Who shot John F. Kennedy? The controversy continues...

Roger Amann
Staff Writer

Bob Harris, a stand-up comedian turned government investigator, gave a lecture about who shot John F. Kennedy this past week. Harris has been researching and investigating the Kennedy assassination for almost six years now. He will take his findings to more than eighty colleges this year. He invites students to go research the JFK assassination for themselves. The information he has compiled about our government is startling. Harris gave a very interesting speech about who shot JFK and also about other covert actions in our past and present United States government.

Harris has a strong opinion on who actually killed John F. Kennedy. Like many researchers, Harris immediately rules out Lee Harvey Oswald due to many faults in the case against him. Harris showed a film of the actual assassination, which when looked at with a great deal of concentration,

clearly shows Kennedy being shot several times from the rear. This finding alone rules out Lee Harvey Oswald shooting at Kennedy from the sixth floor of the book depository. In addition to this finding, Harris showed several photographs of Oswald holding the gun he supposedly shot Kennedy with. In one of the photographs, which was clearly doctored, Oswald's legs are at a slant and his chin appears to be touched up. If Oswald didn't kill Kennedy, then who did?

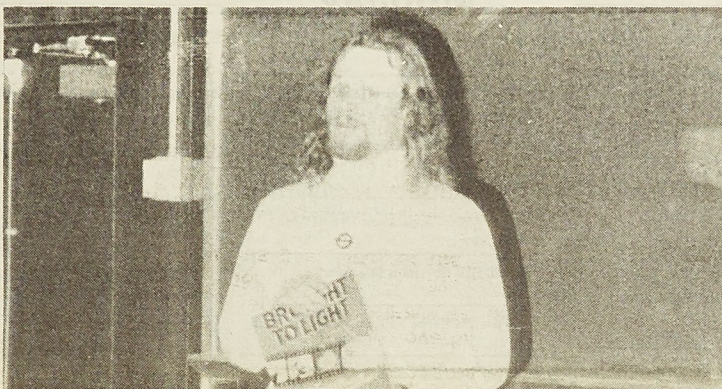

Harris has compiled a very extensive amount of research to finally confirm who actually did kill JFK. First of all, he believes the mob had something to do with it. Joseph Ken-

have made a bad deal with the mafia, and so the mob took it out on his son, JFK. Harris also believes that the Cuban government played a major role in the assassination. Kennedy's po-

sition towards Cuba was disliked very much by many groups in Miami and Cuba. Harris claims that Lyndon Johnson was also involved in the death of Kennedy. Johnson was afraid of being

the process became the next President of the United States. Harris sees John Edgar Hoover as a key player in the assassination of JFK. JFK was ready to fire Hoover, because of his terrible productivity and old age. Harris believes the only way we will ever know the truth about the JFK assassination is when the secret files are opened in thirty years.

In addition, to researching JFK's death, Harris also has done research on the Iran-Contra affair and the Persian Gulf war. Some of the information he has on these two events is unbelievable. If you would like to learn more about the JFK assassination, the UMR bookstore has a few books on it or just feel free to start doing your own research into the case.

UMR student injured while riding bike China adopts market economy

Gilbert Hamling, a senior at UMR, fell more than 20 feet into an embankment.

Roger Amann
Staff Writer

A UMR student, Gilbert E. Hamling of Deepwater, Missouri fell more than twenty feet from his bike into a railroad embankment this past Monday night or early Tuesday morning. Hamling is a senior in electrical engineering.

Hamling apparently lost control of his 10-speed bike while riding along the railroad bed. The embankment is located on Pine Street between Fourth and Fifth Streets. Bill Blackman of UMR Police said the area is frequently used by students as a short-cut. Rolla Police are unsure of how long Hamling was immobilized at the bottom of the embankment. Rolla Police Chief Michael Snaveley said that the stu-

dent's condition indicated that he had been there for several hours before it was discovered.

Roger Newton, a Burlington-Northern Railroad employee, discovered the student's bicycle beside the railroad. After further investigation, he noticed the bike's owner lying motionless down in the embankment. Newton immediately called police around 1 p.m. Tuesday afternoon.

To make matters worse, Hamling had no identification on him. Police reacted quickly and issued a bulletin to the Rolla Daily News and local radio stations.

Hamling was described as a white male, about 6 feet tall, 200 pounds and in his mid-twenties. In addition, he was wearing a 1990 St. Pat's black

sweatshirt, an oversize flannel shirt, a pair of gray sweatpants, and a gold cross earring in his left ear. the victim's bike was identified as a Huffy Tiempo 10-speed.

Finally, around 12:20 a.m. Tuesday night the police finally discovered who the victim was. Hamling's roommate heard the bulletin and notified police immediately. The roommate said the last time he saw Hamling was the night before around 10 p.m. After identifying the victim, the police then contacted Hamling's family.

Hamling is currently in serious condition at University Hospital in Columbia. Bill Blackman of UMR Police said, "Hamling is just lucky to be alive." Blackman added, "I guess the one lesson we all can learn from this is to always carry some form of identification."

Rolla, Mo. — The People's Republic of China has watched Pacific Rim neighbors Korea and Japan reap the benefits of a market economy. Now they too want to develop a market system, and they're getting assistance from two University of Missouri-Rolla professors.

With the help of Drs. Walter D. Johnson and Gregory Gelles of the UMR economics department, the Xi'an Petroleum Institute, located on the Wei River in east-central China, began offering graduate-level economics courses this summer to 20 students. The program includes a heavy dose of Western market economics, a system foreign to most Chinese students.

"China is trying to open a market economy and we are trying to develop the tools to teach market economics,"

says Gelles, an assistant professor of economics.

The master's program is a joint venture between the UMR and University of Missouri-St. Louis campuses and the Xi'an Petroleum Institute. This was the first year of the three-year program.

The classes come at a time when interest in a market economy is high in China, says Johnson, who is chairman of the UMR economics department. He warns that China's economy is moving toward a free-market system — with or without government approval.

"There is enough free market trading going on and this movement has enough momentum that they (government officials) realize they can't stop the tide," Johnson says.

The free-market movement's popularity is evident from the content of China's daily newspapers, the pro-

Consevatives Corner

This year marks the 500th anniversary of Columbus' discovery of America. In keeping with the current tenets of Political Correctness, we are being treated to weeping and gnashing of teeth over the innocent Indians (or "Native Americans," to use the PC term), the brutal Europeans, and the general disappointment that the United States ever came into existence.

Pardon me if I don't get along. I do not find the destruction of the Indian "civilizations" (Inca, Maya, Aztec) particularly disturbing. Frankly, Indian "civilization" was dysfunctional, built as it was on war, torture, human sacrifice, and cannibalism. The Aztecs ate each other; the Mayans were destroyed by internal wars; the North American natives tortured each other for fun.

(Lest I be accused of racism, I should point out that ancient Sparta, imperial Rome, inquisition Spain, and our own antebellum South were also dysfunctional societies.)

It's worth remembering that the first major Indian war (King Philip's war) with the English colonies was started by the Indians, and it was in that war that they initiated the practise of attacking women and children; the English settlers, who were accustomed to a more restrained form of warfare, eventually learned to retaliate in kind.

I should point out here that I do recognize there were Indians who

were peaceful and innocent. But that does not change the fact that Indian culture as a whole was dysfunctional, doomed to stagnation and ultimate destruction regardless of what the white settlers did. Primitive cultures always collapse when they encounter modern ones; this is regrettable but unavoidable. And when the primitive culture is brutal, violent, repressive one, there is no need even to feel regret. We do not mourn the collapse of the Assyrians; why do the Aztecs rate any better?

What's especially interesting about the current attacks on Columbus is the part they play in the larger framework of Political Correctness. The PC legions use their attacks on Columbus, as they use so much else, as a means of discrediting Western Civilization in general and the United States in particular. It never seems to occur to them that without the United States they would not even have the freedom to express their opinions about Columbus.

The European discovery of America unleashed the greatest epoch of human freedom and development in history. I think that is something worth admiration and remembrance. So if you'll excuse me, I'm off to celebrate Columbus, the man who changed the world — for the better.

Rob Hobart

Voter registration to the people

ASUM

We are writing in response to your letter on voter registration. ASUM is a student run student funded organisation. We and the Phelps County Courthouse are trying to help the student body. We are trying to make it easy for students as well as the community to register. Most students want to participate and vote but don't because of many reasons. These reasons include a lack of knowledge about where to register, where they vote as well as not knowing who to vote for. For those who vote absentee, there is a long drawn out process to go through. Let's face it, voting is not the easiest process but we make it easier. We are only trying to make it easier for those who are interested in voting, we are not forcing any individual to register just for the sake of registering. We hope and assume that once registered they will take the responsibility and exercise democracy's most fundamental right, voting. If you ask the courthouse why they are doing it they will tell you the same. They want to make it easier for those who are interested. Most individuals like myself work the majority of the day, and find

that it is a convenience for this service to be provided. The courthouse as well as ASUM is there to serve the people, not themselves.

