September 25 marks Fall Industry Career Day at UMR

144 Companies travel to Gale Bulman Multipurpose Building to recruit student workers

by Keith Missey
Assistant News Editor

Career Opportunities Center is holding their annual fall Industry Career Day on September 25 from 9 a.m. to 3 p.m. This year, 144 companies have sent their recruiters to meet with UMR students for the day.

"This is the most companies I have seen since I have been here," stated Jamie Archer, Director of the COC. "Last year we had 114, and this year we have 144 with four on a backup list. It will be a fabulous chance to share resumes with recruiters and to talk with them about employment opportunities with their company."

In preparation for the Industry Career Day, the COC is sponsoring different workshops to help students

make the most out of their experience. The workshops are being held throughout September and cover topics such as Resumes and Cover Letters, Interviewing Skills and How to Make the Most of a Career Fair.

Archer explained, "The career fair workshop will be most beneficial to a lot of students. Basically it will teach students how to give a one minute infomercial on themselves. It's important to have something to say after you give them your resume. One thing we

encourage students to do is investigate the company before they go to the fair so they will be able to talk intelligently to the recruiter about their employer."

Besides investigating the companies you would like to talk to before the Industry Career Day, Archer gave some other tips to benefit the students.

"On our homepage, there is a listing of all of the companies who are coming, the majors they are hiring, and whether they're looking for summer, co-op, or full-time employees. Students should look there and try to pick out 10-15 companies they would like to talk with and research them."

Archer continued, "Seniors or those who are looking to enter the business world should wear business attire. Others should

wear casual business dress like khaki's and a sportcoat or even khaki's and a nice shirt. Resumes should be on nice resume paper, and the COC gives resume advice by appointment if students are curious about the quality of their resume."

Sophomores and freshmen are encouraged to go to the Industry Career Fair because "the job market is excellent right now. Some companies have doubled the amount of people they are hiring from last year. Even if you aren't

Archer said.

For after the career day, Archer advised, "Do follow-ups with the recruiter. Get their name and business card, and send them a note telling them thanks and that you're interested in a job with them. Watch the interview list for that company, and sign-up if they come. To get a job, you have to work at it. Getting a job is a job."

Even if getting a job is not a top priority, the paraphernalia some of the companies bring is worth the trip.

According to Archer, "GM is bringing their electric car, something they don't send to a lot of universities. They are also bringing a convertible corvette and some other new car."

"I am extremely excited that so many companies are coming," Archer

concluded.

"This is a big deal for campus and the students."

"[Industry Career Day] will be a fabulous chance to share resumes with recruiters and to talk with them about employment opportunities with their company."

- Jamie Archer, COC Director

looking for a job, it's a great place to meet contacts for future reference,"

History professors chronicle life of Missouri

by Justin Sutherland
News Editor

History is a constant factor in our lives which can show us the way in the future or teach us hard lessons from the past. Nonetheless, nations, states, regions and small communities are bound together by their common history. It provides part of an identity which make people Missourians, southerners or Americans.

Over the past 26 years, six Missouri historians, including UMR's Dr. Lawrence Christensen, have compiled and written a five volume series covering the history of Missouri beginning in 1673.

"A History of Missouri" peers into the social, political and intellectual aspects of Missouri during five separate periods. Each period was released in its own volume.

The different periods were bro-

ken up by the authors into Missouri as a European and American territory, 1673-1820; Missouri in the Jacksonian Era, 1821-1860; Missouri during the Civil War and Reconstruction, 1861-1875; rural and urban Missouri around the turn of the 20th Century and World War I, 1876-1919 and the spotlight on Missouri during the Truman Presidency and the overall decline of the state, 1919-1953.

Dr. Christensen co-authored vol-

ume four which encompassed rural and urban Missouri around the turn of the century, including World War I.

The UMR history professor said he "learned an enormous amount about the strength of Missourians in confronting newness and growth with success." In conclusion, he expressed an admiration for the "resilience of Missourians" during the time period he covered.

On Friday, September 5, Dr. Christensen and the other five authors

commemorated the completion of the five volume series with a symposium in McNutt Hall.

The series was laid out in 1963 and designed to celebrate Missouri's sesquicentennial in 1971 with the release of the first volume. The next 26 years brought four more volumes to complete the project.

The six historians hope they will influence and inspire a new generation of Missouri historians to continue on and dig even deeper into the past.

EIT applications now available

by Brian McBride
Staff Writer

The Engineer in Training (E.I.T.) test date for this semester will be November 1.

Applications for the exam can be mailed to the following address: Missouri Board of Architects, Professional Engineers and Land Surveyors/ P.O. Box 184/ Jefferson City, Missouri 65102.

All applications plus a \$20 application fee must be received by September 17.

If you're looking for help, you can order a book containing sample questions from the National Council of Examiners for Engineers and Surveyors

Applications for this examination, as well as a score release form can be picked up at the following locations:

Civil Engineering	Room 119
Electrical Engineering	Room 143
Engineering Mgt.	Room 223
McNutt Hall	Room 226
	Room 305
Mechanical Engineering	Room 210
ERL	Room 101
Schrenk Hall	Room 143

Authors of the five volume series, "A History of Missouri." From left to right: William E. Foley from CMSU, Perry McCandless from CMSU, William E. Parrish from Mississippi State University, Gary Kremer from William Woods University, Lawrence Christensen from UMR, and Richard Kirkendall of the University of Washington.

In A Nutshell

◆ The men of Beta Alpha Chapter of the Kappa Alpha Order were honored on August 12, 1997 by receiving the Samuel Zenas Ammen Award at the National Leadership Institute and Convention.

The Ammen Award is the national award for chapter excellence in Kappa Alpha. The award was presented to the top 12 chapters out of the total 130 chapters nationwide.

Sections of the Ammen application include scholarship, chapter growth, communications, risk management, membership education, service and several other areas of fraternity life.

Beta Alpha had six representatives attend NLI and was also awarded for the first time the national Excellence in Communications Award.

◆ The intramural fields at the University of Missouri-Rolla will be closed for approximately one month to allow field repairs to take place.

The fields, located south of the Gale Bullman Multi-Purpose Building and Student Recreation Center, are being reseeded and no use will be allowed until the root system is in place with the new grass.

In the interim, the fields at Fraternity Row will be used for intramural and recreational activities.

An announcement will be made when the fields will be reopened.

Would you pass the salt, please?

by Justin Sutherland
News Editor

In some countries, a resounding belch implies a "hats off" to the chef. In the United States, this would be considered barbaric and a blatant disregard for dinner etiquette.

Whereas this is an obvious case of bad manners, other gestures might be inappropriate in more subtle ways.

At a formal dinner, you might wonder, where did all of this silverware come from? Why do I need so many glasses from which to drink? And most importantly, where are my manners?

Granted, eating of cereal in front of the television, then loudly slurping the milk out when you are done may work at home. Unfortunately, it does not help impress a potential employer at an interview dinner.

Have no fear.

Marriot, Student Affairs and the Career Opportunities Center will guide you through the finer nuances of dinner etiquette with a five course meal.

The etiquette dinner is for seniors and graduate students and will be held

on Sunday, September 28 from 5:30-8 p.m. in the University Center-East Gallery. The dinner is at no charge to those who participate. Business attire is required to provide a realistic atmosphere.

You can reserve your seat by signing up at the COC and making a \$5 deposit. The deposit merely provides an incentive to show up and will be refunded at the dinner.

Would you pass the salt, please?

Talented chalk artists at the chalk the walk event on Wednesday, September 3. Delta Sigma Theta took first place, Kappa Alpha Psi took second place, and in third was the Chinese Student Association.

UMR Techs unveil plans for October IMPACT Month

by Keith Missey
Assistant News Editor

UMR TECHS (Teaching, Encouraging, Caring, and Helping Students) is promoting the month of October as IMPACT Month, a program developed to educate students about alcohol.

