First Step Taken 100 Years Ago

Journey Of UMR Outlined By Morris

Two large crowds gathered down at the Multi-purpose Building on Tuesday, February 24, 1970, for the Founder's Day Dedication and the Founders' Day Convocation, to celebrate the centennial of UMR.

The Founders' Day Dedication started at 10:00 a.m., with the UMR Brass Band, conducted by Joel Kramme, playing some popular music from 1870 prior to the program. The Dedication was opened by an invocation given by Father Charles Prass of St. Patrick's Church. In his message, he brought out the point that men have been able to uncover the secrets of nature and harness its power but have not been able to find God.

Dr. Thomas R. Beveridge, Master of Ceremonies, welcomed everybody and brought out some interesting points. The most significant point, however, stated that many state supported schools graduate a large quantity of people but few schools produce the quality of a UMR student to accompany the quantity.

James J. Murphy, President of the UMR Alumni Association, then presented the Centennial Flag to Chancellor Baker, which was designed by Mrs. Al Behring and Miss Barbara Burbank.

Jack Leone, President of the UMR Student Council, then presented "A Centennial Challenge". His remarks pertained to the past, present, and future of UMR. He stated that "Education is a journey, not a destination", and further that "each journey begins with a single step, just as those first men took 100 years ago." UMR, like many other schools, is helping to cope with society's needs of engineers and scientists. The challenge of the present and future alumni, and many other people is to cope with the financial needs of the university. "It is a challenge worthy of all of us, can we do it?"

Dorms Display Support For Vietnam - Give Blood

Buses carrying long-haired college-age young men to Fort Leonard Wood are not an unusual sight at the Army training post.

However, the buses that rolled through the main gate at Fort Wood on Wednesday, Feb. 25, were not bound for basic training units but to General Leonard Wood Army Hospital.

More than 200 students from the University of Missouri at Rolla journeyed to Fort Wood to donate blood.

The blood donor program is sponsored by the University Men's Residence Halls Association under the direction of association president Lee Turpin and publicity director Rich-

ard Brown. "We are donating blood to show support for the men and forces fighting in Vietnam," said Brown. "From the support received, we feel that this donation program will become a yearly activity," he continued.

The assembly was then closed by introducing and singing the new fight song, "Fight, Miners" by Kenneth Asher and Benediction by Father Prass.

The Founders' Day Convocation started at 2:00 p.m. and featured Lt. Governor William S. Morris. The UMR Concert Wind Ensemble, conducted by David L. Oakley, performed prior to the arrival of the special guests.

The Convocation was begun by Rev. Howard R. Hilsabeck giving the invocation and by Kenneth K. Asher singing the National Anthem.

Chancellor Baker then welcomed everybody to the Founders' Day Convocation. He recognized the fact that this day would be written into the pages of the history of Missouri. He also stated that UMR is ranked number seven in granting B.S. degrees in the United States. The Chancellor also thinks that UMR has tremendous potential for becoming a coed school.

Then Robert G. Brady, a member of the Board of Curators, greeted the assembly. He said that UMR has many accomplishments to its credit. One of those pertains to the largest number of B.S. degrees in engineering West of the Mississippi. He is confident of a promising future for UMR.

Next on the agenda was Dr. Elmer Ellis, President Emeri-

tus of the University of Missouri, who was representing the President of the University of Missouri, John C. Weaver.

The keynote speaker of the afternoon was Lt. Governor Morris of the State of Missouri. Lt. Governor Morris gave an interesting speech on UMR's heritage and challenges. He briefly outlined a history of UMR, starting back in 1870 under the administration of

Charles P. Williams. Through the years, UMR struggled to survive and finally reached its present stage of higher education. Lt. Governor Morris ended on the quote by Niel Armstrong, "One small step for man, one giant leap for mankind."

Jack Leone then presented a commemorative plaque to the State of Missouri and another plaque to UMR. One plaque

will be displayed in the lobby of the new student center and another in Jefferson City. Mayor Logan of Rolla then accepted a plaque from Lt. Governor Morris.

Finally, Chancellor Baker presented some closing remarks followed by Benediction from Rev. Hilsabeck. Both ceremonies proved to be very interesting and beneficial to all those who attended.

Average Salary For UMR Grads Rise

Students who received bachelor's degrees from the University of Missouri-Rolla in the Jan. 25 commencement exercises started out in jobs this month at an average salary of \$863 per month. Figures were released by the UMR Placement Office, under the direction of L. R. Nuss.

The average starting salary for bachelor's degree recipients at UMR is up \$27 from the \$836 average salary received by the May, 1969 bachelor's degree graduates here.

Those receiving master's degrees from UMR in January started out in jobs at an average of \$925 per month. Ph.D. recipients started out at \$1,400 average salaries.

Of the approximate 440 graduates at UMR, 53 plan to enter full time graduate study immediately and 27 were commissioned under the ROTC program. A total of 18 plan to enlist.

The highest starting salary at the bachelor's level was \$1,021 per month--which went to an electrical engineer. A

chemical engineer and a graduate in engineering management started out at \$1,000 each per month.

Average monthly starting salaries at the bachelor's level of disciplines reporting included: Mathematics \$936, chemical engineering, \$910, petroleum engineering, \$900, metallurgical engineering (nuclear option) \$900, physics \$892, engineering management \$877, metallurgical engineering \$873, mechanical engineering \$868, electrical engineering \$864, geology (geophysics) \$840, chemistry \$835, civil engineering \$832, computer science \$826, geology and engineering mechanics \$825, and aerospace engineering \$810. Liberal arts graduates averaged \$848 per month.

