## The "One And Only" In Concert Tonight

The "One and Only" a singing entertaining group of 16 Central Missouri State College Students, will perform in concert tonight, March 3, in the Student Union Ballroom at 8:30 p.m. A validated I.D. is needed for admission.

The group consists of students from varied academic fields on campus, and includes freshmen through Seniors.

The evening's production entitled "A Gentle Offering" will include favorite contemporary works along with the more popular music of today.

The "One and Only" became a reality two years ago as a result of the efforts of the state production department of the CMCS College Union. The group

has grown in popularity in the Central Missouri area as they perform before campus audiences and area organizations. Future plans include performances at other midwest colleges and universities.

Sponsored by the CMSC College Union, the group has as its goal the promotion of positive student relations with other colleges and universities.

Director of the "One and Only" is Bill Muzzullo, a 1969 graduate of the CMSC music division and is now a graduate student in English. The group is a production of the CMCS College Union stage production committee, Miss Alice Racer, chairman.

The "One And Only"

### Miss Dominion Of Canada To Visit With St. Pat

Norma Hickey, the present Miss Dominion of Canada, is a blue eyed brunette from Darnley, Prince Edward Island, known as Canada's most beautiful representative. She will be present at the St. Pat's Coronation and the Parade.

Since a distinguished panel of judges selected her as the most beautiful girl in Canada, Miss Hickey has been busy travelling throughout Canada, the United States and abroad.

Miss Hickey, a 19-year-old student and professional model, won the title of Miss Dominion of Canada while representing Darnley, Prince Edward Island. Within hours after her

selection as Miss Dominion of Canada, Miss Hickey was besieged with telegrams and telephone calls from all parts of Canada. Miss Hickey prior to becoming Miss Dominion of Canada held the title of Miss Community Gardens in Kensington, Prince Edward Island.

Miss Dominion of Canada annually represents Canada in the Miss Universe Pageant held in Miami Beach Florida, U.S.A., the Miss World Pageant, London, England, the Queen of the Pacific Pageant, Melbourne, Australia and the Miss International Pageant in Tokyo, Japan.

## ZPG Adds Another

Monday night, March 1, a group of concerned students met to form a UMR chapter for "Zero Population Growth". The chapter will be one of the over 200 locals which concentrate on education and issues at the state and local level on this subject. The ZPG is a nonprofit organization open to anyone of any age, married or not, who is concerned about the population explosion.

ZPG stresses that none of the aspects of environmental clean-up--air pollution, water pollution, land pollution, waste disposal conservation--can be permanently solved as long as our population continues to grow. People make pollution. More people make more pollution.

If each couple has only two children, they would reproduce their own number. That is, they are providing replacements for themselves. This is ZPG. Three

children provides replacement plus one. This extra child will grow up and have children who will have children, etc. So this one extra child results in a large increase in future generations.

Many people question this on the basis that a lot of families never have children so they should compensate for the extra children. However, in the United States alone we added 1,600,000 people to our population in the last year. Their solution to couples who want large families is after they have had one or two children of their own, they can adopt the rest. They can show their love by providing a home for an already existing child, and if they really love their children, they will not want them to live in an over-crowded world.

Some common misconceptions should be cleared up about ZPG. First many members are Catholic. The

group feels that the concern for the future knows no religious boundaries and people of all religious backgrounds can support ZPG. They support abortion only if it is legalized and feel that this is by no means an answer to overpopulation. They feel the only answer to the problem is responsible family planning and responsible use of contraceptives. For this reason they support Plannedd Parenthood and other family planning agencies. They feel that birth control must be made available to everyone, without cost when necessary, if the population growth is to be controlled. They by no means support legalization to force people to limit their family, rather they support voluntary limitation now to avoid forced family limitation later.

Their goal is to encourage people to limit their family to two children and to encourage these people to encourage their friends. It is the third child that starts the population explosion!!

Any interested student should contact Tim Montgomery at 364-8621.

## "SHANE"

A reticent drifter and retired gunfighter takes up the cause of a homesteader family terrorized by an aging cattleman and his hired gun. George Stevens directs the archtype story with dignity, compassion, and an amazing visual richness in an atmospheric, moody intensification of the western myth.

## Frat. News

The pledge class of Alpha Epsilon Pi assisted members of the Rolla Kiwanis Club in a project at Ber Juan Park last Saturday, February 20. The soon-to-be recreational facility is presently underdeveloped tract of property located east of Rolla High School. The volunteers cleared a two-acre section of the park, which is scheduled to be opened this spring.

Saturday, February 20, members of Pi Kappa Alpha attended their district convention in St. Louis. 120 men from the five Missouri chapters painted the youth center at the

Missouri State Hospital. The work intailed the painting of an entire three story building.

