Golden Shillelagh provides loans

Financial assistance for UMR students faced with the fee surcharge next semester will be provided by the Order of the Golden Shillelagh, UMR's major gift club.

"Our organization will make funds available to establish the Order of the Golden Shillelagh Surcharge

Loan Pool in order to assist those students whose need is greatest in this emergency situation," says Fred Finley, Class of '41, Lamar, chairman of the group's executive committee. "As the loans are repaid, the organization will proceed with plans to fund a major

project to enhance the campus."

The Order of the Golden Shillelagh began in 1977 with 27 members and has since grown to a total of 77 members. Each participant has pledged a significant gift through annual contributions or estate plans to promote quality education at

UMR.

Both in-state and out-of-state students will be eligible to obtain loans from the fund. They may apply through the student financial aids office in Parker Hall on campus.

"An initial amount of \$50,000 will be supplied for the Surcharge Loan Pool,"

says Howard Eloie, director of UMR's Development Fund and executive secretary for the Order of the Golden Shillelagh. "Further funds will be added if there is a need.

"Guidelines suggested by the organization," he continues, "are that a student

who wants to be considered for the loan should make application no later than Dec. 1. The loan will not become due until three months after the student graduates or leaves campus.

Five percent simple interest will begin to accrue at that time."

Nancy Winkler

Will this be you during "dead week"? Could be!

Is there a 'dead week'?

By HERALEEN SPRENGER

It's right before finals week — "dead week" at UMR. It's a time for getting psyched before that last superhuman effort is required to pull those grades up to an A, or a B, or a C, or a D.

The results of a study of dead week was given at the Oct. 21 Academic Council meeting by the chairman of the Student Affairs Committee, Elizabeth Cogell.

The study was requested by the Academic Council due to confusion over whether an officially recognized dead week did exist and if so, whether it was being enforced.

"There is no such thing. We found it doesn't exist," was the conclusion Cogell announced.

Many students think of dead week as a time for no tests when they can prepare for finals.

But according to findings of the Student Affairs Committee, tests during that week are fair play. The only related policy which exists says that during that time

finals "may be given at the option of the instructor," but none "shall be given except on written permission from the dean of the school-college in which the final is being given (1982-83 Manual, p. 61, Item VII.5)."

The results, which Cogell says surprised the Academic Council, were obtained by looking through minutes of the past 10 years from the Academic Council, the General Faculty Council, and the Student Council. The findings were that in March of 1976, a student referendum proposed two things — mandatory finals in all classes and what is referred to now as dead week. Students downed both measures, with 92.5 percent opposed. Also in 1979, the proposals came up but were again defeated.

"It appears to me that it will stay that way. I took the report back to the Student Council. There was minimal discussion, and that was the end of it," said Cogell.

She noted also that students on the Student Affairs Committee were not interested in pushing for an

official dead week. What she did hear concern over was instances of instructors giving finals a week early, in violation of the aforementioned policy. "The students asked me to remind professors of that rule."

CHOW DOWN

Theta Tau, UMR student service organization, and Pizza Inn invite Rolla residents to "chow down for charity" Thursday, Nov. 4.

Starting at 6 p.m., Pizza Inn will donate \$2 for each large (16-inch) and \$1 for each medium (13-inch) pizza ordered. Free deliveries will be made by Theta Tau members.

Pizza Inn will also make the same donation on pizzas purchased after 8 p.m. Monday, Nov. 1, through Wednesday, Nov. 3. (No deliveries on these dates). All money raised will go to a Rolla charity.

For more information, call Joe Lambing, 364-1490.

Computerized help in Finding money

CPS News Release

Rising costs and the prospects of raising tuition even higher have convinced a second state to try giving students computerized help in finding money to pay those higher tuitions.

Fiscally-troubled Oregon, students to pay a bigger share of their college costs, plans to have a free scholarship search service available to students by next September.

Oregon officials say they'll use the state's present statewide computer system to provide students with lists of regional and national scholarships, and to match them to assistance programs tailored to individual students.

"We've got to get students as much outside help as possible," explains Gary Weeks, deputy director of the Oregon State Scholarship Commission.

"The universities here have had to cope with severe budget cuts — three in the

last 18 months — and financial assistance to students has also suffered."

Delaware is apparently the only other state that offers a similar service, which has been operational since 1977.

"We have over 500 awards in the data base, and students around the state can access the system," says Doug MacDonald, director of scholarships and financial aid at the University of Delaware.

He says more than 800 students have logged onto the system already this semester.

Weeks envisions a similar campus computer that, after digesting key data about a student and the student's major and plans, will deliver a list of scholarships, grants, and loans "that meet their specific characteristics and needs."

The result is similar to that offered by a number of commercial scholarship firms, which scan literally hundreds of thousands of

individual and corporate aid programs.

Quite a few aid officials, including Weeks, have been critical of the commercial services in the past.

"We do hear a lot about some 'mom and pop' operations that get an Apple computer, and advertise themselves as a search service," says Dennis Martin of the National Association of Student Financial Aid Administrators.

"Some of the services are good, and some are not."

In a test of them, Weeks' office paid the fee and asked for accounting scholarships.

"Some of the information we got back was about general government programs, some was for business majors in general, and some weren't even related to an accounting major," he recalls.

Women and success

By AMY BOYD

Dr. Catherine Riordan was the featured speaker at the fifth meeting of an eight-part "Women at Work" series Tuesday, Oct. 26. Dr. Riordan's talk covered several aspects of women's participation in competitive sports.

Physical, psychological, and social factors concerning women in sports and job situations were discussed and also compared with men's performance in these same areas.

In her research, Riordan has found that overall, women tend to downgrade their performance even

when successful. While the majority of men are boastful of their accomplishments, women often attribute their success to "luck" or say the opponent was lacking in skill. Often times women competing against each other will not play their hardest for fear of hurting the other one's feelings. Men on the other hand play all out no matter how the other player acts.

Some parallels can be drawn between competition in sports and on the job. Some women hold back, avoiding promotion even though they are often very capable of doing the job. This is because they are

afraid of the competition the promotion might bring among men at this level. Some also don't fully believe they are qualified for the job themselves, showing this downgrading characteristic again.

Dr. Riordan joined the UMR faculty in 1979 after receiving a B.S. in social psychology and welfare from Eastern Michigan University and her Ph.D. in experimental social psychology from the State University of New York at Albany. Riordan is also an accomplished racquetball player, competing in many state-level tournaments.

