Mock car crash drives home ideas on drunk driving

Sonya Flynn
Staff Writer

Wednesday October 25, Spencer Murphy, a T.J. Hall resident assistant and a cast of six UMR students presented an enactment of a drunk driving accident in front of the library. Over 100 faculty, students and staff attended, some coming across campus just to check out the hysterical screams of Christy Hargrove, the one of the two living passengers of the drunk driving accident enactment. Bridgit Ganley, also a T.J. Hall resident assistant did special effects make-up on all the injured victims to give the enactment a touch of realism.

Murphy began the accident by giving the audience a scenario of Vanessa Goodwin's twenty-second birthday party. They were only out to share a good time with the birthday girl when the intoxicated driver of their car,

David Bonar, lost control and killed an innocent pedestrian, Peter Kwentus. Murphy used sound equipment and

special sound effects to simulate the car crash. At this

point the 2-door Honda Accord was pretty smashed up as Bodnar staggered out of the driver's side with beer can in hand. Hargrove began screaming when she realized the other passengers, Venessa

Goodwin, Jennifer Duff and

Justin Ryan were bleeding and not responding to her. Then the sirens and red lights of UMR Police and State Patrol arrived on the scene. The offi-

cers checked for survivors finding only Hargrove and Bodnar. Bodnar was immediately questioned, given an intoxi-

gency care to Hargrove while the Rolla Fire Department used the jaws of life to remove the three dead passengers and

pedestrian from the wreckage of the Accord. The four others were pronounced dead on the scene and their bloody bodies were covered with white sheets and lined up ready for the hearse, provided by Null & Son of Rolla.

The Phelps County Coroner and a UMR Police Officer then spoke to the audience about the dangers of drink-

ing and driving. In known cases in the state of Missouri on July 4, 1994 twenty fatalities were due to drunk driving. Out of every 100 fatal acci-

dents 27.7 involved drinking. In 1994 there were 288 persons killed in alcohol-related accidents. Even if no one gets hurt, it could cost approximately \$5,000 for a lawyer and posting bond. You can possibly lose your license to drive and your insurance will greatly increase. The Honda Accord used for the enactment was actually wrecked in a drunk driving accident and came complete with its own supply of alcohol.

Stephanie Franklin, a representative of IMPACT (Intelligent Miners Promoting Alcohol Concern Together), felt Murphy's program was very successful in his intent to promote responsible drinking and said this program will become an annual part of IMPACT Month. Franklin expressed her support in Murphy's coordination of the law enforcement and medical services organizations involved in this enactment. A CSO (Campus Security Officer) commented that it only took witnessing a single drunk driving accident to convince him not to drink and drive.

A smashed car and ambulance added a sense of reality to last Wednesday's mock car crash.

Assessment returns to UMR

Casey Morriss
Staff Writer

It's Assessment time again at UMR and many students have had to endure the three hour Academic Profile Test (APT), while many others have had to hear them complain about it. Whether you are an upperclassman glad to have assessment behind you, or a freshman or sophomore still looking forward to it, it's important that you know what Assessment is all about.

In 1986, then Missouri Governor John Ashcroft declared that Missouri's Universities needed to show how well or poorly they were educating their students. In compliance with this policy, UMR began a

program of educational assessment in 1987, through which juniors at UMR are tested in general education subject matters. According to Dr. Carl Burns, Interim Director of Assessment, "[the program] is one of several measures of how well we're doing our jobs compared to other universities."

During the first year of the assessment program, participation in the testing was on a voluntary basis. When the administration made the test mandatory for all juniors in 1989, the Student Council strongly objected with a resolution that, among other things, declared STUCO's support of "the right of students to non-violently protest mandatory assessment." This act was in vain since the test is still mandatory at UMR. According to Dr. Burns, juniors that do not attend one of the testing sessions will be tracked

see Assessment, page 10

UMR hires new Vice Chancellor

Jeff Leong
Staff Writer

Last month the university chose Dr. Mohammed H. Qayoumi as the new vice chancellor of administrative services. He is to assume the position vacated by Neil K. Smith last December when he moved to the position of Vice Chancellor of University Advancement.

Qayoumi was one of 185 candidates that were considered for the job. He holds many degrees in engineering and has held the position of Associate Vice President of Administration at San Jose State University in San Jose, California since July of 1986. Qayoumi holds a bachelor's degree in electrical engineering from the American Uni-

versity in Beirut, Lebanon; master's degrees in nuclear and computer engineering; an MBA and a Ph.D. in electrical engineering from the University of Cincinnati. Qayoumi also holds a certificate in total quality management from San Jose State University.

The administration is excited to have Qayoumi join the campus. "His knowledge of engineering and administrative background will be a valuable asset to this campus as we progress with our current and future construction and renovation projects," Chancellor John T. Park commented.

The division of administrative services is currently being led by two interim appointments, Randall V. Stoll and Marvin L. Patton. They will return to their original positions when Qayoumi takes over in December. Stoll is serving as Vice Chancellor of Financial Services and Patton as Vice Chancellor of Physical Facilities.

WHAT'S UP AT UMR

All organizational meeting times and places are provided by the Student Activity Center, 218 UCW. Please send all changes to the aforementioned office.

Wednesday

2:30 pm: StuCo Lawyer, Walnut

5:30 pm: Yoga Class, Mark Twain

6:00 pm: Wesley Foundation - Breakaway, Wesley House

7:00 pm: ASCE Meeting, 114 CE

7:00 pm: UMR Student Council "Tuition Panel," Leach Theatre, Castleman

8:00 pm: Kappa Kappa Psi Meeting, 215 ME

8:00 pm: Tau Beta Sigma Meeting, 216 ME

9:00 pm: Newman Center Mass, Newman Center

Thursday

12:00 pm: Intervarsity Christian Fellowship Bible Study, Walnut

12:30 pm: Newman Center Scripture Study, Newman Center

12:30 pm: Civil Engineering Senior Seminar 114 CE

4:00 pm: UMR Physics Colloquium, "Electron-positron Pair Production in Relativistic Heavy-Ion Collisions," 104 Physics

4:30 pm: Chi Epsilon Meeting, 117 CE

6:00 pm: Christian Campus Fellowship Meeting, Mark Twain

6:00 pm: Toastmasters Mtg., Missouri

6:30 pm: American Nuclear Society Meeting, 227 Fulton

7:00 pm: Intervarsity Christian Fellowship Meeting, Meramac

7:30 pm: St. Pat's Committee Meeting, 107C ME Annex

7:30 pm: Bible Study, Lutheran Student Center

8:00 pm: SUB Play: The Devil You Say, Centennial

Friday

7:00 pm: Show-Me Anime Meeting, 204 McNutt

7:00 pm: SUB Movie: Die Hard with a Vengeance, 104 ME

9:00 pm: SUB Movie: Die Hard with a Vengeance, 104 ME

Saturday

1:00 pm: UMR rugby, University of Missouri-Columbia, UMR Rugby Field

6:30 pm: UMR Band Banquet, Centennial West

7:00 pm: UMR Residential Life "Bluegrass Music Party," TJ South Lounge

7:00 pm: SUB Movie: Die Hard with a Vengeance, 104 ME

9:00 pm: SUB Movie: Die Hard with a Vengeance, 104 ME

Sunday

2:00 pm: UMR Bands present the second annual "Band Extravaganza," Leach Theatre, Castleman

2:00 pm: Chinese Student Association Classes, 105, 117 ME

4:00 pm: Alpha Phi Alpha Meeting, Silver & Gold

5:00 pm: Newman Center Student Mass, St. Patrick's Church

6:00 pm: Wesley Dinner and Chapel, Wesley House

8:00 pm: KMNRS Station Meeting, 107C ME Annex

8:30 pm: Omega Sigma Meeting, 204 McNutt

Monday

12:00 pm: Toastmasters International meets, Missouri

3:30 pm: History Club Meeting, 101 H-SS

4:30 pm: UMR Chemistry seminar, "Chiral Separations by Capillary Electrophoresis," G-3 Schrenk

