Unocal president to speak at UMR spring commencement

News and Publications
SOURCE

Richard J. Stegemeier, president and chief executive officer of Unocal Corporation and chairman of the board of directors, Los Angeles, Calif., will present the address at the University of Missouri-Rolla's 117th Annual Commencement Saturday, May 12.

Stegemeier also will receive the doctor of engineering degree (honoris causa) during commencement.

About 550 degrees will be awarded during commencement, which will be held at 2 p.m. in the UMR football stadium.

In the event of inclement weather, commencement will be held at the same time in the Gale Bullman Multipurpose Building. Announcement of the location of commencement will be made over local radio stations by noon on May 12.

Should commencement be held indoors, tickets will be required. All graduates will receive four tickets when they pick up their caps and gowns at the University Bookstore in the University Center-West.

Caps and gowns for those students receiving bachelor's and master's degrees will be available after May 2. Those students receiving doctorates will be able to pick up their caps and gowns after May 2.

Stegemeier holds a B.S. degree in petroleum engineering from UMR and an M.S. degree in petroleum engineering from Texas A&M University.

He joined Unocal in 1951 as a research engineer. In 1961, he became an engineer in the natural gas department. In 1980, Stegemeier became senior vice president of corporate development and a member of Unocal's Board of Directors.

He became president and chief operating officer in 1985 and president and chief executive officer in 1988.

He was elected chairman of the Board of Directors in 1989.

Stegemeier currently serves on the Board of Directors of First Interstate Bancorp, Outboard Marine Corporation and Northrop Corporation. He also is a director of the American Petroleum Institute and the Alliance to Save Energy.

He is a member of the National Petroleum Council, the Society of Petroleum Engineers, the American Institute of Chemical Engineers and the 25 Year Club of the Petroleum Industry.

Stegemeier also currently serves on the Board of Directors of the California Economic Development Corporation, the National Council of Business Advisors and the National Association of Manufacturers. He is a member of the Board of Trustees of the Committee for Economic Development and is a member of the Board of Overseers of the Executive Council on Foreign Diplomats.

The Miner staff says "Farewell"

As the semester winds to a close and graduation nears it is once again time to say good-bye to old friends. It is never easy to leave friends behind or to be left.

Being editor has been something I'll remember for a long time, with friends I hope to keep longer. I think most of you know who you are but I think that you all deserve public humiliation. I hope I don't leave anybody out-- Bob & StuCo,

Pimmel, Carol Molchan, Smoky, Carol Ann, Nantz, SCUM, my folks (I had to put that in since they actually read the paper sometimes)

and all the little people a.k.a. the staff.

I had a wonderful staff to work

with this year. We definitely accomplished a lot. Our move was completed with a minimum of mayhem and we even pulled off a pretty nice open house with the Rollamo. The new offices really helped bring the staff together, better atmosphere, attitude and great teamwork. This semester really came together for the paper. I hope we put out a good paper in your eyes since it is your paper.

I have enjoyed my semester as editor-in-chief even through all the headaches it was worth it.

Farewell old friend!

Nikki Pagano

Final exam date change

Please note that classes having their first weekly meeting time Monday at 11:30 will have their final on Tuesday from 3:30 to 5:30.

Greek Week concludes

Bill Booth

Laura Hardin, Dave Park, and Andrea Dorr celebrate Greek Week while wearing the traditional Greek garb, TOGAS.

BAC responds to student surveys

By Kyle Corum
BAC

The Bookstore Advisory Committee (BAC) sponsored a survey of the UMR Bookstore in March and the final results have been tabulated. Around 370 surveys were returned out of 1300 distributed. The results showed that most students are satisfied with the overall performance of the UMR Bookstore.

Though the bookstore was given a good rating, some problem areas were pointed out. About half of the surveys listed high prices as the number one concern of students. The BAC has reviewed this problem in the past and found that the text book publishers directly control the prices of the books and not the bookstore. The bookstore is attempting to combat this problem by increasing their used book inventory.

The UMR Bookstore is currently working to improve other problem areas such as their magazine selection. In the weeks to come, the bookstore will be switching to a different magazine distributor which will be able to provide the bookstore with a bigger selection. It was also suggested to increase the variety of paper supplies such as spiral notebooks, paper, etc. In honor of Earth Day, the UMR Bookstore introduced some less expensive recycled paper and wire notebooks. They plan to continue this recycling drive if students show enough interest in the recycled products.

Other comments were passed along to the management of the bookstore and they will be looking into possible solutions to these concerns over the current needs of the UMR student body. They welcome any input from the student body or faculty, such as ideas on magazines, trade books, Greek paraphernalia, clothing, etc. If you have any suggestions please

stop by the UMR Bookstore and speak with the manager or any of the bookstore staff.

To increase the services it provides the student body the bookstore is going to try something new this semester when it buys back text books. They will be setting up a second location in the lobby of the Thomas Jefferson Residence Hall to allow students living there to sell back their books on the spot. If the response is positive they will be expanding to the Quad in the future. Look for more details of other such events in future editions of the *Miner*.

The Bookstore Advisory Committee would like to thank everyone who participated in the survey. Any comments or suggestions about the survey can be directed to the Student Council office. The BAC will continue to monitor the actions of the UMR Bookstore in the future and if you are interested in serving on the committee next fall contact the StuCo office.

Calendar of Events

Wednesday

Wesley Meeting, 6p.m., at the Wesley Foundation.

Alpha Chi Sigma Meeting, 6:30p.m., in room G-3 Schrenk.

Mass, 9p.m., at the Newman Center.

Thursday

Board of Curators Meeting, at the University of Missouri-Rolla.

AF ROTC Leadership Lab, 12:30p.m., in room 216 McNutt Hall.

Physics Colloquium, 4p.m., in room 104 Physics. "Mathematical Models of the Atmospheric Aerosol," John H. Seinfeld, department of chemical engineering, California Institute of Technology. FREE!!

Bible Study Club Meeting, 4p.m., in Maramec Room.

IVCF Dead Week Party, 4:30p.m., on the University Center-East parking lot.

Toastmasters Meeting, 4:45p.m., in room 220 Fulton Hall. Toastmasters is an international organization devoted to helping its members develop their public speaking, listening, and critical evaluation skills.

Campus Crusade for Christ, 6p.m., in room 125 Schrenk.

KME Help Session, 7p.m., in room 203 M-CS.

UMR Film Series, 7:30p.m., "Breaker Morant," in Miles Auditorium, Mechanical Engineering Building. Admission by season ticket or \$3 at the door.

