## Student runs for Rolla City Council

By JERRY SCHLUETER

Tim Kassen, a senior in mechanical engineering, is running for city councilman in the sixth ward of Rolla. Tim is 22 years old and is originally from Festus, Missouri. He has been going to UMR for four years and has lived in Rolla for the last two summers.

Tim is a member of Phi Kappa Theta Social Fraternity and has held the office of alumni secretary in the fraternity. Through the office Tim was representative of the house in all alumni affairs and contacts. He has also been involved in

many of the committees in Phi Kappa Theta.

Presently, Tim is vice-president of the St. Pat's Board. Through this office he has worked with many of the city officials of Rolla including the mayor (Mayor McFarland). He said, "I enjoy working with people and I feel I could express the needs and opinions of the people of Rolla." Tim has also been involved in various committees of the St. Pat's Board including chairman of the Extravaganza Committee.

Tim is also a member of Theta Tau Omega, a service

fraternity that does a lot for the Rolla community.

Tim has played many intramural sports and in his years at UMR he has been awarded two scholarships through the Mechanical Engineering Department.

According to Tim, there is a need for student representation and good town representation on the City Council. Presently, there are no members on the City Council from the younger age bracket. The approximate ages of the other councilmen right now go from 30 to 65 or 70.

In the past there has never

been a UMR student on the City Council. There have been students that ran for city offices, but never one elected.

By looking at the number of students in this town compared to the number of people in this town, there are about half as many students as people who live here all year 'round.

There are 12 councilmen here in Rolla; two councilmen for each ward. The University, Thomas Jefferson Hall, The Quads, fraternity row, and all other

University-affiliated housing also falls into the sixth ward. Tim explains, "Students live here almost nine months out of the year and their interests as well as the town's people's interests in the Rolla Community should be expressed on City Council."

Tim encourages students to vote in this election and to get more involved in the Rolla community. To be eligible to vote in this election, you must have lived here in Rolla for six months consecutively. If you have been going here two semesters, you are eligible

to register to vote here in Rolla. You must be at least 18 years of age and also you must be a citizen of the United States.

The election is April 6, which will be during spring break. If you are planning to vote and you won't be here over spring break then you need to get your absentee ballot from city hall. You can do this by writing to Rolla City Hall and requesting an absentee ballot or you can take the five-minute walk down to City Hall and pick it up and fill it out.

Apply now for

## STUCO committees

Submitted by STUCO

The UMR Student Council is now accepting applications from students for appointments to campus-wide committees. These committees are composed of faculty, administration, and student members. Each committee is responsible to the Academic Council.

Applications are available in the Student Council office or from your Student Council representative. Term of representation of each committee is one year, and committee meetings occur roughly monthly. Any undergraduate or graduate student may apply for committee membership, and applications are due March 17, 1982. For any questions, contact John Minicky at 364-9885 or Daryl Seck at 364-9792.

A list of committees, their functions, and the numbers of undergraduate (UG) and graduate (G) student memberships available follows.

**Academic Council**

The Academic Council is the legislative and policy-making body of the General Faculty. It carries out the functions and responsibilities assigned to it by the General Faculty and shall consider all matters referred to by the Board of Curators, the President of the University, the Chancellor, and individual faculty members. The Academic

Council, acting in accordance with the Rules and Regulations of the Board of Curators and the General Faculty, formulates, recommends and assists in the implementation of policies concerning the educational and research operations of the campus and other matters affecting the welfare of the campus, the faculty and the students (UG - 5 members; G - 1 member)

**Public Occasions Committee**

This committee makes general plans for University-sponsored assemblies, programs and public occasions such as University Day, Parents' Day, Homecoming, and Commencement. It recommends policy for faculty and student programs, guest speakers and ad hoc events. (UG - 3 members; G - 1 member)

**Computer Committee**

This committee advises the Chancellor and assists the Director of the Computer Center in the formulation and implementation of policies regarding computer activities on the Campus. (UG - 1 member; G - 1 member)

**Facilities Planning Committee**

This committee studies and makes recommendations to the Academic Council concerning policies and priorities for physical

facilities, including buildings, equipment, and land acquisition and use. (UG - 2 members; G - 1 member)

**Library Committee**

This committee makes recommendations to the General Faculty with respect to the administration of the library and on rules governing the use of the library and its facilities by students, faculty and others. It shall consider all problems concerning the operation of the library. (UG - 1 member; G - 1 member)

**Student Affairs Committee**

This committee makes recommendations to the Academic Council regarding relationships between students and UMR, including, but not limited to, the following: student-teacher relationships; student-administration relationships; scheduling of classes and examinations; budgeting and distribution of funds paid by students for student activities; rules and regulations pertaining to student housing, health, and services for students, University counseling services, departmental advisement practices; operation of the Student Union; student publications;

Students emerge from winter coats as springlike weather reaches 80 degrees. Don't hold your breath, it's not lasting.

Past celebrations revisited in the

## St. Pat's Museum

By KAREN PENNEY

In the past few weeks, the St. Pat's Museum has been reinstalled at the UMR Library. Old buttons, sweatshirts, photographs and newspaper articles comprise most of the memorabilia. Some photographs date back as far as 1915. Sigma Tau Gamma is the owner of the only cudgel displayed.

Most of these articles are

given by the townspeople of Rolla, fraternities and some alumni. Present students of UMR are obviously too new to have collected many museum items. If you do have any items you wish to donate yourself or through your organization, feel free to do so. Please be sure to include your name and year with anything you donate.

Some worries might arise as to the condition in which the items are kept. The St.

Pat's Board assures anyone that anything donated will be taken care of. The Board is presently working with Mr. Ron Bohley of the Library to preserve items in the museum.

There is a future outlook for a permanent museum. Last week a meeting was

# CALENDAR OF EVENTS

**Editor's Note:** If your organization is having a meeting, turn in details to the MINER office in Building T-1 before Monday at 9 p.m. and we will list it in the Activities Section of the paper. No articles submitted will be printed unless written in complete sentences with proper grammar. No schedule or flyers will be rewritten and published by the staff for the Activities Section.

If your organization is sponsoring a campus-wide event for the benefit of charity, get us details before Monday at 9:00 p.m. We will advertise the event free of charge in this space.

The MINER reserves the right to edit any notices or ads for this page before publication.

## THURSDAY

### UMR FILM SERIES

Two films will be shown on Thursday, Feb. 25, at 7:30 p.m. in the Miles Auditorium. "Resurrection" with Ellen Burstyn, Sam Shepard and Eva Le Gallienne. "Night and Fog" directed by Al Resnais. Admission: \$2.25 at the door.

### RAM

Rolla Association for Microcomputers will hold their first meeting of the semester on Thursday, Feb. 25. The meeting will begin at 7 p.m. in Room 216 M/CS. A demonstration of the Apple II microcomputer will be given. If you own a microcomputer, would like to, or just enjoy computers in general, then stop in. Memberships will be taken; there are no dues.

### PHI ETA SIGMA

Phi Eta Sigma will hold its plaque signing meeting at 7 p.m. on Thursday, Feb. 25, in Room G-5, H-SS. All actives are urged to attend to sign plaques.

### INTERCOLLEGIATE KNIGHTS SMOKER

The Osage Chapter of the Intercollegiate Knights national service fraternity will hold a spring smoker Thursday, Feb. 25, from 7-9 p.m. at Kappa Sigma. Anyone with at least a 2.5 GPA is welcome to attend.

## FRIDAY

### SOUTHWINDS

Southwinds is again accepting submissions for the spring edition of Southwinds, UMR's literary magazine. We need drawings, photographs and writing. Please contribute by submitting your work to the Southwinds mailbox in the English Department. Please include the following: name, address, phone number and major. Editor's deadline is Feb. 26.

### INTERVARSITY CHRISTIAN FELLOWSHIP

The IntersVarsity Christian Fellowship will hold a meeting at 7 p.m. on Friday, February 26, in the Meramec Room of the Student Union. A program on the Trinity will be presented. Everyone is invited.

## SATURDAY

### ALPHA KAPPA ALPHA

Join the ladies of Alpha Kappa Alpha, Xi Delta Chapter, for a skating party on Feb. 27, at the Magic Lantern Skating Rink. The time is 4:30-6:30 p.m. and the cost is \$3 which includes skate rental. For rides, contact Synthia McIntosh at 341-2231 or Jada Jenkins at 354-0104.

### TKE "PALLET PARTY"

There will be a "Pallet Party" at TKE on Saturday, Feb. 27 from 8-11 p.m. This party was previously publicized to be on Feb. 26, but was changed because of a conflict with the St. Pat's Board Benefit Movie.

## SUNDAY

### LUTHERAN STUDENT ORGANIZATION

The JOY Lutheran Student Organization will be meeting for its second COST SUPPER of this semester Sunday, Feb. 28, beginning at 5 p.m. This is a good opportunity to enjoy a delicious and inexpensive Sunday evening dinner with your friends at the JOY Campus House. Remember to come to the cost supper at the Lutheran Campus House, 11th and Spring streets, and bring a friend.

## TUESDAY

### UMR CYCLING CLUB

Tuesday, March 2, the Cycling Club will meet in the Meramec Room of the University Center-East. The meeting will begin at 7 p.m. Cycling events for this semester will be discussed. Everyone is welcome to attend.

### TAU BETA PI

There will be a Tau Beta Pi meeting Tuesday, March 2, at 7 p.m. in CE 114. Dr. Tom Faucett will speak on Computer Aided Design. The public is invited. A short business meeting will follow.

Any Tau Beta Pi member wishing to attend the Honors Banquet on Thursday, March 4, should purchase his ticket by Feb. 26 in the Provost Office in Parker Hall. The cost is \$5 for members and \$7 for guests.