CALENDAR OF EVENTS

Editor's Note: If your organization is having a meeting, turn in details to the MINER office in the Rolla Building before Monday at 9 p.m. and we will list it in the Activities Section of the paper. No articles submitted will be printed unless written in complete sentences with proper grammar. No schedule or flyers will be rewritten and published by the staff for the Activities Section.

If your organization is sponsoring a campus-wide event for the benefit of charity, get us details before Monday at 9:00 p.m. We will advertise the event free of charge in this space.

The MINER reserves the right to edit any notices or ads for this page before publication.

THURSDAY

UMR FILM SERIES

"Thief," director, Michael Mann, with James Caan, Tuesday Wels, Jim Belushi, Willie Nelson, 7:30 p.m., Miles Auditorium, Mechanical Engineering. Season ticket or \$2.50 at the door.

ATTENTION MSM CLIMBING CLUB

T-shirt orders will be taken this week only. Meetings are every Thursday at 6:30 p.m., Room, 207, Norwood Hall.

M-CLUB

M-CLUB will have a meeting tonight at 7 p.m. in CE 114. All members are encouraged to attend.

SWE

The Society of Women Engineers will be having "A Night With Stone & Webster" on Thursday, Nov. 4, at 7 p.m. in the Ozark Room (second floor, University Center-West). Refreshments will be provided.

WARGAMERS

The Wargamers Association of Rolla will hold a meeting at 8 p.m. tonight in Room 206 MCS. Members who intend to participate in Saturday's D&D tournament are urged to attend.

KAPPA MU EPSILON

KME will hold its fall initiation banquet tonight at 6:30 p.m. at Zeno's Steak House. Those students needing a ride please call Eve (341-2767).

All members and new initiates of KME are asked to attend the Nov. 9 meeting. This will be the last meeting for the semester. New members will receive member cards and there will also be election of officers for spring '83. (Members must attend at least one meeting a semester to be considered active!) See you, next Tuesday, M-CSC, Room 209 at 6:30 p.m.!

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri at Rolla. It is published weekly at Rolla, Missouri. The Missouri Miner features activities of the student and faculty of UMR.

SATURDAY

TECH ENGINE CLUB

What is there to do after the Miners destroy SEMO on the Grid Iron Saturday? Come to Tech Engine Club and party!!! The KMNR roadshow will be there and an assortment of Miller products will be available — hats, buckets, T-shirts. And of course, beverages will be available. That is this Saturday starting at 6 p.m. A great way to celebrate!!

SUNDAY

The Economics Club will host a picnic Sunday, Nov. 7, at 1 p.m. It will be held at Curtis Adams' residence, 1703 Independence. If you need directions, the flyers on campus have all the necessary information. Everyone is welcome.

MONDAY

ASSOCIATION OF WOMEN STUDENTS

A general meeting will be held at 6 p.m. on Monday, Nov. 8, in the classroom of the Multi-Purpose Building. All members are urged to attend. Business includes election of new secretary/treasurer. For more information, contact Gail Dabney at 364-0348.

WOOEE

There will be a meeting of the WOOEE UMR Amateur Radio Club on Monday, Nov. 8, 1982.

TUESDAY

BETA CHI SIGMA

The next general membership meeting of Beta Chi Sigma will be held on Tuesday, Nov. 9, at 6:30 p.m. in ME 118. Please plan to attend.

KME

KME will hold a meeting on Tuesday, Nov. 9, at 6:30 p.m. in Room 209 MCS. Due to a change in by-laws, a member must attend one meeting each year in order to be considered active.

FLATBALL FLYERS

Attention all PAID member of the UMR Flatball Flyers and interested parties: There will be a meeting on Nov. 9 at 6 p.m. in Room 208 of the ME Building to discuss the future of the club. Attendance is necessary. If you have questions, call Clyde at 364-3965.

WEDNESDAY

A.S.M.E.

The American Society of Mechanical Engineers will hold a meeting Wednesday, Nov. 10, at 7 p.m. in ME 104. The guest speaker will be Lt. Wice of the U.S. Navy. All members are urged to attend. Refreshments will be served.

WESLEY FOUNDATION

The Wesley Foundation will present the film "The Second American Revolution," in which the American past brings the American present to trial for abandoning the ideals of the Founding Fathers. The film begins at 6 p.m., Nov. 10. Everyone is invited. Wesley is located at 403 W. Eighth St.

CO-OP CLUB

The CEA will feature a panel of CO-OP students from all the major disciplines and companies on Nov. 10 in the Ozark Room. General club meeting will start at 7:15 p.m. and panel will be available for questions at 7:30 p.m. Refreshments will be served.

APO Superdance rock & rolls

This weekend, Nov. 5 and 6, Alpha Phi Omega is having their 6th annual Superdance at Tau Kappa Epsilon fraternity. The thirty-hour event will start at 6 p.m. Friday and last until midnight Saturday, with all proceeds going to Muscular Dystrophy Association.

Friday, the dance will

start at 6 p.m., followed by a party beginning at 8 p.m. featuring the band "The Thugs," who will perform until midnight. There will be door prizes and refreshments. The dancers will continue to dance through the night, and people are encouraged to stop by and give support. Saturday night, as the Superdance

winds down, there will be a party starting at 8 p.m. and lasting until midnight, the end of the Superdance. This weekend will also feature a kissing booth with a few of the finer looking UMR coeds.

There will be two traveling trophies presented at the end of the Superdance, one for Most Participation by an Organization, and the second

for the Most Money Collected by an Organization. The most participation trophy is determined by three factors:

One is for the organization with the most dancers. Second is the best poster made by the dancers. And finally, a vote by those at-

tending for their favorite couple. A vote will cost 1 cent.

Hope to see you at the dance.

Rolla student dies

On Saturday, Oct. 30, Susanne Orrell, a senior in engineering management, died of complications arising from pneumonia. Susanne is the daughter of Mr. and Mrs. Don Orrell of Raytown, Missouri.

Susanne had had a past medical history arising from a thyroid problem. She contracted a cold three weeks ago and called home to consult with her doctors. Medication was prescribed by them and called to Rolla. After a day and a half of

taking the medication, she became very ill and the following Monday, Oct. 16, her parents came to Rolla and brought her back to Kansas City. She was admitted to an intensive care unit on the critical list, and remained in the hospital for a week and a half. Thursday she was allowed to go home. On Saturday she started complaining that she had a hard time breathing and was readmitted to the hospital. On Saturday night she died from a heart attack. The

doctors said that the infection had spread to her heart.

The visitation was Monday night in Kansas City. The funeral was Tuesday, Nov. 2.

