College Placement Council Measures 42% Job Increase

There's good news for those entering the engineering field. The slump that hit the job market in the 1960s is disappearing because of an improved economy and a drop in the number of graduating engineers.

But the combined forces are contributing to a shortage of engineers that may become serious in several years.

A survey by the College Placement Council shows that recruiting of graduating engineers is increasing 27 per cent this year over 1972, which in turn showed an improvement over the previous year. Dr. Frank Endicott, professor emeritus of education at Northwestern University, predicted a 42 per cent increase in job openings for engineering graduates.

"A survey of the graduating class of 1972 indicated rather clearly that the bottom had been reached and we're on the upswing," said John Alden, director of manpower activities for the Engineer's Joint Council in New York, a federation of 36 engineering societies.

But for how long if the number of graduating engineers continues to drop?

When the job market tightened at the end of the 1960s, high school students were discouraged from embarking on engineering programs. Since then, enrollment in engineering programs has dropped to the point that many graduates will have their choice of five or six jobs.

The situation is not expected to change soon.

Elmer Easton, dean of the College of Engineering at Rutgers University, said 43,000 engineers were graduated throughout the nation last year, but this figure would drop to 32,000 in four years, based on current enrollment in engineering schools.

"But the Bureau of Labor Statistics is estimating a demand for about 48,000 engineers a year," he said. "You can see we're heading for trouble."

Alden said that, of the one million engineers in the nation, about 10,000 — or one per cent — were out of work, down from a high several years ago of 25,000 engineers unable to find jobs.

"We're back on a roller-coaster cycle and heading for future shortages unless the economic picture changes," he said. "The classes now in school are ab-

normally small."

Alden said national enrollment was down this year 14 per cent from September 1971, which was down 16 per cent from the previous September.

Easton said one indication of the increased demand for engineers was the average salary level. It reached a high of more than \$900 per month last year, he said, and would be at least that high for the June 1973 graduates.

A survey by the College Placement Council of Bethlehem, Pa., indicates the average salary for engineers in chemical fields was \$949 per month for last June's graduates, up \$21 from the previous year, and first year engineers in other fields received similar increases.

SUB Brings "Midsummer Night's Dream"

The "spirit of youth" will come to University Center-Centennial Hall on February 28, 1973 at 7:30 p.m. when The National Shakespeare Company, under the sponsorship of Student Union Board presents its production of Shakespeare's "fantasy of folklore and fairies"—A MIDSUMMER NIGHT'S DREAM. The romantic poetry of Shakespeare's popular comedy has the freshness and fragrance of spring flowers, which is so appropriate to the time and occasion of the play. The action of the play takes place, not at midsummer, as the title suggests, but about May Day and strong internal evidence suggest that it was written for the wedding of some great personage. It most certainly has some of the qualities of the Masque, a popular wedding entertainment that emphasized spectacular elements, costume, and pageantry rather than dramatic plot and poetry. A MIDSUMMER NIGHT'S DREAM is a medley of poetry, song and dance, and the similarity of it to the spirit of the masque is obvious, but as always in Shakespeare, his genius transcends conventions, and he writes a poetic drama instead of a stereotyped pageant. With consummate skill he weaves three separate elements of the play together to give it unity.

The main plot concerns the wedding of Theseus and Hippolyta and the love story of Lysander, Demetrius, Hermia and Helena. To provide entertainment

at the wedding the Athenian artisans plan to give the play of Pyramus and Thisby. The story of the quarrel of Oberon and Titania and the activities of the fairies parallels the main plot; but by making Puck the instrument for solving the problems of the earthly lovers and increasing the confusions and comedy of the artisans, the author brings the groups together in an organic whole, as only he could.

A MIDSUMMER NIGHT'S DREAM, however, is not merely an entertaining spectacle like the masque; Shakespeare always provides a meaning and a significance deeper than the surface ripples of mere entertainment. His plays are filled with commentary on life and love, and in this play he treats the whimsical and irresponsible aspects of love, the midsummer madness that has no explanation except the whims of men and women. Shakespeare does not contemplate these moods and qualities in any spirit of criticism or reproof; love can make men and women do many foolish things, but the author and his audience laugh gaily at such folly and accept it as the norm of life. "Lord, what fools these mortals be!" Puck exclaims, but for all of that, mortals are rather charming beings and neither Puck nor Shakespeare shows any desire to change them. Written for a happy occasion, the play touches lightly on problems of love and marriage, and perhaps that is the way it should be!

Bottom awakes in the world of Titania and Puck in the NSC's production of "A Midsummer Night's Dream."

If You're 21 Or A Graduate

Women Become Liberated

A new key policy has been approved for women living in the Women's Residence Hall at the University of Missouri-Rolla.

Residents who are graduate students or over age 21 may receive a key to the outside door of McAnerney Hall by filling out a request form.

Other residents may obtain keys if permission card signed by a parent or legal guardian accompanies the request form. The key privilege will exempt these UMR students from the "House Hour Rules" of the dormitory.

If a student loans her key to someone

else, fails to lock the door when she comes in after hours, or allows a non-resident to enter the dormitory illegally, she will be subject to the appropriate disciplinary action by UMR.

Student Personnel Office did not have any physical input in the creation of this new policy. The Women's Residence Hall Association presented the proposal to Mr. Paul Ponder, Director of Student Services and to the Student Affairs Committee. From there it was eventually approved by Chancellor Merl Baker and President C. Brice Ratchford.

StuCo To Elect Student Academic Council Reps

One of the most effective methods of making student opinions heard is by representation on faculty committees and the Academic Council. Each faculty committee and the Academic Council has a student representative selected by the UMR student Council. A new slate of Academic Council representatives will be selected March 20 by the Student Council and applications are now being accepted.

