## Ugly Man—

## Where Has All The Money Gone?

Ugly Man. That's a strange name for the competition that goes on here and on other campuses throughout the United States to raise money for worthy causes. Despite the unappealing name, the Ugly Man competition is one of the few good opportunities left that everyone has to show that they really care about those less fortunate than themselves.

Sponsored by Theta Tau Professional Engineering Fraternity and supported by the work of the UMR students, Ugly Man has helped many people and organizations through the funds Theta Tau has donated. From January 1974 to the beginning of this semester Theta Tau had donated over \$8,000 to the needy.

"Do we really need Ugly Man and is the money I collected really being used?" a few may ask.

Just ask a few of the following families and groups these questions and you will find the answer.

The Skill Builders School was

founded to help children of normal or above average intelligence who have difficulty learning to read and write. Highly individualized instruction is given with the objective of returning the child to the normal classroom as soon as possible. In the last year and one half, Theta Tau has donated \$1,905 to help them with their work.

Phelps County Memorial Hospital was in need of a ventilator-respirator to better and more adequately serve the Phelps County area. Ugly Man and Theta Tau, through a \$1,000 donation, was able to help the hospital purchase it. Another \$1,236 was donated to the Rolla Public Health department to help pay for the services of a speech therapist for the surrounding area.

The Phelps County Mental Health Clinic does much work in the field of drug and alcohol abuse, while covering all other aspects which involved mental health. Theta Tau donated \$750 to the Crain Memorial Fund, a fund which provides for loans to those who are training to work

in the field of mental health, and to sponsor speakers who come to the Rolla area and give lectures in this field.

If you still didn't believe the money was being well spent, you could ask the three children with cerebral palsy who, through \$135 of Ugly Man money, were able to go to camp this past summer. Or the boy with leukemia who must go to St. Louis often to receive special treatments. The \$200 per month he receives (\$2,600 in the past year and one half) makes these treatments more financially feasible. Or you could ask the family who has received \$640 in needed drugs from the Ugly Man fund.

As you can see, Ugly Man has done much to help worthy causes in the past. The problem is that as one need is taken care of, two more even more needy groups appear. This semester Theta Tau has already spent \$1,000 to purchase a wheelchair for a person who direly needed one and continues to give \$200 per month to help the boy with leukemia. Many of these groups strive to be self-supporting, but

present circumstances will not allow that. So they come to Theta Tau for help. Through the fund-raising done by UMR

student groups many of these needy organizations can be helped. But continuing support and work by all is needed.

## Thinking About The Spring

During the period of November 5-11, 1975, students returning for the 1976 spring semester are to meet with their advisors to select courses for that semester. All returning students are expected to preregister regardless of their fall mid-semester grades. Students who preregister for the spring semester will be permitted to pay fees by mail during early December.

Complete instructions for preregistration, early registration and regular registration, may be found in the front section of the "Spring Schedule of Classes." Students may obtain preregistration materials and schedule of classes from the Registrar's Office starting November 3rd.

Each advisor will be furnished a schedule to be posted near his office the week before

will enable a student to reserve a date and time for arranging his preregistration schedule. Students are required to return their preregistration schedule and undergraduate credit card to the Registrar's Office before 4:00 p.m., November 11th.

An attempt will be made to schedule students, whenever possible, into the section preferred. Since it will not always be possible to honor all requests for certain sections, the students who are eligible and follow the instructions outlined in the front of the spring schedule of classes will be given first chance to select the sections they need. Since sections are often added to the schedule after preregistration, students who qualify for priority sectioning (as outlined in the schedule of classes) should have their preregistration schedule note accordingly, even though there are apparently no possible variations in their schedule. Assignment of remaining students into sections will be done by arranging student schedules in order by date of first enrollment at UMR and as long as possible requests for particular sections will be honored. Since all sections of all courses can not be offered at popular times, it will be necessary to rearrange some schedules to balance sections.

## U-Day Holds Surprises

Just exactly what does a nuclear reactor look like? Have you ever seen red hot metal in liquid form made into an ashtray or paperweight right before your eyes? Do you know what a big, complex computer system looks like or how it works? Have you ever seen a laser being used? How about a concrete canoe...floating? How can a solar panel heat your house? Would you make a good pilot? You can try flying in an aircraft simulator.

These are just a few of the exhibits and demonstrations which high school and junior college students can see or participate in Saturday, Nov. 8, on the campus of the University of Missouri-Rolla.

University Day at UMR is an openhouse where students, their parents, counselors and teachers are invited to come and take a look at the campus. UMR students will conduct tours of classrooms, laboratories and research facilities. UMR faculty, staff and students will answer questions about enrollment, housing, student organizations and what courses are necessary for the different degree programs.

