The Miners continued their winning ways last Saturday as they beat SEMO 34-23, going 9-0 for the season. The Miners are currently only one of two undefeated NCAA Division II teams in the nation and now have a 13 game winning streak.

The Miners will play their final game of this season next Saturday against NEMO at Kirksville.

Band festival to be held Saturday

SOURCE: OPI

The first Thomas R. Beveridge Memorial Band Festival will be held Saturday, Nov. 15, at the University of Missouri-Rolla New Jackling Field.

School bands from Lebanon, Perryville, St. James, Pacific, St. Clair, Farmington and St. Charles (Francis Howell High School) will compete this year at what is intended to become an annual event.

Each band will present its program at 20-minute intervals beginning at 1 p.m., with awards presented at 3:40 p.m. The groups will be judged on music, marching and general effects. UMR's Miner Band will perform an exhibition program while the judges make their decisions.

The festival is sponsored by UMR's music program and the students of Kappa Kappa Psi and Tau Beta Sigma, national band

fraternities for men and women. The event is dedicated to and named for the late Dr. Thomas R. Beveridge, professor of geology and geological engineering at UMR.

A geologist, humorist and musician, Dr. Beveridge was a member of the MSM Band when he was a student here in the late 1930's and early 1940's. At a later date, as a member of the faculty, he sometimes filled in to augment the French horn section of the band. He continued his association with the group and gave the band his continuous support throughout his tenure with MSM-UMR.

All those who enjoy marching bands are invited to spend a couple of hours on Saturday afternoon watching the various groups perform. A fee of \$1 per person will be charged to all spectators to help defray costs of the festival.

InterFuture scholar to talk at UMR

SUBMITTED BY
DEAN COGELL

Inter Future Scholar Pamela Bell will speak to UMR students interested in the InterFuture Scholars Program. Ms. Bell will speak at the Phi Eta Sigma Honor Society meeting November 20, 1980, in Room G-5 H-SS, at 7:00 p.m.

InterFuture means "intercultural studies for the future." This is a program for undergraduates who want to learn first-hand about the traditions and innovations that are shaping the human community, locally and worldwide. If you are selected to be an InterFuture Scholar you choose your own topic in any of the following fields.

Natural sciences, environmental studies... if you want to learn how nations manage programs for public health, energy, nutrition and agricultural development, water supply, ocean resources, environmental education, pollution, or comprehensive environmental planning.

The arts — classical, folk, contemporary ... if you enjoy involvement with the theater, dance, music, literature, painting, crafts, or sculpture of cultures different from your own.

Business, economics, law ... if you would like to observe the activities of multi-

national corporations, economic agencies, and judicial institutions in Europe, the Third World, and North America.

Social science, ethnic studies, history ... if you want to see how other countries have met — and plan to meet — the needs of their citizens, including children, youth, minorities, workers, women, the unemployed, senior citizens, the handicapped, or prisoners, in rural communities or urban centers.

Education and mass communication ... if you are concerned about how the minds of citizens are being shaped by school systems, radio, television and the press.

International affairs, peace studies ... if you are interested in diplomacy, conflict-resolution, and regional or world cooperation for peace and social justice.

InterFuture offers you the chance to create your own cross-cultural research project and carry it out here and abroad.

InterFuture helps you to meet people of other cultures on a personal basis — examining how they deal with a specific problem,

Congress passes new education bill

By KEN HARDY

Senator Paul Laxalt, chairman of Ronald Reagan's presidential campaign, was one of six senators to vote against the \$48.4-billion Education Amendment of 1980, a bill extending federal college aid programs.

It has not been known what Mr. Reagan's stand on the bill was. The Republican platform has nothing in it about student aid.

One area in which President-elect Reagan's views are known is the newly created U.S. Department of Education. He has called for the abolition of the agency, formerly a department of Housing, Education, and

Welfare.

The aid bill passed the Senate on a vote of 83 to 6 before the election recess. It is a compromise version of an earlier bill passed by the House of Representatives. The Senate rejected the first \$50 billion version after the

Senate budget committee balked.

The bill extends several areas of student aid and increases several limits on the amounts available to individuals. Exactly how all programs will be affected is

uncertain due to differing interpretations and because Congress has yet to make all appropriations.

Next week the Miner hopes to print information on exactly how students will be affected by the new bill.

Friday is National Merit Day

SOURCE: OPI

on Friday, Nov. 14.

High school honor students who have been designated semi-finalists or commended students by the National Merit Scholar Corp. are invited to attend National Merit Day at the University of Missouri-Rolla

National Merit Day is designed to acquaint these honor students with the academic programs offered by UMR and give them an opportunity to discuss admissions procedures, financial aids available for them and campus life in general. Parents and counselors are welcome to accompany the students.

and-or take short campus tours.

A program for all participants begins at 10:30 a.m. and is followed by a luncheon for the guests. During the afternoon students, parents and counselors have an opportunity to visit all departments.

Those interested in attending UMR's Merit Day or wanting further information, are asked to contact the chairman of this event, Don Askeland, associate professor of metallurgical engineering, University of Missouri-Rolla, Rolla, Mo. 65401 (telephone 314-341-4730).