Susanne was very active on campus. She was the indoor recreation vice president for SUB, and a member of Zeta Tau Alpha sorority, Alpha Phi Omega, the Intramural Managers Association, a little sister to Beta Sigma Psi, a features writer for the Missouri Miner, and Blue Key pledge.

Calendar of Events

STUCO REFERENDUM

STUCO is handing out a referendum this week. Fill it out and turn it in next week. Student support is needed and appreciated. Get your two cents in!!

ATTENTION GRADUATING STUDENTS

Commencement announcements are now available in the registrar's office for all graduating students. These announcements are provided by the university at no cost to students who will be graduating on Dec. 19, 1982.

ROLLAMO

Rollamo senior pictures are being taken Nov. 8-12 and Nov. 15-19 in the Mark Twain and Meramec Rooms of the University Center East. Sign up at the table on the first floor this week. Thank you!

CHEERLEADER TRYOUTS

Basketball cheerleader clinics will be held Monday-Wednesday, Nov. 8-10 at 5-6:30 p.m. Tryouts are scheduled for Friday, Nov. 12, at 5 p.m. in the Multi-Purpose Building. You must attend clinics if you want to try out. For further information, call Linda Martin at 341-4902 between 9 a.m. and 3:30 p.m. Monday-Friday.

Search

from page 1

"Oregon might have good intentions," says Bob Freede of the Cash for College Scholarship Search Service in New York, "but there are lots of hidden scholarships they wouldn't know about. Even the College Board tried putting a search service together a few years ago, but after getting information on only 11 states over four or five years of researching, they gave it up."

But Delaware built its own data base precisely because of dissatisfaction with commercial services. MacDonald says "we're very pleased with it."

Tomorrow's news

By MIKE STRODER

Good Day — here's tomorrow's headlines.

The joint venture of the UMR metallurgical department and the Waffle House on Highway 63 will have its grand opening soon. Tentatively titled the In-

dustrial House of Pancakes, the business hoped to attract a large opening day crowd to sample its unique cuisine. "We're really excited about this concept and we're extremely proud of it," said an exuberant manager. "Why, you can't get stainless steel pancakes anywhere else in town except for Rayl and

ours will be of much greater quality." A random sampling of students suggests that the venture will do well. One UMR student commented, "Oh, there's nothing like a fresh cup of molten slug to prepare you for those 7:30 lectures! It really sets the mood for the rest of the day." From now

on, whenever you've got the morning munchies, be sure and look for the steel arches!

An independent study has proven something that UMR students have thought all along — courses in heat transfer cause cancer. Dr. Z.Z. Pullard, head of the research group, explains: "We conducted a study with 1,000 laboratory rats; subjecting them to three weeks of lectures on convective and conductive heat transfer for 10 hours per day. After the section on the evaluation of overall heat transfer coefficient, we noticed malignant lumps developing in 95 percent of the rats. By the second week, virtually

all rats were near death and started frantically waving some kind of little white slip. We're not sure what the white slips signify but 999 of the 1,000 rats died of cancer, which is certainly a statistically significant number. One other odd twist — the surviving rat actually seemed to thrive. He always made his way to the front, listened intently while the other rats dozed off, and squeaked often — almost as if he appeared to be attempting to ask a question! We're still puzzled over that one."

A new annual sporting event will soon be challenging the students of UMR. The event is loosely

patterned after the "Iron Man" competition in which contestants have to swim 2 miles, ride a bicycle 1 mile and then run a 26 mile marathon. However, the UMR version will be a "torture" competition featuring this torturous course — a 12 hour quarter competition, a two day poker tournament, and a grueling 4-hour bat race. The winner will receive a large trophy, one bag of pretzels and status as an honor board member. Rep. Fr. Where hospitalization will be available for all contestants if necessary.

Well, that wraps tomorrow's news. Good day and be sure and catch tomorrow's news next week.

On the job

By BARB THOMAS

One way to make your job hunt more effective is to talk directly to people who have the authority to hire you. Very few people go directly to the person who actually does the hiring and, therefore, if you take this route, it is possible that you might have fewer competitors.

Finding the person who actually makes the decision to hire you make take extra effort on your part, but in the long run, the extra effort may be worth your while.

Two good reasons exist for going directly to the decision makers. First, instead of hundreds of applicants needing attention, there may only be a small amount. The fewer people applying for a job, the better your chances are and the more likely it is that more time will be spent in looking over your qualifications.

Another reason that exists for going directly to the hirer is that he or she is more likely to remember someone who takes the time and initiative to hunt them out.

By going directly to the person who has the authority to hire you, you may learn more about the company's needs and any upcoming opportunities there are. Knowing the needs of the company or any possible opportunities that might exist could help you to decide whether or not your time should be spent on applying for a position with this company. This will enable you to spend more time on the more likely job prospects, thus making your job hunt more effective.

St. Pat's Facts.

The St. Pat's Board is now selling Green to help prepare for the upcoming 75th Annual Diamond Anniversary St. Pat's Celebration. 1983 St. Pat's Green items on sale this year are:

Garters	1.00
Ball Hats	3.50
Derbies	3.00
Sweatshirts	8.50
Shot Glasses	1.50
Tumblers	2.00
Goblets	3.00
Pitchers	6.50
Visors	3.25
Paperweights	4.00

This year's children's sweatshirts have just arrived. They are now available at the campus sales table for only \$6.50. What could make a better Christmas gift for that little brother or sister? Come on out — start buying that green and help the St. Pat's Board put on Rolla's biggest and best party.

As a reminder, the theme for the 1983 St. Pat's Parade is "Engineering Wonders of the World." Float entries are due next Wednesday, Nov. 8, at 3:30 p.m. at AEPi. If you have any questions, contact Joe Schuster at 364-7176. This year's parade is going to be the biggest ever, so be sure to get your entry in so your organization can be part of it. There are only 133 days till the 75th Best Ever

so get psyched and buy green!!!

DID YOU KNOW?

After the reply from Jill Bouks on the Mizzou celebration, MSM students took matters into their own hands. They appointed a committee consisting of G.A. Easley '09, Clay Gregory, '10 and Dil foster '11 to arrange a St. Pat's celebration in Rolla, for March of 1908. The difficulties were many as the faculty and many students were opposed to the celebration. On March 16, 1908, a gap of students, under the course of darkness, went on campus and painted on the sidewalk that any

student who didn't cut classes the next day would be pounded. Furthermore they decorated the exterior of Norwood Hall for the coming of St. Patrick.

