Students surveyed on use of drugs and alcohol at UMR

News Services SOURCE

In the Winter 1991 semester, an alcohol and other drug use survey was randomly administered to 702 University of Missouri-Rolla students. This instrument, the CORE Survey, was developed by the U. S. Department of Education to help colleges and universities nationwide assess student alcohol / drug use and attitude patterns.

Demographics

Of the 702 students sampled, 76.9% were male and 23.1% were female, which reflects the general UMR student population. Students from all class levels were included in the sample with the majority being freshmen (293, 41.8%). The least represented classes were the juniors and seniors with 100 (14%) and 106 (15%) being sampled respectively. The

sample included students from the ages of 17 to 52, with most students in the 18-23 year old category (596, 87%). With regard to ethnicity, 86.4% were white, 4.5% were Black, 2.5% were hispanic, 1% were Native American, and 4.4% were Asian / Pacific Islanders.

Students living in a residence hall or fraternity / sorority comprised 37% and 27% of the sample respectively, with 4% living with parents, 6% with a spouse, and 3% with their children. The majority of students sampled were single (632, 90.3%), 75.9% (518) were not working, and 96.7% (677) were full-time student.

The majority of the respondents reported above average grade point averages (GPA's): 26.6% (179) had a 4.00 cumulative GPA, 40.8% (274) had a 3.00 GPA, 30.4% (204) had a 2.00 GPA and 2.1% (14) had a 0-1.00 GPA. Of the

students sampled, 79.5% (461) indicated that Missouri was their permanent state of residence, 16.2% were from out-of-state and 4.3% were international students.

Alcohol Use

As past surveys have shown, alcohol is the drug of choice of UMR students. Seventy-one percent of the students indicated that they started drinking before the age of 18 compared to 29% who started drinking after age 18.

Results indicate that 20% of the students sampled are drinking abusively (five or more drinks at a time, three or more times in a two-week period). Thirteen and a half percent indicated that they never used alcohol and 16% did not drink in the last year. This study indicates that the majority of students (86.5%) drink, with 18% of them drinking one to six times a year, 19% one to two times a month,

23.5% once a week, and 18.6% drinking three more or more times a week. Male students appear to be drinking more frequently than female students: 82% of the males and 85% of the females drink; 24% of the males and 18% of the females indicated serious use of alcohol (22.85 of the total sample); 21% of the males compared to 12% of the females had five or more drinks at a time, three or more times in the two weeks prior to the survey; and 87% of the males compared to 76% of the females began drinking before the age of 18.

Seventy-five percent of the students surveyed indicated that alcohol at parties would make them more entertaining. Continued efforts regarding non-alcoholic alternatives to having fun need to be addressed by the campus.

Alcohol-Related Behaviours

Some students are

experiencing symptoms related to developing an alcohol problem (hangovers-59%, blackouts-28%, nausea-50%). Educational efforts to help the students identify and modify these symptoms should continue to be an integral part of alcohol education programming. Seven percent of the students in the last year thought that they might developing a drug or alcohol problem. However, 29% indicated that they had been criticized for their drinking or drug use. Some denial about the existence of an alcohol / drug problem may be indicated here.

UMR students indicated their involvement in alcohol-related behaviors such as drinking and driving (38%), missing classes (26%), poor test grades (18%), suicidal gestures (5%), and taking advantage of another sexually (4.7%) is relatively few. However, there is a slight increase in these behaviors over 1991.

see Survey, page 9

UMR police and students work together for campus safety

Heather Sphar Staff Writer

There is a newly formed organization called the CSO or Campus Safety Organization that is helping to make our campus safer. The CSO got its start at the beginning of last Fall. The second floor on the north tower of TJ Hall came up with the idea and the fifth floor joined in. They joined together with the UMR police and formed a committee that met about once a week. The CSO credits Chief Bill Bleckman, a UMR policeman, for thinking up its name. The organization is presently run by the UMR police and the students that founded it. They are Chad Little, Jennifer Deis and Brad Gardner. Others that are in the CSO are Tara Hilse, Joshua Howard, Daniel Magidson, Eric Travenner and Wendee Watkins. The service provided is mainly campus wide escorting. They will escort to and from residence halls,

campus buildings, sororities and fraternities. It is a free service that anyone can take advantage of, but they expect females will make up a large percentage of their services. Chad Little said, "Our primary function is to act in a support role for the UMR police." They are starting off small but hope to be a permanent organization, so they need support. All their funding is coming from donations from other organizations. Their hours are Sunday-Thursday from dark until 1 AM. They are located at the University Police Office in the H.I.S. Building on 14th and Bishop. They can be reached by calling 341-4300 and asking for a CSO escort. However, calling them is not the only way to reach them. They will be patrolling campus during the hours of operation and can be identified by their uniform, which is a yellow

see Safety, page 9

Congressman Emerson visits with College Republicans

Roger Amann Staff Writer

Bill Emerson took time out of his busy campaign schedule on Monday night to visit with the College Republicans at Schuman Park. Emerson will be running on the Republican ticket for Congress in November. He has held a seat in the House of Representatives for twelve years and is looking forward to continuing his fight for Southern Missouri in the upcoming years.

Emerson visited with everybody and made a very informative speech to a receptive crowd of UMR students. Emerson was very glad to see a group of college students interested in and supporting the Republican Party. He conveyed his ideas about how the group could let their voices be heard and also how they could help in an actual political campaign.

Emerson did not avoid the lingering question about what to do with the

present economy we are in. Emerson feels that the majority of Democrats in Congress is to blame for the current economic state the country is in. He believes more republicans will be elected to seats in congress this November, which would set the stage for George Bush to finally pass some important legislation to boost the economy. Emerson admits President Bush has made a few mistakes in the past four years, but he believes Bush is the right man to get this country back on its feet again. Congressman Emerson strongly opposes Clinton's and Gore's ideas about improving the economy, and feels they could only make it worse with their liberal views and tactics.

Emerson also has strong opinions on many other important issues which have been raised in his current campaign. On his first day in Congress, he introduced an amendment to prohibit forced school bussing for the sole purpose of desegregation. He believes

that the money spent on bussing, could have been better spent on text books, classrooms, and teachers' salaries. He is a strong supporter of gun owner rights and is endorsed by the National Rifle Association (NRA). Emerson is a strong supporter of private property rights and opposed the 1990 Natural Streams Act. Emerson is a family man and has been endorsed by Missouri Citizens for Life. Almost all of these issues are considered what I call "hometown" issues, that's what makes Bill Emerson a fighter for Southern Missouri in Congress.

If you would like further information on Bill Emerson or have any questions concerning his campaign, contact his office in Rolla at 364-2455.

The College Republicans have planned many other exciting events throughout the year. If you are interested in joining, contact Paul M. Sakowicz at 364-1396

Missouri Miner

The **Missouri Miner** is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday afternoon at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the **Missouri Miner** and may not be reproduced or published without written permission.

The **Missouri Miner** encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 3:30 p.m. on the Thursday before publication. The **Missouri Miner** reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The **Missouri Miner** is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

A challenge of modern theological and mythological thought

Among the ancient Egyptians, the earth was personified as a male deity by the name of Seb, Keb, or Geb, and his consort was the sky goddess Nut. His children were: Osiris, Set, Horus the Elder, Isis and Nephtys. Many parallels have been drawn between Egyptian Gods and Greek Gods, and as Gerald Massey observed, "When Herodotus visited Egypt and recognized the African originals of the Greek deities, he makes the sage remark that his countrymen, in their ignorance of the beginnings, counted the birth of their gods from the time when they first acquired a knowledge of them." Another parallel being that of Babylonian Gilgamesh and Greek Hercules. "Noteworthy," as was observed by F. J. Gould, "is the heroic legend of Gilgamesh, whose twelve adventures mark him out as a solar demi-god, passing through the zodiacal episodes, slaying the lion, wooed by the virgin Ishtar, sickening and wasting at the close of his journey, and renewing his glory in the next year. From Chaldea the myth migrated to Phoenicia, where the hero took the form of Melkarth; thence another step brings us to Heracles of Greece.

