Air Force ROTC returns to UMR

By JENNIFER BARTON
Sixty-nine freshmen, sophomores and juniors are participating in the new Aerospace Studies (Air Force ROTC) program this year.

Colonel Lynn B. Ralston and Captain Bob Buck teach the classes. Colonel Ralston teaches the freshmen, who learn about the AF, its job, the major commands, their jobs and duties. He also teaches the sophomores, who learn about the history and heritage of aviation.

Captain Buck teaches the juniors, who learn about leadership and management

development. Next year, hopefully, there will be a new third teacher, since seniors will also be in the program. Seniors will learn about the national defense policy.

The first two years of the program are not obligatory. This means that the participant owes nothing to the Air Force.

After the sophomore year, students attend a summer camp. At this time they can get a good look at the AF and visit with junior officers. The AF also evaluates the students on leadership, management and how they

function as a team. The AF then recommends them for commission, and it's up to the student to decide and apply for a quota. The quota can be in any one of 206 different career choices including engineering, pilot training and navigation training. The contract is awarded on campus, for four years.

One of the benefits of this program is the scholarship awarded. "Nine of our people are here on scholarships," said Colonel Ralston. "The scholarship pays all fees, books and one hundred dollars a month

allowance."

Another benefit of this program is the flight instruction. All juniors receive two hours instruction free as orientation. All pilot candidates receive free pilot and ground training through solo flight. This is usually 13 to 15 hours, through a local pilot.

Col. Ralston stated that Aerospace Studies is an "academic program in pursuit of the student's professional vocational choice." He feels that students should look into this program because "the first two years are non-obligatory and one should explore every available avenue, because

education is the key to your future.

"One shouldn't just rule out the military... the AF is extremely technical and extremely sophisticated.

"When you get out of the AF, you already have a four year resume and have used your degree.

Visiting professors to give

Technical lectures

SOURCE: OPI

Nobel prize winner, Arthur L. Schawlow, co-inventor of the laser, will be visiting professor of physics at UMR Sept. 23-28.

Dr. Schawlow, who is Jackson & Wood Professor of Physics at Stanford University, and Charles H. Townes invented the laser in 1958 and he shared the Nobel Prize in physics in 1981 for his contributions to the development of laser spectroscopy.

During his stay on the Rolla campus, Dr. Schawlow will present a series of popular and professional public lectures on laser technology and laser spectroscopy.

Popular lectures are scheduled for Friday, Sept. 24, and Monday, Sept. 27, and professional lectures will be presented Thursday, Sept. 23, and Tuesday, Sept. 28. All are at 4 p.m. in Room 104 Physics, except the Tuesday lecture which will be at 2 p.m. in the Fuller Room, Physics. An informal "Lasers on the Lawn" session is set for Saturday, Sept. 25, a picnic at Maramec Spring Park.

Dr. Schawlow's research has been in the fields of optical and microwave spectroscopy, nuclear quadrupole resonance,

superconductivity and lasers. With C. H. Townes, he is co-author of a book, "Microwave Spectroscopy," and of the first paper describing optical masers, which are now called lasers. For the work, Schawlow and Townes have been awarded the Stuart Ballantine Medal by the Franklin Institute (1962) and the Thomas Young Medal and prize by the Physical Society and Institute of Physics (1963). Schawlow was also awarded the Morris N. Liebmann Memorial Prize by the Institute of Electrical and Electronics Engineers (1964). He has received many other awards and honors, including the third Marconi International Fellowship in 1977, presented in Stockholm by the King of Sweden.

The Nobelist has appeared on a number of television programs, including the 21st Century with Walter Cronkite, the Experiment Series with Don Herbert, PBS, and in films for Canadian and British TV networks.

Dr. Frank Garner of the Hanford Engineering Development Laboratory, Richland, Wash., will be a visiting professor of nuclear engineering at UMR, Sept. 13-17.

During his stay on cam-

pus, Garner will present several seminars and meet with UMR faculty members and students. His seminar schedule is:

Monday, Sept. 13 — "Irradiation-Induced Dimensional Changes in Reactor Structural Alloys," 3:30 p.m., G-5 Humanities-Social Sciences.

Thursday, Sept. 16 — "The Embrittlement of Metals and Alloys in Irradiation Environments," 4 p.m., 227 Fulton Hall.

Both seminars are free and open to the public.

Garner received his Ph.D. in nuclear engineering from the University of Virginia in 1969. At Hanford Engineering Development Laboratory, which is operated by the Westinghouse Hanford Company, he has had the responsibility of developing the design parameters for both fusion and breeder reactor materials.

Before joining Westinghouse, he worked on several defense- and space-related nuclear rocket projects at the Piccattiny Arsenal in New Jersey and the Los Alamos Scientific Laboratory in New Mexico.

His primary areas of in-

MSM-UMR Alumni Grants

SOURCE: OPI

Applications are now being accepted for MSM-UMR Alumni Association Educational Assistant Grants. The grants provide funding for undergraduates working on innovative projects with educational value (usually research) under the direct supervision of a faculty member.

Professor Robert V. Wolf, member of the committee which approves the grants, explains that this program is designed to support non-routine projects that aren't normally funded through other university means. "The grants are awarded on a basis of the educational value of the research or work being done," Wolf says. "And the support provided is strictly in the form of wages for students.

"Amounts paid to the student," he continued, "start at the minimum wage rate and are increased relative to experience, age,

time spent with the project and how much responsibility the student assumes for the project."

During the 1981-82 academic year, the MSM-UMR Alumni Association funded about 15 projects supplying more than \$10,000 in financial support for students.

Examples of projects funded include: 1) research conducted by Kathryn Busher, senior in psychology, working under the supervision of Dr. Nancy Marlin on "Contextual Associations in Conditional Fear Responses in Laboratory Rats." Kathryn's paper on this research won a first-place award in the Missouri Academy of Science competition. 2) research by Kurt Hilsabeck, senior in electrical engineering, reviewed radar modeling techniques and applications of electromagnetic principles to design a computer program for determining the

backscatter characteristics of various types of radar targets. His work was directed by Dr. Gordon Carlson. 3) Cynthia Knapstein, a junior in chemical engineering, worked with Dr. James Bogan helping prepare "Sparks of Fire" for publication. This anthology of works inspired by William Blake has since been published in book form. 4) Ramona Venable, a senior in ceramic engineering, investigated the glass formation characteristics of potentially lower melting point glass-forming materials under the direction of Dr. Delbert E. Day.

Students or faculty members interested in seeking an Educational Assistant grant may obtain application forms from the MSM-UMR Alumni Association Office, 101 Harris Hall. Applications and project proposal information should be completed and returned to the Alumni Office by Sept. 20.

