## Alumni Association Holds Annual Awards Banquet

The MSM-UMR Alumni Association honored 17 individuals at the annual awards banquet last night held as part of the UMR homecoming activities.

Honorees were presented plaques. They were selected for the awards by an anonymous committee of alumni.

Awards were given in three categories — Alumni Merit Awards, Alumni Service Awards and Alumni Achievement Awards.

Those receiving Alumni Merit Awards were: Bill L. Atchley, '57, professor of engineering mechanics and associate dean of the UMR School of Engineering as well as Governor Bond's science adviser and chairman of the State Energy Council, given in recognition of leadership and outstanding service to the University; Robert F. Bruzewski, '47, associate professor in mining engineering and active in professional societies, given in recognition of exemplary competence in teaching and counseling; Glen Haddock, professor of mathematics and chairman mathematics department as well as former head of the Council of Department Chairmen, given in recognition of leadership and outstanding services to the University; Kenneth G. Mayhan, '65, professor of chemical engineering and senior materials investigator Space Sciences

Research Center (body implant material a specialty), given in recognition of teaching and research; Sylvester J. Pagano, '46, professor of mathematics, given in recognition of exemplary competence in teaching and counseling; Thomas J. Welsh, president of Welsh Associates (management consulting firm), former president of Schick Safety Razor, Eversharp, Inc., and Paper Mate Co., and served as visiting professor of engineering management at UMR 1972-73, given in recognition of exemplary competence in teaching and counseling, and Bobby G. Wixson, professor of environmental health and director of intercampus, interdisciplinary "New Lead Belt" Environmental Project, given in recognition of teaching and research.

Those receiving Alumni Service Awards were: Elmer W. Belew, '47, executive director of the Bi-State Development Agency, St. Louis, past president St. Louis chapter of Missouri Society of Professional Engineers and St. Louis Section of American Society of Civil Engineers and president elect of Engineers' Club of St. Louis, given in recognition of outstanding service to the University and his community; William D. Busch, '42, district manager of Pettibone Corp., Cleveland, Ohio,

and area representative for MSM-UMR Alumni Association, given in recognition of outstanding service to the University and the Alumni Association; Vernon T. McGhee, '42, director of systems planning for Phillips Petroleum Co., Bartlesville, Okla., and area representative for MSM-UMR Alumni Association, given in recognition of outstanding service to the University and the Alumni Association; Jack H. Thompson, '52, vice president-manufacturing, Bodine Aluminum Co., St. Louis, and area representative working with UMR students, given in recognition of outstanding service to the University and the Alumni Association, and Russell H. Weithop, '32, retired chief-planning and reports branch, Missouri River Division, U.S. Army Corps of Engineers, Omaha, Neb., and representative for class of 1932, given in recognition of outstanding service to the University and the Alumni Association.

Those receiving the Alumni Achievement Award were: Fred W. Finley, '41, partner in Finley Engineering Co., (consulting engineers) Lamar, given in recognition of outstanding professional accomplishments; Hilbert F. Michel, '36, chief engineering division Ohio River

Division, U.S. Army Corps of Engineers, Cincinnati, Ohio, given in recognition of outstanding professional accomplishments; Frank E. Townsend, '11, retired chief chemist, National Zinc Co., Inc., of Bartlesville, Okla., and still a practicing consultant, given in recognition of outstanding professional accomplishments, and Melvin P. Weigel, '23 (deceased) retired vice president of Alcan Aluminum, Ltd., Montreal, Quebec, Canada, given in recognition of outstanding professional accomplishments. The award will be accepted by Mr. Weigel's son, William Melvin Weigel.

This fall, in addition to providing scholarships, the MSM-UMR Alumni Association is providing \$5,000 for financial aid to University of Missouri-Rolla students through an Educational Assistants program. Funding by the association has been increased from \$2,000 provided last year for the pilot program.

Faculty members were requested to submit proposals of projects of educational value to be performed by students under faculty supervision. The proposals were reviewed by the Association's Committee on Student Financial Aid and nine projects benefitting ten students were chosen.

The projects, students and faculty involved are as follows:

—Donald H. Bolin, 1301 Oak, Rolla, working under the supervision of Dr. Rober Clifford, will develop experiment kits for distribution to high school students and teachers.

—Tim Collopy, 4718 Gatesbury, St. Louis, will work with Professor Ronald Rozell on development of undergraduate mathematics teaching materials.

—John D. Cummings, 2467 Hermitage Hill, Frontenac, with Dr. D. R. Askeland, will do undergraduate laboratory modification and equipment updating in the metals processing area.

—Kirk Hayden, Route 1, Joplin, with Dr. Roger Ziemer, will install and check out recently contributed instructional equipment in electrical engineering.

—Lindell R. Hurst, 2823 Angelo, Overland, will do a feasibility study on a possible new method of electrolyzing metals from aqueous solution at UMR's Materials Research Center under the guidance of Dr. Thomas J. O'Keefe.

