No. 2

## Independents' Weekend Is Big Success

The Independents added a new dimension this year as they presented their second annual Independents' Weekend. Commencing the activities was a Banquet attended by the officers and board members of all Independent organizations. Several guests were invited to the affair at which outstanding alumni and advisors were honored. Dr. Thomas Beveridge, Chairman of the U.M.R. Geology Department, spoke on the "Neo-History of M.S.M." The highlight of the affair came when Roger Clemons was named "Independent Man of the

Year".

The fun began Friday night with a hayride at Pietsch's farm and was followed by a dance at Campus Club, featuring the "Beltones" a St. Louis group. Simultaneously, the "Starlighters" shook Shamrock Club and the newly opened Prospector's Club hosted the "Potter's Wheel".

The Miner's winning performance on the gridiron Saturday afternoon set the proper mood for the Independents' Games, held at Lion's Club Park. The M.R.H.A. triumphed

in the Tug-of-War contest as they drug Tech Club slowly into the pond and second place as well. The action continued with some of the best known Indian Players on campus assembling for the all-time championship. Dale Waltermann from Shamrock

and Ken Florence from Tech Club emerged the co-winners in a long, heated battle for the distinguished honor.

But it took the big dance Saturday night to climax the entire weekend. Grooving to the sounds of the "Period", Miners

filled the huge dance floor at Echo Valley Farm, and firmly entrenched Independents' Weekend in U.M.R. tradition. Due to the efforts of an aggressive committee, Independents' Weekend is no doubt here to stay.

The big party on Saturday night at Echo Valley Farm capped the Independents' party weekend, and insured another celebration next year.

## Independent Man of Year Named at G.D.I. Banquet

Roger Clemons was named "Independent Man of the Year" at the first Independent's Banquet which was held at Carney Manor last Wednesday, September 24. He was chosen from a group of nine candidates submitted by each of the Independent organizations. Judgement was made by all the advisors of the organizations on the basis of each man's individual contribution to his respective organization and to U.M.R.

Roger is a senior majoring in Civil Engineering from Kearney, Missouri. He is one of the originators of Independent's Weekend and has been Chair-

man of the Independent's Weekend Committee since its formation in October, 1968. In addition he served as President of the M.R.H.A. and Treasurer of G.D.I. last year. Presently, Roger is Vice President and a Student Council representative of G.D.I.

In presenting him the award, Mike Schaeffer, President of G.D.I., commended Roger for his outstanding contributions to the Independent organizations of U.M.R. and attributed him largely responsible for the "remarkable success of Independent's Weekend".

Roger Clemons (center) receives his award as Independent Man of the Year from GDI president Mike Schaeffer.

## Fontbonne Players To Present Spoonriver Anthology Friday

Edgar Lee Masters' SPOON RIVER ANTHOLOGY will appear on stage in the Student Union Ballroom at 8:00 p.m. Friday, October 3rd. The Studio Theatre, an experimental arm of the Department of Theatre at Fontbonne College, will present the production.

SPOON RIVER ANTHOLOGY appeared in 1915 and immediately rivaled Walt Whitman's LEAVES OF GRASS as the most controversial volume in American literature. It contains two hundred and forty-four miniature, unsentimental autobiographies of the thwarted souls--drunkards, skinflints, secret saint, and private lechers, dreamers and idealists --Edgar Lee Masters had known in his boyhood towns of Petersburg and Lewistown, Illinois, on the Spoon River.

The Studio Theatre of Fontbonne College first produced SPOON RIVER ANTHOLOGY in 1967. The production proved so popular that it was repeated last season and taken on a short tour. This is the third season that SPOON RIVER ANTHOLOGY has been revived by the Studio Theatre. The present production will play a limited engagement at Fontbonne College and is booked to appear on several campuses in Illinois and Missouri.

SPOON RIVER ANTHOLOGY is directed by Don Garner,

director of theatre at Fontbonne College. Mr. Garner will also appear in the production with theatre department majors -Lisa Schumacher, Paula Grauer, and Kathy Ryan. Randy Grauer and Harry Bradley, appearing as guest actors in this production, have played numerous roles at Fontbonne. Mr. Grauer is a recent graduate of Concordia Seminary in St. Louis.

The production is produced by Sister Mary Charity, CSJ, Chairman of the Department of Theatre.

## Shriners Plan Banquet For UMR Service Groups

UMR students that donated their time and money to the Theta Tau "Ugly Man" contest last spring can be justly proud, according to Walter Werner, President of the South Central Missouri Shrine Club.

Five children have undergone major surgery in the Phelps County Hospital. They are Brenda Lee Muhlfield, Charles A. Muhlfield, Bobby Muhlfield, Kirby Holloway, and Rose Ellen Leonard. Several other children are in the process of receiving surgery.

And the surgery was made possible by the UMR students. For those students who are not familiar with the Surgery Program, it is a charitable program that was started in the spring of 1969 by the Theta Tau Fraternity and the South Central Missouri Shrine Club. Through this program, needy children who require surgery are sponsored

by Theta Tau with funds collected from UMR students in the "Ugly Man" contest.

