Learning Center Features New Insights To Students

This article is to be part one of a three part series designated to let students in on some of the options and opportunities (in the counseling center) that are available to them if they wish to make use of them.

The Learning Center is located in the old Rolla Building and was established to help students gain the necessary skills needed to become better students and better qualified professionals in their given career. This type of training will not only help you become better academically or professionally, it also will enable you to be more effective in your every day living.

The Learning Center is basically divided into three categories, each of

which is related to the others but each having it's own goal.

The three categories are named: "A Guide to Academic Success", the "Basic Skills System", and "Developmental Reading".

Guide to Academic Success may sound a little corny, but through the use of cassette tapes and printed material you can pick up tips and insight into your ways of getting things done and how to change a method you don't like (or one that isn't getting you anywhere) — into one you do like or that is successful. This training is not designed to make studying any less painful or bothersome, but it is designed to make the whole process a lot more efficient. Another example is the section dealing

with the organizing of one's abilities to think clearly and more efficiently.

The second division of the Learning Center is referred to as the Basic Skills System. This kind of training is expressly for those of us who have difficulties communicating what we want to say. This system doesn't deal just with building vocabulary skills, but even deals with reading skills and math for those of you who are going nuts over your math course. This whole system deals with the basics, the most important aspect of learning skills.

The third and final division is Developmental Reading. This whole division's basis is that of helping you to improve your own skills in reading and keeping a high rate of comprehension.

You decide how much time and how hard you're going to work to get your reading speed at the rate you want.

All three divisions of the Learning Center use programed learning techniques; such as controlled reading for Developmental Reading, cassette tapes for Guide to Academic Success, and programmed reading materials.

The one thing to remember about the Learning Center is that it is there for you and that it is all individually oriented work. What you can get out of it is dependent upon what you want to put into it.

If you're not happy with what you've got go over and see what they've got at the Learning Center.

New Mall Takes Form

Miners should be able to tell by now how much the Mall Beautification Project has progressed. In the last several weeks, things have been starting to take shape and hopefully in another month or so we will be able to walk across our illustrious quadrangle without any obstructions.

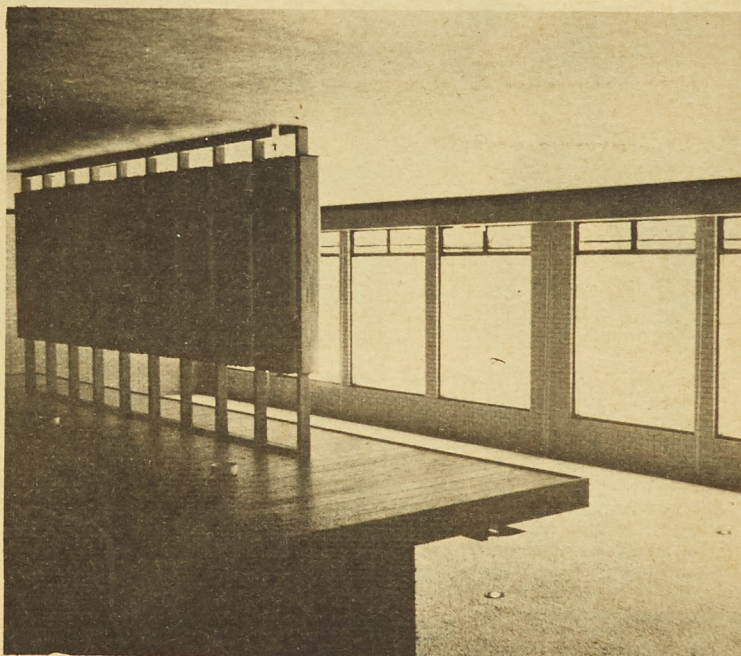

The weather has been a factor in the completion of the Project, delaying it somewhat due to a very rainy month of September. However, to cope with this problem, the contractors have assigned additional people to the construction site in order to take advantage of all the fair weather available.

Up until the present, the underground work has consumed the most amount of time with the massive installation of new electrical lines, water and drainage systems. The new drainage complex, which was extremely necessary between Parker and Norwood Halls respectively, has taken a lot of valuable time due to the amount of excavating that needed be done in that area to install the pipes. A considerable portion of the concrete for the sidewalks has been laid to this point and the major amount of work left seems to be in completion of drainage system, laying of concrete and sodding.