The highest starting salary at the master's level went to a computer science graduate, \$1,043 per month. One master's graduate in engineering administration went to work at a salary of \$1,040 per month.

Of the graduates taking full time jobs, the largest number 33, went to work for metals and

metal products companies. Other employment areas reporting a large number of UMR graduates hired were: Petroleum and allied products (24), Automotive and mechanical equipment (23), chemicals drugs and Allied products (21), public utilities, (22), aerospace and components (20), and highways (20).

McDonnell Douglas hired more UMR graduates than any other company--14. Other organizations hiring a large number of UMR graduates were: General Motors, 12; Bell System, 11; Missouri Highway Department, 10; and the Monsanto Company, 9.

UMR's 9 Outstanding Young Men

A total of nine graduates of the University of Missouri-Rolla, including two who are professors here, have been selected as Outstanding Young Men of America for 1970.

Honored are: Dr. Delbert E. Day, UMR professor of ceramic engineering and director of the Industrial Research Center; Dr. Thomas J. O'Keefe, UMR associate professor of metallurgical engineering and senior investigator (materials) at the Space Sciences Research Center at Rolla; Julius Franklin Kruger, Emerson Electric, St. Louis; Dr. W. Wayne Siesennop, Rex Chainbelt Inc., Milwaukee, Wis.; Paul J. Koehler, United States Naval Ordnance Laboratory, Corona, Calif.; Alan Shaffer, Nooter Corp., St. Louis; Kenneth T. Klebba, Phillips Petroleum Company, Bartlesville, Okla.; Robert Wayne Schneider, Armco, Sylvania, Ohio; and Harold W. Kosten, Power Drive Equipment Company, Cincinnati, Ohio.

Outstanding Young Men of America is an annual biographical compilation featuring the accomplishments of some 5,000 young men of outstanding rank throughout the country. Nominations for the awards publication are made by Jaycee chapters, college alumni associations and military com-

mandants.

Criteria for selection includes service to others, professional excellence, business advancement, charitable activities and civic and professional recognition. Selections for the 1970 edition were announced by a 16-man Board of Advisory Editors. Publication date of the 1970 edition is May 30.

Dr. Day holds a B. S. in ceramic engineering from UMR and M.S. and Ph. D. degrees from Pennsylvania State Uni-

versity. Dr. O'Keefe holds B.S. AND Ph.D. degrees in metallurgical engineering from here.

Kruger's degree from UMR is a B.S. in electrical engineering. Dr. Siesennop holds a B.S. in mechanical engineering from here is in physics. Shaffer's is in metallurgical engineering. Schneider's is in civil engineering, and Kosten's is in mechanical engineering. Klebba holds B.S. and M. S. degrees in civil engineering from UMR.

Community Dance At Lions Club

A new event will be included in the schedule of activities for the week-end of the St. Patrick's celebration. There will be a community St. Pat's dance on Friday, Mar. 13 from 9 p.m. to 1 a.m. This dance will be held for the people of Rolla, the faculty at the University, and the returning alumni. It will be held at the Lions' Den on highway 53 south and is sponsored by the Rolla Jaycees in cooperation with the UMR St. Pat's Board.

The music will be provided by B.A. Wagner's 12-piece orchestra.

The price of admission is

\$5 per couple. Due to the limited size of the Lions' Den, only a limited number of tickets are available. For reservations contact Albert Bolon of the Metallurgy faculty, Ron Lane, Civil Engineering grad student, or Dave Mitchell at Long Insurance; or you may write for tickets to St. Pat's Dance, 1200 Lynwood, Rolla, Missouri. Please enclose your check with the order.

For further information contact Albert E. Bolon, home 364-1961 office 364-2454.

Alpha Phi Omega Elects Officers

Officers for the spring semester have been announced by Alpha Phi Omega, service fraternity at the University of Missouri-Rolla.

They are: President, Charles D. Laderoute of 1010 Sixth Ave., St. Joseph; first vice president, Robert Cranmer of 1431 Marsh Ave., Ellisville; second vice president, Terry Donze of 6741 Eichelberger, St. Louis; secretary, John Haley of 7019 A. Southwest, St. Louis; treasurer, Dennis Miera of 9112 Lemona, St. Louis; sergeant-at-arms, Robert Touzinsky of 28 Toulon Drive, St. Louis; historian, William Bauman of 722 Lahaye, Ste. Genevieve; corresponding secretary, Jon Kremer of Rte. 2 Ballwin and alumni secretary, Charles E. Roth of 215 N. 8th, Ste. Genevieve.

Reading Course To Be Offered

The University of Missouri-Rolla will offer an evening course in the enhancement and retention of reading from March 10 through May 19 on campus. The course is presented by the Extension Division.

Instructor is Dr. Robert Sawyer, UMR associate professor of psychology. Fee is \$25 per person. Further information may be obtained and enrollment may be made by contacting the Extension Division at UMR.

Miner of the Week

The Chicken or The Egg

Dr. John A. O'Keefe, assistant chief for planetary studies, Goddard Space Flight Center Laboratory for Space Physics, Greenbelt, Md., talked about the future challenges in the space program at the University of Missouri-Rolla centennial flag presentation.

Dr. O'Keefe said that he hopes that a future challenge of the space program is to trace out the beginning of the solar system and the universe starting with the things we can hold in our hand. "There are many theories of the solar system's origin," he said, "But perhaps the solar system was formed not by gathering of small bodies, but by the breaking up of large bodies. Breakage was probably caused by rotation."

Dr. O'Keefe said that it is suggested that the moon might have separated from the earth through rotation.