Registration is from 8 a.m. to 1 p.m. in the University Center. Faculty, staff and students will be at the center from 8 a.m. to 2 p.m. to answer general questions. Guided campus tour groups will leave from there periodically between 8 a.m. and 1 p.m. Every department on campus will hold openhouse from 9 a.m. to 2 p.m. Faculty and students within each department will answer the more detailed questions about the individual disciplines. Demonstrations and displays will be found within the departments. Luncheon will be available at the University Center from 11:30 a.m. to 1 p.m.

In addition to research facilities, classrooms and laboratories will be open in the departments of chemistry, computer science, geology and geophysics, humanities, mathematics, physics, engineering, mining, petroleum and geological engineering, mechanical and aerospace engineering, engineering management and engineering mechanics.

At 1:30 p.m. the Rolla Miners face Eastern Illinois in a football game on UMR's New Jackling Field. All University Day participants are invited to attend the game.

Maybe you would be interested in seeing rocks that glow in different colors in the dark, a model of a wastewater treatment plant, a model of an earthen dam, or how electromagnetic waves may be used to prevent train wrecks and as a burglar alarm under the carpet. You can see how much wood

chips and sawdust should be mixed with coal for use in a large boiler. You can also find the right driveway, UMR students will tell you if your car needs a tuneup by analyzing your engine exhaust.

There are lots of things to see and learn at UMR's University Day.

Just a few scenes from Leonard Bernstein's "Trouble in Tahiti" which will be presented Thursday, Friday and Saturday night in St. Pat's Ballroom at 8:00 p.m. The UMR Theatre Guild and Music Section's fall musical will cost \$1.00 for students and \$1.50 for non-students.

## INTERVARSITY CHRISTIAN FELLOWSHIP

The next chapter meeting of InterVarsity Christian Fellowship will deal with the motivation for evangelism. All interested students and faculty are encouraged to come Tuesday, November 4, at 7 p.m. at Christian Campus House.

## BASKETBALL CHEERLEADERS

Miner basketball is quickly approaching and this again means Miner cheerleaders for the 75-76 season. The first clinic will be held Nov. 4 at 7 p.m. in the lobby of the Multi-Purpose Bldg. The cheerleader positions are open to any UMR student, male or female, who would like to do more than just sit in the stands and cheer.

Future clinics and tryouts will be announced after the first clinic. For further information, stop by or call the Student Council office at 341-4280 between 11:30 and 1:30 daily or call Randy Sherer at 364-9818.

## UNIVERSITY DAY

Saturday, November 8, 1975  
University Center

8 a.m.-1 p.m. — Registration  
8 a.m.-2 p.m. — Advisement (discussions with faculty, staff, students)  
8 a.m.-1 p.m. — Guided Campus Tours  
9 a.m.-2 p.m. — Campus Open House  
11:30 a.m.-1 p.m. — Lunch  
1:30 p.m. — Football Game — Miners vs. Eastern Illinois

## SCUBA CLUB

The UMR Scuba Club will hold a meeting Monday Nov. 3rd at 8:00 p.m. in 118 M. E. "Robbie" Robertson will present "Scuba in Commercial Diving." Everyone's welcome.

## SUB

Oct. 31 — Movie: Schlitz "Escape to Movie Orgy", Centennial Hall, 6:30 and 9:00 p.m., two per valid ID, free popcorn.

Nov. 5 — Ballroom dancing lessons, St. Pat's Ballroom, 7:30 p.m., two per valid ID.

Nov. 8 — Student Talent Coffeehouse, St. Pat's Ballroom.

Nov. 9 — Movie: "Dirty Harry", Centennial Hall, 4:00 and 6:30 p.m., admission charged.

Nov. 12 — Ballroom dancing lessons, St. Pat's Ballroom, 7:30 p.m., two per valid ID.

Nov. 14 — Dance: Sawbuck, Centennial Hall, 8:00 p.m., Valid ID required.

## GDI

GDI is having a General Membership meeting tonight, October 30th at 7:00 p.m. in the Mechanical Engineering Auditorium. The meeting will be followed by the traditional Outhouse burning and refreshments.

GDI will be throwing a party Saturday, November 1st at Tech Engine Club. Admission is free to members and only \$1.50 for non members, Stag or Drag. All the refreshments you can hold for only the rice of admission so come on out to Tech Engine at 8:00 p.m. and have a good time.

## TAU BETA PI ANNOUNCES INITIATION BANQUET

The Missouri Beta Chapter of the Tau Beta Pi Association will have its Initiation Banquet on Saturday, November 15th, at 7:00 p.m. in Centennial Hall of the University Center. Tickets are available from the pledges for \$5.00. Please purchase your tickets as soon as possible, because the unsold tickets and ticket receipts are to be turned in on November 10th. If you have any questions, call Dennis Leitterman (Banquet Committee Chairman) at 364-1347, or Dr. Ron Fannin (Faculty Advisor) at 341-4511.

