Jenny Lynn Devereux crowned St Pat's Queen for 1996

Casey Morriss
Staff Writer

Jenny Lynn Devereux was crowned 1996 Queen of Love and Beauty in the Coronation and Knighting ceremony last Friday night. The ceremony, part of the St. Pat's activities put on by the St. Pat's Committee, was the formal honoring of the Knights, Honorary Knights, and Queen Candidates of St. Pat's 1996.

Both the Knights and the Queen candidates were elected by various campus organizations. The St. Pat's Committee then chose from among the Queen candidates who would be the 1996 Queen of Love and Beauty. According to Christina Madrid, who was elected at the end of last semester to represent Beta Sigma Psi, the selection process included interviews with the St. Pat's court and a semi-formal social to allow the court to get to know each

candidate. "I've had fun with it all," said Madrid.

The ceremony took place in the Gale Bullman Multi-Purpose Building, which the St. Pat's Committee had decorated with streamers, lights, tents, and emblems from past and present St. Pat's celebrations. Chad Vincent, decorations chairman on the Committee, said that they had been working on the decorations since midnight on the Saturday before. According to Vincent, the Committee usually gets a little more head start on decorating, but had to wait this year due to the basketball team's participation in

post-season play. Vincent couldn't remember a time when all the decorations had to be completed in just one week.

Dave Repp

people that "are, were, or will be associated with the University." The band played a variety of Irish tunes including "I'm Looking Over a Four-Leaf Clover," and "When Irish Eyes Are Smiling."

The ceremony began at nine o'clock with the entrance of St. Pat and his court followed by the official "bringing forth" of the royal sword, the royal Blarney Stone, and the royal crown for the Queen. Each of the 31 Queen candidates was then introduced and escorted across the stage by a member of the St. Pat's Committee. The Queen

candidates wore (predominantly green) formal dresses, and the escorts wore tuxedos provided by the Commit-

tee. Once all the Queen candidates were on stage, the crowd rose for the playing of the Irish and American national anthems. The 37 student knights and five honorary knights were then, in turn, brought forcibly to the stage by the St. Pat guards to kneel in front of the Blarney Stone. Each knight kissed the stone, received a medal from James Kirkpatrick, this year's honorary St. Pat, and was knighted by St. Pat himself.

After the knighting ceremony, the Queen and four runners-up were announced. The fourth runner-up was Angela Haines, representing Kappa Alpha, the third runner-up was Carrie Williams, representing Theta Xi, the second runner-up was Trina Fox, representing Alpha Epsilon Pi, the first runner-up was Jodie Courtin, representing Sigma Nu, and the Queen, Ms. Devereux, representing Sigma Pi. Of her coronation, Devereux said, "I'm absolutely shocked. It's wonderful."

St. Pat concluded the ceremony with the decree, "Let The Revelry Begin."

St. Pat's parade: into the future

Jeff Leong
Staff Writer

The St. Pat's celebration climaxed Saturday with the step-off of the St. Pat's Parade. The Parade Marshall, Lady Lenore, began the parade at 11:00 A.M. Although rain had fallen earlier that morning, the parade successfully completed its route from Pine Street through to Main Street. The crowds were plentiful at step-off time despite the weather and enjoyed creativity and candy thrown from the parade participants all the way to the end.

The theme of the parade this year was "2001: A St. Pat's Odyssey" and many parade entries were successful in portraying this theme. Among some of this year's entries was a

Jetsons float designed by Tau Kappa Epsilon and a Star Wars theme graced a float by Theta Xi. St. Pat was battling Darth Vader between models of a Rebel X-Wing and an Imperial TIE Fighter. Other entries included Chi Omega's *Pigs in Space*; Daughters of the Lions, *Green Martians*; Pi Kappa Alpha's *Hal 9000*; Kappa Sigma's *Marvin the Martian*; and Zeta Tau Alpha's *Z-Odyssey*.

Honorary St. Pat and Knights also participated in the parade festivities. James Kirkpatrick was Honorary St. Pat and Jarena Whitson, William Anderson, Robert Fitzsimmons, Missouri Secretary of State Rebecca McDowell Cook, and Jerry Gilmore served as Honorary Knights.

Other notable entries in the parade were a Corvette parade, Cadillac Coupe De Ville parade, Ronald McDonald, KDAY 97.5 radio,

Knights get up close to Alice

Casey Morriss
Staff Writer

The east side bleachers of Jackling Field were full Saturday afternoon as people gathered to watch the traditional knighting ceremony for the student knights of St. Pat's 1996. The event featured music from the KMNRR road show and the introduction of each knight to the legendary "Alice."

The action took place in a fenced off area of the field where St. Pat and the Queen of Love and Beauty sat in their respective thrones watching over Alice, the student knights, and the St. Pat's committee and court.

Before the event began, St. Pat's Committee members warmed up the audience by pulling bagels out of the green slime that is Alice and launching

them into the crowd. The audience returned the favor by throwing everything back. The only people relatively safe from the flying goo were St. Pat and the Queen who were vigilantly guarded by Committee members.

After the court and Queen were announced, the official knighting began. Each knight was announced and his or her quote about Alice was read. Then, in turn, each knight was bodily dragged to the thrones where they kissed the feet of St. Pat and the Queen. They were then thrown into Alice, dragged out and hosed off. After all the student knights had been presented, all the members of St. Pat's court took their turns in Alice.

Only the St. Pat's Committee knows the recipe of Alice but Lonny Boring, student knight representing the General Delegation of Independents, reported, "It's like snot in

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the Missouri Miner and may not be reproduced or published without written permission.

The Missouri Miner encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 3:30 p.m. on the Thursday before publication. Submissions, not including personals, will be accepted through E-mail (internet) at MINER@UMR.EDU. The Missouri Miner reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The Missouri Miner is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

OPINIONS

Thank you

Now that the basketball season has concluded, I want to take a moment to thank a lot of people who have had a hand in the successful seasons enjoyed by the teams this year.

First, I want to thank all of the people who helped in game operations. This is a long list, so instead of naming everyone individually, I just need to thank those in Physical Facilities and support staff who got everything ready nightly; the campus police and ushers for keeping things in order; the cheerleaders, the pep band, and Gold Miners for their loyal enthusiasm at every game -- home and away -- and the people at the scorer's table, who were of great assistance to me during the entire season.

I also want to thank the fans. I may be echoing sentiments that you may hear from Mark Mullin, Dale Martin, Linda Roberts, etc., but you were tremendous this season. While both teams were successful on the floor during the 1995-96 campaign, you helped them achieve things that had either never been accomplished before or at least not for a long time. When both teams won the conference championship this year, I hope you felt a sense of pride as well because I think everyone had a hand in our success this year. Coach Martin was right when he announced over the public address system after we won the conference tournament that we have the best "Sixth Man" in the MIAA.

We hosted the NCAA Division II South Central Regional and although we lost the championship game, the tournament was a tremendous success. A lot of people volunteered their time to help make the tournament run well, and those who came here from out of town had nothing but good things to say about the operation of the regional.

But something else was just as striking. Everybody already knows what it's like here -- the other schools couldn't believe how big and enthusiastic you were. The NCAA South Central regional chairman was here over the weekend and he commented that he had never seen a crowd like this for a Division II Tournament game. I talked with members of the North Alabama contingent after the game, and they were not only impressed with the fervor of the fans, but also that you stayed until the very end. To me that was a great tribute to the players for the season they had.

Though the Lady Miners were on the road for the NCAA Tournament, they also benefitted from your support. The team was 12-1 at home during the season and your backing helped them win some critical games during the conference season that ended with a championship.

The basketball teams had a tremendous season. Personally, I was thrilled to get to witness this and do what I could for them. To the players

PRINCIPLES of SOUND RETIREMENT INVESTING

For fast relief from the nagging ache of taxes, we recommend TIAA-CREF SRAs. SRAs are tax-deferred annuities designed to help build additional assets—money that can help make the difference between living and living well after your working years are over.