Another question in the minds of many a Miner besides the one of the Mall completion, is "When will our new University Center be opened." This seems like a simple inquisition yet our administrators do not have a specific answer for it at this moment. Originally the plan was to have the formal dedication of the Center on the Friday of Homecoming Weekend (Oct. 20). Now it is almost definite that this event will not take place as scheduled due to snags in general construction.

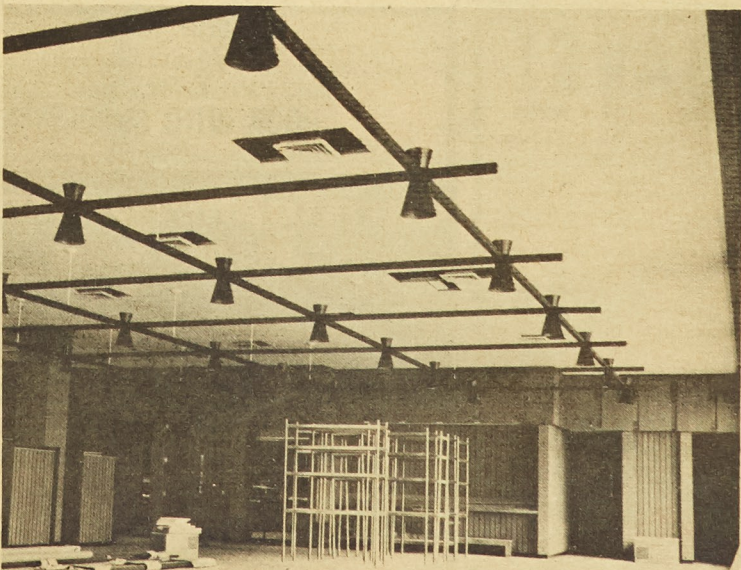

The Center is being constructed by three separate construction firms, an Electrical Engineering firm, a Mechanical Engineering firm, and a General Contracting firm with work still required to be done in all three areas. The ironworkers strike has of course been one of the main drawbacks to the Center's completion and it can not be technically accepted until all the labor is completed.

Despite these delays, the work is progressing somewhat and they are hoping now to beat the contract completion date of Dec. 13 by shooting for a tentative opening on the first of December.

CYD Sponsors Films

Vietnam, Cambodia, Laos, and Thailand have had their history influenced for over ten years by American intervention, that is war materials and soldiers. Thursday, October 12 at 7:30 p.m. in the Student Union Ballroom, the College Young Democrats will show two movies about the Southeast Asian conflict.

"Backseat Generals", will depict and describe the rather secret war being waged in Laos, while "Village By Village" deals primarily with the pacification of South Vietnamese and hamlet control. Following these movies will be a panel discussion and debate session. Arlene Davis of the American Friends Service

Committee, Dr. Steve Gram from Washington University, who is a member of the Committee of Concerned Asian Scholars, Ernest Spokes, UMR Mining professor and member of UMR's U.S. AID team to Vietnam, and a Vietnam vet now attending UMR will comment on the films, their conception of the Southeast Asia situation and American policy today in Vietnam.

These films are free and the College Young Democrats hope that no matter what your political beliefs on Vietnam stance that you will attend. There is a clear need for a better conception of Southeast Asia by all Americans and this Thursday night will provide an excellent opportunity to expand your knowledge on the subject.

In the Movies

by Jerry Davis

TRINITY IS STILL MY NAME

Dead-shot western hero Trinity and his brother pair to form an irrepressible set of roaring adventures. Their father is a retired horse thief and their mother is an ex-lady of pleasure. There is plenty of action, adventure, and belly laughs starting at the Uptown Theatre Monday.

THE LAST PICTURE SHOW

Peter Bogdanovich's fine film tells a series of interlocking stories of love and loss ... that illuminate a good deal more of one segment of the American experience. It is a fresh outlook on the old-time small mid-western town and how it lives.

Kappa Delta Installation Oct. 28

EPSILON ALPHA COLONY of Kappa Delta was honored by a visit from Mrs. Leona Good, National Collegiate Vice-President. Mrs. Good came from Dallas, Texas, to finalize plans for installation weekend, October 28. Epsilon Alpha began as Little Sisters of Sigma Pi. With much help from Sigma Pi, Lambda Sigma local sorority was formed in the spring of 1969. Lambda Sigma was the first sorority on the UMR campus. After much work Lambda Sigma was colonized by Kappa Delta national sorority on April 28, 1972. Plans have been made to install Epsilon Alpha as

a chapter on October 28, 1972. Epsilon Alpha will be UMR's first national sorority. "The Chicken" Crosses the Road In Urban Vehicle Competition

A car, to be driven only in an urban environment and designed and built by more than 100 University of Missouri-Rolla students, won a special award recently in the Urban Vehicle Design Competition.