Registration begins at 8 a.m. in the UMR University Center Miner Lounge. Students are encouraged to attend 8:30 and 9:30 a.m. classes while parents and counselors talk with faculty

Skate party raises money

SUBMITTED BY
ALPHA PHI ALPHA

Last Saturday Alpha Phi Alpha held its 1st annual skating party for charity. One hundred seventeen dollars was raised and will benefit the Sickle Cell Foundation.

A good time was had by

all.

The Brothers of A Phi A would like to thank the Magic Lantern skating rink for their donation and the many patrons all of whom really skated down. We hope you had a good time and are looking forward to next year's event.

Calendar Of Events Calendar Of Events Calendar Of Events Calendar Of Events Calendar

THURSDAY

TONIGHT'S MOVIE

The Great Film Series presents "Badlands," starring Martin Sheen and Sissy Spacek, and directed by Terrence Malick who also directed "Days of Heaven." It will be shown in the ME Auditorium at 7:30 p.m. Season tickets or \$2 at the door.

M-CLUB SMOKER

There will be a smoker for all M-Club pledges tonight at 7:00 p.m. at Sig Ep. All members please attend.

CONCERT

There will be a concert by the New York based group, Mozart on Fifth, tonight at 8:00 p.m. in Centennial Hall. The group performs a variety of music including works by Mozart, Scott Joplin, Glen Miller and the Beatles. The performance is free and sponsored by your SUB.

UPSILON PI EPSILON

The Computer Science honorary, Upsilon Pi Epsilon, will have a meeting tonight at 6:00 p.m. in Room 327 of M-CS. All members are asked to attend as officer nominations will be taken.

FRIDAY

WILD TURKEY PARTY

Remember Sigma Tau Gamma's WILD TURKEY PARTY, Friday, Nov. 21st. Why not give it a SHOT!!!

SWE FIELD TRIP

The Society of Women Engineers is sponsoring a field trip to Olin Corporation on November 14. The bus will leave Rolla at 7:30 a.m. and will return to Rolla at 7:00 p.m. The bus will stop at West County Shopping Center for those wishing to remain in St. Louis. Anyone interested in attending the field trip should call Mary or Lisa at 341-2277.

SATURDAY

TABLE TENNIS TOURNAMENT

There will be a table tennis tournament November 15, starting at 8:00 a.m. in the St. Pat's Ballroom, University Center West.

The tournament will be for both men and women with a separate tournament for each. There will be three divisions in each tournament: a student division, faculty division, and a community division.

The winners of each division will play each other in a championship match.

There will be prizes for 1st, 2nd, and 3rd place. It will be a double elimination tournament.

Sign up with Terri at the Reservationist Desk, University Center West by noon, November 14. Entrance fee is \$1.00.

UMR-IFC

The UMR-Interfraternity Council will hold its first IFC charity chicken shoot at Lion's Club park Sat., Nov. 22 from 9 a.m. 'till dusk. Prizes are turkeys and hams. Proceeds go toward the Cerebral Palsy School playground. So come show off your shooting skills and bring a turkey home to boot!

MONDAY

TRACK

There is a meeting Monday at 4:00 in the Multi-Purpose Building classroom for all those interested in participating in Varsity Track this spring. Please attend.

TURKEY SHOOT

The Rifle Team is sponsoring their second annual Turkey Shoot Nov. 17-21, 12:00-6:00 p.m. Entry fee is 25¢. Separate categories for men and women. U.S. Army M-16 rifles will be used.

TUESDAY

SWE

The Society of Women Engineers will be holding their next meeting on Tuesday, November 18 at 6:15 p.m. in the Missouri Room of the University Center. Refreshments following the meeting.

AMERICAN CHEMICAL SOCIETY

W.T. Schrenk Society, student affiliate of the ACS, will hold a meeting on Tuesday, November 18 at 7:00 p.m. in Room 121 of the Chem. Chem E building. Dr. D Day of the Ceramic Engineering Department will speak on "The Chemist's Involvement in Materials Research." Refreshments will be served.

ANS

The student branch of the American Nuclear Society will hold a meeting at 7:00 p.m. on Tuesday, November 18th, in Room 104, ME Building. Details about the American Energy Week contest will be announced. Refreshments will be served. Anyone interested is invited.

UMR TARGET PISTOL CLUB

UMR Target Pistol Club will meet November 18, 1980 at 6:30 p.m. at the shooting range in the basement of T-2 (ROTC Bldg.). Pistols are provided and ammunition is available for purchase. All students, faculty and staff are welcome. Come join up and have fun shooting in practice and competition.

MEETING CHANGE

The American Society for Engineering Management (ASEM) will hold a meeting Tuesday, November 18, instead of Wednesday, November 19 as previously announced. The meeting will begin at 8:30 p.m. in the ME Auditorium and will feature Keith Miller, Industrial Engineer from Alcoa, as the guest speaker. Everyone welcome.

TAU BETA PI

There will be a general meeting of Tau Beta Pi at 7:00 p.m., Tuesday, November 18 in G-5 H-SS. Nominations for next semester's officers will be taken. Refreshments will be served.