City regulations

By HERALEEN
SPRENGER

With the arrival of some 7,000 students to Rolla at the beginning of the fall semester, one might think things get especially hectic for the Rolla Municipal Police Department this time of year.

According to Chief of Police Stan Spadoni, although the influx does have an impact on their workload and does cause occasional problems, overall

things don't get too bad. "UMR is a fine school with a fine group of students," he said.

Chief Spadoni explained that the department has two major purposes — to implement local, state and federal laws and to give service.

"We're an enforcement agency. We don't write the laws. But we want to enforce them as professionally and fairly as we can," he said.

Some regulations which he

thought students should be aware of include traffic and vehicle registration laws.

"If you own a car or if your name's on the title, you must get a city sticker from City Hall," Chief Spadoni pointed out. The fee depends on the size of the car but is approximately \$3.50 per year. Penalties can include a fine and court costs. Vehicles parking on public streets

ROLLAMO Will be available for pickup from 9:30 to 4:30; Mon.- Wed., Sept. 13-15 in the basement of the Rolla Building

CALENDAR OF EVENTS

Editor's Note: If your organization is having a meeting, turn in details to the MINER office in the Rolla Building before Monday at 9 p.m. and we will list it in the Activities Section of the paper. No articles submitted will be printed unless written in complete sentences with proper grammar. No schedule or flyers will be rewritten and published by the staff for the Activities Section.

If your organization is sponsoring a campus-wide event for the benefit of charity, get us details before Monday at 9:00 p.m. We will advertise the event free of charge in this space.

The MINER reserves the right to edit any notices or ads for this page before publication.

Thursday

INTERCOLLEGIATE KNIGHTS

The Osage Chapter of the Intercollegiate Knights will host a Rush Smoker this Thursday at 7 p.m. Anyone with a 2.5 GPA is welcome to the smoker at Kappa Alpha fraternity, #1 Fraternity Row.

CEA

The Cooperative Education Association (CEA) will hold its first meeting Thursday, Sept. 9, at 7 p.m. in the Ozark Room. All co-op students and anyone interested in the co-op program are invited to attend.

M-CLUB

There will be a special meeting Thursday, Sept. 9, in Room 114 CE at 7 p.m. All members are encouraged to attend!

PHI ETA SIGMA

The UMR chapter of Phi Eta Sigma national honor fraternity will hold its first meeting of the semester, Thursday, Sept. 9, at 7 p.m. in Room G-5 H-SS. All active members are encouraged to attend.

UMR PHOTO CLUB

UMR Photo Club's first meeting will be held Sept. 9 at 7:30 p.m. in the Meramec Room of the University Center.

UMR I.D. CARDS

For the remainder of the fall semester, UMR I.D. cards will be made from 1-3 p.m. on Sept. 9 and 23, Oct. 7 and 21, Nov. 4 and 18 and Dec. 2, 16 and 30 in Building T-10.

UMR FILM SERIES

"Once Upon a Time in the West," starring Henry Fonda and Charles Bronson, 7:30 p.m., Miles Auditorium, Mechanical Engineering. Season ticket or \$2.50 at the door.

SUMMER PLACEMENT REGISTRATION

There will be a placement registration information session Sept. 9 at 7 p.m. in Centennial Hall.

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri at Rolla. It is published weekly at Rolla, Missouri. The Missouri Miner features activities of the student and faculty of UMR.

Saturday

COUNCIL OF GRADUATE STUDENTS

All graduate students are invited to attend a picnic on Saturday afternoon, Sept. 11. Games, food and beverages will be supplied. Watch out for notices in your department in regard to details of where and when. Graduates, this is your organization, be sure to come along.

AICHE OUTING

The American Institute of Chemical Engineers outing will be Sept. 11, starting at noon at Lions Club Park, Pavilion 2. All chemical engineering students are invited.

THETA TAU OMEGA

There will be a smoker at 2:00 p.m. at Lambda Chi for all who wish to interview with Theta Tau. Applications are available at the Miner Canteen and will be due at that time.

Tuesday

SOUTHWINDS

The first meeting of Southwinds will be held Tuesday, Sept. 14, at 7 p.m. in Room G-4 of the H-SS. All are welcome!

W.T. SCHRENK CHEMICAL SOCIETY

There will be a meeting of the W.T. Schrenk Chemical Society on Tuesday, Sept. 14, at 7 p.m. in Room 125 of the chemistry building. The featured speaker will be David Ihms of the chemistry department, talking about "Protective Marine Coatings." Elections will also be held. Refreshments will be provided, and everyone is invited to attend.

Wednesday

MSM SPELUNKERS CLUB

The MSM Spelunkers Club meets every Wednesday at 6:15 p.m. in 305 Norwood. Sept. 15 there will be a new member meeting with a slide show by Dave Hoffman of the Missouri Geological Survey. Refreshments!

AICHE MIXER

The American Institute of Chemical Engineers Mixer will be held Sept. 15 at 6 p.m. in Centennial Hall. All chemical engineering students are invited. Memberships will be sold.

Noday

COMPUTER CAREER DAY

On Sept. 23, Upsilon Pi Epsilon (UMR's computer science honorary) will hold a career day for computer related employment. See next week's Miner for more details.

CAR REGISTRATION STICKERS

Rolla city car registration stickers will be sold outside the University Book Store on Thursday, Sept. 16, from 8 a.m.-4:30 p.m. All students operating a vehicle in Rolla that is registered in their name are required by law to purchase a sticker. The cost is \$1.75 for the remainder of 1982. If you cannot make it at this time, you must purchase your sticker at Rolla City Hall.

Campus Enrollment

On campus enrollment this fall at UMR unofficially exceeded 7,000 for the first time in the school's history with 7,020 students enrolled after one week of classes.

That figure represents an increase of 174 students from the 6,846 who were enrolled at the same time last year. Classes for the 1982 fall semester at UMR began Monday, Aug. 23.

Unofficially, there were 4,551 students enrolled in the School of Engineering, for an increase of 100 from last year; 1,293 in the College of Arts & Sciences, an increase of six, and 1,123 in the School of Mines and Metallurgy, an increase of 66.

Unofficial figures for the departments showed electrical engineering as the largest department with 1,191 students, while mechanical engineering was second with 1,107 and computer science third with 725.

There were 1,750 freshmen, 1,376 sophomores, 1,427

Rolla city regulations

must be registered and operational with valid tags. Blocking alleys and private driveways runs the risk of not only a citation, but also getting towed.

Assistant Chief of Police Stan Weyrauch noted that those unfamiliar to the town should pay special attention to the one-way streets and to the various two-way and four-way stop signs throughout town.

