## Bisplinghoff Accepts Job

UMR Chancellor Dr. Raymond L. Bisplinghoff, 59, has reportedly accepted a position as the Vice-President of Research at Tyco Laboratories. Bisplinghoff, who will retire as UMR chancellor effective January 1, 1977, has been with Tyco as a director for the past several years. He was also instrumental in founding Mobil-Tyco Solar Energy Corporation, a joint venture with Mobil Oil Corporation.

Bisplinghoff was named chancellor July 17, 1974 and

assumed the duties the following October 1. He succeeded Dr. Dudley Thompson, now vice chancellor, who had filled the position on an acting basis for one year after the resignation of Dr. Merl Baker.

Dr. Bisplinghoff will continue as director of both Tyco Laboratories and Mobil-Tyco. Tyco is involved in solar energy research, undersea power, undersea cables, and precision instruments. It has grown rapidly from a small research company to a major corporation.

## Scholarship Search

The start of a national academic search for the first Truman Scholarship candidates has been announced by the Harry S. Truman Scholarship Foundation.

"The Foundation and the Truman Scholarships were established by an Act of Congress to honor one of our nation's great Presidents. This memorial is a living and prestigious one, as it provides a concrete way for our most talented college men and

women to prepare themselves for careers in government."

Fifty-three students who will be in their junior year of college next fall will be selected during this year through the Foundation as the first Truman Scholars.

The Foundation will award scholarships in programs leading to careers in government and provide a maximum stipend of \$5000 a year for up to four years of college study. In addition to being outstanding students, with a grade point average of at least "B" (or equivalent) and being in the upper quartile of their classes, candidates will be required to demonstrate a firm commitment to public service.

One student will be selected from each state, the District of Columbia, the Commonwealth of Puerto Rico, and considered as a single entity, Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

For consideration as a Truman Scholar, a student must be nominated by his or her college's president, upon the recommendation of the Truman Scholarship Program faculty representative. Accredited institutions of higher education must submit their nominations by December 15, 1976.

## Film Course

Next semester's film course-series will meet on Thursday nights from 7:30 to 10:30. The films will be as follows: Fellini's *Amarcord*, Buster Keaton's *The General*, Antonioni's *The Passenger* with Jack Nicholson, a feature length cartoon *The Fantastic Planet*, Truffaut's *Story of Adele H.*, Altman's *Nashville*, Bergman's *Cries and Whispers*, a Russian movie *The Cranes Are Flying*, Marlon Brando's *One Eyed Jack*, Ophul's *The Sorrow and The Pity*. The fee will be ten dollars. Program director is James Bogan of the Humanities Department.

Dr. Kenneth Dunipace, University of Missouri-Rolla professor of electrical engineering, checks over an experimental car being used in research on driver-vehicle-environment interaction. Known as the Driver Performance Measurement and Analysis System, the car was developed for the office of Driver and Pedestrian Research of the National Highway Safety Administration. The car has instrumentation that measures and records almost everything done by the driver and the automobile.

## UMR Researchers Special Auto

An experimental car which uses sophisticated measuring, computing and recording equipment to monitor almost everything done by the driver and the vehicle, is being used in research at the University of Missouri-Rolla.

Known as the Driver Performance Measurement and Analysis System, the car was developed for the Office of Driver and Pedestrian Research of the National Highway Safety Administration.

The UMR research is on driver vehicle environment interactions and is under the direction of Dr. Kenneth Dunipace, UMR professor of electrical engineering. Dr. Dunipace worked on the initial planning and specifications for the vehicle while on a field assignment for UMR with Department of Transportation in Washington, D.C. in 1972.

"In this research, we are applying modern technology to increase our understanding of

driver and vehicle behavior so that we can modify characteristics of both driver and vehicle to avoid highway crashes," Dr. Dunipace explains.

Also on the research team are Dr. Frank Kern, professor of electrical engineering; Kenneth King of Route 2, Chaffee, graduate student in electrical engineering, and Elaine Christian of 11701 Denny Road, St. Louis, junior in electrical engineering.

Have A Merry Christmas  
Party Weekend!

# Bullboard

MISSOURI MINER  
Thursday, December 2, 1976  
Page 2

Notices to appear in Bullboard should be typed and deposited in the North door of the Miner office in Bldg. T 1 by 10:00 p.m. Sunday. This will assure publication in the next edition of the Miner.

## WIVES SCHOLARSHIP

Applications are now available for the 1977-78 Wives Auxiliary St. Louis Chapter - MSPE scholarship. This scholarship was increased to \$750 for 1977-78.

Must be in the field of engineering, must be a junior or senior starting the fall 1977 semester. Scholarship deadline is January 3, 1977.

Applications can be secured from Office of Student Financial Aid, 106 Parker Hall.

## LOANS AVAILABLE

The Office of Student Financial Aid has a two-week deadline prior to regular registration for applying for short term loans to pay tuition and fees.

Any person wishing to obtain a short term loan for tuition and fees for spring 1977 registration must do so prior to December 27, 1976.

## "BLOOD DRIVE"

Once again the Student Council is sponsoring the UMR Blood Drive. It will be held December 8 and 9 from 10:30 a.m. to 4:00 p.m. in the St. Pat's Ballroom.

This drive will be one of the more important ones because it falls just before the Christmas holidays. With all the people traveling on the road, there will be more accidents than usual, which means a greater demand for blood.

There are many advantages to giving blood and no disadvantages, help out the person who might be the one you love, give blood.

## UNIVERSITY CENTER RELAXES FACILITY USEAGE POLICY

The University Center Board of Directors has approved a policy change allowing all campus organizations to use the University Center on a regular basis. Effective January 1, 1977 reservations will be accepted under the plan adopted by policy revision. This action is an attempt to realize a higher useage rate in the University Center facilities. Recent studies reveal an approximate 35 per cent useage rate of University Center East facilities and below 30 per cent on the University Center West building. These figures are applicable to facilities including meeting rooms that require reservations. They do not apply to public areas such as cafeterias, lounges, etc.

Campus organizations are encouraged to investigate this change relative to how the University Center can better serve the campus. Inquiries should be directed to the Reservation Office, University Center West or the Director's office in room 114 University Center West.

