St. Pat's—70 Years of Tradition at UMR

Shillelaghs are very familiar things to any student on the UMR campus today, especially the current freshmen. It seems that the freshmen have always had a corner on the shillelagh tradition. Even in the old days when everyone was allowed to carry the colossal cudgels, it was the freshmen who had the honor of going to the woods to cut them. Since then down through the years the freshmen have bartered, bargained and even at times used brute force to acquire sole possession of one of the oldest and most practical traditions connected with St. Pat's.

The juniors also had their chance to make their mark on this annual celebration. They however did not experience the unbounded success enjoyed by our freshmen. In the second year of the celebration all planning and preparation was placed in the hands of the juniors. This distinction they shared with no one until 1930 when they surrendered their one honor to a group called the "St. Pat's Board". This group has since served this campus with staggering efficiency and a green "El Marko".

The switch from the juniors to the "Board" was a direct result of pressures from the student body because when the student body held a poll it voted three to one in favor of the Board (probably because three out of every four persons attending the school at that time were not juniors). The dissatisfaction with the juniors stemmed from two things: number one - it was generally felt across campus that the 1930 juniors as freshmen in 1928 had not killed enough snakes; number two - there was an irrepressible desire for a beard contest and the juniors would not consider it. As it was it took another eighteen years before the campus realized an official beard contest because fifty percent of the Board consisted of juniors and the other half consisted of ex-juniors.

When the beard contest finally came into being it was well received and universally accepted, so much so that entrants could be of either sex and of any age. In fact the rules for the first contest were laid down by the "bearded behemoth" himself. One of the rules particularly noted and observed was number ten: "Weapons or 'hooch' must not be hidden in full beard." Another was number thirteen: "All beards become the property of Saint Patrick at the conclusion of the contest." The following year the senior class (it's those jealous ex-juniors again) tried to secure the beard contest as their own. However wise old Saint Patrick would have none of it and said that the seniors already were the only

ones who could be knighted and that any additional focus on them would not be good for the holiday.

As consolation for the seniors, Saint Patrick decided that he would bring the Blarney Stone with him each year to allow each man to kiss it as he was knighted. The seniors were still not satisfied since only a selected few could be knighted instead of the whole class as before. They felt that if the freshmen could control the shillelagh tradition that they, the seniors, should be able to go a step further. So through the years despite the efforts of Saint Patrick Pages, the seniors started dunking their heads in the honey-like liquid which was cradled in the Blarney Stone. As time went on the sensation grew and grew, their desire for total fulfillment could no longer be contained and finally the climax: in 1965 the men to be knighted dove headlong into the green goo. The Pages had to pull the men from their predicament, and rinse each one for it is said that if the Blarney liquid passes through the skin it will be taken up by the bloodstream and transported to the brain where it can drive a man insane.

There are many other fine customs connected with the Irish excitement which comes over Rolla every year. Things like the Coronation Ball which started out as a masked ball in 1913 during which Saint Patrick led and reviewed over one hundred masqueraders. Or the Queen's float which started in 1953 in order to carry the Queen and her court in the parade. However in Rolla, in 1915 the first coronation of the first queen ever crowned anywhere took place. The first Queen was Miss Helen Baysinger of Rolla. This is the thing that really sets the Rolla celebrations apart from the rumdum celebrations such as those at Mizzou. This crowning is what started St. Pat's as a social type function (thank the Lord for social type functions).

As much as Miners may hate to admit it, our St. Pat's party weekend is not native to Rolla. It came to us from, of all places, Columbia where the Mizzou engineers have been celebrating Saint Patrick's Day, as a group, since 1903. The seed from which this grand tradition has grown and blossomed was sown in 1908 when an invitation was extended to the Missouri School of Mines to send a representative to the celebration in Columbia. Immediately a meeting was called and more than enough money was collected to finance the trip.

So enthusiastic was the meeting that it was decided that the money should instead go towards a celebration in

This cartoon of St. Pat slaying serpents was the front page of the special St. Pat's edition of the MINER of 1920.

Rolla. Wasting no time a committee was appointed to plan the festivities. The work of this committee was clandestine due to the fact that March 17th was a regular school day and an adverse reaction was anticipated from the faculty. Finally the night of the sixteenth, Norwood Hall was decorated and final instructions were given - all was ready.

On the morning of that long awaited day the perfect cut was executed EVERY student reported to Frisco Station where they were supplied with green sashes and shillelaghs. It was also here that they greeted the first St. Patrick, George Menefee. From here there was a parade, led by the school band to Norwood Hall. The band was followed by Saint Patrick, his pages, and all the classes in order. Once at Norwood Hall the entire senior class was dubbed "Knights of Saint Patrick". The day ended with a band concert.

Throughout this first celebration we hear a few familiar notes-the parade, the Knights, the shillelaghs. In all, this is quite different from the St. Pat's of today. There is one big thing that has not changed since then; that is the Miner. It is reported that then, as now, much merry making made the Miner thirst for the golden nectar. Being the efficient dude he is, the Miner had set aside money to fulfill this need. There was, as there always is, a drawback - in the old days it was illegal to sell alcohol to a student. Coincidentally the night of the sixteenth it seems that a certain distributor had neglected to lock his door. That morning it was discovered that two barrels of beer were missing and in their place was cash, sufficient to pay for the beer, including the deposit.

As for St. Pat's '72 - all is ready. UMR would like to see the Mizzou engineers try to match it.

St. Patrick In Retrospect

St. Patrick, deemed as the apostle of Ireland, patriarch and protector of the UMR campus, was born in Roman Britain, the son of Calpornius, a deacon. At the age of sixteen he was taken captive by one of the bands of raiders from Ireland who at that time were frequently attacking the Roman provinces. He was carried away into Ireland as a slave and spent six years - tradition says in county, Antrim - herding sheep, a Christian captive in a pagan land. As a boy, according to his own testimony, he had been but an indifferent Christian, but in the years of his captivity he underwent a spiritual transformation. At the

end of this period, he relates, a voice heard in a dream commanded him to go to a ship which awaited him; after a two hundred mile journey overland he came to a seaport and made his escape from Ireland, eventually returning to his home. However, in another vision of the night, he saw a man who handed him letters which contained 'the voice of the Irish' imploring him to come again and walk among them. He took this as a divine command to his mission, and returned to Ireland, apparently as a consecrating bishop. He labored with some fellow missionaries among the Irish, preaching the gospel and organizing a

Christian church 'even to the outmost districts beyond which no man lived and where nobody had ever come to baptize or to ordain clergy or to confirm the people'. Legend credits him with many wonders, among them besting Druid magicians, dispelling clouds of demons, and driving the snakes out of Ireland. Purportedly, St. Pat died in 463, but this image lingers on and, as every Miner knows, is alive and well in Rolla.

Today, his feast day, March 17, is a national holiday in Ireland and is celebrated wherever in the world the Irish have settled!

St. Pat's Board Elects St. Pat & Court

Dan Mullen has been chosen to reign over the 1971 St. Pat's celebration as St. PAT. He was chosen at a meeting of the St. Pat's Board Thursday night.

Dan is a senior in Computer Science from Manchester, Missouri. Among his campus activities, in addition to being President of the St. Pat's Board, he has served as Secretary and President of Phi Kappa Theta.

In addition to St. Pat, guards, pages, heralds, and a trumpeter were elected to round out St. Pat's Court.

The two Masters of Guards are Crandall Scott Camenzind and Ron Eckelkamp. Crandall Scott is a senior in Civil Engineering from Melville, Mo. In addition to being a Guard in 1970, he is presently Secretary of the Board. He has also been treasurer of Pi Kappa Phi. Ron, Vice President of the Board, is also a senior in Civil Engineering from Washington, Mo. He is Business Manager of Shamrock Club.

St. Pat's four guards are Larry Benesh, Steve Cortopassi, Jerry Kiel, and Marc

Ramsey, Larry is a senior in Engineering Management from Collinsville, Ill. He is Treasurer of the Board and has been President and Vice-President of Beta Sigma Psi. Steve Cortopassi is a junior in Mechanical Engineering from Chesterfield, Mo. He has served as Secretary, Vice-President, and President of Sigma Pi. Steve is Parade Fund Chairman and was Trumpeter last year. Jerry Kiel is a senior in Mechanical Engineering from Ballwin, Mo. Jerry is from Kappa Sigma and is in charge of Blarney Club. His activities include varsity football, Theta Tau, and M-Club. Marc Ramsey is a senior in Civil Engineering from Poplar Bluff, Mo. He is a member of Theta Chi and has been active in various Board Functions.