This is just one of the service projects carried on by students at UMR. And to South Central Missouri Shrine Club is having a banquet to recognize the involvement of the UMR students in projects that serve and help the community.

The banquet will be held at the Carney Manor on Tuesday, October 7. Guest speaker at the dinner will be Missouri's Attorney General, John Danforth. The banquet will start at 6:00 p.m., and other guests include President John Weaver and Vice President A. G. Unklesbay from the University of Missouri, Chancellor Baker, Judge William Billings, The Honorable Curtis Logan, Mayor of Rolla, and William Sowers, President of the Rolla Chamber of Commerce.

## Plans Announced For Parents' Day

This year the students and faculty of the University of Missouri-Rolla have again extended an invitation to parents to come down to Rolla for the October 4th Parents Day. The Saturday has been planned so as to enlighten the parents on the workings of our school and afford them the chance to speak with the faculty and administration of our campus.

Registration will begin at 8:30 a.m., followed by an informal coffee in the Student Union Ballroom. This will allow parents to speak informally with the professors that will attend and to speak with other parents and students.

Campus tours originate from the Student Union at 9:30 a.m., led by members of APO, IK, and the ROTC department.

As most professors will be in their offices, interested parents and students will have an opportunity to speak with them at length.

A reception will be held in the New Multipurpose Building, starting at 11:00 a.m. Parents will greet Chancellor Baker and other members of the school administration, followed by an opportunity to speak with our administrators. A buffet luncheon will be served, tickets for which may be purchased for the price of \$2.25 at registration.

tion.

Parents will move on to Jackling Field for a welcoming speech by Chancellor Baker and Parent's Day ceremonies. At 2:00 p.m. the last activity of Parent's Day, Miner Football will begin. Tickets are \$2.00 at the gate or \$1.50 in advance or at registration.

Parent's Day is expected by all to be a success. Over one thousand parents registered last year and it is believed by all that this record will easily be broken this year because of the work and planning that has went into making this year's Parent's Day a success.

# Schedule Announced for Multi-Purpose Building

## POOL

Monday thru Friday

11:30 A.M. - 1:00 P.M. Faculty Fitness Swim  
1:00 P.M. - 3:30 P.M. Student Swimming  
3:30 P.M. - 6:00 P.M. Varsity Practice (In Season)  
6:00 P.M. - 9:00 P.M. Student Swimming (Except Wednesday Faculty Family Swim)

Saturday and Sunday

1:00 P.M. - 6:00 P.M. Student Swimming (Student wives may swim at this time).

POOL WILL BE CLOSED DURING VARSITY FOOTBALL AND BASKETBALL GAMES.

## OTHER FACILITIES

Monday thru Friday

8:00 A.M. - 11:30 A.M. Free play for all students  
11:30 A.M. - 1:00 P.M. All facilities reserved for faculty fitness program  
1:00 P.M. - 3:30 P.M. Free play for all students  
3:30 P.M. - 6:15 P.M. Floor reserved for Varsity Basketball  
6:16 P.M. - 9:30 P.M. Intramural sports and free play for all students (Exception - Home varsity basketball games).

Wednesday - Faculty family night 7:00 to 9:30 P.M. (All facilities will be closed to students).

Saturday and Sunday

1:00 P.M. - 6:00 P.M. Free play for all students (Except during Varsity Football games)

## DRESS

Appropriate dress at all times (Don't forget there are ladies in the building).

## SMOKING

Permitted only in main lobby on first floor and in office area on ground floor. (NO SMOKING in locker room area, main floor, weight room wrestling rooms, etc.)

EQUIPMENT ROOM WILL BE OPEN FROM 9:00 A.M. to 9:00 P.M. MONDAY THRU FRIDAY AND FROM 1:00 P.M. to 6:00 P.M. SATURDAY AND SUNDAY.

GYM SHOES MUST BE WORN AT ALL TIMES WHILE WORKING-OUT. THIS INCLUDES GYM FLOOR, WEIGHT ROOM, APPARATUS ROOM AND ALL PLAY AREA.

## FACILITIES AND EQUIPMENT AVAILABLE

1. Swimming Pool
2. Area behind balcony bleachers badminton, etc.
3. Three Handball Courts
4. Indoor Golf Equipment
5. Check-out Items (Equipment room Multi-Purpose Building).
6. Main Gym Floor (volley ball, table tennis).
7. Apparatus Room
8. Two Wrestling Rooms
9. Weight rooms

GRADUATE STUDENTS MUST PAY ACTIVITY FEES BEFORE THEY ARE ELIGIBLE TO PARTICIPATE IN INTRAMURAL SPORTS OR TO USE FACILITIES.

LOCKERS- EACH INTRAMURAL ORGANIZATION WILL BE GIVEN 20 LOCKERS.

## Campus Tidbits

ROLLA, Mo., May -- Alpha Phi Omega, service fraternity at the University of Missouri-Rolla, has elected officers for the next semester.