## BLUE KEY MINER OF THE MONTH

Any organization interested in honoring one of its members for service or some worthwhile activity is encouraged to turn in a Blue Key Miner of the Month application. The applications for the month of October must be in by November 4. Mail applications to the address below. Any questions — call Dan Shelledy 364-9792.

## Transcendental Meditation Comes to Rolla

Transcendental Meditation is becoming a household word in millions of homes across the nation. T. M. is a simple and natural technique of allowing the nervous system to experience deep rest and the mind to experience pure consciousness. The largest group of meditators are college students. The T. M. course is taught for credit at many schools throughout the country, schools such as Harvard and UCS. T. M. is not a fad it has proved itself in the eyes of science.

Teachers of T. M. say that the experience during the practice can be made understandable by comparing it to Quantum Mechanics, which says that the least state of excitation is the field of perfect orderliness, the field of all possibilities, the home of all laws of nature and the home of all knowledge, and when this state of least excitation is gained on the level of consciousness through the deep rest gained in T. M. hundreds of scientific experiments in the fields of physiology, psychology, sociology and ecology have shown that the body becomes better, mind becomes clearer, more comprehensive and more purposeful, behavior becomes more harmonious and the influence in the environment produces more life supporting effects. This is how teachers explain T. M. T. M. is taught by the students International Meditation Society and a course is being offered in Rolla this week. An Introductory Lecture will be given Nov. 2nd at Rolla Community Hall. The Sunday lecture will be at 6:00 p.m.

One way to here what T. M. is all about is to watch the Merv Griffin Show this week when he host the Founder of the T. M. movement, The Maharishi

The show will be on Friday Oct. 31st.

## Return of the Movie Orgy

The University of Missouri-Rolla will be included as one of the stops on a cross country tour of college campuses by a zany, nostalgic film extravaganza called "The Mind-Boggling, Never-To-Be-Forgotten-Or-Believed Escape To Movie Orgy." The two big hours of fun and campy memories is sponsored by the Jos. Schlitz Brewing Company, and will be shown on Friday, October 31, 1975 at 6:30 and 9:00 p.m. in Centennial Hall—University Center. The Student Union Board is presenting the frolic, and with Schlitz paying the bills admission is free with a valid UMR ID, with a limit of two per ID.

nostalgia buffs, and lovers of just a plain old good time. Loaded with clips that pop on and off the screen with a certain comic madness, the Movie Orgy could aptly be called "A 2001 Splice Odyssey."

The Schlitz-sponsored Movie Orgy is currently in its fifth successful year, having played on 235 college campuses to over a quarter of a million students. Campuses continue to ask for the film year after year. It retains its popularity and appeal because of an annual facelifting which adds new elements but keeps in some of the favorites of the year before. Added to that, people simply seem to enjoy taking another look at the things that captured their fancies and fantasies as kids.

So hop aboard the time machine, grab your pillows, blankets, and popcorn, be prepared to turn back the clock, cheer for the good guys, but above all, get ready for an "Escape To Movie Orgy."

## UMR Represented at Tau Beta Pi Convention

The 70th national Convention of The Tau Beta Pi Association was held at the University of Cincinnati October 16-18, 1975. Tau Beta Pi is the national engineering honor society, now with 172 collegiate chapters, 47 chartered alumnus chapters, and an initiated membership of over 190,000. Students in the field of engineering are elected to membership by the collegiate chapters from the top 20 percent, scholastically, of their classes on the basis of character. Graduate engineers may be elected on the basis of their eminent achievements in the engineering profession.

Arrangements for the 1975 Convention were made by a committee of student members and faculty advisors of the Ohio

Beta chapter at the University of Cincinnati, under the leadership of James H. Shellhaas and Arthur C. Illing, engineering seniors. Dave Muenks, president of the Missouri Beta Chapter on this campus, went to the 1975 Convention as a delegate along with Ron Fannin, Faculty Advisor and Rolla Alumnus member. Ron and Dave served on the constitution committee.

The collegiate chapters were represented by delegates from 168 of American's leading engineering schools. Also in attendance were the Association's national officers, faculty members from a

number of institutions, and representatives of several Tau Beta Pi alumnus groups. Mr. R. C. "Red" Matthews, Tau Beta Pi's beloved Secretary-Treasurer Emeritus who will be 97 this December, attended his 62nd consecutive Tau Beta Pi national meeting.

The Convention program consisted of committee and business meetings, informal discussion seminars, and an initiation and awards banquet on Saturday, October 18. Dr. Arthur M. Bueche, the General Electric Company's vice president for research and development, addressed the Convention at the initiation and awards dinner.