Different activities will be held during October for IMPACT, or Intelli-

gent Miners Promoting Alcohol Concern Together, Month. A few already planned include:

- Oct. 6 Pinata at the Puck, 12 p.m.
- Oct. 24 Hot Shots, Multi-Purpose 7 p.m.
- Oct. 31 "Candy & Condoms", UCW Breezeway 9 a.m.

UMR TECHS is still in the works of planning more activities.

Daniel Ragland sums up October's program by commenting, "IMPACT Month is concerned with education and intelligent decisions about alcohol. I am not saying alcohol is bad, but there are smart, nondamaging ways to drink and have fun."

UMR TECHS also holds many other programs throughout the year on many different subjects including alco-

hol, stress, safer sex, sexually transmitted infections, nutrition and exercise.

If your organization wants to help with IMPACT Month or if you would like more information their other programs, e-mail UMR TECHS at umrtechs@umr.edu or call 341-4225. Readers will be able to keep up with the UMR TECHS in the Verve Section in subsequent issues.

The Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday in Rolla, Missouri and features activities of the students of UMR.

The Missouri Miner encourages comments from its readers and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names may be withheld upon request.

The Missouri Miner is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

All articles, features, photographs, and illustrations published are the property of the Missouri Miner and may not be reproduced or published without written permission.

Submissions for publication must be in our drop box (first floor of Norwood Hall, room 103) by 3:30 p.m. on the Thursday before publication. Submissions, not including personals, will be accepted through e-mail at miner@umr.edu. The Missouri Miner reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

Opinions

Letter To The Editor

Dear Editor,

Let me start by saying that this week's edition of *The Miner* was great, as usual. But, the *Miner* forgot one important thing: Its namesake! In place of Joe Miner, there was some silly-looking circle atop the front page, and this, unfortunately, is no isolated incident.

Admittedly, I do not know the facts behind what seems to be the replacement of UMR's beloved mascot and symbol, Joe Miner. I do know that Missouri's custom UMR license plates no longer display Joe Miner, in favor of the afore-mentioned silly-looking circle, and I am sure that Joe Miner is being quietly replaced in many different venues. Saddest of all, Joe Miner has not been gracing our sporting events with his presence. I am writing this letter to call for support for Joe Miner. I call for someone to actually answer why he is being replaced. I call upon my fellow students to rise up in defense of Joe Miner. And I call upon the *Miner* to champion Joe Miner's cause and put him back where he belongs, at the top.

What is wrong with Joe Miner? Is he a bit too "rough around the edges?" Perhaps his slide rule is too old fashioned and needs to be replaced by something more indicative of UMR students' extensive utilization of computers (an HP playing tetris). After all, we would not want anyone to think UMR is anything less than "Missouri's Technological University" (heaven forbid). Perhaps the fact that he carries a gun no longer fits the image of "Educating Tomorrows Leaders in Engineering and Science." And what does that pick thing he carries have to do with UMR? How passe.

If it is not bad enough that Joe Miner is going the way of Alice, it is worse that stepping up to take Joe's place is a uninteresting, unattractive, silly-looking circle. No personality (no person, for that matter,) nothing to love, nothing endearing whatsoever, just a circle with some writing on it (which I must point out is illegible on the cover of the *Miner*.)

Does UMR really have to desert its past and forsake its traditions in order to churn out "top quality" engineers and scientists? I wonder what other schools would think if we became the UMR students formally known as Miners (or simply the students). Perhaps then the world would see us as "the forces that be" wish for us to be seen: people who study for fun and are completely politically correct and technologically superior, as opposed to who we really are, rough around the edges, fun-loving, unshaven, gun-wielding MINERS.

Mike Hunter

Hanging on the wall is a picture that's out of this world. In the right hand corner sits the Russian Space Station Mir, and in the sea of blue that dominates the rest of the picture, Air Force Colonel Tom Akers indicates the location of the Lake of the Ozarks, St. Louis, Jefferson City and Rolla. This picture was taken by Akers on his fourth and final space mission in September 1996, and now he has returned home to Missouri.

Akers, a UMR graduate, received his bachelor's degree in applied mathematics in 1973 and a master's degree in the same field in 1975. After graduation, Akers spent four years as a high school principal in his home town of Eminence, Missouri, until he met a very convincing Air Force recruiter and decided to make a career change.

"I wanted to use my math degree, and I was not using it as a high school principal," Akers said. He entered the Air Force in 1979 as a mathematician, and in 1982, Akers took his career in

yet another direction. "I got to ride in an F-4 airplane, and that's how I got interested in flying," Akers said.

In 1982, he entered the Air Force Test Pilot School at Edwards Air Force Base, and in 1983, he became a flight test engineer and worked on weapons development programs and flew airplanes such as the F-4, F-15 and T-38. Akers began his career with NASA in 1987 while maintaining active duty in the Air Force. "I never dreamed of flying or being an astronaut," Akers said. "When opportunities came along, I was ready to accept them."

Akers was stationed at Lyndon B. Johnson Space Center in Houston, Texas. He underwent two years of training. One year was spent in the classroom and another year was spent in simulation. Then, on October 6, 1990, Akers entered space for the first time as a mission specialist.

"(In space) everything floats, and it's very easy to move things, but the air is the same (as on earth), and the temperature is the same," Akers said.

Akers has been in space for over 800 hours which includes over 29

hours of space walking, but he does not have words to explain the feeling of weightlessness. "The floating is hard to explain," Akers said.

Akers worked for NASA for 10 years, and in that time, he has become an accomplished astronaut. He was a member of the crew for the first flight of the space shuttle Endeavor in May 1992. On that flight, he was a member of the longest space walk (EVA) in history. It lasted 8.5 hours. In December 1993, Akers was a member of the crew that captured the Hubble Space Telescope and restored it to capacity.

During his final space mission in September 1996, Akers was responsible for transferring three and a half tons of supplies between the shuttle and the Russian Space Station Mir. During this flight, the crew also made the first exchange of United States astronauts on Mir, bringing home Shannon Lucid after six months in space.

As Akers approaches retirement from the Air Force, he has decided to conclude his career with NASA and return to Rolla to serve as head of the Air Force ROTC program and do some-

Colonel Tom Akers is the new head of the Air Force ROTC program here at UMR.
photo by Ryan Shawgo

thing else that he enjoys, teaching. "My education at UMR is the foundation of my whole career," Akers said.

But he did not forget to mention the Air Force that has provided him with tremendous opportunities. "The Air Force ROTC program has great scholarship programs, guaranteed jobs with the possibility of flying such planes as

the F-15 and F-16," Akers said.

So what does the future hold for a man whose career has been full of experiences of which some people can only dream? "I want to do more hunting and fishing," Akers said. "I want to stay close to home and contribute to Missouri and the Rolla community as much as I can."

MINER MUSIC REVIEW: OZZFEST AND DEFTONES

by Jimbob

Music Reviewer

Sup peoples, glad to see ya reading the column. Having a job like this really takes a lot of time and wears ya out if you don't keep up. Well, I was able to do some more work this weekend and pulled out a bit more entertaining music news for everyone. The MTV music awards were this week, and Jamariquai pulled out with four awards. Beck recaptured the crown as one of the favored performers as well as big winners. There were performances by bands from Marilyn Manson with their overplayed single "Beautiful People," to the highly talented divas of the Euroworld and Spice Girls. Chris Rock hosted the awards and did one of the better jobs in my opinion compared to previous years.

I appreciate the input people are sending me on the column and will put in affect many of the suggestions. I was

given an idea of having a MUSICIAN WANTED part of the page or a list of where the local bands play out. Sounds like a good idea so send me more feedback on your ideas. Well, the evening is running out, I have band practice (cough cough "everspinning real" playing at Kappa Alpha on September 12 and at Kappa Sig on September 19...cough cough) so I am going to call it short in the babble...so read on...