There were a number of awards made at the national contest held at the General Motors Proving Grounds near Detroit—awards for engines, emission control, safety, styling, noise, parkability, energy efficiency, cost, student innovation, barrier impact, drivability and performance. But there was only one Grand Award which took all of the above factors into account. The

University of British Columbia took top honors.

However, after the tests had been run, the judges decided there were two other cars that scored well in many of the fields and should be given special recognition. The University of Missouri-Rolla entry won one of these and the other was won by Clarkson College, Potsdam, N.Y.

In addition to winning the special award, the UMR car, along with six others out of a field of 63, was exhibited for two days at the Chicago Museum of Science and Industry. There is also a suitable plaque to be displayed in the department of

mechanical and aerospace engineering.

Features on the UMR car cited by the judges as being worthy of special recognition included: Original design & construction of body, original crash protection frame, original design suspension, swing up doors and 5-mph crash test bumper.

According to Drs. Richard T. Johnson and Richard K. Riley, faculty advisers to the design and construction team, UMR students are continuing work on the car this fall. They plan further refinements of both the engine and some of the safety factors of the car.

A little "spit and polish" is applied by M. Burris, K. Jones, and L. Harmon to the UMR Urban Vehicle, winner of a special award in the Urban Vehicle Design Competition.

(UMR Photo)

Greenhouse Features Campus Talent Weekly

The Greenhouse coffeehouse has become a well-known event to many students here on weekends but few are acquainted with the organization behind the coffeehouse.

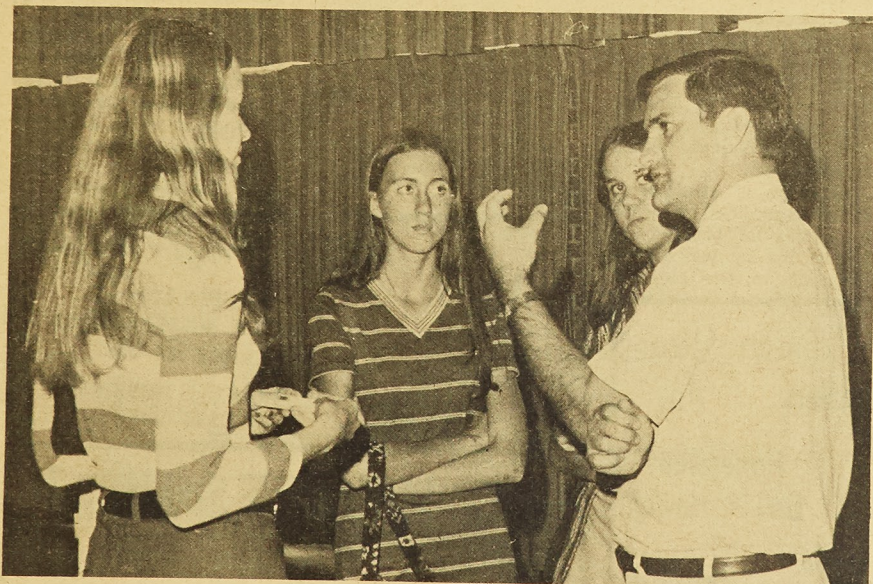

Greenhouse is the name of the organization. Approved and recognized on campus only last Thursday, Greenhouse is new to the list of UMR service organizations.

Greenhouse's sole activity at present is the support and organization of the coffeehouse. At its present membership strength, Greenhouse can hold the coffeehouse open one night a week. The success of the coffeehouse on Fridays indicated

that Saturday evenings could be equally successful.

In order to open the coffeehouse on Saturdays, Greenhouse is making an appeal for help to anyone who could aid with running the coffeehouse. This includes setting up and cleaning up the tables, chairs, and refreshments, as well as sharing your artistic talents by painting posters or making music in the coffeehouse. Always welcome are helpful suggestions and imaginative ideas in planning new events.

Anyone who could assist in anyway is invited to come to the coffeehouse Friday evenings from 9 to 1 at 1706 Pine St. or call 364-1927 anytime.

This past Wednesday afternoon, Oct. 4, Mr. Jess Zink, Director of Auxiliary Enterprises held a rap session in the SU ballroom. Briefly, Auxiliary Enterprises helps support and aid the University with money or revenue.

