## For the students of UMR

Volume 71, Number 2

Thursday, Sept. 2, 1982

Sixteen Pages

E.E. overcrowded,

## Changes in pre-registration procedure

By HERALEEN SPRENGER

In times when enrollment at UMR is increasing substantially and the numbers of faculty members and class sections are not, working out an acceptable schedule can be, as one student put it, "a mess."

"On this campus, we've never really settled on an enrollment procedure that suits everybody's needs," said Dr. Derald Morgan, head of the Electrical Engineering department.

Enrollment procedure in the EE department is somewhat different than in other departments. And though the system they used

this year is not a new one, control has been, according to Dr. Morgan, the tightest it has ever been.

An EE student going through the pre-registration process last spring basically did what every other student did. He met with his adviser, chose his classes and got his enrollment cards from the registrar's office. But after filling out his "blue cards," he returned them to Undergraduate Coordinator Dr. Frank Kern's office instead of the registrar's office.

This detour gives the EE department — the largest single department — more control over the schedules of its nearly 1,200 students.

Not only does it help insure

against forged instructor signatures, but more critically it gives a count earlier than would otherwise be possible, said Dr. Morgan. This in turn gives an indication as to whether any new sections will need to be added.

"If I get a signal early enough, I can do something about it," said Dr. Morgan. "For example, in April I got the signal to put in seven new sections. Without these, there would have been from 210 to 280 more unfilled requests. ... We don't have an infinite ability to add sections. That's critical to understand. You don't just walk to the corner of 12th and Pine to get someone to

teach a class. We have to have time to recruit. ... We want to maintain the quality of our program."

Another procedure unique to the EE department is that of add/drop and section changes. While the typical action is to get forms from the registrar's office and then obtain signatures from advisers and instructors, all the paperwork for EE classes is handled in Dr. Kern's office.

If class numbers allow the desired change, "we change him right there — sign it, seal it, and he takes it to the registrar's office. It's one-stop service," said Dr. Kern.

"Our add/drop is simpler," claimed Dr. Morgan.

"When you get it done, you know there's a chair for you. This is preferable to running on the hopes that when the smoke clears, there will have been the same number of adds and drops."

According to Acting Registrar Dr. Myron Parry, the EE department's access to the SIS (Student Information System) helps them to get the "maximum use of procedures, which even include rearranging students' schedules by hand, they can pack their courses."

How do those most affected by these procedures feel about it?

Said one EE junior of her summer pre-registration experience, "It was a mess."

... The registrar's office told me the class was open. I took my cards to the EE department, and they said it was closed. ... From what I gathered, they had given out too many cards or something in the registrar's office. What was surprising to me was that all those classes were closed. Maybe the department has grown."

"The EE department is one of the strictest on campus," said a senior enrolled in management with electrical emphasis. "They keep better tabs on their students. They do the same thing the registrar's office does ... but they do it themselves."

### Office of Career Development,

## Remington appointed director

SOURCE: OPI

C.R. Remington, director of UMR's Cooperative Training Program and professor of mechanical engineering, has been appointed director of UMR's new Office of Career Development effective Sept. 1.

According to Dr. B. Ken Robertson, UMR dean of students, the new office is the result of a merging of the UMR Placement Office and Cooperative Training Program.

"This reorganization," he explained, "joins two offices with the same goals and almost identical clientele. The fine services of the separate units will be continued without undue duplication of staff and effort."

Larry R. Nuss, the current director of placement at UMR, will retire Sept. 1 after 13 years with UMR.

"Professor Remington has headed an extremely successful co-op program," Robertson said. "I am confident that the good work of his many years on campus will continue to be reflected in his high standard of professionalism."

"Larry Nuss has been an exceptional placement director," he added. "We hope to work with him, as a consultant, during the coming year."

Remington joined the UMR mechanical engineering faculty in 1950 and was promoted to professor in 1960. He was appointed associate director of the Cooperative Training Program in early 1979 and was named director later that year.

"I'm looking forward to serving in this new position," Remington said. "It will be a challenge, but it's the kind of challenge I enjoy because it involves serving students and that has been my primary motivation at UMR during the past 32 years."

"Although the two offices will now be combined," he added, "our mission will remain the same. We'll seek

to place graduates in permanent positions, and we'll also work to expand the co-op program to create more opportunities for students to participate."

Remington was awarded a B.S. and an M.S. in mechanical engineering from UMR in 1949 and 1950, respectively. Among his memberships are the American Society of Mechanical Engineers, the American Society for Engineering Education, the Missouri Academy of Science and the Society of Automotive Engineers.

The Trace Place is now open and is serving quick lunches, snacks and drinks.

## Old Chemistry building reopened

By PAT VAN RYCKEGHEM

The east wing of the Walter T. Schrenk Hall, known to many as the old Chemistry building, has reopened this semester and is currently being used. Though not completed yet, most of the labs are finished and the faculty and staff are in the process of moving in and getting settled. Dr. Manuel, the head of the chemistry department, said the department is very

pleased with the work that has been done.

The building, originally built in the 1940's, was closed down for renovation after the 1982 spring semester. The repairs were sorely needed and although the chemistry staff was not able to do everything they wished because of a limited budget, much was still accomplished. Probably the most visible change is in the building's auditorium G-3. Formerly called G-6, the auditorium was completely

renovated. The ceiling was lowered, the old wooden chairs were replaced by comfortable desk-chairs with padded seats, the floor was carpeted and modern fluorescent lighting was installed.

Some of the changes made were simply recognizing the changes in the student body over the years. Once nearly an all-male school, the old Chemistry building had only one women's restroom for all four floors. A new women's restroom was built

on the third floor, and new doors were installed on the existing ones. Many features were also added to make the building more accessible to the handicapped. New ceilings and fire doors were installed on every floor, and the building now has central air for heating and cooling. A new holding tank for distilled water was built on the ground floor, and part of the ground floor was dug up and a new passageway built, permitting access between the wings on the ground

floor. Many rooms were consolidated to make more efficient use of space.

Many safety features were added to the laboratories. Many of the laboratory rooms did not have enough exits in case of fire. In addition to more exits being added, many fume hoods were replaced and emergency showers were

# CALENDAR OF EVENTS

**Editor's Note:** If your organization is having a meeting, turn in details to the MINER office in the Rolla Building before Monday at 9 p.m. and we will list it in the Activities Section of the paper. No articles submitted will be printed unless written in complete sentences with proper grammar. No schedule or flyers will be rewritten and published by the staff for the Activities Section.

If your organization is sponsoring a campus-wide event for the benefit of charity, get us details before Monday at 9:00 p.m. We will advertise the event free of charge in this space.

The MINER reserves the right to edit any notices or ads for this page before publication.

## THURSDAY

### INTERCOLLEGIATE KNIGHTS

The first meeting of the Intercollegiate Knights will be held this Thursday, Sept. 2, in the Mark Twain room. All members are urged to attend and welcome back!

### BLOOD DRIVE

Donate your blood to a good cause. Join us Sept. 1 and 2 in Centennial Hall.

### CHI EPSILON

The first meeting of Chi Epsilon will be Thursday, Sept. 2, at 4:30 p.m. in Room CE 117. All actives are urged to attend.

### MSM CLIMBING CLUB

The MSM Climbing Club will hold its new member's meeting Thursday, Sept. 2, at 7 p.m. in Room 104 Physics. New members are welcome.

### INDEPENDENTS (GDI)

On Thursday, Sept. 2, GDI will have a general membership meeting. We will hold elections (queen candidates, etc.). Door prizes. Refreshments afterward. Memberships available, all welcome!!!

### MINING ENGINEERS

UMR Society of Mining Engineers will hold a meeting Thursday, Sept. 2, at 7:30 in the Mining Building, Room 107C. The speaker will be Troy Harris, UMR.

### SPORT PARACHUTE CLUB

UMR Sport Parachute Club will hold a general membership meeting Thursday, Sept. 2 at 7 p.m. in Room 104 Physics. New members are welcome.

