# Renovation Now in Progress

Renovation has started on Fulton Hall. This is a first in a series of alterations, modifications and demolitions recommended by the Commission of Higher Education. In a study made in 1971 the commission looked at all buildings on the UMR campus built prior to 1960. Their report called for major alterations in Fulton, Harris, Norwood, Civil, and Electrical Engineering buildings. It also called for the demolition of the Old Met, Mining, and Rolla buildings with new buildings to be built in place of them. In addition, modifications were called for in many other buildings. Because of the

classroom space problem, only one building will be worked on at a time and Fulton Hall is the first.

In late June the contract for the alterations in Fulton was given to Bron Construction Company out of Kansas City and the construction began in September. The contract calls for improving and updating the utilities, new external windows and doors, central air conditioning, an elevator, and the extension of the third floor which adds about 1000 square feet of floor space. The state funded project will cost a total of \$1,125,896. It is ex-

pected to be completed next fall barring strikes.

The first part of Fulton was built in 1923 and occupied until 1950 by the U.S. Bureau of Mines. It was then expanded to 39,000 square feet and occupied by the university in 1952. Not too much has been done since then so renovation plans were needed badly to update and make Fulton a more usable building. The next building on the alteration agenda probably will be Harris Hall but it will not be started until Fulton is completed.

Work on Parker Hall has just been completed. Parker was once the school

auditorium, then converted to the school library and then to the present administrative offices and it was beginning to show its age. The work included cement slabs to cover the cracks in the foundation and fixed the external windows and doors. In the back of Parker Hall the lot was regrated and designed to keep the rain out of the basement offices, improve traffic patterns and generally improve the looks of the back entrance to our campus. Money for the renovation came from University funds and like Fulton these improvements were badly needed.

## clean-up is success again

The third annual city-wide clean-up community project was held on Saturday, November 9. This community project is a coordinated effort of the Inter-Fraternity, the City of Rolla, CURE and the Rolla Area Chamber of Commerce. Its success was measured by the full cooperation and action of all the citizens of Rolla that joined with the more than 80 members of the Inter-Fraternity Council who have volunteered to improve the overall appearance of our hometown. The four member coordination committee was represented by Mr. Dave Shepers, IFC; Mr. George Curtis, Sanitation Department, City of Rolla; Mrs. Sharon Tryon, CURE and Mr. Gary Broyles, Rolla Area Chamber of Commerce.

It was hoped that three objectives would be attained by this project:

(1) A better personal awareness of all the citizens of our area that a cleaner city reflects a greater personal pride in ourselves and the environment of our hometown.

(2) That by placing special efforts to the pick up of trash and litter of all sorts along the principal highway routes within the city limits of Rolla, it will be an example for both our local citizens and our visitors that we do care about our community image and strive to discourage those who spread the national "litter-bug" disease.

(3) The annual accomplishment of gathering up tons of trash throughout our city, which results in a cleaner more acceptable appearance for all to see and enjoy.

Saturday's Clean-up project was conducted as follows:

**The Residential Pick-Up Plan:** To assist CURE in our Rolla Recycling Program, citizens are asked to bundle papers; where practicable, separate all tin cans either in plastic bags or cardboard boxes; and place all other trash in plastic bags.

**Major City Route Pick-Up Plan:** Inter-Fraternity Council Teams were assigned to pick-up trash along the highway right-of-ways from:

(1) Highway 63 North from Rolla Drive In theatre to 63 South at Lanning Lane.

(2) Highway 66 West from Bishop Avenue to Howard Johnson Motel plus Martin Springs Drive to West City Limits.

(3) Highway 72 from Hillcrest Shopping Center Southeast to City Limits, all business firms and residents who are located along the above city-routes were invited to place their trash at the highway right-of-way in front of their property where it will be picked up.

Assisting the city sanitation department were additional trucks and drivers which have been volunteered by civic-minded business firms and the University of Missouri at Rolla.

There were also members of the Inter-Fraternity located at the Four Way Stop Lights at Bishop Avenue and 66 West passing out free automobile litter bags to motorists until the available supply of 3000 were exhausted.

Students of all Rolla Schools joined in this special effort by conducting their own trash pick up. Mayor Barnes and Ed Owsley, Chamber Executive Mr. George Curtis estimated that approximately 18-20 tons of trash were picked up on Sat. morning, speaking on behalf of the Coordinating Committee expressed their personal appreciation to the Inter-Fraternity Council and all its members; the students of the Rolla

Schools and all other volunteer workers who are making this community project possible which will add positive action to the meaning of Community Pride did their share of clean up this Saturday. The IFC wishes to thank: Mr. Ed Owsley, Rolla Chamber of Commerce, for the effort he put into organizing and aiding in the clean-up; Mr. Gary Broyles, for his efforts and his donation of the litter bags; the sanitation men Mr. George Curtis especially who worked over-time on Saturday; Lt. Gibbons and Charlie DeLoge, for the use of the walkie-talkies, which proved to be very helpful; UMR, for the help and supplies that they donated.