## UMR SCUBA CLUB

The UMR Scuba Club will hold its last meeting of the semester on Tuesday, Nov. 30, at 8:00 in Room 120, M.E. Elections will occur for next semesters officers and a program of some kind will be presented. "IMPORTANT, BE THERE" !!!

## JEREMIAH JOHNSON

On Sunday December 5th the STUDENT UNION BOARD will present its final film, JEREMIAH JOHNSON, at 4:00 and 6:30 p.m. in Centennial Hall.

## INTERCOLLEGIATE KNIGHT MEETING

IK will have a meeting Thursday Nov. 18 at 7:00 p.m. in 117 CE. Special Topics: 1. Election of Royal Earl Candidate 2. Area Conference on Nov. 20.

## LAST DANCE

The last dance of the semester will be Saturday December 4th from 8:00 to 12:00 p.m. in Centennial Hall. The dance is presented by the STUDENT UNION BOARD.

## FLORENSIC SOCIETY

All members are urged to attend a meeting on Nov. 17 at 4:00 p.m. in Room 201 Hum. Soc. Sci. Bldg. We will be getting ready for our Spring Debate.

## STUDENT FINANCIAL AID OFFICE

Missouri Grant Checks are now available in the Cashiers Office.

## ATTENTION ARROWMEN

Beta Chi Sigma, the service fraternity for Arrowmen, will hold its next biweekly meeting on Thursday, December 2, at 8:00 p.m. in 119 CE. Nomination of officers, the pledge project, and committee reports on the upcoming Merit Badge University will be the order of business. All interested parties are welcome to attend.

## RUSSIAN SLIDE SHOW

Student Council Free University presents a Russian Slide Show. On Dec. 2, at 7:30 p.m. Dr. Bobby Wixson will present a slide show on his trip to Russia this last summer in the Mark Twain room. Dr. Wixson was one of a small select group of American Scientists to be invited to go on a tour of Russia.

## UMR Chamber Orchestra

University of Missouri-Rolla's Chamber Orchestra, Wind Ensemble and Percussion Ensemble will present "An Afternoon of Instrumental Music" Sunday, Dec. 5, at 3 p.m. in the Mechanical Engineering Auditorium.

The 12-member Chamber Orchestra, directed by Joel Kramme, instructor in music, will offer Telemann's "Suite in A Minor for Flute and Strings." Telemann was a contemporary of Bach and preceded him at Leipzig Conservatory of Music.

In this segment of the concert Marcel Wehrman will be featured on the flute. Ms. Wehrman is a graduate student in mathematics at UMR. She received her undergraduate degree from Southwest Missouri State University in Springfield. She also plays the organ and sings.

Dr. David Oakley, associate professor of music, conducts the other two segments of the concert. Dvorak's "Serenade, Op. 44" in symphony form will be presented by the 15-member University Wind Ensemble.

"Dvorak is one of the most important composers of both symphonic form and chamber music," says Dr. Oakley. "This particular serenade for a small instrumental group is a classic example of the second half of the 19th century."

The Percussion Ensemble consists of eight members who play a total of 12 different instruments. Selections to be performed by this group are: "October Mountain" by Hovhanness; "Rondo Scherzando" by Dotson and Shostakovich's "Fantastic Dance No. 1."

The concert is open to the public and there is no admission charge. It runs approximately one hour and 20 minutes.

## New Financial Aids Requirements

The following was adopted by the Student Financial Aid Committee on November 17, 1976.

For purposes of having financial aid in the forms of grants and loans extended into succeeding semesters measurable satisfactory academic progress is defined as follows:

1. The student must have passed at least 24 hours in the preceding 12 months. Summer session credit may be included.
2. The student must be enrolled in at least 12 hours in the semester for which the aid is granted.
3. At the end of each semester, semester and

academic grade point averages must be more than:

Sem attend	Sem & Acad GPA	Aid granted if sem ave is above
1	1.70	1.70
2	1.80	1.90
3	1.90	2.10
4 or more	2.00	2.20

## Prof. Authors Book

Dr. Frank R. Vivelo, an anthropologist in the Department of Social Sciences, UMR, is the author of a new book entitled "The Herero of Western Bostwana: Aspects of Change in a Group of Bantu-Speaking Cattle Herders." The book is based on Dr. Vivelo's ethnographic fieldwork in Africa in 1973 and describes the changes in Herero society that resulted from the adoption of a Western-influenced economy and technology. The book is being published as Monograph 61 of the American Ethnologica

Society and is distributed by West Publishing Company (St. Paul). The American Ethnological Society publishes only one ethnographic monograph each year, and The Herero is its 1976 selection. Dr. Vivelo is also the author of a forthcoming textbook entitled "Cultural Anthropology: An Introductory Handbook" (which will be released next January by McGraw-Hill) and the co-editor of "American Indian Prose and Poetry" (Putnam's, 1974).

Consideration of continuation of financial aid may be made by the Student Financial Aid Committee for students not meeting each of the above criteria. Appeal must be made either in writing or in person, however, it is recommended that students appear before the committee in person and be accompanied by an advisor or counselor.

## Jazz Ensemble

If you enjoy jazz, don't miss a concert presented by the University of Missouri-Rolla Jazz Ensembles I and II Tuesday, Dec. 7, 7:30 p.m., in the Mechanical Engineering Auditorium.

Both jazz groups, conducted by Dr. David Oakley, associate professor of music, play contrasting styles.

Jazz Ensemble II opens the evening of music with "My Funny Valentine" by Rogers and Hart (a Stan Kenton arrangement); "That's the Way I Feel" by Al Cobine; "Headframe" by Rick Stitzel; "B.J.'s Thing" by Bob Lowden; "Tribute to the Duke" a medley of Duke Ellington compositions and "Bach's Back With a Beat," a jazz adaptation of the theme from "Suite No. 6 in D" by Richard Maltby.

Selections offered during the second half of the concert by Jazz Ensemble I are entirely from Stan Kenton and Maynard Ferguson arrangements. They include "Shaft," "Hey Jude," "The Rise and Fall of a Short Fugue," "What Have They Done To My Song, Ma?," "Country Road," "First Child" and "Malaguena."