### MEETING OF GRADUATE STUDENTS

There will be a meeting of the Council of Graduate Students Thursday, Sept. 2 in Room 105 ME. Departmental representatives, the CGS picnic and general business will be discussed. All concerned Grad students are invited.

## TUESDAY

### DECEMBER GRADUATES

December graduates if you will be completing requirements for a degree at the end of the fall semester, you should make application for that degree by going to the Registrar's Office at your earliest convenience. The Registrar's Office will not be able to include you with other students finishing undergraduate and graduate degrees on Dec. 19 unless you make application with Lauren Peterson. Graduating graduates must apply before Sept. 7, 1982.

## Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri at Rolla. It is published weekly at Rolla, Missouri. The Missouri Miner features activities of the student and faculty of UMR.

Editor-In-Chief	Rich Bee	364-9885
Business Manager	Cindy Farina	364-2245
Advertising Director	Laura Pagano	364-8989
Managing Editor	Dave Stanfield	
News Editor	Karen Penney	
Features Editor	Sherry Noonan	
Sports Editor	Ken Donnelly	
Photo Editor	Tim Farrell	

Subscriptions are available to the general readership at a rate of \$6 per semester. Articles and photos for publication in the Miner must be in by 9:00 p.m. on Monday before distribution on Thursday.

### THE MISSOURI MINER

303 Rolla Building  
University of Missouri-Rolla  
Rolla, MO 65401  
341-4312

### STUDENT COUNCIL

There will be a Student Council meeting, Sept. 7, at 6:30 in the Missouri Room.

### HANG GLIDING CLUB

The UMR Hang Gliding Club will have its first meeting on Tuesday, Sept. 7, at 7 p.m., in Room 114 of the Civil Engineering Building. Come find out what hang gliding is all about. Refreshments afterwards.

## WEDNESDAY

### A.S.C.E.

The American Society of Civil Engineers will hold their first meeting on Wednesday, Sept. 8, at 7 p.m. in Room 104 of the Mechanical Engineering Building. Memberships will be sold and "EVERYONE" is invited to attend. Mr. Norman Brown of the Missouri Department of Natural Resources will be our guest speaker, and will speak on the original survey of the south and west boundaries of the state of Missouri. Refreshments will be served after the meeting. Please attend!

### PHI ETA SIGMA

The UMR chapter of Phi Eta Sigma national honor fraternity will hold its first meeting of the semester Sept. 9, at 7 p.m. in Room G-5 H-SS. All active members are encouraged to attend.

### ASCE

This year's first ASCE (American Society of Civil Engineers) meeting will be held Wednesday, Sept. 8, at 7 p.m. in Room 104 ME, Miles Auditorium. All Civil Engineering students and undecided are welcome.

### ST. PAT'S SWEATSHIRT CONTEST

The deadline for the 1982 St. Pat's Sweatshirt Design contest is Sept. 8. First prize — \$40, second prize — \$25 and third prize — \$15. Submit entries to any St. Pat's Board Rep.

## SATURDAY

### "INDOOR AIR QUALITY SURVEY"

Does the air in your home or office make you feel uncomfortable or sick? Do you want to know what kind of air you breathe every day in your homes and offices? Professor TerKonda and graduate students are doing indoor air research at UMR. If you would like to test the air quality in your home (mobile home, conventional house, apartment) or office without any charge, please call Dr. Purush TerKonda to schedule an appointment.

Weekdays: 9 a.m.-4 p.m., 341-4484 (Dr. TerKonda) or 341-4478 (Mr. Liaw).  
6 p.m.-11 p.m., 341-3356 (Mr. Liaw).

### SUB

SUB is now accepting applications for the Concert, Fine Arts, Publicity, Indoor Rec, Outdoor Rec, Social and Special Events Committees. They can be found and turned in at 217 University Center-West.

### BLUE KEY

Blue Key, a national honor fraternity is now accepting applications for fall 1982 pledging. Requirements for membership are: 1) 60 credit hours; 2) overall GPA of 2.75; 3) 40 Blue Key leadership points. Applications are available at the Candy Counter or the Student Activities office. They are to be returned to the same places by Friday, Sept. 10. If you have any questions, contact Barbara Deiland at 364-2775.

### ALL STUDENTS

All students wishing to receive services at the Student Infirmary should have their physical examination forms turned into the Health Services

### INDEPENDENTS (GDI)

GDI will be selling memberships on campus at the Hockey Puck till Sept. 11.

## Study says

# Parents Responsible for Education Costs

U.S. Secretary of Education T.H. Bell today said there is evidence that parents of prospective college students are willing to assume primary responsibility for financing their children's post-secondary education.

The evidence, Dr. Bell added, was revealed in a survey of parents of students who participated in the Department of Education's longitudinal study of high school sophomores and seniors. More than half the

parents sampled indicated they believed that the main responsibility for the cost of education beyond high school should be borne by parents.

One in four of the respondents thought that students should be responsible, and only one in 10 indicated they thought the Federal government should assume the main financial responsibility for a student's college education.

Asked who should receive financial aid, the parents

had five choices: all high school graduates, intelligent students, minority students, work-study students, and needy students. Almost eight in 10 favored support for work-study students.

For the longitudinal study, "High School and Beyond," the Department's National Center for Education Statistics gathered base-year data on a national representative sample of the sophomores and seniors in U.S. secondary schools. The survey of a sample of the

parents of students who participated in the study was conducted in the fall of the same year.

Among the more detailed findings of parents' views on who should accept the main responsibility for the cost of education are these:

—Fifty-six percent of all parents who responded indicated that they should have the main financial responsibility for their child's college education — 63 percent with incomes of more than \$35,000, and 50

percent, less than \$20,000.

—The majority of white, black and Hispanic parents indicated that they should have the main financial responsibility for their child's college education — 57 percent, white; 53 percent, Hispanic, and 52 percent, black.

—Parents who had a

college education were more likely than those who did not to indicate a willingness to assume the main financial responsibility for the education of their child — 68 percent, college graduates, **see Parents**

## News shorts

### StuCo to give money

The UMR Student Council is accepting applications for fall appropriations to needy campus organizations. \$5400 is available to organizations requesting funding and \$6700 is available to non-varsity sports organizations. Organizations already receiving Student Activity Money are not eligible.

Applications are available at the Student Council office, 202 University Center-West. They should be completed and returned there during regular office hours on or before September 24, 1982. Absolutely no late applications will be accepted.

The criterion for appropriations is listed in the Student Council Constitution also available at the Student Council Office or in the Manual of Information available in the registrar's office. Ideally, appropriations go to new organizations getting started (or to rejuvenate those which have deteriorated) or to help those organizations

which are inherently unable to support themselves. It is important to show how your organization can help the student body! For information call Russ Chapell at 364-5231 or leave a message at 364-5880.

### Madrigal Dinners

SOURCE: OPI

Persons interested in the technical aspects of Renaissance musical stage production or the non-musical performance of Renaissance-type diversionary entertainment such as juggling, acrobatics and storytelling, are invited to a Madrigal Dinners organizational meeting at 7 p.m. Sept. 7 in 101 Old Cafeteria at UMR.

The annual Madrigal Dinners program is scheduled Dec. 9, 10 and 11. Sponsored by UMR music-

art-theater, the musical portion of the program is provided by the 29 singers and instrumentalists of the Collegium Musicum who specialize in the performance of 16th century Renaissance music, particularly English and Italian part-songs.

Assistance is needed in set design, construction, lighting, props, costumes and makeup, as well as in the performing areas that complement the musical productions.

### Sigma Pi

#### receives awards

Submitted by Sigma Pi

The Alpha-Iota chapter of the Sigma Pi Fraternity received three awards at the fraternity's national convention, which was held this

summer in Louisville, Kentucky.

The first award received was the Triad Award, which designates the UMR chapter as one of the top ten chapters in the nation.

Alpha-Iota also received the Louis B. Foley Newsletter Award for 1981-1982, which is given to the chapter with the best alumni newsletter.