This friendly-looking mass of people is preparing for the third annual Rolla city-wide clean-up. Approximately 18-20 tons of trash were collected during the community effort Saturday morning.

Those responsible for its success were the IFC, CURE, The City of Rolla, and the Rolla Area Chamber of Commerce.

## BASKETBALL CHEERLEADERS CHOSEN

Basketball cheerleader tryouts were held last week and the following girls were chosen by the Student Council to represent the Miners this season. They are Jackie DeThorne, Patty Doyle, Jill Hansborough, Gina Pruitt, Leslie Simmons, and Jan Stock. Lou Holt and Diane Wilson were chosen as the alternates for the year's squad. The Student Council would like to thank all the girls who tried out.

## CLASS EVALUATION

The Student Council is holding its class evaluation November 18 through November 22. All classes which are not classified as seminars and having more than ten students will be evaluated. The above holds true for all departments except the Mechanical Engineering which chose not to be evaluated because of their own evaluation. The questions on the evaluation will be similar to last year's but the results will be printed "newspaper" style for easier readability.

## FREE GIFT PAX

The Student Council with the assistance of the University Center candy counter is distributing free gift pax to all UMR coeds.

The pax contains such items as aspirin and shampoo. You may pick them up anytime between now and November 26.

## STUDENT FINANCIAL AID NEWS

Missouri Grant applications for the 1975-76 school year will be available in the Financial Aid Office, 106 Parker Hall, starting Monday, November 11th. The form must be filled out and submitted between January 1st and April 31st of next year. This is an almost sure \$274 for those who apply.

College Work Study funds are still available for the current year. Students can apply now or request a reevaluation of a previous application. This program is a means of reducing one's loan obligation.

## calendar of events

Nov. 16—Intrasquad swim meet, 2 p.m., Multi-Purpose Building. Free.  
Nov. 21—Jazz ensemble concert, 8 p.m., Centennial Hall, University Center. Free.  
Nov. 23—Football, Southwest Missouri State University, 1:30 p.m., Jackling Field. Admission charged.  
Nov. 23—Swim meet, Drury College, 7 p.m., Multi-Purpose Building. Free.

## STUDENT UNION BOARD EVENTS

FRIDAY, NOV. 15 — CONCERT — The McCormacks, 8-12 p.m. Centennial Hall, UMR ID required.  
FRIDAY, NOV. 22 — COFFEE HOUSE — 7-12 p.m. Snack Bar Old Student Union  
SATURDAY, NOV. 23 — CONCERT — DAVE LOGGINS Multi-Purpose Building  
SUNDAY, NOV. 24 — MOVIE — Executive Action 4 and 6:30 Centennial Hall

## ARM WRESTLING CONTEST

Delta Sigma Phi is sponsoring the first annual UMR Arm Wrestling Contests on December 3 at 6:30 p.m. There will be five weight categories for the Joe Miners and three weight categories for the Josephine Miners. Awards will go to the top two finishers in each weight category of this single elimination tournament. A plaque will be awarded to the organization with the most points per capita.

Entry forms are available at the candy counter in the new Student Union or from Rick Yelton at Delta Sig. The entrance fee is \$1, and all proceeds of the event will go to Theta Tau's Ugly Man. Entries are due by December 2.

So come out, and let's show all those huge, and not so huge, biceps working for the UMR Ugly Man. For more information call Rick Yelton at Delta Sigma Phi at 364-4289.

## FACULTY EVALUATION PROCEDURES

The Student Council faculty evaluation project will run Nov. 18 through 22 this semester. The committee will send cards and question sheets to eligible instructors by Nov. 15. An eligible teacher is one with a class of 10 or more students and one who is not in charge of a seminar. Any instructor who fits into the "No Evaluate" category may have his or her class evaluated by making a request to the Student Council Faculty Evaluation Committee through the council office. The Student Council would like to urge all faculty to allocate about 20 minutes of class time toward the evaluation. Each individual may run the evaluation whenever it is convenient between Nov. 18 and 22.

## STUDENT FREE DAY — 1974-75 ACADEMIC YEAR

UMR's Student Council has chosen Thursday, March 27, 1975, as the yearly student holiday allowed each academic year. This choice, in effect, adds one extra day to the beginning of Easter vacation.

## ELECTRONIC PRESENTATIONS

A new policy covering all electronic presentations (slide shows, audio tapes, videotapes, etc.) prepared by administrative offices on the Rolla campus has been adopted.

The policy requires that all such presentations which are for general, external public use must have the approval of the office of public information. This does not, however, affect those presentations academic departments may prepare for presentation to specialized audiences (professional meetings, conferences, etc.). However, assistance from public information is available for such presentations if the academic department so desires.

The policy also does not in any way affect such presentations prepared for instructional purposes.