5:30 pm: Gamma Beta Sigma Meeting, Mark Twain

6:00 pm: GDI Governors Meeting, Silver & Gold

6:00 pm: UMR Center for Economic Education "Dinner With Ralph Nader," Centennial

7:00 pm: National Society of Black Engineers Meeting, 204 McNutt

8:00 pm: Public lecture by consumer advocate Ralph Nader, Multi-Purpose Bldg

Tuesday

12:30 pm: UMR Committee on Campus Environment meets, Missouri

3:30 pm: UMR Computer Science Colloquium, "An Efficient Library for Parallel Ray Tracing and Animation," 209 MCS

4:30 pm: Student - MST A Meeting, G-8 H-SS

6:30 pm: Student Council Meeting, Centennial

6:30 pm: Tau Beta Pi Meeting, 114 CE

7:00 pm: UMR Fall Film Series, "Immortal Beloved," 104 ME

7:30 pm: St. Pat's Committee Meeting, 107C ME Annex

8:30 pm: Chi Alpha Meeting, Meramac

Next Wednesday

12:00 pm: UMR Booster Club meeting, G&D Steakhouse

12:30 pm: Sigma Xi seminar, "Intelligent Control of Smart Structures," Missouri

3:30 pm: UMR Electrical Engineering Department Power Engineering seminar, 103 EE

6:00 pm: Wesley Foundation - Breakaway, Wesley House

7:00 pm: AGC Meeting, 114 CE

7:00 pm: AICHE Meeting, 104 ME

8:00 pm: Kappa Kappa Psi Meeting, 215 ME

8:00 pm: Tau Beta Sigma Meeting, 216 ME

9:00 pm: Newman Center Mass, Newman Center

Announcements/ Financial Aid

Now hiring student ambassadors to assist the admissions office with the recruitment of new students. Applications are available in 102 Parker Hall. All applications must be returned by 4:30 Friday, November 3, 1995. For more information contact Julie Parker 102 Parker Hall, 341-4075.

ATTENTION DECEMBER GRADUATES

Commencement announcements are now available in the Registrar's Office for all students who will be graduating on December 16, 1995. These announcements are provided by the University at no cost to the graduate.

BACHELOR AND MASTER STUDENTS

May purchase their attire at the UMR Bookstore anytime after December 6. Bachelor and Master attire does not need to be ordered in advance. Price Bachelor \$20.50 and Master \$42.75 plus tax.

PHD STUDENTS AND FACULTY

Please place your cap and gown orders by November 3 and the UMR Bookstore. November 3rd is the deadline for rental orders. We cannot guarantee delivery of attire placed after this date and a LATE FEE will be charged. Your may pick up your order after December 6 at the UMR Bookstore. The UMR Bookstore will be open Saturday, December 16 from 10:00 am to 4:30 pm. All rentals may be returned Saturday, December 16 at the Multi-Purpose Building in the downstairs hallway following graduation or must be returned to the UMR Bookstore Monday, December 18 by noon.

ALPHA PHI ALPHA WORK DAY
Members of Alpha Phi Alpha Fraternity, Epsilon Psi Chapter will hold its annual Work Day on Saturday November 4. Fund will be raised for Chapter delegates to attend the regional convention. The fraternity members will work at various jobs on a first come basis. Persons interested in contributing to this fund-raising effort should contact the Alpha Phi Alpha Fraternity at 364-9548.

Students are reminded that RESUMES ARE NOT AUTOMATICALLY SUBMITTED BY THE COC to companies for pre-screening for on-campus inter-

Ask Me Anything...

Greetings and salutations once again my pointy-headed readers!!!

I hope you all are enjoying the rapid pace that we seem to have picked up since Mid-Terms. I know I am just beside myself with enjoying the heck out of this.

Before I go any further, I must send a special apology out to one Mr. Bill Niemann. Bill gave me a really great idea for a story dealing with the time change and the mechanics behind it. Unfortunately, I was unable to finish the assignment. In other words, I dropped the ball. I did start the preliminary work on the article which originally was going to have various opinions from a panel of people knowledgeable in the subject of time changes. However, I only got as far as background information in the *Encyclopedia Americana*. Then, for some reason, I got side-tracked (perhaps it is the combination of school, a full-time job, and the *Miner*) and never got back around to writing the article. So, Bill, I am sorry - please don't hate me.

So, with that said, I'll move on to today's topic - whatever that is...

For those of you that are graduating in December (or May for that matter) and seeking full-time employment, you are already aware of the pressures put on you about this time (EIT study and test, graduating, design projects, and job-hunting). However, these aren't the only stresses,

there are also non-academic stresses that you have to worry about. Yes, I'm talking about those well-meaning parents and family members that inquire as to your job-hunting status. I think that there should be a limit to the number of similar job-related questions that can be asked in the last semester (or two) before a student graduates. For those of you that don't know what I'm talking about, let me share a few of the questions with you: "So, have you sent out any resumes yet? How many resumes have you sent out? What does the market look like? Do you have any prospects? What cities have you been looking in?" Yes indeed, these few simple (innocent?) questions can quickly turn an already over-stressed senior into a time-bomb. Now granted, your friends and loved ones are just interested in seeing their child/grandchild/brother/sister/niece/nephew succeed, but they don't realize that they are but one person asking you the same questions over and over and over.

So, what I propose, is for each senior to have issued along with his/her design books, some other graduation essentials. For instance, each senior would be issued a bright fluorescent yellow placard with the top twenty-five most frequently asked job hunting questions and a little box next to each question that would read "Already Asked, Go See _____ (person who asked

the question)" or "Go Ahead and Ask." When the box that reads "Already Asked..." was checked, the question could no longer be asked and would have to be answered by the individual that asked (I've not come up with a punishment or deterrent for the questioners that fail to read before they open their mouths, but I'll leave it to your imagination). This little card would come in quite handy at a family function (especially with the upcoming holidays) or other potential disaster area. The other standard equipment would be a laminated copy of the senior's resume that could be pinned to their clothing. I think this would be a great investment as it would allow the senior to walk amongst the masses (or family members or at pre-screening get-togethers) and advertise his/her qualifications - removing any doubt about major or area of study.

I tend to think that while these helpful devices would be welcomed by the graduate, I don't think that many family members would enjoy all the work they'd have to go through to get some type of answer. But then again, they might get a valuable insight as to the plight of a college graduate in the '90's.

But, I think I've gone on long enough this week. I hope to have "real" stuff for you next week. And Bill, I apologize once again for the "made-up stuff."

Lelsa Wayne

ARE YOU A REAL MAN? TRY THIS QUIZ

Recently, I have been thinking about maleness. What makes men work? I mean, "work" in the sense a machine just keeps on going and going. What goes on in the male brain? Social Science is beginning to (heaven help us) recognize something I would have been glad to tell them years ago. Yes, Charlie Brown, there is a male/female difference other than certain appendages to the human body.

When was the last time you observed a room full of toddlers? You say, "Get real, lady." Well, trust me, somewhere out there, there are rooms full of toddlers both male and female. And believe me, generally speaking, little Johnny sees his world from somewhere that little Suzy will never even think about.

Oh, sure, the basic human characteristics are there for Johnny and Suzy. Things like love, compassion, anger, and aggression are apparent in both of these two little bodies. It's just that the differences rise to the surface as these characteristics surface in certain situations.

Perspective is what defines these differences. The male perspective and the female perspective are poles apart. Believe me.