## a light through the fog

By FRANK CHAPMAN

"Blow after blow, till the chains let go  
And the power of gold gives way."

During the previous decade the role of Black Student Unions and Associations was clearly defined for both black and white students and school administrators as well but today matters are not so clearly defined. Today many Black Student Associations that strive to exist at predominantly white universities seem to wander about aimlessly from meeting to meeting, school year to school year, without any clearly stated goals or a definitive program of action. Perhaps the most intelligent explanation for this state of limbo is that Black Student Associations arose out of the radical student movements of the sixties and the intensification of the struggle for Black liberation. So with the demise of radical student activity and the ebb of the Black liberation movement Black Student Associations on many campuses lost the zeal and some even withered and died.

But life never ceases to be struggle, and so long as racism and the economic status quo of black people exist people become weary and the struggle emerges once again bringing forth men and women willing to sacrifice for mass of our people, for all people, in order create a better way of life. Those who focus in merely on the present and who are blind to the historic struggle of oppressed people for freedom and dignity will never admit that we have the courage

and the tenacity to shape our own destiny and to free ourselves from every form of oppression.

Here at UMR the Black Student Association will no longer remain an anonymous organization, nor a token symbol to conceal the status quo. On the contrary we are now about the business of putting together a program of action and we need the input of each and every black student.

Since our general elections two weeks ago our new board members, namely, James Brown, Simeon Layne, Tommy James, Sharon Biddle, and Terry Logan have enthusiastically set out to increase our membership and activities. To date there are only forty two black students in the Association, which is a mere 33.6 per cent of the total black student population. Our goal is to get 100 per cent black student participation, and to endeavor to win the support and respect of all students. Also non-student black residents of Rolla will be allowed to become affiliated or honorary members of the association.

Perhaps the saddest thing of all is that the Black Student Association has remained anonymous to many black students, at least in the sense that they are unaware of its activities. Therefore, October 26 and 27 we gave a tea for visiting parents and a social affair open to the student body and parents at Tech. Engr.

Club. There was encouraging participation and we shall continue to sponsor these kind of activities.

Also on October 25, there was a drive to decorate and clean up the Black Cultural House. We have decided to make the Black Cultural a center of cultural and social activities, and a place black students can be proud of. Currently we are working on decorations so those of you who have artistic abilities can come on over and make a worthy contribution.

Fund raising must be high on our agenda due to our current financial status. We hope to raise funds in the near future by giving chili dinners, benefit movies, book sales and so on. We are open to any suggestions along this line. There's a suggestion box in the Black Cultural House.

These are meager but necessary beginnings if we are

## a light

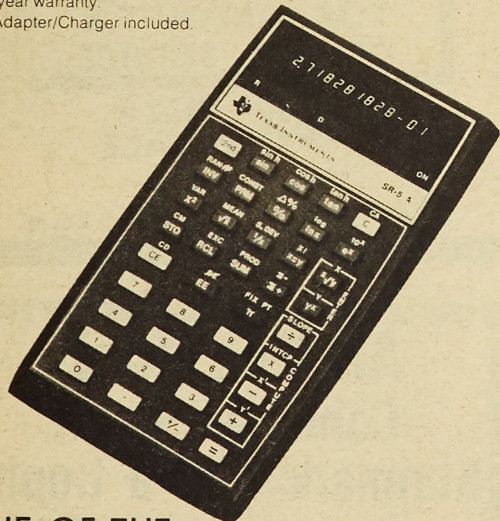

Continued from Page 4

to have a strong and viable organization. We realize that black students face many serious problems such as housing discrimination, job discrimination (particularly off campus), financial aid problems, gaps in technical education due to the lack of adequate science curriculum in urban ghetto schools, and so on. But to deal with these problems effectively we are going to need iron clad unity and a definite sense of direction. Quit talking about we can't get it together because we're here and somebody got it together so we could be here. Let's start talking about what we can do to help one another survive. The system is vicious so if the worse is happening its because we are not doing anything to make it better. Let's struggle brothers and sisters, so that together we can make it better.

Texas Instruments  
electronic calculator

SR-51A

- Performs logarithms, trigonometrics, hyperbolics, powers, roots, reciprocals, factorials, linear regression, mean, variance and standard deviation.
- Features an algebraic keyboard with dual function keys that increase the power of the SR-51 without increasing its size.
- Three user accessible memories permit storage, recall, sum, product operations.
- Preprogrammed to provide 20 often used engineering conversions.
- Random number generator, automatic calculation of permutations, automatic percent and percent difference computation.
- User selected fixed or floating decimal point.
- Calculates answers to 13 significant digits and uses all 13 digits in subsequent calculations for maximum accuracy.
- Computes and displays answers as large as  $\pm 9.999999999 \times 10^{99}$  and as small as  $\pm 1 \times 10^{-99}$ .
- Automatically converts answers to scientific notation when calculated answer is greater than  $10^{99}$  or less than  $10^{-99}$ .
- Features bright 14-character display - 10-digit mantissa with sign, 2-digit exponent with sign.
- Display provides overflow, underflow, error indications.
- Lightweight, fully portable.
- Rechargeable batteries or AC operation.
- Full year warranty.
- AC Adapter/Charger included.