Cyclists must also obey

traffic codes — including riding on the right hand side of the road, obeying stop lights, yielding to pedestrians, not riding on business-district sidewalks (though they can ride on residential-area sidewalks) and having proper lighting for night-riding (front headlight and back reflector or headlight).

Another type of required registration Chief Spadoni explained is that for pets.

Animal licenses must be purchased yearly and can be obtained at City Hall. Dogs and cats must have the required shots from a veterinarian. Also, pets should wear collars and may not run at-large.

One more problem area is that of loud noise. If the department gets a complaint, they advise the people in question to hold it down. If they have to return, they hand out a citation.

Having open intoxicants (cans, mugs, etc.) in public is also a violation.

To aid the department in protecting students and the community Chief Spadoni asked that "if you notice anything unusual — prowling around cars, etc. — watch for a moment, see what's happening and give us a call."

He also suggested precautions such as locking cars and marking all

valuables (including books). Engraving machines can be borrowed from the department.

Though they do not have many sexual offenses reported, Assistant Chief Weyrauch gave a special warning to the ladies. "We're not too naive to know it doesn't happen. Walk in groups of two or three. Let someone know where you're going. And if anybody

harasses you, we would appreciate being called on."

Chief Spadoni stressed that these laws, and the many others, are applicable to every Rolla resident, not just students. "We don't pick out groups," he said. "We have an open door policy. If anyone has a problem we can help with, come on down and talk to us. We don't have all the answers. But we'll be glad to try and help."

from page 1

Visiting professors

terest are radiation transport and radiation effects in materials for space flights, nuclear warheads and fission and fusion reactors.

Dr. Roger Easson, associate professor of English at Memphis State University, will be a visiting professor of music/art at UMR Sept. 13-17.

During his stay on campus, Easson will meet with several classes, participate in a "William Blake at UMR" program, present a lecture on writing and meet informally with students and faculty.

Easson's schedule for his week at UMR is:

Tuesday, Sept. 14 — "Blake at UMR," Blake songs and slide show with guitarist and UMR alumnus Tom Nichols, 7:30 p.m., G-5 Humanities-Social Sciences.

Wednesday, Sept. 15 — "Blake at UMR," Easson will respond to Dr. Fred Whitehead's lecture, "Workingman's Blake: The Labors of Los," 3:30 p.m., Meramec Room, University Center-East. Whitehead is an English instructor at Longview Community College in Kansas City and editor of Quindar magazine.

Thursday, Sept. 16 — "Blake at UMR," lecture, "How to Design a Mechanical Man," 3:30 p.m., G-5 Humanities-Social Sciences.

Friday, Sept. 17 — Lecture, "Composition and the New Jersey Writing Project," 3:30 p.m., G-5

Humanities-Social Sciences.

In addition, there will be a reception for Easson and a book party for "Sparks of Fire," which was edited by Jim Bogan, UMR assistant professor of art, and Fred Goss, senior lab research technician, UMR Center for Applied

Engineering Management, from 3:30-4:30 p.m. Monday, Sept. 13, in G-4 Humanities-Social Sciences.

Campus

from page 2

juniors and 1,859 seniors unofficially on campus. In addition, there unofficially were 398 master's candidates, 156 Ph.D. candidates and 54 special or post-baccalaureate students.

There were 5,581 men students and 1,439 women.

There also will be a Blake exhibit on display at UMR's Wilson Library from Sept. 13-16. All of the programs are free and open to the public.

Easson holds B.A. and M.A. degrees in English from Pittsburg State University and a Ph.D. from the University of Tulsa. He also studied at the University of London.

These figures do not include students in the cooperative training program who are working off-campus this semester, students at the UMR Engineering Center in St. Louis or those in other off-campus extension courses.

from page 1

He is the founder, editor and publisher of "Blake Studies," a journal devoted to the study of the poet, and the founder and executive

SUB's Hocus Pocus

By SUSANNE ORRELL

Are you fascinated by a rabbit coming out of a hat or by a human who has been sawed in half and then magically becomes whole again? If you are or even if you are not, David Willis will present a unique show of Hocus Pocus on Friday, Sept. 10 at 8 p.m. at the Cedar Street Center.

David Willis takes a refreshing approach to the art of magic. His show, marked by comic magic, is

packed with illusions, stand-up comedy, and a lot of audience participation.

With little disregard for the laws of nature, his slight-of-hand maneuvers can cause a card to rise from an audience member's hand. This and other tricks provide a wild array of delights that any audience will enjoy.

A major attraction in David's performance is the appearance of Sidney Skunk. This is a rare treat for all audiences since David is the world's only skunk impressionist. David has ap-

peared all across the country and is making a repeat performance here at UMR. With the ability to entertain onstage or close up, David Willis blends sparkling humor and clearer magic into a performance designed to win the heart of every audience. Don't miss David Willis, the comic magician. Friday, Sept. 10 at 8 p.m. at the Cedar Street Center. Admission is free and this performance is brought to you by the UMR Student Union Board Social Committee.

The latest fad,

The MTV blues

By MIKE STRODER

Recently our house acquired MTV. MTV is a wonderful service since it provides a small diversion for the boredom that is Rolla, but it has several drawbacks. First of all, it has several annoying ads. One more ad for "Greatest Hits of the 50's" and I may not be responsible for my actions. They also have an ad that proclaims them as "the world's greatest indoor sport." Really? I know I can think of at least one greater! But the major drawback is twofold: it is addictive and tends to warp your brains. I cite my roommate as an example, whom I will call Bob.

We watched MTV virtually day and night for the first few days, much like a child with a new toy. Also like a child with a new toy, we quickly tired of it. All that is except Bob. The first sign of trouble was when he turned to me while watching a New

Wave video and said, "Yeah, Mike, I think I'll form a New Wave band and call it Bobby Bourgeois and the Middle Class. We'll do a 36-minute version of Wango Tango." I recoiled in horror, not quite sure of how to handle the situation. "Right, Bob" I said while searching for some form of restraint. He said no more, so I hoped it was all over with. Unfortunately, worse things were to follow.

I woke up one morning to find Bob still watching MTV. He had painted a white stripe across his face and was singing, "It's the wave of the fu-ture... Antmu-sic!" When I returned from my classes, I found him dressed in a nuke suit playing air guitar to Devo's version of "Satisfaction."

"Bob," I said, "I fear that you have lost the last infinitesimal portion of your sanity."

He replied, "I love rock 'n' roll ... put another dime in

the jukebox baby."

"How many fingers am I holding up, Bob?"

"Roseanna-aa yea."

"Your pants are on fire, Bob."

"Vacation — all I ever wanted... vacation — had to get away."

Clearly this man was beyond conventional treatment. This called for desperate action. I soon hatched a plot to bring Bob back from the void and enlisted the help of some friends. We soon had Bob restrained with speakers several inches away from his ear. I held up a cassette. "Bob, do you know what we're going to do?"