ASUM is trying hard to educate the public on the issues and the candidates. We feel that it is our job. We realize that the rea-

We are only trying to make it easier for those who are interested in voting

son many do not vote, is because they are uninformed as well as misinformed. We are trying to locate as much information on each candidate and issue as possible. We have contacted all individuals on the ballot and collected information from most. We plan to have tables on campus with information for all. We have sponsored our luncheon with Gubernatorial candidate Bill Webster, and are currently seeking Gubernatorial

candidate Mel Carnahan. We are actively seeking any volunteers to hand out information, and have had much success.

We agree voting by whim is not good, but ASUM and the courthouse are trying to do everything possible to educate people. But we can't do everything, we are just trying to make it easier on the people so that more educated people will participate in their government.

Why are you picking on 18 year olds? It seems to me that you would be encouraging the younger generation to get involved instead of telling them they aren't mature enough - they will be the leaders of tomorrow. If someone is mature enough to take calculus and other college classes, they should be mature enough to read up on the issues and make a decision about political issues given the materials.

We think it is good for the voter registration to go to the people.

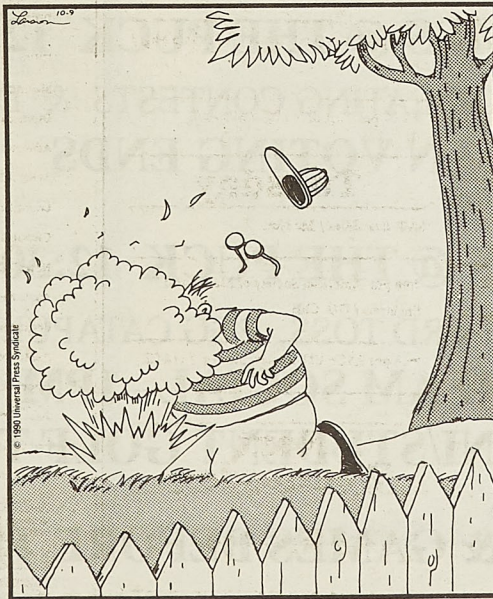

P.S. In Australia, it is a law that you must vote. Not voting will cost a person a \$50.00 fine. Maybe, America should follow their example.

SUB Conscious This week in Greek

SUB SOURCE

Well, this is it! Homecoming Week 1992!

You should be seeing games on the Puck everyday this week at 12:30. LOOK FOR THEM.

REMEMBER: 1964: AS THE BEATLES WEDNESDAY NIGHT 8 PM AT THE PUCK

This Saturday before the football game - "FUN & GAMES BEFORE THE GAME" - FEATURING - THE FLY TRAP - A Velcro Wall. Just line up and give it a shot - FREE with a UMR Student ID. The KMN Roadshow will be there and Barbeque will be available. DON'T MISS THIS!

Just because Homecoming is going on doesn't mean SUB isn't still hard at work. Tickets are available now for The Campus Performing Arts Series Presentation of The Chinese Magic Revue, October 16 at 8PM in Castleman Hall. The Chinese Magic Revue features a multi-faceted production of feats of daring and balance, Kung Fu, Oriental costumes, traditional dancing and a touch of Chinese Comedy. Most of the acts in the show

have been an integral part of Chinese culture for more than 2000 years. The Revue has performed virtually all over the world and was awarded the 1986 Campus Entertainment Award for Major Performances in the Performing Arts by The National Association for Campus Activities. Students can pick up FREE tickets now at the Cashier's Window in UCW. There are a limited number of tickets available. If you find you won't be able to use your tickets after you pick them up - please call the ticket office at 341-6985 before the show. There will also be a special matinee show on October 17. UMR Students can purchase tickets for the matinee for \$4 with a valid ID.

This weekend, in addition to all the Homecoming activities, SUB Films & Video Committee Presents - Wayne's World - Showing in ME104 at 7 and 9pm, Friday & Saturday night. PARTY ON!!

COMING TO SUB Conscious next week: "Certifiable Lunatic" - Bill Leff & The Walleyball Tournament SUB Committee Meetings: 10/7 Tech. Services 7pm SUB Office 10/16 Leisure & Recreation 9pm Walnut Room

Mark Crawford Staff Writer

Once more and again I bring you greetings from the wonderful world of the Greeks. This week's article will feature the Ladies of Zeta Tau Alpha. The organizations had its begining in Virginia at Longwood College and was organized on October 15, 1898. There were nine highly motivated young ladies who had their first meetings in secret at night by candlelight as the group tried to maintain anonymity. These women knew that the "something special" they shared would be lost if some means was not taken to insure the continuation of their group. With the help of two member's brothers, Maud Jones' brother Plummer Jones of Kappa Alpha and Phi Beta Kappa and Giles Mebane Smith of Phi Theta Psi and Phi Beta Kappa is the brother of Frances Yancey Smith, Zeta Tau Alpha took a more defonite form. The nine friends and Founders of Zeta Tau Alpha are Maud Jones (Honer), Alice Bland Coleman, Ethel Coleman (Van Name), Ruby Leigh (Orgain), Frances Yancey Smith, Della Lewis (Hundley), Helen M. Crawford, Alice Grey Welsh, and Mary Jones (Batte).

(The names in parenthesis indicate later appellations after marriage).

On the local level, Eta Theta colony of Zeta Tau Alpha was pledged on May 7, 1972 and a year later on May 5, 1973 Eta Theta was installed into Zeta's chain of chapters.

The Zeta Tau Housing Corporation was chartered as a separete non-profit corporation by the state of Indiana in 1977 to provide guidance and assistance to local alumnae in securing and maintaining competitive housing for Zeta's collegiate chapters. Eta Theta has received contributions for their renovations from the corporation. Another Zeta Tau Alpha function is the Crown Development Trust Fund (CDTF), it became a non-profit corporation, chartered in the state of Indiana in 1980. The funds of the CDTF may be used for scholarship grants and loans; housing loans and other educational facilities for students.

I would like to thank the ladies of ZTA for the information they provided me. If there are any other Greek organizations that have something that they would like to share, just drop me a couple lines and send it over to the Miner. I promise that I'll be a bit more tactful than Uncle Larry. Peace to the Bro's on the yard.

Greek sponsored coming advents and announcements

Kappa Delta - Is sponsoring "Kappa Delta Soccer Smash". It's a soccer tournament to benefit the Children's Hospital in Richmond Virginia to be held on Sunday, October 18, 1992 contact Rebecca Light at 364-0637 for more information.

Alpha Phi Alpha - Is sponsoring the Black and Gold Banquet and a Neophyte to follow after on October 10, 1992.

Alpha Kappa Alpha - Is sponsoring a fun and healthy aerobic session every Wed. in TJ Hall room G-3. Everyone is welcomed to come join in on the fun.

Zeta Tau Alpha - Oct. 4th String Day for late pledged to find Big Sisters. Oct. 5th standards from Mr. Abbott who owns his own salon and hair care line. Oct. 8th Scholarship Dinner. Oct. 9th Bar-B-Que with Sigma Nu.

Phi Kappa Theta - Oct. 9th the party before the Homecoming party. Oct. 10th Homecoming party with a live band "Justus"

Theta Tau announcements

Christopher Goo Features Editor

Theta Tau Omega has announced it's new pledges for the upcoming semester. Special Congratulations to Sigma Nu's Ryan(Two-Tone) Barr, Shawn (hoppy) Craig, Jim (A little-bit-of-loving if the price is right) Beard; Kappa Sigma's Darren (Jethro) Walters, Mike(Theta Tau looks good on the resume) Fridley, Aaron(psycho)(Junebug: It is Good!) Bradley; Sigma Phi Epsilon's Vance Buatte, Jason (Nature-Boy) Myers; Tau Kappa Epsilon's Chris(Night) Reiter; Triangle's Clayton(huh!) Hines; Lambda Chi Alpha's Tim Janeisch; Sigma Pi's Sean(I'm not a pretty boy)McNeil; and Pi Kappa Alpha's Pat (p.j) Johnson. Don't get cocky or else!

Congratulations are also in order for the new initiatesthis

semester. They are Jeff(Slackovich) Lachovich, Quent (Q-Boy) Kasten, Eli (I'm not Rude Crude or Lewd anymore) Price, Scott(I like to Mosh) Steiner, Bryan O'Neill, Scott (Bird) Stewart, Scott Burkemper, Tony Fussner, Brian (Bjesus) Christ, Mike Marino, Ken (Mad-Pup) Martinez, Steve (Quas) Fogle, Tom (snack) Bujnak, and Christopher (What world are we in?) Goo.

Theta Tau's Summerfest was a success as everyone had a good time and nobody got hurt. Our annual 'Freshmen of the Year' scholarship interviews will be held Tuesday, October 6th. Also, Parent's Day weekend, Theta Tau raised over \$400 in our 'Mums for Moms' fundraiser to be donated to the Tristan G. Pinzke scholarship fund. Look for upcoming information on our Pizza Nite fundraiser.

A couple of stewers, having a good time partying at Summerfest

Waste : It's the American Way

James Parsons
Staff Writer

Terrence unknowingly walked into the benefit cocktail party with a small glob of dog excrement smeared onto the sole of his shoe. He acquired it on the sidewalk lining the building where it had recently been deposited by a seeing eye dog. Terrence always walked with a brisk, matter of fact gait and he took the little terd in stride, too focused on milling about the collected network of his friends and acquaintances at the party to notice. Normally, the onrushing mixture of designer fragrances, scents, and the undefinable smell of constant freshness that such hotels emnate made him feel assured of his upwardly mobile direction and the cleanness of his portion of the world. But on this day his nose was stopped up with a cold.