## 769 B.S. Degrees Granted UMR Ranks 2nd In Nation For Number Of Degrees Granted

The University of Missouri-Rolla was second among the nation's 275 colleges and universities which teach engineering in the number of bachelor's degrees in engineering granted during the 1969-70 academic year. UMR's total of 769 B.S. degrees was exceeded only by Purdue University with 910. The Rolla campus ranked seventh the year before.

Most of UMR's undergraduate engineering departments were among the nation's top ten. Civil engineering remained in the number one spot. Mechanical

engineering was third and ceramic engineering tied for third; metallurgical engineering, fourth; petroleum engineering, tied for fourth; mining and geological engineering, tied for seventh; electrical engineering, tied for eighth; and chemical engineering, tenth.

In total M.S. engineering degrees, UMR was 12th of 197 graduate engineering schools (up from 22nd the year before). Several UMR departments also rated high in master's degrees. Both metallurgical engineering and mining and geological engineering were second;

chemical engineering was fourth; petroleum engineering was tied for fourth; engineering management (listed under the category of industrial engineering) was seventh, civil engineering tied for 11th and mechanical engineering was 14th.

In doctorates UMR, with relatively new Ph.D. programs, was 42nd among 123 institutions.

UMR's standing was reported in statistics on 1969-70 degrees compiled by the Engineering Manpower Commission and published in the February, 1971, issue of Engineering Education.

### Help UMR Recruit High School Seniors

The Student Council High School Recruiting committee is asking for one Miner or one group (if more than one went to the same high school) to return to his or her high school during Easter Vacation for the purpose of recruiting seniors for UMR.

The Registrar's Office will hold a seminar for the purpose of preparing Miners to best present what UMR has to offer to the prospective high school students. Questions will be answered similar to questions high school students will be asking. The Miners will receive "recruiting packets" which contain information for every request -- departmental leaflets, application forms, information booklets, UMR catalogs, etc... plus an outline to follow while making their presentation.

A letter from the Student Council will be mailed to the various high schools to make final plans for the recruiting. The Student Council will correlate all Miners participating in this project.

Presently 17 per cent of all UMR students are on "Scholastic Probation." In recruiting, numbers will not be emphasized as much as seeking students who have what it takes to come to UMR.

This is an opportunity for each Miner to aid UMR at the same time helping a hometown friend get the information he needs. Do not delay if you're interested. Before the end of this week contact John Peppers for more information (Phone 364-2314.)

### Miss Dominion

(Continued From Page 1)

An irresistible smile, a perfectly proportioned figure, 5'6" and 125 lbs. along with a lively personality won her the title of Miss Dominion of Canada before television and motion picture cameras and media from throughout Canada.

### Zirkle Chosen As '71 Rollamo Editor

Mike Zirkle, a junior from Harrisonburg, Virginia, was recently chosen as Editor-in-Chief of 1971's ROLLAMO yearbook.

Mike has held position of Photographer and Layout Editor on the Rollamo staff previously.

Mike and staff are planning general format improvements and theme for the 1971 Rollamo at this time. Miners will not be exposed to these until the final product is forthcoming, next fall -- something to look forward to!

Mike Zirkle

This should be a good year for the yearbook. Twenty additional Miners have been enlisted on the ROLLAMO staff to allow more specialization; hence, better work. The only pictures that will be included will communicate -- communicate with students. They will attempt to make every photograph meaningful to the students. The theme will represent the school -- faculty, students, and student's activities, and will attempt to have continuity throughout. The yearbook is a record as well as a memory book and the staff will write the book keeping in mind the reader who will look at the book twenty years from now.

### Appearing At UMR

## The Grass Roots To Play Here For St. Pats

The group appearing at the General Lecture Saturday of St. Pat's will be the Grass Roots. Their sound has been popular with the soft sound favorites. They have been performing for the last four years, and have numerous million sellers to their credit.

Their first being "Let's Live For Today". Since this time a few of their big ones have been, "Midnight Confessions" "Bella Linda", "Walking in the Country", "Wait a Million Years", "Baby Hold On," and "Temptation Eyes." Their current hit is "One Toke Over the Line". They enjoy their work and their music.

Everything is done without flashy sensationalism. Their sound and their group is solid.

In the rise and fall of many headline grabbing groups, the Grass Roots have continued to play their own sound. Now that many of these instant success groups are hardly a memory, the Grass Roots keep making one hit after another. The Grass Roots are: Rob Grill on Bass, Warren Entner on Guitar, Rickey Coonce on drums and organist, Dennis Provisor.

These men have been some of the true independents of the

The Grass Roots

music world. They've gone their own way at their own speed. Their appearance here at UMR

this St. Pat's should present one of the most outstanding in the General Lecture series.

## UMR To Host ASCE Conference

The 1971 Mid-Continent Conference of the American Society of Civil Engineers student chapters is being held

this week (March 4-6) at the University of Missouri-Rolla.

About 50 students and ASCE advisors from nine chapters in Missouri, Nebraska, Kansas and Oklahoma are expected to attend. Sessions, which are to be held in the Civil Engineering Auditorium, will center on discussions on ASCE student chapter activities. A technical paper contest is being held.