As members of the Academic Council, students supply input on the matters before Council from the student's point of view. Although students representatives do not have a vote, their opinion is weighted heavily, especially on matters directly con-

cerning the student body. There will be seven new student representatives selected to serve during the new year.

Academic Council representatives also serve on several faculty committees. As members of these committees, their ideas help formulate the proposals presented before the Council.

To become eligible for a student representative to the Academic Council, you must pick up an application form in the Student Council Office in 201 Student Union. The application must be completed and returned to the Council office by March 12. Selection of the seven representatives will be made by the Student Council on March 20.

Miners Of The Month Selected By Blue Key

This semester the UMR chapter of Blue Key National Honor Fraternity is sponsoring the "Miners of the Month" contest. Under this revised set-up, a limited number of deserving applicants will be honored each month as "Miner of the Month". These people will be chosen from that month's nominees by the Blue Key membership for their exemplary activities during the month specified. Any person

who has contributed greatly to a campus organization is eligible for nomination by the organization for the honor.

For the month of December-January, Blue Key has chosen to honor: Mark Armstrong, representing Sigma Nu Fraternity, for his work in setting up a system of campus tour guides for high school seniors with the Registrar's Office; Rick Sauerwein, representing Alpha Phi Omega,

LITTLE MAN ON CAMPUS

"MISS HARRISON SAYS WE'RE TO EAT IN THE MAIN DINING ROOM HERE FROM NOW ON — IT'S GOOD FOR STUDENT MORALE."

who managed, did preliminary set-ups, and scheduled people for work in the APO bookstore in the new University Center; George Gulley, representing the Married Students Association, for his efforts as Vice-President and principal money raiser for the Mates; Paul Erlandson, representing the Student Union Board, for his work as Social

Director in co-ordinating the coffee house, the first dance of this semester and the Ace Trucking Company concert.

APO Sponsoring Sorority At UMR

Alpha Phi Omega, a national service fraternity on this campus is initiation procedures for sponsoring a service sorority. This sorority will begin as a colony and will, hopefully, become affiliated with Gamma Sigma Sigma, a national service sorority, at the end of one year.

Tonight there will be an organizational meeting at 6:30 in room 216-217 of the old Student Union, all interested women are invited to attend. The men of APO are confident that Rolla's coeds will serve the campus and community well and prove themselves worthy of Gamma Sigma Sigma. If you have any questions or if you are interested and will not be able to attend the meeting contact Ray Winkleman at 364-9988.

Students Exchange Friendship

The International Fellowship of UMR will present the movie *PEPE* this Sat. March 3 at 7 p.m. in the Mark Twain Room of the University Center. The film stars Cantinflas as Pepe, a simple-hearted peon ranch hand who finds himself with many famous stars such as Maurice Chevalier, Bing Crosby, Bobby Darin, and Jimmy Durante. The action ranges from spectacular music numbers to a comedy bullring sequence. Admission is free to the public.

In addition to the movie showing the International

Fellowship will sponsor an International Night featuring entertainment, snacks and dancing from many foreign countries. The International Night will be held Fri. March 9 in the Cellar Door Coffeehouse. Tickets for the event will be on sale soon.

These activities are designed to carry out the objectives of the International Fellowship: to create a feeling of friendship among the foreign students at UMR, and to provide a forum for the exchange of international knowledge and fellowship.

UMR Hosts Open House For Incoming Students

—Challenge '73 is the theme of the spring open house to be held at the University of Missouri-Rolla March 10. It is designed particularly for the high school and junior college students, teachers and parents.

The program will show the coordination between a high school, junior college and university education. It will also demonstrate the role of an historically technological university in the modern world.

Registration is at 9 a.m. A panel discussion entitled "College and After—Opportunities for the Educated" will be held at 10 a.m. Luncheon will be at 11:30 a.m. in UMR's new University Center.

Campus open-house begins at 1 p.m. with guided tours of the campus, a chance to visit with

members of the faculty and an opportunity to see various exhibits and demonstrations.

All interested high school and junior college students, their parents and teachers are invited to attend Challenge '73 at UMR. Registration cards are available by writing Dr. Richard W. Miller, Humanities Department, University of Missouri-Rolla, Rolla, Missouri 65401. This is the second year that this type of program will be held and last year's program was considered a limited success. The main reason for this was their lack of publicity and thus only 60 students were registered last year. But this year they have had adequate publicity and expect a turnout about 400 percent higher than last years.

VA Benefit Seminar

On Thursday Mar. 1, 1973, the University of Missouri-Rolla will conduct an information session for students, faculty, and staff members interested in learning more about educational benefits available through the Veterans Administration.

The Session will be open to the public and anyone interested in Veterans Administration educational benefits is encouraged to take part. The program will consist of a general presentation of existing and expended VA policies by a

representative from the regional VA office. A question and answer session will follow the general presentation. Individuals with questions or problems are invited to take part in the question and answer session.

The meeting will be held at 2:30 p.m. in room 214 of the University Center on the UMR campus. Refreshments will be served after the session. Information concerning the session may be obtained by calling 341-4161.

(Left to right) Dr. Adrian H. Danne, dean of UMR's College of Arts and Sciences, requests an autographed copy of "Sir Thomas Browne's 'Religio Medici' and Two Seventeenth-Century Critics," a book by Dr. James N. Wise, associate professor of English. The occasion is a reception in honor of Dr. Wise on Feb. 15 (date of publication). Mrs. Wise and Thomas Lloyd, director of the University of Missouri Press (publishers of Wise's book) witness the signature.

Upperclass Students and Graduates Invited to Graduate Student Day

College graduates or upperclass students who are interested in graduate studies in engineering or the physical science are invited to Graduate Student Day at the University of Missouri-Rolla Saturday March 3.