Friday

LAST DAY OF CLASSES!!! GOOD LUCK WITH FINALS!!!

ROTC Parade, 4p.m., at the UMR Track.

UMR Juggling Club, 4:30p.m. to 6p.m. and 7 to 8p.m., at the Miner Rec. Contact Ed Carstens at 364-7536.

SUB Movie Series, 7p.m., in room 104 ME. Featuring "Back to the Future" & "Back to the Future II."

IVCF Meeting, 7p.m., at 139 ChemE.

Moonlight Golf Tournament, 8p.m., at the UMR Golf Course. The cost of the tournament is \$30 per team. Glow in the dark golf balls will be provided. For more information and entry blanks contact Mary Orteloc, athletic department, phone 341-4105. Benefit for Lady Miners basketball team.

Saturday

READING DAY!!!

SUB Movie Series, 7p.m., in room 104 ME. Featuring "Back to the Future" & "Back to the Future II."

Sunday

Chancellor's Concert, University Choir and Orchestra, includes Haydn's "Heiligmesse," Rolla Presbyterian Church, 10th Street. FREE!!

Monday

Dec Grads go to 103 Parker Hall today to apply.

Commencement, Saturday, May 12th, 2p.m., at the UMR's New Jackling Field.

Memorial Holiday, Monday, May 28, school offices are closed.

Summer Session Begins, Monday, June 11.

Summer Session Closed, Saturday, August 4.

Financial Aid

WINTER 1990 MISSOURI HIGHER EDUCATION ACADEMIC "BRIGHT FLIGHT" SCHOLARSHIP CHECKS for the Winter 1990 semester are now available. They may be picked up in the Cashier's office basement of Parker Hall.

MISSOURI BANKERS ASSOCIATION (MBA) SCHOLARSHIP Two \$2500 and one \$5000 Willis W. Alexander MBA Scholarship will be awarded for the 1990-91 academic year to students pursuing a field of study relating to banking. Applications for these scholarships may be received from UMR's Student Financial Aid Office, G-1 Parker Hall. Deadline for applications is June 15, 1990.

THE COUNCIL ON PUBLIC HIGHER EDUCATION The COPHE will be offering ten \$1000 scholarships for the 1990 year. Recipients must have a minimum of 75 college credits, and will be chosen by a committee made up of representatives of COPHE institutions, and awards will be based on accomplishments within the college or university attended by the student. Financial need will not be a factor in determining awards.

Application deadline is: May 18, 1990.

Mail applications to: John C. Vaughn, COPHE Director, 105 Harris Hall, University of Missouri-Rolla, Rolla, Missouri 65401.

Applications available at the Student Financial Aid Office G-1 Parker Hall.

ORVILLE REDENBACHER'S SECOND START SCHOLARSHIP PROGRAM Orville Redenbacher will be offering ten \$1000 scholarships to students who are making a second start. Qualifications are the following: 1) Applicant must be 30 years old or older, 2) Applicant may be a part-time or full-time student, 3) Applicant must be enrolled in an accredited college or university.

Applications can be pick-up at the Student Financial Aid Office in G-1 Parker Hall, between the hours of 9a.m. to 4:30p.m. Monday thru Friday.

Deadline: September 1, 1990.

New English course offered

News and Publications SOURCE

"British Masterpieces II," a course designed to survey English literature covering the period from Burns to the present, will be offered by Arts and Sciences Continuing Education at the University of Missouri-Rolla this summer.

Fee for the course is \$180 for freshmen and sophomores, \$198.90 for juniors and seniors. Out-of-state tuition is required if applicable.

Instructor for the course is Dr. James Wise, UMR professor of English.

For further information about this course contact Dougias, Arts and Sciences Continuing Education, UMR, Rolla, Missouri 65401, phone (314) 341-4144.

According to Dr. Stephen Douglas, UMR director of educational services, the three-credit-hour course will be offered from 8:10-9:40a.m. Monday through Friday, June 11 through July 20, in Room 103 of the Humanities-Social Sciences Building.

Chancellor holds a reception for graduates

Dear Students,

I wish all of you success on your final examinations and the best for your summer plans.

I also congratulate everyone who will graduate on May 12, and hope you have a happy and successful future.

To honor all of the graduates, Mrs. Jischke and I are hosting a reception for them following Commencement between four and six in the afternoon

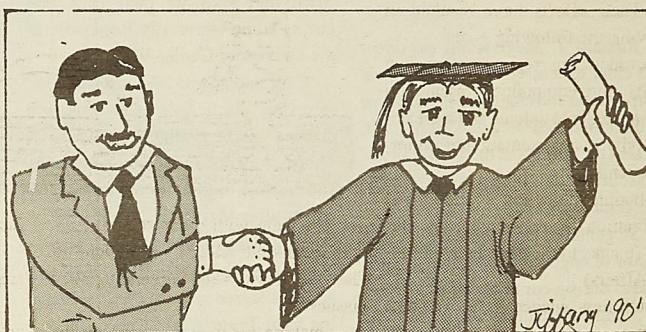

on Saturday, May 12, at the Chancellor's Residence, 506 West Eleventh Street.

We are looking forward to seeing all of the graduates and their guests at that time.

Again, have a safe and enjoyable summer, whatever your plans.

Cordially,

Martin C. Jischke
Chancellor

Missouri Miner

The **Missouri Miner** is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday afternoon at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the **Missouri Miner** and may not be reproduced or published without written permission.

The **Missouri Miner** encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 3:30 p.m. on the Thursday before publication. The **Missouri Miner** reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The **Missouri Miner** is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

StuCo president bids farewell after a successful year

Dear Editor,

It has been a pleasure working with you and other leaders of student organizations this past year. Many of us have worked together very well and I believe that the organizations we work for, and UMR students as a whole, have directly benefited. I hope that our shared sense of comradery and cooperation is continued next year.

As for Student Council, I am very proud to have worked for and with the students elected to make up the Council. Their efforts have resulted in achieving the following goals:

- restructuring representation that permits more equitable representation for independent students and a greater sensitivity to representation of minority students.
- obtaining greater funding and coordination of recruitment by students (thanks to the generosity of Student Affairs)
- outlining needed improvements on campus to increase the safety of all students.
- allocating of office space and over

- \$15,000 to student organizations.
- organizing five successful blood drives.
- providing free legal advice for students.

StuCo has also made and continues to make efforts toward:

- developing a compromise to permit the retention of all varsity sports and the financing of a new intramural

tion Fee (tuition) structure.

