Greek Week 1998 promises fun with a few changes

by Keith Missey
News Editor

UMR fraternities and sororities alike celebrate Greek Week starting this week and continuing through next week.

This year's Greek Week, which is organized by the Interfraternity Council and the Panhellenic Council, promises the same fun and excitement as the past few years. Opening Games begin Saturday at 11 a.m. at Beta Sigma Psi. Idi-Odysseys start next Monday at the Puck and Closing Games end the week of Greek Life celebration next Saturday at the Greek Week Fields by Vichy Airport.

Greek parties will be held throughout the week at UMR fraternities. Greek members and their guests are welcome, but a Greek Week Mug is required for most events. For a listing of the activities throughout the week, check the schedule provided to the right.

Nathan Fraser, president of the IFC, said, "It's going to be a great experience. We're really trying to move out of the stereotypical image people have of the Greek system. We're taking the steps to move forward into the next century."

Fraser explained, "Many people have a bad impression of fraternities and sororities. We're trying to do different things to get rid of this image. We're taking a more active role this year in the community and in student life by doing the ROTC Walk and the Blood Drive again, and by starting the Diversity Barbecue."

This year's Greek Week will also see some changes in the Opening and Closing Games. Fraser elaborated, "IFC and Panhellenic Council decided to get rid of the drinking games. We decided it wasn't worth putting the Greek system in jeopardy by holding these games."

According to Fraser, there was a lot of legal ramifications to go along

with holding drinking games at the Opening and Closing Games.

"If anything was to happen in conjunction with these games, the university could come in and disband IFC and Panhellenic and take over the Greek system," Fraser stated. "The university would then be able to write new policies for the fraternities and sororities, and any problems would fall under the university judicial board system, not in our system where you are judged by your peers."

Fraser further explained, "The university has been taking a more active role in making sure the student approved housing is safe. The campus is responsible for making sure their housing is safe which gives them the justification to do some of the things they have done in the past year. Having these games just is not worth the possible outcomes."

Mark Potrafka, Student Activi-

Schedule of Greek Week Events

Thursday, September 17, 9:00 pm:	Bar Night @ The Grotto (Greek Week Mug recommended)
Friday, September 18, 7:00 pm:	Kickoff Party @ Kappa Alpha (Greek Week Mug required)
Saturday, September 19:	
7:00 am:	Triathlon
11:00 am:	Opening Games @ Beta Sigma Psi (Greek Week Mug required)
9:00 pm:	Toga Party @ Phi Kappa Alpha (Greek Week Mug Required)
Monday, September 21 (wear IM jersey to campus):	
1:30 pm:	Idi-Odysseys @ The Puck (9-Foot Dunk Competition and Best Stand-Up)
Tuesday, September 22 (wear Greek Week T-shirt to campus):	
1:30 pm:	Idi-Odysseys @ The Puck (Best God or Goddess Look-A-Like, Koosh Ball Driving and Most Grapes in a Minute)
9:00 pm:	Karaoke Night @ Alpha Epsilon Pi (Greek Week Mug required)
Wednesday, September 23:	
6:00 pm:	Diversity BBQ @ Beta Sigma Psi
9:00 pm:	Club Godz @ Tau Kappa Epsilon (Greek Week Mug required)
Thursday, September 24:	
4:00 pm:	Greek BBQ @ Lion's Club Park
4:00 pm:	Mini-Olympics @ Lion's Club Park
9:00 pm:	70's Party @ Sigma Phi Epsilon (Greek Week Mug required)
Friday, September 25:	
4:00 pm:	Greek Carnival @ Lion's Club Park
9:00 pm:	Greek Festival @ Kappa Sigma (Greek Week Mug required)
Saturday, September 26:	
10:00 am:	Closing Games @ Greek Fields (Greek Week Mug required)

Homecoming events begin Sept. 28

by Angela Keune
Assistant News Editor

Homecoming events have been scheduled for this year's "Shin-wrecked in Rolla" theme. Events will start on Monday, Sept. 28 and close on Sunday, Oct. 4.