They are: President Tim Corbett of 401 Plaza Ave., Ferguson; First Vice President Charles Laderoute of 1010 6th Ave., St. Joseph; Second Vice President Ray Kalbac of 7506 Hazelcrest Dr., Hazelwood; Secretary Terry Danze of 6741 Eichelberger, St. Louis; Treasurer Bob Cranmer of 1431 Marsh Ave., Ellisville; Sergeant-at-Arms Gary Anderson of 21 Robin St., Rolla; Historian Ken Schweigert of 150 N. 9th St., Ste. Genevieve; Alumni Secretary Jerry

McDonald of 34 Barger St., Fort Leonard Wood and Corresponding Secretary Bob Touzinsky of 238 Toulon Dr., St. Louis County.

William Ott of 9940 Jan, St. Louis, retiring president of the organization, was elected as APO Man of the Year.

Alpha Phi Omega is a service fraternity whose members have been in scouting. They perform such services on campus as organizing blood drives and sponsoring used book sales each semester.

## THE WRONG BOX

"So fantastic and explosive that it virtually pops right out of the screen! A crazy, merry, tale... somewhere between black humor and elegant, uninhibited camp! The best of the clowning is Peter Sellers!" says the New York Times. Outstanding in the comedy of THE WRONG BOX are Tony Hancock, as a dim-witted detective whose suspicions are aroused when a body is found in a piano up for auction and Peter Sellers as a disreputable doctor who will gladly sign an undated death certificate, once he is assured that his visitor actually will have a corpse to go with it at some future date. A madcap comedy. Starring John Mills, Ralph Richardson, Michael Caine, Nanette Newman, Tony Hancock and Peter Sellers.

Show time: 4:30 and 6:00 p.m.

\*\*\*\*\*

Campus roundup will be held Oct. 22.

# Trophy Presented to UMR

— Maj. Gen. John H. Chiles, deputy commanding general of the Fifth United States Army, Ft. Sheridan, Ill., called 1st Lt. Michael S. Clayton, UMR graduate, a credit to the United States Army in a ceremony on campus September 24. At the occasion at 2 p.m. in the Library, Gen. Chiles presented the Hughes Trophy Award to UMR to be on display during the academic year. The trophy was originally presented to Lt. Clayton for being the most outstanding commissioned graduate of the Senior Division ROTC in 1968 out of 14,100 commissioned graduates throughout the country.

Gen. Chiles said that this is the first time a commissioned graduate has been chosen for this honor in the Fifth Army area. "The Army is proud to identify with Lt. Clayton and the school which he represents", he said. "UMR, which is recognized in engineering and science and in many other areas, receives another honor with this award to Lt. Clayton".

He said that "all of us hope our relatives have such men as Lt. Clayton as leaders in the Army".

In receiving the trophy for the school, UMR Chancellor Merl Baker said that this success reflects on the outstanding capabilities of Lt. Clayton, but in addition, is a documentation of the cooperative relationship between the faculty of UMR and the military staff.

"The ROTC department reports to the dean of faculties, a campus-wide official, who has authority to approve the official recognition of ROTC credit. However, each department has the decision of how little or how much credit is to apply toward the degree of that department", he said. "The mutual understanding between the faculties of each department and the ROTC faculty then is vitally important to the success of the ROTC program. We are pleased that this relationship has been effective to the extent that not only does this campus have a large ROTC program, but also one of very high quality. Lt. Clayton demonstrates this quality".

Col. John M. Frassrand, chairman of the UMR department of military science, also verbally congratulated Lt. Clayton during the ceremony. According to Col. Frassrand, Lt. Clayton demonstrated outstanding qualities of leadership during his entire ROTC program at UMR.

He was selected by the Department of the Army for the

honor last spring on the basis of his ROTC, scholastic and leadership record at UMR. The award was presented to him by Gen. William C. Westmoreland, chief of staff of the U.S. Army in Washington, D.C. ceremonies last May. The trophy is made available by the Hughes Aircraft Corp., Culver City, Calif.

Lt. Clayton, who is from Hayti and is presently assigned to Ft. Eustis, Va., holds a B.S. degree in civil engineering from UMR. During his final year on campus, he held the grade of cadet colonel and commanded the UMR ROTC Brigade. He was awarded ROTC honors for outstanding ability, military aptitude, scholastic achievement and leadership.

Academically, he graduated with a cumulative grade point average of 3.52 out of a possible 4.00. He held a Curators Scholarship, the Enoch R. Needles Scholarship Award, the American Legion Scholarship Award, the Knights Templar E-

ducational Foundation Scholarship, and was given the Phi Kappa Phi Book Plate Award for high scholastic achievement.

He was selected for Who's Who Among Students in American Colleges and Universities, and was a member of the Tau Beta Pi, Chi Epsilon, Phi Kappa Phi, Phi Eta Sigma honoraries and the American Society of Civil Engineers. He served as drillmaster and company commander for the Pershing Rifles, was a member of the National Society of Scabbard and Blade and completed the ROTC flight program.

