Dr. Merl Baker's Resignation Accepted

ROLLA, Mo., Oct. 18—Dr. Merl Baker resigned today as chancellor of the University of Missouri-Rolla campus, effective immediately. This timing is in accordance with the precedence established by the departures in recent years of a University president and chancellors on the Columbia and St. Louis campuses.

University of Missouri President C. Brice Ratchfords said "I accept Dr. Baker's request to be relieved of the duties of chancellor and thank him for his willingness to undertake another important assignment for the University. Merl Baker has been a dedicated, enthusiastic and persistent chancellor of the University of Missouri-Rolla. He has given many years of leadership and devotion in the office of chancellor. We have talked in recent months of a new assignment."

Chancellor Baker has agreed to conduct an in-depth study of the University's administrative structure as a special assistant to the president. He and Mrs. Baker are presently continuing their annual vacation which

ends next month. They will return to Rolla and reside here during this special University-wide assignment.

President Ratchford added that "I am naming Dr. Dudley Thompson, dean of faculties at UMR, as acting chancellor. I shall very soon name a search committee to begin the process of finding a new chancellor, a task which I hope can be completed before the end of the present academic year. I would hope that a successor to Chancellor Baker can be on the campus at Rolla by the beginning of the 1974-75 academic year."

President Ratchford also pointed out that UMR has prospered since Dr. Baker assumed the chancellorship in 1963. During this decade the UMR faculty has almost doubled, nine graduate research units have been added and more than five times as much outside funding is available this year as was available in 1963. UMR now offers B.S. degrees in 18 areas, compared to 12, has added five Ph.D. degree programs—plus the Doctor of Engineering—compared to only seven

doctoral programs in 1963. In addition, more than one-half the graduates to ever receive degrees in the history of this 103-year-old campus did so during Chancellor Baker's tenure.

In announcing his resignation on campus today, Chancellor Baker issued the following statement:

"At the Board of Curators meeting June, 1971, President Ratchford outlined an 'Agenda for Action' which included, as an important and integral part, a study of the administrative structure at both the University-wide and campus levels.

"To help meet this objective, President Ratchford has asked me to do an in-depth institutional research study as special assistant to the president. This national survey of administrative systems is expected to take approximately seven months. It appears to be most challenging and the experience gained should be mutually beneficial to both the University and me.

"This has not been an easy decision because Emily and I have enjoyed

student, staff, faculty and alumni contacts so very much. However, I agree with most management experts who consider 10 years long enough to serve in a top level administrative position such as the chancellorship. Although it was difficult for me to reach this decision, I can see greater gains possible for UMR over the years ahead with new leadership.

"Emily and I naturally take some pride in the progress which has been achieved since we came in 1963. And it is a sincere desire to see whatever accomplishments we may have contributed to further enhanced by continued growth and progress at UMR that has compelled me to take this step.

"I would be derelict in not acknowledging the excellent support and cooperation I received from students, faculty, staff and alumni during these 10 years in Rolla. Both Emily and I look forward to a continuation of many such relationships in my new role at the University-wide level.

"Thank you."

Anticipation Mounts As Party Weekend Approaches

As many as 2,000 visitors are expected on campus Friday and Saturday for traditional homecoming activities at UMR. Separate programs for both alumni and students ensure a busy weekend for all concerned.

First event of the homecoming weekend is a meeting of the MSM-UMR Alumni Association Board of Directors at 8 a.m. Friday. Alumni registration begins at 11 a.m. and lasts through 5 p.m. at the Manor Inn. At 6:30 p.m. an early arrivals dinner will be held for alumni and faculty at the Manor Inn.

Students' homecoming activities begin Friday evening at 6:30 p.m. when the 25 queen candidates and judges get together at the University Center for an

informal interview session.

Alumni registration resumes Saturday morning at 9 a.m. and lasts until noon. Class reunion noon luncheons will be held at the Manor Inn for the 50 years and over classes (1923 and earlier), 1928, 1933, 1938, 1943, 1948, 1953, 1958, 1963 and 1968 classes. The St. Louis section of the Alumni Association will host a hospitality session at the Pub Mobile from noon to 1:30 p.m. After the game, alumni will hold their annual awards banquet at 6:30 p.m. at the Manor Inn followed by the annual meeting of the MSM-UMR Alumni Association.

A breakfast for the queen candidates and judges at 7:30 a.m. in the

University Center precedes the formal interviews with the candidates. Following the football game, John Hartford and the Red, White and Blue group will present a concert for students at 6 p.m. in the Multi-Purpose Building. The annual homecoming coronation dance begins at 9 p.m. in Centennial Hall of the University Center.

Both students and alumni will participate in pre-game and halftime activities Saturday afternoon. Pre-game ceremonies, beginning at 1:40 p.m., feature the annual pajama race by members of the Interfraternity Council. After the Miner Band plays the national anthem during the flag raising

ceremonies the Marshfield High School Band, directed by Franklin Dee Lewis, will present a program of early jazz music to conclude the pre-game ceremonies.

At halftime of the game between the UMR Miners and Central Missouri State University (Warrensburg), the program begins with a salute to alumni by the Miner Band, directed by Dr. David Oakley. Music ranges from "Good Old Mountain Dew" to Glenn Miller's arrangement of "Little Brown Jug." The homecoming queen and all the other 25 candidates will be introduced to the crowd by representatives of alumni, University administration and students.

Governor Christopher Bond was featured as a speaker at the College Government Conference at the University Center last Friday. The day long event also featured Chancellor Danforth from Washington University and a number of workshops in the afternoon. Photo by Chilton

Homecoming Schedule

FRIDAY, OCT. 26

8 a.m.—MSM-UMR Alumni Association Board of Directors meeting
11 a.m.—5 p.m.—Alumni registration, Manor Inn

In The Movies

J C SUPERSTAR

Reaching the screen as a motion picture that is hip and reverent, contemporary and Biblical, religious yet lay, traditional and iconoclastic, the Norman Jewison film, "Jesus Christ Superstar," comes tonight to the Uptown Theatre. "The title suggests two themes: Jesus Christ, reverent, Biblical; and then Superstar, hip contemporary. The approach I've taken for the screen was to blend the two themes." The players for the movie were chosen through open auditions that attracted more than 3,000 young actor-singers and dancers when they were held in London, New York and Los Angeles.

Admired and acclaimed as one of the world's most eminent romantic drama, "Sunflower," which opens Wednesday at the Ritz Theatre.

"Sunflower" stars Sophia Loren and Marcello Mastroianni in top roles, with Ludmila Savelyeva, Russia's top film actress.

Carlo Ponti and Arthur Cohn produced "Sunflower," which was filmed on locations in Russia and Italy, from the screenplay by the noted scenarist, Cesare Zavattini.

Homecoming Bonfire

In the Spirit of Nostalgia and Revival of an Old Tradition, the Annual M-Club Homecoming Bonfire and Pep Rally will again be held. This years assemblage will start with the lighting of the fire at 7:00 p.m. Friday evening on the parking lot south of the football field (behind the locker room). Included on the following program will be our UMR cheerleaders, the Miner Band,

the co-captains and Coach Finley.

It seems that in the past, the largest Bonfire at UMR was 18 feet round by 11 feet high. Any combustible material that Miners can give to break this record should be taken to the lot starting Wednesday night. Let's show the Mules how well the Miners will ride Saturday by firing up Friday. Come one—Come all.

Chancellor Baker's Farewell to UMR

At the Board of Curators meeting in June, 1971, President Ratchford outlined an "agenda for action" which included as an important and intricate part a study of the administrative structure, both at the University-wide and campus levels. To help meet this objective, President Ratchford has asked me to do an in-depth institutional research study as Special Assistant to the President. This national survey of administrative systems is expected to take approximately

seven months. It appears to be most challenging and the experience gained should be mutually beneficial to both the University and me.

I have, therefore, decided to resign as Chancellor.

President Ratchford and I have been discussing the possibility of this type of assignment for several months. His response to the survey, as well as that of the Board, will have a bearing on the specific duties of my future role with the University, but President Ratchford has assured me it will be an important one.

This has not been an easy decision because Emily and I have enjoyed student, staff, faculty and alumni contacts so very much. We naturally take some pride in UMR's progress since we came in 1963. However, I agree with most management experts who consider 10 years long enough to serve in a top level administrative position such as the chancellorship. Although it was difficult for me to reach this decision, I can see greater gains possible for UMR over the next five years with new leadership. And this maximum

progress is most important to me in gratification of my contributions to date, whatever they may have been.

In this University-wide work, I will be very much interested in UMR, along with the other campuses, and I look forward to continuing excellent relationships with each of you.

We will continue to reside in Rolla through this academic year. I plan to attend a national professional meeting and — in the next few weeks — complete my annual vacation, after which specifics for the survey will be formulated.

The recent leaves have been very beneficial, health-wise, and I look forward to assuming full duties next month.

I feel very close to the group assembled here and thank all of you most sincerely for your support and numerous contributions over the years. Please continue your interest in UMR and support the new Chancellor. As a University-wide officer, I hope I can count on your help in my new role.

BEST WISHES !!!

Merl

John Chappel, shown above, giving his outstanding performance of "Clarence Darrow: Defender of the Damned"; last Wednesday in the University Center. Photo by Blanc

KMNR Final Deadline: Nov. 1st

KMNR, your student service station, will be "on the air" on or before Nov. 1st. To this date, difficulties beyond our control have plagued the construction and delivery of our new transmitter. With these obstacles overcome, we at KMNR expect to be broadcasting no later than Nov. 1st. The installation and testing of the new equipment is expected to be completed some time this week, with FCC approval and permission to sign-on within the next week(s).

To make up for some lost time, KMNR will be broadcasting 24 hours a day. This schedule will be in operation for as long as we can keep our announcers going, possibly until the end of this semester. Not only will you be able to hear us when you wish, our new equipment will allow us to provide a total stereo program, including stereo taped material.

