Man and Nature

## Key To The Future - Engineering

### N.S.P.E. NEWS RELEASE

It seems not long ago that people with "vision" — those on the frontiers of progress — looked at Nature only as a force to be conquered. The elements were the enemy, and cocksure man held the unswerving belief that steam and steel and cement were all he needed to overcome the balanced order of uncounted eons and bring him to dominate the Nature that created him.

Now it's different. Today's visionaries see what might be called a symbolic partnership of man and Nature, with each contributing to the other for the benefit of both. The concept of mindless exploitation of our natural resources has given way to the philosophy of resource stewardship — an awareness of the consequences of our actions.

The key to this future is engineering. In the forefront of growth, engineers were among

the first to realize the folly of treating Nature as an adversary. They found they could learn from Nature without destroying it.

Is it ironic that the engineers looked upon as leaders in their fields are looking for birds for new concepts in aerodynamic design? To natural rock formations to test acoustical principals? To predatory insects for environmentally sound pest eradication? To the oldest power sources known to man — the sun and the wind — for "new" sources of energy?

Perhaps it is. But it's also a symbol of the realization that man must live in harmony with his surroundings and not attempt to mold them to his whims.

Just as engineering has accepted its partnership with Nature, society has accepted engineering, working in concert with science, law, the arts, economics, medicine,

sociology, philosophy — all facets of our existence — as inextricably intertwined with our future. Consequently, today's engineers are helping to lead the way — for a cleaner environment, more reliable

energy, more productive agriculture, more efficient transportation, more habitable cities, more effective medical technology, a healthier work environment and a safer consumer marketplace — rather

than following the lead of others.

America is maturing. And the hallmark of maturity, in man as well as nation, is the wisdom to recognize change and the strength to accommodate it.

## Dr. Aaron Miles Dies

Dr. Aaron J. Miles, a distinguished retired faculty member, died Friday, Feb. 11, 1977 of heart failure. He was 75 years old and had suffered a massive heart attack one year ago while teaching an extension class at Fort Leonard Wood.

Dr. Miles had been a faculty member of UMR for 34 years. He became dean of the school of Engineering in 1965 and was named dean emeritus in 1967. Holding a Sc. D. in

engineering and mechanics from the University of Michigan and an M.S. in Math plus a B.S. in Mechanical Engineering from UMR, Dr. Miles taught an extension class for UMR and traveled throughout Missouri speaking to High School students about science and engineering, following his retirement in 1965.

He was a member of the American Society of Mechanical Engineers, the

American Society for Engineering Education, the Missouri Society of Professional Engineers and the National Society of Professional Engineers.

Dr. Miles was also a member of several honorary, professional, and social organizations including Tau Beta Pi, Theta Tau, Phi Kappa Phi, American Men of Science, and Lambda Chi Alpha.

The Miner Band practices the unique composition commemorating their 50th Anniversary "Overture Jubiloso".

## Composition To Commemorate Miner Band's 50th Anniversary

A composition commemorating the 50th anniversary of the founding of the Miner Band at the University of Missouri-Rolla will have its premier performance in a concert at 8 p.m. Wednesday, Feb. 23.

"Overture Jubiloso" by Frank Erickson was commissioned by UMR chapters of Kappa Kappa Psi and Tau Beta Sigma, honorary band fraternities, and alumni and friends of the band. The Miner Band was founded in 1926 by John W. Scott, Rolla businessman, who directed it until his death in 1950.

According to Dr. David

Oakley, UMR band director, Erickson is one of the most prolific of contemporary band composers. He has more than 60 connected to profitable recording and broadcast industries. So students, educational organizations and professional societies have taken it upon themselves to pay for the commission of works by the better composers. In turn, band members have the opportunity to play stimulating, challenging and quality contemporary music. "Overture Jubiloso" is one of these compositions, and a fitting and lasting commemorative gesture."

Also included in the program are: "Triolog" by Jared Spears, "To Be Fed by Ravens" by W. Francis McBeth, "Tertian Suite, by Lawrence Weiner, "La Fiesta Mexicana" by Owen Reed and "Symphonic Jubilee" by Joseph Wilcox Jenkins.

The concert is free and open to the public.