The two pages to serve St. Pat are Dan Hinkle and Dominic Grana. Dan is a junior in Engineering Management from Piedmont, Mo. He is Sales Manager of the Board and President of MRHA. His activities include GDI and Academic Council. Dominic Grana is a senior in Civil Engineering from St. Louis. He

Standing, from left to right: Marc Ramsey, Larry Benesh, Scott Crandall, Dan Mullen, Ron Eckelkamp, Jerry Kiel, Steve Cortopassi, Bob Moody. Kneeling, from left to right: Dan Hinkle, Hugh Harvey, Dominic Grana.

has been in ASCE, Raiders, GDI, and Rugby Club.

The position of Herald is filled by Hugh Harvey, a senior in Mining Engineering from Rolla. He is in charge of Town Coordination for the Board. He is a member of Delta Sigma Phi and is active in ROTC.

In Miss USA Pageant

Miss Missouri To Grace St. Pat's Festivities

Janet Potter, Miss Missouri 1972-preliminary to Miss USA, will grace this year's St. Pat's celebration. Miss Potter will be present at the St. Pat's Coronation and the Parade.

Janet, the daughter of Mr. and Mrs. Raymond Potter of Springfield, is presently a sophomore at SMS. She plans to major in Business with a BS in Education.

The attractive 19-year-old brunette is very fond of out-

door sports, with water sports among her favorites. Miss Potter also enjoys artsy-craftsy things, such as painting, red furniture, and decoupage.

Her great beauty is evidenced by the many pageants participated in and titles held: representative from Missouri in Miss Dogpatch USA, Miss Marine Corps Reserve (Springfield unit), Southwest Missouri State Christmas Queen 1971, and Pershing Rifles Sweetheart at SMS.

As Miss Missouri-USA 1972, she will be traveling to San Juan, Puerto Rico, in May to compete for the title of Miss USA 1972.

In her own words, "I'm looking forward to being present at the St. Pat's celebration - I've heard so much about it!" And, it might be added, UMR is looking forward to her presence at the festivities.

News Of Interest

Cellar Door To Present "Jesus Christ, Superstar"

The Cellar Door Coffeehouse will open its doors once again on the 17th and 18th of March during the St. Patrick's Day celebrations. Featured at this coffeehouse will be "Scorpio", a rock group from Southeast Missouri State College, who will be playing selections from Jesus Christ Superstar. The nine member group was recently formed from music majors at the Cape Girardeau campus and has received wide acclaim there. In addition to the medley from J.C. Superstar, the group will be playing music from such groups as "Chicago" and "Led Zeppelin."

Appearing at the Cellar Door with "Scorpio" will be local area folksingers and an interpretive dance group. The coffeehouse doors open at 9:00 p.m. in the basement of the Episcopal Parish House at Tenth and Main Streets. It is sponsored by the campus ministries of the Catholic, Episcopal, Lutheran, Methodist and Presbyterian churches.

"Scorpio" will be appearing again on Sunday morning (March 19) at the 9 a.m. service of the Episcopal Church. Once again, they will be playing selections from J.C. Superstar as part of the regular Sunday morning worship service there.

Abortion Pill

An abortion inducing pill is being tested on several hundred women at 19 centers in the United States.

Upjohn fertility research Dr. Edward M. Southern said although the use of the drug (Prostaglandin (PG's)) for abortion to date has been by injections to date has been by injections the "direction for the future" is by tablets which the woman could administer.

PG's are hormone-like

substances present in many human tissues which aid in a wide variety of physiological functions. Fourteen PG's have been identified so far.

The activities they aid include from stomach acid secretion to labor induction. Chemists now synthesize PG's which means it could be easily produced commercially in the future.

Steel Grant

The University of Missouri has received a grant of \$15,132 from the American Iron and Steel Institute (AISI) for use on the Rolla Campus.

The grant is for preparation of a book to be published by AISI on design of stainless steel structures. Work is under the direction of Dr. Wei-Wen Yu, associate professor of Civil engineering.

Dr. Yu also directs another research project previously funded by AISI on cold-formed steel plate structures.

Two Inmates Returned To Jefferson City

Wednesday night (March 8) two student-inmates and Dan Barnes, correction officer in charge of the students, broke the rules of the University of Missouri-Rolla prisoner education release program. They left the campus without prior approval.

According to Dan G. Edwin Lorey, extension division, the two students have been returned to Jefferson City under the jurisdiction of the Missouri Department of Corrections and Barnes has resigned.

Supervision of the remaining student-inmates in the program will be assumed by deputized UMR officials until a new correction officer has been appointed.

Pot Has No Ill Effects

The second annual report on marijuana and health sent to Congress by the Secretary of Health Education, and Welfare recently claims that marijuana can provoke psychotic actions in unstable individuals, impair driving ability and cause other unspecified "serious effects".

Notably, the report also said that marijuana smoked in moderate amounts by "normal, healthy college students probably has no ill effects".

Although he feels outright legalization of marijuana is going a step too far, Brown feels there is a need for "decriminalization" of the weed.

Dr. William E. Bunney Jr., head of the Mental Health Institute's division of narcotics and drug abuse, said that although this year's report was a major one - the critical studies remain to be done.

Bunney said tests indicate that persons driving under the influence of marijuana exhibit "deficient intellectual performance and psychomotor skills."

The major surprise of the effects of the weed was the discovery that apparently there is little damage from long term use.

"However, the overall question of what dosages, frequency and duration of use are clearly likely to be injurious to health in various groups and individuals remains unresolved." Bunney Bunney said.

The report also found that: Marijuana use is as high as 90 percent in some groups of high school students.

Heavy use of marijuana is associated with use of other drugs, but there is no scientific evidence that marijuana is physiologically addictive or causes use of other drugs.

Further research is needed to determine the effects of marijuana on the chromosomes of women of child-bearing age and whether the drug damages such human organs as the brain and kidneys.

President Nixon may well take a more relaxed, tolerant position on marijuana this year

in order to woo the youth vote. In that case, it is worth recalling the words of Richard Lliendienst, the deputy Attorney General who is to become Attorney General when John Mitchell steps down to head Nixon's reelection campaign. Lliendienst has modestly declared his own views to be closer to the President's than any other living person. Here is what he said to a group of Georgetown University students in April, 1970:

"Our job is to enforce the law, and only that. Marijuana is destructive to the fabric of America, and must be treated as such.

"No civilized country in the world has legalized marijuana.

"You know, if you lived in Russia and were caught smoking you would be killed--you know, shot.

"If we permit our citizens to smoke legally, don't you think the Russians would begin to see the opportunity to take us over?"

"After all, we all know that the reason the Arabs are losing the war to the Jews is because they smoke so much."

Missouri Miner

University of Missouri - Rolla

James Kirkpatrick Among Honorary Knights

James C. Kirkpatrick, Arron J. Miles, Earl E. Feind and Francis C. (Ike) Edwards have been chosen this year to receive the title of St. Pat's Honorary Knights at this year's celebration on the campus of the University of Missouri-Rolla.

Missouri Secretary of State James C. Kirkpatrick is prominent throughout the state as a newspaperman. Notable among his accomplishments in government have been his support of the Missouri Highway program and the change of the state "Blue Book" to the

"Green Book."

Dean Emeritus Aaron J. has spent a total of 42 years at UMR, either as a student, a member of the faculty or both. Dean Miles is currently serving his alma mater as special coordinator for the Centennial Challenge Program.

Earl E. Feind, M.D., has been a physician in Rolla since 1935. In 1937 he was appointed director of student health for the Rolla Campus and served in that capacity for 31 years-until 1968. Dr. Feind is now senior staff physician at UMR. He has, incidentally, two alumni sons-in-

law.

Francis C. (Ike) Edwards became the first executive secretary of the MSM-UMR Alumni Association in 1953. After 19 years he is still serving in that capacity. Through his leadership, the Alumni Association has developed into an active, vigorous and loyal organization.

St. Pat will dub these distinguished gentlemen honorary knights at ceremonies preceeding the Coronation Ball Friday (March 17). The knights will be special honorees in the Annual St. Pat's Parade Saturday morning (March 18).

With the coming of St. Pat's, a UMR freshman makes use of his shillelagh. The bearded freshman demonstrates the proper technique for killing snakes.

Misconduct Dismissals

by Mike Chiles

In this supposed age of enlightenment it would seem that some members of the Academic Council are still living in the dark ages.

At the last meeting of the Academic Council a resolution was passed to establish a procedure for student appeal in the event of dismissal for misconduct. If a student misbehaves, or if there is some sort of personality conflict between a professor and a student, that student may be dropped from class by the professor.