## WEDNESDAY

### WESLEY FOUNDATION

Wednesday, March 3 — Dr. Robinson of the Counseling Center will give a talk on personal relationships at the Wesley Foundation at 6 p.m. Everyone is invited to attend. The Wesley Foundation is located at 403 W. 8th St.

### CO-OP ASSOCIATION

The Co-op Association will be having a meeting Wednesday, March 3, at 7 p.m. in the Ozark Room, University Center-West. Ron Larber from McDonnell Douglas and Susan Bornholdt from Union Electric will be the guest speakers. Refreshments will be served. Anyone interested or presently enrolled in the co-op program is welcome to attend.

### ASCE

The ASCE will hold a meeting on Wednesday, March 3, in Room 114CE, at 7 p.m. William J. Green will be speaking on "The New Graduate Civil Engineer in a Small Consulting Civil Engineering Firm." Refreshments will be served.

### NEWMAN

Are you ready for a break? The Newman Retreat is scheduled for Friday, Saturday and Sunday morning, March 5, 6 and 7. The cost is \$7 per person. Please sign up at the Newman Center, 10th and Main streets. Payment is due by March 3. Bring smiles, laughter, love, sleeping bag, Bibles, deodorant and other personal items.

### UMR FILM SERIES

On March 3 at 7:30 p.m. in Centennial Hall there will be a personal appearance of film director Les Blank and a showing of his films, including a "Well Spent Life," a moving tribute to the Texas singer, Mance Lipscomb. No admission charge.

## NODAY

### SUB

The SUB indoor recreation committee will sponsor a spades card tournament beginning March 8. A first and second place trophy will be awarded. Signups are in the recreation room of the University Center until March 5.

### APO BOOKSTORE

If you haven't received your money or your unsold books from the APO Bookstore, there is still time. You can receive your returns on March 1, 2 and 3 from 12:30-1:15 p.m. outside Room 204 of the Rolla Building. If these times are inconvenient, call Chris Farrell at 364-4289.

### THETA TAU OMEGA CALENDAR

Theta Tau Omega has started preparing its student calendar for the 1982-83 school year. Information your organization would like to have printed in the calendar, including all meeting dates, special attractions, movie titles and dates, and other happenings the students would benefit from knowing about, should be turned into the Canteen in the new Student Union no later than April 3, 1982. For further information please contact Dick Unverferth at Phi Kappa Theta Annex, 364-9885.

### SWE

The Society of Women Engineers will be having a meeting Thursday, March 4, at 6:15 p.m. in G-5 of the H-SS Building. Sheree Chan from IBM will be the guest speaker. Nominations for 1982-83 officers will be taken, and refreshments will be served.

# Subscripts

### SUBSCRIPTS

Student Union Board officer applications for 1982-1983 will be available Thursday, February 25, in the SUB Office. Any student who has served on a Student Union Board committee for at least one semester is eligible and encouraged to apply.

Lecture — *Out — Takes and Bloopers* — A fantastic program of great commercials, cartoons and slips from TV and major films will be presented on Friday, February 26, at 8 p.m. in Centennial Hall. Herb Graff

will present clips compiled from movies, television, news reels, commercials and dead pan Army training films ... plus a special segment on Star Trek goofs in a humorous display.

Movies — *The Shining* — will be shown at 4:00 p.m. and 6:30 p.m. on Sunday, February 28. It is a spine-tingling, chilling tale of horror. Down-on-his-luck teacher (Jack Nicholson) struggling to become a writer, takes a job as a

## Honors Week focuses on scholarship

SOURCE: OPI

The University of Missouri-Rolla's first Honors Week, March 1-5, will feature a series of special lectures, a personal appearance by an independent filmmaker, an Honors Week Banquet and honor society initiations.

"The Campus Honors Committee felt that given the role of the university in modern society it would be appropriate to set aside a special time to recognize and focus on scholarship — both teaching and research," said UMR Provost Tomlinson

Fort Jr., who also chairs the Honors Committee.

"In preparing the program," he added, "we sought to schedule events that would be of general interest and which would also cut across disciplinary boundaries and bring out the interplay between engineering, science and the liberal arts."

All of the Honors Week activities are open to the public and all are free except for the Honors Week Banquet. Tickets to the banquet are \$5 for students and \$7 for all others and may be ordered by calling 341-

4138 by Friday, Feb. 26.

Dr. Rosemary Hyde Thomas, professor of English at St. Louis Community College-Meramec, will begin the week with a lecture entitled "It's Good to Tell You" at 4 p.m. Monday, March 1, in the Meramec Room, University Center-East.

In her lecture, Dr. Thomas will discuss how she collected and translated stories derived from traditional French folktales in the area around Old Mines, Mo. She also will tell a representative tale. This area of Missouri was settled

in the early 1700s and remained French-speaking until the middle of this century. Children are especially welcome at this lecture.

Dr. Thomas received her Ph.D. in psycholinguistics from St. Louis University. She has been a Fulbright Scholar at the University of Toulouse and the University of Nancy and is the author of numerous publications in the areas of linguistics and folklore, foreign languages policy and administration and programmed instruction.

On Tuesday, March 2, Dr.

Thomas R. Faucett, UMR professor of mechanical and aerospace engineering, will speak about "CAD/CAM (Computer-Aided Design/Computer-Aided Manufacturing) Technology in Education and Industry" at 4 p.m. in the Mark Twain Room, University Center-East.

Dr. Faucett's talk will deal with the impact of new and rapidly developing computer-assisted design and manufacturing technology upon productivity, product quality and product cost.

Dr. Faucett, who has been instrumental in establishing a CAD/CAM program at UMR, holds a Ph.D. from Purdue University and has extensive experience as an engineering consultant. He currently is directing a grant from the National Science Foundation on the "Development and Implementation of an Integrated Computer-Aided Design, Analysis and Manufacturing System" in the UMR School of Engineering.

Wednesday of Honors Week (March 3) will feature a program titled "Boiled Shoes and Low-Down Blues: Filmmaker Les Blank" at 7:30 p.m. in Centennial Hall, University Center-East. The program will feature a personal appearance by Blank, who will discuss his films and also show "A Well Spent Life," his tribute to blues guitarist Mance

Lipscomb.

Blank, of Flower Films, El Cerrito, Calif., holds a master's degree in theater arts from Tulane University. He has been an independent filmmaker since 1968, and his films celebrate the daily life of American subcultures. Retrospectives of his work have been shown at the Museum of Modern Art and the Festival of Modern Filmmakers in Hamburg, West Germany.

At 4 p.m. Thursday, March 4, Dr. Robert Schofield, head and professor of the history of technology and science at Iowa State University, will discuss "Joseph Priestley: Theology, Physics and Metaphysics" in Room G-5 of the Humanities-Social Sciences Building. Priestley, who lived from 1733-1804, discovered oxygen.

In his lecture, Dr. Schofield will argue that science and theology were inseparable in Priestley's mind during the time in which he was doing his work in chemistry. He also will explore the metaphysics that Priestley developed to reconcile these two different strands of thought.

Dr. Schofield holds a Ph.D. from Harvard University, has received two Guggenheim Fellowships, a

## The problem with quarters

IOWA CITY, IA (CPS) — While many campuses are coping with the ravages of the winter and others desperately try to concoct ways to mitigate their fiscal crisis, the University of Iowa is fighting a different kind of problem: a small epidemic of students who have to have quarters removed from their digestive tracts.

Over the last six months, Iowa City's University Hospital has treated 15-20 students who had been playing "Quarters," a drinking game, according to Dr. Robert Hageman.

The game, Hageman says, consists of "a bunch of people sitting around a table drinking beer, and trying to

flip quarters into the mugs. When someone gets a quarter into a beer, he can either drink it or choose someone else who has to. The person elected must chug the beer, and catch the quarter in his teeth."

"Caps," a variation using bottle caps instead of quarters, is also making the rounds of local college bars, according to Dr. Harley Feldick, Iowa's director of Health Services.

Feldick reports an increase in injuries relating to other drinking games among Iowa students during the last two school years. Some students have also been hurt playing a game in which a participant lights the alcohol in a drink on fire, and then

tries to gulp it down without getting burned.

"We started hearing rumors about the games, and before long we were getting students with injuries from them," Feldick recalls.

"Quarters" has caused most of the problems, according to Hageman.

Many people simply pass the quarters, but some — notably smaller, younger, and female students — are physically incapable of passing them.

Hageman worries that some people might start using smaller coins to make the game safer, but warns that "a smaller coin would be the perfect size to lodge in

the airway at the back of the throat, and cause death in about 20 seconds."

Neither Hageman nor Feldick will speculate why there's an increase in the game playing, or in the injuries from it.

Hospital spokesman Dean Borg, however, notes, "I asked my son who is in high school about this, and he said, 'That's nothing new, and it isn't limited to Iowa.'"

But it hasn't spread through the state yet, however. "We have had no students come in with injuries related to any of those games," reports Dr. L. Z. Furman of Iowa State's Student Health Service.

## News Briefs

### Eta Kappa Nu

SOURCE: OPI

The University of Missouri-Rolla student chapter of Eta Kappa Nu, electrical engineering honor society, has been voted the national winner of the Outstanding Chapter-Activities Award for the 1980-81 academic year.

The group will receive an engraved silver award plaque.

The chapter has been honored numerous times previously. Among their activities during 1980-81

were: a "phonathon" to electric engineering alumni and updating of alumni records; fund-raising projects; administering an electrical engineering hobby club; providing a stage crew and lighting for the Phelps County Junior Miss Contest; sponsoring an electrical engineering career day, and providing guides for University Day and Parents Day.

### Merit Badge University

SUBMITTED BY  
BETA CHI SIGMA

The Missouri Alpha Chapter of Beta Chi Sigma

the International Scouting Fraternity on the UMR campus will be conducting its eighth annual Merit Badge University on Saturday, February 27.

