Army ROTC chosen to take part in training program

By: Missy Hagler
Staff Writer

The military science department (Army ROTC) at the University of Missouri-Rolla has been chosen to participate in the Department of the Army Scientific and Engineering Reserve Officers' Training Corps Cooperative Program.

UMR was one of only two universities in Missouri selected to take part in the program, according to Maj. Julius Fraley, assistant professor of military

science at UMR.

Fraley said that the Army has developed the co-op program to encourage science and engineering students to enroll in Army ROTC.

"The Army needs scientists and engineers as Army officers and in the civilian work force of its laboratories and engineering facilities. The co-op experience will help students to better prepare themselves for both military duty and a civilian service position," he said.

Fraley explained that co-op students

will alternate semesters of Department of the Army employment and semesters of class work. During their work semesters students will earn a current pay rate salary. Co-op students also will be eligible for Army ROTC scholarships.

"After graduation co-op students will be eligible to acquire civil service status and receive their commission as Army officers," he continued. "They may serve on active duty with a guaranteed civil service job at the time of dis-

charge, or they may be guaranteed an Army Reserve or Army National Guard assignment with an immediate full-time civil service position."

To qualify for the program students must be attending UMR full-time and have completed at least one year with a 2.0 grade point average or better. Students also must be enrolled in Army ROTC and be recommended by their professor of military science.

For more information concerning the program contact Fraley, at 314-341-4744.

Teaching, computer and art courses offered

Source: OPI

"Advanced Basic Intro/Structural Programming" (Computer Science 373), will be one of three evening courses in computer science to be offered by Arts and Sciences Continuing Education at the University of Missouri-Rolla this fall.

The three-credit-hour course will be offered from 6-9 p.m. Tuesdays Sept. 2 through Dec. 16 in Room 216 of the Mathematics-Computer Science Building. Fee for the course is \$189.

Other computer science evening courses being offered at UMR this fall include:

"Introduction to Basic Language" (Computer Science 371), three credit hours. The course will be offered from 6-9 p.m. Mondays Sept. 8 through Dec. 10 in Room 209 of the Mathematics-Computer Science Building. Fee for the course is \$189.

"Software Application on the PC" (Computer Science 372), three credit hours. The course will be offered from 6-9 p.m. Thursdays Sept. 4 through Dec. 18 in Room 207 of the Mathematics-Computer Science Building. Fee for the course is \$189.

Arts and Sciences Continuing Education at UMR also will offer other evening credit courses this fall. They are:

"Teacher Field Experience" (Applied Arts and Cultural Studies 102), two credit hours. The course will be offered Aug. 28 through Dec. 18 in Room G-8 Humanities-Social Sciences Building. The day and time of the course will be arranged. Fee for the course is \$94.

"Teacher Aiding" (Applied Arts and Cultural Studies T-164), two credit hours. The course will be offered Aug. 28 through Dec. 18 in Room G-8 Humanities-Social Sciences Building. The day and time of the course will be arranged. Fee for the course is \$94.

"Social Studies for Elementary Teachers" (Applied Arts and Cultural Studies T-350), three credit hours. The course will be offered from 6-9 p.m. Tuesdays Sept. 2 through Dec. 16 in Room G-8 Humanities-Social Sciences Building. Fee for the course is \$141.

"Music for Elementary Teachers" (Music T-255), three credit hours. The course will be offered from 6-9 p.m. Mondays Sept. 8 through Dec. 15 in Room 205 Humanities-Social Sciences Building. Fee for the course is \$141.

"Private Keyboard" (Music 100B), two credit hours. The course will be offered Aug. 28 through Dec. 18. The day, time and room for the course will be arranged. Fee for the course is \$94.

"Psychology of the Exceptional Child" (Psychology 354), three credit hours. The course will be offered from 6-9 p.m. Mondays Sept. 8 through Dec. 15 in Room 102 Humanities-Social Sciences Building. Fee for the course is \$141.

"Writing and Editing for Print Media" (Speech and Media Studies 100), three credit hours. The course will be offered from 6-9 p.m. Wednesdays Sept. 3 through Dec. 17 in Room 207 of the Mathematics-Computer Science Building. Fee for the course is \$141.

"The Study of Photography" (Speech and Media Studies 221), three credit hours. The course will be offered from 6-9 p.m. Tuesdays Sept. 9 through Dec. 16 in Room G-9 Humanities-Social Sciences Building. Fee for the course is \$141.

Four evening art courses will be offered by Arts and Sciences Continuing Education at UMR this fall.

"Drawing I" (Art 20), three credit hours. The course will be offered from 6-9 p.m. Wednesdays Sept. 3 through Dec. 17 in Room 203 Humanities-Social Sciences Building. Fee for the course is \$141.

"Drawing II" (Art 30), three credit hours. This course involves the application of drawing principles, both cast

and life drawing, and exercises representational rendering. The course will be offered from 6-9 p.m. Thursdays Sept. 11 through Dec. 18 in Room 203 Humanities-Social Sciences Building. Fee for the course is \$141.

"Painting I" (Art 40), three credit hours. The course will be offered from 6-9 p.m. Mondays Sept. 8 through Dec. 15 in Room 139 of the Chemical Engineering Building. Fee for the course is \$141.

"Painting II" (Art 50), three credit hours. This course is a continuation of Art 40, "Painting I." The class will meet from 6-9 p.m. Thursdays Sept. 11 through Dec. 18 in Room 139 of the Chemical Engineering Building. Fee for the course is \$141.

Instructor for these courses is Leo J. Soisson, UMR lecturer in art. Soisson holds an A.A. degree from Florissant Valley Community College and a B.S. degree in art education and a M.F.A. degree in drawing from Southern Illinois University.

According to Dr. Stephen Douglas, UMR director of educational services, advance registration is requested to ensure class formation. Class size is limited.

For further information contact Douglas at 314-341-4131.

UMR Health Services here for students

Submitted by Health Services

The UMR Health Service is open to all students who have a history on file with us and present a valid identification card. We are located at 1111 State Street now but will move soon to our new building at 14th and Bishop.

Open from 8 a.m. to 8 p.m. for routine care or problems and after 8 p.m. for emergencies, the Health Service is staffed by registered nurses. Medical doctors make a "sick call" visit weekdays in the morning and afternoon. Our staff includes an internist, a surgeon and a family practitioner. A psychiatrist has office hours one afternoon a week at the Health Service location.