At this point I wish to clear up the point of the creation of the zodiac. The zodiac can be traced back to Egypt, where it was known at a remote period of time. The Egyptian version of the solar zodiac differs slightly in form as is illustrated below:

| Egyptian God | Egyptian Sign | Greek Sign |
|--------------|---------------|------------|
| Sekhmet | Cat | Ram |
| Anubis | Jackal | Bull |
| Sut/Horus | Two Serpents | Twins |
| Khepri | Scarab | Crab |
| Atum | Ass | Lion |
| Neith | Virgin | Virgo |
| Khnum | Goat | Scales |
| Isis-Serakh | Scorpion | Scorpion |
| Khonsu | Falcon | Archer |
| Thueris | Baboon | Goat |
| Menat | Ibis | Aquarius |
| Sobek | Crocodile | Fish |

The solar zodiac was preceded by a lunar zodiac which was divided into twenty-seven or twenty-eight lunar mansions instead of twelve signs. Professor Arthur Harding tell us that, "Although the zodiac is now determined by the course of the sun in his annual journey through the sky it is very probable that it was originally determined by the path of the moon, which follows very closely the path of the sun, and can be observed at the same time as the stars". The symbolism of the zodiac is elegantly displayed in the myth of Hercules. "Of all the ancient divinities", to cite Edward Carpenter, "perhaps Hercules is the one whose role as sun god is most generally admitted. The helper of gods and men, a mighty traveller and invoked elsewhere as a savior, his labors for the good of the world became ultimately defined and systematized as 12, and corresponding in number to the signs of the zodiac." The myth of Hercules was known to the Sumerians, Phoenicians and Greeks, Herodotus speculated on its origin and traced it back to the Egyptians. There is no god named Hercules in the official pantheon of Egypt, but an ancient Greek tradition identified Hercules with the ancient Nilotic deity Khonsu. George St. Clair a scholar of Egyptian mythology explain to us a small group of deities standing apart.

These are Amen, Mut and Khonsu, often spoken of as the triad of Thebes, or the trinity of Ethiopia... Budge tells us that the Theban triad had nothing to do with the Book of the dead, and from this we may suspect that they were either gods newly come up or gods of foreign derivation. For some good reason, the orthodox Egyptian of the old school kept them out of his sacred books. They were divinities of Thebes, and that city was hundreds miles south of Heliopolis; they were the trinity of Ethiopia and not of Egypt.

Now onto religion. Citing Sir Flinders Petrie, "The oldest (religious) structure of the people was that which resembled the African in beliefs and practices. There is a large body of customs, especially those concerning the dead, which are closely alike in ancient Egypt and modern Central Africa. In this stratum, probably preceding 10,000 B.C., animal worship was usual; so strong was the primitive influence that this remained in practice down to the Roman age. The source of this was a sense of kinship of men and animals."

Edward Carpenter observes: "It is well known as a matter of history that the worship of Isis and Horus descended into the early Christian centuries to Alexandria, where it took the form of worship of the Virgin Mary and the Infant Savior, and so passed into the European ceremonial. We have therefore the Virgin Mary connected by linear succession to the Egyptian and Ethiopian Mythology!" There are at least 16 different myths if crucified saviors whose stories parallel almost perfectly with Jesus. They are:

| | |
|-----------------------------|---------------------------|
| Horus of Ethiopia | (date precedes 2000 B.C.) |
| Thulus of Egypt | (1700 B.C.) |
| Krishna of India | (1200 B.C.) |
| Crite of Chaldea | (1200 B.C.) |
| Attis of Phrygia | (1170 B.C.) |
| Tammuz of Syria | ((1160 B.C.) |
| Hesus of the Celtic Druids | (834 B.C.) |
| Indra of Tibet | (725 B.C.) |
| Bali of Orissa | (725 B.C.) |
| Iao of Nepal | (622 B.C.) |
| Alcestos of Greece | (600 B.C.) |
| Mithera of Persia | (600 B.C.) |
| Sakia of India | (600 B.C.) |
| Quetzalcoat of Mexico | (587 B.C.) |
| Wittobva of the Telingonese | (522 B.C.) |
| Quinirinus of Rome | (506 B.C.) |
| Jesus | (4 B.C.) |

The Annunciation and the Immaculate Conception of the Virgin Mary and the Birth and Adoration of the Child Christ, are four scenes represented in the modern Orthodox Christian Church yet they are found engraved on the walls of the temple of Luxor and described as follows:

1. The Annunciation: The god Thoth is shown announcing to the virgin the fact that she is about to give birth to a son.
2. The Immaculate Conception: The god Kneph (The Holy Spirit) and the goddess Hathor are shown mystically impregnating the virgin by holding ankh (Crux Ansanta, the symbol of life) to the head and nostrils of the mother-to-be.
3. The birth of the Child God: The mother is seated on the midwife's stool and the newborn infant is held by the attendants.
4. The Adoration: the infant Horus is displayed as receiving homage from gods and men, including the three kings or magi who are tendering

him gifts. In this scene the Ankh is seen again.

"In this picture" the Egyptologist, Samuel Sharpe, noticed, "we have the Annunciation, the Conception, the Birth and the Adoration as described in the first and second chapters of Luke's Gospel; and as we have historical assurance that the chapters in Matthew's Gospel which contain manuscript, it seems very probable that these two poetical chapters in Luke may also be unhistorical and borrowed from the Egyptian accounts of the miraculous birth of their son of God, Horus."

That is all for this week, next week I will try to go deeper into the full succession of the Egyptian and Greek gods and the birth of Christianity in the era of Amenhotep IV, including the tale of a young priest educated at the Temple of Heliopolis, a disciple of Ikhnaton, whose name was Moshe (Moses).

Comments
Rob Hobart

Now that a few months have passed since the notorious Los Angeles riots, it may be possible to discuss the Rodney King case with some degree of rationality. The case seems to be well on the way to becoming a modern myth, a fable of racism an injustice. But in fact this entire myth has been concocted by the legions of the Politically Correct and their allies in the Media.

The press distorted the King case from the first day. Anyone who got all their information from the network news can be forgiven for assuming that the case against the L.A. police was open-and-shut. After all, there it was on tape! The networks, however, conveniently forgot that King had led the police on a ninety-mile-an-hour chase before getting out of his car and assaulting them; from his behavior the police believed he was on drugs, and he was in effect quite drunk.

Obviously, the police did use excessive force; but that force was not racially motivated. King's two passengers, both black, were treated with complete courtesy.

This is not to excuse the beating, which was obviously brutal and unnecessary; it is to say that the beating would have been the same if King were white. The media, however, carefully expurgated these facts, along with anything else (including all but a few seconds of the famous videotape) which might prevent the public from reaching the Politically Correct conclusion.

The media were equally duplicitous in their treatment of the policemen's acquittal, which they openly and indignantly labelled a "miscarriage of justice." In fact, if the defendants had been tried solely on the Excessive Force charge, a conviction would have been certain and just. But because the authorities submitted to the screaming of the Politically Correct and expanded the case, they not only failed to get convictions on the additional charges, but planted enough doubt in the jury's mind to prevent even an Excessive

see Riots, page 4

Riots from page 3

Force conviction. Rather than admit their own culpability in this, the PC legions instead announced that the verdict was "racist" and openly anticipated—even encouraged—riots. Riots duly ensued. What a coincidence!

The Politically Correct, in the media and elsewhere, have probably never given a more remarkable example of their collective blindness than during those riots. "Rage" and "injustice" intoned the reporters, while street gangs beat innocent people to death and gleefully looted hopeless Korean businesses. When a few sensible people suggested that such brutality and hooliganism ought to be punished, they were denounced as "racists." Subsequently the Federal government, hastening to kow-tow to the Politically Correct, has blithely tossed aside the Double-Jeopardy law and charged the acquitted policemen under the Civil Rights Act. No doubt the prosecutor will try to browbeat the jury into the "correct" verdict with ominous reminders of the riots. No doubt the media will echo this refrain across the country. It all seems terribly reminiscent of the Paris mobs who chanted innocent Frenchmen to their deaths during the Terror.

Why are College Students having a hard time finding jobs ?