KMNR, in addition to providing the best in today's

music, is planning once again the "Greaseball", on Nov. 17th. Also in the plans are, a "KMNR Night At The Movies", a possible concert or two, and getting rid of some records we have duplicates of or no longer need.

If you have an announcement your organization would like to have broadcast starting in November, bring the information by the studios (the blue door of the old cafe), and it will be on the air as soon as we are.

More information on our programming will be distributed on campus this week, including descriptions of some new feature programs. Our music, news, and features are directed to you, the student, so your views and comments are appreciated. Drop us a line, or give us a call: Radio Station KMNR, Box 203A Mining Bldg. 341-4272 or 341-4273.

Search Committee for New Chancellor

With the announcement of Chancellor Baker's resignation, the job has begun to find his replacement. President Ratchford has proposed to set up a "search" committee to nominate men to fill the position.

The committee will consist of seven members, two university administrators, three UMR faculty members, and two UMR students. The committee will then try to make recommendations to President Ratchford, who will then make the final decision.

President Ratchford will

choose the two university administrators who will sit on the committee. The three faculty members will be chosen by Ratchford from a list of six nominated by the academic committee.

The two student members of the committee will be selected from a list of four, nominated by the UMR Student Council. Any student interested in serving on this committee is urged to stop by the Council office and pick up an application form. The form is designed to give the council a brief. The Council will decide on its nominees at a meeting to be held on October 30.

University of Missouri - Rolla

Hartford and Red, White & Blue

Bluegrass Concert for Homecoming '73

This is the time of the year when the frost is on the pumpkin and the warm afternoons of Indian Summer with its multi-colored fall leaves and hayrides ending with the traditional glowing embers of hickory, ash and oak bonfires. This is without emotion of the exciting Saturday afternoon football games topped off with a couple of glasses of cider or hot-spiced wine. Truly, it is a magnificent time of the year.

What better time of the year to listen to music typical of our American Heritage than now? And what better groups to listen to than Red, White and Blue and John Hartford?

Red, White and Blue will start our Homecoming concert with an array of bluegrass music and will set the stage for John Hartford in what should be one of the most exciting concerts of the school year. Red, White and Blue is composed of four people: Grant and Giner

Boatwright, Dale Whitcomb and Dave Sebolt. All are excellent musicians with a flair for good showmanship. Ginger, the female vocalist, just may leave Rolla ranked high among Miner affections for beautiful women.

John Hartford, infamously known for composing "Gentle on My Mind", may be just the musician needed to bring down the house at the Multi-Purpose Building this Saturday night. A solo performer, John Hartford takes pride in both his ability to compose music and perform it in front of an audience. He has composed an amazing 10,000 songs and of the 10 albums he has cut his favorite among the partisans has been "Morning Bugles".

Although Hartford claims Los Angeles as his home, he is originally from St. Louis. Hartford has made many college concerts in his career but to my knowledge he has

never been to Rolla. He admires contemporary musicians Bob Dylan, Leo Kottke and Seals and Crofts. Earl Scruggs, famous country folk artist and banjoist is said to have influenced Hartford's career tremendously.

The concert will start at 7:30 p.m.; this Saturday night at the Multi-Purpose Building. Tickets are \$1.50 each with a limit of 2 ID and students only will be admitted. Tickets go on sale October 24-26 between the hours of 10 a.m. and 4 p.m. in the foyer of the New University Center.

After the concert, starting at 9 p.m. the Homecoming Dance will commence at the Centennial Hall of the New University Center. The group that will perform is "Together" and the theme of the Homecoming Dance will be "Zodiac". All of this is being brought to you by the Student Union Board.

UMR witnessed the completion of another new structure on campus recently with the opening of the doors to the new Chemistry Building. Lab equipment has already been moved into the building with the faculty and secretarial offices in the process of transition.

More Homecoming Attractions

UMR Chamber Choir To Perform Concert

This weekend, Oct. 19-20, will be full of activities for both college and high school music students at the University of Missouri-Rolla.

Friday, Oct. 19, the 24-voice UMR Chamber Choir will present a fall concert at 8 p.m. in Centennial Hall of the University Center. There is no charge for the concert and the public is welcome to attend.

Saturday morning Oct. 20, high school students from the eight-county South Central District of the Missouri Music Educators' Association will audition for positions in Missouri's first All-state High School Chorus. The chorus will perform in January at the Missouri Music Educators' annual meeting in Jefferson City.

There are 25 high schools in Crawford, Dent, Franklin, Gasconade, Maries, Osage, Phelps and Pulaski counties which may send candidates to

the district auditions. From these candidates three sopranos, three altos, three tenors, three basses and four alternates will be chosen.

Judges for the competition are Muriel Hatfield, Rolla, Debbi Katz, Rolla, Gregory Prudom, Fort Leonard Wood, and Harold Cleveland, Rolla.

Also on Saturday, about 60 high school music students and their directors will participate in the second annual South Central Choral Literature Clinic. The clinic is an extension activity of UMR's music program and is co-sponsored by the Missouri Music Educators' Association and Shattinger Music Company of St. Louis.

Objective of the clinic is to introduce the participants to the latest music available for chorus use and help them improve their sight reading abilities.

All three activities are under the direction of Joel Kramme, instructor in music at UMR.

Homecoming activities on the campus of the University of Missouri-Rolla are set for Friday and Saturday, Oct. 26-27.

d'Arcy Holt, 34 Fair Oaks, St. Louis, is chairman of the

International Night

Seems as if there's not too much going on Friday night of Homecoming Weekend. So why not drop by the Coffeehouse (nee Cellar Door), basement of the Episcopal Church at 10th and Main, about 9:30? The International Fellowship will be sponsoring an International Night, complete with dress and music from those countries represented at UMR. The highlights will be international fashions — colorful and exotic dress from many countries — and in addition, dances and songs from the U.S., Iran, India, Venezuela, Vietnam, Turkey and Mexico. Instrumentation and guitaristry from around the world will accompany the songs.

The price of admission is 50 cents, and refreshments will be served. Anyone who wishes to participate may call Kul Bhassin, 341-3415, or Ben Lau, 364-9951. For a pleasant break from the usual party weekend activities, come on over and bring your date.

UMR students' Homecoming Committee which is responsible for making it a memorable weekend.

Ajunior in chemistry, d'Arcy is a member of the Student Union Board which provided the organization for many of the students campus-wide activities.

Events planned for homecoming weekend by the committee include a Homecoming Queen competition, a General Lectures Concert featuring John Hartford and the Red, White and Blue and the Homecoming Coronation ceremonies at the traditional Homecoming Committee are: MISSOURI

The Complete Service Jeweler

The Manor Inn

Interstate 44 & Highway 63

Rolla, Mo. 65401

Telephone 314-364-1575

This fabulous Inn is located at the Gateway of the Ozarks. It's picturesque setting on a bluff overlooking the thriving city of Rolla affords the guest with a view not to be forgotten. The urban area of the city, along with the well-known University of Mo.-Rolla (MSM), forms a wondrous background of glittering lights as well as a complete view of one of the most traveled interstate highways.

The Manor itself is the utmost in tradition and hospitality. The ultimate service that you dream about is a must with the owners and management. Staff members are trained to provide you with this desired luxury.

The rooms are furnished in excellent taste. For the comfort and convenience of the guest the following services are provided: color television operating from telecable, room phones with 24-hour switchboard service, one day valet service, and room service from our dining room.

The dining areas feature the famous Crystal Room, and for special parties the new Angus Room. The Banquet and Convention Rooms accommodate from 6 to 600 people. For weddings and other special occasions the decor is most appropriate, and these events are catered with Old World courtesy and service. With all of these fine facilities you can still dine in casual attire. The "come as you are" is for the convenience of the traveler with a large or small family.

This unique Inn offers beverages in a setting of Yesteryear. Truly named, the Carriage Lounge provides a delightful atmosphere of relaxation and enjoyment.

The Manor Inn—realizing that the traveling public desires more than just a sleeping room, food, and drink—has now opened a new ultra-modern Recreation Room. The decor and equipment are the finest that can be obtained. The very best in color TV and stereo music—pool table—bowling—pinball—all kinds of game tables—ping-pong—cards—chess—checkers and many other features. The entire room is for your pleasure; luxurious chairs and divans afford the guest with nothing but comfort. Be our guest and enjoy the best.

The Manor Inn's outdoor swimming pool is a must for seasonal relaxation. The pool is maintained at the highest level and surrounded with pool furniture to enable our guest to enjoy the outdoor atmosphere and derive the most from the sun.

The Manor Inn buildings are so arranged that the guest can enjoy a park-like area for picnics and other outdoor activity, while ample parking space provides convenient door parking. To further assist our guest we honor all major credit cards and the use of our reservation system. A courtesy car will enable our guests to have transportation to and from the airport and bus terminal. Last but not least the adjoining property houses a fabulous collection of vintage cars, and a very fine selection of art work. So when you visit the Manor Inn, be sure to see the Autos of Yesteryear.

When you are in our vicinity, even if you can't spend the night, stop and say hello. We have nothing to offer but Courtesy, Comfort, and Pleasure.

Your Host,
The Manor Inn, Inc.

Council Appropriations

The following chart is a breakdown of the money allocated to various campus organizations by the Student Council.

All the grants were made by a careful study of the organizational activities, membership, finances, and benefit to the school and student by the Student Council.

First the organizations made requests and were reviewed and questioned by the Appropriations Committee. At the next Student Council meeting the committee brought their recommended grants forth and answered questions voiced by the members. Discussion was then held and the recommendations amended and voted through. Fourteen of the recommendations were passed as presented and four were amended.

If there are any questions arising to you, consult your SC rep. or the SC office. I will review a few of the most contested issues forthrightly.