The concert is open to the public and there is no admission charge.

## Lutenist to Perform

The University of Missouri-Rolla's annual Madrigal Dinner program, Wednesday, Thursday and Friday, (Dec. 8-10) will feature a guest artist this year.

Kevin Mason, lutenist, will perform early 17th Century English and Italian selections for lute during the dinner hour each evening in Centennial Hall of the University Center.

Mason, who holds a B.M. degree in music history from the University of Missouri-Columbia, is currently studying early performance practices and musicology at Washington University in St. Louis. He began his performing career as a classical guitarist, having studied with Michael Lorimer of Washington University and Allan Rosenkoetter of Columbia.

His lute instruction has been independent self-study, except for some instruction in a seminar by Paul O'dette, director of early music programs at Eastman School of Music. His instrument is a recent copy, by Robert Lindberg of Portland, Ore., of an

early 16th Century lute by Hans Frie, a Bolognese lute maker.

Included in his program will be several pieces by Jonn Dowland (1563-1626), "Kemp's Jig," "Greensleeves," other English selections and some early Italian pieces, time permitting.

Music before and after the dinner will be provided by members of the UMR Chamber Choir and University Choir in period costume. They will offer traditional English Christmas music — some acapella and some antiphonal. A wassail bowl, boar's head and flaming plum pudding are special features at the dinner.

Cost of the dinner and evening of Christmas music is \$7.50 per person. Reservations are required and may be made by calling the University Center reservation desk, 341-4294 or 341-4295.

The program is jointly sponsored by the music section of the UMR humanities department and auxiliary enterprises. Joel Kramme, instructor in music, directs the program.

## EXAMS!!

### Finals Schedule

The final exam period will begin Monday, December 13, 1976, at 7:30 a.m. and end at 5:30 p.m., Saturday, December 18, 1976. Common Finals are scheduled for those courses listed in Section II below. Room assignments for Common Finals will be announced by the instructor.

Courses not covered in Sections I, II, or III are to be arranged by the instructor in cooperation with the students in that course.

I. Evening-Course Finals are scheduled for the regular evening session during final week.

II. Common Finals (Rooms to be scheduled by Registrar)

Course	Final Exam Time
CSc73 (except evening)	Wednesday 7:30-9:30
CSc 74	Tuesday 10:00-12:00
CSc 163	Wednesday 7:30-9:30
CSc 218	Monday 10:00-12:00

## Missouri Miner

The MISSOURI MINER is the official publication of the students of the University of Missouri-Rolla. It is published at Rolla, Missouri, every week during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879. The subscriptions are \$3.00 per semester. The MISSOURI MINER features activities of the students and faculty of UMR.

## Second Shot

The U.S. Public Health Service has announced that individuals between the ages of 18 and 24 need a second swine flu immunization shot no sooner than four weeks after having received the first one.

This, of course, affects a majority of UMR students. Because the Rolla campus was unable to obtain vaccine, immunization shots were not offered until Nov. 18. Second shots would be due Dec. 16 or later — which falls during semester break.

Mrs. Jessie Nations, head nurse at UMR's student health, recommends that students home for the holidays make an effort to obtain the second swine flu shot from their local clinics or personal physician.

"The second shots will be available at the infirmary for those students who are in Rolla or the vicinity and want to stop by," she continues. "And they

will be available when the students return for the spring semester. It would be best, however, if students could manage to get the second shot at or near the recommended time interval."

### Chancellor

### Search Committee

A chancellor's search committee is now being formed. One undergraduate student will be on this committee. If you would like to be the student member and feel you are a good student body representative, stop by the student council office, Room 202 in the old Student Union, and fill out an application. You must act quickly as the deadline is next Monday, Dec. 6 at 4 p.m.

## International Exhibition

Did you know that there are forty-three countries represented by International students here on campus? Well, had you been at the "International Exhibition" in the St. Pat's Ballroom of the Student Union last Wednesday and Thursday, Nov. 17 and 18, you would have been able to enjoy an exposition of over 18 countries. Many students and faculty did attend and helped make the exhibit the success it was.

Displayed at the exhibit were handcrafted items, traditional clothing and historical artifacts. A visitor had the opportunity of talking with students of representative countries and finding out more about their customs, cultures, and interests.

Posters, slide-tape presentations and music also were offered to help give a better understanding of the lifestyle in each country.

Countries taking part in the exhibition were Venezuela, Thailand, India, Nigeria, Iran, the Caribbean Islands (Trinidad and Puerto Rico), China, Turkey, Lebanon, Egypt, Saudi Arabia, Qatar, Oman, Sudan and Libya. During the afternoon, films of various countries were shown. If you missed this year's exhibition, be sure to attend the one scheduled for next semester.

Indian students display exhibits at International Exhibition.

### WHAT'S GOING ON AT UMR

.. Thursday, Dec. 2 — "Brother Sun, Sister Moon," quasi-fictional biography of the founder of the Franciscan Order, St. Francis of Assisi. Directed by Franco Zeffirelli. Stars Graham Faulkner, Judi Bowker, Leigh Lawson and Alec Guinness. Last in Seminar on the Arts Great Films series. 7:30 p.m., Mechanical Engineering Auditorium. Admission charged.

.. Friday, Dec. 3 — Openhouse, UMR Observatory, 7 to 9 p.m. Free. — Humanities department seminar on Hemingway and Faulkner, Dr. Lynne Loschky, professor of English at Lincoln University and Dr. Larry Vonalt, visiting assistant professor of English at UMR, 3:30 p.m., Humanities-Social Sciences G-5. Free.

.. Sunday, Dec. 5 — "An Afternoon of Instrumental Music," UMR Chamber Orchestra, Wind Ensemble and Percussion Ensemble, 3 p.m., Mechanical Engineering Auditorium. Free.

.. Monday, Dec. 6 — Basketball, Miners vs. Kansas State-Pittsburg, 7:30 p.m., Multi-Purpose Building. Admission charged.

.. Tuesday, Dec. 7 — "Show-Me Courthouses and City Squares," Marian Ohman, program coordinator, UMC Extension Division, 12 noon to 1 p.m. Room 107, Mining Engineering Building. Free.