Concert Reviews: Ozzfest at Riverport and Deftones at the Galaxy

One of this summer's most sought after festivals to attend this year was the Ozzfest. The supporting bands included awesome acts like Machine Head, Pantera, Type O Negative, Powerman 5000 and Fear Factory. The show kicked off at 1:30 p.m. when Powerman 5K took the stage and entertained the crowd with songs from their *Kung Fu Mania* album. For those that are unfamiliar with Powerman 5K, lead singer "Spider" is a sibling of Rob Zombie from White Zombie. To describe Powerman 5K's style of play is easier said than done. The laid back, almost talking vocals of Spider mixed with groove rhythms and killer percussion back-up really made their set enjoyable.

Once PM5K finished their set, Machine Head quickly took over the stage and threw out songs from their supporting album *The More Things Change* as well as hits from their previous album *Burn My Eyes*. The mosh pit was swirling and bodies tumbled down the steep hill of the amphitheater.

A 20-minute break depleted and Fear Factory played for the next 40-minute set. Fear Factory wasn't really supporting their last CD, *Demanufacture*, but played songs from all their albums. I personally like the *Demanufacture* sound better than all the techno/hardcore crap that got stuck

on some of their previous albums.

Machine Head's set was pretty short, a tad over 30 minutes, but that was to make more time for Pantera's show. Phil Enselmo took stage with "Becoming" from the *GSTK* album. The crowd went nuts with nothing but bobbing skin heads, clothes, dust

More Tears" had everyone chant, almost like a godlike presence. Ozzie was definitely showing aging signs with a lack of mobility on stage, but a bit of here and there clapping kept the crowd going. Ozzie's set finished close to 9:30 p.m. and the opportunity to see the roots of Ozzy's career was

Ozzy Osborne performs with his soul at the Ozz Fest in St. Louis.
photo by Jimbob

clouds and whatever anyone could grab getting tossed into the air. Phil leaned back many times in appreciation of the chaos in the lawn area. Pantera's set lasted over an hour but seemed longer than that...excellent show from Pantera.

The time had come for Ozzie to make way to the stage with supporting musicians like Bobby Trujillo from Suicidal Tendencies and the drummer from Faith No More. Ozzie played close to 20 songs taking every bit of a 2 hour set. Songs like "Crazy Train," "Mr. Crowley," "Flying High" and "No

about to take place.

Tony, Ozzie and the rest of the old croonies had staggered onto the stage, holding hands over their eyes like they were in closets for a month. Black Sabbath played mostly their big hits like "Iron Man" and "Paranoid." By this time I had acquired close to five rolls of film of some of the greatest entertainers in the rock world, in my opinion. The evening ended around midnight. The mere thought of trying to leave the venue almost made me

Flower Power: Being human. Being divine.

by Daisie H.M. Hobson
Verve Writer

"It's only our fear and lack of faith that cause us to need to be in what we think is control. Yet, self-surrender and letting go in loving trust draws out what is human in each and every one of us, and, therefore, most divine." -Bert White

This quote is from a book called "Meditations for People Who (May) Worry Too Much" by Anne Wilson Schaef. I bought this book to help reduce stress in my life. I thought a little inspiration would help me stay more positive about school. The book is arranged by days; so every day presents something new and wonderful!

This quote just happened to fall on

my 21st birthday (which was last week). This is my fourth and last year at UMR. Yes, I am actually doing it in four years! I worked hard, studied hard and cried hard. I have lived an image of a divine superhuman for the last three years. This year I decided to call it quits and become more human like.

In my attempt to become more human, I realized that I don't have much to do. I only have two classes a day and I'm out by 12:30, which is good because I am a true die-hard "Days" fan! I work at night, but I felt like I wasn't good enough anymore. I wondered what people would think now that I wasn't an officer or a research assistant.

Then, on my birthday, my wonderful sisters took me out to dinner. We all

complained about school, and it was only the fourth day! The more they complained, the more I realized that I

wasn't alone in thinking this school is awful! School is so stressful! It could be money, classes, meetings or even teachers! Stress is a huge part of everyday life in Rolla! Even though I have cut out a lot of stress in my life, my

sisters haven't. I was trying to think of ways to help them and I decided they also needed a little inspiration.

While reading *The Miner*, I realized there wasn't anything in there that jumped out and said "School is Great!" It occurred to me that we could all use a little pick me up each week! I'm not saying I know everything, and I certainly have my own problems! I just thought I would share my thoughts with you! Each week I hope to bring you a positive and motivational quote and then my interpretation of the quote. I called it Flower Power because I hope it brings everyone a little positive energy even if it is only for a few moments. My name, being Daisie, had just a little to do with it.

I thought today's quote was very

appropriate for this campus. It seems like we are all trying to be superhuman! It is pounded into us the minute we step on campus to be active! We eventually become so active we forget to enjoy school and the organizations to which we belong. Why do we do this? Well, at first it was to meet people but then it becomes a resume builder and it becomes work! We don't have to be superhumans! We have to make ourselves happy! Take a little time out of your superhuman day to do something human! Read a book, call an old friend, smile or just take a nap. Don't think of this as wasting time, think of it as coming back to reality! Try to take the time to do something positive for yourself and someone around you. I hope everyone has a wonderful week!

Fall movie releases

by Jason Van Dyke
Verve Writer

As the holiday season rapidly approaches there is only one thing that can let you escape from your annoying relatives and the 500 daily showings of "It's a Wonderful Life": Blockbuster movies!! If you thought it was hard deciding on a movie before, just wait until the upcoming season. With fall having almost double the amount of films over the same amount of time as the summer season, the fight for your money will be cut throat to say the least.

This season, one will witness more sequels than probably ever come out at one time before. "Scream 2," "Alien 4," "Mortal Kombat 2: Annihilation," "An American Werewolf in Paris" and the dreaded "Home Alone 3" are the sequel releases this fall. For those of you who crave fresh blood, there will

be plenty of new movies out to suit your taste. Sci-fi movies being released this fall include "Postman." In this movie, Kevin Costner delivers mail in a post-nuclear war world. In "Starship Troopers," the situation is military vs. alien like "bugs" in the future.

If dramas are your thing, then you might like "Great Expectations," a modern retelling of Dickens' classic story and the big budgeted movie "Titanic." There will be a great deal out to quicken your pulse.

If you're looking for less serious movies, many comedies are coming out including "Bean." This is based on the British television show "Mr. Bean." Jim Carrey is also releasing a new comedy called "The Truman Show."

With this many movies coming out the only problem you'll have is how to get together enough time and money to see them all and still keep your GPA up.

Concert Update: All shows in St. Louis unless otherwise noted.

Name-tag obsessions: The wrong way to go Writing Across the Curriculum: Tips and Quips for Writers: Brand new Office

by Sarah Albers

Assistant Verve Editor

Many organizations pin name-tags on a person so that people can recognize him or her. Stupid idea... True, there are many good things about perfect strangers knowing your name, but sometimes I forget exactly what they are. Supposedly, name-tags are to make introductions and getting to know people easier. If you know a person's name, but not his or her face, then name-tags are the greatest invention in the world (for about .5 seconds). Then again, say you don't know anyone in the entire room.

Let us set up an imaginary situation. You have been introduced into a room full of strangers and on your shirt is the illustrious name-tag. A stranger approaches you and extends a hand in friendly greeting. This is the conversation that follows:

"Hello," pause to look at your

name-tag, "Charles."

"Hello," pause to look at the stranger's name-tag in turn, "Floyd."

"So, where are you from," glance at

your name-tag again, "Charles."

"Cincinnati," is your reply while you stand there and think that your hometown is printed right under your name on your name-tag.

This conversation was not in the least awful, although you may feel a little awkward at the other's scrutiny of your name-tag.

Let us try another one: the same situation, but you are introducing

yourself to someone.

"Hi, my name is Charles," you say extending your hand and a smile at a lovely lady.