Finally, the Community Service Award for 1982 was given to the chapter in recognition of its various service projects and contributions to charity.

The receipt of these awards places Alpha-Iota in very good standing for the Grand Sage's Award, which is given to the best Sigma Pi chapter.

Alpha-Iota's newly appointed social advisor is Frank B. (Bo) Powell III.

Also, this is the chapter's 50th anniversary. Sigma Pi's UMR chapter was founded in 1933.

**BECOME AN ENGINEER**

If you have a college degree or are presently a senior/graduate student in a technical field, you may be eligible for a special Air Force Engineering Scholarship.

- .. Fully paid program - tuition, books, lab fees and second lieutenant's pay and allowances while attending school.

**Course Requirements**

- .. Degree, preferably technical - Mathematics, Physics, Chemistry, Computer Science, etc.

**Mathematics**

- .. One year college calculus
- .. One course in differential equations or equivalent

**Science - 16 semester hours**

- .. One year college physics
- .. Chemistry, Biology

**Humanitarian/Social Sciences - 16 semester hours**

- .. English, Economics, Sociology, History, etc.
- .. Overall GPA must be 2.5 or better on 4.0 scale

**Personal Requirements**

- .. Be at least 20 and not more than 30 years of age
- .. U.S. Citizen - physically qualified
- .. Pass Qualifying Test - good moral character
- .. Upon acceptance you would be required to attend Officer Training School (OTS) and graduate as a second lieutenant in the Air Force
- .. Upon completion of OTS you would attend an Engineering School for 18 - 24 months and earn an Engineering Degree accredited by the Accreditation Board for Engineering and Technology (ABET).

## PUSH for handicapped

By MARK FISHER

The Gamma Lambda chapter of Pi Kappa Phi is supporting its national philanthropy, PUSH, with the Haunted House in the fall and car washes in the spring. PUSH stands for play units for severely handicapped, a new concept in teaching physically and mentally handicapped children.

These children who have been institutionalized and who will never experience normal growth may be blind, or deaf, or both. They usually can't understand their environment or react to it, and they learn with agonizing slowness.

For the severely disadvantaged child, a simple act such as pushing a button and hearing a buzzer can be a major achievement and a source of joy. More importantly, perhaps for the first time, it may bring a realization that he can affect the world around him.

PUSH units combine simple motivators, such as the button and buzzer, with a variety of other activities to create a learning environment for institutionalized children. They provide tactile, audio and visual stimulation to enhance the learning process.

By instilling in the

## Parents

from page 3

and 51 percent, no college.

Replies to the question concerning who should receive financial aid revealed that:

—Seventy-nine percent of parents supported financial aid for students in work-study programs — 80 percent with incomes of less than \$20,000, and 78 percent, more than \$35,000.

—Parents who did not have a college education more often favored the work-study program than did those with a college education — 81 percent, no college, and 75 percent, college graduates.

## Chemistry

from page 1

installed in the hallways outside the laboratories. A fire escape was also built on the north face of the building. The storerooms for the freshman chemistry laboratories were rebuilt, with new shelving installed, and restored.

The life science department expanded by about a factor of 2 in terms of floor space. Some of this space will be used for offices for the life science faculty. Also laboratories and equipment are being set up to carry out gene-splitting and related research.

members of Pi Kappa Phi a desire for good citizenship, a concern for mankind naturally follows. Pi Kappa Phi, in quest of a service project in which all of its chapters could participate, developed project PUSH.

Capitalizing on previous work by designer Thomas Sayre, the idea was born. Specially designed play units for institutionalized children were soon on their way as Pi Kappa Phi's philanthropy.

The first experimental unit was installed at the Western Carolina Center in Morganton, N.C. Since then additional units have been placed in institutions across the country. Three new units are scheduled to be installed

at Clover Bottom Development Center, Nashville, Tenn.; Idaho State School and Hospital, Nampa, Idaho, and Georgia Retardation Center, Atlanta, Ga.

One unit costs \$10,387.50 to build and \$1,660 to install. Construction and placement of the units is made possible by fund-raising activities conducted by the fraternity chapters.

For more information, call or write the national office of Pi Kappa Phi fraternity, P.O. Box 240526, Charlotte, N.C. 28224, or telephone 1 (704) 523-6000.

Pi Kappa Phi will open the Haunted House Oct. 29 and 30 at 1704 Pine St., Rolla.

## Remington from page 1

At UMR he also has served as the director of the Summer Science Training Program for high-ability high school juniors, the National Science Foundation Summer Training Program for high-ability secondary school students and the Summer Institute in Mechanical and Aerospace Engineering. He also has been the primary freshman adviser for the UMR mechanical and aerospace engineering department. He is the faculty adviser for the M-Club, Interfraternity Council and Blue Key.

"I have been very fortunate to work for a university with such an outstanding reputation among the top technical employers," Nuss said. "No one in the field of personnel could find a more enjoyable and stimulating environment to finalize his active work career."

Nuss joined the UMR staff in 1969. Prior to that he was the manager of professional employment and college relations for the Collins Radio Co. of Cedar Rapids, Iowa. He also worked in sales and station management for radio broadcasting companies in Iowa, Minnesota and Washington.

He holds a B.A. in English and speech from the University of Northern Iowa and did graduate work at Michigan State University.

Although retired, Nuss will maintain a close relationship with UMR. He will teach a student seminar on resume preparation and job interviewing for the UMR Counseling and Testing Center during the 1982 fall semester.

MISSOURI MINER

Thursday, Sept. 2, 1982

Page 5

The Alpha-Omega players in a Sept. 8, at the Cedar Street Center. rehearsal shot of Same Time, Next Admission is free and the public is Year. They will appear Wednesday, welcome.

Alpha-Omega Players Present

## Same Time, Next Year

By JANET JANSEN

For everyone who has "kissed the summer good-bye" a number of times and would enjoy a change of pace for an evening, Wednesday, Sept. 8, is it. Those of you who also have a fine taste in entertainment, of another sort, will be happy to hear what's coming soon, too.

A two-character comedy play that one critic hailed at its opening on Broadway as "a love letter to the world" will open at the Cedar Street Center and play for one night only. It is "Same Time, Next Year" by Bernard Slade, which ran for well over three years in New York and broke house records all over the world.

Doris and George, a casually met couple, have a

weekend tryst at a Northern California inn. The attraction between them is so strong that they arrange to meet again the following year at the same inn. The scenes of the play show the lovers at five year intervals as they come together for their annual rendezvous, for 25 years. The comic and cosmic problems they face as individuals and as participants in a hectic period of history are the substance of "Same Time, Next Year."

The play was the result of its author's desire for a change of pace. He was doing quite well in Hollywood, creating such series as "The Partridge Family" and "The Flying Nun." For variety he began writing a play.

The result, "Same Time,

Next year," will be performed by the Alpha-Omega Players, brought to Rolla once again by the Student Union Board. The troupe coming to town is one of three such touring companies produced by the Repertory Theater of America. Each year they cover about 50,000 miles each, playing one-night stands in communities from Maine to California and parts of Canada. Their production style is very simple, using a minimum of props and scenery and creating a mood and atmosphere in the imagination of the audience.

There is only one performance, 8 p.m. Wednesday, Sept. 8, at the Cedar Street Center. Be sure to enjoy it.

## On the job...

## Freshman Nightmare

By MIKE STRODER

Setting: the first day of lab. Thirty freshmen are seated in a drab, dark lecture hall, you among them. Your instructor enters. He is wearing an olive green suit, pink tie and a German World War I helmet, stands around 6-9 and is bald. "Good evenink," he says with a thick German accent. "Mein name is Fritz Von Klaus and I welcome you to Intro to (fill in department) lab. First, some ground rules will be established. Ve vill do 46 labs this semester. All labs require a formal report of at least 12 pages. Anyone failink to do a lab vill be dealt with very severely," he says as he opens a closet door to reveal several

snarling German shepherds. "Now, are dere any questions?"

"What's your grading scale, Dr. Klaus?"