Somehow on March 17, all the students cut classes. The first St. Pat's celebration was small and pretty much limited to students. George Manof was elected the first St. Pat, patron saint of engineering. He made the first recorded arrival at Frisco Depo, riding a hand-car, dressed in the new traditional garb, green robes, sandals and beard. That's how it all started.

Board of Curators

Can provide answers

By HEIDI FLUGGEL

Since the outcry against the \$43.50 supplemental fee has died down, one would assume that the students are ready to accept a \$10 an hour supplemental fee. But, if the student body does not agree to the new proposal, what has become of their reaction? If you have an opinion on this issue and you do not voice it, whether it be pro or con, it is your fault. Following is a list of questions you might consider.

1. The supplemental fee proposal is now set for \$10 an engineering credit hour. If it is passed could this fee be raised? If so, what would be the criteria for such an increase?
2. Where will the money generated be distributed? In the University system? In the specific campuses?
3. What will be the breakdown of the money generated (i.e. labs: 20%, faculty salaries: 50%, other: 30%)?
4. Will the faculty salary

increases be only for engineering faculty, or would it also include humanities, computer science and other non-engineering faculty salaries?

5. Will the money raised improve the labs of the physics, geology, and geophysics departments, which are not considered part of the engineering school and who are paying the supplemental fee?

6. Will there be a loan program and if so, how will it be set up?

7. The examples cited for having a supplemental fee were for graduate level programs. Why should undergraduates in engineering have to pay a supplemental fee?

Answers to these questions or any others concerning the proposed fee can be found by writing to the members of the Board of Curators.

Fellowship Story.

In 1949, Hughes awarded its first fellowship. Since then, more than 4,000 men and women have earned advanced degrees in engineering and science with the help of Hughes fellowships — advanced degrees to prepare the men and women of today to meet tomorrow's technical challenges.

Hughes Aircraft Company will again offer more than 100 new fellowships in the coming year for graduate study in:

- Engineering (Electrical, Mechanical, Systems, Aeronautical)
- Computer Science
- Applied Math
- Physics

Just a few months from now, you could be working on your Master's, Engineer, or PhD degree — and receiving from Hughes:

- Tuition, books, and fees
- Educational stipend
- Full employee benefits
- Professional-level salary
- Summer employment
- Technical experience

Total Value: \$18,000 to \$40,000 a year

As a Hughes Fellow, you will gain valuable technical experience working summers at Hughes in Southern California or Tucson,

Arizona. Work Study Fellows study at a nearby university while working part-time at Hughes.

Full Study Fellows work at Hughes in the summer and study full-time during the regular academic year.

The range of technical assignments available includes the option of the Engineering Rotation Program to diversify your work experience.

Fellowship Story. An invitation to advance your education and your career — with assistance from a company that is advancing the frontiers of technology. Write yourself in.

Fill out and mail the coupon, or write to: Hughes Aircraft Company, Corporate Fellowship Office, Dept. NC, Bldg. 4006/W870, Culver City, California 90230.

Groundwaves

By MIKE (GRIMICE) GRIMM

First of all, I'd like to thank everyone that attended the second annual Theta Xi and KMNRR Freakers Ball, and also congratulate the winners of the costume contest. There were many very clever costumes. My only regret was not being able to give recognition to everyone who had spent so much time and effort in their preparations. There were truly some imaginative disguises!

If you missed last Saturday's celebration, fear not. KMNRR and Theta Xi will join efforts again on Friday, Nov. 19 to celebrate the 10th anniversary of KMNRR's emergence as an FM stereo rock 'n' roll station. (That's right, we've been lightin' the little stereo light on receivers for 10 years now.) The party promises to be great fun with plenty of good tunes, good drink and in general, good karma. So drop on by and bring a friend.

In special programming for this week coming up: Tonight, the Kaptain will be

featuring both sides of the album "Spring Session M" by Missing Persons. That starts at 7 p.m. on the New Wave Show. Also tonight, the further adventures of Jack Flanders at 9 on "Moon Over Morocco."

Monday night brings the weekly artist feature — three hours of the best cuts from your favorite artists. This week Dave Williams presents Stevie Wonder. And two hours after the artist feature, at 11 p.m., Shawn will be playing, "Eat A Peach" by the Allman Brothers Band. That's on the Rice Krispee Special.

Wednesday is always a special day for me. Bob Stallion starts you off at 12 midnight with three hours of soul. I'm on the air from 6-9 a.m. with easy rock to get you going in the morning. At 12 noon, just after the news, Wes brings you Cross Sections. (Dig those Dixie Dregs.) And don't forget Feedback at 7 p.m. with your host Gary Gadekan.

As always, we welcome your response, so give us a call or come by the station with your suggestions — lest we forget that we work for you.

Wanted: Roommate to share nice two-person apartment for spring semester. Walking distance from campus. \$115 per month plus electric. Call Jim or Carl at 364-0776.

Lost: One Black Cassio watch. If found, call 364-9885 and ask for Steve. I really like it a lot!

Stereo for sale: Technics SA 103 receiver. Technics SLB-202 turntable with Audio Technica cartridge, one pair of Boston Acoustics A60 speakers, Sony TCFX-6C cassette deck, and record and tape care accessories. Components in excellent shape and under warranty. Prefer to sell as entire system for \$500. If you are interested in a component, feel free to make an offer. Call Mark Rustine at 364-9783 or 364-7990.

Are you a **Party Animal?**

Are You a Rolla Party Animal?

(A quiz for the average Rolla student)

1. On the average, how many parties do you attend on weekends?

- (0) none
- (1) one
- (2) two
- (3) three or more

2. What was the highlight of last weekend?

- (0) changing the battery in your calculator
- (1) cleaning up after your sick roommate
- (2) playing quarters

(3) you don't remember

3. How do you count your cups of beer?

- (0) you don't drink
- (1) by ones
- (2) by the dozen
- (3) you can't count in triplicates

4. How big is your cup?

- (0) shot glass
- (1) eight ounces
- (2) sixteen ounces
- (3) you drink from a pitcher

5. On Sunday mornings, are your clothes...

- (0) neatly folded?
- (1) in a pile on the floor?

Wanted: Two people to move into a room in the Robin's Nest. Room has carpet, central air, bath, kitchenette. Excellent location next to campus. Rent, \$160 a month. For more information, call Joey at 364-8583.

C.Sc. majors: Spring through summer internships available in Jeff City. Must have at least 73, 74, 83, 168. See Prof. Walters, MCS 308 or call 341-4853.