There are services provided for students and therefore the school needs students. These services being mens and women housing, married housing, Rayl cafeteria, and the University Center or Student Union. These facilities have been geared for a growing university and as everyone knows this campus right now is having a rather serious enrollment problem. However, the debts of the school in the form of bonds don't diminish, and this is the problem staring Mr. Zink in the face...where to get the money for payment. This problem is not a new one on campus and the solution is a student fee increase, cut in services provided, or any combination you can come up with.

Mr. Zink emphasized that this isn't a new and unique idea, but United States have programs

similar to Auxiliary Enterprises. He also apologized for all the temporary changes, and appears anxious to have things settled in the new University Center. Some of you might have noticed that room reservations are being taken in the Student Union cloakroom, have no fear St. Pats Board, SUB ticket sellers, or anyone who is used to using these facilities, Mr. Zink promises to work problems out on an individual basis.

In conclusion Mr. Zink said the University Center is for the students, therefore an open door policy will be the rule and not the exception. Any complaints as well as ideas will be thoughtfully considered. Also any students who would like to work part time in the University Center, keep your eyes open for job openings as the University Center reaches completion.

Jess Zink, director of UMR's new Auxiliary Enterprises, explains a point to members of WRHA. Mr. Zink directs operation of the dorms, Rayl Cafeteria, married housing, and the Student Union and Center.

Republicans 59 Democrats 31

"Well, that's the end of the first half. A look at the old scoreboard shows the Democrats trailing 59-31 with 10 per cent undecided. What do you think, Howard?"

"I'm glad you asked that question, Don. Let me say in as few will-chosen words as possible that never have I witnessed such a dull, boring, soporific first half—nor a team as doleful, dispirited and disorganized as those Democrats. If millions of my fans out there have already fallen asleep in front of their tee-vee sets, I wouldn't blame them. No much, anyway."

"Well, personally, Howard, I'm surprised that..."

"I am too, Don. No I think you'll agree with me that before the kickoff a lot of the fancy, know-it-all experts were saying these flashy young Democratic rookies, could pull off an upset against this big, veteran Republican team. It shows how you shouldn't listen the the experts. Myself excluded, of course."

"Well, Howard, they did have a bad break on that first play when..."

"For the benefit of some of my millions of fans who may have tuned in late, let me just say that you're referring to McGovern fumbling the hand-off to Eagleton. Now, Don, I don't call that a bad break, I call that gross ineptitude. It shows a lack of drilling in the fundamentals."

"To be fair, Howard..."

"If you say you're going to go all out 1000 per cent, you've got to go all out 1000 per cent. That's a fundamental, Don. And you can't win without knowing the fundamentals. That's all I have to say on that."

"Good. Now about..."

"Moreover, as you'll recall, Don, they then took a long time-out to decide who to substitute for Eagleton. Indecisiveness like that ruins a team's morale."

"On the other hand, Howard, the Republicans..."

"The Republicans, Don, are playing a tough, hard-nosed, bone-crushing game of the old Vince Lombardi school. Agnew over right guard, Laird up the middle, Connally over left tackle—grinding it out a few yards at a time. It's dull, stolid ball control, but it's racking up the points."

"Of course, Howard, the Republicans did fumble on..."

"You mean on the Watergate end around and the Russian grain screen pass. But the Democrats just couldn't capitalize on the breaks, Don. Every time McGovern lobbed up a soft pass, the GOP picked it off. And he was dumped seven times in the first quarter, once by Meany and six times by Southern Governors. Contrarily, the Democrats never once got to Nixon. I never saw his equal at reversing his field under pressure."

"What about Ted Kennedy, Howard? I thought..."