"Ze cutoff for A's vill be 98, 97 for B's, 96 for C's und 94 for D's. No one vill leave dis lab with less ... heh ... heh ... heh ..."

"Who or what is that thing standing beside you?" your neighbor asks in reference to the Neanderthal-like creature next to him.

"This is your T.A., Mr. Trog. Say hello to the students, Mr. Trog!"

"Grunt," says Mr. Trog.

"Show them vat ve do ven students turn in late labs, Mr. Trog!"

"Grunt," Mr. Trog says again as he breaks the

podium in half with one blow of a large misshapen club.

The room grows deathly quiet.

"Are dere any more questions?"

The fellow in front of you says, "I forgot my safety glasses. Can I go home and get them?" The floor beneath him suddenly disappears and he goes whistling off into oblivion.

"NOW, are there any more questions?"

You wake up in a cold sweat. "Boy, what a dream. That's the last time I eat a 15-inch pizza before I go to bed," you say to yourself. You grab your schedule. "What's my first class today? Chem lab!?!? Hmmm ..."

Joe Miner

# Miner Mess Up on I-44

JOE MINER  
By A.J. OAKES

"Go Speed Racer, Go Speed Racer, Go Speed Racer Go-Oooh!" Joe hummed to himself as he pulled the tab from the last of his beers and rocketed his 65 Monterrey to 50 mph.

Another 15 miles and Joe would be in Rolla. Joe was all uptight but yet, enthusiastic about returning to

school. He had finally been removed from scholastic probation through a computer error in his transcript. He was now classified as a graduate student in Nuclear Engineering. Joe didn't exactly know what nuclear meant, but had heard about enginaneering before. Three years ago Joe couldn't even spell engineering, "Now I are one," he thought.

Joe had spent most of his

summer overseas in northern China, specifically north of southern Mongolia where he became a famous pineapple holder for retired Samurai Warriors. So what.

Joe's car started to sputter as he approached the apex of the hill he was ascending. His 65 gradually inched its way to the summit and began rolling down. Faster and faster the car sped as gravity was its only motive

force.

"Wow, what's that?" Joe yelled as he saw a fiery red Ferrari 308 GT, that kinda looked like a rusted out 67 Mustang with SPI vanity plates. The disguised Ferrari was parked on the shoulder of the interstate with a flat tire and a steaming radiator.

Joe's Monterrey was still gaining speed 65-70-80-100 mph. "Yahoo!" Joe yelled as he pulled his car out of neutral into drive in a frantic effort to slow down.

Joe recognized the car. It was none other than Scooter P.I., the famed Rolla detective. Joe being as smart as he is thought he'd

try to scream by just as close as he could without hitting him. One hundred yards, 50-30-10-5-yards to impact. All Joe heard was the loud crash

Pi Kappa Alpha's

## Calendar Girls

By PAT  
VAN RYCKEGHEM

The 3rd annual Pi Kappa Alpha Calendar, featuring nine lovely girls from our own UMR campus, will be distributed next Tuesday and Wednesday, September 7th and 8th. Approximately 2000 calendars will be given away free on campus on a first-come, first-served basis.

Steve Penberthy, calendar chairman, said that overall this year's calendar is an improved effort over last year. The calendar is a completely non-profit project paid for by Rolla businesses. The idea for the first calendar came from other Pi Kappa Alpha chapters, who put out campus calendars all over the country.

Peter Pineiro, a freelance photographer, took the pictures for this year's calendar which features 8 girls from the UMR campus and one "dream girl" from Pi Kappa Alpha's little sister organization. The cover girl for this year's calendar is Laura Barthel, a student at the University of Missouri-Columbia. Laura was Miss Teen Missouri in 1980 and was 3rd runner-up in the Miss Missouri pageant this year.

Robert Van Camp, who is chairman of the committee for next year's calendar, says the committee has already started work on next

year's calendar. There is much work involved and so the process is started a year in advance. The committee gets contracts for ads from local businesses. When enough ads are sold to pay for the printing and photography costs, then the search for the calendar girls is begun.

Likely candidates from all over campus are asked if they would like to be a calendar girl. Preliminary shots are taken and the girls

are interviewed to narrow it down to the final nine.

Although the committee runs on a very tight budget, they will continue to give the calendars away free as long as the advertising will support it. Without the advertisers the calendar would not be possible. So be on the lookout for the calendars next Tuesday & Wednesday, because they will go fast! And UMR girls watch out for the Pikes searching for next year's calendar girls.

## On The Loose for the

# Great Outdoorsman!

By SUZANNE ORRELL

On The Loose has it all for the great outdoorsman. The UMR Student Union Board Outdoor Recreation Committee operates this recreational equipment rental service at a minimal cost. This service is limited to UMR students only and functions on a "first come, first serve" basis.

With the popularity of outdoor activity on the rise, On The Loose has the equipment for your needs. For those who like to float, Grumann and ABS canoes plus paddles are available. If transporting canoes is a problem, car top carriers are obtainable. Life jackets

and boat cushions may also be rented to make your float more enjoyable. Backpacking and camping equipment are there for your rental also. Two and four person Eureka Timberline

tents and Coleman sleeping bags plus fanny packs, gear bags, backpacks and frames are available. Mess kits and cook kits may also be rented to help you prepare your

food along the trail or at the campsite. Spelunkers will appreciate the opportunity to rent Nite Lite bump caps with lights for caving. For

those of you who can't make it to Colorado for a ski trip, cross country skis, boots, poles and bindings may be rented for your winter recreation. To complete any of the above mentioned excursions, coolers, canteens and compasses are attainable.

On The Loose is located at T-26 State St. across from the power plant or next door to the UMR infirmary. Hours of operation and a compact list of equipment available are displayed in a handy clip 'n' save schedule in this edition of the Miner. For more information and a rundown on rentals, call On The Loose at 341-4908 during office hours or the program office at 341-4220.

Freshmen ain't that bad.

An Attentive Person

Jennifer of (B) Oliver,

I wish to thank you for the elegant way in which you prepared the marshmallows. Your company was quite pleasurable that day, although I would like to talk to you again sometime. If need be I can bring a dry shirt or a jacket.

Sincerely,  
REP-8 (an upper classman)

## Theta Tau Movie

# Stripes

By GREG WEHKING

The members of Theta Tau Omega will present STRIPES tonight, Thursday, at the Rolla Drive-In Theatre. Accompanying the feature film, which stars Bill Murray, will be three Three Stooges flicks.

This presentation is a benefit which is held annually to gain money for Theta Tau's Ugly Man drive. The drive itself is one which aids the underprivileged and needy groups within the Phelps County area.

Tickets for the event can be purchased from any Theta Tau member for the price of \$2. Tickets at the drive-in will be \$2.50. The movies will begin at dusk so come early to ensure good seating.

The feature film itself is a comical depiction of modern Army life and is on the line of many of the films Bill Murray has starred in in the past. So if you're looking for a good way to start off your Labor Day weekend, which will help benefit charities in the Rolla area, get out and see STRIPES!

**AIR FORCE**

## ATTENTION PHOTOGRAPHERS!

Are you a novice who just purchased a 35mm camera but don't know your rewind crank and an EI? Or an "old soldier" who goes through a 100 sheet pack of printing paper per week? Or maybe a yearbook photographer who is tired at hypertensive editors beating you up with deadlines? Well then join the UMR Photography Club at its first membership meeting of the semester at 7:30 p.m. on Sept. 9 in the Meramec Room of the University Center. We're the photographic organization on campus that is created for the sole purpose of furthering your photographic skills. You, as the individual, can do what you want to do. Everyone is welcome. Refreshments will be served after the meeting.

"Hey Guys, did you hear about Dallmeyer's ticket?"

442

FOR SALE: Honda CB360-T m/cycle, 1975 bought new in 1977. Pipes rusting otherwise immaculate condition. 8,000 miles, ready to run. Call Barney at 364-4289.

I've known you for two years now. In that time, we've laughed and cried and played and wined and dined and traveled together, but we've almost never touched each other. That was, and is, fine with me. I've been casually and professionally attracted to you for along while.