This is Beta Chi Sigma's most prominent activity and its organization begins in late August and continues through February. MBU is for boy and girl scouts that have completed the seventh grade and have a desire to earn any one of the 25 different Merit Badges offered during the course of the day. The program begins with campus tours and check in at 7:00 and the opening flag ceremony is at 9:00. The scouts will then be spread

out into morning skill center sessions. Lunch will be served in the St. Pat's church gym. From 1:45 to 4:30 the afternoon skill center sessions will be in progress. The program will end at 4:30 with closing flag ceremony, patch and certificate distribution.

The councilors in charge of giving Merit Badge credit will consist of professors and qualified personnel that have been approved to assist in the instruction of the numerous badges offered. Each scout may earn only one merit badge and he should be prepared to insure its requirements are met.

Scouts come from all parts

of Missouri and this year some 700 scouts are expected to attend the program.

### Time Management Workshop

SOURCE: OPI

A time management workshop, the second of four workshops in personal effectiveness skills, will meet during the noon hour Fridays, Feb. 19 and 26, in Room 327, Math-Computer Science Building, University of Missouri-Rolla.

The workshop is conducted by Dr. Frances (Dee) Haemmerle-Montgomery, clinical psychologist and UMR assistant professor of psychology. The fee is \$10.

The time management workshop will focus on methods for managing time most effectively. These will include how to construct a personal time inventory and time profile, how to complete a daily time analysis, techniques for reducing time-wasting habits such as

## Founders Day Program

SOURCE: OPI

"The University as Seen by Rex Z. Williams: Alumnus, Faculty Member, Administrator, Curator and Rolla Businessman" will be the highlight of the University of Missouri-Rolla's annual Founders Day program Saturday, March 6, in Centennial Hall, University Center-East.

Williams will speak following a luncheon commemorating the 112th anniversary of the founding of UMR.

UMR Chancellor Joseph M. Marchello and Daryl Seck, president, UMR Student Council, will also speak. Floyd Ferrell, chairman of the UMR Development Council Community Committee, will serve as master of ceremonies. The invocation will be given by the Rev. Gayle Lucian.

The event, which is open to the public, will begin at 12:15 p.m.

Luncheon tickets are \$5. Reservations should be made by March 1 by calling the UMR Development Office, 341-4172. Tickets may be picked up at the Development Office or at the door on the day of the luncheon.

## Phi Eta Sigma

### Scholarships

Seniors who plan to work for graduate or professional degrees and who are members of Phi Eta Sigma National Honor Society should get in touch with the faculty advisor Dr. Nancy Marlin in H-SS Room 112 concerning Phi Eta Sigma scholarships.

National Phi Eta Sigma Honor Society offers thirty or more \$500 scholarships this year on the basis of the student's scholastic record, evidence of creative ability, evidence of financial need, promise of success in chosen field and character. Only members of Phi Eta Sigma are eligible for these gift scholarships.

National deadline for submitting applications is March 1.

## Town Beard Contest

SOURCE: OPI

The St. Pat's Board at the University of Missouri-Rolla is sponsoring a contest for the best "town beard" during St. Pat's week this year.

Prizes are \$30, \$20 and \$10. Entries can be submitted at Dave's Barber Shop, 705 Pine St. Judging will be at Dave's at 5:30 p.m. March 18.

## Summer Class

### Preregistration

Summer Registration. On Wednesday, April 28, representatives from several junior colleges in Kansas City and St. Louis will be on campus. UMR students planning to live in either city this summer will

be able to pre-register for summer courses. The Kansas City colleges that will be represented are Longview, Maple Woods and Penn Valley. The St. Louis colleges include Florissant Valley, Forest Park and Meramec. The University of Missouri-St. Louis will be represented as well.

Registration will be from 8:30 a.m. until 4:30 p.m. in the Mark Twain Room at the University Center. Application and enrollment forms for each college will be available from its representative. David Allen, assistant director of admissions and UMR transfer advisor, will also be there to answer any questions about the transfer of credit.

This is the third year UMR has participated in this program. It gives students a chance to pick up an extra course or to repeat a course if necessary. Approximately 300 students pre-registered last year, and it is expected that at least that many will take part this year.

## Auditions for University Choir

SOURCE: OPI

Auditions for the University of Missouri-Rolla Choir's production of "King David" will be held at 2 p.m. Saturday, Feb. 27, in the library of Christ Church Episcopal instead of Room 101 Old Cafeteria Building as previously announced.

Auditions will be held for soprano, contralto and tenor vocal solo roles and for two speaking parts, the Narrator (male) and the Witch of Endor (female).

Percussionists and a French horn player are also needed for the April 26 performance.

Persons interested in auditions may check out the vocal/piano score and a sound recording under Music 40 Reserve at the UMR Library. Copies of the audition materials may be secured from the Music Office, 105 Harris Hall, during regular hours.

For further information contact Joel Kramme, choir conductor, at the Music Office, 341-4185.

We bet you can't chug this one at the Extravaganza, March 18, 1982.

## HILLCREST BIG STAR

## SLOW DOWN

## BEFORE YOU TAKE YOUR NEXT STEP...

Right now, you're probably in a career frenzy. Who wouldn't be with so many options, so many people giving you well-intentioned advice. Do you feel like you're running around in circles, with time gaining fast? Slow down, take a deep breath, and consider the options logically.

If you're graduating in: **MECHANICAL ENGINEERING** we would like to visit with you in person when our representatives are on your campus

Tuesday & Wednesday March 2-3

The night before our interview, March 1, we will be hosting a company presentation from 7-9 PM in the Library, Room #103. Please plan to attend! Refreshments will be served.

Register at your career placement office, or send us your resume if our visit is inconvenient for you. We hope that you decide on NL Industries.

NL Industries, Inc.  
Suite 1500  
1900 West Loop South  
Houston, Texas 77027

NL Industries is a very logical option. We're a diversified Fortune 200 company with major divisions in oilfield equipment, petroleum services, chemicals, and metals. The work we do is absorbing and very important in today's economy. We're involved in areas of rapid growth and development with unlimited opportunities for talented professionals.

Now doesn't that include just about everything on your list?

We Are An Equal Opportunity Employer M/F

**NL** NL Industries, Inc.

# Honors Week schedule from page 3

Fulbright Fellowship and the Pfizer Prize for the History of Science. He also has been a member of the School of Historical Studies

at the Institute for Advanced Studies.

On Thursday evening Dr. Stig Friberg, UMR Curators' Professor of Chemistry, will

deliver the address at the Honors Week Banquet. Dr. Friberg's talk, which will examine "Liquid Crystals: Order, A Matter of Life and Death," will be delivered immediately following dinner. The banquet will begin at 6:30 p.m. in Centennial Hall, University Center-East.

Dr. Friberg's address will explore the structure of liquid crystals as they exhibit mobility and order, two characteristics usually

associated with living systems.

A recipient of a Ph.D. from Stockholm University, Dr. Friberg has served as director of the Swedish Institute for Surface Chemistry and is internationally acclaimed for his research in surface and colloid chemistry. He is UMR's first Curators' Professor and is the recipient of numerous other honors. He also is the author of over 200 scientific

publications and two books.

In addition, Phi Eta Sigma and Phi Kappa Phi honor societies also will hold initiation ceremonies on Thursday. Phi Eta Sigma will hold its ceremony at 5:30 p.m. in Miles Auditorium, Mechanical Engineering Building, while Phi Kappa Phi's will be at 6 p.m. in the Missouri Room, University Center-East.

Honors week will conclude with a lecture by Dr. Schofield on "Artistics Themes and Literary Paradigms: The Cultural Content of Science" at noon Friday, March 5, in the

Missouri Room, University Center-East.

The talk will explore how the application of several of the concepts of the cultural historian to the history of science apparently makes it possible to designate style periods for science similar to those used for the plastic arts, music and literature. Once this is done, Dr. Schofield maintains, it becomes clear that science is one of the most imaginative of man's

see Honors page 6

## Subscrip from page 2

winter caretaker at a desolate Colorado resort hotel which becomes isolated by a ravaging winter snow storm. Joined by his wife (Shelley Duvall) and young, clairvoyant son (Danny Lloyd), they soon discover that the hotel is possessed by demonic spirits. In confinement, the already mentally unstable Nicholson becomes possessed, goes berserk and attempts to kill both wife and son. Only the boy's clairvoyance, his "shining" enables mother and son to understand and out maneuver the demons with the help of the old black cook (Scatman Crothers). UMR Student I.D. required.

Coffeehouse — Arne Brav will be playing on Friday, March 5, at 8 p.m. in Centennial Hall. Arne Brav brings together a rare combination of technical wizardry on the guitar and an expressive voice for a performance of the highest caliber. His program is one that touches almost every musical base: blues, rot-gut country, ragtimes, instrumentals, jazz, light rock and other contemporary influences. Combine all this with a hearty lineup of humorous songs and stories, and you have a definitive performance.

Movie — *The Alien* will be shown on Sunday, March 7, in Centennial Hall at 4:00 p.m. and 6:30 p.m. UMR Student I.D. required. Seven crew members aboard the commercial spacecraft Nostrome are awakened from hyper-sleep by the ship's computer to investigate what seems to be a distress signal emanating from a nearby planet. By the time they discover that the signal is actually a warning it is too late: An Alien Creature, virtually indestructible and completely hostile, has attached itself to a member of the landing party and gained entry to the ship. One by one, the alien relentlessly stalks the members of the crew throughout the ship, and the crew's effort to destroy the creature seem doomed to failure. Alien is science

fiction at its best!

Concert — Watch for more information on Preservation Hall Jazz Band on Tuesday, March 9, at 8 p.m. in Centennial Hall.

# Graduate Salaries

By GREG RINKER

The UMR Placement Office recently released its survey of the salaries accepted by December graduates.