He was not in the large reception room long before he came upon a circle of his associates with whom he wished to discuss his new solid waste disposal plan. His associates welcomed with a smile, but did not seem to be particularly happy or unhappy to see him. After exchanging a few brief amenities, Terrence launched into his semi-planned, informal presentation by asking everyone, "Do you know where your trash is? You know solid refuse isn't something that can always

be easily thrown away." Several people in the small group were for minor political offices, and in an election year, they were immediately put on the defensive, especially since he said the garbage was solid.

The person closest to Terrence was a frail, almost dainty looking man who appeared to have suddenly become quite uncomfortable. Terrence thought that he had been offended by his question, so he asserted his case in that man's direction first. Somewhere in his development, Terrence formed the idea that closer he stood to someone, the more effective he was in conversation. So he leaned into the man's personal space, invading about one third of the standard private zone. Fortunately for the listener, Terrence was not prone to over salivation, nor did he spit while he spoke. But, our environmental hero was barely able to his topic before the man crinkled his nose, raised his brows, and made an excuse for leaving with a slight shake of his head. Terrence watched this reaction with the absolute certainty that his proposal was too weighty for the man's grasp anyway, and that he had left before being forced to show such ignorance.

At about this point in the story, the climate control system in the hotel malfunctioned, causing an increased temperature in the reception area and failure of the ventilation system.

The size of the group Terrence came upon had thinned considerably. He turned his attention to a young lady on his right whose face, when he looked toward her, wore the sort of benign smile that features the lips compressed together horizontally, rather than in a downward semi-circle; her eyes bulged wide, eager to shift contact to someone or someplace else, but frozen to his approaching presence out of social propriety. He stopped his advance when he had invaded about one half of her personal space. Certain that he had found a point of mutual interest, he began his presentation, "Do you think, when the time comes, that you'll use washable or disposable diapers?" Somewhat offended by his assumption that she would one day necessarily become a mother, she replied, "Well, during football on Sundays, I usually swill so much beer that I just slap on a Depends undershield so I don't have to miss any of the great action," quite pleased with herself for turning a Jay Leno joke from several years before into such a resounding quip. And then with an abrupt turn and loud sniff followed by a shudder of disgust she walked away. Terrence was fairly sure that she had liked him to begin with, but he just had not stood close enough to make any positive impact.

Terrence and one other man were the only people left standing in a fairly

deserted corner of the large hall. Terrence started walking towards him when he noticed the man was wearing an ill fitting toupe that was so ajar atop his head that it was quite obvious he had on an artificial tuft of hair. Quickly Terrence debated with himself about whether or not to tell the man he should fix the piece. He knew he would want to know if he were ever in a similar situation, but he was afraid of embarrassing the person he did not even know. Terrence figured the guy would probably be angry as well as humiliated at the mention of such an embarrassment, which would immediately harden him against Terrence's proposal. He chose to overlook the problem and vigorously walked upto the man and promptly invaded about two thirds of his personal zone. Terrence had gulped down two cocktails already, and was so close to his conversational partner that he had to talk towards the man's ear to avoid hitting noses. Terrence was so pleased with how he thought they must look, discussing an important secret like a pair of Mafia dons, that he ignored the man's effort to move backwards, and just pressed further. The man had not enjoyed himself at the party very much so far because few people had bothered to talk to him for very long. And now he found Terrence's approach, and smell, utterly offensive. Terrence had only squeezed out a few brief

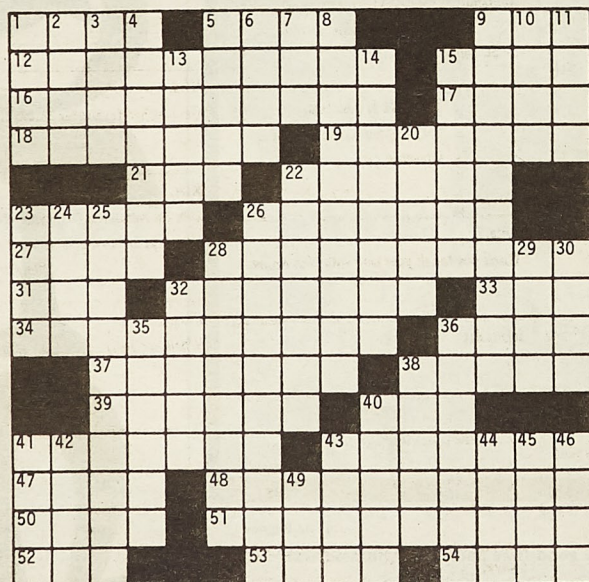

sentences before the man pushed him away, and stepping back, said, "Man, I don't care about your plan. You stink! Leave him alone."

By now Terrence's nervous frustration had reached the point that the slight increase in temperature in the room was causing him to profusely. He heard the soft rings of laughter coming from the crowd on his left where the man had gone. Terrence thought these laughs were intended for him, and swelling with shame, he put his head down and walked through another part of the crowd where a path almost magically opened itself upto him.

Later, out on the sidewalk, his foot slipped on the smooth surface and he discovered what he had been carrying. "Why hadn't anyone told him?" he wondered. In all confusion and anger he forgot all about his good plan. From that point he walked with his head down most of the time.

"Night Verses"

Poems come from a distant locality
Lying somewhere between dream and reality
Darkness fills the night sky
Making true sight seem to die
Then words whisper in my ear
Ever so silently approaching near
To tell little more than a verse
And my imagination to slowly nurse
I grope for pad and pen
To pull this forming poem from my soul's den.

Lady Miners run record to 6-0

Teresa M. Dickenson
Ass. Softball Coach

LADY MINERS GO 6-0 IN FALL BALL

The UMR Lady Miner's softball team concluded its fall schedule over Parents Day weekend with three five-inning games against East Central College. The team once again fared well as they won all three games to go 6-0 for the fall season.

In the first game, UMR won 3-0 behind a strong performance by pitcher Mary Rohrbacher. The offense got on track in the first inning when Christy Cheeley hit a triple and then scored on Freshman Nicki Wray's hit. Also scoring on Wray's hit was Rohrbacher who had reached base by a walk. UMR's last run came in the third inning when Cheeley walked to lead off the inning. After being sacrificed

to second by Rohrbacher, Cheeley scored on Kristan King's RBI single.

Rohrbacher picked up the victory for the Lady Miner's going the distance allowing one hit and no walks. At the plate, Cheeley went 1 for 2 with 2 runs scored and Wray 1 for 2

the scoring column in the sixth inning when Cheeley led the inning off with a triple and then scored on a double by Troci Keen. Keen later scored in the inning on a double by Shelly Backues. Keen picked up the victory for UMR going the distance with a two hit shut-

Cranmer. Backues then scored on a single by Dyan Risher after reaching base on walk. In the third inning the offense erupted for six runs. Jenny Crede and Wray reached base on errors to start the inning off and then scored on a double by Freshman Amy

by Cranmer and Risher on a single by Keen. The final run of the game for the Lady Miner's came in the fourth inning when Wray doubled and then scored on an error. East Central's lone run came in the fourth inning.

Jenny Crede pitched a strong game for the Lady Miner's going the distance allowing just two hits and striking out five. Offensively, Risher and Backues went 1 for 2, Cranmer 1 for 1 with 2 RBI's, and Keen 2 for 3 with 2 RBI's as well.

The Line Scores:

First Game

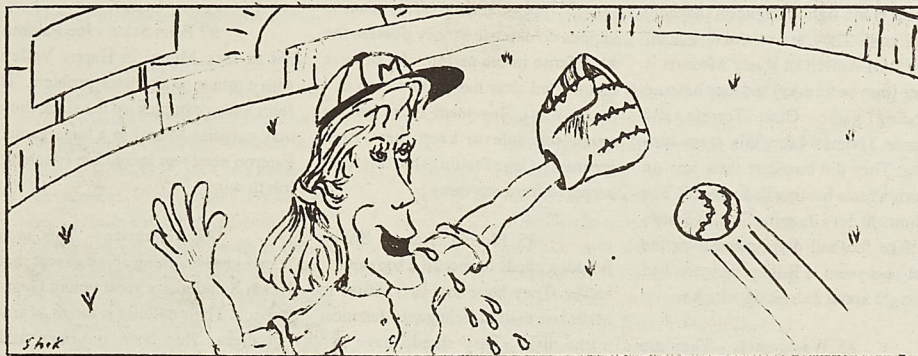

East Central 00000-010
UMR 2010x-350

Second Game

UMR 000002-260
East Central 000000-022

Third Game

East Central 00010-124
UMR -0261x-981

with 2 RBI's. Stacey Cranmer, April Buesch, and King all went 1 for 1 in the game.

The second game was fairly close as well as the Lady Miner's pulled out a 2-0 victory. UMR got in

out.

The third game brought a little more offensive power by the Lady Miners as they won easily 9-1. Kristan King reached base on a double and then scored on a single by

Buttimer. Buttimer then advanced to third on a single by Backues and scored on a squeeze play by Cranmer. Backues then scored on a fielder's choice by Senior Dyan Risher. The last two runs of the inning were scored

Water polo update

Keith Thompson
Water Polo Club

Thank you to all of the people who came to cheer on the UMR water polo teams! The support was much appreciated.