"Most remarkable results from Apollo 11," he said, "is the chemical analysis of lunar samples which tell us many things about the moon and its origin."

Among facts suggested he said are that there are certain

fixed relationships among the elements in the cosmos and that the moon is deficient in volatile materials. He said that the moon appears to be extremely dry and that sometime in its past history, it was probably subjected to tremendous heat.

Dr. O'Keefe has been with the National Aeronautics and Space Administration Goddard Space Flight Center since 1958. Prior to that, he served the U.S. Army Corps of Engineers and was professor of physics and mathematics, Brenau College, Gainesville, Ga. He holds a Ph.D. degree in astronomy from the University of Chicago and an A.B. in astronomy from Harvard College.

NOTICE!

Senior co-ops who were unable to have their 1970 Rollamo pictures taken during the first semester will be given the opportunity to have this done on Tuesday, March 17, from 6:30 to 9:00 p.m. at Del Valle Studios.

St. Pat Presents: Sam and Dave Revues

Saturday, March 14, the St. Pat's Board and the Student Council will present a special St. Pat's general lecture in the Multipurpose Building at 4:00. The concert features the music and dancing of the Sam and Dave Revue.

Sam Moore and Dave Prater have been a team since 1960. Their brand of music is commonly known as soul, but a little deeper probe will establish it as Rhythm and Blues. Their records have continually reached the 1,000,000 mark in sales with tunes such as, "You Don't Know Like I Know," "Hold On, I'm Coming," "Soul Man," and "I Thank You."

Just hearing their records isn't half as good as seeing them in person. They're fantastic dancers, backed up by a nine piece band, which includes four saxes, two trumpets, two trombones, two electric guitars, two drummers, and an organ. They have a complete-

Suppose They Gave A Parade And Nobody Came!

With St. Pat's only nine days away, the St. Pat's Board finds itself in a somewhat ridiculous position.

The Board awards six trophies for floats in the parade. One trophy goes to the Queen's Float. The other four are awarded to the remaining floats.

But, this year, there are only nine floats entered for the float contest. This includes the Queen's float. Only nine floats, out of a possible twenty-seven.

There are twenty fraternities, six eating clubs, and the MRHA. All are eligible to enter floats. All of them have done so in the past. Yet, this year, only nine have entered. And this number may decrease before Saturday comes.

What is the reason for this sudden lack of interest? With the St. Pat's Board giving each float entry \$300, financing a float should not be an excuse.

Is everyone expecting the "other guy" to give a little of his time and energy in order that OUR celebration in honor of the patron saint of engineers be the best possible? It may be too late this year, but each of the eligible organizations should take a close look at St. Pat's this year, as should every student.

If something different is wanted, make your wishes known to the Board. If you are satisfied with the planning we have now, participate! But do something.

Corbett

Rollamo Pictures

The following organizations will have their pictures taken for the 69-70 Rollamo on Tuesday, March 10, 1970. Please be there at least 5 minutes early so that there will be no delays. Any organization which is late will lose their place in line. Bring a pen or pencil to fill out name cards. Pictures will be taken in the Student Union Ballroom.

NEVADA SMITH

This odyssey of revenge is a grim, relentless search by a naive half breed (Steve McQueen) for three men who killed his father and Indian mother. His travels take him through saloons, brothels, gambling games, and prison. The film is violent and cold-blooded with many scenes of brutality and cruelty depicting the torment of a loner who wants to administer his own brand of primitive justice. White Brian Keith, Karl Malden, Arthur Kennedy, Martin Landau, and Suzanne Pleshette.

To the Editor
of the Missouri Miner

Sir:

For the past four months I have become increasingly distressed by a situation that exists at the Multipurpose Building.

It was my impression that this new facility was built for the STUDENTS. That it was partially paid for by his fees and the taxes paid by Missouri students' parents, also contributed to my impression.

Apparently this is not the view of the Athletic Department here. Every move made in this building is in deference to the varsity athlete. Granted, the varsity athlete is a student, but a minor portion of the student body is comprised of these "gods."

I shall relate my experience. I waited out the varsity basketball season, along with other mere students, having to be run off the courts at four each day,

but I considered this part of the deal--a college of any repute must have varsity squads? Then a block buster . . . struck. On a Sunday, one of the few really relaxed days for the student, I, along with others, was run out of the building at four o'clock because "Maryville had to practice." This really burnt me for I was on a handball court and in no position to steal any of their plays from my "vantage point."

Now the crowning blow. As I breathed a sigh that basketball season was over and the gym would be public domain, I was hustled off the floor today because the track team had to practice. This was a beautiful day in the forties and I always thought that track was a running, sport with no need for wood floors. I must have never been a true trackman in high school for we ran in rain and snow.

My question is; why can't this lovely building be put to use by Joe Miner, average student, by extending open hours or by giving a little nook to we who don't want to work our tails off, but only wish to stay in shape and enjoy the sports indoors without having to have an

appointment with the Athletic Department Chairman to get into the building.

William D. Alexander

Hwy. 63 Hold Up

Several weeks have passed since Highway 63 traffic was rerouted. Students now face the peril of crossing this busy street. And the students are not only Miners, but also local grade school and high school students.

I stood on the corner of 8th and State one morning and watched two small girls play tag with the cars. Parked cars along State St. probably hid them from approaching drivers; I know they could not see cars approaching the intersection.

So, they dodged in and out. With a burst of speed, the older of the two girls made it. But she had to wait for the younger girl. Neither of them could have been older than ten.

I would like to know when the pedestrian controlled lights will be installed. If the local authorities don't particularly care about the UMR students, they should still install one. . . Someone's daughter may thank them someday.