The survey shows the average salary offered to graduates in science and engineering is up about 12 percent when compared to salaries offered in December 1980. For social science and liberal arts majors, salaries are up about 8 percent since December 1980. However, according to Larry Nuss, director of UMR's Placement Office, the total number of job offers for December 1981 graduates fell about 20 percent from the previous year and may be worse this spring. The results of the survey are shown to the right:

and civil rights of all students. (UG - 5 members; G - 1 member)

## Student Awards and Financial Aids Committee

This committee recommends policies regarding the administration of undergraduate student awards and financial aids, including loans and scholarships, consistent with the specifications of the respective donors and grantors. It shall be the duty of the committee to consider and rule on appeals that may be submitted by students

regarding awards and financial aids. (UG - 2 members; G - 1 member)

## Student Scholastic Appeals Committee

This committee establishes procedures for individual student scholastic appeals. The Committee shall consider and rule on all individual cases of appeal relating to student scholastic performance, including but not limited to: graduation with honors, probation and dropping from school, readmission after being dropped for scholastic reasons, and scholastic

deficiencies and evaluation of credit. (UG - 2 members; G - 1 member)

## Security and Traffic Safety Committee

The committee makes recommendations to the Academic Council on policy pertaining to security and traffic safety. It oversees application of rules and regulations concerning campus security and traffic safety. (UG - 2 members; G - 1 member)

## Student Conduct Committee

This committee rules on questions of interpretation of the University of Missouri Rules of Procedure in Student Disciplinary Matters. It may also make recommendations on policies to the Board of Curators through the Academic Council. (UG - 3

members)

## Committee on Effective Teaching and Faculty Awards

This committee oversees the operation of the best teacher awards run each year on campus. It also conducts seminars for the benefit of teachers and of improving instruction, and recommends methods to improve teaching effectiveness.

## Campus Equal Employment Opportunity/Affirmative Action Advisory Com.

This committee is responsible for establishing plans and guidelines, identifying problem areas and recommending solutions, identifying and studying areas of complaints by individuals and recommending solutions, reporting the success on increasing the

number of students and employees from protected groups, studying all on-campus procedures dealing with Equal Employment Opportunity and Affirmative Action and advising not only the affirmative action officers but the heads of units about procedures and responsibilities. (UG - 4 members)

## Parents' Day, University Day, National Merit Day, Commencement, and Science and Engineering Fair Committees

All these committees are in charge of organizing the events implied by their names.

## Calendar Committee

Is responsible for developing the academic calendar.

## Honors Week from page 5

creative activities.

Honors Week at UMR is being sponsored by the Campus Honors Committee. In addition to Dr. Fort, the committee's members are: Dr. Ronald Fannin, assistant dean of the UMR School of Engineering; Dr. Wayne C. Cogell, associate dean of the UMR College of Arts and Sciences; and Dr. G. Edwin Lorey, dean of UMR Continuing Education and Public Service.

# Museum from page 1

held to discuss the options of such a move. Mrs. Key Jenks, Director of University Public Relations and Affirmative Action; Mrs. Berna Harvey, Program Coordinator for Student Activities; Mr. Ron Bohley, Director of the Library; Mr. Frank Mackamon, Director of Alumni Development; Dr. Harry Eisenman, Ass. Prof. of History and Acting Chairman of Social Sciences; Mike Avery, President of St. Pat's Board, and Keith Markway, Museum Committee Chairman, attended the meeting. Nothing definite was decided but a few probably yes's were voiced.

Next Nov. 6, 1982 there will be a vote on the potential building of the new Mining Building. If it is to be built then the St. Pat's Board would donate all the items to the school and will have them displayed in the old Rolla Building. Even though

the school will own the items, the Board will be in charge of the preservation and restoration of them. These plans are sometime in the future, about five years.

Until the permanent museum is established, the items will be displayed in the Library or the Student Union. The Board has access to space in the Student Union, but for lack of display cases nothing is being shown.

A tentative solution was proposed whereby the Board would purchase one display case and the University would match it with another.

The Student Union display would be more accessible to alumni and might spark their interest in helping to further the cause of the museum.

Another meeting in April is planned to discuss the short term placement of the museum in the Library or Student Union.

## Sicilian Topper Pizza

What is Sicilian Topper pizza you ask? You might say it's "upside-down" pizza. You see, we put the toppings on the crust first, then cover them with extra portions of our mozzarella cheese. No matter which topping you select, the Sicilian Topper is truly a unique taste in pizza.

## U.S. needs military, not political deterrence

By HAROLD W. ROOD

(c) Public Research,  
Syndicated, 1982

The enormous destructive power of nuclear weapons has increased the tendency of the West to rely on political rather than military deterrence. The United States and NATO have come to believe that the very existence of nuclear weapons will, if they are

properly located, make certain courses of action impossible for the Soviets, just as the deployment of the Fleet to Pearl Harbor prior to WW II was believed to inhibit the Japanese.

Because of this preoccupation with political deterrence the current debate over theater nuclear modernization in Europe, prompted by the Soviet deployment of 600 in-

termediate range ballistic missiles, including some 250 modern SS-20 missiles in the last five years, has had virtually no connection with reality.

One side argues that NATO's plan to deploy 572 U.S.-made Pershing II and ground-launched cruise missiles to match the Soviet deployment will not increase the security of the West. Nuclear war, some on this

side argue, is impossible, and therefore the new weapons are superfluous. Others on this side argue that these new weapons will only make nuclear war more likely. The other side contends that the new deployment is needed to signal NATO's continued resolve to resist the U.S.S.R.

Neither position, however, fully considers what military application these new weapons might have. That is, can they, in combination with other Western forces and arms, defeat the Soviet Union in war? If they can, then they may have some deterrent value. If they render the possibility of Soviet victory significantly less likely than otherwise, then, too, they may have some deterrent value.

But if they are intended as a political signal to the Soviet Union, then they are probably useless.

In the past few months, there has been considerable

controversy over whether or not NATO would detonate a nuclear device over the Baltic as a warning in the event of a Soviet attack. This explosion would presumably, remind the Soviets of the existence of NATO's nuclear force, perhaps deterring a further Soviet advance before full-scale theater or strategic nuclear war began. Again, this option might relieve some pressure on certain Western European leaders, but it has no connection with reality. The Soviets are well aware of the existence of the West's nuclear weapons. If NATO wished to deter the Soviets as such a point, and if it believed that the Alliance's resolve must be shown, then it should target the leading elements of the Soviet invasion force, or some other militarily important targets.

This not to say that the U.S.S.R. does not take into account the presence of

nuclear weapons in the arsenals of the United States and NATO, even if the West is uncertain as to their military application. Soviet Frontal Aviation, for instance, has as one of its principal missions the destruction of "the enemy's nuclear resources." One of the tasks that Soviet tactical writings assigns to reinforced tank battalions, following a breakthrough operation, is the destruction of "enemy nuclear delivery means."

Deterrence is a laudable goal but, like peace, it can never be achieved directly. When the United States enjoyed a nuclear monopoly — or later nuclear superiority over the Soviet Union — the military objective was to be able to defeat the U.S.S.R., limit

See Deterrence,

page 14

### Letters to the Editor

#### Is it a conspiracy ?

Dear Editor,

Throughout history, there have been innumerable conspiracy theories to explain historical events. There was the conspiracy theory proposed after Lincoln's assassination. There was the conspiracy theory to explain the sinking of the battleship, "Maine", in Havana harbor in 1898. There was the conspiracy theory that one or two persons caused the death of President Harding by poisoning. There was the conspiracy theory about who was responsible for the Communists conquering mainland China. Then there was the conspiracy theory about why Castro beat Batista. Most recently was the conspiracy theory about who assassinated President Kennedy.

I should like to propose my own conspiracy theory as follows:

The U.S. government is wiping out student loans and grants so that intelligent students from low income families can not attend college. With the high unemployment rate for young people and the reduction in the social programs, the only opportunity for these young people is the U.S. Army. This makes sense since the Army is having problems with enlisting people with intelligence and capabilities. A

similar situation existed during the depression when the Army was able to enlist many poorly educated, unemployed, intelligent young men. The Army opposed the initial G.I. Bill because it made the recruiting of intelligent enlisted men impossible.

How do you like my conspiracy theory?

H.P. Leighly, Jr.  
Professor

# GRADUATING ENGINEERS

## REACH FOR TOMORROW WITH MARTIN MARIETTA AEROSPACE

There are three important things every graduating engineer should know about Martin Marietta Aerospace:

1. Our unique organizational structure gives you unusual flexibility in determining your career path and accomplishing your personal goals. Unlike most other aerospace firms, Martin Marietta uses a matrix organizational system that gives you a "technical home" rather than placing you in a single program or product area.
2. Martin Marietta will provide you with a stimulating environment through challenging assignments. We have hundreds of long-term contracts that require imagination and creativity. And we have some of the world's most sophisticated equipment and facilities to assist you in your efforts.
3. And finally, we want to talk to YOU. We will be holding on-campus interviews very soon. Arrange to talk with us and we'll give you more information about Martin Marietta Aerospace

and its opportunities. We'll also give you a full-color poster/calendar of the artwork in this ad. And remember, if you enjoy reaching for the challenges of tomorrow, look into a career with Martin Marietta today.

Martin Marietta Aerospace has many new opportunities awaiting college graduates. Major facilities are located in Denver, Colorado, New Orleans, Louisiana, and at Vandenberg AFB, California.

See our representative on campus  
**March 4, 5**

If unable to arrange for an interview at this time, please contact Martin Marietta Denver Aerospace, College Relations Department, P.O. Box 179, Mail #D1311, Denver, CO 80201.

Martin Marietta is an Affirmative Action Employer Actively Seeking the Handicapped and Veteran.

U.S. Citizenship is required.

Europe offers

## Exciting Adventures and Studies

Underwater diving adventures! Classical studies! Mountain climbing! Literature! Hiking! Boating!