For those who couldn't make any of the games, you missed out on a great tournament. University of Illinois-Champaign, SIU A, SIU B, and Indiana University came to play at the UMR Invitational Water Polo Tournament. UMR A team went 4-0 for the championship tournament. UMR B, 1-3 record, played well and had a competitive game against SIUB.

UMR A's games included a 27 to 2 blowout against SIU B, and an incredible 10-9 game against Illinois that was won with one second to go by a great outside shot placed by Chris Barnett. Key goals were also scored during the six-on-five offense by Doug Cordier three times in a row! (You'd think the other team would have caught on by then).

UMR's team roster is looking good this year. The following

players participated in the tournament. Chris Barnett (4 goals), Paul Baudendistle (22 goals!!), David Cadoff (1 goal), Doug Cordier (8), Mark Cresswell (6), John Fulkenrath (1), Rob Hagan (5, with three breakaway goals!), Marlin Jiranek, Brian (Mr. Excitement) Klein (5), Alex Kombokis (Goalie), Jay Meyers (1), Ed Midden (2), Mark Munoz (1), Derek Olander (5), Jason Schnepf, Kurt Steinman (10), Keith Thompson (1).

Along with Alex as the first string goalie, Doug Cordier, Derek Olander, Jay Meyers and Keith Thompson played goalie during the tournament.

All in all it was an exciting set of games and many plays were proven to work. The UMR Water Polo Team will go into action again at the Northwestern Tournament in Chicago Oct. 9-11, and at the SIU Tournament Oct. 16-18. Come watch if you can!

Football Miners

The Miners travelled to St. Joseph, MO to take on the Missouri Western Griffons in an important MIAA conference game. The Miners, however fell once again in a tight battle featuring a strong Miner rushing attack led by Junior Fred Finley.

Mo Western took the early lead when Robert Augustus rushed for 12 yards and a touchdown. On UMR's first possession they drove the length of the field and scored when Curt Courtney completed a 15 yard pass to Chris Kennedy. The two point conversion failed. In the second quarter Mark Ramstack, formerly at Mizzou, completed a 14 yard pass to Terren Adams to Make the score 14-6. On UMR's next possession Courtney was intercepted by Marcus Porter and returned 64 yards for a touchdown. Two possessions later the Miners closed the gap to 21-14 when Courtney hooked up with Steve Howard for a TD and Risk Henry caught a 10 yard pass for the two point conversion. The game featured a scoreless third quarter. In the fourth Western struck again for their final score when Dameon Kazee ran 14 yards for the touchdown. The Miners came back though. On the next possession the Miners drove from their 33 and culminated the drive when Fred Finley ran 4 yards for the TD. The Miners fell just short in the 28-21 defeat.

Finley earned team offensive

player of the game for his 142 yard rushing effort. Courtney was 15 for 39 3 interceptions and 162 yards. Rick Henry chipped in 42 yards rushing and Steve Howard had the big day receiving catching 5 passes for 79 yards and one touchdown.

This weekend is Homecoming where the Miners will try to get back on track against the Mo Southern Lions who snapped a 3 game losing streak by beating Washburn 44-14

UMR - 6 8 0 7 - 21

Western - 7 14 0 7 - 28

MW-Augustus 12 run (Volger kick)

UMR- Kennedy 15 pass from Courtney (run failed)

MW-Adams 14 pass from Ramstack (Volger kick)

MW- Porter 64 yard int return (Volger kick)

UMR- Howard 10 pass from Courtney (Henry pass from Courtney)

MW- Kazee 14 run (Volger kick)

UMR- Finley 4 run (Risner kick)

Squiggy names new No. 1

Squiggy
Sports writer

This weekend proved to be a tough time for nearly all of the teams in the top 10, showing just how competitive this season is shaping up to be. Every team except one of the top 10 looked bad. So by due process of elimination, the only team that looked convincing this week has jumped to the number one spot and one of the "upsetters" has bullied its way into Squiggy's Top Ten. So, with no further adieu, here is this week's poll.

#1 Michigan - Why, might you ask, do I dare pick a team with a tie for #1. Because the undefeated teams are not convincing and because Michigan tied Notre Dame at South Bend in their very first game. One bad play is keeping them from being a convincing #1. Only one team other than the Wolverines have two starting quarter-

backs, and that's Washington. The key to Michigan's season thus far has been the emergence of tailback Tyrone Wheatley and the surprise of freshman sensation Mercury Hayes. I am so convinced of Michigan's squad this year, that I have shelved my Notre Dame hat, and donned the blue and gold of the Wolverine cap.

#2 Miami - Probably the luckiest team in college football. The only thing between them and two losses is the right upright on the field goal post. They are talented, but injured All-American Rusty Medaris is gone (maybe forever) and they have no running game. Gino Torretta and Lamar Thomas keep this team running. They did continue their jinx on Florida State beating them 16-13. For a moment, let's imagine Florida State's college football dominance over the last two years if Bobby Bowden had thought about recruiting a kicker.

#3 Washington - They are the best team in the nation, player by

player, but their offense choked against a suspect USC defense. Their defense almost lost the win to a 3rd string Quarterback. The only thing that salvaged this win for the Huskies was five USC turnovers, three of them coming in Washington territory. All this happened at home. They survived by a weak 17-10 score. Look for Stanford to down the Huskies in a big game in the next few weeks.

#4 Alabama - This team is vicious on defense as they possess the #1 defense in the nation. An offense that started slow has picked it up in a major way. This team lacks only a tough schedule to keep them from greatness. Gene Stallings has this team prepared for everything.

#5 Florida State - Bobby Bowden needs to recruit a top notch kicker. They have lost two games to Miami on missed field goals that most teams make. They should have two national titles, but the Miami jinx

again prevails. Maybe Terrell Buckley was right that Bobby Bowden can't call the plays in the big one.

#6 Texas A&M - Too many close games and a weak offense are going to cost this team a win. They had to come back against Missouri; and needed a last second field goal to beat Texas Tech. They have an easy schedule, but their Bowl game will tell their fate as well as the defense.

#7 Penn State - Joe Paterno has to face Miami in Happy Valley with a minor quarterback problem. If John Sacca can pick up the slack they may surprise Miami in a huge game. Paterno needs an incredible coaching job to win.

#8 Tennessee - This is a team I know nothing about except that Heath Schuler is a great young Quarterback. Their defense is tough as any out there. This team is young and talented, but very vulnerable. They

won over LSU 20-0 this weekend.

#9 Stanford - Bill Walsh pulled out all the stops at half time against Notre Dame, he was Down 16-6 and wins 33-16. Steve Stensford from and Glyn Milburn led the offense while Stanford's #2 ranked defense came alive in the second half causing 3 turnovers. Bill Walsh wept after the win. What's the deal? You'd think after all those Super Bowl wins, he'd realize, Bill, there's no crying in football.

#10 Colorado - This team remains #10 after a weekoff and Missouri up next watch Thursday night as the Tigers and the Buffaloes tangle in Columbia.

Well, there you have this week's poll. A lot of changes happened this week, and don't be surprised if more happen next week. This is the most competitive field on a long time and therefore it's hard to really predict anything.

UM-Rolla receives gift from McDonnell Douglas Foundation

News Services
SOURCE

ROLLA, Mo. — The University of Missouri-Rolla has received \$36,000 from the McDonnell Douglas Foundation of St. Louis. The funds are to be used for minority programs and scholarships and to support electrical, mechanical and aerospace engineering programs at UMR.

The gift allocated \$6,000 for UMR's Minority Engineering Pro-

gram, \$5,000 for scholarships to minority students, and \$25,000 to support the electrical, mechanical and aerospace engineering departments.

"I'm extremely pleased that McDonnell Douglas continues to invest in higher education even during times of economic uncertainty," said John T. Park, UMR chancellor. "This contribution indicates the strength of our ongoing partnership with McDonnell Douglas through good times and bad."

According to Wray D. Calahan of McDonnell Aircraft Co., the gift to UMR is the foundation's largest this year to any educational institution.

Chinese dance troupe to perform at the Theatre of Castleman Hall

News Services
SOURCE

Rolla, Mo. — The dance troupe Chinese Magic Revue will perform daring stunts, Kung Fu and traditional Oriental dancing next month at the University of Missouri-Rolla.

The group will perform at 1 p.m. Saturday, Oct. 17, in Leach Theatre of Castleman Hall. Admission is \$4 for youths 18 years and younger and \$8 for adults. Admission for UMR students with a valid student identification is \$4.

Tickets may be purchased from 8 a.m. - 4:30 p.m. starting Mon-

day, Oct. 5, at the UMR ticket window in the University Center-West. For more information call 341-4219.

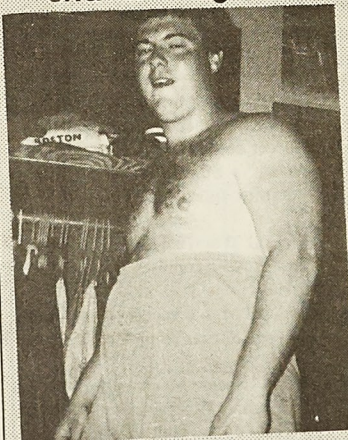

The Chinese Magic Revue will display Chinese comedy as well as the dances performed in traditional Chinese costumes. Most of the acts in the show have been an integral part of Chinese culture for more than 2,000 years.