Inpatient care is available for those who are too sick to be comfortable in their rooms.

Health Service can help you with your strains, sprains, bruises, lacerations, colds, sore throats, strep throat, flu, mono, ingrown toenails, warts, ear problems, allergy injections, athletes foot and various other problems and infections. Although we can take care of most of your routine and emergency needs, we encourage you to carry some type of medical insurance.

We are here for STUDENTS! No problem is too minor or major for us to discuss with you. Watch for monthly articles on your health here in the *Miner*.

Thank you for the good response to the Measles/Rubella Immunization Form. We are trying to contact students who have incomplete forms turned in—the main reason is being vaccinated before 1968. Come by and if necessary, measles/rubella vaccinations are available at no charge.

Jischke brown bags it

UMR faculty, staff and students in a conversation with UMR Chancellor Martin C. Jischke during a recent "Brown Bag Lunch" discussion session. (Photo by OPI)

Educational Assistants wanted

Submitted by: MSM-UMR Alumni Association

The MSM-UMR Alumni Association is looking for students wishing to participate in its Educational Assistant Program. Through this program, a student performs scholarly research and work under the supervision of a faculty member. The Alumni Association pays the student for his or her work using a sliding scale beginning at \$3.45 an hour.

The actual rate paid varies depending upon both the project's complexity and the student's experience.

Students wishing to participate in the program can obtain an application from the Alumni Association's campus office at 101 Harris Hall. The application must be completed by the supervising faculty member and must be returned to the Alumni Office by

September.

Projects have varied from year to year and usually are connected with some aspects of the student's major field of study. Past projects have ranged from computer enhancements of radar displays to cataloging the music department's extensive sheet music collection. The selection committee is always interested in new fields of study.

Institute of Transportation Engineers wins award

By: Missy Hagler
Staff Writer

The Institute of Transportation Engineers student chapter at the University of Missouri-Rolla recently won an honorable mention in the 1986 Institute of Transportation Engineers competition. The competition was based on each student chapter's annual report concerning new membership, meaning-

ful student activities and professional development.

The UMR student chapter also received first place and \$100 in the Missouri Valley of the Institute of Engineers (MOVITE) level and first place in the district level.

UMR competed among 59 other student chapters of the Institute and

was one of only two schools selected to receive an honorable mention in the national level.

The honorable mention award will consist of a certificate of recognition that will be presented at the Annual Business Meeting on Tuesday, Sept. 9, in the White River Ballroom of the Indiana Convention Center and Hoosier Dome in Indianapolis.

calendar of events

Tuesday

There will be a Co-op Club meeting Sept. 9, 6:30 p.m. in Room 206 of the Chemical Engineering Building.

UMR Women's soccer, Lindenwood, 5:30 p.m., soccer complex. Free.

UMR Men's soccer, Lindenwood, 7:30 p.m., soccer complex. Admission charged.

Wednesday

There will be a SUB Outdoor Recreation Committee meeting Wednesday, Sept. 10 at 6 p.m. in the SUB office. New members are welcome.

There will be a IEEE meeting Wednesday, Sept. 10 at 7 p.m. Committee positions are open, freshmen are welcome.

SUB Public Relations Committee will have a meeting in the SUB office, Room 217, University Center-West at 8 p.m. Wednesday. New members welcome!

There will be a meeting of the UMR Cycling Club Wednesday, Sept. 10 at 4:30 in Room 118, Mechanical Engineering Building. Everyone welcome.

Sigma Xi meeting, "A Medical Ultrasound Instrument," Thomas Herrick and William David Richard, UMR, noon, Mark Twain Room. Bring your lunch.

ACM (Association of Computing Machinery) will have their first meeting Wednesday at 7 p.m. in 125 Chem. E. Dr. Zobrist, C.Sc. Department head will be our first speaker. New members welcomed.

Thursday

UMR College Republicans will meet Thursday, Sept. 11 at 7 in the Maramee Room, University Center-East. Info: 364-1490 or 364-7476.

American Society of Engineering Management will meet this Thursday, Sept. 11 at 6:30 in the G-3 auditorium of the Chemical Engineering Building.

University of Missouri Board of Curators meeting in Columbia, Thursday and Friday.

Physics colloquium, "Particle Physics Beyond the Standard Gauge Model," Dr. Ta-Pei Cheng, physics department, UMSL, 4 p.m., 104 Physics. Free.

Taiwan Cultural Show, Youth Goodwill Mission from the Republic of China, 7 p.m., Rolla Middle School gymnasium. Admission \$2 per person.

UMR Film Series, *Elvira Madigan* 7:30 p.m., Miles Auditorium, Mechanical Engineering Building. Season ticket or \$3 at the door.

Friday

A note from Inter Varsity Christian Fellowship (IVCF): I hope you didn't miss our intro meeting/BBQ last week. We look forward to meeting you (you know who you are) as we continue our tradition. Join us this Friday at 7 p.m. in Chem. Eng. 139. Try it, you'll like it!

Theta Tau Omega's fall smoker will be held Friday, Sept. 12, 3-5:30 p.m. at PiKA. Interviews will be Friday, Sept. 19 at TKE. Applicants must be of junior standing, 60 hours completed. For more information call Red at 364-2844.

Saturday

MSPE Shrimp Feed, 6 p.m., Lions Club Park, Pavilion #1. Call 4153 for reservations. Tickets are \$14. Proceeds benefit Rolla chapter's scholarship fund.

Sunday

KMNR presents the *Sunset Jazz Show* from 6 p.m. 9 p.m. Tune to 89.7 on your FM dial for the best in jazz each and every week. Requests are welcome!

Monday

Christian Christian Fellowship will hold Monday Night Fellowship in the Mark Twain Room, University Center-West at 7 p.m. Everyone is welcome. There will be singing, sharing and a sermonette.

Noday

Chemistry help sessions conducted by Alpha Chi Sigma, a professional chemistry fraternity, will be held every Tuesday and Thursday 7 9 p.m. in Chem. Eng. 126. Come on by!

On the Loose, in the Miner Recreation Building, is now open for business Monday and Friday, 1 4:30 and Wednesday and Thursday, 1 3 p.m. They have a full line of backpacking and camping equipment, canoes, coolers, soda, ice and volleyball standards for rental to UMR students and faculty. Call 364-2521 for reservations and information.