The UMR band director says that the growth of the band program in schools and universities has brought about a growing need for new band music. He explains, "There are about 46,000 bands in the United States, but concert band music, unlike other music, is not

major original works for band. He is now a resident of Missouri, has a son attending UMR, and last year was a guest conductor of the Miner Band in a program of his own works." "Overture Jubiloso" is built upon a long and jubilant melody against a moving background," Oakley says. "Sooner or later, every section in the band gets in on the melody."

Except for the opening selection, "Extended Finale from 'Tannhauser'" by Richard Wagner, the entire concert program is devoted to compositions commissioned by bands or foundations.

## ROTC Annual Military Dinner

The 38th Annual Military Dinner will be held at the Manor Inn on Saturday evening, February 26th. The featured speaker will be Brigadier General William E. Read, Division Engineer, U.S. Army Engineer Division, Missouri River. In this position he is responsible for the Corps Water Resources Program in the 529,000 square mile Missouri River Basin, encompassing all of Nebraska, parts of Colorado,

North Dakota, South Dakota, Iowa, Minnesota, Montana, Wyoming, Kansas and Missouri. He is also responsible for military construction in support of the Army and Air Force throughout a 13 state area. Recent key assignments include service as Deputy Commanding General for AVSCOM, Director of AVSCOM's Procurement and Production Directorate, District Engineer at Tulsa Oklahoma and commander, 4th Infantry Division Support Command.

A 1950 graduate of West Point, he has attended senior military schools including the Army War College, holds a Masters Degree in Civil Engineering from the University of Illinois, a MA Degree from Webster College and attended the advanced management Program at Harvard.

This traditional occasion will include a cash bar social hour, the dinner itself, music during dinner, and dancing afterward. Invitations are being mailed by Lieutenant Colonel Charles G. Marvin, Professor of Military Science, to those persons in the Rolla community who have been interested in attending the Military Dinner in the past years. The admission charge is nine dollars per person. Anyone desiring an invitation is encouraged to call the UMR Department of Military Science, 341-4744.

# Bullboard

MISSOURI MINER

Thursday, February 17, 1977

Page 2

Notices to appear on the Bullboard section should be typed and deposited in the north door of the Miner office by 9:00 p.m. Monday. This will assure publication in the next edition of the Miner.

## ST. PAT'S NON-FLOAT ENTRIES

Non-Float Entries are now being accepted for the St. Pat's Parade. Categories include small combos, clowns, short subjects, etc. with trophies and participation points awarded. For information, or to submit entries, contact Ed Banovic at Phi Kappa Theta before March 1, 1977.

## TWO YEAR ROTC SCHOLARSHIP

The deadline for qualified applicants to apply for a Two-Year Army ROTC Scholarship is quickly approaching. Any student that is interested in applying for a Two-Year Army ROTC Scholarship and believes he/she is qualified should contact the Military Science Department for full details, Building T-2, phone number 341-4741. The deadline is Friday, February 18.

## M-CLUB

Tonight (Feb. 17) at 7:00 M-Club will have a meeting in Room 121, M.E. building. All lettermen wishing to join are urged to attend and pledge M-Club. Refreshments will be served and a movie shown afterwards.

## ASCE MEETING

There will be an ASCE meeting on Wednesday, Feb. 23, at 7:00 p.m., in room 114 CE. The guest lecturer will be our own Dr. Stephenson, and he will talk about his Coal Mine Stability research project. Signup for the Vicksburg field trip and memberships will be available. Yearbook pictures will be taken at this meeting so all members are urged to attend. Refreshments will be served.

## PISTOL CLUB

The Pistol Club will meet Tuesday, Feb. 22, at 7:00 in room 101 of the Mil. Sci. Building, T-2. Officers will be elected. Anyone interested in .22 caliber target shooting should attend.

## CIRCLE K MEETING

Circle K will have a meeting at 7:30 p.m., February 17, at Sigma Nu. Guest speaker will be Paul Graniman, Phelps County Coroner. Memberships will be taken.

## PEP BUS

The Student Council is sponsoring a free Pep bus to the Warrensburg Basketball Game, Saturday, February 26 at 7:30 p.m. All interested persons should sign-up at the receptionist's desk in the Old Student Union. Sign-ups will end Friday, February 18. Tickets to the game are not included.