David Torgeson, UMR civil engineering student, is serving as conference chairman and conference secretary-

treasurer. Dan Lynch, also a UMR civil engineering student, is serving as conference vice president. Dr. Ward Malisch of the UMR civil engineering faculty and Dr. T.R. Beveridge, chairman of the department of geology and geophysics, will speak at a conference luncheon and dinner, respectively on Friday (March 5).

Professor Paul Munger of the civil engineering faculty is UMR chapter advisor. Conference advisor is Jim Hahs, also of the civil engineering faculty.

Roger Ellis . . . . . Editor

## Physics Poll Results

Much to the chagrin of the Missouri Miner staff, only twenty seven people responded to the Physics test poll put in the paper. It is therefore assumed that the vast majority of students currently taking Physics (non-majors) do not care sufficiently enough to alter the current method of the administering of Physics tests on Saturdays. For those interested, the results of those twenty-seven ballots were as follows: 97 per cent were dissatisfied with the current method of Physics examinations; 78 per cent did not have their own cars to leave Rolla after the test; 72 per cent left Rolla two or more times a month; 89 per cent were either freshmen or sophomores (indicating the fact that most upper classmen did not care); 97 per cent were enrolled in either engineering or science. As for suggested times for the exams, 37 per cent favored exams to be given at 4:30 p.m. on Fridays, 26 per cent favored Physics tests to be given in the evening after 6:00 p.m. and 26 per cent expressed the opinion that Physics tests be given by individual recitation instructors and not given as departmental tests.

## Give A Damn!

The staff of the MISSOURI MINER wishes to express the fact that, in its attempt to develop better rapport between the faculty and the UMR student's desires, by conducting this series of editorials, that this is a constructive attempt to present the ideas of UMR students. Because the Missouri Miner is read by both faculty and student body, it probably serves best as a collaborator of ideas, suggestions and personal opinion.

Presently at UMR, the faculty is revising its by laws, and for exact reasons unknown, the MISSOURI MINER and KMSM have not been allowed to witness these proceedings, to either observe or to make comment. It is this sort of lack of communication between faculty and student body that can lead to ill will and ill feeling. To many a UMR student, it is generally believed that the faculty does not give a damn as to what it desires or needs. Take for example the referendum of last year in which the UMR students voted that a "dead" week be adopted to give the UMR student a chance to get ready for finals and finish other course and lab work. The UMR faculty did not approve this proposal, but it was somewhat understood that they would try to avoid giving last week exams. How many Miners did not have any exams last semester in that "dead" week? Were each and every exam absolutely necessary this last week? Why were our wishes (not demands, as many other campuses have) blatantly ignored?

The idea of a faculty evaluation committee is another attempt of UMR students to bridge the communication gap between the faculty and student, and its crying for some sort of balance of power, however little, at UMR. If the students cannot have any say so whatsoever in the proceedings of the faculty, what sort of democratic institution is this? Not a single individual on this campus can say that 100 per cent of the faculty is adequate in their teaching. It has reached the point that UMR students want to protest against those individual instructors. The Student Council Bitch committee, as anyone who has ever gone to it has discovered, is very ineffective and an entire editorial could be written on this but not this time. It is time to go beyond the Bitch committee and to appeal to both faculty and student body.

The preceding paragraphs are in no manner, official sentiments of the majority here at UMR. In the next issue of the MISSOURI MINER, a poll will be run to "officialize" the claims of this article. UMR students, it is time to come out and let your feelings and wants be known. Whatever your opinion, pro or con, passive or active, support your own cause and support the FACULTY EVALUATION POLL.

## OUR MAN HOPPE . . .

# The True Story Of Moses

A good many Americans feel strongly that priests, ministers and rabbis should never engage in political issues -- particularly when they're on the other side.

The attitude that men of God should mind their own business stems, of course, from the lessons of the Bible. One of the earliest is the story of Moses.

It was Moses' constant refusal to stick his nose into the worldly affairs of his congregation that set the pattern followed by all religious leaders in Biblical times.

One need only quote a few chapters from the all-to-familiar "Gospel According to St. Pontius" to convince interfering clerics they should stay out of public affairs and tend to their knitting. Excerpts follow:

And the Lord spoke unto Moses out of the burning bush, saying, I have surely seen the affliction of my people which are in Egypt and I would deliver them from the Pharaoh.

And Moses replied, saying, O, Lord, mayhap I should fall on my knees before the Pharaoh and say unto him, Let my people go!

And the Lord frowned, saying angrily unto Moses, Thou art a man of God, not a lobbyist. Hold thy tongue.

And Moses held his tongue. And a committee of laymen among the Israelites led them out of Egypt unto the shores of the Red Sea. But the Egyptians pursued them, all the horses and chariots of the Pharaoh, and overtook them.