Contributions to your SRAs are deducted from your salary on a pretax basis. That lowers your current taxable income, so you start saving on federal and, in most cases, state and local income taxes right away. What's more, any earnings on your SRAs are also tax-deferred until you receive them as income. That can make a big difference in how painful your tax bill is every year.

As the nation's largest retirement system, based on assets under management, we offer a wide range of allocation choices — from the TIAA Traditional Annuity, which guarantees principal and interest (backed by the company's claims-paying ability), to TIAA-CREF's diversified variable annuity accounts. And our expenses are very low,* which means more of your money goes toward improving your future financial health.

To find out more, call 1 800 842-2888. We'll send you a complete SRA information kit, plus a free slide calculator that shows you how much SRAs can lower your taxes.

Call today—it couldn't hurt.

Ensuring the future for those who shape it.™

*Standard & Poor's Insurance Rating Analysis, 1995; Lipper Analytical Services, Inc., Lipper Directors' Analytical Data, 1995 (Quarterly). CREF certificates are distributed by TIAA-CREF Individual and Institutional Services, Inc. For more complete information, including charges and expenses, call 1 800-842-2733, ext. 5509, for a current CREF prospectus. Read the prospectus carefully before you invest or send money.

International Day planned for March 24

International Club
Source

The international student community on campus is getting ready to celebrate the 31st annual International Students Day on March 24. The organization will be holding its traditional International Buffet with dishes from Latin America, Arabia, Turkey, Malaysia, India, and the Caribbean. Students will also get the opportunity to view exhibits about different countries and watch dances and hear songs during the annual talent show.

This year activities will be expanded to include an entire week. Movies and documentaries about different countries will be presented including the critically acclaimed film "Ghandi." Also, the Malaysian group is preparing a special night out for Sunday, March 24. There will be a band composed by students playing modern Malaysian music and martial arts exhibitions are planned.

One of the trends that has been set in the last several years is that major companies are looking more and more for prospective employees who are motivated to broadening their horizons through cross cultural exchanges. One of the ways to achieve this is to experience different cultures. This has be-

come one of the primary goals of the International Students Club and the purpose of International Student Week.

Events currently planned for International Students Day include:

Exhibitions in Miner Lounge, UCE from 10 a.m. through 4:30 p.m.

An International Buffet in UCE Cafeteria from 11:30 a.m. through 1:30 p.m.

A Talent Show which will run from 2 p.m. until 4:30 p.m. in Centennial Hall.

Tickets will be required for the buffet and can be purchased for \$5 for students and children and \$7 for adults at the ticket window in University Center-West.

Research explores new earthquake risk in region

Amy Jones
Staff Writer

Recent studies completed by a UMR graduate student suggest the risk of Missouri suffering an earthquake greatly exceeded previous estimates.

Michael Shoemaker, a graduate student in geology and geophysics, will present his thesis paper, "Seismic Reflection Evidence of Complex Shallow Faulting at English Hill in Southeastern Missouri," April 1 at the Seismological Society of America meeting in St. Louis. Shoemaker's paper details the findings of a study of fault lines at English Hill in southeast Missouri's Benton Hills area.

This region lies north of the New Madrid Fault, site of the New Madrid Earthquakes of the early 1800's and

formerly thought to be the only significant source of earthquake hazard in Missouri. The paper suggests this region not only holds potential for earthquake production, but also that earthquakes have occurred there sometime during the last 5000 to 10,000 years.

"We've found evidence for complex faulting that is much more intense than anyone could have guessed from surface mapping," Shoemaker said. "These faults are easily capable of producing a damaging earthquake."

A joint effort of UMR and the Missouri Department of Natural Resources' Division of Geology and Land Survey (DGLS), the study consisted of two main operations. First, researchers dug along the fault lines; "X-rays" of the fault areas followed the digging. UMR worked on the second part of the procedure.

"After the initial trenching of the area, we acquired data for two seismic lines that passed through or adjacent to several of the trench sites," Shoemaker

said. "From the seismic lines and trench data, we were able to determine that the subsurface geologic structures were actually recently re-activated old fault planes."

The second phase of the project, started after determining that the area included fault zones, involved shallow reflection survey, a procedure much like making an X-ray of the rock layers of the earth. The technique calls for a small explosive, in this case, a twelve-gauge shotgun, to create seismic vibrations. Various geologic layers reflect these vibrations, creating an echo that allows scientists to "see" the layers and thus map the structures.

Shoemaker explained their findings: "Where horizontal layers are broken by a vertical offset, a fault plane is interpreted. That interpretation of the seismic reflection profile indicates numerous earthquake-generating faults along the edge of Benton Hills."

Astronaut Tom Akers to speak at banquet this week

Andy Tate
Staff Writer

University of Missouri - Rolla graduate Tom Akers will be speaking at the Sigma Xi 1996 Initiation and Awards Banquet on Friday, March 22. Akers was one of the seven astronauts aboard the Space Shuttle Endeavor during NASA's mission to repair the Hubble Space Telescope in 1993. Akers received a bachelor's degree in mathematics from UMR in 1973, and a master's degree, also in mathematics, in 1975. He will be

speaking about the experiences that he has had while working with NASA.

The banquet will be held at Zeno's Restaurant on Martin Spring Drive. Dinner will start at 6:30 p.m. and Akers will speak afterwards. Tickets are available for the dinner and cost \$15 each and can be bought at the UMR ticket office in UCW.

For more information about this banquet, contact Lawrence George, director of Affirmative Action at UMR, at (573) 341-6314; Dr. Lokesh Dharani, professor of mechanical and aerospace engineering at UMR, at (573) 341-4586; or Cheryl Seeger, Missouri Department of Natural Resources, at (573) 368-2100.

IFC holds skating party for children

Photo by IFC

Mike Pessina
IFC

On Thursday, March 7 the Interfraternity Council sponsored "Kids helping Kids," a skating benefit for Big Brothers-Big Sisters of Rolla. The event took place at the TLC Skate Center on E Hwy 72 in Rolla.

Nearly 100 UMR students and Rolla residents participated in the event raising \$300. During the party a five minute skate-a-thon was held. Members of the Interfraternity Council and Panhellenic collected pledges for the number of laps they could complete during the five minute period.

IFC would like to thank everyone who supported the event by attending it or pledging money to those who participated in the skate-a-thon.

Mineral auction to be held next month

Kim Gerke
Staff Writer

UMR will host a mineral auction on Saturday, April 13. The auction, which is scheduled to begin at 1 p.m., will be held in Planje Auditorium of McNutt Hall. Another children's auction will also be held prior to the main auction at noon that day.

Sponsored by the student chapters of the American Association of Petroleum Geologists and the C. L. Dake Geological Society, the auction is designed to give a chance for students,

professors, and amateur mineral collectors in the local area to buy and sell mineral samples. There is no charge to attend the auction and the general public is welcome to attend.

"A mineral auction is a great way to attract attention to geology within a community," says Dr. Robert C. Laudon, UMR professor of geology and geophysics. "And it is a friendly environment to swap minerals and stories."

Those interested in selling minerals need to register prior to the auction in Room 265 of McNutt Hall. Registration will be held from 9 a.m. until noon.

For more information about the auction, contact student coordinator Becky Chrisfield at 368-3969.

The Life and Times...

Weddings, Alice, and 6-Foot Rabbits

(Author's note: for all of you out there who are still recovering from participating in just a wee bit too much revelry in honor of a certain patron saint we all know and love, I'm going to take it easy on you this week and whisper my article very quietly into the newspaper ink so as not to antagonize that painful, throbbing, I've-been-run-over-by-14-semi-trucks headache that you've been nursing since Saturday night... NOT!)