## NOTICE

The Red Cross Bloodmobile will be in Rolla at the Episcopal Parish House, 10th and Main Streets, on:

Wednesday, October 1, from 12 noon to 5:30 p.m.; Thursday, October 2, from 11 a.m. to 4:30 p.m.

# Bob Nicodemus Elected Man of the Month

Last May, Blue Key selected Bob Nicodemus as its May Man of the Month. Bob, a Mechanical Engineering major from Nevada, Missouri, graduated in June with a 3.94 grade point. He is a member of Delta Sigma Phi Social Fraternity where he was chosen "Outstanding Active" for the spring semester of 1969.

Bob Nicodemus

Bob has served as Secretary of Blue Key, Secretary and Vice-President of M-Club, Historian of Phi Eta Sigma, and Co-captain of the varsity football team. He is also a member of Tau Beta Pi, Phi Kappa Phi,

and Theta Tau.

Bob has received numerous honors and awards. He received the General Motors Scholarship, Lions Club Scholarship, NCAA Graduate Scholarship, and Booster Club Award for the most valuable running back. He was also chosen "M-Club Athlete of the Year", Theta Tau "Freshman of the Year", and elected to Who's Who in American Colleges and Universities.

# Industrial Day Comes to UMR

Every once in a while something fairly new and different happens on the UMR campus, and more often than not, not everyone knows what it is, where it is, or when it is. Missouri Industry Day, which took place last Tuesday, September 23, was just such a happening. The exposition, which lasted from 8:00 a.m. to 5:00 p.m., was not only interesting, but also very worthwhile for those who took part in the proceedings.

This is only the second year for this event, which has a bright future and should be with us for years to come. The original idea was suggested to Chancellor Baker by W. Ashley Gray, the president of General Steel Industries, Inc. There was room for 110 exhibits, and although there weren't that many, there was a fine turnout of 67 companies, out of the 225 Missouri-based operations that were invited on a selective basis. The reason there weren't more is the amount of time and money that is necessary to set up a booth.

One of the highlights of the day was the appearance of Governor Warren Hearnes and President John Weaver of the University of Missouri system. The Governor went to almost every booth, showing an avid interest in everything, and taking time to chat with many of the representatives. Bill Stevens, of the Industry Day Committee, seemed to think that it benefited the school as well as himself. "These companies will find out about the Governor's enthusiasm for the affair, which will help us; on the other hand, he was more than happy, I'm sure, to promote Missouri industry." Most of the representatives that I talked to did seem excited at having met and talked with the Governor.

The crowds were there, but everyone seemed to think that there were things working against an overflow group. The new location off campus, the date so early in the school year, and the rain - which came down in fine style - seemed to be the main things. A shuttle-bus service was set up to encourage the students, and also to keep a smooth flow of students passing through.

The representatives themselves seemed to enjoy this science fair in reverse. Many of them were graduates of Rolla, and it was almost like old home week for them. None of them thought that it was a big show or a waste of time, and they were having more fun than the students. Their purpose seemed to be twofold: to be on the lookout for prospective engineers, and to promote the name and image that they want to make people aware of. The Rawlings rep made a ludicrous statement, however, of one of their goals: "We would like to keep some graduates right in this area for their career work."

Needless to say, Rawlings could go right out of business with that kind of an attitude. The exhibits, especially the movies and working ones, did seem to accomplish these objectives, and some even gave away things, which didn't hurt their cause.

And what about the students? Here is what a few of them had to say: "Interesting and educational", "All right-if you are a junior or a senior", and "Fine, if I can get a summer job."

## NOTICE

Theta Tau applications for "Freshman of the Year" are available at the Student Union candy counter. Deadline for applications is 5:00 p.m. on October 8. Completed forms may be returned to the candy counter.

## Budget Cut Unfair

Many of the students at the four campuses of the University of Missouri were rather surprised to learn of the increase in incidental fees that they were required to pay this year. This is especially true for many of UMR's students who last year voted to raise the fees and were told "not at the present time."

But the increase of fees this year is the only recourse left open to the University if they are to have the funds to operate this year. In its regular session of 1969, the Missouri legislature failed to allocate enough funds to operate the University for the fiscal year which began on July 1.

The legislature voted to appropriate 80 million dollars last spring. This amount was a 5 million dollar cut from the figure requested by Governor Hearnes, and a 15 million dollar cut from the request of University of Missouri President Weaver's proposed budget.

Moreover, these 80 millions are to cover the expense of operating the University only. No provisions were made in the appropriation for capital improvement.

In light of this, how can the governor have such high hopes for industry in Missouri, as stated in his speech last week? In this day and age, how can our industry and civilization hope to survive without the educated and trained personnel so desperately looked for in our universities?

If Missouri hopes to attract more industries and to have the trained people these industries need, they had better take a close look at their educational system and provide for its minimum needs at the least. Without sufficient funds for its operation and capital improvement, our university cannot be the dynamic force that it should be.

## Signs of the Times . . . .

## KMSM Presents

This week marks the beginning of the National Educational Radio Networks (NERN) fall program offerings as listed below. Each week in this column several of the programs to be presented regularly this fall will be reviewed.