Just to prove a point men, I ask you to take this test. Are you a REAL man? 1. You are walking across campus late one night after yet another marathon study session at the library. Suddenly, there is a funny-looking little person from the planet XERFGYHUIJ in your path. He/she presents you with a device that will provide completely clean and environmentally safe energy, cure every disease known to mankind, wipe out hunger and poverty, and eliminate oppression and violence all over the earth. This handy dandy "zapper" is yours. Would you:

- Present it to the President of the United States.
 - Present it to the secretary general of the United Nations.
 - Take it apart.
2. Looking back to your ideal childhood. What quality of that life do you miss most?
- Innocence

- Idealism
 - Bottle Rockets
3. When is it okay to kiss another man?
- When he is a "frat" brother to whom you want to demonstrate pure and honest affection without thinking about American social restraints foisted upon us by narrow-minded bigots.
 - When he is the Pope.
 - When he is a member of your mafioso and you are the Godfather and for certain business reasons, this is the only real sportsman-like way to let him know you have to have him killed.
4. When is it okay to hug another man?
- When it is your father and one of you has a fatal disease.
 - When you are performing the heimlich maneuver. (Even at this time, you must loudly announce to the observers, "I am only dislodging a piece of food from his windpipe. He will die if I do not get it out! I am in no way aroused!!")
 - If you are a World Series baseball player who has just run home for the winning run. (Both participants must be wearing protective cups; and to

demonstrate there is absolutely no sexual connotation whatsoever, you must pound upon the other's body hard enough to cause fractures.)

5. Complete this sentence. A funeral is a good time to:

- remember the deceased and comfort his loved ones.
- think about the impermanence of life and its meaning to you.
- tell the joke about the preacher and the prostitute at the Pearly Gates.

6. Complete this sentence. The ideal pet is:

- a dog
- a cat
- a dog that eats cats.

7. You are graduating this December. You are going to the most perfect, mega-job of your wildest dreams. Your P.O.S.L.Q. (Person of Opposite Sex sharing Living Quarters) who has been with you since week one of your university experience begins to wonder about your future together. Together? What do you say?

- "After all we've been through? Of course I want to share the rest of my

Just stop by <http://www.umn.edu/~stpat> and see everything that's happening with the St. Pat's Celebration. There are always descriptions of current events, pictures of the merchandise, and lists of Committee members along with an informational history page and the latest Missouri Miner article. The page is constantly being updated so you can always be kept up to date on everything to do with St. Pat's.

If you really want to get involved with the greatest celebration ever, the St. Pat's Committee will be holding an information meeting on November 14 in the Mark Twain Room of the University Center East at 7:00 PM. If you are interested in what's going on with St. Pat's or thinking about joining the St. Pat's Committee, this is the perfect meeting to attend. As you can see, there is a plethora of things to keep you involved in St. Pat's. Get fired up and keep thinking Green because the Best Ever St. Pat's '96 is only 134 Daze Away!

Aloha! For all of those faithful fans out there of "The Life and Times..." Laurie would like to take this opportunity to let you know that due to unfortunate circumstances --namely her standing up in the middle of the E.I.T. Saturday and faking a heart attack after the 6th hour of filling in dots to resemble Elmer Fudd-- she is quite unable to write this week. She sincerely apologizes and hopes for your forgiveness. Look for "Life" in next week's issue, same Bat Time, same Bat Place.

A familiar scene from Saturday's Miner football game against Southwest Baptist. Quarterback David McCormack, a freshman filling in for the injured Jason Politte, runs the ball himself in the Miners' 12-7 defeat.

Michael O'Shea

Matt Ryan

Staff Writer

The football Miners faced off again this past weekend. In what was easily their most exciting game of the season, they fell short against the Southwest Baptist Bearcats, losing by a score of 12-7. SBU improves to 2-6 overall, while the Miners' record for the season is 0-7 overall and 0-6 in the MIAA.

The Miners had one of their best performances of the season so far. Defensively, they allowed only 12 points, which is their second best total of the season, behind the 3 points that they held Missouri Valley to at the beginning of the season. The Miners were led on defense by linebackers Brian Gilmore and Willie Halliburton. Gilmore had 14 tackles, with 10 unassisted, to raise his season total to 104 total tackles, which leads the Miners. Linebacker Halliburton had 10 tackles, 6 unassisted. Freshman Bryan Lewis had 5 tackles, including one for a 16 yard loss, and was responsible for a sack for an 8 yard loss.

see Football, page 10

Miner soccer season ends on high note

Julio Garcia

Staff Writer

The last two games for the 1995 Miners finished with a tie and a win. The men's soccer season is now over, and UMR finished 10-6-3. Both of last week's games were played at home.

The first game was against University of Missouri-St. Louis, on Wednesday, October 25. The first goal was by UMR. On a corner kick, at the end of the first half, Greg Schulte put a perfect pass for Brian Marks to head the ball in.

In the second half UMSL's Rivermen tried to score a goal to tie the game, but the Miners' defense was very effective. Unfortunately, with only 50 seconds left in the game, Kurt Bruenning of UMSL managed to make a pass from the end line and Justin Staus put the ball in. This forced the game to overtime. In the first half of overtime, UMR's Gary Graham scored a goal for the home team, on a shot from outside that was poorly deflected. However, luck was not with the Miners. With only five minutes left in the second half of overtime, Riverman Joe Thompson kicked the ball in. It was a ball in the box that neither UMR's

defense nor the goalie could control. With this error, UMR lost the opportunity to defeat UMSL's team. The game then finished with a tie.

This last Sunday, October 29, the Miners played against the Lewis' Flyers. On a really beautiful afternoon, UMR started their last game of the season. It took a while until both teams started shooting on goal. On the minute 15, UMR's Scott Sewell was left alone with Lewis' goalie, and shot to goal. The shot was deflected by the goalie and forced a corner kick. From the corner kick, another shot on goal

Intramurals

This week's intramural athlete of the week is Keith Pimmel. Keith helped Sudden Impact to a 6-2 softball record by pitching. He also finished first place in cross-country with a time of 17:29.

The IM team of the week is Phi Kappa Theta's football team. Phi Kaps went undefeated and won Division 1 football. They defeated their opponents by an average of 17+ points.

Lady Miner soccer ends

On Monday, October 23, the Lady Miners played their last away game of the season against Missouri Baptist. The game was a defensive battle between the two teams, which ended in a scoreless tie of 0-0.

In their last home game of the season the Lady Miners were visited by University of Missouri-St. Louis, this past Wednesday. The teams were evenly matched in their offensive strategies and ended the game with ten shots each. UMSL had the defensive advantage with a total of seven goalie saves over the Lady Miner's five. After a scoreless first half, UMSL's Jenni Burton scored two points, each using the same scoring technique. The game ended with a final score of 2-0, and the Lady Miners ended the season with a record of 7-11-1.

■ Melanie Claxton, Staff Writer

M-Club Athlete of the Week: Natalie Sanders

Natalie Sanders of the Lady Miner soccer team

M-Club's UMR Athlete of this week is Natalie Sanders, a sophomore majoring in electrical engineering. Sanders is a member of the Varsity Women's Soccer team and was voted the most valuable player in their last game of the season. Natalie was said to be "all over the field" with excellent play against a very good UMSL team. The final score ended in a 2-0 loss, however, it was a valiant battle to the finish. The Soccer team's record this fall was eight wins, eleven losses, and one tie, but the team has high hopes for next year. Good luck in the future and congratulations on being UMR's Athlete of the Week, Natalie!

NFL: underdog power

Andy Enzenauer

Staff Writer

What kind of world do we live in where the powers crumble under the pressure of being upset by the underdog? Just ask the 49er's, the Falcons, the Panthers, or anyone beaten by the now hapless St. Louis Rams.

