Park: "I do not believe that Alice should continue"

Casey Morriss

News Editor

In a meeting held on Friday, September 6, Chancellor Park presented a purpose statement for the St. Pat's celebration and outlined a planning process that will likely lead to a celebration much different from those in the past. For instance, without going into specific reasons, Park said, "It's my feeling that Alice must come to an end."

The meeting was the first of several that Park wants to have in order to develop plans for the 1997 celebration. He hopes to have fairly firm plans in place by November 1. Among those in attendance at the meeting were Chancellor Park, Vice Chancellor Ogrosky, Student Activities Coordinator Bill Wilson, Director of University Police Bill Bleckman, and various representatives from StuCo, St. Pat's committee, and the faculty.

Park started the meeting by presenting a chart that showed a decline over the past 10 years of the percentage of first time students who

had consumed alcohol in the past year. Park believed this chart was an indication that the student body was becoming less interested in drinking and drinking activities.

Dustin Conrad, Treasurer of the St. Pat's Committee, pointed out that the chart only showed the habits of first year students, most of whom were under the legal drinking age. In light of this, he didn't feel that the data was an accurate representation of the habits of the entire student body. Park responded by saying that the figures nevertheless showed a decline in new student's interest in drinking and that the interests of new students represented future trends.

In response to concerns that the St. Pat's celebration should be firmly grounded in tradition Park noted that since the inception of the celebration at UMR, it has undergone significant and numerous changes. "This is meant to be a discontinuity, and there have been discontinuities in the past," Park said.

He noted that it had once been a very formal "black tie" event, and that at one time the city of Rolla had put the event on with very little input or help from the UMR community. "If we do not change the St. Pat's celebration to meet the needs and interests of the

students, it will die--not because I will kill it, but because it will become irrelevant," Park said.

Park then handed out a purpose statement which summarized his view of what the St. Pat's celebration should be about. He felt that the purpose statement also reflected the views of the faculty. Of the purpose statement, one of the faculty members present said, "I fear we're talking in two directions. I'm not sure the student body can view St. Pat's in light of this purpose statement, although it is a good one. Most of the students see it as a drinking event."

Park again pointed out that the graphs indicated that students were less interested in drinking events. Jeff Caulfield, Associate Professor in Geological Engineering, added that even if students see St. Pat's primarily as a drinking and social event, it doesn't have to stay that way. He felt that the approaching end of the century was an opportunity for change and progressive thinking.

Park also expressed concerns about the size of the St. Pat's Committee, suggesting that perhaps the 22 people on the committee would be un-

see St. Pat's, page 14

PURPOSE STATEMENT FOR THE ST. PATRICK'S CELEBRATION

The St. Patrick's Celebration at UMR is a student run, campus-wide event celebrating the most hallowed traditions of MSM/UMR. It involves the entire community in a lighthearted opportunity to recognize the professional development of UMR's student leaders, to celebrate the academic achievements of the students, to strengthen the cooperative relationship between the University and the Rolla community, and to provide a positive opportunity for entertainment and for a temporary diversion from UMR's academically rigorous program.

To fulfill this purpose, the St. Patrick's Celebration must involve all constituents of the UMR campus. All events and activities must reflect positively on the image of the University. The celebration must strengthen the relationship with the Rolla Community. It must portray UMR's students as developing professionals with strong interpersonal and leadership skills. Any circumstances which fail to meet these standards should not receive University approval as a part of the St. Patrick's Celebration.

The purpose statement presented by Chancellor Park.

All I want is a Hamburger. . .

Student paper looking for staff members

Casey Morriss

News Editor

The Missouri Miner is getting into the groove of the semester. We have put out two issues and are excited to be providing news and entertainment to UMR students for another year.

Here at the Miner, we believe that UMR is a rich bed of talent. We would like to tap into this talent so that the paper will be better equipped to reach its full potential.

We will try to accommodate any student that wishes to help the paper. There are, however, certain positions which we are looking especially hard to fill.

Most desperately, we are looking for photographers. Considering the number of events that require a photographer, a bigger staff in the photo department is needed to ensure thorough coverage. Prospective photographers

do not necessarily need to own their own camera. The Miner owns a camera that is available for use by its photographers.

The Miner is also looking to add to its news staff. News writers have the opportunity to interview important members of the UMR community and stay on top of the events important to UMR students.

The time commitment for news writers is largely at the discretion of the writer. Assignments are made based on time availability. Writers are asked to attend only one meeting per week which usually lasts less than thirty minutes. If this is a problem, other arrangements can generally be worked out.

Both writers and photographers are paid for their contributions to the paper.

Students interested in joining the Miner should contact us via e-mail at MINER@UMR.EDU, or simply come to one of our meetings. Meetings are held every Thursday at 4:30 in room 103 of Norwood Hall.

Call-in show set to begin

Michael Wentzel
StuCo Source

Starting Monday, September 16th, Rich Lee, Student Council Vice President of External Affairs, will begin airing the "Ask Mr. StuCo" call in radio show on KMN 89.7FM from 8:00pm to 9:00pm.

On the first show Lee will be welcoming students back to Rolla and will be discussing what Student Council has done and can do for you. Lee will be accepting questions on the air regarding Student Council and the services it provides to the University of Missouri-Rolla and the community in general.

In the past, the call in show has invited faculty and staff members on the air to discuss their respective departments, including changes, debates on current situations, and what services these departments offer students.

The show allows students to stay up to date on campus events and topics.

It also creates a direct communication link between Student Council and the students. This link is especially important for those students who are neither involved in Student Council or an organization with a StuCo representative.

As an added incentive this year, there will be drawings for gift certificates during the show. Free numbered tickets for the drawings will be available up in front of University Center-West, by the puck, from 10:30am to 4:30 pm on the day of the call in show. Lee will be calling off numbers drawn on the air and winners will need to call into KMN 89.7 during the show to receive their award.

All UMR students are encouraged to listen and call in with any questions they may have regarding the campus or the community.

If you have any questions or comments regarding the "Ask Mr. StuCo" call in show, Student Council can be contacted via e-mail at stuco@umr.edu. You can call them at 341-4280, or you can stop in the Student Council office in 202 University Center-West.

FALL 1996 REPORTING SCHEDULE

Orientation, new freshman	Sunday, August 18
Registration, new freshman	Monday, August 19
Orientation/Registration - New Transfer Students	Wednesday, August 21
Open Registration 8:30 A.M. - 3:00 P.M.	Thursday, August 22
Initial class rolls and Wait Lists (available in Registrar's Office 2:00 P.M.)	Friday, August 23
Classwork begins 7:30 A.M.	Monday, August 26
Adds and Drops Continue (Closed on Aug. 23rd) 8:00 A.M.	Monday, August 26
Last day for 90% refund of fees 4:30 P.M.	Friday, August 30
Labor Day Holiday	Monday, September 2
Last day for 70% refund of fees 4:30 P.M.	Monday, September 9
Last day to change pass/fail grading option	Monday, September 9
Last day to register or add courses	Monday, September 9
Last day to notify Registrar of intent to graduate on December 21, 1996	Monday, September 9
Class roll check sent to departments	Monday, September 16
Class roll check due in Registrar's Office 10:00 A.M.	Thursday, September 19
Last day for 50% refund of fees 4:30 P.M.	Monday, September 30
Last day to drop without a "WD" showing on transcript	Tuesday, October 8
Last day to change to HEARER status	Tuesday, October 8
Homecoming (classes as usual)	Friday & Saturday, October 4-5
Mid-grade rolls sent to departments	Wednesday, October 16
Mid-semester	Saturday, October 19
Mid-grades due in Registrar's Office 12:00 A.M.	Tuesday, October 22
Student Council Free Day (no classes)	Friday, October 25
Mid-grade reports available to students	Monday, October 28
Advising Week for Winter 1997	Monday-Friday, October 28-November 1
Telephone registration appointments begin 8:00 A.M.	Monday, November 4
Last day to remove incompletes in prior semesters	Tuesday, November 5
Last day for dropping a course	Tuesday, November 19
Last day for withdrawing from school 3:00 P.M.	Tuesday, November 19
Thanksgiving vacation begins 7:30 A.M.	Wednesday, November 27
Thanksgiving vacation ends 7:30 A.M.	Monday, December 2
Final grade sheets sent to the departments	Tuesday, December 10
Last Class Day	Friday, December 13
Reading Day	Saturday, December 14
Final examinations begin 7:30 A.M.	Monday, December 16
Fall semester closes 5:30 P.M.	Friday, December 20
Commencement 2:00 P.M.	Saturday, December 21
Final grade sheets due in Registrar's Office 12:00 A.M.	Tuesday, December 24
Final grade reports sent to students	Tuesday, December 31