## TURKEY SHOOT

There will be a turkey shoot held by the Pershing Rifles Saturday, November 16. Hams, slab bacon, turkeys and beef will be offered. The grand prize is a forequarter of beef (approximately 150 pounds of meat) so come on out to Lions Club Park Saturday and win meat for yourself, eating club, or fraternity. (Shotguns available). Shooting will start at 1:30 p.m. Cost for entry will be \$1.50 per shot. Entry for grand prize is \$3.00.

## eta kappa nu inducts 13

On Saturday night November 9, Eta Kappa Nu, the honorary electrical engineering honor society, inducted 13 new members. The ceremonies were held at the Lion's Club Den, where a buffet supper was served. Master of ceremonies for the evening was Dr. J. Derald Morgan and the guest speaker was chancellor Bisplinghoff.

## alumni inducted

Five civil engineering alumni of the University of Missouri-Rolla will be inducted into the UMR Academy of Civil Engineers during the group's annual meeting here Nov. 15-16.

The academy recognizes alumni for outstanding professional and civic contributions and serves as an advisory group to the UMR civil engineering department. New members will be inducted at 10:15 a.m. Saturday, Nov. 16, in the Civil Engineering Auditorium. UMR Chancellor Raymond L. Bisplinghoff will be the speaker.

New members are:

John G. Duba of 2725 N. Fillmore St., Arlington, Va., vice president, Airport Facility, Airline Transport Association, Washington, D. C.

Herman A. Fritschen Jr., engineer, construction, Cities Service Oil Co.

Vernon A. C. Gevecker of 1101 Stata St., Rolla, UMR professor emeritus of civil engineering.

Harley Ladd of 6806 E. 47th South, Tulsa, executive director, City of Tulsa-Rogers County Port Authority.

Ernst A. Weinell of 6502 Forest Blvd., East St. Louis, Ill., president, M & I Construction Co.

Activities scheduled for academy members include a business session, classroom visits, a conference with civil engineering faculty members and campus tours. New members and civil engineering faculty members with more than 15 years service will be honored at a Friday evening dinner.

Although rain fell on the March of Dimes Walkathon for the second straight week, the walk was completed as the 20 miles was pro-rated to equal one walk around the Multi-Purpose Building parking lot.

## McCormacks return

At first, the audience was expecting the usual run of the mill folk concert, but this was soon proven to be a false assumption. By using the versatility of talent, humor, and sarcasm, Dick and Georgia held an audience of Miners in awe throughout their entire performance.

THE MISSOURI MINER-1973 November 15, Centennial Hall will host a return engagement of Dick and Georgia McCormack, the famous folk-singing duo, to UMR.

The McCormacks, with their "root" music, combine an

understanding of traditional folk-lore with a versatile use of contemporary styles. Their selections run the spectrum from blues and folk to current works by Dylan and Guthrie to originals by Dick McCormack. As entertainers, Dick and Georgia add their own special brand of relevant and satire humor, dealing with both the current social and political scenes.

The SUB sponsored concert will begin at 8:00 p.m. Admission is free to all UMR students with valid ID.

## AICHE Receive Award

The UMR student chapter AICHE has been informed by Mr. Don Bugg, of the Dow Chemical Company and chairman of the AICHE student chapters committee, that it has been selected for the annual student chapter "Award of Excellence" for the 1973-74 academic year. The UMR chapter is one of the 130 such chapters established at universities throughout the United States. This is the fifth consecutive year that the UMR chapter has been selected to receive this award.

Marvin Borgmeyer and Stephen Chilton, chemical engineering seniors, were presidents of the UMR chapter during the 1973-75 year. Borgmeyer is currently dually enrolled in the undergraduate and graduate school programs and will be continuing his work toward the masters degree in chemical engineering next year. He has been awarded a Tau Beta Pi fellowship to support him during this year of graduate study. Chilton, who will be graduating in December 1974 is currently being interviewed by several companies in the chemical industry for permanent employment.

This award will be officially presented to the UMR chapter at the annual chapter awards meeting during the second semester. Mr. Bugg will make the presentation on behalf of the

national AICHE organization and its student chapters committee at that time.

Dr. Harvey H. Grice, professor of chemical engineering, is the student chapter counselor on the UMR campus. Borgmeyer and Chilton and Dr. Grice will be attending the annual meeting of the American Institute of Chemical Engineers in Washington D.C. in December to participate in student chapter workshops.

Last year the academic council gave final approval to additional academic rules affecting only those undergraduate students who entered UMR during the 1972 Fall Semester or thereafter. Students enrolled at UMR prior to the 1972 Fall Semester are not affected by these academic rule changes (students with student numbers less than 32705 are under the old rules).

At the time the rule changes are implemented they are to be made retroactive to the beginning of the 1972 Fall Semester. The action taken by the Academic Council specified that the changes would not become effective until they could be mechanically implemented in the Registrar's Office. It is expected the conversion will start in June of 1975 when a new data processing system is implemented on all four campuses of the University of Missouri.