Ugly Men Arouse Competition

The 1970 Theta Tau Ugly Man Contest is already off and running. This year's proceeds from the drive will go entirely to the South Central Missouri Shrine Club, who were never unwilling to offer a helping hand in last year's contest.

Fourteen UMR organizations are working toward the two Ugly Man trophies to be given this year. Included in the organizations are:

JAMES F. SCHMITZ

Phi Kappa Theta is proud to present James Schmitz as it's Ugly Man for the 1969-70 campaign. Jim, from St. Louis, is a senior in Civil Engineering. Since transferring to UMR in his Junior year, he has since become a member of the ASCE, and he has recently been initiated into UMR's chapter of Chi Epsilon. Jim will use his initiative and energy to become a successful Ugly Man.

JOHN WINKELMANN

Through the years, Beta Sigma Psi has had Ugly men, but this year is the most hideous, horrid, horrible, frightful, dreadful, terrible, awful, repulsive, repelling, repugnant, offensive, forbidding, loathsome, ghastly, gruesome, grisly and grotesque one of all. His name is John Winkelmann, spelled with a W for (w)horrible. While he is not uglying up the house, he serves his time at UMR as a soph. in E. E. John has devised many sinister schemes to raise money for charity.

STEVEN BRODY

Alpha Epsilon Pi is pleased to announce that Mr. Steven Brody is their representative to the Theta Tau Ugly Man Contest. Steve is a sophomore in C.E. He is currently serving as V.P. of College Young Democrats and is also pledging Alpha Phi Omega.

ROBERT KEITH

Prospectors Club's Ugly Man candidate is Robert Keith, a freshman majoring in Electrical Engineering.

PAUL BURKE

Representing Pi Kappa Alpha this year is Paul Burke. A sophomore in Civil Engineering, Paul plans to do his dog-gone best to raise money for the Shriners.

BRAD HORKY

Representing Thomas Jefferson Residence Hall is Mr. Brad Horky. A senior majoring in E.E. and a member of Eta Kappa Nu, he has been active in intramural football, ping-pong, softball, and is presently coaching the girls intramural basketball team. Also, he is an active member of the Dorm board.

RON GAUS

The members of MRHA present Ron Gaus as their candidate for Ugly Man this year. Ron is from Kirkwood, Mo. and is a senior majoring in Ceramic Engineering. He has held the office of Publicity Chairman in the MRHA and is presently a Personell Assistant, and also Treasurer of the American Ceramic Society.

BOB CRANMER

Delta Tau Delta is proud to present Bob Cranmer as its Ugly Man for this year. Besides being the ugliest man in the house, Bob has helped the house by serving as recording secretary and vice-president. He is the senior representative on the IFC, treasurer of APO, and a member of Theta Tau. Being so Active and ugly, Bob will be a good ugly man candidate.

RICH HERBST

Tau Kappa Epsilon proudly presents, Rich Herbst, their candidate for this year's Ugly Man contest. Rich, a native of St. Louis, is a sophomore at UMR and a mechanical engineer. He also participates in such campus organizations as Circle K and ASME, and is active in many intramural sports, including wrestling, basketball, and volleyball. TKE hopes to repeat last year's fine performance when they collected the honors with the most money per man.

MARK ELFRINK

The brothers of Sigma Tau

Gamma have selected Mark Elfrink as their candidate for the Theta Tau Ugly Man Contest. Mark is a senior majoring in Mechanical Engineering from Advance, Missouri. He has held the offices of steward, secretary, and IFC representative in the house. He also likes to participate in most of the intramural sports of the house. Mark has also been a member of such organizations as Intercollegiate Knights, Raiders, Student Union Committees, AUSA, and Scabbard and Blade.

SCOTT HOELSCHER

The Delta Sigma Phi "Ugly Man" representative this year is Scott Hoelscher, a junior majoring in Petroleum Eng. Scott is a member of the Society of Petroleum Engineers and is our house photographer. He is also active in intramurals, having played football and now wrestling for the house.

JERRY KIEL

For 1970, the brothers of Kappa Sigma have elected Jerry Kiel as their Theta Tau Ugly Man representative. Jerry, a (Continued on Page 6)

Pseudoscience Fiction Classic # 5

The date was October 5, 2232. Things were not well on the moon. Years of disenchantment with the earth had forced the two million lunar citizens to take action.

The venom between the mother planet and her satellite had built up by frightening degrees. Originally the moon was intended to handle earth's surplus population. But it soon became apparent that as a sphere one quarter the size of earth, it was little help in handling the phenomenal population explosion. Besides, expensive underground air chambers were required for the many lunar residents. Special organic simulation receptacles were donated by the earth so plant and animal life could flourish.

Earth was justly proud of her technological accomplishment, but her rewards were few. "Moonrocks" became the chief lunar export, and the earth soon tired of a market flooded with keychains and paperweights. Dissatisfied earthmen found some consolation in taxing the moon's small but stable economy. The Extraterrestrial Communications Act required long long distance telephone calls from the moon carry a \$5 a minute service charge. And the Proclamation of 2230 included a clause that demanded 6% of every lunar working man's salary to defray some of the initial costs to equip the moon.

The levies were a constant topic of newspaper headlines, and the building unrest on lunar soil soon reached the earth. It was the Lunar Air Act of 2231 that drove the moon's inhabitants to the breaking point. All air sent to the moon now carried a tax of \$200 per cubic foot (630 psi) for earth's "furthering the exploration of space." In addition, earth had refused to repeal the second amendment of the Free Space Treaty ordering anyone born on the moon to remain under the jurisdiction of the country in which his earth ancestors were born.