Vacationers abroad today have probably a greater range of exciting adventures available to them than ever before. There's no longer any need to leave at home a special interest or a hobby. Many overseas educational institutions and study centers are actively and eagerly seeking to boost enrollments from the United States and have packaged excellent

programs in order to attract these visitors.

Usually, the Yankee guests will be studying alongside their overseas compatriots, resulting in a vacation low in cost and high in enrichment. The courses, which range from two days through an entire semester, are subsequently perfect for the time conscious traveler. Highlights of a specialty can be simply sampled or the student can really dig deeply into a subject. The options are as varied as a smorgasbord luncheon menu.

Latin America, Great Britain and Ireland are three of the new hot spots with specialty study vacations that combine the best of holiday trips. Institutions offering programs range from major universities to small field centers in the backcountry. Some of the courses are held in classical manors, others in a tutor's home and still others in a typical classroom setting.

One of the more unique facilities offering a fascinating array of courses is the Fort Bovisand Un-

derwater Center in Plymouth, England. It's the country's largest diving school, with commercial, industrial and scientific courses, as well as instruction for general diving and diving cruises in the channel, Atlantic and North Seas.

Registrants at the Dale Fort center, another converted naval fortress, study the marine life, birds and ecology of the islands off the Pembrokeshire National Park. Participants in programs at Preston

Montford in Shrewsbury can wander through the unspoiled hills of the Welsh border on nature tours. Those at Juniper Hall Field Center are close to London, thereby experiencing the semi-urban environment the facility's locale offers.

The Association of British Craftsmen is now offering a fine learning experience for guests wishing to spend an intensive week or more with several of Great Britain's top craft experts. Guests will live and work side by side with professionals noted for their skill, qualifications and teaching ability. A student might live in a thatched cottage, a Georgian mansion, a converted farmhouse, a modern bungalow. Painting, photography, calligraphy, pottery, sculpturing and numerous other arts and craft possibilities are available.

Each day at the Irish School of Landscape Painting in Clifden, County Galway, begins with a teacher demonstrating oils or another medium which

can be used as a guide or inspiration for the class. Students can also find excellent painting subjects in the Galway countryside made famous by Yeats and Augustus Johns. For leisure time, nearby pubs are convivial and welcoming and there is a nearby 18-hole golf course.

Sherpa Expeditions offers mountain trekking programs in Greece, France, Switzerland, Spain and Peru. The easy trips involve mountain walking; the more difficult ones feature mountain climbing and rope techniques. They all offer spectacular scenery and a chance to get off the beaten track.

Europe is fertile ground for learning foreign languages. There are language institutes in virtually all European countries that stress vocal skills.

Adventures  
page 16**

Missouri winters, hammocks or winter coats?

Mark Vollmer

## Groundwaves

I had originally planned to interview my own subconscious for this week's column, but when it came time to sit down and discuss life, liberty, and the pursuit of rock and roll, my own subconscious decided to clam up on me. I have since come to the conclusion that a person has to be pretty hip to carry on a coherent conversation with his own complex conjugate, or else have access to a lot of good acid. Thus I have assembled this short test to help you, the casual student and KMNRR listener, determine your own "Hip Index." So the next time somebody asks you the all-important question "Are you hip?"

you'll at least have an honest answer.

(Certain questions and possible answers may have to be adjusted depending upon the gender of the test subject.)

1) Which feature of Deborah Harry's anatomy do you admire the most?

- a) Those lips
- b) Those cheekbones
- c) Those buns

2) Which of the following rock celebrities would you most like to invite to your parent's house for dinner?

- a) Pat Benetar
- b) Joey Ramone
- c) Ozzy Osbourne

3) If intelligent life does exist elsewhere in this galaxy, it will most likely

resemble:

- a) The Board Rep
- b) The KMNRR Trainee
- c) The Fraternity Member
- d) Which of the following drugs is not classified as a "hypnotic" in The Physician's Drug Reference?

- a) Methaqualone
- b) Sodium Amobarbitor
- c) Chlorothiazide
- d) When in Miami Beach for Spring Break, which radio station do you tune to for "hip" music?

- a) WEDR 99.1 FM
- b) WINZ 94.9 FM
- c) WMCU 89.7 FM
- d) Where is KMNRR's antenna?

- a) Atop the UMR library
- b) The northeast corner of

Harris Hall

- c) High atop the Rolla Building's brand new \$14,553 aluminum bird-feeder

7) What would you like to be reincarnated as in 100 years:

- a) An interstellar preppie
- b) A geology grad student
- c) A Playtex Living Bra
- d) Which TV program is alone worth the price of a video tape recorder?

- a) Hill Street Blues
- b) Benny Hill
- c) Showtime's Aerobic Exercise programs

**See  
Groundwaves  
page 11**

## St. Pat's Facts

By TOM BENNEY

March 19.

On behalf of the St. Pat's Board I would like to cordially invite all UMR students to the coronation and coronation dance which

will be held March 19, 1982. The coronation is an amazing event with the most colorful and detailed decorations displayed in Rolla. The crowning of the queen and knighting of student knights will be at 9:00 p.m. Following the coronation will be a dance at St. Pat's gym. The dance will be from 10:00 p.m. until 2:00 a.m. The dance will feature an excellent band, Sommerville Scorfina. This band features former members of Head East, R.E.O. Speedwagon, and Pavlov's Dog. They feature a wide range of enjoyable music, from the mellow classics of Patsy Kline to the heavy metal hits of Aerosmith. The dress is semi-formal, but please no jeans. A college ID is required and preferably bring a date. There is no cost and set-ups will be available. So come out and have an excellent time on Friday,

The countdown is on, 21 daze left till the quarterbarrel Chug, Cudgel Carry, and Clydesdales.

First, imagine an immense, virtually indestructible 6 ft. in diameter, inflatable canvas ball. This is the Strohhall.

Second, imagine two opposing teams consisting of 12 players assembled on the games field at the Extravaganza. The whistle blows and the on-rushing opponents rush toward the Strohhall and through pushing, shoving, kicking and passing of this giant ball, attempt to get it through the opponent's goal.

Third, imagine an expense-paid float trip for the winning 12-man team, sponsored by Mike McKelvey of Wilderness Ridge Resort in Duke, Mo.

To enter a team contact: James "Cleasy" Moore II KAPPA SIGMA 364-2314

This event is being sponsored by Stroh's Brewery and Fred Voss, Enterprises with cooperation from the St. Pat's Board.

## UMR Presents its First

# Ridiculous Beach Party

By ANNETTE COMFORT

Wintertime blues. I got the wintertime blues. Nothin' to do. I got the wintertime blues. I'm so tired of winter. Wish I was in someplace like, say, Hawaii. Sunbathing down on the beach, watching the surfers. Wow! Has that one ever got a good bod! Oops, he just wiped out. Sun's going down now. Time for the luau. If only it wasn't a dream.

What's this? A poster about a beach party! Here? In Rolla? During winter? "1982 Winter Blues Ridiculous Beach Party. Guaranteed to CURE THE BLUES!" Oh, wow. Let's see

— it's on all day Thursday, March 4, from 7:00 a.m. until 2:00 a.m. March 5. That's all day, all night, and then some. This ridiculous beach party is for the entire campus — that means YOU — whether you're a student, staff or faculty member.

A beach party just wouldn't be a beach party without a beach. So, 21 tons of the sand will cover St. Pat's Ballroom floor. There will be sunlamps for all you sunbathers and a small swimming pool to cool off in. There'll even be some shovels and pails for all you big "little kids" who still like to build sandcastles. But just

in case you don't like to build sandcastles, there will be Bingo and various card games.

A party this ridiculous just can't be contained in one room. The Deli will be showing old movies with stars such as Charlie Chaplin all day. The Deli will also have ridiculous bargains such as 10-cent ice cream, popcorn and cokes. You'll be able to get 10-cent hotdogs in the lobby just outside St. Pat's Ballroom. The Gallery over in the University Center-East will be having a special on their steak sandwiches, along with 5-cent coffee. Even the

game room will be getting into the act with 10-cent pinball games.

This campus-wide party is sponsored by the Department of Auxiliary Services with assistance from various students' groups. Professional Food Management is supplying the decorations for the University Centers. They're also providing some of the ridiculous prizes that will be given away. While PFM is not a part of the campus organization, they're doing this to help break the monotony of winter. Speaking of food, both Rayl and TJ's cafeteria will be

featuring a special tropical menu.

After dinner, the fun really starts. First, at 6:30 p.m., is the Bikini/Muscle Man contest at the beach. Next is the suntan contest. With the good weather we've been having lately, there should be some really good tans. Then, to get you hoppin' and boppin', KMNK will be playing favorites from the '50s and '60s for the Sock Hop at 8:00 p.m. After everyone has had a chance to get warmed up, there'll be several dance contests. And since this is a ridiculous beach party, there will naturally be ridiculous prizes awarded. Details on

all the various contests can be picked up at the reservationist desk in the University Center-West.

As this is the first time having a party like this, all organizations are looking forward to a large turnout. If there is enough interest shown, this could become an annual event. After all, the golf course has to order more sand every year for the sand traps.

So don't forget — Thursday, March 4, is the day for this campus-wide ridiculous beach party. What with all the things going on, it should be a lot of fun. Be there!

## A Summer with British Culture

SELINGROVE (Pa.) — Susquehanna University's summer study program in Oxford, England, will be offered annually beginning this year and will include a new emphasis on study of business.

The program has been sponsored by Susquehanna on a biennial basis since 1966 under the direction of Dr. Robert L. Bradford, professor of political science. The decision to operate on an annual basis

was influenced by a record-high enrollment of 52 students during the summer of 1981, according to Dr. Bradford.

Designed "to provide the opportunity for focused in-depth study and firsthand exposure to varied aspects of British culture," the six-week session at Oxford University has traditionally offered courses in the humanities and the social sciences.