StuCo to sponsor leadership forum

Michael Wentzel
StuCo Source

The Student Council Campus Wide Leadership Forum is going to be held in Centennial Hall on Saturday, September 14th. It will begin at 9:00 a.m. and end around 3:00 p.m.

The Leadership Forum is a combination of demonstrations and discussions concerning leadership skills, computer skills, organization fundraising, and Student Council. This forum is open to all UMR students and is recommended to any student that wants to get involved and develop the leadership skills desired by industry.

StuCo treasurer James Cain is the coordinator for this year's Forum.

He has developed a program that will include a combination of seminars and discussion, or question and answer sessions designed to give students the building blocks they need to develop outstanding leadership skills. These skills will be valuable not only need while attending UMR but also when the student enters the business world.

One of the seminars to be held at the Leadership Forum is a fundraising seminar for all campus organizations. This seminar, which will be at 1:00pm, is going to be a discussion and information session on fundraising ideas. Different ideas will be discussed in light of how well they worked in the past for various campus organizations. There will also be a brainstorming time to explore new ideas for fundraising.

See Forum, page 14

Library offers new electronic resources

Melanie Kostedt
Staff Writer

According to an on-campus survey of 35 UMR students chosen at random and representing nine different disciplines, only 31 percent had made use of the new state-of-the-art tools available at the Curtis Laws Wilson Library.

According to Janet McKean, Reference Services Coordinator, there has been an "electronic explosion" in information retrieval. To guide the UMR community in accessing the myriad sources of information now available, the library is working toward one-stop access to information. The goal is to provide a gateway through which one can link to diverse sites and resources.

An important step in reaching this goal is the introduction of the new

MERLIN Gateway. UMR, along with the three other campuses of the University of Missouri system and St. Louis University, have installed a new electronic system called MERLIN, Missouri Education and Research Libraries Information Network.

The MERLIN Gateway includes the new online catalog, which replaces LUMIN. It also provides faculty, students, and staff with easy access to 12 databases encompassing a broad range of information. The material now available includes: worldwide engineering and technical literature, biological abstracts, newspaper abstracts, worldwide business and management information, biomedical literature, and government publications.

MERLIN can be conveniently accessed from any computer through telnet to merlin@umr.edu. When the login prompt appears, type library. From some computers on campus, it may be possible to simply click on the MERLIN Library Catalog icon found

under Network Access in Windows. Search guides and further information about this system can be picked up at the library's Reference Desk.

MERLIN is not the only new information source provided by the library. The in-house collection of CD-ROMs has been updated and expanded. These compact discs allow convenience in obtaining valuable texts, abstracts, or indexes.

Some of the new features now available on CD-ROM include: articles printed in the Kansas City Star since the beginning of the year and the St. Louis Post-Dispatch since January of 1995, full texts provided by the SIRS Researcher (Social Issues Research Series), and ASCE (American Society of Civil Engineers) journals.

Curtis Wilson Laws Library now has a niche in the world-wide web. Its homepage, which can be addressed at <http://www.umr.edu/~library> con-

OPINIONS

Say . . . Anything Student addresses security issues in CLCs

An editorial by News Editor Casey Morriss

Generation X...that's us. Although there are "non-traditional" students at UMR, the vast majority fall into that age group that has been dubiously stereotyped as a group of lazy, dispassionate, slackers. The Baby Boomer generation, which was our age during the emotion and opinion filled days of Vietnam, ERA, and the sexual revolution, often say that we are satisfied with just getting by; that we don't want to rock the boat or take a stand. Maybe they're right.

In my college years it seems sadly rare that people my age stand up and speak their mind. For instance, how often have you been in a group where the conversation goes around and round with:

"What do you want to do?"

"I don't know. What do you want to do?"

We don't want to say anything definitely, perhaps for the fear that we will be held responsible for the consequences.

I've only been at UMR for slightly more than a year, but in that time I've found that if the students here are going to be passionate about anything, it's the St. Pat's celebration. To say the celebration has a strong tradition at UMR is to drastically understate the matter. When I tell my friends I go to UMR they say, "Oh, that's the place with the St. Pat's party." In their eyes it defines the University.

Based on two meetings held over the summer and one last held Friday, it looks like St. Pat's is about to change. Change can be good or bad, and this editorial will not attempt to sway your opinion, merely urge you to let it be heard.

You may think that any changes to the St. Pat's celebration would ruin it. You may think that any change would be an improvement. You may want to scrap the whole thing and get a refund from your student activity fee. What very few UMR students can say is that the St. Pat's celebration has no effect on them; they are absolutely indifferent. You have an opinion and as a part of the UMR community your opinion is no less valid than anyone else's.

Talk to a StuCo representative. They are designed to be your voice, but must first know what you want to say.

Submit an opinion article to the Miner. You don't have to write a Pulitzer Prize winning piece, just put your thoughts on paper and drop it by the office in Norwood Hall. If nothing else, you can send a copy to your Baby Boomer parents and say, "Look Ma, I'm taking a stand!" I'm sure they'll be very proud.

As the "powers that be" are deciding the future of St. Pat's, now is your chance to make a difference. Don't passively keep your opinion to yourself, say it...say something...say anything.

This letter is more of a message to the students at UMR than an opinion. This letter is in regards to using the many CLCs located throughout the UMR campus.

As a helpdesk consultant, and also as a student, I've seen many CLCs misused in various ways. This includes network game playing, being in a CLC when it is closed, and even little kids coming in and playing hide and go seek (I'm totally serious).

This is why we have security come through many of the CLCs in the evenings and check ID cards.

They are not here to harass you, they are here for your convenience and protection.

I just recently noticed an incident where a UMR policeman came in to check ID cards. One user didn't have his ID card with him. He had a legitimate excuse; he had just come in from practice from a particular sport and he didn't have anywhere to carry his ID on him.

Regardless, the officer asked the student to leave. This made the student irate, and he said some unpleasant things, and stormed out of the building.

Now, it is understandable that he wouldn't have his student ID because he had nowhere to put it. But the police officer doesn't know whether this person is a student or a malicious hacker from off the street.

So I would just like to bring it to the students' attention that if they wish to use the campus computer facilities, they should always carry their student identification card with them. Especially if it is during the evening hours. This will help prevent them from any unpleasant encounters with campus security. Thank you.

There's no limit to what we can do
— with your help.

FEATURES

Creative Mooching: Living well on little or no money

Bonnie Garrison
Columnist

Do you wish you could do something interesting once in a while like have dinner, go dancing, visit a gallery, or attend a concert, but you just don't have the money?