To the students of UMR, I would point out that these and many other activities were done through the efforts of YOUR elected representa-

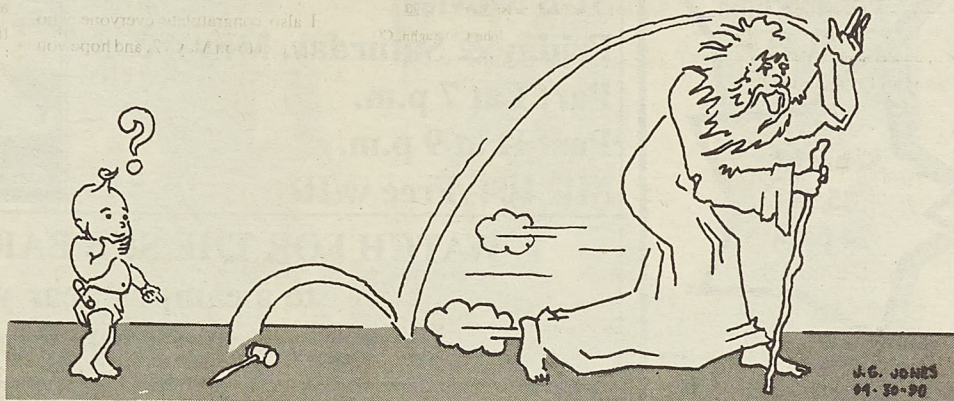

forming you.

Next year will be an important one as pressure mounts for a tax increase to fund higher education. Should that bid fail, the need \$360+ million/year (according to President McGrath) will most probably be raised through drastic fee increases and/or program cuts. Students will have to be involved if the tax increase is to pass. President Luke Peterson and the additional officers of StuCo are already working on this with ASUM and student governments around the state, but the efforts of all students, parents, faculty and alumni are also needed. Please get involved; sooner or later, it will effect you.

Good luck with finals and design projects! And to my fellow graduating seniors — WE MADE IT!

Sincerely,

Bob Phillips
Has-Been President
StuCo

- working with other student governments and ASUM on student-related legal issues and university policy issues.
- making recommendations on the division of over \$1,000,000 in Student Activity Fees.

- facility.
- addressing new student residency requirements.
- addressing the charge and application of Engineering Supplemental Fees.
- addressing the differential Educa-

tives. I would like to emphasize this point because StuCo is not an organization in and of itself. StuCo is a forum for raising and addressing student issues. Therefore, it is important that the representatives you elect are serious about representing and in-

return with huge and loud stage show

By Babu Barat
STAFF WRITER

Once known for their craziness, KISS has evolved into a band that is now known as much for the great music they write as they are known for their on-stage theatrics. Gene Simmons speaks on the old and the new.

KISS (pictured l to r: Eric Carr, Gene Simmons, Paul Stanley, and Bruce Kulick) currently single "Forever" is one of the hottest ballads on the charts. You can see them live on May 12 in Kansas City and on June 1 in St. Louis on their "Hot In The Shade" tour 1990.

"The show is going to be amazing," said Paul Stanley of the band KISS. Stanley along with co-founder Gene Simmons are genuinely excited about the upcoming tour which will feature the bands biggest stage production since the late seventies. There's going to be lasers, great lights, smoke, and incredible volume," adds Stanley. "We're going to go back to what made KISS, KISS."

For almost two decades Stanley and Simmons have been writing and playing great songs that have epitomized rock 'n' roll. Their greasepaint covered faces and their anonymity made them one of the most intriguing bands ever. After their formation in 1973, KISS quickly became the largest concert attraction in the world. Their onstage theatrics and special effects separated them from the wanna-be's and eventually took them to superstardom. Every record they made instantly went platinum. They were the band that everybody loved so much they wanted to be just like them, or the band that you just didn't dislike, but loathed. KISS could never be put in a category as being just average. They

Hazardous waste course

Rolla News
SOURCE

A course designed to provide participants with the 40 hours of training required by the Occupational Safety and Health Act (OSHA) for hazardous waste site activity workers will be held May 14-18 here at UMR. Classes, which will begin at 8:00 a.m. Monday, May 14, will be held in McNutt Hall.

Fee for the course is \$750 (\$300 for high school or college students, or recent college graduates) and includes classroom instruction, certificates, course materials and a hazardous waste manual.

For technical information about the course contact Dr. John D. Rockaway, UMR professor of geological engineering and course director, 157 McNutt Hall, UMR, Rolla, MO 65401, phone 314034104799.

To register for the course contact Norma R. Fleming, Continuing Edu-

Alpha Phi Omega collects books for its semester bookstore

Alpha Phi Omega
SOURCE

The Alpha Phi Omega service fraternity will be collecting your books on campus during dead week and fi-

nals week. The APO bookstore is a place where you can drop off your books with your name and phone number and we will sell them for you. Selling begins during the week before school starts next fall. These books will probably be the best buys in town. So make some money back and get some good deals. (If no one buys your books, they will be returned to you.) If there are any questions, call Vicki Betlach at 364-7817 after 1 p.m.

Kappa Alpha finishes strong semester

Kappa Alpha
SOURCE

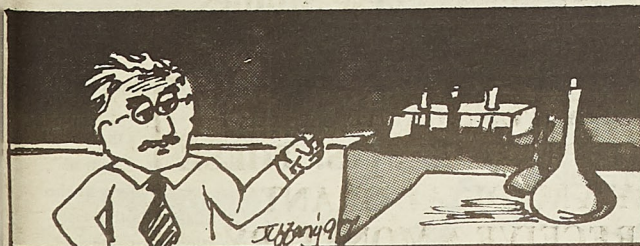

The Spring 1990 semester has proven to be an exciting one for the brothers of Kappa Alpha Order. At our annual Province Council meeting March 2-3, 1990 at Westminster College, the chapter received several awards, including the election of Eugene Bae to the position of Province Undergraduate Chairman. As the P.U.C. for Chiles Province (State of Missouri), his responsibilities include coordinating MDA fundraisers, planning state-wide functions, and expanding inter-chapter communications.

On April 11th, the brothers initiated Vice-Chancellor Thomas Coffman as the chapter's new faculty advisor. As the chapter's link to the University in administrative and advisory issues, he replaces Professor Jin Pogue who served us for 9 years. We would like to extend our appreciation to both for their service with our house, now and in the past.