Tom Brown
Editor-in-Chief

It seems strange to me that with the economic situation that we, as a nation, at least perceive we are in, that some people will still strike. College graduates are finding difficulty in obtaining a job, those with experience are now being laid off, and some decide to reap the benefits of the govern-

ment charity. Yet, some people think they are more important than the Common Good.

Take for instance, the striking teachers in Detroit. The fact that teachers would actually strike, to me, is appalling! They are in a profession, whose purpose is of tremendous importance. They are developing the minds of those who will be the leaders of tomorrow. Some say then, that they

should be paid accordingly. Maybe. Maybe not. Some teachers are not worth half their salary, while others are invaluable. Throughout our nation's history, teachers have taught for a reason, and it was not to get rich.

Are you aware what the average salary of a teacher in Detroit is? How about \$43,000! Yes, \$43,000! They still want a 8% raise! The average salary of a

teacher at Rolla High School is only \$27,500. The state average is only \$29,500. Yes the cost of living is a factor, but still that is a very comfortable living for a job that many people find happiness in performing. They stream about teachers' rights. What about students rights. I wonder if the teachers will lose their report cards when they take home a big fat F. I say the School Board should ground them. Permanently.

Words of wisdom from Uncle Lar

Dear Uncle Larry,

I am having trouble getting along with my roommate. First he decided that he wanted my room, so even though I had slept there the whole previous year, I traded rooms so as not to offend him. Then he said that he wanted the whole refrigerator for himself, so I bought a playmate cooler to keep my diet soy-fiber slices in. I just told myself that since I am just a history student and he is a psychology grad student, he must know best.

Then, two weeks ago, he sold my car while I was in class. He said he needed the money to upgrade his stereo. I remained calm, will see that love and harmony is worth more than any material thing. Is this the right choice, or should I ask my minister to speak to him?

Sincerely yours,
Perturbed but Peaceful

Dear Perturbed,

Yes my friend, you are having trouble. Trouble standing up for your rights and privileges. I think your brain has turned to "diet soy-fiber slices". Don't you have any pride? More importantly, what are you, a moron? Don't you know that you'll never get anywhere in life, unless you actively fight to get there?

Anyway, here is Uncle Larry's Patented Piss Your Roommate off or Your Money Back method of getting even. First, wait until he leaves, find a few of his shoes, and urinate healthily in them. When he asks you about it, tell him the dog did it (even if you don't have a dog). Next, carefully slit the bottom of his toothpaste tube with a razor, mix in a pound or so of alum, reseal the tube with Super-Glue, and sit back and enjoy the show. He won't be asking you to "exchange rooms" with him again for quite some time after that little stunt.

One of the best tricks to pull is to write, if your handwriting is good

enough, or have one of your girlfriends write, a very revealing, twisted, psycho, 'if you leave me I'll kill your rabbit, your girlfriend, and your parents' type letter. Sign it with some other girl's name, and leave it where his girlfriend will find it before he does. The kind of hell she'll give him a greater than any amount you could ever dream up.

If he doesn't get the hint from any of the above suggestions, you could always axe-murder him in his sleep, put him in a duffle bag, and bury him in a shallow grave beside the railroad tracks. This would be the best course of action since he would be out of your miserable life permanently.

As for your minister, please leave him out of this. He has much greater moral dilemmas to attend to. You could stick and ice pick in your eye, or staple your miserable, whining mouth shut. Either way, we don't have to hear you crying about your miserable, paltry problems anymore. That's just a tip from your Uncle Lar.

Brown nosers beware

James Barnes
Staff Writer

The brown nosers are out in full force this semester. Could it be the funny weather patterns? If you are a professor you know what I am talking about, if you are a student you know what I am talking about, and if you are the subject of this article take heed, your fraud is addressed.

To the common student there is nothing more exciting than going to a class that contains a brown noser, or bn. It's the first week of class, most people sit back and observe, get used to the professor, and check out the class. For the notorious bn the first week is "launch plan p.p. 1 week." Brown nosing is an art to some people, something that can be looking upon for pleasure. The bn sits and listens intently always plotting to add some sort of comment or bit of information to the lecture. To watch a bn is a true form of art in itself. They take down pages of notes, flip back and forth through the pages of their books, and occasionally nod in agreement with the professor. So far, this sounds just like what a good student would be doing. But, the

separation comes when the bn begins to talk and "add" to the professor's lecture. "I feel that this material is wonderful, it added to my intellect and made me a better person." What a blundering idiot. Why the bn does not acknowledge how transparent his front has become is beyond me.

Another classic member of the bn kingdom is the "will not shut up bn." The class is moving along and it comes time for the professor to ask the class for a little obligatory feedback, the bn is first and last to comment. The string of professor friendly ideas coming out of the bn seem to never stop. My favorite episodes are the ones where the bn keeps jumping into the conversation with subject related non-funny jokes. The only person who laughs is the bn, while the professor is standing up in the front of the class going, "Well, er, yes, o.k." When the bn looks around the room wanting people to laugh with him, he should realize that the few people that are smiling are thinking "What a fool."

I am sure this type of art will be present for some years to come. Constant surveillance will continue form this department.

Crop walk announced

Kory Bakken
Staff Writer

Crop Walk 1992! That's right, the St. Pat's committee is doing their job to end world hunger by sponsoring this year's Crop Walk on September 27. But we can't end world hunger by ourselves, we need donations. The St. Pat's junior representatives will be signing up sponsors from now until the Crop Walk. Please, get in contact with one of them if you have anything you want to donate. There is a special incentive for those Greek and independent organizations who donate the most money per head... participation points for next year's St. Pat's (25, 15, and 10 for 1st through 3rd). But, that's not all, the Committee is also sponsoring "Share the Harvest", a pasta supper to benefit the hungry. The supper is on Sept. 15 from 5:00 - 8:00 p.m., and tickets are \$5.00 for adults, \$2.00 for children. To buy tickets contact the Wesley House at 364-1061. We would appreciate your support in helping us end hunger.

By the way, the St. Pat's Committee is always looking for new representatives to become committee heads. If your organization would like to be informed, we suggest you elect one soon. Those interested should attend one of the regular meetings on Thursday evenings at 7 o'clock, in the ME Annex, room 107-c.

Blood drive this week

Student Council
Source

In the past decade, the University of Missouri-Rolla, along with the residents of Rolla, have become the leading source of blood in the Springfield regional blood services. Along with the pride of being the leading source of blood, we have successfully held on to the Blood Drive Trophy for the past twelve years.

With this in mind, the Student Council and the American Red Cross will be sponsoring a local Blood Mobile on Wednesday and Thursday, September 9 and 10. The Blood Mobile will be located in Centennial Hall, which is on the second floor of the University Center-East, and will run from 11:00 a.m. to 5:00 p.m. on both days.

At least 250 blood donors are needed each day to meet the growing demand for blood in the Springfield regional area. We need your unselfish support to meet these needs. Anyone between the ages of 17 and 65 can donate, but, for health reasons, please do not donate blood if you weigh less than 110 pounds or have donated within the last eight weeks.

Naturally, there will be plenty of free cookies, soda, pizza, and popcorn

Miner triathlon

The Ninth Annual Miner Triathlon this year is on September 12, 1992. The race includes 500 yard swim, 15 mile run, and 5 k run. There are five divisions, men over 25, men under 25, women over 25, women under 25, and teams of 2 or 3. The event will be held at the multipurpose building, starting at 9:00 a.m. All participants will receive commemorative T-shirts, but top three winners from each division will receive prizes. The entry fee is free for UMR student, and 5 dollars for non-UMR's. Entry forms are now available at the SUB office (second floor of the university center-west), Multipurpose building, and the Key Sport. They are to be turned in at the SUB office no later than Friday September 12 at 12:00 pm. For more information on this event, please call the SUB office at 341-4220.

at the blood drive. Our gracious donors will also be entertained by the KMR Road Show on both days.

Your efforts in the past are greatly appreciated, but we need your support to continue UMR's outstanding blood drive tradition. The Red Cross Blood Mobile is open to the public, so please drop by Centennial Hall on September 9 and 10 and give the gift to life—it'll make you feel good!

Some helpful hints on writing good resumes

As graduation approaches, students nationwide will be job hunting — many for the first time. Getting over the first hurdle, the resume, can be a challenge for graduates who have little work experience to draw from and who are competing with literally thousands of other resumes that flood companies every spring. Since many students don't have an extensive work history, how can they enter the job market with an effective resume?

