St. Pat's forum features questions, answers and comments

Casey Morriss
News Editor

Approximately 150 people filed into ME 104 last Thursday to attend the second open forum concerning possible changes to the St. Pat's celebration. The event, sponsored by the Student Council and broadcast live by radio station KMNK, featured two segments.

First there was a question answer period with a panel consisting of Chancellor John Park, St. Pat's Committee president Chris Hart, and Student Council president Josh Grove. The second segment gave members of the audience a chance to make their own comments on the event and the proposed changes.

The forum got off to a somewhat rough start when technical problems with the KMNK computer prevented the PA system from working. Around 6:45, however, that problem was fixed and StuCo vice-president Rich Lee, who was moderating the event, thanked people for coming and went

over the guidelines for the question and answer segment.

Many of the questions were related to the St. Pat's tradition known as Alice which Chancellor Park has said will no longer be a part of the celebration. One student asked what types of things needed to be avoided when creating an event to replace Alice. Park said that the main problems he had with Alice was the physical harm involved and the liability issue this created for the University.

He also noted that the creation of any new event would have to take into consideration the way the event would

reflect on the University. He described Alice as "degrading to women and minorities."

Hart felt that Alice could be re-

past, only to be resurrected after a time. He also pointed out that Alice had only been a part of the celebration since 1966, commenting that many faculty

that were here over Homecoming did not even know what Alice was.

Park also said that he would not approve Alice as an activity even if a group besides St. Pat's tried to take on the responsibility. This implies that the event

One freshman student asked Hart to summarize what went on during St. Pat's week and specifically what the controversy over Alice was about. After Hart described the event, another student who said he had never been to Alice asked what the driving force behind saving the event was, commenting that there did not seem to be anything wonderful about being dumped in a tub of green goo.

Hart responded, "Think about something that has been part of you for a long time. Think about something you look forward to all year or for several years. Now try to imagine it being taken away. Alice is a celebration of what the knights have become to the organization they are representing. It is a lighthearted informal event in contrast to the formal coronation." Hart added that the formal portion of the knighting would continue.

One student asked Park what kind of student input had been sought before deciding to cancel Alice. "We didn't hold a popularity survey on Alice," Park admitted, "but I simply can't tolerate the liability issues. There comes a

Put your best fork forward

Keith Missey
Staff Writer

The Career Opportunities Center and Marriott are sponsoring an Etiquette Dinner for December and May graduates from the University of Missouri-Rolla. The dinner is provided at no cost to the students and is being held Sunday, November 3 at 5:30 p.m.

Under the theme "Put your best fork forward," the COC will help students review all of the common expected manners in a social situation. Ms. Chris Sowers, a member of COC, will moderate the event and a faculty or staff member will sit at each table for ongoing tips and evaluations.

Sowers explained, "Many students are being taken out to dinner now as a part of the interview process, and a lot of students were worried about how to act at dinner. This event is a review of the proper dining etiquette."

The Etiquette Dinner will start with a half-hour mixer or happy hour. Students will learn such things from the art of small talk to how to correctly hold a wine glass. Next, the hour long dinner will take place where concerns such as napkins, utensils, ordering, eating, and conversation will be reviewed.

Following dinner will be a commentary and evaluation by the faculty and staff present. Finally, Mrs. Dorcas Park will give closing tips for each student's success.

New trail to be built near campus

Kevin Waldron
Staff Writer

All you runners, bicyclists, and walkers will soon have a place nearby to do your thing. The city of Rolla has, after two and half years, received approval from the Missouri Department of Transportation to construct a two mile bicycle trail around UMR's athletic fields and golf course.

The "ACORN Trail", which is named after a local beautification group, is the result of a cooperative effort between ACORN, the city of Rolla, and UMR. Chancellor Park stated that the trail is a "fitting way to commemorate UMR's 125th anniversary and successful partnership with the community of Rolla."

The \$185,000 project will be funded by the Internodal Surface

Transportation and Efficiency Act (I.S.T.E.A.) and is expected to begin construction in the spring of 1997. Rolla Public Works Director Steve Hargis, who spent a great deal of time working to get the trail built, attributes the delay in construction to the large amount of street work currently being done.

The trail will begin at the site of ACORN's floral display on Bishop Avenue. It will then continue north along Bishop Avenue until turning left in front of Gale Bullman Multipurpose Center and will run along Jackling Field.

The trail will turn left again at Tenth and Fairgrounds Road in front of Phelps County Regional Medical Center. From there it will proceed along the UMR golf course until it crosses in front of the U.S. Forest Service Headquarters. The trail will cross

University donors provide speakers

Kyle Koederitz

OGS Source

The "best kept secret on campus" is no longer. A UMR student used that phrase to describe the Order of the Golden Shilleagh (OGS) during a speech at their annual dinner and induction ceremony for new members.

OGS is an organization of alumni and friends whose members donate time and money to the UM-Rolla campus. Membership is based on a minimum donation of \$10,000 over a period of 10 years. The money donated is used for specific departments, scholarships and fellowships, faculty excellence awards, athletics, music, theater, and various capital purposes. Since its founding in 1977, the Order has donated over \$23 million to UMR.

Along with donating to the university, OGS members meet biannually to conduct business, reunite with old friends, and recognize one another for their outstanding support. During the dinner held this past April, 35 new members were inducted. In addition, several student representatives from Blue Key were invited to mingle with the members and help with the ceremony.

The Order of the Golden Shilleagh met again over Homecoming this October. In an effort to increase their service to the University of Missouri-Rolla, OGS has offered to provide speakers for the various campus organizations.

If your organization is interested in getting a speaker, you can submit your request via e-mail to bluekey@umr.edu or to Kyle Koederitz (kkoed@umr.edu, 364-9901).

Park to deliver "Last Lecture"

U.M.H.E.

Source

Dr. John T. Park, Chancellor of the University of Missouri-Rolla, will be presenting this semester's "Last Lecture" on Sunday October 20, at 7:00 p.m. This presentation will be sponsored by United Ministries in Higher Education and held at the U.M.H.E. Wesley House, 403 W. Eighth St. across from the Post Office.

The Last Lecture is a series in which UMR faculty or staff are invited to speak as if it were the last lecture of their lives. If that were the case, what would they say and what issues would be of importance? "It's Not That Complicated" is the title Dr. Park has chosen for his Last Lecture.

Prior to his current appointment in March 1992, Dr. Park served as

Interim Chancellor, UMR Vice Chancellor for Academic Affairs, and Professor of Physics. He has served on the UMR faculty since 1964.

Dr. Park is known for his research on the measurement of ion-atom collision cross sections with an emphasis on proton atomic hydrogen collisions. His research was continually supported by the National Science Foundation for 27 years.

He is a Fellow of the American Physical Society. His education includes the Ph.D. degree in the physics of ion-atom collisions from the University of Nebraska and postdoctoral studies at University College London.

Since becoming UMR's Chancellor, Dr. Park has worked to build a culture of continuous improvement in to UMR's traditions of excellence. In 1995, UMR became the

Co-curricular transcripts now available on web

Mark Potrafka

Student Activities
Source

Did you know you could see, make changes to, and request your co-curricular transcript on-line by way of the World Wide Web? Did you know organizations can maintain their membership list on the Web? Did you know that organization membership lists are linked to your co-curricular transcript? Well, you can and it's true, your out-of-class activities are on the Web.

What is a co-curricular transcript? The Co-curricular Assessment of Skills and Education (C.A.S.E.) Co-curricular Transcript, a part of the Professional Development Plan for students, is a way to keep a record of your involvement at the University of Missouri-Rolla.

Your participation in recognized student organizations, leadership experiences and service learning activities are recorded automatically into your transcript. You add any other experiences that you feel are relevant to your growth and information describing how participation enhanced your development.

The transcript will help you recognize the skills you gained through involvement, will help you prepare your resume and for job interviews, and will help you target skill areas to develop in order to achieve career goals and enhance future growth and development.

The transcript gives you a chance to document your growth and development while at UMR. When you can demonstrate a variety of skills and experiences, you will be highly sought after as you move into your career. Employers want proof of participation, not just resume stuffers.