For those of you who did not know this already, I was finally forced to spend an entire St. Pat's break here in Rolla -- just to learn how to curtsy without tripping while paying respects to a certain previously mentioned saint on Friday night-- rather than whiling away that extra time 100 miles away in my perfectly nice hometown, job-hunting like I should have been. The

repercussion of this, of course, that I'm still not employed and will probably be living in a cardboard box in another two months, entertaining myself with conversations between me and my imaginary cat. Of course, I also got to ride around in a '68 Mustang while being referred to as royalty for large portions of the weekend. Ya' gotta' have your priorities.

Anyway, this weekend was good for more than just the chance to get chauffeured around in the car of my dreams. It actually spawned a topic for my column. No, folks, it is not my top ten reasons to worship the engineers who invented the Mustang. Nope, this week my 20 square inches are being devoted to the topic of tradition.

It's pretty obvious that the UMR campus is just dripping with tradition. I mean, how many other public college campuses do you know of where classes are actually suspended for two

days in the middle of the semester in celebration of a saint? Of course, we have other traditions here as well. We are traditionally an engineering school. We traditionally rank high among other, similar schools in the nation. We traditionally suffer more stress and drink more Mountain Dew as a collective whole than any other campus in the universe. That's a lot of history dictating how we live.

But is all of this a good thing? I mean, are we students really in such dire danger from large amounts of rubber reptiles that Freshmen wielding painted trees must save us every year while folks in the traditionally kinda' silly costumes order them around? Is Alice really something to be proud of?

Now, after just having been involved in this whole celebration, let

see Life, page 18

Oh, what a tangled web!

Dave Repp

Didn't Mom always tell you not to play with Silly String while hanging out with a saint? The St. Pat's court's Mom wasn't quick enough to stop an armed and dangerous court from breaking a few rules at the Bandshell last Wednesday! Shown here dousing a little brother (Eric Neal) are Gregg Rainbolt, Jr., Ryan Fisher, Brian Gibson, Matt Grundy, and James Kamper.

Music Reviewer

A week and a half till spring break... I think we can all make it. If you can't make it until then and need to get out of Rolla, then I have an excuse you can use. On Friday, Ian Moore will be at the KSHE Real Rock Cafe, and the best news is that Corry Harris, a great acoustic blues man, will be opening up, so don't be late. If you stick around another night, Jackson Browne will be at the Fox on Saturday. Enough about concerts; here are the reviews.

Long John Hunter
Border Town Legend
Alligator

Sound Quality 8
Performance 8

Long John Hunter puts on a solid blues performance with this, his latest release, *Border Town Legend*. His own brand of "Texas

blues" really shines. Hunter plays music to keep the party going, and he does that well. I would have to say this is a fun cd to listen to. His lyrics, friendly voice, and great Texas guitar work will keep you interested and keep a smile on your face. Speaking of lyrics, Long John Hunter helped write all but three of the songs on this twelve track cd. That is impressive when you look at all the blues cd's out there that are just glorified covers.

There are quite a few really good upbeat numbers on *Border Town Legend*. "Lone Star Shootout" is a great, mostly instrumental jam session. "John's Funk" is a very funkified blues number that is mostly instrumental. The first track, "T-Bone Intentions" is a nice, fast-paced blues tune, but the best of the upbeat blues songs would have to be "Nasty Ways," a story about a woman that wants to do poor John in. If you want some good, slow blues you can't go wrong with "Arkansas." The best of the whole cd, however, is a slow number called "Marfa Lights." For those of you who have not heard of the Marfa lights, they are a strange, unexplained phenomena that occurs in the sky over West

Texas. There is a great sax and piano on this song that will leave you wanting more.

For all you fans of the Texas

blues, I say go out and get this cd, because you will love it. As for the rest of you, this is a good bet as well.

Sepultura
Roots
Roadrunner Records

Performance 6.5
Sound Quality 7

It has been three years since Sepultura has released an album, and over this period of time, they did quite a bit of thinking. They had been to all parts of the world while touring for their last album *Chaos A.D.* and decided it was time to put something out that very few bands have done. They wanted to prove to the world that each country, no matter how bizarre and different they are, are all very much alike. The first song, "Roots Bloody Roots," was chosen as the title of the album for many reasons but mainly because they wanted a song that summarized what the whole album is about. Each song

What does Student Council do for you?

Josh Grove
StuCo

We at Student Council publicize what we do in many different ways. The StuCo Minute, the Voice, flyers, and the "Ask Mr. StuCo" show on KMNR are just a few of them. Today, we would like to try one more time to help students find out what Student Council does for them.

Some of the services Student Council provides for students includes the following:

- Maintaining free legal service to students on a regular basis.
- Maintaining test files on the World Wide Web.
- Distributing old campus computers to student organizations.
- Performing and compiling Teaching Evaluations and making them available to students.
- Appropriating funds to campus organizations for equipment and programming.
- Maintaining an all-night study area in M/CS 205.
- Organizing four blood drives per year.

- Distributing Novell disk space to student organizations.
- Holding open forums on topics important to students.
- Submitting student input into where computing money is spent, which recently led to the improved computers in the 24-hour computing labs in M/CS.

- Providing the Freshman Miner, in cooperation with the *Missouri Miner*.
- Organizing textbook sales and exchanges between students.

The services listed above get done on an ongoing basis as a result of Student Council's actions. StuCo also does things that students may or may not be aware of that but affect them nonetheless. Some things that have been achieved by StuCo or that the University has done as a result of Student Council's input in the last year include the following:

- Next year's spring break will not conflict with St. Pat's, even though the University is moving towards a common calendar with other the UM campuses.
- Plans for putting an AEC in the old Delta Sigma Theta roundhouse by the Fall semester will be implemented soon.
- The new Student Recreation Center, which opened last fall.

- ID credit at the bookstore.
- Aggressive representation of students in the development of the five-year student fee plan, the result of which is tuition increases at a much slower rate than we are currently experiencing.

- Soon, individual students who don't have access to Novell disk space will.
- The University Committee for Effective Teaching is currently investigating improvements of the teaching evaluations used at present.
- There is no exclusive beverage contract on campus despite some pressure from the UM System.

- Two centrally-located bulletin boards on campus.

- The University is committed to developing a plan to bring fast food to campus.

- Started a Student Leader Recognition Banquet for the old and new officers of student organizations.

One of the major roles of Student Council is handling student complaints. The way we handle complaints seems to be misunderstood by some students. What we do is take any student complaints during the "Student Issues" section for the Student Council meetings without com-

see StuCo, page 18

...SUBconscious...

Second City will soon be returning to Rolla for a fun-filled night of sketch comedy. This legendary touring company has given rise to many famous comedians, including Dan Akroyd, Gilda Radner, and John Candy. If you want to see tomorrow's stars today, be at Leach Theatre on March 27 for the 6 or 9 p.m. show. Tickets, available at the UC-West ticket window, are \$4 for general admission or free with a student ID.

The SUB movie this week is **Money Train**, starring Wesley Snipes and Woody Harrelson. This explosive combination portray New York City Transit cops in a high speed action adventure. Foster brothers, they share a life-long dream of robbing the "money train" that collects millions of dollars each night from NYC subway stations. Don't miss **Money Train** this Friday and Saturday at 7 and 9 in ME 104.

THE UMR FILM FESTIVAL at Castleman

on Tuesday, March 26,
THE PIANO

with HOLLY HUNTER, HARVEY KEITEL, and SAM NEILL. Directed by JANE CAMPION. Winner of the 1993 Award for Best Film at the Cannes Film Festival and winner of three Academy Awards. *The Piano* is an unforgettable story of how unpredictable emotions and erotic impulses might have been experienced in an earlier time and place. Suberb acting and great cinematography! New Zealand. 1993-R.

Limited Number of FREE Student Tickets are Available at the Castleman Box Office, Beginning at 6:00 PM TUESDAY Show Starts at 7:00 PM LEACH THEATER, CASTLEMAN HALL

Aw, Mom, do I gotta' take a bath?