As with most all national fraternities, Kappa Alpha Order conducts an annual conference for chapters across the nation. This year's National Leadership Institute in Nashville, Tennessee will be a special one for our chapters as we have been selected to perform model initiation before the Order. Congratulations are extended to chapter Ritualists Jason Lowry and Ronnie Salamee for their hard work

and effort in gaining this honor for our house.

As a final event, the chapter is hosting a state-wide summer float trip on June 8-9, 1990. KA's from across the state (UMR, MU, SMSU, Drury, Westminster, and William Jewell) will attend the event, as we promote Kappa Alpha as an exciting and rewarding brotherhood.

The course will provide participants with instruction in all phases of the OSHA requirement including identification of hazardous waste substances, regulation protective clothing and equipment, and safety principles and HAZMAT clean-up.

Instructors for the course include UMR geological engineering faculty members and members of REACT Environmental Engineers, St. Louis.

cation Coordinator, UMR, Rolla, MO 65401, phone 314-341-6061 or 1-800-752-5057.

The course is sponsored by Continuing Education at UMR, UMR's geological engineering department, and REACT Environmental Engineers, St. Louis.

Suspicious stares on suspected murderer

By Nora Okong'o
STAFF WRITER

(Last Week: Tracy and Bill make a gruesome discovery — a murdered four-year old girl in her car. Will they now be the prime suspect?)

"What time did you discover the body?" the officer asked.

"It was about seven-thirty, it was just getting dark."

"And you knew the victim?"

"She was a neighbor's child. She was usually playing in the yard, and I bay-sat her once."

They had ben through this twice already, and Tracy couldn't even guess where this line of questioning might be leading her. Straight into trouble, she suspected.

Bill was waiting for a cab outside when she was finally released. He must have seemed less suspicious than she did, she thought, to have been let go so much sooner.

"Did you tell the police about the car we saw driving out early?" Bill asked once they were safely on their way home.

"I think so. They asked me if I'd noticed any of the guests leaving early. Among other things."

"Well, at least they've released us — that's always a good sign."

Tracy found it difficult to reflect his positive attitude.

She could hear strains of loud music even as she walked up the stairs. For a moment, Tracy was indignant. How could Sarah possibly be having a party, with all that was going on? But perhaps it was just as well. Maybe the incident would be quickly forgotten and she could get on with her life.

She sneaked into the apartment, and into her bedroom. It would be difficult, but there was no harm in trying to get some sleep. She was more tired than she had thought. Even the raucous party could not keep her awake.

The shrill ring of the telephone woke her. It was just after eight. For a Saturday morning, that was too early to call. It was a reporter from the local paper, wanting to know why she had not been charged with the crime. Tracy naturally, had no comment. She hoped this was not a pattern of things to come.

She ran into Bill that afternoon at the grocery store. He was devoid of his usual good humor.

"Did a reporter call you too?" she asked him.

"Yeah, though I don't know what for. The story made the morning edition anyway. The guys at work were

n't amused."

"They don't actually think you did it?"

"They don't have to. It's bad publicity for me."

"Do you think the police have any idea who might have done it?"

"If they do, they're not about to tell

me."

graduated, but a faint glimmer there of kept her going. She could hardly believe her eyes. There she was, slotted last for some obscure company in Wisconsin. She reckoned she could do worse. There would not be much time to prepare. It looked like she was the last-minute replacement, and the

fortably suspicious smiles. She tried to clear her mind as she went in to the interview.

It hadn't gone well. She had sensed as soon as the interviewer had asked the first question that the interview would be a disaster. The interviewer, as these tend to be, had been impassive so she had only her won muddled thoughts to go on. They told her forget this job - you were a back-up, remember?

She stepped out of the cab after the cab-driver had twice asked, "Is this where you want to get out?"

She handed him the fare and a tip absent-mindedly. She was about to unlock the door to her apartment when she heard raised voices from within. They sounded strikingly like those of Sandra and Bill.

"Listen to me Sandra. When word gets around that you live with her, no one will ever want to talk to you again."

"Bill, we just can't walk out on her, she needs us."

By now, it was apparent that they were talking about Tracy. She rapped loudly at the door, stopping the conversation. Sandra opened the door cautiously, then flung it open all the way to help Tracy with the groceries. Bill stood by uneasily, wondering how much of the conversation Tracy had heard.

"Have you heard anything from the police?" Tracy asked him, when he showed no sign of leaving immediately.

"No, but a little more pressure from the press and you and I might be back in jail," he said nonchalantly.

"Oh, Tracy, I almost forgot," San-

dra said. "You left your back-pack in my car." You'd better go down and get it."

It had obviously been too heavy for her to bring it up, Tracy thought, but only said, "Sure, you start putting away the groceries," and headed downstairs.

She stopped and stared in surprise at the car parked next to Sandra's. Was that not the same car that she and Bill had seen leaving the night of the party? She didn't remember having seen it parked in the apartment block's parking lot before then; so why was it there now? Was the murderer actually some respectable citizen. Her mouth fell open when she saw a man walk up to the car and open the door. He looked familiar, but that wasn't saying much. She tushed up to the apartment to share the news.

"Did you get it?" Sandra asked.

"No." In her excitement, she had forgotten all about the back-pack.

"Guess who I saw in the parking lot?"

"Well we don't have to worry about that murderer anymore," Bill said, from his vantage point on the couch in front of the television set.

"Why?" Tracy asked, sensing that this had nothing to do with the man she had just seen by Sandra's car.

"They caught the man. Apparently he escaped from some mental institution. It's not the first time he's done something like this; they found his fingerprints all over your car. Looks

like an open and shut case."

"Oh, that's great," Sandra said, with her usual exuberance. "Now we can relax and have everything the way it was before."

Tracy smiled thinly at Bill as he stood up to leave. Nothing would be

the same between her and Bill now that he'd shown how little her friendship had meant. But knowing that Sandra had stood beside her would make their last few weeks together that much more bearable.

It was Friday the next week. Sandra screamed excitedly as she opened

the mail box. Tracy watched her in amusement.

"Tracy, it's for you. It's that company you interviewed for. Open it!"

Tracy's hands were shaking as she took the letter, probably another tastelessly worded rejection letter, consider-

ing their interview.

She read it, and then screamed, "I got the job!"