To access your co-curricular transcript, click on "For Students" on the UMR Homepage, then click on "Student Information," then follow the directions. To request a transcript, click on the appropriate icon. You will be able to pick up your transcript from room 218 University Center West, within one working day. Transcripts are free of charge.

C.A.S.E. is coordinated by the Office of Student Activities and University Center and is a part of the Professional Development Plan for Students. Student Activities staff members Mark Potrafka and Bill Willson can assist you in completing the activity record and answer any questions you may have.

Students who have signed a UMR PROMISE contract must keep an updated transcript. To get more information, come by the University Center, or E-mail stuact@umr.edu.

The *Missouri Miner* is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday in Rolla, Missouri and features activities of the students of UMR.

The *Missouri Miner* encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

The *Missouri Miner* is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

OPINIONS

Election provides slim pickin's

An editorial by Editor-in-Chief Doug Sobery

People have often commented that the twenty something generation doesn't care about voting and that we are wasting the right that our parents fought so hard to gain. While it may be true that many of those in the 18-25 age bracket do not regularly vote, it is not often because we do not want to. It is because we are rarely given decent candidates to choose from.

With two debates down and the November elections less than a month away, the decision of which presidential candidate to support has become no clearer than it was several months ago.

The winner of the first debate was clearly Clinton. Not because he said anything that mattered, or made any valid points, but simply because he mentioned the issues in his opening remarks. Dole's opening was little

more than an embellished 'Hi mom' and his rough tone throughout the debate left him looking like a grumpy old man and Clinton looking like a child whose feelings had been hurt.

The second debate began well, but quickly swung in favor of Kemp. Again Kemp won not because he said anything that mattered, but because Gore answered almost every question with the words '10.5 million new jobs.' I felt as if I was listening to a scratched player skipping on the same line for the entire ninety minutes.

The young people are far smarter than the candidates give us credit for. Why not try talking about the issues for once and let us make an educated decision instead of flashing your face for five minutes on MTV.

**IRONICALLY, THE TIME TO START
SAVING FOR RETIREMENT IS WHEN IT LOOKS
LIKE YOU CAN LEAST AFFORD IT.**

Can't afford to save for retirement?

The truth is, you can't afford not to. Not when you realize that your retirement can last 20 to 30 years or more. You'll want to live at least as comfortably then as you do now. And that takes planning.

By starting to save now, you can take advantage of tax deferral and give your money time to compound and grow. Consider this: Set aside just \$100 each month beginning at age 30 and you can accumulate over \$172,109* by the time you reach age 65. But wait ten years and you'll have to budget \$219 each month to reach the same goal.

Even if you're not counting the years to retirement, you can count on TIAA-CREF to help you build the future you deserve—with flexible retirement and tax-deferred annuity plans, a diverse portfolio of investment choices, and a record of personal service that spans 75 years.

Over 1.8 million people in education and research put TIAA-CREF at the top of their list for retirement planning. Why not join them?

Call today and learn how simple it is to build a secure tomorrow when you have time and TIAA-CREF working on your side.

Start planning your future. Call our Enrollment Hotline at 1 800 842-2888.

Ensuring the future
for those who shape it.™

*Assuming an interest rate of 7% credited to TIAA Retirement Annuities. This rate is used solely to show the power and effect of compounding. Lower or higher rates would produce very different results. CREF certificates are distributed by TIAA-CREF Individual and Institutional Services.

Why We're A Nation of Idiots... A quick lesson in expert resume writing

Scott Mitchell
Columnist

The underlying purpose of college is greed. We come to college to ensure ourselves that we'll get a better job than with just a high school education. However, no matter what degrees we obtain over the course of our life, we will only be assured a good job if our resume writing skills are at an optimum. I don't care if you have a Ph.D. in medicine — you still couldn't get a dying man to ask for your help unless you know how to effectively construct a resume.

So, I have decided to help the dying man lying on the floor who needs the this poorly-resumeeed doctor's help, and I will do this by teaching everyone how to write a great resume.

Before we can begin that exciting trek down the hallowed halls of resume

writing, we must first look at our Word for the Day. OVER-RESUME: "A made up word which I placed here just so it will relate to the last line of the article." Read on and be amazed at my intricate planning skills.

Over the years, the art of writing a resume has drastically changed. Today, we know that without some em-

than overindulgence. For example, when applying for an opening as a math teacher in Greece's public school system, Pythagorus simply had on his resume, "Good with triangles." As we all know, today that simply wouldn't pass. Pythagorus wouldn't get the job with his humble resume.

Resumes these days demand grotesque over-exaggeration, regardless of how insanely unrealistic it sounds. My high school calculus teacher had on her resume, "Integrated $e^{(x^2)}$."

Today, overstating one's accomplishments on a resume is commonplace. However, to be assured a job, an appropriate letter accompanying your resume also must be included.

This letter will be read prior to the resume; therefore, you can use this letter to establish a mood. The mood I suggest you try to establish is fear. Make the person who is reading your

see World, page 14

bellishment on our resume, there is almost no chance of getting a job. We over-state our education, we over-qualify our experience, and we over-judge our self-worth.

Of course, this was not always the case; in fact, in ancient times, resumes were used to reflect humility rather

Aiming for Acceptance: A trip to the Land of Oz

by Amy Jones

Of all the people from whom we seek acceptance, self-acceptance is by far the most important. Of all the modes, manners and forms of acceptance, acceptance of the path one's life is taking ranks right up there.

By even being at UMR, you have made some of the first decisions regarding the course of that path, but just as the yellow brick road leading to the Kingdom of Oz spirals a bit around the Land of the Munchkins before it actually gets going, you are just starting out, almost destined to change course by 180 degrees at times, all the time heading to the mysterious destination of which you now only have a general idea.

Along the path we encounter the family decision. The marriage question alone can turn the path completely around. Suddenly, instead of Oz, you find the Scarecrow pointing you to some joint destination, a land previously unknown to both, what one might best refer to as The Kingdom of Compromise.

Compromise can be just as magnificent a land as Oz. While the road to Compromise is lined with the side roads of one new decision after another, such as the size of family, settling location and with which parents to spend the holidays, two heads are put together to make the decisions, two sets of previous experience down different paths, and eventually things start to even out as the Kingdom appears over the horizon.

In the same way, those who chose to continue on the path to Oz soon enough find the castle looming in the distance, promising a visit with the wizard and the fulfillment of wishes gathered along the path.

However, the visit with the wizard proves the same time and again. Just as Dorothy and her companions discover within themselves the qualities for which they were wishing, it seems you must already know your destination before you can

see Aiming, page 14

THE MINER MUSIC REVIEW

Jimbob
Music Reviewer

Halloween is just around the corner, folks, and midterms are getting closer and closer. I am sure all of you are keeping up with your studies but also making sure to keep a bit of time for kicking back.

I haven't hit any of those notoriously wasteful haunted houses in St. Louis yet so I can't relay anything about them now. I am sure I will be forced into it one way or another and when I do, I will be sure to let you all know. However, I am able to let you know all know that there will be all kinds of concerts coming, and as you can see by the *huge* list in this issue (see page 7), I am keeping everyone up to date! The next issue will contain reviews from the new releases by Korn, Corrosion of Conformity, Social Distortion and more...so keep reading!

This weeks reviews are for the Alternative listeners as well as the Hard Rock on which I have been keeping up to date releases. We are pretty lucky to have reviews on the new releases by Tool, frente and Weezer this week, so eat it up. All of these albums have their pros and cons, so to fill ya in on the latest, here we go....

Weezer
Pinkerton
DGC Records
Alternative
Performance: 9
Sound Quality: 8

Since their debut self-titled smash in '94, Weezer has teased us with three songs. One can be found on *DGC Rarities Vol. 1*, and the other two are on

movie soundtracks. Finally, after two years, their second album is out. But could this one be as good as their first? The answer is definitely yes...

They are back with the same loud, guitar-driven, sing along anthems that made them so popular. You've probably already heard their new song "El Scorcho" on the radio by now. A few more potential hits like "Getchoo" are

also on the ten song release. Overall, the CD sounds like a continuation of their first with a slight evolution in sound. This CD is a must-have for anyone who enjoys the Weezer sound.