—Walter F. Lewis, 724 Fairview, Webster Groves, and John L. Wegman, 1101 Winston Dr., Jefferson City, will work together under Professor Ralph Lee, assisting in the development of a new Computer Educational Services Laboratory.

—David Scholnik, 1706 Elm, Rolla, will work with Dr. Chris Garbacz and Dr. Al Spreng on an analysis of the economic impact of coal gasification on the Missouri coal industry.

—Douglas Wood, 8201 Fendale Dr., Affton, will continue work with Dr. Edward Hale on experimental physics investigation after outside funding of the work expires in Dec.

—Carl Eyberg, Rolla, will be working directly with the MSM-UMR Alumni Association on a project to trace alumni whose addresses have been lost to the association.

## Debbi Egerstrom Homecoming Queen

Miss Debbi Egerstrom of Phi Kappa Theta is shown wearing her homecoming queen crown at the coronation. The stunning blonde is a graduate student in counseling at Mizzou.

Photo by Blanc

Miss Debbi Egerstrom, representing Phi Kappa Theta, was named 1973 UMR Homecoming Queen during halftime of the UMR-Central Missouri State University game Saturday afternoon. The inclement weather caused the cancellation of coronation activities planned for the halftime show. The formal coronation was held Saturday at the Coronation Ball in Centennial Hall of the University Center.

Debbie, a stunning blond, blue-eyed belle, is the daughter of Mr. and Mrs. Paul Egerstrom of Raytown, Missouri. She is a graduate student in counseling and student personnel at the University of Missouri-Columbia. Miss Egerstrom is a member of Kappa Alpha Theta social sorority and she is avidly interested in outdoor sports, especially water skiing, snow skiing, and horseback riding. During the past two summers, Debbie has co-directed a youth recreation program and has studied at the University of Missouri-Kansas City. Her escort was David Lee Rinas.

"I was really surprised and very excited," exclaimed the pretty coed after the announcement of homecoming queen.

First runner-up was Monica Hance, representing Tau Kappa Epsilon. Kathleen Warren of Alpha Phi Alpha was second runner-up.

Fall Fashion Show Sponsored by Hospitality Committee of SUB On Nov. 2, Friday, at 8 p.m. In Centennial Hall Theme: Camelot There will be also male models and gag outfits, with a skit during intermission.

## In The Movies

### Bang the Drum Slowly

Paramount Pictures' "Bang the Drum Slowly," based on the classic American novel by Mark Harris that explores human friendships using the backdrop of professional baseball, will open Wednesday at the Uptown Theatre.

Michael Moriarty, Robert DeNiro and Vincent Gardenia star in the Rosenfield Production from ANJA Films, which also includes the talents of Phil Foster, Ann Wedgeworth, Patrick McVey, Tom Ligon, Heather MacRae and Selma Diamond.

They filmed in the ballparks and locker rooms of New York's Shea and Yankee Stadiums, receiving valuable assistance from the New York Yankees, the New York Mets, the Pittsburgh Pirates, the Boston Red Sox, the Cleveland Indians and the Philadelphia Phillies.

### Don't Look in the Basement

"Don't Look in the Basement" starts Wednesday at the Ritz.

When nurse Charlotte Beale comes to Greenpark Asylum she finds a strange group of inmates and a wild set of circumstances: the Doctor who had hired her has been killed in an accident by a patient with an axe, and a nurse has been strangled. She is told to remain by a Doctor Masters who appears to be in charge, and briefed on the patients and their problems.

As time passes more violent acts occur. One of the patients is found sprawled on the floor with blood everywhere and her tongue cut out; a telephone repairman is found slaughtered; drugs and patients records disappear.

It is obvious to Charlotte that one or more of the patients have gone berserk, but she has no clue as to which ones are committing the atrocities and a fear that she may be next.

All control over the patients vanish, Charlotte finds a note telling her to leave at once and to watch out for Dr. Masters. Frightened, but not able to contact the outside world, she searches for a way out. All the doors and windows have been barred. Almost hysterical one of the patients, Sam, comes to her aid and leads her to safety through a concealed door. She pleads with him to accompany her but he hears screams coming from the building. He returns inside only to find a scene of bloody slaughter with the patients attacking each other. When the carnage ends only Sam is left alive. He is alone...truly forgotten.

## Thompson Assumes UMR Chancellorship

As you know, Dr. Baker resigned as Chancellor of UMR last Thursday, October 18; he will, of course, remain with the University as a Special Assistant to the President. Immediately upon his announcement, we took every effort to notify the campus of his decision, and to institute procedures for a Search and Screening Committee to begin work as soon as possible in seeking a replacement. Also, as Acting Chancellor, I am taking this early opportunity to inform you of my very strong feelings on two aspects of the campus operation: (1) the need for delegation of responsibility and authority; and (2) the need for clear, timely and effective communications.