Let's take a trip to Candlestick Park where it was San Francisco and New Orleans. Even though Jerry Rice snapped James Lofton's 14,004 receiving yards with eight caught passes for 108 yards to compile 14,040, it wasn't enough. It looks like Elvis is dead after all.

The Cowboys continued to do their thing against the Falcons who look like they still haven't filled the void that Deion Sanders had left. Speaking of which, he made his debut with the Cowboys quietly while he only caught one pass for six yards.

And mild blocking at cornerback. Emmitt Smith had 167 yards on the ground, while Troy Aikman had 198 yards passing and two TD's.

The Carolina Panthers squeaked by in Foxborough to win their third straight against the New England Patriots with John Kasay's 29 yard FG at seven minutes eight seconds of OT. The Panthers are the first expansion team to win three in a row. Meanwhile the Jacksonville Jaguars sat on their thumbs as the Pittsburgh Steelers rolled to an easy victory 24 to 7. The Steelers looked like they found what they lost from 1994. Either that or the Jaguars are truly pathetic.

Finally, the Oilers snapped the joys of the Buccaneers with a 19 to 7 victory with the help of Chris Dishman. He cut Trent Dilfer's club record of consecutive passes without an interception at 138, which incidentally ended in a touchdown to gain Houston's first win at home this season.

NBA season starts Friday: more dealin'?

Welcome once again die-hard sports fans! Before this article even begins, I just wanted to point out that I know I screwed up last week when I said Spud Webb was the NBA's shortest player. Actually, it's Muggsy Bogues, at 5'3" (Spud Webb is a towering 5'7").

Since it's still the preseason for the NBA, not a whole lot has happened since last week, but never fear! The season officially starts Nov. 3rd,

this Friday, and then the fun begins. Possibly affecting the beginning of the season are trade rumors of Hornets' star center Alonzo Mourning. Word around the league is that 'Zo could be traded to the 76ers, Lakers, or Boston specifically.

This week's info has been short, but starting next week I'll do my best to keep all you stat-keepers up to date each week.

■ Chris Kulifay, Staff Writer

Soccer

from page 5

was made by the Miners. But Lewis also made some offensive plays. Around minute 20 of the first half, Flyer's Chris Doran had an opportunity, and shot to goal. He scored the first goal of the game. Shortly after, after a pass from one side, Scott Sewell was left alone with the goaly. This time the ball hit the net, making the score (1-1). The first half finished with that score.

In the second half, Lewis University had the intentions of winning the game. Only with five minutes into the second period, a second goal put the visiting team up on the score board. The Miners fought back, and after an excellent pass from UMR's Benton

Schmalte, Sewell hit the ball hard with his head between two defenders and the goalie. The game was tied again. On minute 32, Doran, from Lewis, got fouled in the small area. This gave the visitor team the opportunity to score a goal from a penalty kick. Luckily UMR's goalie Kevin Levy anticipated the direction of the kick and deflected the shot out. The game finished in a tie, forcing it to overtime. This time UMR's Gary Graham was fouled in the small box. He shot the penalty kick and the ball went in. UMR won the game 3 - 2 in overtime.

This was a great season for the team. Watch for more Miner's soccer action coming to you next fall.

One Last Time

A long time ago, in a TG&Y far, far away, I was an energetic little five-year old. Running through the toy section, I came upon my first experience of what would soon become the greatest films ever made, but also a marketing juggernaut. For those of you who have been in a coma for the last twenty years, I am referring to The Trilogy, *Star Wars*, *The Empire Strikes Back*, and *Return of the Jedi*. From discussions of the moral implications of the power of free will, or by the enhancements made for special effects in film, these films have made a huge impact on society.

So why am I writing this week about The Trilogy? Yesterday, October 31, the world saw a national release of the THX, letterbox version of The Trilogy. As the regular readers know, I am a giddy schoolboy when it comes to letterbox films, so this release is rather significant. For those of you that do find letterboxing superior (and can't afford a laser disk player!), I recommend grabbing the set before the sale of the

items expire on January 31.

Also currently in stores, Kenner has re-released the *Star Wars* action figures and ships. The figures: Ben, Luke, Han, '3PO, R2, Chewwie, Stormtrooper, and the Dark Lord of the Sith; and the ships: X-wing, TIE fighter, the Falcon, and a Landspeeder; are all on sale now, in your local Spencer's. Why

Spencer's, I don't know, but that is the only place we (the collective group I parouse with known as friends) have seen these on sale. By now, if you are still reading, you are wondering if there is point to this. Well, all this hype about The Trilogy going on now is a pre-hype, which leads to the main events. On May 25, 1997, the world will see the release of the 20th anniversary of *A New Hope*. The movie will be remastered digitally, re-recorded in THX, and contain an enhance cantina scene. Also included in the movie will be the Jabba scene and the Biggs scene.

Ohh, big deal, *Star Wars* again. Supposedly, one year later, we will be treated to Episode I of the *Star Wars* saga. The movie, which will probably be directed by George Lucas himself, will deal with the Clone Wars, and the budding friendship between Ben and Anikin, which will change the focus of The Trilogy from being a heroic story of Luke Skywalker to the tragic hero of Anikin Skywalker. a.k.a. Darth Vader.

Blue Keys are Here!

Blue Key
SOURCE

The 1995-96 Blue Key Student Directories have arrived! They have already been distributed to those living in the Residence Halls and Greek Houses. To make sure all students have an opportunity to receive their copy, we have placed the directories in the Ticket Office in University

Center-West. They can be picked up now. At the end of November, we will place what is leftover by the Miner bins on campus. Two copies of the Blue Key will be given to each departmental secretary. Faculty and Staff are welcome to whatever is left at the end of November.

Blue Key would also like to thank all the student organizations and campus service departments that placed ads in this year's directory. Their contributions make it possible to provide a free campus directory to all UMR students.

SUBconscious

Feared and hated by all humankind, he has roamed the earth for countless centuries. Evil is his domain, cruelty and utter destruction his deeds. And his enemy...the most powerful force in the universe.

The Student Union Board will be presenting "The Devil, You Say!", written and directed by playwright Scott Keely, on November 2nd, at 8:00 in Centennial Hall. "The Devil, You Say!" is an evening of conversation with the Devil...and indifference is

not allowed. This is a stunning and provocative look at man's concept of evil, a timely experience not soon to be forgotten.

Also, SUB will be showing *Die Hard With a Vengeance* at 7:00 and 9:00 p.m. on Friday and Saturday evenings.

So, be sure to attend "The Devil, You Say!", 8:00 p.m. Thursday, in Centennial, or the movies this weekend shown in M.E. 104. Admission to both is free with a valid UMR I.D.

Jeff Daniels

The Miner Music Review

Not much to report in the world of Rolla music, except don't forget to go to the Freakers Ball on Nov. 3. One Violet Green will be playing, and that is at Miner Rec. If you are in St. Louis this coming weekend, Gwar is playing at Mississippi Nights Friday. JimBob and I will be there. Saturday --also at Mississippi Nights-- Big Head Todd and the Monsters will be playing. I am trying to get tickets for that one, it is a concert not to be missed. Without further ado here are the reviews.

Little Feat
Ain't Had Enough Fun
Zoo Entertainment

Performance 8
Sound Quality 8

I want to thank those nice people at Zoo Entertainment for sending this cd. This has to be one of the best cds that I have listened to in a long time. After 25 years of rocking, Little Feat can still put together a great selection of songs. You will quickly find yourself tapping your toes and whistling along to

Little Feat

Little Feat's unique brand of rock that blends rock with a Louisiana Cajun blues sound and some contemporary R&B. There is also an undertone of Latino and African roots. What comes out is great. Little Feat describe this release as "ridin' in the car with the top-down kind of album," as a convertible owner I think that they hit the nail on the head.