WEDNESDAY

SUB'S FOOSBALL '80 TOURNAMENT

Sign up by Nov. 19 for this Double Elimination Tournament. Winning team(s) will move into 3-state ACU-I tournaments. Participation will determine whether or not this will be a one day tournament. Sign up today, and practice, practice, practice. For more information call Steve Bergstrom 364-4277.

WESLEY

The Wesley Foundation will present "Superchristian" Wednesday night at 6:00. This film is a satirical look at the lukewarm christianity, and proof that Christians have a sense of humor too. Everyone is invited. Wesley is across the street from the Post Office parking lot.

Brano's

Banquet Facilities Available

KME

It's not too late to join! Applications and information available at the Math-Computer Science Bldg. in the main office of the Mathematics Department. Applications and fees should be submitted to the Math office, Dr. Wright, Dr. Joiner, or any KME officer before Nov. 14. The initiation banquet is scheduled for Nov. 16.

GRADUATING STUDENTS

Commencement announcements are now available in the Registrar's Office for all graduating students. These announcements are provided by the University at no cost to students who will be graduating on December 21, 1980.

E.W.A. SCHOLARSHIP

The Engineers' Wives Auxiliary of the St. Louis Chapter of the Missouri Society of Professional Engineers will again award \$750 tuition scholarships for the 1981-82 school year to deserving engineering students.

Qualifications are that the candidate, man or woman, be a junior or senior engineering student at the beginning of the Fall (1981) semester. Although recipients must be good students, financial need will heavily influence the selection.

Applications are available in the Office of Student Financial Aid, 106 Parker Hall. All resumes must be returned to Student Financial Aid no later than December 5, 1980.

WIN \$50.00

The Metallurgy Students of UMR are interested in creating their own T-shirts. To do this, a Logo and slogan for the T-shirt is needed. Thus the departments professional society is holding a contest for the best T-shirt design. The prize is \$50.00 in cash. Everyone is encouraged to participate. Any questions will be answered by the Met. department secretaries or Gerald Tarr (364-4841). The deadline date is Dec. 1, 1980. And the prize winner will be determined by Dec. 10.

SUB Scripts

Tonight, the Fine Arts Committee of the Student Union Board will present the program Mozart On Fifth. The performance will begin at 8:00 p.m. and will be held in the Centennial Hall.

On Saturday, November 15th, the Outdoor Recreation Committee will sponsor a hike. The hike will be at Paddy Creek in the Fort Leonard Wood area. For more information call On The Loose during office hours or stop by the building at T-9 on State Street.

For all you great thinkers or even if you don't think at all, there will be a Chess Tournament sponsored by the Indoor Recreation Committee of SUB. Sign ups are now going on in the University Center, play will begin on November 22nd.

The Indoor Recreation committee is also sponsoring a Foosball Tournament. Sign ups for this tournament will begin on Wednesday, November 19th in the University Center.

Renovation delayed

By KEN HARDY

least all summer and fall of 1981.

renovation began several years ago.

The planned renovation of the old chemical engineering building has been delayed several months. The work on the building's interior, originally scheduled to begin next semester, will not get underway until next summer. Renovation will take at

The delays are administrative and proprietary in nature. Arts and Sciences Dean Barker said such delays are often encountered in any such project and are to be expected. Planning for

When it became apparent that the building would be open for the spring semester, all affected schedules were revised. The revised schedules were used for the recent pre-registration.

Dean Davis

Social sciences "necessary evils"

By BARBARA YAEGER

Students have a tendency to view professors as removed from their world, unable to comprehend the student and his needs, and almost void of human characteristics. When a professor is given the title and responsibilities of "Dean", he seems even farther away from the problems of the average student. A recent interview with Dr. Robert L. Davis, who was newly appointed Dean of the School of Engineering, does much to prove the fallacy of this myth.

Dean Davis received his B.S. in mechanical engineering from University of Evansville in Indiana, then obtained a M.S. and Ph.D. from University of Maryland. After teaching at Maryland for several years, he came to Rolla in 1965 with the intention of only being here a short while. However, he "fell in love with the place" and has remained at UMR with the Engineering Mechanics Department for

the past fifteen years. Since his arrival in Rolla, Dean Davis has been impressed with the quality of the students attending UMR. He feels a cycle has been started which attracts outstanding students due to the excellent faculty who in turn were attracted by the opportunity to teach these outstanding students. This combination, he feels, allows UMR to produce graduates who are respected and sought after.

Dean Davis expressed some basic thoughts on education, especially what he considered to be the goals of an education from UMR. Most importantly, a well-rounded curriculum to balance the basically technical engineering degree. Thus the required Humanities and Social Science courses are "necessary evils" which enhance the students education and sharpen communication skills. Another objective of a UMR education is to encourage students to continue the learning process beyond

school. He exemplified this point by noting that the use of computers has emerged since his graduation and future advancements could likewise change the world that current graduates are facing. Dean Davis also expressed a desire that more students would utilize their potential by formally continuing education in graduate school. This, he felt, would be an asset not only to the student, but also to the nation by increasing its educational resources.