For sale: HP 41C calculator, A-1 memory module. \$170. Call Allen at 341-3864.

Watch found by B.S.U. If you can identify it, it's yours, if not it's mine. Call 364-6848.

For sale: 1979 Bobcat. Low mileage (used by poor student), must sell. Best offer gets a great little car. Call 364-1663 after 4:30 p.m. Ask for Carl.

For sale: 1973 Ford Courier pickup. Blue with white front fender. Best offer. Call 364-0625.

Wanted: Someone interested in being assistant sports editor for Rollamo. Job would involve writing copy and some layouts. If you are interested, come to 304 Rolla Building between 4 and 5:30 p.m. Monday, Nov. 8, and talk to Karol.

\$5 reward for ZETA crest made of rug material stolen two months ago! Please contact ZETA.

(2) on your body?

(3) ready to walk themselves to the laundrymat?

6. Your weekend diet consists of...

- (-1) all purpose patties at Rayl
- (0) imported health foods
- (1) junk food (munchies)
- (2) Alex's pizza
- (3) solely barley, malt, and other grain by-products.

7. Your exercise for the weekend is...

- (0) punching a calculator key
- (1) playing tennis on Friday evenings

(2) jogging to parties on Frat Row

(3) lifting weights (refer to question #4)

8. Where do you normally sleep on weekends?

- (0) in your own clean bed
- (1) in your own dirty bed
- (2) on the bathroom floor
- (3) you don't remember

9. Who do you normally spend the night with on

UMR/United Fund Week

UMR/United Fund Week is upon us again. This year's big push on campus will be during the week of Nov. 1-5. The goal for this year is \$20,000 and 100 percent participation by everyone is encouraged. The departmental representatives are listed below and they will be asking for your help. All money collected will stay in the Rolla area to benefit twelve agencies ranging from the Boy Scouts to the Humane Society. You may specifically designate which organization you wish to receive your donation or it will be shared by all groups. Pledge cards will be distributed, drop cans will be

around, payroll deductions may be established, earnings from a game machine will be donated, a Monopoly marathon will be held, and a traveling trophy will be awarded to the student organization that raises and turns in the most money.

The campus co-ordinators this year are John Vaughn and Jess Zink, aided by the campaign co-chairmen Tom Call and Sue Hufham. For more information on how you can give your tax-deductible gift or how you can help in the fund-raising, please call Tom at 4130 or Sue at 4295.

Congratulations to this year's departmental representatives:

David Allen, Jane Allen, Helen Baird, Dean Marvin Barker, Charlotte Barr, Dr. Betten, Jean Blackwood, Bob Blaylock, Kayler Brockman, Tom Call, Jim Cubit, Shirley Fore, Dr. Nord Gale, Judy Green, Dr. Turan Goen, Connie Goodridge, Nina Haas, David Harris, Sharon Harris, Sherry Heavin, Dr. Burns Hegler, Bev Hill, Freda Hines, Lonnie Hines, Connie Hodges, Sue Hufham, Dan Klingenberg, Charlotte Kost, Karen Lane, Kathie Laue, Linda Light, Vicki Maples, Dr. Marchello, Dennis

Markeson, Dr. Nancy Marlin, Dr. McFarland, Debbie Mittendorf, Lou Moss, Gary Mueller, Dr. Oakley, David Oglesby, Dr. Myron Parry, Lori Peeler, Rose Penserum, Karen Pfost, Mary Pulley, Dr. Howard Pylon, Robert Rahner, Marsha Ray, Melba Read, Vince Roach, Dr. Debbie Robinson, Garmal Sanders, Linda Scego, R.D. Smith, Lennie Spradling, Dr. Steinbach, John Stockton, Jeff Stoll, Dr. P. Terkonda, Sue Turner, John Vaughn, Trudee Wagner, John Watson, Bob Whites, Bud Wilson, Louise Wilson, Tim Wright, Jess Zink and Tracy Snelson.

 - (3) someone you met but forgot their name
 10. How do you normally buy beer?
 - (0) you don't
 - (1) by the beer
 - (2) by the case
 - (3) you take stock in Anheuser-Busch
 11. Do you get hangovers on weekends ...
 - (0) never?
 - (1) occasionally?
 - (2) usually?
 - (3) you're continually drunk so you don't have a chance to be hungover till Monday?
 12. How much of the weekend do you usually remember?
 - (0) 100%
 - (1) 60%
 - (2) 40%
 - (3) less than 1%
 13. Are most of your phone calls from ...
 - (0) your mother?
 - (1) friends from class?
 - (2) drunken acquaintances?
 - (3) the guy/girl that said you gave them your number at a party?
 14. Is your weekend entertainment ...
 - (0) reading a book on Friday evening?
 - (1) playing UNO with your friends from the Quad?
 - (2) going to parties?
 - (3) stripping for two hundred people at a party?
 - (4) something they won't print in the paper?
 15. What is your nickname?
 - (0) nerd
 - (1) stud
 - (2) sponge
 - (3) Scooter P.I.
 16. What color are your eyes on weekends?
 - (0) brown
 - (1) blue
 - (2) grey
 - (3) red
 17. How do you get home from parties?
 - (0) you don't go
 - (1) walk
 - (2) crawl
 - (3) you don't remember
 18. Your favorite holiday is ...
 - (0) Mother's Day
 - (1) New Year's
 - (2) Saturday evenings
 - (3) St. Pat's
 19. When people walk past you they usually ...
 - (0) hold their nose
 - (1) smile
 - (2) ask you for a light
 - (3) step on your face because you're passed out
 20. How do you feel Sunday mornings?
 - (0) ready to get up and jog at dawn
 - (1) ready for 9:00 mass
 - (2) gasping for water
 - (3) drunk
 21. How much do you drink during the week?
 - (0) none
 - (1) nights
 - (2) four nights
 - (3) eight days a week
 22. When you see people you met at parties ...
 - (0) they don't remember you
 - (1) you talk to them
 - (2) you're embarrassed
 - (3) you don't remember them
 23. At parties you ...
 - (0) don't smoke
 - (1) smoke when you normally don't
 - (2) smoke a pack an hour
 - (3) bring a carton
 24. What is the smell emanating from your room?
 - (0) soap and deodorant
 - (1) Lysol
 - (2) stale cigarettes
 - (3) beer aroma from your laundry basket
 25. Your refrigerator is stocked with ...
 - (0) Hi-C
 - (1) leftover tuna casserole
 - (2) the soggy potato chips you decided to keep fresh Saturday night
 - (3) at least a case of beer
 26. The last time you opened a book was ...
 - (0) ten minutes ago
 - (1) Thursday night
 - (2) several days ago
 - (3) you don't remember but you think they're under your bed.