That there is now a method of appealing what is sometimes a rather arbitrary decision by the professor is a positive move by the Academic Council. But the method of the appeal process leaves something to be desired.

The Academic Council's resolution states: "During the appeal procedure, the student is not permitted to attend the class from which he was suspended or any other section of that course." There are two steps to the appeal procedure. The first one involves an appeal to the head of the department that the class is taught in and takes about a week.

If unsuccessful, the student may then appeal to the Student Conduct Committee. There is no time limit detailed for this step, but realistically speaking, it would probably take at least another week.

Even if the student is found to be in the right he could easily be forced to miss at least two weeks of class. And if there is no other teacher teaching that particular class the student may still be dropped by the professor. His only consolation being that, if he was found to be in the right, he is spared the final indignity of having to pay five dollars to the registrar.

While the Academic Council's resolution was a move in the right direction it is to be hoped that they will remedy some of these flaws. It is commonly held by many students that UMR is still living in the past and such a patent disregard for students' rights does little to dispel such an idea.

Our Man Hoppe

Is There Intelligent Life?

This month's Clear Thinking Award goes to our space agency for its triumph in finally launching the first grafitti to the stars.

The grafitti is aboard the Pioneer spacecraft, which, after passing Jupiter, is supposed to head out into the Milky Way. In case it runs into an alien civilization, it has a plaque aboard showing Earth's location and what we human beings look like.

To show alien civilizations what we look like, there's a drawing of a naked gentleman and a naked lady. The gentleman has all his proper parts but the lady is constructed like a Barbie Doll.

Actually, the lady initially had all her parts, too, but she had to be redrawn. Our space agency flatly rejected the original version of the lady as being "a bit too explicit."

And rightfully so. There's no point giving offense to alien civilizations. But did our space agency go far enough in correcting this offensive plaque?

For example, what happens if this plaque falls into the hands of, rather, the tentacles of the puritanical Sluds (cq) on the planet Andromeda Seven?

There is the great Sludian cosmologist, Jorj, (cq) relaxing in his garden feeding roses to his snails when -- kerplop! -- Pioneer drops out of the sky on to his compost heap.

Reaching out one of his 14 tentacles, Jorj, rips off the plaque and scans it with his central eye. "My gosh! he cries.

"This craft is from the Planet Earth. So that's what Earthlings look like."

"What have you got there, dear?" inquires his wife, Porsha, peering over his horns. Suddenly she blushes a verdant green to the very roots of her golden scales. "Good heavens, they're... They're stark naked! Oh, what sort of sick, perverted mind would draw pictures like that?"

"Now dear, calm yourself," says Jorj soothingly. "They're merely trying to show us what they look like."

At this Porsha stamps one of her six tennis-shoed feet. "They want to show us, do they? You know very well where that leads, Jorj: 'I'll show you mine, if you'll show me yours.' Oh, what filthy little childish minds! Give me that awful thing!"

"Don't grab, Porsha. I have to study it. The drawing raises fascinating questions. For instance, how do these strange beings reproduce? The female seems to have no..."

"At the very least, Jorj, while you have that dirty picture in the house cover up those creatures' private parts. What if little Joonyur should see them? It could sap his moral fiber and warp his little mind."

"All right, all right!" And Jorj grudgingly snips off a strip of adhesive tape, which he sticks over the man's and lady's feet.

"Well, that's better," says Porsha with relief. "But I can't wait until you finish studying it and give it to The Council so they can send a fleet to wipe out these sick-minded smut senders, these interstellar obscene callers, these per-

Give A Damn

By Sidney Birchfield

With this being St. Pat's week and weekend, a "green" editorial is called for--the issues and controversies surrounding UMR's biggest and most celebrated party weekend.

With the approach of each and every St. Pat's, one hears the clamoring of those, with miscellaneous bitches about the weekend, or events leading to the weekend. Those of a serious nature can be summarized as: 1) Why do the St. Pat's Board members have to use such "strong-arm" tactics in raising money? 2) Why does all the hazing and harrassment of freshmen go on? 3) Is the knighting ceremony--the green goop--truly necessary and is it an honor?

Question No. 1: I, too, find it very annoying that for each and every benefit movie that I am strong armed by the Board members; and that for the purchase of hats, buttons, sweatshirts and garters, I am also strong-armed. However, I fully realize that it is such tactics that the board must rely upon to fund the event which so many of us students, as well as dates, Rolla residents, and out of towners take for granted and

yet enjoy so well. If you stay down for this super weekend, and I feel sorry for those who miss it--ask yourself when it is all over if for the few times you've been hit up for money, it was worth it! I am sure that no one can deny the fact the St. Pat's, each and everyone, is an event which will always be remembered. What more can be said?

Question No. 2: To be painted green, is undoubtedly very distracting as well as annoying. I should know, I get zapped every year! (crop failure!) Yet, it is true that no person is ever painted if he truly and violently objects to it. This painting is one of the oldest well-known traditions at UMR, and done mostly in good fun. Pity the person who has no sense of humor for a practical joke--he must be a real bore.

Freshmen carrying shillelachs is not just for harrassment, but also for all freshmen to be united somehow, in a cause of tradition, and in the sense in carrying on a tradition. Again, who has not at one time or another had to be subservient and pay respect in some way? It also gives one something to look forward to the next year.

Question No. 3: There is a formal knighting ceremony the Friday night before the Saturday, each knight knows before hand what goes along with the honor, and is not forced to accept the honor. Also, there is no rule which specifically states that he must show up for the green dunking. Of course, there are consequences for failure to show, but those involved in the consequences need not show.

I am not condoning the dunking as such, because it is messy, unsanitary, etc., and you have to be out of your mind

(most knights usually are) to go in; but still most knights go in because they are representing an organization or a group of guys they take pride in. I will come forth and state that I feel that the ceremony should be changed in order to reduce any accidents and casualties; but it all boils down to a matter of personal taste.

It is difficult in this short period of time to truly discuss what St. Pat's is all about. Those who have been here, carried a shillelagh or been painted green--know. Any person that takes pride in their organization, their school, and a tradition which makes UMR a gathering of social interest--they know.

St. Pat's weekend has everything from a fantastic parade, to the formal knighting ceremony, a John Denver concert, miscellaneous parties, and even the green goop--so take your pick of what you want to get out of it and quit your bitching.

P. S. I won't be at the knighting ceremony this year--I've seen all I wish to see in years past, and besides I've got to dress (??) for the concert. Being an alternate knight has nothing to do with it--thought I may come disguised as Dear Balthazar!

1. Assembly by 8:30 a.m. at 5th and Park Streets.
2. All non-float entries must be approved.
3. Each organization entering a non-float must have submitted three (3) typewritten copies of a description of their entry to Marty Stampick (phone 364-9952) prior to parade time.

THE ENGINEER BY KRIEGER

(reprinted from 1963 MISSOURI MINER)

Do You Believe This? Five Big Columns Of...

Dear Balthazar

Note: "BS" (Balthazar Says) that this column is not being written by me this week. I journeyed to my old homestead to spend a weekend with my dear mother and father, so may be fingered assistant, Ladislav is taking over for me. I'll get back to ya next week. Luv-Bal.

Dear Balthazar,
What's this I hear about a plan of intervisitation in the dorms?

Sex Maniac

Dear Sexy,
Don't get too excited. You will only be able to visit 10 minutes and only with the doors open, and only when chaperoned by an armed Pinkerton guard.

Seriously--There is a plan to permit intervisitation in the dorms between the hours of noon and midnight. It's about time someone decided to do something like that. Columbia just started a program, and other colleges like SMS have "open houses" quite frequently.

Dear Bal,

No Way Man..There is no way you are going to get me into that green "s---" on St. Pat's. I don't care if my organization voted for me or not. There's no way.

Korky

Dear Kork,

Keep your mouth shut baby. Literally!

Dear Balthazar,

I don't understand it. I lead a good, clean life. I get plenty of rest, exercise, fresh air and sunshine. I eat healthful foods. I don't drink too much. I'm kind, considerate, understanding, and gentle. But something has really been othering me. I'm getting older now. I'm growing up. I'm an adult. Then, WHY CAN'T I OUTGROW ACNE???

E.E. Outbroken

Dear OB,

Cheer up. Start drinking more. You'll still have acne, but you won't care.

Dear Bal,

With St. Pat's this weekend, I was wondering if you have any ideas on some good drinks that will shillelagh my date so I can cudgel up next to him.