Tentatively scheduled to begin Wednesday evening, Oct. 8th, is a series entitled The 1970's--Challenge and Opportunity. The first program in the series will be on the topic "Student Unrest--What are Students Seeking."

### TRANSATLANTIC PROFILE

A program of comment and reports originating from Radio Nederland concerned with current events in Europe in terms of individuals in the news and the consequences of political devel-

opments on the Continent.

THE GEORGETOWN FORUM Coming from Georgetown University, this panel discussion type program is a continuous series of discussions of significant subjects by leading authorities.

### A FEDERAL CASE

Originates from Ann Zill, NERN Public Affairs Director and is intended for people who want to hear government leaders explain themselves, and their actions; Washington leaders tell what it's really like; crusaders with causes talking about what's really wrong--the kind of information you don't get in the papers. A FEDERAL CASE is going to deal with controversy, the complications of government and the contradictions.

## OUR MAN HOPPE

## Moon Flight Just A Flea Hop

Scene: The Heavenly Real Estate Office. The Landlord is seated behind his desk as his Collection Agent, Mr. Gabriel, makes his monthly report, trumpet in hand.

\*\*\*\*\*

Gabriel (reading): And then we've experienced a 16.3 per cent increase in exploding novae in Galaxy 1673-A. The evidence points to shoddy construction.

The Landlord: All my fault, Gabriel. I'll just undertake demolition proceedings. (He waves his hand). There. But do save the material from those 3.2 billion stars. Tomorrow, I'll build another. Anything else today?

Gabriel: No, sir. Oh, wait. There's a footnote here on that tiny little planet Earth. It's out on the fringes of Galaxy 24-137-X. Do you recall it, sir?

The Landlord: Oh, yes. I do hope the tenants are doing better.

Gabriel (a trifle smugly): Worse, sir. They're gouging up the carpet of meadows, polluting the water system, fouling the air and killing each other off at an even faster rate. You never saw such vandalism.

The Landlord (with a sigh): I so hoped they would grow up by now and meet their responsibilities.

Gabriel: Need I remind you, sir, that the first principle of sound property management is never to lease to juvenile delinquents. (raising his trumpet) Shall I sound the eviction notice now?

The Landlord (wearily): I

suppose so. Wait, what was that tiny flash, Gabriel?

Gabriel (with an amused smile): A crude rocket, sir. They're planning on flying to their moon.

The Landlord (excited): Why didn't you say so? That's tremendous!

Gabriel (surprised): Tremendous? But, sir, in the vastness of the universe the distance to their moon is insignificant. A cosmic flea could reach it in half a hop.

The Landlord: But don't you see, Gabriel, it's a first step. Perhaps it means they are growing up at last.

Gabriel (smiling): Oh, far from it, sir. It may be a first step, but they are taking it for all the most childish of reasons.

The Landlord: Childish? How so, Gabriel?

Gabriel: Well, you know, sir, how fond they are of their childish little clubs. Well, the American Club is going to the moon simply to show the Russian Club that it's better than they are. They're just doing it on a dare, sir?

The Landlord: The young do seek challenges, don't they?

Gabriel (frowning): Frankly, sir, they could far better use the money to fix up the place rather than gallivanting off on foolhardy adventures.

The Landlord: The young are so enthusiastic, aren't they?

Gabriel: And their technology really isn't ready yet for even such a miniscule flight. There's a good chance those going will all be killed.

The Landlord: The young are so brave, aren't they? And, at least, Gabriel, they will have tried.

Gabriel (lowering his trumpet): I suppose, sir, that despite all the principles of sound property management you're going to spare them once again.

The Landlord (more to himself than Gabriel): Imagine, after all these eons, they are at last about to take their first step out into my universe.

Gabriel (shaking his head): Sometimes I just don't understand you, sir.

The Landlord (with a smile): The trouble with you, Gabriel, is you've never been a father.

Great attempts have been made in recent months to make college courses more "practical". Student radicals claim that the mass of subjects taught in the liberal arts curriculum serve little purpose when one reaches that middle-aged limbo called "later-life".

Their point is well taken. 17th Century European History does not have much value when the baby is crying. Botany does not come to mind when the boss is coming for dinner.

So, to satisfy this crying need for a subject which fills this "practicality gap", I have designed a series of courses entitled "Life Problems".

In this liberal new concept in classes the student is forced to react in a typical "Life Problem" situation and is graded accordingly. Girls, of course, take a different course than boys since their problems in life are considerably different. And, as in other subjects, there are degrees of difficulty represented by course numbers: 100 level, 200 level, etc.

Here, then, is my proposed program of "Life Problem" courses:

## Life Problems 100 (Girls):

Situation: Against your repeated warnings, your husband insists that weight lifting is the hobby for him. "You'll hurt yourself", you keep telling him, but it does no good. After buying the necessary paraphernalia, he attempts to press 120 pounds the first night. The next two weeks he spends in the hospital with a sprained back. If you can restrain yourself from saying "I told you so", you pass.