## CHESS

The UMR Chess Club will meet Tuesday February 22, from 7:30 to 10:00 p.m. in the Meremac Room of the Student Union. Chess lessons are available on request to beginners and intermediate-level players. Clocks are provided for speed-chess freaks. Come one, come all! Direct any questions to: Wayne Carlson, El Presidente, 805 State St.

## FOOTBALL TOURNAMENT

There will be a Theta Tau Ugly Man sponsored Football tournament at the AEPi house, Feb. 27. Any organization wishing to sponsor a team should call Keith Wesselschmidt at 364-7176. The entry fee is \$3.00 a team and the tournament starts at 1:00. A first place trophy will be given and all proceeds will go to charity.

## ASSOCIATION OF ENGINEERING GEOLOGISTS

There will be a meeting of the Association of Engineering Geologists (AEG) on Wednesday, February 23, at 7:30 p.m. in Mining 107. Election of officers for the 1977 Calendar Year. Discussion of Spring Outing. Refreshments will be served after the meeting. All AEG members, as well as anyone interested in joining AEG, should be there!

## CASH PRIZES

Enter now in the Moak Papers Contest sponsored by your local ASME Chapter. These technical presentations by undergraduates will be awarded prizes of \$60 and \$40 for 1st and 2nd places. The first place winner will represent UMR at the semifinals, which will be held at the University of Oklahoma with ALL EXPENSES PAID. All interested students should contact Professor Look in 204 ME as soon as possible, preferably by March 1st.

## ENGLISH CLUB MEETING

First English Club meeting this semester Feb. 21 at 7:00 in G-1 H-SS. If you are interested in working on Southwinds be there!

## ASSOCIATION OF GRAD STUDENTS

The Association of Graduate Students will be holding a meeting at 7:00 p.m. on Monday, February 28. It will be held in Room G-5 of the H-SS Bldg. Photos for the Rollamo will be taken and refreshments will be served. Graduate students plan to attend.

## MAY GRADUATES

If you will be completing requirements for a degree at the end of the spring semester you should make application for that degree by going to the Registrar's Office at your earliest convenience. The Registrar's Office will not be able to include you with other students finishing undergraduate and graduate degrees on May 15th unless you make application with Lauren Peterson.

## SOUTH WINDS

South Winds Magazine is now accepting Poetry, Prose, Photography (including photos of original art works, songs, doggere limericks & proverbs. Submissions may be given to English teachers, or to the smiling secretaries in the Humanities office please submit a copy of the original word (you keep the original). Deadline, March. 4, Greater UMR Metro. Literary Society.

## STUDENT FINANCIAL AID COMMITTEE

The regular meeting date for the Student Financial Aid Committee during the spring '77 semester will be the First Tuesday of each month. Check with 106 Parker Hall for exact time and place.

## STUDENT FINANCIAL AID DEADLINE

Any student who wishes to be considered for scholarships for the 1977-78 academic year must have their applications completed and turned into the office of Student Financial Aid no later than March 15. Applications can be secured in 106 Parker Hall.

## WORK STUDY AVAILABLE

Any student who applied for the Work Study program through Student Financial Aid Office and was denied based on lack of funds — please stop by 106 Parker Hall if you are still interested in being on the work program.

## VARSITY GOLFERS OLD & NEW

Golf Team meeting Feb. 22 Coach Merciers office 6:30 p.m.

## ICF

InterVarsity Christian Fellowship will hold a chapter meeting on Tuesday, February 22 at 7:00 p.m. Jesse Yow will speak on "The Authority of the Bible." The meeting will be held in the basement of the United Methodist Church at 803 Main. Please use the basement entrance on Park Street. All interested students and faculty are encouraged to attend.

## SUB

## OUTDOOR RECREATION WEEK

During the week of February 28th, SUB will put on a week long program of activities, displays, and movies related to the great outdoors.

Among the clubs participating in Rec. Week are the MSM Spelunkers, SCUBA, and the Parachuting Clubs. Also being displayed is the new canoeing and camping equipment that you can rent from SUB.

So talk to your friends, set aside some time, and come see Outdoor Rec. Week. Watch for more details.