Do you think that nothing ever happens in Rolla even if you did have money to spend?

Would you like to ask a friend out but are embarrassed to offer them dinner at Taco Bell (and that is only if they promise to eat the Extreme Value Meal)?

If you answered yes to these questions, then this column is dedicated to you. Living well on little or no money is an art that can be cultivated. As a practicing artist in this field, I will provide you with suggestions each week of unique events, gourmet meals, and interesting entertainments that are free or extremely cheap (under \$10 for two people).

Now, about this date you are taking to Taco Bell for that gourmet Mexican meal, maybe they would prefer to attend a medieval feast.

Wednesday, September 18th at 7 p.m., a medieval dinner and dance will be held at the New Rolla County Courthouse. The cost to you: nothing.

Your hosts will meet you at the door and immediately usher you into a room full of costumes where you choose one that best fits your adopted persona.

Next comes dinner and conversation with the knights and the ladies of the realm. After the meal, the tables are pushed aside and the music and dancing begins.

It doesn't matter if you've never danced the Maltese Bransle, the Hole in the Wall, or the Calontir Bransle, instructions for all of the dances are given at each dinner session.

Your hosts will be members of the Society for Creative Anachronism. This group is dedicated to the study, recreation and reenactment of life in the period from 600 to 1600 A.D.

You will be warmly welcomed, well fed, and richly entertained by this group. You do not need to make a reservation, but if

see Mooch, page 14

Why We're A NATION of Idiots... And what you CAN do to help

Scott Mitchell
Columnist

I came across a rather alarming fact yesterday. I was in the library doing research on my American History report (ugh!), wandering around aimlessly in the reference section. I grabbed a book which I thought dealt with the War of 1812, but rather was a compilation of studies done by the U.S. Department of Education. In this book was a study which showed the United States's literacy rate compared to that of other countries.

In a literacy test given to fourteen year olds, the good ol' US of A, the home of the vacuum tube and Benjamin Franklin, scored ninth overall.

Ninth! Hungary scored higher than us! Iceland scored higher than us!

Well, I'm not about to just sit here idly and watch us fall even further into the abyss of ignorance. It is time something is done.

Of course, I did not know, at first, what I could do to help teach the masses, but I started to think, "What is it exactly that smart, literate people have?" I thought long and hard until it hit me: smart people have desks!

It's not necessarily the desk which is so important (although the desk does play a key role), but what is on the desk itself! Desk calen-

standing of the English vocabulary, which brings me to my "Word for the Day:" PARRICIDE: the crime of murdering one's parents.

Now that I've done my part to ensure literacy for all, it's your turn. What can you do to better our nation's dire educational system? There are several ways you can help, but be forewarned, there are also several ways you can do irreparable harm.

Following are a couple of examples. GOOD: if you're smart, becoming a teacher might be one possibility (we don't want the blind leading the blind). BAD: become president and form a new bureaucratic division of the federal government to investigate why the fourteen year olds of Hong Kong have a higher literacy rate than those of the United States. (Bad.)

Seriously, though, our educational values have been degenerative as of late. There was a time when we use to be one of the most

see World, page 14

THE MINER MUSIC REVIEW

Jim Bob
Music Reviewer

Wassup Peoples! We are making our way slowly through the semester, and I am sure you are hating every minute of it. Tests are just around the corner as well as piles of homework that are building up from the previous assignments. I suggest that you pick up a CD that was reviewed in the past papers and give it a listen.

Yeah, last week's music review section was kinda wimpy. Trying to keep a section that was once at least two pages is pretty difficult when you're the only writer. This is a hint for those that like to share their opinion on albums that are soon to be released as well as those already out. If this sounds fun to you let me or Amy Jones know that you are interested in adding to the Music Review section.

I decided not to limit the music section to just alternative/rock music, but to whatever I can get my hands on, since quite a few people on campus

here enjoy music such as country, blues, ska etc.

I have added to this week's reviews the concert update list for those that live or don't mind driving that scenic 103 mile trip to St. Louis.

Well, off to the reviews since I can't think of anything else to say.

Voodoo Glow Skulls
Firme
Epitaph
Punk/Rock

Sound Quality: 7
Performance: 7

Many people wonder if punk is dead. Sorry to disappoint the people that can only hope, but it is still alive and well, just a bit more subdued. Fortunately, there are bands like VGS that make every effort to stick their heads out and wave that flag attached to broken pieces of skateboards and three foot mohawks.

VGS is a very high intensity group that combines all the fast-played bastardized metal chords with drum beats that can only get that leg twitch mov-

ing. Songs like "Shoot the Moon," "Trouble Walking," and "Jocks from Hell" give a fresh breath into what was becoming the stale sounds of Sublime and Rancid.

The beat and guitar riffs leave influences of old Suicidal Tendencies in their Institutionalized days but have that vocal presence similar to that of the Boss Tones.

This album is definitely a must have. It is packed full of quality music for that punk/ska lover. In case you haven't heard of this group, check out the movie *Bio-Dome*. There is a scene where Sandler and Baldwin are together while "Shoot the Moon" plays in the background. I suggest one rent the movie to hear the song if anything.

Jim Bob

Type O Negative
October Rust
RoadRunner
Metal

Sound Quality: 7
Performance: 6

Type O has had great success with previous releases under their Road-

Runner label. This new album *October Rust* redefines their sound with stronger guitar leads and lyrics best described as unique.

Type O's music can only be described as a compilation of rock and Gothic vocals. The lyrics to most of the songs may seem morbid, but when listening to the overall melody and how the song is put together, one can only appreciate its complexity.

The variety in tone from this album with its mock-acoustic guitar and added background with distorted rhythms make this album actually enjoyable to listen to.

Once a person gets through the part of the semi-unorthodox lyrics and listens to the melody and the song in itself, I am sure one would like it.

Songs like "Be My Druidess," "Love you to Death," and "Burnt Flowers Fallen" all have lyrics that seem depressing, but the vocal talent of Peter Steele make listening to the album an almost metallic tranquil task. Peter's voice is similar to that of Sisters of Mercy, but it is all his own style.

The background vocals are easily understood, fully harmonized, and not

Have Fun! Jim Bob (jls@umr.edu)

The Verbal Voyager, on confusion...

by Sean Cordes

I looked up, and saw myself. In a thousand different mirrors I was walking, a thinking thing alone, dreaming, dazing. The days now in minutes. The wait for real rest, interminable.

Confusion grows like a weed around us. Where we really are, what we should do and say; how should we devote our precious moments. Confusion stems from many quarters.

The environment, for one, can be hectic. Fresh living spaces, (which always seem in need of sprucing), unfamiliar beds, (breeding a lack of sleep). New schedules, new faces, and new responsibilities.

It can make one think that they are not quite with themselves. And we aren't. There has to be at least one person or thing about each class that taints the environment for someone.

Mis-fired boilers, mis-laid funds, mis-conceived others, and the ever

looming buildings of unfamiliarity, send a disjuncting winter chill into all growing minds. These new sounds, smells, and scenes all help to coagulate into confusion.

And despite the external environment, internally, I am amazed at the amount of times one can learn a theory or formula only to lose it, due to the amount of information we are responsible for processing.

For instance, the old cliché of finding oneself in the wrong classroom on the first day seems something we all can defend ourselves against. But what about the students so overburdened with information that they find themselves in the right classroom, an hour ahead of schedule?

Sometimes it feels like we have memorized so much data that if one more thing entered the mind, names (including our own) would be forgotten.