Dave Repp

Yes, Billy, all good little knights have to take their turn in Alice. No, Billy, there isn't any room for your rubber ducky. Now be a good boy and let all those nice, friendly St. Pat court people help you into the tub.

If you don't stop someone from driving drunk, who will? Do whatever it takes.

After a trip to the Gulf Coast Classic, where UMR finished with a 3-5 record at the event, the Miners are slated to open conference play Friday when they travel to Jefferson City to take on Lincoln University.

"We're pretty equal," Coach Travis Boulware said of the matchup. "It could go either way." Boulware added the Miners goal is to break even in conference play. "It will be really hard. There are n't any easy games in the conference," Boulware added.

The Miners play in the Mid America Intercollegiate Athletics Association's southern division. The South Division is composed of Lincoln, Southwest Baptist, Pittsburg State, Missouri-St. Louis and Missouri Southern, the defending division champions.

The Miners completed play in the Gulf Coast Classic in Panama City, Fla. over the weekend, finishing with a 3-5 record during the event, the Miners are now 8-8 overall.

The Miners ended their play at the Gulf Coast Classic with a 4-3 win over Beloit. The Miners scored two runs in the bottom of the first to jump out to an early lead. Ted Ingalls scored the first run of the inning on a wild pitch and Matt Bryant brought in Keith Eisenbath

Miner catcher prepares to put a the tag on an unfortunate Northeast player in the Miner's home opener against the Bulldog's from a few weeks ago. Miner baseball took some time away from Rolla over St. Pat's to face off in eight games at the Gulf Coast Classic in Panama City, Florida. The Miners went 3-5 over the week.

Dave Repp

with an RBI single. A Tom Rastorfer error in the second inning, and a Beloit RBI double in the third gave Beloit at 3-2 lead. The Miners would rally to score the winning runs in the bottom half of the inning. Eisenbath scored on an RBI groundout by Rastorfer and

Nathan Wade brought in Bryant for the eventual winning run with an RBI double. Mike Banfield pitched six innings, giving up just two runs, while scattering five hits and striking out six. Kevin Hill picked up the save for the Miners, while Banfield got the win.

Earlier in the week the Miners dropped a pair of games to Grandview 2-0 and 9-8. In the first game the Miners were able to manage just three hits off of Grandview's Strome. The decid-

see Baseball, page 16

Lady Miner softball finds success down south

Carl Berkelman
Staff Writer

The Lady Miners finished up a fairly successful 15-game Florida road trip last weekend. After starting the season 3 and 1, with wins of 13-0 and 14-3 over William Jewel and splitting two with Missouri Valley, 5-6 and 6-4, they headed to Greenville, Mississippi for three games.

In the first game against Winona State, Angie Bax pitched a good game going the distance allowing only 7 hits while striking out four. Her only mistake was a two-run home run in the third as the Miners lost 3-1. Next they took on Central Arkansas. Erin Collins got the win pitching 7 innings, while

allowing two runs on eight hits, striking out four and walking no one in the 5-2 victory. Melanie Rohrer also had a good game going 2 for 4 with 2 runs and an RBI single in the seventh to help put the game away for UMR.

Their final game in Mississippi was against Mississippi College. The Miners dominated them 16-0 in 3 innings. Angie Bax pitched a no-hitter allowing only one base runner on a walk. Every starter for UMR scored in the game. After going 2-1 in Mississippi, they took their 5-2 record into Florida for 12 games over 5 days. Their first opponent was Division 3 Wilmington. Erin Collins got the win going 6 inning giving up no runs on 6 hits, 3 walks and 6 strikeouts in the Miners 7-1 victory. The Miners got all they needed in the third when 5 consecutive batters reached base with two out. They scored five in the inning and

never looked back.

In the second game against Wilmington, the Miners dominated again winning 11-0. Angie Bax won again going 5 innings, allowing only 5 hits and 3 K's in the shutout. The Miners were then scheduled to face Division 2 Northern Kentucky for two. The first game was a tough battle. Angie Bax's leadoff homer in the fifth and N. Kentucky's two-out RBI double in the fifth were the only runs either team could muster going into extra innings. UMR prevailed 3-2 on a two-run single in the 9th by Erin Collins. Angie Bax pitched 9 innings, giving up just 1 earned run on 6 hits, while striking out 3 and walking 1 in the win.

The second game was just as tight as the first. Going into the bottom of the 7th tied at one, Jen Damron walked. Melanie Rohrer pinch ran and she scored two passed balls and a wild

pitch later. The winning pitcher was Erin Collins, who pitched 7 strong innings walking only one while striking out five. They lost their next game to St. Francis, IL by a score of 6-0.

The Miners then won their next game against St. Francis, IN 2-1. Both runs came in the third on a 2-run single by Melanie Rohrer. They then dropped the second game of the double-header in a heartbreaker 7-5 in 12 innings. Angie Bax pitched valiantly in the loss going all 12 innings giving up only 5 earned runs while striking out 8. Finally, after a day off they finished off the last two days.

The Lady Miners beat Div. III Beloit 5-1, followed by a 6-2 loss to Oklahoma City of the NAIA. They then lost to NAIA St. Marys 8-5 and beat NAIA Lee College 5-4. Their final game in

Martin and McClain receive top MIAA honors

Carl James
Sports Editor

Last week the Mid-America Intercollegiate Athletics Association announced its All-MIAA men's and women's basketball teams. The announcements were highlighted by the naming of Missouri-Rolla men's basketball coach, Dale Martin, as MIAA "Coach of the Year," as well as the

naming of Missouri-Rolla's point guard, senior Michael McClain, as co-most valuable player (shared with Washburn's Dan Buie).

The Miners and the Lady Miners each had a second team selection. Miner forward/center senior Jamie Brueggeman, and Lady Miner shooting guard, sophomore Becky Reichard, both received second team honors.

The rest of the Miners' starting lineup along with "MIAA Player of the Week" for the MIAA tournament, junior center Jeff Kokal, were honorable mentions for the team. Joining Kokal

were junior guard Tim Holloway, junior guard Terry Smith, and sophomore forward Marc Tompkins.

Lady Miner honorable mentions included senior guard Christie Williams and junior forward Heather Hartman.

Coach Martin was happy with the "Coach of the Year" recognition but credited others. "Well, it feels very good. Of course this is a combination of a lot of people's efforts: [assistant] coach [Todd] Franklin, [assistant] coach [Don] Moris, and all of the players. This has always been an honor that has been shared by many. It just happens to be that the head coach gets the plaque. It comes down through a lot of hard work by a lot of people."

Looking back on the year coach Martin reflected that, "The team formed a unique personality." He felt that the Miners "competed in every game that they played. They never gave up; they had a tremendous will to win."

Martin completed his 9th year as head coach at UMR. He earned his 100th career victory in the Miners' first game this season against Lyon College in Batesville, Arkansas. Martin began at UMR as an assistant coach to Miner basketball's winningest coach, the now retired Billy Key. Martin started his coaching career at his alma mater, Central Missouri State, as a graduate assistant and full assistant coach before coming to Rolla.

The Miners road to an MIAA championship, MIAA tournament

Ryan Shawgo

Lady Miner basketball comes off best season, will only lose one starter

Brian Sharp
Asst. Sports Editor

The 1995-96 Lady Miner Basketball team completed their twenty second and best season ever. They set new marks for victories in a season, MIAA conference victories, and consecutive home victories enroute to their first ever MIAA championship.

The Lady Miners recorded 21 victories which eclipsed the previous record of 19 set during the '86-87 season, 12 MIAA conference wins, one better than the '89-90 season, and 12 straight home victories, three more than the '86-87 season. All of these victories lead to the Lady Miners recording their best overall record in history at 21 victories and 7 losses.