## ediletters

to the ISA:

zink comes  
through

if you join...

Your recent publications which appeared on bulletin boards and in the Miner — as an unplanned insertion — left me with a few questions.

(1) If the 27 Iranian students were innocent victims as you state, then why were they all gathered at the Wesley Foundation Church?

(2) If conditions are so severe in Iran, why were you permitted to come to the US? Didn't the Shah realize you might join his arch nemesis — the ISA? And how come all references to the cruel conditions are quotes from magazines and newspapers?

After you have spent some time in the US, you should notice a peculiar trait of our "news" media — sensationalism means more revenues! Hence, the wary believe very little which they read and cannot personally substantiate.

If what you say is true, I sympathize with you. But, I object to your flagrant use of adjectives concerning the US! When you insult the US, you insult me and everyone in the US. You complain of a violation of your rights, but you should bear in mind that your rights stop at the end of my nose!

John C. Donham

Dear Editor:

In recent weeks Jesse Zink has received quite a bit of criticism, but believe it or not, Mr. Zink is there to help the students. Proof of such help occurred last weekend. The UMR Trap and Skeet Club, a new organization on campus, requested financial aid from the Student Council. The club was falsely led to believe one of the Council's purposes was to help new organizations get started. What the club received was a lot of free advice and everyone knows free advice does not pay bills.

Mr. Zink was the clubs' last chance. Instead of free advice, he helped the club sponsor a recent tournament. Mr. Zink also gave a Saturday of his own time to help with the paperwork. The tournament was a success and all the bills were paid. To Mr. Zink and Auxiliary Enterprises, thank you very much from the members of the UMR Trap and Skeet Club.

Jim Grace  
President  
Trap & Skeet Club

Dear Editor:

I don't know if what I'm about to mention has been an age old problem, but apathy in campus organizations has struck me as a growing problem today.

As I see it, there is a number of students that shouldn't really have the privilege to say they are a member of a particular organization or group. Sure, they meet the initial requirements for joining, be it a high grade point or whatever, but once they're in, all they are is another name on the membership list. Too often, and for no real reason, we see people who are skipping meetings, who are unwilling to get involved in the organization's activities, and who are not even completing tasks assigned to them. Granted, there are some organizations for which there is no great need for vast member participation. Nevertheless, there would be alot of blank spots on resumes if instead of listing membership in a group, you could only list the things you put into it.

Don't get me wrong; this campus has quite a few hard workers who are an asset to anything they belong to. The thing is, the number of this type of student seems to be diminishing. It's kind of distressing, really. With the "people potential" we have at UMR, some organizations could either be expanding their activities, or what they're doing now, could be done better. If people don't want to take advantage of the opportunities available to them, I guess that's their privilege. It's a shame, though, the organizations have to suffer because of it.

N. O. Hope

Although this letter is unsigned by the author, we felt it is well worth printing.

It's a shame to see people join organizations just to have them on their resume. We not only have "do nothing" people in organizations, we have some "do nothing" organizations. If you are going to be in something, make an effort. At least attend meetings and take part in activities. Of course everyone cannot be officers, but if you want something for your resume, showing your ability to hold responsibility by becoming an officer in a campus organization is as good as a 3.90 gpa!

The Editor

## Diehl Montgomery Ford Sales Rolla, Missouri

(The Originator Of The  
Student Finance Plan  
In This Area.)

This plan allows the students upon approved credits and job, to buy a new car with nothing down and payments of \$25.00 per month until you are on the job. This plan is not new, Diehl Montgomery Ford has sold over 750 new cars and trucks to graduating students this way. See us for all the details. Also you can use your own insurance or ours.

FORD LINCOLN MERCURY

This allows the graduating students to have a new car before he graduates when he really needs it. "This is a special discount program for students. We will be glad to quote you a price on and Ford or Mercury product."

MISSOURI MINER  
Thursday, October 30, 1975  
Page 6

## Miners Continue Winless Skein With 29-0 Loss

The Miner football team continued their lackluster play last Saturday against Central Mo. State. During the game the two teams combined for eleven turnovers, and were penalized a total of 236 yards. The game was poorly played, and very few, if any, of the Parents Day visitors were impressed by the Miner football team. It is really a paradox that this team has done so poorly this season, because this team has as much talent and more depth than last year's team. They just haven't put it all together yet. All Coach Charlie Finley would say about the team was, "We've got four games left." It can only get better.