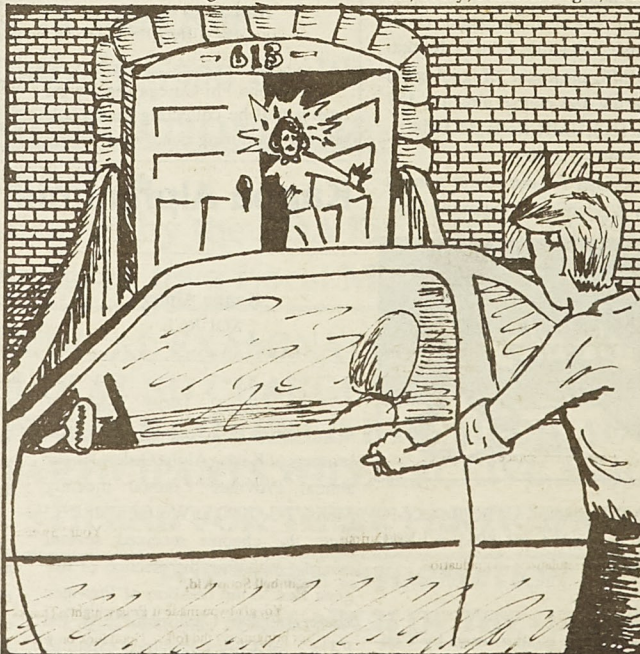

Then she and Sandra did a victory dance. Tracy thought, I'm beginning to act like Sandra. I've been around her too long.

(The End)

interview was only two days away. She rushed back to the car to tell Sandra the good news. Neither Sandra nor her car was anywhere in sight. Had five minutes really been that long to wait? She opted not to speculate and walked briskly to class.

The night before the interview she slept poorly. For one thing she was nervous about the interview itself. For another, the murdered she and Bill had discovered was hovering over her like

a black cloud. Instead of getting sympathy for having made such a horrendous discovery, she got uncon-

Graduating SENIORS: Please return senior information sheets to 103 G Norwood, RollaMo office. If you did not receive one, simply submit a list of achievements, activities, memberships, etc.

Stereo Equipment For Sale: A pair of JBL 52T speakers. Awesome sounding. 150 Watts each. Come have a listen! \$175 firm. Only a year old. Also have a Yamaha CDX-720 CD Player. 18-bit, 8X oversampling, top of the Line quality. Paid \$550 will sacrifice for only \$375. Only two months old! Lastly, a Sony STR AV67 Audio/Video receiver. 80 watts per channel. Only \$175. All prices are firm! Call 364-2564

Hey Frisbee Players,

Ultimate games Tuesdays and Thursdays at 5:30 on the upper IM fields near the Multi-Purpose bldg. Call Matt J. at 364-2331 for more info.

Does anybody want to go to Salt Lake City (or Denver) in early June? Help with driving and gas.
Rich, 341-4716 or 762-2417.

For sale:

Bush audio cabinet. Asking \$100 or Best offer. Call Paul 364-8123.

Air Conditioner For Sale:

Signature heavy duty 15,000 BTU good condition, \$120, Call Steve 341-3599 or 341-6581. Leave a message.

Found: Eyeglasses near 12th and Oak. To claim call Chris at 364-3362.

For Summer Rent: 2 bedroom, large living room, central air & pool, across from civil building. \$325.00 call ASAP 341-8208 or 364-5563.

Personals

Quad Bunny,

I miss you and love you very much!! I can't wait for this summer. Go nuts!!

Kathy C.

Did you have fun at tennis? Did you spend the majority of the time misting or demisting? Give us the gory details!

The Cafeteria Crew

Used and Abused StuCo President for sale.
Call! 1-800-Has-Been.

Dave F.

Good luck on your summer project. If you need any pointers or advice — let us know.

Physics House & Suzi

It's been great knowing you guys. I don't know if I'd make it without you. Great things are on the horizon for S.P.S.

The best of luck in the future. Speckles are A #1.

Bread Man,

Please also leave 4 packages of hamburger buns and 8 packages of hot dog buns. I need them for this weekend.

TKB,

Congrats on graduation and the new job. Good luck in the real world. Keep in touch!

P.S. Ya, finally got your own personal.

F.H. (future hubby— aka Bob),

So much for your freedom. Have wonderful time in Cancun with Kathy!

TAC at KD,

Hope you had a fantastic Greek Week, and here is wishing you a great summer! Cheers!

Kat C,

Congratulations on graduation from those of us with life sentences.

Becky,

I got another Diet Coke for you. When are you going to stop by?

TKB,

How are we going to live without you?

Kat C.,

Have you misplaced 14th Street lately or do you just spend all your time corrupting innocent young mothers?

P.S. Congratulations on graduation.

Jeannie:

It's been a great semester... I finally had a class I liked, but it was more because of the people. I hope I run into you in the future.

The Weird But Cute One

Sie ist ein "motor" mut. Sie ist grosse
"Lazy" im 140. Viel Glück am das Klausur!
Ihre "Sweetie"

Bruce,

Wake UP!

K & S

H.B.

How about one more Bob of the Month Club meeting? Who will be the next chairman?
An avid member

Admirer,

Thank you for the compliment and your advice. Really!

Ang,

Enjoy Columbia. I'll miss you lots. Please write.

Susie,

Did you buy stock in Garanimals?

Hey Tim,

Caught your note last week. I'm glad to be back. As far as J. is concerned, I doubt that I can leave her alone; she is a bright spot in a dull schedule. (Besides, she is fun to bug!)

Nord & Sellberg,

It just won't be the same without you.
Good Luck

Jeannie,

Sorry I stepped on your nose (OOPS! I mean toes). I am TRULY SORRY and I swear I'll never do it again.

Greg,

Congratulations! You now have your B.S. degree. Now you can B.S. professionally

Kelly B.,

Well, What's it going to be? Whatever happens — you've a good person!!

Sandy,

What do you call an armless & legless little girl on the beach? I knew you could guess it!

Cambell Soup Kid,

Yo, glad you made it Friday night. Thanks for bringing all the folks. Good luck on your finals & have fun this summer. See ya next semester in Koinonia.

P.S. "Small World!!!"

Webster, The real LL, Kamau, Bruce Babbitt, Planters, and yes "Brix-stah",

"Pebbles" is off the list. The time for one last kool-aid and movie party is NOW cuz by August 11, Pebbles is tying the knot with her "Bam-Bam".

Well, this is it.

There are so many true things I could say about this campus, but oh well, everyone is too fake to believe it. I'll just leave it at "goodbye", You'll miss me!"

Lew,

Great job on the roast. Next time, let's try to do it on the people we are supposed to and not ourselves, okay? Have fun playing softball this summer. Good luck finding a roommate that can put up with your NCS.