Some individuals also set some records this past season. Christie Williams, honorable mention All-MIAA, set new marks for assists in a season and career and as well as games played. She set the new mark for assists in a

season at 124 and the career mark at 401. Christie's record for games played stands at 113. In addition to her records, she has also eclipsed the 1000 career point mark to become one of only 9 Lady Miners to have scored 1000 points in their careers. Christie was second and one of four averaging double digits in scoring this past season at 13.3 points-per-game.

Heather Hartman, honorable mention All-MIAA, set the record for career blocked shots this season at 148, and became only the seventh Lady Miner to ever reach the 500 career rebound mark. Heather was among the MIAA leaders in field goal percentage at 57%. She was third in scoring on the team at 12.6 points-per-game.

Becky Reichard, a second team All-MIAA selection, led the Lady Miners in scoring at 16.5 points-per-game and was among the Nation's leader in three-point shooting at 40%. In just her second season as a Lady Miner, she has moved into 11th place on the all time scoring list. Becky is currently on pace to break the current career scoring record.

Tobi Rees was the fourth leading scorer for the Lady Miners at 11 points-per-game and lead the Lady Miners in rebounding at 8.7 rebounds-per-game. Ondrea Bermudez averaged 5 points-per-game and also totaled 84 assists for the season. Jen Arason came off of the bench and averaged 5 points-per-game and 3.6 rebounds-per-game.

Beth Ragsdale also came off the bench and averaged 4.6 points-per-game. Beth had the game tying three point shot against Washburn which sent the game into overtime. The Lady Miners went on to win the contest which ended a string of eleven straight losses to the Lady Blues.

Other key reserves for the Lady Miners were Jamie Martens and Amber Fischer. Martens was a strong defensive player for UMR. Fischer played really well in the post backing up Hartman, Rees, and Arason.

This marked the final season for seniors Christie Williams, Jen Arason, and Lorie White. Christie is the only starter not returning next season. The Lady Miners should be one of the teams to beat next year in the MIAA.

A look back at the greatest Miner hoops season in history

Matt Ryan
Staff Writer

The 1995-1996 basketball Miners were the most successful team in school history, as they set the school record for wins, won both the regular season and postseason MIAA championships, and came to within a game of going to Louisville for the Elite Eight.

Prior to the season, there were many questions concerning this Miner team.

Last year, UMR finished an injury plagued season at 10-16, last in the MIAA. The Miners added several key players to that team. Senior guard Michael McClain, a transfer from Division I Washington, was to handle the point guard duties, while outside shooting was the domain of Terry Smith, a junior college transfer.

The Miners returned leading scorer Tim Holloway, senior post Jamie Brueggeman, Jeff Kokal, Marc Tompkins, and Scott Rush. Cam

Buy recycled. It would mean the world to them.

Thanks to you, all sorts of everyday products are being made from materials you've recycled. But to keep recycling working for the future, you need to look for these products and buy them. For a free brochure, call 1-800-CALL-EDF.

Environmental awareness puts us one step closer to preserving the earth. Here are some simple things you and your family can do to help.

- Buy products made from recycled materials, such as paper products, motor oil and retreaded tires.
- Buy products that use the least amount of packaging.
- Recycle. You don't have to be perfect now. Start with something simple—maybe newspapers, then add glass, cans...
- Stop buying at least one throw away item, such as razors, paper napkins or pens. Look for refillable and reusable items instead.
- Shut off unwanted junk mail. Contact the Mail Preference Service and ask them to remove your name from their lists: Mail Preference, 11 West 42nd St., P.O. Box 3861, New York, NY 10163-3861, (212) 689-4977. Send them all the different ways your name is spelled on mailing labels.
- Start using a ceramic mug for coffee instead of plastic, foam or paper cups.
- Think about recycling one hard-to-recycle item, such as tires, paint or oil. Find out how and decide to do it.

You and your family CAN make a difference. Take an active part in preserving the environment.

JUMBLE THAT SCRAMBLED WORD GAME

by Henri Arnold

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

LANTA

RYVEN

REMMIO

RAAPPE

BEAUTIFICATION WHICH IS ONLY TEMPORARY.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Print answer here: A

see Solutions, page 18

Can you imagine Lady Liberty on Staten Island?...Intoxicating.

Fortunately, to most of you this smelly landfill is not familiar. But with each person in the United States producing 4 pounds of garbage per day, you will be forced to deal with the hazards of a wasteful, throw-away society.

It Doesn't Disappear

Once it's taken off your curb, your garbage just doesn't disappear, as Fresh Kills landfill on Staten Island testifies. It is the world's largest landfill, covering an area the size of 3,000 football fields. Nearly 80% of the nation's garbage is dumped in landfills. The idea that much biodegradation occurs is a myth; you can still read newspapers that were buried 37 years ago. Up to 80% of this waste can be recycled, but only 10% is being recycled. Recycling not only decreases waste, but also turns waste back into useful products, conserving natural resources and energy.

Recycle It Away

One-third of all the nation's landfills will be closed within the next 5 years because they have reached capacity or have become dangerous, producing a toxic liquid called leachate, which contaminates your drinking water. Recycling will prevent the increase of large, smelly landfills and keep your water clean and pure.

Recycling also preserves natural resources and the quality of life you enjoy. Paper, which makes up 36% of waste, can easily be recycled instead of harvesting millions of trees. America

cuts down 2 million trees a day. If everyone recycled Sunday newspapers, we'd save 500,000 trees every week. Recycling aluminum conserves 90% of the energy it takes to make new aluminum products. Every year Americans throw away enough aluminum to rebuild the entire American air fleet 71 times over.

The good news is you can eliminate the hazards of a wasteful, throw-away society by obtaining information and by recycling. Recycling is easy once you and your children change your habit of tossing everything into the garbage can. Saving paper and aluminum products takes you an average of only 2 minutes per day. Your small efforts will have great consequences. By recycling 2 months' worth of paper you save 20 trees. By recycling one aluminum can you save enough energy to run your TV set for 3 hours.

Become informed. Take action. Recycle. Preserve America by calling the Alliance for Environmental Education at 1-800-"Liberty" and find out more ways to reduce your waste.

Recycle...
it's your liberty.

Baseball

from page 7

ing blow came in the top of the first when Grandview's Shaer hit a two-run homer. Brock Lercher took the loss for the Miners, allowing five hits over seven innings, while striking out five. The Miners also dropped the nightcap 9-8. The Miners jumped out to an early 3-0 lead in the top of the first, courtesy of a three-run homerun by Bryant. After Grandview answered with two runs in the bottom of the first the Miners erupted for four more runs. Wade, Jeff Ulrich and Bryant all had RBI's on the inning. Grandview took advantage of four Miner walks allowed and two hit batsmen to pile on five runs just on hit in the inning making the score 7-7. The Miners took an 8-7 lead in the fourth when Bryant hit his second homer of the game, this time a solo shot. Bryant finished with five RBIs in the game. However Grandview brought in the tying and winning runs in the fourth with a two-run single. The final score was 9-8.

The Miners, earlier in the tournament swept a double header from Wayne State. In the first game UMR

held off Wayne State 6-5. Chris Kohnz picked up the win for the Miners, while Hill earned a save. The game was highlighted by a four run Miner second in which Mike Williams, Vince Como, Ingalls and Rastorfer all hit RBI singles. Como was 2-for-3 with two RBIs and two steals in the game. UMR won the second game 7-4. With the score tied 4-4 in the seventh Eisenbath delivered with a two-run double, scoring Ingalls and Andy Dial. Williams picked up the win in relief for the Miners.

Earlier scores from the tournament are Marietta 4 UMR 1, West Virginia Tech 6 UMR 3, and Charleston 2 UMR 1.

Coach Boulware is content with the team's progress coming out of Florida. "I'm satisfied with our record, we're really starting to gel as a team." Boulware did leave room for improvement. "The problem is we're not hitting the ball, we're playing some good competition."