In the last half-year I've slowly and steadily become very emotionally attracted to you. Maybe the feeling is mutual, or maybe we could never work out. I'd be willing to take a chance, and I hope to tell you that personally before you go away in May. I'd like to be on your list of potential spouses.

U.U.S.

FOR SALE: Weights of York Olympic quality. Other accessories also available. For more information contact the UMR Athletic Dept. or call 364-0940. Ask for Merle.

Happy Birthday Brian.

Joe, Jim, Charles, Ryan and Spido

Mark your calendars now! Independents' weekend is Sept. 9, 10 and 11. Get ready to party!

# Party Line

The Missouri Miner will print free of charge any party announcement for campus organizations which are submitted before 9:00 p.m. Monday at the Miner box in the Rolla Building. Announcements should be submitted a week before. Hand in announcement in paragraph form with complete sentences (Read: no flyers). We cannot print prices for alcoholic beverages.

## PHI KAP'S PRE-LABOR DAY PARTY

# St. Pats Facts

By MIKE SIMMS

It's time to start getting psyched for St. Pat's '83. On Friday, Sept. 17, the St. Pat's Board will present SEPTEMBERFEST '82 from 1-5 p.m. at Rolla Lions Club Park. This event is always the highlight of the semester and this year's fifth annual affair promises to be no different. As always plenty of your favorite beverage will be available. Buttons can be purchased from any

board rep at the Hockey Puck for \$2.50. They will be \$3 at the door so buy now and save. Why wait until March? There are a mere 196 days left until the 75th Annual Best Ever St. Pat's. Get psyched!

Entries are now being accepted for the St. Pat's '83 Sweatshirt Design Contest. All entries should be made on 8 1/2 x 11 paper and should incorporate "St. Pat's," "1983" and "UMR" in some

way. Prizes will be awarded as follows:

- First — \$40
- Second — \$25
- Third — \$15

We're heading for the 75th Best Ever, so create your designs accordingly. Be sure to get your design in to any board rep before the Sept. 8 deadline.

## DID YOU KNOW?

It has been said St. Patrick drove the snakes out of Ireland. According to some

authorities this legend arose from the fact that the Druids had a form of snake worship. By gradually obliterating the Druids' power, Ireland's patron saint "drove the snakes from Ireland." During his lifetime, the patron saint of engineers baptized 12,000 people and founded more than 300 churches.

Born in Scotland around 387 A.D., St. Patrick was kidnapped at the age of 16 and sold as a slave to tend

sheep in Ireland. About six years later he escaped to France where he studied religion and became a priest. Eventually, St. Patrick was made a bishop by Pope Celestine and was sent to Christianize Ireland.

He failed to convert the Irish King Leoghaire, but received permission to preach throughout the land. Using the shamrock symbolically to explain the holy trinity, St. Patrick was extremely successful at

converting the Irish to Christianity.

St. Patrick died March 17 at Armagh, and that date, not his birthday, is celebrated by Irishmen throughout the world. And so it was. ... But then, who asked?

# Co-op Interview Schedule

ignition systems and electronic voltage regulators.

## EMERSON ELECTRIC COMPANY

St. Louis, Mo.

Wishes to interview electrical engineers on Tuesday, Sept. 14. Will take resumes from engineering management, computer science, chemical engineers and applied math majors.

Emerson produces appliance components, consumer tools, residential construction and other consumer products. They are also involved in process control, energy-related products, international and government and defense business. More specifically, their Motor Division develops many types of motors. Some control the horizontal and vertical movement of 1,700 mirrors aimed at a solar collecting panel while another, the EDR (Emerson dust resistant) system, was especially developed for use in the desert.

## GENERAL ELECTRIC COMPANY

Jonesboro, Ark.

Wishes to interview electrical and mechanical engineers with a GPA of 3.0 or above. The interview date is Thursday, Sept. 16.

General Electric is one of the most diversified companies in the United States. Their products range from motor controls to patient monitoring systems; from television sets and turbines to sonar and space flight systems. More specifically, they produce computer-tomography whole-body scanners for more accurate medical diagnoses; quiet, smoke-free CF6 jet engines for commercial aircraft; marine steam and gas turbine ship-propulsion equipment, and also high-voltage DC transformers.

## ILLINOIS DEPARTMENT OF TRANSPORTATION

Springfield, Ill.

Will take resumes from civil engineers with a 2.5 GPA or above.

## NATIONAL STEEL CORP., GRANITE CITY STEEL DIVISION

Granite City, Ill.

Will interview electrical, mechanical and metallurgical engineers with a 2.7 GPA or above on Monday, Sept. 27.

Granite City Steel produces galvanized, color-coated roofing and siding, plus accessories such as rain goods, for metal buildings and barns. Also, it produces hot-rolled gages used for conversion into heavy walled structural and mechanical tubing. Also, it has developed, designed and constructed a new and different closed pushing control system for use with existing coke batteries.

## MCGRAW EDISON CO. BUSSMANN DIVISION

St. Louis, Mo.

Wishes to interview electrical engineers with a 2.0 GPA or above on Thursday, Sept. 23.

Bussman is involved in the

production of fuses, fuseholders and fuse accessories for the electrical, electronic and automotive industries.

## NASA LANGLEY RESEARCH CENTER

Hampton, Va.

Will accept resumes from aerospace and mechanical engineers with a 3.0 GPA or above.

from page 5

## 3D INTERNATIONAL

Houston, Texas,

New York, Seattle, Wash.

Will accept resumes from civil engineers.

Further information concerning the interview schedule or the above companies can be found at the Co-Op Office, Room 101, Buehler Building.

# Mess Up

from page 6

of shattering glass and crunch of rusted metal as he saw the door of the Ferrari open just before impact.

Joe slammed on the brakes and then put the Monterrey into reverse. He was backing up just as fast as he could to see if Scooter was all right. Just before he arrived, Scooter was climbing out of his car to pick up his door.

"Stop!!!!" Scooter yelled at the top of his lungs. Joe couldn't hear a word over the sound of his blaring stereo. Joe frantically swerved to miss Scooter and Scooter frantically dove to avoid the rapidly approaching ghetto cruiser. They met at the same point and all Joe heard was a yell and a thud.

Scooter lay limp in the road with a broken leg and more importantly, writers cramp. Scooter would never write again. Joe had saved the Miner 15 editions of lousy, semi-boring SPI articles.

Joe helped Scooter into the car and the two of them continued their trip to Rolla.

Wouldn't ya know it, another few miles and Joe was pulled over by the Highway Patrol for littering the highway with beer cans. On top of that Joe was also cited

for careless and imprudent (and dumb) driving, speeding, operating a car with expired plates and no windshield, not to mention no bumpers, fenders nor city sticker.

Joe was sentenced to 5 years at Meramec with parol eligibility after 2 years.

# COMMENTS

## Problems during registration

Editor's Note: The following letter was originally to be printed in last week's edition of the Miner. Unfortunately, due to a serious space limitation, it was unable to be published at that time. Hence, references to "last week" in the letter actually refer to the week of Aug. 16-20.

Dear Editor,

I am writing to the students, faculty and administration, of UMR to comment on a problem encountered by many students during registration last week. The problem was with who else but the SCHOOL (I mean the Department) OF ELECTRICAL ENGINEERING.

As survivors of registration will recall, during this process students go around to various departmental advisors to pick up a course card for each class they desire to enroll in. To make the acquisition of these cards as

simple as possible, all of the departmental advisors are in a large room on the second floor of the University Center, hence the students do not have to run all over campus as if they were on a scavenger hunt. At least this is the way it is suppose to work.

Unfortunately, during registration last week, the Electrical Engineering Department decided once again that it was a "privileged" department and that it could modify the registration process for anyone taking an EE course.

Instead of getting the appropriate course card at the EE table in the U-Center, a student desiring (or being forced) to take an EE course had to go across campus to the EE building to get the necessary course card. Hence, a student got his EE course cards in the EE building and all other course cards at the normal departmental advisor area. What a brilliant idea!