No one is immune from the weeds of confusion.

For instance, I can't even remember the number of times a professor has been corrected in my classes (more than two hands).

Not to mention the student loan repayment statements that I've received since I was a freshmen, but am not yet legally entitled to repay.

Don't feel alone.

What you can do is plan ahead. If you think something will take one hour, give yourself two. You're not stupid, only human. And don't forget to take a couple minutes for yourself, if nothing else to remember who is doing all this thinking anyway.

You know why you're here. Just wait till you get out, you'll have extra time, a stable job, a consistent home life, etc.

Confusion.....

Aiming for Acceptance: Follies of the physics folks

by Amy Jones

Aside from being just your friendly local columnist, I am also one of those odd sorts most of you engineer types joke about: I am a physics major... and don't think we don't hear what you say about us.

I used to get defensive when people would explain "S/he's a physics major. You know..." for any eccentricity or foible of this rare breed. People deliver this "excuse" in hushed tones followed by a patronizing nod and lowering of the eyes to pity, I suppose, the poor misguided creature destined to spend life in miserable poverty and intense boredom.

Okay, well, from that last sentence, I imagine it sounds like I still am quite defensive, but honestly, I've improved remarkably. What changed my mind about how serious an offense this action actually is was the realization that maybe we do possess a few qualities that I prefer be explained merely by choice of major and not by any deeper investigation.

On a retreat over the summer, I met a physics major from the University of Oklahoma. Now, this physics major was a nice enough guy, but he carried with him a few obsessions I don't care to explore too much further than to just leave it at the old "Oh, he's a physics major." (wink, nod) standby.

So the foot fetish was normal enough - he insisted that fetish was too strong a word, but he used the word "obsession," so I feel plenty justified.

Slightly less than normal enough was a preoccupation with the retreat's sauna, affectionately referred to as the

Bastieu (don't hold me to that spelling) - this is the Swedish word for it; "sauna" is what the "bloody Finns" called it when they gave the idea to the Americans. This preoccupation in itself is, I suppose, not that uncommon. However, when one must drink three gallons of water in one day to replenish that which was lost basking in the Bastieu, there may be some evidence of a problem.

Finally, some calculus-intensive problem about the volume of multi-dimensional cones consumed this dear physics major one morning of the retreat. So while the rest of us were pouring coffee and orange juice, he was pouring over several pages of notebook paper and muttering about parameters and integrals.

I was sitting next to the guy, and, knowing that we shared that physics major in a world of engineers bond, he thought I might be able to give him a hand with the problem.

So there we were, bending over double integrals when suddenly a bright flash of light flooded the breakfast table.

Great - someone now possesses photographic evidence that I was, at least once, willing to work on calculus in the morning, on my summer break at a retreat.

You may think you've figured this all out, I'm just writing this about the poor guy because I'm embarrassed at being immortalized as the science geek I really am, but just remember: Hey, I'm a physics major. You know...?

SUB offers cult classic film

SUB

Source

The Student Union Board will present the movie *Rocky Horror Picture Show* on Friday, September 13,

and Saturday, September 14. The cult classic will be shown in Mechanical Engineering, Room 104 at 7 and 9 p.m.

SUB is also looking for new members to help out in all areas of activities. If you are interested in helping SUB out in the wide variety of fun and entertaining activities, call 341-4220 or stop by the office, 218 UC-West.

Retraction

In the September 5 issue of the *Miner*, the Alumni Association undergraduate employment article was erroneously attributed to a *Miner* staff writer.

This article was submitted by Amy Cook, a source from the Alumni Association office.

Co-op Program celebrates 40 years

COC

Source

UMR students have been co-opting for 40 years. Over these four decades the program has provided opportunities for thousands of students to work in industry gaining valuable experience while earning money to help pay for school. With the average co-op salary running a little less than \$2000 per month, and the option to co-op for a semester and a summer straight through, students are able to cover a majority of their school expenses.

In recent years student participation in the Co-op Program has grown to the point that more than 500 students worked as co-ops this past year. With more than 100 co-op employers located nationwide, students worked in states including Texas, Kentucky, Virginia, Ohio, Wyoming, Michigan, Colorado, Florida, Tennessee, Louisiana and the neighboring states to Missouri. The largest number of co-op employers are located in the St. Louis area.

This semester the Career Opportunities Center is conducting a campaign to celebrate 40 successful years for the Co-op Program and to increase student's awareness of the program. Yellow door hangers with

"If you Co-op jobs will come" on one side, and "Do Not Disturb" on the other were distributed to living units last week.

If any student did not get a door hanger and would like one, they are available free of charge to students and can be picked up on the third floor of Norwood.

Also, displays featuring photos of students at their co-op job will be available around campus.

If you have any questions about UMR's Cooperative Education Program, you may contact Dave Britton by calling him at 341-4301 in the Career Opportunities Center, or you can contact him by e-mail at daveb@shuttle.cc.umn.edu.

Live piano joins film fest

Film Festival

Source

Live piano played by JoAnn Walter, known as the Elton John of the Ozarks, will accompany the next installment of the UMR Film Festival.

Gold Rush, starring and directed by Charlie Chaplin, will play Tuesday, September 17, at 7 p.m. in Castleman.

Considered Chaplin's greatest film, *Gold Rush* is the story of the tramp to coping with the Klondike gold rush of the 1890's. His getting stuck with a starving prospector in an isolated cabin leads to some of the most memorable comedy scenes of all time.

42nd Street recruiting workers

University Center

Source

Student workers are needed to assist with the production of *42nd Street*,

showing Thursday and Friday, September 19-20, in Castleman Hall.

Workers will assist with the loading, unloading, and setting up of sets and equipment. Hours are flexible and all times are available.

SPORTS

Football rolls to 41-0 victory in opener

Matt Ryan

Staff Writer

In their season opener, the football Miners looked impressive as they trounced the Hawks of Quincy College by a score of 41-0, thus equaling their win total from last year. "It's good to start off on the right foot," head coach Jim Anderson said. The Miners dominated the game, overmatching the Hawks, who began play as a scholarship Division II program with this game.

"Quincy is a young ball club," Anderson said. "We went through that last year." The Miners looked much improved over the team from a year ago, on both offense and defense. "The players executed well, making few mistakes," Anderson commented. On offense, the Miner attack was led by quarterback Dan Van Anne, who looked very impressive in his first Miner game, throwing for a total of 154 yards in eight attempts despite being relieved when the game became a rout. Running back Steve Hodson picked up where he left off last year, rushing for 106 yards and three touchdowns as a much improved offensive line blasted holes wide open for him. Sophomore Ed Starks emerged as Van Anne's favorite target, catching three passes for 65 yards and a touchdown. Returning wideout Elliot Jackson caught two passes for 46 yards. On defense, the Miners shut Quincy out, limiting the Hawks to a net total of 86

Ryan Shawgo

Miner tailback Jeremy Markum is brought down by a host of Quincy Hawks. Markum averaged over six yards a carry in the game. The Miners host Missouri Valley this Saturday.

yards, including just a paltry nine net rushing yards. Quincy had only two first downs in the first half. The Miners were led in tackles by freshman Preston Kramer, who had 4, while Bryan Lewis, Bret Lindsey and Matt Hinson all had three tackles. Also, linebacker Charles Varadin and cornerback Jeff Fulks had interceptions, while Brian Gilmore, Gary Tomlinson, Ed Reichert, Greg Hayes, Brian Casserilla, Lewis and Varadin all took part in the Miners 4 sacks of the game.