And the children of Israel fell on their knees and cried out to Moses, saying Part the waters of the sea that we may cross on dry ground, then allow the waters to close again and swallow up our enemies.

But Moses said unto them, I am a man of God, not a hydraulic engineer. Nor do I concern myself with military matters.

And, somehow, the Israelites crossed the Red Sea and entered the Desert of Sinai where, being led by a committee, they wandered for forty years, some of the committee wishing to go this way and some that.

And the children of Israel cried out to Moses, saying, Guide us to the Promised Land of milk and honey. And Moses replied, saying, I will not enter controversies over laying down guidelines. Such is the province of a man of God.

And, being of thirst, they begged him to smite a rock with his staff and bring forth water.

But he said unto them, Dost thou ask a man of God to develop a Sinai Water Plan?

And Moses went up unto Mount Sinai and the Lord spake unto him, saying, I have writ Ten Commandments, on these two tables of stone for my people. And Moses asked, O, Lord, shall I take thy Ten Commandments down to thy people and read them unto them?

And the Lord frowned, saying angrily unto Moses, Thou art a man of God. It is not for thee to go around introducing legislative programs. Mind thine own business.

And so the children of Israel reached the Promised Land. And there Moses taught them bingo and whist and organized for them socials and suppers and the ladies solidarity. And he grew old in years, rich in honors, and in the respect of his flock.

And on his death bed, he spake prophecy, saying unto his successor, Joshua:

If thou wouldst be revered as a shepherd, avoid controversy, eschew strife, care not for the hunger, the thirst or the wants of thy flock. All who follow this creed shall be respected men of God.

And, lo, so it came to pass.

## Student Forum

805 State Street  
Rolla, Missouri  
Feb. 23, 1971

Mr. Roger Ellis  
Editor, Missouri Miner  
UMR, Rolla, Mo.

Dear Roger,

The "Worst Disaster of the Century" that recently struck E. Pakistan, left us frozen with shock at the appalling death toll that followed in its wake.

The reaction of the Student Council to our appeal for help was swift and spontaneous. Almost all at once a relief drive was got underway. Students, faculty and the citizens of Rolla, came up with their contributions of help. The KMSM radio, the local radio stations, the local press, the University and the students managed papers went out of their way to extend their support.

May we take the opportunity through your paper to extend our warmest appreciation and personal thanks to all those that did so much. Our sincerest thanks must go out to the Student Council and its President, Chuck LaJeunesse, who made the cause his own. We also thank the Foreign Students' Advisor who gave us advice on initiating the drive on proper lines. We wish we could thank each and everyone individually for their concern and help in this noble cause.

Sincerely yours,  
M. Khalid Yousuf

(On Behalf of the Pakistani Students at UMR)

To The Editor Of  
The Missouri Miner:

After harassing the Iranian

Students Association for a semester, the administration has succeeded in its desires to rid the campus of a "foreign troublemaker". Fereidoon Kasrai, who would have graduated this summer, has been refused permission to register this semester owing to a number of incompletes. One should remember that much of last semester four Iranians with the support of the I.S.A. had to spend weeks protecting their rights in a bureaucratic battle to keep their visas. That "incident" ended with a letter of apology to one of the four Iranians from the administration. Their apology apparently did not go so far as to try to undo the damage already done. The tactics of the school are certainly questionable.

1. Before Christmas vacation a committee of faculty members voted to accept Mr. Kasrai's reasons to be given Incompletes. During vacation this decision was reversed by the Mining Department.

2. Mr. Kasrai received a letter on January 16, 1971, saying that he would have to finish his course work by January 21, 1971. Obviously the time involved would not be enough.

3. Mr. Kasrai was denied admission on January 8, 1971, even before the disposition of the incompletes was known.

4. The school has refused to give any comment on the situation, thereby silently admitting that this "academic" problem is only for its ulterior

5. Mr. Kasrai has been subjected to "verbal abuse" by the Chairman of the Mining Department.

6. Two incompletes have been changed to "F"'s due to the pressure of the administration. In one course which Mr. Kasrai

took a late final and passed it, his passing grade was changed to an "F" because the Chairman of the Mining Department said the original incomplete was "illegal."

In interests of Mr. Kasrai and of all students, we demand that the school reply in writing to the points listed above and, failing that, to re-admit Mr. Kasrai to the University.

All students should be concerned over the fate of Mr. Kasrai for his sake and their own. The heavy-handed treatment he has received shows up the integrity and fairness of the school authorities. Last semester the student body rose up in support of our cause, and we thank them. Again we ask that the students stand behind us so that this wrong may be redressed. When the University shouts that it is above politics, remember how it manhandles its political students.

Iranian Students Association  
UMR

**Editor's Note:** The following statement which contains the signatures of ten out of the 22 members of the I.S.A. of UMR was received by the Office of Student Personnel. Their names were withheld by request.

Dear Sir:

We, the following Iranian students listed below hereby tender our resignations from the Iranian Student Association for the following reason.