UMR coed

Dear coed,

(This is me, Bal answering this.) Try my Balthazar Special. It consists of 1 ounce tequila, 1 ounce vodka, 1 ounce blackberry brandy, 1 ounce beer (cheap), 1 ounce hot sauce, 1 ounce peps, and one-third of an ice cube. Mix all of this stuff in a glass and stir with a spoon. Have him drink it all at once. If this doesn't work cutey, nothing will.

Dear BAL,

Are you getting knighted?

Jeff

Dear Jeffro,

Hell no! I became a "Royal Knight" last year.

Dear BAL,

Would it be possible for you to get me a schedule of the drinking events this week. I want to make sure that I attend all of the fine St. Pat's events.

Merlye

Dear Meryle (you spelled your name wrong),

Follow the green jackets. I am sure that they will not get off the beaten path this week.

Dear BAL,

I got a date with this really groovy chick this weekend. We have had numerous dates before and always seem to hit it off well. We seem to have this problem though, Every time we get to drinking I get really off good and can't remember what

has happened the previous night. What should I do?

Can't Sleep

Dear Can't,

How does your body feel when you wake up? Keep on truckin and keep it together. When you do wake up ask your date what you did last night. If she smiles, then you smile and brage to all of your friends. If she doesn't then you don't and don't tell anyone that you didn't. Got it? If not get it.

Dear Bal,

You quit that there use of them there four letter words in yourn column.

The Man

Dear The,
I'll try harder to keep my column straight.

QUESTION???? Why didn't WRHA, Sigma Delta and Lambda Sigma have ST. Pat's Knight candidates?

SPREADER DETAIL

1. One freshman from each organization will pull the manure spreader.

2. Said freshman will meet at the parking lot at 10th and Main Streets, no later than 8:30 a.m. SHARP.

ROLLA, MISSOURI

And Another Thing . . .

That's The Way It Is...

By Kent Yost

Direct from our news room in Rolla, it's the UMR news with Walter Cronkite...and...

Roger Mudd at Parker Hall...

Erich Severide with the Student Council...

Mort Kalb at Student Publications...

Haywood Hayle Brun on the mall...

And Charles Karalt on the road to Waynesville...

Walter: Good evening...In the most unexpected excitement of the week, the University of Missouri - Rolla today announced that its enrollment for the fall semester has tripled that of the same semester last year.

In a statement released today, Chancellor Merl Baker said that the additional two students entering the university next week will raise the student body to three, the highest number in several years. The chancellor also outlined several of the changes and revisions the school will undergo in order to accommodate the sudden flood of students. For a statement of the situation, we now take you to Parker Hall and Roger Mudd...

This is Roger Mudd, UMR News at Parker Hall where Chancellor Merl Baker has just released the outline of the role and scope that UMR will undertake. The general feeling of the administration here is one of optimism. Studies are being made that point to an even greater increase to the point of seven or even eight students within the next five years. Chancellor Baker has agreed to speak to the press on the matter, and in just a few minutes we will have a personal interview with him.

I see our crews are ready now... Chancellor Baker, could you please tell us how you feel about this windfall of enrollment the university has just had?...Chancellor Baker? Ch-Chancellor Baker?...Uh, Chancellor, Chancellor... Could you-could you please stop smiling at the cameras and answer a few questions for us? Chancellor Baker? Sir? Please, just a few questions. Chancellor?

Oh well, this is Roger Mudd, UMR News, at Parker Hall...

Walter: More students will mean that UMR will need to provide more services, and someone or something to coordinate these services will be needed. Now in the planning stages is the rebirth of an organization once known as the Student Council. Rebirth? For that story, here's Erich Severide...

It's not a very pretty sight...It's just a room; the former meeting room of the Student Council. It's hard for one to imagine that this ghost of a room was ever inhabited by people. Now the wind blows silently through the cobwebs that cover the empty filing cabinets. The meeting tables are laden with a thick coat of dust and neglect.

The chairs show the most wear. It is possible to see the cracked and peeling varnish on the overly-worn seats, reminiscent of large amount of sitting around that plagued the

former inhabitants of this area.

No one knows really how it happened. Probably the first to realize that something had happened were the custodians. For years the janitors opened the room daily to empty the trash and dust. There always was a lot of trash coming from the room. But one day the trash stopped, never to return. For months, the janitors checked the room, only to find no signs of life. Finally one day someone got suspicious and hired a private detective to find out what was going on. The detective staked-out the area only to find that no one ever came or went from the room, that is no one except the B & G boys.

Some say the council was kidnapped. Others contend they were all stricken with the dreaded disease, "Slothophobia" which is caused by inactivity. Still others believe that the whole group took a vacation to Six Flags Over Juarez and were lost in the red light district. The only strange thing is that no one noticed the group was missing until three years after the waste baskets were found to be empty.

The question being asked now is "will the new council fall into the same pit and be bogged down like its predecessors?" That remains to be seen. This is Erich Severide, UMR News, Ghost room U.S.A.....

Walter: With the news media being a great part of student life, UMR news went to the Student Publications center. Housed within the student union are the offices of the Missouri Miner, the campus newspaper, the Rollamo, the yearbook, and radio station KMSM. With more information on the media, we take you to Mort Kalb...

"Student Publications haven't fared to well over the past few years, mainly due to the lack of funds"

That's Mr. Paul Ponder speaking. He has been talking with student and faculty about the upcoming reorganization of

the campus student information and entertainment media...

"KMSM probably suffered the least. Of course we were very happy that we did not sell the old transmitter. You see, several years ago the students voted an increase in fees and we bought several thousands of dollars worth of equipment. But when enrollment dropped and our funds were cut we couldn't keep up the payments and the transmitter was repossessed. We went back to the old transmitter, which immediately broke down. We patched it up, but we had to cut our power and amount of broadcast time. This really didn't bother too many people since we had only one student at the time and he was so busy playing the records that he didn't have time to listen to the radio. But with the increase in money and students, we now feel we can increase our air time to 45 minutes a week, providing the crystal holds up.

"As for the Miner and the Rollamo, both will go back into publication after an absence of several years. The Miner will be printed the third Tuesday of every other month, and we hope to be able to afford film to take pictures for the annual."

Walter: The campus beautification has just been completed under the direction of a student-faculty committee (from another university) and with that story, here is Haywood Hayle Brun...

And the Lord said, 'Let there be concrete,' and there was, and it fell on Rolla, and the Lord said 'This is good.'

So reads the inscription of the C Brice Rathchford memorial bench located on the newly completed campus quadrangle. The Rathchford Bench is only a small part of the \$642,000 remodeling job that began way back in 1972, despite the voiced opposition of the student body. Next to the Rathchford bench is the lavishly decorated "Tomb of the Unknown Coed" and a little farther down, near the ruins of the library, is the giant, St.

Pat's "Golden Shilleagh" Clock that plays the Budweiser theme song every hour on the hour.

Noticable is the absence of grass or trees in the area. According to officials of the committee, the greenery was left out because it was felt plants would only clutter the stark beauty of the light reflection from the Merl's Molar Monument, erected to remind the world of the importance of beautiful smile. This is Haywood Hayle Brun, UMR News, on the mall...

Walter: What will UMR students be doing for recreation? Charles Karalt has that report...

Located about twenty miles from Rolla, as the crow flies, is the town of Waynesville. At one time, Waynesville was the rest and recreation area for the soldiers stationed at a United States Army base known as Ft. Leonard Wood. But after the establishment of the all-volunteer army and the subsequent demise of the same, the citizens of this hamlet had to look elsewhere for economic support. Realizing the grueling life of a UMR student, the businesses here have begun

heavy advertising programs in the Rolla area to entice the Miners to their vacation paradise. And there campaigns seem to be paying off. It is predicted that two-thirds of the UMR students will visit Waynesville at least once a month next year. Another story of successful capitalism in action. This is Charles Karalt, on the road to Waynesville...

Walter: That's the way it is...August 21, 1979. This is Walter Cronkite. Goodnight.

ATTENTION FLOAT ENTRIES

1. Bring floats up State Street to 7th Street by 8:00 a.m. SHARP!
2. Don't use the parade route when bringing floats to the assembly area.
3. There will be a fine subtracted from the judging forms for any delay in the parade.
4. Each organization must bring three (3) typewritten descriptions of their float with them to the assembly area.

Organizations Select Knights of St. Patrick

Into the green goo goes one of the honored St. Pat's knights

Lambda Chi Alpha:

The Lambda Chi Alpha Fraternity announces that they have elected Robert Berry to be knighted by the St. Pat's Board. Bob has distinguished himself on campus in many areas. He is presently a member of Blue Key, a national honorary fraternity. In the past, he served the St. Pat's Board and the UMR varsity football team. In the fraternity, he has served as the Pledge Trainer and the Social Chairman.