On the opening kickoff, the Mules returned the ball to the 50, but on the first play from scrimmage linebacker Kevin Wolfe recovered a fumble on the Central 48. Jim Waechter then made a fine catch on a 21 yard pass from Greg Haug, and it looked like the Miners were

finally ready to play ball. But on the next play, Central intercepted a pass, ending the drive on the 15 yard line. The Mules held on to the ball this time, and drove to a touchdown in 14 plays using six minutes.

The rest of the game was a series of mistakes, fumbles, interceptions, and penalties. The Miners failed to score when they had the chance, and failed to contain the Central offense.

One statistic that really showed how bad the Miners played is the passing yardage. In previous games the Miners relied on the passing of Greg Haug and the receiving of Stu Dunlop to move the ball. Saturday, the Miners completed four out of thirteen passes for 48 yards. That alone could lose the game, but throwing four interceptions helped a lot also.

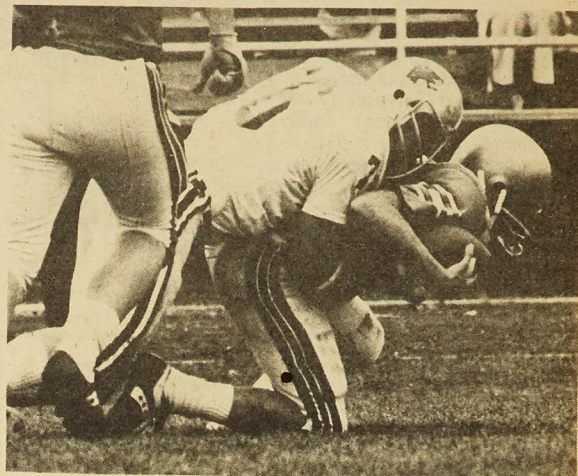

The Miners total offense for the game was only 225 yards, 177 yards of which was rushing. Rod Bullock picked up 54 yards

on 9 carries. Craig O'Dear gained 34 yards on 10 carries, and Cliff Meisenheimer picked up 28 yards on 4 tries, and Rick Cooper gained 10 yards on one carry.

Central's fullback, Henningsen picked up 130 yards rushing on 9 carries, including one touchdown run of 75 yards. Central's total offense was 276 yards which isn't too impressive either. And they were penalized a total of 176 yards during a play, so they called for it all game.

The final score of this game was Central Mo. 29-Rolla 0. It was the third game in a row in which the offense has failed to score.

Next Saturday the Miners play in Jefferson City against the Lincoln Tigers. There are four games left this season, hopefully the Miners will win some of them. They do have the potential to win. Maybe (hopefully) next week we will be able to write a good story on the football team.

Greg Haug is sacked in last week's loss to Central.

## women take second place

The UMR Women's Varsity volleyball team traveled to Fulton last Saturday to capture second place in a round robin tournament. Other teams competing were Lincoln University, Stephens College and the host team, Williams Wood. UMR started off strong by taking Williams Woods 15-12 and 15-13 in a real thriller. It was a great victory for our girls as Woods had beaten them twice this year. The Miner's next opponent was Lincoln

University who proved to be in trouble for us as we swept them 15-3 and 16-14. UMR's last opponent was Stephens College who took us 15-12 and 15-8. We are now 9-5 overall and 4-2 in district play. The Miners will host a round robin tournament this Saturday. Some of the teams competing will be Lincoln, William Woods, Drury, and Central Methodist. The play begins at 9:00 a.m. and everyone is urged to come over to the multi-purpose building for a great day of volleyball.

## miners capture second at state

This past weekend the UMR waterpolo team competed in the sixth Missouri State Waterpolo Championships. The tournament only had three entries but all three teams were very close in ability. The entries other than the Miners were Washington University and the team from Southeast Missouri State. The Miners ended the tournament in second place, losing to Arch-rival Semo.

The first game pitted Wash. U. against UMR. This was the first time these teams had played this year, and it proved to be a very exciting game. The Miners jumped to a first quarter lead of 4 goals to 2, with fine ball handling and a lot of swimming. The Wash. U. Club was not to be pushed aside, they came back with a strong second quarter, to tie the score at 6-6 at half.

The Miners came out after the break and again outscored Washington 4-2, to set the score at UMR 10, Wash. U. 8.

In the fourth quarter the two teams traded scores twice, and Wash. U. picked up another goal. With the Miners up by one goal and only a few seconds left Wash. U. threatened to tie it all up. Wash. U. passed the ball in but before anyone could touch it time had run out. So the Miners left the first round with a 12-11 victory. Scoring for the Miners were: Mike Norberg 4, Matt Heinicke 3, Bill Kroeger 3, Jim West 1, and George Engel 1.