FUND REQUESTS REJECTED

Five organizations were given on financial aid. It was felt that no religious favoritism could be extended to the Newman Center and International Fellowship. The Council decided that the SUB had been funded adequately by the school and could not be supported financially by the SC. It was decided the Blood Committee should go to the multi-million dollar Red Cross for their blood expenses. If you do not give blood, you may not receive blood free and the students who weren't donors would be paying for something they could not benefit by. The Arnold Air Society's books showed their members had not

raised much money on their own initiative and a banquet was listed as one of their reasons for request.

Amendments Raise Funds

Rugby and soccer were given \$100 amendments because of their successfulness, spirit and school publicity. They had also raised quite a bit of money independently and showed great resourcefulness in speeding. A \$150 Women Engineers to strengthen their position on campus with the rapid influx of the "fairer sex."

Debt Assistance Contested

The allocation of \$200 to the "Independent Party Weekend" to help pay off a \$475 debt was the most hotly contested recommendation.

After long deliberation, it was decided that by giving them the money to overcome undue hardships, the entire student body will benefit in the final analysis.

The decision stems from the point that the weekend is in essence planned for all Miners. The Council feels that a bit of compassion from all sides will lend in uniting the student body on wider horizons. As times are changing the differences and tensions between the campus organizations on party weekend are melting together—to have a great time!!!

The debt was due mainly to a theft of \$300 in meat and a dance that fell below expectations. The Council felt that if they were helped back on their feet then maybe they can show us those great times on campus. Incidentally, if you will thumb through that shiny new year book of yours you will note a bunch of "Greeks" seated at a table of Independents Party Weekend.

3 Students Busted

2 by University Police

10000 Zane White on the Drug Problem

To: Academic Council, University of Missouri-Rolla; Student Council, University of Missouri-Rolla; Editor,

As students, we wish to protest the actions of the University Police in the Humanities-Social Sciences building on October 19, 1973.

Two university policemen were waiting outside a classroom at 10:20 in order to arrest two students who were in the class. While this action was not illegal, it was assuredly of questionable rationality. If their crime had been of a violent nature (i.e. murder, robbery, etc.) the disruption caused by the arrest could be justified. But it hardly seems necessary to make such a dramatic display of power in the halls of a learning institution for a crime in which there was no victim.

It has come to our attention that the campus police were acting on information provided by an informant acting for them, and that they have utilized informants on other occasions. We would like to know if the University is using our fee and tax money to pay police informants.

We have also learned that there are at this time little or no regulations or restriction placed on University Police when they act in any function other than traffic safety. This is a serious oversight which we

feel it is imperative to correct.

(8 student signatures)

The above petition was written as a result of the arrest of two students last week on the campus of the University of Missouri-Rolla. The letter raises questions concerning the right of the University police to make arrests on campus, and their information sources leading to these arrests. Members of the Miner Staff talked to Lt. Owens of the University Police, and to Phelps County Prosecutor, Zane White in an effort to find out what the facts were leading up to the arrest, and the reasons for using the University police to make the arrests.

Three students were arrested last Friday, two on campus, and one off campus. The three were Michael Zitz, Frank Sulze, and David Holman. Holman and Sulze were charged with the "Sale of Marijuana". Michael Zitz was charged with the "Sale of LSD", the "Sale of Marijuana", and the "Sale of Amphetamine". Sulze and Holman are out on \$2,000 bond, and Zitz is still in the city jail pending \$7,000 bond.

Zane White, Phelps County Prosecutor, was interviewed as to the role of the state in the arrests. He explained the for-

mation and use of a Highway Patrol team. The arrests were the result of a program started last year by the Missouri State Highway Patrol. The Patrol trains men to act as undercover agents, and sends them out throughout the state looking for dealers in illegal drugs. Members of this team were in Rolla last spring, and secured the evidence against the three who were arrested. Since the success of the team depends on their "cover" charges are not filed until later, when the agents are available for testimony. Mr. White went on to say that teams are still coming through Rolla, and that evidence is being compiled on more individuals. Mr. White says that the investigations are not limited to the students, but are concerned with the "native" population of the town as well. The point of the program, as far as Rolla is concerned, is that by having narcs in the areas where drugs are sold, the people selling the drugs will be less hesitant to sell out in the open. Mr. White feels that this will help keep drugs from becoming a predominant factor in both the town, and the University.

University Police Lieutenant Owens explained why the arrests were made on campus, instead of the usual manner.

For Interested High School Students Tests Given At UMR

High school students interested in engineering can find out whether they have the aptitude in tests to be given at the University of Missouri-Rolla Feb. 23, 1974.

The testing program, the National Engineering Aptitude Search (NEAS), is sponsored by the Junior Engineering Technical Society (JETS). Examinations measure ability in four areas—verbal, numerical, science and mechanical comprehension. Students in grades 9-12 are eligible to take the tests.

Applications may be obtained from high school counselors and should be returned by Dec. 1 to Professor Jerry Bayless at UMR. Bayless is coordinator for JETS in the area south of the Missouri River (except St. Louis and Kansas City where tests also will be given).

The Rolla examination will start at 8:30 a.m. in UMR's Civil Engineering Auditorium and will take approximately three hours.

Professor Bayless says that students who take the tests will receive personal reports of the

results of their tests with an explanation so that each can compare his own abilities and qualifications with other students across the country. He explains that the tests are designed to supplement—not replace existing local programs, but that students may wish to include test scores in applications for admission to engineering colleges.

The UMR professor stresses the importance of students taking the tests as early as possible in their high school careers. "Then they will be able to select courses, such as science and mathematics, which are prerequisites for admission to engineering colleges," he adds. Pointing out that the demand for engineers is increasing, Bayless said, "The nation badly needs engineers to solve such problems as the energy crisis, environmental protection, transportation, communications, housing—and many others. These challenging positions will be filled by those now in high school. We hope that this engineering aptitude search will help discover this critically needed talent."

Note From Highway Patrol Concerning Out-of-State Licenses

The Missouri State Highway Patrol and other law enforcement agencies have observed an increasing number of out-of-state license plates displayed on vehicles operated in this area. Some concern has been expressed that faculty members, staff and students at the University may not be completely aware of Missouri Statutes relating to licensing of motor vehicles. For your information, the laws are essentially as follows:

1. Students who are paying non-resident tuition and attending UMR are exempt from purchase of Missouri plates. This exemption extends to family members of such students except for those family members who have accepted full-time employment in the state.

required to purchase Missouri license plates and to hold a valid Missouri driver's license.

3. Individuals who feel they have special cases should contact Mr. Terry Cossette at the license bureau (364-7848) to resolve any questions.

The Missouri State Highway Patrol had indicated that they will institute spot checks of vehicles bearing out-of-state licenses in this area.

2. The faculty and staff members employed full-time at the University are considered as residents of the state of Missouri and as such are

Wesley Requests Hearing

An attorney representing Dr. James Paul Wesley, associate professor of physics, has advised the University of Missouri-Rolla that Dr. Wesley is requesting a hearing before the Academic Tenure Committee of the University of Missouri-Rolla.

The procedure which will now be followed will be in accordance with Section 7 of the University Academic Tenure Regulations of the University of Missouri, approved by the Board of Curators on March 17, 1972.

Wesley, who was appointed to the UMR faculty in 1964, was notified of his suspension by the University on charges of "moral turpitude" Oct. 4.

Our Man Hoppe

The Week Illusions Died

"So," said the young man with a shrug, "what can I do about it?" How sad it was.

Watergate, Israel, Agnew — what could he do about it? What could any of us do? How sad it was.

It seems only yesterday that the young were marching, chanting, throwing rocks and smashing windows under the illusion they could build a better world overnight. And when that illusion slowly died, they turned inward on themselves.

"Oh, they still want to help their fellow man," said the university president at a dinner party, smiling wryly, but now they've all decided to become doctors so they can become rich and respectable while doing it." How sad that is.

It is always sad when illusions die. And last week was the saddest I remember. Two of the things I most treasure in this world are Israel and our own world democracy.

I shared with the Israelis the illusion of their invincibility. And I shared with many Americans the illusion of our democracy's immutability. And last week proved the Vice President of the United States was a crook.

"So everybody knows there are a lot of crooks in Washington," said the uncaring young man. "So one finally got caught. So what?"

How sad that is. For any democracy survives on faith alone. And if the next generation has lost faith... How sad that is.

All through the long week, images from out of the past came floating through my

mind. Standing on the rocky, arid Golan Heights after the Six Day War looking down on the Syrian plains below. Two young Israeli soldiers — cocky and funny as are so many Israelis — laughing about how they'd captured a Syrian tank in the recent fighting and, not having time to disarm the crew, simply gave the Syrian tank commander directions to the nearest Israeli post where he could properly surrender. Which, they said, he did.

Or the young Israeli Air Force colonel on the barren sands of the Sinai explaining how the Israelis now enjoyed air supremacy because the Egyptian Migs outnumbered them "only five to one" — and meaning it.

Or an interview with President Golda Meir, she talking like a Brooklyn Jewish mother ("God forbid, our boys..."). She talking confidently of Israel's new "naturally defendable borders." Confidently, always confidently.

I knew there was justice on the Arabs' side. Yet my mind dwelt only on these young Israelis I had come to love, dying on the sandy deserts and rocky heights as their naturally defendable borders were overrun. What of their illusions now? How sad it was.

And the picture on the television screen. Republican matrons frantically cheering their hero, Mr. Agnew, as he promised, "I will not resign if indicted!" Where are their illusions now? Where are all our illusions? How sad it was.

Yet maybe it is for the best. Maybe illusions are luxuries we

can no longer afford. Maybe the Israelis, no longer convinced of their invincibility, will be more willing to compromise for peace in the Middle East. Maybe Americans, no longer convinced of the infallibility of their leaders, will take charge of their fragile democracy themselves — making it impossible for rich men to buy contracts or candidacies.