Tech Club:

Tech Club has chosen Joseph Bender for their 1972 St. Pat's Knight.

Joe is from St. Louis and is presently a senior majoring in Computer Science. Joe's future promises a knighting, marriage, and a hopeful graduation in December. He has been a member of Tech Club for three years and has served as Secretary-Treasurer in his senior year.

Joe has continually showed interest in the SUB. He has served on both the Social and Public Relations committee, and was elected as the Public Relations Committee director and Vice-President of the SUB. He is a member of ACM (Association for Computing Machinery) where he has served as Secretary and Treasurer.

G.D.I.:

Darrel Prior earned the honor of being knighted this year for his continued hard work for G.D.I. Darrel was Special Projects Committee Chairman, and Associate Editor of the Sixty-Miner.

Alpha Epsilon Pi:

Alpha Epsilon Pi presents Walter Canis as its 1972 St. Pat's Knight. A senior majoring in Computer Science, Wally has maintained a high scholastic average while holding many offices within the fraternity, including President. He contributed significantly in the final preparations for the new house.

Pi Kappa Alpha:

Pi Kappa Alpha presents Paul Burke as their knight of St. Patrick for 1972.

Paul, a senior from St. Louis, Missouri, is majoring in Civil Engineering. He has been secretary and vice-president of the fraternity and has served the campus very well by acting as I.F.C. Judicial Board Chairman and by being an active member of Theta Tau.

Pi Kappa Phi:

Mr. Paul K. Scherrer is a member of Pi Kappa Phi social fraternity, and as such has received the Student Lamp Key Award and was named to Pi Kappa Phi National Fraternity. Brother Scherre has served Pi Kappa Phi as Interfraternity Council representative, and has held the offices of secretary, historian, and chaplain. Paul is also a member of Tau Beta Pi, Pi Tau Sigma of which he was recording secretary, Phi Kappa Phi, American Society of Mechanical Engineers and Intercollegiate Knights. Paul will receive his Master of Science degree in Mechanical Engineering in May and is presently a graduate teaching assistant in the M.E. department.

Sigma Nu:

The men of Sigma Nu present their unanimously elected candidate for the St. Pat's Knighting of 1972, Russell Dunnbyars. Russell, is a senior in Engineering Management, from Kansas City, Mo. He has held the offices of president, vice-president, and rush chairman of Sigma Nu, served as secretary of ASCE, and has been a member of the I.F.C., APO, Gamma Alpha Delta, Theta Tau, and Midcontinent American Society of Civil Engineers.

Delta Tau Delta:

The Brothers of Delta Tau Delta have announced the election of Roy Bickford Woods III as their St. Pat's Knight. A native of Bernie, Mo., Bicky is a member of ASCE, IK, and Chi Epsilon. Having an interest in all sports, he has been intramural manager of the house and was runnerup in the Intramural Man of the Year contest last year. Last year he was Sergeant of Arms in the fraternity.

M.R.H.A.:

The men of M.R.H.A. will present Ron Gaus as their honorary knight this year. Ron has shown his worth to the organization by serving as Head P.A., as Ugly Man for the past two winning years, and as head of MRHA'S drive to raise funds for Boy's Town.

Phi Kappa Theta:

Representing Phi Kappa Theta as their most honored St. Pat's Knight is Ken Schweigert, an Engineering Management major, from St. Genevieve, Missouri. In his years at Phi Kap, Ken has contributed much to the house, both in spirit and in his work, as Pledgemaister and Rush Chairman. He has also been a member of Theta Tau, Circle K, APO, and Student Council, as well as a Rugby Club officer, and a Who's Who selection.

Triangle:

The Brothers of Triangle Fraternity present Brother Doug Dumm as St. Pat's Knight. Doug is a senior majoring in Engineering Management with a minor in Electrical Engineering. He has been in the Co-operative Engineering Program for four years with Xerox Corporation and plans to be employed by the same in Research and Engineering Control.

Kappa Sigma:

The Brothers of Kappa Sigma are proud to announce Jack Rose as their St. Pat's Knight. Jack is currently a senior majoring in Petroleum Engineering. Jack has served as Pledge Trainer and Guard in the house and is active in SPE and Pi-ET.

Campus Club:

Campus Club will make its annual human sacrifice to St. Pat in the person of Mr. Earl Gale Layton. Gale is a senior majoring in Civil Engineering. A past member of the Board of Control, Gale is our senior rep to the Inter-Coop Council, of which he is the treasurer. This year he is also serving on the Student Council with committee memberships on Faculty Evaluation and "Bitch" committees. Gale hails from Ironton, Mo.

Sigma Pi:

In the tradition of St. PAT'S. The Brothers of Sigma Pi have elected brother James Hampel as their St. Pat's knight. Jim has led a very active life here at UMR, taking part in swimming, M-Club, APO, and ASCE. During the past few years, he has also taken many leadership positions at Sigma Pi, including Vice-President, Rush Chairman, and House Manager.

Theta Xi:

This year's knight candidate from Theta Xi is Randy "Hammer" Hasselfeld. Randy has been active in the organization; holding the Scholarship office twice, and participating in numerous intramural sports. He is presently a varsity shot putter on UMR's track team. His other interests include skin diving.

Scholastically speaking, Randy has a 3.6 gpa. He is an active member of Eta Kappa Nu, an Electrical Engineering fraternity, where he held the office of 'treasurer. His scholastic ability has also made him eligible to enter Phi Kappa Phi and Tau Beta Pi.

Randy likes challenges of any kind. At 6 feet one inches, 225 pounds, he ought to present quite a challenge to the St. Pat's Board.

Theta Chi:

Theta Chi's honorary knight candidate this year is Richard Brockmeier. Rick is a graduating senior in Ceramic Engineering, and is active in several campus organization such as KERAMOS and Tau Beta Pi.

Acacia:

Acacia Fraternity presents Dennis Abeln as its St. Pat's knight candidate for 1972. Dennis is a senior in Electrical Engineering and has been very active in the fraternity. He was president during 1971 and is presently working on the expansion of our fraternity to other campuses in Missouri.

Thomas Jefferson:

Thomas Jefferson offers John Gregowitz to serve as a knight of St. Pat. John has served the dorm, college, and community in several ways. For T.J., he has served as Social Chairman for two years, was on the Judicial Board, participated in intramurals, and in 1970-1971 was the Ugly Man chairman. On campus he has been active in A.F.S., A.S.M., and the UMR Management Association. A member of G.D.I. for four years, he has served as treasurer of the G.D.I. weekend committee and as a member of the committee for two years. To the community, he has donated time and effort in such projects as the Pruitt-Igou Relief Program and community blood drives.

Queen Candidates

Shamrock's candidate for the Queen of Love and Beauty is Miss Connie Smith. She is a brown haired, hazel eyed sophomore at UMR. Connie is 5' 6" tall and weighs 105 pounds. She is in General Studies but her favorite field is Accounting in which she hopes to major.

Connie has many hobbies which include tennis, swimming, golfing, sewing, reading, and playing piano and flute. In the future, she would like to become an accountant and work for the FBI.

Pam Gabel
Sigma Phi Epsilon

The men of Sigma Phi Epsilon are proud to present Miss Pam Gabel as their 1972 St. Pat's Queen of Love and Beauty candidate. Pam is a petite 5' 3" brunette and hails from Independence, Miss. Gabel is currently a freshman attending UMC, majoring in History. Her extracurricular activities include being IRHA representative of her residence hall, a member on the Homecoming Committee and a member of the History Society.

Among her various hobbies Pam enjoys swimming, tennis, and horseback riding. We feel that Miss Gabel will represent Sigma Phi Epsilon very graciously during the upcoming St. Pat's celebration.

Connie Smith
Shamrock Club

Sally Sue Lovett, St. Pat's Queen Candidate for Sigma Nu, is currently a freshman at KU. Sally is in very good academic standing, and intends to enter journalism school next year and major in advertising. Among her activities at school, Sally is a member of Frosh-Hawks, the freshman Pep Club.

Sally is also an accomplished pianist, having played for ten years. She has competed in the annual Music Festival at Pittsburg, Kansas for six years and has always placed high.

Although she is from the small town of Neodesha, Kansas, she gained an excellent background and graduated as Salutatorian of her class. She was an active member of Pep Club, Y-Teens, FHA, and served as editor of the school paper. Sally also worked at the W. A. Rankin Library which served as an excellent basis for journalism.