Jason S.

frente
Shape
Mammoth Records
Alternative

Performance: 5
Sound Quality: 8

The long awaited release from frente has finally arrived, and now that its here, I am utterly speechless. *Marvin the Album*, their last album, was a compilation of melodic songs with variances from acoustic guitars to party go dance rhythms. *Shape* has taken a complete detour from *Marvin* and is flooded with Angie Hart's sympathetic voice. Most of the songs on this album are slow and boring with Angie's vocal whining in songs like "Sit On My Hands" and "Clue," and the song "Horrible" has definitely been titled with some thought.

There are a few good songs which reminded me of the Cranberries. "What's Come Over Me" and "Burning Girl" would have to be the most appealing to me.

I have no idea if this album was rushed, or if there was sooooo much thought involved that they lost what they had in their first album. I am not sure if this is cliché, with so many bands having their first album probably being their best.

I am going to have to say to bail on this album unless you just love to torture yourself with the accent that Ms. Hart possesses.

Jimbob

see Music, page 14

frente

A Closer Look: Dr. Merrill Stevens

Melanie Kostedt
Staff Writer

A mechanical engineering friend of mine teases me about my soil mechanics class. "Why do you need to study that stuff? Dirt is just dirt." Is it? Dr. Merrill Stevens, a professor in the Geological Engineering Department at UMR, would disagree. She dedicates much of her time to study "dirt" and the valuable minerals that are contained within it.

Dr. Stevens' birthplace, Virginia, Minnesota, is located on the Mesabi Iron Range. Her family later moved from this town, known for iron ore mining, to Nome, Alaska, where she attended high school. While in high school, Dr. Stevens played basketball, acted in drama productions and snowmobiled. She was also a member of the high school debate club.

After serving in the United States Army, Dr. Stevens attended the University of Minnesota-Duluth to achieve a bachelor's degree in geology and minors in both math and physics. She then went on to obtain her master's degree and a Ph.D. in geological engineering from the University of Missouri-Rolla.

After graduation, Dr. Stevens spent eight more years with the U.S. Army as a civilian employee. She worked at the Topographic Engineering Center in Fort Belvoir, Virginia, and later at the U.S. Army Engineer Center in Fort Leonard Wood, Missouri. While at

Fort Leonard Wood, she was also an adjunct faculty member for UMR, teaching GE50, a fundamental geological engineering course.

A couple of years ago, when a position opened in the Geological Engineering Department, Dr. Stevens was hired as an assistant professor.

Justin Ferguson

Dr. Merrill Stevens

Dr. Stevens' experiences in the army along with her desire for students to learn enhance her effectiveness as a teacher. She is able to relate how the concepts being studied are relevant to real-world situations. Her examples and slides not only make learning more interesting but also make material more understandable.

Although Dr. Stevens enjoys all of her classes, GE50 is her favorite and most challenging. Because students from several different disciplines are required to take this course, she strives to reveal to them the importance of geology to engineering and give them a

broad overview of geological principles and applications.

Dr. Stevens just recently completed a research study for Waste Management International on landfill leachate and its effect on different rock types. She is currently working on a project related to environmental stewardship in the 21st Century for the Missouri National Guard. She also submitted a research proposal to the University Research Board to study the use of constructed wetlands for stormwater runoff remediation.

Dr. Stevens devotes time to several societies and organizations here at UMR. She is the faculty advisor for the Society of Women in Engineering, the Society of American Military Engineers and the Association of the United States Army. She is also a member of the Society of Mining Engineers, the Association of Engineering Geologists and the American Society for Engineering Education.

Aside from her obligations at UMR, Dr. Stevens is an engineer officer for the Missouri National Guard and Commander of the Doolittle American Legion Post. She even finds time to raise farm animals, including cows, mules, sheep, goats and all kinds of "barnyard birds."

Dr. Stevens believes that an important aspect of college life is that students set goals for themselves. Unless students consider what paths they want to take in life in order to accomplish their ambitions, they could waste a lot of time on a path that will get them nowhere or somewhere they don't want to be.

ROCKO'S REVIEWS: THAT THING YOU DO!

Justin Sutherland
Staff Writer

You're one of the biggest actors in Hollywood. You've won back-to-back Oscars, and your last six movies were box office smashes. What is there left to do?

What else? Write, direct and then cast yourself in your own movie. That is exactly what Tom Hanks did with *That Thing You Do!* (Rated PG-13). And it is anything but disappointing.

That Thing You Do! is a 1960's rock fable encompassing the short-lived career of the Wonders, a four-man rock group from Erie, Pennsylvania.

The Wonders themselves contain a small variety of distinct personalities. There's Jimmy Mattingly (Johnathon Schaech), the brooding "talent" and career-minded lead singer. Then there's the naive and aloof bass player (Ethan Embry) who actually remains nameless. The trap set is manned by Guy Patterson (Tom Everett Scott), a wide-eyed rhythm and jazz connois-

seur, who licks into the job. And what person can forget the hilariously clowning and foolish guitarist, Lenny Haise (Steve Zahn), who for all intents and purposes is really a major dork?

Their differences are of little consequence to the group on their rise to fame in the beginning. It is on this rise that they meet Mr. White (Tom Hanks), an opportunistic representative of the

Play-Tone Record Company, who becomes the Wonders' star-maker. Mr. White skyrockets the Beatlesque song, "That Thing You Do!" and the Wonders to instant nationwide fame.

The life of the four-man band is cut short, though. Each person begins to discover what it is that he really wants, and the band ultimately disintegrates.

When we came out of the theater, Rocko asked me if *That Thing You Do!* was a true story. In reply, I told him it wasn't. But it's not hard to make that mistake. The story is fun, yet convincing and seems oddly familiar. It's even concluded with epilogues for each band member. Plus, all of the music used in the film

The Verbal Voyager, on respite...

by Sean Cordes

There are times when it seems that no matter how you try and get away, business will catch up with you. For instance, I just received a message from my editor prompting me for this article. In fact, I'm so busy lately (as I imagine many of you are), that I now consider these Saturday writing sessions as leisure time.

Hopefully, if this doesn't take too long (the words are coming slowly today), I may have time to enjoy the sunshine while I work on the cobblestone walkway that has been under construction in my yard since July.

Now I can imagine that about now you are thinking that I am the world's greatest procrastinator, and perhaps a misdrawn prototype for the slacker generation. It's not so.

I already cleaned out a rehearsal studio, spent quality time with my family, and balanced my checkbook (this is a great task, believe me).

And this is all fun, if you have come to the realization, as I have, that if you

are a truly productive individual, there is no respite, if you consider it a lack from all action...except maybe if you are dead.

Now I admit that there are those individuals who are so well off that it may seem that they need never work again. Wrong answer. How many vacations do you think Bill Gates takes? In actuality, he probably does

venture out into those video walls installed in his new home. But you can't help but think that all the while he is contemplating the way in which these images might be converted into increased productivity and dollars.

Even those who truly don't need or want to work must find ways to keep

themselves occupied. Many of the truly rich find ways to entertain themselves via a multitude of available toys, one need not delve into details.

What is more bothersome, however, are those poor individuals who smile big while offering their time, only to renege on their responsibilities later, and offend and alienate others in the process.

By example, one member of an organization I know of is always volunteering information, guidance or assistance. However, this aid is often terminated at the last minute, making this person less than a help. I guess this could be viewed as a respite from responsibility or obligation.

But perhaps most disdainful are those individuals who only work when they have too. They spend their lives hopping from one sort of respite to another, whether it be a dead end marriage or a bad job. It seems as though

THE IRISH TIMES

Brent Osborn
St. Pat's Source

At the regular Thursday meeting of the distinguished St. Pat's Committee, the Parade Theme for the St. Pat's Celebration was decided. After long discussion, it was determined that Dr. Seuss, along with his cohort St. Patrick, the Patron Saint of Engineering, needs to grace Rolla with his presence. So, if you have not already done so, elect a float chairperson for your organization, and get your entries in to Dale McCarthy, who can be reached at Kappa Alpha (364-4841).