And maybe, in a way, the young are right. Maybe each of us should give up the illusion that we alone can drastically better the world. Maybe each of us should concentrate on what we have the full power to do — to drastically better our own little worlds, making them good and decent and honorable.

So maybe, just maybe, wars and crooks will die with our illusions.

Leading Conservative Leaves Curators

In a letter to Gov. Christopher S. Bond dated Oct. 17—Judge William H. Billings said that he "cannot devote necessary time to adequately perform the obligations of a curator." He will resign January 1 from the University of Missouri Board of Curators.

Billings since 1965, has missed 10 of the last 22 board meetings in possible violation of a state statute covering curators' attendance. The law states that a curator's office "shall become at once vacant" if he misses a regular board meeting for reasons other than sickness or accidents.

Billings works as associate judge of the Missouri Court of Appeals at Springfield Missouri which did take up a considerable amount of his time. He said that he "had no apologies" for his attendance and did not believe he had violated the law. Governor

Bond will be responsible for filling the vacancy on the nine member board, subject to Senate approval.

Irvin Fane, president of the Board of Curators, said Billings "has been a valuable colleague when we are going to miss very much."

A question now will be just how much influence on the Board of Curators did Billings have. Despite missing 10 of 22 meetings, his presence was evident and his influence was felt. He was considered the leading conservative on the board. He was an advocate of strict treatment of demonstrators at the university in May 1970.

The Board of Curators, plays an important part in big decisions for all University of Missouri campuses. We'll see if we notice any difference down here in little old Rolla.

Gamma Alpha Delta Is Active

Members of Acacia Fraternity and students at UMR, worked with Gamma Alpha Delta service organization, on a recent weekend project at McGennis Youth Center in the southwest part of Missouri. The picture is of the tin crew tinning the up-

permost part of the barn. Twenty members of Acacia and twenty girls from Cottey College tinned one side of a barn; repaired, scraped, and painted the remaining sides of the barn; laid carpet in a trailer; and surveyed for an ice skating rink for the area youth.

Darrell Rachels (upper left), Blake Mastin (upper right), Leo Valla (center), Craig Jakubs (lower left), and Marty Henson (lower right) are shown at work on a recent GAD project.

Ron Craven sights through transit while (from left) Rusty Crane, Rich Linck, and Dave Brockman watch. These are four of the seventeen Phi Kaps who went to Union, Mo., this past weekend to do a utility survey for Camp Mo-Val.

Phi Kaps and GAD Do Survey

Gamma Alpha Delta is an organization of nine fraternities and two Sororities that contribute their time and efforts to help needy people and organizations. When help is requested by someone or an organization the different member fraternities and sororities bid on the project. The member or members who agree to do the project then set a date to evaluate the work to be done and they go to the sight of the work. After this pre-engineering trip the project chairman can estimate the size

of the work force needed and the amount of work to be done. The work is then done and any expenses such as travel costs and food are paid by some funding agency. Several sponsoring agencies for Gamma Alpha Delta are the Rockefeller Fund, Fund for Human Development, Presbyterian Other Benevolent Fund, United Ministries in Higher Education and United Methodist.

This past weekend Phi Kappa Theta, a member of Gamma Alpha Delta, did a utility survey for Camp Mo-Val. Camp Mo-Val

is a camp owned by the Missouri Conference of United Church of Christ just outside Union, Missouri. It allows poor people, elderly citizens and the retarded an outlet to country life. The men of Phi Kappa Theta did a survey to find the location and make a map of the water lines, underground telephone lines, overhead power and telephone lines, sewer lines, pump houses, valve connections, and many buildings at Camp Mo-Val. This project was funded by United Methodist.

IFC-Rolla Clean-Up

Fraternity men grouped for this picture before the start of the IFC-Rolla clean-up Saturday morning. It was a very successful project for the second year in a row.

Photo by Blanc

This past Saturday, Oct. 20, the fraternity men of UMR pitched in to clean up the trash and litter about the streets of Rolla. The UMR Interfraternity Council, the representative body for the twenty UMR fraternities, combined the efforts of the member fraternities into the clean-up project. Approximately 250 Greeks

provided the manpower to pick up the street litter about Rolla. The bagged litter was then collected by various men's clubs of Rolla and hauled to the Rolla dump.

This is the second year that the UMR Interfraternity Council has coordinated the efforts of the Greeks into a Rolla clean-up project. Last

year the project was held in conjunction with Broyles Distributing Co. of Rolla. This year the project was a combined effort of the UMR fraternities and several Rolla men's clubs. The clean-up was very successful and hopefully will inspire the townspeople and UMR students to "Pitch In For Rolla."

Student Jobs Index

ROLLA, M., Oct. —Lots of University of Missouri-Rolla students and their wives need jobs. And, lots of Rolla area businessmen and residents need workers. Getting them together is the goal of a new job referral service in the UMR Student Financial Aid Office.

Director Ray Pendergrass says that the office tries to fill requests for part-time or full-time workers, either for regular or occasional work. "Several Rolla firms have already hired students or student wives through our office," Pendergrass says. "Right now employers wanting workers and workers wanting jobs are just about equal. The only trouble is

that not all of the jobs available are the ones students have registered for and vice versa."

Students and student wives are available for all sorts of jobs. These include construction work, service station work, painting, yard work, chauffeuring, sales work, baby sitting, housework and church organist.

There is no charge for the service to either students or employers. The only restriction is that student applicants cannot have already received aid through the financial aid office. Interested employers and workers should contact Mrs. Katie McDaniels, 106 Parker Hall, phone 341-4282.

Homecoming

Terry McAllister
Alpha Epsilon Pi

Terry McAllister will brighten up the homecoming scene as the queen candidate representing Alpha Epsilon Pi. Terry is a vivacious 5'6" brown haired, brown eyed lass who hails from St. Louis. She is now attending SMS at Springfield, majoring in English. The brothers of Alpha Epsilon Pi are proud to present Terry as their choice for Queen and feel that she will make a welcome addition to the homecoming scene.

She will be escorted by Bob Gold, a junior at UMR.

Beverly Hall
Triangle

The men of Triangle are proud to have Miss Beverly Hall represent them as their Homecoming Queen Candidate. Bev is a svelte 5'6" light brown haired beauty. She was a 1972 St. Joseph Lafayette graduate and is now a sophomore at William Woods College.

Mary McGuire
Sigma Pi

The Brothers of Sigma Pi are pleased to present Miss Mary McGuire as their 1973 Homecoming Queen Candidate. Mary is a graduate of Xavier High School in St. Louis and is presently in her junior year at Jewish Hospital School of Nursing. Mary, who enjoys all outdoor sports, is looking forward to her third year of Rolla party weekends.

The brothers of Kappa Sigma take great pride in introducing their candidate for Homecoming Queen 1973, Miss Jan Napier. Jan hails originally from St. Louis, Mo., where she was graduated from Rosati Kain High School in 1971.

She is currently a junior at the University of Missouri-Columbia, majoring in Home Economics with a special interest in dietetics. Her first two years of college were spent at Southeast Missouri State University where she was vice-president and Dietary Committee Representative for her dormitory and also a member of the Association of Women Students. An attractive, brown-eyed brunette, Jan's outside interests lie in sewing, dancing, bowling, and volleyball.

The men of Kappa Sig are confident that Jan's warm smile and magnetic personality will make a perfect Homecoming queen.

Jan Napier
Kappa Sigma

The men of Acacia are proud to present Miss Jane Wilson as their candidate for 1973 Homecoming Queen.

Jane is a 1973 graduate of Poplar Bluff Senior High School. Her achievements there included: secretary of her sophomore, junior, and senior classes; president of the Future Teachers of America; president of the Spanish Club; president of the Debate Club; treasurer of the Student Council; and membership in the National Honor Society. She is presently enrolled as a freshman at Three Rivers Community College, where she is an advisor to the President of the Student Senate.

We believe Miss Wilson is the appropriate choice for 1973 Homecoming Queen.

Jane Wilson
Acacia

Bea Barbarito
Engineers' Club

Engineer's Club is proud to present its 1973 Homecoming Queen Candidate, Miss Bea Barbarito. She is a 1973 graduate of Ballard Memorial High School and is presently attending Paducah Community College in Paducah, Kentucky. Miss Barbarito's hobbies include sewing, swimming, water skiing and horseback riding.

Ann Carmichael
Sigma Nu

The brothers of Sigma Nu are pleased to announce that they are represented by Miss Ann Carmichael as candidate for Homecoming Queen.

A sophomore psychology major here at UMR. She is a member of Zeta Tau Alpha Sorority and a Little Sister of Lambda Chi Alpha. Last year she served on the St. Pat's Queen Court and as the Rollamo Queen.

Monica Hance
Tau Kappa Epsilon

The men of Tau Kappa Epsilon present Miss Monica Hance as our candidate for Homecoming Queen. Monica is a 5'2" brown-eyed brunette beauty from St. Louis where she is employed as a dental assistant.

She will be escorted by her fiancé, Gary Schwartz.

The Men of MRHA are extremely pleased to present Miss Teresa Dillahunt as their Queen Candidate for Homecoming 73. We feel she has all the qualities that we have been looking for in a candidate.

Miss Dillahunt is a vivacious 5'7", hazel-eyed blonde who is very active in school affairs. Teresa is presently a senior at Southland High School at Arbyrd, Mo., while her home is Cardwell, Mo. She has been a cheerleader for 3 years, an active member of FTA and FHA. Teresa represented Southland in the FHA District Convention. She is working hard on organizing the schools annual and local paper for this year. Teresa received the honor last year as being named Southland's most beautiful coed.

Her community activities are limited in quantity because of her school activities, but she does serve as a volunteer worker in the local hospital in her spare time.