"Freeze-frame!" he shouted.

"This tape contains 120 minutes of Barry Manilow in concert. We're going to play it through at full volume. When it's finished you won't be able to hear any form of music without throwing up."

A look of sheer terror

crossed his face as he realized the gravity of the situation. "Couldn't you just throw me in a vat of boiling tar instead?"

Fortunately, the cure worked. Bob doesn't watch MTV anymore. But I don't want to leave the impression that MTV is all bad. Those Devo videos are pretty entertaining. You know, it would be fun to form a New Wave band. Let's see ... I could change my name to Mike Monoxide. ...

This Saturday, TIKE is hosting its very first BERMUDA SHORTS PARTY. The fun starts at 8 p.m., so put a pair on, come on by and put one on!!

DANCE-WINE AND CHEESE PARTY

The brothers of Delta Sigma Phi and their little sisters, the Daughters of the Nile, cordially invite all interest ladies to a semi-formal dance-wine and cheese party to be held at Delta Sig Saturday, Sept. 11, at 8 p.m. For more information, to RSVP or to obtain an escort, give Chuck Weida a call at 364-4289.

HOMECOMING HOEDOWN

The annual Theta Tau Omega Homecoming Hoedown will take place on Friday Sept. 24, from 8 p.m.-1 a.m. at St. Pat's Gym. Tickets are available from Theta Tau members.

On the job

By BARB THOMAS

One of the first mistakes many students make when looking for a job is to think that they have plenty of time. Unfortunately, telling yourself that "I'll take care of it tomorrow" only adds up to a lot of wasted yesterdays. The longer you wait to start looking for a job the more difficult it becomes to get started, and "plenty of time" turns into no time at all.

Keep in mind that this isn't just any job. This is something that you should want to do for the rest of your life. This is a major step in your life and you should have enough time to

prepare for it and make the right decisions.

To get yourself started, write a rough draft of a resume. Also, think about and write down the things you want to do and what you want from a job. Write down a list of priorities. Get your thoughts in order about the factors that might influence what type of a job you would like.

Procrastination can be one of the job hunter's worst enemies but it can be overcome if one has the right attitude. The sooner you start the sooner all of those job offers will start coming in. You might even get to take your pick.

SCUBA certification courses

UMR is offering open water scuba and advanced open water scuba certification courses this fall.

The advanced course is for those who have P.A.D.I. Open Water Certificates or equivalent from other organizations. Presentation of certificates will be required of all students prior to the open water dives. The course will consist of 4 three-hour lectures from 5:30-9:30 p.m. in the Multi-Purpose Building classroom on September 18, 19, 25, and 26 plus 5 open water dives on October 2 and 3.

The open water dives, conducted at Jordan's Landing on Lake Norfolk, Arkansas will consist of: Natural Navigation; Underwater Distance Measuring; Compass Navigation; Search and Recovery; Limited Visibility; Night Dive; Deep Dive and Simulated Decompression.

Students are expected to furnish all their equipment including compass, timer, knife, pressure and depth gauges, dive light and wet suit. Text is furnished.

The fee for the ADVANCED OPEN WATER COURSE is \$125 for the classroom and instruction and the open water dives which is to be paid directly to the instructor on September 18. Registration is limited to the first 10 paid applicants.

The open water scuba certification program is open to all persons 12 years or older who are interested in learning SCUBA skills.

No previous SCUBA Certificates are required or expected, but students should be average or better swimmers. Upon successful completion of the course, students will receive OPEN WATER Certificates which not only qualifies them to use SCUBA but also permits them to buy or rent SCUBA equipment and have tanks filled anywhere in the world.

Instruction begins at 6:30 p.m. on Friday, September 17 in the classroom on the lower level of the Gale Bullman Multi-Purpose Building. Class dates are Sept. 17, 18, 19, 25 and 26 and open water dives on Oct. 2 and 3.

The instructors are Gary

Hailey and Bill Kratzer, OPEN WATER Diving Instructors and will be assisted by several Assistant Instructors.

Each class meeting will consist of 3 hours of instruction in the pool in the mornings and 3 hours in the classroom in the afternoons plus 3 hours class on Friday, Sept. 17. The course concludes with 5 supervised dives in open water at Jordan's Landing on Lake Norfolk, Arkansas on Saturday and Sunday following the pool sessions. The cost of the open-water dives is not included in the course fee. The cost of the Open Dives is \$75 and should be paid directly to The Dive Store prior to the dive and includes all equipment except mask, fins, and snorkel.

The instructor will furnish textbook and all equipment for the pool classes.

Those successfully completing all classes, the written examination and the open water dives will be awarded the Open Water Scuba certificate by the Professional Association of Diving Instructors (P.A.D.I.). A current

physical examination may be required (forms furnished).

The fee for the course is \$115 which includes the

textbook and all equipment. Registration is limited to the first 24 PAID applicants and cash or check must accompany application.

For further information, contact Bill Kratzer, Continuing Education, 111 E.R.L., UMR, Rolla, Mo. 65401. Phone (314) 341-4200.

St. Pat's Facts

On Friday, Sept. 17, the St. Pat's Board proudly presents SEPTEMBER FEST '82 from 1-5 p.m. at Rolla Lions Club Park.

This year's event will feature the rock and roll sounds of Rebob, who some of you might recognize from one of the St. Louis night clubs in which they appeared this summer. Buttons are currently available at the Hockey Puck for the paltry sum of \$2.50. There is a limited supply, so be sure to buy yours now. In these inflationary times there aren't many chances to quaff

unlimited amounts of your favorite brew and jam on good rock and roll music for only \$2.50. So why pass up

this excellent opportunity? For a guaranteed good time don't miss SEPTEMBER FEST '82.

Make Their Day.

Send The Preserves Jar or Salt Box Bouquet For Grandparents' Day.

Show them you remember, with the Preserves Jar or Salt Box Bouquet from Teleflora. Both bouquets come in beautiful porcelain containers with classic blue delft designs so they're delightful keepsake gifts.

Just call or visit our shop and you can send this bouquet almost anywhere in the U.S. Ask for the Preserves Jar or Salt Box Bouquet. Because with Teleflora, the flowers always come in something as pretty as the flowers themselves.

Stroh's WIN A PARTY ON US!

That's right! Fred Voss and Stroh Brewing Co. will provide an all expense paid party consisting of: 15 1/2 barrels of Stroh's and a live band.