Beginning this summer,

through a new association with the Oxford Center for Management Studies, Susquehanna at Oxford will feature a business and economics component, with emphasis on study of British marketing and management techniques.

The courses typically combine lectures by noted British scholars with seminars conducted by members of the Susquehanna faculty. Students normally take two

courses for which they receive full college credit.

In addition to classroom work, the program includes numerous excursions and tours of an educational nature as well as plenty of opportunities for individual travel and sightseeing in London and throughout England and other parts of Great Britain.

Oxford has a unique atmosphere in which a quiet, charming, medieval university exists side-by-

side with a bustling, modern city of over 100,000 people. It is called "The City of a Thousand Spires" because of the many towers, domes, steeples, and ornamental pinnacles of the 39 colleges which comprise the university.

Following the Oxford term, Susquehanna offers two optional three-week tours on the European continent. These trips are also open to interested persons who do not wish to

enroll in the academic program.

A distinguishing feature of Susquehanna at Oxford has been the variety of the participants. The 1981 group included 21 S.U. students and 23 undergraduates from other colleges, ranging from Boston University and the

## The Diehl Montgomery Student Finance Plan

(The Originator of the Student Finance Plan in this Area)

This plan allows the students, upon approved credits and job, to buy a new car with nothing down and payments of \$25.00 per month until you are on the job. This plan is not new. Diehl Montgomery has sold over 1000 new cars and trucks to graduating students this way. See us for the details. Also, you can use your own insurance or ours.

This allows the graduating students to have a new car before he graduates when he really needs it.

"This is a special discount program for students. We will be glad to quote you a price on any Ford Lincoln Mercury product."

The No. 1 dealer, 32 years in the car business. Featuring the student plan. We also have rental units including a 15 passenger bus. Good for all occasions plus the entire line of Ford and Lincoln Mercury products.

"The Oldest Car Dealer In Rolla"

# Students fly to Spain for summer

Each year for 5 weeks of the summer, a program is offered to students in the U.S. and Canada to travel and study in Spain. Last summer, 90 students from 25 states departed from Kennedy Airport in New York and flew to Madrid.

The group was then bused to the campus of the Ciudad Universitaria of Madrid where they lived and attended classes. The living quarters consisted of one room per student. Each class met five days a week, and courses ranged from Elementary Spanish to Literature and Culture.

Students toured La Mancha for two days, visiting all the interesting places related to Cervantes and Don Quixote. Sixty students made a four-day tour to Santiago de Compostela.

Once or twice a week a group was scheduled to visit such historical places as

Valle de los Caidos, El Escorial, Segovia, Avila, Toledo, Museo del Prado, Palacio Real, etc.

Students found that they had also more than enough time to do, see, and learn whatever they chose.

As part of the program, a trip was taken to Southern

Spain, visiting such famous cities as Cordoba, Seville, Granada, Malaga, and two days were spent in the beautiful Torremolinos Beach.

Plans are already in progress for the 18th Summer School Program in

Spain in 1982. Students may earn nine quarter college credits.

All persons interested should write to Dr. Doreste, Augustana College, Rock Island, IL 61201 as soon as possible. Space is very limited.

## Groundwaves

from page 9

9) You're home for the weekend. The hot water heater explodes and the house in engulfed in flames. Which member of the household do you carry to safety first?

- a) Your mother
- b) Your sister, home from Stephen's College
- c) Your sister's roommate, also home from Stephen's college.

10) You have homework due tomorrow in 3 classes. Your roommate wants to go out and get plowed at 10 p.m. which class gets its assigned homework blown off?

- a) Philosophy 5
- b) Organic II
- c) Heat Transfer

11) You spy a gorgeous blonde walking toward you on the sidewalk. How do you go about striking up a conversation?

- a) Fake an epileptic seizure
- b) Ask her if she's married
- c) Ask her if she'd like to see your vasectomy scar

12) How do you react to glassy-eyed religious fanatics bent on either converting you or extracting a donation?

- a) Politely ignore them.
- b) Politely set them afire
- c) Drag them to Schuman Pond, and demand that they cleanse themselves in these holy water, and then you'll listen to them.

13) Your parents want to know why you need an extra \$100 this month. What utterly convincing lie do you fabricate?

- a) Some low-life stole your laundry out of the dryer and you have to buy all new socks and underwear
- b) You ran up that much of a phone bill calling them up for money last month
- c) You need bus fare to Chicago, home of the best VD clinic in the country

14) What was your favorite scene from "Dawn of the Dead"?

- a) The machete scene

- b) The helicopter scene
- c) The shotgun scene
- 15) If you were an electron, would you rather be:

- a) non-bonding
- b) in an sp<sup>3</sup> hybridized orbital
- c) in an excited state

70-75 Extremely Hip  
55-69 Hip  
40-54 Hip Enough for Rolla  
25-39 Danger Zone  
10-24 Un-Hip Person  
0-9 Mongoloid

Want to raise your score? Just spend more time listening to KMNRR. Frankly, if you scored below 25, it may take several weeks of 24-hour exposure to bring you up into even the Danger Zone, and even then we can't guarantee success. If you're one of those poor unfortunates who scored below 10, find a friend with a handgun, and ask him to use it on you. You're beyond even our ability to help you.

UP AND COMING ON KMNRR:

TONITE: "The New Wave Show" - 6:00 p.m.; "Jack Flanders" - 8:30 p.m.; "Improvisations" - 10:00 p.m.

FRIDAY: New rock from Sammy Hagar on "Four-Play" - 4:00 p.m.

SATURDAY: Rich Casebolt's "Heavenly Metal" - 3:00 p.m.

SUNDAY: Dr. D. and "Blues for Rolla" at 8:00 p.m., followed at midnight by The Mind's Eye. This week: "An American

### Tragedy.

MONDAY: Zahc presents three hours of The Alan Parsons Project on The Artist Feature - 6:00 p.m.; Procol Harum's "Whiter Shade of Pale" on "The Rice Krispies Special" - 11:00

p.m.

TUESDAY: "Feedback" with Gary Gadeken - 6:15 p.m. Topic to be announced. "Starts and Stuff" - 8:30 p.m.

WEDNESDAY: Linda Marie presents

"Straphangin" by the Brecker Brothers on "Potpourri," sometime in the late morning.

KMNRR - more kinds of music, more often. If you'd never heard it before, you probably heard it here.

See ya Friday,

D.L.

## Can You Believe!

A creative engineering career with the Southern California IEEE Company of the Year

The Los Angeles Department of Water and Power, the largest municipal utility in the nation, has challenging career opportunities for ELECTRICAL, MECHANICAL, CIVIL and SANITARY engineering graduates.

Help us to design and construct the 3,000 megawatt, coal-fueled Intermountain Power Project in Utah or its ± 500 kilovolt, direct-current transmission system.

Or maybe you prefer working with alternative energy resources, monitoring air and water quality or helping to mitigate community impacts.

The Los Angeles Department of Water and Power offers very competitive salaries and benefits with the opportunity for three-day weekends.

We invite you to join us and become part of an engineering team working on the forefront of energy technology. Our engineers will be interviewing selected engineering majors on your campus soon. Contact your Career Planning and Placement Office for an appointment now or write to:

## Scooter P.I.

# The Maltese Owl

SOURCE: SPI AND RB

She winked at him. At least Scooter thought she winked at him. Scooter eased out of his chair, caught himself before he fell as he realized he had finished his third pitcher. He steadied himself on the chair and made his way past the D.J. booth.

For added effect as he passed the booth he slurred, "Play it again Sam."

Disco Jim looked up and snarled, "It's Jim!" as he pushed the needle across the record, with an ear shattering 75 watt shriek, to the beginning of the song.

Scooter sauntered to the end of the bar.

"A Busch," Scooter demanded, adding, "On the rocks," through clenched teeth.

Served, Scooter took a long draught of his beer (for confidence), moved closer and introduced himself.

"Hi! I'm Scooter," pausing before he added, "P.I."

She brushed her long blond hair over her shoulder, fixed him with a gaze, before she said, "Huh, you talking to me?"

"Uhhh, yeah, hi! I'm Scooter ... P.I.," Scooter began again.

"Yeah, and what does P.I. stand for?"

"Poultry inspector!" the smashed drunk next to him guffawed, falling off his bar stool in a fit of laughter.

"Private investigator, actually," Scooter said.

"Oooh, that sounds dangerous," she said leading him on.

"Yeah, it is kinda," Scooter said, taking the bait.

"I guess my most dangerous case was the Maltese Owl. Perhaps you've heard of it?"

"No, but I get the feeling that I'm going to," she interjected.

"It all started in the fall of '78," Scooter continued.

"Hey! How come everything's getting hazy? Am I that drunk?"

"No, no, it's a flashback. Relax!" he said, continuing to unfold the story...

Scooter admired the name on the door: Scooter P.I., as he tried the key. "Damn landlord! He changed the lock again." Scooter thought to himself, "Well, I need practice with the lock picks anyway."

As he searched his pockets

I guess  
my most  
dangerous case  
was the  
Maltese Owl

for the picks he suddenly detected the landlord's voice in the vicinity, and worked feverishly at the door. "Don't look for the landlord, work the lock," Scooter thought as the door popped open and he slipped in, shutting it behind him. He walked to the window and peered through a crack in the curtains.

His landlord walked up to the front door accompanied

by a tall, dark-haired stranger.

"Probably showing a nephew the business," Scooter surmised using his nimble deductive reasoning.

"Here's the key. Go 'head, look it over, if you like it, its yours. We'll discuss the price later," his landlord said, walking off.

"Hi! How ya doin'?" Scooter said, startling the stranger as he entered the room.

"Who are you?" the stranger queried.

"Scooter P.I. Didn't you read the sign?"

"Well, I'm Doc. And what's the P.I. stand for?"