Most of the radical decisions made by the I.S.A. were made in our absence because we have never and we do not get along with the other members of the association, who oppose administration policies.

The chief purpose of this  
(Continued on Page 5)

# Miner Editorials

Dean Paul Ponder  
Director of Student Services  
101 Parker Hall  
University of Missouri-Rolla  
Rolla, Missouri 65401

February 19, 1971

Dear Dean Ponder:

We, the undersigned students, are quite displeased with the activities of the faculty in reference to the proposed Academic Council.

In the past, student input to student-faculty committees has been tokenism; and we feel that the proposals in reference would again (if passed) be only tokenism.

It seems that at such a time as now the faculty and administration would awaken to the fact that students are no longer high schoolers and should not be treated as such. It seems that one who is about to go into our society and made judgments that could be of quite some significance should have the right and authority to have a say in the academic and administrative policies which surround his everyday life.

We should all work together for the betterment of the University system as a whole. However, in the past few weeks it looks as if the faculty wishes for our local campus political scene to remain in its archaic state.

We feel that as a University of so called high caliber, we must continually work to keep an effective stream of thought flowing between the faculty and students. Since this has not been the case in the past, it should be about time to implement such a procedure.

The purpose of any educational institution is to educate. Education is an interaction of thoughts and people, a system in which you are taught to think, not do.

Therefore, we feel that the faculty and administration should reconsider its present stand and allow more student input. Our campus body is changing and its "Miner image" has nearly disappeared in the last three years. No doubt, there will be considerable more change in the next two to three years. Now is the time to act, not after the problem has come to a head.

We hope that you will think about this carefully and pass our feelings on to the faculty and administration.

Sincerely,

Charles D. Laderoute  
James L. Cambier  
Ross J. Cameron  
Paul Roger Ellis  
James H. Mason  
Roger D. Clemons  
Charles A. LaJeunesse

## Rap With The Man . . .

Do you feel there exists a communication gap here at UMR? Do you feel that the administration and faculty have answered all of your questions pertaining to student affairs? Do you feel your questions have fallen on deaf ears or been lost in the usual red tape? Do you feel you were given an answer that avoided the question? If you have had any of these problems or any problem trying to communicate with the people on the other side of the gap, now is the time to have your mind put at ease.

The Rap Session with Chancellor Baker and a panel of his colleagues, which will be held March 9 in the Student Union, provides an excellent opportunity to learn more about student affairs and how the student body has been affected thus far by the revision of the faculty by-laws. Your questions won't be lost in any red tape nor will you be given an answer that makes the question again and for a more satisfactory answer, you will be surprised at the results.

Every student should take advantage of this opportunity to have his questions answered. If students don't show an interest in the problems that face them or try to communicate with the administration and faculty about these problems, we don't have any grounds on which to base an argument against any decisions that are made concerning student affairs.

## Do You Have A "Bitch"?

Do you think you have been treated unfairly by a teacher or do you think a teacher isn't fulfilling his duties in a manner conducive to your education? Are you unhappy with any administrative policies? Do you think the students should have more of a voice in and be better informed as to all administrative decisions that affect them? Then let your voice be heard.

Your Student Council has, for the third year, a committee called the "Bitch" Committee to help you be heard. Here's all you have to do:

Step One -- You pick up a "bitch" form at the Student Union candy counter.

Step Two -- Fill out the form

stating your complaint or suggestion.

Step Three -- Deposit the completed form in the "bitch" box by the candy counter.

Step Four -- The committee will review your complaint and inform the instructor (or party involved) that the situation exists. The committee will then do all it can to correct the problem.

You may wish to remain anonymous if you wish. You may complain about faculty, administration, policy of the school, the Student Council, or anything you think the council could help you with. We are ready to serve you.

Richard Kess  
"Bitch" Committee Chairman

## Dear Hortense

Dear Hortense,

I still think that you write your own letters. What do you say to that?

Don Stockstill

Dear Darn,

Are you kidding. Just to prove it to you that I don't write my own letters, read the next one.

Dear Hortense,

On the evening of February 22nd, I ran into a problem. While at the UMR basketball game, I let a friend of mine use a sign I had made to support the Miner Basketball team. The sign said, "Key, Resign" which is in no way profound unless you happen to understand the word Key. Anyway, my friend urged the Miners on several times by holding the sign high. Somehow with a combination of Campus

Cops & a UMR administrator my friend was relieved of the sign along with his student I.D. I would like to get my sign back so I could continue my clean wholesome cheering.

An Athletic Supporter

P.S. Anyone having knowledge of my sign, please call 362-5748.

Dear Hortense,

Wow! Yippie! I've been reading the "Good Seed" and heard about what we feel is a great opportunity to perform -- The Little Piney Rock Festival. We can hardly wait to be there.

Hype-fully yours,  
Sly & the Family S

Dear S. & F.S.,

Sorry, but I can't service you. For further information call Student Personnel.