The time had come for action. Oxford Drengel, the moon's most prominent citizen, called a meeting of the First Earth-Satellite Committee. On that cold and still October day an announcement was prepared. "We, the residents of the only moon of the planet earth," it began, "believe that we should exist with an independent set of standards, laws, and obligations. . ."

The next few weeks added volumes to the history library. Earth answered the moon's shocking statement with an open declaration of war. And the moon wasted no time to retaliate. But when the words changed to weapons, earth realized her immediate disadvantages; 240,000 miles of void separated her from the moon. Earth's troops were forced to travel that agonizing distance, learn to move freely in cumbersome space suits routine to the lunar soldiers, and engage the enemy on unfamiliar terrain. Of course, atomic weapons were available, but the Great Nuclear Air-Space Disaster of 1989 had quelled earth's desire to use such devices for over two centuries.

There were other problems for the earthlings. Supplies took two days to arrive from earth, and the moon's small army did not hesitate to blow up an arriving supply ship as it appeared in the blackness. Earthmen were also very easy to identify: the arms of their white space suits blazely carried pictures of the planet. Needless to say, they made ready targets.

The revolution was over in less than three months. With their supplies gone and only a handful of men, the earth surrendered at the Battle of the Sea of Tranquility.

Earth, unwilling and bitter, had finally lost the very thing it had equipped, populated, advanced, and then exploited.

It seems there will always be an England.

THE MISSOURI MINER is the official publication of the students of the University of Missouri - Rolla. It is published at Rolla, Mo. every Wednesday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo. 65401, under the Act of March 3, 1879. The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of UMR.

Ugly Men Beginning To Skimp & Scrape

(Continued from Page 5)
sophomore, is a Mechanical Engineer from Kirkwood, Missouri. Besides being an active member in Kappa Sigma, Jerry is a starting offensive tackle for the Football Miners and a member of M Club.

KEN JOHNSON

The members of Shamrock Eating Club have Ken Johnson as their Ugly Man representative for 1969-'70. Ken is a senior from Odessa, Missouri, majoring in Geological Engineering. He is very interested in all campus activities and takes an active part in club functions. Ken is presently serving on the Board of Directors of Shamrock and he is the Chairman of UMR's Park Board. Ken is also a member of the C. L. Dake Geological Society and APO. With his qualifications and desire, Ken will make a unanimous choice for Ugly Man of the Year.

TERRY GZULA

The WRHA is proud to announce the election of Miss Terry Gzula as their representative. She is a 1969 graduate of Glendale High in Springfield. Terry is a freshman majoring in Physics. Miss Gzula is engaged in various campus activities such as being a member of the S. U. Hospitality committee and is a Little Sister of Sigma Pi. Also, she plays on the Dorm basketball team.

The girls are planning various fund raising activities and would greatly appreciate your support.

Wednesday, March 11

Miners Fall in Final Two Games

UMR Scoring Slows As UWM Retaliates For Earlier Loss

By Rick Remley

On Monday, February 25, the UMR cagers traveled to Milwaukee, Wisconsin to face the University of Wisconsin at Milwaukee Panthers. The Miner offense failed to materialize as UMR fell 89-59. Only two Miners finished the game in double figures. Eric Gredell turned in his second outstanding performance by canning 13. Freshman guard Rodney LeGrand played more to his capabilities, scoring 11 points. Rich Peters, who had been playing outstanding basketball in the absence of Keith Davidson, who had been out for the last three games because of the flu, ran into early foul trouble and contributed only 2 points. Peters was not the only Miner big man who had difficulty in the foul department, as junior Chuck Ferry committed his quota and big Don Morford was called on four violations. Altogether, the Engineers committed 22 fouls and the Panthers gladly switched these errors into the scoring column by canning 23 of 34 free throws for a 67% average. It seemed again as if the Miners' defense was unable to check the strong points of the UWM offense. High scorer for the Panthers was 6'2" guard Cecil Morris with 29 points. Morris was the major offensive blow against the Miners in the

earlier contest between the two teams. Don Riesch, a 6'3" forward and all-time leading scorer for UWM managed 21 points. In the previous contest, Riesch was held to below 10. Also in double figures was the Panther center, Rich Davis, who chipped in 18.

The Miners were unable to get the good shot throughout the contest and finished the game with a poor 33% average from the field.

The contest was the season finale for the Miners. This

year's team compiled one of the more impressive records in the history of UMR. Compared to past records, this year's 10-13 season shows great improvement. Since the majority of this year's team will be returning next season, prospects for an even more successful team are bright. The Miners will be hampered by the loss of Bob Hurt who has captained the cagers for the past 2 seasons. A complete wrap-up of the 1969-1970 season will appear in next week's Miner.

Miners Drop MIAA Record To 2 8, Bow To Southeast Missouri 101 82

By Rick Remley

On February 21, the Southeast Missouri State Indians defeated the Miners by a lopsided score for the second time this season. The Indians broke the century mark to down the Engineers 101-82. It was the Indians' last game of the season and the Miners' last MIAA contest.

The Indians took a slim 46-42 lead to the dressing room at halftime, but came out in the second half to put the game out of the Miners' reach.

The Indians' scoring came from three sources. Senior guard and captain Fred Anderson pumped in an outstanding 41 points to lead the SEMO attack. Anderson's backcourt counterpart, senior Jim Long, scored 18, while junior forward Don Call contributed 24.

The Indian offense shaped up the second half, finishing the game with a near 50% average from the field, while at half time they had downed only 41% of their shots.