Students who entered UMR during the Fall of 1972 or thereafter will have in addition to their cumulative grade point average another overall grade point average called the academic grade point. The cumulative grade point average will continue to be calculated as it now is for students who first enrolled during the Fall Semester 72 or thereafter. In calculating the

cumulative grade point average all grades of A, B, C, D, or F that a student receives are included. In the event that a course is repeated all grades for the course are retained in the cumulative G.P.A. However, under the rule changes the cumulative grade point average will be used only to determine eligibility for honors at the time of graduation (as defined on Page 64 of the current Manual of Information). Also, the cumulative grade point average will be used for the purpose of ranking students at the time of graduation.

In calculating the new academic grade point average only the last grade earned in each course will be used. If a student earns a failing grade the F grade will only be included in the academic grade point average will be used instead of the cumulative average for determining probationary status at the end of the semester, for determining the maximum permissible schedule for an undergraduate student, and for

applying the 2.0 minimum grade point average necessary for graduation.

If a student transfers from one department or major field to another, whether without or within the University system, the student's transcript will be evaluated by the receiving department. All courses with the respective grades will be shown on the transcript. The receiving department will determine which courses will apply toward graduation. Only these courses will be used in the calculation of the academic grade point average. (It should be noted that all other rules governing transfer students shall apply for students using this option.)

The new rules concerning the academic grade point average are contained in the 1974-75 edition of the Manual of Information available from the Registrar's Office. If you have further questions concerning the new rules or the implementation of these rules please contact Mr. Lauren A. Peterson in the Registrar's Office.

## the missouri miner

The MISSOURI MINER is the official publication of the students of the University of Rolla. It is published at Rolla, Missouri, every week during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879. The subscriptions are \$2.00 per semester. This MISSOURI MINER features activities of the students and faculty of UMR.

## Happy's Credit is Rocky

Personally, I feel these attacks on Mr. Rockefeller are not only scurrilous but downright illogical. After all, he's the only politician in the country who's on the give.

I'm confident he will explain fully to Congress how he gave or loaned a couple or three million (who counts?) to friends, employees, neighbors, cousins and offspring. But I can't see how he's going to explain loaning \$15,000 to his wife, Happy.

I suppose it could happen in any typical American home. It's a difficult scene to envision, however.

Scene: Rocky is seated behind his desk in his study. Happy enters, shopping bag in hand.

Happy: I have to go to the store, dear. Could I borrow \$15,000?

Rocky: Always glad to help out a wife, fella. And at the prime rate, too. Just make yourself comfortable in that chair there while I fill out your loan application.

Happy (testily): Why do I have to fill out a form? I saw that list of your debtors in the paper. Just give me one good reason why you loaned that pretty Joan Braden \$10,283 last New Year's Eve.

Rocky: It was all I had on me, fella. Now then, occupation?

Happy: Homemaker, as you well know.

Rocky: Unemployed, eh? And you women wonder why you have trouble getting loans. Answer the phone, will you.

Happy (hands over the receiver): It's your son, Rodman. He wants to know if he can borrow the family car and \$27,000.

Rocky: Tell him I'm not using either. Glad to hear he's got a date. Let's see here. Do you own your own home, the one you say you're making?

Happy: You know very well it's your home, dear.

Rocky: Unemployed, homeless...Drat, there's the phone again.

Happy (answering): It's your cousin, Winthrop Aldrich. You know, the one who used to be chairman of The Chase Manhattan Bank. He wants to borrow your lawnmower and \$12,000.

Rocky: Anything for a cousin. And remind me to close my account there before the word gets out. Where were we? Oh, yes. Number of years at present address?

Happy: But we just moved out of the Governor's Mansion,

dear.

Rocky: Unemployed, homeless, no permanent address...What about name of last employer as credit reference?

Happy: It was you dear. Remember? I worked as your secretary when you were first elected Governor in 1958.

Rocky (writing): Previous employer out of business. Now, any history of (check one) insanity, lewd conduct, bankruptcy...Doesn't that phone ever stop?

Happy (answering): It's your son, Steve. He wants to borrow one of the other family cars and \$12,600.

Rocky: Okay, but why can't that kid date a better class of girl like his brother? Last question: Husband's occupation?

Happy: But, dear, you're currently unemployed.

Rocky: (tearing up the form): Well, fella, there goes your credit rating.

Perhaps it didn't happen like this. But if not, how can Mr. Rockefeller justify to Congress his ambition to be Vice President and economic trouble-shooter when he goes around making loans to poor credit risks like his wife?

## new book by UMR prof

On November 20 a book entitled "We Wait in the Darkness: American Indian Prose and Poetry" will be released for publication by G. P. Putnam's Sons, New York. The book is edited by Frank R. Vivalo, an anthropologist at UMR, and Jacqueline J. Vivalo, a freelance writer who holds a graduate degree in literature. They collaborated with Gloria Levitas, an anthropologist at Queens College, New York, in producing this collection.