In regard to the first point, it my intent and purpose to decentralize appropriate functions of the campus operation to their respective levels of authority, responsibility, and accountability. Each level of administration has sufficient and responsible authority for necessary decision at that level; one of my tasks will be to aid in their accomplishing those decisions.

In keeping with my second point, I will, upon invitation, meet with the Student Council and with other appropriate representative student groups to discuss procedures for the identification and resolution of campus problems. I will accept suggestions or inquiries from individual students that relate to the campus as a whole and which lie outside a single school or college administrative structure.

If we cooperate and utilize effectively our present academic and administrative structure, the Academic Council, and the various standing and special committees, I see no special problems in the on-going operation of the campus. As Acting Chancellor, I will support and aid you in your activities and decisions, but, again, the authority, responsibility, and accountability will reside in the appropriate level of operation. Acting Chanc Dudley Thompson

## Traffic Violations Grow

Unidentified student carooms dangerously on rear wheels down narrow student walkway.

On the spot Campus Police move swiftly to uphold law and order and arrest deviously irresponsible student.

In St. Louis

## Rolla Night Next Week

St. Louis area high school and college students, their teachers and parents are invited to hear about engineering and about UMR at "Rolla Night" at 8:15 p.m. Thursday, Nov. 8, at the Engineer's Club of St. Louis, 4359 Lindell Blvd.

The program will be on "What Will Tomorrow's Engineers Need to Know?" There will be a short film feature, "Creating a Better World Through Engineering," and a panel discussion by four UMR engineering students. They will give their views on

what an engineering graduate needs to know and what considerations enter into the decision of selecting an engineering field.

There will be a question and answer session. After the meeting guest may visit informally with UMR alumni, faculty and administrators on such things as admission, costs, scholarships and loans, housing, athletics and cooperative education.

"Rolla Night" is held annually at the Engineers' Club to help acquaint St. Louis area students with UMR.

Brice Ratchford, President of the University of Missouri Board of Curators, appeared at the Homecoming Bonfire last Friday night to lend his support to the Miner effort.

## UMR Student Drowns

The death of a UMR student Thursday evening during a life saving class at the Multi-Purpose Building swimming pool has been officially declared to be caused by drowning.

Phelps County Coroner Paul Null said Saturday that an autopsy found the lungs of James Spielman, 19, of suburban St. Louis County, were saturated with water. His other vital organs were not affected, Null said, which led Phelps County Memorial Hospital staff pathologist Roy Nomura to conclude the death was due to drowning.

Null said investigation into why the young man was not able to bring himself to the surface during the life saving exercise will be conducted. The pathologist will continue to study the possibility of contributing factors to the drowning by using laboratory tests.

Possible causes in the death mentioned by Null included cramps and nausea.

Spielman was involved in an exercise in which the class of seven students were practicing removal of clothing in the water, Null said. He was wearing a heavy sweatshirt, which could have become entangled around his head.

The victim's body was not noticed immediately, Null said, because all the class members were involved in the exercise. The bottom of the pool was littered with clothing and not until the young man's face was seen among the clothes was the accident detected.

A life guard was on duty during the class and the instructor was watching the exercise, Null said.

A similar drowning occurred at UMR last year in which death was attributed to cramps and pneumonia.

## 3 Humanities Courses Added

This spring the Humanities Department is offering two new courses and will be resuming a course the department has offered in the past. The courses are: Art 20, English 99 and Humanities 199.

Art 20 or Design 1 will be offered on Tuesday afternoons and will be worth two credit hours. The class is open to all students and is a basic course. The size of the class is being limited to 15 students due to lack of space and the large amount of instructional time given to each student. The instructor will be Mr. John Koenig, who received his art training at Columbia Univer-

sity, New York. Interested persons may obtain further information by contacting Mr. Koenig at 341-4360.

English 99 or Science Fiction is a new 3-hour literature course. The students and instructor will discuss definitions of science fiction and fantasy, basic methods of fiction and how they apply to science fiction, characteristics of science fiction, and science fiction as a contemporary vehicle of the literature of ideas.

Textbooks will include at least one anthology of short stories and six to eight novels. Authors such as H. G. Wells, Arthur C. Clarke, Ray Bradbury, Robert Heinlein, Kurt Vonnegut, and Samuel Delany will be represented.

English 1 is a prerequisite for the course.

Humanities 199 or Early Western Culture: Man, the Law, and the Church is an in-

terdisciplinary course that will integrate the art, history, literature and philosophy from the Greek, the Roman and the Medieval Periods.

The course is structured to combine faculty from four disciplines:

Dr. Wayne Cogell, Philosophy and course coordinator.

Dr. Wayne Bledsoe, History.

Dr. David Oakley, Music

Dr. Patricia Patton, English.

Lectures will be combined with a fine arts laboratory and student tutorials.

Four hours of credit will be given for this course, which may be used to satisfy general humanities requirements or may be used as an elective. The course does not satisfy prerequisite requirements in any discipline.