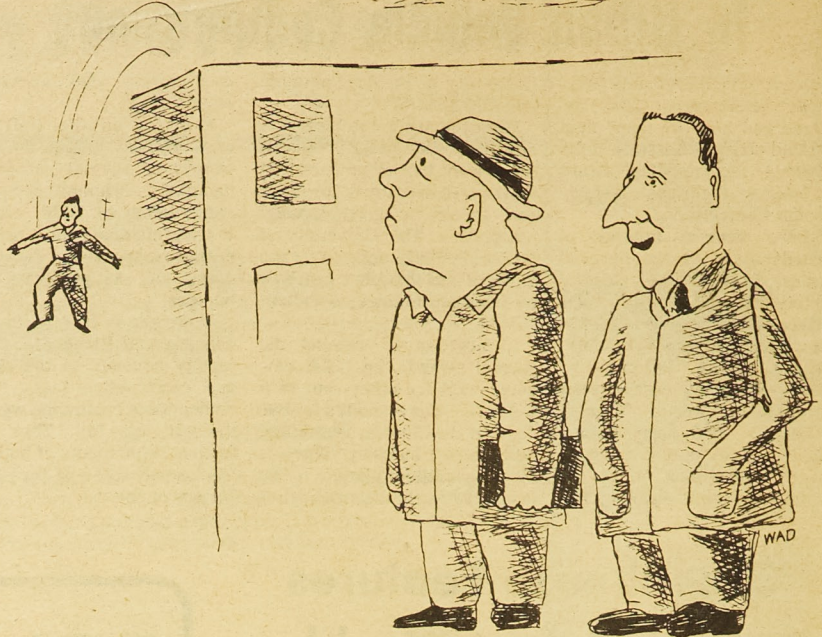

"He was brilliant. A great crowd-pleasing right-hander. But I doubt if we'll see much of him in the second half, Don. He doesn't want to get injured in a losing contest. He's building for the future."

"Well, it isn't over until the final gun, Howard."

"I'm glad you said that, Don. Rather than I. Just let me say that in this second half, Nixon will be sticking to the ground to protect his lead, while the Democrats will be playing error-prone, catch-up ball with the coaches squabbling on the sidelines over which play to send in. And frankly, Don, I'm worried. I'm worried what this debacle will do to my ratings."

"Maybe. But in my opinion, Howard..."

"I'm sure my millions of fans would be delighted to hear you agree with me, Don. But I see it's time for live action, such as it is, to begin down on the field. Frank?"

At least someone is getting use out of the new student union.

Family Planning Available

Every couple has plans and dreams for the future. Some want to travel, others want to complete their education and still others desire material possessions. Many couples find it best to postpone starting a family until these aspirations have been achieved.

Planned Parenthood of the Central Ozarks, Inc., is set up to provide family planning services for both students and townspeople. These services include medical examinations and the provision of birth control supplies and information. The clinic is staffed by professional medical doctors and nurses, and is located at 1032B Hwy 66 West, near Colonial Lanes. The facilities are comparable to any doctor's office, and all patients' records are confidential.

The clinic is available to anyone, regardless of income level. Fees for birth control supplies and services are set according to the patient's

ability to pay, based on the patient's income and the number of people supported by that income.

A doctor's examination is required before a birth control method can be prescribed. For those who need to see a doctor, the clinic is open every Wednesday evening from 7 p.m. to 9 p.m. An appointment is desirable to avoid a long wait. There are several other birth control methods available for those unable to use the pill.

Those patients who have already seen one of the doctors, and merely wish to obtain information or to purchase birth control supplies are free to come to the clinic any time from 9 a.m. to 5 p.m. on Monday through Friday.

Although the clinic primarily serves women, there are several services available for

men. These include VD testing, premarital birthcontrol counselling for couples and vasectomy referrals and information.

Anyone wishing further information or wishing to make an appointment should call the clinic at 364-1509. It is not necessary to give your name when calling unless you wish to make an appointment.

NOTICE

The First St. Pat's Board Benefit Movie will be held on the 18th of October. The movie will be the Wild Bunch. Tickets may be purchased from a St. Pat's Board Member for 50c in advance, or at the door for 75c. Show times are scheduled for 6:30 and 9:15 at the Uptown Theater.

UMR Simplified

How To Add A Class

Note: All information given here is believed to be accurate. It is gathered from informed sources and people who should know what they're talking about. Unfortunately UMR's official Manual of Information has been assembled in a piece meal fashion and is subject to differing interpretations—hence the rules may not always say what they seem to say.

When you want to add a class you should talk to your adviser first, unless he doesn't really care what you do with your schedule. If he does care ask his advice and get his approval before you approach the instructor of the course you want to add. If he doesn't much care what you do, you can probably skip that step.

Next talk to the instructor of the class you want to add. It will be helpful if you have been attending class informally several class periods before you actually approach him and have a fairly good grasp of the material covered to date. Impress him with your eagerness to take his class and have a convincing story ready as to why you didn't register in his class like everyone else. Be prepared to take the tests at the same time as everyone else in the class.

Assuming the instructor gives his approval get a written note from him with the date and his signature. There is a regular form for this at the Registrar's Office but they will not give it to you after the first week or two of school without the approval of the department head of the department that offers the course you want to add.