AmaJa, AndySa, EllyKa and AmPa,

If you ever need someone, I'm always here.
(This) The Different One

Clueless Rich at AEPI,

Think you could come to the next experiment if given a map or watch.

Jeannie,

We need to play musical seats more often. It bugs D. Seems to make his day.

Marty,

Have fun in the dark room but don't get too buggy-eyed. Can't wait to see all those "out of focus" shots in the RollaMo next semester. Have a good summer.

Alias Roger,

Good luck on your program. I hope you manage to catch up on your sleep sometime. If you need a hug; there are extras around.

A'sia & Delores,

Well you Psych-fiends, I hope you have a good summer (don't forget to continue your projects into the summer!!!). Good luck on your finals.

Sandy,

You know what they say about red-heads!

Yo Everyone,

Well, another semester has come and gone and here I am burning the 3 a.m. oil again typing these silly classifieds, but hey, it's been fun. I hope that the graduating seniors get a job and that the rest of you have fun this summer. I'll see ya'll next semester.

Gabby,

Corrupted any Jamaicans lately?
Just Curious

K.G.B.,

Well? Who's it gonna be? G., T., W. alias R., or J. The scorpio blood runs deep.
The Chocolate Kisses

Plant Thieves (Mark and Rich):

When you're burned out from working 60 hour weeks, just remember I warned you - these were the best days of our lives.

P.S. I know!

Sports

Lady Miners complete successful year

By Tom Brown
STAFF WRITER

The Lady Miners ended the regular season last Tuesday in a homestand against the Jennies from CMSU. UMR walked away both wins, 3-0 and 3-1. They would soon meet again as they Lady Miners drew CMSU in the first round of double elimination conference tourney. They ended the regular season at 26-12, one of their best season's ever.

Senior tri-captain Kristy Weber hurled a four hit shutout in the first game, increasing her record to 15-2. All of UMR's runs came in the third inning of play on RBI's by Caroline Bredemann (2) and Weber. Dyan Risher led off the inning with a single and was followed by senior catcher Lisa Burwell who also hit a single, advancing Risher. Bredemann then powered in both runners while she safe reached third. Weber then knocked in Bredemann on a double which ended the scoring for the inning and the game. Bredemann, Weber, and Jennifer Cordes all went 2-3 at the plate to lead the Lady Miners' offense. The price of victory was high as frosh secondbaseman Risher severely injured her knee as she slid into a base. She will miss the conference tournament and will undergo treatment at Columbia. Shelly Backues came off the bench to replace Risher and did a fine job.

Jenny Crede looked to be back in prime pitching form after her back injury, chalking up the win in the double header as she recorded 6 K's and only allowed 3 hits and 1 run. Again, all of their runs came in one inning, this time the fifth. Weber led

the offensive run with a double to the left field fence. Burwell then drove Weber to third on a single. Teresa Dickenson received an RBI after driving in Weber on a single to right field. It was deja vu as Bredemann walked to the plate with two runners aboard. As before she sent the ball deep scoring runners giving her 4 RBI's on the day. The lone CMSU score came on a desperation run in the seventh inning. Weber again went 2-3 as she showed her versatility in playing second base for Risher.

The Lady Miners went 3-2 in the MIAA conference tournament giving them a second place finish. Both of their losses were to Missouri Southern, who ended up winning the double elimination tourney. With the beginning games on Friday cancelled, the team was forced to play four games on Sunday.

The first game against CMSU on Saturday was an exciting extra-inning game. It took 10 innings and a tie breaker rule for the Lady Miners to come out on top, 3-2. The tie breaker rule places a runner automatically on second base. The scoreboard remained blank until the 9th, when both teams scored a run, forcing it to go one more inning. CMSU scored another run in the top of the 10th, placing plenty of pressure on the Lady Miners. The girls responded, scoring two runs in the bottom of the 10th. Kristy Weber was the winning pitcher, allowing only 4 hits and no earned runs. Offensively they were led by Teri Schofield who went 2-4. JoAnn Stratman drove in the game winning run.

The next day proved to be just as exciting as another in inning game was played, this time against

SEMO. The results were the same as before with UMR on top 4-3. Jenny Crede had a stellar game on the mound as she allowed only 3 hits, recorded 11 strikeouts, 1 walk and no earned runs. Again, a tie breaker rule was put into effect in the 9th with the score tied 2-2. Leslie Wickers went 3-4 and had 3 RBI's and Weber (playing second base) went 3-5. Caroline Bredemann who was held to no hits, had the game winning RBI on a sacrifice fly.

After two tough and long games, their next opponent was the number one seeded, Missouri Southern. It was a dismal game as the Lady Miners went down 9-0. Weber suffered the loss.

In the next game the girls rebounded defeating SW Baptist to advance to the final round for a rematch with Southern. But again, it took extra innings for the Lady Miners to come out on top, 1-0 in the 8 inning game. Crede pitched the shut-out giving up only 3 hits and no walks while delivering 6 K's. Lisa Burwell went 2-3 and had the only RBI.

In the Final Game, the tired and injury ridden Lady Miners who had been playing since 8:30 in the morning, played a tough and competitive game against Southern but came up on the short end of the stick. Crede suffered the loss, 3-1. Offensively, they were led by Weber, 3-4, and Stratman, 2-3. Schofield hit the lone RBI.

The second place finish dampened the hopes for an automatic bid to the NCAA tourney but there is still the possibility of an at-large bid which normally goes to the second place team. They will find out later in the week. "The girls played really

well this weekend. They played with a lot of heart and showed a lot of character by coming back and winning those games in extra innings," state Coach Tina Costello. "Given different circumstances, both teams even with injury and rest, it might have been different. But that's what the tournament is about, the best team playing at that point and time will win and this time it was Southern." They finished the season at 26-12, one of their best records and advance to the finals of the MIAA tourney, something no team from UMR had done previously. "Kristy finished a wonder career at Rolla, going 16-3 for the year. She really came through for us all year and in the tournament by

playing second base and leading off the lineup because of the injury to Dyan Risher." This weekend could be the final games for the three senior captains, Lisa Burwell, Caroline Bredemann, and Kristy Weber. They all have done an outstanding job throughout their career and they will be missed by the team and fans alike. On a high note, Teri Schofield and Teresa Dickenson were named to the Divisional All-MIAA team and Weber and Bredemann were both named Honorable-Mention. These four are placed on the All-MIAA nomination list which will be chosen later in the week. I would like to thank the team for an enjoyable season.