All you Feat fans out there will notice a change on this album. The most noticeable one is their new lead

vocalist, Shaun Murphy. The band describes her as sounding like Etta James; I kind of agree if you throw in a little Bonnie Raitt. Yes, a female up front of a band that is in its third decade. This seems like a risky move to make for a well established band; the fanatical Feat fans out there could give the parrot-heads a run for their money. They could have kept putting out albums and remained very popular, but they took a chance and it paid off big. I am not knocking their past

releases. *Representing The Mambo* is still one of my favorites. I just can't say enough good things about this cd.

Shaun Murphy up front is not the only change that the band has undergone. The lead vocalist Craig Fuller quit the band in '93. The Little Feat longtime cover artist, Neon Parks, died. Their record label folded. Little Feat turned all this around and showed what they are made of.

There isn't a bad song on the album, but I will give you a few of my favorites. The opening track, "Drivin' Blind," is the best of the collection. This is high-paced song that will really get your toes a tappin'. It has an interesting hint of Louisiana blues accordion. It is one of those songs that can change your whole mood to a happier one. On the other side there is "Borderline Blues," a dedication to the ex-Little Feat member Neon Parks. It is a very good, slow sad song with a real southwestern feel. Despite its sad overtones it is nonetheless a great song and a fitting eulogy for a friend. I could go on talking about every single song, they are all so good.

I will let you discover them yourself.

If there is one cd the whole semester that I reviewed that I would recommend you to get, this would be the one. If you ever get a chance to see them live, do it. I saw them a little over a year ago, and it was one of the best shows that I have seen.

STUDENT COUNCIL

Student Activity Fees to be discussed at Open Forum

Joe Wilde

StuCo Source

Each year, UMR students are required to pay a set amount of money to cover "student activities." This amount is determined each year by the Student Activity Fee Board (SAFB), and is based on student opinions, usage, and significance of the activity to students at UMR. However, a lot of students have wondered just exactly what activities are covered by these fees. The following is a list of the organizations, the name of their representative, and their '96-'97 recommended fee. There is also a description of each organization so students know exactly what they are paying for.

Associated Students of the University of Missouri/Ross Whittier; \$1.14 - ASUM serves the needs and interests of the UM students on a state-wide political level by supporting student lobbyists who travel to the state capital to meet with state representatives and discuss student issues with them.

Athletics/Mark Mullen; \$55.00 - Athletics covers a large group of activities that serve the majority of the student population. The athletic budget covers both varsity sports, as well as all intramural activities.

Blue Key/Jerome Riemann; \$0.32 - The Blue Key National Honor Society is a service organization that contributes to UMR through several projects each year. Blue Key is responsible for the Blue Key Directory, which is a student directory, presented free of charge.

Capital Fund/Kenneth Voss; \$0.00 - The Capital Fund provides funding to groups for the purpose of one-time purchases that exceed \$5000. Only organizations recognized by Student Council are eligible to receive this funding.

Castleman Hall Use Subsidy/Bill Wilson; \$0.10 - Leach Theatre is located in Castleman Hall, and the student fee lowers the cost of its use by student organizations.

Cheerleaders/Dionne Roberts; \$0.28 - The UMR Cheerleaders create positive school spirit for the athletic teams

at their games. They attend all the home games, and over half of the away games. They also attend various public appearances on behalf of the teams.

Club Appropriations Fund/James Cain; \$2.76 - The Club Appropriations Fund provides funding to student organizations that would otherwise not be able to fund themselves. It focuses primarily on helping new organizations get started.

Council of Graduate Students/Yvonne Liske; \$0.75 (graduate students only) - The Council of Graduate Students represents the graduate student's interests on campus. They create a link between the graduate students and the administrative faculty.

UMR Golf Course/ Mr. Randall V. Stoll (Dir. Purchasing, Dir Business Services); \$2.00 - The UMR Golf Course consists of a 9-hole course, a newly completed club house, and a driving range. The course offers merchandise sales, equipment rental, and formal lessons.

KMNR/Brent Hedding; \$5.00 - KMNR is the student-operated FM

stereo broadcast radio station located on campus. It provides music, news, weather, and educational programming to all UMR students, as well as the Rolla community.

Missouri Miner/Brian Fortelka; \$3.25 - The Missouri Miner is UMR's campus newspaper. It informs the students of news, sports, and other events that are important, interesting, and humorous.

Non-Varsity Sports/James Cain; \$2.04 - The Non-Varsity Sports teams at UMR include the following: Tae Kwon Do, Rugby, Trap & Skeet, Water Polo, Volleyball, and Roller Hockey.

Organizational Secretarial Staff/Kenneth Voss; \$2.90 - The Organizational Secretarial Staff is a new fee this year that will establish the salaries of the permanent secretarial staff for Student Council and ASUM to a separate line item.

Rollamo/Amy Rogers; \$12.00 - The Rollamo is the UMR yearbook, which provides students with a publication of all the events that took place during the school year -- both on campus, and off.

St. Pat's Celebration Committee/Brian Gibson; \$1.00 - The St. Pat's Celebration Committee is responsible for the conduction of the annual St. Pat's Celebration, including the parade, Gonzo, Follies and, of course, Alice.

Student Council/Nancy Lambertson; \$1.55 - The Student Council represents the interests of the student body in student, university, and governmental affairs. They are the primary representatives of the students to the faculty and administration at UMR. They also keep students informed of relevant events. They also coordinate student activities and regulate and allocate funds.

Student Union Board/Steve Truemper; \$12.00 - SUB is responsible for providing a full spectrum of cultural, recreational, educational, and entertaining programs while at the same time, teaching its members leadership skills.

University Center/Joe Ward; \$19.00 - The University Center is used by all students for organization meetings, special events, and leadership programs.

Ask Mr. StuCo about Student Activity Fees

Tom O'Neill

StuCo Source

The most joyful part of the semester for most students is probably when the bill from the University arrives. Yeah, right. One of the categories on that bill is Student Activity Fees, and it amounts to about \$120 per semester. Over the roughly 4.5 years that most students are here, that suddenly becomes OVER \$1000 DOLLARS! So what happens to all that cash? Well, it is divided up by

the Student Activity Fee Board among the student organizations which apply for funding.

If you have any questions about how this process works, or the recommendations for this year's fees which are soon to be voted on, pay attention, this is the important part! Monday September 6, during the ASK MR. STUCO radio program, the hot topic for the discussion will be Student Activity Fees.

Tune in to KMNR 89.7 at 8:00pm, and call in with any questions and thoughts pertaining to the upcoming fees. The phone number is 341-4272. It's your money so tell them how you feel about how it is spent!

What the heck is a Diwali?

Sunday evenings...usually a pretty boring evening in Rolla. Well not this week! This Sunday evening, the Indian Association presents the Diwali Festival. This includes authentic In-

dian dancers, dinner, and even an orchestra. Everyone is invited to join them on Sunday Nov. 5, 1995 at 6:00pm in Centennial Hall, UCE.

■ Daisie Hobson, StuCo source

Haunted house in Rolla? A Halloween special

Jason Sallee
Staff Writer

Do you believe in ghosts? If your answer is no or uncertain, then you are among the majority of people who disbelieve in spirits and phantoms. However, some people have strong reason to believe in ghosts. Four such individuals are students here at UMR.

Brian Repke, Joel Mikelonis, Chris Linneman, and Robert Butler claim to be living in a haunted house. They and their friends have witnessed several strange incidents which they have attributed to a ghostly presence in the house.

The four moved into the house in August shortly before the start of school. It was not long afterwards that the strange events began. "The light upstairs in Joel's room would flicker on even though the lights were off. We thought it was just bad wiring," Brian said. "Then Bartel saw her one evening."