.. Wednesday and Thursday, Dec. 8-9 — Red Cross Blood Drive, sponsored by UMR Student Council, St. Pat's Ballroom, University Center.

.. Wednesday, Thursday and Friday, Dec. 8, 9 and 10 — Madrigal dinners, UMR Chamber Choir and University Choir in cooperation with auxiliary enterprises, social hour 6 p.m., Miner Lounge, dinner 6:30 p.m., Centennial Hall. Cost is \$7.50 per person. Reservations necessary. Call University Center reservations desk, 341-4294 or 4295.

.. Thursday, Dec. 9 — Women's Basketball, Southwest Baptist, 7:30 p.m., Multi-Purpose Building. Free.

.. Friday, Dec. 10 — Openhouse, UMR Observatory, 7-9 p.m. Free.

## Introducing Vision Center's

### "Love 'em or Leave 'em" Plan

The original purchaser of this pair of contact lenses, if not completely satisfied within 30 days of purchase, is entitled to a refund of the cost of the lenses only. Refund will be made upon return of the lenses with this certificate to the Vision Center where purchased. This plan does not include damage or scratching, loss or theft of contact lenses. This certificate is not transferable.

## It takes the indecision out of the decision to buy contacts.

If you wear eyeglasses, you've probably thought about getting contact lenses. You've probably also had second thoughts about whether you'll like them or not.

That's why Vision Center now offers our "Love 'em or Leave 'em" Plan. Try contacts. Wear them. Live with them. And then, within 30 days of purchase, if you decide they're not for you, we'll refund the cost of the lenses.

You owe it to yourself to see how you like contacts. And now Vision Center has a way for you to do that. Without owing anything to us.

## What is The Student Council?

By STEVE LIESCHIEDT  
STUDENT COUNCIL  
PRESIDENT

Each semester one dollar out of every student's activity fees is allocated to the Student Council. Frequently questions are asked such as: What does the Student Council do with the money it gets? What does the Student Council do? What can the Student Council do?

It has become apparent that many students at UMR don't know what the answer to these questions are and don't realize the potential of the answers to these questions.

Our Student Council is made up of representatives from each fraternity, sorority, dormitory and eating club along with unaffiliated representatives who petition for membership. This membership obviously makes it the most represented organization on campus.

Work done by the Council is usually done by one of the seven committees of the Council. A brief description of these committees and what they have done this year follows:

1) Campus Organizations Committee — is responsible for making recommendations to the entire council as to what organizations the general Student Council Appropriations and non-varsity sports club moneys are to be given. This committee is also available to aid any club or organization on campus that needs a helping hand. So far this year this committee has made both appropriations recommendations. In addition to this they helped four organizations obtain offices in Student Personnel.

2) Recruiting and Hospitality — each year this committee publishes a Special Freshman Edition of the Miner and works with the Registrar's Office in recruiting efforts. Currently this committee is working on the Special Edition of the Miner which should be completed and sent out to high school seniors early in January. Earlier this year they manned an information booth for new students on this campus.

3) Free University — this committee organizes lectures of interest to the student body. Lectures this semester have been on insurance buying and rock climbing. The next topics will be on Solar Energy and Sound Systems.

4) Student Services — This committee is responsible for taking action on any complaints or questions received through the bitch box. This committee also organizes and supports the varsity football and basketball cheerleaders. So far this semester they have made available to the students a voter registration and the straw ballot. They also coordinated and funded the first blood drive

and the football cheerleaders.

5) Referendum Committee — this committee compiles, administers and publishes the results of all the student referendums. One general referendum has been run this year which resulted in the passing of some constitutional changes. A housing questionnaire is being run within the dormitories by this committee.

6) Academic Affairs Committee — this committee administers the faculty evaluation, makes recommendations of students to be on the campus wide committees, evaluates action taken by the Academic Council and develops communication lines between the faculty and the students. Work is nearing completion for this year's faculty evaluation.

7) Publicity Committee — responsible for making the students aware of what the council is doing during the year.

The council has contact with our own campus Administration, U-Wide Affairs, and with the city of Rolla. Representatives are sent to the Academic Council, University Center Board of Directors and student representatives serve on campus-wide committees. The University of Missouri Board of Curators meetings are attended and reports and action are taken to the best interest of the UMR student body. Also we have students currently working on the Search Committees for a new University President and three new members on the Board of Curators. A student-city liaison attends the Rolla city council meetings and offers student help when needed.

As can be seen the money and time spent by the council is spent on projects to the best interest of the student body. The Student Council has contact with every aspect of the university system making the potential goals that can be achieved through the Student Council virtually unlimited. I feel the council this semester is made up of hard working representatives who have done a fine job thus far. However, I don't think that the students have taken advantage of the council or their own representatives the way they should be doing. The council is here to help the student get answers and results on any questions or complaints he might have. If you, the student, don't voice your opinion on topics, all we can do is assume you are satisfied with the way things are — that would make things easy for the council this year, but I don't believe that's the way it really LISTEN TO YOU AND HELP YOU.

Hey Listen! I know it's almost semester's end, but Step back!

## Ediletters

### STATEMENT OF POLICY

The opinions expressed herein do not necessarily represent the opinions or policies of the Missouri Miner. The ediletters section is the sanctuary of the student body. All letters submitted will be, as in the past, printed in the unaltered and original form when space in the paper permits.

### To The University Student Body

In the summer of 1974, I began work at the campus organization known as KMNR. Since that time, I have watched the remnants of KMSM fade into extinction, and witnessed the growth of a new breed of "jock", all the while developing a great love and a sense of pride for that radio station.

Last Spring, I applied, and was chosen by the Board of Student Publications, for the position of Public Relations Director. At this time, though, I feel that I can no longer attempt the sale to the public of an organization in which I no longer believe.

Craig Bernstein, then News Director, was strongly opposed last year to the firing of Dennis Hart, a station employee who continually and intentionally put the station and its license in jeopardy by forging programming logs. At the beginning of this year, Mr. Bernstein, now Station Manager, immediately initiated a set of "rules" for the station, violation of which were cause for immediate dismissal. To my knowledge, three separate instances of federal log violations have arisen so far this semester, none of which were acted upon in the aforementioned manner.