The troupe has performed throughout the world and was awarded the 1986 Campus Entertainment Award for Major Performances in the Performing Arts by the National Association for Campus Activities. The dancers have also appeared on national public television specials.

ing Queens

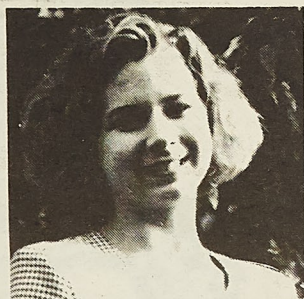

Carrie Mae - Tau Beta Sigma and Phi Kappa Psi

Carrie Mae is the Homecoming Queen candidate representing the Tau Beta Sigma and Phi Kappa Psi, which serve all the students. I am a first year student at Sigma, and I am a member of the Joint Fundraising Committee. I am nineteen years old, majoring in Biochemistry. In my spare time, I enjoy reading, playing music, and writing. I play trumpet in the Marching Band and have played in bands for four years. I come from a small town in Missouri, located in the Ozarks. I have a brother, Paul, who is also a student here. I like to go fishing and hiking on vacation to the Ozarks, because I plan to work in the Ozarks.

Dyan Pulsipher - Student Council

Student Council is proud to present Dyan Pulsipher as our 1992 Homecoming Queen candidate. Dyan, the daughter of Dee and Neolia Pulsipher of Kirkwood, MO, is a senior in Mechanical Engineering. Dyan has been a representative to Student Council for two years and served as chairman of StuCo's Introductory Council. In addition, Dyan has served as rush chairman for Sigma Nu Little Sisters, as Activities chairman for Zeta Tau Alpha, and as a member of SUB's Homecoming Committee. Her other activities include SWE, Toastmaster and ASME. Good luck, Dyan!

Melissa Kuenzel - Sigma Nu

The men of Sigma Nu Fraternity proudly present our 1992 Homecoming Queen Candidate, Melissa Kuenzel. Lissy is a very accomplished woman both on, and off campus. She presently holds a very respectable 3.83 GPA along with the office of Vice-President of the Little Sisters of The White Star, and Scholarship Chairman for her sorority Zeta Tau Alpha. Miss Kuenzel among many other things, is a member of AICHE, Omega Chi Epsilon, Phi Eta Sigma, Tau Beta Pi, and the Intercollegiate Knights. Lissy has served as Intramural Assistant chairman, service chairman, assistant director of pledge program, and rush party chairman. She has also been the treasurer for IK. This present semester she is putting her great personality knowledge and charm to work for UMR as a Student Ambassador. To Melissa Kuenzel, Sigma Nu wishes you great success and the best of luck.

Rakiyah Mason - Association of Black Students

Miss Rakiyah Mason is the daughter of Barrie Mason, of St. Louis, MO. While pursuing a B.S. in Mechanical Engineering (May 1993), Rakiyah has received several awards of academic achievement such as acceptance into the Graduate Degree Program for Minorities in Engineering (GEM). And as a recipient of scholarships from Tau Beta Pi, Phi Eta Sigma, Minority Engineering Program, Martin-Marietta, and Exxon just to name a few. Rakiyah participates in various activities such as the UMR Excel Program as a workshop facilitator, a Teaching Assistant for Mechanics of Materials classes, and Mathematics Tutor. Initiation Committee Chair for Tau Beta Pi, Field Assistant for the Red Cross, UMR Varsity Track Team, Co-captain Gold Miners Dance Squad (1990-91), and Regional Programs Chair for the National Society of Black Engineers (1991). Rakiyah has enjoyed her experiences here at the University of Missouri-Rolla, and is pleased to represent the Association of Black Students.

Jenifer Leigh Curry - Pi Tau Sigma

Jenifer is a senior in Mechanical Engineering representing Pi Tau Sigma. She is a former president of Chi Omega sorority. She is also a former UMR cheerleader, Techs Peer Educator, and served on the UMR Panhellenic Council. She is currently active in intramural sports and Pi Tau Sigma.

Lisa Gail Willhaus - Pi Kappa Alpha

The men of Pi Kappa Alpha are proud to present our 1992 Homecoming Queen candidate, Miss Lisa Gail Willhaus. Lisa, the daughter of Mr. and Mrs. William Willhaus of Kansas City, is a senior majoring in Chemical Engineering. She is currently holding the position of president in her sorority Chi Omega, and has held the positions of secretary in Tau Beta Pi, treasurer of Intercollegiate Knight, and secretary of Chi Omega. Lisa is also an active member in Blue Key, Omega Chi Epsilon, M-Club, Phi Eta Sigma, the American Institute of Chemical Engineers, and was on the varsity track team for two years. We believe Lisa is an excellent choice for Homecoming Queen candidate and we wish her the best of luck.

Beth Rikand - Phi Kappa Theta

The 1992 Phi Kappa Theta Homecoming Queen Candidate is Beth Rikand. She is a Senior from St. Louis majoring in Mechanical Engineering. She is a member of Kappa Delta Sorority, and has held the offices of Vice President-Pledge Education, Scholarship Chairman, and Pledge Class Secretary/Treasurer. She is a member of Omega Sigma and held the office of secretary. Other campus activities include: American Society of Mechanical Engineers, Gamma Alpha Delta, Gold Miners, Society of Women Engineers, and Transfer Student Organization.

Jenifer Leigh Curry - Pi Tau Sigma

Jenifer graduated with a degree in Mechanical Engineering and worked for Oscar Engineering. She has her Master's Degree in Management. Her interests include attending sporting events, golf, and fishing. She is also a member of the Hobby Leadership. She is a great outgoing and friendly person. We wish her the best of luck.

Homecoming

Jen Crede - M-Club

We the members of the M-Club are proud to nominate Miss Jen Crede as our 1992-93 Homecoming Queen candidate. Jen is an active member of the Lady Miners Softball Team since 1989. In the past two seasons she has been named to the All-Conference team as a pitcher and to the Academic All-Conference team. She has also served as a team co-captain for the 1992-93 seasons. Jen is also member of Phi Eta Sigma Honor Fraternity and is the Vice-President of Alpha Sigma Mu. We were fortunate enough to have her as the President of M-Club for the Spring of '92. We wish Jen all of the best, of which she is very deserving.

Lisa Molner - Zeta Tau Alpha

Lisa Molner is the Homecoming Queen Candidate for Zeta Tau Alpha. Lisa is a senior from Kirkwood, MO, her parents are Diane and Art Molner. Lisa has been involved with the following campus organizations: Zeta Tau Alpha, as President, Corr. Sec. three years. Panhellenic Council, Public Relations Chairman, one and half year. UMR Student Ambassador, one semester. UMR Women's Varsity Soccer, lettered, two years. Down to Earth, environmental group, one year. Lambda Sigma Pi, service organization, two years.

Sandy Berendzen - Triangle

The men of Triangle are proud to announce Miss Sandy Berendzen as their 1992 Homecoming queen candidate. The daughter of Harold and Sally Berendzen of Eldon, Missouri. Sandy is a senior in computer science, maintaining a G.P.A. of 3.86. Sandy's campus activities include Transfer Student Association, Phi Kappa Phi honor society, and she is currently holding the office of treasurer in Upsilon Pi Epsilon Computer Science Honor Society. We congratulate Sandy in her academic achievement and wish her well in her final year at UMR.

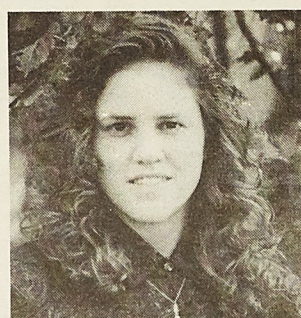

Lisa Stiles - Tau Epsilon

The men of Kappa Epsilon are proud to present Lisa Stiles as our Homecoming Queen candidate. Lisa, the daughter of Lawrence and Barbara Stiles of St. Louis, is a Junior majoring in Nuclear Engineering. Lisa has been on the staff of every semester here and recipient of the Chancellor's, Curran Flight, and National Academy of Nuclear Training Scholarships. She is currently holding positions in organizations such as: Public Relations Chairman of Zeta Alpha, President of Toastmasters, Secretary of America Nuclear Society, a senior advisor of Phi Eta Sigma. She is also a member of Tau Epsilon, and was a member, and later of the Chancellor's Leadership. Tau Epsilon is proud to have her represent us.

Rebecca Light - Sigma Phi Epsilon

Rebecca Light from Rolla, Missouri is the daughter of Charles and Farron Light. She is a sophomore at the Kappa Delta sorority, where she is the philanthropy chairman and sophomore representative on the standards board. She has been involved in Pan Hellenic for a year. Other campus organizations she has been involved in include: IEEE, Society of Women Engineers, and Phi Eta Sigma. Sigma Phi Epsilon is proud to announce that she is our Homecoming Queen candidate.

