Investiture ceremony held for Chancellor Jischke

Source: OPI

The public was invited to attend the Investiture Ceremony for University of Missouri-Rolla Chancellor Martin C. Jischke at 1:30 p.m. Friday, Nov. 7, in Centennial Hall, University Center-East on the UMR campus.

Participants in the ceremony included University of Missouri President C. Peter Magrath, members of the UM Board of Curators and delegates from other colleges and universities throughout the country.

Judson R. Baron, professor of aeronautics and astronautics at the Massachusetts Institute of Technology, and Jischke presented addresses during the ceremony. Representatives of UMR's students, faculty, staff and alumni also made brief remarks.

During the Investiture Ceremony, Jischke was presented with the Chancellor Medallion. The medallion was designed and executed by R.V. Wolf, assistant dean of UMR's School of Mines and Metallurgy.

Music was provided by UMR's University Choir and the University Symphonic Band.

Jischke was appointed UMR's chancellor on Feb. 14, 1986, by Magrath. He assumed his duties on April 28 of this year.

He received a bachelor's degree with honors in physics from the Illinois Institute of Technology in 1963 and earned master's and doctoral degrees in aeronautics and astronautics from the Massachusetts Institute of Technology in 1964 and 1968, respectively.

Prior to his appointment as UMR chancellor, Jischke served as dean of the College of Engineering at the University of Oklahoma from 1981-86 and was interim president of OU from February until September 1985. At OU, Jischke also served as a professor and director of the campus's School of Aerospace, Mechanical and Nuclear Engineering for four years. He was a White House Fellow and special assistant to the secretary of transportation in 1975-76 after teaching in the School of Aerospace, Mechanical and Nuclear Engineering at OU from 1968-75. He earned a University of Oklahoma Regents Award in 1975 for superior teaching.

Jischke is a fellow of the American Association for the Advancement of

Science and a member of the board of directors of the Keystone Foundation, the advisory committee for engineering science of the National Science Directorate, the American Society of Mechanical Engineers and the American Physical Society. He serves on the Missouri Corporation for Science and Technology.

He is also a member of the American Society for Engineering Education, the National and Missouri Societies of Professional Engineers and the American Institute of Aeronautics and Astronautics.

Jischke is listed in American Men and Women of Science, Outstanding Educators of America, Who's Who in Engineering and Who's Who in the South and Southwest.

He is a reviewer for nine national engineering journals and the author or co-author of 30 refereed research articles. Jischke is also the author or co-author of 22 technical engineering reports.

He has received research grants from NASA, the National Severe Storms Laboratory, National Institutes of Health, U.S. Air Force, National Science Foundation and Nuclear Regulatory Commission.

The Investiture Ceremony was proposed to the UMR Academic Council by the campus Rules, Procedure and Agenda Committee and was unanimously approved by the council at its Aug. 28 meeting. A committee appointed by the council planned the event.

Enrollment down for 1986-87

Source: OPI

At the end of four weeks of classes, the official enrollment for the 1986 fall semester at the University of Missouri-Rolla stood at 6,087 students. At the same time last year, that figure was 6,386.

There were 5,446 students on campus, compared with 5,767 last year. Of those students, 1,065 were enrolled in the College of Arts and Sciences, 3,693 in the School of Engineering, and 628 in the School of Mines and Metallurgy. (These figures include 138 students from the UMR Cooperative Training Program who are currently in their work semesters.) In addition, there

were 60 students who had not declared a major.

The department of mechanical and aerospace engineering was the largest department on campus with 1,211 students. Electrical engineering was second with 1,161.

There were 1,031 freshmen on campus, 851 sophomores, 988 juniors, and 1,856 seniors. In addition, there were 459 master's candidates, 246 doctoral candidates and 15 post-baccalaureate students. There were 152 women students and 4,294 men on campus.

The UM-Rolla Engineering Center at the University of Missouri-St. Louis had an enrollment of 641.

Freshmen of the year selected

Submitted by Theta Tau Omega

Theta Tau Omega annually sponsors the selection of the Freshman of the Year. Applicants are judged on grade point; memberships in UMR organizations; offices and committee chairmanships within these organizations; scholarships and awards received at UMR; participation in UMR varsity, club, and intramural sports; and the applicants' feelings on why he or she is deserving of the Freshman of the Year honor.

Applicants are also interviewed by the members of Theta Tau Omega so that personality and leadership capabilities can be judged.

Mark Scott and Doug Norris

were honored as the 1985-86 Freshmen of the Year and were each awarded \$100 scholarships.

Mark Scott completed his freshman year with a 4.0 in electrical engineering. As a member of Kappa Alpha Fraternity, Mark was pledge class president, rush chairman, honor pledge, and muscular dystrophy chairman. He was also very active in Student Council, Kappa Mu Epsilon, Phi Eta Sigma, and IEEE. Academically, Mark received four different scholarships including a University of Missouri Curators Scholarship. Athletically, Mark participated in intra-

mural football.

Doug Norris completed his freshman year with a 3.753 in electrical engineering. As a member of Pi Kappa Alpha Fraternity, Doug was pledge class vice-president, St. Pat's non-float chairman, and is currently the secretary. He was also very active in Kappa Mu Epsilon, Intercollegiate Knights as pledge master, and Phi Eta Sigma as historian. Academically, Doug has a University of Missouri Curators Scholarship. Athletically, Doug participated in intramural football, soccer, cross country, golf, wrestling, and track. He is also a member of the Trap and Skeet Club and holds the office of secretary.

St. Pat's Board entertains new friends

Submitted by Bob Antonacci

Ever wonder what you can do to make a child happy? Well, I can tell you how to make a group of them very happy. Just pay them a visit. I'm talking about the children of Rolla's Cerebral Palsy School. Children with handicaps love and deserve all the attention they

get, and it's so easy to give them what they want, and that makes them happy.

Taking advantage of Halloween, a few fellow members of the St. Pat's Board and myself dressed in costumes and gave the students cookies, balloons and bubbles. You'll never forget the charge you feel when these children smile at you.