Dear Hortense,

After reading the past issue of the MINER, I'm worried. I mean with "Chancellor Baker Visits Viet Nam" and LaJeunesse Goes to Columbia" -- who's left to run the university??

I.M. Whirreyed

Dear Guy,

Choose one:  
Chancellor Tucker  
Cookie Kratzerowicz  
The UMR Cheerleaders  
All of the above  
None of the above

Dear Hortense,

What's the latest on the Baker for MU President campaign?

Just Wondering

Dear Just,

He's still right in there. The latest word is that he is running to neck with Walter Cronkite and Gene McCarthy. It has been suggested that his recent campaign trip to Viet Nam may sway the necessary votes to turn the tide.

Dear Hortense,

I understand that there is a school rule against mastication at the girls' dorm. Is this true? If so, what can we do about it?

Balthazor Schultz

Dear Balz,

Yes, there is such a rule. Rather than cause trouble by trying to get it changed, I think you should take Darn Stockstill's advice and back off.

Dear Hortense,

As another service of your friendly Student Union, we are now selling rollers at the candy counter. So all you guys who are trying to save money by rolling your own, come on by.

Kookie Kratzer

Dear Student Union Head,

Wow! You're really the student's friend. Today the rollers; tomorrow the Zigzags.

(Continued From Page 4)

letter is to make it clear that as from now on we have nothing to do with I.S.A.

## Council News

**NEW BUSINESS:** The constitutions of Lambda Sigma sorority and the revised constitution of GDI were both approved by the Council. YARC, a charity organization working for retarded children, received Council sanction to publicize their work on campus.

A motion was made pertaining to evening classes. The motion gave support to the scheduling of evening classes by the registrar. No required courses, however, could be offered in evening classes. The motion was tabled in as much as it required a constitutional amendment to enact. Denny DeSpain made a motion to drop the buying of jackets by the Council for members. The motion was defeated by a vote of 16 to 19. A letter was read and accepted to be sent to traffic safety concerning the expulsion of students from the basketball game of Monday the twenty-second of February. The letter denounced the manner in which they were removed and asked

that any further similar situation require a warning prior to eviction. Another letter was approved to be sent through the proper channels endorsing a uniform system for identification over the four campus system. Jim Mason concluded his studies of the infirmary and medical facilities here at UMR with a six page report which was distributed to the members of the council. A motion of acceptance was tabled until a later meeting to allow the Council time to study his findings. The Council wished to recognize the St. Joe mineral company for their contribution of \$25,000, by a letter of thanks. Roger Clemons asked the Council to make a statement of clarification concerning the letter sent to traffic safety saying that the Council does not endorse rowdiness or obscenity at athletic functions. A motion was passed to donate one hundred dollars to the Jack Bobbitt Memorial Fund. The motion was made by Jim Mason.

## MC-5 Better Late: Than Never

Coming right off the road, the hard rock band MC-5 burst upon the Rolla scene with a resounding flourish an hour and twenty minutes late last Wednesday night. On the balcony above the band hung a sign expressing their theme, "Kick out the Jams, Mother-fuckers." They immediately distinguished themselves from most other touring groups by dispensing with all but minimal introductions and by having their amplifiers well-adjusted for listening to music rather than deafening ears. Running through a repertoire of hard rock-acid rock selections, they displayed their rough, unique way of producing their con-

temporary music, especially the drummer who sent broken drum sticks flying into the audience.

The attendance, surprisingly large for a weekday night, was as large as or larger than that for the Nitty Gritty Dirt Band concert during Homecoming. The MC-5 commented that they were surprised at the size and intensity of their reception. Besides Miners, mostly of the "left bank", the audience consisted of non-student locals and many out-of-town long-hair types. Despite admonishments of "no smoking" the sweet aroma of marijuana was drifting through the crowd on the floor midway through the

concert.

The highlight of the first performance was an agnostic monologue whispered, sung, and shouted with a moving conviction by the lead singer, accompanied by jeers from rowdy Miners. Exhausted after an hour and ten minutes of their physically tiring performing style, the MC-5 retired for a ten-minute break. Most of the audience, needing to get back to their books or beer, took this as the end of the concert and left. However, a small crowd of di-hards stuck around and were justly rewarded. The MC-5 returned for a heavy twenty minutes of totally-audience-involved music.

GLENN JENSEN, SPORTS EDITOR

## Tankmen Considered Top Contender For MIAA Championship

Coach Bob Pease's swimmers travel to Cape Girardeau this weekend to compete in the Missouri Intercollegiate Athletic Association tourney. The meet starts at 2:00 p.m. and will last both Friday and Saturday.

Coach Pease's squad is favored to win since they have beaten every other team in the conference, including last year's MIAA champion Springfield. Though the Miners squeaked by Southwest Missouri State by only one point in their match here in Rolla, the score should have been more favorable had not the Miners suffered a disqualification and an unpleasant turn of events in the diving competition.