"Yes, I know, I can read!" is her reply as she stalks away from you into the sea of strangers. No one seemed to notice the rocky exchange.

Let us review this little exchange. True, the woman may have thought that Charles was trying to hit on her and she reacted like a witch. Then again, maybe she thought he was calling her stupid because he had seemingly hinted at the thought that she couldn't read. This second situation may have never happened, but don't you ever think about what a person is thinking when you say your name in greeting when you are wearing a name-tag?

Then again, if you don't say your name a long, drawn-out pause might follow your initial greeting and that

This year the old Writing Center has "morphed" and moved into a brand spankin' new Center for Writing Technologies, located in Room 114 of the Campus Support Facility on State Street. The facility contains "state of the art" computers and software fit for producing top-notch, grade "A" papers. (No guarantees here, you realize!)

Writing Assistants (WA's) will staff the Center Monday through Friday from 11:30 a.m.-4:30 p.m. Appointments are available by calling 341-4436 from 8:30 a.m.-12:30 p.m., or by e-mail at wac@umr.edu. Or, take a chance and drop in to see if there is a WA available to help you. If these

times are not convenient for you, please schedule an outside appointment by contacting the telephone number listed above.

Writing Assistants are presently undergoing training sessions in various areas of tutoring, including lab reports, organization of a paper, documentation, editing/revising, English as a second language and much more. Our WA's have background experiences in several discipline areas, and they are ready to get to work. We provide a positive, constructive service to help you learn to be a better writer. Come on in and take advantage of the Writing Center.

We'll be looking forward to seeing you!

Miners trounce Quincy Hawks

Jeff Cowan

Staff Writer

Starting the season off with a bang, the University of Missouri-Rolla Miner Football team overcame the Quincy University Hawks by a score of 40-0 on Saturday Sept. 6, 1997. This begins their pursuit of their first winning season in 10 years, but standing in their way, is a long string of opponents. This Saturday, Sept. 13 at 7 p.m., the Miners will head to Marshall, Mo. to face the Missouri Valley Vikings. This game will mark the third year in a row for these two teams to meet, with the Miners having the edge after defeating the Vikings by a score of 20-7 last year.

"There is a tremendous rivalry between these two schools, but I have great pride in our team, and I feel good about our chances," Miner Head Coach Jim Anderson said. "but we do not know what to expect from this team offensively because they have a new offensive coordinator and this will be their first game of the season. As far as their defense, we expect them to come at us with a lot of man-to-man coverage. Although, if we can break through the line in our running game, we can have some long runs."

The Miners may have to go without quarterback Dave McCormack, who was injured late in the game against Quincy. This game will give Matt Brueckner the starting job for the second week in a row. McCormack's status for Saturday's game is uncertain.

Offensively, the Miners will take the same approach as they did against Quincy. They will try to get the running game going early, and continuously pound the high pressure Viking defense. Senior Jason Wagoner will be leading the running game. Wagoner racked up 123 rushing yards and one touchdown against the Hawks.

"We haven't been successful in past years with our running game, therefore we needed to start off the season with a lot of rushing yards which will lead to a stronger overall game," Anderson said.

Along with the running game, the Miners possessed strong special teams. Along with blocking four punts, senior Brandon Risner made four out of six field goals, with the longest 37 yards and McCormack had three punts for a total of over 100 yards.

A reason for the victory over Quincy was defense. The Miner defensive squad held the Hawks to 150 total yards and 31 rushing yards. Leading the pack were juniors Charles Varadin with nine tackles and Bryan Lewis with four tackles and a sack. As far as the passing attack went, the ball was spread to a wide variety of receivers, with sophomore Sam Petty, junior Ed Starks and senior Elliot Jackson catching two balls each for a total of 140 out of the Miner's 180 total passing yards. As this matches up with the Viking's defensive scheme, it should produce an exciting match.

Cross Country to compete in Mo. Invitational

Joseph McClain

Staff Writer

On Sat., Sept. 13 the University of Missouri-Rolla Miner and Lady Miner cross country teams will travel to compete in the Missouri Invitational. There should be quite a few really competitive schools competing in this meet. Some Division I teams will be running there. Also, this will be the first big meet of the season for the Miners.

In their last meet on Sat., Sept. 6 they ran at the Southern Illinois University-Edwardsville Twilight Cross Country Invite. There the only competing schools were SIU and UMR. Coach Sarah Preston predicted the meet to be close and competitive. Last year SIU managed to place ahead of UMR in the regional meet. Now the Miners are looking to start their season by defeating them at their own meet.

On the men's side the Miners proved dominant over SIU. Five of the top six runners from SIU or UMR were Miners. Senior Ben Mulvaney had the best time of them coming in at 20:47.39. The times are not easy to compare with other meets, because the SIU Twilight Invite was a 6K race. The Miners usually train for 10K. The course also had many hills which may have worked to the Miners advantage according to Coach Preston, because their training is more strength oriented. The other top finishers for UMR included Matt Hagen, Craig McCouley, Jeff Krause and Kevin Johnson rounding out the top five.

"They [SIU] are a young team, and our experience helped us win," junior Matt Hagen said.

Since in previous years SIU and UMR have been close in ability, Hagen sees this as a serious indication of im-

provement on the Miners part.

"We haven't lost anyone since last year, and we have also become deeper than in the past. This win is a stepping stone to achieving our goals for the season," Hagen said.

Coach Preston's main goal for the Miners is a top five finishing position in the regionals. This is a national-qualifying position. On the women's side was a more entertaining closely fought battle. Jennifer Frazer was the fastest Lady Miner in at 15:39.13 and took second place between UMR and SIU runners. Making up UMR's five best were Sheri Lentz, Tracy Jones, Sheryl Ziccardi and Julia Kuseski along with Frazer. The Lady Miners were only one position away from claiming victory but came up just shy. After this close dual the Lady Miners as well as the Miners are looking forward to more excitement in the Missouri Invitational.

Miner soccer to travel to Columbia today

by Todd Monroe
Staff Writer

The University of Missouri-Rolla men's soccer team will travel to Columbia, Mo. today at 7 p.m. to try to boost their record for the 1997 season. Today's game will precede the Miners' home debut against Missouri Valley on Friday, Sept. 12 at 7 p.m.

The men enter this week after tournament competition on Saturday, Sept. 6 and Sunday, Sept. 7 in Evansville, Indiana at the University of Southern Indiana Soccer Tournament. The UMR soccer team split the two games to bring their record to 1-2 for the season.

Game One on a warm Saturday afternoon pitted the Miners against Lincoln Memorial at Strassweg Field. The game ended in a close 4-3 loss to Lincoln Memorial for UMR. Starting for the UMR team were Jeff Hougland, John Almeida, Brian Koscielski, Mike Kiefer, Nathan Wojtkiewicz, Ashley Dupree, Jarred Rhea, Scott Vogelsang, Joe Young, Gevan McCoy and Matt Long.

The first goal was scored by Eddie Escobar of Lincoln Memorial approximately 30 minutes into the contest with an assist from Dave Swaney.

About 20 minutes later, UMR answered when McCoy scored an unassisted goal to bring the halftime score to 1-1.

Lincoln Memorial opened the second half with three goals within the first 15 minutes of play. The first came when Escobar scored with an assist from Brandon Browning. The second was a Nathan Caldwell score with an assist from Escobar. Lincoln's final goal of the game was unassisted and contributed by Swaney.

The Miners tried to mount a comeback with two goals with nearly 10 minutes left in the contest, the first coming from Vogelsang with an assist from Koscielski. The second effort was from Wojtkiewicz, assisted by Almeida. These last goals were to be the last of the game, with Lincoln Memorial emerging the victor.

Yellow cards were issued to UMR's Conor Magee, McCoy, Dupree and LMU's Jeremy Garner.

Sunday afternoon saw the UMR athletes return to the field to face Christian Brothers University. This game ended as a UMR Miner 3-1 conquest, and brought their tournament finish to 1-1.