## Life Problems 100 (Boys):

Situation: Your seven year old son has just returned from school after receiving his first lesson in sex education. He is smiling from ear to ear. If you can sleep that night, you pass.

## Life Problems 200 (Girls):

Situation: You give your husband the payment for the house and car insurance which is due the following day. A week later you drive the family car through the garage door. Damages amount to \$1200. Needless to say, your husband still has the letter with the premium in his coat pocket. If you talk your insurance company into paying off, you pass.

## Life Problems 200 (Boys):

Situation: Every Sunday afternoon your beautiful blonde next-door neighbor suns herself in a most becoming bikini. It wouldn't be so distracting, but this delightful scenery is visible from almost any angle in your backyard. If you manage to find a weekly excuse for working outside which your wife will believe, you pass. If you convince yourself that your wife looks better than your neighbor, your pass cum laude.

## Life Problems 300 (Girls):

Situation: The washer-dryer has broken down. You lost your Bankmark card while shopping. Billy, the two year old, has just swallowed an undeterminable amount of pills from an unidentifiable bottle in the medicine chest. The refrigerator doesn't seem to be cooling any more. Johnny, the five year old, ruined the diamond needle on his father's stereo turntable trying to play his plastic "Yankee Doodle" record. The plumber still hasn't arrived. And Bobby, the six year old, came home from school using a new word -- containing four letters -- of the Anglo-Saxon variety. If you can still cope, you pass.

## Life Problems 300 (Boys):

Situation: You left your briefcase on the bus. The air conditioner has broken down in your office on the hottest day in the year. You can't find those "important papers" that you left on your desk yesterday. You just lost a filling and your dentist can't take you until next Tuesday. And you come home 45 minutes late to your wife who has just had the day described in the Girls Life Problems 300 course. If you still have a kind word for her, you pass.

I'm afraid Life Problems would not be a very popular course, and there's little chance that anyone would want it as his major.

Unfortunately, Life Problems is everyone's major.

## Student Forum

## Editor's Note

Any letters written for the student forum must include the name of the person who has written the letter).

## Student Boycott

Dear Mr. Corbett,  
It has come to the attention of the College Young Democrats that a boycott of classes will be attempted October 15 on many college campuses across the country. This boycott is an effort by rational students holding a mutual contempt of the war in Viet Nam to demonstrate to the people of the United States the solidarity of the opposition to the Viet Nam war.

We, the College Young Democrats, pose the following questions to the student body and the Miner Editorial Staff for comment. Do the students of U.M.R. feel that a boycott is necessary? Do the students feel such an action will accomplish anything? Should this campus join the over two hundred other campuses and participate in the boycott? At our regular meeting on Wednesday October 8th, we will discuss these questions. Anyone interested in expressing an opinion, pro or con, is invited to attend and

speaking out.

Respectfully,

Robert Gold, President  
Steven Brody,  
Corresponding Sec't

## Traffic Safety

If you have registered your car and have not yet picked up your sticker, please do so because the stickers will not be mailed to students.

This year's stickers are bumper stickers, they should be placed on the rear bumper on the left side.

If a person has registered his car, this does not mean that he has a permit to park on campus. Parking permits will be issued as soon as possible. A student receiving a parking permit will be notified by telephone.

There are two free lots this year.

Lot 26 located on 14th and State. Students using this lot please have the courtesy to not block in another car.

Lot 36, which is located west of the material research lab. It is known as the Drill Field.

Parking will be free on this lot except on Oct. 7, 9, 14, 16, 21, 23, 28, 30, November 4, 6, 11, 13, 18, 20 from 7:30 A.M. to 2:30 P.M.

# Miners' Rushing Subdues Vikings

## UMR Runs to 33-14 Victory, Clark, Berry Match Records

by Pat Davidson

The University of Missouri-Rolla Miners held off a late Missouri Valley rally to pick up their second successive victory in as many outings. The Miners used a devastating rushing attack in the opening minutes to give themselves the early momentum and the lead.

Les Clark, sophomore tailback, galloped for a game total of 140 yards on 41 carries. The 41 attempts was a new Miner team record. Bob Berry, junior tailback, also tied the school scoring record as he tallied 18 points for the afternoon.

The Miners hit paydirt early in the first quarter as big Bill Milfelt recovered a Valley fumble on the Vikings first play from scrimmage. Five plays later Jack Grawe hit sophomore wingback Bob Somerville for five yards and a touchdown. Larry Oliver kicked the point after for a 7-0 lead.

The Miners regained the ball a short while later after the Vikings were forced to punt out of their own end zone. Seven plays later Berry scored from two yards out. Larry Oliver's conversion was wide.

### Miner Golfers 11th in Nation Parks Honored

by Lynn Lewellen

The Miner linksmen finished their spectacular 1969 season with an eleventh place finish in the NCAA Nationals in Albuquerque, New Mexico and the first All-American golfer for UMR. Fred Parks, ace golfer for the Miners placed fourth in the tournament and earned himself an All-American berth.