Angelika Leigh Adams - Sigma Pi

Sigma Pi is proud to present Angelika Leigh Adams, daughter of Lee and Eva Maria Adams, as our 1992 Homecoming Queen candidate. She is a senior in Civil Engineering. While maintaining a 3.2 GPA, Angelika has managed to become an active member of Zeta Tau Alpha where she has served as Scholarship chairman, Social chairman, Service chairman, and Scrapbook chairman. Angelika is also a member of Chi Epsilon Honor Fraternity, where she is currently the pledge trainer. She is a member of ASCE and DOE, where she has served as Vice-president and Secretary. All of us, here at Sigma Pi, wish our lovely Queen, Angelika Adams, the best of

Michelle Occhipinti - Alpha Epsilon Pi

We, the brothers of Alpha Epsilon Pi, are very excited to present Miss Michelle Occhipinti as our candidate for 1992 Homecoming Queen. Miss Occhipinti is the daughter of John and Grace Occhipinti of Huntington Beach, California. Michelle is an active member of the Chi Omega Sorority and served on the social committee last year. She also participated in intramural swimming, soccer, and volleyball. Miss Occhipinti was President and Vice-President of the Daughters of the Lion, as well as an active Little Sister for us. Michelle is an outstanding individual, and we are proud to have her as our candidate for 1992.

Lisa Madison - Theta Kappa

Thomas Madison, daughter of Don and Lisa Madison of Rolla, Missouri, is a freshman in Civil Engineering. He is involved in TJHA as vice-president and as a member of the Society of Women Engineers. He is also pledging Zeta Tau Alpha and volunteers her time at Rolla.

ing Queens

Janice Stickers - InterVarsity Christian Fellowship

InterVarsity Christian Fellowship is proud to present Miss Janice Stickers as their Homecoming Queen candidate. Janice is the daughter of Bruce and Joanne Stickers of St. Joseph, IL. She is also involved in marching band, jazz band, Tau Beta Sigma, and Phi Eta Sigma. IVCF wishes her the best luck!

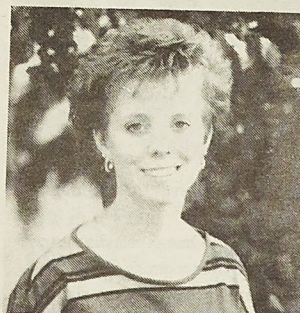

Jane Alfermann - Kappa Delta

Kappa Delta is proud to present Janet Alfermann, daughter of Ken and Rosella, as our Homecoming Queen Candidate. Janet is an active member of Kappa Delta and is currently serving as Vice-President Membership. Janet has proven herself to be a great success as Fund Raising Chairperson for Kappa Delta. She has also served on various committees. Janet is an active member of the American Institute of Chemical Engineers (AIChE). Janet attended AIChE's regional conference in the spring of 1992, and has been a member since the Fall of 1989. She serves as a UMR Ambassador. Janet belongs to several honor organizations. Janet served as treasurer for Angel Flight and Lieutenant Governor for her residence hall floor. She has received many awards, which include: Dow Chemical Outstanding Junior Award, Chemical Engineering Outstanding Merit Award, Phelps County Panhellenic Scholarship Janet possesses all the qualities of a leader and is an excellent example of a model stu-

Farida Mehta - Quadrangle

The men and women of the Quadrangle Hall Association are proud to announce their 1992 Homecoming Queen candidate, Farida Mehta. Currently she serves as the Treasurer of QHA and a voting member on the Inter-Residence Council. She has also held and still holds numerous other positions within QHA including Lt. governor, governor, intellectual/emotional committee member, and intramural volleyball player. In addition to her extra curricular activities, Farida is able to maintain a 3.7 cumulative g.p.a.s a senior Civil Engineering student. She is a member of ASCE, Chi Epsilon, and Phi Kappa Phi, and is an invitee at Tau Beta Pi. Farida permanently resides in St. Louis with her family. Farida is a warm, out-going young lady, and we wish her the best of luck.

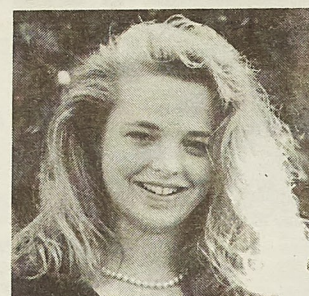

Lynne Sanick - Pi Kappa Phi

In three years at Rolla Lynne has been an integral part of this campus. She has become involved in Kappa Delta Sorority, Delta Lambda, GAD, APO, Toastmasters, Tau Beta Pi, and the American Society for Engineering Management. Presently she holds the office of vice-president of ASEM. In Kappa Delta she began as President of her pledge class, and has held several offices including her current position as President. The men of Pi Kappa Phi are proud to present Lynne Sanick as our Homecoming

Laura Donley - Beta Sigma Psi

The men of Beta Sigma Psi present Ms. Laura Donley as their Homecoming Queen Candidate. Laura is a Senior majoring in Chemical Engineering with emphasis on Bio-Chemical Engineering. She transferred to Rolla in the Fall of 1991 from Belleville Area College, and was on co-op with Olin Brass/Winchester during the Winter and Summer semesters of 1992. Since transferring to UMR, Laura has been active in the American Institute of Chemical Engineers (AIChE), Society of Women Engineers (SWE), and Omega Sigma where she is the social chairperson this fall. Laura has just pledged the Kappa Delta Sorority. She also enjoys playing intramurals, such as flag football, softball, and golf.

Christina Willard - Lambda Chi Alpha

The men of Lambda Chi Alpha are proud to announce their Homecoming 1992 Queen candidate, Miss Christina Willard. Christina, the daughter of Gary and Evelyn Willard, is a sophomore majoring in Electrical Engineering. She is a member of Air Force ROTC, Arnold Air society and a former softball player at UMR. We at Lambda Chi are honored to have Christina represent us as our Queen

Homecom

Sheila Connors - Theta Xi Fraternity

Sheila Connors is a fabulous person. Sheila Connors is the daughter of William and Ellen Connors of St. Charles, Missouri. She has maintained a GPA of 3.5 through 4 years of college at UMR. In addition to her excellent academic record, Sheila has maintained a high profile in Greek organizations. Specifically, for the last three years she has been a member of Chi Omega Sorority where she has held several offices: Treasurer, Chapter Correspondent, Spirit Chairman, and Honor Pledge. Furthermore, her activities included Panhellenic where her offices included Vice-President, Greek Events, and Fraternal Relations Chairman; and Spelunkers Club and Lambda Sigma Pi Service Fraternity. Sheila has been a friend of Theta Xi fraternity, and has exhibited her extrovert personality, and has been a load of fun. The men of Theta Xi wish Sheila the very best and hope she will be selected the Queen of Homecoming.

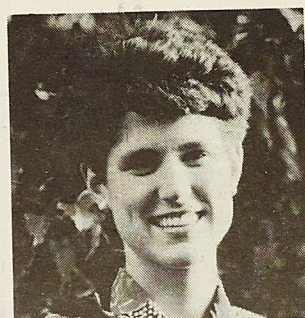

Julie Schroer - Sigma Chi

Julie Schroer, daughter of Joseph and Janet Schroer of Jefferson City, is a senior in Mechanical Engineering. Julie is an active member of Kappa Delta Sorority. She has served as their special events chairman, Homecoming chairman, and is currently secretary. Julie has been on the Panhellenic Council for three years, as well as the Alcohol Awareness Committee, Alpha Phi Omega, ASME, and other campus organizations. Last year she led Kappa Delta to first place in Sigma Chi's annual Derby Days. All the Sigs wish this beautiful young lady yet another victory on Homecoming.

Jody Luksich - Missouri Miner

The MISSOURI MINER is proud to present Jody Luksich as our Homecoming Queen candidate for 1992. Jody is the daughter of Jerold and Lynn Luksich. She is a senior in Civil Engineering. Jody is very active on campus as a member of Toastmasters, MISSOURI MINER, and the American Society of Civil Engineers. She is also a member of Chi Omega sorority where she has held several offices. We feel that Jody possesses all of the qualities necessary to represent UMR as their Homecoming Queen 1992. Good Luck Jody!!

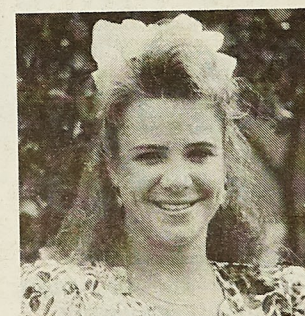

Suzanne Reeves - Chi Omega

Chi Omega proudly presents their 1992 Homecoming Queen candidate, Miss Suzanne Reeves, daughter of Dale and Shirley of St. Louis, MO. Suzanne is currently a senior majoring in Mechanical Engineering with minors in Communications and English. Suzanne stays very active on campus in such activities as ASME, marching and symphonic bands, APO, Blue Key, Tau Beta Sigma, as well as in Chi Omega. In Chi Omega she is currently serving as pledge trainer and has held other offices such as house manager. The ladies of Chi Omega feel that her involvement, leadership skills, academic achievements, and her outgoing, charming personality make her an excellent candidate. We wish her good luck in Homecoming 1992.