The games started with the Miners receiving the kickoff and bringing it back to the 40 yard line. The first play from scrimmage for UMR in 1996 was a Van Anne pass to Elliot Jackson for 11 yards and a first down. The Miners drove the length of the field, scoring on a fourth down run by Steve Hodson. Quincy received the ball, but the Miners were able to stop the Hawks and force them to punt without getting a first down.

The Miner's next drive was a 8 play 84 yard drive that included six first downs as UMR steamrolled the Hawks, to be capped by a 12 yard reception by Ed Starks. The Miners, capitalizing on a Quincy holding penalty, were able to force a 3rd and 31 interception by Varadin that he returned to the 10 yard line, making it easy for Hodson to score his second touchdown two plays later. At this point, with 1:31 left in the first quarter, the Miners up by 21, the game was effectively over and both teams began to sub. UMR scored once in each of the remaining quarters to finish their first victory of the season.

The Miners prepare to take on Missouri Valley this week. "We want to use the two non-conference games to prepare for our tough conference," coach Anderson said. Missouri Valley should be more of a challenge for the Miners. UMR plays host to this game at 1:30 again at Jackling field.

Ryan Shawgo

Miner Greg Hayes attempts to block a pass from Quincy's Dave Menendez. The Miners punished the Hawks 41-0 Saturday.

Women's Rugby begins

A new club sport is emerging at UMR, womens' rugby.

Rugby is a game that is somewhat similar to football, but has quite a few differences. Rugby is played without the protection of padding, and has less breaks in the game.

A rugby team consists of 15 team members, but some games can be played with less. Games

have two halves, each lasting from fifteen to forty-five minutes long.

For those interested in womens' rugby join the womens' rugby team on the rugby field by Fraternity Row, Tuesday and Thursday from 4:30 to 6:00 p.m., or call Heather at 341-5357. Previous knowledge of the sport is not required. *Note: Information is provided by Women's Rugby Source.*

College Football Saturdays

Bring them to UMR

The thrill of a Saturday afternoon college football game. The roar of the crowd when their team runs on to the field, thunderous chants sound in

Out of Bounds

by Nathan Erdman

support of their team, the big play is about to occur. Players on the sideline wave their arm in the air, and the faithful crowd rises to its feet and brings with it a deafening cheer. Fumble! The defense returns the ball for a touchdown, pandemonium ensues! Thousands of fans adorned in their team's colors waves banners and signs and shout until they are hoarse. Yes, when one goes to an afternoon college football game he or she feels an electricity like no other. Sadly, this is not the case at Jackling Field.

Many students did not attend the Miners' 41-0 romp over the Quincy Hawks on Saturday. Attendance was just a little over 2,000, and as I looked around in the stands I noticed roughly half of the crowd were members of the local

community, parents or faculty and staff of UMR.

Although it is commendable they take their time on Saturday's and come at support their Miners, one still must ask where are the 5,000 students? It is true many students attended Saturday's game, however I noticed many were apathetic, quiet and reserved despite a 41-0 win. I know UMR students can support athletics with a vigor and intensity which is unmatched by any other. MIAA basketball teams now have no wish to play at the Bullman, why can't we make Jackling Field the same kind of nightmare for visiting teams?

This season is a crossroads for the Miner football program, a season of success could propel the Miner football program to new heights, and you the student body at UMR can be a part of it. Come to the game against Missouri Valley on Saturday 1:30. You won't be sorry you did. Get excited about UMR football, yell, scream, go crazy. But hey, save the beer for after the game.

Nathan Erdman
Sports Editor

The University of Missouri-Rolla cross-country teams will travel to Lawrence, Kansas Saturday to take part in the Kansas Jayhawk Invitational. The meet will be host to at least eight

Next Meet:

Sept. 14 Kansas
Jayhawk Invitational,
at Lawrence, Kans.

Division I schools. Sarah Preston, head cross-country coach at UMR it will be a difficult meet. "The meet will be extremely tough. There will be a depth of strong runners. It will be a lot tougher." But Preston also adds the meet will be beneficial to a still inexperienced Miner squad. "The start is much faster. We must get used to it, because of the conference meet. It will be good experience for us."

The Miner and Lady Miner cross-country teams opened their seasons at the 17th Annual

Cross-Country in Evansville

Southern Indiana Cross-Country Classic in Evansville, Indiana Saturday. The men finished third out of four teams, while the women finished third in a three team field. Ben Mulvaney was the top finisher for the Miners in 11th place in a 43 man field, while freshman Sheri Lentz finished third for the Lady Miners among a field of 22 in her first collegiate race. The University of Southern Indiana won both the Men's and Women's races.

Men

Preston feels the Miners will have to turn it up a notch to compete with the top conference schools. "We had some who stepped up [in the SIU meet]. I didn't feel anyone ran a bad race, mostly average. We've got work to do, we have young runners. They have to step up a notch."

Preston also commented on the men's competition at the SIU meet. "We expected both [Truman State and Southern Indiana] to be strong. We wanted to break into the their top five. We have the talent. We hope to be successful later. Southern Indiana was much improved. They have a transfer runner who made a sudden impact. Their number one runner will be a national championship contender."

Mulvaney and Matt Hagen were the top two Miner finishers in the men's meet, with times of 28:03.60 and 28:14.68 respectively. "Ben had a reasonably good race. Matt has been pushing in practice. He could have run a little stronger race. He was a little disappointed." Preston also talked about Kevin Johnson, "Kevin Johnson had a strong first race. These three are capable of moving up."

Women

Preston also allowed that improvement was needed on the women's side, but also pointed to a strong finish by Sheri Lentz. "It points to the fact Sheri Lentz was strong. She had a good first race. The two in front of her were quality Division II runners. She's working very hard. I'm excited about her potential. But we [the women] need a lot of work. We didn't run near our capability." Preston added, "It was a typical first race of the season. Generally, we start out easier." Preston remarked on Jennifer Frazer's performance. "Her place was strong. Her time is slower. She's not where we want her to be right now. She was competitive, this was due to a valiant effort. Her place was strong."

Miner and Lady Miner soccer teams play

Soccer splits games

Jonathan Erdman
Staff Writer

The UMR Miner soccer team will hold its first home game of the season against Bellevue at 7:00 p.m. tomorrow.

The Miners have a record of 2-2 going into this game. They beat Lewis University last Saturday by a score of 2-1, with both UMR goals scored in the second half.

The Miners starting squad was made up of freshman John Almeida, Dave Nauman, Jason Lopez and Matt Long, sophomores Kevin Levy, Greg Schulte and Brian Koscielski, juniors Mike Kiefer, John Kwantes and Kevin McCoy and senior Brian Marks.

The first goal scored in the game was scored by

Lewis' Mattias Ekland who was assisted by Frank Burnett. The score remained one to nothing until the second half. The Miners' first goal was scored by McCoy with no assist 55 minutes into the game. The last goal of the game was scored by Schulte who was assisted by Kocielski.

The Miners lost to the University of Wisconsin-Parkside by a score of 5-1 September 8.

The Miners took the field with a starting team made up of freshman Almeida, Pat Boyce, Nauman and Alan McMahon, sophomores Schulte, Koscielski and Levy, juniors Kiefer, McCoy and Kwantes and senior Marks.

The goal scorer for the Miners was Kiefer with an assist from Boyce.

Goals scored by Wisconsin Parkside were made by Dave Seirs, Troy Troskey with two points, Adam Riesz and Chris Bradley.

Lady Miners still winless at 0-3

Jonathan Erdman
Staff Writer

The UMR Lady Miners will face off with Central Missouri State this Saturday at 1:00 p.m. in Springfield, and will play Moorhead State at 1:00 p.m. Sunday in Springfield.