Activities through the week will include games at The Puck on Monday, Sept. 28 through Friday, Oct. 2, a Homecoming barbeque at the Puck on Monday, Sept. 28, a comedy show and introduction of Homecoming king and queen candidates on Wednesday, Sept. 30, the Alumni/Students Golf Tournament,

Friday Oct. 2, 2 to 4 p.m., and half-time activities at the football game, Saturday, Oct. 3.

Alumni events will begin on Thursday, Oct. 1 at noon with the first University of Missouri-Rolla Board of Trustees Meeting. At 12:30 p.m., the liberal arts panel will meet in the Humanities and Social Sciences building. Excel will host it's annual fall banquet, which is co-sponsored by the UMR Corporate Development Council, from 5:30-8 p.m. The reception, which costs \$16.50 and is open to everyone, will start at 6 p.m. and the Academy of Mechanical Engineers Induction

Dinner will serve Zeno's at 7 p.m.

Friday's events for alumni begin at 7:30 a.m. with breakfast for MSM-UMR Alumni Association Board of Directors. UMR Board of Trustees and Campus Leaders in Centennial Hall. Homecoming Registration will begin at 9 a.m. in the Miner Lounge in University Center-East and continue until 4:30 p.m. Short course events Friday afternoon, which are open to anyone include meetings, panning for gold with the UMR mucking team, socials, workshops, receptions and sports entertainment. The main events Friday night are the Silver and Gold Reunion Cocktail Buffet from 6:30 to 8:30 p.m., and the Homecomi Dance. The dance will be free with a cash bar available and music from Bill's Music Machine.

Alumni Events continue on Saturday, Oct. 3 at 7:30 a.m. with an all-alumni breakfast buffet. Homecoming registration will continue from 7:30-11 a.m. Afternoon events similar to Friday will continue on Saturday. At noon class pictures will be taken. Miner football vs. Pittsburgh State University will begin at 1 p.m. At 6:15 p.m., there will be another alumni reception and from 7-9 p.m., there will be an awards ceremony to give awards for the winners of Alumni Association yearly nominations. The Class of 1973 reunion party will start at 8 p.m. and continue until 11 p.m.

Homecoming events will close on Sunday, Oct. 4 after Men's Soccer takes on St. Joseph's of Indian at

Last week's question:

"Is Mark McGwire worth the media hype?"

"Hell, yeah. It's history. It's good for the sport. Baseball is an all American sport; it's just awesome, there is nothing like going to the baseball game, with all the peanuts and popcorn. It's tradition."

-Alexis Collins, freshman.

Next week's question:

"Is UMR everything you expected?"

To comment, point your browser at
<http://www.umn.edu/~miner>.

Season tickets on sale for family series

◆ Season tickets for the UMR Family Series are on sale at the University of Missouri-Rolla ticket window in University Center-West.

Season tickets to all five shows - "The Legend of Sleepy Hollow," Oct. 10; "Pinocchio," Dec. 5; "The Seven Voyages of Sinbad," March 14, 1999; "Treasure Island," April 10, 1999; and "The House at Pooh Corner," May 8, 1999 - are \$28 for adults and \$20 for youths age 18 and under.

Individual tickets are \$8 for adults and \$6 for youth, and will go on sale Monday, Sept. 28.

For more ticket information call (573) 341-4219.

Campus performing arts tickets on sale

◆ The Campus Performing Arts Series at the University of Missouri-Rolla kicks off its 1998-99 season with the a cappella octet Pieces of 8 at 8:00 p.m. Thursday, September 17, in Leach Theatre of Castleman Hall.

Tickets - \$16 for adults and \$12 for youth age 18 and under - go on sale Monday, Sept. 14, at UMR. They may be purchased at the UMR ticket window in the University Center-West.

The 1998-99 Campus Performing Arts Series also includes:

- Frula, a Balkan dance program featuring customs and folk tales from the regions of Yugoslavia, Hungary, Romania and Bulgaria, 8:00 p.m. Friday, October 16.
- Chamber Orchestra Kremlin, an 18-member string orchestra based in Moscow, 8:00 p.m. Friday, November 13.
- "The King and I," Rodgers and Hammerstein's musical with the

King of Siam in his attempt to adopt Western values, 8:00 p.m. Tuesday, December 1, and Wednesday, December 2.