Though in the past few years, a number of Indian anthologies have appeared, the present work is unique in several ways.

The book is organized so as to present its material in a novel way. The selections are divided into three general categories: Before the Coming of the White Man, After the White Man Came, and The Present. Within these categories, the selections are further subdivided according to "culture areas," clusters of Indian societies whose social systems show significant similarities. Finally, within the culture areas, the selections are broken down according to tribe.

The forty-page introduction places the selections in social context and provides background information to add to the reader's enjoyment of the anthology. A map is provided indicating the location of the

various tribes represented in the book. There is also a detailed table accompanying the map which lists the primary economic activities and language classification for each of the tribes.

The book contains a comprehensive bibliography of published works by and about American Indians which is nowhere else available and which is a valuable resource for anyone interested in the First Americans.

The collection contains many selections more than a century old which have never been anthologized, as well as many of the most recent works of Indian writers. Footnotes are kept to a minimum so as not to distract the reader from the beauty of the original works.

This anthology will be of interest to Missourians not only because two of the editors are residents of Rolla but also because about forty of the selections are drawn from the Prairies culture area, the area of which Missouri is a part. Readers interested in local history will therefore find this anthology useful.

Dr. and Mrs. Vivalo have combined the perspectives of anthropology and literature to produce a collection which one reviewer called "a useful and revealing introduction to American Indian literature and folklore."

## Grade Averages Go Up

A recent article in Time magazine prompted an investigation on the part of the Miner staff. The article was entitled 'Too Many A's' and it concerned the emphasis on grades which students nationwide have adopted and a simultaneous increase in grade points throughout many major universities. An example from the article states that 'At Yale, 42 per cent of all undergraduates spring-term grades were A's, and 46 per cent of the senior class graduated with honors.'

The graph shows the general trend of the all mens GPA for the last six semesters. This trend is a general increase to a whopping 2.80 last semester. This average would astound

many alumni who graduated in the days when all mens was 2.40 and below.

The reasons for these facts are very speculative here at UMR. A better calibre of students is possible, but not too probable. A decreasing emphasis on the grading system on the part of professors and students seem feasible.

If the latter is true, grades would become arbitrary and the use of no firm system at all in judging a student's performance would erase a true comparative evaluation of students, eliminate the competitive spirit in grades-earning, and imbalance the presumed equality of knowledge acquired is proportional to grades.

All men's GPA increase over past six semesters at UMR.

## The Minerity Report

by Sandra McCorkle Gale

Any psychology major could no doubt speak to you more eloquently on the subject of conditioning and its effects, but the conditioning of women has led to some things I'd like to discuss now.

I've heard rumors that the most shocking thing about my first column in the Miner ("Horney Henrietta") was specifics of the subject matter. Women aren't supposed to talk about men's dimensions, or was it that women aren't supposed to be horny? I forget now, but the important point is that women do discuss these things, and have for a long time. It's just that we have been socially conditioned to believe that "ladies" don't talk about such things.

Another tale that is currently popular is that men have more fun with men, women have more fun with men, and nobody has a good time with women. This is supposedly documented by Dr. Theodore Rubin. This may be true for a generation of people conditioned by society to believe that only men were interesting, powerful, earthy, or just plain fun. I don't believe it is true for the majority of people today.

Women are getting together more now, getting out in the world more now, and telling it like it is a whole lot more now. Women are no longer embarrassed to discuss men's physical dimensions, physical prowess, or their own horniness. Women can drink together, smoke together, play team sports together, and talk about any subject that interests them. Women have a special camaraderie just as men do because of our special physical features, and the conditioning that goes with them. Conditioning can work for us for a change, if we get together on that basis and begin to have a good time.

What is this illusive "good time" that men have and women supposedly do not? I believe it is based on a sharing of good feelings more than bad, a sharing of experiences more than emotions. It is having enough trust in your fellow man (or woman) to drop the competitive spirit long enough to laugh.

Feminism isn't as dreary a philosophy as some people seem to think. It is an exciting discovery of somewhat forgotten human beings, and if you're a woman, you may be surprised to find that other women have been feeling the same self-doubts, the same self-pride ("I'm making it in spite of being a female"), the same type of problems. And finding that out can be a releasing thing, a mood elevator like no chemical.

Feminism can be fun! All you're really doing is admitting your womanhood (as opposed to remaining a dependent girl) and sharing a pride with others of your same sex. The fun thing is that now you can openly build your own closet to come out of, without thinking of yourself as masculine. Or you can take great pride in your arts and crafts that you may have thought of as "only woman's work." You can get into sports without worrying about muscular, masculine legs; or you can be a good wife, a good mother, and be proud of it.

You have a right to equal pay for equal work, a right to equal consideration under the law, and — good news of the week — you have a right to equal fun!