Likewise, Ron Williams was awarded the position of Program Director last spring, advocating a bell-shaped program format. The "Tempo"

of the music would begin light, build throughout the day, peaking at midafternoon, and then come down during the prime study hours and end again at light during the "Nightflight" hours. The "type" of music was to be varied throughout the day, so as to provide the listeners with a cross-section of music types during any listening period. As is obvious to any KMNR listener this semester, this format has not been followed. When the point was made at a station meeting that the jocks weren't varying their music according to programming policy, Mr. Williams responded with, "I don't care WHAT you play!" I feel that I can no longer tolerate this kind of hypocrisy exhibited by many members of the administrative board of the station.

The apathy and total disconcern for their listeners employed by many of the station announcers has become extremely distasteful to me. In my opinion, a student-financed radio station should air the types (and quantities) of music preferred by the students who finance it. Contrary to this, Radio Station KMNR has become a "private jukebox" for some 25 of the station's 38 announcers.

The morals by which I was raised (and still abide) seem to be non-existent at KMNR. I don't feel that I can continue

compromising my standards for any group. I don't approve of using station funds (from student activity fees) for outings. And I strongly disapprove of the heavy use of drugs at these "outings".

By remaining at KMNR, it is as if I condoned the methods by which it is run. I feel it is therefore necessary that I resign my present position as Public Relations Director, and any further positions at Radio Station KMNR.

Most sincerely,  
(Miss) Mary E. Foehse

### Professor's Advocate

Dear Editor:

I would like to take a moment to comment on Mr. Stephen Sower's editorial of November 14, in which he derogatorily informed the public that UMR professors are overpaid for their efforts, and have demands that are unjustified and unreasonable.

The \$17,000 average salary paid UMR professors "for teaching two or three hours of

(Continued on Page 6)

# SUPERCIV

(Continued from Page 5)

class for nine months out of twelve" cannot be an equitable argument for anyone. In addition to teaching say three hours (actual in-class time), Mr. Sowers forgets that many teach as many as four classes (an actual in-class time of as many as twelve hours); they have homework and tests to grade, which is no small chore; they have to deal, personally, with as many as 70 to 100 students; they have faculty and committee meetings; and to top it all they have to further the goals of the profession by publishing articles, attending conferences, and going to professional society meeting.

Apparently Mr. Sowers has not followed a typical engineering professor around trying to get his help with a difficult problem, only to find that there are three students and another faculty member in line ahead of you. I would also like to add that my starting salary after only four years of school will be \$15,000 per year. Surely Mr. Sowers cannot justify this.

The "clamor" that Chancellor Bisplinghoff hears has a resounding note that will not stop by his resignation. This matter started by professional men stating their grievances to a person wanting only to stay at status quo, and has escalated to a point where it will not go away.

I very much sympathize with the good faculty at UMR, and feel that the only red face should be that of Stephen

Sowers for not fully understanding the problem.

Signed,  
John Edney  
Graduating Senior in Civil Engineering

## Quality of Campus

### Music

Dear Editor,

In the last issue of the Miner, KMNR's Groundwaves discussed progressive music. Generally, I agree with the writer's statements about the nature of progressive music, but there are a few points I would take issue with. Specifically, his reason why progressive art is not usually accepted by the majority of the people. True enough, progressive work is difficult to understand, and is therefore not generally accepted, but this is not the only reason most progressive work is rejected by the public. The words "Progressive Art" have been used to cover anything from serious work to musical (or

artistic) trivia generated by persons attempting to exploit the general public's love of gimmicks. As the writer noted, electronic devices have been used very effectively, both in and out of the Rock Idiom. Unfortunately, these devices can be (and often are) used to cover up a lack of depth in the music or lack of talent on the part of the musicians. Commercial considerations generally determine what is played by most radio stations, with the fortunate result that, for the most part, only that music which is acceptable by the general public is played, while more sophisticated music is left "out in the cold."

The function of an educational radio station is to increase the public's understanding and appreciation of ALL types of music by presenting a wider variety of programming than is generally available on commercial radio. I feel that KMNR's predominantly rock format has not always fulfilled this function, and since KMNR is operated for and funded by the student body, we, the students, should be able to expect nothing less than high quality, diversified programming.

Jim Cartwright

## International Thanks

Re: International Exhibition  
Thank you note.

Dear Student Body,

On behalf of the committee of the International Student's Club and Faculty Advisors, I would like to express my thanks and appreciation to the Presidents of the various Foreign Student organizations for the cooperation they gave me for making the "International Exhibition" possible last week. Also, I thank the many students, staff, and faculty and other visitors who attended the Exhibition. Your participation made the "International Exhibition" a success!

## Fall '76 At A Glance

"Good morning yesterday, you wake up and time has slipped away, and suddenly its hard to find the memories you left behind, remember. . ."

As the song, The Times of Your Life sung by Paul Anka implies, time slips away and the past is hard to find, just as the fall semester of 1976 has slipped by. This semester brought many changes, many memories and left its mark on UMR and its students. This semester some 1,026 seniors may graduate and leave UMR to enter the business world, while

some 1,397 freshmen here at UMR are on there way to getting the education they will need to go into business.

It seems as if I have not even touched upon the memories made during the Fall Semester of 1976. I am sure there are things and events I have not even pictured that make this semester special to you, just remember. . .

"...it's hard to find the memories you left behind, remember, do you remember, the times of your life." (Paul Anka)

... and the Fun.

## Damn Fool's Opinion

## Super Civ, Wherefore Art Thou?

Recently UMR experienced a kind of breach of trust. This breach was instigated by a Civil Engineering HONOR fraternity which goes by the name of Chi Epsilon. Some weeks back, in the September 23 issue of the Miner, an original concept was introduced to this campus in the form of SUPERCIV. Less than a week after the publication of this cartoon introduction, a bulletin was noticed on the campus bulletin boards giving everyone an opportunity to sign up to buy a SUPERCIV tee-shirt. This little enterprise, sponsored by Chi Epsilon, came as an unwelcome shock to the creator, writer, drawer, and entire staff of the newspaper as none of these people had heard the very least about the tee-shirt project.