"Private investigator."

"Oh yeah, the landlord mentioned something about a deadbeat who thought he was a private eye who lived here."

"A deadbeat! Who THOUGHT he was a P.I.!! Who THOUGHT!!! I'm a world class private investigator. I'll lay you odds that phone rings any moment with a case for me."

The phone rang (to Scooter's surprise).

Scooter picked up the receiver, "Scooter P.I. Talk to me," he said casually, concealing his amazement.

"Scooter P.I., Great!!" came the voice over the phone. "I need your help. Can you take a case?"

Scooter cleared his throat, totally dumbfounded now.

"Oh, another case. I guess so if it interests me. Lucky for you I just finished one," Scooter said, forgetting to mention it had been two months ago.

"Excellent! I think you'll find it of interest. It's

somewhat of a kidnapping case."

"OK, tell me about it."

"Well, it's an owl," said the voice, and he went on to explain that a valuable art piece, the Maltese Owl, had been stolen from his mansion and that he'd offered a one hundred thousand dollar reward for it. Then the thief called and offered to return the owl for the reward because he couldn't get as much fencing it. The voice said he wanted Scooter as the drop man.

"I'll need an advance," said Scooter after he agreed to take the case.

"Well, price is no object as long as it doesn't run over a thousand."

"That sounds like my usual fee," said Scooter, coolly concealing his elation.

"OK, \$500 now, \$500 later. The check will be waiting for you at Fred's State Bank. I want you to meet me tonight at Bruno's at, say 10."

Scooter said, "OK, I'll be there," and set down the receiver.

"See, what'd I tell ya," Scooter said triumphantly to Doc.

"So what! I still need a

# Scooter from page 12

place to stay."

"You could stay here."

"Where?" Doc asked, looking about the cluttered room.

"How 'bout that room?" replied Scooter, pointing to an open door.

"That looks like a closet!"

"No, it's not. It's a lot bigger once I get all the clothes out."

Doc looked at him uncertainly. "Well, how much

is the rent?"

"Well, I'll tell you what, I'll split it with you. Your share will be a hundred and fifty dollars. I need an assistant. You can work some of it off that way."

"I don't know. But, I do need someplace to stay."

"Well, give it a couple of days. Come on, we got a case."

After picking up the check they proceeded to Al's Used

Cars.

"Why'd we come here?" queried Doc.

"I'll need a car to get around for this case and that's usually about how long Al's cars last. Quiet, here he comes. Let me do the talking."

"Hi! Big Al here. You guys need a used car?" said a tall dark-haired salesman in mismatched clothes.

"Gosh, Al, how'd you

know? What you got today?" Scooter replied.

"Well, how 'bout this babe here? Just put in new muffler bearings. Or maybe that diesel over there, just installed new spark plugs. All my cars are guaranteed. I do all the work myself."

"How about those two over there." Scooter said pointing across the lot.

"I ain't had a chance to look at those yet."

"GOOD!" replied Scooter. "I'll give you three hundred for both of them."

"Great! I'll get the papers," said Al, running for the trailer home which was his office.

Doc spoke up, "But you

haven't even looked at those two cars, Scooter."

"More importantly, neither has Al," explained Scooter. "Between the two I should be able to make a decent machine."

"Those two wrecks?"

"Well, the beat up one is a Ferrari 308GT, I think, and the Mustang has a fair body. Trust me."

Al returned with the papers and after Scooter had signed them he and Doc succeeded in pushing the cars into a vacant lot. After borrowing tools from Mac's gas station, Scooter and Doc spent several hours selecting the best parts from both cars

and building a car from

these. The sun had long since set when Scooter and Doc finished grafting the Mustang body to the Ferrari frame.

"9:45, just enough time to make it to Bruno's," Scooter exclaimed, looking at his watch.

"If we even make it out of the parking lot," Doc shook his head.

"Don't worry!" crooned Scooter, as he fired up the engine and tore out of the parking lot. Scooter had been right; they did make it out of the parking lot and to within two blocks of Bruno's.

## Deterrence from page 7

damage to the United States, and win the war. Because of its nuclear arsenal, that goal was not out of line with American military capabilities. As a result, the political objective of American policy (to deter a Soviet invasion of Western Europe), was achieved. We cannot know if the Soviets were in fact deterred, only that they did not attack. Had they attacked, the United States and the West would have stood a good chance of militarily preventing Soviet victory.

Today, we cannot know if the U.S.S.R. will ever feel compelled to invade Western Europe. One can only judge that the Soviets have not been deterred from systematically developing the means to do so. The West has, over the same period, gradually neglected many of those political and military

steps that might offer a reasonable chance of success if the Soviet Union forces the issue.

Deterrence, it seems, works both ways. In 1935, Adolf Hitler was not deterred from occupying the Rhineland, despite the overwhelming superiority of the British, the French and others. *The Reichswehr's* generals were frightened by this enormous gamble, and strongly opposed it. Hitler gave strict orders to the small occupying force that it withdraw at the least sign of opposition. But free Europe, tired and fearful from the last war, stayed its hand, because it could not bear to contemplate the renewal of the struggle, and the consequences that might befall it as a result. Hitler, himself a product of the Great War, drew somewhat different conclusions about the nature

of deterrence.

Dr. Rood is Professor of International Relations,

Claremont McKenna College, and Executive Editor of *Grand Strategy: Countercurrents*.

If you lost a calculator in the Library, February 22, 1982. Call Marv at 364-0263 and identify.

Lost: TI-55 calculator in blue case. Lost in Chemistry Building about 3 weeks ago. Name was inside case and on calculator. If found, please call Dave Rose at 364-0360. Reward will be offered!

Lost — One pair of glasses, brown plastic frames, black case. Lost on campus Monday Feb. 15. Call 364-0030.

For Sale: TI 58C calculator. Like new with instruction manual charger, etc. \$60, or best offer. Call 364-0071. Ask for Bill.

For Sale: TI 57 calculator. Good condition. \$30, or best offer. Call 364-0071. Ask for Randy.

Wanted:

Three male roommates for summer session. Apartment right across street from C.E. Building. \$70 per month. Call 341-2878.

WANTED: The return of the UMR Cooperative Education Association sign that was stolen from the area near the Hockey Puck. Anyone with knowledge of the whereabouts of the sign is asked to call 341-2879 or place that sign by the Hockey Puck. Reward is offered.

Need a math tutor? Call 364-1475 and ask for Paul.

WANTED: UMR students 17 to 22 to relax evenings and weekends in my home. Card games, game machines, mini bowl, etc. Call Bill for details. No fee! 699-4363.

Will do typing: 364-7251, 5-6:30 p.m.

The UMR Sports Car Club would like to thank Jeff Sheldon, Mark Randol and especially Mike Tatkov for their help in last week's Road Rally.

We will hopefully be having another Road Rally around May 1, so watch out, Rolla.

P.S. Congratulations Mutchler & Collier in car number 5. You came in 3rd place. You may call Jeff at 341-3734 to pick up your trophy.

Larry P.

I'm not out to get you or looking for trouble, but aren't you at least a little curious? I am!!!! Come and say hi.

C.C.

What, you may ask, is a TASTY TATER? We start with a huge potato (approximately one pound each), and bake it 'til it's done to perfection. Then we add golden melted butter and our own special seasonings, and mix them together to produce a fluffy, delicious texture. Then we add the topping that you select from our many tasty combinations:

No. 1 THE TYPICAL TATER—Our basic tater topped with creamy butter for the potato purist.

No. 2 THE TYPICAL TATER PLUS—We've topped our No. 1 with grated cheese, sour cream, and sprinkled it with diced chives and real bacon bits.

No. 3 THE CHILI TATER—This tater is smothered in hot, meaty chili, and topped with shredded cheddar cheese.

No. 4 THE TATER-Q—For the meat lover, we've covered this tater with hot Bar-B-Q Beef and sauce, and topped it with shredded cheddar cheese.

No. 5 PORKY TATER—We've filled this tater with hot chopped ham and grated cheese, and then we covered it all with whipped butter and sour cream.

COUPON

## Adventure

from page 9

Mexico, Costa Rica and Guatemala have a number of institutions eagerly seeking the North America student. Hundreds of courses are available in the arts, folk studies; sociology, languages and similar programs. Some are conducted totally in Spanish and others in English. Here again, the student can live in a pension, family home or a city apartment depending on the school and accommodation arrangements.

Students at Cemanahuac in Cuernavaca, Mexico can study Spanish, pottery, weaving, folk dance, and music. They have mini seminars about Latin American culture, arts and crafts — as well as field trips to major Archaeological and craft centers. Students of all ages can sign up for a week or longer anytime during the years.

Centro Linguistico Conversa's facility at San Jose, Costa Rica, has been called a "school in paradise" because of its beautiful setting.

Fees usually include most meals, accommodations, special tours and some transportation, in addition to tuition. However, for the beginner it might be hard to know what facility is right for his or her particular pocketbook and inclination. The National Registration

Center for Study Abroad (NRCSA), publishes specialty study directories and offers a great deal of help for the prospective student facing the tricky hurdle of securing details and registration information on his own.

The program has a staff that visits recommended facilities to prescreen them before offering programs to the American public. "For every four or five places visited, only one is adequate for inclusion in our directories," says Michael Wittig, NRCSA's manager. "We look at places referred to us by governmental and educational agencies in the respective countries and either go there ourselves or have one of our consultants check over the program," he says.

NRCSA used to offer courses in Guatemala and Chile until civil unrest in those countries ruled out

student bookings. "We have to be aware of the political situations in many of the countries as well as the academic qualifications of a particular school," Wittig indicates.

NRCSA has been publishing study catalogues since 1972, with current offerings including updated versions of a Latin American Directory of Educational Programs (\$4), a Great Britain-Ireland Directory (\$7.95) and a European Directory (\$6.95). Semiannual updates are sent free to directory purchasers, listing the latest information on dates and prices for thousands of courses.