Teresa's hobbies are bicycling, swimming and collecting stray pets in order to find them a proper home.

Teresa is being escorted by Jeffery A. Gibson.

Teresa Dillahunt
MRHA

Representing Phi Kappa Theta is Miss Debbi Egerstrom, a graduate student in counseling and student personnel at the University of Missouri-Columbia. Miss Egerstrom is a member of Kappa Alpha Theta sorority and her major interests include most outdoor sports; particularly water and snow skiing and horseback riding. During the past two summers, Debbi has co-directed a youth recreation program and has studied at the University of Missouri-Kansas City. Dave Rinas will be Debbi's escort.

Debbi Egerstrom
Phi Kappa Theta

Queen Candidates

Gail Richardt
Delta Sigma Phi

The Brothers of the Delta Sigma Phi Fraternity are proud to announce their selection of Miss Gail Richardt as their 1973 Homecoming Queen candidate.

Gail resides in Kirkwood, Mo., and will be escorted by Brother Mark Wilson. She is presently attending the University of Missouri-Columbia, as a freshman in the Honors College with hopes of attaining a degree in Biology.

The men of Delta Sigma Phi feel that Gail would make an outstanding Queen for the 1973 Homecoming festivities.

Sue VonFange
Beta Sigma Psi

The Brothers of Beta Sigma Psi are proud to present Miss Susan G. Von Fange as their 1973 Homecoming Queen Candidate.

Sue, a lovely 5'4", 19 year old brunette from Kirkwood, Missouri, presently attends Patricia Stevens Career College in St. Louis. She is pursuing a career in interior decorating. At Patricia Stevens she is involved in several clubs and organizations. Art and singing are among her foremost interests.

The Brothers of Beta Sig feel that they will be well represented by Miss Von Fange as their queen candidate.

Susan's escort will be Brother mark Schoedel.

Deborah Mercer
Lambda Chi Alpha

The Pi Kappa Alpha fraternity has chosen Miss Lin Houston as their 1973 Homecoming Queen candidate. Lin is a former student of Arkansas State University, but now is employed as a secretary in Jonesboro, Arkansas.

She is an attractive 5'10" red head, whose hobbies include all sports, and she is especially interested in modeling. She hopes to become a professional model someday.

Lin Houston
Pi Kappa Alpha

Sigma Tau Gamma is proud to announce Susan Lynn Gorczyca as their candidate for Homecoming Queen. "Suzi", a 5'1" brunette, is a 1970 graduate of Francis Howell High School. She attended Deaconess Nursing School for two years and is presently working as a nurse's aid at Schreiner's Residence in Newburg. Suzi is married to brother Joe Gorczyca and has a six month old baby girl, Amy. She enjoys sports, knitting and playing the guitar. Sig Tau is honored to have Suzi as their candidate.

Susan Gorczyca
Sigma Tau Gamma

The Brothers of Lambda Chi Alpha social fraternity are proud to present their Queen Candidate for the 1973 UMR Homecoming, Miss Debbie Mercer. Debbie, a striking 5'6" brunette, comes from Arcadia, Florida, where she is employed as a secretary for DeSoto Correctional Institution.

Debbie is a 1972 graduate from DeSoto High School in Arcadia. During high school she was a varsity cheerleader, a member of the Sub-Debs organization, Key Club Sweetheart, and Homecoming Queen. Debbie, an active sports enthusiast, enjoys all sports including football, basketball, baseball, and rodeo. Living in the country most of her life, Debbie enjoys swimming, hunting, water skiing and horseback riding. Her escort will be Ken Hurley.

Donna Lupo
Sigma Phi Epsilon

The men of Sigma Phi Epsilon are proud to present Miss Donna Lupo as our candidate for this year's Homecoming Queen.

Donna is a 1972 graduate of Mehlville High School. She is presently employed by Aetna Insurance Co. in St. Louis while also attending night classes at Meramec Community College. Among Donna's special interests are party weekends where her warm personality and genuine interest in everyone should make her an outstanding queen.

She will be escorted by her fiancé, Brother Frank Opfer.

Paddy Doyle
WRHA

The women of the WRHA are most pleased to present Miss Paddy Doyle as their Homecoming Queen candidate. Paddy is a sophomore majoring in Life Science here at UMR and is one of the outstanding members of the WRHA. Her many activities include cheerleading, representing WRHA to the GDI Board of Governors, participating in intramural sports, and pledging Kappa Alpha's Little Sister. Last semester, she was voted Outstanding Freshman by Phi Kappa Phi. Paddy hopes eventually to work as a zoo veterinarian.

Dixie Keena
Delta Tau Delta

The sisters of Kappa Delta sorority are proud to have Paula Marcellus represent them as their 1973 Homecoming Queen candidate.

Kappa Delta feels that she is deserving of this honor because besides being active in Kappa Delta, she is a member of the Rollamo staff, the University Choir, Gamma Alpha Delta, and Crescents. Paula was also on the court for GDI queen.

Paula will be escorted by Randy Hughes.

Paula Marcellus
Kappa Delta

The men of Theta Xi are proud to announce the selection of Miss Nancie Loyet as their 1973 Homecoming Queen Candidate. Nancie is 20 years old, 5'7" tall, has brown eyes and lovely, long brown hair. She is currently attending Meramec Community College where she is majoring in accounting.

As an active sports enthusiast, Nancie enjoys swimming, skiing, bowling and football. In addition to her sports interest, one of Nancie's favorite pastimes has been Rolla Party Weekends. Nancie will be escorted by her fiancé, Gerry Schmitz.

Nancie Loyet
Theta Xi

The Brothers of Delta Tau Delta are proud to present Miss Dixie Keena as their Homecoming Queen Candidate. The light brown haired, brown eyed beauty is a senior at Puxico Senior High School where she is a cheerleader and a majorette.

Miss Keena is an avid spectator of all sports and is an excellent seamstress. After completing high school Miss Keena plans to attend Southeast Missouri State University and major in special education. We, the brothers of Delta Tau Delta, feel that Dixie possesses all the virtuous qualities necessary for an outstanding Homecoming Queen.

Discover America!

The dating game is confusing at best even to an American. How much greater is the potential for confusion when an innocent young foreign student attempts to adopt this unique custom? The resulting mayhem can be humorous; it can also teach us a bit about the foreign viewpoint. Here is an article written by an eligible young UMR grad student from India, describing his

Rediscovery of America

My journey started on a chilly morning at Palam Airport in New Delhi a couple of years ago. The United States of America—a dreamland. At the airport I was absorbed in thought about my journey to this most exciting land and its people, culture and society. Suddenly my thoughts were interrupted by one of my friends who had come to see me off at the airport.

"Hi, Kul," he said. "Going to the States? Lots of beautiful Meme Sahibs (Indian slang for British women in the colonial days). You know how they are!" I could understand from his grin what he meant. Well, no more thought of that. It was time for me to leave: a modern-day Columbus.

The first thing I noticed inside the airplane was an attractive, smiling stewardess. I said to myself, Woo! Looks encouraging! Half the way to the U. S. a nice-looking, blonde, Swedish air hostess came to me and started to talk. "How are you? Where are you going?" and so on. I began to contain myself, for according to Indian culture one should not talk to a girl when he is a student—complete abstinence. But then I said to myself, I'm a human being. It is hard for me to discipline myself as an ascetic. I should try to find a middle-of-the-road. So I found the courage to pull my mouth muscles together to smile at her and realized by this time that she was gone. So I had missed my first opportunity. But at least she got me started.

Well, my airplane finally touched American soil. While coming down, I felt in spirits like Columbus rediscovering America in all its variety and many dimensions. I arrived at school and then settled down in my apartment. In the morning I went to my department on campus to get acquainted. An attractive secretary greeted me with a wide smile and sounded very friendly. Over a period of time I began to know better, and

I always enjoyed talking with her. Well, after a month in the States while talking to an American friend I received a briefing on the dating system, and in particular how to ask a girl out. The method certainly appealed to me, in contrast to the Indian system in which the parents take care of the entire process, including finding the bride for you.

Working on his tips, I decided to ask out the secretary that I had met the first day. The next time I saw her I casually mentioned, "There's a very interesting movie downtown." "What is it?" she said. Thinking she had reacted favorably, I hesitantly decided to ask her, "How about a date this Friday then?" "What!" she exclaimed. "I'm married!" After recovering from the shock I said to her, "Well, in my country a married woman puts a color dot on her forehead. Anyway, my apologies, and how about you and your husband coming over to dinner?" Fine. We'd love to. Listen, to save you any more trouble, here a married woman puts a gold ring on the third finger of her left hand." What we had here was a cultural information gap.

While telling the incident next day to one of my American friends, he told me of one of his experiences with a Chinese girl in New York. He told me that after repeated attempts to get a date with her, he had finally managed to get her to visit the Metropolitan Museum with him. At the appointed hour, she showed up at the museum—along with ten of her girl friends. Several weeks later, she still couldn't understand why the man hadn't asked her out again.

Homecoming Queen Candidates Continued

Barbara Ross
Zeta Tau Alpha

Miss Barbara Ross is Zeta Tau Alpha's 1973 candidate for homecoming queen.

Barb, a sophomore at UMR, is currently in Genral Studies, but she plans to transfer to the UMC campus next year to study journalism. She graduated from Rolla High School in 1972.

Not only does Barb act as Zeta's rush chairman, but she is also active in the Crescents, or the Little Sisters of Lambda Chi Alpha. In addition to her school and outside activities, Barb holds a part-time job at the library.

The sisters of Zeta Tau Alpha are pleased to have Barb representing them in the upcoming events.

Barb's escort for the weekend activities will be Bob Ajhar.