If your organization does not have the necessities to build a float, then you may wish to consider a non-float entry. It is a fun and unique way to show off who you are and a great way to be a part of the third largest parade in the state of Missouri. Please remember that all entries must focus around Dr. Seuss.

The St. Pat's Committee would like to thank all those students who came to ME-104 on Thursday and showed support for the St. Pat's Celebration. We all have it in our hearts and minds to put on the Best Ever Celebration in 1997. This is the time for all of us to get together and enjoy the best that UMR and Rolla have to give us. Thank you!

If you are interested in keeping the Best Ever alive and growing and are wondering what exactly you can do, consider the following. If you are an international student wanting to meet fun and exciting people, if you are in a professional society wondering how to show off your organization to the campus, if you are sitting at TJ saying that you have this killer floor that everyone needs to know about, attend the informational meeting November 19 in the Mark Twain Room in UC-East. Find out what you need to know about making the St. Pat's Celebration '97 at UMR the Best Ever.

Finally, in our roll to serve the students of the University of Missouri campus in Rolla, we have made "the green" available to help ward off the chilly sting of Jack Frost, also known as the cold Missouri winter. You will find a rep at the Puck more than willing to provide you with a sweatshirt, boxer shorts or dice. The sweatshirts are available at \$20, boxers are \$5 and dice are \$1 per pair. More items will be available as the year progresses, and I will keep you posted.

Remember that the money made on Green goes to pay for the costs of the Best Ever St. Pat's Celebration. The more you buy, the better the celebration; the more you participate the bigger the celebration. Do not wait until it is too late as the Best Ever is only 149 Daze away!

Film festival returns in two weeks with *Mighty Aphrodite*

Film Festival
Source

The UMR Film Festival at Castleman will take a break next week for The National Shakespeare Company's performance of *As You Like It*; however, it will return at 7 p.m. Tuesday, October 29, with a showing of Woody Allen's film *Mighty Aphrodite*.

Woody Allen directed and stars in this contemporary comedy of a sportscaster in New York who gets

involved with some shady types after winning money at the racetrack. Allen's typical ensemble cast of familiar Hollywood faces is featured in this truly funny film that will provide plenty of laughter for all students.

Mira Sorvino's performance won an Academy Award for Best Supporting Actress. Other cast members include F. Murray Abraham, Olympia Dukakis, Claire Bloom, Michael Rapoport and Helena Bonham-Carter.

This 1996 film is rated R. Cost is \$3; student admission is free with a valid UMR ID.

The New Comedy from Woody Allen

"Mighty Makes All Righty!"

The comic tension is deliciously built and sustained...and the goofiness is almost magical.

National Shakespeare Company brings *As You Like It* to Leach Theater

Ken Campbell
SUB Source

On October 22, the National Shakespeare Company will perform *As You Like It*, a romantic comedy. The show will begin at 8 p.m. in Leach Theater, Castleman Hall. Tickets are free with a valid student ID, and they will be available for adults for \$5. Tickets can be purchased and student tickets picked up at the ticket window across from the UMR Bookstore.

For Shakespeare aficionados, there will be a pre-performance lecture on Shakespeare, given by Dr. Nicholas Knight in the University Center East galley on the first floor. It will start at 7 p.m., and everyone is invited to come and participate.

As You Like It is one of Shakespeare's most romantic plays. It is a

reflection on love and the simplicity of life. Four different couples court against the backdrop of the beauty of the Forest of Arden. The passage of time and the seasons play a role in

matching each person with his or her perfect mate. In Shakespeare's expert hands and words, he makes sure that the path of love in *As You Like It* ultimately runs smoothly.

As You Like It

Greek support strong for local charities

Chris Moore
Interfraternity Council Source

As part of the 1996 Greek Week celebration, the Interfraternity Council and Panhellenic Council sponsored several events to benefit Rolla charitable organizations. Some of the philanthropy projects Greeks participated in were the Greek Week Canned Food Drive and the Greek Carnival.

Over 12,000 canned foods were donated to the Salvation Army who in turn distributed them to local churches and food pantries. Three churches were needed just to store all of the cans. A truck and trailer were donated by Nick Frost of Hi-Tech Collision to haul

all of the cans. Several members of Acacia Fraternity helped load and unload cans at the various churches.

Houses received Greek Week points for donating so many cans per member of their house. Pi Kappa Alpha and Kappa Alpha fraternities each collected 40 cans per member of their house, for totals of 2,437 and 2,044 cans, respectively. Kappa Delta lead sororities with 40 cans per member for a total of 1,558 cans, and Zeta Tau Alpha collected 30 cans per member for a total of 1800 cans.

The Greek Carnival this year was also a great success. The event took place at Lions Club Park and was open to the Rolla public. Each fraternity and sorority that competed built a game booth and charged a fee to play. All of the money raised was collected and

donated to a local charity. Proceeds this year, over \$700, were given to LOVE (Local Organization for Various Emergencies). LOVE gives aid to families in need during emergencies or on a long-term basis. Pi Kappa Alpha fraternity and Chi Omega sorority each won the best booth competition.

Other charitable events in which Greeks competed include the Greek Week Blood Drive and the Aluminum Can Drive.

The Greek Week final standings for fraternities were as follows: Pi Kappa Alpha, first; Kappa Alpha, second; Sigma Pi, third; Kappa Sigma, fourth and Lambda Chi, fifth. Final standings for sororities were Zeta Tau Alpha with first place; Kappa Delta came in second and Chi Omega followed up with third.

Quarterback injured; Hornets pound Miners

Football team faces disaster in Emporia

Matt Ryan

Staff Writer

The football Miners lost another game this week, losing to the Hornets of Emporia State by a score of 52-20. The Miners fall to 2-4 (0-4 in the MIAA), while Emporia State improves to 3-3 (3-1 in the MIAA).

Emporia State employs a high powered offense, the Sting and shoot, a variation of the run and shoot as the score shows, while on defense concentrate on stopping the run.

The game started with the Miners receiving and driving to the Emporia 42 before being forced to punt. Emporia State was able to break a 48 yard run on second down to the Miner 36 yard line. The Miner defense allowed them to get to the UMR 16 yard line before forcing them to kick a field goal to make the score 3-0.

The Miners then received the ball and were able to drive 65 yards to score a touchdown. This drive featured a 28 yard run by Steve Hodson and a 26 yard pass from Dan Van Anne to Elliott Jackson. Russell Zung capped the drive with a two yard run to make the score 7-3.

The UMR defense was able to drive Emporia State backwards, forcing a punt after four plays. The Miners were unable to do anything with the ball, however. A bad kick by punter James Harden gave Emporia State excellent field position at the UMR 44. Once again, the UMR defense came up big, stopping the Hornets after they drove to the 26 yard line.

The Miners took over on downs here, but once again the UMR offense sputtered, punting from the same spot they took the ball over at. This time, Harden got off a better punt into the wind, but the Hornets still got the ball at their own 46 yard line.

Emporia State's Sting and Shoot offense showed its explosiveness here, reeling off two straight first downs followed by a 35 yard touchdown pass to make the score 10-7 with nine seconds left in the first quarter. The Miners went three and out, with Harden getting a 42 yard punt. The Hornets were able to get a 39 yard run to the UMR 5 yard line. Emporia State was able to punch it in from here, making the score 17-10.

UMR was able to get a first down on the next possession, on a 12 yard Hodson run, before being forced to punt. The Hornet then reeled off an impressive eight play, 80 yard drive to make the score 24-7 with 8:45 left in the second quarter.

The Miner offense was unable to get a first down, but more importantly quarterback Dan Van Anne was sidelined with an injury on the next possession. The Hornets scored yet another touchdown on the next possession, making the score 31-7 with 2:45 left on the clock to put the game out of the Miners reach.

The rest of the game had a few highlights for the Miners, including a 69 yard run by Brian Tillman for a touchdown to make the score 52-13 with 4:27 left in the game. The other highlight was a nine play, 48 yard drive under the direction of freshman quarterback Matt Brueckner, capped by a pass from Brueckner to fellow freshman wideout Sean McInerney.