Hot Tub Rentals

Great for Parties
Seats 10-12 people

Double A Bubble Tubs

341-3322

(c/o Bishop's 800 Pine St.)

The Beach Tanning Salon

Sunbed Beds with Wolfe System
Face Tanners, Individual Am/FM Cass. Stereos

Appointments available - Walk-ins Welcome

Open 9-8 Monday-Friday 9-5 Saturday

808 Pine St. 364-0017

Appropriation forms due

Submitted by Student Council

Campus organizations interested in a Student Council appropriation may obtain an application from the door of the Student Council Office, 202 University Center-West.

The applications must be completed

and returned to the Student Council office by 2:30 p.m., Tuesday, September 16, 1986. Organizations will be requested to send a representative for an interview with the Campus Organizations Committee to answer questions about their applications.

remember

This is a reminder that all submissions must be in the *Missouri Miner's* drop box by 4:30 p.m. on the Thursday before the paper comes out. The drop box is located on the first floor of the Rolla Bldg., east side.

Missouri Miner

The *Missouri Miner* is the official publication of the students of the University of Missouri-Rolla. It is published each Tuesday at Rolla, Missouri and features activities of the students of UMR.

Submissions for publication must be in our drop box (first floor of the Rolla Building) by 4:30 p.m. on the Thursday before publication or may be brought to the staff meetings at 5:30 p.m. on the same Thursday.

Advertising information may be had by contacting the Advertising Director at 341-4235.

World Court assaults U.S. sovereignty

By Cordell Smith
Staff Writer

This past summer, the International Court of Justice, or World Court, agreed with the Communist government of Nicaragua that the United States was violating international law in its Central American policy.

The Reagan Administration had already stated that the U.S. would ignore the Court's decision, and so far, that is what has happened. Critics, however, allege that the Administration should change its policy to bring it into line with the Court's proclamation, and cite traditional American respect for law as justification for their position.

As it turns out, though, the argument those critics advance is entirely inaccurate. Respect for law does not demand that America bow down to the World Court. If anything, our law demands that we ignore the Court.

A Look at the Constitution

Perhaps a good way to start is by determining just what is meant by "the law." Fortunately, the Constitution addresses this question, at least to the degree needed here:

This Constitution, and the laws of the United States which shall be made in pursuance thereof; and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land . . . (Article VI)

Nowhere does that definition of "the law" include any reference to the decisions of the World Court, no matter how solemn such decisions might be. Article VI does not bind the United States to the World Court in any direct way.

The next consideration, then, is to determine if the Article binds the U.S. to the Court in an indirect way. Does the reference to treaties force the U.S. to comply with the Court's attempted dictates?

The answer to this is "no," also. If the Court's decision were to be a treaty, it would have to be enrolled as such, signed by the President, and endorsed by two-thirds of the Senators present at the time the Senate considered the pact. None of these steps has been taken, so the decision cannot be considered a treaty as defined by Article II, Section Two, Clause 2 of the Constitution.

Violating the Constitution

When the U.S. originally joined the Court, though, an attempt was made to circumvent this Constitutional process. The Senate adopted a statute mandating automatic U.S. compliance with the World Court's decisions in virtually all cases whatever. This treaty was cancelled earlier this year, in an entirely legal manner, by President Reagan. Accordingly, the U.S. should not feel bound by the recent World Court declaration.

Even if the automatic compliance pact were still in effect, however, the U.S. still would not be bound by the Court opinion. This automatic compliance concept is and was a gross violation of the Constitution.

Article I, Section Eight, Clause 10 of the Constitution confers upon Congress the power "to define and punish . . . offenses against the law of nations." Prosecutions for such offenses are to take place before the federal judiciary, comprising "one supreme Court, and . . . such inferior Courts as the Congress may, from time to time, ordain and establish." (Article III, Section One) If the World Court decisions are to be binding upon the U.S. govern-

ment (which includes, of course, the federal judiciary) then the World Court must of necessity have the power to order even the Supreme Court to comply with its demands, in case the World Court finds some Supreme Court opinion unpalatable.

This means, then, that the World Court—as originally combined with the automatic compliance agreement—represents an effort to create a tribunal superior to the Supreme Court of the United States. Not even the most tortured interpretation of the Constitution can authorize such an effort.

George III Reincarnated

Viewed in that light, the World Court is exposed as a serious threat to the Constitutional sovereignty of the United States. In fact, it is reminiscent of one of the complaints made against King George III of Great Britain in the 1776 Declaration of Independence:

He has combined with others to subject us to a jurisdiction foreign to our Constitution, and unacknowledged by our laws; giving his assent to their Acts of pretended legislation . . . for taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments . . .

That sounds very much like a modern-day complaint against the World Court. It also shows why President Reagan was right in ignoring the World Court's recent decision. It is to be hoped that, ultimately, Americans will stop deceiving themselves about the dangers of U.S. participation in the World Court, and will demand that the U.S. abandon it entirely.

letters to the editor

Dear Editor,

I have recently encountered a problem here at UMR that I would like to present to the students, the teachers and the Chancellor. The problem is that I believe that pornography has entered the classroom at UMR. I have an instructor who is requiring that we read the novel *Lolita*, a book that is pornography in the truest sense.

First of all, what exactly is pornography? Edwin Meese seemed to have trouble with its definition, but I think I have a good grasp on its meaning. Pornography is anything that sexually arouses someone. Included would be such things as "girlie" magazines, X-rated movies, most R-rated movies, many PG-13 movies, TV soap operas, most evening TV shows, many advertisements (such as practically naked

models in catalogs promoting underwear) and books such as *Lolita*.

On the back of the book is, "Vladimir Nabokov's World-Famous Erotic Masterpiece. It is about a middle-aged man's tormented desire for his nymphet stepdaughter [who is only 12]." Inside the cover is, "Almost every page sets forth some explicit erotic emotion or some overt erotic action . . ." I glanced at a page in the text and found the material too disgusting and offensive to print here.

God has warned us with "Thou shalt not commit adultery." (Exodus 20:14) Jesus explained to us what adultery included with "Anyone who looks at a woman lustfully has already committed adultery with her in his heart." (Matthew 5:28) Paul warns us that "Neither the sexually immoral nor idol-

aters nor adulterers nor male prostitutes nor homosexual offenders . . . will inherit the kingdom of God." (I Corinthians 6:9-10)

Pornography wreaks havoc on society. It leads people to divorce, suicide, depression, fornication, Satanism, drinking, guilt, murder, hatred, orgies, indecency, jealousy, immorality, loneliness, wickedness, anger, fear, evil and many other psychological and sociological problems.