The second game was Wash. U. versus SEMO. Another close game, but the superior depth of the Indians led Cape to a 15-14 win.

This set the stage for the third game, which in this case was the championship game. This was the fourth meeting of these two clubs this year, so there should have been no surprises, and there weren't. The Miner's

inconsistency once again hurt them. The first quarter was close with lots of action in the goals. The Miners on top though, by a 4 to 3 margin. The UMR club tightened up on defense and shut out the Indians in the second quarter, but this hurt the offense which only could produce one score. So at the half time break the score was UMR 4 and SEMO 4.

Cape, as always, came back strong by outscoring the Miners 5 to 0 in the third quarter. The Miners superior conditioning let them beat the Indians 6 to 3 in the fourth quarter, but the third quarter had pretty well decided the game. Scoring for the Miners were: Heinicke 4, Norberg 2, Mark Bengston 2, Kroeger 1, and Engel 1.

# Sig Ep Defeats TKE In Finals

The championship game of Intramural football was held last Thursday where TKE was matched against Sig Ep.

The field was dusty and wind was really blowing from the South. TKE started the game off by kicking off to Sig Ep.

On TKE's first possession they drove down to the ten, then Mark Moran bootlegged for a touchdown.

When TKE got the ball back they again drove for a T.D. with a one yard pass.

The rest of the first half was dominated by TKE with Sig Ep unable to get anything going.

Halftime festivities were a riot. TKE had seven members dressed as female cheerleaders much to the enjoyment of the TKE's before, during and after the game. During the skirt-flying and cartwheels Sig Ep was vainly attempting a 4-tier pyramid. After Sig Ep finally got it up, the pledges of TKE formed a circular pyramid while the top figure shot the opponents side a moon. Screams and cheers began and the second half was underway.

At the beginning of the second half TKE stopped a hard Sig Ep

drive by intercepting a pass. But, that didn't stop Sig Ep, they came back to score making the score 14-7.

Sig Ep started to pick up steam toward the middle of the half. Sig Ep went on to pass for two more T.D.'s, and kicked a 30 yard field goal. Then, Sig Ep stifled TKE's last gasp by intercepting a pass with thirteen seconds left and running it back for a touchdown. The final score of the game was 31-14. The wind was a major factor in the game and both teams played a good game.

The intramural swimming was held October 17, with Tech-Engine Club coming in first with 38 team points. Sig Ep came in second and Kappa Sig was third with 35 and 31 points respectively.

In intramural tennis, Ron Jansen from TKE took first in singles competition. Jim Ward from Pi Kappa Alpha took second and Jim Greene from Tech-Engine took third.

In tennis doubles Sig Tau's Dave Diestelkamp and Robin Stephen from TKE. Third place was taken by Mike Mare and Harold Parris from KA.

# Miners Capture Trap Tourney

The 3rd Annual Missouri Collegiate Trap and Skeet Tournament, sponsored annually by the UMR Trap and Skeet Club, was held here this past weekend. There were 57 entries representing 7 Missouri Colleges and Universities. Those schools in attendance were, UMR, UMC, CMSU, SMSU, Mo Western, Lindenwood, and St. Louis University. It was UMR's day winning a number of individual awards and taking 1st in the 5-man team events in both Trap and Skeet. Tournament winners were:

## SKEET

5-man team  
1st UMR with 466x500 Team members—Leo Harrison, Jim Grace, Glen Stevens, Dave Stanze, Charlie Sidebottom.  
2nd SMSU with 443x500  
Individual Awards  
High Individual—Leo Harrison—UMR with 95x100  
Class A  
1st Jim Grace—UMR with 95x100  
Class B  
1st Dave Stanze—UMR with 90x100  
2nd Charles Harris—SLU with 89x100  
Class C

1st Glen Stevens—UMR with 88x100  
2nd Bob Egbert—UMR with 87x100  
Class D  
1st Steve Otradevec—SMSU  
2nd T. Milner—UMC  
Women Overall Skeet  
Karen Plackmeyer—Lindenwood

## TRAP

5-man Team  
1st UMR with 449x500 Team members—Leo Harrison, Terry Coker, Jim Taylor, Alan Davis, and Steve Lacy  
2nd CMSU with 444x500  
Individual Awards  
High Individual Leo Harrison—UMR with 98x100  
Class A  
1st Tom Mode—Lindenwood with 96x100  
2nd Charles Harris—SLU  
Class B  
1st Terry Coker—UMR  
2nd D. Wilson—UMC  
Class C  
1st Dan Bellamy—CMSU  
2nd Richard Wolfe—UMC  
Class D  
1st D. Hubert—UMC  
2nd Terry Farmer—CMSU  
Women Overall Trap  
Paula Pettit—Lindenwood  
Thanks to Mo. Skeet Association, Mo. Trap Association, Remington Arms, and Bow Wow Co., for their contributions.