Liz Morris

UMR quarterback, Dan Van Anne throws a pass to Brandon Risner, in the Miners game against Emporia State.

The Miners were outgained on the ground by over 200 yards, 363-136. In the air, they fared a little better, managing 72 yards to the Hornets 214.

On offense, Dan Van Anne was 4 of 14 for 53 yards, while backup Brueckner was 3-12 for 19 yards. The receivers were led once again by Elliott Jackson, who caught three passes for 47 yards. On the ground, Brian Tillman led with 114 yards on 11 carries, while Steve Hodson had 59 yards in 13 carries. Nathan Murphy led the defense with 15 tackles, while Bryan Lewis had 10, Gary Tomlinson nine, Matt Hinson and Brian Gilmore both with eight.

Next week the Miners host the Ichabods of Washburn at 1:30 on Parent's Day at Jackling field.

Football

SCORE BY QUARTERS	1Q	2Q	3Q	4Q	OT	TP
MINERS	28	62	14	33	--	137
OPPONENTS	31	67	45	27	--	170

First Downs: Miners 95 (41 rush, 44 pass, 10 penalty),

Opponents 127 (76 rush, 39 pass, 12 penalty)

M-Club Athlete

Natalie Sanders

The Lady Miner's Natalie Sanders has been named this week's M-Club Athlete of the Week. Natalie scored a hat trick in the Lady Miner's victory over Drury. Sanders has scored 17 goals this season and is the Lady Miner's all-time goal scoring leader with 47 career goals.

of the week

UMR Miners to face Missouri Southern Lions Today

Nathan Erdman
Sports Editor

The University of Missouri-Rolla men's soccer team will host the Lions of Missouri Southern tonight in a critical Mid-American Intercollegiate Association clash. The game is set to begin at 7 p.m. at the UMR soccer complex.

Miner head coach Mark Salisbury feels the game with the Lions has incredible importance in the MIAA race. "It will be a very tough game, they're a good team. They beat Drury. It's a team we have to beat to win the conference. We need to play our best," Salisbury said. The Miners will enter the game at 7-5-1, and 1-0 in MIAA play.

On Saturday the Miners beat St. Joseph's (Ind.) 2-0 at the UMR soccer

field. After a scoreless first half the Miner's Dave Nauman put in a Mike Kiefer cross for the first goal of the game at 46:21. The second score came on a free kick from back John Almeida at 65:39. The Miners outshot the Pumas 16 to 7. UMR goalkeeper Kevin Levy had three saves and earned the shutout for the Miners.

Salisbury points to the player's half time assessment of their performance as the key factor in the Miner's second half improvement. "We talked about what we needed to do and we did it," Salisbury said.

"We need to start games with the same intensity we played in that second half," Salisbury added.

Salisbury also talked about the importance of the win. "It's very important. We needed to get on track," Salisbury said. "It was nice to get the win."

The Miners also lost to Rockbridge on Sunday 5-0.

Justin Sutherland

Miner goal keeper, Kevin Levy, blocks a shot from Phillp McGrath of the St. Joseph Pumas. The Miners will face Missouri Southern at 7 p.m. tonight.

Miner Match up

Missouri Southern at UMR

Date: Oct. 16, 1996
Site: UMR Soccer Complex

Players to watch: Kevin Levy, Gevan McCoy, John Kwantes

Outlook: The Miners face the Lions in a pivotal MIAA game. With a win the Miners will remain in the thick of the conference race.

LadyMiner Match up

Date: Oct. 16, 1996
Site: UMR soccer complex
Time: 5:00 p.m.

Players to watch: Kate Masterman, Natalie Sanders, Rachel Lewis

Outlook: The Lady Miners will have their hands full with a strong Southern Indiana team. But, Coach Mark Salisbury feels the Lady Miners can compete.

Baseball playoffs in high gear

Chris Kulfay
Staff Writer

Hello again sports fans. This time of the year is great; not only do we have post-season baseball, the thick of the football season, and the beginning of hockey, but also the NBA exhibition season is underway. I'll wait for a while to give you the scoop on basketball, but let's check out the rest.

Baseball is actually getting exciting folks, and for those of you who'd never believe it, you're not

alone. Recently, however, there have been some really good games, and even some heroics. Saturday, the Cardinals took a 2-1 series lead over heavily-favored Atlanta on the back of Ron Gant's two home runs. Also as of Saturday, the Yankees have a 3-1 series lead over home run record-setting Baltimore with an 8-4 win. While nothing's decided yet, it looks like it may just be two of baseball's most historic teams, New York and St. Louis, in the World Series.

By the time you'll be reading this, this week's football games will be over. There are some dandies though, and the Monday night game between San Fran and the Pack should be even better. Things are going tough if you're a

Rams fan, and the Chiefs had the week off.

In the NBA, the exhibition pre-season will last until October 28. On November 1, the regular season will begin. An early favorite to win it all, obviously, is Chicago. The Bulls seem ready and certainly haven't lost any confidence since their 72-10 pounding of the rest of the league. Look for a possible repeat, especially if the Worm stays happy.

I'll try to have more on hockey for you next week, but until then don't forget to check out your favorite football team, and even try to catch a baseball game or two—they've been great so far!

Lady Miners lose two

Nathan Erdman
Sports Editor

The Lady Miners will host a tough Southern Indiana team at 5 p.m. tonight at the UMR soccer field. The Lady Miners will enter the game with a 6-8-1 record after a pair of losses over the weekend to Rockhurst and St. Joseph's (Ind.) It will be the last home game of the season for the Lady Miners.

Coach Mark Salisbury feels his team can compete with Southern Indiana. "I think we'll play right with them. I think we're going to have a good shot at them," Salisbury said.

The Lady Miners lost 2-0 to St. Joseph's (Ind.) on Saturday. Mary Reid scored both goals for the Lady Pumas, early on at 9:44 and another at 63:06 to seal the victory for St. Joseph's. The

Lady Pumas outshot UMR 16-7 in the game. Goalkeeper Rachel Lewis had seven saves for the Lady Miners while giving up two goals.

Salisbury commented on the Lady Miner's inability to get possession. "They outworked us to every ball that was contestable. They go to the ball very hard. You have to give them a lot of credit," Salisbury said. "We're not strong in the air. We need to be able to play the ball on the ground. If we can't do that we're in a lot of trouble," Salisbury added. The nationally ranked Lady Pumas upped their record to 12-1-1 on the season.

The Lady Miners were able to defeat Drury last Thursday 3-2. Lady Miner standout Natalie Sanders tallied three more goals in the game, while Kate Masterman aided with all three of the Lady Miners assists. The Lady Miners also lost to Rockhurst last Sunday dropping their record to 6-8-1.

Nathan Erdman
Sports Editor

The UMR cross country team competed in the Central Intercollegiate Invitational last weekend in Warrensburg, Mo. The women finished fifth out of seven teams and did not qualify for the America Intercollegiate cross country meet in two weeks.

The men finished seventh with a 112 score and ahead of Northwest M.

Central Missouri State Invitational, Oct. 12 at

Sonia Blacketer won the meet for Missouri Southern. Sheri Lentz was the top Lady Miner finisher with a ninth place time of 19:46.0. "I felt like we ran strong. Sheri looked a little more tired. She worked hard in practice. She didn't finish as high as she would have liked," Preston said. Preston also pointed to solid performances from Tracy Jones and Sheryl Ziccardi. Because all of the MIAA schools were at the CMSU meet Preston believes it gives a clear picture of what to expect in two weeks. "Sheri should be in the top ten, which is all conference. It's very competitive," Preston said.

59. Jason Reneau, 39:52.

8. Sheri Lentz, 19:41;
31. Tracy Jones, 20:42;
53. Sheryl Ziccardi, 22:10;
55. Mindy Settles, 22:20.

TIME KILLERS

Gazing Starward, Astrology prepared by Zandar O-Roofo

Taurus (April 20-May 20) - You may be able to fool a fool all of the time, or to fool a non-fool some of the time, or even to not fool a fool some of the time, or to not fool a non-fool all of the time, but believe you me, you can't ride a Harley into Wal-Mart and eat all of the Planters while proclaiming in your nudity, "I am Mr. Peanut!"