Next get your adviser's signature. You should have no problem here as you already have his approval or he will sign anything you give him. As was said before, if it is past the first week or so of school you will also need the approval of the head of the department in which you want to add the course. Generally speaking you will encounter little problem here if you already have the instructor's permission. Be prepared for a tough interrogation though it depends on the individual department and the man involved.

Next take your handful of signed notes to the Registrar's Office in Parker Hall. This will entitle you to an official drop

add form. This is probably the easiest course if it is late in the semester. If you started early it's probably easiest to start out with a drop add form in the beginning.

Take your official form—either filled out or with all the notes stapled to it down to the Cashier's office in the basement of Parker Hall. The change is official when you have paid five dollars. You may add or drop as many classes as you can get

permission to for five dollars if all the changes are made at the same time.

If you are changing your schedule because the computer messed it up, you can often have your schedule changed free of charge if you explain the circumstances to the Registrar's Office. It's generally worth a try.

Next week—How to drop classes and how you can be dropped from them.

The Missouri Miner

The MISSOURI MINER is the official publication of the students of the University of Rolla. It is published at Rolla, Missouri every week during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879. The subscriptions are \$1.50 per semester. This MISSOURI MINER features activities of the students and faculty of UMR.

## Panthers Whip Miners, 20-7

### Joshua gets lone score, Wishbone ineffective

The Miners lost their fourth game in a row Saturday, to a strong Wisconsin-Milwaukee team by the score of 20-7. The Wisconsin defense throttled the Miner offense throughout most of the afternoon.

Once again the Miners had trouble moving the ball with an inconsistent offense. The Miners new wishbone offense was not much more effective than their standard set. Their inability to get outside again shut off the ground game. Freshman quarterback Steve Smith was 1 of 6 in the passing department. Smith started his first college game as a replacement for injured Rick LaFollette, the Miner's number one signal caller. The only offense the Miners produced came from the running back tandem of Jim Chatman and Mike Joshua. Fullback Chatman gained 48 yards in 15 carries while Joshua picked up 95 yards in 14 carries for a 6.7 yard per carry average. In addition, halfback Joshua picked up the Miners lone touchdown on a 27 yard quick opener over the left side.

The Miner are improving, especially on offense where the wishbone could make a big difference as the Miners

become more experienced in game situations. The tough non-conference schedule which the Miners have finished should be good preparation for their upcoming MIAA opener against the Bearcats of Maryville.

The Miner defensive line did a good job of shutting off Wisconsin's ground attack, until the fourth quarter. Once again it was the Miner pass defense that was picked apart by UWM quarterback Bill Carollo. Carollo was only 2 of 9 for 39 yards, but several passes were dropped in the open field. Carollo several times turned potential losses into sizeable gains by scrambling out of the pocket for big yardage.

One disappointing note for Miner fans was the loss of wide receiver Eric Potts, with a broken bone in his foot. Eric, whose speed makes him a dangerous threat on kickoffs and punt returns was hit hard while running back a kickoff Saturday and broke a bone in his foot. Eric will probably be lost for the remainder of the season. This will deal another blow to the Miner offense, which has had difficulty getting untracked so far this season.

Reserve quarterback Steve Smith goes back to pass against a strong

rush by the Panthers. Smith completed one of six passes.  
(Photo by Paul Dallunge)

## Ruggers Blank Arkansas, 12-0; Phillips, Breedlove Get Scores

The UMR Rugby team travelled to Fayetteville, Arkansas recently. The UMR Blacks defeated the University of Arkansas first team by a score of 12-0, while the Golds tied their second side opponents.

The Blacks played an inspired game. This was shown by the fact that they simply out-muscled the men from Arkansas. Several first season men started on the UMR teams this weekend and performed well in their season debut.