## TOUR THE SUB

If you've considered becoming a Student Union Board officer, director, or committee member, or just want to know more about this important campus organization, come to the open board meeting on Thursday, Feb. 17 at 6:30 in Centennial Hall New Stu. U.

## Minor Award of the Week

This week's Minor Award, by overwhelming acclamation, is hereby awarded to our infamous, local hairdresser (?), Linda Whites. For those of our readers who are unfamiliar with our own Miner celebrity, just ask any guy who decided to get a haircut in response to an ad that Ms. Whites purchased from the Miner. Also, we are recognizing the refreshing and illuminating writing ability of our winner. We must suppose that in losing her job, she must not have been able to "lick 'em", but rather, only able to "bite 'em." Ahh..., Thanks!!

## Big Semester for SUB

The Student Union Board is planning some big events to end this semester and it's working hard preparing for next year. The nine SUB committees are busy working to give the UMR student body a large assortment of activities and quality entertainment.

On March 10th, 11th, and 12th, the Indoor Recreation committee will hold the UMR SUPERSTARS competition. Fifty athletes representing IM organizations and the student body will battle for points in seven of ten events comprised of track, swimming, an obstacle course, and special tests of strength and skill.

Outdoor Recreation is currently preparing for warmer weather and a new season of float trips and outings. Dates for these activities will be announced soon.

The Fine Arts committee is presenting poetry read by Eric Chaet on Feb. 23rd in the Mark Twain Room at 8:00. On the

following day, Feb. 24th, they are featuring mimist Dan Kamin in Centennial Hall at 8:00. Disco Dancing Lessons are being planned by the Hospitality committee; the dates will be announced soon. Finishing the month, the Films committee will show "Front Page" on Feb. 27th at 4 and 6:30.

SUB will begin March with a Sadie Hawkins Dance sponsored by the Special Events and the Social committees on March 5th. The General Lectures committee will then set a mood of country rock when they feature Pure Prairie League in concert during St. Pat's, Mar. 19th.

Finally, SUB is giving everyone the chance to see them at work. An open board meeting is being held on Thursday, Feb. 17th at 6:30. The meeting has been moved from the Meramec Room to Centennial Hall to accommodate more people.

Mark Bruno, bartender at the Manor Lounge, demonstrates the fine points of mixing and serving a good drink. Bruno was the guest speaker last Thursday at the SUB bartending workshop.

Photo by H. Burford

## Student Funds Available

The American College and University Service Bureau announces a service to help students, both undergraduates and graduates, obtain funds from foundations.

The bureau's director says, "There are hundreds of foundations with millions of dollars in funds earmarked to aid students in meeting the cost of higher education that goes untouched each year. Why? Students do not know of the foundation or foundations or how to go about obtaining these funds."

The bureau offers its services to deserving students by supplying names of foundations and guidance as to how to go about obtaining funds from their foundations.

For more details on this service, interested students may write:

American College and University Service Bureau, Dept. S, 1728 - 5050 Poplar Ave., Memphis, TN 38157

# Miner News

## Experimental Cars

Two experimental battery driven cars will be on display at the UMR campus Feb. 23 at 7:00 p.m. in the Chemistry Building (Rm. G-6). Mr. Dale McCaw of Eagle Picher Industries from Joplin, Missouri will speak on the Electro-chemistry Bat-

teries, Metals, and Compounds used in these types of cars.

Also speaking with Mr. McCaw are the following: Mr. Earl S. Carr, a chemical Engineer from John Hopkins University, John H. Adams, Chemical Engineer from the

University of Kansas, and Jeff K. Wilson, a Chemical Engineer from the University of Arkansas.

Everyone is welcome to attend and refreshments will be served.

## New Financial Aid Requirements

Those students desiring financial aid might take note of the new requirements which will take effect for the processing of aid for the academic year 1977-78.

Students must maintain measurable satisfactory academic progress in order to have aid, in the forms of grants and loans, extended into succeeding semesters. The definition of satisfactory academic progress is as follows.

The student must have passed at least 24 hours in the preceding 12 months. Summer session credit may be included.

The student must be enrolled in at least 12 hours in the semester for which the aid is granted.

The student will be eligible for aid if: After his first semester he has an academic GPA of over 1.70, or after his second semester his academic GPA is above 1.80 and his semester GPA is above 1.90, or after his third semester his semester and academic GPA is above 1.90 and his present semester is above 2.10, or after his fourth or above

semester his semester and academic GPA is above 2.00 and his present semester is above 2.20.