Make yourself and a group of children happy. Stir up a few friends and pay these kids a visit. Just call Bonni Lewis of the Cerebral Palsy School at 364-7444. She'll be more than happy to make arrangements for your visit. Remember, Thanksgiving and Christmas are just around the corner.

Financial aid changes enacted

Submitted by Financial Aid

The Higher Education Amendments of 1986 were signed by President Reagan on October 17, 1986. With the signing of these amendments comes a number of changes that could affect students receiving financial assistance in the future. This article will deal with only the changes in the Guaranteed Student Loan (GSL) program. This program is the largest (by number of recipients and total dollar amount) at most secondary institutions. Future articles will deal with changes affecting other financial aid programs (Pell Grants, College Work Study, Supplemental Educational Opportunity Grants, National Direct Student Loans, and scholarships).

Effective October 17, 1986 students, including those with an adjusted gross income of \$30,000 or less, can only receive a Guaranteed Student Loan in the amount of their unmet need as determined by a needs analysis service (ACT). The UMR Student Financial Aid Office will be informing students who qualified for a GSL under the old regulation whom may no longer be eligible under this new regulation.

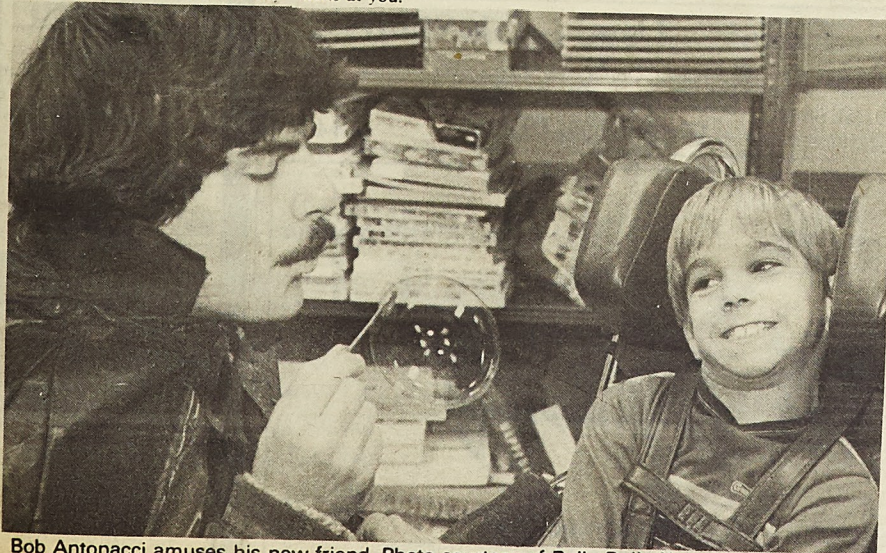

Beginning January 1, 1987, annual GSL limits are increased to \$2625 for freshman and sophomores, \$4000 for

the remaining years of undergraduate study, and \$7500 for graduate and professional students. The cumulative loan limits are changed to \$17,250 for undergraduate study and \$54,750 for undergraduate and graduate studies combined.

Also effective January 1, 1987, a student will be considered independent if he or she is twenty-four (24) years of age; an orphan of the ward; a veteran; a graduate or professional student who is not claimed on the parents' income tax return; is married and not claimed on the parents' tax return; has legal dependents; or a student who has proved independent by demonstration an annual income of \$4000 or more. Financial aid administrators may also document determination of independence by reason of other unusual circumstances.

Further regulation changes in regard to interest rate, unemployment deferments, special allowances paid to lenders and other GSL changes may be received from UMR's Student Financial Aid Office, 106 Parker Hall.

UMR's Student Financial Aid Office is most willing to visit with any student on how these new regulations may affect them and/or their families.

Bob Antonacci amuses his new friend. Photo courtesy of Rolla Daily News.

calendar of events

Tuesday

SUB Special Events Committee will have a meeting at 6 p.m. in the SUB office, Room 217, University Center-West.

Tau Beta Pi is holding meeting tonight at 7 p.m. in Room G-5 of H-SS. There will be officer nominations and committee chairman elections. Any members who hasn't picked up their membership certificate please come tonight to do so.

Mark Christhill will present a lecture on "Primitivism in the Poetry of W.S. Merwin," Nov. 11, 3:30 p.m. in the Mark Twain Room, UCE.

UMR Film Series, *Cousin, Cousine*, 7:30 p.m., Miles Auditorium, Mechanical Engineering Building. Season ticket or \$3 at the door.

Wednesday

Kappa Mu Epsilon math honor society will be holding its monthly meeting on Wednesday, Nov. 12 at 8 p.m. in M-CS 209. The *Rollamo* picture will be taken, pledges will have their plaques signed, and nominations but not elections for next semester's officers will be held.

The English Club will meet Nov. 12, 3 p.m. in H-22 Room 105. All members and students interested in literature are invited to attend. *Rollamo* pictures will be taken.

St. Pat's parade float entries can be turned in at TKE starting at 3 p.m. All entries must be typed and none will be accepted early.

ASEM will be traveling to St. Louis on Wednesday, Nov. 12 for the St. Louis IIE meeting. We will also be taking a tour of the Ozark TWA maintenance facilities. Those interested are encouraged to attend!

Thursday

Toastmasters, G-9, H-SS, Nov. 13, 4:30 p.m.

The Wargamers Association of Rolla will hold its next meeting on Nov. 13 at 8 p.m. in M-CS 206.

Intercollegiate Knights are having a meeting in Chem. E. G-3 at 6:30.

Poet Tony Conner will present a reading of his works 3:30 p.m. Nov. 13 in the Mark Twain Room, UCE.

Southwinds, UMR's literary magazine, will meet Nov. 13, 3 p.m. in the UCE Gallery. *Rollamo* pictures will be taken.

UMR Film Series, *Colonel Redl*, 7:30 p.m., Miles Auditorium, Mechanical Engineering Building. Season ticket or \$3 at the door.