Pornography is certainly a serious disease that we must find a cure for, but reading the trash is not going to bring about a solution. The main point that I'm trying to get at is that *Lolita* is 100% pornography, and I just want to know why I must be subjected to such filth.

—A member of the Moral Minority

and the editor's response

Dear Moral Minority Member:

First, I must say that I personally have not read *Lolita* but I am aware of its subject matter. And while you may find it offensive others may see it as a great literary work. The reason that *Lolita* is taught in a college literature course is because many people do see it as a great literary work.

Throughout the ages works of art and literature have been labeled as vulgar or pornographic. For example, the nude paintings and sculptures of the great masters like Michaelangelo and

Da Vinci and the writings of Shakespeare and Chaucer. Had these works been successfully banned by those who considered them offensive the modern world would have no record of a great deal of our cultural heritage.

You said in your letter that you "just wanted to know why you must be subjected to this filth." I do not see why you feel you are being forced to read *Lolita*.

I did some investigation into the subject and spoke with the only professor who is using *Lolita* in a class this

semester.

My first suggestion to you would be to speak with your professor and see if you could read another book instead. However, no one has approached the professor on this topic yet.

Second, the course that *Lolita* is required reading in (English 106: Introduction to American Masterpieces II) has another section in which *Lolita* is not required. And, furthermore, English 106 is not a required course—not

see Response page 7

Twenty-five cent surcharge added

By Michael Woodward
Staff Writer

The University Bookstore has now added a twenty-five cent surcharge for cashing checks. Jess Zink, director of Auxiliary Services, said the surcharge was adopted to "help defray the cost of personnel, and the cost associated with processing the checks." Dan Klingenberg, Bookstore manager, added that

the high volume of checks tied up large amounts of money.

According to Zink, the practice of having a surcharge for check cashing is not uncommon at most universities. At one time, there was a surcharge of ten cents for private checks cashed through the University. After the service was moved from the Information Desk to the University Bookstore, the surcharge was dropped as a "gesture of goodwill."

Your basic problem:

Physics
Genetics
Statistics
Calculus
Complex Numbers
Analytical Geometry
Stress Analysis
Organic Chemistry
Probability
Gaussian Transformations
Differential Equations
Titrations
Electromagnetics
Thermodynamics
Fluid Mechanics
Etc., etc., etc. . .

Your BASIC solution:

Introducing BASICALC™. The new Texas Instruments programmable calculator.

Now there's a programmable scientific calculator that solves even the most complex math, engineering and science problems in a BASIC way. The TI-74 BASICALC.

Unlike most other programmable calculators that require you to learn a new, complicated system of keystroke commands—in effect, a new

programming language—the TI-74 BASICALC allows you to use the BASIC language programming you already know.

But don't let the BASICALC's ease of operation fool you. It also has more calculating power than comparably-priced programmables. And a variety of options, like software cartridges, are available that make it even more powerful and convenient.

Stop by and see the TI-74 BASICALC for yourself. In basic terms, what it really offers you is a bargain.

**TEXAS
INSTRUMENTS**

Your basic specs:

- Operates as a calculator or BASIC computer
- 8K RAM expandable to 16K RAM
- 70 built-in scientific functions
- Optional software cartridges for mathematics and statistics
- Optional PASCAL language cartridge
- Optional printer and cassette interface

© 1986 TI

Your basic campus demonstration:
Texas Instruments will be conducting a free hands-on demonstration of the new TI-74 BASICALC. Check with University Bookstore for dates and times.

Munger wins award

Submitted by National Council of Engineering Examiners

Paul R. Munger, P.E., a professor at the University of Missouri-Rolla, received the National Council of Engineering Examiners' (NCEE) highest award, the Distinguished Service Award, during special ceremonies during the organization's 65th annual meeting in St. Louis.

The award is presented in recognition of dedicated and outstanding contributions to the advancement of professional engineering and/or land surveying registration through service to the state regulatory board and to NCEE. Munger was cited for twelve years of service on the Missouri state board and five years as a member of the NCEE Board of Directors.

Organized in 1920, NCEE presently serves 54 state and five other legal jurisdictions for engineering and land surveying registration by preparing uniform examinations for candidates seeking registration as professional engineers and land surveyors and encourag-

ing uniform standards of practice and qualifications for registration.

Munger holds bachelors and masters degrees from the University of Missouri-Rolla and a Ph.D. degree from the University of Arkansas. He is the director of the Institute of River Studies at the University of Missouri-Rolla.

UMR's Knight discovers Shakespeare's signature

Source: OPI

The International Shakespeare Association invited Dr. W. Nicholas Knight, professor of English at the University of Missouri-Rolla, to present his paper "New Shakespeare Signature: Image or Autograph" at its West Berlin Congress, which was held last spring.

The paper details Knight's discovery of a Shakespeare signature in a volume at the Folger Shakespeare Library, Washington, D.C., and presents paleographic historical evidence for authenticating that and another similar signature.

"These would be the eighth and ninth known authentic Shakespeare signatures," Knight said.

(In 1971 Knight also discovered the seventh known genuine Shakespeare signature in a copy of a legal textbook entitled *Archainomia* in the Folger Library. The book, which was edited by William Lambarde in 1568, contains ancient statutes in Anglo-Saxon, Latin translations and commentary.)

According to Knight, his paper was one of two chosen from among 50 for presentation at the congress. "This recognition of my work by the International Shakespeare Association is a great honor," Knight said.

Knight explained that his discovery of the signature has yielded double literary dividends.

"The signature which I found in a copy of John Florio's 1603 translation of the French essayist Montaigne is, I believe, authentic," he explained. "The discovery of this signature also made it possible to verify another signature as genuine. That autograph, which also appears in a copy of Florio, is in the possession of the British Library."

In comparing the two Florio autographs with the other seven known Shakespeare signatures, Knight noticed numerous and striking similarities.

"The form and execution of four of the six letters in the first name of the Florio signature also can be found in the other seven," he said. "With the last name, the similarities and identification become even more obvious."

Knight's study of the two Florio signatures also led him to characterize them as "not identical but similar to each other."

