitimacy of some evidence with the ranking Republican on the Committee, John Ashbrook of Ohio, Young explained why Medical Committee for Human Rights staffers are present at street demonstrations. "MCHR was born out of things we didn't believe happened in this country," he said.

After Dr. Young spoke on the third day of hearings, the Committee brought Greenblatt back for an hour or so, then adjourned the hearings until Dec. 2.

Some decisions are relatively unimportant. Where you put your engineering talent to work is not.

As you contemplate one of the most important decisions of your life, we invite you to consider a career at Pratt & Whitney Aircraft. Here, you will find wide-open opportunities for professional growth with a company that enjoys an enviable record of stability in the dynamic atmosphere of aerospace technology.

We select our engineers and scientists carefully. Motivate them well. Give them the equipment and facilities only a leader can provide. Offer them company-paid, graduate-education opportunities. Encourage them to push into fields that have not been explored before. Keep them reaching for a little bit more responsibility than they can manage. Reward them well when they do manage it.

And your decision is made easier, thanks to the wide range of talents required. Your degree can be a B.S., M.S., or Ph.D. in: **MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL • CIVIL • MARINE • INDUSTRIAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • MATERIALS SCIENCE • CERAMICS • MATHEMATICS • STATISTICS • COMPUTER SCIENCE • ENGINEERING SCIENCE • ENGINEERING MECHANICS.**

Consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

Chung Proposes Free Elections, Land Reforms

(Continued From Page 4)

worked with the Viet Cong and that they could participate as a group in the next elections for hamlet, assembly and presidency. They could form any political party they wished — as long as it was not a Communist party.

South Vietnam would then be demilitarized and would have relations with all countries. But the government would be free to call for help in case of aggression against her. Thus her status would be different from either Laos or Cambodia, both of whom have renounced their desire to be assisted by nations of the Southeast Asia Treaty Organization. Nor would South Vietnam be neutral with regard to Communism, which would continue to be outlawed by the Constitution.

In summarizing his proposal, Yy Qui Chung said, "We seek a formula more acceptable to the Communists. We must have a solution which is honorable from the viewpoint of both sides. South Vietnam is geographically within the zone of influence of China. We cannot afford to be too closely tied to one side or the other." He recognized the risk that a "legal and non-Communist" N.L.F. might one day revert to its "historical character" but said that the government must have the capability to make former Viet Cong live peacefully if it is to survive.

Alumni Meet in Milwaukee

A banquet was held in Milwaukee this past weekend for UMR Alumni in that vicinity.

This weekend, in addition to the football game, there were two more attractions for Miner fans in Milwaukee: an Alumni Banquet and the University of Missouri at Rolla ROTC Band.

The banquet was held Friday night at Henrici's Restaurant in Milwaukee. About forty couples attended, including President and Mrs. Weaver, Chancellor and Mrs. Baker, and Coach and Mrs. Allgood. There was an informal atmosphere in the place as everyone seemed to enjoy themselves. The guests introduced themselves around the room, each telling a little of his life in Rolla. Speakers included President Weaver, Coach Allgood and Chancellor Baker.

Also this weekend our ROTC Band gave an added treat to those attending the UMR-UWM football game in Milwaukee. The UMR band, under the direction of Mr. Joel Krame chartered a bus and spent the entire weekend in Milwaukee. Saturday night, along with the University of Wisconsin band, entertained at half time.

Coach Allgood watches intently as the Panthers attempt to take control of the game late in the second half.

UMR's marching band plays the 1812 Overture during half-time at Milwaukee.

The UMR defense shows its game-winning style against the University of Wisconsin at Milwaukee.

Many alumni in the Milwaukee area as well as UWM fans watched the Miners down the Panthers 10-6.

MINER SPORTS

Miners Tame Panthers 10-6 Despite Several Injuries

A highspirited Miner team flew back to Rolla Saturday night after defeating the University of Wisconsin Panthers 10-6 in Milwaukee.

UMR handed the Panthers their fifth loss of the year, as they scored 11 of their points in the second quarter, and, despite numerous injuries, held back a Wisconsin rally in the last few minutes of the game.

The Miners took to the air Saturday night, completing key passes which led to their scores. The Golden Horde, the Miner defensive squad, also took advantage of passes, as they intercepted our thrown by the Panthers.

UMR's first score came when end Larry Oliver moved the ball 16 yards on a pass thrown by Ron Miller, enabling fullback Bob Nicodemus to dive over for the touchdown. Oliver's soccer-style kick was good, giving the Miners a 7-0 lead. Then, after forcing the Panthers to punt, the Miners moved the ball down the field again. Miller threw to Bob Sumner, who went for 42 yards. This set up a 33 yard goal kicked by Larry Oliver.

The third quarter saw no scores by either team; nevertheless, it held its share of excitement. Rolla moved the ball steadily downfield on a series of rushes. It was during this series that quarterback Ron Miller was injured while running for a first down in an option play.

The Panthers saw a spark of hope as their defensive back, Mike O'Hagen caught a pass off the hands of Oliver. The Panther quarterback threw a pass to end Terry Fredenberg, moving the ball to Rolla's 8 yard line. There was a tense moment when the Panthers made a desperate attempt for a score on the fourth down, but Miner fans were able to breathe a sigh of relief as Joel Stroud

brought down the Panther quarterback for a loss.

The ball quickly changed hands as it was intercepted first by the Panthers then again by UMR.