Here's how to win:

- Have a Cerebral Palsy Fund raising event of your choice between now and November 30, 1982.
- Have your contribution check made payable to the Rolla Cerebral Palsy School. Bring the check by our office so that we can verify your donation.
- You present the contribution check to the Cerebral Palsy School.
- You may have as many fund raising events as you like.
- Winner will be announced December 1, 1982.
- Every cent of every dollar will remain right here to better the local Cerebral Palsy School.
- The college fraternity, organization, or sorority that contributes the largest amount to CP by November 30, 1982 wins the party! It's that easy!

If additional information is requested, please call Fred at 364-3676.

Counseling Center offers

Personal Resource Workshops

SOURCE: OPI

This fall, the Counseling Center staff is offering a variety of presentations including study skills, personal relationships, stress management, etc., as outreach activities through our Personal Resources Development Program. We actively encourage all students interested in one or more of these areas to attend, and all sessions are free of charge.

UMR provides counseling services for students because it recognizes each individual as a unique person whose full development involves issues for living, growing and learning that are not met solely in the classroom. Individual effectiveness requires the development of the whole person; vocationally, academically, personally, and interpersonally. Because of this wholistic view of human development, the counseling service is available to help students explore all dimensions of themselves as human beings. The Personal Resource Development Programs are designed to enhance skills for academic success and personal success.

The preparation of high-quality professionals in today's complicated world necessitates not only a rigorous undergraduate educational program but the development of a variety of personal and social skills. The Academic Survival workshops were developed to enhance the learning skills with which UMR students typically need assistance in order to successfully complete such a rigorous program.

Even though UMR graduates are actively recruited by industry for their technical abilities, some are reported to be not fully realizing their professional potential because of limitations in non-technical areas. These non-technical personal/social living skills have become increasingly

important for individuals in professional positions. Alumni and current students were surveyed to determine the particular topics in which they felt a need for additional non-technical professional skills. The Professional Skills workshops included in this series were developed to enhance those skills identified as needed to fully develop the human resources within the student body of UMR.

For additional information contact the Counseling and Testing Center in Room 106, Rolla Building or call 341-4211.

Restricted Groups *

Students who appear to have the ability to succeed at UMR but are lacking in personal and/or learning skills work together to improve their academic productivity. Topics include time management, effective study skills, test taking skills and stress management. Participation in these groups is by referral from an academic dean or adviser, with the approval of a counseling center staff member.

George C. Schowengerdt, Ph.D. — 8 consecutive Monday sessions — 3:30-4:30 p.m. Aug. 30, Sept. 13, 20, 27, Oct. 4, 11, 18 and 25.

Debra A. G. Robinson, Ph.D. — 8 consecutive Tuesday sessions — 1:30-

2:30 p.m. Aug. 31, Sept. 7, 14, 21, 28, Oct. 5, 12 and 19.

Stewart E. Cooper, Ph.D. — 8 consecutive Wednesday sessions — 1:30-2:30 p.m. Sept. 1, 8, 15, 22, 29, Oct. 6, 13 and 20.

Gene L. Van Matre, Ph.D. — 8 consecutive Thursday sessions — 3:30-4:30 p.m. Sept. 2, 9, 16, 23, 30, Oct. 7, 14 and 21.

Test Anxiety Workshops *
Tests are highly stressful for many students and may adversely affect their ability to perform as well as they might on an exam. These workshops will explore the causes, effects and management techniques for test anxiety.

Debra A. G. Robinson, Ph.D. — 3 consecutive Wednesday sessions — 2:30-3:30 p.m. Sept. 8, 15 and 22.

George C. Schowengerdt, Ph.D. — 3 consecutive Tuesday sessions — 3:30-4:30 p.m. Sept. 28, Oct. 5 and 12.

Stewart E. Cooper, Ph.D. — 3 consecutive Monday sessions — 1:30-2:30 p.m. Oct. 18, 25 and Nov. 1.

Gene L. Van Matre, Ph.D. — 3 consecutive Thursday sessions — 3:30-4:30 p.m. Nov. 11, 18 and Dec. 2.

*Limited enrollment.
Study skills. Presentation of an effective four-step study process and its psychological foundation. Presented 2 times.

Gene L. Van Matre, Ph.D. — Monday, Sept. 13 — 3:30-

4:30 p.m. Ozark Room — University Center-West. and again on

Tuesday, Oct. 5 — 3:30-4:30 p.m. Missouri Room — University Center-East. and again on

Wednesday, Nov. 10 — 3:30-4:30 p.m. Ozark Room — University Center-West.

Preregistration is not required.

Stress Management. The concept of psychological stress will be introduced and followed by discussion of its emotional, intellectual and physical side effects. The relationship of stress to disease and productivity will be illustrated along with information on personal stress management strategies.

George C. Schowengerdt, Ph.D. — Thursday, Nov. 11, 1982 — 3:30-4:30 p.m. Ozark Room — University Center-West.

Preregistration is not required.

Relaxation Training. * The ability to relax is a learned skill that can be improved with practice. These sessions will provide an opportunity for participants to experience several types of relaxation techniques which they can practice on their own. The stress management workshop will provide a helpful background for persons

wanting to improve their relaxation skills.

George C. Schowengerdt, Ph.D. — 3 consecutive Tuesday sessions — 3:30-

4:30 p.m. Nov. 16, 23 and 30. * Limited enrollment.

1982 Independents' queen candidates

*Karen
Anderson*

We, the members of Campus Club, are honored to present Miss Karen U. Anderson as our 1982 Independent queen candidate. Miss Anderson, a senior in computer science, hails from Hermitte, Mo. She belongs to ACM, UPE, Phi Eta Sigma and is vice president of KME. She enjoys traveling, boating and backpacking. We feel that Karen's vibrant personality and winning smile make her the ideal choice for Independents queen.

*Traci
Williams*

We, the members of RHA, proudly present Miss Traci Williams as our 1982 Independents Weekend queen candidate. Teresa is a freshman at UMR and is majoring in electrical engineering. Aside from her schoolwork, Traci enjoys meeting people and making friends. This quality, in addition to her beauty, makes her an excellent choice for Independents queen.

*Nancy
Winkler*

GDI is proud to announce Miss Nancy Winkler as its 1982 Independents queen candidate. Nancy, a freshman computer science major from St. Louis, is an active member on campus. When not participating in GDI and RHA activities, she serves as a photographer for the Miner or enjoys swimming, soccer and horseback riding. Her pretty smile and true independent spirit make her an excellent choice for queen.

*Teresa
Dvorsky*

Thomas Jefferson Hall Association proudly presents Miss Teresa Dvorsky as its candidate for Independents queen 1982. Teresa is from Arnold, Mo., and is a sophomore majoring in geological engineering. She currently serves as secretary of TJHA and is an active member of the social committee. One thing Teresa especially likes about UMR is the "friendly atmosphere." We feel that her friendliness, as well as her exceptional beauty, make her THE candidate for Independents queen.