According to Adrianna Foss, vice president of operations for Kindo's Copy Centers, "The key is to carefully assess your experiences and develop an arsenal of achievements, not a laundry list of job duties." By expanding your thinking beyond simple job functions to focus on the skills you acquired through those functions, you

can articulate your usefulness to the company. Any summer job, extracurricular activity or sport provides skills that can be applied to problems in the workplace. To assist resume-writers, Kindo's has developed a Resume Guide offering helpful tips on resume creation and production.

Following are some helpful hints that will help you produce a resume that will actually be read and not thrown in the circular file.

Step 1: Assess — Your first thoughts should deal with "How can I take what I've done in college and apply it to a job? That involves assessing everything you've participated in during the past four years: extracurricular activities, part-time and summer jobs, sports, etc., and identifying skills you've acquired along the way.

For example, if you've waited tables, you've probably proven that you can handle pressure and juggle priorities — invaluable traits for a potential employer.

Step 2: Assemble — Your accomplishments must be expressed in short, concise statements that express action to attract the reader's attention — remember that you're marketing yourself. Your potential boss cares about results, the bottom line, what you did and how it benefited the restaurant/university/club/team. For example, rather than saying that you were a club treasurer, describe how you designed a new accounting system that accurately tracked dues payments to increase revenues.

Your cover letter deserves the same approach, since it functions as an

introduction to your resume. Be certain that you've researched the company thoroughly so that you can express how your experience can be useful. Focus your research on the company's needs and how you can fill those needs, drawing on your past achievements.

Step 4: Produce — Without fail, the best paper choice is white or off-white. According to the experts the resume and cover letter should be developed via a good desktop publishing system and produced on a laser printer. The result will be a more professional product than one produced on a typewriter, and companies like Kindo's offer packages that include laser typesetting and output, paper and envelopes to help you create the best impression. You can also

create your own resume at Kindo's on their in-store computers, available in most stores 24 hours a day, seven days a week.

Gimmicks are also risky and can backfire. According to Adrianna Foss, Kindo's vice president of operations, "I heard a story about someone who sent a tennis hoe along with a resume to a potential employer and enclosed a card saying, 'Now that I have my foot in the door, give me a call.' You should use tactics such as this only in very rare cases where extraordinary creativity is a job prerequisite — in an advertising agency, for example.

Kindo's Resume Guide, available at Kindo's locations nationwide, can help get you started. For the location nearest you, call 1-800-743-COPY.

Sub announces upcoming activities

SUB Source

Fun-loving, laid back organization, seeks students interested in music, theater, comedy, movies, magic, art and just about everything else you can think of. Object - An exchange of ideas leading to superior entertainment for the whole campus.

SUB is the activities programmer for UMR. We have sponsored everything from comedians to ski trips. Granted we can't make everybody happy all the time but if you don't let us know what you want we can't make anyone happy. SUB has made arrangements with the Miner for this column - SUB Conscious to appear every week. Through this column we want to let you know what we have planned. If you would like to participate in the decision-making please feel free to attend a committee meeting (Dates & Times will be listed in this column) or just come up to the SUB office and let us know your interest. If you would rather not be on a committee we still want you to READ THIS COLUMN. We want to make sure that you know what entertainers and activities are coming to campus. Remember - SUB events are FREE with a UMR Student ID.

LOOK FOR:

Craig Karges - Thursday 8pm @ Centennial Hall

Derby Days dash for cash

Larry Polk Staff Writer

Yes, it's time to pull out the running shoes from the closet for the Fifth annual Derby Days Dash held by Key Sport and Sigma Chi. Registration for the race begins at 10:00 a.m. Saturday, September 19. The 5K (3.1 miles) and 10K (6.2 miles) events will start immediately after registration at 11:00 a.m. A six dollar entrance fee (for the 5K) and an eight dollar entrance fee (for the 10K) will allow you to participate in the run, enjoy the Bar-B-Que immediately following, and drink free Pepsi Cola, plus the first seventy-five to enter will receive a free race shirt. Others may purchase shirts at two dollars each.

The proceeds will go to the Children's Miracle Network. The Network provides health care, through its associated hospitals, for over five million needy children each year, with illnesses ranging from cancer to AIDS.

Runners will be competing in three age groups: seventeen and under, open, and forty and above. Key Sport will supply a pair of running shoes for the overall male and female winners of each division. All group winners will receive a trophy and all second place finishers will receive medals, compliments of Key Sport.

So start running and get ready for the Derby Days Dash on September 19.

The Max rocks the puck?

Entertainment Source

What is it that you are looking for in a band? If it is energy, excitement danceable music, state of the art equipment and overall... just a great time... then come see THE MAX, Friday, Sept. 11 8-11 PM at the Puck.

THE MAX is three talented musicians with a combined total of 23 years of professional experience. John Brenner plays drums, guitar and is on vocals. Kyle Brenner is the lead vocalist for the band and also plays guitar. Eddie White handles bass guitar and vocals. THE MAX sounds much larger through skillful use of sequenced and recorded parts. Aiming

to please both the eyes and the ears, THE MAX combines a fashionable modern image with post-modern alternative dance music that will keep you on your feet and on the dance floor.

THE MAX has spent 42 to 45 weeks a year on the road for the past five years, playing mostly on college campuses in the Midwest & northwest. Their sounds range from songs by INXS, U2, REM, The Cure, The Police, Simple Minds, Smothers, Cheap Trick and much more. Besides rock and alternative covers, they also perform their own originals from their album, "Shadows in the Shade."

Non-traditional students start new tradition

News Services SOURCE

Rolla, Mo. — At the University of Missouri-Rolla, older, "non-traditional" students make up only 23 percent of the student body. But they have more services available to them this year than ever before — with a support group called OASIS and their own student organization, TNTS.

OASIS — Older Adult Students in School — is a UMR Counseling and Career Development program that offers older students a discussion forum with other students. The group was organized last spring, said Diane

Stutts, program coordinator and counselor in the counseling and career development department.

"Groups like this one are found on many campuses because the majority of students are over 25," said Stutts. "There is so much information these students need... They don't have time to waste. We see them as a separate group because of their needs."

Last spring, students in OASIS decided to form a group of their own called TNTS — The New Traditional Students. TNTS activities for the fall include a picnic at 5 p.m. Thursday, Sept. 10, in Schuman Park; a talk Wednesday, Sept. 16, by Dr. Catherine Riordan, director of the UMR management systems program, on work-

ing with academic advisers; a presentation about UMR on Wednesday, Oct. 21, by Chancellor John T. Par; and a talk on stress management Wednesday, Nov. 18, by Marilee Kreuger of the UMR psychology department.

These meetings are at 4:30 p.m. in the Mark Twain Room, University Center-East.

A benefit of TNTS is "to be with people who are experiencing the same circumstances," said Ann Kruse, a senior in electrical engineering and OASIS participant. "I felt a void of people in my situation — that is, older students — especially in a university where there aren't a lot of non-traditional students."

EIT applications now available

News Services SOURCE

Rolla, Mo. — Applications for the Engineer-In-Training (EIT) examination at the University of Missouri-Rolla are now available to qualified students.

Students who are graduating from an accredited engineering curriculum in the winter semester of 1992 or the spring semester of 1993 may apply. Applications for enrollment are avail-

able in the dean's office of the UMR School of Engineering, Room 101 Engineering Research Laboratory (ERL), or in the dean's office of the UMR school of Mines and Metallurgy, Room 305 McNutt Hall.

Applications are due to the Missouri Board of Architects, Professional Engineers and Land Surveyors by Sept. 14.

The Fundamentals of Engineering Examination will be given Oct. 29 at UMR. Review sessions will be held on campus with dates and topics to be announced later.

Irish students learn about UMR

News Services SOURCE

Two students from University College Dublin in Dublin, Northern Ireland, will visit the University of Missouri-Rolla campus Sept. 9-12 as part of a cultural exchange program between the two universities.