All questions about this course should be directed to Dr. Wayne Cogell, Room 220 H-SS, phone 341-4628.

## Tau Beta Pi Workday

Tau Beta Pi, the national engineering honor society at UMR, wishes to announce plans for holding a workday on November 3rd. Letters have already been distributed to the faculty and a heavy response is anticipated.

On November 3rd, the initiates for the semester will provide the manpower to do any sort of various jobs. People will be available most of the day, starting at about 9:00 A.M. The payment is left up to the employer, with the workers gladly accepting whatever the person thinks the job is worth.

This workday will draw to a close the "pledging" period of the initiates. The following Saturday, November 10th, will be the day of their initiation and banquet. Dr. Tom Beveridge will be the guest speaker at the Banquet, which starts at 6:30 P.M. in the Centennial Hall. This is open to the public, and everyone is cordially invited to attend. Tau Beta Pi is again in need of strong faculty participation, especially among those faculty that are members of Tau Beta Pi. The banquet is the highlight of the semester's activities; hopefully a large crowd will join Tau Beta Pi in honoring its new members.

The Patricia Principle Unfolds

By ANDERSON AND ELVEN

The world is indebted to the magazine Psychology Today for coming up with a new theorem which will undoubtedly become known as "The Patricia Principle."

The basic premise of The Patricia Principle is that in this male-dominated society there is now absolutely no way for a lady to reach the top.

To reach the top, of course, you have to show your male superiors how bright you are. This is very difficult for a lady who isn't bright. But it's downright impossible for a lady who is.

The problem, writes the noted psychologist Matina Honer, is that a bright lady fears success on the grounds that it "may mean to her that she is too aggressive to be 'feminine.'" So the brighter she is, the greater her desire to fail. Which is her problem.

But now that Psychology Today has let the cat out of the bag, the world knows that bright ladies have a compulsion to fail. So henceforth, the bright lady, in order to keep proving to her male superiors how bright she is, is going to have to keep failing. Which makes it very difficult to get ahead.

Take the case of Ms. Penelope Pine. Ms. Pine landed a job as third executive assistant to Vice President M.C.P. Hotchkiss of Conglomerated Everything, Inc., because of her I.Q. of 178, her superb business acumen and the conglomerate needed a token female executive to hold the Women's Libbers at bay.

At first, Ms. Pine performed her duties to perfection. She proved a whiz at Creative Corporate Thinking, Public Imagery Manufacturing and Cleaning Out the Coffee Pot. Her future seemed assured. Then Psychology Today hit the newsstands.

Soon, she began to overhear snatches of conversation around the water cooler: "... never makes a mistake..." "Odd, I always thought she was rather bright..."

Finally Mr. Hotchkiss called her in. "If it's about that opening as second executive assistant," Ms. Pine said hopefully, "I think my work has proved..."

"No, no, your work's fine," said Mr. Hotchkiss. "But I just wanted to let you know we're keeping you on anyway."

Being very bright, Ms. Pine realized her plight and began making errors, culminating in her boiling the crucial Amalgamated Manganese contract in the coffee pot.

"Brilliant!" cried Mr. Hotchkiss happily. "Of course, we'll have to let you go. But it's been a pleasure knowing a person as bright as you."

"What I really ought to do," Ms. Pine said to herself angrily, "is go to Denmark for a sex change operation."

"As a man, I would be lauded for my brilliance, applauded for my combativeness and praised for my aggressiveness. I could shaft that second executive assistant, undercut that first executive assistant, carve up old Hotchkiss and climb over their shattered careers to the very top of the heap — to be praised by one and by all as the very epitome of success."

But being very bright, Ms. Pine rejected the notion after only a moment's thought. In fact, it was she who first put The Patricia Principle into words: "Bright women are too bright to descend to the level of men."

## Blue Key And Monthly Miner

Blue Key is again sponsoring the "Miner of the Month" award this semester. A great deal of success was had last year, and hopefully the award will be expanded this semester.

An application form will be sent to the president of each organization near the end of each month. The organization will then nominate an individual and state their reasons for doing so. The forms are then returned to the Blue Key mailbox in the Student Union by the specified date. The nomination is open to all members — male, female or faculty advisor. It is sincerely hoped that all organizations will take an active role in this program.

Blue Key also will initiate a new program, a "Miner of the Year" award. This will involve a separate nomination process at the end of the year, and it will be open to everyone — even those not involved in one of the monthly awards. This will give those who made a consistent contribution to an organization throughout the year an opportunity to be honored.

Anyone having questions concerning either award should contact Marvin Borgmeyer at 364-9980.