Friday

IVCF is taking a field trip! We invite everyone to join us as we voyage to Rolla Bible Church to listen to the mission conference. For more information, contact Winfred at 364-9980.

Saturday

University Theatre-UMR, *The Real Inspector Hound*, 7:30 p.m., Cedar Street Center. Admission \$2 for students and retirees and \$3 for all others. Tickets may be purchased from 8 a.m. to noon and 12:30 to 4:30 p.m. Monday through Friday at the reservationist's desk, University Center-West, or at the door one hour in advance of the performance.

UMR football, Grand Valley state, 1:30 p.m., New Jackling Field. Admission charged.

Next Tuesday

The Intercultural Club would like to invite to their meeting on Nov. 18 at 3:30 p.m. in Room 202 of the UMR library. The country discussed will be Guatemala. Everyone take a break from the books and come for an hour of fun. Welcome!

Student Union Board presents Charles "Pete" Conrad, vice president of McDonnell Douglas and former astronaut, who will lecture on "Past, Present and Future of America's Space Program." The lecture will be held in ME 104 at 8 p.m. on Nov. 18. Admission is free and open to the public.

SWE meeting, Nov. 18, 5:45, Mark Twain Room. Speaker: Diane Lange from GM. Officer nominations will be held.

Noday

Southwinds, UMR's literary magazine, is requesting submissions for the 1987 *Southwinds* publication. Please submit prose, poetry, original artwork and photography with name and phone number to *Southwinds*, c/o UMR English Department. Deadline is Feb. 14, 1987.

Show your support for the American unaccounted for in Southeast Asia. Arnold Air Society will be distributing yellow ribbons at the Hockey Puck Nov. 10, 11, and 12. Please wear one on your book bag this week to show your support for our missing service personnel.

Kappa Mu Epsilon math honor society is conducting help session for students in math classes up to and including Calc II. These help sessions are held every Tuesday and Thursday from 7 to 8 p.m. in M-CS 203.

Final Exam Schedule

The final examination period will begin Monday, December 15, 1986 at 7:30 a.m., and end at 5:30 p.m., Saturday, December 20, 1986. Common finals are scheduled for those courses listed in Section II below. Room assignments for common finals will be announced by the instructors.

The courses not covered in Sections I, II, and III are to be arranged by the instructor in cooperation with the students in that course.

I. Evening Course Finals are scheduled for the evening session during final week.

II. Common Finals include ALL SECTIONS.

According to the Manual of Information (p.33), all requests to change the final schedule because of conflicts or having three or more examinations scheduled on one day "are to be made in the Registrar's Office at least one week before the beginning of the final examination week" (Friday, December 5).

*Please note the correction for final exams scheduled for classes beginning at 8:30 on Mondays. The final will be given on Tuesday, December 16 from 10:00 - 12:00. The timetable in the Revised Schedule of Classes for Fall 1986 is incorrect.

\$ financial aid \$

The Consulting Engineers Council of Missouri is pleased to announce a scholarship for the 1987-88 academic year. The top award for this scholarship will be \$7000 and three \$1000 scholarships will also be given. Eligibility for this scholarship is as follows: A student must be a junior or senior beginning with the Fall of 1987 (not eligible, however, if graduating in December of 1987), be in the upper half of your engineering class, and a United States citizen. Preference given to those interested in pursuing a consulting engineering career. The Point System to determine the winner is as follows: work experience (25 points), college activities (17 points), high school activities (6 points), essay (24 points), cumulative grade point average (28 points). The essay subject is to describe the contributions of consulting engineers to the development of this country in 500 words. To qualify for this scholarship, a student must submit an official college transcript and an application form.

Applications are available by contacting: CECMO Scholarship Program, 205 East Dunklin, Jefferson City, MO 65101 or by calling (314) 634-4080. The deadline for applying for this scholarship is Jan. 15, 1987. For further information, please contact the Student Financial Aid Office.

Short Term Loans can be used to help cover expenses for an interview trip at a maximum of \$300.00 plus \$100.00 personal expenses. Applications are available at the Student Financial Aid Office, 106 Parker Hall. Verification of the trip is necessary in order to approve the request for a short term loan.

Honeywell is pleased to announce their fifth annual Futurist Awards Competition. Ten students will be offered \$3000 awards plus each winner will also be offered a 1987 Honeywell Summer Internship. To be eligible for this competition, you must be a

currently enrolled full-time student. Both graduate and undergraduate students are eligible. To enter the competition, a student must write two essays (1500 words each). The first essay should be predictions about significant developments in any one of the following subject areas: 1) electronic communications, 2) energy, 3) aerospace, 4) computer science, 5) manufacturing automation, or 6) office automation. The second essay should be written about the societal impact of the changes you've predicted. The entries will be judged according to the following criteria: creativity (30 points), feasibility (30 points), clarity of expression (30 points) and legibility (10 points). To obtain an entry form, contact Honeywell at their toll-free number, 1-800-328-5111, ext. 1581. All entry forms must be requested by Dec. 31 and the application materials must be postmarked no later than Jan. 31. For further information, please contact the Student Financial Aid Office.

Source: OPI

Dr. Randy H. Moss, associate professor of electrical engineering at the University of Missouri-Rolla, recently was awarded the Society of Manufacturing Engineers (SME) 1987 Young Manufacturing Engineer Award. Moss was one of 14 recipients selected to receive the award in 1987.

According to SME, the award is presented to Moss "in recognition to his significant achievements and leadership in the field of manufacturing engineering as a young engineer."

Moss joined the UMR faculty in 1981. He received B.S. and M.S. de-

grees in electrical engineering from the University of Arkansas and a Ph.D. degree from the University of Illinois.

Moss is a member of the Institute of Electrical and Electronics Engineers. He is a member of Sigma Xi, Phi Kappa Phi, Eta Kappa Nu, Tau Beta Pi, Pi Mu Epsilon, and Phi Eta Sigma honoraries.