Speaking of equal pay for equal work, for information purposes I wanted to touch on job discrimination. Sex discrimination on the job is not as hard to define as most people think. It exists when women are paid less than men who are doing comparable work, when they are promoted less rapidly than men, when they have fewer job opportunities, or when they are considered by employers to be less efficient, less able, less businesslike, less serious, less dependable, or more expendable than men. The laws that protect women from this discrimination are the Executive Order 11246, Title VII of the Civil Rights Act of 1964, and the Equal Pay Act of 1963.

If you feel you have a complaint, but are afraid to complain because you might lose your job — get rid of that fear! Complaints are handled absolutely confidentially, and changes that happen as a result happen for all women involved. Do yourself and your sisters a big favor if you are faced with sex discrimination on the job.

Or if letter-writing is a drag for you, seek out the local person who represents one or more of these programs. The Affirmative Action program offices on this campus are located in Parker Hall. Room 102 for students and faculty, Room G-1 for staff.

'WELL, ROCKY, NOW THAT YOU'VE SEEN THE OVAL OFFICE, LET ME SHOW YOU THE ROSE GARDEN... ROCKY?... ROCKY?...'

## ediletters

Editor,

I'm writing in regard to the letter written by "an observant student." I'm one UMR co-ed that disagrees with that letter that was obviously written by another co-ed.

Personally, I'm sick and tired of people bitching about the overall appearance of a Miner. Granted, there are a few that are pretty turkey-looking but not all of them are and I don't think they should all be labeled "greasy." It never said anything on the entrance application that all the guys are going to look like Burt Reynolds. These guys are going to this school so that they can get a degree and rake in \$36,000 a year and not to hope a scout from the New York School of fashion sees them. If she's so observant she should of noticed that not all the guys fit her description anyway.

I think the appearance of the guys should be left up to their own personal tastes. A lot of them don't dress up or act like Mr. High Society mainly due to the fact that they don't have

anybody on this campus they particularly feel they should be trying to impress. I say leave them alone and let them go their own way. Nobody said you had to look their way.

A UMR Co-ed

P.S. In answer to their drinking, I'm sure that if you had any other ideas they'd be glad to listen.

## Could you be a nuclear expert?

(If so, you could earn more than \$500 a month your Senior year.)

Even if you're a Junior engineering or physical science major, it's not too early to start thinking about your career. And if you think you've got what it takes to become an expert in nuclear power, the Navy has a special program you should look into right away.

Why right away? Because if you're selected, we'll pay you more than \$500 a month during your Senior year. (If you are presently a Senior, you can still join the program. We'll begin paying you \$500 a month as soon as you are selected.)

What then? After graduation, if you're selected to be a nuclear officer, you'll get nuclear training from the men who run more than 70% of the nuclear reactors in the country — Navy men. And an opportunity to apply that training in the Navy's nuclear-powered fleet.

Only about 200 men will be chosen for this program this year. So, if you're interested see us in the Placement Office or in the Old Student Union.

**Be someone special  
in the Nuclear Navy.**

# Amoco is engineering

## ...from your first day on the job.

Paul J. Dudenas,  
Penn State '73  
"I am in charge of  
an oilfield."

William J. Grays, right, Texas A&M '73:  
"You can see your skills blossom."

Bruce H. Stover,  
U. of Oklahoma '71:  
"I have total  
responsibility."

At Amoco Production Company we believe that working is better than watching. Like the young Engineers pictured here, you'll be given a direct engineering assignment the first day on the job. And from your first day on the job you'll be engineering for a leader, a member of the Standard Oil (Indiana) family — the 13th largest industrial firm and the 6th largest oil producer in the country. But our engineering groups are small and individual accomplishments are quickly recognized. Amoco Production Company is a young leader. About 40% of our practicing engineers are 30 years of age or younger, and our salaries and comprehensive benefits are among the best in all of U.S. industry. If you are a Senior majoring in Engineering, we'd consider it a privilege to talk to you about the possibility of employment...as an Engineer, from your first day on the job.

**Sign up for an interview now.  
Recruiters will be on campus  
Oct. 1, 2, 3 and Dec. 3, 4, 5.**

Leslie D. Skinner,  
Texas Tech '72:  
"Amoco gives you  
experience in a hurry."

Steve Shaw, U. of Missouri-Rolla '73:  
"By 11 am the first day, they wanted my recommendations."

Frank D. Henderson, right,  
U. of Texas '72:  
"I'm getting all the experience  
and help I need."

# miner sports

## Miners Lose, Haug Plays Only One Half

The physically battered, weary Miner football team took a playing break from their tough conference race last Saturday, but bowed to host Eastern Illinois University 17-0. The physically awesome Eastern team (their offensive line averages about 260 lbs.) never really took command of the game, but held off the Miner's best shots deep in their own territory twice in the second half.

Herbie Herman, normally a defensive back, started the game at quarterback for the Miners, but had his problems. Eastern took the opening kickoff and marched to the UMR 11, but lost the ball at the five on a fumble. However, on the Miner's first play Herman failed to connect with the snap, and Eastern got the ball right back at the 5. Eastern scored on a pitch out two plays later and held a quick 7-0 lead.