Sally Sue Lovett
Sigma Nu

The brothers of Sigma Pi would like to introduce as their candidate Miss Carol Rozum. Carol, fiancée of brother David Capelle, is a pert, young coed from SIU-Carbondale with long brown hair.

Carol's major, Clothing and Textile Merchandising, will be greatly enhanced by her cute figure. Besides her 3.5 average, Carol's accomplishments include president of the Clothing and Textiles Advisory Council and membership in Student Home Economics Council and American Home Economics Association.

Her other activities are motorcycling, bowling, swimming, water skiing, and horseback riding. These make her a member of the now generation, and a truly outstanding candidate for St. Pat's Queen.

Carol Rozum
Sigma Pi

The brothers of Delta Sigma Phi are proud to have Miss Marilyn Webster represent them as their 1972 St. Pat's Queen candidate. Marilyn is currently engaged to brother Tim Holzer and plans for marriage are tentatively set for December.

She is an 18 year old from Oaklawn, Ill., and has been recognized superior in beauty and personality by being elected Homecoming Queen in high school.

The brothers of Delta Sig feel that Marilyn would make a fine St. Pat's Queen and wish her the best of luck.

Marilyn Webster
Delta Sigma Phi

Ann Hulsey
Pi Kappa Alpha

Gracing the scene this St. Pat's, is Pi Kappa Alpha's lovely Miss Ann Hulsey, their candidate for the Queen of Love and Beauty of 1972.

Ann, a charming 5' 6", 18 year old, has long brown hair and dark brown eyes. A native of Farmington, Missouri, Ann is now a freshman majoring in Special Education at Drury. Some of her interests include swimming, tennis, bowling, and all forms of music. Along with her future plans, Ann is a volunteer aide at the State Training School for Retarded Children in Springfield.

Ann is no stranger to Rolla, having graced several party weekends at the Pike House, and the brothers feel that this young lady will enhance and brighten this year's celebration if elected to the royal court of St. Pat.

Sue Bergman
Tech Club

Miss Bergman is the daughter of Mr. and Mrs. Roy R. Bergman, 1306 Moreland Ave., Jefferson City. She is a senior at Jefferson City Senior High School. She is a member of National Honor Society, Chorale; active in J.C. Players, and played the part of Nettie in the Operetta, Carousel. She is a member of the First Baptist Church. Miss Bergman also plans to attend Lincoln University next fall. She was nominated for St. Pat's Queen by Tech Club at the University of Missouri at Rolla, of which her boyfriend is a member. Miss Bergman lived in Rolla for two year before she moved to Jefferson City last December.

The men of MRHA are proud to present to you Miss Elaine Menke as their St. Pat's Queen candidate. Miss Menke is a junior in Computer Science here at UMR.

She is 5' 2" tall with light brown hair and brown eyes and is from Belleville, Ill. Elaine's past accomplishments are many. They include the 1969 Homecoming Court, representing TJ, and the 1971 Rollamo Court. She was also a candidate for the "Glamour" magazine Top 10 College Girls contest both her sophomore and junior years. She is presently a student representative to the Computer Center Policy Committee. Miss Menke's other interests include swimming and Scuba diving.

Elaine Menke
MRHA

The men of Theta Chi are proud to present Linda Visos as their Queen candidate of Love and Beauty. Linda stands as a 5' 4" burnette with green eyes.

A 1970 graduate of Southwest High, she is presently employed full time as a data processor in St. Louis.

Linda says her interests are clothing and, as she puts it, "just having a good time." We, the brothers, feel that Linda is a fine choice for St. Pat's Queen 1972.

Linda Visos
Theta Chi

More Honorary Knights

Engineers Club:

The members of Engineer's Eating Club submit Harry Wissman for candidate to become a knight for St. Patrick. Harry is a senior in Civil Engineering and president of Engineer's Club. He is an active Student Council member, I.C.C., and other campus activities.

Shamrock Club:

Moe Vandenberg, representing Shamrock Club as St. Pat's Knight, has been a member of the club for eight semesters. In this time, he has been on the Board of Control, and held positions as dishwasher and pusher. He is a founder and acting chairman of the University Blood Drive Committee, as well as the President of the Inter Co-op Council.

Sigma Tau Gamma:

Alpha Omega chapter of Sigma Tau Gamma presents Steven Vardiman to be knighted by St. Pat. He is a graduating senior, majoring in Physics. He is married and has a baby girl named Tracey. In his five years at UMR, Steve has served the fraternity as Theta Tau Ugly Man, house manager, and historian, as well as heading numerous display committees.

Kappa Alpha:

Emerging from the Southern halls of chivalry and ideals; comes Jeffrey M. Bushnell, member of Kappa Alpha Order and active in Alpha Chi Sigma, and A.I. Ch. E. In the past, he has been a member of Phi Eta Sigma, Intercollegiate Knights, and the Student Union Board. Currently "Snidely" is a co-op student working for Continental Pipe Line Co.

TKE:

The men of Tau Kappa Epsilon present David Puettman as their 1972 St. Pat's Knight.

Dave is secretary of the Student Council and Pledge Trainer of Theta Tau. He has been secretary and president of TKE.

Sigma Phi Epsilon:

Sigma Phi Epsilon presents Mr. John Welte as its 1972 St. Pat's Knight. John is a senior majoring in Electrical Engineering, and is due to graduate in August of this year. He has earned the respect of all the men of Sig Ep through his diligent work for the fraternity and his continuous congenial personality.

A senior in Engineering Management and a native of Perth-Amboy, New Jersey, this diligent, conscientious worker also enjoys such coast-town hobbies as surfing, deep sea fishing, and girl-watching.

Student Union Board:

The Student Union Board is proud to present Mike Hermesmeier, President, as their nominee for the Knighting services. Mike has been extremely involved in campus government as his position of President of the Student Union Board and a member of the Academic Council indicates. He has been serving students previously by both being a member and a director of the Social committee of the Student Union Board.

Beta Sigma Psi:

The Brothers of Beta Sigma Psi present John Winkelmann as their 1972 St. Pat's knight. "Winks", a senior majoring in Electrical Engineering, has served the house in various capacities including Secretary and Rush Chairman. His abilities have not been confined to just the house however, as he served on Student Council, held offices in Theta Tau, was a member of IEEE, and received various appointments to student-faculty committees. Winks hopes to help make this St. Pat's the best one ever.

Miner's Menu

By Patrick Michaels

Soon the sacred grounds of UMR will be void of all evil serpents and once again UMR will ready itself for the big event of the school year, St. Pats. St. Pats is noted by most students here as the best overall party weekend of the school year. It is a time when most students who stay around drink and party themselves to death and still wish for more. Drink is the big work for this upcoming event and what better way to enjoy it than with a touch of the old green and a few good drink recipes to impress the date with.

With this in mind, I set aside the books and began looking for some truly appropriate drinks and of this I have found an old UMR St. Pats favorite, the Irish Shillelagh. Although I haven't had a chance to try the drink, I think that it is probably a truly unique thirst quencher. It involves the use of a lot of alcohol and could probably serve as a

potent icebreaker. For us poorer Miners a drink like this can run up quite a bill, but this can be avoided by forming a group of about 3 couples to share the expense.

Irish Shillelagh
1/2 lemon juiced
1 teaspoon Powered Sugar
1 jigger Irish Whiskey
1/2 ounce Sloe Gin
1/2 ounce light Rum
2 slices of fresh Peach
Strawberries, Raspberries and cherries

Mix all ingredients except berries and cherries into a large shaker glass add cracked or crushed ice and shake vigorously for a minute or so. Pour mixture into small glass and garnish with berries and a cherry.

My next drink is quite similar to the Irish Shillelagh, but less expensive. It's called the Continental and employs the use of light rum and creme de menthe. One thing about the drink is that it is the color that our patron saint seems to prefer, green. It is a much lighter drink to consume and it is just about as potent.

Continental
1 3/4 ounces Light Rum
1/2 ounce lime juice
1/2 teaspoon Sugar
1/2 teaspoon Creme de Menthe

Mix in the same fashion as the Irish Shillelagh, except pour over ice cubes in a small glass.

Green Devil
1 1/2 ounce gin
1/2 ounce lime juice
1/4 ounce creme de menthe

Shake gin, lime juice, creme de menthe with crushed ice and strain over two or three rocks in a prechilled old fashioned glass.

Between the Sheets
3/4 ounce light rum
3/4 ounce brandy
3/4 ounce triple sec.

Shake well with crushed ice. Strain into cocktail glass; ENJOY.