Efforts were then made by members of the newspaper editorial staff to contact the president of Chi Epsilon or any member who knew anything about the problem. After many hassles, he was contacted. In the meantime, the creator of the character, SUPERCIV, was being advised of the legalities of the matter. It seemed that, because of an admitted misconception on the part of the Miner, the figure and name of the cartoon had not been copyrighted and was legally part of the public domain; in other words, public property. Resigning themselves to their plight, the write and artist of the strip talked to the president of Chi Epsilon in order to perhaps salvage a piece of their creation. The representative of the honor fraternity seemed very agreeable about talking to the two men and even asked them to draw up a suitable stencil for use in the production. When some form of reimbursement or royalties was brought up, the member of Chi

By BRIAN W. KAVANAUGH

Epsilon told the writers that he would have to discuss it with his officers. With all negotiations seemingly on the verge of completion, a stencil was made up and contact from Chi Epsilon was awaited. The next thing anyone heard was when another bulletin was posted stating that the tee-shirts were ready to be picked up. Compounding the shock of this was the fact that the figure portrayed on the shirt was merely a shoddy imitation of the original while bearing the same name, SUPERCIV.

Granted, the organization, Chi Epsilon, was entirely within the law all the way through their enterprising endeavor. But there does exist on this campus a little known, it would seem especially so to members of Chi Epsilon, Engineering Code of Ethics. This misuse of the character, SUPERCIV, is a direct violation of it and many other codes of ethics.

This case would be slightly more understandable had the organization in question been a profit making group. But it is not. It is an Engineering Honor Fraternity. Could this be what the brothers of the fraternity deem honor? And look at the finished product of this organization. The general figure and the exact name are alike, but there are some obvious and ridiculous differences in the character featured on the shirt. Was this an attempt to please or console the creators? If it was, it was in bad taste. Chi Epsilon's rendition of SUPERCIV served only as an insult to the authors of the strip and the staff of the Miner.

If this is what we can expect in the future of such organization on this university, then that future looks pretty bleak.

## Red Faced From Anger

By S.D. RUCKER

This piece was originally to be a parody of an editorial that appeared in the Rolla Daily Miner last week. I feel the situation is too serious to merely poke fun about it and the following stands as a rebuttal to the piece "Faculty Should be Red-Faced!"

If man is a social animal, educated man is usually one with a sense of social justice; this has been my experience with most faculty members whom I have known personally at UMR. I am convinced that the chief motivation behind the faculty's formation of a union type organization which will demand better treatment is the general feeling that it is the only recourse short of strike which will alter the present untenable situation. That untenable situation can be stated very succinctly; Administrative salaries of this institution are well above the national average for college administration salaries, faculty salaries (those

faculty not involved in administration) are well below the national average of college faculty members. At this school if you aren't an administrator (at least a department head) you more than likely aren't making much, regardless of your teaching or research abilities. In an institution whose fundamental goals are teaching and research — well, faculty, keep griping!

Despite what our local conservatives may say, it was part of Raymond Bisplinghoff's job to listen to the faculty and do all he could to alleviate such an outrageous situation; the faculty did not step out of bounds. At the meetings between Bisplinghoff and the faculty I sensed a spirit of cooperation — the Chancellor seemed to be on the side of the faculty and agreed with their position. I'm sure that it was not the faculty demands that caused his departure. At least I hope it wasn't for they were entirely reasonable even if as yet unattainable.

Next week there be featured an interview with Dr. Bisplinghoff.

## A Taste of The Talent Show

The student talent show had something for everyone's musical taste. The music ranged from Blue Grass to Country to Hard Rock. One talented duo consisted of Tom Tanner on the fiddle and banjo and Mac Mayfield on the guitar. They played and sang some real nice country tunes including their finale of Foggy Mountain Break-down.

Another duo consisted of Ben Smith and David Thompson, each on guitar. They performed songs like, Jubal's Blues, Two

## Budweiser® presents "Beer Talk"

## Salt in beer?

1.

Did you ever see somebody put salt in his beer to bring the head back up?

2.

Well, if you want to do it that way, it's okay with us.

3.

But really... what salt does to a great beer is make it salty.

4.

A perfect head of foam is easy: Just start with Budweiser. And pour it smack down the middle.

5.

You can save the salt for the popcorn, 'cause that Beechwood Aged Budweiser taste speaks for itself.

6.

And you can take that without a grain of salt!

## Student Service Project

The service projects done by organizations belonging to GAD serve as a means for campus organizations to improve public relations. Two of the many service projects done by these groups are surveying and land clearing. Recently Sigma Alpha Delta Service Fraternity and Phi Kappa Theta have completed service projects.

On Saturday Nov. 6, after selecting a project from a list provided by Gamma Alpha Delta Service Fraternity, forty men of the Sigma Phi Epsilon Fraternity gathered at the Federal Soldier's Home in St. James to begin work on a seven acre park for the benefit of the Home. In essence, the project calls for the conversion of seven acres of hillside adjacent to the Home and I-44 into a wilderness area with provisions for wheelchair use. This includes nearly 2000 linear feet of asphalt pathway, including a bridge spanning a creek, the transplanting of approximately 400

trees, and the addition of picnic tables and barbeque grills.

It seems the time has come again for Gamma Alpha Delta members to be completing their projects.

This semester Phi Kappa Theta is continuing its project at the Girl Scout Camp, "WOHELO" a few miles outside of Rolla. A dispute came about because of a farmer who owned land on a perimeter of the camp. It seems as though the farmer had placed his fence across onto the camp's land. This dispute concerns almost 40 acres lost by the camp. Last weekend Phi Kap members spent Saturday and Sunday trying to complete the surveying needed to settle the dispute. Crews of 10 to 12 people withstood the cold weather as an approximate 2500 feet was surveyed. Almost one mile of the boundary is left to survey and it is in hopes of the camp and Phi Kaps that this will be completed soon.

Continued from page 8

Hangmen, and Can I Have My Money Back.