Consideration of continuation of financial aid may be made by the Student Financial Aid Committee for students not meeting each of the above

criteria. Appeal must be made either in writing or in person, however, it is recommended that students appear before the committee in person and be accompanied by an advisor or counselor.

These new requirements were adopted Nov. 17, 1976.

### Smoke Bomb on Campus

Dear Editor:

Nagogami Terrace; Feb. 12, 1977 — Several months ago, Auxiliary Enterprises was informed that the furnace in apartment 236 smoked when it was in use. The furnace was repaired several times and on several different occasions was deemed safe to use. After one of these occasions the student's wife, who lived in this apartment, was overcome by the smoke and had to be transported by ambulance to the county hospital where she revived. This occurred several weeks ago. The furnace was again repaired and pronounced safe. But after a short time, the same problem reappeared. This last week after numerous attempts at repairs the furnace was finally given up for dead, and the tenants were told that a new furnace would probably be ordered. Knowing Auxiliary Enterprises and Mr. Zink's accomplishments in the past, I venture to guess that the new furnace will not be installed until at least the middle of

summer, if at all. The sad part of the whole episode is that Mr. Zink, who heads Auxiliary Enterprises, gets paid by the University for managing Nagogami Terrace.

Respectfully yours,  
Joseph Sadowski

### Cheerleaders, Stand Up and Fight!

Dear Miners,

At the basketball game last

Saturday, 12 February, the cheerleaders were told by a few fans to "sit down and shut up"!!!!!! Why didn't they sit some place else to start with (the fans not the cheerleaders)?

These cheerleaders are giving of their time, effort and enthusiasm and deserve the same support and appreciation that we demonstrate for the team.

CHEERLEADERS: Don't lose heart. There are many of us who cheer for YOU. Don't disappoint us, just to satisfy a few fans who definitely NOT deserving of the distinction of being called a "MINER".

Thanks,  
Sandy M.

## Highest Office in the Land

By BRIAN W. KAVANAUGH

Let me take this opportunity to play devil's advocate to the entire country (or at least Rolla). It seems that lately, that is within the past thirteen or fourteen years, that during the presidential election, one votes for "the lesser of two evils". Granted, we have had some poor presidents in the past, but must they blot out the good? I submit here that the office of president of the U.S.A. is indeed the highest office in the land and should be treated as such, with all due respect.

It takes a lot of work to be president of this country. It has broken some men. But there are those who, like Kennedy, will live in the minds of men for many years to come.

Through the years we have heard almost legends about the "great presidents of the past". But were they actually any better than the modern day presidents? History records were scarce in George Washington's time. Those events that were recorded were but the good points to keep the morale of the new country high. So it was for the early years of the new nation. President Lincoln freed the slaves and was assassinated, almost becoming a martyr. He was truly a great president. But who has heard of most of the other

presidents of this country? Who can really say what they have done; if they were qualified or not? We have had almost forty presidents now, but who can name more than a few and what they did in their administration?

In a way the modern day president has much more to contend with in his office. With the increased coverage of the news services, every small, and large, fault or mistake is magnified out of proportion by the thorough news coverage of today. And perhaps as a partial result of this increased press coverage and the constantly improved mediums of communication, public figures, especially presidents, have many fanatics to put up with. The president is in such fear of his life at all times when in public that he must virtually surround himself with Secret Service men to protect him.

Who of us has the motivation, the drive, and the guts to become president? If just for this reason alone, the men who hold this office deserve some respect. They are, after all, serving you.

These comments may seem strong or harsh to some of you. I ask only one thing; to seriously consider what is written here, then condemn or condone.

## Diehl Montgomery Ford Sales Rolla, Missouri (The Originator Of The Student Finance Plan In This Area.)

This plan allows the students upon approved credits and job, to buy a new car with a minimum down and payments of \$25.00 per month until you are on the job. This plan is not new, Diehl Montgomery Ford has sold over 750 new cars and trucks to graduating students this way. See us for all the details. Also you can use your own insurance or ours.