A full day of activities has been planned by the UMR Association of Graduate Students. Registration will be from 9 to 11 a.m. in the University Center. Future graduate students may take

guided tours through all departments offering advanced degrees and visit with graduate students and faculty regarding curriculum, financial support and facilities. Seminars on activities, housing, and organization for graduate students will be presented.

Those who make advance reservations will be provided with overnight accommodations if they wish. Hosts will be graduate students

of faculty members in the student's field of interest. This will enable prospective students to spend time with someone associated with his field.

Anyone wishing further information or to make reservations should contact Michael Hardie, president, Association of Graduate Students, UMR Engineering Research Laboratory, Rolla, Mo. 65401, or telephone 314-341-4483 or 364-4544. There is no cost for the luncheon or seminars.

University of Missouri - Rolla

To Name "Advisor of the Year"

The Office of Student Personnel is presently accepting applications for UMR's "Advisor of the Year" award. This competition is open to each approved organization and their advisors.

On Tuesday, April 10, the Chancellor's Office and the Office of Student Personnel will co-host the "Eight Annual Advisor of the Year Awards Luncheon." Last year Prof. Harvey Grice, Department of Chemical Engineering, received this award as the advisor of the American

Institute of Chemical Engineers.

Each organization to nominate their advisor should submit the nomination in the following form. On the first page the individual advisor's name should be placed along with the organization nominating the person. Following pages should explain the reasons for nominating the particular advisor. Only on the first page should the advisor's name or organization appear.

The nominations will be numbered and a selection committee will evaluate each

nomination, seeing only a number corresponding to each nominee.

It is hoped that organizations on campus give serious consideration towards nominating their advisor if they feel that the advisor has worked towards the betterment of their organization. This is an excellent way for an organization to show their appreciation for their advisor.

All nominations for "Advisor of the Year" must be submitted to the Office of Student Personnel by Thurs., April 5.

Ratchford Outlines UMR's Needs to House Committee

University of Missouri President C. Brice Ratchford recently included in his appearance before the House Appropriations Committee several direly needed improvements for the Rolla campus. President Ratchford's total capital improvements for next year for all four campuses amounted to \$106.6 million. Out

of this \$106.6 million President Ratchford strongly stressed a synopsis of high priority items which totalled \$29.5 million. In his address Ratchford told the committee that this \$29.5 million is needed just to adequately cover current student enrollment and programs.

The two highest priority items are "Priority A" and "Priority 1" as outlined by Ratchford.

"Priority A" items total \$4 million and with House approval Rolla can expect to receive a percentage of the \$1 million set aside for physical plant improvements. We can also look forward to percentages of \$2.5 million and \$0.5 million for repairs and deferred maintenance and sites for campus development respectively.

Out of President Ratchford's "Priority 1" list, Rolla figures heavily in the \$2 million allotted for an educational microwave

network to connect all four campuses. This network would connect us with a centralized computer in Columbia. It would also reduce library expenses by cutting down on duplications of books.

From the rehabilitation and remodeling category of "Priority 1", Fulton Hall (which serves the ceramic engineering dept.) and the civil engineering building would receive over \$9.7 million and \$2.9 million respectively.

Rounding out President Ratchford's report were many items which have been repeatedly asked for and repeatedly left unanswered. If we are lucky the power plant could get a turbo-generator boiler. Capital improvements to the ceramic metallurgical engineering building amounting to \$4.4 million is in the offing. Although it is doubtful an engineering complex could get \$4.5 million.

UMR Student Hit & Run Victim

Roger W. McCloud, junior in electrical engineering at the University of Missouri-Rolla, was struck by a hit and run driver about 8:30 a.m. on the corner of 14th and State streets.

McCloud was treated at Phelps County Memorial Hospital and admitted to the UMR infirmary. He suffered bruises and contusions and the infirmary lists his condition as "good".

The accident is being investigated by the Rolla City Police with the cooperation of the UMR police department. There were a number of witnesses and the police report they have a detailed description of the car.

McCloud is the son of Mr. and Mrs. Robert W. McCloud, 7907 Arlington, Raytown.

Editorial

Welcome Home

By MIKE CHILES

I think all of us welcome the prisoners of war home, especially Captain Mulligan, the father of Jim Mulligan, a December graduate of Rolla. It is a time of celebration, but of private celebration, of quiet celebration among the families of those who returned and quiet sorrow among the much greater number of families whose sons and husbands did not return.

It is certainly not a time for national celebration. The nation has nothing to celebrate. For every one of the prisoners who has or will return a hundred of his comrades lie buried in the graveyards of the nation. More than a million people lie dead in Vietnam. And for what?

A dictator still rules in the South. 145,000 North Vietnamese troops are still in the South. The Viet Cong still have their enclaves in the South.

Our President says this is "Peace with honor". I say his words are ashes in the mouth of a nation that is buying its prisoners back for billions of dollars in aid to our former "enemies". I say he spreads salt in the wounds of the nation as he chastises those who did not support his policies to achieve "a just and honorable peace".

Vietnamese casualties are occurring at a higher rate now than they were before the war "ended". Who among us will celebrate this honorable peace? Who among us will join the President in his celebration?

Rather let us have a day of mourning. Let us make this a day each year to remind ourselves and our children of the folly, the waste, the terrible waste of war — of all wars. For this war was not any more foolish or wasteful than other wars. It is just that we do not this time have the healing balm of victory to spread over our wounds, to lull us into forgetfulness. Perhaps even the sands of time will not be sufficient to soak up all the spilled blood and so to leave us with only the false glitter of battles won, of armies broken. Perhaps our collective memory will recall only the blood, the waste, the broken limbs of this war. Perhaps by our folly we have been saved from some much greater mistake in the future.

So tell your children of this day. Let those who will ring the bells of victory; but you; the parents, the students, the leaders, do not be so easily led astray. War is not always the only road to peace, honor is not always bought with blood, justice can not always be purchased for dollars.