On a more personal note, Dean Davis lives in Rolla with his wife and three children. He has two sons, ages 22 and 11, and a daughter who is 20. In his spare time, Dean Davis enjoys what he calls "piddle farming" on some land he owns outside of Rolla. He also spends much of his time at home reading. As dean, he wants to spend the majority of his working hours communicating directly with people. Thus he takes most of his reading, such as memos, letters, etc., home in order to free his days for direct contact with people. If the desires and ambitions of Dean Bob Davis are fulfilled, we can expect a concerned and successful Dean of the School of Engineering.

TKE to have Third Annual "Chug for Charity"

SUBMITTED BY TKE

On Friday, November 21, Tau Kappa Epsilon will sponsor their Third Annual Party for Charity from 8:00 to 12:00.

Theta Xi, last year's champion, is going to try to defend their rights to another year with the beautiful traveling trophy for the best per capita participation. They should

be in for quite a battle, though.

In addition, there will also be a trophy awarded for the most total participation. All proceeds will go to Theta Tau Ugly Man.

The Tekes will also be selling tacos at the party. For just \$1.50, you will be able to obtain three freshly cooked tacos and either a draft of your favorite

beverage or a 16-oz. Coke. All proceeds from the taco sale will go to St. Jude's Children's Hospital.

So put your partying caps on an head on over to TKE next Friday night. One caution, though — be set for a good time! Your favorite beverage will be going for a quarter a draw and there will be a \$.50 donation at the door.

Inter Future

from page 1

living with local families or students, and (if you like) becoming involved with a local group agency, or organization.

InterFuture strengthens your academic major or minor, enabling you to earn credits toward your bachelor's degree while preparing and executing your project.

InterFuture provides you with individualized guidance through training conferences, on-campus faculty help, and a project advisor abroad.

InterFuture makes it possible to share your findings on return with your campus and community.

InterFuture gives you an early start in developing a career — providing you with the experience, contacts, and international overview that ordinarily come only during or after post-graduate and professional training.

Who may apply? Freshmen and sophomores of any nationality and any field of study at colleges and universities in North

America are eligible to apply during spring semester. There are no foreign language prerequisites, except for students going to Belgium and Ivory Coast, who must have completed at least two years of college French, or the equivalent, before departure. We help students going to Holland or Surinam to learn Dutch.

Where can I go? If selected, you may study the following year in a European country for the spring and/or a Third World nation for the summer.

How much does it cost? Approximately the same per semester abroad as for tuition, room, board and personal expenses at a private college here for the same period. Scholarships and students loans are often transferrable to IF. Our Prospectus gives current figures.

How much work is it? A lot. This is an academically challenging program which will require you to produce honors-level work.

What are the benefits?

Academic credit, experience in your tentative career field (giving you an attractive portfolio for graduate school or job-hunting), new friends and professional contacts here and overseas, and an exciting intellectual and cultural experience.

How can I start? For application information, see your InterFuture Campus Coordinator — or contact InterFuture headquarters.

SAY IT WITH DIAMONDS.

St. Pat's Facts

In only 119 days the 73rd annual St. Patrick's day celebration will once again shake up Rolla during the week of March 9-14. For those of you who have been unfortunate and have yet to experience the BEST EVER, there will appear in this column every other week little tidbits of background about this celebration. Keep your eyes glued to the Miner every Thursday and be informed.

Campus Sales are now one and a half weeks old. The St. Pat's Board would like to thank those who have already started to buy their 1981 supply of green. To those of you who haven't, even though there are 119 days left, you are only going to be around and able to buy

your green for only 2 months. So don't delay and by your green today. By the way Sweatshirts make great Christmas presents and can even help cut your heating expenses.

DID YOU KNOW?

The St. Pat's celebration at Rolla actually originated on the University of

Missouri-Columbia campus. Historical versions vary, but most agree that it all started on a warm spring day in 1903. A group of engineering students, bemoaning the fact that it was a long time between Christmas and Easter holidays, decided that since St. Patrick had "engineered" the banish-

ment of snakes from Ireland, he must have been an engineer. (Guess anything made sense at Mizzou in 1903). Therefore, it was fitting that engineering students should celebrate his memory by taking a holiday from classes on March 17, 1903. And so it was.

But who asked?

Page 4

Rolla the ideal location for...

"...backpacking, canoeing,..."

By DAVE WILLIAMS

Rolla, Missouri is not the place to be for those who enjoy city life. The alternative for, say, a weekend night are quite limited, whereas in a city such as St. Louis many possibilities exist. This is the complaint which I hear most often from students here at UMR.

But, while I agree with the premise, I am not one to dwell on "bad news," because there are activities available to Rolla students which are too often overlooked.

I refer, of course, to our beautiful Ozark setting.

Do you realize that we are in an ideal location for hiking, fishing, hunting, swimming, backpacking, canoeing, camping? — The list goes on and on. Or even if you are not a "sporting" type, there are numerous spots to simply have a picnic with a favorite friend. And these locations are ideal for a Saturday or Sunday outing; they offer proximity and gorgeous surroundings.

If you choose not to take advantage of our "natural setting," you are doing yourself a great disfavor. All it takes is a map of Missouri and maybe a little advice from people who know of some good spots around the area.

ASK AROUND! You will find out things that you did not realize could exist in

Missouri.

To name a few:

1) The St. Francis Region.