Rob Bartel, a friend, was at the house studying with Joel. "He glanced down the hall and then back to his book. A split second later he turned his head to look down the hall. He swears he saw a woman with long dark hair wearing a white dress," Joel said.

About a week later Joel saw the same woman early in the morning. "It was about 3 AM. It was raining really bad so I went downstairs to close the windows. When I was coming back I saw her in the kitchen and then she disappeared."

Chris and Robert had the strangest encounter with the ghost. They were upstairs playing darts with their friends Carl Pinckert and Jeremy Vacek in an unused bedroom. During their game the lights in Joel's room flickered on and then turned off again. This happened once again a few minutes later. "Then we heard footsteps. Everybody stopped moving and we could still hear them. It sounded like they were on the ceiling," Carl said. "We looked at each other and then the door to Chris' room slammed shut. We heard more footsteps and then we all ran downstairs. Jeremy went upstairs

later and the door was open, but we knew it was latched when we left."

I have witnessed an incident as well. I was in the dart room throwing practice games when the light in Joel's room flickered on. At first I thought it was bad wiring, but then I noticed a clicking sound that accompanied the flickering. The clicking was very similar to the sound of a light switch turned on and off. I ran into Joel's room, and the flickering stopped.

Joel investigated the history of the house as best he could. After finding little at the Rolla Public Library, one of the librarians put him in contact with a woman who knew the owners. According to the woman, a man and wife owned the home around 1948. The wife died and the man remodeled the home and sold it.

"We guess the ghost is the wife of the guy who sold it," Brian said. "We don't know her name, so we just call her Sheila." For the past few weeks, Sheila has not been seen. Perhaps she's adjusted to the new tenants and accepts them. Or maybe she's just conserving her strength for one big scare on Halloween.

Assessment

by the testing center and blocked from registering for the following semester.

If the test was voluntary, it might not accurately reflect the general knowledge of the entire student body, Burns said. "It would be easy for a school with a voluntary program to provide incentives for their top students to volunteer for the test. The test results for this school would then be higher than justified." In fact, Burns said, the Missouri Coordinating Board for Higher Education (CBHE), which regulates assessment programs throughout the state, has a program of financial incentives for schools that test all their students and penalties for those that do not.

For several years the C-BASE test was used, but students and faculty complained that the test was neither useful nor challenging to UMR stu-

dents. In 1994, therefore, the mode of assessment was switched from C-BASE to the APT. Burns said that the faculty on the assessment committee felt that the APT would be more useful in determining possible strengths and weaknesses for a student. This information could then be helpful in advising the student.

After the assessment sessions each year, all the tests are shipped off to be scored, and the mass results are returned to UMR in order to determine strengths and weaknesses of UMR's general education program. Individual test results are available to students and their advisors to aid in scheduling for future semesters. Burns also noted that in the past, some students reported above average test scores on resumes and applications. According to Burns, the individual test results never appear

anywhere in the student's record, and have no negative effect on the students' career at UMR or in the future.

With the student feeling no real effect from his performance on the test, the effort put forth comes into question. Tales of making deals with the "bubbles" on the test seem to circulate around campus around assessment time every year. Burns noted that in questionnaires distributed with the test, "The vast majority of students indicate that they take it seriously enough to put forth fair to good effort." Burns attributed this to the competitive nature of UMR students, and their desire to do well on any test put in front of them.

Students that are required to take the test are notified through the mail by the Assessment Office, and given a schedule of choices for test sessions.

Football

On offense, the Miners were led by David McCormack, starting at quarterback due to injuries to Jason Polite and Joe Knapp for the second straight week. He was able to pass for 70 yards on 6 completions in 20 attempts and run for 85 more yards. McCormack punted twice, averaging 41.3 yards per kick. He was ranked 16th in the NCAA Division II category for punting with an average of 40 yards per kick. Running back Steve Hodson also continues to lead the Miners, as he rushed for 60 yards in 17 attempts. Sophomore Elliott Jackson grabbed three passes for 32 yards, including two that kept a drive alive on third down, and another that scored the Miners touchdown. Senior tight end Bryan Tilley caught

two passes for 15 yards.

Southwest Baptist was led by quarterback Albert Castleberry. He rushed for 115 yards and threw for 57 more. Running back Cory Christian also had a big day for the Bearcats, rushing for 127 yards.

The difference in the game was in turnovers. The Miners had 5 fumbles, 4 by McCormack, as well as two interceptions. The Miners lost the ball at crucial times in the game. They fumbled the ball on their own 29 yard line on the first play of the game, setting up SBU's first touchdown. The next fumble by the Miners came on their own 40 yard line and set up the Bearcat's second scoring drive. Two other fumbles killed a 57 yard drive on

SBU's 15 yard line and a 41 yard drive on SBU's 24 yard line in the fourth quarter. The Bearcats fumbled 3 times and lost 2, while Castleberry threw one interception.

The Miners played well enough to win on Saturday, but came up just short. They are improving, which is to be expected with such a young team. UMR has only 3 seniors on the team, and all but two statistical categories are led by underclassmen, with juniors atop the other two categories. The Miners play next week at Pittsburg State in Pittsburg, Kansas. The Gorillas were ranked 4 in NCAA Division II last week, but are hoping to pose a challenge on Saturday.

Bogan receives award for film

Jeff Leong
Staff Writer

Dr. James Bogan, professor of art at UMR, received the gold CINDY award early last month for co-producing a documentary film. The film, "Tom Benton's Missouri," is a review of Missouri's history as represented by the Benton mural in the Missouri Capitol Building in Jefferson City.

The CINDY award honors informational media in both broadcast and non-broadcast categories. CINDY is an acronym for Cinema in Industry. "Tom Benton's Missouri" was one of 2000 entries in the competition for this award. Other gold winners were HBO/Warner Music Group and Disney Educational Pro-

ductions/CB Productions.

Dr. Bogan co-produced this film with the help of Frank Fillo, director of the University of Missouri System's cooperative video and film unit.

The film is meant to be used for educational purposes in history, literature, and art classes throughout Missouri. It is distributed nationally by Films For the Humanities.

The film has also won awards from other sources as well. They include a CINE Golden Eagle Award, a national television industry Telly Award, first place in the Great Plains Film Festival and an Award of Exceptional Achievement from the Council for Advancement and Support of Education. Also, the film has been nationally honored by the American Film and Video Festival, the Birmingham International Educational Film Festival, and the U.S. International Film and Video Festival.

Multi-purpose expansion to open soon

Rolla, Mo.— The new Student Recreation Center at the University of Missouri-Rolla, located off the west wall of the Gale Bullman Multi-Purpose Building, will be open for use Monday, November 6.

Initial building hours will be the same as they are for the Bullman Multi-Purpose Building. They are 8 a.m. - 10:45 p.m. Monday-Friday, 10 a.m. - 10:45 p.m. on Saturdays and 1 - 10:45 p.m. on Sundays. Students will

be required to have their UMR identification cards to enter the building as there is a check-in area at the entrance.

The entrance to the recreation center is located on the ground level of the facility's northeast corner.

Building and scheduling policies for the new facility will be available at the check-in desk in the recreation center and on the bulletin boards within the building.

■ UMR Athletics, Source

Rolla is about to get Singled Out

In answer to the ever-present complaints about the dating situation at the university, a fund-raiser based on the television show Singled Out will be held at Kappa Sigma this Saturday, November 4 at 7:00 p.m.

Presented by Chi Omega, the game will match up a few lucky people for dinner. One male and two female contestants will be brought from off campus to choose UMR students as their dates. Contestants se-

lect their companions by choosing from categories on an application that all participants complete.