Our Man Hoppe

Hero Postman Delivers Letter!

I received a press release in the mail. I think it's from the U.S. Postal Service. It's difficult to tell. Water or something seems to have penetrated the plastic envelope in which the tattered contents had been rewrapped.

But after going down to the Post Office to pick it up, paying the eight cents postage due, wringing it out and pasting it together, I was able to decipher:

"A grateful Nation today will honor Postman Herman A. (unreadable). Mr. Unreadable became a national hero by actually delivering a letter to Mr. and Mrs. Albert Framm of 2345 Myrtle Street, Trenton, N.J., that had been mailed from Trenton N.J., only 48 hours earlier.

"While the letter was actually addressed to Miss Polly Aganap of 5432 Maple street, Trenton, Ohio, the Framms were delighted to receive it. 'It's a delight to receive any mail these days,' said Mrs. Framm. 'Postmaster General E. T. Klassenfuss hailed the heroic postman's feat. 'This proves,' he said proudly, 'that we can, too, deliver the mail. In the future...'"

The rest was unfortunately undecipherable. So I called the Postal Services to Efficiency Expert, Homer T. Pettibone. His third assistant secretary said he'd be glad to fill in the details for me over lunch.

I was just finishing my third cup of coffee when Mr. Pettibone finally tottered in the door and crept over to the table.

"Hel," (cq) he said, painstakingly settling in a chair, "lo. How," he continued, knocking over the catsup, "are," he added, slipping a spoon in his pocket, "you?"

I said that seeing he wasn't in his office, perhaps he could speak freely. His shoulders straightened and his eyes unglazed.

"Right you are," he said. "Sorry to be, as we say in the service, delayed. But I got, as we say in the service, mislaid. I forgot this restaurant's zip code."

Then zip codes were important for the speedy delivery of mail?

"Oh, yes," he said. "Adding five digits to an envelope increases the weight of a letter by .00003 milligrams and often prevents it from being blown away when we toss it out the window."

Out the window? Why?

"To see if it can meet the rigorous standards set by our unforgettable motto. You know, 'Neither rain nor sleet nor gloom of night...' Mr. Pettibone frowned. 'How does it go?' Not very well, I said.

Whatever happened to one-day service?

"Just as promised," he said. "If, before 10 a.m., you drop your letter in any mail box marked One-Day Service, we guarantee to pick it up one day." (cq)

Mr. Pettibone went on to talk animatedly about other new efficiencies, such as automated package crushers, rapid-fire letter shredders and the hiring of four African gorillas to hand stamp items marked, "Fragile—Hand Stamp."

But he was proudest of his new system which routes all mail through the cafeteria. "As we say in the Service," he said, "Let's bring the mail and the employees together."

I asked him at what time Postman Herman A. Unreadable would be honored. "At 10 a.m. on August 3," he said, "1970." (cq)

I said my press release must have been delayed.

"As we say in the Service," he said, "better late."

Than never?

"Yes," agreed Mr. Pettibone. "We say that, too."

Letters To The Editor:

Dear Sir:

It's almost that time again: St. Pat's: a Miner's Mecca. It's a period of good times; of festivities. Most everyone is out partying and enjoying themselves.

Away from this, it's also a period of hassling freshmen. By the tradition that all frosh are required to carry shillelagh's for St. Pat's. Besides carrying them, they also have to defend them from marauding bands of upperclassmen.

Logically, making a shillelagh doesn't make much sense. Granted that if a freshman doesn't make one, he takes the risk of being pounded. However, if he does make one, somebody usually runs off with it, and when he goes to get it

back, he is pounded for not having it with him.

Don't carry a shillelagh. What you as freshmen are going is providing entertainment for a select group of upperclassmen. This is not an attack on the St. Pat's Board. Relatively, they're a hard working crew whose main concern is providing a bright spot in the crazy social life here. They're responsible for setting up the festivities at St. Pat's. My complaint is that the celebrations and good times should be for all students. A minority should not have to suffer so that the majority can have a few laughs. Has anyone even stopped to ask the freshmen what they want to do? or couldn't individual right matter

now-a-days? More rights for this minority please.

Sincerely,
Pat Starke

To The Editor

We, the Iranian Students, would like to express our warmest thanks to our American friends from Phi Kappa Theta who had a competitive and friendly soccer game with us.

We think this is an indication of friendship and common feelings which exist between American people and Iranian people.

We hope by using opportunities like this, we can get to know one another better.

Dear John

Dear John,

Why has Kelly Gibbons and his boys been taking pictures of us fans at all the home basketball games this year with his videotape TV camera. Kind of makes me nervous to have his men pop up like jack-o-lanterns and take our picture every time we cheer or anything.

Samantha Burton

Dear Ms. Burton,

I think you and all the other ladies at the games should be concerned. You see, my inside sources tell me that Chief Gibbons is really taking pictures, not of rioting fans, but of our lady fans' legs and neither regions. Even our cheerleaders and pom-pom girls are not exempt. Opinion here is divided as to whether Gibbons is planning on marketing the films down around the Fort or whether he is just going to keep them for further reference during slow lunch hours.

Dear John,

I guess we don't mind carrying a shillelagh so much but we really hate to see all those hundreds of trees cut down each year. Look what happened to Ireland, nothing left but sheep pastures and peat bogs. That's a pretty high price to pay for keeping the snakes out. How about you using your influence with the St. Pat's Board to help bring them into the present. Who cares about snakes anyhow?