Cracked mirror ..... As we reflect back on yet another UMR Homecoming, our minds are filled with many things (besides a hangover). First, the way that Miners can have a good time more consistently for an extended period of time has to outdo any other college campus in the universe. Time and time again the frivolities of a Rolla Party Weekend have proven themselves unparalleled across the country, and this weekend was no exception. Second, if you read last week's column we were digressing on the woes of the UMR coed as a queen candidate, and speculating on whether UMR would pass the point where they have to import girls to satisfy all the guys. Well, we have no kind words left for the poor coeds, because we heard that some of our campus lovelies actually had the nerve to import GUYS for the weekend. So the image of the campus is ever changing, right? In conclusion, an ode to Homecoming Party Weekend:

He is not drunk who, from the floor,  
Can rise again and drink some more.  
But he IS drunk who prostrate lies  
And cannot drink and cannot rise.

—anonymous

Quote of the Week ..... From a recent UMR Faculty Digest, "Please advise the appropriate faculty member if you become aware of a freshman who is not successfully adjusting to UMR." So who ever does?

Horny, horny, horny ..... Each and every year there are times when men band together and participate in a ritual that women, although not barred, are discouraged from attending. It seems that this strange ritual occurs usually in the week prior to a party weekend, such as Homecoming. If you watch enough you see the signs; furtive glances, downcast eyes, and hushed tones rising to unparalleled glee. To the experienced watcher the signs are quite clear. About Wednesday or Thursday the gatherings take place in dimly lit halls, houses and clubs. Under the cover of darkness they come by 2's and 3's mainly, but oft times alone. These who come alone are the ones to watch the closest. They enter, "check" their coats, and find a seat; not too close but definitely not too far away either. The tone of the entire room is subdued, but as the tongues begin to loosen (whether from spirits or spirit is hard to determine) they joke and comment in ways that would make sense to no one else. They have now entered that level of mind where even the most innocent of remarks is deliberately twisted into a warped and obscene meaning. If it's cold then a person wears a coat; innocent enough, but it still draws glances of wonder from the assembled males. At last the leader enters, the man that everyone looks up to. He's the guy that will make the evening happen. Through his fingers pass some of the world's most beautiful scenery. He is the projectionist. The first scene is greeted by hysterical shouts of gratitude and encouragement. But soon everyone is engrossed in the action and the crowd falls silent. All are leaning forward with that desperate air of casual eagerness. On and on it goes till finally they emerge; eager, ready, willing to launch themselves at anyone in a fit of tormented anguish. The ritual repeats. And then, the stag flicks are over.

Memo to Aux. Ent. .... We heard from a few of your employees that after Mr. Musick read our story a while back about himself and the Red Cross that he was so mad that he told his snack bar workers to cut back on the number of french fries given to students and use a smaller size scoop for serving juicy burgers. That couldn't be true, could it Aux. Ent.?

Credits ..... Homecoming appers out of focus, still ..... We made an appearance at the stag flicks solely out of our duty as reporters ..... Aux. Ent. apperas in this column so often because we love them so much ..... Got a minute? Why don't you apply to be UMR's new chancellor. You're probably as qualified as anyone Ratchford's Search Committee will find ..... KMNMR appears to be heading for a sign-on next week, cause they finally got their transmitter from Gates (a dirty word on this campus) ..... that's all.

# Letters To The Editor

October 17, 1973

5 Lynn Whitson  
Rolla, Mo. 65401

To the editor:

It has long been our intention to bring before our fellow students the incredibly dilapidated state to which the student services here at UMR have sunk under the inept guidance of the bureaucratic racket so glibly termed "Auxiliary Enterprises." The lack of consideration which has of late become the hallmark of "servicers" at the Student Union was epitomized by the recent incident with the Red Cross. Such a response on the part of the narrow-minded officialdom of AE was suprising, but not necessarily unexpected when considered in light of the following:

With several times the space and more than double the facilities, AE now manages to serve only 80 per cent as many students as they did two years ago with a marked reduction in efficiency. In all fairness, however, it must be kept in mind that such a performance has been produced with the handicap of several additional administrators who may often be seen idly strolling about the Union.

Next consider the efficient new check cashing system, purportedly instated for the purpose of eliminating lengthy delays at the cash register. One can only point out that such delays are minimal when compared to the delays encountered when trying to be served with the present system. But for the efforts at the counter employees (who seem to be among the few persons now actually working productively in the Union) operations would approach a complete standstill. Perhaps the experience of the former administrators and the longer term employees—many of whom are still on campus and even in the Union—should be utilized to rectify the deplorable conditions we now have. As a suggestion, checks might be accepted for the exact amount of purchase at the registers (with a valid student ID) to avoid the problems of running short of cash at the candy counter as well as swamping it during mealtimes.

To depart from such intangibles as individual student dignity, consider a topic of more concern to the average Miner—PRICES! Considering the fact that a cheeseburger costs 40 cents, and a grilled cheese 35 cents, one is tempted to conclude that the "hamburger patty" in the hamburger is only worth a nickel—and that the bun costs 30 cents! Or take the great chili-dog paradox: for 45 cents one may purchase a

styrofoam thimble full of chili—while for 50 cents one may have the same basic quantity of chili ladled over a hot-dog and bun—which means that either the dog and bun are worth only 5 cents, or that the styrofoam bowl has some mysterious value other than adding to the already significant quantity of trash produced by the "totally disposable" concept currently practiced in the old Union.