Categories are based on everything from hair color to clothing style and the activity will promote campus relations and socialization. Tickets are available for two dollars in advance or three dollars at the door and entitle the purchaser to participate in the game, or just sit back and watch the fun.

THETA TAU OMEGA

PRESENTS

"Freshman of the Year" Interviews

Date: November 7, 1995

Time: First Interview @ 6:00pm

Place: Eng. Mgt. 103

To be eligible for this \$250 scholarship you must have been a freshman at UMR last year and must be of sophomore standing (30 hrs.) at UMR now. Criteria for selection will be GPA, campus activities, campus honors, and the interview. Applications are available from your house presidents or by contacting Greg Morrow. Applications are due on or before Oct. 31st and can be submitted to the Theta Tau mailbox or to any Theta Tau member.

ANY QUESTIONS?

CONTACT GREG MORROW @ 368-5303.

Aid

views. Each student must submit their own resume through the system to each company in which they are interested.

STUDENT FINANCIAL AID

Bright Flight checks are now available in the Cashier's Office, G-3 Parker Hall. Their office hours are from 8:15 to 3:15 Monday thru Friday. For more information and/or applications pertaining to the following scholarships, contact the Student Financial Aid office, G-1 Parker Hall.

There is a new service The Admissions & Student Financial Aid Office is offering on the World Wide Web called FASTWEB (Financial Aid Search Through The Web). Its location on the web is "http://web.studentservices.com:80/fastweb".

FASTWEB is a freeuser-friendly service in which a student completes an online personal profile pertaining to his biographical information, including parent/student activities, background, and college/major information.

Upon completion of this profile, FASTWEB begins its search, and within minutes the student is presented with a detailed online list of outside grants, scholarships, fellowships, internships, and loans he is eligible to apply for. Approximately 1200 new awards are added to the FASTWEB database each day.

FASTWEB automatically updates each student's profile based on these new awards. FASTWEB also provides a general information section describing various Federal Student Financial Aid programs.

Students are encouraged to use FASTWEB to learn more about financial aid and keep abreast of eligible awards.

VIVARIN ANNOUNCES "THE VIVARIN THERE'S NO PLACE LIKE HOME PAGES CONTEST"

A \$10,000 scholarship is to be awarded to the college student with the coolest web site on the internet. Starting September 1 through October 31, 1995, students who visit the Vivarin home page on the World Wide Web (http://www.vivarin.com/vivarin/) can enter their web site address using an electronic entry form. Entries will be judged based on creativity, design, content, accessibility/navigability (ease of use), use of hot links, and value of the service provided.

RURAL MISSOURI, INC.

If you have been employed as a farmworker in the past two years, you may be eligible to receive free tuition assistance for your education. If you have worked as a farm, orchard, greenhouse or poultry/egg production employee, you may qualify. To obtain details and the field representative closest to you call 1-800-234-4971.

PETER D. COURTOIS CONCRETE CONSTRUCTION SCHOLARSHIPS Two \$1,000 (U.S.) awards are available through the ACI Concrete Research and Education Foundation (ConREF) for undergraduate study in concrete construction for the 1996-97 academic year. The Peter D. Courtois Concrete Construction Scholarships honor the memory of Peter D. Courtois, whose long-term commitment to practical achievements in construction focused on the fields of formwork and tilt-up construction.

REQUIREMENTS:

These awards are open to any undergraduate student in the United States or Canada. The student shall have achieved senior status in a four-year or longer undergraduate program in engineering, construction, or technology during the year for which the awards are presented. The awards will be made on the basis of demonstrated interest and ability to work in the field of concrete construction.

* The student must have a course load of 6 or more credit hours each semester during the period for which the award is made.

* The student must be a senior during the year for which the award is made

* Transcripts, recommendations, and an essay must be submitted as outlined on the application form.

APPLICATIONS AVAILABLE FROM THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL OR BY CONTACTING ACI CONREF, P.O. BOX 19150, DETROIT, MI 48219-0150.

APPLICATION DEADLINE MUST BE RECEIVED IN DETROIT NOT LATER THAN JANUARY 15, 1996.

STUDENT RESEARCH AWARD - COMMITTEE 228 ON NONDESTRUCTIVE TESTING OF THE AMERICAN CONCRETE INSTITUTE 1996 ACI-JAMES INSTRUMENTS STUDENT AWARD FOR RESEARCH IN NDT OF CONCRETE

One \$800 (U.S.) award is available through ACI Committee 228 on Non-destructive Testing for original and innovative research in the field of non-destructive testing of concrete. The ACI-James Instruments Student Award is sponsored by James Instruments, Inc., a Chicago-based manufacturer and distributor of NDT systems for concrete. The award also consists of an engraved certificate an ACI membership for one year, regular or student membership, as appropriate.

REQUIREMENTS:

* Research work shall be original and performed by a student while enrolled in a degree program, graduate or undergraduate, at an institute of higher education.

* Research should be on a topic related to NDT of concrete and must focus on

or possibly lay the foundation for the development of an NDT method for concrete.

* Applicant need not be enrolled at the time of submission but the work must have been completed within two year of the date of submission.

* Applicant must be the primary author of the paper submitted. The paper must be in the form of a technical paper conforming to the Applicants must submit the application along with a UMR transcript and essay explaining why you feel you deserve scholarship consideration.

* Selection will be based upon academic achievement, leadership qualities, and financial need.

APPLICATIONS AVAILABLE AT THE MINORITY ENGINEERING PROGRAM (MEP) OFFICE, 107 NORWOOD HALL AND THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL.

Completed application and UMR transcript must be returned to either the Minority Engineering Program (MEP) Office or Student Financial Aid Office.

DEPARTMENT OF THE ARMY U.S. ARMY HEALTH PROFESSIONAL SUPPORT AGENCY.

Let the Army pay your pay through Medical, Dental Optometry School, or a Doctoral level degree in Clinical/Research Psychology. Scholarship includes: Full tuition, Required books, lab fees, required equipment rental, \$865.00 Monthly Stipend.

FOR MORE INFORMATION ON ARMY SCHOLARSHIP OPPORTUNITIES CONTACT: CAPTAIN DINO L. MURPHY OR MRS. SHARON MACKENZIE AT 1-800-829-0924.

AMERICAN SOCIETY OF HEATING, REFRIGERATING AND AIR CONDITIONING ENGINEERS, INC. FOR UNDERGRADUATE AND GRADUATE STUDENTS.

Applicants for either program should be involved in the heating, ventilation, air conditioning or refrigeration (HVAC&R) fields or in related areas. These may include indoor air quality, energy conservation, human comfort or HVAC system design, operation or maintenance. For more information and applications contact the Student Financial Aid Office, G-1 Parker Hall. Application Deadline: December 15, 1995.

CHRYSLER ANNOUNCES NEW SCHOLARSHIP PROGRAM

With an eye toward assisting outstanding college bound students, Chrysler Corporation recently awarded \$1,000 grants to 40 recipients through its new Junior Golf Scholarship Program. Even though the majority of the winners play golf, all sections were made based on their academic and extracurricular efforts. For more information on this exciting program call 1-800-856-0764.

GLAMOUR MAGAZINE'S 1996 TOPTEN COLLEGE WOMEN COMPETITION

Any woman who is a full-time junior (third year of undergraduate study) at an accredited college or university for the 1995-96 academic year is eligible to enter. This competition recognized exceptional achievements; the vision, determination and academic excellence of female college juniors from across the country. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Deadline must be submit by: January 31, 1996.

LIEUTENANT GENERAL EUGENE F. TIGHE, JR. MEMORIAL SCHOLARSHIPS

REQUIREMENTS:

* Are enrolled in a full-time undergraduate or graduate course of study at an accredited college or university in the United States as of January 5, 1996; carry a minimum cumulative 3.0 GPA as of completion of the last quarter or semester for which grades are available; have a minimum of one (1) se-

mester or two (2) quarters remaining, as of December 31, 1995, united their projected graduation.