Are you a party animal? To find out, add up the points in front of all of your responses. The scale below will tell you how you rank as a party animal.

84-above: You've blown away the scale.

65-83: You are a party animal

39-64: You are an average partier (keep trying)

13-38: You don't party much

0-12: You don't party at all

0-below: There's no hope

Miner's quash Crusaders

By JOHN GALT

The Miners scored 10 quick points late in the fourth quarter to break away from a 22-22 tie and beat the very determined Crusaders of Evangel College 32-22 last Saturday at Jackling Field. The Miner defense gave up more passing yardage and points than it expected, but the Miner offense struck hard and consistently enough to allow the Miners to come away on top.

The Miner offensive backfield appears to be developing a Mr. Inside and Mr. Outside personality in the form of fullback Mike Schafer and tailback Randy Shed. Schafer, Mr. Inside, knifed through the middle of

the line for 125 yards and the first two Miner touchdowns on just 14 carries. Schafer's first TD came midway through the fourth quarter when he bolted for 56 yards on a dive play. His second TD came early in the second quarter when he plunged into the end zone from one yard out behind the blocking of Kevin Griesmer, Dan Obrycki and Cleo "defensive tackle turned fullback" Downs. Schafer displayed excellent inside running skill all day long, but he has got to owe a lot of credit for his success to the excellent offensive line blocking in front of him.

Anchored by senior tackle Kevin Griesmer, the Miner O-line must receive much of the credit for

Schafer's as well as Shed's rushing success. Griesmer is accompanied on the O-line by senior guard Dan Obrycki, senior center Jim Lloyd, senior tight ends, Scott Stephens and Keith Markway, sophomore guard Doug Ely and sophomore tackle Jeff Heger.

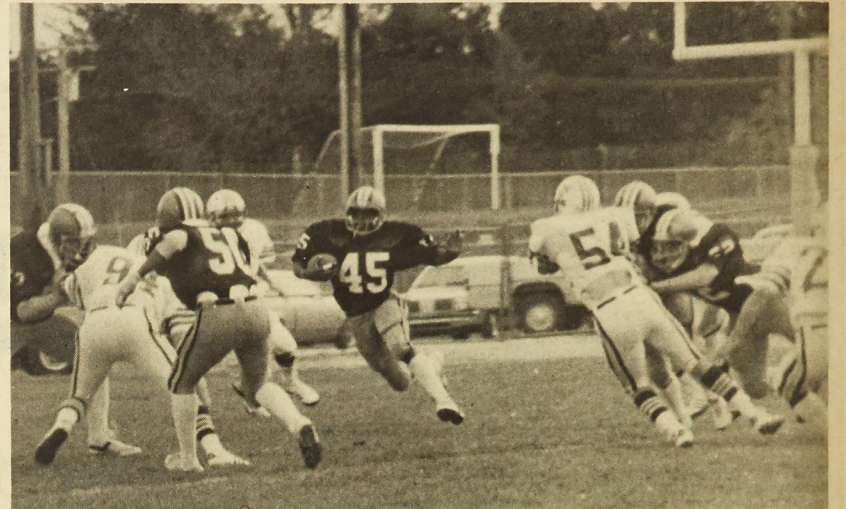

Randy Shed, Mr. Outside, carried 11 times for 45 yards, but did most of his damage running the ball after making short swing pass receptions. Shed rambled an additional 95 yards after five short receptions. One such swing pass resulted in a 60 yard scoring play midway through the second quarter. Shed's rushing effort against the Crusaders put him over 1,000 career rushing yards for the Miners — Good job

Randy!

Though sacked numerous times for a total of 59 yards in losses, Miner quarterback Dennis Pirkle did manage to

complete 12 of 19 passes for 237 yards. One passing highlight occurred when Pirkle connected with Dave Stephens on a 57 yard touch-

Miner tailback Randy Shed finds a hole and pounds out yardage against Evangel last Saturday.

Mark Vollmer

Men's Soccer

Have shot at title

By PAUL THOMAS

Last week, the UMR Miners had a slim chance for a postseason bid and a shot for a tie with UMSL for the MIAA title. Now, after a 3-0 victory over Westminster last Wednesday and a 2-0 defeat at the hands of Rollins College last Friday, the conference title is still within the reach of the Miners but postseason play is not. If UMR wins its last two games against SEMO and NEMS, it will tie UMSL for the conference title. This would be the first time in the team's short four-year history.

Westminster hosted the Miners last Wednesday in Fulton, Mo. The Miners played a dominating game. Yet, the score was far under the true measure of their play. This is and has been the problem of the Miners — goal scoring. Even so, UMR won easily, 3-0 on a first half goal from Jeff Smith and

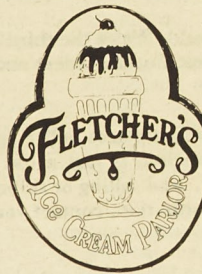

second half goals from Scott Jaskowiak and Don Anselm. With that goal, Anselm tied the career scoring mark for the Miners. Don now shares the record with Pat Becker at 17.

Rollins College traveled all the way from Florida to St. Louis to play the Miners and SLU this past weekend. Friday afternoon, Rollins was a superior team as they controlled the ball and the pace of the game to their

liking. For the first 10 minutes, the Miners had a slight edge in the play, but none of the good chances UMR had went in. This caused the momentum to shift over to Rollins where it stayed until the last 10 minutes when the game was conceivably lost. The score

GET A HEAD START IN A NUCLEAR CAREER

Train for a career as a Nuclear Propulsion Officer in the Navy. The Navy has the most advanced nuclear equipment in the world, and needs advanced nuclear trained officers to maintain and operate it.

The graduate level training you'll receive in this program could cost \$30,000. As a Nuclear Propulsion Officer, you'll be rewarded with increased responsibilities and promotion potential.

QUALIFICATIONS: Age—19 to 27½ years old. Education—Working towards (or have completed) BA or BS degree. Citizenship—U.S. citizenship required.

Applications may be submitted after completion of sophomore year in college. If you think nuclear propulsion is your future, then you know the Navy is the place to begin. Call the Naval Management Programs Office for more information.