Last season the Lady Miners beat CMS by a score of 2-0. One of the two goals scored in last year's game was scored by junior Natalie Sanders.

The Lady Miners played Lewis University September 7, and lost by a score of 7-3.

The players that started the game were freshmen Kim Hydeman, Katie Marcum, Sara Rudy, Dena Burns and Kelly Thomas, sophomore Amanda Gilbertson, juniors Tami Bowman and Sanders and seniors Rachel Lewis, Kate

Masterman and Zachlyn Thompson.

The first goal by the Lady Miners was scored by Masterman and assisted by freshman Lori Douglass. The second goal was scored by Sanders with no assist, and the last goal for the Lady Miners was scored by junior Amber

with two goals scored during the game.

On Sunday September 8, The Lady Miners lost 2-0 against the University of Wisconsin-Parkside. The Miners starting team consisted of freshmen Kim Hydeman, Kelly Thomas, Sara Rudy and Lori Douglass, sophomores

The first 240 fans to attend the women's soccer game vs. William Woods Tuesday, September 17 will get a free kazoo from Susan Smith and Caroleen Ferrell and Re/Max Heart of America.

Everyone is eligible for the half-time contest to select the best kazoo rendition of the Macarena (choreography optional.)

Fischer with an assist from Sanders.

The goal scorers for Lewis were Nancy Reyes with a hat trick, Stacy Peterson and Nicole Stonecipher with one goal a piece and Cindy Reyes

Amanda Gilbertson and Allison Hanson and seniors Rachel Lewis and Kate Masterman.

The two goals scored by Wisconsin-Parkside were scored by Lisa Sadowski and Tracy Rosiak.

Pro Sports Scene

NFL kicks into high gear

Chris Kulifay
Staff Writer

Welcome back sports fans, to another year here at UMR!

Given the unexplainable fact that Rolla is a virtual black hole with regards to information and news pertaining to the outside world, I've accepted the challenge of keeping all of you up to date on all of the professional sports this year. Since this is the beginning of the year, I want to offer the chance for everyone to voice an opinion about this article if you so choose. Therefore, if there's something you want to see that I don't include, feel free to e-mail me at kulifay@umr.edu, and I'll see what I can do.

It's early September, and all you football fans out there know the NFL is in full effect right about now. This weekend was week 2, and already there are some major stories around the league. To all you Cowboys fans out there, what happened to your team?

In all fairness, Dallas has been blasted by some major injuries (and in some cases, legal matters) and have had some key players on and off the field. Still, Dallas is a team deep with talent, meaning that their 22-6 loss to only a decent Chicago Bears team on Monday night football is inexcusable. The whole football world got a scare during that game when all-universe running back Emmitt Smith landed on his head during a diversion. In tribute to the ironmen of old Emmitt vowed to play Sunday. Whether you like the Cowboys or not, you not only have to appreciate the dedication of Emmitt, but also the versatility of Deion Sanders. Prime Time played well over 100 plays Monday night, showing that he's not just all talk, including 9 catches in the wide receiver position. Granted the season is still extremely young, but the dubbed 'America's Team' might just lose that title this year.

The Cowboys might have it rough, but the Pittsburgh Steelers envy them for one thing, they have a quarterback. The overall best team in the AFC last year lost their starting

quarterback in Neil O'Donnell to the Jets (what was he thinking???) and have found it impossible to determine who should start in his place. Jim Miller won the starting spot in the preseason, only to promptly lose it during their first game. Runners-up Mike Tomczak and Kordell Stewart should probably see more playing time at the position given Miller's less-than-impressive outing. Just when Steelers management thought things couldn't get any worse, they were proven wrong. How about the anchor of your defense going out with a season-ending injury? Sound bad? Well, it is, and now that's what Pittsburgh has to deal with after all-pro Greg Lloyd blew out his knee in week 1. With the QB position still vacant and top man Lloyd out, the Steelers are going to find it tough to return the AFC championship to the Steel City this year. It's not impossible, but don't count on it.

In other NFL news, aging Warren Moon is out for

Moonlight Golf with the Lady Miners

The University of Missouri-Rolla Lady Miner basketball team will host its annual "Moonlight Golf" tournament on Saturday September 21 at the UMR golf course.

The tournament consists of seven holes, and will be played with glow-in-the-dark golf balls. The tournament begins at 8:00 p.m. and has a \$40 entry fee for each two player team. There will be prizes

awarded to all players.

Entry forms for the tournament are available at UMR's athletic office located in the Gale Bullman Multi-Purpose building. Entries for the tournament must be submitted by Monday, September 16, and the first 27 teams will fill the tournament.

For more information contact head coach Linda Roberts at 341-4105.

Jimbob

Frank Sinatra
Sinatra 80th

Capitol

Sound Quality: Vintage

Performance: Smooth

For those of you who are approaching CD library status, this 2 disc compilation of Sinatra smoothies adds up to what amounts to a shimmering collection of pop nostalgia. But under the layers of cliched schtick, the crooning sound

typified by Sinatra has invariably made its way into the pop mainstream, from the hidden 12th "Gracious Melody" of STP's *Purple LP*, to the debauched characterization of Sinatra displayed by MTV. Who, by the way, is not half as frightening as the long bourbonized portrait of the real Sinatra which lurkily graces the interior of this CD.

Many of these Sinatra odes such as "Chicago" and "I Love Paris" may seem contrived when framed in today's world of semi-civil unrest and Nationalism. Not to mention the sappingly optimistic ant in the Barney-like sing-along favorite, "High Hopes."

Nothing against niceties, but what really makes this collection collect-

able for any one on the up side of reality are the bluesy, boozy tunes of foreboding like "No One Ever Tells You:" "Suddenly it hits you, all those dreams weren't worth a dime, but no one ever tells you in time."

Likewise, the Cole Porter classic, "I Get a Kick Out Of You," becomes poignant up to the minute declaration of the modern artists seemingly futile search for self fulfillment in a lifestyle dominated by materialism. "I get no kick from cocaine, just one sniff would bore me terribly too, but I get a kick out of you."

Even in today's world of sexual roulette, Sinatra's physical penchant for the ladies seems preferable to the descent into suicidal boredom experienced by artists like Shannon

Hoon and Curt Cobain. Yet one can't help concluding that although Sinatra has yet to physically succumb to the final inevitable, he's really pushed his luck.

The aural remains contained on this 80th B-day collection hauntingly assert the notion that sadly, for a lot of people, things really haven't changed that much.

Sean Cordes

Musical Notes: "Its like buying Paul Newman's dressing. Have you tasted it? I mean it's not very good." Sober Seattle musician Paul K., describing the hundreds of kids who moved to Seattle and became junkies so that they could be like Curt Cobain. (*Newsweek*.)

St. Pat's

from page 1

able to handle the work associated with planning and running the celebration. In answer to this problem and in an effort to get campus wide input in planning and execution, Park asked the St. Pat's Committee to form ten "concept teams."

Each team, according to Park, would be roughly based on committees already within the St. Pat's Committee and follow guidelines set forth by Park concerning their responsibilities. A member of the St. Pat's Committee would head each team which would also include at least one member of the faculty and at least one representative of Student Council.

Although StuCo president Josh Grove was concerned that StuCo

would end up doing the St. Pat's committee's work for them, many of the faculty approved of the increased faculty involvement. Several faculty members felt that they had been left out of the planning in the past.

Chris Hart, President of the St. Pat's Committee was concerned about the addition of people outside the committee in the planning and running of the event. He felt that committee members got a lot out of having sole responsibility for the celebration and took pride in doing it themselves.