Tennis team enjoys a fine season

By Tom Hughes
ASST. SPORTS EDITOR

The old cliché "what a difference a year makes" is very appropriate for this year's tennis team. If you can remember last spring, the team was given up for dead due to budget cuts by the Athletic Department. The team survived the budget's knife and pulled off a fine year.

Tennis has never been a major sport at UMR. The support the team gets both financial and from the fans is minimal yet, this team persevered and finished the season with a 7-7 record. This is one of the best tennis records ever achieved at UMR.

For those who do not know, a tennis match consists of 6 single matches and 3 doubles matches. The first team to gain 5 victories is the overall winner of the match.

The leadership on the team showed throughout the year. With 3 seniors and 2 juniors on the squad, court savvy was present in every match. This veteran club showed itself well during MIAA play.

The team will feel the loss of the seniors next year. Brian Berkstresser, #2 singles; Tim Kunkel, #3 singles; and Tim Robinson, #6 singles will all be sorely missed.

Jon Johnson, #1 singles, will be returning, however. He was voted MVP of the team by his fellow mates. He finished a strong season on Saturday by putting up a gallant effort against the MIAA #1 player, Marlo Llano.

The team is eagerly anticipating next season and encourages anyone interested to come out for the squad. The team would like to thank Coach Tom Deffebaugh for all of his dedication and hard work throughout the season.

Thanks for a
Great Year
Bob Phillips!

Good Luck In Florida!

KISS

from page 5

were always one extreme or the other.

And now, after 17 years together, KISS is still making records, and still making them better than anybody else. Their latest release "Hot In The Shade" is their 23rd album; their 21st to go gold; and quickly becoming their 18th to go platinum. Pretty incredible if you think about it. Their single and video for the ballad "Forever" is climbing it's way through the top twenty in radio airplay and has been a mainstay on MTV for over two months. Typically not known as a singles band, "Forever" has certainly had a hand in changing that. "We can't really say we are a singles band because we sure haven't had our share of hit singles," says Simmons. "We've had a couple that have slipped by accidentally. But I think it is our fans that have kept us alive over the years." And it is the fans, new and old, that are flocking to the stores to get their hands on "Hot In The Shade."

The record, featuring 15 new KISS originals is a masterpiece. Covering all aspects of the rock spectrum from slow, to thrash, to rap, KISS have truly outdone themselves like never before. They've brought back their classic '70's sound to the new record. Vintage Simmons tracks like "The Street Giveth And The Street Taketh Away" and "Somewhere Between Heaven and Hell" resemble the same attitude many KISS fans have come to love on previous records. Stanley is featured on KISS staple cuts "Hide Your Heart" and "Silver Spoon," and several others. Paul even does a rap-rock type of song in "Read My Body" which is a refreshing change from the norm. Drummer Eric Carr even gets behind the mike on a killer rendition of "Little Caesar." From beginning to end, this is one of the best albums that this band has put out in years, and definitely one of the best new records out right now. A memorable disc that no rock fan should be without.

Recently I spoke with Gene Simmons about the new record, and a little about the evolution of KISS.

Were you happy with the final product?

Yes we were. Our fans always come up to us and tell us what songs they like, and what they don't like. Just the other day I asked a group of fans what they liked and disliked about the record, and it seemed that all of them had a different answer. That is an indication of whether the record really hits the hard core fans, and if it hits them right. They all couldn't decide what they liked. And a fan always says what songs they like and what they don't like. That's why we put fifteen songs on the record. We couldn't figure it out either. We put fifteen songs that we thought were essential to this album. Fifteen songs that we knew that we would have to live with.

Speaking of fans, KISS fans have to be the most loyal fans in the world? They are. Radio has really not been responsible for the success of KISS, and it certainly hasn't been the critical press. And still, after sixteen years, here we are. I think it all comes down

to the fans. The people out there ultimately decide. We have a tremendous responsibility to our fans because they look up to us and we have a standard to uphold. Part of the reason they are this devoted to us is because they know how much they mean to us. Now that's the kind of line that any band can say because it sounds good, but the fact is, we remember when it started and we are still here now. And the fans are at least a good fifty percent of the reason. We couldn't be doing this unless people enjoyed what we do.

After being around for so long how can you go back into the studio and still be creative, and still have the same enthusiasm that a new band might have on it's first record?

Because when you stop seeing things and experiencing things then you are dead. We are still living and going through new experiences. KISS is like a living breathing animal that is made up of several parts. And each one of us is moving forward. We are obviously still writing from the same perspective, but we are different people. Physically we are the same, but we have changed over the years, as everybody does. We have a little more mileage, and we've seen more things, but we still try to out-do ourselves on every record. Ultimately, if you're not having fun with what you are doing, if you don't take things a little lightly or half-heartedly, I think it comes across pompous. Some bands have have this feeling of importance because they've been around for a long time. When interviewers come to us and ask us questions like "Do you know the impact KISS has had" or "KISS has blazed trails where no band has gone," or something silly like that, I always think of bands that I grew up with. I say, "Oh, they must be talking about the (Rolling) Stones" or a band like that. We never consider ourselves to be that way. This is because when you're having as much fun as we've had over the years, you don't consider yourselves as being like that. That's one of the reasons why our fans like what's going on. We're really appreciative of that kind of acknowledgement, but we certainly don't buy into it. We're on the streets of New York or L.A. all the time. There's no bodyguards or any of that nonsense. You'll see us in the store buying food or a pair of blue jeans. It started to make sense when fans would come over to us and say "What are you doing here?" We would reply with exactly what we were doing, "I'm buying a quart of milk." There's that idea that you're suppose to live in your ivory tower and not do human things. But I think that fans realize that we are the same as them, and we do the same things they do. We go to shows just like everyone else, so we are the audience. The only time we aren't the audience is when we are on stage. That's good that you can keep your feet on the ground.

I think you have to. If you start believing half the stuff that is said about you they'll lock you up. There are a lot of people in the music industry who have

gone nuts.

Do you have any plans to release another home video like "Xposed"?

There will be an "Xposed 2" coming out sometime. We are talking about it now, but there is only so much we can do at this time because we are getting ready for the tour. Maybe after the tour is over. A lot of the stuff you see on the Xposed tape was kind of ad-lib. When we had first received the script it was like the Paul Stanley show, but we edited and added, and you got what the final product was. The next one will be similar, but we will have a lot more vintage stuff. A lot more of the home movies and black and white stuff. We've got hundreds and hundreds of hours of tape of live and backstage stuff.