The Panthers rallied in the fourth quarter for their first and only touchdown. A series of passes from quarterback Jon Zimmerman to end Terry Fredenberg resulted in the Panthers finally crossing the Miners end zone. Wisconsin

tried for a two point conversion, but the play was broken up by freshman tackle Bill Milfelt.

An on-side kick attempt was recovered by UMR. However, they were unable to keep the ball moving and were forced to punt.

In the last 20 seconds of the game Eddie Lane of UMR intercepted his fifth pass of the year, snuffing out any hopes still held by the Panther squad.

MEET THE MINERS

by Doug Ross

This week, the "Miner of the Week" spotlight falls on Cecil Taylor, a civil engineering senior from Independence, Missouri, and the starting tailback for Dewey Allgood's offensive eleven.

Taylor has been a vital part of the UMR offense, scoring touchdowns in the three Miner games played so far this year. A 123 yard rushing total, including a 48 yard touchdown run, in the Missouri Valley game, and a spectacular 88 yard touchdown dash in the Washington University game have highlighted Cecil's playing. Preferring to give the greatest credit to blocking which he rates as "excellent," Cecil modestly acknowledges his own talents by saying that he "likes to run." Cecil feels this year's team is the best he has played with in his four years of varsity football, and is hopeful of a pay-off in the form of a conference championship. He credits the team's quality to its depth and experience, represented by players who have been working with each other for several years.

Commenting on recent criticism of the UMR coaching staff, Cecil explained that he was "tired of seeing the coaches cut down." For example, Cecil pointed out the fine defensive job done by the

Miners against the much heavier team from Hillsdale. He feels that much of the credit was due to a defensive strategy worked out by the coaches over a three year period.

Bullman's Harriers Win Lincoln U. Falls 22-38

By GLENN JENSEN

The UMR cross country team, led by senior Don Duren, overcame their last mile slump and managed a 22-38 victory over Lincoln University of Jefferson City. Bullman's boys captured five of the top seven spots and pushed Lincoln's fourth and fifth runners to the last two places in the scoring.

The Miner runners, however, still did not manage a first place individual finish and have yet to accomplish such a feat this year. Taking top honors was Larry Dunlap of Lincoln as he ran the rugged four mile course in 23 minutes 1.5 seconds. Right behind him was Don Duren of UMR who ran a 23 minute 4 second timing. Keith Browne made one of his finest showings of the year as he was timed at 23 minutes 7 seconds, four seconds ahead of fourth place Stan Notestine.

Larry Carpenter of Lincoln edged UMR's outstanding freshman Bob Rice as Carpenter placed

ed fifth with Rice sixth. Next in order were UMR runners Mike Kozack and Jim Hellwege followed by Randy Faulks of Lincoln at the ninth position.

Next action for the Miner runners will be October 18, when they meet Westminster College in Rolla.

Bob Rice, an outstanding freshman, placed well in the Lincoln University meet last Saturday.

UMR Face Mules in Homecoming Contest

By CHUCK LAJEUNESSE

Over the past few years, the Central Missouri State College Mules, under the direction of head coach Howard Mahanes, have become a progressively stronger ball club. This fact can be verified by the team's record since Coach Mahanes took over. Two years ago, in Mahanes' first season as head mentor, the Mules compiled a 4-5 record. Last year they graduated into a 6-4 season which gained them second place in the MIAA final standings. Thus far this season, the Mules have compiled a 2-0-1 record going into their game with Harding College.

On offense the Mules certainly had their hands full trying to fill the quarterback spot left open by Little All-American Ken Brumley, last year's MIAA most valuable player. However, looking up on the CMSC offensive squad is the return of their two biggest ground gainers of last season. Larry Johnson, another All-MIAA first team-

er of 1967, carried the ball 149 times for 615 and an average of 4.1 yards per carry last season. His running mate will be Billy Root, who gained 423 yards in 93 carries for 4.4 yards per carry in the 1967 campaign.

Defense is the coaching staff's biggest headache this season. The Mules' defensive eleven lost two of their three linebackers and Little All-American halfback Bill Green. The defensive ends, consisting of MIAA first teamer John Richison and returning letterman Bill Hubert, lead the defensive attack this season.

The Mules vs. Miners contest will be staged in Rolla on Homecoming weekend. Despite their 2-2 record thus far, Coach Allgood's griders are highly capable and the fact that their losses were by merely 2 points and 8 points respectively indicate that their record could very easily be 4-0 at this point.

Field House to Be Completed March 1

Construction is rapidly approaching completion as all varsity athletes as well as intramural teams await

the use of the new field house's facilities.

On the inside much work is still needed as can be seen by this shot of a locker room.

Well, the long awaited time is rapidly approaching when every Miner can go to the new field house and watch co-eds lying around the pool and perhaps through a stroke of luck get to meet one. The new field house will have much more to offer, however, and on its completion date it will give a tremendous boost to the UMR physical fitness programs as well as the varsity and intramural programs.

The field house, scheduled to be completed March 1, will have a variety of recreational facilities. Perhaps most welcome will be the two new basketball courts which the gymnasium will offer. The field house will also contain a swimming pool, handball courts, a wrestling room, and a weight training room. Included in the athletic building will be locker rooms for both boys and girls.

The new field house will give rise to the revival of Physical Education classes on the UMR campus and will probably bring varsity wrestling and swimming back to the University.

A 75 x 45 foot pool will be one of the many facilities located in the new field house.