Congressional turnover:

How will it affect the way your tax dollar is spent

By Rick Yancey
Staff Writer

With last week's elections, American voters have returned the Democrats to power in the US Senate. Many Democrats have repeatedly expressed a disagreement of President Reagan's effort to fund the Contra rebel forces in Nicaragua. One has to wonder if there will be a push to limit or end funding for this use.

The Soviet Union has backed the Sandinistas since their rise to power in 1979. As of June, 1986, over 650 million dollars of military aid has been supplied to Nicaragua by the Soviets. Approximately 21,000 tons of military equipment have already arrived so far this year, including six armored Mi-25 Hind helicopters in October. The Soviets have supplied 340 tanks, 35 assault helicopters and 70 long range howitzers. This is an unprecedented military buildup in Central America. The Sandinistas say they need to defend themselves, but with relatively small and weak neighboring countries, this explanation seems implausible, considering they already have the largest and most powerful army in the region.

Reagan and his supporters claim that Nicaragua will prove to be a launching pad for increased communist insurgency. His opponents question this statement and the reputation of the Contras.

If the new congress would choose to cut or eliminate funding for the Contras, how would this effect the situation in Nicaragua? The Sandinistas have shown no real inclination to slowing their military buildup and will probably continue to do so with the seemingly unending flow of equipment and advisors. One only has to look to Cuba to see how the Soviets react to signs of weakness on our part. Today, Cuban troops and advisors play a major part in the training and support of communist guerrilla groups in Central and South America. The Nicaraguans could prove to be a major problem in the future.

State funded terrorism is not the goal of Reagan, but if certain preventative measures aren't taken, that may be the case. Observation of the Contras should be increased. Our support should only go to those who uphold the ideals of our democratic way of life. Any attacks against non-military targets are unacceptable.

Of course, it is easy to criticize the Contras or the Sandinistas from the point of view of average, middle class America. If we were living in poverty on the edge of a Nicaraguan jungle, would we still have the same point of view? Would America be Savior or Villian? Hopefully, our new congress will make the right choices.

Put your degree

letters to the editor

To the Editor:

Friday night in Rolla, Mo., we watched a movie sponsored by SUB in which a man was beaten until crippled while his wife was being violently raped.

Fifty college students around us responded with laughter.

Why?

Elizabeth Fanska
Michael Stokes

students that pen these irresponsible letters have complained to the instructor in a constructive manner. Realistically, an instructor won't ignore complaints by several students. If only one student complains, one has to ask if the instructor is to blame or if the student is a whining coward, not willing to sign their name to a letter that publicly insults someone's character.

I've had my differences with instructors also, so I can understand the frustration. I don't think, however, that these letters will help the problem. It shows a complete lack of character to not sign such letters, and a lack of responsibility on the part of the Missouri Miner to print them.

Alan Lewis

Dear Editor:

I have been stunned in recent weeks by the letters in the Classified section of the Missouri Miner by students upset with instructors. I don't know who is more tactless, the students who call their instructors by name, or the Miner for printing the letters. I wonder if the

A term at "Nowhere in Particular"

By Pat Ruth
Staff Writer

Life continues to move along here at the University of Nowhere in Particular. The sun rises over the gym and sets behind the library, and no one seems very surprised by either occurrence.

The U of NiP is, as you may have heard, the largest small university among schools with a student population between 500 and 50,000. Its administrators are very proud of this fact. It is engraved in simulated granite on the front of the Administration building.

The school is located in the midwestern part of the southern edge of a northeastern section of a state not far from where you live, close to the New York-California border. It is conveniently close to every major city in the country except Cincinnati, Ohio (to get to Cincinnati you still have to either hire a boat or do a lot of swimming).

The chances are good that you attended U.N.i.P. for a while, or think you did. (The University was recently voted "The School that Most Reminds People of Somewhere Else.") Either way, you are probably familiar with the school, whether it be for its academic reputation (Albert Einstein once visited the campus after taking the wrong exit off the interstate) or for its well-known sports program (the U.N.i.P. fighting Enigmas are nearly always at the top of

their half of the sub-section of the East-West division of the Small 17 Conference). The University is indeed a school bathed in a tradition of glory, with a dedication to excellence and fierce pride in its graduates.

As with other schools around the nation, the fall semester at U.N.i.P. is well under way (classes traditionally begin on the third Tuesday in September following Labor Day, or on the second Friday before the end of Daylight Savings Time, whichever comes first). All across the campus, the sights, the sounds, and the smells of learning are once again in full swing.

As he has done every year for the past 39 years, Chancellor Emory S. Fursterbunder has opened the fall semester with an address to the student body (attendance voluntary, but required for graduation). The topic of this address is always related in some way to the University's motto, "Educatum-Existibus-Remitidae" (Study hard, live well, pay your bills on time). At the conclusion of the address,

the marching band (dressed in the U.N.i.P. colors: Black and Blue) plays the school song, entitled "Nowhere Finer than Nowhere in Particular". The song was written by Arthur T. Schifflbine (B.A. Music, 1906) and is set to the tune of Beethoven's Eighth Symphony. The U.N.i.P. marching band, by the way, is the only one in the nation to include a piano and a full strings section.

Fall is a special time at the University. The football team has its traditional opening game with arch rival Our Lady of Perpetual Disapproval Convent and Agricultural College. (Eleven of the toughest nuns to be found anywhere in the sport.) While it is generally agreed that Our Lady has the advantage in strength, the Enigmas have an edge in speed and numbers (football is required subject for all incoming freshmen).

Early in October comes the annual homecoming game, when the campus is flooded with literally dozens of graduates, cheering their alma mater on to victory. (In recent years it has been a standard practice to increase the team's chances by scheduling the Homecoming game against the Ace Correspondence School. The highlight of the contest comes when the mailman arrives with the opponent's final play and the Enigmas respond by marching ninety-eight yards to the end of the stadium and tackling the mailbox.)