### FORD LINCOLN MERCURY

This allows the graduating students to have a new car before he graduates when he really needs it. "This is a special discount program for students. We will be glad to quote you a price on a Ford or Mercury product."

KMNR

## GROUNDWAVES

Where can Bobbin' Boppin' Bob Haul find a diving board to go into Alice in style? It seems Bob was fortunate(?) enough to be elected a St. Pat's Knight, and wants to be different. As if his Sunday evening Oldies Show isn't different enough.

Of course you all know that KMNR will present another in the continuing series of Greaseballs, Wednesday, the 16th of March, during St. Pat's party weekend. The engineering staff is running around with glazed eyes, contemplating the logistics to get it done in time, and from the degree of glazing on the corneas, it looks like it's going to be a father-raper of a Greaseball. My hair is too long to go as Da Fonz, so I'll probably tie it back and go as Wally Cleaver's girlfriend Mary Ellen. Now to find some big, handsome St. Pat's Board Rep to take me out...

FLASH! John Walker just ran by, so I guess he really is alive...but wait! A note! Could it be? Yes...KMNR will broadcast the Miner's away game at

Lincoln University in Jeff City on Feb. 19, from 7:30 to 9 p.m. Considering the rivalry between the two teams, John and Gaylord should have an interesting bout to report on, if they can stop watching the cheerleaders.

Like I promised last week, the KMNR Programming guide should be available this week in the Student Union, at the radio station behind the Mining Bldg. and possibly you'll receive your own personal copy to blow your nose in! What more could a Miner want?

KMNR's series of Special Programming regarding Community problems began this week on Monday, with our Program on Drugs in Rolla, and there'll be more, which I'll try to get into the weekly programming lists as they get ready for airplay. I mentioned several a couple of weeks back, and from the ones I've heard pieces of, they are what we've needed for a long time. Stay tuned.

FLASH! Ellen Zerr just stole a whole handful of my munchies

from an unmarked grocery bag. What cunning. She doesn't know that I laced them with Bow Wow dog food. Next week I'll have an on-the-spot report from the funeral.

Alas, I must cut my ravings short post haste. The Deadline draws nigh, and my ribbon grows short, thus, I must, once again bid all my loyal (and not so loyal) readers adieu and gesundheit. A Musical Farewell...

## Miners Defeat Northeast In Conference Showdown

By  
BILL FRANK

The Miners got hot in the last quarter of the game to destroy the Bulldogs of Northeast Missouri State in Saturday's game at the Multi-Purpose Building. After tying the game at the 11:19 mark, the Miners went on to win 80-64 to improve their conference record to 5-3 and their overall mark to 15-6. This outstanding victory keeps UMR's faint hopes of repeating as MIAA champions alive.

The Bulldogs dominated first half play and had a three point advantage at the half, 34-31. The Miners rallied after intermission and took the lead at 13:07, 48-46. The two teams battled hard and

it remained a tight game for the next several minutes. The officiating was not tight, though, and the alert Miner squad took advantage of the situation to outmuscle the Bulldogs under the boards and began to dominate play. Ross Klie completed a 3-point play at 6:26 to put the Miners comfortably ahead, 65-53. The Miners continued to put the screws to NEMS and in one seven minute stretch outscored the Bulldogs 24-5. This kind of oppression continued through the final buzzer to bring the score to 80-64.

This much needed victory was due to good performances by every one on the UMR team. Stanley, Scroggins, Buzbee,

Klie, and Keusch were all in double digits in scoring, with Klie being the top scorer for Rolla with 19. Terry Bussard was the top scorer on the night with 24 points, but NEMS's big scorer, Bob Young, was held to only 8 points, over 10 below his average. Bob Stanley, the best rebounder in the MIAA, had ten rebounds for the Miners and Ross Klie had 11.

The Miners hit 62 percent of their shots from the floor in the second half compared to only 30 per cent for the Bulldogs. The hustling Miners also out rebounded NEMS by a wide margin, 51-37.

This weekend the Miners play Lincoln University away.