BARBARA DOLAN

Miss Barbara Dolan, the candidate representing Tech Club, is a 1972 graduate of St. Pius X High School and a former member of the girl's track team. She is currently a sophomore majoring in medical technology at Notre Dame College in St. Louis where she is on the Dean's List. After classes and studying, she works weekends as a nurse's aid at Alexian Brothers Hospital and still finds time for her hobbies of sewing, crocheting and swimming.

KATHLEEN WARREN

We, the men of Alpha Phi Alpha, would like to introduce our Sweetheart and Candidate of Homecoming Queen, Miss Kathleen Warren. This statuesque young woman of beauty and grace hails from Columbia, Missouri. She is presently attending the University of Missouri-Columbia, where she is majoring in Journalism, a most intellectual and appropriate field for a woman of her personality and awareness. Her activities in the Black Student Association, The Youth Association and the World Affairs Organization display the deep concern she has for the present plight of humanity. Thus, it is with supreme pride and great honor, that we present Miss Warren as our representative for the festive weekend.

DIEHL MONTGOMERY FORD SALES

Rolla, Missouri
(The Originator of the Student Finance
Plan in this Area)

This plan allows the students upon approved credits and job, to buy a new car with nothing down and payments of \$25.00 per month until you are on the job. This plan is not new, Diehl Montgomery Ford has sold over 750 new cars and trucks to graduating students this way. See us for all the details. Also you can use your own insurance or ours.
FORD LINCOLN AND MERCURY
This allows the graduating students to have a new car before he graduates when he really needs it.

"This is a special discount program for students. We will be glad to quote you a price on any Ford or Mercury product."

Gertrude's Thoughts

I'm always happy to see all the alumni that come around on Homecoming. They're usually the best way to judge what comes out of this place and enjoyed it. The rest of them fellas turn into malcontents and derelicts, or happy members of the fringe of society. Everybody knows where those sorts of people go and being a member of this establishment, well, I just see 'em on the sly.

The alumni that usually come around are an interesting group of people. They have all year to gather up experiences and think up stories and there is fire shootin' out of their eyes. There's stories about inventions and millions of dollars and then there's stories about all the other Sunday affairs of life of one who has matriculated. One gets an idea of what goes on that drives American industry by the time everyone has had a draft of beer. They all sit around and tell all the good things that have been done by them and how everyone else either built one-sided bridges or dams that stopped upward floods. There was this one group of alumni that formed a consulting firm and I was privileged to hear them expound on the fine points of applied science.

The companies name was Smith, Johnson and Jones famed from the River Des Peres to Elephant Rocks by finding water, oil and used Ford motor parts. I was on the lot when they were inspectin my jalopy, so I thought I'd chat with 'em before I shot their beady eyes out. So I looks over and stars Jones in the face saying, "Hello boys, nice day for decent folks, ain't it?"

Ols' Jones just kinda sits there readjusting his lead pipe while Smith recognizes me from when I caught him cheating on a name tag. He jaws on saying "Well I'll be damned, if your aren't the same old - -that I had for one week back in '57. I'm proud to tell you that I reformed under your inspiration lectures and am now vice president of a world famous engineering firm. You remember Tacoma Nanows, now don't you?"

Then Johnson goes, "Sure, and did you know that we out grossed every major firm in America when we went building those earth dams in South Dakota. Not many firms get the news coverage we do!"

I turned purple and looked them rascals in the eyes and

yelled, "You always were the most worthless bunch of bullshitters and I know damned well that only in America would people like you get ahead. Why don't you get a job with Penn Central or Lockheed and leave people alone?"

I hated to be mean an all on Homecoming, but I'll be dang-jiggered if they get some regular Rolla folks involved in one oth their damned schemes. Next thing you know, they'll be getting a good engineer and they actually will build a better disaster and sell it to Egypt.

Radio Club Goes Worldwide

Have you often wondered what the strange antenna on top of the Rolla building was for? Well, the array of WOEEE uses the antenna to talk with other amateur radio operators around the world and within the U.S. WOEEE also uses its equipment to provide communications for intercollegiate friends, and to provide a major communication link for the International Studies program from Rolla to Brazil.

The Radio Club is working with Dr. Robert Carlili and the International Studies program. WOEEE provides country to country, state communications between Rolla, Missouri and Pura, Brazil concerning in Brazil by amateur radio station PY8BX. PY8BX is owned by Senore Joaquin Gomex, a private citizen of Brazil.

WOEEE and PY8BX have provided communications instrumental in obtaining braille equipment for blind children and obtaining engineering and science textbooks for students at the Federal for a program which involves shipping a 65 foot, 85 ton clinic boat for a group of missionaries in the Amazon. WOEEE has also hydrology, and pathology. The Radio Club will continue to help International Studies continue the work being done in Brazil.

Last year WOEEE founded the Missouri college Network which is an organization of college amateur radio stations which meet on the amateur radio bands to pass messages from students at the various schools to their friends at the other schools. This year the net has expanded and is now known as the Interstate College Network. WOEEE is the control station and meets with stations at Harvard, Princeton, Notre Dame, Georgia Tech, Kansas State, K.U., Washington University, and Purdue. The purpose of the net is to initiate inter-university activities. The first major activity proposed by WOEEE was a chess match between UMR and CMSU. Since then the radio clubs of Prudue, Indiana University, University of Wisconsin, Colorado School of Mines and Cloras College in Dubuque, Iowa in conjunction with their chess clubs have also fielded teams.

UMR students wishing to send noncommercial messages to friends and relatives at these schools and to other locations throughout the U.S. may do so through WOEEE. All you have to do is fill out a message blank and put it in the WOEEE Traffic messages for the students Union. Last year the Radio Club handled 215 messages for the students at UMR.

Radio Club officers (left to right), Randall Staponki, College Network Manager; George Schindler, Activities & Public Rel. Chairman; Randall Tucker, Secretary; Jerry DeHaven, operator and not present Rich McDonald, College Network Secretary.

Last but not least the Radio Club provides a radio station for the use of amateurs who are students at UMR. WOEEE has transmitting and receiving equipment for radiotelephone, radiotelegraph, and radioteletype operations. The

station to the station is financed from members' dues and fund raising projects. If you find WOEEE interesting, stop in and look the station over. Who knows, we could be talking to someone in another part of the world.

Sensored

By ANDERSON AND ELVEN

Queen for a day.....Coed Quotes: "better than in the past", "ought to be able to ask anybody", "takes a lot of time that I'd rather be partying", "should be somebody from the school", "having queen candidates is dumb". What are these UMR coeds talking about? Who tomorrow night's date should be? What they think of open dorms? How to get help on next week's calculus test? No, these girls are discussing the Homecoming Queen Candidates for 1973, and in general they are expressing the varied views of those on campus who think the contest is anything more than a bunch of girls who get their smiling faces on a piece of posterboard for a week or two, or in the Miner for posterity. Every year the subject of queen candidates rises from the ashes of the coal pile, and far be it from us to let the girls go unmolested this time around. The major gripe concerns percentages; specifically the number 23 per cent. Now besides being the amount of work that B&G does in a year, or the amount of brain power in Parker Hall, that number also represents the percentage of queen candidates who are UMR coeds. The people who do said griping do it because they think that number is too small, like 77 per cent too small. Thus the 64-thousand dollar question, "Should only coeds be queen candidates?" Several years ago when this topic was brought up, the laughter was so loud that the steam tunnels cracked, and the whole affair lead to the infamous "Don't Bother, I'm a UMR Coed" T-shirts, now collector's items. But times have changed, and today we find Miners dragging their tongues from one end of the Quad to the other. There are 4108 students on campus, one-tenth of which are female. Is this enough to feoget about the out-of-towners? Can UMR eliminate the imports, cut deficit spending and push the balance of payments out of the red? No, says this year's Homecoming Chairman. The Student Union Board has brought this up before, only to file it in the bottom of the basket because "nobody would participate." The organizations would feel like they were being told what to do, and in effect they would be. What do other campuses do? They don't ever have to worry about it, because they have extra coeds coming out of their ears (where?). But at least half of this year's crop of coed candidates (6 out of 26) have faced the music before, thus raising 64-thousand dollar question number 2, "Where is all that tongue-dragging scenery hiding when pick-a-girl time roles around?" Those girls must be spending time with somebody. Are the somebodies afraid to admit it? What are they hiding? Tune in again next party weekend to find out the answers to these and other questions of destiny. In conclusion, the results of our survey: Girls new to this campus this fall think the way the candidate system works is bad; girls who are candidates think the present system is OK as long as a UMR coed wins in the end; girls who have been around a while

Ugly Man Success Again

In past years Ugly Man Contest out of the 24 organizations that participated a total of \$8,000 was collected. An awards banquet was given for all the Ugly Men and every organization that participated was given an award for their effort. There are two categories that are given separate awards. There are for the most money collected and the most money per capita. Last years winners for the most money was House C, MRHA with \$3093.42 followed by House D, MRHA with \$1920. The winners of the most money per capita was House C, MRHA with \$63.13 per man with House D, MRHA collecting \$40 per man.

Theta Tau thanks the participating organizations and those who donated their time

and money for making the Ugly Man contest such a success. We believe that this year's Ugly Man Contest will be even a greater success but your help is needed. We urge all organizations to elect their Ugly

Man now and get started in helping the underprivileged children of Phelps County. If there are any questions contact Mark Dombek of Delta Sigma Phi or any of the members of Theta Tau.

don't really give a care. The worst thing about being a candidate has to be getting up for breakfast and interviews at 7:30 on Saturday morning. But as one candidate put it, "The judges have to do it, too." So, "what difference does it make", "does anybody get all psyched up about it anyway?" "it's screwed up", and "I don't care." How would you like to be queen for a day?