Starting the second game were Hougland, Almeida, Koscielski, Joel Warneke, Kiefer, Wojtkiewicz, Alan

McMahon, Magee, B.J. Stuhlsatz, Chris Leonard and McCoy.

CBU jumped on the boards first with a goal by Mike Shipman, assisted by Toli Savaides 13 minutes into the game. This would be the only score during the first half, and the only goal for the CBU team.

Five minutes into the second period, UMR put their first points on the board when Stuhlsatz scored with assists from Almeida and Vogelsang. Koscielski would score the final two goals of the game, putting UMR ahead for the duration of the contest. The first of his goals was assisted by Kiefer at the 71 minute mark, while the second came four minutes later, assisted by Young.

Yellow cards were issued to four CBU players. These players included Andy Savaides, Ray Coleman, Eric Aertker and Kyle Attarin. Coleman was later given a red card.

The USI men's team emerged as tournament champion by way of tiebreaker with a 1-1 record.

UMR Miners named to the All-Tournament Team were McCoy, Almeida and Kiefer. The Most Valuable Player was USI's Les Meenan.

Assistant Sports Editor

This is the debut issue of a brand new column written by me. In this column I will lightheartedly be covering the bloopers, blemishes and bunk associated with all sports ranging from Archery to Wrestling.

It seems that since the days of Jackie Robinson sports have been plagued with problems that have pitted white against black. All sports have seen this problem. Football, baseball, hockey, chess and now women's tennis has had an incident, following the greatly received end of the Tiger Woods/Fuzzy Zoeller debacle.

Yesterday I watched the Women's semi-finals of the U.S. Open. It was the perfect Cinderella match between eleventh seeded Irina Spirlea and virtual unknown Venus Williams. Cheers of excitement went through the Arthur Ashe Memorial Court at the National Tennis Center.

Williams became the first African-American woman to advance to the final round of the U.S. Open, but in the middle of the second set whispers of racism spread through the crowd.

The incident occurred as both women walked back to their chairs during a changeover in the second set. At court side, neither of them seemed to falter as both blatantly walked right into each other, but the true motivation behind the action was not revealed until after the match at the press conference. When asked what went through her mind at the time, Spirlea used several expletives to describe Williams and her actions.

"That [expletive deleted] 'ing Venus Williams, she needs to watch where she [is] going," commented Spirlea.

Later, while appearing on ESPN's SportsCenter, Williams was asked about her reaction to Spirlea's comments. "She [Spirlea] has her own opinions, there's nothing I can do about it," Williams said.

I don't believe that racism has hampered professional sports, but that this sort of thing has increased the competition. I believe that it has added another facet that players of the olden days did not have to face. Let us take

Lady Miner home opener this Friday

by Todd Monroe
Staff Writer

The University of Missouri-Rolla women's soccer team will try to extend their winning streak on Friday, Sept. 12, when they make their home debut for the 1997 soccer season. Gametime is scheduled for 5 p.m.

The Lady Miners currently are in possession of an unbeaten record of 4-0, after claiming their second tournament championship in as many tries during the past two weekends. The UMR women have shut out the opposition in each of their games.

Their most recent success occurred in Evansville, Indiana, at the University of Southern Indiana Soccer Tournament, during games on Saturday, Sept. 6, and Sunday, Sept. 7.

Warm, sunny weather was present for the first game between the Lady Miners and Lincoln Memorial at Strassweg Field in Indiana. The game ended with a 2-0 victory for UMR. The starting lineup for the first game consisted of Michelle Johnson, Jen Splaingard, Crissie Eckhoff, Kim Hydemen, Tami Bowman, Natalie Sanders, Amber Fischer, Kelly Thomas, Denise McMillan, Connie Meyers and Lizz Szkrybalo. Scoring for the team was Sanders, who scored an unassisted goal in each half of the contest. The first goal came 30 minutes into the game. With eight minutes gone in the second period, Sanders scored her second goal, and the score would not change throughout the remainder of the match.

The Lady Miners took the field

on Sunday with similar weather conditions and similar results. The UMR team defeated Christian Brothers to the tune of 9-0, leaving them with a tie with the University of Southern Indiana. Since both teams amassed a 2-0 record in the tournament and equal in all tiebreakers the two colleges split the tourney championship.

Starting the Sunday game were Johnson, Splaingard, Eckhoff, Alison Hanson, Hydemen, Bowman, Sanders, Thomas, McMillan, Meyers, and Szkrybalo.

UMR recorded six goals in the first half of the game to jump in the lead during the second game. Twelve minutes into the contest, Szkrybalo put the women's team on the board with an

No tradition, No game

by Brad Neuville

Sports Columnist

With the Major League Baseball Playoffs fast approaching, and teams like the Cardinals fighting for a spot, baseball owners are preparing to set a bonfire to their game. Perhaps that would be much quicker and less painful than whittling down baseball one tradition at a time as they are doing now.

First it was the designated hitter. Next was the wild-card. Then came interleague play. Now it's realignment. What are these people thinking?

It is a sound idea to align conferences and divisions according to geography. Just take the Atlanta Falcons in football as an example. They have no business being in the NFC West. That's just it though, baseball is ALREADY aligned geographically. Take, as an example, the National League Central which includes the Cardinals, Pirates, Reds, Cubs and Astros. All of these teams are in the central region of the country.

I'll admit that interleague play has worked this year. I'll even admit to getting excited at some of the match-ups that interleague play has created. Under the owner's realignment plan there would still be interleague games. But what would be the point? Interleague play in the future would feature match-ups between teams that are in the same league right now, Boston vs. Seattle for example. The thrill of seeing a match-up for the first time would be gone.

Some owners have touted realignment as a way to bring fans back to game. One can't help but think that the owners care nothing of the game and everything of their pocketbooks. Only the owners will benefit, in the short run, from realignment. Teams will spend less on transportation, food and even salaries (if the DH is eliminated from both leagues).

Baseball owners should be concentrating on making Frank Thomas, Barry Bonds and Ken Griffey Jr. as big an attraction as Shaq and Mike. Instead they try, with the wild-card, to make teams the equivalent of the L.A. Clippers have a legitimate shot at the play-offs. It seems that baseball should learn how to market its stars the way basketball has rather than kill its traditions.

It has been said that kids in the 90s are all about fast cars, fast computers and fast gratification. They say that kids don't like the game anymore because it is too slow and too boring. Well, find a way to make it fun again. Sponsor inner-city sandlot games like the NBA sponsors inner-city pick-up basketball games. Owners make it seem like it is impossible to bring kids back to the game. No ladies and gentlemen, you just haven't tried.

The current attempt by baseball to bring back fans is the "If you don't like baseball, move to Norway" commercials. What kind of message does that send? If you were an eight-year-old kid who had never played baseball before,

Differences: 1. Hand is missing. 2. Container is missing. 3. Diploma is different. 4. Sleeve is shorter. 5. Curtain is missing. 6. Glasses differ.

SUBCONSCIOUS: HOMECOMING ROYALTY PICTURES TONIGHT!

by Diana Alt
SUB

The fall semester is well underway and Homecoming is quickly approaching. For all you Homecoming King and Queen candidates out there, pictures are tonight, September 10, in the SUB Office from 5-7:00 p.m. King and Queen candidates from the same organization need to come at the same time as their picture will be taken together.

This weekend's movie, "Hackers," will be shown September 13 and September 14 at 7:00 and 9:00 p.m. in ME 104. Also coming up soon is the Miner Triathlon sponsored by the Leisure

and Recreational Committee. It will take place on September 27 outside the Multipurpose building. Sign up for the triathlon is at 8:00 a.m. and the event begins at 8:30 a.m. For more information, contact the SUB office (341-4220, 218 UCW).