The Irish students — Barry Roche, 21, a history and political science student and president of UCD's students' Union, and Lisa Ryan, 20, a student of

archaeology and classics — are coming to UMR to learn about student life at an American technological university. Their trip here is sponsored by the two campuses and Jefferson Smurfit has sponsored exchange programs between UMR and UCD for several years.

Roche and Ryan will be available for interviews after 3:30 p.m. on Wednesday, Sept. 9, and Thursday, Sept. 10. To arrange an interview, contact Andrew Careaga at UMR News Services, 341-4328.

Safety

from page 1

low shirt with CSO on the back of it. If you need an escort do not hesitate to ask. They are very eager to help. In the future, they might do some fundraising and possibly dispatching for the police. If you have any questions or

should contact Chief Bill Blackman at the UMR police or one of the CSO volunteers. Like Chad Little said, "We are here to help make the campus safer and we'd appreciate and need all the support you can give us."

Survey

from page 2

Other Drug Use

UMR students did not indicate much involvement with drug use other than alcohol. Thirty-seven percent of the students used tobacco in the last year. Marijuana use in the last year was 14%. With regard to use of other drugs, students report using: Cocaine (2%); Hallucinogens (6%); Inhalants (2.3%); Amphetamines (13%); Sedatives (1.6%); Steroids (.2%); and Designer drugs (1.4%) in the last year. Consistent with past research very few UMR students have tried illegal drugs and fewer are continuing to use them. Education regarding these drugs, however, needs to continue.

Conclusions/Recommendations

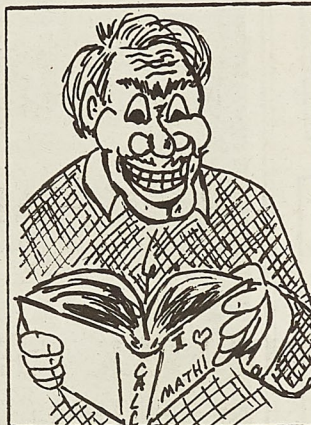

The students surveyed were representative of the UMR student body with regard to gender, living arrangement, state of residency, and age. However, a larger sample of minorities and class levels would be helpful in gaining a better picture of alcohol and drug use patterns of the student body as a whole.

Since the results of this survey rely on self-report data, they should be interpreted with

this in mind. As past research has shown, the drug of choice of UMR students is alcohol. Since the majority of students drink and several of them drink abusively, educational efforts need to continue.

Based on these results, 71% of the students started drinking before the age of 18. Thus, the majority of students have already tried alcohol before coming to UMR and are not drinking for the first time in college. The fact that they are drinking before their arrival here needs to be taken into consideration when doing alcohol education programming.

Some students are experiencing symptoms related to developing an alcohol problem (hangovers, blackouts, nausea). Education to help students identify these symptoms should continue to be an integral part of alcohol education programming. UMR students indicated that their involvement in alcohol-related behaviors such as drinking and driving, missing classes, poor test grades, suicidal gestures, and sexual assaults was relatively few. However, any involvement should not be taken lightly and should continue to be the focus of educational efforts.

Noday

The University of Missouri - Rolla Fall Film Series begins Sept 1 with "Rambling Rose" and ends Dec 8 with "Traffic".

Movies will be shown at 7 p.m. Tuesdays in UMR's Miles Auditorium in the Mechanical Engineering Building. This is a change from previous years, when movies were shown on Thursdays. Season tickets are \$20 and admission at the door is \$3. Tickets may be purchased at the door.

This year's series includes: Sept. 1, "Rambling Rose"; Sept. 8, "Black Orpheus," which is being shown in conjunction with the Brazilian Naive Art Exhibition being held Aug. 28-Sept. 22 at Castleman Hall and the Curtis Laws Wilson Library on campus; Sept. 15, "The Player"; Sept. 22, "Hope and Glory"; Sept. 29, "Dellatessen"; Oct. 6, "The Virgin Spring"; Oct. 13, "Incident at Ogala"; Oct. 20, "American Dream"; Oct. 27, "Macbeth"; Nov. 3, "Dodes'Ka-Den"; Nov. 10, "The Walkabout"; Nov. 17, "The Woman Next Door"; Dec. 1, "Love and Anarchy"; Dec. 8, "Traffic".

A highlight of this year's series is the world premiere viewing of "Chalk up Another," a five-minute music video featuring Rolla artists Ellen Pearce and Phillip Streamer and directed by James Bogan, UMR professor of Art and director of the Fall Film Series.

The series is sponsored in part by a grant from the Missouri Arts Council. For more information, contact the Philosophy and Liberal Arts Department at 341-4869.

Financial Aid

For more information and/or applications pertaining to the following scholarships, contact the Student Financial Aid office, G-1 Parker Hall.

ROLLA AREA BUSINESS AND PROFESSIONAL WOMEN

The Rolla Area Business and Professional Women's Club is offering two scholarships of \$500 to women enrolled for the 1993 Spring Semester. The scholarship is designed to encourage women to advance their career goals through continuing education — whether they are in the process of changing careers.

Eligibility requirements:

Must be a resident of either Phelps, Dent, Maries or Pulaski Counties.
At least 25 years of age.

Enrolled at an accredited educational institution.

The scholarship will be awarded on the basis of financial need and the development of a specific plan for using the scholarship to advance their career goals.

Application Deadline: September 30, 1992.

Missouri Coordinating Board for Higher Education Paul Douglas Teacher Scholarship Program

The Paul Douglas Teacher Scholarship Program (PDTSP) is a federally funded program that

is administered by the Missouri Coordinating Board for Higher Education (CBHE) to provide college scholarships to outstanding high school graduates and students in college to enable and encourage them to pursue teaching careers in public or private nonprofit preschool, elementary, or secondary schools or educational programs.

Eligibility Requirements:

Must be a U.S. Citizen or National, or an eligible non-citizen.

Must be a resident of Missouri according to the residency requirements of the CBHE.

Must have graduated from high school or be scheduled to graduate from high school within three (3) months of the date of the award or have received a certificate of high school equivalency for successfully completing the Test of General Education Development (GED)

Must rank in the top ten (10) of his or her high school graduating class or have achieved a composite score on the General Education Development (GED) test that is recognized by the state to be the equivalent of ranking in the top ten (10) percent of high school graduates in the state, or nationally.

Submit a completed scholarship application by the deadline.

Upperclassmen must maintain satisfactory academic progress according to the standards of the eligible institution of higher education to be eligible for a renewal scholarship award; and

Must be enrolled full-time in a course of study at an eligible institution of higher education leading to teacher certification.

Application Deadline: October 1, 1992

| Credit Cards 165 | |
| Overdraft (Chk) 189 | |
| Groceries 300 | |
| Entertainment 100 | |
| Clothes 50 | |
| Medical 700 | 275 |

IRONICALLY, THE TIME TO START SAVING FOR RETIREMENT IS WHEN IT LOOKS LIKE YOU CAN LEAST AFFORD IT.

Can't afford to save for retirement? The truth is, you can't afford not to. Not when you realize that your retirement can last 20 to 30 years or more. You'll want to live at least as comfortably then as you do now. And that takes planning.

By starting to save now, you can take advantage of tax-deferral and give your money time to compound and grow. Consider this: set aside just \$100 each month beginning at age 30 and you can accumulate over \$192,539* by the time you reach age 65. But wait ten years and you'll have to budget \$227 each month to reach the same goal.

Even if you're not counting the years to retirement, you can count on TIAA-CREF to help you build the future you deserve—with flexible retirement and tax-deferred annuity plans, a diverse portfolio of investment choices, and a record of personal service that spans 75 years.

Over a million people in education and research put TIAA-CREF at the top of their list for retirement planning. Why not join them?

Call today and learn how simple it is to build a secure tomorrow when you have time and TIAA-CREF working on your side.

Start planning your future. Call our Enrollment Hotline 1 800 842-2888.

Ensuring the future for those who shape it.™

© 1992 Teachers Insurance and Annuity Association/College Retirement Equities Fund.

*Assuming an interest rate of 7.5% credited to TIAA Retirement Annuities. This rate is used solely to show the power and effect of compounding. Lower or higher rates would produce very different results. CREF certificates are distributed by TIAA-CREF Individual and Institutional Services.