I can imagine registration next semester when all of the departments decide to do the same thing and have the students go to each building for registration. The campus will look like an insane asylum with students running from department to department in search of the elusive "open section" of a needed class.

To summarize, I would like to urge Chancellor Marchello and the rest of the administration to have the Electrical Engineering Department stripped of its privileged status and have the School of Engineering informed that there is more than one department in it. Otherwise, another special favor may be granted and UMR will really have the School of Electrical Engineering.

Student Number 49162

## Why not victory

By GEORGE S. BENSON

Exactly 20 years ago on the same day, June 12, 1961, two congressmen rose in the House of Representatives to propose Resolutions. Although neither was passed, each should have been.

Had their spirit been accepted and supported by the American people and reflected by the actions of the Congress, millions of the world's people would not now be enslaved, and perhaps all those then enslaved might now be free.

One of those congressmen was Rep. Pillion of New York who proposed a Joint Congressional Resolution which would recognize that a state of war exists between the forces of International Communism and the Free World in general and the United States in particular. said Pillion:

"Since the year 1919, this enemy has waged a total war upon all peoples, nations and societies of the Free World. It is a war of demoralization, disintegration, and total destruction. It is a relentless, incessant war. It is a war of indefinite duration — a war of orthodox and unorthodox methods, policies and strategies — a

war of conventional and unconventional weapons. It is a war of total enmity to which our enemies are irrevocably committed."

In addition to the recognition of the de facto war being waged against us, Pillion's Resolution was designed to "raise a standard to which free men everywhere can rally"; be a "guide for our domestic policies" so we can prosecute the war effectively, and provide "hope that by accepting the challenge which the enemy poses to civilization itself, we can someday usher in an era of genuine peace, and the fulfillment of the highest aspirations of mankind."

Whereas the Pillion resolution stressed recognition of the fact that we are engaged in a war for survival as a free nation among others of Western Civilization, House Joint Resolution 444 — The Victory Resolution proposed by Rep. Donald Bruce of Indiana called for a "declaration of will of the American people and purpose of their Government to achieve complete victory over the forces of the World Communist Movement."

Often when we turn to our historical heritage we can

find the wisdom to guide us through perplexing and difficult times. General George Washington

provided such guidance in his General Order to the Continental Army issued on July 2, 1776, when he said:

"The time is now near at hand which must probably determine whether Americans are to be free men or slaves; whether their houses and farms are to be pillaged and destroyed, and themselves consigned to a State of Wretchedness from which no human efforts will probably deliver them.

"The fate of unborn millions will now depend, under God, on the courage and conduct of this Army — our cruel and unrelenting enemy leaves us only the choice of brave resistance, or the most abject submission."

Washington could have written that in 1982 about the situation which faces every American today, rather than 206 years ago as Americans faced the British.

As John Ruskin, the 19th century British writer put it: "You may either win your peace or buy it; win it by resistance to evil; buy it by compromise with evil." We vote to win it by resistance to evil!

# VETERANS

Army ROTC has a lot going for it. For you it has even more.

Your military experience may serve as total credit for the ROTC Basic Course. That means, if credit is given, you can skip the freshman and sophomore years of ROTC.

In the advance course cadets receive up to \$1,000.00 living allowance each year. Instruction includes further leadership development, organization and management, tactics and administration.

Army ROTC is a good deal for anybody. It is even a better deal for veterans.

MISSOURI MINER

Thursday, Sept. 2, 1982

Page 11

## Miners Open Against Division IA Shockers

By JOHN GALT

The Miners open their 1982 football season against the Shockers of Wichita State University in Wichita, Kan.,

this Saturday night at 7:30. The Shockers are a member of the Missouri Valley Conference (MVC), Division IA, and have not had a winning season in 10 years.

For this season, Shocker head coach Willie Jeffries will place his hopes on the shoulders of senior quarterback Prince McJunkins, the 1981 MVC Offensive

Player-of-the-Year, and upon a defensive unit that Jeffries feels has improved over last season. How the Miners control the Shocker offensive and defensive lines will greatly influence the outcome of the game.

Both offensive and defensive lines of the Shockers are somewhat questionable as the season draws near. As Jeffries says, "Line play is really important. That's the key, and it's a bit of a question mark as we enter fall practice."

The Shockers lost three of five starting offensive linemen last year and hope to fill the positions with junior college transfers. The two returning linemen are recovering from spring injuries. The success of the Shocker offense will be partially determined by how well the juco players and the

veterans weld together to form a unit. The rest is up to Mr. McJunkins and his ability to get the ball to his experienced running backs, of which he is one, and receivers. Evidently, McJunkins has proven quite successful, as the Shocker offense was the best in the MVC in 1981, averaging 429 total yards and 236 points per game. That performance made them ninth in the nation in overall offense.

The Shocker defense has many returning veterans, and although it yielded the most yards and points per game in the MVC in 1981, the Shocker defense must be convincingly controlled if the Miners are to outscore the potent Shocker offense. The Shocker defensive line will be big, but their ability to perform when it counts is questionable. The greatest

depth, and perhaps strength, of the defense lies in the Shocker linebacking and defensive secondary. All four linebacking slots will be filled by veterans and so too will the three defensive secondary positions.

The Miners have worked this week to execute all phases of their game strategy with power and precision. This year's Miner club is very balanced offensively and defensively, and the special teams also are ready to contribute. The Miners can come away with win No. 1 of the 1982 season by controlling the play at the line of scrimmage with heads-up, hard-nosed football.

The Miners will be departing from Jackling Fieldhouse at 8 a.m. this Friday morning. Get out and wish 'em luck.

The Miner defense stops a Bearcat runner in last year's Homecoming game.

## Kickers Edge Alumni

By PAUL THOMAS

The UMR varsity soccer team hosted a collection of alumni Saturday night at the UMR Soccer Complex. The final was a 3-1 victory for the varsity. Its goals were scored by Brian Dickerson, Steve McVey and Andy Carpenter. The lone alumni tally came on a beautiful shot by Larry Oliver.

This, however, is just the facts of the game itself. The time purpose of the game was to give the alumni a chance to play on the new soccer field under the lights and to showcase the school team to the alumni, the

student body and the people of Rolla. The varsity moved the ball very well and the alumni side showed many fine moments of the old form.

The 1982 Soccer Miners are headed into their toughest schedule ever. "We don't have an easy game on the schedule," says Coach Paul McNally. This may be of benefit to the team so as to

keep their play sharp. Leading the team into this season will be its captain — Tom Kinney. Tom, along with others, are MIAA All-Conference hopefuls. UMR finished second to UMSL last season. UMR lost to UMSL 2-1 and won against

page 13**

## Women Now Varsity

By NANCY REITER

UMR now boasts two varsity soccer programs. This news follows the transition of the women's soccer team from a club activity to a varsity sport. Women's soccer joins the women's cross country, basketball, softball and tennis teams in becoming a part of the National Collegiate Athletic Association. Participation in the NCAA program provides the opportunity of post-season competition to all women's athletics at UMR.

At this stage in the development of the new soccer program it is difficult to make any long-term projections. Coach Paul McNally, however, is optimistic about the future of women's soccer. He predicts that within the next five years, women's programs in the Midwest will become comparable to men's in quality and quantity.

Currently at UMR, McNally coaches both soccer teams. He is proud to report that the women receive the same workouts, the same coaching and the same attention as their male counterparts. The sole inconsistency lies in the relatively small size of the women's schedule. The number of games will grow, in the future, with the number of teams in the area.

Of their opponents, the Lady Miners may expect the toughest competition from the University of Missouri-St. Louis and from Lindenwood College. Both teams were ranked nationally in the top 20 last year, and return with many of their starters. On the positive side, UMR shares with these two powerhouses the factor of St. Louis dominance, a surprising asset in the soccer community.