When do you drink malt liquor anyway?

Anytime you feel like it. That is, if it's BUDWEISER Malt Liquor. BUDWEISER Malt Liquor is the first 100%-malt, malt liquor around (no other grains added). It's the first malt liquor that really is... malt liquor.

The first malt liquor
good enough to be
called BUDWEISER.

Worth getting into, mister.

Introducing...

Music Men For St. Pats 1972

St. Pat's weekend at the University of Missouri-Rolla will be filled with music. As many as eight groups or individuals have been scheduled to perform at events on March 17 or 18.

Alice and Omar, a professional group from St. Louis, will play for the coronation ball on Friday night (10 p.m. to 1 a.m.). Easy rock is their style and they play often at the Granary in Edwardsville, Ill.

Participating in the St. Pat's Parade on Saturday morning will be the Helias Girls Drum and Bugle Corps; Cuba High School Band, Black Knights of Belleville, Ill., DuBorg High School Band and the UMR Band. The 69 Marching Kazoos (provided by member of the UMR Campus Club) will also be on hand at this event.

Highlight of the musical events during the week-end, will be a performance on Saturday afternoon by John Denver. Denver will give a concert from 4 to 6 p.m. at the Multipurpose Building. This is a free concert for UMR students and dates only. Two people will be admitted per student I.D. card.

"Alice And Omar"

In the music spotlight for Friday night will be the St. Louis based group, "Alice and Omar." They will be performing at the Coronation Ball, which will be held at the Multipurpose building at 9 p.m.

"Alice and Omar" has been active around the Missouri and Illinois area, and has performed

with other rock groups such as "Grand Funk Railroad."

The repertoire of the group ranges from the music of Lauro Nyro to that of Crosby, Stills, Nash, and Young and, according to a newspaper in Springfield Illinois, it "performed each song with a polish and professionalism, not to mention talent, that is often lacking in bands."

John Denver

Several years ago, a young writer named John Denver had the good fortune to write a genuine No. 1 hit song called "Leaving On A Jet Plane".

Ironically enough, even though Denver recording "Leaving" on his first album, "Rhymes and Reasons", the song didn't become a million seller till Peter and Paul and Mary released it as a single.

However, almost four years later and eons older, there has emerged an extraordinary young man with a mind full of wonderment and a heart full of soft, soothing sounds.

Denver works and lives by the philosophy that "music is not so much a form of entertainment, but a life-style of people, such as Woodstock." And he expresses his intenseness and feelings in hit records like "Take Me Home, Country Roads", and his latest album for RCA called "Aerie".

John's kind of music, with which you can live intimately, seems to be the work of a person

who has brought to maturity the delights of his childhood and his dreams for the future.

Quickly becoming known as one of America's foremost balladeers, John grew up in an Air Force family and received his formal education in schools all over the country.

His first guitar lessons were taken on an old 1910 Gibson, given to him by his grandmother when he was a child.

Knowing that there wasn't time for both his music and a career as an architect, he left Texas to gig for a while at a number of small California clubs. Eventually he landed a spot at Ledbetter's in Angeles with Randy Sparks, the well-known folk impresario.

Then he outclassed 250 applicants for top man in Chad Mitchell's Trio when Chad split. After working for a little over four years with the group, Denver decided to take a crack on his own as a single performer.

Although John has been somewhat overlooked by the avid rock fans, he has become one of the hottest performers on the college concert circuit. He says his concert format is actually his first two albums sung and played in order.

"The first album, 'Rhymes and Reasons', is light, airy and makes up the get-acquainted portion of the show," he said. "And the second album, 'Take Me To Tomorrow', contains songs that have a heavier and more definite message to them. This is the postintermission section of the performance."

One reasons for his huge success with the college scene is perhaps the fact that he doesn't want to entertain people....I want to touch them."

And touch them he does as he tours throughout the states singing his songs of life and love and beautiful things. Listening to John sing, you get a quiet affirmation of his enormous skill in music that will linger in your mind and come back at unforeseen times, like all good music has a habit of doing.

As for his personal life, John is happily married to the former Ann Martell, whom he met during a concert with the Mitchell Trio at a Minnesota College. Even with a heavy road schedule, he finds time for all types of sports at his home in Aspen, Colorado. In addition to painting, he is a do-it-yourselfer around the house, enjoys riding motorcycles and as much involved in the world itself as his songs indicate.

More Queen Candidates

Beth Rowland
Lambda Chi Alpha

The brothers of Lambda Chi Alpha are proud to present Miss Beth Rowland as their St. Pat's Queen candidate. Beth is a freshman at UMC majoring in Fashion Merchandising. She is a member of Zeta Tau Alpha Sorority where she is an assistant corresponding secretary.

Beth is a 5' 7" blue eyed brunette who enjoys swimming, sewing, and playing the guitar. We feel that Beth would make an excellent selection for St. Pat's Queen.

Paula Scholz
Theta Xi

The brothers of Theta Xi are pleased to present Miss Paula Scholz as our St. Pat's Queen candidate. Upon graduation from McCluer High in 1970, Paula considered a Rolla education as her tests and grades favored engineering. She unfortunately decided to become a nursing student at Maryville College where she attains a high scholastic average and enjoys nursing immensely.

Paula enjoys Rolla party weekends, Ozark float trips, and is an avid partier. We feel that Paula Scholz would make an excellent St. Pat's Queen and wish her happiness and success.

Cheryl Selig
Kappa Alpha

Elizabeth Lawson has been chosen to represent Engineers Club as their St. Pat's Queen candidate. Liz is a petite, 19 year old, green eyed blonde who stands 5' 3" tall. She participated in many activities at Knox High of 'Edina' county, where she graduated in 1970. Since then she has attended school at NEMS and is presently employed as a secretary.

Her main interests include art, creative writing, tennis, swimming, and almost all outdoor activities. We feel that Liz would be an excellent choice for Queen of Love and Beauty to reign over the annual St. Pat's festivities.

Elizabeth Lawson
Engineers Club

The members of WRHA have selected Miss Jackie Yates as their St. Pat's Queen candidate. Jackie, a freshman from St. Louis, is presently majoring in Math Education at UMR.

She serves as Activities Chairman for Sigma Delta Sorority, into which she has recently been initiated. Jackie is also a member of the Crescents, who are the Little Sister of Lambda Chi Alpha. Presently she is competing for WRHA in intramural activities.

The girls are proud to have Jackie represent them and wish her the best of luck.

Jackie Yates
WRHA

The brothers of Kappa Alpha are to present Miss Cheryl Selig as their candidate for St. Pat's Queen. Cheryl is a junior at UMKC majoring in Music Education and Performance on the Cello.

This dazzling young lady has performed with the Springfield Symphony Orchestra and the Kansas City Civic Orchestra. Cheryl, a 5' 7" brown eyed brunette, is also vice-president of her sorority, Sigma Alpha Iota. The brothers of Kappa Alpha feel Cheryl is an excellent choice for Queen and wish her the best of luck.

Sue Taylor
Pi Kappa Phi

The brothers of Pi Kappa Phi are proud to present Miss Sue Taylor as their candidate for St. Pat's Queen. Sue is a brown haired, brown eyed senior at William Woods College majoring in Sociology. At school, she is a senior class representative, president of Phi Beta Psi, and athletic chairman for the dorm.

In her spare time, Sue raises, trains and shows horses. She also enjoys snow and water skiing, in addition to doing volunteer work for the Red Cross.

The brothers of Pi Kappa Phi wish Sue the best of luck in her bid for Queen of Love and Beauty.

The men of Triangle Fraternity are proud to present Miss Marsha Hart, our candidate for Queen of Love and Beauty. Marsha is a 5' 7" green eyed brunette from Salem, Missouri. She is a 21 year old senior majoring in Psychology at UMR.

Marsha attended Drury College for two years and was active on the swimming team and in the Drama Club. At UMR, she is committee member of the Student Union Board, and belongs to the Psychology Club. After graduation in December, Marsha plans to obtain a dual degree in Accounting. We of Triangle believe Marsha would be an excellent Queen to reign at the side of St. Pat.

Marsha Hart
Triangle

Nancy Patterson
Kappa Sigma

The brothers of Kappa Sigma are proud to present Miss Nancy Patterson as their selection for St. Pat's Queen 1972.

Miss Patterson is a 5' 6" brunette from Valley Park. She is a graduate of SMS with a B. S. in Education. While attending college, Nancy was a member of Alpha Chi Omega Sorority. She is now teaching first grade at Valley Park Elementary.