Acts which ran on the unusual side where Ron Kister on the accordion and Peggy Knapt recited the poem, Aren't Boys awful. The hit song Rolla, Missouri was performed by Bob Berri, along with his own song,

Television Blues and the Irish Ballad Darcy Farrow, made popular by the Irish Rovers. Russell Bookout, did some very classical numbers from the Medieval and Renaissance period. These are just a few of the students who braved fits of butterfiles to perform in front of their peers.

## Poet's Corner

What's sadder than the sight and sound of a senior who discovers, the night before commencement, that he or she hasn't met all the graduation requirements?

Almost nothing, thinks Charles J. Milhauser, the registrar at Cornell College in Iowa, who urges seniors to check such things the fall before graduation. This year, in fact, he sent Cornell's seniors this poem:

'Twas the night before graduation, when all through the dorm, Not a creature was stirring, not even in Ror'm.

All diplomas were signed by the pres'dent with care, In hopes that the graduates soon would be there. When out on the lawn there arose such a clatter:

Some seniors just learned of a terrible matter. More rapid than eagles the registrar came And he counted their credits and called them by name: Flunk, Marsha; flunk, Spencer; flunk Frances and Dixon; Flunk Como, he's stupid; flunk, Donna and Nixon; Then up to the Hilltop the parents they flew With all sorts of threats and a lawyer or two. All said, in a twinkling, "The registrar's goof. He's hemming and hawing, but where is the proof?"

As they drew out their checkbooks while turning around, Down the hallway the registrar came with a bound.

He spoke just this word as they reached for his neck: "I asked every senior to come for a check!

In early September I bid them come in, Both to look at their records to know what has been And to learn what remains and what still must be done

If they are to finish in time for May's fun. We talk about transcripts; requirements, too;

And I mark on a sheet all they need to get through. Your child was invited to come for a check.

Had he done so he would have avoided this wreck." The proof was conclusive, the punishment paid.

'Twas foolish to ignore such a valuable aid. The next group of seniors was quick to foresee

What a wonderful benefit checking can be. Just a minute or two of your time and your mass

Will insure that you know what you must do to pass. The students whose records were checked in the fall

Are enjoying the year and just having a ball. But those who neglected their visit to pay

Are they who have thrown graduation away.

## Miners Open Season With Two Victories

The UMR Miners opened the 1976-77 basketball season during the Thanksgiving break with convincing wins over both University of Arkansas-Batesville on Friday night and over Harris Teachers College the following night.

In the season opening game against the Arkansas roundballers, the Miners increased a slim 35-33 halftime lead by outscoring the visitors 42-30 in the second half. The final score showed a 14 point spread for the Miners 77-63. Team statistics show the Miners hitting 46 per cent of their field goal tries in the first half and a very good 65 per cent in the second half for a complete game average of 58 point per cent. Arkansas hit on 54 per cent in the first half and 48 per cent in the second half for a total of 51 per cent. In rebounding, UMR held a large edge of 42 to 28 for Arkansas.

In scoring, the Miners had four players in double figures for the night. Bob Stanley led the Miners with 19 points and also was in double figures in rebounds with 10. Ron Scroggins and Joel Schreiner

both had 14 points, and Terry Buzbee had 12 points. Snipe and Mike Dilligard led Arkansas with 18 and 14 points respectively.

In Saturday night's game against Harris Teachers College the Miners defeated the visiting team behind the scoring of Ron Scroggins and Dennis DeBondt, and the rebounding of Bob Stanley. Scroggins and DeBondt had 19 and 14 points, while Stanley had 14 rebounds along with 11 markers.

The Miners' shooting percentage was way down from the previous night at 36.3 per cent and the Miners held a much slighter advantage in rebounds with a 46-41 margin in that category.

Kevin Davis had 16 points for Harris, while Mike Coleman had 11.

Miner Notes: Ross Klie is out for the season openers with an injury and Chris Schroeder is still recovering from a knee operation he had last summer.

## NEMS, SEMS TIE

Football action in the MIAA came to a close two weeks ago with the league contenders crossing the finish line in pairs. Southeast Missouri State and Northeast Missouri State tied for the 1976 title in just about every way possible. Both schools finished the season with a 4-1-1 conference record and when the two rivals met to settle the dispute for the MIAA championship the question was left unresolved, with a tie score of 3-3.

The final week of competition only served to solidify the outcome of this season. Northwest Missouri State and Southwest Missouri State tied with 4-2 marks for the second place slot, while UMR and Central Missouri State closed out with dual losses and even records of 2-4. Lincoln University went without a single victory this season for both their conference and overall schedule. It was coach Don Hudson's first year with the Tigers.

Second year coaches Ron Taylor (NEMSU) and Jim Lohr (SEMSU) traded records this season. Taylor improved his 1975 mark of 4-2 by half a game while Lohr dropped from his undefeated record of 6-0 by a game and a half. Walt Hicklin of Central Missouri State finished again at 4-2, but Charlie Finley of the Miners managed to

bolster his position this season by a game. Jim Redd first year coach for Northwest, improved the Bearcats 1975 mark of 3-3 by a game, when Dick Johanningmeier (SWMSU) skipped a game in the first year with the Bears.

A number of outstanding players emerged this season and from a NCAA Division II perspective the MIAA fared quite well.

Northwest Missouri State repeatedly received votes for the division's top ten ranked teams and Northeast Missouri State's Steve Powell secured and held a strong position in both the scoring and rushing categories.

Miner Notes: Dennis Jones of UMR led the MIAA with 7 interceptions. Terry Ryan of UMR was second in the conference in rushing and third in scoring, while quarterback Ken Vaughn was third in completion percentage and first in total yardage.

Conf.	Oa
Southeast	4-2 7-3-1

## Converse Coeds

It's strange, but neither Evangel College nor Southwest Baptist College have sent scouts to the women's varsity basketball practices this week, although both are opponents of UMR next week. In fact there haven't even been any spectators — it makes one speculate that not very many people are seriously thinking about basketball at 7 a.m. But Coach Caruso and her hardy team are. Every day as the sun rises over the football bleachers, hooded figures scurry into the Multipurpose Building, and by 7 o'clock they have turned into the sweating yellow-shirted, tennis-shoed teammates of the Miner Women's Varsity Basketball Team.