*Barb
McClenahan*

I'm from St. Louis. Born on Oct. 20, 1963. In high school, I was a member of the Student Council. I was vice president of the National Honor Society my senior year. I participated in all the school musicals. I'm really interested in sports. I've played varsity volleyball, basketball and softball during high school. I also like to play tennis, ping-pong and swim. I like crocheting afghans and making rugs.

*Kathleen
Arb*

MHA proudly presents Miss Kathleen Arb as its Independents queen candidate. Kathy, a sophomore here at UMR, is an excellent choice for Independents queen candidate because of her charming personality and nice appearance. She enjoys Independent activities and likes to get involved. MHA feels Kathy would make a great Independents queen. We hope you agree.

Independents' week events

Tonight, tomorrow, and Saturday, the Independents Council invites everyone to join the fun at the 1982 Independents weekend celebration. You can be sure that this will be a great time.

The party starts tonight at the Rolla Drive-in. For only \$1, you can go and see

"Hollywood Nights" and some Stooges flicks. The movie, sponsored by TJHA, starts at dusk.

Tomorrow, what better way to spend a Friday night than with good friends and a good tune? MHA, RHA and TEC are hosting a street dance at 8:00 in front of the

Tech-Engine Club, across from the E.E. Building. Just follow your ears.!

Saturday, be at Lion's Club Park for "The Games", sponsored by G.D.I. Games of skill, such as Mushball, Tug-of-war, Keg Toss, Obstacle Course and Chug Checkers will be played

from 11:00 a.m. to 6:00 p.m. Join in and help your organization win the Participation Trophy, or just come out and watch. Also featured will be a dunking booth and an exhibition game by the UMR Rugby Team, which will follow the mushball tournament. And, of course, good food and

drink will be available.

But the party's not over yet! Saturday night at 8:00 p.m. Campus Club is hosting the Independents Queen Coronation and dance, where the Independent Queen of 1982 will be announced. Also, the game winners and participation

trophy winner will be named and prizes awarded.

The dance features the Manasa Galaxy Sound System and mixed refreshments will be available.

Remember, Independents' weekend starts tonight. Come on, declare your Independence and have a great time doing it.

The Kappa Delta sorority house at 1606 North Rolla Street rumored to have been condemned by the University.

University buys Kappa Delta house

By DAVID STANFIELD

Rolla, like all subcultures, has its own set of near-mythical heroes, such as Joe Miner and the St. Pat's Board. From these heroes comes Rolla's rich heritage of modern mythology. Epic adventures of the "Board" and Joe fighting with the God of Universities for their right to remain at UMR. These myths have a subclass, rumors. Rumors are damaging. Lately a myth has been circulated that will hence be called a rumor, for it is detrimental to all who

are involved. Like most myths, there is a victim and a villain. This rumor centers around a sorority, Kappa Delta, as the unfortunate victim, and the university, as the antagonist.

The rumor is that the university condemned Kappa Delta's house, located on the private street just south of the T.J. walkway. The university was said to have made an offer for the house way below market value and thus "stole" Kappa Delta's house. This was all supposed to have been done to build the new

underground walkway. Like all good rumors there needs to be a scandal, and so there is one. The scandal is that UMR really wanted the house and not the land, in order to rent the house to visiting professors.

Light was shed on this story by Joe Worrlard of administrative planning. The safety of the students living in Thomas Jefferson has long been a concern of the administration. With the T.J. Addition, pedestrian safety will become an even larger problem. Thus, plans

for an underpass were drawn. To implement these plans certain property acquisitions had to be made. A 10-foot easement was needed from the property Kappa Delta owned.

An offer to buy the easement was extended to Kappa Delta's housing corporation and was rejected. The offer was turned down because the easement would contain the walkway, and will be used by 1,600 students daily. Mr.

page 9**

Bookstore expansion

Students' views ignored

By ROBIN THOMPSON

Expanding the University bookstore into St. Pat's ballroom was an issue of great controversy and a decision in which the students of UMR apparently had no voice. In other words, nobody was listening to us. I have talked to several students concerning this issue and responses ranged from indifferent to outraged, no one I talked to was in favor of the expansion. Opposition seems to have two common factors. First, most students could not see any reason to expand the bookstore in the first place, that the space occupied was adequate. Second, that the expansion was going to involve St. Pat's ballroom was the straw that broke the camels back, losing the ballroom has infuriated many students.

Some of the reasons given for the expansion were: 1) To create more office space to provide for a more businesslike atmosphere. 2) To provide more room so that books etc. could be more conveniently displayed. 3) To create more space for new items and a greater

variety of the present items such as posters, backpacks, and greeting cards. 4) More cash registers for convenience in check cashing.

I went to the bookstore the other day to buy a text for one of my classes. They were out of it. That's right, they were out of it. I guess they needed more space. As I went about ordering it I was told it could take as long as a couple of months. While there, I happened to observe their so called businesslike atmosphere. Of the three persons in the "office," presumably secretaries, two were reading the Miner (it was Thursday) and the other was applying cosmetics. Very businesslike, don't you agree?

Have you noticed how conveniently the books are placed? Why they're right out in the middle of the floor, how could you miss them?

As far as I can tell, there have been very few changes made here if at all. The books seem to be the same place they always were.

The bookstore seems to have evolved from a business with supposedly not enough space to one with too much space. There is a waste of space in the ballroom, taken up only by notebooks, backpacks, greeting cards, cash registers and office space.

The cash register issue speaks for itself, there are usually only one or two in use most of the time. As for check cashing, it is now done in the back of the store and is often inadequate.

Let's not stand idly by and watch Auxiliary Enterprises eat up our space like Pac Man gobbling dots. Speak out before it's too late!

Christopher Jewelers
Diamonds and Watches
903 Pine Rolla, MO 364-2264

Kappa Delta

from page 8

Worrlard agreed with Kappa Delta's housing corporation that such a large number of students crossing the property, even on a sidewalk, would have undesirable effects.

As a result, three estimates from three private real estate firms were obtained. From this data an offer was formulated and submitted to the Kappa Delta housing corporation. It

was accepted.

The administration is happy with the purchase of Kappa Delta's property because there is now direct access from Thomas Jefferson to a street leading straight to campus. Mrs. John B. Renick of Kappa Delta's alumni board says that "KD" is also pleased with the deal.

It should be noted that

though the university has the power to condemn property in order to expand there has never been a case where this has happened.

As for the future of the house, it will be used to house visiting professors and dignitaries. Its official name is the Lovett Guest House, named after Dr. Lovett who owned the house before Kappa Delta.

Soccer Team Controls Wash. U.