In addition to all of our exciting upcoming events, SUB is still accepting applications for the position of Vice President of Programming until September 16 with elections occurring on September 17. At least one semester of experience as a programming director is required, and applications are available in the Student Union Board office.

of my time working my way to the front of the pit for the Deftones. 10 p.m. struck the night hour and the Deftones took the stage.

Chino, the lead singer opened the night with one of their popular songs, "Bored." The crowd could only be described as apesh*t. People moshing, stage diving and crushing unsuspecting attendees really made the evening fun. The stage show itself was pretty lame, but seeing Chino sing and watching how he gets his voice to cowl like it does was amazing. The evening started out early, around 8 p.m., and finished close to midnight. Excellent show for only \$8. If they ever come back or make it to an area near you, make an effort to check them out.

--Jimbob

Jimbob's Music

consider suicide, but I didn't...I was given access to leave out the back way... yes, there is a back way out of Riverport. The evening was fun, I had gotten my pictures and made it home so I could rest my barking dogs. What a day!-- Jimbob

The Deftones played this summer at the Galaxy in downtown St. Louis. For those that are unfamiliar with the Deftones, they are the band from which many people thought Korn had stolen their sound. The evening was plastered with the punk band Humble Gods and the Rage Against the Machine sound-alikes, Downset. Each band was pretty cool, but I spent the majority

Phil Enselmo from Pantera takes in the crowd's cheers at The Ozz Fest this past summer.

photo by Jimbob

Name-tag

from page 6

could be just as awkward as the previous situation, if not more.

Your name-tag placement is critical to your feelings about your name-tag. If you resent wearing your name-tag, you would either a.) grumble about the hole he or she is putting in his or her own clothing, b.) wear the name-tag at the bottom of his or her shirt to make it hard for people to see (likewise, putting it under another article of clothing, or c.) "I am sorry. I have acciden-

tally misplaced my name-tag."

Then, of course, there are those people who "love" their name-tags. Multiple name-tags adorn a jacket or the person's clothing. These people may find it exciting that they could hold a conversation without saying a word. Then again, no one really knows exactly why these people like so many name-tags. These people are very confused and need to take a valium and learn to meet people.

Just for fun, let's look at a hypothetical situation with the name-tag obsessive with the same room with the

same people. Charles is resenting his name-tag because of the woman from before.

This new person, James we will call him, walks into the room proudly wearing six beautiful name-tags of multiple colors. Everyone in the room, seeing James enter the room, promptly walks to the other side of the room. James, as you can probably guess, spends the entire night alone with his name-tags and seems perfectly content.

The moral of the story: name-tags, but only in moderation.

Gossip

In an effort to alleviate the pain and suffering caused by the typing and publishing of the Campus Gossip, Starting this week, The Miner has decided to charge a \$0.25 fee for every gossip submission to The Miner. There will be envelopes on The Miner Submission Box outside the office in 103A Norwood Hall. Thank you for your understanding.

basketball as an example.

Perhaps the greatest sign of this is the average score of National Basketball Association games in the days before racial integration. In the early 1950's the all NBA points-per-game average was a mere 79.5. Today's games are considered slow and boring if scores don't exceed 90, with most teams today averaging above 100. It is also evident in the "All-Stars" of yesteryear. A notable early NBA player was Bob Cousy. Cousy was well known and loved for his inability to score.

He was famous for his time killing skills and was often called upon to hog the ball and keep anyone from scoring, while today's stars such as Michael Jordan and Charles Barkley are known for their ability to move the ball quickly and score as many points as possible.

I believe these changes could not have come around without the racial integration. By allowing African-American players into professional sports, the white athletic community was forced to open its eyes and realize they couldn't continue on in mediocrity. Here was many young, talented African-American children's chance to rise to fame and fortune through professional sports, and while rising to the top they could show up some of their racial counterparts.

In retrospect, it is no wonder that the occasional blemish shows up on our front porches with the paper in the morning. With all this fighting for racial supremacy in professional sports, it is no wonder that occasionally someone gets his or her feet stepped on, and I for one, am glad to see that sports are continually heading to higher grounds.

Any questions, comments, suggestions, or ideas should be sent to sellis@umr.edu

No Tradition...

from page 8

would that commercial turn you on to the game? I think not.

The strike did hurt baseball's popularity as the owners so often whine. And yes, the players were the ones who did most of the turning off of fans. But baseball doesn't need gimmicks to get back on its feet. It needs to get back to what made it America's game in the first place. Baseball should play up its storied past, play up its exciting present and most importantly play up its promising future.

Stars like Ken Griffey, Jr. will be around for a long time to come and should be marketed just as young NBA superstars are. Every year Junior will be in the hunt to break Roger Maris's single season home run record and, if he plays long enough, may challenge Hank Aaron's all-time home run mark. Not to mention that Junior is an upstanding citizen and a great role model for kids in an age where athlete-role models are few and far between.

Tradition isn't always your grandparents telling you about how it was in the good old days. Tradition is an integral part of our society and an even more important part of baseball. What other sport can boast names like Ty Cobb, Babe Ruth, Roger Marris, Cy Young, Pete Rose, Cal Ripken and Joe DiMaggio?

Leaving baseball owners with the thought of what Ty Cobb might say about the changes they propose, I've prepared a short list for owners who want to help the game. 1) Go to marketing school. 2) Leave the gimmicks at home.

Comments, Questions, Ideas? You can reach me at bjn@umr.edu.

Lady Miners

from page 8

unassisted goal. Approximately 45 seconds later, Szkrybalo scored again, with an assist from Sanders. Seventeen minutes into the contest, Sanders came up with an unassisted goal of her own, and assisted a goal by Splaingard with 30 minutes gone by in the first half. Sanders scored the remaining two goals of the half with an assist from Sara Rudy at the 36 minute mark, and an assist from Fischer about one minute later.

The opposing Christian Brothers team was still held scoreless in the second half, while UMR scored three more goals to seal the victory. Szkrybalo scored her third goal of the afternoon 10 minutes into the second half with an assist from Eckhoff. The eighth goal of the afternoon came when Christian Brothers contributed a point to the Lady Miner cause by scoring upon themselves. With 15 minutes left in the game, Sanders scored her fourth goal of the evening with an assist from Heather Morgan for the ninth and final goal of

the conquest.

Four teammates on the UMR women's soccer team were recognized for their play in the tournament by being named to the Women's All-Tournament Team. Honorees were Sanders, Splaingard, Hydemen and Johnson. The Most Valuable Player of the tournament was USI's Megan Russell.

The Lady Miner defense has contributed for UMR during the early part of the season. In fact, opposing teams have yet to score a goal against this 1997 women's soccer squad.

FOR the EDUCATION and RESEARCH COMMUNITY

HELPING YOU BUILD A SECURE FINANCIAL FUTURE IS AN IMPORTANT JOB. FORTUNATELY, WE HAVE THE PERFECT RESUME.

With nearly 80 years of leadership experience in our field, TIAA-CREF is eminently qualified to help you build a comfortable, worry-free retirement.

Our references are equally impeccable—today, nearly two million of the best minds in America trust us with their financial future. Allow us to review our qualifications.

Superior strength

With over \$200 billion in assets, TIAA-CREF is the world's largest retirement organization—and among the most solid. TIAA is one of only a handful of companies to have earned top ratings for financial strength, and CREF is one of Wall Street's largest investors.¹

Solid, long-term performance

We seek out long-term opportunities that other companies, in pursuit of quick gains, often miss. Though past performance can't guarantee future results, this patient philosophy has proven extremely rewarding.

Surprisingly low expenses

TIAA-CREF's operating costs are among the

lowest in the insurance and mutual fund industries. Therefore, more of your money goes where it should—towards ensuring your future.²

Easy diversification

We offer a wide variety of expertly managed investment options to help build your assets. With stock, bond, money market, and real estate accounts—as well as a guaranteed annuity to choose from—TIAA-CREF makes diversification easy.

Unrivalled service

We believe that our service distinguishes us from every other retirement company. In the latest Dalbar Consumer Satisfaction Survey, a study of 2,000 financial companies, TIAA-CREF was voted the leading provider of retirement plans.