He also pointed out that, although the committee wanted every group on campus to participate, groups asked to contribute in the past had often not fulfilled their obligations. Park re-

sponded by saying that trying to coordinate different groups was an important and "real-world" leadership challenge.

Park stressed that he wanted the concept teams to use the "blue sky" approach, meaning that they should have an open mind to any and all possibilities. "We're moving forward," Park said, "There are some wonderful things that have happened in the past and some things that we don't want to happen again." He said that the teams should look at past celebrations as merely one of the many possibilities of what could happen.

The next meeting is scheduled for September 19 and will include members of the ten concept teams.

World

from page 5

intelligent nations of the world; today we are ninth. Tomorrow, perhaps twenty-second. The day after that, maybe all the way down to twenty-ninth.

Today we automate everything; we make things too simple. Teachers give out the answers to the problems rather than teaching the students how to solve the problems.

Students are allowed to use calculators in mathematics as early as fourth grade. I tutored a fourth grader in math who used a calcula-

tor in class every day and on his homework, too.

When I took the calculator away and asked him to do simple addition problems, he had to resort to counting on his fingers. When I asked him to perform simple multiplication and division problems, he was stumped.

What can be done about this epidemic of ignorance? Nothing. Call me a pessimist, but we're all doomed. The end is in sight. There is no hope.

Library

from page 2

tains Federal Government documents, historical manuscripts, job listings, current news from prominent newspapers, and much more. It even allows students and faculty to make interlibrary loan requests without visiting the library.

The multimedia workstations located on the first floor of the library have also been expanded. It is now possible for students, faculty, and staff to create computer-generated videos using Premiere. This powerful system allows individuals to produce instructional videos for classroom use or even recreational videos. The Anime Club recently put together an animated music video, which they submitted for a contest, using this new system.

Portions of other videos and pictures may be scanned into the computer during the production of a video. Some of the tools available on Premiere make it possible to modify the

scanned-in pictures and to synchronize audio sound with visual movement. For more information, contact Allen Wilkens at the library.

Some of the new information sources that will soon be added to the library file server include: the Hazardous Materials Database, the Science Citation Index, Gardner's Chemical Synonyms and Tradenames Handbook, and the Oxford English Dictionary. It is possible to logon to this system from any networked computer by typing login umr-library-fs1/cdguest at the o: prompt. From the menu that appears, select CD-ROM Access.

All of these electronic additions made available by the university library are designed to make the search for information a simpler process. Gone are the days of microfiche and library card catalogs. Computers now seem to be the key to information.

Forum

from page 2

Bob Babcock, Chairperson of the Student Council External Funding Committee, will be organizing and running the fundraising seminar and believes that officers from all student organizations will benefit from this discussion. A representative from all organizations requesting funding for this year must attend this seminar. The Leadership Forum is also required for all new Student Council members.

Questions comments regarding the Campus Wide Leadership Forum, Student Council can be emailed to stuco@umr.edu, or you can stop in the Student Council office in 202 University Center-West.

the Vikings, which will cripple their already less-than-49er offense. How about Jimmy Johnson in Miami? The Dolphins look decent so far, but a new head coach can only do so much for a team. Despite all the controversy with Johnson taking over Shula's team, they probably don't quite have what it takes to make it to the Big Show this year. However, given some weakness in the AFC (especially with the problems in Pittsburgh), anything is possible.

Okay, so maybe you're not a football fan. How 'bout some baseball, you say? We've got that too, and with the season wrapping itself up we've got some interesting things going on. Mark McGwire, half of the '87 bash brothers team, is lighting things up in Oakland. His home run total is now up to 48, giving him a remote chance to break the 61 HR record set by Roger Maris in 1961. Amazing, you say? I'd agree, considering Mr. McGwire has missed around a quarter of the season or so due to injuries.

On a sadder note, Minnesota Twins spectacular slugger Kirby Puckett was forced to retire this year due to eyesight problems. It's one thing when players decline and retire, but quite another when still-productive and classy players such as Kirby are forced to do so. The baseball world will miss his consistent play, both on offense and defense.

Sick of baseball maybe? If boxing is your thing, then you probably know that "Iron" Mike Tyson is back in action, and ripping things up. Assuming promoter Don King hasn't had his sticky fingers in the monetary soup illegally, Tyson is showing himself to be the best in the world, again. Saturday night Tyson beat Seldon in only 109 seconds to win the WBA heavyweight championship. Mike is now 4-0 since being released from prison sometime last year.

Well, that's the story for this week. Remember, if there's anything you'd like to see that I don't include, feel free to e-mail me and I'll see what I can do. Until then, enjoy!

Announcements

Course Equivalency Database

The University of Missouri-Rolla has a course equivalency database located on the World Wide Web. UMR-Rolla's home page is at <http://www.umn.edu/>, and you can get to this database by clicking on the Registrar's Office and looking under Course Equivalencies. If a course or college is not listed, that does not mean the course will not transfer to UMR-Rolla, it means the course has not yet been evaluated. If you plan to take that course that is not listed, you

see Announcements, page 19

"ASK MR. STUCO"

Call-in Show
KMNR 89.7FM

September 16, 1996 at 8:00pm. Rich Lee will Welcome students & discuss StuCo services. Gift certificates given away on air. Free tickets in front of UCW September 16th from 10:30am to 4:30pm.

Announcements

will need to bring a copy of the course description (available from the catalog of the college you plan to attend) to the Admissions Office, Room 106 Parker Hall and give it to Jennie or Julie for evaluation.

Graduating in December?

The Class of '96 is having an informal "zero hour" reunion at Homecoming! Come to the Fieldhouse Feed Reunion Luncheon on Saturday, October 5, and sit with your classmates for lunch. Then join in the class picture at 12:15 p.m. and show those other reunion classes your spirit. Those of your class who graduated in May were invited back to join you for this event. Maybe it hasn't been a really long time since you've seen each other, but wouldn't it be fun to find out what they've been doing since they left Rolla? For tickets (\$9 per person for all-you-can-eat picnic food), stop by the Alumni Office in Castleman Hall (the doors on the east side of the building).

Unity Day

Unity Day is will be held Wednesday, September 25. A lunch, courtesy of Chancellor John T. Park, will be served to all students, faculty and staff wearing Unity Day ribbons on that day. The lunch will be held from 11:30 am - 1:30 pm on the mall north of the UCW. At 2:00 pm, Robert Henry, a UMR graduate and the president of the St. Louis Board of Public Service, will deliver the Unity Day lecture in the Missouri Room of UCE. The lecture is free and open to the public. Unity Day ribbons will be available from various campus representatives the day of the luncheon and prior to Unity Day. Tickets for the luncheon also are required and till be available in the luncheon venue.

Pedro Martinez to Speak

Pedro Martinez, director of affirmative action and cultural diversity at Chicago State University, will speak on campus in celebration of Hispanic Heritage Month, which runs from September 15 - October 15. Martinez will be the guest speaker at a banquet Sunday, September 15 in Centennial Hall of the UCE. The banquet begins at 6:30 pm and costs \$5 for staff and \$3 for students. Martinez will then speak at noon on Monday, September 16 on the mall north of the UCW. That lecture is free and open to the public. For more information on either of these events, contact Toni Scott at 6450 or via e-mail at tescott@umr.edu.

Private pilot ground school short course offered

A short course to help student pilots prepare for the Federal Aviation

Administration's private pilot written examination. The course will offer 24 hours of instruction in three hour blocks, from 6:30 to 9:30 p.m. on Mondays and Wednesdays, September 30 - October 23, in the Meramec Room of UCE. The course fee is \$100 and the first 20 paid registrants will be accepted. For more information, contact the continuing education program, 103 Mechanical Engineering Building Annex or call 341-4200.