Miss Patterson is engaged to brother Pat Godwin and a June wedding is planned. The brothers of Kappa Sigma wish Nancy the best of luck as our candidate for Queen of Love and Beauty.

Kappa Alpha Wrestling Champs

Rebels Retain Title For Fifth Consecutive Year

For the fifth consecutive year Kappa Alpha won the Intramural Wrestling Championships last Thursday in the Multi-Purpose Building. Kappa Alpha defeated their closest rival, Kappa Sigma, by eight points.

Kappa Alpha's winning streak dates back to 1967 and is one of the longest dominations of an intramural sport here at UMR. KA had four individual winners, more than any other organization.

The top wrestler of the event was Larry Davis, a freshman, from KA. He defeated Ron Atkins from Sigma Phi Epsilon in the finals of the 137 pound division. Richard Meremonte from Shamrock won the 123 pound division by defeating Dan Amsinger of Lambda Chi Alpha. In the 130 pound class Phil Parman of KA downed

Frank Moore from Sig Ep.

Roland Berz, a Phi Kap, was the top wrestler in the 145 pound class as he stopped Steve Schaeffer of Sig Tau Gamma. Jeff Brummet, another Kappa Alpha, downed Harry Chappel of Sig Ep in the 152 pound event. Mark Kossing, Kappa Sig's only winner, defeated Bob Maxwell of Tech Club for the 160 pound crown. In the 167 pound class Bill Behrans from Phi Kap downed Jack Rose of Kappa Sig. Phi Kap was the only other organization with more than one winner.

Gene Hinziker from Delta Sigma Phi won the 177 pound championship by defeating Gary Pariani, a Kappa Sig. In the 191 pound weight class, Ken Burris, from MRHA, stopped Gary Ferguson, another Kappa Sig. Finally, in the heavyweight division Tom Robinson gave KA their fourth win by downing Frank Walsh from Delta Sig.

Tom Robinson, top, is one of four wrestlers from Kappa Alpha who their individual weight class. KA won the wrestling competition for the fifth consecutive year. Robinson won the heavyweight division.

The 1972 wrestling champs are from left to right, Front row: Richard Meremonte, Phil Parman, Larry Davis, Roland Berz, Jeff Brummet .

Second Row: Mark Kassing, Tom Robinson, Bill Behrans, Gene Hinziker, Ken Burris. Kappa Alpha won the event with 52 team points.

Carson, Davis Anchor Golf Squad; Mercier Faces Rebuilding Year

The key word for golf coach Bud Mercier this year is rebuilding. Only two of the top six golfers from last year's squad will be back this year, Alan Carson and Mike Davis. With this situation facing him, Coach Mercier will be looking for some talented freshmen and sophomores to give his team the needed depth. Although three top golfers were lost before the season because of either academic or financial problems, there are still eight prospects who are anxious to fill the remaining four positions on the team.

Mike White, Buddy Barnes, Jim Greer and Dan Wenk seem to have the best chance and will be the ones who will join Carson and Davis in the annual best ball tournament to be held on the UMR golf course on March 24 and 25. Before this, the team will go to Bonne Terre for a few days to concentrate solely on golf. This is when the other prospects can try to convince Coach Mercier of their skill. This includes Roy Woods,

Charles Park, Alan Parkinson and Barry Schaffter.

So if Coach Mercier is going to improve his 55-12 four year dual meet record, the two returning players will have to show a steady influence and the newcomers will have to work hard and gain confidence in their games.

As mentioned above, the first meet of the season will be the best ball tournament on March 24-25. Washington University, Westminster and Central Missouri State, all of whom participated last year will be back again. Although the Miners won it last year, Coach Mercier feels it will be very difficult to repeat this year.

Miner Golf Schedule

March 24: UMR Best Ball Tourney
April 4: Lincoln at Rolla
April 6: St. Louis University at Rolla
April 14-15: Missouri Southern Tourney at Joplin
April 18: UMR, Drury, SMS and CMS at Warrensburg
April 19: SEMS at Terre Du Lac
April 22: CMS Tourney at Warrensburg
April 24: St. Louis University at St. Louis
April 25: Westminster at Fulton
April 27: Lincoln at Jefferson City
May 1: Evangel at Springfield
May 3: Washington University at St. Louis
May 8: UMR, SEMS, U. of Tennessee-Martin, Indiana St. at Cape
May 10, 11, 12: MIAA Conference meet at Springfield

Five Miners To Compete In NCAA Swimming Meet

March 16, 17 and 18 are the days on which the NCAA will conduct its college division swimming meet in Lexington, Va. And among those present at the meet will be five members of the present Miner team.

Coach Bob Pease will take his largest group ever and hopes that these five will make a good showing. Those going include: Tim Blood, Jack Belshe, Jim Entwistle, Bill Kroeger and Ron Dutton. The first four will comprise both the free and medley relay teams. In addition to this, several individuals will also compete in other events. Tim Blood, conference champion in both the 50 and 100 yard freestyle events, will be entered in both of these plus the 100 yard breast stroke. Jack Belshe will compete in the 400 yard individual medley, while Bill Kroeger will enter the 100

yard backstroke, the event he won in the recent conference championships.

Ron Dutton is going to dive both the one-meter and three-meter categories. Ron, who holds three of the four diving records here, will probably see two or three of the divers that were at the conference meet two weeks ago. Some of the other swimmers will probably see "friends" from the MIAA also. And when one realizes how hard it was to score in the conference meet, it seems almost impossible to score in nationals.

So if they score, it will really be a great accomplishment and may earn them All America honors. If they don't, it will still be good experience and will enhance UMR's swimming reputation.

Jack Belshe, shown competing in the individual medley is one of the five Miners to go to the NCAA swimming championship at Lexington, Va. Other Miners making the trip are Tim Blood, Jim Entwistle, Bill Kroeger, and Ron Dutton.

Trackmen Run In MIAA Indoor

Sprinter Eric Potts will head up the contingent from the Miner track team traveling to Columbia, Missouri to compete in the MIAA Indoor track meet this season. The meet which will be held in Brewer Fieldhouse, should be a battle between Southeast Missouri State and the Tigers of Lincoln University. The Miner cindersmen will be trying to improve upon last year fifth place finish.

MRHA Wins Mural Bowling Pikers Finish Second

MRHA continued its domination of intramural bowling as they took first place honors in the two day bowling tournament held Saturday and Sunday at Colonial Lanes. MRHA, which finished in the second place spot last year, totaled 2722 pins to soundly defeat Pi Kappa Alpha. The Pikers took second with 2622 total pins.

High series for the tournament went to Vern Boeline of Beta Sigma Psi, with 638. Jim Geers of MRHA was second with 617 pins. Geers was last years high triple series winner when he totaled 591.

Rounding out the top five in the men's competition were Lambda Chi Alpha in third, Theta Xi finished fourth, and Beta Sigma Psi who finished fifth.

MRHA received 150 intramural points for their first place finish. Runner-up Pi Kappa Alpha got 140 points.

In women's intramural bowling, Lambda Sigma won the event with 1970 total pins. They held a 183 pin advantage over the TJ Dolls who came in second with 1797. In third place was WRHA with 1654, followed by Wesley with 1598 pins.

The high triple game score was rolled by Nancy Prather of

Wesley who bowled a 433. Runner-up was Marge Kelly of Thomas Jefferson, with 427. Complete intramural point totals, appear below. They include wrestling and bowling.

Rugby Club Downs KC Blues; Wilkes, Shenke Score For UMR

Last Saturday, in the first home game of the season, the UMR Blacks (first string) defeated the Kansas City Blues, 19-0. After a scoreless first half the Blacks put together three tries and a penalty kick to shut out the visiting Blues. In the other contest, the Golds lost to the Kansas City team, 16-6.

In the first half, the UMR Ruggers failed to move the ball against the stiff wind, but held

the Kansas City team scoreless. At the start of the second half, with the strong wind at his back, Charlie Weber made a 45 yard penalty kick to give the Black their first points of the afternoon. Jeff Wilkes, a scrumhalf, scored next on a scrumdown as he raced around the end and in for points. The kick was no good. The next points came on a try by Carl Shenke as he scored on a scrumdown from fifty yards

out. Charlie Weber made the kick, and the score was 13-0.

The final UMR points came as Bob Dunn picked up a loose ball and went in for a try. The kick was good and the score became 19-0.

Next weekend, on Saturday of St. Pat's, the UMR Ruggers will take on the Kansas University team here in Rolla. Game time is 2:00 p.m.

Charlie Weber (No. 45) tries to run down the ball in the Blacks game against the Kansas City Blues. The UMR Blacks won the game, 19-0.