By PAUL THOMAS

The men's soccer team traveled to St. Louis for its opener against Washington University, a perennial Division III power in the NCAA. The 90 degree afternoon left UMR 2-0 victors.

The first half was played at a controlled pace with the Miners holding a ball possession and territorial advantage throughout the half. Passing was crisp and the Miners seemed to be on the verge of going one up. Steve Svoboda and Don Anselm both had near misses. Then in the 25th minute, Hardy, from Argentina, scored on a

beautiful, low shot beating the goalie on the far side. Hardy's goal started rather innocently. Tom Kinney, who played a strong, steady game, carried the ball up the middle and left the ball off to Hardy just outside the penalty area. Two feints and a shot later, the Miners had what turned out to be the winner.

In the first 10 minutes of the second half, Washington U.'s Bears, coached by Joe Carenya, seemed to have regrouped. Yet, the remainder of the game belonged to the team from Rolla. The Miners pressed until the 70th minute when Kinney again fed the ball in the form of a cross to a

diving Andy Carpenter. Carpenter glanced the ball off the side of his head into the far corner.

Bill Cowie was tested but once in recording his first shutout. Credit here should be shared with centerbacks Chris Generous and Matt Budd. Both played very well on defense and distributed the ball well from the backline. Other fine performances were put in by senior Mike Shillito and freshman Chris Hayes.

The Miners next travel to Kentucky and Indiana this weekend. They will play foreign-talented Kentucky Wesleyan and then the University of Evansville a

powerful Division I team.
TILL NEXT TIME:

Sat., Sept. 11, at Kentucky Wesleyan, 1 p.m.

Sun., Sept. 12, at U of Evansville, 2 p.m.

The Miner's attack one of the squad were 2-0 winners in last Washington U. players. The soccer Saturday's contest.

Men's Cross Country

Captures First...

By JASON ROBERTS

The UMR men's cross country team opened its season Saturday with the School of the Ozarks in a dual meet at Rolla. UMR easily won the meet by outrunning the School of the Ozarks 23-38. The Miners placed runners in eight of the top 10 places. Commenting on his team's performance, Coach Dewey Allgood stated, "I was pleased with the way most of the team

ran. This was a good meet for us because we can see where we stand right now."

Chris Marcak from the School of the Ozarks placed first on the five-mile course with a 26:35 time. He was followed by Jeff Peterson of UMR eight seconds later. Dan Lichtenwalner finished in 26:54 to grab third place.

For the Miners, Joe Henze finished third on the team in 27:31, followed by Jim Bullard (27:32), Pete Lichtenwalner (27:40), Dan

Ray (27:53) and Scott Giltner (28:06).

The Miners will be staging an intrasquad meet this Saturday to battle out the team positions. On Sept. 18 the Miners will split into two teams and travel to Columbia for the All-Missouri Meet and to Southern Illinois University-Edwardsville for an invitational.

...While Women Fall

By NANCY REITER

The UMR varsity women's cross country team opened its season by hosting a dual meet with the School of the Ozarks here Saturday morning. Despite the first place performance of senior Jan Hierholtzer, with a time of 19 minutes; 15 seconds, the Miners lost the meet to the more experienced third-year team by a score of 24-

31. The remaining UMR runners were Karen Penney, fourth with 22:01; Leta Judd, seventh at 22:34; Jill Cammeron, ninth; Liz Nolan, 10th, and Natalie Betz in the number 11 position.

Saturday's meet, like all home competition, was a five kilometer (3.1 mile) race. A team's score is determined by the sum of the places of the top five runners.

Coach Sarah Preston was "really pleased" with the "maximum effort" displayed by each member of the UMR squad. She looks forward to "rapid improvement" in the team before the next meet. The women's organization will

THIS COULD BE THE START OF SOMETHING BIG

It could be your big chance for a scholarship that pays you \$100 a month, plus all tuition, books and lab and incidental fees.

If you want to devote a part of your college curriculum to classroom and laboratory training in leadership, management, Air Force history and traditions... and you can qualify, it could be for you.

Air Force ROTC leads to an Air Force officer's commission. And that means responsibility, challenge, service to your country. It means taking on big responsibility.

Look into the Air Force ROTC program at your campus. Check out the benefits of an AFROTC scholarship. It could be the start of something big... it could be the start of a lasting relationship with the United States Air Force in dedicated service to your country.

Gateway to a great way of life.

Shockers Overpower Miners

By JOHN GALT

The Miners were rudely awakened to the skill, size, strength and speed of Division IA football players in their 51-14 loss to the Shockers of Wichita State Saturday night. It was a long, frustrating night for the Miner team which was completely outmanned, but determined to battle hard to the final gun.

The Shocker offense lived up to its powerhouse reputation by knocking out 604 yards of total offense. If you couple a big, quick offensive line with strong, fast running backs and one of the best quarterbacks in the nation, you get the Shocker offense. The Shockers would give any Division I defense nightmares, therefore the Division II Miner defense has nothing to be ashamed of — they played hard but got beat, period. Bob Pressley, Doug Keithly, Cleo Downs and Todd Fizer made most of the defensive stops and Craig Thomas had an interception. There were no injuries to the Miner defense.

The Miner offense came away with only half as many total yards as the Shockers. The Miners were forced to punt eight times; Bruce Baughman averaged 39 yards per punt. A field goal was attempted after a rare

Miner drive was killed by penalties — Craig Thomas missed on the 35-yard attempt. Both Miner touchdowns came on pass plays — Pirkle to Keith Markway and Pirkle to Randy Shed — which were set up by turnovers caused by the Miner defense. The ability of the Miners to pass effectively was a tribute to the offensive line manned by Kevin

Griesemer, Dan Obricki, Jim Lloyd, Jeff Ely and Jeff Heger. Running back Randy Shed was the Miner diamond-in-the-rough. Shed carried the ball for more than 70 yards and caught four passes for 31 additional yards, totaling more than a hundred yards against a fairly tough Shocker defense. Also, Shed created plenty of excitement

returning kickoffs, one of which he returned to the Miner 48 after receiving the kickoff four yards deep in the end zone. Guard Dan Obricki suffered a knee injury which was the only injury sustained by the offense.

The Miners will meet the Vikings of Missouri Valley in Marshall, Mo., this Saturday night at 7:30. Miner fans will

recall that the Vikings broke the 14 game winning streak the Miners had going last year by beating the Miners 31-14. The Vikings have always been tough to beat but after Wichita State, the Miners are in no mood to fool

around. So don't stand around saying, "Where the hell is Marshall, Mo.?" Get over there and see the Miners play. Finally, the Miners want to say thanks to the loyal fans who made it out to Wichita, Kan.

Miner punter Bruce Baughman prepares to unload a kick. Baughman averaged 39 yards per punt this past

Saturday while punting into the wind most of the day.