Melissa Ince - Kappa Mu Epsilon

Kappa Mu Epsilon, UMR's Mathematics Honor Fraternity, is proud to support Melissa Ince as our 1992 Homecoming Queen candidate. Melissa is the daughter of Charles and Linna Ince of St. Louis, Missouri. She is a senior in Geological Engineering with a cumulative GPA of 3.179, and has served KME as both secretary and president. In addition, she has been active in many other campus organizations including Student Council, Association of Engineering Geologist, Society of Women Engineers, American Society of Civil Engineers, Sigma Gamma Epsilon (pledge), and Friends of the Heart (past President). We believe that Melissa's exceptional leadership qualities, outgoing personality, and extensive campus involvement make her an excellent candidate for homecoming queen. We wish her, and all the queen candidates, the best of luck.

Angela Baer - Kappa Sigma

Kappa Sigma proudly presents Miss Angela Baer, daughter of Larry and Karen Baer of Creve Coeur, MO, as our 1992 Homecoming Queen candidate. Angela is Junior majoring in Engineering Management. She is very involved at Chi Omega, as well as many other organizations, such as ASEM, ASQC, Delta-Delta, IOPP, Lambda-Sigma-Pi, and Intercollegiate Knights. We feel that Angie's involvement, scholastic dedication, friendly personality, and good looks made her the ideal choice for Homecoming Queen 1992. The men of Kappa Sigma wish her the best luck!

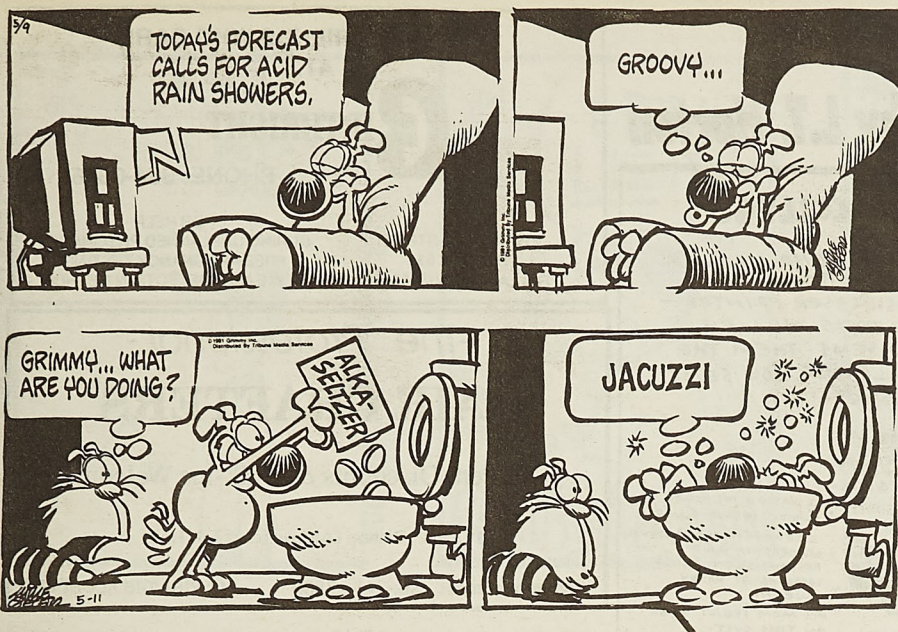

Carrie M. Stegner - Sigma

Stegner, Queen candidate, is a member of the co-chair Committee and a sophomore chemistry reading novels, softball, and pet in the Pep Band. for the past small town outside of home I have seven years read to him camping, Ozarks when I grew

Career opportunities available for minorities

James Hadley
SOURCE

Are you an academically talented minority student in your junior or senior year of college? Or in your first year of graduate or medical school? Are you interested in a career in biomedical research?

The National Institute of Allergy and Infectious Diseases (NIAID) in Bethesda, Md., offers the Introduction to Biomedical Research Program, which is designed specially to acquaint academically talented minority students with career opportunities in the broad field of biomedical research.

"This program offers minority students from across the country an in-depth and intense four-day introduction to NIAID-NIH," said Vincent A. Thomas, M.S.W., M.P.A., Program Director. "This initiative grew out of the Institute's concern about the underrepresentation of minorities in the scientific pool. Our goal is to increase the number of minority scientists."

NIAID, a component of the National Institutes of Health (NIH), focuses on investigations on the causes of allergic, immunologic and infectious diseases and development of better means to prevent, diagnose and treat these illnesses. In addition to researchers working in NIAID laboratories, NIAID supports scientists at U.S. universities, medical schools and research institutions to conduct scientific studies on various diseases, including AIDS, hay fever, hives, Lyme disease and sexually transmitted diseases.

Approximately 55 students will be selected for the Feb. 7 to 11, 1993, program. They will attend a series of lectures by NIH scientists, and will tour the renowned NIH Clinical Center, one of the world's largest research hospitals. They will have face-to-face discussions with scientists about current research initiatives and advances as well as career concerns. All participants will be provided with expenses and round-trip transportation to the Bethesda campus.

The students also will have the opportunity to apply for summer positions in the NIAID Division of Intramural Research. These jobs will provide an opportunity to further their knowledge and understanding of biomedical research, career paths and the types of positions available at NIH.

Applicants must have a 3.0 or better GPA, and must be recommended by the deans and faculty members of their schools. Selection is based on these recommendations and the students' personal and academic achievements.

For an application packet, contact NIAID at 9000 Rockville Pike, Building 31, Room 7A19, Bethesda, Md. 20892 or call (301) 496-4846. Applications also may be obtained from the college or university dean or representatives for NIH programs such as Minority Access to Research Careers and Minority Biomedical Research Symposium. The completed application packet must be received at NIAID from the dean or chairperson no later than Nov. 13, 1992. Applicants will be notified by letter about final selections of participants after Dec. 10, 1992.

"Chalking" up another drawing

News Services
SOURCE

Rolla, Mo. — As the last student and physics teacher trails out of Miles Auditorium, Ellen Pearce rushes in to wash the chalkboard. She is anxious to start her work.

For six years, Pearce, now a technology transfer coordinator at the University of Missouri-Rolla's Center for Technology Transfer and Economic Development, and Phillip Streamer, a graphic artists for the Missouri Department of Natural Resources, have given UMR Film Series goes an extra attraction: chalk drawings.

years," says Streamer. "And then they kind of caught us," he adds, extending his chalk-dusted hands.

Pearce and Streamer started the chalk drawings "on a whim." Over the years, the movie audiences grew accustomed to the drawings. "If we skipped a night, we'd hear about it indirectly," says Streamer.

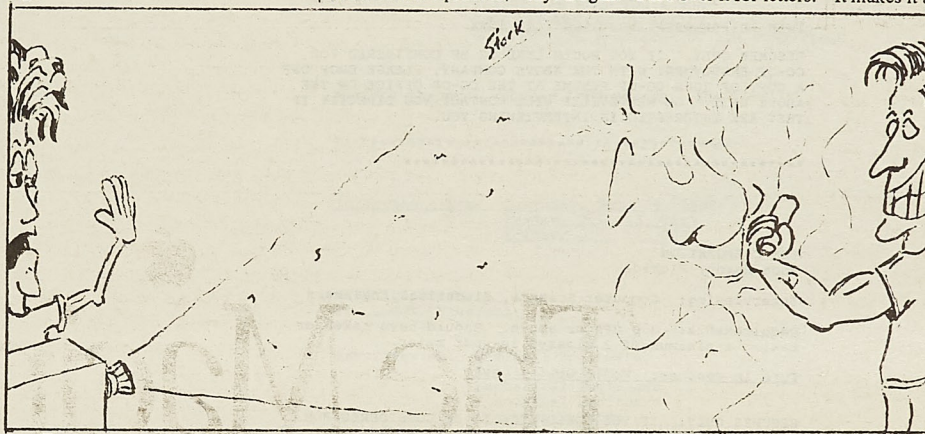

The transitory drawings were erased the following morning by professors or janitors. But Dr. James Bogan, UMR professor of art and director of the UMR Film Series, captured their work on film, set it to music and made the videotape "Chalk Up Another."

The video "allows you to be inside on the creative process," says Bogan.

"The Wizard of Oz" and features chalk drawings from other movies, including "Brazil," "Animal Crackers," "Love and Death," "Hair," "The Witness," and "The Misfits."

To prepare for the drawings, Streamer and Pearce research movies through movie reviews in the library. Occasionally they have a sketch of the chalk drawing but other times "we fly by the seat of our pants," says Pearce.

The drawings are done freehand, but sometimes lettering stencils are used. "I'll ink a variety of letter styles depending on what the film is," says Streamer. The stencils, ranging in size from two inches to 24 inches, act as carbon paper, allowing the artists to trace over it for letters. "It makes it a

Ten years ago, chalk drawings depicting the evening's feature began to mysteriously appear on the blackboard of Miles Auditorium in the UMR Mechanical Engineering Building. "We did it anonymously for two

"Chalk Up Another" premiered at the Film Series before the Sept. 15 showing of "The Player."

The video catches Pearce and Streamer working on a drawing for

lot easier," says Streamer.

Funds for the video were made available through the liberal arts research fund and the UMR philosophy and liberal arts department.