At Rolla, soccer as a women's sport faces more

than just the normal struggle of a new team. To this point, no women's sport at UMR has ever required such a large working roster. There are now 17 women out for the team. The goal for the roster is between 20 and 25 members, so it is by no means too late for women with an interest to try out. (More information is

# Lady Harriers Training For Opening Meets

By JASON ROBERTS

Women's distance running has finally gained acceptance on the UMR campus. With recent awareness directed toward women's athletics, especially in the area of distance running, UMR will stage its first women's cross-country schedule this

season. The program will be directed by Coach Sarah Preston. Ms. Preston coached women's track & field at Memphis State University and initiated a women's cross-country program at the University of Wyoming. At Wyoming, Ms. Preston coached a national qualifier and also hosted the NCAA regional qualifying

meet where some very talented runners including Mary Decker-Tabb competed. Ms. Preston is also the women's softball coach at UMR.

The women's team began practice on Tuesday, Aug. 24th and are currently running 50 to 60 miles per week in preparation for their Sept. 4th opening meet with

Westminster. Commenting on the caliber of her team Coach Preston states, "I am very encouraged and pleased with my top runners right now. They seem to be in fairly good shape, although most of these girls haven't had a lot of speed work yet. I think that by the end of the season we will be a very competitive team."

Running for the team this year will be: Jan Hierholtzer, currently the #1 runner from Florissant, Mo.; Karen Penney, #2 runner battling for the top spot from Creve Coeur, Mo.; Leta Judd from Ballwin, Mo.; Gail Dabney; Jill Cameron, Chris Morian, Liz Nolan and Jennifer Scurlock.

The Lady Miners will compete in the MIAA conference and will follow the same schedule as the men's cross-country team. The women's races will be either 5 kilometers (3.1 miles) or 3

## MULTI PURPOSE BUILDING 1982-83 TIME SCHEDULE

By GREG WEHKING

The Gale Bullman Multi-Purpose Building, located at 10th and Bishop streets, is open to all students and faculty at the following times. Students are encouraged to use the facilities which the Multi-Purpose Building has to offer. Some of these include basketball courts, racquetball courts, weight lifting room, swimming pool and a wrestling room. The newest addition is a new weight lifting room which should be open soon. Equipment may be checked out at the equipment room with a UMR student I.D. card.

### GALE BULLMAN MULTI-PURPOSE BUILDING SCHEDULE FALL AND SPRING SEMESTERS

#### MONDAY-FRIDAY

8 a.m.-11:30 a.m. — Free play for all students (equipment room opens at 9 a.m.).

11:30 a.m.-1 p.m. — All facilities reserved for faculty fitness program.

1 p.m.-3:30 p.m. — Free play for all students.

3:30 p.m.-7:30 p.m. — Gym floor reserved for varsity basketball practice (when in season). All other facilities open to students.

7:30 p.m.-9:45 p.m. — Intramural sports and free play for all students. (Exception: home varsity basketball games).

#### FRIDAY NIGHT

6:30 p.m.-9:45 p.m. — Co-op with faculty families and students. Floor closed until 7:30 p.m.

#### SATURDAY

10 a.m.-7:45 p.m. — Except during varsity basketball games (gym closes at 3 p.m. and other facilities at 5 p.m.). For varsity home football games, building will open at 10 a.m., close at noon and reopen after game.

#### SUNDAY

(Aug. 20-Nov. 3)

1 p.m.-4:45 p.m.

(Nov. 3-May 8)

1 p.m.-7:45 p.m.

#### POOL

#### MONDAY-FRIDAY

(August-March)

11:30 a.m.-3:30 p.m. — Student and faculty swimming.

3:30 p.m.-7 p.m. — Varsity practice (in season).

7 p.m.-9:30 p.m. — Student and faculty swimming (except Friday — faculty family).

(April and May)

11:30 a.m.-5 p.m. — Student and faculty swimming.

7 p.m.-9:30 p.m. — Student and faculty swimming (except Friday — faculty family).

#### SATURDAY

Noon-7:45 p.m. — Student and faculty swimming.

#### SUNDAY

(Aug. 20-Nov. 3)

1 p.m.-4:45 p.m. — Student and faculty swimming.

(Nov. 3-May 8)

1 p.m.-7:45 p.m. — Student and faculty swimming.

POOL CLOSED when school is not in season, for home football, basketball and swimming contests.

SMOKING permitted ONLY in main lobby on floor and in office area on ground floor (no smoking in locker area or gym floor).

BE A BIG WHEEL  
ON CAMPUS!  
Join The Revlon FLEX-RAMPAGE RALLY!  
WIN ONE OF 50 DODGE RAMPAGES.

Get Rolling!  
September 18th is  
the last day to enter!

The Revlon Flex Rampage-Rally  
\$750,000 in prizes!

Now Flex...the fabulous Instant Conditioner and Shampoo...invites you to be a big wheel on campus! Enter the Flex-Rampage Rally Sweepstakes! It's easy...and you may win a 1983 Rampage Sport, Dodge's personal size pickup. The rally is a Sports Car Club of America Solo II Skill Rally. If you win you'll be at the wheel of your own Rampage. Or win one of hundreds of other prizes.

Go to your participating Flex retailer and pick up an entry blank. Just fill it out and take it to your participating Dodge dealer.

If your name is drawn you'll get \$50 cash, a new Rampage on loan to drive to the Flex-Rampage Rally in your area and a year's supply of Flex Shampoo and Conditioner.

# Athlete Credits Versatility

By LARRY TIPTON

At the first glance, Rich Henry does not look like an Intramural Athlete-of-the-Year. Although he is by no means out of shape, this tall, lean senior in civil engineering doesn't look like your typical jock.

Versatility, it seems, is Rich's secret. Of about 18 possible sports, he participated in 11 of these. A factor in this heavy participation may be the awareness of the sports Rich gained because of his position as intramural manager of Pi Kappa Alpha.

Rich's best finishes came in racquet sports. "Those are the ones I'm best at," he

said. In racquetball he claimed his third straight singles championship. The handball singles title also went to him, as did half of the badminton doubles trophy.

Rich's talents are by no means limited to those minor sports. He was a receiver on the Pikes' flag football team, and (in his own words) "tried to be an all-around player in volleyball."

Another of Rich's achievements was in basketball. He led the Pikes, and the rest of the league, in points per game, averaging over 18.

In softball, Rich, playing just about anywhere, batted

around .600 and had an on-base average of more than 75 percent.

Other sports he participated in were billiards, swimming, table tennis and track and field.

Some people might wonder how Rich managed to stay in school and spend so much time on intramurals. He said, however, "They don't take up that much time. I practice after studying ... in my free time." Living right across from the Gale Bullman Multi-Purpose Building may also have something to do with it.

Is Rich the typical gladiator on the field? Well, his philosophy is "intramurals are mainly for

fun, but the ultimate goal for any athlete is to win."

All that time spent on intramurals has paid off (literally) for Rich, as he was given the Burr Van Nostrend Athletic Award (a monetary award) at the M-Club Awards Banquet last spring.

The female Athlete-of-the-Year was Sue Robbins of RHA. See the next issue for her story.

IM NOTES: Flag and powder puff football started Tuesday. Golf entries must be turned in by Sept. 8. The tournament starts Sept. 12. Tennis and racquetball entries are due Sept. 15 and play starts Sept. 21.

Rich Henry — Intramural Athlete-of-the-Year.

NEMS and SEMO. This year, a stronger UMR and a much charged UMSL will no doubt fight for the MIAA championship again. They meet late in the season, Oct. 22, in St. Louis.

The Soccer Miners attracted six prep players to sign grants-in-aid to attend UMR. They are goalie Bill

Cowie from Vianney (1981 Missouri State Champs); midfielders Steve McVey from McCluer North, Jeff Smith from CBC; Andy Carpenter from DeSmet and Drew Wilson from Belleville East, and defender Mike Scott from Mehlville. All but Wilson are from St. Louis.

Admission to UMR

students to all home games is FREE upon display of a valid UMR ID. The price is right to come out in force in support of a very exciting

1982 team.  
TILL NEXT TIME:  
Sat., Sept. 4 vs Wash. U. at Francis Field, St. Louis 1:00 p.m.