The golfers had proven their ability by winning the MIAA Conference title in May of this year and then placed first in the Regionals which were held in Waterloo, Iowa in June. The regional meet consisted of 18

Fred Parks

teams some of which were represented by individuals, while the national meet brought 24 of the best college teams in the nation together.

Coach Mercier commented on the length of the course in Albuquerque adding it was every bit of the 7300 yard, par 72, as shown on the card. Fred Parks had scores of 78-75-76-75 for the four day tournament. Coach Mercier expects to retain half of his nationally recognized team in Mike Sease, Alan Carson and Jim McCracken, while Bill Knauf, Don Traut and Fred Parks were lost to graduation.

Anyone who is interested in playing golf for UMR should contact Coach Mercier in the Multi-purpose building. Coach Mercier is looking into the possibility of fall tryouts for those who have not lettered.

A Bruce Ayers to Dan Kratzer touchdown pass was the only score the Vikings picked up in the first half. Herschel Owens booted the extra point and the Miners held a slim 13-7 lead.

Fred White set up the final tally of the first half as he picked off an enemy aerial and ran it back 43 yards to the Viking 23 yard line. Bob Berry plunged into the end zone from four yards out to give the Miners a two touchdown lead. Larry Oliver again converted the point after and the Miners had a 20-7 lead at the intermission.

The third quarter was a kicking game as neither team could move the ball. The Miners reached the Viking 14-yard line but were unable to push into the end zone. The fourth period brought plenty of excitement for the 5000 fans. Bruce Ayers again hit Dan Kratzer for a touchdown pass and after Owens converted, the Miners held a slim 20-14 lead with nine minutes remaining.

The "Golden Horde" held back the Vikings scoring attacks and gave the UMR offensive

team good field position, leading to two more scores. Bob Berry caught a 10-yard pass from Jack Grawe for a touchdown. Then, with nine seconds left in the game Pat Godwin raced into the end zone for six more points. John Key, a freshman from Rolla, converted the extra point for the final point of the game.

Special note should go to defensive specialists Joe Passantino and Fred White. Passantino, sophomore monster man, intercepted two passes to bring his season's total to four in two games. White intercepted his second aerial of the season.

This Saturday the Miners face the Bradley Braves from Peoria, Illinois at New Jackling Field. The contest will highlight Parent's Day activities on the UMR campus.

	UMR	Mo. Valley
First downs	17	7
Yds. rush.	263	60
Passing	16-8-1	16-4-3
Pass. Yd.	114	103

Punts	6-38.6	9-36.4
Fumbles	1	1

## Sidelines

by Roger Ellis

With co-captain Alan Zaborac on the bench with a knee injury Coach Dewey Algood had to call upon his reserves to fill the vacant spot at strong side tackle. Steve "Chico" Kutska a 6'4", 235 pound junior started at the position and was credited by the coaching staff with an outstanding performance. This was evident throughout the game as halfback Leslie Clark ran numerous times through the right side of the offensive line on his way to piling up 140 yards rushing. The offensive hit of the game was given to freshman Carl Pelech who shared the tackle duty with Kutska. Carl, a 6'4", 240 pound lad, was an All-State selection his senior year at Saint Louis University High School.

The remainder of the strong side of the offensive line was also credited with tremendous play. Three year letterman Frank Winfield a six foot, 240 pound guard and tight end Steve McVeigh continually combined efforts with tackles Kutska and Pelech to drive holes in the Missouri Valley line. Sophomore center Dennis Smith contributed throughout the game to the devastating power of the offensive line.

As a unit the strong side of the offensive line put on a display of excellent blocking. With this kind of play in front of them, running backs Bob Berry and Leslie Clark were able to place their names in the school record book. Bob Berry

# Miners Shoot for Third Win, Face Inexperienced Bradley

by Bill Hersford

On Saturday, October 4th, the Bradley Braves will oppose the UMR Miners in the traditional Parent's Day gridiron clash. The 1969 Braves are a solid team offensively, with lettermen filling nine of the eleven starting spots. Defensively, however, they start six underclassmen and are thus handicapped by inexperience.

The offense travels primarily by air and depends upon the arm of quarter back Larry Selinger and receivers Tom Whitney and Ernie Pierantoni. Selinger, a big quarterback at 6'1" and 220 pounds, is a good passer with a 43% completion average in his college career. He is only an average runner, however, and in the past has shown a tendency towards interception. In Bradley's first game of the season, he completed less than a third of his passes and threw three interceptions. Wide receivers Whitney and Pierantoni must fill the gap left by the departure of top receiver Mike Dafferner and flanker Jim Ulrich. Whitney, in his first appearance of the season caught eight passes for two touch-downs and averaged 23 yards per catch. Pierantoni, who started last year at tight end, has been moved to a wide receiver slot this season. He was among the team's leaders in receptions last year with 23 catches. Tim Rassi, a senior who saw only limited duty in '68, will provide back up strength for both receiving slots. Moving up to fill the vacancy at tight end is the only freshman on the offense, Jack Frost. He is a converted full-back and an excellent blocker.

