## Phelps County resident founds Chancellor Park appointed to Missouri Technology Corp.

### News Services SOURCE

Francis Carl Prewett Sr. wants to give Phelps County students an opportunity he didn't have — the chance to attend the University of Missouri-Rolla right out of high school. Prewett—who was 39 when he had saved enough money to attend UMR—and his wife Estelita recently donated \$90,000 to establish the Mr. and Mrs. Francis Carl Prewett Sr. Scholarship Fund.

Proceeds from the sale of family land made the scholarship fund possible. "I'm not a rich man," says the 71-year-old Prewett. "We went to the limit to make this donation. It was a real stretch, but I thought this was a good way for my family to give something back to the

people of Phelps County. We hope the young people of Phelps County will benefit." Beginning next fall, the scholarship fund will support two scholarships each semester for Phelps County students majoring in humanities and liberal arts at UMR. Recipients who maintain grade point averages of at least 2.0 may retain the scholarship for eight semesters. "The extremely generous gift by Mr. and Mrs. Prewett will greatly benefit UMR students from Phelps County," says Dr. John D. Fulton, dean of UMR's College of Arts and Sciences. In the past, the university has had "precious little scholarship money" for humanities and liberal arts majors, Fulton says. "The Prewetts' generosity serves to meet a real university need."

Prewett, who graduated from UMR in 1966 with a geology degree, chose to establish a scholarship fund for the humanities and liberal arts because "I believe that if a student really tries, he can

get through a liberal arts program, whereas math or science may be not be possible for everyone." Though Prewett made the contribution, he says the real contributors are his ancestors, who put their roots down in Phelps County in the early 1800s. Nearly all of his great-grandparents "lived within yelling distance of each other along Tick Creek [near Doolittle]," he says. His paternal grandparents, George G. and Sarah Prewett, lived on a farm on the Gasconade River; his maternal grandparents, Delmar and Emma Groover, lived a couple of miles west on the Little Piney River. Until their deaths, his parents, Monroe and Clara Prewett, lived on the family farmstead near Newburg, where Prewett and his wife live today. Prewett raises cattle and describes himself as a "hard-working farmer who loves the freedom of farm life." Mrs. Prewett works at the Phelps County Regional Medical Center.

Chancellor park was recently named to the Missouri Technology Corp. Board of Directors

### News Services SOURCE

Dr. John T. Park, chancellor of the University of Missouri-Rolla, was recently appointed to the Missouri Technology Corp. Board of Directors by Missouri Gov. Mel Carnahan. The corporation, authorized by House Bill 1248 of the 1994 legislative session, will work to strengthen the state's economy through the development of science and technology. "The members of the board will have a tremendous opportunity to en-

hance critical technologies for our state's businesses," Carnahan said.

Park has been UMR's chancellor since March 20, 1992. A member of the UMR physics faculty since 1964, Park has also served as vice chancellor for academic affairs at UMR. He holds a Ph.D. in physics from the University of Nebraska.

Park is one of nine board members appointed by the governor. Also on the board are Joe Driskill, the director of the Missouri Department of Economic Development; Dr. George Russell, president of the University of Missouri System; a member of the state Senate and a member of the state House of Representatives.

# What's Up at UMR

All organizational meeting times and places are provided by the Student Activity Center, UCW 218. Please send all changes to the aforementioned office.

## Wednesday

Intramural swimming and flag football entries due

10:00 am-12:30 pm: ASUM Voter Registration, Breezeway

11:30 am: BSU Prayer Lunch, Baptist Student Center

12:00 pm: UMR Booster Club meeting, noon, G&D Steakhouse, 1060 Highway 63 South. For more information call David Dearth at 341-4841 or the athletic department at 341-4175.

2:30 pm: Stucco Lawyer, Walnut

4:30 pm: Interview skills workshop, 201 Norwood

5:00 pm: UMR Women's soccer vs. Drury College, UMR Soccer Complex.

6:00 pm: Down to Earth Mtg., 211 McNutt

6:00 pm: Wesley-Breakaway, Wesley House

6:00 pm: Spelunkers Club Mtg., 204 McNutt

7:00 pm: UMR Men's soccer vs. Drury College, UMR Soccer Complex.

7:00 pm: AIChE Mtg., G-3 Schrenk

7:00 pm: ASCE Mtg., 114 CE

7:00 pm: Raiders mtg., 302 Harris

7:30 pm: SME Mtg., 204 McNutt

8:00 pm: Kappa Kappa Psi/Tau Beta Sigma Mtg., 206 McNutt

8:00 pm: Alpha Chi Sigma pledge mtg., 125 Chem E

8:00 pm: SUB presents Robert Hastings, UFO lecturer, 104 ME

8:30 pm: Tau Beta Sigma Mtg., 212 McNutt

## Thursday

9:00 am: Public radio station KUMR, 88.5 FM, presents "El Corazon Musical: Latin Music From the Heart" in honor of Hispanic Heritage Month

Wesley work project, Wesleyhouse

1:45 pm: Christian Science Mtg., Sunrise

4:00 pm: UMR Physics Colloquium, "Synchrotron Radiation Applied to Environmental Problems," presented by David Shah, Lawrence Berkeley Laboratory, Room 104 Physics Building. Refreshments served in front of the lecture hall. For more information call the UMR physics department at 341-4781.

6:00 pm: Christian Campus Fellowship Mtg., Mark Twain

6:30 pm: Alpha Phi Omega Mtg., 227 Fulton

6:30 pm: AUSA/SAME mtg., 302 Harris

6:30 pm: BSU Worship, Baptist Student Center

6:30 pm: SHPE mtg., 216 McNutt

7:30 pm: UMR "Rolla Night" at the Engineers' Club of St. Louis, 4359 Lindell Blvd. All prospective college students and parents are invited to attend. An informal reception will follow the program.

7:30 pm: Voices of Inspiration Mtg., 1st Assembly of God

7:30 pm: Solar Car Team Mtg., G-3 Basic

8:00 pm: Aikido Club Practice, 304 Rolla Bldg

8:00 pm: St. Pat's Committee Mtg., 107C ME Annex

8:00 pm: College Republicans Mtg., 117 CE

## Friday

1:30 pm: Muslim Student Assoc. Mtg.

3:00 pm: Trap and Skeet Club Mtg., 104B T2

4:00 pm: Gaming Assoc. Open Gaming Session, Chem E

5:30 pm: UMR Women's Soccer vs. Gardner-Webb College, at Edwardsville, IL.

7:00 pm: Show-Me Anime Mtg., 204 McNutt

7:00 pm: SUB Movie: A wedding in Galilee, 104 ME

9:00 pm: SUB Movie: A wedding in Galilee, 104 ME

## Saturday

UMR Men's and Women's Cross Country at Southwest Missouri State Invitational, Spfld, MO.

12:00 pm: UMR Men's Soccer vs. Columbia College, UMR Soccer Complex.

12:00 pm: Gaming Assoc. Open Gaming Session, Chem E

1:30 pm: UMR Football vs. Southwest Baptist University, at Bolivar, MO.

6:00 pm: UMR Women's Soccer vs. Lenoir-Rhyne college, at Edwardsville, IL.

7:00 pm: SUB Movie: A Wedding in Galilee, 104 ME

9:00 pm: SUB Movie: A Wedding in Galilee, 104 ME

## Sunday

Intramural flag football begins

10:30 am: Bahai Club Study Mtg., Walnut

6:00 pm: Wesley Dinner and Chapel, Wesley House

7:30 pm: Campus Crusade for Christ Mtg., Walnut

8:00 pm: KMR station meeting, 107C ME Annex

9:00 pm: Blue Sabres Mtg., 208 Harris

## Monday

12:00 pm: University Orators Chapter of Toastmasters International meets, Missouri room, University Center East. For more information call Omer Roberts at 364-1324.

3:30 pm: Christian Science Mtg., Sunrise

5:30 pm: Council of Graduate Students mtg., 125 Chem E

6:00 pm: Aikido mtg., 304 Rolla

6:30 pm: BSU Bible Study, Baptist Student Center

7:00 pm: Eta Kappa Nu help session, 213 EE

7:30 pm: Alcoholics Anonymous Open Mtg., Walnut

8:00 pm: Arnold Air Society mtg., 209 Harris

9:30 pm: Gamma Beta Sigma Mtg., 212 McNutt

## Tuesday

10:00 am-12:30 pm: ASUM voter registration, Puck

11:00 am-1:00 pm: SME Bratwurst Sales, Outside McNutt

3:30 pm: Christian Science Organ. Mtg., Sunrise

4:00 pm: Bahai Club "Welcome to Missouri" program, Mark Twain

4:30 pm: S-MSTA mtg., G-8 H-SS

6:30 pm: Introductory Council Mtg., 103 Engineering management

6:30 pm: IFC mtg., 206 McNutt

7:00 pm: UMR fall Film series, "Short Cuts," Miles Auditorium, ME Bldg. Individual tickets are \$3 and are available at the door.

8:00 pm: Aikido Club Practice, 304 Rolla Bldg.

## Next Wednesday

5:00 pm: UMR Women's Soccer vs. University of Missouri-St. Louis, at St. Louis.

7:30 pm: UMR Men's Soccer vs. University of Missouri-St. Louis, at St. Louis.

## Financial Aid

THE AIR FORCE IS STILL HIRING and has 2 and 3 year scholarships available through the Air Force Reserve Officer Training Corps (AFROTC) for qualified college students in selected engineering, science, and nontechnical majors. Scholarships cover most tuition and laboratory, textbook, and incidental fees plus a \$100 monthly allowance. If you are a freshman, sopho-

more, or junior and are interested in scholarship opportunities, please contact AFROTC in Harris Hall, room 206 or call 341-6541

Meramec Area Legal Aid Corporation (Legal Aid) will begin serving clients in a new area of the law. Legal Aid will provide an attorney free of charge to eligible clients for simple estate planning. Clients can now receive help with planning for the future.

Services to be provided include simple wills, powers of attorney, beneficiary deeds and documents known as "Living Wills". Legal Aid serves clients in a 12-county area of South Central Missouri. Persons who are requesting legal assistance in the area of simple estate planning or other areas may call 341-3655 or 1-800-999-0249 to apply for free legal services.

Students considering the continuation of their educational careers should look to the U.S. Department of Energy (DOE) for a helpful hand. Tens of thousands of dollars are available for students interested in pursuing master's or doctoral degrees in such areas as nuclear engineering, fusion energy, applied health physics, radioactive waste management, and industrial hygiene.

Graduate fellowship programs sponsored by DOE and administered by the Oak Ridge Institute for Science and Education provide full payment of tuition and fees, monthly stipends, and the opportunity to gain practical experience at DOE laboratory. Awards vary depending on the specific program and the degree being

pursued.

All programs require the submission of a fellowship application and completion of the Graduate Record Examination (GRE). Students must have received their undergraduate degrees in a science or engineering discipline by August 1995.

Selection is based on academic performance, recommendations, and a statement of career goals by the applicant.

Fellowship applications are being taken through Jan. 31, 1995, and awards will be announced in April 1995. For applications or additional information, contact Sandra Johnson or Marcia DeMarcus, ORISE Fellowship Programs, Oak Ridge Institute for Science and Education, Science/Engineering Education Division, P.O. Box 117, Oak Ridge, Tenn. 37831-0117, or call 1-800-569-7749. FAX-on-demand can be utilized by simply dialing (615) 483-7652 from any touch-tone phone. A recording will guide you through the call and will ask you to input your fax number. A copy of the specific program description/application form or program flier you requested will automatically be faxed to you.

The Oak Ridge Institute for Science and Education (ORISE) was established by the U.S. Department of Energy to undertake national and international programs in science and engineering education, training and management systems, energy and environment systems, and medical sciences. ORISE and its pro-

see AID, page 20

## Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday afternoon at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the Missouri Miner and may not be reproduced or published without written permission.

The Missouri Miner encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 5:30 p.m. on the Thursday before publication. Submissions, not including personals, will be accepted through E-mail (Internet) at MINER@UMR.EDU. The Missouri Miner reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The Missouri Miner is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

## Hancock II and You

If you have not heard about the Hancock II Amendment, now officially called Amendment 7, it is time to wake up. Amendment 7 is on the November 8 ballot, and if it passes the effects to students would be devastating. Some likely effects include doubling tuition, elimination of scholarship programs such as Bright Flight, and the removal of programs and majors at UMR.