## Varsity from page 11

available from Coach McNally in the athletic department.)

The team emphasis this year at UMR is on transition. Coach McNally was pleasantly surprised with the quality of last year's club players, and with the foundation of skills and teamwork provided by the club. Still, McNally notes, "The transition from club to varsity is awesome, but they are making the adjustment well." Some of the key returning club players are seniors Pauli Fitzgerald, a forward, and Cari Vitale, at midfield, and sophomores Kelly Holtgrove, also a midfielder, and Eve Watkins, in the backfield. Joining these veterans this year will be recruits: freshman goalkeeper Lisa Frumhoff, from University City High School; sophomore back Chris Waecherle, from Fontbonne College, and junior midfielder Susan Breeden, from SMS. Freshman Jan Wilkerson, from Parkway Central also shows potential in the forward position.

As indicated by the positions recruited, the strength of the women's team is its defense. Coach McNally promises, however, that "we're not playing for ties." The team members are serious, dedicated athletes. They will be working to create scoring opportunities and playing to win.

McNally does not look to the win/loss column. He feels this will take time, and

looks to a more immediate purpose: "To incorporate the program into the athletic department and into the university as a whole."

Coyote howl-win a breakfast. 6 p.m. to 9 p.m. "Miners - Never Fear McDonald's has your favorite (Root) Beer."	<b>HULA HOOP NIGHT</b> 1 hoop-win a bag of fries. 3 hoops-win a burger. Senior Citizen, 1 hoop-win a breakfast. 6 p.m. to 9 p.m. Miners make Rolla look sunny We merchants Love You Not your Money. (Choke)	<b>GOLDEN ARCHES CLUB</b> Archie: (GA No. 110) "What's that Howling?" Bill: (GA No. 111) "A Timber Wolf." Archie: "But there aren't any Timber Wolves here." Bill: "That's what he's howling about!"	<b>DAVE'S BARBER SHOP</b> (Rolla's Clip Joint) Dave: "My wife doesn't understand me. Does your?" Lloyd: "I don't know, I've never heard her even mention your name."
<b>UMR MEAL PLAN</b> Him: "I'm sorry, I quite forgot your party the other evening." Louise Maggi: "Oh! Weren't you there?"	<b>SLOGAN NIGHT</b> There's more in the middle of an Egg McMuffin® than an egg in the middle of a muffin. Say it in 2 seconds-win a bag of fries. 6 p.m. to 9 p.m.	<b>LAUGH NIGHT</b> Laugh for 30 seconds-win a bag of fries. Laugh for a minute-win a burger. 6 p.m. to 9 p.m. "When you see Miners with that wise look, you know they own that precious Gold Book."	<b>BUBBLEGUM NIGHT</b> 1" bubble-win a bag of fries. 3" bubble-win a burger. 5" bubble-win a breakfast. 6 p.m. to 9 p.m. "If you need inspiration, eat a McRib™, our new sensation."	<b>HULA HOOP NIGHT</b> 1 hoop-win a bag of fries. 3 hoops-win a burger. Senior Citizen, 1 hoop-win a breakfast. 6 p.m. to 9 p.m. "Rich or Poor Short or Tall, Come to McDonald's You'll have a ball."	<b>Terry Harris:</b> (During Quarrel) "You talk like an idiot." Ivanna Harris: "I've got to talk so you'll understand me."	<b>George Montgomery</b> (Try- ing to get out of luncheon appointment) phoned Laura Powell: "I'm sick, I've got laryngitis." "Then why aren't you whispering?" asked Laura. George: "Why should I? It ain't no secret."
<b>UMR MEAL PLAN</b> Prof. Rodney Schoefer: "I won't begin today's lecture until the room settles down." Cleo Downs: (From the rear) "Go home and sleep it off, old chap."	<b>SLOGAN NIGHT</b> Choosey cheese choosers always say cheese please when they choose the cheese in the cheeseburgers at McDonald's. Say it in 2 seconds-win a bag of fries. 6 p.m. to 9 p.m.	<b>WHISTLER'S NIGHT</b> Wolf whistle-win a bag of fries. Whistle Dixie-win a burger. 6 p.m. to 9 p.m. "Now really, would Liz Borden have used that axe, if she had been exposed to Delicious Big Macs?"	<b>BUBBLE GUM NIGHT</b> 1" bubble-win a bag of fries. 3" bubble-win a burger. 5" bubble-win a breakfast. 6 p.m. to 9 p.m. "Our secret to success is our great crew - trained precisely to please you."	<b>HULA HOOP NIGHT</b> 1 hoop-win a bag of fries. 3 hoops-win a burger. Senior Citizen, 1 hoop-win a breakfast. 6 p.m. to 9 p.m. "A Friendly Welcome. A Howdy Do To make you Happy, We try to Please You."	<b>"You were going 100 miles per hour," reprimanded Judge Whitney Moore. "Weren't you afraid of hit- ting another car?" Betty Franz: "What? On the Sidewalk?"</b>	<b>Duncan Edmiston:</b> Margaret! How long must I wait for the half portion of duck I ordered? Margaret: (Oak Meadow's Famous Chef) "Till somebody orders the other half. We can't go out and kill half a duck."
<b>UMR MEAL PLAN</b> Mike Estey: "He claims to be related to you and says he can prove it." Bill Stoltz: "The man's a fool." Mike: "That may be a mere coincidence."	<b>SLOGAN NIGHT</b> "Two all beef patties, special sauce, lettuce, cheese, pickles, onions on a sesame seed bun." Say it in 2 seconds-win a bag of fries. 6 p.m. to 9 p.m.	<b>IMITATOR NIGHT</b> Imitate a movie star-win a bag of fries. Imitate an animal-win a burger. Im- itate a laughing hyena-win a breakfast. 6 p.m. to 9 p.m. "It's Baseball season and most losers pout, come to McDonald's where no one Strikes Out."	<b>BUBBLEGUM NIGHT</b> 1" bubble-win a bag of fries. 3" bubble-win a burger. 5" bubble-win a breakfast. 6 p.m. to 9 p.m. "To our Customers we vow to do this. Best Quality and Service for your Euphoria and Bliss!"	<b>HULA HOOP NIGHT</b> 1 hoop-win a bag of fries. 3 hoops-win a burger. Senior Citizen, 1 hoop-win a breakfast. 6 p.m. to 9 p.m. "Highway Travelers nowadays Find stopping at McDonald's Really Pays."	<b>Jill Fore:</b> "What is the crack of dawn?" Jeff Fore: "That's what mama gives papa when he comes in."	<b>Pat Derrick:</b> "Rick Weaver is so conceited." Leo Ziebert: "Yes, on his last birthday, he sent a telegram of congratulations to his mother."
<b>UMR MEAL PLAN</b> Prof. Ron Howell rapped on his desk and shouted: "Gentlemen - Order!" The entire class yelled "BEER!"	<b>CHANT NIGHT</b> "Big Mac", Filet O Fish®, Quarter Pounder®, French Fries®, Icy Coke®, Thick Shake®, Sundae and Apple Pie. Say it in 2 seconds-win a bag of fries.	<b>LIARS NIGHT</b> So-So Fib-win a burger. Classic Fib-win a breakfast. 6 p.m. to 9 p.m. "When E. F. Hutton talks, everyone listens. When people eat McRib™, everyone Glistens."	<b>TRICK NIGHT</b> Card Trick-Win a Bag of Fries Coin Trick-Win a Burger Make yourself disappear- Win a Breakfast 6 p.m. to 9 p.m. "Hey, Daddy! I wanna diamond ring, McRib™, Sandwich and everything."	<b>HULA HOOP NIGHT</b> 1 hoop-win a bag of fries. 3 hoops-win a burger. Senior Citizen, 1 hoop-win a breakfast. 6 p.m. to 9 p.m. "Rumor has it that Marcel Dibbs, heartily endorses McDonald's McRib™."	<b>BIRTHDAY PARTIES</b> We cater to all ages, No fuss! No muss!