Gemini (May 21-June 20) - For this week, buddy, Macbeth is to saint as you are to cool.

Cancer (June 21-July 22) - Whatever you do, don't - the stars beseech you - do not integrate mad people over a goat, because then you will have some dangers over you (summed angers over awe).

Leo (July 23-August 22) - When the time comes to make a hard decision this week - do so. For if you knit, everything will be wasted. Your lucky

number is 12. Your lucky article of clothing is a scarf, and your lucky animal is an Australian Lemur dangling from a big ol' giraffe.

Virgo (August 23-September 22) - The stars warn you to seek out the dangers of the street. Seek far and seek wide, seek high and seek near - but do seek, my friend, for the seeking is the game, and the streets are the court upon which all of life is played. And potatoes are cool, too.

Libra (September 23-October 22) - There comes a time in everyone's life when we ought to sit back and pay tribute to the awe-inspiring greatness flowing throughout the nature from which all life is born. But this ain't one of them times - go run down small woodland creatures and cackle with glee!!

Scorpio (October 23-November 21) - Water. Liquid. Fluid. Air. Tires. Car. Seatbelt. Buckle. Belt. Texans. Oil. Slippery. Banana. Fruit. Fruitcake. Pineapples. Tropics. Heat. Movies. Films. Projector. Lights. Bioluminescence. Lakes. Ducks. Feathers. Flight. Space. Money. See - water will bring you money.

Sagittarius (November 22-December 21) - Remember: sometimes when you approach the locks of life, a shard of metal will help you overcome the difficulty. Especially a key-shaped shard of metal.

Capricorn (December 22-January 19) - Pens with ink are much better than those with pigs. For one thing, the oinking is more annoying than black splotches on fingers when pens break. So, for your week, instead of oinking like usual, try fingering people's black splotches.

Aquarius (January 20-February 18) - Ahead in the months you will encounter the true definitions of love and harmony. Someone will ram a big red dictionary in your face and blood will flow freely from your facial orifices. So be careful.

Pisces (February 19-March 20) - Sometimes a wildly blinking and terrifically hollaring red man upon a charging rain-drenched rhino named Melvin is just a wildly blinking and terrifically hollaring red man upon a charging rain-drenched rhino named Melvin. Have a cigar.

CAMPUS GOSSIP

Run naked through the Quad! (please)

Where's my Zima, Lambda Chi??

Cathleen,

Your name is still spelled wrong!!

Kathleen
(the right way)

Keep up the great work, DJ and Carl! You guys are the best!

Love,
Your Mentor

LB,
Make a move!!

Bigg D,

Keep shopping at K-Mart! Blue light...umm-hmm!

Little C

We love Jell-O wrestlers...yum yum!

Farrar 3,

You guys are the coolest people. Thanks for everything. We are definitely the best house. :):)

Anne

Um, I don't think so. Altman 6 is the best! No "butts" about it!!!

Little C,

Get those tables ready!

The other wild one

Rho Alpha loves Lambda Chi!

Lambda Chi,

Thanks for not towing my car!
"FM"

Hey Anne,

Let's discuss your G!
VIVA!

DJ,

9:30 on Thursday!!! :)
KCSCCDIJPA

NRHH Rocks! Good work on the Kickoff Classic and Leadership Trip.

Glad you're back, Gerrit!
Quad Staff

IHZ VCANZ

Lamitola,

Why do you make me skip?
YLS

Watch out for cowumm buckwing.

Thanks for dinner Chi-O! The cheesecake was great!

Cat,

If you run away, leave me a letter.
Kat

Paula,

How does it feel to have two guys fighting over you?!

Congratulations to all of DOL's new pledges!! Ann Marie, Billie, Jen, Pam, Darcy, Elizabeth, we love you, man!!

Ann, Cheri, Leslie

Brandon,

Thanks for "cooking" for us in football!

DOL

Hey Altman 5,

You are the coolest house! :)
J

Kappa Chi, you know who you are, We are #1.

Candice

MAC 2 Rocks!

Holtman is too mature for personals.

"Ug, ug," go cavemen!

Rho Alpha,

You've gotta fight, for your right, to PAAARRTY!!

Hey George, Sloppy Joe and Big Josh, Thank you for coaching us in Derby Days! We love you guys!

DOL

Kelly (Lush Moose),

Food cooks faster when it's inside the microwave.

Physh,

Did you ever stab that piece of lettuce?

DOL,

Great job on Derby Days!

Blue Moose Club Rules!!!!

Here's to Psycho Bull Mooses!!!

Kristi,

Thanks a lot for all your help in flag-football!!! You rule!!

DOL

Sigma Chi,

Thanks for all the fun during Derby Days!! Hope we didn't break you too bad!

DOL

Hey all you Dang Obnoxious Ladies, Get funky!!!

DOL loves AEPi!!

Kimbe,

Thank you for all of your help during Derby Days, you did a great job!

DOL

Brandon,

Welcome to the family.
Love,
YBS

Parsley loves Sigma Pi!!!

Ben, Goose and Josh,
We have a great family!
Parsley

To Joe L. and Adam,
You guys are the greatest!
Tonica

To The Miner Football Team,
We love and support you guys!
Gold Miners
Dance Squad

DOE loves Sigma Pi!!

Craig,
Did you enjoy the rodeo?
Tara

DOE loves Sigma Pi's pledges

DOE loves their new pledges!

Congrats, Sigma Pi, on Homecoming!

DOE

Administration,
We need you to get us where we're going.

Outreach,
Make sure we bring everyone us.

Vision,
You're our eyesight, now leave way.

Zoo

Rock/Alternative/Slammin'

Performance: 8

Sound Quality: 8

The new release from Tool has been long awaited with fans pacing around like expecting fathers. For those that haven't gotten their copy, ITS OUT!! GET IT!!! NOW!

This album has outperformed, out-intensified and literally blown away their pedestal album, *Undertow*.

Each song on the album is loaded with originality. Once you have cracked open the CD and had fun playing with the cover (a cool kaleidoscope thingy, giving the effect that the picture seems to move) you stand hunched over as if you are on point in a military mission. The first song is all it is expected to be, loaded with bass, guitars, drums and enough energy to kick

start our nuclear reactor.

The titles to their songs are beyond strange, but so is the band. Songs like "Stinkfest," "Hooker with a Penis" and "Useful Idiot" all use colorful titles, but when listening to the song, the titles explain themselves.

When I first got my copy, I wasn't sure what to expect. I loved *Undertow* and didn't think it could be topped...boy was I wrong! The album never mellows out; each song is almost interconnected with the last making it an almost nonstop mosh compilation.

This album is beyond awesome and would have my thumbs up if they weren't so sore from ripping open the jewel box so much. I would have to say my favorite songs include "Eulogy," "Stinkfest" and "Third Eye." I have my reasons and can almost guarantee that they will be yours too. Show your support and pick up your copy today, you won't regret it!

Jimbob

Trail

from page 1

Kingshighway at the stop light and proceed past the Rolla Chamber of Commerce until finally ending at Martin Spring Drive.

Landscaping for the trail is planned for the fall and winter of 1997-98. The I.S.T.E.A. funds allow for the purchase of a limited number of trees to beautify the trail. In addition, more trees, park benches and other enhancements will

be added through the use of private funds.

The trail is expected to be quite a popular place. Rolla Parks and Recreation Director Ken Kwantes stated, "We expect the ACORN trail to be heavily used, as many folks already walk, run, and bike on those streets. The trail will provide a safer recreation opportunity."

Forum

time when no matter how popular it is there are some things we can't do." Park said that he had contacted several insurance companies and they had all said that they would not provide insurance for an event such as Alice. He also noted that the St. Louis district court was famous for giving large plaintiff awards in injury lawsuits.

Hart responded that the St. Pat's committee had talked to insurance companies that would cover an event such as Alice.

When a student asked about the possibility of student knights signing waivers before participating in Alice, Park commented that waivers like that seldom held up in court.