Squiggy's back ... like it or not so here's his picks

College football guru returns to give you the scoop on the race for the national championship. Read closely and heed his word, for he has been chosen

By Squiggy
STAFF WRITER

The college football season gets in full swing this weekend with defending co-champions Miami, and Washington opening up campaigns to defend their titles. Miami opens at Iowa and Washington at Arizona state. With the season coming under way so does Squiggy's Top Ten. Once again I shall preview the top ten teams in the country and these are my preseason picks. In retrospect, the season has started with with Texas A & M defeating Stanford 10-7 marking Stanford Coach Bill Walsh's return to college football. Let us jump right into the Top 10 starting with at the bottom.

#10: Syracuse coming off of an impressive 10-2 season highlighted by a victory over Ohio State in the Hall of Fame bowl. This talented team returns offensive starters including multipurpose back Qadry Ismail brother of Notre Dame star Raghib Ismail. Outstanding QB Marvin Bravens returns to lead a potent offense. Defense only returns 5, but the only weakness is the secondary which may

be devastated in a pass oriented conference. Key game is Nov. 21st at home against Miami. This team is very capable of making a run at the title.

#9 : Alabama- This team kept SEC Champ Florida from National Title contention and returns 16 starters including offensive pilot Jay Barker and speedster David Palmer. These two will make a solid offense click. Defense in Alabama is already to go with a complete solid unit sprinkled with youth, the Crimson Tide can make a run with victories over Tennessee, Auburn and Arkansas.

#8 : Texas A & M- this team already took a big step toward their goals by beating offensive wizard Bill Walsh and Stanford. This team needs a stellar QB to run a potent offense. Even without it they could win it all on defense with sophomore Sam Adams up front. They return 6 starters other than him and are very deep everywhere.

#7 : Penn State- this team like the Aggies will win with an awesome, swarming, hitting defense that can make your head spin. They will rely on O. J. McDuffie and Richie

Anderson to run their way on offense. Kerry Collins must fill up big shoes left by QB Tony Sacca and a stable full of young talents will uphold Penn State tradition. Their key games are against Miami Oct. 10th and against Notre Dame Nov. 14th.

#6 : Florida State- Poor Bobby Bowden has trouble winning the big one. Returning half his starters would seem like a plus, but talented Corner Terrell Buckley and RB Amp Lee left early leaving gaping holes to be filled, but with a talented offensive line and some heavy hitters on defense FSU may surprise some people as they test some youth and they have an all important game at Clemson which usually spells doom for opposing teams and at Miami could also be a heartbreaker. They also must play Florida to close out the season look for Bowden to surprise people with a talented fired up team.

#5 : Florida- Boy, Notre Dame sure did make the Gators gape as Jerome Bettis annihilated an excellent Gator squad in the Sugar bowl. Shane Matthews will return as the Heisman favorite after being tricked against a

porous Irish Defense. Don't think that will stop Steve Spurrier's Gators from running at SEC Crown but National Titles don't come from the entrenchment and at SEC battlegrounds the teams are too tough and too competitive. The champion of this division will likely have one loss and Florida has to play interstate rival Florida State along with the brutal conference schedule.

#4 : Michigan- Ask Gary Moeller, he features the second best one-two punch in the country with QB Elvis Grbac and Tail Back Tony Powers. This reminds me of Notre Dame last year, because like the Irish, the key to glory was lost when Junior Heisman Trophy winner Desmond Howard left early i.e. Rocket Ismail. But this team returns a talented defense to complement a great offense meaning one thing: the Rose Bowl.

#3 : Notre Dame the number one QB-Running Back tandem in Rick Mirer and Power Full Back Jerome Bettis. These two behind the offensive blocking of Hall, Taylor and Knapps means lots of yards for co-Heisman candidates. Defense will lie in the

outcome hearing to see if Demetrius Dubose took funds from an alumni behind the University's back. Look for a newlook on "D" from defensive coordinator Rick Minter. The defense is the only thing that may stop the Irish assault on the title. They have key meetings versus Penn State, USC, and Michigan all at home.

#2 : Miami- this team would have been the number one if the possibility of losing Lamar Thomas was not possible but Torretta and Company will air it out toward #1 with help of some awesome linebackers and future NFL #1 pick Rusty Medaris at end. He dominates like no one else has ever done. Their is not much to say about this powerhouse who does it year in and year out.

#1 : Washington even losing Steve Emtman did not slow down a talented fast and powerful team. Billy Joe Hobert will lead the offense along with tailback Beno Bryant. This team, like Miami, is just awesome you can't say much about how potent they are even after losing Emtman, Hall and Bailey. They just kick you right of a chance.

Football Miners triumph

By Chris Merris
ASST SPORTS EDITOR

Last week I mentioned how a win over Iowa-Wesleyan could pay dividends for the Miners. Well, we are about to find out because they upset the Iowa-Wesleyan Tigers 27-26 in a big comeback win. All this happened without senior quarterback Mike Wise. His replacement, Curt Courtney, completed 21 of 37 for 291 yards and two touchdowns, he also rushed for another tally. Chris Alverson had 10 receptions for 178 yards and both TD receptions.

The Miners were down 19-0 in the second quarter. By the third quarter the Miners closed to a 26-14 deficit. From there on it was all Miners, giving first year head coach Jim Anderson his first Miner victory.

The question remains can the Miners achieve a winning season? This weekend they will further their campaign against division I-AA opponent Murray State who lost their season opener to SEMO. The Racers come off of a 3-8 season behind fifth year head coach Mike Mahoney. Even though the Racers are picked a lowly

seventh in the tough Ohio Valley conference the fact remains they will be a formidable opponent for the battle torn Miners. If the offense clicks against a young and porous Racer defense you may see a shootout.

The Miners will open at home against the Pittsburg State Gorillas September 26th at Jackling Field. The Gorillas are defending National Champions and favored to win it again. The Miners were one of two blemishes to their season with a 6-6 tie. Let's root the Miners to a victory.

Remaining Schedule:

Sept 12- at Murray St.
Sept 19- at NW MO St.
Sept 26- Pitt St.
Oct 3- at Mo. Western
Oct. 10- MO Southern
Oct 17- at Emporia St
Oct 24- Washburn
Oct 31- at CMSU
Nov 7- at SW Baptist
Nov 14- NEMO

Miner fall sports preview: Soccer, X-country

Sports Preview SOURCE

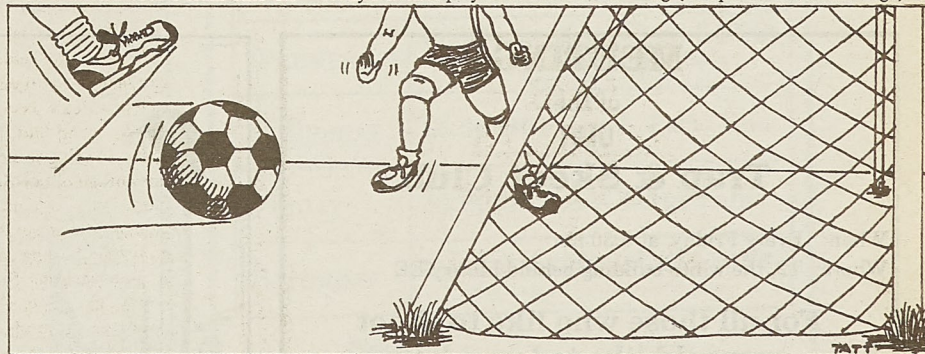

WOMEN'S SOCCER : After spending the off-season putting together what he feels will be a more competitive team, head coach Eric Swanbeck will lead the University of Missouri-Rolla women's soccer team onto the

sive attack from the newcomers — were apparent in a 5-2 win over an alumni team on Saturday.

"That was the reason we brought them in," Swanbeck said of the recent additions. "All we were last year was a defensive-minded team, and we could defend but not score. I really felt these players could come in

Passanise (St. Louis / Ursuline Academy) and forward Cathlin Maloney (Kansas City / St. Teresa's).

The new faces include goalie Julie Maurer (Greendale, Wis.), backs Stephanie Ingalls (Dublin, Ohio) and Crissy Isreal (Dallas, Texas / J.J. Pierce), midfielder Francie Hilding (Independence / Fort Osage) and

field for the first time on Saturday when it plays host to Missouri Baptist.