* Complete the application with all information requested and submit it with the essay postmarked no later than January 5, 1996. The application must agree to all stipulations of the announcement and application.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application must be postmarked no later than January 5, 1996.

MSPE ST. LOUIS CHAPTER AUXILIARY SCHOLARSHIPS FOR 1996-97 ACADEMIC YEAR

The Missouri Society of Professional Engineers, St. Louis Chapter Auxiliary, is pleased to announce that we will once again be awarding three (3) \$1,500 scholarships to aspiring engineering students for the 1996-97 school year.

REQUIREMENTS:

* Be a Junior or Senior Engineering student in the 1996-97 Fall Semester attending a Missouri College or University.

* Have good scholastic achievement.

* Reside (both student & parents) in the Metropolitan St. Louis area to include the counties of St. Louis, Jefferson, Franklin, St. Charles, Lincoln and Warren.

* Have a financial need.

* Be a US citizen (a green card will no qualify).

* Former recipients are also welcome to apply again.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Deadline: Must be submitted to the Student Financial Aid Office, by November 17, 1995.

"AN OLD BAR WITH A NEW ATTITUDE"

Music

might think they had some genetic offspring and somehow compiled one. The variety and overall tone of this album leaves a taste of musical influence, in my opinion, from the bands previously mentioned as well as a hint of Christian background. They all had their mark in Rock music and for a band to take a piece from each and add a bit of flair of their own to it actually made me grin a bit. The simple and complex guitar riffs, hard impact drum beats, and the vocals of Tony Yoanson actually made me feel like I heard these guys before. I couldn't quite place it, but I guess it had to be the influences that familiarized me with these guys. The first song "Judas Kiss" is not your average song. The lyrics in itself, I believe, are trying to compare a girl's life with the life of Judas's betrayal to Christ or something of the sort. I am not sure if these guys are trying to add some subliminal Christian music in the background, but if they are, sorry guys, no vibes here. A lot of these songs brought out the possibility that they worked with Stryper, yes, the Christian rock band

that turned metal years ago. "End of Nothing" brought out the Dream Theatre image. I really like it when you hear a song for the first time and after the first 20 seconds you really dig it. There are a few songs on here that I didn't care for, such as "God of Man," "Mercy Me" and "Free my Mind." Here goes that hidden religious message stuff again...I think when one adds one plus one, they normally get two, so in this case as we get further in the music, there has to be some sort of religious crossover here...I wish I could find out from these guys if that is true...it would make things easier on people who work in record stores to put these guys in either Rock or Christian. Overall, I would say these guys got what it takes to make it, but need to pick a side in the lyrics, to many relations between god and people just leaves the mind to wonder. I enjoyed this album, but think that their next release will be much better.

Jimbob

Misery Loves Company

Misery Loves Company
Farache Records

Performance	7.5
Recording	8.0

This full length Earache debut from Swedish grinders Misery Loves Company makes a promise of musical destiny that deserves notice and warrants respect (not necessarily in that order). Since '94, Misery' has been pummeling Swedish audiences, garnering acclaim both critical and (more importantly) public, in addition to receiving three Zeppelin nominations (the Swedish Grammys) in the process.

In what's perhaps best described as an alchemic bond of fire and ice, Misery Loves Company may qualify as the largest of uncut gems. Wrapped around a fiery coil of grinding guitars and a pulse ripping rhythm section, swirls chilling programmed sound bites which add an oily ambience to the inherent metal edge. I hate to revert to labels here but suffice it to say, the realms between Grindcore and Goth may apply. Tightly wrought

from page 8

structural complexities and pitch-perfect grunge harmonies (a la STP), accent growler Patrick Wirens Ogre'esque vocals. Much to their credit, Misery Loves Company vaults from fist bang moshing to pseudo techno gryration without ever losing contact with the bare metal roots. The sound is smooth yet crunchy, the juxtaposition of traditional instrumentation and new age technology providing a streamlined muscial vista to nestle lonely minds. From an anatomical view, the general effect is kinda like chewin on an adrenal gland. To be truthful and optimistic, it must be said that overall the material here is radiant. Realistically however, one must note that although the stones shine in their context (allowing perhaps for the growth of a longstanding and loyal following), they may not be honed for success on the fickle U.S. airwaves. Let that not be a deterrent to finding happiness with Misery' however. When everyone is drowning it's ok to pee in the pool.

C. Sean Cordes

see Answers, page 13

the inquiring photographer

by Bryon Garrison

This Week's Question: What is your reaction to the Million Man March that was held in Washington D.C. on October 16th?

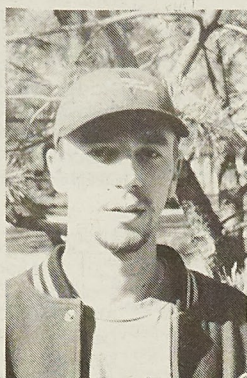

Becky Bown

"A lot of women are concerned about their role and image in society. I don't see why they weren't allowed to be involved in the march."

Arnold Wilkes

"As a black man, I was overwhelmed with pride to see black men from all across this country unite in a dignified manner; however, this unification was in no way to be considered a protest, it only served to bring the awareness that we as a people must address the problems in our communities, such as drugs and crime. Therefore, the Million Man March is to be considered a day of atonement from which we can better uplift ourselves."

Brian Gibson

"I was impressed by their unity and the issues that they supported. I was not impressed by their leader. He was just trying to make himself out to be a Malcolm X and get some more followers. I did support the day of atonement."

Tonica Iglehart

"It was good that black men were trying to increase unity and trying to make people see them in a different light, but I think that a lot of people participated who did not understand the march. I think what they were trying to prove was that they are important to this country."

Gina Blake

"I think it was really a stupid idea. I don't think they went to Washington for atonement but to rile up the black men in this nation. Farrakhan and his group have this feeling that they're the only people in the entire world who have been wronged and it's all the white man's fault, and there is nothing to atone for that. I believe Farrakhan is trying to start a race war."

Quiz

from page 3

smell that will not wash out.

b) They have so many holes, you have to concentrate to align them in such a way that nothing falls out. Then you have to wear your tightest jeans to keep the holes where you arranged.

c) A true UMR alumnus NEVER throws away a pair of St. Patrick's Day UMR boxer shorts! He combs the trash bags bound for Good Will. He is constantly vigilant against the wife's sneaky and unprincipled attempts to extricate them from her life.

10. In your opinion, what is the most reasonable explanation for Moses leading the Israelites around in the wilderness for 40 years before going to the Promised Land?

a) They needed the time to adjust to their new environment.

b) They were being tested.

c) He refused to ask for directions.

11. What is the single most important achievement of the human race?

a) Democracy.

b) The One World United philosophy.

c) Remote control.

12. What is the responsibility of the True Man during St. Pat's celebrations?

a) Support the ideals of St. Patrick's teachings on excellence.

b) Support your fraternity as they celebrate their outstanding past achievements in recognizing St. Patrick. Pay special attention to the words of wisdom provided by the court.

c) Donate to Alice.

HOW TO SCORE: Give yourself a point each time you were able to decide which was the best answer for you. This is important, to be an honest evaluation, you must choose for yourself the appropriate response for you. The True Man will score at least eleven "c" answers. In fact, a REAL man will have 16 answers and will even be able to tell you the joke about the preacher and the prostitute at the Pearly Gates.

Since I come from the female perspective, this was fairly easy to come up with. If you have thoughts concerning the REAL Woman Quiz, I'll be glad to devise one of those. Let me hear from you. E-mail is waynelg@umr.edu