UMR was scheduled to play Missouri Baptist yesterday, the results were unavailable at press time.

AII-MIAA

from page 9

school. The only difference with Central Missouri is that they have had a tremendous tradition over the years and it was nice to get the wins against them. They have an outstanding program and they have good athletes, and I think our kids played well each and every game we played against them."

On MIAA co-MVP Michael McClain, Martin said, "It has been a joy to see him have so much success. Such a young man that was very focused and very driven to succeed in what he wanted to do from the very start. He set his goals high for himself and this team, and he pretty much accomplished what he wanted to."

McClain came to UMR last fall from the University of Washington. McClain was regarded as a successful starting point guard in the Pacific-10 conference and had played against the likes of Jason Kidd and Tyus Edney.

McClain only played in 16 games last year when he was suspended from the team for being under investigation for an alleged domestic violence incident. McClain told the *Rolla Daily News* that he had a heated dispute with his girlfriend while a policeman was driving by. Nothing came of the charges and Washington's head basketball coach asked McClain to return for his senior year.

McClain, citing the stigma attached to him, a wish to come home to Missouri (he's originally from Springfield, Missouri/Glendale High School), and the virtual impossibility of a championship season at Washington, opted to come to UMR with his high school friend, and junior college transfer, Terry Smith.

McClain's season with the Miners was phenomenal. Barely halfway into the season, McClain broke the UMR single-season assist record as well as the single game record with 12 assists against Washburn. McClain hit two last second three-pointers during the season to put games into overtime. In one of those games McClain scored 23 points in the second half and overtime to bring the Miners from 19 points down to a 15 point victory against Southwest Baptist in Rolla.

Martin said that McClain filled the role of a "leader" on the court. The rest of the team looked up to him. McClain was a real motivator for the team as Martin stated, he set his goals high.

Jamie Brueggeman ended a successful career at UMR this season. Brueggeman is the UMR record holder for career blocked shots and is 14th on the all time UMR scoring list. The 6-9 forward/center from Centrailia, Illinois, was one of the MIAA's most dominate post players.

Martin said that, "It's been a joy to be with Jamie the last few years, and watch Jamie mature not only as a player, but as a person, academically as well as athletically."

Assistant Coach Todd Franklin said, "I recruited Jamie five years ago and it seems like yesterday. He came here as a shy, introverted kid, and he's grown into a strong man."

Becky Reichard was the Lady Miners' leading scorer with 16.5 points per game. She shot 40 percent from three point range, despite a bit of a shooting slump in the post season. Reichard was one of last year's co-freshmen of the year in the MIAA.

Men

from page 9

Lindsey, a true freshman, joined the team as well to fill out the key players of the 1995-1996 Miners.

In the preseason coaches poll, the Miners were picked to finish in a tie for fifth. UMR started the season by winning their first 6 games in a row, including an impressive win over nationally ranked Eckerd College. This victory gave the Miners their first national ranking in a decade at 19. The Miners then lost at Drury college, beat Lyon, and traveled to Washington to take part in the Oak Harbor Classic, where they won both games, including a decisive victory over pre-season nationally ranked Seattle Pacific.

After this, UMR started into the very tough MIAA regular season. They were able to handle Lincoln, before losing at Northwest and a one-point loss to UM-St. Louis. They were able to bounce back to take games from Southwest Baptist in overtime, as well as from Northeast. They then lost an overtime game at Pitt State.

With a 3-3 conference record, coach Dale Martin opted to play more of a half court game. "I think that was the biggest turning point. I think that's when I basically made the decision not to press as much as we had up to that point," stated Martin in reflection.

The Miners then went on a 5 game winning streak, as they took games from Washburn, Central, Emporia State, Missouri Southern, and Missouri Western. They then lost a tough game to Northwest, before going on another winning streak. They finished the conference season with wins over UMSL, SBU, Northeast, and Pitt State.

Intent

conference wide receiver and also won all-district honors at that position. He caught 58 passes for 808 yards and 13 touchdowns last season.

MATT HINSON, a 5-10, 185-pound safety from Oologah, Okla., High School. Hinson made 121 tackles (83 solo) and five interceptions last year, earning him all-state and district back of the year honors. He was also named as the team's most valuable player.

SEAN MCINERNEY, a 6-0, 175-pound wide receiver from Kansas City Rockhurst High. McInerney is a two-year letterman who caught five touchdown passes last year for the state power Hawkllets. He is also a four-time letter winner in track.

BRIAN TILLMAN, a 5-8, 165-pound running back-defensive back from St. Louis Ritenour High School. Tillman won honorable mention all-conference honors as a wide receiver and also won all-league honors at defensive back.

RAYMOND ZILER, a 6-5, 220-pound defensive-offensive tackle from Jasper High School. Ziler was an hon-

The Miners ended at 12-4 in the conference, good for at least a share of the conference championship (see Out of Bounds page 8) for only the second time in school history. They set a school record for MIAA wins.

With the regular season finished, the Miners were ready for the MIAA postseason tournament. Missing Brueggeman, UMR, powered by Jeff Kokal, won an exciting game from Washburn, scoring 112 points in the process. The Miners then beat UMSL in a tight game, getting set to face Central Missouri in the tournament championship. UMR took a very close game from the Mules, winning by a score of 67-65.

With the postseason championship in hand, the Miners awaited word on the NCAA tournament. UMR was given a number 1 seed, as well as the chance to host the South Central Regional. The Miners, after a bye, faced Central Missouri again. UMR won by a score of 72-67 and would see Northern Alabama in the championship game. Here, the Miners ran into a team that got hot, losing by a score of 92-80.

Overall, the Miners finished 25-6, setting a school record for wins. UMR finished a record 19 wins over .500. The team accomplish many things, including a conference championship, postseason championship, and a win in the NCAA tournament. The Miners had 6 players who averaged above or just below 10 points a game. Jamie Brueggeman averaged 12.3 points a game along with 8.3 rebounds, while Jeff Kokal had 12 points and 4.7 rebounds, Marc Tompkins 9.6 points and

5.8 rebounds, Tim Holloway 13.4 points, Terry Smith 12.4 points, and Michael McClain 9.8 points and 7.5 assists per game.

McClain, the MIAA co-MVP demolished the school assist record, tallying 231 assists. This was good enough to move him into the fifth spot on UMR's career assist list, in only one season.

Jamie Brueggeman, named to the second team All-MIAA, was able to break the 1000 point barrier this season, as he ended up tied for 14th on UMR's career scoring list. Tim Holloway also broke the 1000 point mark, as he is in 13th place on the career scoring list.

The Miners were able to stir excitement by generating huge crowds, as the basketball games were the place to be on Saturday nights. Martin bragged that, "I would venture that there is not another school in the country that gets half their students to the basketball games. I'm sure we did on the last four or five games of the year. I just want to give them a big 'thank you' for the support, for probably the greatest '6th man' crowd in Division II. I don't know if they know this, but we led the nation in attendance in the regional, and its a tribute to the fans. It's a tribute to get to the 'Sweet Sixteen.' Without them we probably wouldn't have gotten that far."

UMR basketball had a tremendous year in 1995-1996. This Miner basketball team set a new standard of excellence by which future teams will be judged. "It's been a great run," said coach Dale Martin.

from page 8

orable mention all-area player at defensive tackle after recording 73 tackles and six sacks last season.

In addition, the Miners have gained the services of **DAN VAN ANNE**, a 6-3, 180-pound quarterback from Elkhorn, Neb., who is transferring to UMR from Benedictine College. Van Anne, a civil engineering major, was an all-conference player for the Ravens who also won NAIA academic All-America honors. In 1994, he was once named as the NAIA's "Player of the week."

MEN'S SOCCER

JOHN ALMEIDA, a 5-7, 135-pound defender-sweeper from Papillon-LaVista High in Papillon, Neb. Almeida was a honorable mention all-state performer who was also in the regional pool for the Olympic Development program in 1995. He is also a national merit student.