The Miners had a more balanced attack. Senior Captain Bob Hurt finished his last conference contest with 13 points to

his credit. Freshman center Rich Peters, a standout for the Miner junior varsity all season, marched Hurt's total of 13. The 6'8" center also grabbed 16 rebounds, over a third of the team total. Eric Gredell, again seeing considerable action in the Miner line up, pumped in 10 1/2 points and pulled down 7 rebounds.

The Miners' performance at the charity stripe was well below their season par as they only connected on 10 of 19 tosses for a low 53% average.

The ineffectiveness of the Miner defense was the major factor in the Cape victory. The Miners were unable to control the scoring of the two guards when they penetrated to the baseline.

The Miners' height contributed to their shooting percentage of 42%, as many field goals came within the lane.

The Miners finished the conference season with a 2-8 record. The MIAA title was shared by Central Missouri State and Southwest Missouri State, both completing the season with 8-2 conference marks.

Cinderman Place Second In Triangular Meet At SWMS

By Bill Horsford

The UMR track team fared moderately well in their first meet of the season, placing second in a triangular meet. The score was SMS 59, UMR second with 42 and School of the Ozarks last with 28 points. This was a creditable showing by the Miner team, considering they have been limited by cold weather and a lack of a place to practice.

The Miners amassed their point total on the strength of five first place finishes including a double winner, Don Hememover, who captured first place in both the high and low hurdles with times of 8.0 and 7.54 seconds respectively. The Miners showed an excellent depth in these two events, as Hememover was backed up in both races by Scott Fletcher's second place finishes.

In the 60 yard dash Ruben Carter placed third, .2 seconds off the winning pace. The Miners did not fare so well in the 440, failing to place a runner in the top four. Sophomore Dave Larcker placed fifth for the Miners best time. Dave is hampered by inexperience and should improve as the season progresses. The Miners also failed to place in the 880 as SMS grabbed a first and fourth.

In the distance events the Miners performed well. Bob Cherver's 4:41.8 was good for fourth place in the one mile run. In the two mile the Miners took first and third as P Rice and Keith Browne outdistanced the field.

As expected, the Miners failed to place in the pole vault, due to lack of experienced personnel. The mile relay team came in third in the triangular

meet.

In the jumping events the Miners dominated the pits. They grabbed off three of the top four spots in the High Jump including Ray Laraine first place height of 5'8". Greg Wiley took third for the Miners with the identical height of 5'8" but took more attempts to clear the bar. Fourth place was held by two Miners as Mike Greaves and Wayne Hendon tied at 5'6".

One of the biggest surprises of the meet occurred in the broad jump. The Miners nailed down third and fourth places on jumps by Terry Grieve and Steve Dickman. Terry jumped 19' 8 3/4" for his third place finish. Dickman was only two inches behind. This excellent performance in the first meet of his college career gives great potential to the Miner broad jumping team.

In the shot put, Ed Hanstein took first place by the slim margin of only 1/2". Ed had only begun tossing the shot last year, but already is proving that he can win the event. As his technique develops he should become an even more formidable foe.

The triangular meet, although not as successful as most Miner fans would like, did serve to confirm the strong points of the team and point out the weak spots. It is at this time in the season that coaches look for potential rather than performance.

With the talent displayed by some of the younger members of the team, the Miners should have an excellent shot at the conference title if these freshmen and sophomores continue to improve at the same rate.

Wrestlers Drub Washington U.; Post 29-11 Win

UMR captured its last meet away from home for the season and its 4th victory against three defeats and one tie, by defeating Washington University, Saturday, Feb. 21, 29-11. Coach Keeton and squad, however, were concerned going into the meet because injuries and sickness had taken some regular starters out.

The Miners jumped to an 8-0 lead by the win of Dave Zale and a forfeit to Les Robertson. Washington U. battled back at 134 with their man winning on points. Miners Mike Richardson (150 lbs.) and Jack Meyers (158 lbs.) both won their matches giving the Miners a commanding lead of 19-3.

Then the hardest fought match of the afternoon pitted Jim Stewart against the Bear's Phillips. The first period went with neither man gaining advantage. Second period gave Stewart a 1-0 lead after he escaped but again neither man was able to get the take-down. In the third period Phillips was able to escape and then get a take-down with riding time giving him the win 4-1. Both men showed extreme speed, strength, and determination during the match.

John Mathes, wrestling in place of 'Spider' Morrison, showed his own abilities by wrestling fifteen pounds underweight and still pinning his man forty-seven seconds into the third period.

The Bears scored their last points in the 190 lb weight class with a pin making the score 24-11. Mike Gould, wrestling his first match pinned his man in 1:42, a great way to begin. The final score Miners 24, Bears 11, as strong desire by the whole squad proved its worth.

Swimmers Toppled by John Brown U., 71-42

February 21, the Miner's met another tough team; that of John Brown University. Even though the competition was tough and UMR lost, the Miner's swimming team distinguished itself by placing at least a first or second in all but one event.

In both team events, UMR came in second; Richardson, Marshall, Steinnerd, and Filger in the four hundred yard medley relay and Steinnerd, Roche, Filger and Williams in the four hundred yard free style medley.

The only event UMR didn't get a first or second was the thousand yard free style. However, Tom Kreutz came through with a point by placing third. Steve Williams came through again in the two hundred yard free style by not only placing first but by breaking the school and pool records with a time of 2:01.3.

UMR took the fifty yard free style with a first place time of :24.1 done by Don Steinnerd and a third place by Mike Foster.

Rick Marshall took a second for UMR in the two hundred yard individual medley.