The Miners generally failed to put anything together the rest of the half, and late in the second quarter Eastern increased their

lead with a 32 yard touchdown run on a pitchout.

Greg Haug started the second half for the Miners, and directed a 46 yard march following the kickoff. Greg attacked Eastern through the air, hitting Stu Dunlop for 13 and 12 yard gains, and Merle Dillow for 10. The drive was stalled at the Eastern 32 when Haug fumbled under a heavy pass rush and Eastern recovered. Late in the quarter the Miners moved up for their best scoring shot, mainly due to a 39 yard pass play from Haug to Dillow. With a first down at the Eastern 12, Mike Joshua gained 5 yards, Keith McGuire picked up 2 more, but on third down Dunlop dropped a pass in the front corner of the end zone. Haug was sacked on fourth down and the drive halted.

Eastern drove right back, aided by a 40 yard gain on an end around, but was stooped and settled for a field goal.

The game gave the Miners a chance to use some reserve players and evaluate their depth. The next two weeks will

decide the MIAA conference race, with UMR in the driver's seat with a 3-0-1 record. This Saturday the Miners travel to Maryville (4-1) and then come home to host Southwest (4-1) in the season finale. Both games are "musts" for the Miners, who realistically must win or tie in both games to have a chance at the title.

Statistically for the Miners Greg Haug was 7 of 15 passing for 122 yards. Merle Dillow caught 4 for 91 yards. Running backs Mike Joshua and Mike Keeler ran well, though they were used sparingly after Eastern jumped on top. Josh had 61 yards on 13 carries, Keeler 57 yards on 10 carries. Eastern, however, was devastating on the ground, averaging 4.6 yards for 60 carries.

## playoff spots still open

First semester intramural action is almost over with, and the traditional powers seem to continue to dominate the major sports.

In basketball action, where the traditional four team system in the playoffs has been changed to an eight team round robin, at least one playoff position is still up for grabs in every league. In league one, TKE has been looking tough, and seems to have wrapped up the league championship. But the second position can still be grabbed by either Kappa Sig or GDI.

In league two, Tech Club is the only unbeaten team, but they have yet to play Campus Club, which has suffered only one loss. In addition, Sigma Nu and KA are in a good position for the second spot for the playoffs.

In league three, MRHA and Acacia both remain undefeated, and look to be the two teams to beat for any team which wants to gain a playoff berth.

In league four, the game between Beta Sig and Pi Kappa Alpha will only decide which team is first in the league and which is second, if things stand as they are now. Both teams are undefeated, and each of the

other teams in the league has lost at least two games.

Soccer, which is also an eight team round robin playoff sport this year, is also drawing to a close. However, standings are not available at this time. Soccer will be highlighted in next week's edition.

Billiards and table tennis doubles and singles are also being played.

## intrasquad swim meet

This Saturday the UMR swimming team opens its season with an intrasquad meet in the Multi-Purpose Building. The meet starts at 2:00 p.m. and everyone is invited to attend this opening action. Timers and judges are needed; if interested, contact Coach Bob Pease as soon as possible.

This year's team is deeper and stronger than ever. They are doing longer workouts each day now than they did last year. The team is young, but have six seniors who are providing excellent leadership. Bill Orr and Mike Norberg are returning All-Americans. Every varsity record may be broken this year.

The team is the defending MIAA champion, and has the talent to repeat this year. Come on out and see some fast, exciting action this Saturday at 2:00 in the multipurpose building.

## SMSU Takes Country

The Southwest Missouri State Bears, behind the outstanding performances of star runners John Prasuhn and Dan Dwyer, outclassed all opposition to win the MIAA conference cross country meet here in Rolla Saturday. UMR finished sixth despite a much improved team performance over last year.

Dwyer, who holds the UMR course record, finished second to teammate Prasuhn who won the meet in near record time, 24:16.5 for the five mile course. Other SMS runners finished ninth, tenth, eleventh, sixteenth, and fortieth, giving the Bears 33 team points to 54 for second place Central Missouri State.

For the Miners, who outdistanced only Lincoln U., Dave Craycroft finished nineteenth in 26:09; Greg Lovell (28th) in 27:22; captain Mike Schepflin,

the team's only senior, (29th) in 27:33; Rusty Hoerman (33rd) in 27:49; John Herman (39th) in 28:28; Lance Jensen (41st) in 28:38; and Bill Maples (45th) in 29:52.

Other team scores were: Southeast Mo.-72; Northwest Mo.-108; Northeast Mo.-118; UMR-148; Lincoln-168.

INDIVIDUAL TIMES: (1) Prasuhn (SMS) 23:16.5; (2) Dwyer (SMS) 24:27; (3) Jensen (LU) 24:29; (1/2) Wellerding (NW) 24:37; (5) White (SE) 24:52; (6) Gray (CMS) 25:01; (7) Tabb (CMS) 25:05; (8) Henderson (SE) 25:06; (9) Tideman (SMS) 25:11; (10) Vipperman (SMS) 25:12.