Pledge class of Sigma Nu Dear Pledge Class of Sigma Nu,

I suggest a compromise between you and the Board. Instead of cutting hundreds of new trees each year how about recycling old shillelachs? Each person could carry them his freshman year, carve his initials on them, and then hand them down to some new freshman the next year. Or alternatively, the Board could collect them at the end of this year and rent them out to each years freshmen in years to come for a nominal fee. This would save everybody a lot of hassle each year, save several acres of trees each year, and even make the Board a little extra money to put into even better entertainment.

Dear John,

This is in response to that guy's letter on smoking - Boy is he a jerk. Most of us who smoke know how to read and we are usually considerate to those non-smokers around us; by this I mean if one of us is smoking and a non-smoker says that it

irritates him for us to smoke we will usually oblige him by refraining from smoking.

However, if some ass starts off by telling me that I can't smoke where I want when there are no signs to the contrary and then starts talking about expelling me because I smoke and he doesn't like it, it makes me think the guy's not very tolerant himself.

James Dean

Dear John,

What or who is are U-Wide? What do those bumper stickers that say "Who needs U-Wide, mean?"

Confused

Dear Confused,

U-Wide is another name for the super-structure that governs and coordinates the efforts of the four campus of the whole University System. What those bumper stickers are saying is that the U-Wide administrative structure is much too big, that it duplicates functions already being performed on each individual campus, and that it slows down a lot of essential processes (like my pay check) with unnecessary red tape.

Dear John,

I would like to let it be known that there are still people with that "good ole fashioned" home town spirit. It was stated by a member of the W.R.H.A. that everybody in her home town was a HICK, she did exclude herself though.

When confronted again and asked if she included a person who use to give her rides home, she said, and I quote, "Yes", and then diplomatically said, "No".

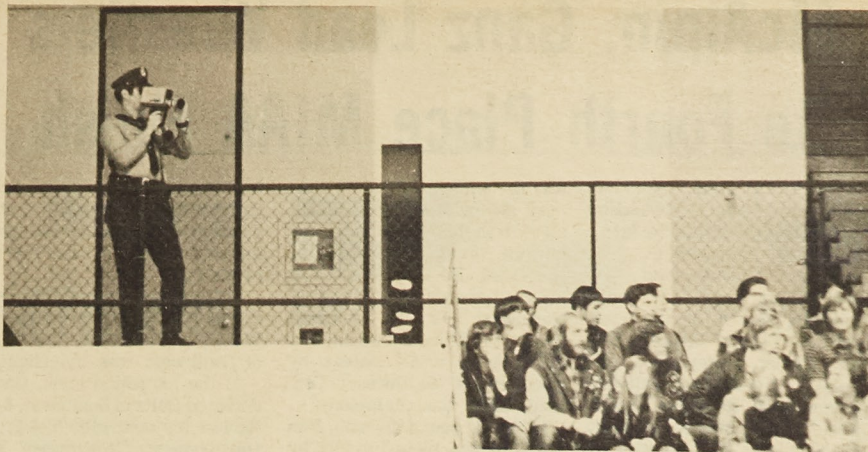

The facts in this letter were gathered by a friend of mine, who was witness to both statements. The first along with a few members of the W.R.H.A., and the second with members of the girl in question's math class.

Yours Truly,

A Lover of Home Town Spirit P.S. The town concerned in this letter is a southeast Missouri town.

Dear Lover of Home Town Spirit,

I didn't quite catch all that you were saying in your letter but the drift of it is that you are mad at someone and so hope to remain that way for a while, don't hold grudges.

Smile! Big Brother's Watching

Cops Turn Moviemakers Practice At B-ball Games

For those who are wondering about Traffic Safety's policy of making videotapes during home basketball games, the MINER staff has done some research.

Chief Kelly Gibbons of UMR Traffic Safety informed the MINER that the main purpose of the videotapes is to train officers. By investigating this program money is saved Gibbons said that by using the tapes, a group of officers can go over the tapes resulting in better training.

Gibbons said a subsidiary benefit of the videotape program is its aid to security. Cameras can film violent outbreaks such as the incident with Lincoln, supplying school officials with indelible evidence.

The tapes, which include both segments of the game and the fan reactions, were being used long before the Lincoln lambast. Chief Gibbons, who says they were also used at one football game this season, intends to continue using them in the future since they are, in his opinion, in the University's best interest. They are also designed to serve the student's interest by helping to provide better trained officers and curbing violent outbreaks at sports events.

The MINER wants to flash the yellow light of caution toward Traffic Safety. We are not convinced of Traffic Safety's need for TV surveillance of students and townspeople of Rolla. The use of

this camera is control by intimidation, by fear. Unless a riot actually breaks out this camera should not be used to take pictures of enthusiastic fans. It is not right to gloss over the use of this device as a training exercise. If men need to be trained in the use of such a device, train them in an empty building, not in the middle of a game.

NOTICE

The English Society is looking for people with literary ambitions. Anyone who would like to have some of their work published in the Society's magazine should turn their poems, essays, and short stories into the secretary of the Humanities Department by March 15.

canned cash

It looks like a can. It feels like a can. But when you take it to a Stag recycling center it turns magically into cash. Ah, the marvels of modern packaging.

We'll pay you 10¢ a pound for all the recyclable aluminum cans—ours or anybody else's—you bring in. That's just about 1/2¢ a can, but who stops at just one can? Which brings us to a word from our sponsor: when you want to chase a beer with a beer, start with Stag.

McAlpin, Ganz Lead Wrestlers to Fourth Place MIAA Finish

The UMR Miner wrestlers concluded their wrestling season last week with the MIAA wrestling tournament. The Miners showed vast improvement over last year, finishing fourth in the competition. Central Missouri was the winner, compiling 105½ points. Northwest finished second with 90 points, Southwest had 35½ points, Rolla had 25, Northeast finished with 23, Southeast with 21½, and Lincoln was last with 8 points.