Do not pass "Go"....Our Chancellor is gone. Long live the new chancellor, whoever he is. Who will be the new chancellor of UMR? We did hear one professor talk about it. He said that the best way to select a new one is to form a situation where qualifications have little to do with the final choice. His solution has intriguing possibilities. It's called The Parker Hall Game and it's based on Monopoly. To play, just alter the rules slightly. Instead of streets we have departments. At the beginning every player is staked with money, so many students, grad students, assistant professors, full profs. and department chairmen. Community Chest and Chance cards would change their sayings to things like "Ypur computer is taken away" or "Loose one instructor" or "You receive \$5,000 research grant." Houses and hotels are easily analogous to equipment and new buildings. The taxes might be changed to U-Wide to annoy everyone equally. Jail would be hard to replace; perhaps a budget cut or an overall depression would work just as well. Pass Go and collect 5 students, one grad student and an instructor. The Parking lot has to be Traffic Safety (what else?) Each playing piece would be appropriately styled as a wolf, sheep, weasel, dog, snake, bull, etc. After setting up the game the top five or so applicants would be invited to play the game. During the course of play they would display all the qualities and talents of a chancellor; greed, suspicion, agony, showy jobs, etc. Then the player who grabs the biggest scholastic empire and forces his opponents to resign would be the new chancellor. This would eliminate alot of agonizing guessowrk from the final decision. One bonus for the winner is that just for a moment right there at the end of the game everything is going his way.

Dragbutton.....This is the city. Rolla, Missouri. It was Wednesday afternoon, Oct. 17, on the UMR campus. It had been rather cool all day. Some people were wearing jackets and sweaters. Some people were wearing badges. Some students were wearing buttons. Ride Their Ass' buttons. On this particular Wednesday afternoon, Oct. 17, these buttons were illegal to sell on the UMR campus. We know. We bought one.

3:20 p.m. A very brave M-Club member walks into Student Personnel selling Homecoming Buttons. A secretary buys one and hides it under her desk.

3:22 Mrs. Todd discovers student salesman and escorts him to the door, minus his name and ID number.

4:15 p.m. Assistant Student Personnel Director Joe Ward calls Traffic Safety and tells them to get 'um.

4:16 Traffic Safety asks what "get 'um" means.

Thursday, October 18

9:25 a.m. UMR alumni pledge to buy 100 buttons at \$1.00 a piece.

1:25 p.m. Hoe Ward says he will not grant permission for the sale of the buttons unless Student Personnel Director Sam Burton says to. Sam Burton currently out of town becoming Dr. Burton.

Friday, October 19

12:55 a.m. Dr. Burton tells A&E that he likes to approve things for campus sale that are "conductive to an academic atmosphere." Dr. Burton has not yet determined in his mind whether 'Ride Their Ass' fits this qualification, but in the past he has approved such things as the GDI S ixty-Miner, which more than likely did not. A year ago M-Club printed their buttons before seeking campus sale approval, and this lead to the infamous Sam Burton Memorial Homecoming Buttons, now cpilddctor's items. Dr. Burton points out that he only approves or sells them elsewhere in town. M-Club not currentlyu in good graces with Dr. Sam Burton.

11:30 a.m. M-Club meets with Sam. Sam has a soft heart. O.K.'s buttons for sale on campus.

1:13 p.m. Traffic Safety still wants to know what "get 'um" means.

Moral of the story: So go buy a button, already.

Students Busted

Continued From Page 9

Charges were filed on October 12, and the Rolla Police department tried to make the arrests. They came to the University to find out where the students named in the warrants lived, and the "emergency locator" cards on the three students were found to be either inaccurate, or not there at all. As a result, the only way the police could find the students was to ask the University Police to arrest them coming out of class. Lt. Owens said the arrests were made in an orderly manner, that the students were met coming out of class, and escorted to a waiting car. There was no force, violence, or even handcuffs used on campus until entering the car. In answer to the petition, Lt. Owens points out that the "informants" were not paid out of University funds, and that the evidence was collected as the result of a state financed operation. The only function the University police had in the operation was the locating and apprehension of the students for the city police's arrest warrants.

Sulze and Holman face a sentence of five years to life, if convicted, and Zitz faces two five years to life sentences, and a two to ten year sentence if convicted.

Miners Bow to Bears In 49-32 Offensive Battle

Greg Haug put on his third straight spectacular display of passing ability, but it wasn't enough as Southwest Missouri State University of Springfield rolled up 607 yards against the Miner defense.

The score was SMS 21, UMR 20 at the half, with UMR leading for part of the second quarter. For most of the third quarter there was no scoring, until with 1:51 left SMS put the ball into the Miner endzone on a three yard run.

In the fourth quarter things got wild and woolly. The Bears scored again, putting them ahead 35-20, but the Miners came back on a 65 yard scoring drive to make it 35-26. Kenton Hupp put the ball in from the one yard line. On the first play after they received the ball, though SMS broke loose for an 84 yard run to essentially put the game out of reach. The Miners refused to be throttled,

however, and marched 80 yards for still another TD, making the score 42-32. UMR failed in two-point conversion attempts after each of their final two touchdowns, or the score would have been even closer. Finally, with 5:17 left, SMS got one more touchdown, to clinch the game. Haug had a pass intercepted with four minutes left and there was then no more hope left for the Miners.

If the Miners can get the defense back they had in the first three games, they may be tough for next week's homecoming game with Central Missouri State. Greg Haug, freshman quarter back for UMR has shown what he can do. In the last three games the Miners have played, he has completed 30 out of 54 passing attempts. In last week's game he was 14 for 23 for 262 yards. The 32 point output for the Miners was their season best.

Merle Dillow and Stu Dunlop were also responsible for

Haug's success. Dillow, the game's leading receiver, caught eight passes for 106 yards. Dunlop had three catches for 139 yards.

Mike Joshua was the game's most successful rusher, as far as averages go, in gaining 77 yards on just four carries. Mike Keeler added 73 yards to the ground attack in fifteen carries. This was the first time for quite a while that the Miners displayed a potent running game. The total ground yardage was 210, giving them a total offensive output of 472 yards — nothing to sneeze at. The Miners are now 1-4-1 on the year. Next week is another MIAA game with Central Missouri State, and with it being homecoming, there promises to be a good size crowd. Come on out and support the Miners, there'll be a big crowd, but there's always room for more. The pre-game ceremonies will start at 1:40 and promise to be well worth coming early for.

Water Polo Team Fourth In Hendrix Invitational

The UMR waterpolo team travelled to Conway, Arkansas this past weekend. The Miners were one of eight teams entered in the Hendrix Invitational, and they came away with the fourth place award.

The Miners started off well in the first game by beating Hendrix, 12-7. But this was the highpoint of the day, as everything went downhill from here. The Miners lost the second game to Southeast Missouri State University, 7-4. This wasn't the real tragedy, however. The terrible thing was that the coach and captain of the Hendrix team (whom UMR had just beaten) were the referees in this game. They called a very one-sided game in Cape's favor, bringing back visions of the officiating in the wrestling and boxing matches at the Olympics. One bright note is that the Miners were down 5-0 at half, but battled back during the second half outscoring the Indians 4-2.

In the third game the Miners didn't play very well at all and got trounced by Southern

Illinois University, 17-4. This is in sharp contrast to the close game between these two teams the week before (a 10-6 SIU victory).

Overall the Miners just didn't look very good. Their shooting was pathetic. And only the sharp goal-tending by Mark Mateer kept the score from being even more lopsided.

With this performance behind them, the Miners now look forward to the Missouri Championships, to be held this coming Saturday at Cape Girardeau. The Miners are seeded second, with Cape ahead of them. UMR will play the winner of the University of Missouri-St. Louis-Washington University game, who will probably be UMSL. If they get by the Riverman, they will then meet Cape for the First Place Title. The Miners are capable of winning the championship. They will have to improve their shooting and get together more on defense. A victory over Cape and the Missouri Championship would be a perfect way to end the waterpolo season.

Kansas City Rugby Club Wins Heart Of America Tourney

The UMR Club traveled to St. Louis Saturday and beat the Clayton Rugby Club 26-4 with scores by Wilkes, Wykoff, Winnie and Tyra. The second team Miners went down to defeat at the hands of the St. Louis Royals.

The Miners controlled the flow of the game on both lineouts and scrums. To start the game the Miners were on the 20 yard line of Clayton for an extended time but could not push the ball over in the mud. Later Jeff Wilkes forced a fumble and then rambled for sixty yards and the opening score. Scola converted and the score was 6-0.

As the play continued to be on Clayton's end of the field Jay Tyra covered a kick in the end zone for a try and 4 points. This gave the Miners a 10-0 lead at the half.

For the second half Winnie and Dunn took a lineout from the 25 with Winnie scoring a try. Scola kicked the conversion and made it 16-0. Almost immediately following this Tom Wykoff broke it for a try the

backs moved the ball. The conversion was missed and the score was 20-0.

The Clayton team received a penalty kick on Rolla's 25 and worked the ball in for a try and four points but missed the conversion.

To end the game Rolla scored scored again as the backfield reversed and Wilkes picked his way 20 yards for a score.

Soccer Club Stuns Kappa Sig Downs Beta Sig Drury College, 7-1 For Im Football Crown

The Miner Soccer team grabbed its first victory of the season last Friday night with a 7-1 victory against Drury College of Springfield.

The Miner offense was sparked by Mike Lumpke and Tom Rischteen, who each scored one goal apiece. The other goals for Rolla came from Harry Chappel, Haseeb, Hamir and Paul Telthurst. A fair sized crowd watched the Miners dominate both halves with good passes and great hustle. The

one goal for Drury was scored on a penalty kick when fullback Rich Linck dived to deflect a rolling shot with his hand. The ball would have been in anyway for a goal.

Lindenwood will be in town this Sunday Oct. 28 for a return match after beating the Miners 5-3. Last September in St. Charles Mo. The game will start at 2:00. The Miner kickers will be ready for them, come out and cap off this party weekend with soccer.