This area, 1-2 hours east of Rolla, is comprised of many unbelievable geological formations. The Johnson Shut-ins State Park is a favorite for those who enjoy swimming and diving off of high cliffs. Elephant Rocks State Park features huge boulders eroded into fantastic shapes. The St. Francis Mountains offer day hiking and-or camping on four rather isolated mountain peaks: Iron Mountain, Pilot Knob, Buford Mountain, and Taum Sauk Mountain. (Taum Sauk is the highest point in Missouri.)

2) Meramec Spring.

Take I-44 North to the St. James exit, make a right at the stop sign, and travel for about 15 minutes 'till you see signs for this beautiful spring. This is an ideal spot for a picnic lunch with an intimate friend. This area features a trout hatchery, an old iron mill foundry, and breathtaking scenery.

3) Mill Creek Camp-ground.

Mill Creek is located approximately 5 miles south of Newburg. It is easily accessible by car, so it is ideal for those who wish to camp, but not backpack. This is also a great spot for swimming and "day" hiking.

4) Slaughter's Sink.

Take I-44 South to the Jerome exit, travel 3 miles on the outer road, and make a right on Boiling Springs road. This area is great for camping or hiking. Sportsmen enjoy this area for "repelling," because of the cliffs which surround the basin.

5) The Rivers.

You cannot beat a sunny day of canoeing on a Missouri river. Near Rolla, try the Gasconade, the Meramec, the Current, or the Eleven Point. For those of you with stout hearts and quick paddles, the St. Francis River offers quite a challenge.

6) Lane Spring.

This is a favorite spot for UMR students. Located about 30 minutes east on Highway 63, this spring is ideal for softball, football, and frisbee playing.

When you decide what you want to do, and where you want to go, do not be dismayed if you don't have a tent, backpack, a canoe or other such paraphernalia. The Student Union Board rents many different types of equipment needed for "outdooring," at MINIMAL COST. The name of this rental service is ON THE LOOSE, located across the street from those huge coal piles you see on campus. (Down the street from TKE).

So there you have it. This list is a mere fraction of the

opportunities available for outdoor pleasure near Rolla.

Don't get caught up in the "same old routine" weekend. Going home, studying, and-or hanging' around at the Shaft are fun, but each one gets old quickly. Indeed, you are fooling yourself if you believe them to be the only options available.

Save a life-give blood

Who can resist the chance to be a hero? To save a life — to help the ill — or to just do a good turn? Especially when all it takes is a little time!

For one unit of blood (like money in the bank), YOU could well provide security beyond measure for someone you love.

The Rolla Regional Bloodmobile will be on campus Wednesday and Thursday, November 19 and 20. The goal for this visit has been set at 400 units. Out of a college population of 6,000 that is, indeed, not much to ask.

By meeting that quota, however, you make sure that each student, his family (if

he is married), his parents and grandparents, as well as his wife's parents and grandparents will have blood available should they ever need it. If unmarried, his brothers and sisters at

home will benefit.

So — why NOT be a hero? The company is great — the nutrients, sustaining — and the sense of accomplishment, terrific! The dividends can't be beaten either!

BILL MINER

Listen Bill, I enjoyed Bob Koenig's issue of Bill Miner last week about as much as you did. The way I see it, you, me and probably Joe are in the way, and must be taken care of. Bob doesn't want to write for the "Missouri Miner", he wants to start a new paper; "Koenig's Chronicle." After having you kill me he was plotting to have Joe kill you and then big Bob himself was probably going to knock off Joe and make it look like suicide, in an attempt to take over the paper.

But I'll be darned if I'm going to let that happen to you, or me. What ever trouble you're in it's because of me and I'm the only one who can get you out; trust me.

I can fix it so you inherit ten thousand dollars and pay off your four thousand dollar debt. If you say you want to be a hero, just tell me. If you wanted to win the St. Pat's sweatshirt design contest I could've let you win by designing a braille shirt for girls.

How would you like it if you got your picture in the paper. I mean hell, can Koenig draw? I can't either; but at least I know somebody who can.

And besides that, in last weeks issue of Bill Miner I was told that there were thirty nine typographical and grammar mistakes. Somebody has to worry about journalism quality; How about you guys that set the type? huh? What's your problem anyway? Sure a few articles get turned in late, but is that any reason to leave off an 's'?

So Bill, if it's all the same to you, I'll resume writing your life and maybe even fix you up with a girl, before Koenig sets you up with a guy.

Now, back to the article at hand. After last week Bill thought he was a pretty popular dude, a real B-M-O-C, when he was actually a real J-E-R-K. (Hey, I thought you weren't going to do that sort of thing. "Shut up Bill, it's my article; You want your picture in the paper?")

Anyway Bill was walking around the Physics building when Blotto Hill, a professor, grabbed him into

his office. Blotto wanted Bill to explain his theory on Parallel Universes. Bill wondered what the hell he was talking about. Bill, to his knowledge, had done no such research. But then he didn't read the new column last week about the UMR student winning the Nobel Prize in Physics. (Who wrote that anyway?)

Bill had heard about some weird professors, but this was ridiculous. Bill was taken to the Dean for withholding scientific evidence which was beneficial to mankind.