The Miners had four wrestlers placing in the competition. Gary McAlpin won the heavyweight division. Steve Ganz, champion in the 190 pound class last year, took third. Jim Watts was fourth at 150 pounds. Mike Blackmore finished fourth at 134 pounds.

In the 118 pound class, Glen Matlock was defeated in his match by Patterson of Southeast, 9-3. Sterverner of Central was the champion.

At 126 pounds, John Nugent was pinned by Gassman of Northeast in 7:12, in his first match. Blackmon from Central

was the winner.

At 134 pounds, Mike Blackmore won his first match by default over Prideaux of Northeast. He was defeated in his next match by Garrett of Northwest, 9-3. He defeated Wachter of Lincoln 8-3 next, and ended with a 5-4 defeat by Parmley of Southwest. Central's Haub was champion.

In the 142 pound division, Don Williams was pinned in 2:00 by Peters of Northeast, in his first match. Power, again from Central, won the class.

At 150 pounds, Watts opened with a bye. Stockdale of CMS then won over him, 6-1. His next match was an 8-7 win over Scott of Northeast. He was defeated for fourth place by Looper of Southwest, 5-1. Stockdale was the champion.

In the 158 pound division, James Davis lost two matches, one to Hughell of Central, getting pinned in 4:40. The other loss was to Muhleisen of Southeast, losing by a pin in 4:45. Hughell made it six victories in a row for the Mules.

At 167 pounds, Kevin West lost

two matches, one to Jorgensen, the outstanding wrestler of the meet. He lost 16-2 to the Northwest wrestler. He also lost to McGrath of Central, 2-0.

In 177 pound competition, Ken Burris was easily defeated by Welker of Southeast, 14-0. Coil of Southwest was the champ.

At the 190 pound level, Ganz defeated Baltz of Southeast, 6-1. He lost his next match, 3-1, to Harmegnies of Northwest. He won his next two matches, defeating Dworak of Southwest, 6-2, and Don January of Lincoln, 2-1. Fritchie of Central came out on top.

In the heavyweight class, McAlpin opened with a bye. His next match was against Reusch of Southwest, which he won by 8-2. The championship match, which he won 4-0, was against Pepper of Northwest.

The Miners closed out the season with a 7-3 slate in dual meets. McAlpin finished the season with a 13-2-0 individual record. Ganz had a 14-6-1 record. Blackmore pitched in with a 12-8-0 season.

Rich Peters of UMR tied a school record last Wednesday night as he hauled down 21 rebounds in the Miners' game against SIU. The Miners won the game, 101-88. (Photo by Ray Blanc)

Cagers Crush Cougars, 101-88;

Peters Ties Rebounding Record

Rich Peters fired in 23 points and tied a UMR school record with 21 rebounds last Wednesday night as the Miners upset SIU Edwardsville, 101-88. The match-up, played in Edwardsville, was a fast moving offensive contest with both teams hitting a high percentage of their shots. The Cougars shot an impressive 50 per cent from the field, but the Miners topped in with their mark of 58.2 per cent. Peters shot 75 per cent in the game.

Tommy Noel followed close behind Peters in scoring. He put in 22 points, all from the field. John Williams collected 19 points for the Miners, and Ken Stalling, who is still playing with a broken hand wound up

with 18. Royce Vessell added 10.

Besides his 10 points, Royce was the defensive star. He held the Cougar's high-scoring guard, Tony Johnson, to 12 points. Four of these points were scored after Vessell had left the game.

The Miners trailed briefly in the opening minutes of the game, but by the mid-point of the first half, they had taken the lead for good. They led by as much as 22 points in the game before SIU leveled the score against Miner substitutes.

Butch Feree led the Edwardsville scoring attack with 18 points. Tony Johnson, Terry Carlson, and Leon Wright had 12 points apiece for the Cougars.

MIAA Meet to Round Out Indoor Conference Schedule

As the indoor track season comes to a close with the MIAA meet Thursday, the track team sports a very impressive record in its first full indoor season. With a 3-0 record and good in-

dividual performances in the two invitational meets, the Miner track squad is looking towards tomorrow's conference meet with high hopes.

In the third meet of the season, UMR crushed School of the Ozarks and Evangel College. While winning 9 of 12 events, the Miners captured 71 points. School of the Ozarks had 19 and Evangel finished third with 17. Three days later in another triangular meet, UMR won 10 of 15 events. With 80½ points, the Miners easily downed William Jewell (39½) and Missouri Valley (38). The depth of the squad is shown by the fact that the Miners had just one double winner.

Last Friday the Miners traveled to Columbia to compete in the Missouri Inter-collegiate Championships. In one of the finest showings by a UMR track team, the Miners proved that they can compete with all the other Missouri Schools.

The distance squad turned in a fine individual performance. Half miler Mark Snowden broke the indoor school record with his 1:58.8, giving him 7th place. Milers Pat Goeke and Nick Drozdoff finished in a 7th place tie with times of 4:31.6, which is just 1.3 seconds off the school record. Two miler Mike Scheplin turned in a fine 10:06.7 showing.

The hurdlers also turned in a fine performance with Stu Dunlop placing third in the 60 yd high hurdles and placing sixth in the 60 yd. low hurdles. Also qualifying in the low hurdles was Rich Weaver.

In the 300 yd dash Sam Brown placed fifth with Jim Wassilak finishing eighth. Team captain Curt Simmons finished 7th in an event dominated by University of Missouri runners.

After the indoor conference meet the track squad opens the outdoor season. Tuesday March 6 against the Central Missouri State Mules.

Cagers Embarrass Bears In '72-'73 Season Finale

The bitter disappointment of losing the conference race to SMS was sweetened somewhat Monday night when the Miners defeated Southwest Missouri State, 82-73.