To understand how this would happen and why Amendment 7 has a good chance of passing, one must first understand what Amendment 7 actually does and how advocates of the amendment are selling it.

The Hancock II Amendment (Amendment 7) is being sold to the people as an amendment that decreases taxes and gives people the right to vote on tax increases. What the proponents of Amendment 7 are not telling the public is that the original Hancock amendment passed in 1980 already gave people the right to vote on tax increases. It required all local taxes and fee increases to go before a popular vote. It also mandated that all state tax increases must go to a vote of the people unless the increases are below the tax cap established in 1980. If the tax cap was exceeded then the state would have to issue a refund.

Amendment 7 does not give the voters more power. It takes away their power by effectively repealing taxes that voters approved. In the original Hancock Amendment, if the people

voted to increase taxes, then that money would not be figured in the state limit on taxes. Amendment 7 would change things so that tax increases, approved by a vote of the people would be figured into the state limit. The likely result is that taxes such as Proposition C, which the voters already approved would have to be eliminated.

According to the ballot, the changes would cut \$1 billion to \$5 billion from the state budget. Tax cuts and limiting government are good, right? So why do so many people have a problem with Amendment 7? Well when you consider that the state revenues are approximately \$6.7 billion and federal funds to the state are \$3.13 billion, Amendment 7 takes on a new light.

The truth is that no one knows whether Amendment 7 will cause a cut of \$1 billion or \$5 billion. The wording of the amendment is unclear and the amount of the cut depends entirely on the courts. A margin of error of \$4 billion dollars in an amendment seems reasonable—we cannot expect the politicians to have accurate figures. Besides, a tax cut is a tax cut whether it is \$1 billion or \$5 billion, right? Voters do not really need to know how much it will be! At least, that is what the proponents of Hancock II would like you to think.

Not only does Amendment 7 leave a margin of error of \$4 billion, but it also does not cut the state budget evenly. Entitlement programs like

welfare and Medicaid are protected by federal law and will not be cut at all, but will continue to grow. Amendment 7 does not even attempt to cut welfare, it cuts education, prisons and highway construction.

Because of this there has been a bipartisan effort against Amendment 7. Resolutions against the amendment have been passed by over 100 school districts and city councils, the Missouri Chamber of Commerce, Missourians for Higher Education, and the Board of Curators of the University of Missouri. The reason the Board of Curators took such a strong stance is that they realize the impact Amendment 7 will have on the University of Missouri.

Based on the estimate of a \$1 billion cut in the state budget, if cuts were made evenly then during the first year, UMR's budget would be reduced 32%. Chancellor Kiesler in Columbia has already announced that this would result in a 120% tuition increase. Similar increases would be expected at UMR.

The most drastic effect on UMR students would likely be felt from cuts in the Bright Flight Scholarship program and Missouri Grants. These two programs are not entitlements, and they must come from discretionary money in the state budget. If Amendment 7 passes, most people think this discretionary money will be gone—and the Bright Flight scholarships will

go with it.

So the point has been made that this would be devastating to students at UMR. Many people think that it is not right to vote against this amendment just because it hurts them individually. There are still some who think that this amendment would be a good thing because it decreases taxes.

Although Republicans are generally for tax decreases, many Republicans have come out against Amendment 7 because they do not see it as a Republican attempt to limit government, they see it as a Libertarian attempt to paralyze government. It is no surprise to find that some of Mel Hancock's largest contributors were Libertarians. In fact, a lawsuit was filed by Republican Peter Herschend to test whether Amendment 7 should be legally on the ballot since it was certified by a margin of 33 signatures.

Not even considering the cuts in the state budget, there is another part of Amendment 7 that would also paralyze the government. There is a line in the amendment that specifies that any citizen who feels like Amendment 7 was violated can sue the state, and while that suit is in court, all funds involved will be held in escrow. So even if the lawsuit had no validity, a citizen could sue the state, and immediately the state would lose part of its budget until the suit was over. Sounds like a good way to have no taxes at all.

Now there will still be some people

who say that all this is all over exaggerated and there is really not much to worry about. They say that the cut will attract more businesses. In many cases, if the tax cuts are made in the right manner, this is true. But history shows that a cut similar to Amendment 7 will do the opposite.

The best way to know what will happen to Missouri is to look at what happened to California after they passed an amendment similar to Amendment 7. In a ten-year period following the amendment's passage, the tuition at the University of California went up over 450%. In the period since 1990, while there were 900,000 new jobs created across the US, California lost 600,000 jobs.

To avoid a similar fate for the University of Missouri, the campus community can do several things. First, everyone should register to vote either at a voter registration booth or by contacting the Student Council or ASUM office (the deadline is October 12). Another thing that students can do is to talk to their relatives and friends about Amendment 7 and write their hometown newspapers.

This is not a time for apathy. This is a time to take a stand. If we do not stand up for education now, we will all pay the price later.

Andrew Sears, President  
UMR Student Council

### Free Tutoring!

The Freshman Arts and Sciences Program offers free tutoring to improve your grades in Arts and Sciences courses. Although funds are limited, tutors are currently available for:

Chemistry 1,3, & 5  
History 111, 112, 175, & 176  
Economics 121 & 122  
Math 2, 4, 6, 8, 21, & 22  
Philosophy 5 & 15  
Physics 21, 22 & 23  
Political Science 90  
Life Sciences 110  
French, German, Spanish, Russian 1, 2, & 80  
Statistics 115 & 215

For information call 341-4863 or come by G-7A H/SS.

### Nix The Nudes

Is there anyway to get rid of the obnoxious picture of the deformed naked man and woman in the Humanities Social Science building? Have you ever taken a good look at it (Why would you)? This picture exploits the human sexuality of females as well as men. I find it very distasteful and unattractive to have a deformed naked man and woman in a picture that a have to walk past almost every day. I don't believe that this picture represents what a respectful university should be. I have had several other people mention the same thing to me. I have been meaning to do something about it for some time but didn't know how to go about it. I would like to hear what my fellow miners of UMR have to say about this picture.

### YOUR SCIENCE OR ENGINEERING DEGREE GETS A TECHNOLOGICAL EDGE WITH AIR FORCE ROTC.

When you graduate, you can move your scientific or engineering career into the realm of lasers, satellites... a whole range of different technologies that your peers will never see.

First step: Air Force ROTC - a bright idea for sharp-minded college students.

You may qualify for two- through four-year scholarships that go a long way toward covering the costs of higher education. Plus, you'll receive \$100 each academic month for living expenses.

And when you graduate, your commission as an Air Force officer means you can take your professional degree into an environment like no other in the world - with technologies brought to bear on the most important job in the world: national defense.

If your mind is on science or engineering, give some serious thought to Air Force ROTC, now. Call 341-4925

## The Life and Times... *The Wizard Returns*

Greetings, one and all! 'Tis I, the Great Wizard of Rolla, here once again to bring joy, happiness, and the hope-that-you-still-have-a-ways-to-go-before-losing-your-mind-completely to all of you poor deprived souls in this little town that I seem to be reigning over quite nicely. Before going any further, however, I'd like to apologize for making my first appearance so late in the semester, but, well, I have been having a bit of trouble with the local dry cleaners. You see, I had taken my favorite purple robe --the one with lots of those little gold stars that glow in the dark and change colors when the temperature changes; my magic pet bluebird, Pepe, really likes that one-- to be cleaned. When the oh-too-friendly cleaner personnel gave me my ticket stub, I stuck it in my hat for safe-keeping. Well, in the meantime and to supplement my wizardly salary (we don't get paid as much as you would think for someone who could easily turn his boss into a llama), I performed at a children's birthday party, and in pulling a cute little rabbit out of my hat, the silly hare ate the ticket stub. (He also tried nibbling my trusty magic wand, so if I seem a little out of it today, realize that I'm working with a loaner, here.) I ask you, is there a shortage of carrots or something? Now, while the children enjoyed this little addition to my show quite a bit, I had the damndest time convincing the clean-

ers to give me my robe back without my ticket stub. You would think that they'd have a little more respect for someone who can not only conjure up dragons but could send a whole flock of moths to gobble up their little establishment. Oh, well. Such is the life of a celebrity, I suppose. Anyway, I just want you to know that I have not abandoned my flock.

Anyway, dear old Pepe has been fluttering around your campus for the past few weeks to make sure all is going well. And, per usual, it is not. Technically, though, I suppose that's normal, which I think is awfully sad. You all work and work and work and work (and without magic wands, even!) until all of your little grey matter is crowded up with funny looking signs and symbols and Greek letters and specific heats and thermal expansion coefficients and maximum shear stress formulas and derivatives (don't you ever feel sorry for partial derivatives, never being good enough to be a full derivative, even though they've never hurt anything except an occasional g.p.a. or two? It's gotta' do bad things to their self-esteem!) and gear ratios and universal gas constants and exactly how fast a person will fall if they were pushed out of an airplane while strapped into a shiny red convertible like in that new movie Terminal Velocity (and boy is my Grammar-Check going to beep at me for this sentence). It pains me so to see you all struggling and studying and wasting those forma-

tive young adult years with your head, not in the sand, but in a Thermo book. (By the way, is it legal to give a test in Thermodynamics when the weather is icky and your house is only 64 degrees Fahrenheit? There is something to be said for the free heat and utilities in the residence halls.) Therefore, I have decided to take it upon myself to help you through your dark valleys and clouded study sessions. I've poured through my Wizards Guide to Spells and Stuff book (order now and you'll also receive a free set of magic Ginsu knives that slice, dice, and scale dragons like you've never seen before!) and have come up with a way to make you all study more efficiently and have time left over to bake cookies. Just follow this simple recipe and all your problems will be solved. Take one giant newt wing and mash well. Add 4 cups of bamboo shoots, 3 cups of olive oil, and 6 teaspoons of paprika. Now, in a separate dish, mix 3 yellow lily livers with yesterday's leftover bologna and half a bowl of Frosted Flakes (not the generic kind, please). Stir this mixture carefully into the first bowl and set aside. Now, buy a plane ticket to Djibouti (look it up) and find 4 ancient wingless Djibouti Bugs. (You'll know them when you see them.) Now, take the whole recipe to a local park and burn it.

see Life, page 6

Charles Janson

## Ask Me Anything, the column that answers your questions

My Fellow Students,

Greetings, salutations, and the like! I have real news for you this week!

Have you been wondering what's going on behind the Mechanical Engineering Building and Annex? Well, Eric X has, and I've got the answer:

The University is installing elevator towers on the outside, and making modifications to the restrooms inside both buildings, as part of the University's efforts to come into compliance with the Americans With Disabilities Act. Currently, the foundation work for the towers is being done in the parking lot behind the buildings. As this is finished up, the lot will be re-opened to parking and pedestrian traffic. According to John Johnson at Physical Facilities, the only delay in the opening of the towers could come if the elevator manufacturer is unable to deliver the elevators as scheduled. The elevators are expected to be operational by the beginning of the coming Winter Semester.

This is part of a larger, multi-building compliance effort on campus funded by matching funds between

Campus Services and the State of Missouri. After the foundation work is completed at Mechanical Engineering, work will immediately begin at Parker Hall and the Basic Engineering Building. Both of these shafts will be inside the buildings. Mr. Johnson noted a particular difficulty with Basic Engineering - the building is three stories tall, but has six levels that need servicing. Once those projects are under way, external elevator tower construction will be started on Harris Hall.

Other construction projects around campus include the demolition of the old cafeteria (near Harris Hall) and the installation of natural gas lines near the north part of the campus. As of yet, there are no definite plans for the cafeteria site, but a decision will come shortly after the building is razed. Rolla Municipal Utilities is in the process of laying natural gas lines as part of their effort to bring natural gas into the city. Mr. Johnson noted that this is not a University project and the associated traffic congestion is unfortunate but temporary.

So, I hope this answers the question. My thanks to Eric X for his

question, and to Mr. Johnson for his assistance.

Now, on to the other business at hand...

I told you that I was going to get on that electronic superhighway, and, well, now I'm on it!!! I went over to see the good folks over at the Math and Computer Science Building, and they were most helpful in my endeavors. I strongly recommend to anyone that has not opened their e-mail account to do so immediately! It doesn't take too much time, and it only hurts a little at first.

There's all kinds of fun stuff in there just waiting to be accessed. In fact, it's a HOOT!!! I spent a whole afternoon over there just seeing what I could do: going here and there, doing this and that, mailing, receiving, etc. So, if you've got some free time or just feel like it's time for one of those ever-popular self-improvement activities, head on over and get on the information superhighway. You won't regret it, I promise. By the way, my e-mail address is: janson@umr.edu. So send me your questions, there's no excuse for you not to now.