The Miners figure to score heavily in the distance swimming with Jim Glasa showing his class and Tom Kreutz continuing to improve at an impressive rate. Mark Hanneke, a strong freshman swimmer could also add depth in the distance events. In addition to the normal 500 and 1000 yard free style events, the 1650 yard free style will be added.

Jim Entwistle, Don Steiner, and Steve Williams will swim middle distance and sprints and could score well for UMR. In the back stroke, Lance Killoran and Dave Richardson will represent the Miners. Jack Belshe has shown that he can score well in both the individual medley and the butterfly.

Rick Marshall and Mark Hanneke will team up and could possibly go one-two in both the breast stroke events. Marshall will also swim in both relays and the individual medley. Randy Click leads the list of divers who could also score in their drive for the MIAA top spot.

# Miners Lose Finale 74-72

The Miners lost their final game of the season here Friday night as they dropped a close one to the University of Wisconsin-Milwaukee, 74-72.

This was the last collegiate game for two Miner seniors, Rex Medlock and Don Morford.

outdone as they came back to tie the score 18-18. UWM's scoring drive was led by Henry Davis, who ended up with 29 points for the game. The Miners then came on strong with a rally led by Sandhaus and Noel to turn the score in their favor 29-

29.

The Miners entered the second half with an eight point lead, but found it very hard to keep as their opponents seemed to hit every shot they attempted. UWM didn't let their rally slow down as they hit 10 straight points to go ahead 60-58, with about 6 minutes left in the game. The Miners played fine defense but couldn't stop UWM's shooting ability. With a little over a minute left in the contest, UMR found themselves down, 72-66. LeGrand put in a 15 footer and Medlock hit a shot from the line to pull the Miners up to 72-70. Milwaukee then lost

their possession of the ball on a traveling call and with 37 seconds left Sandhaus took a pass from Le Grand and hit a jumper from the corner to tie the score, 72-72. Ewing then hit a short jumper to seal the game for UWM as they won, 74-72.

High point man for the Miners was Sandhaus with 24 points followed by LeGrand with 14.

The Miners finished their season with a record of 9 wins and 13 losses. They were 5-7 in the conference. This was good enough for 5th place in the MIAA conference standings.

UWM's Henry Davis attempts to show Eric Gredell what a basketball tastes like.

The game started off as if it was to be a real high scorer as the Miners jumped into a 7-0 lead in the first few minutes. Their opponents were not to be

22, with a few minutes left in the half. Noel hit a 20 footer and Peters a pair of freethrows to end the scoring for the first half with the Miners in the lead 37-

Rex Medlock shoots a free shot in his last UMR game.

## INTRAMURAL WRESTLING

The intramural wrestling meet will be held next Monday, Tuesday and Wednesday at the Multipurpose Building. It is necessary that all wrestlers complete their fifteen workouts by March 4, the date of the physical examinations. The examinations are from 3-6 p.m. in the training room of the Multipurpose Building. The final weigh-in will be March 7, also in the training room.

## SWMS Pins Matmen 24-15; Forfeits Beat Lincoln

The UMR grapplers ended their dual meet season this week with a dual match against Lincoln University and Southwest Missouri State. The Miners split the two matches, beating Lincoln U. by a score of 45-5, but losing to SWMS by the score of 15-24.

In the match against SWMS the grapplers found their competition tough and ready. In the 118 pound class David Zale was decisioned 6-10 by J. Erson. Next up was Bob Gregory in the 126 pound division, who pinned his opponent, G. Galleir, in 4:22. Co-Captain Les Robertson came through next with a win over K. Morgan, scoring on a pin in 4:34. Mike Blockmore had a tough match in the 142 pound class and he was decisioned 7-21 by R. Steele. In the 150 pound class Jim Watts also had trouble as he was beaten 0-6 by R. Looper. SWMS picked up some more points as Greg Miller was pinned by J. Lenmore and Larry Howard was pinned by G. Frinnel. In the 177 pound class Bob Morrison was beaten in overtime by C. Chaffin 2-4. Steve Ganz next picked up another win as he decisioned D. Morgan 7-0. In the heavyweight division Gary McAlpin met tough competition as he was tied 2-2 by M. Astor.

The grapplers found their match against Lincoln U. to be

an easy one as they won by a score of 45-5. The Miners started off by receiving forfeits in the 118 and 126 pound classes.

In the 134 pound class Les Robertson set a new school record for the fastest pin as he pinned his opponent in 37 seconds. The 142 pound class was also a forfeit. Jim Watts pinned his opponent in the 150 pound class. In the 158 pound class Greg Miller scored another pin as he beat J. Holchsock in 3:32. Larry Howard came close to the school record as he pinned J. Berry in 38 seconds. In the 177

pound class the Miners won by forfeit. UMR's only loss of the match was in the 190 pound class where Steve Ganz couldn't wrestle because of a cut over his eye. Gary McAlpin won the heavyweight class by a forfeit.