The IM football championship was decided last week, as Kappa Sig upset last year's champ, Beta Sig, in a 30-21 victory. The game was close all the way, with Kappa Sig jumping to a 14-0 lead, and Beta Sig coming back to tie the score at 21-21 by the end of regulation time. In the five minute overtime period, Jack Costello hit Bob Kissack with a TD pass to bring the score to 28-21. Two

plays later, Beta Sig fumbled in the endzone for a safety, bringing the score to the 30-21 final. Sig Tau dominated the third place game, winning by a score over Kappa Alpha.

Intramural basketball began last week, with both men and women seeing action. In men's action, Engine Club ran over the International Students, 56-18, Tech took GDI 59-47, Pi Kappa Alpha beat BSU 45-32, Sig Pi over Lambda Chi 52-28,

TKE thumped Acacia 48-34, Campus mopped A E Pi 83-17, Sig Ep beat Liahona 49-34, and Phi Kap beat Newman 45-31. In women's play, GDI squeaked by Kappa Delta 7-4, and WRHA won a forfeit over Newman.

In intramural golf, held last weekend, MRHA came out in first place, with a 315 score by Stein and Tatman. Runners-up were Schneider and Shalliday of Phi Kap. Al Braun, an independent, was the medalist with a 151 score.

Beta Sig quarterback Steve Brown scrambles to get away from Kappa Sig's Jim Devous in last week's football championship game.

Steve Brown is stopped by Mike Barbaglia after a short gain. Stu Scott moves up to help out on the stop.

Bud Drinkers, can you figure this out?

Ralph bought a 6-pak of Budweiser® and invited four friends over to share it. Since he bought, he expected to have two cans to himself, but unfortunately when he returned to the refrigerator for his second, he found it missing. So he asked who took it. Al said, "Joe drank it." Joe said, "Dan drank it." Dan said, "Joe, that's a lie!" And Bill said, "I didn't drink it." If only one of these statements is true, who really drank it?

ANSWER: If you assume Al is the guilty one, Dan's and Bill's statements are true. If you think it's Joe, then Al's and Dan's statements are true. Obviously if you think Dan did it, then Joe's and Bill's statements are true. Obviously Bill is the Bud® snatcher, since then only Dan's statement would be true. Moral: If Ralph had bought five 6-paks, they could have spent more time drinking and less time arguing.

Harriers Win Double Dual Jensen Sets Course Record

The UMR crosscountry team got back into action last week after a ten day rest. In a double dual meet with the University of Missouri-St. Louis and Lincoln University. The crosscountry ran extremely well. The Miners beat UMSL 23-33 and easily beat Lincoln U. 16-46 for the third time of the season. In the overall standings Phil Jensen won the meet in a course record time of 25:12 which eclipses the record time of 25:22 set by Lipper of Kirksville in the 1972 MIAA Conference. UMR runners took places three through five with Bill Maples leading the Miners in a time of 26:55. David Craycroft finished second for the Miners in a time of 26:58. Third and fourth for UMR were Paul Andrews and Mike Schepflin in times of 27:28 and 27:30. After UMSL took the next three places the Miners wrapped up the meet by taking the next three places. Finishing tenth through twelfth in the meet were Lance Jensen, John Herman and Don Marlen.

The Miners continued the preparation for the conference meet in two weeks as they traveled to the Southwest Mo. State Invitational where they met the stiffest competition of their season. Teams of the likes of Arkansas, Oklahoma, Southwest Mo., Pittsburg, Kansas, Westminster, John Brown, Poprt Hayes and five of the other conference schools, gave the Miners their best look at a class field. The winning time over the five mile course was 24.13 and to place in the top 40 a time of under 26 minutes was needed. In the nineteen school meet UMR placed fifteenth. Arkansas won the meet with Oklahoma second and SWMS Third. The other schools in the conference finishing behind SWMS were Northeast, Northwest, Central, Rolla, and Lincoln.

Finishing first for the Miners was Bill Maples who in sixtyth place with a time of 26:55. In sixty-first place was Senior Mike Schepflin who finished in a time of 26:57. Third for the Miners and in seventy-seventh was David Craycroft who covered the five mile course in 27:30. Rounding out the top five scores for the Miners were Paul Andrews and Lance Jensen who placed in the eighties. The sixth and seventh men for UMR were John Herman and Don Marlen.

Rugbers Crush Clayton, 26-4; Wilkes, Wycoff Score for UMR

By participating in the Heart of America Rugby Tournament this weekend the UMR Rugby Club moved their record to 3-1. The local ruggers were entered in the tournament against 29 other teams from Minnesota to Oklahoma and from Colorado to Ohio. The Kansas City Blues won the tourney and outscored their opponents 112 to 10 in five games.

In first round action UMR shut out the Topeka Rugby Club 16-0. On the opening score for the Miners Karl Schenke took it in for a try on a pass from Jack Phillips at the five yard line after a penalty kick. Rick Scola converted the kick after to give Rolla a 6-0 lead.

The Miners controlled the field play but were unable to score until late in the second half when Bob Dunn caught a Don Grana kick on the 2 yard line and carried in over for a try and the kick was wide to give a score of 10-0 for the Miners.

The last score of the game came as Rolla controlled a lineout on the Topeka 20 and the backs broke it as Karl Schenke carried it over. Rick Scola converted the kick after to establish a 16-0 game winning score...

In the second game Rolla was overwhelmed by the KC Blues 29-0. The Rolla Ruggers moved close on several occasions but could not break it over. The Miners were not out of the game until the middle of the second half as they were only behind 10-0 at the half.

The KC Blues went on to defeat the St. Louis Falcons 18-4, Aspen Colorado the defending tournament champs, 26-0, and Des Moines Iowa 10-6 to win the tournament.

This week the Rolla ruggers will play the Central Missouri State Warrensburg Rugby Club at 11:00 Saturday at the intramural fields to add some extra excitement to the homecoming party weekend.

SEMO, LU Deadlocked In Tight MIAA Race

In MIAA football action this week, there were two games played besides the Miner Bear game — Lincoln at Maryville and Warrensburg at Kirksville.

At Maryville, it was a clash of last year's co-champs, as Lincoln nudged Northwest by a 7-3 score. Cornelius President connected with James Cooper for a 15 yard touchdown pass to give Lincoln the Saturday night victory.

The Bearcats' only score came on a 34 yard field goal by Ste e Stokes.

Oliver Paige, who kicked Lincoln's extra point, intercepted a pass on his own 10 with 1:09 left in the game to stop a Maryville drive that began on their own 23 and preserved the Tigers' victory.

Lincoln a 1-0 in the MIAA while Maryville stands at 2-1. At Kirksville, NMSU picked up their first win of the season with a 21-14 victory over

Warrensburg. Larry Jones starred for Kirksville, as he scored on a 90-yard kickoff return and a 53-yard pass reception from Bruce Hall.

The CMSU Mules scored first on a 2-yard plunge by Andrew Hudson. Jones' kickoff return for the TD immediately followed. Marv Robinson then scored for NMSU with a five yard bolt, in the second period. Ray Miller tied the score with a one yard dive, again in the second quarter. Just before the end of the half, Jones caught the TD bomb from Hall, a Rolla native for a 21-14 halftime lead. There was no scoring in the second half.

Kirksville raised their conference record to 1-1, while Warrensburg's record fell to 1-2.

Southeast Missouri State, as yet undefeated in conference play, idle this weekend.

NCR

ACCOUNTING COMPUTER DIVISION

Recruiting at
Rolla University
October 31, 1973

We are seeking engineering majors who want to enjoy the rewards offered by our dynamic computer industry.

Located in Wichita...and build a future while you help us build new computer products. We'll soon be in a new, ultra-modern facility...and there's room for engineers with growth potential.

Come in and see us October 31. Let us tell the NRC story, and see if you aren't as excited about the future as we are!

An Equal Opportunity Employer

Harmon Football Highlights

There's no doubt that one of the outstanding games of every college football season is the struggle between Notre Dame and Southern California. As usual, both teams are in our top twenty, but neither has shown the awesome power that was predicted in preseason. The Trojans were tied early in the season by Oklahoma, but they were beaten in the statistics. The Irish are undefeated, but playing a schedule that hasn't been that demanding. For 9th-ranked Notre Dame and 10th-ranked Southern Cal, national Prestige is at stake again. Our pick is Notre Dame by just two points.

Missouri goes right from one tough ball game to another. For that matter, everyone in the Big 8 Conference seems to have that kind of schedule this fall. Though they weren't upset by Oklahoma State as we thought

they might be, they remained 6th in the nation. 17th-ranked Colorado meets the Tigers this week as each game in the Big 8 has both conference and national importance. Missouri will win by 4 points.

In the East, there's still just one power, and the Nittany Lions of Penn State are it. But, like Notre Dame, they are without a very strong schedule. This week they play West Virginia, a team that started strong and has faded in recent weeks. Penn State, rated 5th, will beat the Mountaineers by 30 points.

Alabama was the noisy survivor in its big clash with Tennessee last Saturday, and the third-ranked Tide takes on V.P.I. this week. Barring a let-down, Alabama should "survive" again, this time by 35 points.

It gets to be rather old hat in the Big Ten week after week as

the two powers, Ohio State and Michigan, move methodically through their schedules toward their eventual championship clash on November 24th. The Buckeyes, still second, are 37 points stronger than Northwestern, and the Wolverines, in 4th place, will win the annual battle of the Little Brown Jug, beating Minnesota by 27.

And emerging as the third top independent this year along with Notre Dame and Penn State is Houston. The cougars, ranked no. 12, are still undefeated and are looking for what could be another big win. Houston is favored over Auburn by ten points.

Oklahoma and Arizona State will continue their power football. The top-ranked Sooners will beat Kansas State by 31 points, and the undefeated Sun Devils, or not, 11 national power will whip Oregon State by 26 points.