Having already belabored our point, let us summarize with the following list of what we feel to be the main problems:

1) There is no need to please the student because there is no place where complaints are acted upon.

2) Since there is no need to please the student, there is for the most part no effort made to do so.

3) There is a failure on the part of AE to recognize that the function of the Student Union is to be a service, not a harassment.

4) AE has an "assured" clientele due to its advantageous location on campus, and it therefore is not burdened with the usual business need to be responsive to patron needs. Interestingly enough, AE operates on the UMR campus in

a facility being paid for by UMR students out of their own pockets.

In conclusion, we cannot blame poor service on inadequate facilities, since the facilities are all new or recently remodeled; we cannot blame inefficiency on the "front-line" employees, since they must work within the confines of the rules set forth by the AE administrators; we cannot blame unreasonable prices on inflation, since many privately-owned eating establishments in Rolla serve better food for lower prices (and they MUST be making a profit!); none of these seems to be the primary problem. We suspect that the primary problem is the unthinking attitude of the present AE administrators which ignores the individuality of the student. The student is regarded as a "consumer" rather than as a valued customer. Perhaps there is too much dead weight in the upper echelons of AE administration. We wonder if these challenges will be adequately answered by AE? Surely the MINER will be more than happy to provide them with the space to do so.

Sincerely yours,

John F. Peters  
James R. Schneider

OCT. 22, 1973

TO THE EDITOR:

I am a first year graduate student at UMR. I also received my undergraduate degree here. During the last four and one half years I have periodically read the MISSOURI MINER, and I think it is about time I expressed my opinion of it.

Within the pages of the MINER I have been confronted with continual profanity, obscenities of various descriptions, highly suggestive advertising for birth control, and adds for all the local bars. That's by no means a detailed list of grievances, but it should give you a general idea of what I'm objecting to. I am told that the MINER represents the UMR student body. If that be true, then our school, and for that matter our generation (for UMR is not that different) is in sad shape indeed.

Perhaps the most annoying thing about the MINER is that I am forced to support it financially. You can be sure that in this country an atheist would not be required to support a publication that asserted the existence of God. Yet on this campus many students are required to support a publication that expresses opinions which violate both

their conscience and religious convictions. That's just one indication of the warped sense of justice that prevails today. It is considered unethical to mention God in public, for fear of offending someone. Yet on this campus, in the classroom and out, I hear the name of my Savior constantly dragged through the dirt. That's not a plea for sympathy, it is not the expression of a persecution complex. It is an assertion that the decent mind is insulted and disgusted by modern values and morality, including those presented in the MINER.

In closing I would remind you that at least a small percentage of the students on this campus do not think of getting drunk as the ultimate experience. There are a few young men who do not think of every girl they meet as a potential bed-mate. If the MINER is going to make any pretense of representing the whole student body, the staff would do well to keep that in mind. It obviously has not to date.

## Miners Saddle Mules With 24-14 Homecoming Defeat

Rick LaFollette showed he's probably the best second string quarterback in the college ranks Saturday as he rallied the Miners to a 24-14 win over Central Missouri State. It was a great game for the alumni and visitors as well as students, and a "had to win" affair for UMR. This victory puts the Miners at 1-2-0 in MIAA action.

LaFollette came out throwing, after freshman quarterback Greg Haug was injured in the third quarter. Haug had another good performance in the first half, though he had two passes intercepted. Under heavy rushing and not a great amount of help ground-wise, he kept the Miners in the contest 14-10, Mules'

favor until receiving a mild concussion from a hard tackle. Rick then came in to save the day. The old combination of LaFollette LeGrand worked like a charm as the two connected on several on passes to quickly give the Miners a 17-14

Continued on Page 7

The Miners defeated the CMS Mules in Saturday's Homecoming football game. The 24-14 victory raised the Miner's conference record to 1-2-0.

## Harriers Routed by Bears; Prepare for Conference Meet

The Miners finished their season of dual meets last Saturday with a 15-50 loss to the Southwest Missouri State Bears. In the meet dominated by the Bears, the Miners showed the effects of a hard season. Southwest captured the first nine places with Ken Norton taking first place honors with a time of 25:29. Bill Maples lead the Miners contingent taking tenth place in a time of 27:22. David Craycraft and Mike Schepflin finished eleventh and twelfth with times of 28:34 and 28:59. Other miners running Saturday were Lance

Jensen, John Herman and Don Marlen who finished thirteenth through fifteenth.

The Miners finished their season with a 6-2 record, which gives them one of the few winning seasons ever. Despite Saturdays trouncing by the Bears, Coach Algood was very optimistic about the Miners hopes in Saturdays conference meet at Warensburg. Southwest appears to be the dominate team in Saturdays meet, with Northeast, Northwest, Southeast, and Central battling for the next four places.