Game time for the season opener will be 1:30 p. m.

The Lady Miners have won only two games in the past two seasons, but Swanbeck believes this team has a chance to be much better. Some signs — such as a more potent offen-

and get us some more goals."

Six of the 11 expected starters in the Lady Miner lineup this weekend were not on the team a year ago. The five returners are backs Tricia Kuhne (Florissant / Aquinas-Mercy), Mellisa Moore (St. Charles / Duchesne) and Cynthia Peters (Omaha, Neb. / Westside), midfielder Angie

Tracy Kopetzki (Regina, Sask., Canada).

"The biggest goal is to try and come together as a team," Swanbeck said. "We found out from the scrimmage where we were strong and weak, and we hope the changes are

Swimmers Honored

ROLLA, Mo. — For the fifth time in seven years, the University of Missouri-Rolla swimming team has been named to be the All-Academic team by the College Swimming Coaches Association of America. The honor is for the 1992 spring semester.

The Miners gained the honor by posting a combined grade-point average of 3.16. UMR was one of four teams at the NCAA Division II level to gain a place on the honor roll. The other schools are Bloomsburg (Pa.) University, California State University-Bakersfield, and Mankato State (Minn.) University.

UMR was the top academic team for the 1991 spring and fall semesters, and was second to Bloomsburg on the most recent list. Bloomsburg and UMR were the only two schools among the four that averaged better than 3.0 for the semester.

"This demonstrates again the quality of our student-athletes who make up the teams here at UMR," said athletic director and head swimming coach Mark Mullin. "I am extremely proud of the individuals on the team.

The award is not only a great honor for the program, but also for the university."

It demonstrates a strong work ethic with the ability to manage time and set proper priorities."

To qualify for the honor roll, a team must have an average grade-point average of 2.80 or above. A total of 109 teams—39 men's and 70 women's teams—were represented at all three NCAA levels and the NAIA.

The Miners finished second at the 1992 Midwest Regional Championships and 14th at the NCAA Division II Championships, after posting a 10-1 record in dual meet competition last year.

"Our teams have been outstanding in the classroom and have done so without sacrificing our athletic achievements," Mullin added. "It is nice to work with student-athletes who are highly motivated to succeed both academically and athletically."

ones we needed to make."

MEN'S SOCCER : The Miner soccer team will open its season two days after the Lady Miners on Monday, Sept. 7, with a game at New Hampshire College. It will be the first of two games on the trip, as UMR will face St. Anselm (N. H.) the following day.

It will also be a difficult start for the Miners, as they take on a team that was 15-5 last season and missed the NCAA Division II playoffs for the first time since 1985. New Hampshire College won the national championship in 1989.

"They have a very solid program," said head coach Eric Swanbeck. "This team likes to take the ball wide and cross it in, so we have to spend the day clearing the ball out. If we can do that, then we will have a good chance; if we don't, then we will be in trouble."

"The Miners, 6-9-3 a year ago, will put an experienced team on the field in 1992. They return their top scorer in Jim Chapman (St. Louis / Hazelwood East), a six-goal scorer last year, and their scoring leader from two years ago in Pat Snider (Grandview). The focal point of this team, however, will be defense due to a roster that has only 14 players.

"Because we are short on numbers, we have to defend in a way that will allow us to play as well at the start of the game as at the end of it," Swanbeck said. "It is a style of play that will allow us not to get burned out, and we will have to capitalize on the other team's mistakes."

Phil Hahn (Rochester, Ill.), who became the starting goalie at the end of last season, will return to the nets on Saturday. He will have defenders Andrew Jenkins (Granite City, Ill.), Sean Bulla (Arlington, Lamar), Jay Kniker (St. Charles / West), and Kalim Jacobs (Columbia, Rock Bridge), in front of him at defender. The midfielders include Snider, Bill Faherty (Hazelwood / West), Jeff Schaefer (St. Louis / Lindbergh) and Bob Bartel (Peculiar / Raymore-Peculiar).

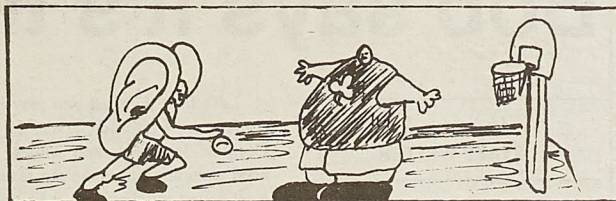

Up front, UMR will have Chapman and Scott Harrison (Granite City, Ill.).

UMR's home opener will be Sept. 12 against Missouri Southern.

CROSS COUNTRY : The UMR cross country teams will continue workouts this week for the 1992 season, which will not open for them until Sept. 12 when they take part in the Cougar Classic at SIU-Edwardsville.

Head coach Sarah Preston has decided to redshirt her top two runners from last year, Ron Kochanowicz (Blue Springs) and Steve Hostetter (Ballwin / Parkway West) to build a stronger team for 1993.

John Hermann is currently attending his 5th year of college, his 4th at UMR. John is perhaps a slight favorite to win in Barcerolla, but his enigmatic style he displays is sometimes not as consistent as he would like. John is a long range bomber, who is deadly from 3 point range. As a matter of fact anytime John is standing on a waxed wooden floor with a basketball in his hand, he's a threat to score. John has only attended UMR 4 years because he left to play for Napoli of the Italian league after his freshman year. After quietly leading the league in scoring, John decided he couldn't go on in Italy because he missed St. Louis. He found himself doing nothing but reminiscing about his times there with his Italian teammates. After John

left, there was a national movement in Italy to get a PT's there, too. John likes to think he had a little bit to do with that.

Some of John's hobbies include listening to Kris Kross on his big, bad Infiniti speakers, getting beaten by his neighbour at Super Tecmo Bowl, and sitting under air traffic control towers intercepting radar with his incredible ears.

Shawn Craig is a bruising 4th year student at UMR. At 5' 11" and 265 lbs, Shawn presents an enormous potential force. Shawn is currently President of the St. Pat's committee, arguably the greatest conglomeration of athletes on the earth today. Shawn is a Barkleyesque player who will not be denied when he goes strong to the hoop.

Shawn's physical attributes

are what make him what he is. Shawn has what many experts consider to be the best exhibited body control of any athlete in history, and let me tell you, that's a lot of control.

On the personal side, other than hoops, Shawn enjoys driving one of his exotic cars from his collection, listening to classic rock music (i. e. The Best of Lita Ford) and killing brain cells. The latter has proved to be what he is most proficient at as he is currently attempting to set the world record for saying 'Uhh' most times in one ten year span.

Whether Shawn is the greatest or not, I don't know, but one thing is certain. Win or lose, Shawn is sure to become the next media darling of the sportsworld.

Karissa

UMR Athletics
SOURCE

ROLLA, Mo. — Karissa McCarter, a member of the women's basketball and track teams at the University of Missouri-Rolla over the past two years, has been named as the university's NCAA Woman of the Year.

The NCAA Woman of the Year award recognizes women student-athletes for their excellence in sports, scholarship and dedication to community service and leadership. The award is sponsored by the NCAA and Hanes Her Way.

"I am extremely proud of the achievements and contributions Karissa has made to the department," said UMR athletic Director Mark Mullin. "She is not only an outstanding student and athlete, she is also an outstanding person. Karissa exemplifies the term student-athlete and serves as an excellent role model and representative of UMR athletics."

McCarter, a graduate of Kickapoo High School in Springfield, Mo., played on the Lady Miner basketball team for two years after transferring from Arkansas State University, and averaged 11.5 points and a team-high 5.8 rebounds per game for UMR last season. She was named "Player of the Week" by the MIAA on Feb. 3. She was also a distance runner on the UMR track team as a junior, but did not participate as a senior due to a knee injury suffered during the final game of the basketball season.

Read Me

The UMR Miner Boosters and the M-Club announced that they will jointly be sponsoring a design contest. The contest will be for coordinated designs for a 4" X15" bumper sticker, a ball cap, and a sweatshirt. Those items will be for use by Miner fans for all athletic events.