"What we're doing is offering information on special interest programs from abroad that is hard to get elsewhere," adds Wittig, who indicates that the idea is not really new. "In many ways, we're like the Sears-Roebuck catalog for over-

seas educational possibilities," he says with a chuckle.

For ordering any of the geographic directories, forward a check with the proper amount to the NRCSA, 823 N. 2nd Street, L68, Milwaukee, WI, 53203. Over the past few years, more than 2,000 persons have enrolled in these specialty offerings through the NRCSA. The firm does not control the academic offerings of each institution but presents course details and helps with registration at the more than 100 schools listed in the various catalogues.

After reading through the books, the only remaining question for the traveler is "should I study geology at Higham Hall or go cave exploring at the Wherns Cave and Fell Center?"

## Culture

## Bloopers

Captain Kirk bumping into a door, Mickey Rooney bumping into Jayne Mansfield, it's all part of those outtakes or bloopers that usually end up on the cutting room floor.

You can see them in Rolla, though, because Herb Graff, the curator of the Brooklyn Film Archives, and a film

blooper collector, is bringing his personal collection of mistakes and mishaps to UMR's Centennial Hall on Friday, February 26 at 8:00 p.m.

The special showing, sponsored by the Student Union Board, is free and open to the public.

Amy Grant

## In Concert

By KEN DONNELLY

along with her latest material.

Tonight, February 25, at 7:00 p.m., at the Central Bible College Activities Building in Springfield, Mo., Amy Grant will be performing in concert.

Although this information comes a bit late, an excellent opportunity is presented to you to witness one of today's leading female vocalists in Contemporary Christian Music. Amy has been nominated three consecutive years for a Grammy Award and is also a three time finalist of the Dove Awards.

While only 21, she already has five top-selling albums, the latest being, "In Concert, Volume II," which is a mixture of her past hits,

Amy is a Contemporary Christian artist whose music has developed a popular, rock-oriented style to enhance the traditional Christian music.

Her concerts have a special quality for she develops a personal relationship with the audience. This ability to talk to and relate to the audience make her concerts very appealing.

So, if you do have some time tonight to witness this concert tickets will be available at the price of \$6.00 at the Central Bible College Activities Building in Springfield.

## Women play well and defeat SIU

By ROB TELKER

The UMR "Lady Miners" basketball team finished their regular season at a high point last Friday in the Gale Bullman Multi-Purpose Building. The women not only played well, but they chalked up a victory in the process. The 72-66 win against Southern Illinois University-Edwardsville snapped a four-game losing streak and improved the team's overall record to 6-16.

Coach Cathie Schulte was very pleased with the performance of the team. "Not

only did we win..." Schulte said, "but we played like we knew what we were doing." Several members of the UMR squad had fine games. Sophomore Laurie Behm led the team with 13 points while shutting down a top SIU-E player with good defense. Junior Carmen Baker returned to form by adding 12 points. "Freshwomen" Stacy Stover and Kim Murphy also had strong performances and finished with 12 points each. Stacy led UMR by grabbing 14 rebounds.

The key to the game

seemed to be a well-balanced scoring attack combined with a more confident defense. "We played man-to-man by necessity," said Coach Schulte, "and were able to confuse the other team. Our girls gained confidence, got tougher, and we ended out on top."

Southern Illinois came into the contest with an 11-12 record and had beaten University of Missouri-St. Louis, to whom UMR had lost twice. They were not an easy opponent and might

have been caught napping by the "Lady Miners." Said Schulte, "I think the difference was that we felt we could win this game."

A see-saw first-half closed with SIU-E ahead by a tally of 32-28. In the second half, UMR showed no sign of a letdown and proceeded to play tenacious man-to-man defense, holding SIU-E at the 50-point mark for more than five minutes. A hot-streak by UMR's Carmen Baker gave the Miners an 11-point lead and control of the game.

In what was called the best game of the season by Coach Schulte, UMR divided the scoring among nine players and shot nearly 50 percent from the field. The coach admitted, "It was a great way to end the (regular) season."

The women's team will try to carry their fine play and enthusiasm on into the M.A.I.A.W. State Basketball Tournament as they meet Southwest Missouri State tonight in Cape Girardeau. SMS has a good team, having beaten UMR twice this season by 24 points and

19 points. "We'll have to put forth the same kind of effort this week to be able to defeat Southwest," says Coach Schulte. Tonight's contest pits the taller UMR team against the quicker SMS squad.

Other teams that are entered in the State Tournament include Southeast Missouri, Northeast Missouri, Missouri-St. Louis, and Evangel. Next week's news will include results of the tournament and a "season wrap-up" for the UMR Women's Basketball team.

## Track team competes in Mizzou Meet

By DAN BROWN

Last Friday evening the UMR track team competed against about fifteen other Missouri colleges in the All-Mizzou Invitational Indoor Track Meet in Columbia.

As expected MU dominated the meet as they captured first in eight out of 17 events. One of these first place finishers, Ben Lecero,

set a new meet record and qualified for the NCAA National Indoor Meet in the high jump. Lecero's vertical leap of 7' 2 3/4" was just 1/4" shy of former MU star and NCAA Division I High Jump Champ, Nat Page. Robin Thomas of Southeast Missouri State University also qualified for the national meet with his record-setting pace of

1:10.25 in the 600-yard run.

The distance medley relay team of Dave Moore (880), Bill Dye (440), Mark Stucky (1,320) and Brian Blackford (mile) got the Miners started on the right foot with a fifth place finish in a time of 10:36. Dave Moore and Mark Stucky also competed in the 1,000-yard run. Moore finished second in his heat in 2:18 while Stucky was fifth

with a 2:20. Moore's time placed him eighth out of about 30 competitors.

Bob Parker won his preliminary heat of the 60-yard dash in 6.45 seconds and then barely missed qualifying for the finals with his fourth place finish in the semifinals of the 60.

Phillip Taylor continued to improve his 600-yard time! Last Friday he covered the

distance in a time of 1:14.8 for seventh place.

Several other Miners had respectable performances. Kevin Stock and Dave Millman tied for second in their heat of the 880-yard run. However their time of 2:01 wasn't fast enough to place. In the mile run Dan and Pete Lichtenwalner continued to improve. Dan

finished in 4:30 while Pete following close behind with 4:33. Chris Henry fell three inches short of breaking the UMR pole vault record! He cleared the height of 13' 9".

This weekend the Miners will take a break as they prepare to compete in the MIAA Conference Indoor Championship Meet in Warrensburg on March 6.

## Miners end year with loss

By LARRY TIPTON

UMR's basketball Miners ended their season Tuesday with 98-60 loss to Northeast Missouri State. The loss was their sixth in a row, and left the Miners with a 12-14 overall record.

Northeast's Bulldogs, who led by as much as 41 points, took an early 12-0 lead when the Miners failed to score for the first four and a half minutes. This set the trend of the game. Northeast enlarged their halftime lead

when UMR hit only one of their first nine shots. The Bulldogs cruised to an easy victory to advance to the semi-finals of the MIAA post-season tournament.

Leading the Miners offensively were Zol Singleton and Kent Dinsdale, each with 14 points. Joe McDowell and Kurt Lorenzen had 10 points each.

Perhaps a key factor in the game was the play of Rickie Cannon. Usually leading the

team in scoring, Cannon was shut-out by the Bulldogs and fouled out of the game.

The most important factor of the game, however, was the Miners very poor shooting. Coach Billy Key said, "Our shooting really fell off, so Northeast was able to put us away early. We haven't shot very well in the last three games."

How true. The Miners last regular season game, against Central Missouri

State, is evidence of this. Leading 26-19 at half, the Miners came out and shot a blistering 27 percent from the floor. Outscored 43-17 in the second half, they suffered a 19 point defeat to drop below the .500 mark (12-13).

Well, now the season is over for the Miners, and maybe its better that way. As Coach Key commented, "We really weren't making any progress at the end."

## Chalmers, Schoenberg take 2nd

By MARK A. COOK

The Rolla Miners ended their wrestling season last Saturday at the Missouri Intercollegiate Athletic Association championships in Warrensburg. The wrestling Miners, although taking last, did capture seven MIAA medals. Greg Schoenberg at 118 pounds and Scott Chalmers at 150 pounds both took second

place finishes.

The Miners qualified no wrestlers for nationals. This is due in part because of a scheduling error by the NCAA which allowed SMSU in Springfield, a wrestling power, to compete for national qualifying spots at the MIAA tournament.

This prosperous miscue probably cost Scott Chalmers, Rolla's leading

wrestler with 11 wins and 46 1/2 team points, a chance of a trip to Nationals. Coach Joe Keeton blamed the NCAA for not putting SMSU into another district. SMSU is moving into Division I and is not an MIAA member.

The Miners finished their season with a 4-6 dual meet mark. Congratulations go to Coach Keeton who was named MIAA Coach of the Year.

Wrestlers placing third in

the MIAA for Rolla were: Jeff Lambing at 126, Fred Kummer at 142, Rich Straughn at 158, Jeff Maddex at 167, and Kirk Avery at 177 pounds. Northwest Missouri State University won the tourney with 85 1/2 points.

The relatively young wrestling team had a fine season and came of age this year with some key victories. The wrestling Miners will be tougher next year — a team to watch.

## M - Club

### Athlete of the week

#### M-CLUB ATHLETE OF THE WEEK

This week M-Club would like to honor team captain Steve Herzog of the UMR Varsity Rifle Team. In a recent win of the sectional match at Lincoln, Nebraska, Steve fired a 377 in the knee match. This tied him for first

with another UMR shooter. He also fired a top score of 1087 in the total standings of the three position matches. Congratulations to Steve on his great performance. With his leadership and the team's continued excellence, we look forward to UMR's competition in the Nationals.