## St. Pat's sweatshirt design is now a reality

Ryan Fisher  
Staff Writer

The St. Pat's Committee would like to congratulate the winners of our 1995 Sweatshirt Design Contest. Matt Clark of Alpha Epsilon Pi recieved \$100 for submitting the winning entry, which will be used as the 87th Annual St. Pat's sweatshirt design. Mike

Neuner of Phi Kappa Theta recieved a second place prize of \$50, and Jeff Erker of Sigma Nu recieved a third place prize of \$25. Along with congratulating these winners, we would also like to thank everyone who showed their St. Pat's spirit by entering this year's contest.

Also don't forget to be working on ideas for your "famous firsts" float entry, because the sign up for the 87th Annual Parade is only a couple of weeks away, and of course the Best Ever is only 169 DAZE AWAY!!!!!!

## SUBConscious

The SUB movie this weekend is Wedding in Galilee, in Hebrew and Arabic with English subtitles. This film about the Israeli-Arab conflict, is the winner of the International Critics' Award.

UFO Lecturer Robert Hastings will be here on Wednesday, September 28 at 8pm in ME 104. "UFOs - the Hidden History" draws together Mr. Hastings' work and the findings of numerous other researchers and presents facts and documented information once hidden in the secret files of the CIA, FBI, U.S. air Force, and Defense Intelligence Agency about what has been kept secret about UFOs and why. If you think we are alone in the universe, or if you think we are not alone, you won't want to miss this exciting presentation.

It's time for everyone to get excited about Homecoming 1994, which is the week of October 3 - 8. This year's theme is Hollywood Homecoming. Comedian Sam Griesbaum will be here Monday, October 3 at 7pm on the Puck to kick off Homecoming week. He will also be introducing the 1994 Homecoming Queen Candidates before his performance. There will be Homecoming Games each day during Homecoming week at the Puck. Come by between classes and watch your friends Jello Wrestle, do Impersonations, and do the Bellyflop.

There will be a FREE!!! ICE CREAM Social, Friday, October 7, at 12:30pm at the Puck. So come by and get some free ice cream served by the Homecoming Queen Candidates.

## Do You Need a Job?

Toastmasters  
SOURCE

Most students at UMR would like to land a good job when they graduate, but do not have all their skills honed for a job. Employers look for people who can communicate and interact well with other people. One of the best ways to impress future employers is through a good interview, and the key to a good interview is confident speaking. So how does one become an effective speaker? Practice speaking!

The best opportunity you'll have to practice speaking is by joining the UMR chapter of Toastmasters International. Toastmasters promotes the development of good speaking, listening, and evaluating skills. If these are skills you would like to improve then come check out one of our club meetings and

learn more about Toastmasters. We have meetings every Thursday at 6:00p.m. We normally meet in the

Missouri room on the 2nd floor of UC-East, but our alternative meeting place is McNutt 210.

Toastmasters is here to help you, but you have to take the first step. Come to one of our meetings and see what we have to offer. For further information or questions, contact Mike Tierany at 368-5320.

# The new and improved Miner music review

daryl andershock  
Staff Writer

At a time when the music industry hasn't been able to produce icons to herd the sheepishly inclined, just when Little Miss Muffet sat on her tuffet eating her Saturday Morning mouthfuls of lies, along came Marilyn Manson... The harvest of thrown away kids, America is now afraid to reap what it has sown.

Gruesome, free spoken, free spirited, self-proclaimed hypocrites, liars, and just generally people not to be trusted, Marilyn Manson has manifested themselves into what proves to be the most powerful media in the world - music, and they do have something to say. They have been the opening act on this last leg of Nine Inch Nails' "Downward Spiral" tour, promoting their debut album "Portrait of an American Family."

Their September 16th show in Springfield, along with NIN and the Jim Rose Circus, was simply incredible. This was the second time that I have seen this show (the first time was in St. Louis at the Fox Theater & the audience made it kind of lame), and was thoroughly impressed this time. The atmosphere was so charged, I mean REALLY amped - hell, people were moshin' to the pre-concert music! Body surfin' and a bloody mosh pit for five hours...who could ask for anything more!

I remember talking to some people on the SUB concert committee last semester about who they were going to get to play for St. Pat's weekend, and the name Nine Inch Nails came up. But it went right back down because they said that they didn't have enough money for the insurance!!

Well, I got to interview Marilyn Manson and Madonna Wayne Gacy (keyboards) before the show. I was accompanied by my friend Jeff Groby who is a graduate student in the Department of Social Psychology at SIUE. Here's what happened before the police were called:

## So first of all, why the name?

Well we come from an age of television where I watched too many talk shows, too much True Crime. I was looking back in time and two names that stood out to me were Marilyn Monroe and Charles Manson. Both people were apotheized by the media and both were so completely different that they became a perfect match - Marilyn Manson.

You guys are the first band that Trent Reznor has produced on his private label NOTHING. Tell me about that, and how did you meet Trent.

Trent Reznor from Nine Inch Nails

I met Trent in Florida. We just kept running into each other and I believe that things happen for a reason. Maybe fate. I also believe in Social Darwinism. You know, natural selection. We had talked about putting something together and he called me when he got NOTHING together, so we did an album.

How much time did you spend in the studio getting "Portrait" completed, and where was it recorded?

It took 7 weeks to finish. We recorded some in L.A., some at Pig, some in Florida...just everywhere.

Your band has been at the top of the South Florida music scene for quite awhile. How did you adjust to doing the big venues from the small clubs?

There isn't really much difference. The clubs are better, though. I remember one club [in South Florida] where we were playing, and there was this cop at the front door. I was getting blown on stage and kept taunting this cop to come do something but he wouldn't! (Manson says with a smile!). When we get done with this tour, we are probably going to do a club tour. Maybe we'll go out with the Jim Rose Circus.

I read an article where you were called an updated version of Alice Cooper. How do you feel about that?

It sucks that you can't be yourself anymore. They probably said that because of my hair.

What do you think of Beavis and Butthead?

(Laughing) I wish they would watch our video and commit suicide!

Tell me about the phone call at the end of the song "Misery Machine."

(On the "Portrait" CD) Some lady called our hotline saying that she was going to call her attorney if we didn't take her son off our mailing list. She called around two or three years ago. I like to take phone calls off our hotline and sample them into our music!

(Manson to Jeff) So are you with the newspaper too?

(Jeff) No. I'm a psychologist from Southern Illinois University.

Ohh, yeah. Are you the same one who called our hotline this summer?

Yeah, that was me...

I take that as a total compliment, that you listen to our music and dig what it is we are doing.

Yeah, I plan on using some soundbites from your album in my social psychology class next semester.

Cool. I have a soundbite for you. "It is better to be used than be useless..." I like that. A lot. How do you feel about security guards at concerts?

Oh, I try to use them in the show at every venue!

(Note: Manson hocked loogies on every security guard in spitting distance at the show. It didn't take too long until all the guards went and got bandannas to wear on their heads!!)

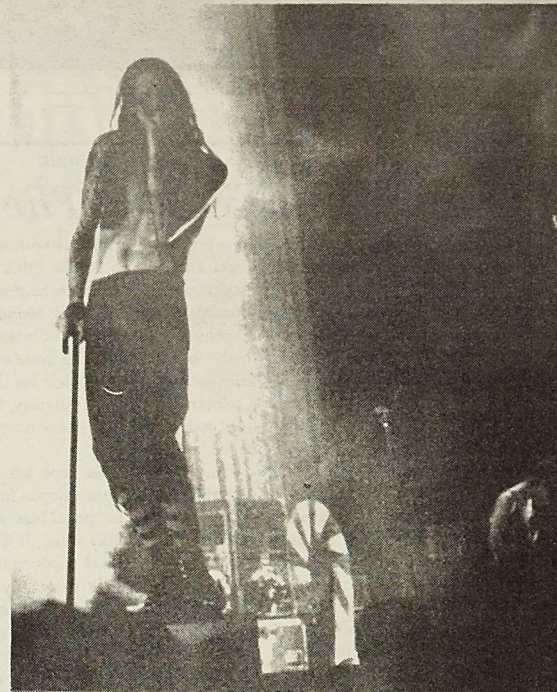

Is there something backwards to listen to on "Revelation #9?" (Their first EP)

(Both Madonna and Manson laughing) Hell, you can listen to the whole fucking thing backwards!

How long do we have to wait for some new stuff from you guys?

We are going to do a video on Monday for the song "Lunchbox." Richard Kern is going to be the photographer. We also have a new CD coming out in October called "Lunchbox." We even do a cover of Gary Newmans' "Down in the Park." We might have an EP out soon, but that is TOP SECRET information!!!!

Okay, okay, so the cops weren't really called, but you made it to the end - you should congratulate yourselves! Marilyn Manson (besides not being politically correct!) are: Mr. Manson (vocals/both forward and backward/child manipulation loops), Daisy Berkowitz (guitars/noise/feedback), Twiggy Ramirez (bass/fuzz bass), Madonna Wayne Gacy (Hammond B3 Organ/theremin/calliope/samples/

Marilyn Manson

loops), and Sara Lee Lucas (drums/baked goods).

As always, your questions, comments, or any slanderous remarks via e-mail are strongly encouraged! My

address is [shock@umr.edu](mailto:shock@umr.edu). Next week we're back to CD reviews. Looks like we get to do the new Public Enemy, Jesus and Mary Chain, and much much more. Until then - peace.

## Library Book Sale to Be Held

Homecoming weekend, Friday, October 7 and Saturday, October 8 is the date set for the UMR library's fourth annual book sale.

A variety of works will be available, including fiction, poetry, history, politics, reference works, as well as technical and science books and textbooks. Hardbacks and paperbacks will be on sale, as well as some magazines. Most hardbacks will sell for \$1.00, with some selected titles priced higher. Most paperbacks will sell for \$.50 and some for \$.25.

Sale hours are Friday, October 7, from 9 a.m. to 6 p.m. and Saturday, October 8, from 10:00 a.m. to 4:00 p.m. The sale is open to the public as well as to the UMR community.

Proceeds from the book sale will be used to purchase books and materials of general interest for the library collection.

Donations to the book sale will be gladly accepted. For information about donations or the sale, call Janet McKean at the library (341-4007) or e-mail: [jmckean@umr.edu](mailto:jmckean@umr.edu).

## Life

from page 5

roasting marshmallows over it to keep you occupied while it's burning. Dance the Hokey Pokey 3 times around the fire while wishing upon a star and singing "There's no place like Rome" to the tune of "Mary Had a Little Lamb." After this, your cure is guaranteed.

Folks, that's it for this week. For this little antidote, there's no need to thank me; it's just my job 5 days a week. Until next time, then, take care, be good, stay off the streets, and always be wary when handling Djibouti Bugs.

## Thank You!!

The first Student Council and American Red Cross Blood drive this semester was held last Wednesday and Thursday. At the blood drive, 216 units of blood were collected. THANK YOU to everyone who came and donated or tried to donate. Thank you also to the organizations which helped by supplying workers, especially APO, IK, GAD, Pi Kappa Alpha, St. Pats, and to those who came and worked. Thanks are also in order to Marriot Foods, McDonald's, Alex's Pizza Palace, Domino's Pizza, Imo's Pizza, Little Caesar's Pizza, Get Ready -- The Next Blood drive is December 7th and 8th!!

## ATTENTION STUDENT GROUPS/CLUBS/ORGANIZATIONS:

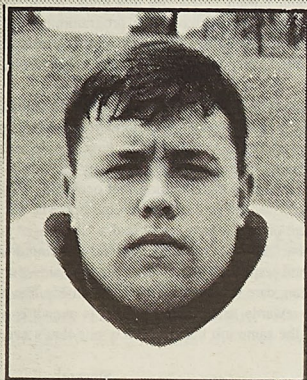

LET THE REST OF CAMPUS AND/OR YOUR MEMBERS KNOW WHAT'S GOING ON. HAVE IT PRINTED IN THE MINER FOR FREE! JUST LET ME KNOW BY 3:30pm THE WEDNESDAY BEFORE YOUR ACTIVITY TO INSURE IT GETS OUT. YOU CAN DROP A NOTE IN THE FEATURES BOX IN 103 NORWOOD HALL, OR LEAVE A MESSAGE ON MY e-mail: [janson@umr.edu](mailto:janson@umr.edu)

# Sports

## MIAA Football Defensive Player of the Week

### and M-Club Athlete of the Week

Jerry Wallock, DT, University of Missouri - Rolla

Wallock, a 6-2, 273-pound senior from Bolingbrook, Ill., recorded eight tackles (five solos), three tackles for loss, a forced fumble, a fumble recovery which set up a touchdown, and a quarterback sack for a safety in the Miners' 19-0 win over Washburn.