UMR Family Series season tickets go on sale

Season tickets to all four shows are available -- "Sleeping Beauty," on September 29, "Beauty and the Beast," on November 16, "A Christmas Carol," on December 21, and "The Wizard of Oz," on April 13, 1997. All shows begin at 3 p.m. in Leach Theatre of Castleman Hall. Tickets are \$24 for adults and \$16 for youths age 18 and under. They may be purchased at the UMR Ticket Window in UCW. For more information call 341-4219.

Career Opportunities Center Fall Workshops

Workshops are being offered this semester in resume writing and interviewing skills. Upcoming resume writing seminars are Wednesday, September 11 at 1:30 p.m. and Tuesday, September 17 at 4:30 p.m. These seminars are held in 201 Norwood Hall. Seminars in Interviewing Skills are being held Wednesday, September 18 at 6:30 p.m. in the Meramec Room, UCE.

Awards for evaluation questions

Student Council is now accepting questions for its student run teacher evaluation. Students may submit questions via e-mailing stuco@umr.edu with the subject "Teacher Evaluation Question Contest" and include your email address and name, or you can pick up a form in the Student Council office (202 UCW). Three questions will be selected from all questions submitted, and winners will receive a \$10 gift certificate from the UMR Bookstore. All questions must be received by October 11, 1996. Winners will be notified by email on October 25, 1996. Enter as many times as you wish. Any inappropriate questions will be disqualified.

1996-97 Rollamo Refunds

Forms are available in the StuCo Office (202 UCW), SUB Office (218 UCW), Student Activities Office (113 UCW), as well as on the WWW from <http://www.umn.edu/~stuco>. Forms must be returned to the StuCo Office by

October 4, 1996. Those who paid a 95-96 Rollamo fee WILL receive a Rollamo THIS year.

Financial Aid Information

ROTARY CLUB OF FLORISSANT LOAN PROGRAM

The Florissant Rotary Club is offering a loan program which is available for eligible students through the Flo-Ro Trust. This program is part of an overall effort by the Florissant Rotary Club to assist in the education of qualified students within the Florissant Rotary's service area. The requirements for qualification for the loans are as follows:

1. A candidate must reside in the Florissant Rotary Club service area. (North St. Louis County, north of Highway 270)
2. A candidate must have completed a minimum of 60 semester hours at an accredited college or university.
3. A candidate must have a cumulative grade point average not less than 2.50.
4. A candidate must complete the Flo-Ro Trust Loan application and provide all required materials.
5. A candidate must be enrolled for a minimum of 12 semester credit hours during the semester of the loan period for a bachelor's degree, or 10 semester credit hours for a graduate degree.
6. A candidate may not borrow more than \$2,000.00 per application.
7. The total cumulative loans to any one applicant may not exceed the sum of \$6,000.00.
8. A candidate may not apply more than twice during an academic year.
9. A candidate must present him or herself for an interview by the Flo-Ro Trust Board.
10. A candidate shall repay the loan rate at a minimum of \$50.00 per month. The interest rate shall be the prevailing student loan rate at the time of graduation. Payments shall begin no later than 6 months after graduation, however, no interest shall be charged during the time that the borrower is a student.

If you are interested in this program and would qualify, you are encouraged to contact Mr. Ronald Schmidt at 801 St. Francis Street, Florissant, MO 63031 or call (314)921-5100.

RURAL MISSOURI, INC

If you have been employed as a farmworker in the past two years, you may be eligible to receive free tuition assistance for your education. If you have worked as a farm, orchard, greenhouse or poultry/egg production em-

ployee, you may qualify. To obtain details and the field representative closest to you call 1-800-234-4971.

THE JOHN GYLES EDUCATION FUND SCHOLARSHIP

The John Gyles Education Fund is a private, benevolent endeavor established six years ago with the help of a Canadian/American benefactor. Each year financial assistance is available to students in both Canada and the United States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$2,500.00. Deadline is November 15. Applications must be mailed by this date. To receive an application please send a stamped *** (US 32 cents), self-addressed, standard letter size (No. 10) envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick Canada E5B 5G4.

CHRYSLER ANNOUNCES NEW SCHOLARSHIP PROGRAM

With an eye toward assisting outstanding college bound students, Chrysler Corporation recently awarded 1,000 grants to 40 recipients through its new Junior Golf Scholarship Program. Even though the majority of the winners play golf, all selections were based upon their academic and extracurricular effort. For more information on this exciting program, call 1-800-856-0764.

ROLLA AREA BUSINESS AND PROFESSIONAL WOMEN

The Rolla Area Business and Professional Women's Club is offering two scholarships of \$500.00 each to women enrolled for the 1997 Spring semester. The scholarship is designed to encourage women to advance their career goals through continuing education -- whether they are currently pursuing a degree, returning to the work force after a long-term absence, or are in the process of changing careers.

1. Must be a woman 25 years of age or older and a citizen of the United States, and a resident of Phelps, Dent, Maries, or Pulaski Counties.
2. Must be officially accepted into an accredited program or course of study at a United States institution.
3. Must demonstrate need for financial assistance to upgrade skills or complete education for career advancement.

ment.

4. Must have definite plans to use this desired training to improve chances for advancement, to train for a new career field, or to enter or re-enter the job market.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application must be received by the Selection Committee no later than September 30, 1996.

PETER D. COURTOIS CONCRETE CONSTRUCTION SCHOLARSHIP

These awards are open to any undergraduate student in the United States of Canada. The student shall have achieved senior status in a four year or longer undergraduate program in engineering, construction, or technology during the year for which awards are presenter. The awards will be made on the basis of demonstrated interest and ability to work in the field of concrete construction.

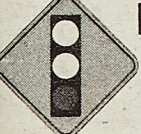

* The student must have a course load of 6 or more credit hours each semester during the period for which the award is made.

* The student must be a senior during the year for which the award is made (not necessarily at the time of application).

* Transcripts, recommendations, and an essay must be submitted as outlined on the application form.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application must be received by February 1, 1997.

There is a service the Admissions & Student Financial Aid Office is offering on the World Wide Web called FASTWEB (Financial Aid Search Through The Web). Its location on the web is "http://web.studentservices.com:80/fastweb/". FASTWEB is a freeweb-friendly service in which a student completes an online personal profile pertaining to his biographical information, including parent/student activities, background, and college/major information. Upon completion of this profile, FASTWEB begins its search, and within minutes the student is presented with a detailed online list of outside grants, scholarships, fellowships, internships, and loans he is eligible to apply for. Approximately 1200 new awards are added to the FASTWEB database each day. FASTWEB automatically updates each student's profile based on these new awards. FASTWEB also provides a general information section describing various Federal Student Financial Aid programs. Students are encouraged to use FASTWEB to learn more about financial aid and keep abreast of eligible awards.

September

Ren

The oldest building started to reconstruct this past Building, the historic foot Victorian book store, is under that should last until the next school year.

The interior new restroom featuring all of the exit stairs. The removal of the first floor ceiling can be raised of the interior part taken out.

The only new building included. Much of the exterior renovation building's slate was the windows were brick tuckpointed.

The cost of the project was estimated at \$1,829,000. The project was received from the appropriations money.

Hurricane

Here in Tennessee are fully potential citizens of Citizens of University of researchers are minimize the working on a that will with wind-borne debris. A research A. Behr, an civil engineer ing with window a polyvinyl lay bonded to both similar to that shields.