Football is not the only sport at U.N.i.P., of course. By late September the debating team has begun full-uniform workouts and three-times-a-day

library drills. Sweat and erasable ink run freely in the late afternoon sun of the library reference section, where the solid thump of encyclopedias hitting tables can be almost deafening. Coach Rittenhaus stands watchfully on the sideline (near the audio-visual desk) supervising his varsity squad as they run index card drills. The trainer is always nearby in case of a pulled muscle or a paper cut.

Even before the leaves on the trees begin to turn, U.N.i.P. students are hard at work. Books must be read, papers must be written, and lines must be stood in. Like any college, there are always large groups of students who need the same thing for the same reason at the same time. Whether it be in the bookstore, the registrar's office, the

cafeteria, or the bathroom, a U.N.i.P. student quickly learns the inestimable social importance of forming a neat and orderly line, in order to accomplish life's goals. The University of Nowhere in Particular was the only school in the nation to boast a 100% participation in the "Hands Across America" project.

Now that the term is under way, activity at the U.N.i.P. campus assumes a slower, more even pace. The opening round of campus parties has come and gone, and a series of fund raising projects has been started to help pay for the damages. The look of naive bewilderment on the faces of freshmen as they struggled to find their way around has been replaced by a look of quiet confidence, hopeful optimism, and

chronic nausea (the cafeteria switches from its "Introductory Menu" to its regular fare during the second week of classes). The busy hum of the first weeks has faded to a gentle murmur (volunteer hummers and murmurers are recruited from the local grade schools), and the autumn routine is once again in progress here at the University of Nowhere in Particular.

Drop by again sometime. We're not going anywhere.

STUCO CORNER

Submitted by Student Council

I hope everyone enjoyed the party weekends of October. I believe that the Homecoming and the Halloween celebrations were the "best ever" and should only get better.

There are two things I would like you to be aware of. To begin, as you know there is a new federal income tax law and there are some new provisions that will directly effect students. First, most student financial aid is now considered taxable income. The expenses incurred for books and tuition will be deductible but any aid received for the cost of living while attending school will no longer be tax-free. Unfortunately, this also includes ALL scholarships that are received in excess of the direct cost of attending class.

The other item is that the UMR Student Council is trying to affiliate with an organization that is very successful on the Columbia campus: the Associated Students of the University of Missouri (ASUM). ASUM is a legislative action group which lobbies for student concerns in Jeff City and in Washington. Last year ASUM was very instrumental in getting the Greek Tax Bill and the Engineering Equipment Bill through the General Assembly and both of these bills directly benefited the UMR campus. By joining with ASUM, we will be better able to monitor issues that directly concern the UMR students and will be able to keep you better informed.

Good luck during the home stretch of the semester. If you have any questions, please feel free to contact me—Robert Francis.

Board challenges IFC

Submitted by St. Pat's Board

We, the Lords of this prestigious University, the St. Pat's Board, challenge those grey things whose existence is dedicated to amorous pursuits of

feathered animals, the Interfraternity Council, to again battle with Us, this time in the world's most popular sport, soccer.

Alice's Assassins will show you pampered preppys how superior We are. We will run circles around you disgusting deviants with fowl fetishes, and teach you spoiled sexual impotents the fine arts of the game.

If you dare to accept this challenge, We will meet you on Friday, November 21, at Fraternity Row Field to show everyone that We are The Powerful Force at UMR.

Rodriquez to play at UMR

Source: OPI

Pianist Santiago Rodriquez will perform in concert at 8 p.m. Wednesday, Nov. 19, at the University of Missouri-Rolla's Cedar Street Center, Seventh and Cedar Streets. The performance is part of UMR's 1986-87 Campus Performing Arts Series.

The performance will feature classical music selections including: "Sonata in C minor, K. 457," by Mozart; "Sonata No. 2 in B-flat minor, Opus 35," by Chopin; "Three Argentinian Dances, Opus 2," by Ginastera; "Milonga," by

Ginastera; and "Sonata No. 1 (1952)," by Ginastera.

Admission to the concert is by season ticket or individual performance ticket (\$5 for students and retirees, \$6 for all others). Advance tickets are available at the reservationist's desk in the University Center-West. Tickets also will be available one hour in advance of the performance.

The concert is presented by the Campus Performing Arts Series, with partial support from the Olson Fund for the Performing Arts.

BLOOM COUNTY

by Berke Breathed

THE BLOOM PICAYUNE'S COMIC STRIPPER IS A TAD TARDY TODAY.

OKAY! I'M HERE! TWO MINUTES TO DEADLINE... GO HOME.

OKAY... SO I GOT A LITTLE SOUSED WITH MY FUTURE IN-LAWS LAST NIGHT... I CAN STILL DO IT!! I'LL JUST WHIP ONE OUT!!

OKAY... A GAG... I NEED A GAG... A GAG ABOUT WHAT? WHAT'S FUNNY?? UH...

HOPELESSNESS BEGAN TO REAR ITS UGLY HEAD... PENCILS... INK... CLOCK... IN-LAWS... TABLE... IN-LAWS... GO HOME. UH...

I-I'M SORRY I'M LATE. HERE'S TODAY'S COMIC. SORRY. YOU'RE PAST DEADLINE. WE CUT YOU TODAY.

SIR... PLEASE... I HAD A ROUGH NIGHT LAST NIGHT... SIR? PLEASE, GIMME ANOTHER CHANCE!!

OH, PLEASE PLEASE PLEASE PLEASE! I BEG YOU! I'LL LICK YOUR FEET! PLEASE!

NO! SIR... I'M AN ARTIST... DON'T MAKE ME CRAWL...

LOOKING OVER AT THE NEWS BUILDING, A LARGE, FAT, HOMELY PIGEON IS PERCHED HIGH UP ON THE LEDGE...

WAIT... NO, IT'S JUST THE STAFF CARTOONIST. WHAT'S WRONG? I MISSED THE DEADLINE FOR TODAY'S COMIC AND THEY RAN AN AD FOR A HOOVER VACUUM IN ITS PLACE...