Kappa Delta celebrates 20 years

Kappa Delta
SOURCE

The Epsilon Alpha Chapter of Kappa Delta Sorority is celebrating its 20th anniversary on the University of Missouri - Rolla's campus. The celebration will take place Homecoming Weekend October 9-11, 1992. Epsilon Alpha is expecting at least two-

catch up on old times. On October 10, 1992, Kappa Deltas, collegians, and alumnae alike, will attend the UMR Miners Homecoming football game. Later in the evening a banquet and formal will be held. During the banquet Minnie Mae Prescott, a prestigious Kappa Delta and National Panhellenic Delegate, will speak. Plans for an addition to the main house will be revealed. October 11 will wrap up the 20th anniversary celebration

hundred alumnae and dates to be down for the occasion. Our alumnae are preparing a family tree of Epsilon Alpha's twenty year history as a gift to the chapter. October 9, 1992, alumnae and collegians will come together to

with many tearful goodbyes. Epsilon Alpha is looking forward to all the festivities with much enthusiasm and is extremely happy to be celebrating twenty years of excellence and strong sisterhood.

ZTA initiates new advisor, Mary Ann Koen

Zeta Tau Alpha
SOURCE

We, the ladies of the Eta Theta Chapter of Zeta Tau Alpha at the University of MO - Rolla are proud to announce that Mrs. Mary Ann Koen of Rolla, MO has just been initiated into our chapter. Mary Ann is a Basic

Engineering faculty member at UM_Rolla and will be serving as the Scholarship Advisor at Zeta during the 1992 fall semester.

Mary Ann was born in Cape Girardeau and has lived in such places as Chaffee, Missouri and Myrtle Beach, South Carolina. She attended school at Southeast Missouri State University and the University of Missouri, Rolla. She is now married to Mr. John Koen and has two children: Jenifer, grade

seven and Jared, grade two.

Besides instructing classes, Mary Ann is doing Ph.D. research on Intellectual Property Protection and Small High Tech Companies. In her spare time she likes quilting and furniture refinishing.

We, the ladies of Zeta Tau Alpha are looking forward to a productive semester with Mary Ann as an advisor. She will be a great asset and influence on our chapter.

Zeta Tau Alpha honored at Zeta Days

Zeta Tau Alpha
SOURCE

We, the ladies of the Eta Theta Chapter of Zeta Tau Alpha at the University of Missouri at Rolla, are proud to announce the many honors received

this past year at Zeta Days in St. Louis and at our National Convention in Atlanta. Zeta Days is a smaller convention for chapters in the same province; we were given awards for chapter organization, sisterhood, and most improved GPA. At National Convention, we received the financial excellence award, major donor award, and

the Crown Chapter Award. We have won the Crown Chapter Award, an extremely prestigious honor, the past 5 out of 6 years by meeting requirements in the areas of membership, finances, activities, programming, and fraternity operations. We are looking forward to another great year leading to more honors and awards.

Equipment funds available

Student Council SOURCE

According to Student Council bylaws, the purpose of the Equipment Fund is to enable organizations to make one-time purchases that would normally be beyond their budget resources. Any Student Council-recognized organization and student activity fee receiving organization are eligible to receive this funding.

Applications for Equipment Fund requests for the Fall Semester are available in the Student Council office. The deadline for Fall '92 requests is October 13.

Student Council will consider the requests at the general StuCo meeting

on October 20. Items and organizations funded by the StuCo Equipment Fund in the past include:

Radio Club-transceiver plus accessories
Society of Automotive Engineers-computer
Goldminers-uniforms
Trap & Skeet - trap gun, reloader, shooting vests, shell pouches, powder scale
Juggling Club-soft clubs
SUB-lighting truss, color filters, lamps, fixtures, frames, control board & dimmer
Cycling Club-freewheel remover, sprocket wrench, chain riveter

Green, Green, it seems like I can't get enough. Well, I know you have all been anticipating the arrival of '93 Green! It's HERE!! The new design is like nothing you have ever seen, it defies all reason, it defies all logic, it is the Best Ever! What did you expect! Buy it NOW! Get to the Puck as fast as you can!

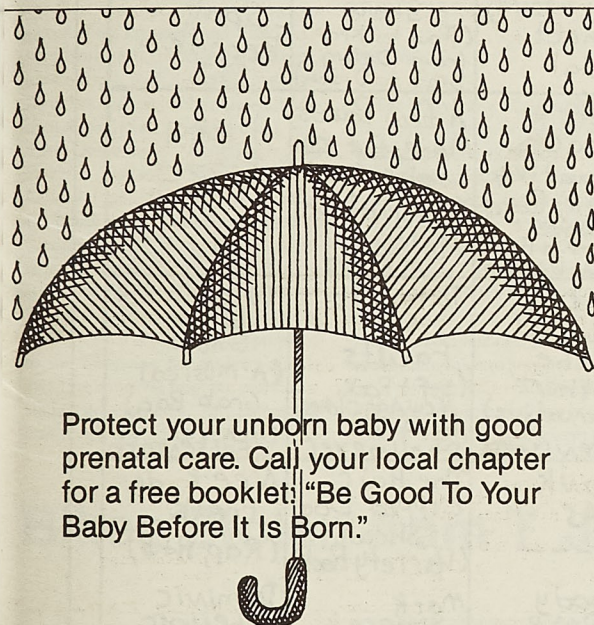

Now, we will get on to the real test. The St. Pat's Committee has taken on the IFC, to a match beyond wits, beyond the physical reality of anything but total DESTRUCTION in a monstrous game of Football. This year there will be only one!! No second place exists in this duel of might against mediocrity. This ultimate face-off takes place on the battlegrounds nearest Fraternity Row at 3:30 on the 11th day of October. If you don't support your favorite team, you suck! Its not the size of your players, its how you use them!

Onto bigger and better things. The Crop Walk was a success for all

the participating parties. The most outstanding of all the participants were Zeta Tau Alpha and Sigma Nu. Both of these organizations raised the most money per head and were able to motivate their members to have a great showing at this year's Crop Walk. They are out to an early lead and appear to be the organizations to beat. The Chi Omega's and Sigma Pi's took third. Thanks, to all the organizations that took part, you certainly have done your part to wipe out hunger.

If you are, or know someone interested in being a part of Team Green, let us know. You can find us every Thursday in room 107c ME Annex about 8:00. We hope to receive input from all you interested parties, or anyone with any concern about the St. Pat's Celebration. Especially for those interested parties, we will be holding an Open Forum on October 28th in the Missouri room of University Center East, around 7:00 p. m. Please, if you have any ideas, come and see us.

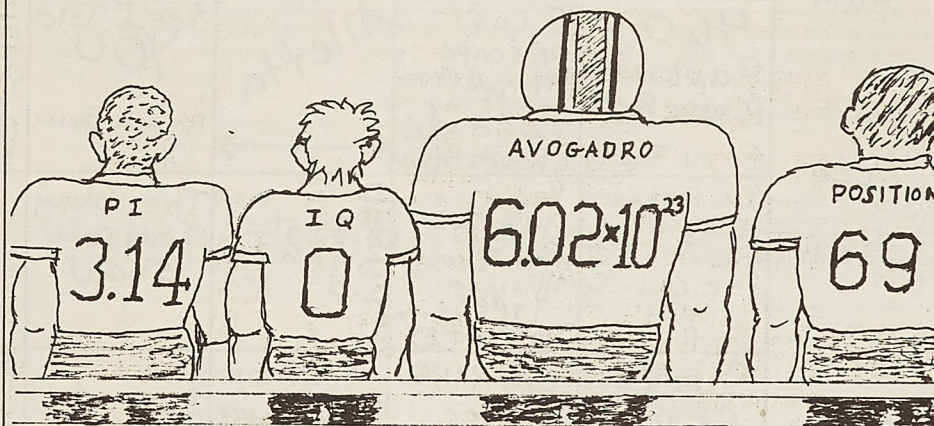

158 Daze 'til The Best Ever!

Protect your unborn baby with good prenatal care. Call your local chapter for a free booklet: "Be Good To Your Baby Before It Is Born."

China

essors say. One Chinese newspaper article Gelles read this summer said that using the word "markets" doesn't mean capitalism and added that China could remain a socialist country while engaging in free trade. "They're trying to do this and still keep the country a one-party, socialist system," says Gelles.

Because the students at Xi'an Petroleum Institute did not have a strong background in market economics, Gelles and Johnson taught the "bridge" courses of micro and macro economics through interpreters this summer. These courses allowed all students to start on the same educational level.

"These students were very intense and attentive in class," says Gelles. "I never saw them daydream."

The students enrolled in the courses are instructors at the institute. "Many of the instructors only have bachelor's degrees," says Johnson, while the professors have master's and doctoral degrees.

"The students recognized the significance of education to the economic development of China," Johnson says. A "tremendous population problem and a high unemployment rate" plagues the nation, he adds, and China is trying to expand its industrial base to overcome unemployment. But before industrial develop-

ment can come, Chinese workers must be better educated to control and operate modern technology, Johnson says.

The intensive economics lesson continues next year, with 30 credit hours of graduate courses remaining. But teachers other than Johnson and Gelles will be at the front of the classroom.

Johnson would like to see UMR's contact with the institute continue through degrees from UMR in English, geology and economics. He hopes the project will lead to an exchange of teachers and students between China and UMR.