Every Miner starter was in double figures as UMR presented a well balanced scoring attack. Offense was the key to the victory as the Miners shot a hot 51.6 per cent from the field compared to 43 per cent for the Bears. John Williams led the scoring with 21 points. Rich Peters, who sat out much of the first half because of foul trouble, had 16 points. Tommy Noel followed Peters with 15 points and Ken Stalling and Rodney LeGrand scored 12 and 10 points respectively.

The Miners had hot and cold spots all night. They jumped to a 7-0 lead, but the Bears quickly came back to close the gap to one at 9-8. The contest then remained close with the Miners keeping the lead. With 4:08 remaining on the clock, SMS took their first and only lead of the ball game when Kevin Gerschefke put in a 15 footer. The Bears stretched their lead to 31-28 before the Miners quickly retook the lead as Rod LeGrand hit a layup and Noel added two free throws. With the score 37-33 and 3 seconds left on the clock, John Ladner converted a 1-1 situation into a three point play. Ladner made his first shot, rebounded the second and put in a 4 footer at the buzzer. The halftime score was 40-33.

UMR came out after intermission and put in 10 straight points to capture their biggest lead of the night, 50-33.

The Bears had three players in double figures, led by Kevin Gerschefke with 20 points. Randy Majers had 18 and Daryl Garrison had 13.

The Miners won Saturday night against Central Missouri State, but they were pushed out

of contention for the MIAA conference crown anyway. While the Miners were pulling off a fairly easy 91-83 win from the Mules, Southwest Missouri State was also defeating Southeast Missouri State in a 72-64 victory. With the win, SMS clinched the championship.

If the Bears would have lost, the Miners would have shared the title with them after Monday night's win.

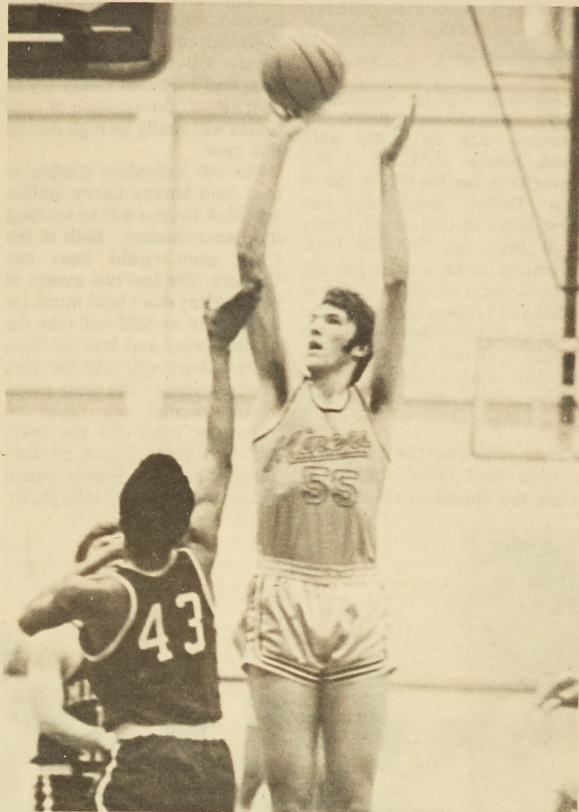

The contest was plagued by technical fouls. CMS's coach, Jim Kampen was charged with two technicals while protesting calls, and the UMR coach, Billy Key drew one for his protests.

The Miners led most of the game, but the Mules threatened several times. The last CMS threat came with 11:00 left in

the game when the Mules pulled to within four points of the Miners, 67-63. The Miners then widened the gap considerably by outscoring the Mules 13-2 in the next four minutes. UMR led comfortably for the rest of the game.

Tommy Noel took the game's high scoring honors with 23 points. Rich Peters netted 21. Ken Stalling, and John Ladner were also in double figures for the Miners, Stalling with 18, and Ladner with 13.

CMS also had four men in double figures, led by Deon Kayhill with 18. Jack Tudor, and Bruce Tolbert both had 16 points. Lamont Cooper, who is the Mules leading scorer was slowed by a knee injury, and was held to 11.

Despite early foul trouble, Rich Peters closed out his UMR hardwood career with a fine 16 point performance. The Miners beat the conference champion bears, 82-73.

Miner Swimmers Loosen Up For Tough Conference Meet Ruggers Down Mizzou, 10-3; Ready For Mardi-Gras Trip

This coming weekend the swimming team goes down to Cape Girardeau to take part in the biggest meet of the year for them, the MIAA Conference Championships.

Going through the conference meet as it will take place, the Miners stack up pretty well. Jack Belshe of UMR is the favorite in the 200 fly. In the 50 free, DeBeer from Cape has first place in that event pretty well sewn up. The 100 back promises to be a free for all, with Kroeger of UMR, Batke of CMS and Iverson of SMS as the men to watch. Next is the 100 breast and this will provide a classic match between the Miners Tim Blood and the Bears Tipton.

Then comes the 200 free, and a race that could make or break the Miners or the Bears.

Here Tom Wenger will take on the Bears Benny Green, with Green as the favorite. But in the recent dual meet Wenger handed Green his first defeat at the hands of a MIAA opponent. Benny will try to avenge this loss, and Tom will really try to do it again. The emotion of both teams will really be high during this race.

The 400 individual medley is next, and Miners Larry Molina and Jack Belshe will be battling the Bears Connor. Both of the UMR men could beat out Connors. The last two events of the first day don't hold much for the Miners, as SMS will take the medley relay and McCool from Warrensburg will take the one-meter diving. The first event of the second day could be a turning point for the team that is behind. It will be Tom Wenger against Benny Green again, this time for 1650 yards.

It will give the loser of Friday's race a chance to get even, and the winner Friday to prove he is the better of the two without a doubt. Then Blood and Molina will again battle Connor in the individual medley, now for 200 yards.