Wallock's efforts helped UMR record its first shutout against a conference opponent since the 1988 season, when the Miners blanked Lincoln 27-0 on Oct. 29.

A first team All-Conference selection last year, Wallock is a key factor in the Miners' impressive 3-1 record. Wallock is currently majoring in Engineering Management at UMR. Keep up the good work Waldo.

## The Not Too Biased Blues Report

Eric Husman

Sports Staff Writer

The St. Louis Blues preseason was exceptional, not only leading in the Central division but the whole league in total points. The Blues have scored more goals (31) than any other team except the Washington Capitals who have netted 32. This is a good sign considering Brett Hull hasn't played because of his virus and Brendan Shanahan has no goals with limited playing time. As of right now the Blues division is as follows:

CENTRAL	W	L	T	Pts	GF	GA
Blues	4	1	3	11	31	19
Dallas	3	1	3	9	23	17
Toronto	4	3	1	9	24	29
Detroit	3	2	2	8	27	22
Winnipeg	2	1	1	5	12	15
Chicago	1	3	1	3	13	17

The most satisfying aspect of this division is not the Blues being atop but the Chicago Blackhawks at the bottom. It's time for Eddy Belfour to retire, he always chokes in the playoffs anyway.

The Blues are playing this well without their coach Iron - Mike whose 60-day suspension ended Saturday September 24. The Blues have one more preseason game Monday against

Winnipeg. This will be coach Keenan's first look at the Blues from the Bench. After that game, Keenan and his staff will have to decide who to keep and who to leave unprotected. My predictions on who will be given the big cut is Russian Vitali Karamnov, defenseman Tom Tilley, and veterans Basil "I'm to old to check" McRae and Peter "I'm not near worth what the Blues are paying me" Stastny. Kelly Chase could go as well, but I see Keenan keeping him around for at least another year. At least one of the Russians are starting to come around. Vitali Prokhorov is off to the best start on the Blues with ten points in eight games. Al MacInnis is also out to a great start leading the Blues with four goals. The Blues preseason stats:

	G	A	Pts
Prokhorov	2	8	10
Felsner	2	4	6
MacInnis	4	1	5
ILaperriere	2	3	5
Chasse	4	0	4
Johnson	1	3	4
Korolev	3	0	3
Carbonneau	2	1	3
Lidster	2	1	3
Miller	2	1	3
Karamnov	1	2	3
Janney	1	2	3

Parks	0	3	3
Twist	2	0	2
Duchesne	1	1	2
Shanahan	0	2	2
Stastny	0	2	2
Houlder	1	0	1
Zombo	0	1	1
Tikkanen	0	1	1
McRae	0	1	1
Baron	0	1	1
D.Laperriere	1	0	1

Goaltending	Min	GA	AVG.
Casey	151	4	1.59
Joseph	184	7	2.28
Sarjeant	155	7	2.71

The Blues preseason will open up the first week of October. This should prove to be an exciting year for Blues fans, whereas, Chicago fans might find themselves loving the Blues by the end of the season. Chicago fans, don't sing the Blues, join the Blues. The only down side to this season is the fact that there might not be a season at all. Commissioner Gary Bettman might force the players to lockout. It boils down to those famous words "salary cap". Remember you can always watch the Phoenix Cardinals, that should cheer any St. Louisan up.

## Sweet Revenge for Lady Miners

Angela Passanise  
Staff Writer

Congratulations to the now 7-1 Lady Miners Soccer Team. The Lady Miners are performing well this season and will most likely be ranked regionally in the coming week. This past week the girls stomped on Rockhurst but left Edwardsville (SIUE) with an upsetting loss. On Tuesday the Lady Miners lost 2-1 after playing into overtime. Natalie Sanders scored with Amber Fischer's assist leading UMR into overtime. However in the last seven minutes SIUE put the ball in the net leaving the Lady Miners upset.

The Lady Miners hosted their first home game by sticking it to Rockhurst winning 2-1. In the first five minutes of the game Rockhurst scored, this caused the girls to wake up and work harder. Within the next ten minutes, Natalie Sanders knocked the ball into the net. Then with only seven minutes left in the game Crissie Eckhoff was taken down near the 18 yard line. UMR was given a free kick, and Natalie Sanders

scored putting the Lady Miners over the top. This game reflected the weather (muddy and wet). The game was a bit sloppy because of these aspects; however, the girls still pulled it off. Coach Swanbeck said, "I knew that everyone would have to step up and play to their potential to win. I knew this would be a tough game after losing to Rockhurst 2-1 in the previous year." Rachel Lewis made great saves in the chaos of the rain. Zachlyn Thompson played excellent on defense even after having knee surgery only six months ago, and Stephanie Ingalls really kept the girls alive by never giving up and by giving 110 percent.

The Lady Miners will host their second home game on Wednesday, September 28. They will play Drury College, and UMR will be playing for revenge. The Lady Miners lost last year to Drury so it is expected to be an exciting and challenging game. Come out and support our team. Coach Swanbeck would also like to thank all those who played to watch in the cold and rainy weather on Saturday. He believes that the fans help to keep the Lady Miners working hard.

## Washington Ends Miami's Win Streak

Chris Reiter  
Sports Staff Writer

Before the Washington Huskies came to the Orange Bowl, Miami had won 58 home games in a row. Miami was quite confident that number 59 was in the bag. One might even say they were a bit cocky --what's new!! The game was close until the third quarter when Miami turned over the ball in their own territory. Washington took the opportunity and that's all she wrote. Washington won 38-20. I'm sure there are a lot of disappointed Hurricane fans out there, but hey, Florida State was gonna beat them at home this year anyway- why prolong the suffering.

Michigan's dream season turned out to be nothing but a dream. Colorado turned the table on the Wolverines by winning the game with no time left. For those who don't remember, Michigan kicked a 42 yard field goal with just seconds remaining to defeat Notre Dame. Colorado completely outplayed

Michigan in the first half and went in to the locker room ahead 10-3. Once the second half rolled around (and the University of Michigan band was finished playing that stupid fight song), Michigan running back Tim Biakabataka proved that he is more worthy of receiving the Heisman than any other Wolverine. He outshined and outplayed Tyrone Wheatly, Michigan's running back and Heisman wannabe. But great performances by either chumps, or should I say players, wouldn't have changed the final play. With the ball on the Colorado 40 yard line and no time left, a hail mary bomb was thrown into the endzone. Need I say more? How about this.... Colorado fans Yeah! Michigan fans @#!\*&, Notre Dame fans &\*@!# Michigan!

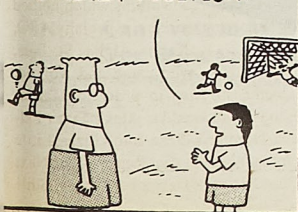

Speaking of Notre Dame, they managed to stomp a tough Purdue team 39-21. Even without Lee Becton, who had stomach problems--no guts, the Irish still rushed for more than 400 yards. Nebraska pounced Pacific--Does anybody know where that is?--by the score of 70-21. For those who

question me, Nebraska WILL win the Big Eight. Auburn remained undefeated by shutting out East Tennessee 38-0. Ohio State dotted the i with a 52-0 thrashing and Penn State continued to terrorize their opponents with a 55-27 drubbing of Rutgers.

### Reiter's Top Twenty

1. Florida (3-0)
2. Nebraska (4-0)
3. Florida State (4-0)
4. Penn State (4-0)
5. Colorado (3-0)
6. Michigan (2-1)
7. Notre Dame (3-1)
8. Auburn (4-0)
9. Arizona (3-0)
10. Texas A&M (3-0)
11. Alabama (4-0)
12. Miami (2-1)
13. Southern Cal (2-1)
14. Ohio State (3-1)
15. Oklahoma (3-1)
16. Texas (3-0)
17. Wisconsin (2-1)
18. North Carolina (2-1)
19. Washington (2-1)
20. Illinois (2-1)

DILBERT, YOU'LL BE PLAYING THE LEFT STRIKER POSITION.

ONE OF OUR GOOD PLAYERS WILL TRY TO STRIKE YOU IN THE HEAD WITH THE BALL AND BANK IT IN THE GOAL.

I'D BETTER TAKE OFF MY GLASSES. NO, DON'T. I INCLUDED THEIR DAMPENING EFFECT IN MY CALCULATIONS.

GEE, I'VE SCORED FIVE GOALS THAT WAY. YOU'VE GOT A GOOD HEAD FOR THIS GAME.

# Skipper's Sports View - Miner Football

The Skipper

Sports Staff Writer

How about that Miner Football team. They've started off the season with a terrific record and are doing excellent in the conference. Although they've played three of their four games on the road, the lone home game against Washburn was one of the best games in a long time at the university. The Miners probably could have won by a bigger margin, but they played good enough to shut out the mighty Iccabods and post their first conference win. Along with the win, the thing that was pleasing to see was the fan sup-

port. Teacher, parents, and even the students came out to attend the game and cheer the Miners on to victory. One can't measure how much a loud and supportive crowd helps the home team and distracts the visiting team. During the weekend of the Washburn game, the crowd helped out immensely.

After having just upset Emporia State, the Miners are now 3-1 (2-0 in conference play) and will next play SBU on the road. With the Skipper making UMR his lock of the week, the Miners will return for Homecoming with a lofty 4-1 record (3-0 in conference). And if you don't know who we play for Homecoming, I'll tell you. It's the Gorillas of Pittsburgh State. Year

in and year out the Gorillas are in the top 25 of division II football, and this year is no exception. With first place in the conference on the line, this poses to be a huge test for the Miners. They're going to need all the help and support that they can get. Just like at the Washburn game, that's where you come in. Teachers, parents, alumni, students, and anybody else rooting for the Miners need to attend the game. It all takes place a week from this Saturday on October 8 at 1:30.

This could be the first time in a long time the Miners have a chance to go somewhere. So everybody - Be there; Be Loud; Be Supportive; Just Be Involved.

# Our Generation

Today, I would like to talk about helping out and respecting other people. First, my feelings before this past Saturday night, and second about my feelings after Saturday night.

I always try to be a helpful person. I always drive everyone everywhere, I help out a ton of people with homework, I'd do just about anything (in reason) for most people. But what ends up happening? A lot of times I get taken advantage of, and people don't respect my kindness. Many people say "your too nice ... that's why you always get hurt". And I reply "Well, that's just how I am ..."

But my generation, I want to tell you that things come back to you. This past thursday night, I was having a very difficult time programming and was very frustrated. Without my asking for help, Glen (from MCS CLC Downstairs) proceeded to help me get my program working and explained everything to me in such a way that I completely understood what was going on.

So why am I telling you this? Kindness gets passed around. Next time somebody is struggling with something, help them out. Next time you can help someone out of a jam, do it. Your kindness will come back to you, and helping people makes you feel good.

After Saturday night, I considered changing my attitude of kindness and respect toward the opposite sex because of a bad situation that occurred. What I would like to tell you, my generation, is be very careful in dealing with the opposite sex. If you treat them to well, they will take advantage of you or they won't find a "challenge" in you and will go after somebody else. Does the line "Your the nicest person but ...." sound familiar? I learned the hard way that truly caring and respecting someone of the opposite sex will get you very hurt and lied to. So my generation, care for someone in a relationship like babysitting: Enjoy the time you have, cherish the rewards, and when the night is over it is over. But you always know that you'll either get the same job back or a new one that's even better.