Bill told ole' B.K. that the professor had obviously read the paper upside down last week and that he had done no such research....

JOE MINER

"Hey Joe, this is Bill; Did you get everything squared with Al?" said Bill anxiously over the phone. "No, I haven't heard from him. What did he tell you?" answered Joe. "He said we were lucky to get out of last weeks issue with our lives, cause Koenig was eventually going to kill both of us in an

attempt to take over the paper," said Bill. "Imagine that; Bob trying to kill someone who doesn't even exist. Let me guess, was he going to burn us or just wrinkle us up and throw us away?" laughed Joe.

So apparently Joe wasn't too concerned. What he was concerned about was getting a date for the Christmas Party Weekend. The last time he met a girl was at

least two months ago and that was just a one night stand with Anita Tikerelli.

Joe wished he could at least take out the same girl twice. His studies were going pretty good since he moved the keg up to his room so he figured he owed it to himself to go out 4 or 5 nights a week and look for a girl.

Last weekend he went to a Halloween Party dressed as a role of Charmin hoping

that all the girls would come up and squeeze him. But that backfired, instead of squeezing him they all blew their noses on him and told him to go hang around in the bathroom and waste away. Joe wondered how people could use him like that.

So this week Joe took a challenge and bought two IFC Benefit Movie tickets hoping he could get a date for Thursday night.

BE ON THE BOARD OF DIRECTORS AT 22.

Think of a ship as a corporation, and it's not farfetched at all. A destroyer may have fifteen officers, other ships even fewer. Even the most junior officer gets to share in running the show.

You become part of the management team when you get your commission as an ensign after just 16 weeks of leadership training at Officer Candidate School.

Choose to be a Navy officer and you are responsible for people and equipment almost immediately.

Many officers go on for further advanced schooling. The Navy has literally dozens of fields for its officers —

everything from nuclear propulsion to systems analysis, oceanography to inventory management. In graduate school, this training would cost you thousands, but in the Navy, we pay you.

Ask your Navy representative about officer opportunities, or mail this coupon for more information. Or call toll-free 800-841-8000 (in GA call toll-free 800-342-5855).

There's no obligation, and you'll learn about an excellent way to start a career in management. As a college graduate you can get management experience in any industry. But you'll get it sooner — and more of it — in the Navy.

You don't need a diploma to get a Sears Credit Card

It's easier to get a Sears Credit Card than you might think. You don't have to have a big bank account. You don't need to own a home. You don't even have to have a college diploma. And there are so many advantages to having a Sears Credit Card right now, while you're still in school.

Good at 3600 Sears Stores coast to coast

Your Sears Credit Card is good at 3600 stores across the country. This means wherever you live, travel or move, you have credit available at a nearby Sears.

Over 100,000 products and services

Your Sears Credit Card opens the door to an incredible range of over 100,000 fine products and services. And everything Sears sells is backed by the famous promise, "Satisfaction Guaranteed or Your Money Back."

With your Sears Credit Card, you can charge Roebuck® jeans. DieHard® batteries. Junior Bazaar® sportswear. Featherlite® luggage. Cassette recorders, digital clocks, stereo equipment, running shoes and camping gear. In short, your Sears Credit Card will let you charge almost everything you may need, from clothes to a portable TV to accessories for your car.

Buy what you need when you're short on cash

Your Sears Credit Card lets you buy what you need when you need it, even though

TO 5 — The bathtub party was full of surprises! Next time. Bring the real bubbly. 4

(1) Hey H.O., E at a big one and I hope you choke on it. (W.D. made me write it).

(2) FIFI — How did your 3 tests, 3 programs, and 2 problem sets turnout?

(3) Hey you guys — Is hello too hard to say?

TED: How about your place? Or my place? Or any place?!! D.

ATTENTION ALL SPORTS FANS: For a limited time only you can see the PERENIAL ATHLETE. Come by the 7th floor at T.J. and ask for THE PERENIAL. If you are unable to make it in person — just give a call to 364-9972, if you have any questions about any sport. None are too large or too small. While you are there ask to see the POND-ERMAN, recipient of the First Annual Ultimate Condom Award.

R. Why would I want a souvenir from someone who kicked me over three times in eight days? No thanks, I prefer happy memories. L.

Mary: You have a face like a fat cupid's derrier.

From L. to D. — I may be able to blow low, but I don't know if I can blow that low.

M.S. Have you started paying rent at Beta Sig yet?

C.W. — Body too cute, resistance too small, you couldn't watch Dallas at all.

P.T. — Sixteen kissers in one semester! No wonder you had to slow down.

Mary — Thanks for the flowers. I really appreciated it! L.

L. — I heard you went from tweeters to craters in one steam roll.

Ed — Was it good for you?

C — From midrange to tweeters in one steam roll.

King Richard Jeffery Nicholas — How is life in a girls dorm?

you may be short on cash. With a Sears Charge Account, you can take advantage of Sears special sales, as well as everyday good values, and stretch your payments over many months if you wish.

There are never any hidden charges. And there's no annual fee, unlike some credit cards.

Shop from Sears famous catalogs

It's easy and convenient to shop from Sears catalogs, especially when you're short on time. Just mail or phone in your order and give your credit card account number. It's that simple.