The next four races are pretty well sown up. Cambell of SMS is the favorite in the 100 fly, Tim Blood of UMR will take the 100 free, Bill Batke of CMS will dominate the 200 back, and Tipton of SMS will be heavily favored in the 200 breast.

Then for the third time in the meet, Tom Wenger of UMR will oppose Ben Green of SMS. The race this time will be the 500 free. This, too, promises to be a great event. The final competition will be the three-meter diving with no one favorite. Anyone of five or six men could win, including UMR's duo of Ron Dutton and Steve Peppers.

The UMR Ruggers got back on the winning track this weekend by defeating the University of Missouri-Columbia by the score of 10-3.

Being a hard hitting game, the outcome was based mainly on the hustle of the Miners. They did not let the explosive Mizzou team have a chance to get in the open. Though MU pressed for a score many times, the Rolla ruggers did not let them cross the goal line and they had to settle for only a penalty kick.

Barely into the game, MU was given a penalty kick on UMR's twenty-yard line which game then a 3-0 lead. This didn't hold up for very long as the Miners came right back with a score by Ron Martin after Randy Lang had broken for forty yards. The conversion was wide so Rolla had to settle for a 4-3 lead at half time.

In the second half, UMR came out and took the game to MU as they continued to move the ball into Columbia territory. The ruggers formed a score again after Karl Schenke carried the ball to the five yard line and Dominic Grana and Scott

Kenny overwhelmed Mizzou with Kenny covering the ball for the try and four points. Wes Watkins converted the kick after for two more points. This gave Rolla a 10-3 lead which they held.

The game was not over yet though, for MU came back to within yards of a score three times but each time they were denied by a stubborn Miner defense that would not break.

In the second team game the UMR Golds lost to MU by a score of 11-7. Scores for UMR came in the second half when Charlie Weber kicked a 45 yard penalty kick through the uprights for three points and when Mike Boehm powered over from the five yard line for a try and four points.

This weekend the UMR Rugby Club travels to Hammong, La., for the Mardi Gras Tournament. This year UMR has the best chance to win the tournament since they did it in 1969. Other teams at the tournament are Hammong Rugby Club, Memphis Rugby Club, Pensacola Rugby Club, Univ. of Georgia, Springhill College, Iowa State Univ. and Galveston Rugby Club.

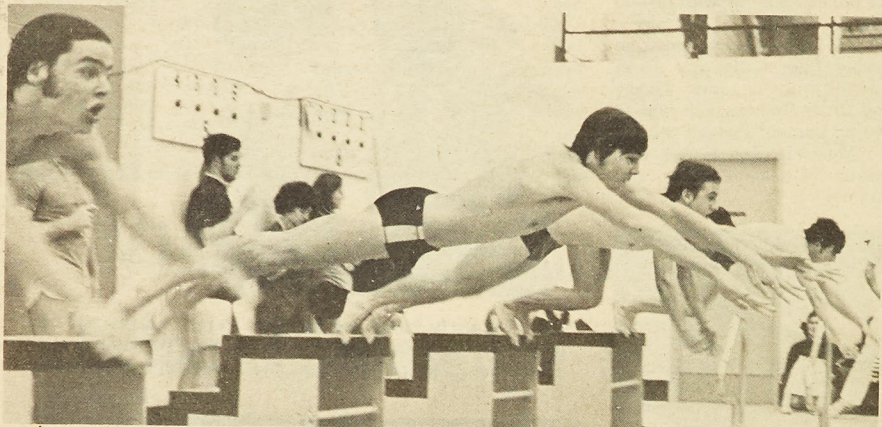

Kappa Sig Wins V-ball; Lambda Chi Takes Third

The intramural volleyball season came to an end last week. Kappa Sigma easily defeated Theta Xi in the first round of the playoffs, and Beta Sig downed Lambda Chi to earn a spot in the finals. Kappa Sig rolled over Beta Sig in the first game of the championships, 21-9. In the second game Beta Sig came back strong, but dropped the game, 22-20.

In the third place game, Lambda Chi defeated Theta Xi.

The race for the overall intramural championship was tightened as Kappa Sig took top point honors in volleyball. Lambda Chi holds a slim lead, however.

Wrestlers pulse checks have been changed to Wed. Feb. 28 at the infirmary. Wrestlers weigh-in will be Thurs. March 1 at the multi-purpose building. Wrestling will start March 5, 6, 7 at 6:30 p.m. The finals will be Thurs. March 8.

Tom Wenger gets off to a flying start in the 1000 yard freestyle. Tom will be one of the key men in the Miner effort this weekend.

Anheuser-Busch-Atop Beer Market

...Anheuser-Busch, Inc., the huge St. Louis-based brewmaker, still sits well atop the domestic beer market, reporting another industry sales record for last year and maintaining its lead over second-place Schlitz.

...Busch said yesterday that it sold 26,622,000 barrels last year, a 9 per cent increase over 1971. That year, the company set another beer industry record when it sold 24,300,000 barrels.

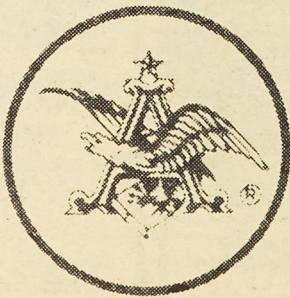

...In the first 11 months of last year, Busch sold 19.8 per cent of the industry total, boosting its share of the market by about eight-tenths of a percentage point over the total for all of 1971.

...This year, Anheuser-Busch will have the capacity to ship about 29,500,000 barrels, August A. Busch Jr., chairman and chief executive said.

...Last fall, Busch announced that it had exercised its option to buy more than 300 acres of land in Solano, Calif., near San Francisco. It will build a new brewery there with an annual shipping capacity of about 2,500,000 barrels. It is scheduled to begin operating in late 1975.