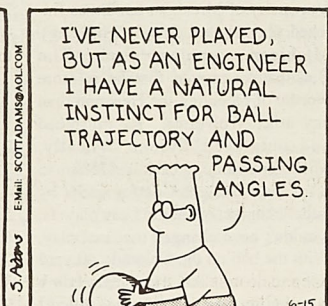

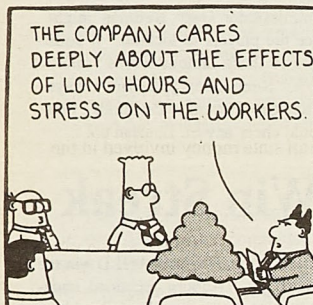

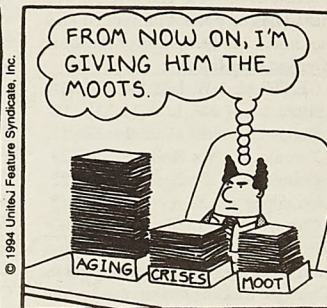

Sincerely,  
Lawrence Sykes

## HANCOCK II: QUESTIONS AND ANSWERS ABOUT AMENDMENT 7

**Q: What is the Hancock II Amendment?**

**A:** The Hancock II Amendment, now officially called Amendment 7 on the November 8 ballot, is an effort to amend the Missouri Constitution. The effort is named after U.S. Congressman Mel Hancock, R-Springfield, who authored the original Hancock Amendment and is the leader of the new effort.

**Q: What did the original Hancock Amendment which was passed in 1980 do?**

**A:** The original Hancock Amendment required that all local tax and fee increases be voted on by the public. The only local fee increases that are not required to be voted on are user fees, which are fees where people pay for a specific service such as a public swimming pool. It also set a lid on state income which would cause the state to issue a refund when total revenues exceeded that lid. Hancock I also required a popular vote on all state tax increases that would cause the state income to go above the lid. Tax increases voted on by the people would not be figured into state income in deciding the revenue lid.

**Q: What does the Hancock II Amendment do that Hancock I didn't?**

**A:** The Hancock II Amendment revises the original Hancock Amendment in an attempt to place all tax increases into the revenue lid calculation, regardless of whether or not they have been voted on previously by the public. That means that funds generated by Proposition C (1982), the Parks, Soils and Waters Sales Tax (1984), and the Proposition A Gas Tax (1987) would be included in the total state revenue calculations. The Hancock II Amendment also requires all state tax and fee increases to be voted on even if they do not exceed the state income lid. In addition, Hancock II tightens the definition of "user fee" to be excluded from the state income calculation.

**Q: What will be the wording of Amendment 7 (Hancock II) on the ballot?**

**A:** Amendment 7 will be worded as follows:

*"Shall Article X of the Constitution of Missouri be amended to limit yearly increases of total state revenues generated by new, increased, or broadened taxes, licenses and fees, including user fees, to twenty hundredths of one percent of the total state revenues during the prior fiscal year, unless approved by popular vote; make all increases in taxes, licenses, and fees, excluding user fees, by any political subdivision subject to voter approval; and prohibit the state from mandating tax increases on political subdivisions as a requirement for maintaining their corporate status or existing level of state funding? This proposal would require state and local spending cuts ranging from \$1 billion to \$5 billion annually. Cuts would affect prisons schools, colleges, programs for the elderly, job training, highways, public health, and other services."*

**Q: What effect would Hancock II have if passed?**

**A:** The exact effect of Hancock II will be unknown until the courts interpret it, which is why the ballot reads that it would cut from \$1 billion to \$5 billion from state revenues. The estimated total state income for 1996 as calculated by the Moody Report is \$6.67 billion and the states federal income is \$3.13 billion.

**Q: Will Hancock II have any other financial effects in addition to these cuts?**

**A:** According to the amendment, all citizens of Missouri can sue the state if they feel that the Amendment has been violated. After the suit has been filed all state money involved in the lawsuit cannot be used until the court case has been decided. This has the potential to tie up a large portion of the state budget.

**Q: Where would these cuts come from?**

**A:** Where the cuts will come from is not specified in Hancock II and will be determined by the state legislature. The wording on the ballot states that "Cuts would affect prisons, schools, colleges, programs for the elderly, job training, highways, public health, and other services." No cuts would occur to programs such as welfare and Medicaid since they are mandated by federal law.

**Q: How would Hancock II affect students?**

**A:** Chancellor Keisler of UMC has announced that if Hancock II passed tuition would increase by 125%. Since tuition is the same for all schools in the UM System, the increases would be the same for UMR. Administrators have also pointed out that many scholarship programs would have to be cut. It is likely that the Bright Flight scholarships and Missouri grants will either be severely cut back or completely eliminated.

**Q: What would this mean for UMR?**

**A:** Based on a cut of \$1 billion in the state budget, the University of Missouri has estimated that UMR would lose \$12 million in the first year and at least \$6 million in all following years. In 1994, UMR received \$35.9 million from the state. The loss in funds would have to be made up through increasing tuition and by cutting programs. It is estimated that tuition would increase by over 100% and many employees would be eliminated. In California where a similar amendment was passed in 1978, tuition has increase 450% since then.

**Q: How would Hancock II affect current construction projects at UMR?**

**A:** Chancellor Park has stated that the construction of the Multi-Purpose Building would continue; however the Chancellor stated that it is likely that the expansion will remain closed after it is built because of a lack of funding to pay operational costs. He also stated that renovations to the EE building and Chemistry building would be delayed indefinitely.

**Q: What type of opposition is there to Hancock II?**

**A:** More than 100 city councils, county government organizations, chambers of commerce, and school boards have passed resolutions opposing Hancock II. Many large organizations, such as the University of Missouri Board of Curators, Civic Progress in St. Louis, the Missouri Chamber of Commerce, Missourians for Higher Education, and the Missouri Association of School Administrators are opposing Hancock II.

**Q: How can I register to vote?**

**A:** Anyone can register to vote between 8:30 a.m. and 4:30 p.m. at either the Student Council office or ASUM office on the second floor of UCW. A new law was passed which allows people to register to vote on their own with out a certified deputy by filling and mailing a form to the state. If you register to vote for the first time using this form you will not be allowed to vote absentee. To avoid this problem register to vote at your Phelps County address. People can still can be registered by a certified deputy in the Student Council or ASUM offices.

**Q: How do I vote by absentee ballot?**

**A:** If you are currently registered to vote in another county in Missouri, you can go to the Student Council or ASUM office to get a form for absentee ballot. When you get the form, you must return it by mail.

**Q: Can I vote in Missouri if I am originally from another state?**

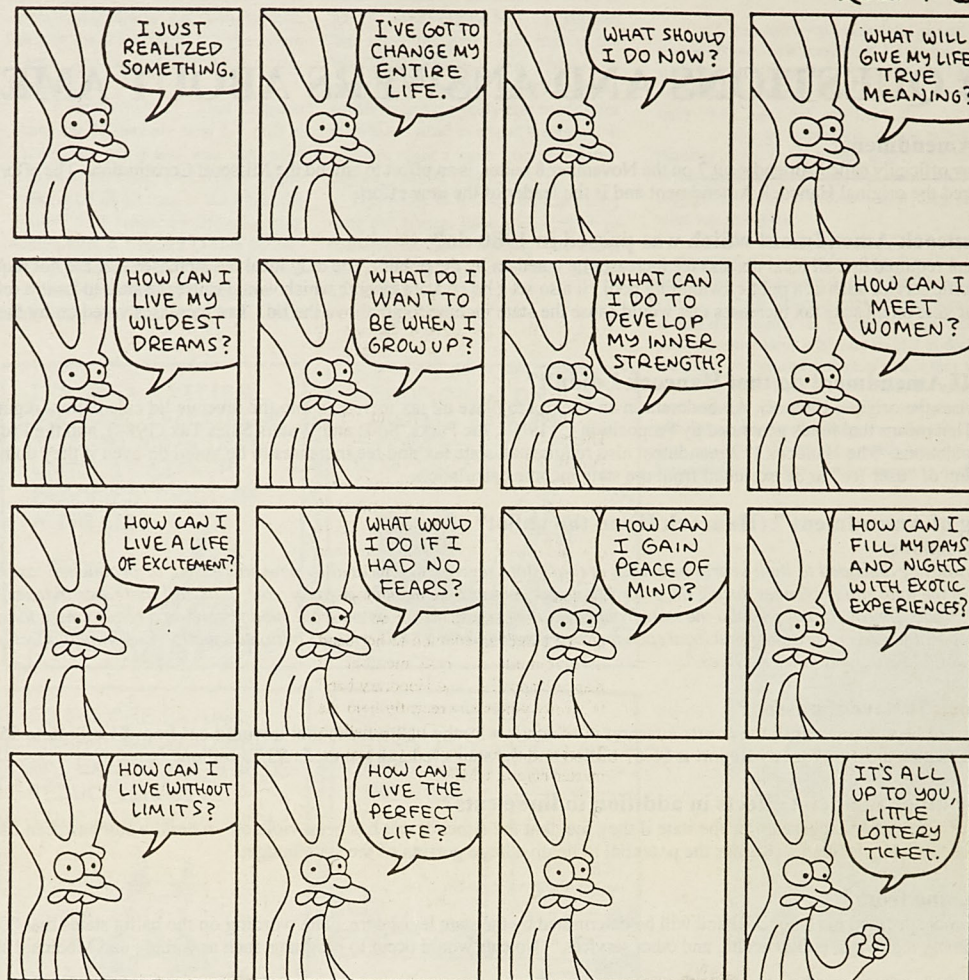

**A:** Yes. If you are registered to vote in another state you can get a form to cancel your registration and register at the Student Council of ASUM office on the second floor of UCW. If you are not registered in another state, you can simply register in Missouri. The only requirement is that you have live in Missouri for at least 4 weeks, which all students will have done by October 12.

**The deadline to register to vote is October 12!**

## CHAOS

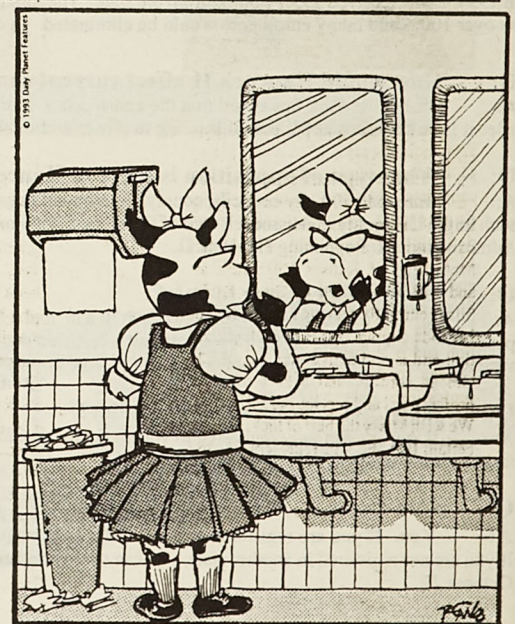

by Brian Shuster

As he read the headline in horror, Larry knew that now he'd HAVE to take Bertha to the prom.

"Well Dr. Stone, it looks like we've reached a dead end. I can't decipher these hieroglyphics, and without them we'll never find the hidden chamber."

As she gazed into the mirror, Sally realized that the kids at school weren't teasing . . . she was, indeed, a cow.

# Homecoming Queens

Student council is proud to present Gayatri Bhatt as our homecoming candidate for the 1994-1995 school year. Guy is from Rolla and a junior majoring in English. Her involvement has been concentrated with her appointment in April as the Student Representative to the University Missouri Board of Curators. In addition to this two year term, she has been involved with Christian Campus Fellowship, UMR TECHS, and the Student Union Board. Her honors include being a member of the Chancellor's Leadership Class and a recipient of 1994 General Motors volunteer spirit award.

Guy enjoys volunteering in the community with the Optimist Club Girls Basketball program and as an English tutor for the Rolla Public School system.

Theta Xi is very happy to select Theresa Pierce as our candidate for this year's homecoming celebration. Theresa is a senior majoring in Chemistry. Ms. Pierce has been a member of the Schrenk Society, a chemistry society, and is presently an active member of Chi Omega. Thereas uses her musical talent as she plays the alto saxophone in both the marching and symphonic band. In addition to her band involvement, she is a member of Kappa Kappa Psi, and Honorary band fraternity where she recently held the office of secretary. Congratulations Theresa and good luck in you last semester here at UMR.

The gentlemen of Kappa Alpha Order nominate Ashely Peifer as their 1994 Homecoming Queen candidate. Ashley is the daughter of Renee and C.A. Peifer, Jr., and from Fredericktown, MO. She is a sophomore and majoring in Metallurgical Engineering. Ashley devotes much of her time to the many campus clubs and organizations she is involved with. She is a member of SWE, which she has held the office of social chair. Ashley is also involved with the Student Union Board, American Nuclear Society, and the College Republicans. Finally she holds the office of Executive Council of Phi Eta Sigma. Kappa Alpha is proud to support Ashley Peifer as this years Homecoming Queen candidate and knows she will represent us well.