**Call collect
(314) 263-5000
Monday-Friday 8 a.m.-2 p.m.**

Lady Harriers

To be represented in Nationals

By NANCY REITER

The lady Miners had their work cut out for them in their MIAA/NCAA regional qualifying meet on Saturday. Spectators at the Pertle Springs Golf Course, in Warrensburg saw runners from three of the top 10 nationally ranked women's Division II teams. Each team was competing for the honor of being the South Central region's representative to the national meet on Nov. 13 in St. Cloud, Minn. Each individual was striving to be one of the top three finishers outside the qualifying team. To toss in an extra variable, out of all the NCAA regions, one extra team is chosen at

large. The strength represented by three top teams made this region a prime candidate for the "team-at-large" selection. This would allow the top three individuals not on either of the two qualifying teams (but still in the top 10 in the race) to go to Minnesota.

By now you're probably wondering why you're reading all about the qualifying rules for NCAA,

Division II. The reason is simply that the above is exactly what happened, and because of this, the Miners will be sending Jan Hierholzer to the national competition as an individual qualifier.

When the last runner crossed the line and all the results were tabulated on Saturday, Jan ranked eighth overall with a time of 18:29.8. Three of the runners in front of her were from

Abilene Christian University, which won the meet, so Jan ranked fifth among the individuals. The NCAA determined Monday that the Air Force Academy would be the remaining team to qualify. This moved Jan into the No. 3 qualifying position.

The winning time in the meet was 17:55.8 by Nancy Goodwine of CMSU. Jan's performance in the race was somewhat hampered by a bad spill early on, but she

still came in ahead of two NCAA All Americas of 1981. She took third in the MIAA with her time.

Teamwise, the Miners took seventh in regional and fifth in the MIAA while

running with three injured squad members. A cross

down play that capped the Miner scoring late in the fourth quarter. Another display of Pirkles talent resulted when the extra point for Schafer's second TD was faked. Pirkle rolled out with the ball after faking the hold for the kick and nailed Kurt Lorenzen in the end zone for a two point conversion. Craig Thomas kicked a 44 yard field goal late in the fourth quarter to break a 22-22 tie.

The Miner defense had big troubles containing the Crusader passing attack. Fortunately the pass D bent but did not break altogether. In fact, three of the key plays of the ball game were made when Miner defensive players stopped potential Crusader scoring drives through pass interceptions. Randy Hauser and Paul Gemjik each had interceptions killing Crusader drives that had penetrated into Miner territory. Todd Fizer made an interception late in the game crushing the last Crusader chance to score. Other good secondary plays were made by Steve Davis and Scott Teter.

The Miner defensive line missed the services of seniors Bob Pressley and Doug Keithly. However, the fort was held down by senior Cleo Downs with the help of some younger teammates subing at tackle for Pressley were sophomore Cliff Cooke and freshman Bob Gorham. Subing for Keithly were sophomore George Stock and freshman Jim Lipps.

The Miners are now 7-2-0 for the season. This Saturday the Miners will be at home again and will face the Indians of Southeast Missouri State (SEMO). The Indians squeaked by the Miners last season, but will have no such luck this Saturday at Jackling Field. It will be a key game for the Miners so get out and give them all the support they deserve.

Before We Put You In Charge Of The World's Most Sophisticated Nuclear Equipment, We Put You Through The World's Most Sophisticated Nuclear Training.

It takes more than 16 months of intensive training to become a fully qualified officer in the Nuclear Navy. You begin with four months of leadership training. Then as a Navy officer you get a full year of graduate-level training unavailable anywhere else at any price.

Navy training is based on more than 1900 reactor-years of experience. Right now the Navy operates over half the nuclear reactors in America. And the Navy's nuclear equipment is the most sophisticated in the world. That's why your Navy training is and must be the most sophisticated in the world.

As an officer in the Nuclear Navy, you have decision-making authority immediately. You get important management responsibility fast. Because in the Navy, as your knowledge grows, so does your responsibility.

Your training and experience place you among the country's most qualified professionals. (No surprise

that most of the men who operate the reactors in private industry started in the Nuclear Navy.)

It takes more time and more effort to become an officer in the Nuclear Navy. But the rewards are greater, too.

The rewards can begin as early as your junior year in college. Qualify, and the Navy will pay you approximately \$1000/month while you finish school.

After four years, with regular promotions and salary increases, you can be earning as much as \$37,400. That's on top of a benefits package that includes medical and dental care, and 30 days' vacation earned every year. More responsibility, more money, more future. So, if you're majoring in math,

engineering or the physical sciences, and you want to know more about a future in nuclear power, fill in the coupon.

Today's Nuclear Navy is an opportunity like no other in the world.

M-Club Athlete of the week

The M-CLUB would like to recognize two fine UMR athletes, Jan Hierholzer and Paul Demzik, for their outstanding performances over the weekend.

Running in the NCAA II South Central Regional meet, which also serves as an MIAA conference meet, Jan placed 8th in the region and 3rd in the conference, thereby qualifying for the national cross country championships to be held in St. Cloud, Minn., Nov. 13.

Despite being tripped at

the start of the race, Jan completed the rugged 3.1-mile course in 18:29.8, defeating many national class runners including two All Americas from Southeast Missouri State University.

Paul, a member of the Miner football squad, also had an excellent performance Saturday as he was named MIAA Player of the Week for his efforts in helping UMR defeat Evangel 32-22. Paul participated in 10 tackles (five

unassisted), threw two runners for losses totalling 10 yards, forced two fumbles, had one quarterback sack, and, with 1:15 left to play with the Miners holding a three point lead, intercepted a pass, thereby halting a last-minute attempt by Evangel to score. The play eventually led to another Miner touchdown.

The M-CLUB congratulates Jan and Paul and wishes them continued success for the remainder of the season.

Men's Cross country

Place 5th in MIAA

By SCOTT WHITE

The 25th Annual Men's MIAA and NCAA-Division II South Central Regional Cross-Country Championships were run on Saturday, Oct. 30, at the Central Missouri State University campus. The Pertle Springs Golf Course was the scene for the 10-kilometer championship race.

It was an extremely disappointing day for the Miners, who finished 7th overall and 5th in the MIAA. Following an identical workout schedule that in 1981 produced the Miners' best times of the year, the Harriers turned in their worst times of the year on Saturday. Dave Moore took 30th place overall and 1st on the team in 34:27.9. Kevin Stock was 35th in 35:01.6 followed by: Dan Lichtenwalner in 37th (35:05.6), Bruce Berwick in 38th (35:17.0), Pete Lichtenwalner in 41st (35:28.1), Clinton Campbell in 45th (35:47.5), and Jeff Peterson

did not finish after muscle cramps plagued him after 4 miles.