MIKE KIEFER, a 5-9, 135-pound midfielder from Rolla High School and State Fair Community College. Kiefer

returns home to where he led Rolla High School to the Missouri Class 4A semifinals in 1993. He was an all-state selection as a senior and won all-district honors three times. He served as the team captain as a junior and senior.

JON KWANTES, a 6-0, 165-pound sweeper from Rolla High School and State Fair Community College. Kwantes, a high school teammate of Kiefer's, was a three-time all-district selection and a winner of all-state honors as a senior. He was also a member of the RHS team that advanced to the Missouri 4A semifinals three seasons ago.

WOMEN'S SOCCER

SARA RUDY—a midfielder-goallkeeper from Fremont, Calif. Rudy, who was named as her team's most valuable player is expected to bolster the midfield position for the Lady Miners. She was named as the prep "Athlete of the Week" by the Alameda Newspaper Group and was a two-time winner of the North Coast section academic-athletic award.

Life

me make it clear that I'm not just picking on St. Pat's. Come on, you know me: I pick on everybody. Seriously, though, this whole concept of tradition and its purpose in life first hit me after attending a friend's wedding a couple of weeks ago. Obviously, weddings are probably the most tradition-based event still alive in today's society. You've got your white gown, tons of flowers, something borrowed, something blue, cold feet, bachelor parties, ugly bridesmaid dresses.... All of these things stem from tradition. But, again, is that always good? I mean, I understand the tossing of the bride's bouquet to the single women, but how a groom can take the garter off of his brand new

wife in front of a bunch of hooting, howling, drunk males and throw it to them while having any amount of self-respect remaining is, well, a smidgeon beyond me.

And, then, of course, there's always the holidays. I mean, here we've got a six foot rabbit who hangs out in shopping malls acting like the King of Tradition himself (yes, kids, that would be Santa Claus) and then travels all over the world putting dyed eggs in such ridiculous places that you can only find that last, missing one by the smell two weeks later emanating from the garage gutter. I don't get it. I'm not entirely sure that we're supposed to get it. But that's all a part of tradition.

StuCo

ment. The Vice President of External Affairs (VPX) is in charge of handling student complaints. This includes making sure these complaints either get referred to one of the issues committees, gets referred to the proper student group (RHA, IFC, etc.), or kills the issue. For example, if there is a complaint that would help one or two students but hurt a majority of others, the issue would get killed. When issues are referred to a committee, priority is given to the ones that ben-

efit the entire campus the most. A few of the issues Student Council has been working on recently include:

- More dialups on campus.
- Working on getting a caution light at the intersection of 10th and State streets.
- Sponsoring a Diversity Week later this semester.
- Submitting a proposal to implement a 24-hour study/computing area on campus within the next few years.
- Currently there are task forces work-

Parade from page 1

Clowns from Socuno and Twin Lakes Shrine, and Go Carts from Abou Ben Adhem Shrine Clubs in Springfield, MO and Dallas Company.

This parade has a tradition of being one of the largest in the state of Missouri. Last year, in fact, it was the third largest. It brings out the best in creativity throughout campus and the town of Rolla.

there." Pete Joyce, student knight for Kappa Sigma, commented that mainly it was really cold and slimy. Joyce said that while there was no particular smell, "you gotta keep your mouth closed."

To many onlookers, it looked like the Committee was pretty rough on the knights as they were dragged to Alice, but Boring and Joyce both agreed that

it was all in fun, and no one got hurt. "I'd definitely do it again if I had the chance," Boring said.

While none of the student knights were hurt, one student was taken away in the ambulance that was waiting on site. Officers on the scene said that the student had too much to drink and would probably have to get his stomach pumped.

from page 5

So, kids, the moral of the story here is that while traditions may be pretty dang silly, culture would be a lot more boring without them. Basically all the fun stuff in life would be null and void. Children wouldn't have something to look forward to at Easter and Christmas. Rolla students wouldn't get two extra days off school for a sanctioned party. And if that doesn't convince you of the importance of these little things we do just because they've been done for a billion or so years, I don't know what will. Anyway, until next week, then, folks, I hope you've recovered from our little fete and watch out for those six foot bunnies. They're watching you, you know....

ing on improving the registration and advising systems.

This is only a sample of Student Council's services and accomplishments. Quite often, big projects take a long time to achieve. For example, the new student recreational center started in Student Council several years ago. If you have any questions about what Student Council can do for you, e-mail stuco@umr.edu, call 341-4280, or stop by 202 UC-West and find out.

Music

on this album has serious influences from their Brazilian background. The re-induction of drums and the singing style of Brazilian natives brought out that rebirth sound. The songs "Breed Apart," "Disted," "Spit," "Born Stubborn," "Ambush," and "Endangered Species" are all heavily influenced by the fast guitars and pounding drums with lyrics that are somewhat easy to understand. Now to emphasize that "Roots" heritage sound, the songs "Jasco," "Ratamahatta," and "Itsari," with their tom toms and latin lyrics, are sure to confuse you, but if you like diversity, you are sure to like this far from normal

Sepultura sound. I think that if you pick up a copy of this album, you will be able to tell whether or not you like it after just the first three songs. For all the metal heads out there, don't be so quick to judge an album until you listen to it a few times. I for one thought the album was rather bizarre when I first listened, but I really digged quite a few songs on the album. I would leave this review with some weird saying like live long and prosper and pick up a copy of "Roots" today... but I am pretty sure you are all capable of making your own decisions.

about what was going on in student government at UMR? Have you wished you knew what issues STUCC was working on? Well, we have the answer for you. If you are interested in these topics, or basically anything about STUCC, you can now be placed on the listserv to receive e-mail that STUCC sends to its members with just a few mouse clicks. In the mail you will receive, you will find minutes from meetings, announcements of upcoming events and meeting as well as occasional discussions of issues STUCC is concerned with. To be placed on the listserv (computer list that STUCC mail is sent to, for distribution to members), simply get on the World Wide Web, (use Netscape from any computer on campus) and go to the STUCC homepage (<http://www.umar.edu/~stucco>). Then go down to Student Council Forms on this page and click Subscribe to STUCCOLST listserv. Don't miss this chance to get involved, and know what is going on on our campus.

Computing Services Short Courses, Winter 1996

Computing Services is offering a series of one or two day short courses to provide basic computer skills for faculty, staff, and students. Courses are structured training sessions that combine lecture and hands-on practice. There is no charge for attending a short course. Courses are offered on these topics:

Introduction to the Electronic Campus (NEW), Introduction to the Dial-up Facilities (NEW), Windows Basics, Advanced Windows, Windows Internet Software, Windows World Wide Web Development, WordPerfect for Windows 6.1, Eudora, Elm, Unix Networking, Unix OS Basics, Mac Basics, Mac Networking, Mac World Wide Web Development, Introduction to the PC and Novell Network, Wordperfect THESIS.

Details: Course schedules and descriptions are available online on the World Wide Web at <http://www.umar.edu/~cchtml/courses.html>. You can receive a printed copy of the course schedule at the Computing Services office, MCS 114. The courses are free, however, signups are required. To register, contact the Computing Services office at 341-4841. Some courses have prerequisites or require a general purpose Unix account. Be sure to check before registering.

Courses by Request: Computing Services will schedule short courses upon request from UMR departments or student organizations. Topics can include any of the courses listed above. Faculty can request classroom presentations or training on specific computer topics. Contact our department for more info.

Students are reminded to turn in all job offers to the COC as soon as possible

after they are received. Forms are available in the COC on the third floor of Norwood Hall. These statistics are very helpful for UMR students as well as companies interested in recruiting at UMR. UMR job search statistics depend upon the information collected. Your cooperation is very appreciated.