## Miner Grapplers Split On Road Trip

By JERRY SMITH

Last week the UMR grapplers went on a 2-day road trip during which they won 2 matches and lost 2 matches. The matmen traveled to Liberty on Tuesday Feb. 8 where they defeated William Jewell College 28-20 in a dual match. Wednesday the Miners wrestled in Maryville in a triple dual with conference rivals NWMS and LU. Also present was Wayne State of

Nebraska. In Rolla's first match Wednesday the Miners defeated an undermanned Lincoln team 42-11. Next against Wayne State, UMR was outmuscled 29-20. In the bout with NWMS the Miner matmen were blasted 5-38.

Individual match scores were as follows: UMR vs William Jewell; 118-Steve German lost by fall 3:14, 126-Alan Brooks lost

by fall 1:39, 134-Dan Roper won by decision 11-4, 142-Lloyd Thompson won by fall 3:01, 150-Larry Wetzel won 11-2, 158-Rich Lawson won 7-6, 167-Jerry Smith won by fall 6:04, 177-Russ Cornett won by fall 3:22, 190-Randy Ganz lost 9-13, and Heavyweight-Ron Roberts lost by fall 1:16.

UMR vs LU: 118-Steve German won by forfeit, 126-Alan Brooks won by forfeit, 134-Dan Roper won by forfeit, 142-Lloyd Thompson won by forfeit, 150-Larry Wetzel won by forfeit, 158-Rich Lawson won by decision 15-4, 167-Jerry Smith lost 4-6, 177-Russ Cornett tied 11-11, 190-Randy Ganz won by fall 3:50, at heavyweight UMR lost due to forfeit.

UMR vs Wayne State: 118-Steve German lost 2-18, 126-Alan Brooks lost by fall 6:51, 134-Dan Roper won 12-4, 142-Lloyd Thompson won 15-4, 150-Larry Wetzel won by pin 6:21, 158-Rich Lawson lost by fall 7:07, 167-Jerry Smith lost 5-9, 177-Russ Cornett lost 3-8, 190-Randy Ganz won by forfeit, and heavyweight-UMR lost by forfeit.

UMR vs NWMS: 118-Steve German lost by fall 0:51, 126-Alan Brooks lost by pin 0:23, 134-Dan Roper won 8-5, 142-Lloyd Thompson lost 1-6, 150-Larry Wetzel tied 4-4, 158-Ron Roberts lost by fall 3:24, 167-Jerry Smith lost 6-11, 177-Russ Cornett lost 0-4, 190-Randy Ganz lost 3-5, at heavyweight-UMR lost due to forfeit.

This was UMR's last dual meet for the season. The Miner matmen have compiled a dual meet record of 6-5-1. The Rolla grappler's win-loss-tie record, match-wise, is 61-72-4. UMR has two tournaments left on their schedule, the Washington Univ. Tourn. and the MIAA Conference Tourn. The Washington Univ. Tourn. is scheduled to begin at 5:00 Friday Feb. 18 and will continue Saturday morning about 9:00 and extend into the afternoon sometime. The Miners should be a strong contender and encourage any UMR fans who will be in the St. Louis area over the weekend to drop in and support them.

## Converse Coeds

### So Close

By  
"GRANDMA"

The Miners were caught by the clock again Tuesday night, when for the second time this season they lost in overtime. This, however, was their most impressive game to date, as they matched a team that many thought would wipe them off the floor. Remember when Columbia College stomped UMR, winning by 31 points? The Columbia team has remained undefeated all season, posting a record of 16-0, and is rated by many as one of the top teams in the state. Despite this record, and a starting line-up of five players taller than all but one of the Miners, the 40-minute game ended in a 56-56 tie.

The entire contest was exciting, as the lead changed hands often, and neither team could manage to pull more than five points ahead. The story was the same in the five-minute overtime period, and again the Miners had to foul intentionally in the closing seconds to try to gain possession of the ball. The attempt failed, and the Miners fell three points short, 69-66.

Statistics reflect the fact that it was a star performance by the whole team. Joy Ewens was credited with 20 rebounds and chalked up her season high of 19 points. Again, Iowa ace Karen

Williamson took the game scoring honors, hitting 12 shots from the field and 5 free throws for 29 big points.

It's an old cliché that "close only counts in horseshoes and hand grenades," and I guess when future basketball fans look at the UMR record books, they will only see that the Miners lost to Stephens College and Columbia College. What they won't see is the moral victories the team won on Friday and Tuesday. Perhaps it is but small consolation, but against two teams whose size and records are both quite formidable, our team played better and with more spunk than many thought possible.