The meet wrapped up a fine season for the youthful Miner harriers. Many of the young runners showed great improvement and hold much promise for the future.

## M-Club

### athlete of the week

This week's best athletic performance was turned in by Don Broekelman, a goalie for the Soccer Club. Don earned this award for allowing only 1 goal against Maryville College. Most of the game was played on the Miners' end of the field in a driving rain. Although the ball was extremely slick, Don was sure-handed all day and allowed no rebounds. He stopped 27 shots and the only goal allowed was due to a defensive mistake. The Miners also added a goal resulting in a tie score of 1-1.

Don is a junior CE major from St. Mary's High School in St. Louis. He was exposed to soccer when he entered grade school and has been playing since. Don commented that he "would like to see the team go varsity since we've been playing all varsity teams." The club practices two nights a week with their practice schedule squeezed in around intramurals. They have had a quite successful season playing against all varsity teams, most of which are made up of all scholarship players, that practice everyday of the week.

The soccer club has increased interest in the game and they feel that varsity status would help attract more and better players. The operation of the

club is financed by a \$300 grant from the Student Union, \$4.00 per semester membership dues, \$50 from the Optimists for conducting a soccer clinic and they sold team Booster memberships to area businesses and faculty. How dedicated the players are to the game and the team is seen in the fact that they have to pay for gas and meals to all out of town games which does not come out of membership dues. M-Club feels that all of the soccer club members deserve a pat on the back for their dedication and "never-say-die" attitude.

DON BROEKELMANN

## DIEHL MONTGOMERY FORD SALES

Rolla, Missouri

(The Originator of the Student Finance Plan in this Area)

This plan allows the students upon approved credits and job, to buy a new car with nothing down and payments of \$25.00 per month until you are on the job. This plan is not new, Diehl Montgomery Ford has sold over 750 new cars and trucks to graduating students this way. See us for all the details. Also you can use your own insurance or ours.

FORD LINCOLN MERCURY

This allows the graduating students to have a new car before he graduates when he really needs it.

"This is a special discount program for students. We will be glad to quote you a price on any Ford or Mercury product."

We Want You To Join Our Church

As An

Ordained Minister

And Have The Rank Of

Doctor of Divinity

We are a non structured faith, undenominational, with no traditional doctrine or dogma. Our fast growing church is actively seeking new ministers who believe what we believe. All men are entitled to their own convictions. To seek truth their own way, whatever it may be, no questions asked. As a minister of the church, you may:

1. Start your own church and apply for exemption from property and other taxes.
  2. Perform marriages, baptism, funerals and all other ministerial functions.
  3. Enjoy reduced rates from some modes of transportation, some theaters, stores, hotels, etc.
  4. Seek draft exemption as one of our working missionaries. We will tell you how.
- Enclose a free will donation for the Minister's credentials and license. We also issue Doctor of Divinity Degrees. We are State Chartered and your ordination is recognized in all 50 states and most foreign countries. FREE LIFE CHURCH-BOX 4039, HOLLYWOOD, FLORIDA 33023.

## soccer club loses, ties

The hot-one-minute and cold-the-next Miner Soccer Team, travelled to St. Louis this past weekend, was trounced 9-0 by Washington University, and was tied by Maryville College 1-1. This caused the Miners' season log to drop to 3-8-5.

The game with Washington U. began with little promise. The Miners were sagging back in a 4-2-4 alignment, not their customary 5-2-3. The defensive strategy backfired as Wash. U. used their extremely quick forwards to fast-break to a 4-0 lead after only 10 minutes. The Miners then settled down and

began controlling play in the midfield. However, Wash. U. made their shots count, and they walked off with a 5-0 halftime lead. The Miners never gave up, continually trying to make the offense work. But again, it was the fast break that killed the Miners as the W.U. Bears coasted to a 9-0 rout.

Sunday's game with Maryville was a different story as both teams had difficulty putting the ball in the net. The game was played under a steady rain and much of the field, especially the goal area were extremely treacherous.

The sidelines were submerged under about an inch and a half of water. Only a first half goal by Larry Oliver and superb goal tending by Don Broelemann kept Rolla in the game. UMR was forced to play most of the game in their own end, but Broekelmann succeeded in turning away all but one of Maryville's 28 shots. Mike Lampe had a chance to put the Miners on top to stay with a penalty shot, but the Maryville goalie read the play well, and smothered the shot. Final score: 1-1.

## classified ads

To have your classified ad or message placed in the Miner, drop it by the office in building T-1 any week day between 1:00-3:00 or mail it to the Missouri Miner, Univ. of Mo.-Rolla. The cost is \$1.00 per week and payment must accompany ad. Ads must be limited to 30 words. Please have them typed or printed clearly.

Get it to the MINER and we'll get it to the UMR students!