NO SWEAT. YOU STILL HAVE LOTS TO LIVE FOR. ...NO ONE NOTICED THE DIFFERENCE.

JUMP. I'LL AIM FOR AN EDITOR.

THERE IS NOTHING... NO, NOTHING WORSE THAT YOU ALL COULD DO TO ME THAN PULL MY COMIC FOR TODAY. DON'T JUMP, OPU.

YES, THERE IS. WE COULD LOCK YOU IN A CLOSET WITH JOAN RIVERS AND A PACK OF WILD PIGS FOR ALL ETERNITY. NOW COME BACK IN.

OKAY, BUT NO CLOSETS. NO CLOSETS.

MEANWHILE... STEVE DALLAS' LEGAL CAREER HAS SPED SMOOTHLY ALONG... ...AND THAT, GOOD FOLKS, IS WHY YOU SHOULD FIND MY CLIENT INNOCENT OF KILLING HIS TAX AUDITOR.

AND AS THE DEFENDANT, LET ME ADD ANOTHER REASON...

IF YA DON'T, I'LL STRANGLE YA. I'LL HUNT DOWN YOUR RELATIVES AND SQUASH 'EM!! I'LL SHAVE YOUR CATS!!

CLEARLY, THOUGHT STEVE, IT WAS TIME TO MAKE A RADICAL LEAP FORWARD CAREER-WISE. THANK YOU VERY MUCH. I COULD PIMP...

I HAVE GOT TO FIND ANOTHER WAY TO MAKE A BUCK OTHER THAN GETTING MURDERERS AND CHILD ABUSERS OFF THE HOOK...

SAY! WHY DON'T YOU GET INTO CARTOONING? YEAH! THAT'S THE TICKET!

YEEOW!! JAB!!

I HAVE SOME SCRIPPLES, DUDE!

RLM.
We, like yourselves, are fed up with the bad attitude the opposite sex has toward us on this campus. We admit that our classifieds were a bit harsh. They were, however, only in response to a direct attack on the men of UMR by your original classified, which represents the typical attitude UMR women have toward us. We aren't as "typical" as you might think, and we believe our differences can and should be resolved, with a little effort from both sides. As a first step toward this goal, we invite you to be special guests at the next Dawg House party. How about it? We throw good parties.
—The Dawg House

Side,
The Whiteside cometh and throw up a Bricketh. Pass to me on the wing and I'll cash it in for a couple dozen. Eyes it, tries it, buys it!
—Tops

Leroy:
Since you are so observant, buy the CADDY New Tires.
—Linda

To Kappa Alpha Psi,
You may control the minds of sweethearts but I'll make you a bet no matter how you yearn an angel you won't get. We extend our hands in friendship but you take it for much more. Can't you see its A-Phi-A we angels all adore.
—Ki-Koo

To the Nupes,
Obviously the spilled milk was pretty darn good, because you're still crying over it.
—Sob-story

To the Sphinxmen of A-Phi—A,
You may not walk as straight as those five soldiers dressed in red. You may not perfect turning corners or wear berets upon your head. We've never seen you look both ways then dash from out of sight. Run here to there and there to here as if you were thieves of the night. This may attract the public eye, but that is not your game. You are future men of distinction and that you shall remain. You all are individuals, yet you all are one. So stick to the fight because your victory's almost won.
—Caring Eyes

NEMO's air and ground attack defeats Miners

By Kevin McClarren
Staff Writer

The football Miners went to Northeast Missouri last Saturday to play their last conference game. Things didn't go the Miners' way as they ended up losing 31-21 in MIAA play. Their record dropped to 5-5 overall and 2-3 in MIAA action.

It was a one man show for Kirksville, namely Russel Evans. Evans, who started the game ranked second in the NCAA for receptions, robbed the Miners for 11 catches and a career best of 213 yards in passing. The total receptions for a season was 74 until last Saturday when Evans broke the record with 75. Eric Holm who held the old record of 74 happens to be the Northeast Missouri offensive coordinator. On the record setting catch, Holm stopped the game and presented Evans

with the game ball.

The Miners not only had trouble with the passing game but also with the rushing game. Running back Roketi Esau had a big game on the ground running for 168 yards and scoring 3 touchdowns.

The Evans and Esau show's main act was mostly in the first half totalling up a 24-9 lead. Northeast ran over the Miners on their first possession setting up a three yard touchdown run by Esau.

The second quarter featured Esau again who ran right by the Miner defense on a 50-yard breakaway touchdown run. This made the score 12-0.

Later in the first half Northeast quarterback Matt Heidmann used his favorite receiver. Evans made a spectacular diving catch for a 43 yard pickup to set up Northeast Bulldogs

six yard touchdown pass.

The Miners finally got their offense moving starting on their own 41 yard line moving the ball down the field to set up a one yard run scoring touchdown by fullback LaFayette Gatewood.

Northeast wasn't finished yet, however, as Heidman went on to complete three straight passes to Evans to cover 44 yards and put the ball on the 7 yard line. From there, Heidman took it in on a quarterback sneak to up NEMO 24-6 with 36 seconds left in the half.

The Miners got back on the scoreboard once more before halftime with a 42 yard fieldgoal by Jim Zacny making the halftime score 24-9.

The Miners attempted to come back in the second half but couldn't overcome the 24-9 deficit. Northeast took it to the Miner's early in the second half driving 79 yards for a Bulldog touch-

down. Esau scored on a 3 yard run. Doug Kolb then kicked in the extra point. This was the only conversion that worked the entire game. The Miners got on the scoreboard 2 more times before the game ended. The first on a 2 yard run touchdown by Gatewood and the second on a 8 yard pass from Haug to Reimer. But it was all academic as the Miners went on to lose 31-21.

The Miners will end the season next Saturday at home playing Grand Valley College in a non-league game at 1:30 at New Jackling Field. If UMR loses, it will be the first time in 10 years that the Miners have had a losing season.

Miner Stats:
Vehige had 120 yards rushing on 27 attempts.

Haug was 13 of 25 passes for 151 yards.