"There are subtle differences in the two signatures, but differences also exist among the other seven signatures," Knight said. "No one, including Shakespeare, signs their name exactly the same every time. In fact, the three signatures that appear on Shakespeare's will and which are believed to have been signed at the same time exhibit more differences than the two Florio signatures."

"The two signatures are not tracings or copies of each other," he added. "The indications are that they are both by the same hand and were signed in the same place in each book only moments apart."

Knight maintains that another important factor in determining the authenticity of the signature in the Folger Library's copy of Florio is the ownership of the book, which he has traced to 17th-century descendants by marriage of Shakespeare's and possibly even to the dramatist's eldest daughter.

"The owner of the book, at one point, may have been a 'Carol,' 'Carole,' 'Carol' (Latin for Charles) or 'Cath.' Barnard as indicated by a signature in the upper right-hand corner of the title page of the book," he said. "Knowing this it is possible to trace the book back to Shakespeare's eldest daughter, Susanna."

Knight explained that Susanna married the noted physician Dr. John Hall in 1607. Their only daughter, Eliza beth, married Thomas Nash in 1626. Nash died in 1647, and, in 1649, Elizabeth married John Bernard or Barnard.

Several years after their marriage, Knight continued, John and Elizabeth moved to the seat of the Bernard family at Abington Manor in Northamptonshire. Elizabeth's stepchildren, of which there were eight, included a Charles and a Catherine. There also was a Catherine Barnsdale Bernard, who married a member of the Thomas family and had a son named Charles in 1615.

Charles married Elizabeth Sheppard and their third son, Philip, married Catharine Bambrick Bernard. Catharine and Philip, in turn, had a daughter named Catherine Bernard.

Knight suggests there are several ways in which the book may have become the possession of Charles or Catherine Bernard.

St. Pat's Facts

By Mike Gross

Yes, it's only 4 days away! It's happening Saturday, Sept. 13, from 12 noon to 4:30 p.m.! It's the biggest party of the semester! It's Septemberfest '86! C'mon out to Lions Club Park, get psyched for the "Best Ever," and let the St. Pat's Board treat you to an afternoon of fun-in-the-sun. This year's Septemberfest will be rockin' to the tunes of Diamond, and will feature the sexy legs contest (wooo-weee!), lots of beverages, and the second annual "Psych-a-thon." Buttons for the event of the semester are still available at the Puck for \$3.00. Get them early. They will be \$5.00 at the gate.

This year's Psych-a-thon includes three events—the Keg Toss, the Keg Relay and the Keg Carry. Each organization is encouraged to send a four-man team to participate. The overall winners will receive a 1/2 bbl. of their favorite beverage, and the second place

team will receive a 1/4 bbl. of the same. There is a small fee of \$5.00 to enter.

Buses will be running Saturday to and from the park from the EE Building, the Multi-Purpose Building and Fraternity Row. Be smart! Don't drink and drive! Ride the bus. It's free, and it's convenient. (A \$10.00 parking fee will be charged at the park.)

For those of you who can't stand to wait till Saturday to party (and I know there are many), there is a Belly-Up at the Cavern on Friday night. The fun begins at 8:00 p.m. and will continue late into the evening. Come out, have fun, wear your buttons, and show everyone that you're psyched for the best Septemberfest ever!

184 DAZE LEFT

P.S. The Board is still accepting designs for the 1987 St. Pat's sweatshirts. Designs are due by this Saturday. Enter today—you may be that lucky person whose talent will be displayed on thousands of shirts!

Classifieds

Two male roommates needed. Share a house located at the south end of campus, almost completely furnished. Available now. Rent: 3 people, \$100 each plus utilities; 4 people, \$75 each plus utilities. Call 364-2272.

Sigma Pi invites all interested women to come over this Friday for a "Boxers and Bowties" little sister rush party from 8-11. For more information or a ride, call 364-9783.

For sale: Radio Shack PC-5 pocket computer in perfect condition for \$75. Call Carl at 341-2053.

Precious. Our time together has been fabulous. I am sure these next months will be just as wonderful. Love always!

—A.M.O.

M-Club members. Be active participants in our activities this semester. Only you can make it happen.

The White Roses of Sigma Tau Gamma cordially invite all women to a Sock Hop, Tuesday, Sept. 9, 7-10 p.m. Come on out and have some fun! For information and escort, call 364-5226.

Theta Tau Omega holds smoker

Submitted by Theta Tau Omega

Theta Tau Omega professional engineering fraternity will be holding this semester's smoker Sept. 12 at PiKA from 3-5:30 p.m. Interviews will be held the following Friday evening at TKE.

Applications may be picked up at the University Center-East Candy Counter. Applications will also be available at the smoker. The applications should be turned in at the smoker, or by Tuesday afternoon Sept. 16 at the

Response

from page 3

even for English majors! Therefore, I must wonder (if you object that strongly to reading *Lolita*) why you have not approached your professor, changed sections, or dropped the class entirely.

In addition, I would like to say that I think your definition of pornography is **extremely** vague. By defining it as "anything that sexually arouses someone," pornography could be anything from "girlie magazines" (as you call them) to argyle socks depending on the person.

Also by your definition some people could be sexually aroused by seeing in print reference to a woman's breasts and therefore it would be pornography. Reference to a woman's breasts can be found throughout the Song of Solomon in the Holy Bible. Does this mean that the Bible too is pornography and should be banned? I surely hope not.

On the other hand many people may not find *Lolita* sexually arousing and therefore by your definition it would not be pornographic for them. The way you have defined it pornography is a matter of each individual's opinion. To ban what you believe to be pornographic would be an infringement on the constitutional rights of others.

The United States Constitution guarantees us of the right to freedom of expression. Just as you have the right to express your views in this newspaper, Vladimir Nabokov had the right to express his in *Lolita*. This means that just because you find *Lolita* offensive you do not have the right to forbid others to read it. However it also means that you do not have to read it if you do not wish to and I see no evidence that you are being forced to do so.

Do not misunderstand me. I agree that the sexual exploitation of people in this country is a problem. However, I do not think that a controversial book required in a college course is a problem of great magnitude. If people are really concerned about the problem of pornography they should be putting their efforts into rescuing the children and others who have been kidnapped by (or have run away from home and into the clutches of) pimps and pornographers, not wasting their efforts on banning controversial books.