Saturdays meet will conclude

the season which has had it ups and downs. With a young squad, four freshmen and three juniors, the Miners are hopeful of one of the fine performances of which they have showed that they are capable of. With an outstanding performance by everyone on the team the Miners could surprise many people at the conference meet.

## UMR Second In Water Polo Tourney

The University of Missouri-Rolla water polo team took second place in the just completed Missouri College Water polo championship. The meet was held this past Saturday at Cape Girardeau, with the home-team Indians capturing the top spot.

The Miners drew a first round bye, and then reached the championship game by virtue of their win over the University of Missouri-St. Louis. The final score was 16-12. The game was marked by an unbelievable total of 85 fouls — with 7 Rivermen and 5 Miners fouling out. And although the officiating was obviously very picky, it was the same to each side. As it turned out, this hurt UMSL more than it did UMR as the game was tied after regulation play. But in the overtime the Miners dominated and pulled out the victory. It finally boiled down the fact that the Rivermen fouled out more key people than the Miners did.

Cape had a scare in its semi-final game, as it barely got by Meramec Community college 14-12 in overtime. Meramec was really dejected after the game as it had two goals called back during regulation time.

Thus the Miners went at the Indians in the championship. Two very even teams played a very good game; the bad part was that the Miners were on the short end of a 9-7 score. The Miners gave a very good, solid team effort; Cape just hap-

pened to do a little bit better.

This marked the third meeting of these two teams this year, and all three times Cape has come out on top — the other two times winning by three goals. This also marked the final game of the water polo season for the Miners, who finish with a 6-6 mark. Even though this doesn't sound like the record of a powerhouse team, there has been great improvement over last year. For instance, the Miners finished fourth out of five in last year's Missouri Championships; this year they were second out of six. The competition was also much tougher this year. The losses were three to Cape, two to SIU and one to UMSL — all three schools having very good teams. When one puts the Miners and Meramec in with these teams, one really has some great talent. As noted above, there were several overtimes in the championship meet, indicating that there are several very fine teams in Missouri. And although injuries hurt the Miners, especially at the end of the season, they still felt they had a good season. They improve quite a bit, but so did everyone else.

The Miners are proud of their showing this season, and now look forward to the swimming season, the intrasquad meet comes up on November 15th, with the first actual meet on December 1st.

## Miners Record First Conference Victory

Continued from Page 6

lead. UMR was in complete control of things during the fourth quarter, and, after scoring another touchdown, were threatening again when the clock ran out.

Mike Hobick, who replaced injured David Wisch, showed everyone that there's more than one freshman around here who has a great future in football. Besides completing every extra point attempt after the three Miner touchdowns, he booted a 40 yard-plus field goal against the wind.

After LaFollette led the Miners on another scoring drive to deep within Mule territory, a halfback pass from Bobby Ajhar to Rodney LeGrand gave them another touchdown. It was a perfectly executed play and had CMS fooled all the way.

Merle Dillow had another excellent afternoon at tight end, being a favorite target of Haug's and a major factor in

the scoring of the first half. Mike Keeler was the leading rusher of the afternoon with 89 yards. Another runner, fullback Mike Joshua, is one of the top ground gainers in the MIAA this season with a 5.5 yard-per-carry average. His performance in Saturday's contest didn't hurt that average. Joshua figured in several key plays for the Miners and showed some great second effort running.

Next weekend, UMR travels to Washington University in a continuation of the traditional rivalry between the two schools. Coach "Bud" Mercier pointed out that this rivalry is a somewhat unique one, since it involves two of the best schools, academically, in the midwest. Washington University has an especially strong team this year, so if you're going to be in St. Louis over the weekend try to go to the game and give the Miners some yelling support.

## Miner Ruggers Edge CMS; Boost Season Record to 4-1

As the UMR Rugby Club downed Central Missouri State, 10-7, they moved their season record to 4-1. Good hustle gave Grana and Scola their scores in the hard fought game.

With a wet field from occasional rain, ball control was hard so it turned into a scrum coverage contest. Neither team was able to control the play of the game or break the long one as both teams showed excellent effort on defense.

In the first five minutes of the game, Rick Scola covered his own kick and slipped into the side of the endzone. The kick was short for the conversion, but Rolla still led, 4-0. Both teams battled up and down for the rest of the half until with two minutes left, Warrensburg received a penalty kick on the 20 which they converted for three points. This made it 4-3, Rolla, at the half.

The game was a standstill until midway in the second half UMR moved the ball down the field. With the Miners forcing the ball across the goal line, Dominic Grana got it down on the ground for the score, and Bill Zaner kicked the conversion to make the score 10-3.

In the last two minutes CMS forced the ball down to Rolla's goal line and over for a score, but the conversion was wide and Rolla held on to a 10-7 win.

In the second team game, UMR lost 6-4 as Tom Aykers went over for a score on the side of the end zone, but the kick was short. Warrensburg broke one loose and had an easy conversion kick to go ahead 6-4 and win. Both second teams were young, but showed good hustle and desire.