It's smart to establish credit now

Sears believes responsible young adults deserve credit and will handle credit with care, using it only for things they really need. In addition to its immediate usefulness, a Sears Charge Account will help establish the credit background you'll need after you leave school.

To apply for a Sears Credit Card, just call toll-free

It's easy to apply for a Sears Credit Card. Just call toll-free 1-800-527-3592 and ask for extension 30. You can call whenever it's most convenient for you to do so — 24 hours a day, 7 days a week. Or, you may apply for a credit card at your nearest Sears Store.

Miners scalp Indians 34-23

By DAVE ROBERTS

The Miners showed the mark of a champion last week.

The upset minded Southeast Missouri State Indians weren't awed by UMR's undefeated record when they got on Jackling Field and came out gunning, scoring 23 first-half points to put a scare into the Miner fans that came out to see their team in its last home game of the season.

But the Miners didn't fold. They showed the ability to come from behind with a furious third quarter rally which produced 20 points and downed the Indians 34-23 to clinch at least a share of the MIAA championship.

The Indians wasted little time, scoring on their first

play from scrimmage on a 46-yard pass from Scott Mosley to Charles Taylor. Ed Hotz added the extra point. UMR couldn't move the ball against a gusting wind in the first quarter. But Southeast, with the wind to its back added 48-yard and 38-yard field goals by Hotz to take a 13-0 advantage into the second quarter, stunning the Miner University Day crowd.

UMR finally got its offense moving early in the second quarter, marching 70 yards for a touchdown. Fullback Brian Paris bulled over from one yard out for UMR and Craig Thomas added the extra point kick.

On UMR's next possession Jeff Walters had a punt blocked and Southeast's Ken

Dost picked up the ball and ran in from 27 yards out. Hotz again added the extra point.

Jon Falke also scored in the second quarter on a ten-yard run in which he broke several tackles. Southeast quickly countered with a 26-yard field goal by Hotz to give the Indians a 23-14 lead at intermission.

But then UMR settled down.

The Miners erupted for three touchdowns in the third period while shuttingout Southeast over the last two periods.

Junior fullback David Fischer got things going for UMR by breaking away on a 42-yard touchdown run with 14:13 left in the quarter. Thomas provided the kick.

UMR took its first lead of the game on its next possession on a 59-yard drive which took ten plays. The Miners got what proved to be the winning touchdown on a 13-yard pass from quarterback Dennis Pirkle to Dave Stephens. It was Stephens' first catch ever as a Miner.

Paris iced the game with a

one-yard plunge by Paris late in the quarter. Paris' second score was set up by an interception by Hal Tharp. Neither team could produce points in the fourth period.

Fischer led UMR's balanced running game with 62 yards despite having a broken rib. He wore a special flak jacket to protect the rib. Tailback Jim Lee

added 42 yards for UMR.

Pirkle connected on nine of his 12 passes for 129 yards. Southeast put the ball in the air often, passing 39 times and completing 20 of them for 265 yards.

The Miners allowed just 47 yards rushing on 21 attempts, holding the MIAA's top rusher, Ernest Edwards to just 47 yards.

The Missouri Miner
Page 7

Miners look for a bowl bid

By DAVE ROBERTS

The UMR Miners, which set a new school record for most victories in a season last week, will shoot for their first undefeated record in modern history when they travel to Kirksville Saturday to play Northeast Missouri State.

The MIAA contest is scheduled to start at 1:30 p.m.

UMR will put its 9-0 record on the line against the Northeast Missouri Bulldogs. The Miners have won 12 straight games dating back to last season, the longest winning streak in the nation. UMR has also clinched at least a share of the conference championship.

If the Miners get past Northeast it can worry about getting a playoff berth in the NCAA Division II. But head coach Charlie Finley is taking first things first. He isn't about to overlook Northeast.

The Bulldogs played their annual murderous non-conference schedule and their 4-5 won-loss record reflects that. Northeast has barely slipped past the Miners the past two years, winning 3-2 last year and 8-7 in 1978. But the Bulldogs haven't scored a touchdown

on the UMR defense since 1977 and Finley hopes the Miner defensive unit continues the drought this year.

Northeast is 3-2 in league play and features the MIAA's top receiver in split end Eric Holm. Holm caught four touchdown passes last week to lead the Bulldogs to a 53-27 pounding of Lincoln. His scoring passes last week came from 37, 20, 23 and six yards out. He entered the game as the fourth leading receiver in the nation.

Northeast will undoubtedly try to go to him against the Miners and throwing to him will be Greg Dolence and Craig Towbin.

"They use kind of a two quarterback system," Finley said. "Dolence is a good thrower and Towbin is just an all-around good athlete."

The Miners hope once again to have a balanced offensive attack. UMR leads the league in total offense and rushing offense. The Miners have outrushed their opponents 1,893-329.

Senior tailback Jim Lee leads the ground game with 536 yards followed closely by junior fullback David Fischer with 505. Backup tailback Randy Shed has 281 and fullbacks Brian Paris has 283 and Mark Anderson

171. UMR has rushed for 22 touchdowns.

Sophomore quarterback Dennis Pirkle doesn't pass a great deal with that kind of ground attack but is hitting on almost 60 percent of his attempts. He has thrown for 930 yards and eight touchdowns while being intercepted just three times.