They will have their first chance to put their preparation to the test next week, as they travel to Springfield to meet Evangel College on Tuesday night. Your first chance to see them in action here — at a decent hour — will be against Southwest Baptist College on Thursday night, Dec. 9. Game time is 7:30 and if SWBC proves to be as dependable as usual, the game should be a good one. UMR is small but mighty, and will unleash speed and some good outside shooters against a team that plays consistent and controlled basketball. Be there Thursday night for our home opener — women's basketball is exciting, and best of all, free.

### INTRAMURAL NEWS

Last week the "Converse Coeds" promised results on several intramural sports; top finishers are as follows:

#### Billiards

TJHA Wallace  
Wesley Diana Maines  
ZTA Rosa Hermann  
ZTA Jan Touzinsky

#### Table Tennis

Singles  
WRHS Martha Heinze

Kim Morrill  
Yung Mi Yang  
Wehrmann

#### Doubles

Noelker-Hill  
Haintl-Potzmann  
Durson-King  
Crescents Williamson-Hellman  
Congratulations to these and all the other participants who didn't quite make it this far.

As volleyball competition finished up this week, the rookie TJHA squad found themselves on top of the seven-team heap with a 6-0 record. The Crescents upset KD Tuesday night to cause a three-way tie for second place; Crescents, KD, and KA all posted 4-2 records. These close results indicate the comparable skill level present on all teams.

## UNIVERSITY OF MISSOURI-ROLLA BASKETBALL SCHEDULE

DATE	OPPONENT	PLACE
Nov. 26	Arkansas College	Rolla
Nov. 27	Harris Teachers College	Rolla
Dec. 1	Drury College	Rolla

Feb. 22	Drury College	Springfield
Feb. 26	Central Missouri State University	Warrensburg
Feb. 28	Southwest Missouri State University	Rolla

ALL HOME GAMES WILL BEGIN AT 7:30 P.M.

# CHEVETTE VS RABBIT

(a brutally honest comparison)

## CHEVETTE

Smallest of popular Chevrolet species, indigenous to North America. Easy to own and care for, surprisingly tough and spacious for its size. Four wheels, four cylinders, big rear hatch, front disc brakes, rack-and-pinion steering. A lovable car with special appeal for people with limited budgets and plenty of places to go.

## RABBIT

A small, long-eared mammal of the hare family, technically one of the lagomorphs. Native of southern Europe and northern Africa. Four legs, one tail. Hops about, multiplies indiscriminately and often becomes a pest.

From left to right: Chevette Coupe and typical rabbit.

## Swimmers prevail

The defending MIAA conference champions, UMR, showed their winning form, Friday before Thanksgiving by soundly beating rival Southwest Missouri State.

Southwest did not swim UMR last year in a duel meet. This year they have a new pool and figured to get a jump on UMR by tapering for the early meet. The Bears did swim extremely well, yet the depth and quality of the Miner team prevented them from realizing their goal.

Both teams loaded their medley relays and the teams were even after the first three legs. Freshman John Smith anchored for the Miners and touched out the Southwest team. Also swimming on the relay for the Miners were Richard Ericson, Lee Ruppert, and Mike Norberg. UMR entered a second team which was also competitive squads through the first three legs.

Swimming on that relay were Brad Schrieber, Darrell Taylor, Mike Brennan and Reed Curtis.

The Miners won the next three events; the 1000 free, Fredrick; 200 IM, Ewers; 200 free, Orr. Mike Norberg won the 200 fly also for UMR.

John Dolan did an excellent job of diving as he took second and third in both events.

Southwest's Frederking qualified for nationals in the 200 back, but Erickson and Schrieder were right behind him as they were eight seconds under last years beginning times.

Ewers also took a close second in the 200 breast, behind SMS's Harrison as he swam faster than he did all last year.

The final score was UMR 62, SMS 51. The Bears all swam excellent, the Miners swam relatively poor, but the UMR squad showed their dominance over the top contending conference rivals.

The quarterfinals of Intramural Soccer were played this last Monday with all but one game resulting in an upset. TJ was the only first place team to qualify for the semifinals. Norman Henry in his first role as Jimmy the Greek came up with a perfect record of 0-4. Norm predicted that TKE, FLA, Sig Ep, and Pikers would all survive through the quar-

terfinals and that the overall winner would be determined by the winner of the TKE, FLA semifinal game. That was until they both got bumped off by Delta Sig and Sig Nu respectively.

It was Delta Sig, second place team in league III, coming from behind to upset TKE, first place team in League I, by the score of 3-2. TJ, first place team

in League II, edged powerful Sig Ep, second place in League I, in a close game 2-1. In another upset it was Sig Nu, second place in League II, over the fleet footed FLA squad, who took first in League IV, by the score of 2-1. And in the only run away game Sig Tau, second place league IV, defeated PI KA, first place League III, 4-1.

## Riflemen Defeat Northeast Shooters

Inexperienced Northeast Missouri State Rifle Team, hoping for a victory at the expense of the Miners' Rifle Team, was stopped cold by the Miners by a score of 1940 to 1773. In the two team competition, the Miners' first team took the lead by a score of 989 to 924. The Miners' second team out-

distanced Northeast's second team 951 to 849. Sergeant Nicely, Northeast Rifle Team Coach was surprised by the Miners strong showing and lamented that seven of his team members were new and lacked experience. The scores were as follows:

### MINERS

<b>1st Team</b>	
Pat McCann	268
Mike May	250
David Oakes	237
Mike Mertz	234

### NORTHEAST

<b>1st Team</b>	
William	244
Matthews	229
Silvey	228
Bradly	223

<b>2nd Team</b>	
Gary Shrewsberry	252
Chris McCann	244
Rich Connally	231
Mike Smith	224

<b>2nd Team</b>	
Moore	239
Chaffin	217
Willa	197
Groeper	196

The Miners are two out of two this season.

The Miners will travel to Lincoln University, Jefferson City for a Sectional Match on the 2nd of December and continue to Kansas State University, Manhattan, Kansas for the Turkey Shoot held on the 5th of December.