This weekend the Ruggers play UMC at Columbia, Saturday at 10:00 a.m. on the Reactor field just south of Faragot Field.

## Lindenwood Rallies to Down Soccer Club, 2-1

The weather was rotten but the soccer was great as UMR and Lindenwood battled it out here last Sunday. The Miners open first blood when forward Mike Lampe pounded one into the nets midway through the first half Lindenwood came back with two quick goals to make the score 2-1 at half time. The second half was a defensive battle for Rolla. The wind was stiff and against the Miners in the second half. Goalie Mark Miller kept

Rolla alive with great saves and Lindenwood had 8 corner kicks in the second half. The Lindenwood defense took no chances, with a one goal lead they played safe and held on to win.

This Friday the Miner kickers will represent UMR in one of the largest college tournaments in the nation. The event is in Springfield, Missouri, at the Evangel Tournament. Eight schools are entered including a team from Southern Cal.

## Tech Club Wins IM Cross Country

Eighteen games were played in Intramural basketball action last week. In League One, Wesley defeated Alpha Phi Alpha 40-27, Kappa Sig trounced BSU 39-16, and Pi Kappa Alpha squeaked by Alpha Phi Alpha 27-24.

Action was heavy in League Two, with five games being played. Beta Sigma Psi was a double winner as they defeated Delta Sigma Phi by a score of 29-18, and Liahona by a score of 44-16. In other action in League Two, Sigma Tau Gamma edged Engineers 35-34, TKE trounced Sigma Phi Epsilon 56-33, and International beat Delta Sigma Phi 30-24.

Acacia won two games in League. Three last week. They defeated Theta Xi 31-26, and Newman 43-17. Other action saw Tech Club crush Alpha

Epsilon pi 69-16, Campus wip Phi Kappa Theta 64-32, and GDI outscore Theta Xi 52-42.

In League Four, Sig Nu squeaked by Delta Tau Delta 29-28, and they also defeated Lambda Chi Alpha by a score of 41-38. In the only other action in League Four, MRHA edged Sigma Pi 37-36.

In womens action, Wesley defeated Zeta Tau Alpha 17-10, and WRHA defeated Kappa Delta 28-10.

In the Cross Country meet that was held last week, the winner was Hawthorne from Campus Club, with Scherer from Sigma Phi Epsilon the runner-up. The Winning team was Kieffer and Ziegler from Tech Club, followed by Mudd and Scherer from Sigma Phi Epsilon. The winning organization was Tech Club.

## Harmon Highlights

This might be the week that Penn State finally runs into a little trouble. The 5th-ranked Nittany Lions have been breezing through their 1973 schedule hardly stopping — or needing — to breathe. However, the vastly improved Maryland Terps have been just on the fringes of our top twenty all fall, and they should give State a busy afternoon. Upset is possible, not too probable: Penn State will win by 13 points.

And Ohio State and Michigan will continue to blow their opposition off the field. The Buckeyes pounded Indiana a couple of weeks ago — this week, it's Michigan's turn to do the same. The Hoosiers will be buried by 32 points by the Wolverines. Ohio State will top Illinois by 25. Ohio State is rated second, Michigan, fourth.

It's about time we turned to a run-down of our winning and losing average for the first

seven weeks of the season. It seems to become more of a task each year bringing all the scores up to date. Our over-all average has crept just over the 75 per-cent mark. Of 1308 games, we have picked 986 correctly for a .753 average. With the major colleges, our percentage is almost 75 per-cent on the nose, but it's in the small college division in the East where we're doing our best picking . . . just under 79 per-cent.

Notre Dame and Southern California both get some relief after their nationally spotlighted meeting last Saturday. The Irish, rated 7th, will beat Navy by 23 points, and the 9th-ranked Trojans will go back to Pacific 8 Conference warfare, tangling with the Bears of California. Southern Cal is favored by 25 points. Also on the West Coast, Washington gets a dubious crack at

U.C.L.A. The Bruins, no. 6, will be much too strong . . . U.C.L.A. by about 46 points.

Houston ran into a Tiger and was upset by Auburn last week. The Cougars are in the number 18 spot in our ratings. Another independent, Florida State, is the opposition, and Houston should go back to winning. The Seminoles are 24-point underdogs.

And once again the Big 8 Conference is the battle-ground for no less than four major contests. Number One ranked Oklahoma meets Iowa State . . . 10th-rated Missouri plays Kansas State . . . Oklahoma State, no. 6, battles Kansas, no. 19 . . . and nos. 11 and 14, Nebraska and Colorado tangle. The winners: Oklahoma by 32 . . . Missouri by 17 . . . Oklahoma State by seven . . . and Nebraska by 7. That should at least straighten out a few of the conference problems for the moment!

Tom Tanner of UMR prepares to get off a pass to Jeff Schumacher (left). the Miners lost to Lindenwood College, 2-1.