UMR's defense still leads the nation against the run, allowing less than one yard per carry. The Miners have

given up just three rushing touchdowns.

The playoff picture is still unclear because UMR is in a tough district. The top ranked NCAA Division II team in the country, Eastern Illinois, is in the district along with the only two unbeaten teams in Division II, UMR and Minnesota-Duluth. The Miners are still not ranked in the NCAA Division II polls which came out yesterday.

Dennis Pirkle

M-Club Athlete of the week

This week's M-Club athlete of the week is Dennis Pirkle, quarterback of the Miner football team. Dennis led the Miners to a 34-23 win against Southeast Missouri State last Saturday afternoon. Congratulations Dennis!

Tankmen take NY tourney trip

By PAUL GLADIS

Who is this team from Rolla anyway? Loyola University, Indiana University, and University of Kentucky all know the answer to this question. The waterpolo excellence of UMR, which was witnessed by these teams this past weekend, was awesome.

Tournament: Mideastern Championships. Location: Indiana University, Bloomington Indiana. Date: November 8. First game: UMR vs. Loyola. This was a game that the Miners deserved to win. Yes, Loyola is well known for their outstanding waterpolo team and their many excellent recruits, but this team was right in line for a decent battle with UMR and that is

what they got. This contest, in which the victory could have gone either way, was filled with unfortunate incidents that led to an 11-10 loss.

UMR hadn't lost hope though. A few hours later the Miners were to play Indiana University. Although we had them down 5-2 near the beginning of the match, IV came back strong and maintained an even scoring game to the end. Unfortunate arose once again. The last few minutes were crucial. Indiana's two quick goals brought them from one goal behind to one ahead which was satisfactory for a win. Final score: 13-12.

Sunday's match against University of Kentucky proved UMR could pull off a

victory. This 14-9 win gave a good resemblance of Rolla's 18-5-1 seasonal record.

Darian Dickinson held the majority of goals this weekend with a total of nine. David Roskin, doing an excellent job of shooting, claimed six goals. Brian Bess and Jerry Flowers each scored five, Paul Entwistle and Steve Homoky each scored four and Steve Adams, Bob Chambers and Joe Pericich had a goal apiece. Besides the overwhelming offense, UMR's defense held the opposition to a surprisingly little amount of goals.

By far, this tournament was the toughest one this season, but this coming weekend will be the ultimate challenge. The eight top

teams of the eastern half of the country, of which UMR is seeded fifth, will meet in New York City November 15 and 16 to participate in the Eastern Championships. The waterpolo team is enthusiastic about this trip and hopes to finish in good standings.

Intramurals

By JOHN DANIEL

INTRAMURAL STANDINGS

Tennis and racquetball both ended last week and Pi Kappa Alpha claimed the team title in both intramural sports.

Mark Dechant led the way for the Pikers in tennis by winning the singles title over Mark Poole of TJHA. Don Ferguson and Phil Novac of MHA-East won the championship match in doubles over GDI's Lance Groseclose and Robert Giaraffa. TJHA and GDI tied for second in the team standings.

In racquetball, the Pikers pulled it off again as Rich Henry defeated Sig Nu's Steve Fischer for the singles championship. The doubles title went to Todd Rush and Bob Hoffman of Kappa Sig when they defeated Sig Ep's Todd Thomas and Ed Wagner. Sig Ep finished second in the team standings.

Soccer, volleyball, and table tennis action continue and will conclude at the end of the semester.

Soccer and volleyball scores from last week are listed below along with the standings as of last Thursday.

Also listed is the overall intramural standings.

1 Sig Ep	742
2 Kappa Sig	689.5
3 TKE	670
4 Pikers	637.5
5 Phi Kap	633.5

GOOD THINGS COME IN SMALL PACKAGES!

AND Advanced Micro Devices gives it a whole new meaning. Aside from the fact that, (as one of the nation's fastest growing integrated circuits manufacturers), our products are "small packages," we like to think our company is a "small package" too in that we don't claim to be the biggest in floor space, or number of employees. HOWEVER, we are the best when it comes to friendly people, personal growth, and rapid career advancement within our company. That's what we mean when we say fastest growing. You'll find no impersonal, large corporation atmosphere here.

Advanced Micro Devices started out a little over a decade ago with only 8 of the best people in the industry and a lot of dreams. Today, we are considered at the top in the field of integrated circuits manufacturing; with 8,000 of the best people in the industry, \$225 Million in sales, and over 700 products.

We currently have openings in the fields of:

Also included in our package is a salary which starts out great and continues to grow with you, as well as a superior benefits plan. We feel once you have talked with our people, maybe even looked around our facilities and gotten the details important to your career, you'll want to join us.

Give yourself the gift of a great career by calling Sally Hazard toll free (800) 538-8450, inside California dial (408) 732-2400 ext. 2799, or send your resume to her attention: Advanced Micro Devices, 898 Stewart, Sunnyvale, CA 94086. An equal opportunity employer. M/F/H.

ADVANCED MICRO DEVICES