This winds up the grapplers dual meet season with another winning record of 7-6-1. The Miners have only had a wrestling team for two years now and both years they made winning records. The wrestling team will have their last meet of the season March 6 as they will wrestle in the MIAA tournament.

Bob Morrison has his hands full keeping his clothes on during the match against SMS.

## Miner Sharpshooters Win UMR Sectional Tourney

The UMR National Rifle Association Intercollegiate International and Conventional Small Bore Rifle Sectional was held on the UMR campus this last weekend, February 26, 27 and 28. Twenty-three teams entered the match representing Illinois, Nebraska, Oklahoma, and Missouri.

This match was an important one for the Miners as national standings are established by the scores fired in the international and conventional matches. The courses of fire are the same in both Conventional and International matches, but the bullseye on the International target is .008 inches in diameter and the bullseye for the Conventional is .15 inches in diameter.

The Miners, led by Kent

Gastreich's 286, Dave Mursch's 282, Jon Howell's 278, and Jeff Hafkemeyer's 268 won the team International match with a strong 1114 total which was 22 points above the second place team. In the individual competition, Kent Gastreich won easily with a 283 out of 300 and Dave Mursch placed second with a 280.

The Miners also won the Conventional match with an

1167 out of 1200. Jon Howell led the team with a 294 out of 300. In the individual Conventional match, Kent placed first and Jon placed second.

With this outstanding win in mind, the UMR Rifle Team takes to the road on March 5 to fire in the Little Camp Perry small bore rifle match at Boonville, Missouri. Over eighty teams are expected to be present.

Although the defense was rarely penetrated, goalie John Kremer made two dazzling saves.

The Miners are looking forward to their first unbeaten

season, are confidently awaiting their next game a rematch with the Blue Jays, here March 14 at one o'clock. Come and cheer the Miners onto another victory.

The Soccer Club presently is working on scheduling games for the spring semester. They have games scheduled for March 14 here at 2:00 and tentative contest March 28 versus Westminster and May 2 against Lindenwood College. The Soccer Club appreciates your support at their home contests.

### NOTICE!

### NOTICE!

The movie "The Green Berets" has been changed to Wednesday, March 17. This is during St. Pat's. Movies at 4:00 p.m. and 6:00 p.m. in the Student Union Ballroom.

## Sidelines

Miner Sports Editorial

By Glenn Jensen

The Miner swimmers have the opportunity and the ability to sweep top honors in the MIAA meet this weekend. Though SMS came very close to beating them in Rolla, the Bears will be at a disadvantage in that they will not be able to utilize their strongest swimmers, their butterfly men, in as many events as they did at the UMR meet. The Miners could use their depth to put the pressure on everyone else. They have definitely been pegged as the team to beat.

The Rifle Team has once again shown the rifle world that they are among the best in the nation. By winning the International and Conventional sectional meets, they have established themselves as one of the nation's elite squads. By remaining the "class of the Midwest" they have brought honor to both themselves and the University. As a team, they have won more trophies than the rest of the sports at UMR combined.

Even though Billy Key's cagers suffered a somewhat disappointing season, there are some noteworthy points that can be made concerning their performances. Not only did they win more MIAA games than any team in the history of the school, they also established themselves as a contender for the MIAA title next year. They either beat or nearly beat every team in the conference, with the exception of possibly Lincoln. Their 5-7 conference mark, could have just as easily been 10-0 with a few breaks. Next year the cagers could just make their own breaks.

Rugby and soccer on the club level have commenced their spring schedules and are continuing their tradition of rugged competition. Anyone interested in joining either club, should contact Bill Luth at 364-8951 for rugby or Bob Doyle at Sigma Tau Gamma for soccer.

## Miners Blank Westminster; Barbaglia Scores Twice

The University of Missouri-Rolla Soccer Club opened the spring semester of play with a crushing 5-0 victory over Westminster University's Blue Jays. The Miners completely dominated the play with a devastating offense and stalwart defense. The onslaught began as Mike Barbaglia niftily headed in a beautiful cross from the outside. Then Tom Schob scored on a breakaway. The game was put out of reach with goals coming from Sal Gazioglu, Mike Barbaglia netting his second and Steve Berghtholdt. Spearheading the tenacious defense were Bob Howard, Dan Eberle, Gary Parianni, Carl Pelech, Tony Meyer, and Bill Schaeffer.

Although the defense was rarely penetrated, goalie John Kremer made two dazzling saves.

The Miners are looking forward to their first unbeaten

season, are confidently awaiting their next game a rematch with the Blue Jays, here March 14 at one o'clock. Come and cheer the Miners onto another victory.

The Soccer Club presently is working on scheduling games for the spring semester. They have games scheduled for March 14 here at 2:00 and tentative contest March 28 versus Westminster and May 2 against Lindenwood College. The Soccer Club appreciates your support at their home contests.