Another topic that fueled a number of questions was the removal national advertising budget for the St. Pat's committee. Park said that he did not believe any final decision had been made on the budget, but Grove pointed out that the St. Pat's budget had already been approved by Student Council. Hart said that the committee had been advised by the University to cut the national advertising budget before submitting the budget for approval.

Park said that his concern with the national advertising budget was the possibility of bringing a bad element of people into Rolla. He said he felt the celebration should be for UMR stu-

dents and those that students personally invite. He expressed several times his desire to keep the celebration from becoming a "y'all come party."

Park said that FBI studies done on parties that got widespread recognition or advertisement showed that they attracted a criminal element. According to Park, the studies showed that the damage done by this "bad element" more than offset the positive economic impact from the influx of visitors.

Hart said that the event has never been advertised as a "Come get drunk in Rolla party." He also noted that the money from the national advertising budget was actually used for advertising in throughout the state of Missouri. The advertisements have focused on the sale of St. Pat's green.

One student asked if Park's desire to localize the celebration included the elimination of out of town marching bands and state level dignitaries. He noted that in the past people had suggested more marching bands as a way to improve the parade. He also noted that, in the past, several state level government officials had participated as honorary knights. Park said that he did not see the need to change events such as the formal knighting or the parade.

An African-American student asked what kind of student input was

Dinner

from page 1

"This is not supposed to be intimidating," Sowers commented. "It should be fun and a good learning experience. I'm very excited about the event." The menu for the Etiquette Dinner is as follows: hors d'oeuvres, tomato bisque, mixed green salad, chicken Marsala with grilled mushrooms, wild rice, and sauteed autumn vegetables, and Curator's chocolate cake.

This is the first time that such an event has been held at a campus wide level. Seating is limited so reservations must be given no later than October 28. To make reservations, e-mail Chris Sowers at chirss@umr.edu or call 341-6170.

first university ever to win the Missouri Quality Award, patterned after the prestigious Malcolm Baldrige National Quality Award. This honor also makes UMR the first doctoral-granting institution in the nation to win such an award.

All members of the UMR campus and the Rolla community are invited to attend. For any questions regarding this presentation, please call Wesley House at 364-1061.

Rocko

from page 6

was created specifically for the movie, adding to its realism. They were unfamiliar tunes, yet they resonated with the distinct aura of the early 1960's. The only drawback is that the catchy title song grew into quite an annoyance as it was repeated through the movie.

Even so, Rocko digs *That Thing You Do!*, and rates it thusly:

Humor: 7

Just Plain Fun: 9

Story Pace: 7 (skip-a-long)

Overall Entertainment: 9

resume and letter fear the consequences of your vehement actions if you do not get the job. Citing psychiatric wards you've "visited" and doctors who regretted "inviting" you is a sure fire way to develop a fear.

Mentioning a specific example of what events unfolded when you were turned down for employment last time is

another great means of establishing fear. I know this idea may sound a bit crazy, but you'll be surprised at how many people would rather have a criminally insane coworker than face the consequences of upsetting him (or her).

WORD COUNT: words having the prefix "over": 10; the word "resume" appeared 17 times.

Aiming

from page 5

reach it, you must have already made your decisions and accepted the path to find your dreams before you can enter the halls of the Kingdom. By that time, the trip is a reminiscence, a chance to look back on the road and see the decisions you never expected to be quite so important.

likely for events of the past to be repeated with that kind of supervision. Park said that he felt there was room to look at events individually and consider the possibility of having some of them off campus.

Committee members also expressed concern with the money they had to pay to have University Police present at some events in addition to Rolla City police. They also wondered if there would be an opportunity for them to do work themselves that in the past has had to be done by employees of the University. They noted that often physical facilities personnel got paid a premium for their time in helping set up for St. Pat's events.

Hart ended the question and answer format by saying, "It'll be a happy day for the committee when we are no longer punished for the sins of our forefathers, and are judged by our own accomplishments."

After the question and answer format ended at 8:00, several people took the opportunity to make their personal comments to the audience present and the people listening on the radio.

The student who had earlier asked Hart to explain why Alice was being fought for, said that those fighting to preserve the tradition were "beating a dead horse. We're being given an opportunity to change here," he contin-

ued, "Let's take that opportunity and move on."

A female student who identified herself as a knight during last year's celebration called that experience "one of the greatest honors since I came to UMR." She noted that the students fighting for Alice now are the alumni of tomorrow. "We will be the future of University funding, so the University should listen to us now."

One person making a comment said that he was speaking as a parent. He commended the students for working hard for the celebration and taking care of one another. "We want you to have a good time," he said, "but we want you to live through it."

Another student pointed out that the St. Pat's committee "does a lot of good things besides throw a good party." She noted the leadership and responsibility opportunities available to members of the committee. She encouraged everyone listening to become a part of St. Pat's both to positively effect the celebration, and to positively affect themselves.

As moderator of the event, Rich Lee got the last word. He said, "If we don't get discouraged, and keep throwing out good ideas, St. Pat's will grow. People will look back at traditions we start this year and wonder how it could have ever been better."

Announcements

UMR Observatory Sponsors Visitors Night

The UMR physics department will sponsor Visitors Night at the observatory at 7:00 pm. Friday, Oct 18. The event is open to the public and, weather permitting, the moon, Jupiter, and Saturn can be observed with the observatory's 16-inch telescope. For more information contact John Schmitt at 341-4369 or e-mail at jschmitt@physics.umn.edu.

EXCEL Leadership Series

Michael May, President and founder of Empower Trainers/Consultants Inc, will be speaking October 23, 1996 in 204 McNutt Hall at 7:00-8:30 pm on the subject of "Starting a New Business." A

question and answer session will follow.

Research Assistance Program

Having trouble getting started on your research? Stuck for a topic or unsure where to turn next? Need help finding material on your topic? Try using the Library's Research Assistance Program. It provides consultations with reference librarians who will help you with your research. The reference librarian will help you develop a search strategy, identify appropriate subject headings in MERLIN and indices, identify subject indices and reference material, and find a topic for your research assignment. To arrange a consultation, fill out a reference assistance form at the library and make an appointment to consult with a reference librarian or call 341-4007 for more information.

Kappa Alpha MDA Rib sale

Each year, members of Kappa Alpha raise over \$3000 for their national philanthropy, Muscular Dystrophy Association (MDA). At the Jerry Lewis Labor Day Telethon for MDA, Kappa Alpha chapters across the nation annually combine to contribute over \$100,000. Kappa Alpha will be holding its second annual KA-MDA Ribs Sale in front of Wal-Mart on Saturday, October 19. The event will be going on all day long, so bring some pocket change and help support MDA. Prices: \$10 for a full slab of ribs, \$5 for a half-slab ribs. Hope to see you there! Call Mark Tschopp at 364-4841 for more information.

UMR TECHS sponsor late night sports tournament

UMR TECHS is sponsoring a late night tournament called "Hot Shots" on Friday, November 1, 1996. They will be conducting volleyball, basketball, and racquetball tournaments along with various other events such as casino games, refreshments, music, Mocktails, and more. The event will be held at the Multi-purpose Building from 10:00 pm on Friday until 3:00 am on Saturday. Contact Shannon Neimeyer at 341-3328 or e-mail at neimeyer@umn.edu.

Kappa Sigma- "Save Alice" t-shirts still on sale

Kappa Sigma is still selling "Save Alice" t-shirts. Proceeds go to the American Cancer Society. To order call Dan Dover of Kappa Sigma at 341-5989.

udent Affairs sponsor this event each year. This month is meant to promote alcohol awareness among UMR students. This week's events include: October 17: Wear RED today to show you are a friend who cares. October 24: Support using your head and making smart drinking decisions by wearing OUR FAVORITE HAT.

Center for Personal and Professional Development announces counseling sessions

The Center for Personal and Professional Development is announcing the fall 1996 group counseling sessions that will be open to the UMR community. The focus areas include: Self-esteem, Sexual Abuse Survivors, Career Planning, Family Based Issues, General Therapy/Support, and Stress Management. All groups are confidential and are open to UMR staff, students, and faculty. Members are pre-screened individually. Please contact Kevin Gaw or Diane Stutts at 204 Norwood Hall, 341-1211 for more information.