Scoring Summary:

Northeast Mo.—Esau 3-yard run, no conversion
Northeast Mo.—Esau 50-yard run, no conversion
Northeast Mo.—Evans 6-yard pass from Heidmann, no conversion
UMR—Gatewood 4-yard run, no conversion
Northeast Mo.—Heidmann 1-yard run, no conversion
UMR—Zacny 42-yard field goal
Northeast Mo.—Esau 3-yard run, Kolb PAT
UMR—Gatewood 2-yard run, no conversion
UMR—Reimer 8-yard pass from Haug, no conversion
Reminder: Admission to the game is free of charge with a valid Student I.D.

Women's Soccer

Lady Miners end alltime best season with 15-1 scorefest

By Tracy Boland
Staff Writer

Last Saturday marked the end of the 1986 women's soccer season, and the women ended on a high note, beating the University of Arkansas 15-1.

A 14 point split in a soccer match is very unusual, and some critics might chastise the Lady Miners for excessive cruelty to the opposition. However, when one considers that the women had just come off two very frustrating losses to UMSL and SIU-Edwardsville, and that this was the final scoring opportunity of the season, one is inclined to give the women the benefit of the doubt.

The Miners jumped out ahead of the Lady Razorbacks immediately as Lisa Tieber sent a cross straight into the net. Seconds later, Debbie Lewis followed suit by volleying a cross from Sue Shrum in past the keeper. Lewis and Shrum combined for what seemed to be an instant replay, as Lewis again volleyed a cross from Shrum into the net.

Cindy Driscoll, back for the final game after being sidelined with a neck injury for several matches had her first of two goals in the game when she sent a shallow angle shot from almost the endline in over the goalie's hands.

The final goal of the half was a Debbie Lewis headball into the net from a Cathy Georgevitch cross.

At half-time it was apparent that the visitors were no match for the home team. Coach Watson attempted to restrict the Miner onslaught by replacing starting keeper Angie McEntire with Bean Gardiner, but it was soon apparent that the Lady Razorbacks weren't even going to be allowed to cross the half line, much less penetrate to the Miner area.

UMR racked up 5 more goals before Watson got radical in positioning players. Lisa Tieber was pretty active as she assisted a Cindy Driscoll goal, sent one in past the keeper on her own, and headed a Mary Gasper corner kick in for another.

Mary Gasper scored a goal using one of her patented rocket shots, and Jenny Lammers had her goal for the season with a beautiful chip shot that floated in down behind the keeper's hands.

Coach Watson tried again to slow things down by changing keepers once more: this time placing untried Sally Puhlick, normally a mid-fielder, in the box for the Miners.

But apparently the women were out for blood, because the scoring just kept happening. Debbie Lewis, who had spent a portion of the match playing sweeper-back, volleyed another cross from Cathy Georgevitch into the net. Mary Gasper knocked in the 12th UMR goal, and Sue Shrum, who'd been try-

Mary Gasper goes up for a head ball as (from left to right) Cindy Driscoll, Bean Gardiner and Lisa Tieber look on. UMR trounced Arkansas 15-1 in their final game. (Photo by Missy Warfield)

ing for a goal all season from her wingback position, finally succeeded in her quest.

It was at this point that Arkansas scored it's lone goal. The Lady Razorbacks finally worked their way into Miner territory, and were awarded a penalty shot when a Miner defender took down a Lady Hog in the area. Puhlick, having no experience being on the receiving end of a penalty kick, couldn't make the save, and the Miners were ahead by only 12 goals.

Although the final 15 minutes seemed to drag forever, mercifully the

Miners only scored twice more: Debbie Lewis's fifth goal of the day, and Mary Gasper's third.

So concludes the Miners most successful season to date: 12-7.

UMR will be playing without five either graduating or ineligible women next year as Angie McEntire, Sue

Shrum, Debbie Lewis, Missy Warfield and Jenny Lammers finish their stints with the Miners. Congratulations to all the 1986 Miners, as well as their coaches, John and Ann Watson. A special thanks to John Szentes, who has served the team faithfully five long years.

Sports Commentary

Julius Erving begins his last season

by Mark Buckner
Staff Writer

One of the greatest players in the history of professional sports will no longer be playing by the end of this season. Julius Erving, alias "Doctor J.," is playing his last season in the NBA. He may be retiring, but he'll never be forgotten.

Of course, nobody will forget Julius for his athletic abilities. All the various and spectacular moves he'd use against opponents that would result in easy baskets. And whenever he was on the offensive end of a fast break, Erving would usually finish it off with one of his fantastic over-the-head slam dunks.

Erving's slam dunks are like works of art in that his dunks are done authoritatively but without punishment; he never has broken the backboard glass like Daryl Dawings did for a while.

Julius was, and still is, so good at making slams that he has won Slam Dunk contests over his dozen years in pro basketball. How can anyone forget that most famous dunk he had about ten years ago in which he dribbled down-court, leaped off the floor at the foul line, and slammed the ball through the basket while still off the ground. Other players have also tried this feat at slam dunk contests but most have come up short.

Not only will Erving be remembered for what he's done on the court, but also for what he's done off the court. He has done much charity work and has also voiced his opinions against drugs. Where there are so many players in the sport that are considered "heroes" by kids, Julius is one of the ten best players in history that people could consider a real "hero."

That's what makes "Doctor J." so great. He's articulate, and more importantly, very intelligent as a human being, and a good family man. He could get a broadcasting job easily, and would be very good at it if he wanted it. Julius Erving is a class individual.

AIM HIGH PUT YOUR COLLEGE DEGREE TO WORK.

Air Force Officer Training School is an excellent start to a challenging career as an Air Force Officer. We offer great starting pay, medical care, 30 days of vacation with pay each year and management opportunities. Contact an Air Force recruiter. Find out what Officer Training School can mean for you. PONTIAC WE SELL EXCITEMENT

HOW TO ENRICH YOUR EDUCATION BY \$1,000 A MONTH

ENGINEERING, MATH, CHEMISTRY AND SCIENCE MAJORS!!