A second place was taken in the one meter diving event by Jim Duresky.

Jim Hampel came through with another second for UMR in the two hundred yard butterfly.

Steve Williams again came through with a first in the one hundred yard free style with a time of :54.0 and Ron Roche took a third.

Dave Richardson took a second for UMR in the two hundred yard backstroke.

In the five hundred yard free style, Miner Tom Kreutz grabbed a second.

Rick Marshall showed his stuff in the two hundred yard breast stroke. He took a first with a time of 2:33.0.

Jim Duresky received another second in the three meter

diving event. The final score was UMR 42 and John Brown 71.

Friday, March 6 and Saturday, March 7, are the days of the MIAA Conference meet, here at UMR. Coach Pease says that odds are Southwest Missouri State will take first. It also looks as if Northwest Missouri State, Central Missouri State, and UMR will be battling for second place. The fifth place contenders will probably be Southeast Missouri State.

With two meets on Friday and three on Saturday, many timers and judges will be needed. The swimming would appreciate anyone who would be able to time at any of these meets. Anyone interested should call Coach Pease at the Multi-purpose building. The number is 364-2345.

NOTICE!

Smoking is prohibited at the Multipurpose Building. Anyone violating this rule will be asked to leave.

NOTICE!

Timers and judges are needed for the MIAA Conference meet, March 6 and 7. Contact Coach Pease at the Multipurpose Building.

Miner swimmers dive from the blocks at the start of the 50-yard-free-style against John Brown University.

Sweatsocks

'Mural Wrestling Begins

As the intramural wrestling tournament goes into the third night of competition, one obvious fact should have appeared. Since most of last year's champions and runner-ups have either graduated or gone to varsity competition, many of the weight classes are wide open this year.

Look for defending champs Kappa Alpha and TKE to be high up in the standing after the final tomorrow night. And Sig Ep always seems to be a perennial threat in wrestling. Sigma Pi and Phi Kappa Theta have also been practicing diligently. T. J. could also be tough this year, behind returning champ Tom Schmidt.

But in the 123 lb. weight class along with Schmidt this year will be three time past champion Bob Vasquez from Teke. Vasquez has won twice in the 118 lb. weight class and once in the 126 lb. class. He did not wrestle last year but is once again in shape. Look for a tremendous match between Schmidt and Vasquez in the finals.

Although Kappa Alpha returns only two wrestlers from last year's team to the mats, three new faces have excellent chances to appear in the finals. Mike Sheridan, a freshman, is expected to be an extremely tough opponent. Steve Doer and Dale Faerber, both juniors, return after a season's inactivity with plenty of experience and desire.

Theta Xi, who won fourth place last year, has had its two champs Jack Myers and Mark Conrad enter varsity competition. Hodge from MRHA and Oliver from Sig Ep are both gone also. This leaves these four weight classes wide open. Barry Dew, a past champ from 1966 returns this season in the 130 lb. weight class, wrestling for TKE.

All in all, the intramural wrestling finals should be the scene of fierce competition and the enthroning of many new champions out of the ranks of the participants.

Golfers Hope To Repeat Mercer Faces Rebuilding

by Rob Kasten

Soon the college links across the country will host the charging competitors of each University's best golfers. UMR will enter this "happening" on March 20th and 21st as they host Central Missouri State, Washington University, and Westminster College in the second annual Best Ball Tournament. This will be the first competition since last year when UMR won the MIAA Con-

ference Championship. UMR also went on to win the Midwest Regionals and placed 11th nationally in the NCAA Golf Championship.

After the remarkable record of last year, UMR this year will be without Fred Parks, Don Trout, Bill Kanuf, and Jim McCracken. Returning letterman are Mike Seasc and Allan Carson. Ten other hopefuls are trying out for the squad. These contenders will be qualifying in the next two to three weeks by playing 72 holes of golf. This will be played on the Oak Meadow Country Club Course. Home matches will be played at the country club and some at the UMR course.

When asked about the prospects for the coming year, Coach A. C. "Bud" Mercier said, "It will be a rebuilding year because of the loss of four lettermen." The improvement on the practice fields in the month of March will determine if this rebuilding year will be just that or maybe a little more.

Intramural Standings

The intramural standings have remained the same for several weeks. Lambda Chi Alpha receives the top ranking with 1026.5 intramural points, followed by Engine Club and Sig Ep, with 997.75 and 934.5 points, respectively. With the completion of wrestling and volleyball, the totals should change markedly. The rankings of February 25 are:

1. Lambda Chi Alpha	1026.5
2. Engineers Club	997.75
3. Sigma Phi Epsilon	934.5
4. Kappa Sigma	923.75
5. Fifty-Niners	847.5
6. Sigma Pi	838.0
7. Tau Kappa Epsilon	835.25
8. Pi Kappa Alpha	828.0
9. Thomas Jefferson	815.75
10. Kappa Alpha	779.5
11. Tech Club	755.25
12. Phi Kappa Theta	726.5
13. MRHA	704.5
14. Beta Sigma Psi	703.75
15. Sigma Nu	679.25
16. Shamrock	599.0
17. Delta Sigma Phi	559.0
18. Campus Club	524.0
19. Sigma Tau Gamma	509.75
20. Delta Tau Delta	481.5
21. Bapt. Student Union	472.75
22. Alpha Phi Alpha	462.5
23. Theta Xi	458.5
24. Prospectors Club	435.5
25. Alpha Epsilon Pi	435.25
26. Pi Kappa Phi	331.0
27. Acacia	326.25
28. Wesley	263.25
29. Theta Chi	255.75
30. Liahona	200.5
31. Triangle	118.25