Course Equivalency Database

The University of Missouri-Rolla has a course equivalency database located on the World Wide Web. UMR-Rolla's home page is at 'http://www.umar.edu/' and you can get to this database by clicking on the Registrar's Office and looking under Course Equivalencies. If a course or college is not listed, that does not mean the course will not transfer to UMR-Rolla, it means the course has not yet been evaluated. If you plan to take that course that is not listed, you will need to bring a copy of the course description (available from the catalog of the college you plan to attend) to the Admissions Office, Room 106 Parker Hall and give it to Jennie or Julie for evaluation.

UMR Family Series season tickets go on sale

Season tickets to the following shows are available -- "Beauty and the Beast," on November 16, "A Christmas Carol," on December 21, and "The Wizard of Oz," on April 13, 1997. All shows begin at 3 p.m. in Leach Theatre of Castleman Hall. Tickets are \$24 for adults and \$16 for youths age 18 and under. They may be purchased at the UMR Ticket Window in UCW. For more information call 341-4219.

Financial Aid Information

Glamour Magazine's 1997 Top Ten College Women Competition

Any women who is a full-time junior (third year of undergraduate study) at an accredited college or university for the 1996-97 academic year is eligible to enter. What it takes:

- * leadership experience
- * involvement on campus
- * excellence in your field of study
- * unique, inspiring goals

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline must be returned by: **January 31, 1997**

Crane Fund for Widows and Children Scholarship

The Admissions/Student Financial Aid Office wishes to make students aware of the Crane Fund for Widows and Children. This program is:

- 1) for needy and deserving widows and children of men who, at their death, have left their widows and children without adequate means of support or
- 2) deserving wives and/or children of men upon whom they are dependent for support but, because of age or other disability, are unable or for other reason, fail or neglect to adequately support them respective wives and/or children. If you meet the above terms for this program you must complete a Crane Fund for Widows and Children Application to be considered for funding. The Crane Fund for Widows and Children Application can be received in the Student Financial Aid Office, G-1 Parker Hall. Applications for this program will be accepted through **October 25, 1996**.

Kids' Chance, Inc of Missouri

This is a nonprofit corporation developed by interested insurers, employers, attorneys, labor, medical and rehabilitation groups. The purpose of Kids' Chance is to provide financial scholarships to complete the education of children of workers who have been seriously injured or killed in Missouri work related injuries. Children who have a parent who was permanently or catastrophically injured or killed in a Missouri compensable injury or occupational disease, and who are Missouri residents between the ages of 16 and 25.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

National Academy for Nuclear Training Scholarship Program

National Academy for Nuclear Training Scholarships are awarded to college students who have demonstrated outstanding academic achievement and who are interested in pursuing careers in the U.S. nuclear power industry. The Academy Educational Assistance Program is part of a nationwide effort to encourage students to consider careers in the nuclear power industry as well as to provide financial support to those studying subjects that prepare them for nuclear power employment. For the 1997-98 academic year, new and renewal merit-based scholarships of \$2,500 each will be awarded to eligible students.

Awards are not restricted to nuclear engineering majors.

- * a U.S. citizen or U.S. national
- * considering a career in the nuclear power industry
- * enrolled at an accredited U.S. college/university in an approved curriculum related to a career in the nuclear power industry, such as: nuclear engineering, chemical engineering (nuclear or power option), mechanical engineering (nuclear or power option), electrical engineering (nuclear or power option), power generation health physics.
- * free of post-college obligations (e.g., ROTC or NUPOC)
- * minimum GPA of 3.0 (on a scale of 1.0 to 4.0) as of January 1, 1997
- * at least one but no more than three academic years of study remaining to graduation (for co-operative education students, no more than six in-school semesters or nine quarters)

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Deadline is **February 1, 1997**.

Rotary Club of Florissant Scholarship Program

The Florissant Rotary Club is offering a loan program which is available for eligible students through the Flo-Ro Trust. This program is part of an overall effort by the Florissant Rotary Club to assist in the education of qualified students within the Florissant Rotary's service area. The requirements for qualification for the loans are as follows:

1. A candidate must reside in the Florissant Rotary Club service area. (North St. Louis County, north of Highway 270)
2. A candidate must have completed a minimum of 60 semester hours at an accredited college or university.
3. A candidate must have a cumulative grade point average not less than 2.50.
4. A candidate must complete the Flo-Ro Trust Loan application and provide all required materials.
5. A candidate must be enrolled for a minimum of 12 semester credit hours during the semester of the loan period for a bachelor's degree, or 10 semester credit hours for a graduate degree.
6. A candidate may not borrow more than \$2,000.00 per application.
7. The total cumulative loans to any one applicant may not exceed the sum of \$6,000.00.
8. A candidate may not apply more than twice during an academic year.
9. A candidate must present him or herself for an interview by the Flo-Ro Trust Board.
10. A candidate shall repay the loan rate at a minimum of \$50.00 per month. The interest rate shall be the prevailing student loan rate at the time of graduation. Payments shall begin no later than 6 months after graduation, however, no interest shall be charged during the time that the borrower is a student.

If you are interested in this program and would qualify, you are encouraged to contact Mr. Ronald Schmidt at 801 St. Francis Street, Florissant, MO 63031 or call (314)921-5100.

Rural Missouri, Inc

If you have been employed as a farmworker in the past two years, you may be eligible to receive free tuition assistance for your education. If you have worked as a farm, orchard, greenhouse or poultry/egg production employee, you may qualify. To obtain details and the field representative closest to you call 1-800-234-4971.

The John Gyles Education Fund Scholarship

The John Gyles Education Fund is a private, benevolent endeavor established six years ago with the help of a Canadian/American benefactor. Each year financial assistance is available to students in both Canada and the United

States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$2,500.00. Deadline is **November 15**. Applications must be mailed by this date. To receive an application please send a stamped *** (US 32 cents), self-addressed, standard letter size (No. 10) envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick Canada E5B 5G4.

Chrysler Scholarship Program

With an eye toward assisting outstanding college bound students, Chrysler Corporation recently awarded 1,000 grants to 40 recipients through its new Junior Golf Scholarship Program. Even though the majority of the winners play golf, all selections were based upon their academic and extracurricular effort. For more information on this exciting program, call 1-800-856-0764.

Peter D. Courtois Concrete Construction Scholarship Program

These awards are open to any undergraduate student in the United States of Canada. The student shall have achieved senior status in a four year or longer undergraduate program in engineering, construction, or technology during the year for which awards are presenter. The awards will be made on the basis of demonstrated interest and ability to work in the field of concrete construction.

* The student must have a course load of 6 or more credit hours each semester during the period for which the award is made.

* The student must be a senior during the year for which the award is made (not necessarily at the time of application).

* Transcripts, recommendations, and an essay must be submitted as outlined on the application form.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application must be received by **February 1, 1997**.

WIRELESS FUTURE

Look Who's Leading The Revolution

MOTOROLA

Paging Products Group

<http://www.mot.com/pagingjobs>

World With Potential...

- Pagers in service will grow from 24.5 million to 56.2 million by the year 2000.
- Wireless products and services will capture 20% of the telecommunications dollar by 2010.

Motorola's Future Of Possibilities...

- Cutting-edge technology
- High-profile global presence
- Continuing education opportunities on-site
- Unlimited career mobility
- People-first philosophy

Play a part in developing the next generation of wireless technology. Areas of opportunity include:

• Software Engineering • Mechanical Engineering • Manufacturing Engineering • Electrical Engineering • Computer Engineering • Marketing • Accounting/Finance • MIS/Computer Science • Co-op and Intern Programs • Engineering Rotation Programs

In a world where communication is everything, Motorola Paging Products Group is on top. Our campuses in Boynton Beach, Florida, and Vega Baja, Puerto Rico, offer beautiful beaches and resort-style living complemented by superior professional satisfaction. Learn more about specific career opportunities, co-op and internship programs.

Visit our web site at <http://www.mot.com/pagingjobs>.