If you work in education, research, or related fields, why not put TIAA-CREF's experience to work for you? To find out more, visit our Web site at www.tiaa-cref.org or call us at 1-800-842-2776.

Ensuring the future for those who shape it.SM

¹A++ (Superior), A.M. Best Co.: AAA; Duff & Phelps: Aaa; Moody's Investor Services: AAA; Standard and Poor's for stability, sound investments, claims-paying ability, and overall financial strength. These ratings of TIAA as an insurance company do not apply to CREF. ²Standard & Poor's Insurance Rating Analysis, 1996; Lipper Analytical Services, Inc., *Lipper's Director's Analytical Data*, 1996 (Quarterly). For more complete information, including charges and expenses, call 1-800-842-2776, extension 5509, for CREF and TIAA Real Estate prospectuses. Read them carefully before you invest or send money. TIAA-CREF Individual and Institutional Services, Inc. distributes CREF certificates and the variable component of TIAA contracts.

IT'S THE GIFT OF A LIFETIME.

Making a bequest to the American Heart Association says something special about you. It's a gift of health for future generations — an unselfish act of caring.

Your gift will fund research and educational programs to fight heart attack, stroke, high blood pressure and other cardiovascular diseases. And

bring others the joy and freedom of good health.

To learn more about how you can leave a legacy for the future, call 1-800-AHA-USA1. Do it today.

Financial Aid

RURAL MISSOURI, INC.

If you have been employed as a farmworker in the past two years, you may be eligible to receive free tuition assistance for your education. If you have worked as a farm, orchard, greenhouse or poultry/egg production employee, you may qualify. To obtain details and the field representative closest to you call 1-800-234-4971.

CHRYSLER ANNOUNCES NEW SCHOLARSHIP PROGRAM

With an eye toward assisting outstanding college bound students, Chrysler Corporation recently awarded 1,000 grants to 40 recipients through its new Junior Golf Scholarship Program. Even though the majority of the winners play golf, all selections were made based upon their academic and extracurricular effort. For more information on this exciting program call 1-800-856-0764.

DEPARTMENT OF THE ARMY U.S. ARMY HEALTH PROFESSIONAL SUPPORT AGENCY

Let the Army pay your way through Medical, Dental Optometry School, or a Doctoral level degree in Clinical/Research Psychology. Scholarship includes: full tuition, required books, lab fees, required equipment rental, \$865.00 monthly stipend.

FOR MORE INFORMATION ON ARMY SCHOLARSHIP OPPORTUNITIES CONTACT: CAPTAIN DINO L. MURPHY OR MRS.

SHARON MACKENZIE AT 1-800-829-0924.

THE JOHN GYLES EDUCATION FUND SCHOLARSHIP

The John Gyles Education Fund is a private, benevolent endeavor established seven years ago with the help of a Canadian/American benefactor. Each year financial assistance is available to students in both Canada and the United States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$3,000.00. Filing dates for mailing application in 1997 are April 1st, June 15th, November 15th. Applications must be mailed by these dates.

To receive an application please send a stamped *** (US 32 cents), self-addressed, standard letter size (No. 10) envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P.O. Box 4808, 712 Riverside Drive, Frederickton, New Brunswick Canada E5B 5G4.

We use international mail services, therefore U.S. postage is acceptable.

KIDS' CHANCE INC. OF MISSOURI

What is Kids' Chance? It is a nonprofit corporation developed by interested insurers, employers, attor-

neys, labor, medical and rehabilitation groups. The purpose of Kids' Chance is to provide financial scholarships to complete the education of children of workers who have been seriously injured or killed in Missouri work related injuries.

Which Children are Eligible for the Scholarship? Children who have a parent who was permanently or catastrophically injured or killed in a Missouri compensable injury or occupational disease, and who are Missouri residents between the ages of 16 and 25.

Applications available in the Student Financial Aid Office, G-1 Parker Hall, Rolla, MO 65409-0250 or by calling 1-800-522-0938.

AMERICORPS EDUCATION AWARDS PROGRAM

The AmeriCorps Education Awards Program offers members the standard AmeriCorps education stipend of over \$4,700 for one year of community service, but unlike AmeriCorps USA, it does not provide a living allowance or other benefits.

For information on this program contact the Student Financial Aid Office, G-1 Parker Hall.

CARAT SCHOLARSHIP FOUNDATION

To receive current information packets and applications for The Carat Scholarship, please have interested students send a stamped self addressed envelope to: Carat Scholarship Foundation, Attn: Carol McAuliffe-

Director, 5 Magnolia Parkway, Hawthorn Woods, IL 60047.

The schedule for the Carat Scholarship Foundation Awards is as follows:

Academic semester: Spring 1998, Applications Postmarked by: November 1, 1997, Awards Distributed by: December 15, 1997.

Academic semester: Fall 1998, Applications Postmarked by: April 1, 1998, Awards Distributed by: June 15, 1998.

Academic semester Spring 1999, Applications Postmarked by: November 1, 1998, Awards Distributed by: December 15, 1998.

Carat Scholarship Foundations is funded by the contributions of civic-minded individuals, businesses and various fund raisers. The Foundation offers \$500-\$1000 scholarships semiannually to graduate and undergraduate students who are United States citizens. The scholarships are awarded on the basis of career goals, financial need and academic record.

ROLLA AREA BUSINESS AND PROFESSIONAL WOMEN'S CLUB ELIGIBILITY REQUIREMENTS FOR SCHOLARSHIPS

Must be a woman 25 years of age or older and a citizen of the U.S. and a resident of Phelps, Dent, Maries or Pulaski Counties.

Must be officially accepted into an accredited program or course of study at a United States Institution.

Must demonstrate need for financial assistance to upgrade skills or complete education for career advancement.

Must have a definite plan to use the desired training to improve chances for advancement, to train for a new career field, or to enter or re-enter the job market.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be received by: September 30, 1997

CHARLES P. BELL CONSERVATION \$500 SCHOLARSHIPS QUALIFICATIONS

Applicant must be a Missouri resident. Applicants enrolled in Missouri schools will be given preference.

Applicant must be involved in the management of natural resources, specifically: Fish, Wildlife, Forest, Soil, Water.

FREE T-SHIRT +\$1000

Credit Card fundraisers for fraternities, sororities & groups. Any campus organization can raise up to \$1000 by earning a whopping \$5.00/VISA application. Call 1-800-932-0528 ext 65. Qualified callers receive FREE T-SHIRT.

Applicants must already have earned at least 60 hours of college credits.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be received by: January 15, 1998.

CRANE FUND FOR WIDOWS AND CHILDREN SCHOLARSHIP

The Admissions/Student Financial Aid Office wishes to make students aware of the Crane Fund for Widows and Children. This program is for needy and deserving widows and children of men who, at their death, have left their widows and children without adequate means of support or deserving wives and/or children of men upon whom they are dependent for support but, because of age or other disability, are unable or for other reasons, fail or neglect to adequately support their respective wives and/or children.

If you meet the above terms for this program you must complete a Crane Fund for Widows and Children Application to be considered for funding.

The Crane fund for Widows and Children Application can be obtained in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be submitted to the Student Financial Aid Office by: September 19, 1997.

1997-98 NATIONAL HISPANIC SCHOLARSHIP FUND

The National Hispanic Scholarship Fund was founded in 1975 to help Hispanic American college students complete their education. NHSF scholarships are available on a competitive basis to Community College, Four-Year College, or Graduate students of Hispanic background. Awards usually range from \$500 to \$2000.

ELIGIBILITY

You must be of Hispanic parentage and either a U.S. Citizen or a permanent resident of the United States. You must have completed at least 15 undergraduate college credits in the U.S. or Puerto Rico with a minimum Grade Point Average (GPA) of 2.5.