Flag Football Opens Big

By LARRY TIPTON

Last Tuesday, the 1982-83 Intramural Season opened up with the first flag football games.

Although we are only one week into the season, some patterns are already starting to emerge.

Last year's Division I champion, Beta Sig, has already jumped out to an

early lead, defeating Delta Sig 35-0 and Triangle 28-14. Lambda Chi, now in Division I after winning Division II last year, chalked up an impressive 31-7 victory over the perennially tough Sig Eps.

In other action, Kappa Sig beat Tech Engine 28-7, Phi

Kap pounded Sig Tau 40-0, the Pikes blew away RHA 33-0 and Sig Nu defeated Wesley 27-0.

The first powder puff games were held this Tuesday.

IM NOTES: Entries for golf intramurals were due

Sept. 8. The tournament will be held the next two Sundays (Sept. 12 and 19).

Tennis and racquetball entries are due next Wednesday, Sept. 15. These sports will start the following Tuesday, Sept. 21.

RHA Takes Women's Crown

By NANCY REITER

unofficial point distribution:

The 1981-82 school year proved to be a good one for the UMR women's residence halls, at least on the field of competition. RHA and TJHA both seemed to tap into their potential and captured first and second, respectively, in overall women's intramural points. The following is a breakdown of last year's final standings, and an

	Points
1. RHA	734.5
2. TJHA	675
3. KD	629.5
4. Newman	594.5
5. ZTA	590.5
6. Chi O	488.5
7. Stardusters	476
8. Wesley	435.5
9. ABS	417
10. Phoenix	368
11. AWS	327
12. GDI	185

The residence hall dominance is evident in four of the five late spring sports of 1982. In softball, Newman completed their undefeated season against TJHA in the championship game. They earned first place, and team-of-the-week honors in the process. Badminton saw a strong RHA with a first place doubles and a second place singles finish. In doubles, TJHA took second and KD claimed the singles number one spot. Horseshoe

single's top honors went to Phoenix (first) and TJHA (second). In the doubles category, Wesley came from the loser's bracket to defeat Stardusters for the championship.

Perhaps some of the RHA credit should go to their

CAREER PASSPORT

Let Amoco Be Your Passport To Success

leading producers of crude oil and natural gas, can be your passport to a successful engineering career.

Amoco Production Company (USA), as one of the nation's of crude oil and natural gas, can be your passport to a successful engineering career. We are a dynamic subsidiary of Standard Oil Company (Indiana) and we are seeking engineering graduates to join our team of professionals.

Our achievements, as an industry leader, include:

- Top crude oil producer in Texas in 1980 and 1981.
- The fourth largest producer of crude oil in the U.S.
- Among the three largest natural gas producers in the U.S.

Challenging careers await Petroleum, Chemical and Mechanical engineers, as well as those in other engineering disciplines. Amoco engineers can expect:

- Excellent starting salary and one of the best benefit programs in or outside the petroleum industry.
- True career advancement potential.
- A training program unsurpassed in the industry.

Check with your placement office for more information.

Amoco will be interviewing on campus September 22 and 23

Finals

From page 12

intramural manager, and the 1982 selection for Women's Intramural Athlete-of-the-Year, Susan Robins. Sue was a senior, and graduated last May, but still found time to be a strong participant in both team and individual sports for RHA. Her list of activities throughout the year included volleyball, tennis, basketball, basketball relay, track, softball, badminton and horseshoes.

Last year, for the first time, the female athlete-of-the-year also earned a monetary award for her accomplishments. Funding for the award comes, rather unsurprisingly, from Millie and Mel Weinbaum. The Weinbaums are affiliated with the Rolla McDonalds, and have long been supporters of both the men's and women's intramural programs at UMR.

This year, the women's program will be operating under a few changes. First, Newman and Phoenix have

withdrawn from the organization and the White Stars, Sigma Nu little sisters, will be entering as a new team this year. The second major change results from the vote last fall to replace soccer with flag football in 1982. While the sport was in the women's schedule several years ago, this is the first experience in an organized league for most of the members of the seven teams participating. If interest and excitement (as well as hours spent practicing) are any indication, flag football is here to stay.

Resume Writing and Interviewing Skills Workshops. * A well-written resume and a successful job interview are indispensable steps toward fulfillment of career ambitions. Various styles of resumes will be discussed and participants will be aided in completing their own personal resume. Information on preparation for a job interview, the interview itself and the follow up will be presented to help participants make the most of their job interviews. Participants also will have an opportunity to practice interviewing skills. Participants are expected to attend the placement interviewing seminar.

Larry R. Nuss — 4 consecutive Monday sessions — 3:30-5 p.m. Sept. 13, 20, 27 and Oct. 4.

4 consecutive Tuesday sessions — 3:30-5 p.m. Sept. 14, 21, 28 and Oct. 5.

4 consecutive Wednesday sessions — 3:30-5 p.m. Sept. 15, 22, 29 and Oct. 6.

These workshops are limited to graduating seniors and graduate students who are interviewing for permanent jobs during the 1982-83 academic year.

4 consecutive Monday sessions — 3:30-5 p.m. Oct. 25, Nov. 1, 8 and 15.

4 consecutive Tuesday sessions — 3:30-5 p.m. Oct. 26, Nov. 2, 9 and 16.

These two workshops are available for any UMR student wanting to improve his or her resume writing and interviewing skills.

* Limited enrollment for all workshops.

Placement Interviewing Seminar. Experienced recruiters from industry will provide information about what actually happens during a campus interview. A question, answer and discussion period will follow.

Monday, Sept. 20 — 7-9 p.m. Centennial Hall — University Center-East

and Demonstration interviews will be conducted by experienced recruiters from industry to allow students to observe the interviewing process.

Tuesday, Sept. 21 — 7-9 p.m. Centennial Hall — University Center-East.

Preregistration is not required.

Professional Communication Skills. The ability to communicate effectively is central to professional development. This workshop will teach the communication skills essential to obtaining employment and to professional competence and advancement. A discussion and question period will follow the presentation.

Stewart E. Cooper, Ph.D. — Tuesday, Sept. 28 — 3:30-4:30 p.m. Ozark Room — University Center-West.

WE'RE TAPPING NEW ENERGY SOURCES AT MISSOURI.

We're Gulf Oil Corporation. And we'll be on campus to look for something very much in demand these days. New energy. Specifically, new human energy. The fast-changing energy field will continue to be one of the most exciting and rewarding places to launch a career. Into the eighties, and beyond. And Gulf has exceptional opportunities for new people with new ideas about solving energy problems.

Sign up for an appointment now at your placement office. And pick up some Gulf literature for background information. Because this year promises to be a great year for new energy. And we can't think of a better place to look than here.