Your most rewarding career opportunity can start even before you graduate. It can start right now—as an Engineering Officer in the Navy's Nuclear Propulsion Program.

We'll pay you over \$1,000 each month to finish your degree at UMR, no uniforms, drills, haircuts or meetings required! Then we'll give you one year of graduate-level training—training regarded the best of its kind—and we'll pay you \$20,000 to get it! After that the benefits get even better!

While this may sound like a lot, if you've got what it takes, you're worth every cent. With one year of calculus and physics and minimum GPA of 3.0 (3.3 for juniors) you could be qualified.

The Regional Naval Engineering Representative will be conducting on-campus interviews on 19-20 Nov. Sign up at the Buehler Building for an appointment or call 1-800-466-6289.

NAVY OFFICERS GET RESPONSIBILITY FAST.

Intramurals: No socials

By Jim Lawson
Staff Writer

Regular season soccer action is over, with playoffs starting this week. Sig Eps beat Phi Kaps in a shootout for a playoff berth against Pikes, and TJ-North will square off against Tekes in Division I. In Division II, Alpha Omega will play Kappa Alpha, and OAS will meet Air Force. Complete regular season standings are printed below.

Volleyball is still in its regular season, and will continue through next week. Standings should be in the next issue of the Miner.

Final billiards standings are still not available. Teams who forfeit their games will not be given participation points. Signing up for a sport does not earn points, playing does. These, and table tennis results will be either posted on campus or in the next Missouri Miner.

At the last intramural meeting it was announced that if you add members to your organization, you must change

your roster and get it approved by the Eligibility Committee. It was also announced that "social members" of an organization are not allowed to participate in intramurals for that organization, you must be financially tied to the organization you play for. Any failure to comply with these rules will result in forfeits.

Athlete of the Week honors went to Bob Branhof of Beta Sigma Psi. Bob made three consecutive saves in a shoot-out against Sigma Nu to clinch the 2-1 win. Congrats, Bob!

TJ-North was named "Team of the Week". In six games they've given up only three goals. They also pulled together to win 1-0 against Phi Kaps and RHA en route to a 5-1 season and a playoff berth. Honorable mention goes to OAS with a 6-0 record. They out-scored their opponents 29-4 in regular season play.

The next Intramural Managers meeting will be November 19th. BE THERE!

M-Club Athlete of the Week

The M-Club Athlete of the Week for Oct. 19 through Oct. 26 is Tom Reed. Reed, a senior fullback on the football team, rushed for 118 yards and 3 touchdowns in less than 3 quarters of action in the Miner's win over Lincoln University. He also caught one pass for twelve yards. For his efforts, he was named as the MIAA offensive player of the week.

The athlete of the week for Oct. 27 through Nov. 2 is Steve Temme. Steve, the goalkeeper for the men's soccer team, stopped 4 breakaway scoring attempts by Southeast Missouri as UMR topped the Indians 4-3.

The M-Club regrets that the pictures of the past three athletes of the week Tim Swinfard, David Olmstead, and Sally Puhlick were not published.

Women's intramurals

By Melinda Falgout
Staff Writer

Billiard results for women's intramurals are in with PiKA Little Sisters taking first and GDI and Order of the Sun coming in second and third respectively. This week's intramural Team of the Week is the White Stars with their 4-0 record in volleyball. Also the intramural Athlete of the Week goes to Lynn Palek from PiKA Little Sisters. Lynn won Billiards last weekend by impressively moving herself straight through the winners bracket. Volleyball is now half over and the standings up to date are as follows:

APPLICATION DEADLINE: 12-5-86

ALL GRADUATING SENIOR SEMINAR

To be conducted on Monday, Jan. 19, 1987 in the Mechanical Engineering Auditorium Room 104, from 6:30 - 8:30 p.m.

Seminar, conducted by Prof. Remington, on How to Use the Placement Office.

NAVY HIRING PILOTS FOR 1986-89

OFFICERS LEAD THE ADVENTURE!

Navy Officer Representatives will conduct an exclusive testing session Nov. 19 and 20. All interested students who are within three years of graduation are encouraged to take advantage of this opportunity. A testing appointment may be obtained by calling ... toll free ...

NAVY RECRUITING, ST. LOUIS
1-800-446-6289 in Missouri

Testing seats are limited. Testing time is approximately 3.5 hours. Testing will be conducted in the Walnut Room, 201 University Center-West, University of Missouri-Rolla, at 8 a.m. and 2 p.m. each day.

College grads are needed to pilot, navigate and maintain the most sophisticated aircraft in the world. All majors considered. No experience necessary. Application should be made before graduation.

As a Navy Pilot you will fly the most advanced aircraft ever developed.

As a Naval Flight Officer you will operate the electronics and computers in the Navy's newest jets.

Complete training provided for all positions

Pilots—\$21,200 start, 20/20 uncorrected vision, all majors, 19-26 years old.

Flight Officers—\$21,200 start, 20/20 correctable vision, all majors, 19-26 years old.

Managers—\$19,127 start, ship handling and ship management, strong emphasis in personnel management, all majors, 19-28 years old.

Business Managers—\$19,127 start, finance, personnel, logistics, business majors preferred, 19-28 years old.

Engineers—\$19,127 start and bonus, project management R&D operating engineers, engineering sciences or technical majors, 19-28 years old. Over \$31,100 in four years for some positions.

Sophomores/Juniors

New Naval Aviation Program with Guaranteed Flight Training.

NAVCAD: (Naval Aviation Cadet Program) Sophomores from 4-year or community college undecided about continuing college may qualify for immediate Pilot Training. Requirements: 60 semester hours, 2.5 GPA and pass the aptitude test.

AVROC: (Aviation Reserve Officer Candidate) Guaranteed Pilot/Flight Officer Training at AOCs, Pensacola, Florida during sophomore or junior year summer break and/or upon completion of BS/BA degree. No drilling or meetings required.