You must be enrolled in an accredited college for Fall 97 and in attendance through Spring 1998 as a full-time student; undergraduates must carry at least 12 units, graduate must carry at least 6 units.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application period and deadline: August 15 - October 1, 1997 (must be postmarked by October 1, 1997).

ZONTA INTERNATIONAL AMELIA EARHART FELLOWSHIP AWARDS FOR WOMEN 1998-99 ELIGIBILITY

aerospace-related engineering.

Demonstrate a superior academic record with evidence of potential at a recognized university or college as verified by transcripts, recommendations and acceptance or verification by any institution of higher education with accredited courses in aerospace-related studies.

Provide evidence of a well-defined research program in aerospace-related science or aerospace-related engineering as described in the application essay, research and publications. Clearly demonstrate the relationship of your research to aerospace and verify your research program with at least one letter of recommendation.

By the time the fellowship grant is awarded, have completed one year of aerospace-related graduate studies at a well recognized institution of higher education.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be postmarked by November 1, 1997.

PETER D. COURTOIS CONCRETE CONSTRUCTION SCHOLARSHIPS

Two \$1,000 (U.S.) awards are available through the ACI Concrete Research and Education Foundation (ConREF) for undergraduate study in concrete construction for the 1998-99 academic year. The Peter D. Courtois Concrete Construction Scholarship honor the memory of Peter D. Courtois, whose long-term commitment to practical achievements in construction fo-

cused on the fields of formwork and tilt-up construction.
REQUIREMENTS:

These awards are open to any undergraduate student in the United States or Canada. The student shall have achieved senior status in a four-year or longer undergraduate program in engineering, construction, or technology during the year for which the awards are presented. The awards will be made on the basis of demonstrated interest and ability to work in the field of concrete construction.

The student must have a course load of 6 or more credit hours each semester during the period for which the award is made.

The student must be a senior during the year for which the award is made (not necessarily at the time of application).

Transcripts, recommendations, and an essay must be submitted as outlined on the application form. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline must be received by: January 15, 1998.

CONCRETE RESEARCH AND EDUCATIONAL FOUNDATION OF ACI INTERNATIONAL

\$3,000 (U.S.) awards are now available through the ACI International Concrete Research and Education Foundation (ConREF) for graduate study in the field of concrete for the 1998-99 academic year. The awards include the Katharine and Bryant Mather Fellow-

ship, ACI - W.R. Grace Fellowship, V. Mohan Malhorta Fellowship, Stewart C. Watson Fellowship, and ACI Fellowships.

REQUIREMENTS:

These awards are open to any student completing studies toward the bachelor degree or one who has received a bachelor degree from a higher education institution which is accredited by the responsible regional or national agency.

The following criteria must be met by the applicant:

Must have possession of a bachelor degree from an accredited program by the summer of 1998.

At the time of acceptance of the fellowship (but not necessarily at the time of application) the applicant must have been accepted for graduate study. This graduate study must be in engineering, architectural, or materials science program at an accredited college or university in the USA or Canada which offers a graduate program in concrete design, materials, or construction, with the exception of the V. Mohan Malhotra Fellowship which is available only to an applicant majoring in concrete materials science research and the Stewart C. Watson Fellowship which is available to an applicant with a special interest in joints and bearings for concrete structures.

Must be a full-time first or second-year graduate student during the entire fellowship year.

Must be proficient in the English language (or French as required in Province of Quebec or Spanish in Puerto Rico).

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be received no later than: January 15, 1998.

ST. LOUIS CONVENTION & VISITORS COMMISSION

The St. Louis Convention & Visitors Commission (CVC) is offering two academic scholarships for minority students who are pursuing hospitality industry-related degrees at a Missouri college or university. Each scholarship is valued up to \$2,500 and is paid on a reimbursement basis.
REQUIREMENTS:

Students must be enrolled in a 2 or 4-year hospitality industry program at a college or university.

Students must be actively pursuing a hospitality industry-related degree.

Students must complete the scholarship application.

Students must submit a two page essay explaining their career objectives and job experiences.

Students entering a college or university for the first time must submit high school transcripts.

Students currently enrolled in a college or university must submit transcripts from the last two semesters.

Student must submit the names, addresses and phone numbers of two references. Those awarded the scholarship can also participate in an internship with the St. Louis CVC.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for applications is: September 30, 1997.

NATIONAL SECURITY EDUCATION PROGRAM (NSEP)

The National Security Education Program was designed to provide American undergraduates with the resources and encouragement they need to acquire skills and experience in countries and areas of the world critical to the future security of our nation. As a student of another culture and language you will begin to acquire the international competence you need to communicate effectively across borders, understand other perspectives and analyze increasingly fluid economic and

political realities.
REQUIREMENTS:

As a U.S. undergraduate student, you are eligible to apply for an NSEP scholarship if you meet the following conditions:

U.S. citizenship at the time of application.

Matriculated as a freshmen, sophomore, junior, or senior in a U.S. post-secondary institution, including universities, colleges, and community colleges accredited by an accrediting body recognized by the U.S. Department of Education.

Applying to engage in a study abroad experience that meets home institution standards.

Planning to use the scholarship for study abroad. NSEP undergraduate scholarships are not for study in the U.S.

Your study abroad program ends before you graduate.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline: January 26, 1998.

THE RHODES SCHOLARSHIPS

The Rhodes Scholarship is tenable at the University of Oxford. It may be held for a maximum of three years. Since the majority of Rhodes Scholars undertake a like of study which enables them to take a degree in two years, appointments are made for a minimum of two years.

The stipend of Rhodes Scholarship consists of a direct payment to the Scholar's College of all tuition fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance paid directly to the Scholar in installments during the two-year term of the scholarship.

An applicant must be a citizen of the United States. An applicant must by October 1st of the year have passed the eighteenth and not have passed the twenty-fourth birthday. An applicant must have achieved academic standing sufficiently advance to assure completion of a Bachelor's Degree before October 1998.

For further information, contact Dr. Walter J. Gajda, Jr., 204 Parker Hall. The campus application deadline is October 3, 1997.

**PREREQUISITE: ADRENALINE**

Drive. Intensity. Those aren't words you're likely to see in many course requirements. Then again Army ROTC is unlike any other elective. It's hands-on excitement. ROTC will challenge you mentally and physically through intense leadership training. Training that builds

your character, confidence and decision-making skills. Again, words other courses seldom use. But they're the credits you need to succeed in life. ROTC is open to freshmen and sophomores without obligation and requires about five hours per week. Register this term for Army ROTC.

**ARMY ROTC**

THE SMARTEST COLLEGE COURSE YOU CAN TAKE

For details, visit Room 301, Harris Hall or call 341-4744

**Student Union Board Election**

The UMR Student Union Board will be holding elections for Vice-President of Programming

on
September 17th, 1997

One Semester of experience as a SUB programming director is required. If you are interested, please come by the SUB office at 218 UCW for an application by Sept. 16th.

Librarian
by Keith Winkler
Staff Writer

Look for major library starting in just The first stage of a 1 million dollar renovation soon begin.
The project, which the Missouri state legislature approved in 1996, will be accomplished in phases expected to months in all.
In the works are the library's overall modernization in anti-technology. The library into compliance with established by the Americans with Disabilities Act of 1990.
To accomplish others, the university face some inconvenient ahead.

Phase

During the first renovation, scheduled to months, the ground, floors of the library will a significant part of next, patrons will on the third floor.

While work is circulation desk and remain open. The southeast corner of the building access to the third floor capacity could accommodate students "show and tell."

Library Director stresses that the library open, and that all library be available.

Class reserve main at the circulation limited number of places available on the first help and the electronic

KMNR

by Jason Buch
KMNR

After a long silent voice on the air broadcasting.

At 5 p.m., on September 11, KMNR 89.7 450 watts and rescheduled with "Video Killed the Buggles," in part sign-on.

KMNR had been weeks due to major KMNR's free squelched when the