One point I would like to reemphasize is that by your definition pornography is a very subjective thing. What is pornography to one is not to another. If you find *Lolita* offensive and pornographic you have every right to refuse to read it. But you do not have the right to make that choice for others.

Sincerely,
Mella J. Baxter
Editor-in-Chief

Even today, there are still a few students
who don't have an HP calculator.

Burning the midnight oil may be necessary.

Burning the 2:00 or 3:00 or 4:00 AM oil is absurd.

Especially when an HP calculator can get the answers you want—in time to get a good night's sleep.

For instance, our HP-15C Professional Scientific Calculator has more built-in advanced math and statistical power than any other calculator. Our HP-41C Advanced Scientific Calculators have even more potential.

That's because there are better than 2500 software packages available for them—more than for any other calculator.

There's even a special plug-in software package (we call it the Advantage Module) that's designed to handle the specific problems an engineering student has to solve in his, or her, course work.

No wonder professionals in engineering and the physical sciences widely regard HP calculators as the best you can get.

So check one out. Then, when your mother calls to ask if you're getting enough sleep, you won't have to lie.

By the way, if you want more information, just give us a call at 800-FOR-HPPC. Ask for Dept. 658C.

Graphic proof of high-tech leadership.

The Casio fx-7000G \$79.95 It's the world's first programmable scientific calculator with a graphic display. The only calculator that can give form to your figures, instantly drawing graphs that represent your formulas and calculations on its big LCD screen.

And with a screen measuring 16 characters by 8 lines, the fx-7000G can display enough information for some of your biggest ideas. The formula or graph can then be stored and, when needed,

brought back for an instant replay.

The fx-7000G has 82 scientific functions—including linear regression, standard deviation, as well as binary, octal and hexadecimal calculations—making it useful in virtually any scientific or technical endeavor.

In fact, without requiring computer knowledge—or costing computer dollars—the fx-7000G, with its 422 step memory, performs many functions you'd otherwise find only on a computer.

There's ample evi-

dence of Casio's high-tech leadership throughout our entire line of scientific calculators. Our smaller-screen fx-6000G, for example, offers many of the features of our fx-7000G at even a smaller price.

If you have any doubt as to who's the leader in high-tech calculators, simply pick up an fx-7000G and draw your own conclusions.

Miners victorious over Griffins

By Kevin McClarren
Staff Writer

Execution was the main ingredient in the Miner's impressive win over Missouri Western in their home opener. The final score was 38 - 22. Charlie Finely, the Miner's head coach, said that his "team offensively executed well against the veteran defence of the MW Griffons." Last year the Griffons defeated UM-Rolla 24-15 in a game which featured many costly turnovers by the Miners. This year was a complete turnaround. Instead of the Miners turning over the ball, it was the Griffons. Missouri Western turned the ball over three times, each resulting in a score. Both Keenan Curry's and Tom Reed's fine rushing attack set up a most impressive aerial display by UMR's Brad Haug.

The Miners kicked off to Missouri Western who scored a touchdown on their first possession. The Miners played against the run extremely well but seemed to have trouble with the pass defense. Rob Vanderlinden, the quarterback for MW, completed four out of his five pass attempts for 54 yards. Vanderlinden took the ball down to the two yard line where the Griffons running back Eckhardt ran it in for a touchdown. That was the only time the Griffons scored in the first half.

The Miners started off their first possession on their own 35 yard line. By a combination of good passing and hard running, the Miners slowly decided to go for it on a fourth down and inches situation at the two yard line. Tom Reed from the Miners got the necessary yardage to get the first down, and two plays later Brad Haug ran it in on a quarterback sneak.

The drive consisted of 17 plays and took up nearly eight minutes of play. In doing this, UM-Rolla showed that they could sustain a long offensive. This drive was a key factor in the game. From then on all the momentum shifted to the Miners.

Alex Nagy then kicked off for UMR and the Griffons ran it back to the 29 yard line. The Griffons gained a total of four yards on their second possession and had to punt away. The UMR offensive line took control of the ball on their own 36 yard line. The Miners then took it to the ground rushing to the Griffons' 26 yard line.

Shutting them down: The Miner defense halts the Griffin attack. The Griffin's 22 points weren't enough as the Miners won 38-22. (Photo by Bill Macy)

UMR did a little razzle dazzle play when the fullback Brian Andrzejewski faked the run and passed to Ron Reimer for a touchdown. The score went to 14-7.

After the Griffons and Miners traded possessions, the Griffons' quarterback Vanderlinden threw a pass which was intercepted by the Miners' Vernon Huggans. The Miners then drove the ball down the field and scored. Tom Reed rushed five yards to score the touchdown. The score went to 21-7. Then, on the Griffons' next possession Vanderlinden was intercepted again, this time by Lloyd Flowers who ran it back 48 yards to the 21 yard line. And with three seconds left in the half Brad Haug passed to Ron Reimer for a touchdown. The half ended with the Miners leading 28 to 7.

The second half started off well when UMR received the ball and drove down to the 14 yard line to set up a 21 yard field goal by Jim Zachy. The Griffons then climbed back into the game with four minutes and 35

seconds left in the third quarter on a E. Hoskins ten yard touchdown run. The score went to 31-15. But on the next possession the Miners' offensive came right back and closed the doors on the Griffons, scoring a touchdown by Tom Reed on a two yard run.

MINER STATS

Brad Haug completed nine out of 15 passes for 125 yards for the Miners.

Ron Reimer caught four passes for 85 yards, leading the Miners in passing.

Keenan Curry led the game in rushing with 76 yards on 16 attempts.

The Miners had 24 first downs compared to 19 first downs by the Griffons.

The Miners had 394 yards on total offense while the Griffons had 399.

Remember, if you bring your student I.D. to the game, admission is FREE. The next home game is September 20 at 1:30 against Pittsburg State.

Clearing the zone: Goalkeeper Joe Delaloye sends the ball out of Miner territory. The Miners came up short, losing to Southern Indiana 3-1 in overtime. UMR plays Lindenwood tonight at 7:30 p.m. (Photo by Bill Macy)

Soccer

Lady Miners win opener

By Tom Duggan,
Sports Editor

In the first official game of the season, the UMR women's soccer team defeated the Northeast Missouri Bulldogs by the score of 4-2.