Miner Booster President, Frank Lange, and M-Club President, Cathlin Maloney, announced that their respective organizations were pleased to support a project that will help to get the new sports year off to a great start and bolster spirit for the UMR teams.

There is no entry fee; however, only one set of designs is allowed per entrant. Anyone may submit their designs. The winner will receive a check for \$100 for the exclusive use of their design.

The deadline for submittal of the designs is noon, Friday, September 11th. The designs should be mailed to the UMR Athletic Office in room G-10 of the Bullman Multi-Purpose

Bob says it's time for a change

By Bob Lang
STAFF WRITER

UMR/MSM has a great sports tradition and the Miners' nickname has a great deal to do with it. After all, the school was founded as the Missouri School of Mines and Metallurgy, hence the nickname. But with the changes in college athletics over the past 100 years, I feel that UMR needs a slight change in their traditional name. I propose that the nickname of the UMR athletics be changed from the Miners to the Fightin' Miners.

It's a pretty small change, but I feel it will have a great mental impact on the way UMR athletic teams perform. Fightin' Miners sounds alot tougher and more intimidating than just plain Miners. That won't help the cross country team much, but the football team will sound alot meaner.

With the new attitude of this year's football team as well as a new coach, a new nickname would also be in order. Do you think would have the great football tradition they have now if they were just called the Irish. Heck no, do you think the University of Illinois would be so tough if they were known as just the Illini? I don't think so. Do you think the WWII fighter pilots would have destroyed the Japanese so bad if they were known as just the Tigers? NO WAY! Adding fightin' to an already great moniker would give us that extra edge needed for our great football and basketball teams to step up to the next echelon of collegiate competition.

Let's face it, when you play in a conference with such teams as the Gorillas, Ichabods, and Mules, we need something to make our team at least sound tougher than their opponent. I think that making us known as the Fightin' Miners would do just the trick.

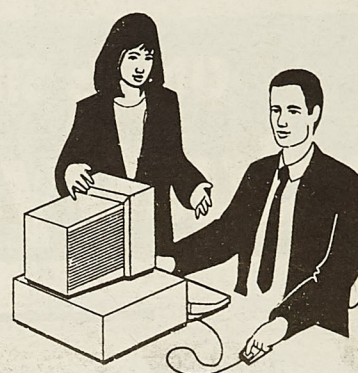

I'm not sure what channels to go through to get the name changed, and I'm not sure if everyone agrees with such a change. If you have any comments on this issue please send your response to the Missouri Miner office c/o the sports editor. Let's go Fightin' Miners

I'd like to know what you think about this proposal, because it's your name too. So send me a letter and let me know.

DO YOU HAVE THE BEST PARENT(S) IN THE WORLD???

Then nominate them for Parent(s) of the Year!!!

Every year some lucky UMR student's parent(s) are honored for their special qualities during Parents Day (September 26, 1992). Do you think your parent(s) are deserving of this honor? If so, please fill out the application below and return it, along with an essay (500 words or less) explaining why you believe your parent(s) should be chosen Parent(s) of the Year 1992, to the Student Council Office (202 University Center-West). Please call the office

The deadline is Tuesday, September 15

UMR Hall of Fame inducts seven

ROLLA, Mo. — The seven newest inductees to the MSM-UMR Athletic Hall of Fame include the quarterback of the Miners' first conference championship team and another football player who eventually won a silver medal in fast-pitch softball at the Pan American Games.

The newest members of the Hall of Fame will be inducted at a morning ceremony on Oct. 24, prior to the UMR football game with Washburn University.

"The Hall of Fame committee has done an outstanding job in its selection of the inductees for the 1992 class," said UMR Athletic Director Mark Mullin. "The individuals being honored are well-deserving and exemplify the proud and rich tradition of Miner athletics. It will be a privilege to have these outstanding individuals returning to our campus for the induction ceremony."

This year's inductees are as follows:

Charles "Buddy" Clayton (Class of 1938), a member of the Miner basketball team for four years and the golf team for three seasons. He was the captain of the basketball team as a senior and along with Floyd Watts won the two-man championship at the Missouri Intercollegiate Athletic Association Golf Championships in 1938.

Joel Loveridge (1939), a member of four Miner football teams as a back. He was considered to be one of the best defensive backs in the MIAA, and as stated in the 1938 Rollamo "saved many a game for the Miners in those last wild minutes."

Bob Kemper (1949), a three-time letterman for the Miner football and basketball teams. Kemper won most of his honors in football, where he was the starting quarterback for two years, including the 1947 season when the Miners won their first MIAA title. He was a co-captain as a senior and a two-time All-MIAA selection.

Thor Gjelsteen (1950), a fine two-sport athlete who lettered in football twice. He was a tackle on the football team and a post player for the Miner basketball team in his career.

Jim Good (1966), who finished his Miner career as the second-leading scorer and top rebounder on the all-time lists. (Currently he is eighth and third, respectively.) He scored 1,175 points in his career and averaged close to ten rebounds a contest. He is still the owner of school records for free throws attempted and made in a career. He was named second-team All-MIAA in 1964.

Tom Schneider (1975), winner of two varsity letters in golf, but better known as the founder of

soccer at UMR. He started the sport at the club level in 1972, playing a full schedule against other colleges, and also organized the game at the intramural level. He also played a role saving the program when budget cut-

backs nearly eliminated soccer in 1989.

Stu Dunlop (1976), winner of eight letters while at UMR—four in football, three in track, and one in baseball—while excelling in all three

sports. He was named the All-MIAA team three times in football and once in baseball. Dunlop caught 139 passes (only one player has caught more) for 1,823 yards and ten touchdowns in his college career, then signed a free agent

contract with the Chicago Bears. Since graduation, Dunlop has played on championship fast-pitch softball teams, including one that won the silver medal at the Pan American Games in 1983.

ALUMINUM COMPANY OF AMERICA MEETING THE CHALLENGE.

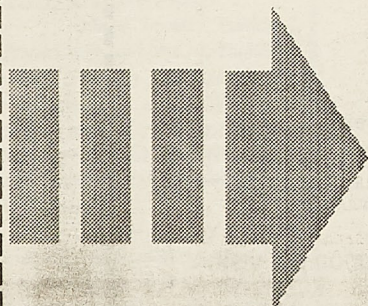

What began as one man's vision in 1886 has grown into the largest aluminum company in the world. Technology, products and markets have changed, but the Alcoa vision remains the same: creating value for customers, employees and shareholders through constant pursuit of superior products and services. Alcoa challenges its divisions to achieve excellence through quality and Davenport Works is meeting that challenge.

Located along the Mississippi River, Davenport Works is the largest sheet and plate facility in the world, producing aluminum products for over 1100 global customers. Our team of 3,000 dedicated employees meets the challenge every day. Can you?

Please let the Co-op Office know immediately of any acceptance of an offer.

"Do I take 'The Microbiology of Potentially Pathogenic Beta-Hemolytic Streptococci.' Or 'The Evolution of the Situation Comedy.' Do I really want to live with Judy the neat freak-again. I can't believe I've got until Monday to decide if I'm a Biology or a Theatre major. Have I completely lost it? Will I ever be able to make a decision, again? Wait a minute, just yesterday, I was able to pick a phone company with absolutely no problem...Yes, there is hope."

With AT&T, choosing a phone company is easy. Because when you sign up for AT&T Student Saver Plus, you can pick from a complete line of products and services designed specifically to fit your needs while you're in college. Whatever they may be.

Our Reach Out* Plans can save you money on AT&T Long Distance, no matter where and when you call. Call Manager will separate your AT&T Long Distance calls from the

ones your roommates make. And the AT&T Calling Card makes it easy to call from almost anywhere to anywhere. Also, when you sign up for AT&T, your first call is free*.

And with AT&T, you'll get the most reliable long distance service.

AT&T Student Saver Plus. It's the one college decision that's easy to make.

If you're an off-campus student, sign up for AT&T Student Saver Plus by calling 1 800 654-0471 Ext. 851.

© 1992 AT&T. *You'll receive one \$3 AT&T L.D. Certificate equivalent to 22 minutes of direct-dialed, coast-to-coast, night and weekend calling based on rates effective 6/8/92. You could get more or fewer minutes depending on where or when you call. Offer limited to one certificate per student.