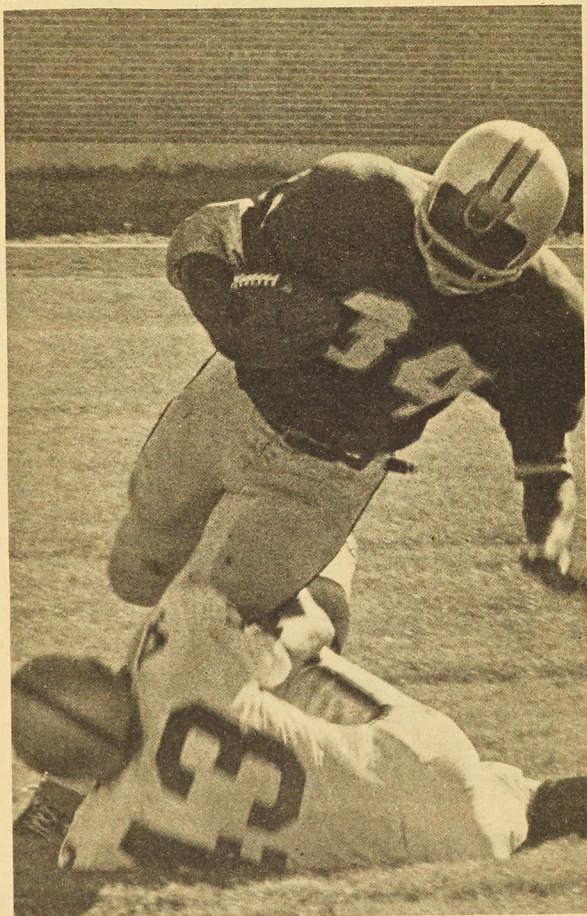

In the first team game the action started off fast as Rolla showed it could move the ball. Most of the first 10 minutes of the game was played on the Arkansas end of the field. On a crash for the endzone by a Rolla rugger, a pile up occurred as he was stopped short, but a penalty kick was awarded to Rolla as an Arkansas player had his hands in the scrum. Rolla elected to try and run it over instead of kicking for three points. The run was stopped by a pile up on the one, and a scrum was called since the ball was unable to be heeled from the ruck. UMR Black scrum now showed its power as they shoved the ball over the line and Jack Phillips fell on it for a Rolla score of 4 points. Wes Watkins kicked the conversion for another 2 points, putting the Miners ahead 6-0, which was the score at the half.

In the second half Arkansas came out fired up, seeking to tie the score. They drove to the Rolla 5 yard line, but the Miners dug in and held. This was Arkansas' only real penetration of the day.

Rolla then began to move the ball. UMR took the ball to the ten of Arkansas and started to set up for a score. After a series of scrums and line outs, the score came on a scrum.

With the ball being played from the 10 yard line, the Rolla scrum won the ball for their backs. A movement was started

## tie one on

In Jeanials. the jeans shoe

by Thom McAn

There's more than one way to enjoy life. Take Thom McAn's new Jeanials. For instance - shoes just for the fun of it. Jeanials are light on your feet and all done up in the latest lace-up styles, shapes and colors. And like the jeans you wear them with, they're rugged and funky and incredibly comfortable.

And just one more thing - when you tie one on with Thom McAn, you won't regret it in the morning. The only thing about Jeanials that might make you a little lightheaded is the price.

# Ruggers Win

Continued From Page Six

with Bill Zaner getting an open break in the Arkansas line but being stopped on the 1 yard line, Bill passed off to Al Breedlove for the score of 4 points. Wes Watkins again kicked the conversion of 2 points. This made the score 12-0.

In the second game, the Rolla side was always on the move, but inexperience seemed to hurt. The first half was scoreless, but the Golds did not let this bother them. With about 10 minutes left in the game, a Rolla rugger carried the ball into the endzone and was so clear that he forgot to touch the ball to the ground for a score. In this excitement, he threw the

ball to the ground. An Arkansas player recovered the ball and they ran the ball back for a score.

The Fayetteville team led 6-0. The Rolla Golds went to work and moved in for a score. Off of a loss ruck at the 40 yard line Rolla won the ball and started to move the ball. Dominic Grana got the ball at the thirty and rambled over three Arkansas tacklers to take the ball in for the score of 4 points. Wes Watkins again kicked the 2 point conversion.

This weekend action evened the record of the Rolla Blacks at 1-1-0. The second side Golds' record fell to 0-1-1.

A UMR Rugger goes all out to try to control the ball in recent rugby action. The Black's record is now 1-1-0, while the Gold's season record stands at 0-1-1.

Defensive halfback Jim White leaps high into the air to knock

away a potential touchdown pass late in the third quarter.

## Beta Sig Upsets PI KA, 27-14 Kappa Sig Wins League Title

In last week's football action, Beta Sig took the I.M. game of the week, defeating Pi Kappa Alpha, last year's I.M. football champs, 27-14. Quarterback Steve Brown threw 4 touchdown passes, connecting with Curt Wegener for two of them. Wegener also sparked the defense along with Carl Haring, as he intercepted two Piker aeriels. In the other big game last week, Kappa Sig emerged as the leader in their league by beating TEKE, 21-7. Sig Pi

defeated Campus, 41-7. Theta Xi won over Triangle, 27-0, while Tech downed TJ, 12-0.