The Lady Miners scored two goals in the first half: the first by Sally Puhlick and the second by Mary Gasper. The Bulldogs quickly tied it in the second half, but couldn't stop the UMR offense. Jean Gardiner scored the go-ahead goal about midway through the second half. In the final minutes, Mary Gasper put her second goal of the night in the net to polish off the Bulldogs.

UMR dominated the game offensively getting off 23 shots on goal to Northeast's six.

Dr. John Watson, department of Metallurgical Engineering and coach of the Lady Miners, was pleased with the team's performance, but felt that several scoring opportunities were missed. He states, "We had six or seven one-on-one shots with just the goalkeeper to beat and we didn't make any of them. Luckily, we made some of the more difficult ones."

Watson is optimistic about the season. He states that the UMR team has some very talented players. He adds that the team's only limitation is its small roster. There are only 15 players on the team.

The Lady Miners are back in action tonight in a home game against Lindenwood. Game time is 5:30 p.m. with the men's game following at 7:30. Admission is free with student I.D.

Under a cold gray sky: Mary Gasper attempts to evade a Bulldog defender. Gasper had two goals in the 4-2 UMR victory.

the Owl and the Pussycat

By Bill Manhoff

A Healthy, Hilarious Slugfest!

DATE: Sept. 16
TIME: 8 p.m.
PLACE: Cedar Street Center
ADMISSION: FREE

UMR FALL FILM SERIES

Sept. 4 SOUTHERN COMFORT

Directed by Walter Hill with Keith Carradine and Powers Booth. R-1981. National Guard maneuvers in the swamps of Louisiana trigger a combat in which Cajun natives seek deadly revenge. Survival is all that matters.

Sept. 11 ELVIRA MADIGAN

Directed by Bo Widerberg with Pia Degermark. PG-1967. Swedish with English subtitles. Pia Degermark received Best Actress at Cannes for her starring role in this heartbreaking story of lovers.

Sept. 18 AFTER HOURS

Directed by Martin Scorsese with Rosanna Arquette and Griffin Dunne. R-1985. On a sudden impulse, Paul Hackett, a mild-mannered New York computer programmer, goes downtown to SoHo to meet his date Marcy, an attractive young lady he met earlier in a coffee shop. What starts as an ordinary evening turns into a comic nightmare.

Sept. 25 DIM SUM

Directed by Wayne Wang with Laureen Chow and Victor Wong. PG-1984. One of the tenets of the Chinese culture is respect for elders. Therefore it is quite a risk for a young Chinese-American film-maker to make a movie that, in addition to being a gentle comedy, is a lifelike drama suggesting that blind obedience to such rules may have unfortunate results.

Oct. 2 WETHERBY

Directed by David Hare with Vanessa Redgrave and Ian Holm. R-1985. A middle-aged school teacher gives a dinner party at her cottage in the small English town of Wetherby. The presence of a young man goes relatively unnoticed, until he returns the next day and tells the hostess he was an uninvited guest. His confession is followed by a sudden act of inexplicable violence that sets the stage for a labyrinthine mystery.

The Film Series is supported in part by a grant from the Missouri Arts Council. Program director is James Bogan, UMR associate professor of art and film.

Season tickets: \$16.00 (includes tax)

Individual admission: \$3.00

Fee payable by cash, check, MasterCard or VISA

Make checks payable to: University of Missouri-Rolla

Tickets available at the door or:

Humanities/Social Sciences Building

Phone 341-4131

Oct. 9 COME BACK TO THE 5 & DIME

JIMMY DEAN, JIMMY DEAN
Directed by Robert Altman with Sandy Dennis, Cher and Karen Black. PG-1982. This award-winning tragicomedy takes place in a Woolworth's in a small, dust-blown Texas town where James Dean Fan Club members reunite to commemorate the 20th anniversary of the actor's death. The women reminisce and exchange secrets they've kept for two decades.

Oct. 16 LA NUIT DE VARENNES

Directed by Ettore Scola with Harvey Keitel and Marcello Mastroianni. R-1979. A lavish spectacle about the night King Louis XVI of France was arrested features an international cast as well-known figures of the period. In French with subtitles.

Oct. 23 DOUBLE INDEMNITY

Directed by Billy Wilder with Fred MacMurray, Barbara Stanwyck and Edward G. Robinson. PG-1944. *Double Indemnity* is considered the definitive "film noir" of the 1940s and the blueprint of the perfect murder. The scheme is infallible, the method undetectable, and the execution of the crime flawless, as blonde Barbara Stanwyck and Fred MacMurray connive to kill her husband and collect his insurance money.

*Oct. 24/25 MID-AMERICA MUSIC VIDEO FESTIVAL

Friday and Saturday in the Miner Recreation Building. Dance to the newest independent videos gathered from national and international artists. Cosponsored by SUB.

Oct. 30 BLOOD SIMPLE

Directed by Joel Cohen with John Getz and Frances McDormand. R-1984. Abby, wife of sleazy Texas saloon owner Marty, is fleeing her intolerable marriage and has an impulsive affair with one of her husband's employees. Ray, a weak-willed bartender, Marty learns of the affair, hires Visser, an even sleazier window-peeping private detective, to kill the cheating couple. Then things go wrong—as the hot Texas wind blows in a magnificently unpredictable mix of Jacobean black-mail, suspicion, revenge, betrayal and murder.

Nov. 6 STATE OF SIEGE

Directed by Costa-Gavras with Yves Montand. PG-1973. This tense drama of a political kidnapping is based on the actual kidnapping of a U.S. official in Latin America a few years ago. Piece by piece, revolutionaries uncover the discreetly concealed function of the "special adviser" in their country, and a gripping portrait of the U.S. role in Latin America takes shape. In French with English subtitles.

*Nov. 11 COUSIN, COUSINE

Directed by Jean-Charles Taccella with Marie-Christine Barrault and Victor Lanoux. R-1976. *Cousin, Cousine*, a love story with a twist, is a film in the finest tradition of French comedy-love stories. It's the story of two cousins through marriage (his uncle and her mother); their acquaintance that develops into friendship and their friendship that blossoms into love while their patient and loving families look on in dismay. In French with English subtitles. *Tuesday. Free. Cosponsored by the French Section of the Applied Arts and Cultural Studies Department.

Nov. 13 COLONEL REDL

Directed by Istvan Szabo with Klaus Maria Brandauer. R-1985. Like *Mephisto*, Szabo's 1981 Academy Award winning film about a German actor who becomes a puppet of the Nazis so that he can continue to work on the stage, *Colonel Redl* is a haunting view of moral duplicity and weakness. In German with English subtitles.