The gentlemen of Phi Kappa theta are honored to present the lovely Missy McMurray as our Homecoming Queen candidate. Missy, a senior studying Engineering Management, is the daughter of Raymond and Helen McMurray of Kansas City, Kansas, and will be escorted by Steve Klein. She is currently serving as president of Lambda Sigma Pi Service Organization and is an active member of Chi Omega sorority and a host of other professional and service organizations. We wish Missy the best of luck. We are certain that she will represent us well.

The men of Triangle Fraternity are proud to present our 1994 Homecoming Queen candidate, Miss Elizabeth Fox. Elizabeth is from Rolla, MO and is a senior in Engineering Management where she carries a GPA of 3.5. She is very active in the department, having been vice-president of ASEM and Alpha Iota Delta. Elizabeth is currently serving as president of the student chapter of the American Society for Quality Control. She has received numerous scholarships and has also been named to the Dean's list. She enjoys spending her free time with family and friends. Because of her academic and personal achievements, we feel that she would be an excellent choice for Homecoming Queen 1994. Triangle thanks you and wishes you the best of luck, Elizabeth.

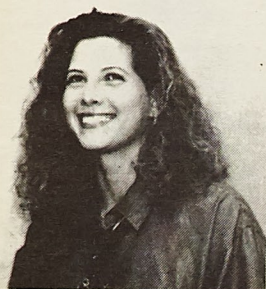

The men of Sigma Nu Fraternity proudly announce Miss Leslie Frost as their Homecoming Queen candidate. Leslie, daughter of Jack and Judi Frost of St. Charles, MO, is a senior majoring in chemical engineering. She has been a very active member of Zeta Tau Alpha Fraternity holding such offices as Pledge Advisor, Membership chairman, and Panhellenic Delegate. In addition, Leslie's campus activities have included: UMR Student Ambassadors, the American Institute of Chemical Engineers, and Sigma Nu little sisters, where she served as Rush Chairman. She has been a member of the Panhellenic Council for three years, serving one year as president. Leslie has also acted as Rush Chairman for Lambda Sigma Pi. We feel that Leslie's outgoing personality and enthusiastic involvement on campus would make her an excellent choice for

The men of Sigma Pi Fraternity are proud to present as our Homecoming Queen candidate Lisa Stiles, daughter, of Larry and Barbara Stiles of St. Charles, MO. Lisa is a senior majoring in nuclear engineering and is a member of Zeta Tau Alpha where she has served as alumnae relations chairman, corresponding secretary, and assistant scholarship chairman. Lisa has also been involved in campus activities serving as president and vice-president of Toastmasters, recording secretary and vice-president of Tau Beta Pi, secretary of American Nuclear Society, advisor for the Chancellor's Leadership Class, and recording secretary and senior advisor of Phi Eta Sigma. Currently she holds the office of vice-president of Alpha Nu Sigma and is active in Blue Key. We believe Lisa is an excellent candidate and are pleased to have her represent us.

# Homecoming Queens

The sisters of Chi Omega proudly present Miss Tara J. Muehe, daughter of John A. and Barbara S. Muehe of Tremont, IL, as our 1994 Homecoming Queen Candidate. Tara is a senior in Applied Mathematics and Statistics and has been very involved in campus activities. She has been highly active in Chi Omega serving as secretary and chairman of several committees. During her college career, Tara has also been active in Air Force ROTC, Arnold Air Society, Blue Key National Honor Fraternity, Lambda Sigma Pi, Intramurals, and the Newman Center. With her vivacious personality, we feel that Tara is the ideal choice for Homecoming Queen. Chi Omega wished Tara the best of luck.

The men of Beta Sigma Psi are proud to present Stacy Garfield as our 1994 Homecoming Queen candidate. Stacy, a sophomore in aerospace engineering, is the daughter of Jerry and Mary Garfield of Springfield, IL. In addition to being a member of Kappa Delta sorority, Stacy is involved with the Greek community by serving on the Panhellenic Council. On campus, she is a member of the American Institute of Aeronautics and Astronautics, Society of Women Engineers, Student Council, and Down to Earth. We are very proud to have Stacy as our representative, and we wish her the best of luck.

The ladies of Kappa Delta sorority proudly present Sherri O'Neal as our 1994 Homecoming Queen candidate. Sherri, the daughter of John and Carol O'Neal of Irondale, MO, is a senior majoring in Metallurgical Engineering. As a member of Kappa Delta, Sherri has served as president, efficiency chairperson, member of the Wesleyan Foundation, Intercollegiate Knights, Interfraternity Council Judicial Board, Student Ambassadors, Metallurgical Engineering Society, Student Health Advisory board, and Society of Women Engineers. Sherri has also been involved in the cooperative education program. We feel that Sherri's warm personality and strong leadership on campus make her an ideal candidate for the 1994 Homecoming Queen. We wish her the best of luck.

The ladies of the UMR Panhellenic Council proudly honor Miss Shannon Neimeyer, daughter of Phil and Donna Neimeyer of Brookfield, MO., as our 1994 Homecoming Queen candidate. Shannon is a junior in Mechanical Engineering. She has been actively involved in Panhellenic for the last three semesters, excelling as Programming and Achievement coordinator. She is also member of Chi Omega, serving the chapter as Rush Chairman as well as participating in a variety of intramural sports. On campus, Shannon is a member of Phi Eta Sigma honor society and ASME. Panhellenic wishes Shannon the best of luck during the 1994 Homecoming celebration.

The Thomas Jefferson Hall Association is pleased to present their Homecoming Queen Candidate for 1994, Miss Sheri Lyn Oberhelman. Sheri is the daughter of MGYSGT and Mrs. Oberhelman of Gaithersburg, Maryland. She is a sophomore majoring in Aerospace Engineering here at University of Missouri-Rolla. She has been active in Thomas Jefferson Hall Association, Residence Hall Association, Volleyball Club, Intramural Sports, American Institute of Aeronautics and Astronautics, and the Society of Women Engineers.

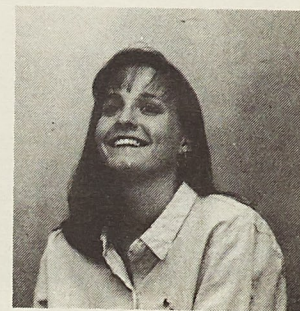

The men of Sigma Tau Gamma Fraternity are proud to present Miss Stacey Doing, daughter of Monte and Sue Doing, of Springfield, MO as our 1994 Homecoming queen candidate. Stacey is a super senior in Geological Engineering and enjoys keeping busy on campus while maintaining excellent academic standards. She is currently a member of Kappa Delta sorority, prominent member of UMR Student council, AEG, and UMR TECHS. Stacey would like to wish all the candidates good luck and hopes everyone has a blissful homecoming.

The ladies of Lambda Sigma Pi are proud to present Miss Tricia Ruma as our 1994 Homecoming Queen Candidate. Tricia, the daughter of Mr. and Mrs. Pete Ruma of St. Louis, MO, is a senior majoring in Engineering Management. Tricia was one of the founding members of Lambda Sigma Pi. Her past offices include: vice-president, treasurer, and social chairman. Tricia is also very active in Kappa Delta sorority, Blue Key Honor Society, and Alpha Iota Delta. We feel that Tricia's outgoing personality and enthusiasm as well as her determination and commitment will make her the ideal candidate for 1994 Homecoming Queen.

# Homecoming Queens

The members of the American Ceramic Society are proud to present Melissa Mesko as our 1994 Homecoming Queen candidate. Melissa is the daughter of Mr. & Mrs. William Mesko of Brentwood, MO. She is currently a graduate student in ceramic engineering. She has been extremely active throughout her years at UMR and is currently active in the ceramic engineering honor fraternity, Kappa Kappa Gamma, where she has held an office for the past 3 semesters. Her other campus activities include Phi Kappa Phi and Alpha Chi Sigma. We wish Melissa the best of luck in all her endeavors.

The ladies of Zeta Tau Alpha are proud to present Miss Stacy Walker as our 1994 Homecoming Queen Candidate. Stacy, the daughter of Mr. and Mrs. David Walker of Poplar Bluff, MO, is a senior majoring in Nuclear Engineering. As a member of Zeta Tau Alpha, Stacy currently serves as President. Her past offices include: President of her pledge class and Assistant Pledge Trainer. On campus, Stacy is involved in many activities, which include Alpha Phi Omega, Phi Eta Sigma, American Nuclear Society and Delta Omicron Epsilon. We feel that Stacy's outgoing personality and enthusiasm will make her an ideal candidate for 1994 Homecoming Queen.

The men of the Interfraternity Council are proud to present as our Homecoming Queen, Dawn McCoy. Dawn is from Cape Girardeau, MO, and the daughter of Del and Linda McCoy. She is a senior majoring in civil engineering. She is also a member of Zeta Tau Alpha Fraternity, where she is currently an executive council member and has held various chairmanships. Dawn is a junior representative in Panhellenic Council and is also a Student Ambassador for the campus. We would like to wish Dawn and the other queen candidates the best of luck during Homecoming 1994.

The men of Pi Kappa Phi are proud to present Amy Strouse as their candidate for 1994 homecoming queen. Amy is a senior majoring in mechanical engineering from Morone City, MO. She is a member of Kappa Delta sorority where she currently is house manager. Amy has also been involved in campus activities including ASME, Phi Kappa Phi, SUB, Student Council, Gamma Alpha Delta and KMNRR. Pi Kappa Phi is very proud to have Amy as their candidate and we wish her the best luck.

Heather Freeman is a senior majoring in chemical engineering, specializing in polymers and coatings. She is a member of Delta Delta and has held the offices of historian, treasurer, and vice-president. She is a member of the Schrenk society and is an ACS student affiliate. She also holds a Second Cup in Taekwondo. Her mom, Barbara Freeman resides here in Rolla, while her father, Col. Richard Freeman is living in Albania.

The American Institute of Chemical Engineers presents Amanda McBane as their Homecoming queen candidate. She is the daughter of Lawrence and Sherry McBane of St. Joseph, MO. While maintaining good grades as a junior she has also been involved and held many offices in Kappa Delta Sorority, Panhellenic Council, Helix Club, Phi Eta Sigma, Goldminers, Society of Women Engineers, and Phi Sigma.

The Residence Hall Association proudly presents Katherine Vollert as their Homecoming Queen Candidate. Katie is the daughter of George and Carolyn Vollert of Bellville, IL. Her activities have included various offices in both Residence Hall Association and National Residence Hall Honorary. She also participates in other campus organizations such as Quadrangle Hall Association and AIChE. Her future plans include graduating in December with a BS degree in Chemical Engineering.

# Homecoming Queens

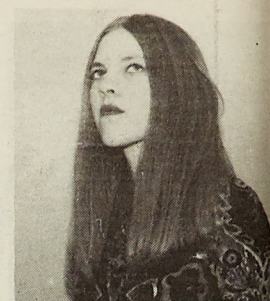

The men of Kappa Sigma Fraternity proudly present Kristen King as their candidate for Homecoming Queen. Kristen is a senior majoring in Mechanical Engineering. For the past couple of years, she has served as a member of Zeta Tau Alpha, Lambda Sigma Pi, ASME, and Toastmasters. Kristen enjoys biking, running, and various sports such as softball and volleyball.

Lambda Chi Alpha is proud to present our Homecoming Queen candidate for 1994, Miss Elizabeth Zink. Elizabeth is the daughter of Jess and Nancy Zink of Rolla, MO. She is a junior majoring in civil engineering and minoring in Psychology. She is a member of ASCE and has served as senior advisor for Phi Eta Sigma.

Lambda Chi Alpha wishes you the best of luck, Elizabeth.

KMNRR is pleased to present their 1994 Homecoming Queen candidate, Ms. Rachel D. Brennan. Rachel is the daughter of Rose Baugh and Neal Brennan. She has been active in KMNRR for one year.

MSM Spelunker's Club is proud to announce Kimberly Lynn Stewart as their Homecoming Queen Candidate. Kimberly is a sophomore majoring in geology. She has served as secretary/treasurer of Spelunkers, treasurer of C.L. Dake Society, and is a member of Zeta Tau Alpha. MSM Spelunker's Club is pleased to have her as a candidate.

M-Club is proud to present Ms. Polly Robinson as our Homecoming Queen candidate, Polly the daughter of Dennis and Kay Robinson of Freeburg, IL, is a senior majoring in biochemical engineering. She has served on TJHA as floor vice-president for two years and as membership chairman for Delta Lambda. She is a member of the UMR track team, AICHE, Phi Eta Sigma, and Tau Beta Pi. The members of M-Club wish Polly and the other queen candidates the best of luck.