The Braves exhibit a lack of depth at running back. Tom Stephano, who led the team rushing in '68, will return to the fullback spot. He averaged 3.4 per carry and also caught twenty-seven passes coming out of the backfield. The half-back spot will be filled by Jim Donahue, a junior transfer student from Western Illinois. The only experienced substitute is Dave Hebenstrie, who is also a starting linebacker on defense. This trio rushed for a total of only 54 yards in the opener against Evansville. The offensive line is anchored by 230 lb. Gil Renner who went both ways at tackle last season. Two players will make the switch from defense to offense in an effort to bolster the line. They are 255 lb. Jack Weich and 190 lb. Chuck Kalb, an ex-linebacker.

The defense, which yielded 49 points in the opener, starts 6 underclassmen and will have to contend with inexperience. Only Mike Kepple, who intercepted 5 passes last year, is returning to the defensive secondary. The linebacking corps

has Steve Beemer and Dave Hebenstrie returning, but must find a third linebacker. The defensive line is made up of all lettermen except Doug Steele, a 210 lb. freshman. The

line averages over 200 lbs. and should be tough to run against. Overall, the Bradley team is inexperienced and lacks depth at certain positions, especially on defense.

## Meet the Miners

by Steve Nimmo

This week's "Miner of the Week" is Jack Grawe, quarterback for the "Fighting Miners" of UMR. Jack comes from Quincy, Illinois where he had a colorful high school career. He was class Vice-President his freshman, sophomore, and junior years, and served as Student Council Vice-President his senior year. He was an outstanding athlete throughout high school, lettering three years in football, basketball, and baseball. In his senior year, Grawe was awarded the "Best Athlete of the School" award, and all-state honorable mention in football. Jack also received the "Golden Helmet" award which was set up by the National Football league to be given to a player who showed outstanding ability in high school football. Graduating from C.B.C. in 1966, Jack came to U.M.R. to further

tempted passes for 135 yards. That's quite an impressive record in anyone's books. Two of Grawe's pinpoint aeri-als connected for touchdowns, and once when U.M.R. was faced

with a third and eight situation, Grawe bombed a perfect pass to Quaranta to get a first down and set up another Miner score. Grawe has stiff competition at the quarterback slot, but if he continues to perform as he did against Washington University and Missouri Valley he should have no problem in holding down his starting position.

Jack Grawe

his football career. He is now a senior in Civil Engineering, and will be a third year letterman on the squad. Grawe has been an active member of the Phi Kappa Theta fraternity where he now holds the office of Executive Vice-President. Jack was also on Phi Kap's intramural basketball, softball and 1968 championship volleyball team.

Most important to the Miners, however, is how well he does on the football field. In U.M.R.'s opening game with Washington University Grawe completed eight of nine at-

## M-Club News

by Ed Hanstein

The lettermen's club of UMR conducted its first meeting of the '69-70 school year on Sept. 18. Presiding at the meeting was President Larry Oliver.

The main business was homecoming buttons for the Miners' football game with the Cape Girardeau Indians on Oct. 25. The buttons will read, "Trample the Tribe," with Joe Miner atop a horse, trampling an indian; representing a Miner victory.

Faculty advisor and honorary member, C. R. Remington, informed new members of the club's goals. Said Remington, "The goals of the 'M' Club are fourfold. First, the club promotes sportsmanship both in and out of athletic competition. Second, the club encourages participation in varsity athletics. Third, the club recognizes athletic achievement through 'Athlete of the Month' awards and the 'Gale Bullman Trophy'. Fourth, the club shall lend service to spectators, players, and officials at UMR athletic contests." The members were urged to strive towards these goals during the ensuing year.

## Xerox: For engineers who think of more than engineering.

Creative people like John Gardner see engineering as only one outlet for their talents.

Among John's other concerns is today's widespread shortage of technical talent. Due in large part, as he sees it, to children's lack of exposure to the excitement of science.

John's doing something about it. He's turned the Gardner basement into a part-time laboratory, with almost-weekly demonstrations and projects for neighborhood kids. Where children as young as seven make simple photoelectric devices. Measure ballistic projectile velocities. And explore subjects like polarized light, fiber optics, and electronic calculators, with the help of equipment loaned by Xerox.

"My biggest delight," John recalls, "was seeing the first youngster's face light up when he gave his home-made electric motor a shove, and it kept moving."

"Children's interests," John maintains, "should be stimulated early. Not by

spoon-feeding answers, but by stimulating them to question."

As an Area Manager in our Advanced Development Department, John asks—and answers—some interesting questions of his own. If you'd like to work for the kind of firm that respects, supports and recognizes people like John, why not talk to us about the opportunities at our suburban Rochester, New York facilities. Your degree in Engineering or Science may qualify you for some intriguing openings in a broad spectrum of developmental and manufacturing areas.

See your Placement Director for a copy of our brochure and to arrange an interview with our representative. Or, write directly to Mr. Roger Vanderploeg, Xerox Corporation, P.O. Box 251, Webster, New York 14580. An Equal Opportunity Employer (m/f).