Organizations Vie for Points In Intramurals

Volleyball still dominates the intramural sports scene as the teams complete their regular interleague play. Phi Kappa Theta clinched its league championship with a 4-0 slate. After victories over PiKA and BSU, Phi Kap is awaiting the play-offs. Also completing regular season play is Tau Kappa Epsilon, last year's runner-up. TKE led its league with a 4-0 record, including final victories over Sig Pi (21-2, 21-3) and Alpha Epsilon Pi (21-6, 21-9). As of Feb. 25, Engine Club, (last year's winner) Sig Ep, and Lambda Chi have perfect 3-0 records, and all three were expected to win their respective leagues. Sig Ep was assured of a league championship when they defeated M.R. H.A. by scores of 21-15 and 21-10. Lambda Chi, after overpowering Kappa Alpha 21-11 in the first game, had trouble in game two. Kappa Alpha moved out to a 15-12 lead before falling 21-16, receiving its first loss. The final league had two undefeated teams, the 59ers and Beta Sigma Psi, both with 4-0 records. They met for the league championship Feb. 26, when 59ers won 21-10, 10-21, 21-12. Once the regular games are completed and the league winners are named, pairings for the playoffs will be announced.

Badminton . .

Also in progress at the present time is badminton. With the first round nearly over, Wesley, PiKA, Beta Sig, Sig Ep, TKE, 59ers, Delta Tau Delta, Delta Sig, Alpha Phi Alpha, Liahona, Tech Club, and Sig Nu have victories in the doubles tournament. In badminton singles, Kappa Sig, Lambda Chi, Liahona, Alpha Phi Alpha, 59ers, Tech Club, T.J., Theta Chi, Sig Pi, Shamrock, Sig Nu, Sig Ep, Engine Club, Beta Sig, PiKA, and KA have first round victories. Both badminton tournaments are double elimination. The winner receives 92.5 intramural points in this first year sport.

Monday thru Thursday, March 2-5, marks the running of intramural wrestling. The championship matches will be held Thursday, March 5 with Kappa Alpha, TKE, and Sigma Phi Epsilon expected to do well. The championship team nets 155 intramural points.

Crack of Bat Nears As Baseballers Train

by Tom Donner

Ah yes, sports fans, it's that time again. In a mere four weeks the Miners will hit the diamond trying to recapture the M.I.A.A. crown, which they won in 1968.

Coach Rhea has a promising start with the fifteen returning varsity players, and the fifty-seven hopefuls that have come out. These seventy-two men will be reduced to a twenty-six man squad within the next couple of weeks. But in the

meantime, everyone is going through the rigorous training schedule.

The Miners this year will be lean, mean, and tough. They had better be, for some stiff competition is ahead. One in particular is S.W.M.S., last year's winner of the M.I.A.A., and second place holders among all small college teams.

With that thought in mind, Coach Rhea has predicted that U.M.R. will surpass last year's record of nine and seven.

Sidelines

Mryers Leads Scoring

by Mark Wurtz

158 lb. Jack Myers, one of the outstanding wrestlers for the Miners, is setting new school records in UMR's first varsity season. Jack holds a record of 5-3, not the best, however, he is the team leader in statistics with the most points, 63. In take downs, Jack surpasses the field with 13 points while in predicaments Jack holds 4 points.

Jack is an experienced wrestler who displays a unique style of defense. Before coming to Rolla, Jack wrestled in Berkley High School, St. Louis, for four years. His Senior year record was an amazing 17-1-0. The first two years at Rolla, Jack wrestled in intramurals. The first year he wrestled in the 155 lb. class and won the title. The second year he wrestled in the 160 lb. class and again won the title. Currently Jack has only sophomore eligibility and thus will be able to wrestle for two more years. Jack is presently a Junior and a member of Theta Xi.

As a sidelight, the Washington U. match gave Jack the lead in penalty points with 6 over Gary McAlpin who has 4. This unenviable record has been going on much to the chagrin of Coach Keeton and the opposing teams. Good luck to both and may the "dirtiest wrestler" win.

Les Thompson has team records in most team points (28), pins (4), and is tied with McAlpin for most wins (6).

The team record to date is 4-3-1 not bad for a team that wasn't supposed to win a meet this year. Congratulations to Coach Keeton and the crew. Get 'em in Conference.

Miner Fight Song

For those of you who didn't make it to the Founder's Day Ceremony, on Tuesday, February 24, here is:

The University of Missouri-Rolla Official Fight Song
FIGHT, MINERS

Fight Fight Miners, go for the goal, make might right men
Let's see you roll, earning a name that's famed for victories
Everyone agrees there's nothing finer than a Miner!
When you hear that crowd begin to roar, victory's near
men, rack up the score!
Go all out 'cause we're here to shout, "Hoo-ray" -that we are Miners too!

ENGINEERING MANAGEMENT

We at Convair feel that the University of Missouri-Rolla offers the kind of training in engineering management that can be effectively utilized in our company. That's why we're sending Mr. Bill Archibald to campus March 10. He'll interview both BS and MS candidates for challenging positions at Convair in San Diego.

They will work in a large Research and Engineering Department on study contracts, production programs and engineering development programs involving prototype hardware and test. Supporting the Program Managers, they will carry out planning and control functions and provide an interface between R & E, Finance, Contracts and other departments.

FOR MARCH 10 INTERVIEW, CONTACT PLACEMENT OFFICE Or write to: Mr. J. J. Tannone, Supervisor, Professional Placement & Personnel, 5455 Kearny Villa Road, San Diego, California 92112.