That's the stuff that the fans really want to see.

Sure. And that's the stuff you can't really get your hands on. But we have it in our hands.

How do you decide what songs you will be playing in concert?

We start by fooling around live in a rehearsal hall. Everybody has their own idea of what should be played and what shouldn't be played. Up until now we would go out with a song list, and as the tour progressed some songs would be dropped and some would be added. This time we did an interesting thing. Specifically one fan who had become an interviewer. We were asked the same question and we said that we didn't know what songs we were going to play on this tour. He came straight out and said "I think you should play these songs." And he literally started naming songs. So we sat down and put down a song list. After we finished the list, we looked it over. The list was not anything we had ever planned to do. They were more obscure things. He was saying don't you thing it's time to change the set. You have to imagine, this was a really fanatical KISS fan. We looked at him and said "what do you mean? We're playing all those songs that we thought are the ones you want to hear." He said "Yes, but we've heard them for a long time. How about doing this, this, and this?" We agreed. Sometimes you have to listen to people because you are so close to what you are doing there are some things that you feel people expect you to do. You wind up becoming a prisoner to a bunch of songs, instead of giving people something a little different that is just as good, if

not, better. Just because the band sounds great or doing the songs that people know, doesn't mean those are the songs that we should be doing. We could just as easily take a song out, that we've been doing for a while, like "War Machine" and replace it with "God Of Thunder." Some people say, "No, you can't do that," but I think we could take out rock 'n' roll all night and put something in it's place. As long as it's stuff that is good and what the fans want to hear. We think this new album has a long life-span. We are going to play a lot of it, and we are going to have a longer show.

Many people want to know why Ace

and Peter left the band?

We can't really tell you why. The only fair way to answer that question is to ask Ace and Peter. We can only guess. Our guess is that Ace and Peter wanted to have solo careers. Within KISS we are satisfied. Even though we have done solo projects, we are a band. The solo stuff is something that a band should do, especially after being together after all these years. We encourage anybody in the band to fulfill all their needs and their ego. If you're not happy in KISS then there's a problem with the performer, not the band. I think both Ace and Peter have to be kicking themselves in their respective butts for doing something that, at the time, might have seemed like a good idea, and in retrospect seems like a really dumb idea. KISS is still around and those guys, I'm sure, are still wondering what they did wrong. Ace is trying to get his career happening, and I'm all for it. There's nothing I'd like to see more than to see Ace have a hit album and even a hit single. From what Ace has told me, he was feeling very frustrated in the band because he wasn't getting enough of a spotlight for his material and for singing, and that's valid and understandable. But when the band got together, me and Paul had been writing a long time. Somebody doesn't learn to do something overnight that someone else has been doing for a while. So when it came down to either "Love Gun" or something Ace had written, I think the fans wouldn't have been as pleased to miss some of those songs and have something in it's place. Peter had all kinds of quams. He wanted to stay home because he was married. He also had problems with substance abuse. That's something he said. It just didn't work. Peter also felt he wanted to be up front, and that he had a lot more to

offer. I'm still waiting for Peter to do something. Again, there isn't anybody else that would like to see them succeed more than the two of us. As far as getting back together for some type of reunion, it doesn't make any sense. It's not appealing because once you separate their is a break in a certain oath or a vow. It's just like when you break up with your girlfriend. I don't know too many people who get back together and the relationship stays the same way it was. You move on. It doesn't mean you don't talk anymore, it just means the relationship as it was doesn't work anymore. Marriages are two ways, and many of them don't work, but with four-way marriages it is very ver difficult. Plus we've made a lot of headway over the past eight or nine years. To disregard that and do something nostalgic, doesn't really appeal to us. Eric has been in the band longer than Peter. Eric has been in the band 10 years, and Bruce has been in the band 5 years. What would we say to them. "Hey guys, you want to take a couple of months off so we can tour with some of the old guys." It doesn't appeal to us.

So what can we expect from you in the future?

We have signed a lengthy album contract with Polygram for several more records. We plan to be around for a while. This tour will be our biggest and loudest since the seventies. We will be going everywhere. So look up your daughters!

KISS is bringing their huge stage show to the Sandstone in Kansas City on May 12 and then again to Kiel Auditorium in St. Louis on June 1. Whether you're a KISS fan or not, if you want to see what rock 'n' roll is all about, DON'T MISS IT!

Does he really get to interview them?

The most common question I get asked is the one you see above. I thought I'd let you decide for yourself. But I can't do it by myself. Thanks to The Miner staff, and all the publicists, record companies, and performers around the country. You are the ones that make it possible. And if you put up with this column week after week... thanks for your support!

Babu chats with Steve Vai from the band Whitesnake.

Placement

ATTENTION CO-OP STUDENTS

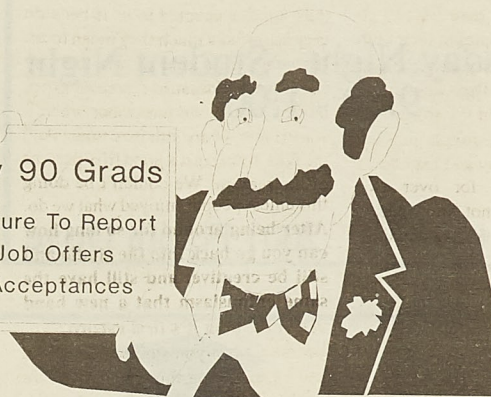

CO-OP STUDENTS WORKING SUMMER AND/OR FALL 1990 SEMESTERS MUST REGISTER WITH THE CO-OP OFFICE AND PAY A CO-OP FEE OF \$60.00 FOR EACH WORK SESSION. STUDENTS WORKING IN THE FALL MUST ALSO PAY A \$9.50 ROLLA MO FEE

CO-OP WORK REGISTRATION WILL BEGIN MON. APRIL 16 AND WILL END ON FRI. MAY 11. THIS REGISTRATION WILL BE HELD IN THE CO-OP OFFICE
101 BUEHLER BLDG.

THANK YOU FROM THE CO-OP OFFICE
HAVE A GOOD SUMMER AND A REWARDING CO-OP WORK SESSION(S)

SECURITY?

A college degree is very valuable, but it can't guarantee real security anymore than a child's security blanket can. Why not? Because the one who earns the degree is greater than the degree itself. Real security must be found in something or someone greater than oneself.

We have found our security in the Lord of Lords - Jesus Christ. You can be secure in Him also.
We invite our colleagues and students to ask us about Security.