Nov. 20 TWICE IN A LIFETIME

Directed by Bud Yorkin with Gene Hackman, Ann-Margret, Ellen Burstyn, Amy Madigan, Brian Dennehy and Ally Sheedy. R-1986. This touching, emotionally honest film explores the sudden breakup of a 30-year marriage and its traumatic effect on each family member. Gene Hackman stars as a 50-year-old steelworker who seeks escape from his mundane marriage.

Dec. 4 DISTANT THUNDER

Directed by Satyajit Ray with Soumitra Chatterji. PG-1973. Having just settled in the village, Ganga is comically self-conscious in his role of priest, teacher, doctor and wise man. The tranquility of the village life, however, is soon shattered by the reverberations of World War II and the war-induced rice shortage becomes increasingly acute. As the scramble to survive humiliates some of Ray's characters, it enables others, including Ganga who undergoes a revolutionary and moving political conversion. In Bengali with English subtitles.

Dec. 11 THE IN-LAWS

Directed by Arthur Hiller with Peter Falk and Alan Arkin. PG-1980. Plot twists combine with slapstick hilarity when Arkin, father of the bride, meets Falk, father of the groom, and chase scenes ensue from suburbia to a South American banana republic. Dentist Arkin is the perfect foil for suspicious, shady Falk and there's many a laugh before the end.

Knight from page 5

"The copy of the Florio now in the possession of the Folger Library may have been a gift to Susanna from her father," he said. "The two were particularly close and the gift may have been given to celebrate Susanna's birthday or wedding or the birth of Shakespeare's granddaughter, Elizabeth.

"Ultimately," he continued, "Elizabeth came to possess the book. In fact, she is said to have inherited Shakespeare's books. These books probably remained in New Place (Shakespeare's residence), which Elizabeth also inherited, until she moved permanently to Abington.

"Elizabeth died on Feb. 17 of either 1669 or 1670 and that is the latest that the Folger copy could have been possessed by a blood relative of Shakespeare's," he added. "Following that the book remained in the Bernard line and ultimately was passed on to 'Carol' or 'Cath' Barnard."

Shakespeare's interest in Florio's translation of Montaigne is attested to by his use of the book as a source for *The Tempest*. "It has been known since 1780 that Gonzalo's description of an ideal state in *The Tempest* had its origin in Florio's 1603 translation of Montaigne's essays," Knight said.

Since 1917 researchers have believed the Florio signature in the British museum to be "a superior forgery," according to Knight.

"The discovery of the second and similar Florio signature however, seems to indicate otherwise," he said.

The Folger has been possession of its copy of Florio since 1921, while the British Museum has had its copy since 1838.

ARMY RESERVE OFFICERS' TRAINING CORPS

It's back! The Guide to the Laser Printer

The Laser Printer at the UMR Computer Center allows you to print very professional looking resumes, letters to companies, and papers for classes — and for the moment, its use is FREE.

The Guide helps you learn to use the Laser Printer.

Even if you've never been near a terminal before, The Guide will help you learn to use the system, will introduce you to some basics about the word processing system, and will give examples of how to achieve dozens of typing effects — spelling checking, using italics and other fonts, using Greek letters and other math symbols, . . . dozens.

The Guide is available at the Campus Bookstore (\$5.00) and the University Bookstore (\$5.50).

IF YOUR BOOKSTORE DOESN'T CARRY SHARP CALCULATORS, CALL AND COMPLAIN.

Sharp calculators are designed to be first in their class.

Our EL-533 financial calculator for example, has twenty memories compared to just five for the competition. So it lets you do complex calculations like discounted cash flow analysis.

For those who prefer lab coats to pinstripes, there's our EL-506A scientific calculator. With its 10-digit display, direct formula entry and 93 scientific functions, it makes performing even the most difficult calculations easy as pi. And because it's sleek, slim and stylish, you'll never look out of step as science marches on.

The fact is, Sharp makes all kinds of ingenious little calculators that can help get you through college. And help you pay for it.

Because unlike college... they're surprisingly affordable.

Calculators, Audio, A/V Equipment, Banking Systems, Broadcast Cameras, Cash Registers, Computers and Peripherals, Copiers, Electronic Components, Electronic Typewriters, Facsimile, Medical Products, Microwave Ovens, Televisions, Vacuum Cleaners, Video Recorders. © 1986 Sharp Electronics Corporation, Sharp Plaza, Mahwah, New Jersey 07430.

**ST. GEORGE'S UNIVERSITY
SCHOOL OF MEDICINE**

GRENADA, WEST INDIES

St. George's University School of Medicine, with more than 1050 graduates licensed in 33 states, offers a rigorous, nine-semester program leading to the degree of Doctor of Medicine. In January 1985, *The Journal of the American Medical Association* published a report which ranked St. George's number one of all major foreign medical schools in the initial pass rate on the ECFMG Exam.

70 medical schools in the United States have accepted over 630 St. George's students with advanced standing. St. George's has received probationary approval to conduct clinical clerkships in New Jersey subject to regulations of the State Board of Examiners.

A Loan Program for Entering Students has been instituted for a limited number of qualified applicants.

QUESTION #3.

WHAT EXACTLY IS AT&T'S "REACH OUT AMERICA"?

- A long distance calling plan that lets you make an hour's worth of calls to any other state in America for just \$10.15 a month.
- A 90-minute special starring "Up With People!"
- A great deal, because the second hour costs even less.
- If you'd read the chapter on Manifest Destiny, you'd know.
- Too good to pass up, because it lets you save 15% off AT&T's already discounted evening rates.

If you can guess the answers to this quiz, you could save on your long distance phone bill, with AT&T's "Reach Out America" long distance calling plan. If you live off campus, it lets you make a full hour's worth of calls to any other state in America—including Alaska, Hawaii, Puerto Rico and the U.S. Virgin Islands—for just \$10.15 a month.

All you have to do is call weekends, 11pm Friday until 5pm Sunday, and every night from 11pm to 8am. Save 15% off our already discounted evening rates by calling between 5pm and 11pm Sunday through Friday. The money you could save will be easy to get used to.

To find more about "Reach Out America," or to order the service, call toll free today at 1 800 CALL ATT, that is 1 800 225-5288.