Special thanks to Vice Chancellor Dr. Dudley Thompson, Jesse Zink, Betty Bodge, Fred Naugle, Joe Carmack, Bob Jenkins, and Jay Harris for their time and efforts in making the tournament a success.

**FOR SALE:** Panasonic Quad Receiver and four speakers, excellent condition. \$120.00. 125 lb. Barbell Set and Bench like new. \$40.00. Call Tab at 341-2717.

Sigma Phi Epsilon receives the first place trophy after defeating TKE 31-14.

Photo by Burford

# M-Club athlete of the week

M-Club would like to recognize Chuck Hawley as athlete of the week. Although he is not an athlete, as trainer, he is closely involved with athletics. Chuck is filling in for Bill Flentje, who will soon be returning from the Pan American Games. M-Club feels that Chuck Hawley should be recognized for his outstanding effort in the training room. Along with the normal bruises and muscle pulls, the Miners football team has been plagued with ankle and knee injuries, all of which Chuck and his assistants have taken care of. Being trainer is a thankless job in which many long hours are spent.

Chuck Hawley started his college career here at UMR before transferring to Northwest Mo. State where he obtained a degree in education. He is currently working on a Master's degree at Central Mo. State in Warrensburg.

Assisting Chuck in the training room are Cathy Less, Dave Lucas, Melissa Killian, and Dave Veesaert.

M-Club says thank you for your time and care in rehabilitating injured UMR athletes.

# Amoco is engineering

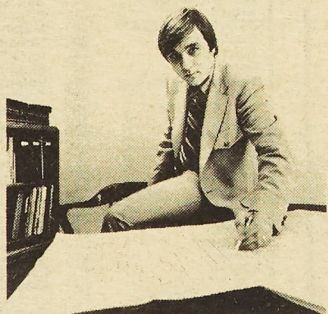

## ...from your first day on the job.

Paul J. Dudenas,  
Penn State '73:  
"I am in charge of  
an oilfield."

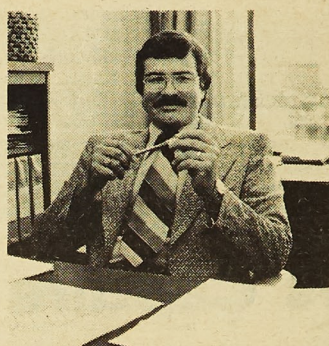

William J. Grays, right, Texas A&M '73:  
"You can see your skills blossom."

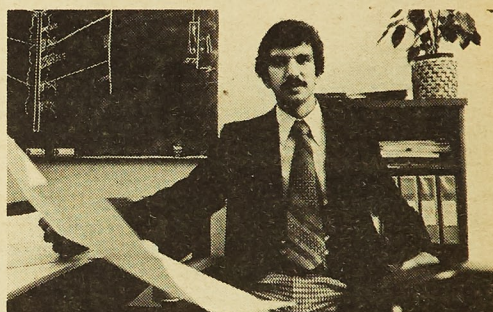

Bruce H. Stover,  
U. of Oklahoma '71:  
"I have total  
responsibility."

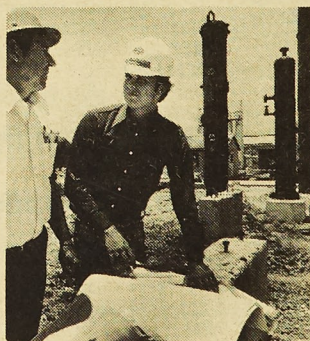

At Amoco Production Company we believe that working is better than watching. Like the young Engineers pictured here, you'll be given a direct engineering assignment the first day on the job. And from your first day on the job you'll be engineering for a leader, a member of the Standard Oil (Indiana) family — the 13th largest industrial firm and the 6th largest oil producer in the country. But our engineering groups are small and individual accomplishments are quickly recognized. Amoco Production Company is a young leader. About 40% of our practicing engineers are 30 years of age or younger, and our salaries and comprehensive benefits are among the best in all of U.S. industry. If you are a Senior majoring in Engineering, we'd consider it a privilege to talk to you about the possibility of employment...as an Engineer, from your first day on the job.

Leslie D. Skinner,  
Texas Tech '72:  
"Amoco gives you  
experience in a hurry."

Steve Shaw, U. of Missouri-Rolla '73:  
"By 11 am the first day, they wanted my recommendations."

Frank D. Henderson, right,  
U. of Texas '72:  
"I'm getting all the experience  
and help I need."

**Amoco Production Company**