Friday night the Miners hosted Stephens College, a team that had beat them soundly earlier in the season. Though they were down by sixteen at halftime and at one point fell twenty points behind, an enthusiastic crowd helped the Miners put together a drive in the late minutes of the game to come within one point of the surprised Stephens team. One of those last-hope fouls in the closing seconds resulted in a Stephens score from the free throw line, and Mila Wallace's "buzzer basket" made the final score Stephens 60, UMR 58.

## M-Club

### athlete of the week

Last week's athlete of the week was Jerry Smith. Jerry is a member of the UMR wrestling team. Saturday (Feb. 5th) at UMR's wrestling meet at Cape Girardeau Jerry won both his matches, pinning one of his opponents.

He was voted last week's "Baguba" by his teammates, meaning he was the most valuable wrestler for the week in their opinion (This was the second week in the row Jerry was voted "Bag-a-ban"). Jerry is a sophomore majoring in Petroleum Engineering.

Jerry Smith

Danny Roper, senior captain of the UMR wrestling team, is this week's M-Club athlete of the week. Tuesday night against William Jewell the Miners overcame a 12-0 deficit when Danny turned the tide and started a snowball effect that engulfed Jewell, giving the Miners a come from behind victory. The next night UMR traveled to Northwest Missouri State to compete in a triple dual. Danny won easily against conference foe Lincoln and came from behind to beat Wayne State of Nebraska. In the final bout of the night Dan pulled off an upset victory against NWMS, (Maryville), that will put him in position for the conference tournament.

## Varsity Track Results

By L. D. ERICSON

This past weekend the UMR track team competed in the Missouri State University All-America Indoor Invitational track meet.

The Miner squad recorded several outstanding performances throughout the meet. Steve Smith finished 2nd in the long jump, breaking his own school record, and 3rd in the triple jump. Keith Spalding placed 6th in the pole vault, and Roger Vessell qualified 4th in

the 440 yard run. The mile relay team of Snider, Ortbaes, Staab, and Vessell finished 4th, and the 2-mile relay team of Ackerson, C. Bowen, B. Bowen, and Lattner in a 5th place effort.

This Friday, the UMR "Skinny power" travel to Columbia to compete in the All Missouri Meet. Entrees in the meet for the Miners consist of Keith Spalding in the pole vault, Craig O'Dear running the 60-yard high hurdles, Dave Craycraft in the 3-mile, and in the half mile, Jim Lattner.

## Intramural News

By BRIAN EDWARDS

In league I of Intramural Basketball TKE remained undefeated as they romped over A E Pi 56-37. TKE and Tech Eng are both tied for first place with identical 3-0 records. Beta Sig improved their second place record to 4-1 with a 51-50 victory over A Phi A. A Phi A came back from their loss at the hands of Beta Sig to defeat A E Pi, 49-39.

Phi Kap moved into a tie with Sig Ep for first place of League II last week as they overran Delta Sig 49-16. Pi K A was victorious over Triangle by the score of 43-33. Sig Ep and Phi

Kap both have 3-0 records and Pi K A is in second place with a 3-1 record.

In first place of League III is MRHA who easily defeated Focus last week 71-49. Kappa Sig moved into a three way tie for second place with TJ and Lambda Chi as they defeated Acacia 49-28. In the only other League III game it was Mates over Acacia by the score of 42-36.

In league IV action ABS suffered their first loss of the season as they were upset by Sig Tau 38-35. In a close game it was 601 edging Sig Nu 54-50. ABS leads League IV with a 4-1 record.

# The challenge.

Your challenge is to discover words of four letters in this pentagon. Discover them by following the straight lines to and from the letters, forming words as you go. You may not use two of the same letters in any one word. If you can make 30 words or more, you've met the challenge.

## When there's a challenge, quality makes the difference.

We hope you have some fun with the challenge. There's another challenge we'd like to offer you, too. The Pabst challenge:

We welcome the chance to prove the quality of our beer. We challenge you to taste and compare Pabst Blue Ribbon to any other premium beer. You'll like Pabst better. Blue Ribbon quality means the best tasting beer you can get. Since 1844 it always has.

**PABST. Since 1844. The quality has always come through.**