The results of the women's badminton tournament have been determined. The TJ Dolls came in first, with WRHA taking second. TJ captured the top spot in both singles and doubles, with Cherry winning singles, and the team of French and Beckman taking the runner up in the singles, while Yates, and Ranek of Wesley

took the doubles runner-up.

With more and more intramural results coming in the starting to take shape. And with cross country and basketball coming up, the race for the top spot should really tighten up.

The cross country meet will be held on the afternoon of October 25, at the UMR golf course. Basketball competition is tentatively set to begin October 17. Swimming was held last Monday and Tuesday.

## Gastreich Tries For Olympic Rifle Honors

Last semester records were falling faster for the rifle team than their opponent's spirits. The leader of the onslaught was the Miner team captain, Kent Gastreich, who later received first team All-American honors and a tryout for the Olympics. During the National Championships held in late March, Kent nearly bested the long standing records in both conventional and international small bore rifle matches. With a score of 298 out of a possible 300 for the conventional targets and a 294, first in the national matches, out of 300 for the second best ever in competition in the collegian ranks. Kent's combined scores were high in the nation for the year and he took the National Championship. Along with the championship came along an invitation to the Olympic tryouts in July, and for Kent the purchase of all new equipment.

In the Olympics only certain types of shooting jackets and boots are allowed, which are different than the equipment used in intercollegiate com-

petition. With the unusually large flow of orders for new equipment, Kent didn't receive his until a week before the tryouts. This was a definite disadvantage to Kent since it takes time for a rifleman to get used to new equipment.

During the tryouts Kent placed second in the college division for the 50 meter, 3 position small bore rifle and second in the free rifle 300 meter. However, no collegian made the U.S. team, which had all positions filled by previous Olympic Champions or by members of the All Army Rifle Team.

Last Saturday the UMR rifle team, led by captain Kent Gastreich, slipped by the Southwest Missouri State team, 2, 215-2,140. Kent Gastreich took the honors for individual shooting by racking up a total of 569 points. Kohner and Marks also turned in outstanding performances for the Miners. Individually the Miners finished 1-2-4, and 5 to win in the eight man field.

## Miners, Bearcats Square Off For MIAA Conference Opener

Maryville is the next stop on the Miner football schedule, and will be the MIAA opener for both squads. UMR holds a 23-15-1 overall edge over Northwest Missouri State University and hopes to add to this mark Saturday. Last year the Miners thrilled a homecoming crowd as they overcame a 19-7 Bearcat lead at halftime and won the game 21-19. But this year the Bearcats seem to think it's their turn as they view the Miners in the midst of a massive rebuilding job on offense. They think any Miner success will depend solely upon the consistency of the defense.

Last year was a good one for the Bearcats offensively as they led the MIAA in offense with 3060 yards. Coach Gladden Dye operates out of what he calls a multiple pro offense, with the "I" formation as its basis and some triple option and balanced backfield formations tossed in.

The fullback is basically a blocker for the tailback, who in Northwest's case is the MIAA's top rusher, Jim Albin.

Mike Kennedy and Curtis Priest split the quarterbacking chores and mainly attempt tosses of 10-15 yards rather than the long bomb. The tight end is always on the strong side of the formation and is the main pass-catching threat. The split end is on the weak side and is used as a blocker and as a message carrier. The only weak spot in the offense seems to be in the line as three all MIAA selections a year ago are gone.

Defensively, the Bearcats gave up an average of only 3.3 yards per carry to the run, but an average of 15.3 yards per pass. So it seems the passing attack of the Miners, if they can put one together in a week, could be very valuable.

Northwest operates basically

out of a 5-2 monster setup. Up front the team will have two ends, two tackles and a nose guard with two linebackers and the "Cat Back" playing the field, usually roaming to the strong side of the offensive formation. The secondary consists of two halfbacks and a safety.

Joe Wingate, an all-MIAA second team selection last year, is the Bearcat's return man and is a genuine threat to score any time he touches the ball.

Overall, the Bearcats look like a pretty tough opponent and the Miners will have to play up to their capabilities if they are going to defeat them. But the weaknesses are there for the Miners to exploit. It sure would be great to get the first 1972 victory in this Saturday's 7:30 game, which also happens to be the opening of the conference schedule.