The Quadrangle Hall Association would like to nominate Sandy Eftink as their 1994 Homecoming Queen candidate. Sandy is the daughter to Tom and Mary Ann Eftink of Oran, MO. She is a senior in Electrical Engineering, with a minor in Literature. Sandy has been involved with Quadrangle Hall Association, Residence Hall Association, and the UMR Cheerleaders, and is currently serving as Head Resident Assistant in the Quadrangle.

QHA would like to wish all the candidates, especially Sandy, the best of luck.

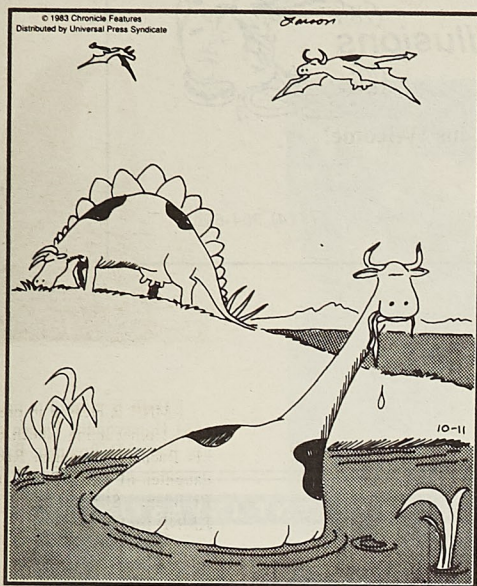

The men of Acacia proudly present Tara Jennings as their Homecoming Queen candidate. Tara is a junior majoring in Chemistry and minoring in Life Sciences. She is currently an Active member in Zeta Tau Alpha. Tara is also a member of the UMR Panhellenic Council, and enjoys participating in Intramural Softball and Soccer.

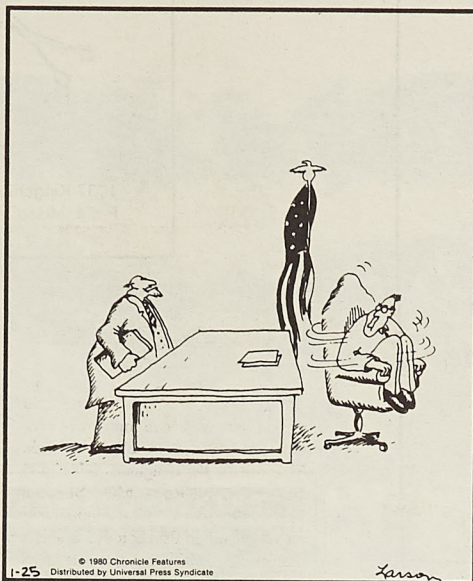

THE FAR SIDE

**PRINCIPLES of SOUND RETIREMENT INVESTING**

**UNFORTUNATELY, THIS IS WHERE  
PEOPLE ARE PUTTING  
TOO MANY RETIREMENT DOLLARS.**

Every year, a lot of people make a huge mistake on their taxes. They don't take advantage of tax deferral and wind up sending Uncle Sam money they could be saving for retirement.

Fortunately, that's a mistake you can easily avoid with TIAA-CREF SRAs. SRAs not only ease your current tax bite, they offer a remarkably easy way to build retirement income—especially for the "extras" that your regular pension and Social Security benefits may not cover. Because your contributions are made in before-tax dollars, you pay less taxes now. And since all earnings on your SRA are tax-deferred as well, the

money you don't send to Washington works even harder for you. Down the road, that can make a dramatic difference in your quality of life.

What else makes SRAs so special? A range of allocation choices—from the guaranteed security of TIAA to the diversified investment accounts of CREF's variable annuity—all backed by the nation's number one retirement system.

Why write off the chance for a more rewarding retirement? Call today and learn more about how TIAA-CREF SRAs can help you enjoy many happy returns.

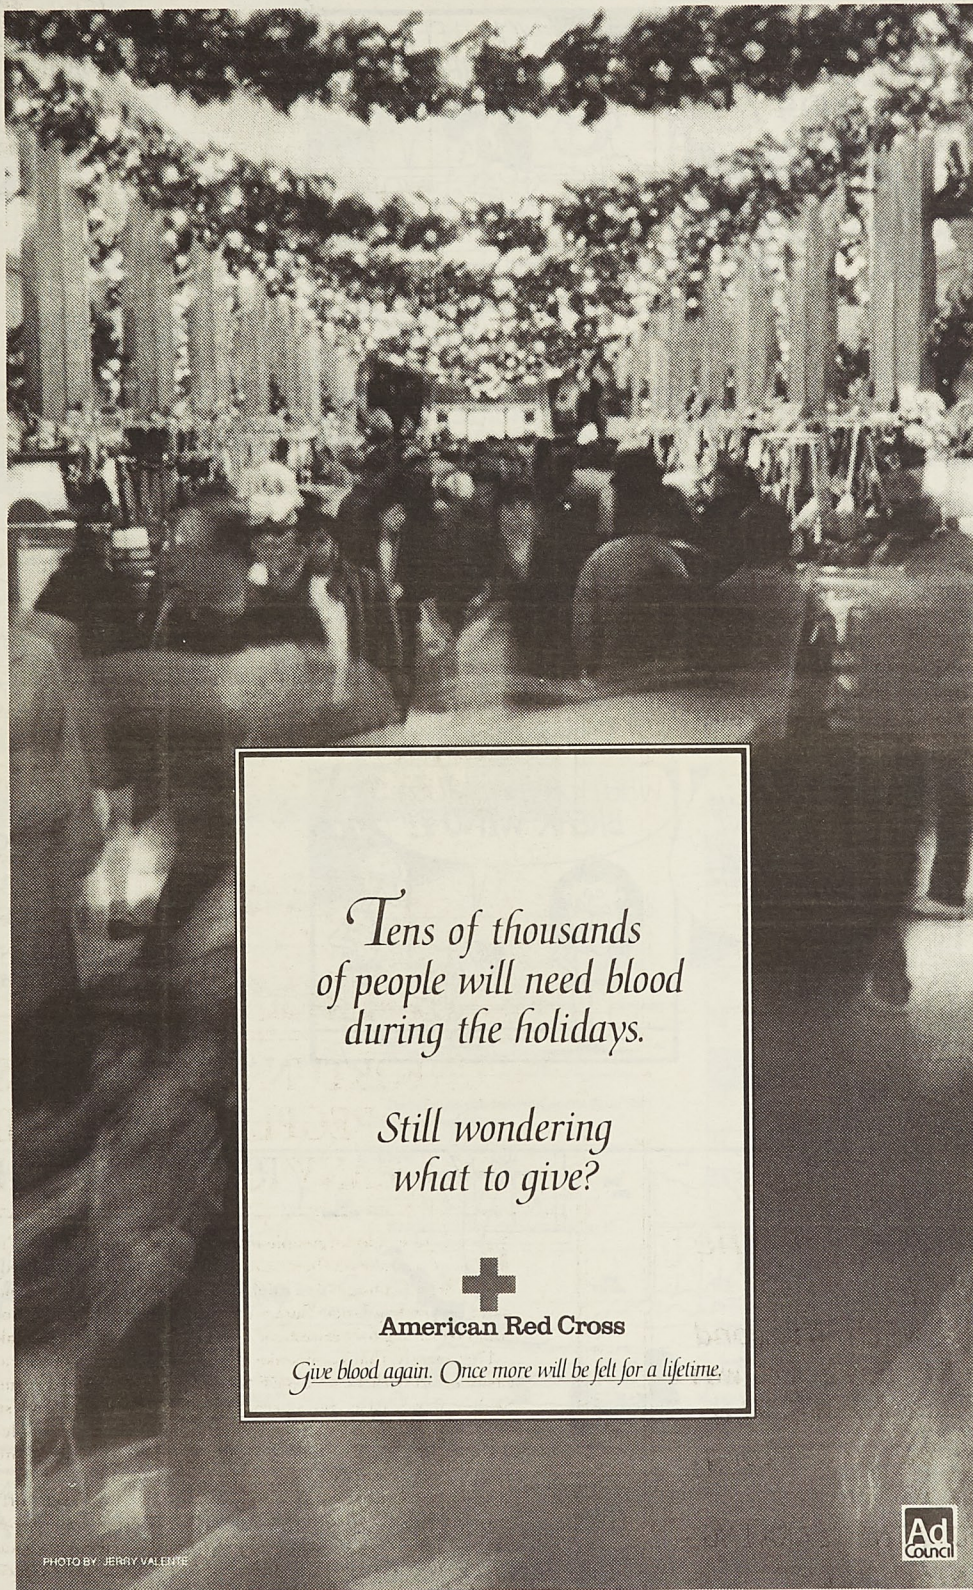

Benefit now from tax deferral. Call our SRA hotline 1-800-842-2733, ext. 8016.

Ensuring the future  
for those who shape it.

TIAA-CREF is a registered service mark of TIAA-CREF Individual and Institutional Services. For more complete information, including charges and expenses, please call 1-800-842-2733, ext. 8016. Read the prospectus carefully before you invest or send money.

Wild Girls  
The beginning of the semester has kicked much AXX. Keep up the good work and keep up with your books.

Princess  
AOT, The Queerz & the

Stacy G  
Your absolutely the worlds best big sis. I hope I can live up to your great reputations. I love you! AOT, YLS

To the men of Kappa Alpha  
Thanks for the fun and eventful evening at our TGIF.

Delta.  
The Ladies of Kappa

Jessica  
Hey, what are you up to 5 or 6? We lost count. Hope you are better at math than we are. Keep up the good work.

Valerie  
Your the Best Pledge Sister ever. I love ya, AOT, Leia

KD loves the Miners!

Giirl,  
Hi Giirl!  
AOT, Giirl

Go Miner Football

KD's! Let's get Psyched to win Football

GrammarGirl,  
I'm on patrol!  
AOT, Yourroomie

Plebus,  
Thank you for this weekend!

GrammarGirl is looking for tall, dark, handsome boy whose wit can match her own.

Hey Garfield!  
Who's that big guy?  
AOT, your 9:30 library pal

Little Brother,  
Welcome to the Greek World! You're an awesome Theta Xi!  
Your Big Sis

I wanna be a Kay-Dee!

Yippie, Yippie, Yi, Yippie, Yo, Yo, Yo!

"Bob",  
So... How was Pi Kapp's Float trip?  
Jen

Eric & Gina  
I'm sorry...the world didn't end on Sept. 6. Why don't you guys pick another date?  
Jen

Wahoo KD!

Congratulations to all of KD's new pledges!!

This is irrelevant, but...

Wild Girls, remember...  
You can always retake a class, but you can never relive a party!

Congratulations to Diana, Kasie, Lynn, and Jessica! KD loves you!

Look guys, it's the V.P.

Jessica, Brandi, & Trish are a riot!

J-J-Joe  
So... who's the pushier woman-Christy or Natalie?

Bary  
How's your little "flower girl"?

Ryan  
Had any "urges" lately?  
If so...

Dempsey  
What would happen if someone (I'm not saying who) was to blow in your ear and Rich's ear during 265"?  
Just askin'

Nat, Christy & Sarah  
When're we gonna go try on purty dresses?

Sarah  
The next time y'all decide to go out to Pizza Hut an invitation would be nice.

Rich Petit  
9 South still loves ya!

Sheri  
How many counts of blood do you have?

Nat  
Happy belated 20th!

Christy  
Does Joe make a good pillow?  
The innocent bystander

Sigma Chi looks awesome in their pajamas! Thanks Guys!  
Gamma Beta Sigma

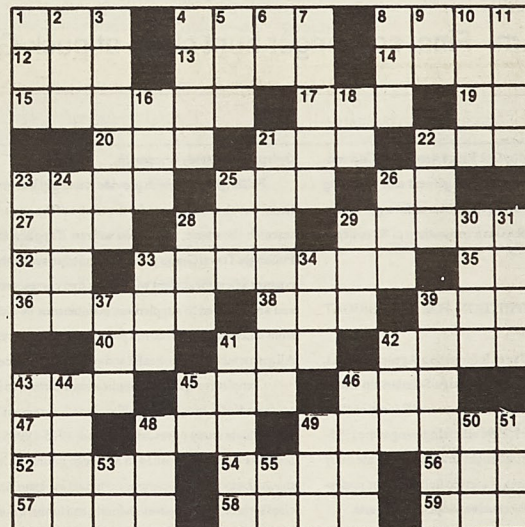

Eric and Mike are fabulous Derby Days Coaches! You guys look great in polyester!  
Gamma Beta Sigma

Come watch the Goldminers perform at the Homecoming Games Sat, October 8 at 1:30!