Students are reminded that RESUMES ARE NOT AUTOMATICALLY SUBMITTED BY THE COC to companies for pre-screening for on-campus interviews. Each student must submit their own resume through the system to each company in which they are interested.

Any students wishing to apply for financial aid for the Summer 96 semester, must complete a Summer 96 Financial Aid Application. By completing this form you will be considered for Federal College Work Study, Federal Perkins or University Loans, and Ford Direct Subsidized and Unsubsidized Loans. Applications available in the Student Financial Aid Office beginning March 1, 1996 until April 12, 1996.

There is a new service the Admissions & Student Financial Aid Office is offering on the World Wide Web called FASTWEB (Financial Aid Search Through The Web). Its location on the web is "<http://web.studentservices.com:80/fastweb/>". FASTWEB is a freuser-friendly service in which a student completes an online personal profile pertaining to his biographical information, including parent/student activities, background, and college/major information. Upon completion of this profile, FASTWEB begins its search, and within minutes the student is presented with a detailed online list of outside grants, scholarships, fellowships, internships, and loans he is eligible to apply for. Approximately 1200 new awards are added to the FASTWEB database each day. FASTWEB automatically updates each student's profile based on these new awards. FASTWEB also provides a general information section describing various Federal Student Financial Aid programs. Students are encouraged to use FASTWEB to learn more about financial aid and keep abreast of eligible awards.

AMERICAN ELECTROPLATERS AND SURFACE FINISHERS SOCIETY

The American Electroplaters and Surface Finisher Society offers separate scholarships for university or college undergraduates and graduates who demonstrate that their training (or research) is related to plating and surface finishing technologies.

ELIGIBILITY:

- * Undergraduate students must be studying in metallurgy, metallurgical engineering, materials science or engineering, chemistry, chemical engineering, or environmental engineering.

- * Selection factors include achievement, scholarship potential, motivation and interest in the finishing technologies.

- * Must be a full-time student during the academic year the scholarship is received.

- * Financial need is not a factor.

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEAD-

LINE: Must be postmarked by April 15, 1996.

ROLLA LIONS CLUB SCHOLARSHIP REQUIREMENTS:

3.0+ G.P.A.

MUST HAVE ATTENDED NEWBURG, ROLLA OR ST. JAMES HIGH SCHOOLS TO QUALIFY. APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE: APRIL 1, 1996

THE JOHN GYLES EDUCATION FUND SCHOLARSHIP

The John Gyles Education Fund is a private, benevolent endeavor established six years ago with the help of a Canadian/American benefactor. Each year financial assistance is available to students in both Canada and the United States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$2,500.00. Deadlines for 1996 are April 15th, June 15th, and November 15th. Applications must be mailed by these dates.

To receive an application please send a stamped *** (US 32 cents), self-addressed, standard letter size (No. 10) envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick Canada E5B 5G4.

NAWIC NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION ST. LOUIS CHAPTER 38

St. Louis NAWIC Scholarships are offered to women and men who are pursuing degrees in fields related to the construction industry. I am enclosing an application for this scholarship, and ask that you reproduce it as necessary to make it available to all students seeking financial assistance to further their education in the construction industry.

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE MUST BE POSTMARKED BY APRIL 1, 1996.

TAU BETA PI SCHOLARSHIP FORM REQUIREMENTS:

- * Currently enrolled at UMR

- * Full-time undergraduate engineering student (including Eng Mgt and Eng Mech)

- * Completed a minimum of 30 credit hours

- * Have a minimum 3.5 cumulative GPA

- * Winners from the previous two years are ineligible

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline is: Return to the SFA Office by April 9, 1996.

NAWIC NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION THE GREATER KANSAS CITY MO SCHOLARSHIP FOUNDATION

The National Association of Women in Con-

struction is a International Association of approximately 6,000 women employed in various phases of construction industry. The Greater Kansas City, MO NAWIC Scholarship Foundation offers scholarships to students pursuing a career in the construction industry.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline is: March 31, 1996.

1996-97 COTERIE SCHOLARSHIP ELIGIBILITY REQUIREMENTS:

- * The recipient must be a female student at UMR.

- * She must have completed 50% of the hours necessary for completion of her degree from UMR.

- * She must be enrolled with a minimum of 9 hours in a degree program at the time of scholarship payment and must show evidence of satisfactory progress toward that degree.

- * She must demonstrate financial need.
- * She must submit a written statement outlining her reasons for application to the Coterie Scholarship Committee.

- * She must not be a member of the family of any UMR faculty, full-time staff, or other personnel. (She may be an employee herself.)

PREFERENCE WILL BE GIVEN TO:

- * The woman with added personal obligations (e.g., children, invalid dependent, physical disabilities, etc.).

- * The woman who had her college education interrupted and is returning to complete her graduate or undergraduate degree at UMR.

- * Grade point average will be taken into consideration.

Please send a letter of application explaining your qualifications to:

COTERIE, P. O. BOX 1638, ROLLA, MO 65401. APPLICATION DEADLINE IS: APRIL 1, 1996

WILLIAM M. REISS FOUNDATION SCHOLARSHIP FUND

The William M. Reiss Foundation, established by Mr. Reiss prior to his death on July 14, 1975, is managed by Boatmen's trust company of Illinois. A portion of the income from the foundation is used for scholarships to accredited colleges and universities in the United States and its possessions. Scholarship recipients are limited to Graduates of publicly supported High schools located within the city limits of Belleville, Illinois. Students working toward a degree in medicine, but not nursing, are excluded. Post baccalaureate students will not be considered. APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE IS: MAY 1, 1996.

THE MID-WEST CONCRETE INDUSTRY BOARD, INC.

APPLICATION REQUIREMENTS:

- * Applicant's permanent residence as indicated on college records or the high school of record must be with the state of Kansas or Missouri and either (a) within a 150-mile radius from a point on the Kansas/Missouri state line at highway I-35; or (b) within a 25 mile radius of the main U.S. Post Office at the mailing address or a current MCIB member.
- * Applicant must be pursuing a Bachelor of

Science or higher degree that includes concrete and concrete design courses as an integral part of their degree program at an accredited college or university.

- * Applicant must be enrolled or have completed concrete or concrete design courses.

- * Applicant must not be a son, daughter, grandson, granddaughter, niece, or nephew or an Advisory Committee member.

- * Part-time student applicants will be limited to junior class status or above. The scholarship award to part-time students will be commensurate with the costs.

- * The applications must be typewritten. Responses to questions on the application must be answered on the form, with the exception of the essay question, which may be typed on a separate sheet and attached to this application. The application must be accompanied by a college transcript.

- * (a) A statement of appraisal of the applicant in terms of potential for growth, character, leadership capacity, and career interest from three evaluators is required; at least one should be from a faculty member. The statements of appraisal must be returned directly to MCIB by each evaluator. Recommendations sent to MCIB by the applicant will not be accepted.
- (b) Applicants must ensure that MCIB has received these appraisals before application deadline.

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATION DEADLINE: APRIL 30, 1996.

1996-97 DESK AND DERRICK EDUCATIONAL TRUST SCHOLARSHIP

The Association of Desk and Derrick Clubs sponsors a scholarship program through the Desk and Derrick Educational Trust for female student citizens of the United States or Canada who have completed two years of undergraduate studies with a minimum of 3.0 grade point average (computed on a 4.0 scale). Female applicants must be pursuing a degree in petroleum, energy and allied industries and have need of financial assistance.

APPLICATIONS AVAILABLE IN THE STUDENT FINANCIAL AID OFFICE, G-1 PARKER HALL. APPLICATIONS DEADLINE: APRIL 1, 1996.

NAWIC ST. LOUIS WORK FORCE 2000 GRANT

The St. Louis Chapter of the National Association of Women in Construction has elected to present to special award entitled the "Workforce 2000 Award" to a person and/or persons to help with the costs associated with entering the trades.