The MIAA's class runner, Mike Janatta of Southeast Missouri State, had his problems as well. With a quarter-mile lead after 4 miles, he finished in eighth

place overall. Ken Hoffman, also from Southeast Missouri State, took first place overall in 32:18.2.

Women's Soccer

Improve against Lindenwood

By NANCY REITER

Last Saturday the UMR women's soccer team hosted Lindenwood College in a rematch. In the first game, earlier this season, Lindenwood took a 2-0 overtime win. Although the Miners also lost Saturday's game by a 2-1 score, the entire competition had "IMPROVEMENT" written on it in big black and gold block letters.

UMR went from one shot on goal in the September game to 15 shots this time around. Lindenwood players took 20 shots, forcing UMR goalie Lisa Frumhoff to make 10 saves. The sole Miner tally was scored by Chris Waeckerle on a penalty kick late in the second half.

Coach McNally called the competition a "much better played game" and a "very even match."

These lady Miners will wrap up their season before this paper is out with a match against Southeast Missouri Tuesday evening in Cape. The Nov. 6 game has been canceled.

All the team members deserve a great deal of credit for making their season a success and establishing a sound foundation for women's soccer at UMR.

Sig Nu & Delta Tau Win Titles

Intramural Flag Football ended last Tuesday with Sig Nu defeating MHA-East 31-14 for the Division I title while Delta Tau downed

Newman 14-6 to capture the Division II crown. In Division I action, Sig Nu averaged a regular season loss to MHA-East. They

started off the scoring with a touchdown pass from quarterback Jay Todd to receiver Mark Lucas. An interception of a MHA-East pass, and a Todd to Larry Paine touchdown completion made the score 14-0. A Tom Connelly field goal made the score 17-0 at half.

MHA-East was the first to do anything in the half, scoring on a Mike Freeze to Tim Knapp touchdown pass.

After another change of possession, Sig Nu's Steve Riley intercepted an MHA pass and lateraled to Mark

Davis, who ran it in for the score. Sig Nu now leads 24-7.

MHA came back, however, as Tim Knapp caught a pass in the end zone. When Sig Nu scored once more, though, MHA-East was done for.

Division II's title game had most of its action in the first half. Newman scored first, but failed the extra point attempt. Delta Tau's QB, Nick Dungy, then connected with Pat Niewoerner for their first score. A little later he found Todd Grounds open for another TD.

Runners

from page 10

Doug Jones of Abilene Christian took second place a split second later in 32:18.8.

Central Missouri State University took first in the meet with 44 points, upsetting defending champion Southeast Missouri State. SEMSU took second with 49 points, followed by NWMSU with 51 points, Abilene Christian with 86 points, NEMSU with 156 points, Southwest Texas State with 162 points, UMR with 181 points, Stephen F. Austin

College with 200 points, and Lincoln University with 267 points.

The Miners finished fifth in the MIAA behind CMSU, SEMSU, NWMSU and NEMSU. The Miners will lose Dave Moore and Pete Lichtenwalner through graduation. The Miners cannot be disappointed with the outstanding season they've had and with the loss of only two runners from the team, the Miners should be very competitive next year.

Harriers

from page 9

wind which sprang up in the third mile slowed down almost everybody as Gail Halsey was the only Miner to improve her time. Gail

running with a painful pulled muscle in her side was the only Miner to improve her time consistently all season.

WE'LL BE OPEN FOR BREAKFAST AND LUNCH! 6:30 a.m. - 2 p.m.	Golden Arches Club 5 Archie (GA No. 110): Met Bill (GA No. 111) at McDonald's. "Gee, I'm glad to see you. That case of chicken you sent me, busted open and they escaped. I chased them through the neighbor's yard and only got back 11." Bill: "You did O.K. I only sent six." 12 Cathy Voss: "You deceived me before I married you. You told me you were well off." 19 Him: "Do you believe kissing is unhealthy?" Louise Maggi: "I couldn't say. I've never..." Him: "You've never been kissed?" Louise: "I've never been sick." 26 Jamie Anderson: "Is your dog intelligent?" Joy Von Nastrand: "Very!" When I say to him, "come here or don't come here, just as you please," he comes or he doesn't come, as he pleases."	Dave's Barber Shop 6 Dave: "If I saw a man beating a donkey and I stopped him, what virtue would I be showing?" Lloyd: "Brotherly love!" 13 Betty Franz: "Hey, Terry, while you were away, I saw a tall, dark man kissing your wife, Ivanna." Terry Harris: "Did he wear glasses, cowboy boots and have a VanDyke beard?" Betty: "Yes." Terry: "That's my assistant. He'll kiss anybody." 20 Nan Edmiston: "My husband, Duncan, is crazy about me. He says such nice things in his sleep, but he always calls me by the wrong name." 27 Tom & Pam Zalach ordered dinner, then called Margaret (Oak Meadows famous chef) over. Tom said, "There's a fly in my soup." Margaret (flustered): "Please have a free dinner on the house." After dinner, in their car, Tom said, "Let's find an ice cream parlor. I've got one fly left!"

International Soccer League

Submitted by ISC

Two exciting semi-final games were played last Saturday in the ISC Soccer League. In the first game, 30 minutes of overtime play was necessary before Iran could defeat Turkey 3-1, in a very close and hard-fought game. Although eliminated from further play, the Turks went out bravely. The other semi-final saw what many considered the first real "upset" of the tournament. The Group 1 leaders, Peru, were eliminated by Greece in an extremely close and physical battle; final score 2-1. Ironically, the first game to be lost by Peru also became their last. Iran now remains the only undefeated team. On Saturday, Nov. 6, the final game will be played:

IRAN-GREECE (FINALS)
Referee: Qassem Al-Hakkak (Kuwait)
Linesmen: A. Hamdi (Algeria), M. Zoukaghe (Morocco)

Backup Referee: Ashraf Hosny (Egypt)

Time: 1:30 p.m. sharp
Date: Saturday, Nov. 6

The ISC wishes to invite everyone to a meeting on Nov. 12, 1982, at 7 p.m. in G-5, H-SS in which a trophy will be presented to the winner; this will be followed by a slide presentation of highlights of the 1982 Soccer League.

Soccer

from page 8

was at that time 2-0. This is how the game ended. Also, this is how the Miners chance for a national title ended. For seniors Don Anselm, Mike Shillito, Tom Kinney, Chris Generous, and Steve Svoboda, this is the last week of their collegiate careers. It sure would be nice if the Miners, led by these five, can bring home a conference title to UMR.