We love you Jessie Bamat.  
Your Admirers

Sam and Eric are #1 coaches.  
loveys guys!  
GBS

Jenny Gruss,  
Great job on Hayride! We love you!  
Lico - Your sisters!

# Homecoming Schedule

## Monday, October 3

9:00 a.m. - 2:00 p.m. All Campus Queen Voting Begins;  
Continues through Thursday

12:30 p.m. Games: Egg Catapult, Best Impersonation

6:30 p.m. Queens introductions at the puck

7:00 p.m. Comedian at the puck: Sam Griesbaum

## Tuesday, October 4

12:30 p.m. First scavenger hunt clues at puck. Games: Jello  
Wrestling, Fantasy Jingle

## Wednesday, October 5

12:30 p.m. Second scavenger hunt clues at the puck.  
Games: Food Eating Contest, Joe Miner Look-  
a-Like

## Thursday, October 6

12:30 p.m. Final scavenger hunt clues at puck Games:

Bellyflop, Mocktails

## Friday, October 7

12:30 p.m. Ice Cream Social. Games: Home Videos,  
Improvisations

1:00 p.m. Scavenger hunt deadline

1:00 - 4:00 p.m. Alumni/Student Golf Tourney

6:30 p.m. House displays judged

7:00 p.m. SUB movie: Dazed and Confused

8:30 p.m. M-Club Bonfire at field by Multi-Purpose Build-  
ing. Games at bonfire: Musical Chairs, Pie  
War. Scavenger hunt winners announced

## Saturday, October 8

12:00 p.m. Bungee Run at football game

Halftime: Banner competition winners, Queens presenta-  
tion, Overall Winners

## Aid

grants are operated by Oak Ridge Associated Universi-  
ties (ORAU) through a management and operating  
contract with the U.S. Department of Energy. Estab-  
lished in 1946, ORAU is a consortium of 82 colleges  
and universities.

### ANNUAL COMPETITION FOR FULLBRIGHT GRANTS OPENS

The United States Information Agency (USIA),  
the J. William Fulbright Foreign Scholarship Board  
(BFS) and the Institute of International Education (IIE)  
announce the May 1, 1994 official opening of the 1995-  
96 competition for Fulbright Grants for graduate study  
or research abroad in academic fields and for profes-  
sional training in the creative and performing arts.

The purpose of these grants is to increase mutual  
understanding between the people of the United States  
and other countries. They are funded under the Mutual  
Educational and Cultural Exchange Act of 1961 through  
an annual appropriation made by Congress to USIA.  
Participating governments and host institutions in many  
countries also contribute. The BFS, composed of 12  
educational and public leaders appointed by the Presi-  
dent of the United States, establishes criteria for the  
selection of candidates and has the final authority for the  
awarding of grants.

For all grants, applicants must be U.S. citizens and  
hold a bachelor's degree or its equivalent by the begin-  
ning date of the grant. Creative and performing artists are  
not required to have a bachelor's degree, but they must  
have four years of relevant training or study. Candidates  
in medicine must have an M.D. or equivalent at the time  
of application.

All applicants are required to have sufficient profi-  
ciency in the language of the host country to carry out

their proposed study or research.

Fulbright Full grants provide round trip interna-  
tional travel, maintenance for the tenure of the grant, a  
research allowance, and tuition waivers if applicable.  
Fulbright Travel Grants provide round trip travel to the  
country where the student will pursue study or research  
and are intended to supplement maintenance awards  
from other sources that do not provide funds for travel.  
All grants include basic health and accident insurance.

Complete program and application information is  
contained in the brochure, "Fulbright and other grant's  
for graduate study or research abroad, 1995-1996." Students  
currently enrolled in a college or university  
should contact their on-campus Fulbright Program Ad-  
visor for brochures, application forms, and further infor-  
mation.

### CRANE FUND FOR WIDOWS AND CHILDREN SCHOLARSHIP

The Student Financial Aid office wishes to make stu-  
dents aware of the Crane Fund for Widows and Children.  
The program is:

- 1) for needy and deserving widows and children of men  
who, at their death, have left their widows and children  
without adequate means of support or
- 2) deserving wives and/or children of men upon whom  
they are dependent for support but, because of age or  
other disability, are unable or for other reasons, fail of  
neglect to adequately support them respective wives  
and/or children.

If you meet the above terms for this program you must  
complete a Crane fund for Widows and Children Appli-  
cation to be considered for funding.

This application can be received in the Student Financial  
Aid Office, G-1 Parker Hall. Application for the 94/95  
academic year will be accepted through September 30,  
1994.

### RURAL MISSOURI, INC.

If you have been employed as a farm worker in the past  
two years, you may be eligible to receive free tuition  
assistance for your education.

If you have worked as a farm, orchard, greenhouse or  
poultry/egg production employee, you may qualify.  
To obtain details and the field representative closest to  
you call 1-800-234-4972.

### ROLLA AREA BUSINESS AND PROFESSIONAL WOMEN

The Rolla Area Business and Professional Women's  
Club is offering two scholarships of \$500.00 each to  
women enrolled for the 1995 Spring semester. The  
scholarship is designed to encourage women to advance  
their career goals through continuing education —  
whether pursuing a degree, returning to the work force  
after a long-term absence, or are in the process of  
changing careers.

### ELIGIBILITY REQUIREMENTS:

- 1) Must be a woman 35 year of age or older and a citizen  
of the U.S., and a resident of Phelps, Dent, or Maries or  
Pulaski Counties.
- 2) Must be officially accepted into an accredited pro-  
gram or course of study at a United States institution.
- 3) Must demonstrate need for financial assistance to  
upgrade skills or complete education for career advance-  
ment.
- 4) Must have definite plan to use the desired training to  
improve chances for advancement, to train for a new

career field, or to enter or re-enter the job market.

Applications available in the Student Financial Aid Of-  
fice.

Applications must be received by the Scholarship Com-  
mittee no later than September 30, 1994.

### C. JAMES GRIMM SCHOLARSHIPS

Several \$500 C. James Grimm Scholarship will be  
available to engineering students for the 1995 Winter  
Semester. To be eligible, students must be in the upper  
quarter of their class and be juniors or seniors in any  
engineering discipline including those in the School of  
Mines and Metallurgy and the School of Engineering.  
Financial need is not to be considered. Applications are  
available in the Student Financial Aid Office, G-1 Parker  
Hall, the Dean's Office, School of Engineering, 101 ERL  
or the Dean's Office, School of Mines and Metallurgy,  
305 McNutt Hall. Submit application to the Dean's  
Office School of Engineering of School of Mines and  
Metallurgy by October 14, 1994.

### AMERICAN SOCIETY OF HEATING, REFRIGER- ATING AND AIR CONDITIONING ENGINEERS, INC. GRANT IN AID FOR UNDERGRADUATE STUDENTS

A Grant-in-Aid is a grant of funds to a full-time engineer-  
ing student in the final two years of undergraduate study.  
For application and more information contact the Stu-  
dent Financial Aid Office, G-1 Parker Hall.  
Application deadline must be received by ASHRAE by  
December 15, 1994.

### BARRY M. GOLDWATER SCHOLARSHIP COM- PETITION

To be considered for nomination as a Goldwater

Scholar, a student must:

- \* Be a matriculated sophomore or junior.
  - \* Have a college grade-point of at least "B" (or the  
equivalent) and be in the upper fourth of his or her class.
  - \* Be a United States citizen, a resident alien, or in the  
case of nominees from American Samoa or the com-  
monwealth of the Mariana Islands, a United States  
national.
- Applications available in the Vice Chancellor Academic  
Affairs Office, 204 Parker Hall. Completed applications  
including the secondary school transcript form must be  
received in 204 Parker Hall by 4:30 pm. on Friday,  
December 2, 1994.

### SCIENCE AND ENGINEERING FELLOWSHIPS IN JAPAN

The National Science Foundation (NSF) offers opportu-  
nities for research in universities, national research  
institutes, and corporate laboratories in Japan. Appli-  
cants must be U.S. citizen or permanent residents.

These programs are conducted in cooperation with the  
Center for Global Partnership and other Japanese orga-  
nizations. Awards are available for graduate students,  
postdoctoral fellows, and senior investigators for the  
following types of visits.

- \* Long and Medium Term Research Visits
- \* Short Term Visits for Cooperative Research
- \* Bilateral Seminars
- \* Dissertation Enhancement
- \* Summer Institute for U.S. Graduate Students in Sci-  
ence and Engineering

For further information, see the Program Announcement,  
"International Opportunities for Scientists and Engi-  
neers," (NSF 93051), which may be available in your  
office of sponsored research.

Minimum GPA: 2.65

# Co-op Employment

## ATTENTION CO-OP APPLICANTS

Students wishing to apply for co-op positions with employers need to be registered with the Career Opportunities Center. While many employers will be doing on-campus interviewing, an increasing number will not be coming to campus, but will rely on resumes mailed to them to select their co-op hires.

To be considered by these companies a student must have purchased a registration disc, filled it out and had the disc loaded into the new computerized system. Already more than 30 companies have requested copies of resumes for possible co-op positions.

Beginning October 3 resumes will be mailed/faxed to the employers. Consequently the deadline for registering so that a student may be considered by these companies is September 29.

More employers will be requesting resumes as the semester progresses. Once a student is registered he/she will be eligible to be considered by companies throughout the semester. To register a student must bring their disc to the third floor, Room 303D of Norwood Hall to the Co-op Office in the Career Opportunities Center.

Company: Detroit Tool

Method: PRS-Open

Date of Interview: 10/18

Majors: MECH EMAN CIVL ELEC

Company not interviewing on campus.

Pick up a TVA application from the Co-op Office if interested.

# Jim's Journal

by Jim

Today Steve came over and sat in my chair.

I asked what he was up to and he just said, "Eh."

He said he was feeling kind of gloomy for no particular reason.

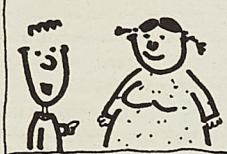

"Not enough water," Tony said.

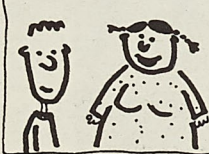

Ruth came over today.

Tony came by too, and told Ruth, "Are you getting your six glasses a day?"

Ruth smiled and said, "That's what they say, isn't it?"

Then she told Tony that tap water is fluoridated, which she knows because she's a dentist's assistant.

Today Tony said to me, "Did you know fluoride is poisonous - and it's in our water!?"

I told him I guess I'd heard that.

"Why didn't you stop me when you saw me drinking it all the time?" he asked.

I said I didn't know and he pointed to me and said, "You'll stop at nothing to see me die."

Today I worked eight hours at the copy store.

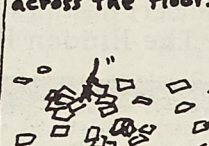

I was tired and looking forward to going home, plopping on my bed and reading more of Watership Down.

When I was unlocking my door I heard paper rustling inside.

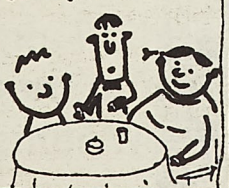

I opened the door and saw that Mr. Peterson had strewn all the pages of Watership Down across the floor.

Today Ruth and I ate at a nice restaurant.

The waiter brought us some water and said he'd be right back.

He didn't come back for quite a while and Ruth said, "I wonder if he forgot about us."

But he eventually came and took our order.

## DRUNK DRIVING DOESN'T JUST KILL DRUNK DRIVERS.

Hannah and Sarah Fogleman, killed Dec. 12, 1988 at 2:22 pm on I-95 South, Brunswick, GA.

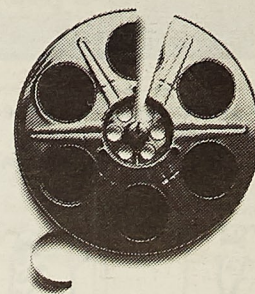

Next time your friend insists on driving drunk, do whatever it takes to stop him.

Because if he kills innocent people, how will you live with yourself?

**FRIENDS DON'T LET FRIENDS DRIVE DRUNK.**