- Easterly Chamber Players, a Swiss-American collaboration that presents a variety of chamber music, from baroque to contemporary, 8:00 p.m. Friday, January 22, 1999.

- "Give 'em Hell Harry," features Kevin McCarthy in a one-man show about the life of Harry S. Truman, 8:00 p.m. Friday, February 5, 1999.

- Saint Louis Symphony Orchestra, recognized internationally for its broad musical repertoire and musical excellence, 7:30 p.m. Thursday, April 22, 1999. This performance is partially funded by the Missouri Arts Council.

For more information call (573) 341-4219.

Attention student organizations

◆ Applications for Club Appropriations are due September 25. Application forms can be found on the Student Council home page at www.umn.edu/~stucco. These forms should be turned in to Sally Dodge at the StuCo Office located at 202 UCW. If you have any questions, contact the External Funding Committee Chair, Matt McLean at mclean@umn.edu or his assistant, Bo Bracey, at dbracey@umn.edu.

ICD volunteers needed

◆ Students are encouraged to volunteer at this fall's Industry Career Day and to sign up by this Friday at the Career Opportunities Center on the third floor of Norwood Hall.

Each year, dozens of student volunteers perform an important role in the smooth operation of this major job search event. They serve as UMR ambassadors to the compa-

In A Nutshell

Campus, National and International news briefs

nies attending and enjoy an unique opportunity to network informally with recruiters looking to fill summer, co-op, and full-time positions. 166 companies are scheduled to attend ICD, the largest ever.

Two to three hour shifts are available on Wednesday, September 23, and Thursday, September 24. Volunteers are needed to help set up and tear down recruiters' displays and to serve as students hosts at registration tables throughout the day.

Alcohol abuse is increasing

◆ Despite nationwide efforts to combat binge drinking on college campuses, a new study shows there is an increase in alcohol abuse among students.

Overall, 42.7 percent of the 14,521 students surveyed reported to be binge drinkers - down two percent from 1993.

But one-third more students in 1997 said they "drank to get drunk." "It's the 'drinking to get drunk' pattern that has been a continuing problem," said Henry Wechsler, the primary investigator for the study. "I am disappointed to see it continuing. Many colleges are talking about policies, but so far there has been no change."

Poet and storyteller to come to UMR

◆ UMR's Multicultural Educational Support Program (MESP) and the Departments of English and History/Political Science are pleased to co-sponsor an evening of poetry and storytelling with Dr. Jason Sommer.

The event takes place Monday, September 28, at the Multicultural Center, 1207 N. Elm Street. It begins with a 6 p.m. reception and the lecture beginning at 7 p.m.

Jason Sommer teaches poetry, creative writing, and literature at Fontbonne College in St. Louis, Missouri. He writes of troubles that unfold at the intersection of self and others; of wakefulness and sleep. Son of a Holocaust survivor, he lives in a Post-Holocaust world, and the poetic voice in this book emerges from that calamity, telling the stories of those who have finally begun to speak to him, and now through him. For more information contact Toni Scott, Director of MESP, at 341-6450 or 341-4182 or e-mail tescott@umn.edu.

Excel fall banquet is October 1

◆ The Excel Professional Leadership Series annual fall banquet is October 1 at 5:30 p.m. at Centennial Hall. The speaker will be Roy Wilkins.

Tickets can be purchased at the Humanities and Social Sciences Building at the Excel Office in room G-7A or contact your campus student leaders.

Representatives of the EPLS program said, "It's a great way to meet company representatives and learn from leaders of industry."

The attire is formal and potential leaders are encouraged to attend.

Students can buy Microsoft products

◆ The University of Missouri has signed an agreement with Microsoft to allow for the purchase of Microsoft Software Products at significantly reduced prices. The University of Missouri-Rolla depart-

ment of Printing and Mail Services will be serving as the campus distribution point for these products.

Sale of these products is restricted to currently enrolled students, and campus departments. Students are allowed to purchase only one CD/License for any one version of Microsoft Software Product. Campus departments will be allowed to purchase any number of CD/License combinations, but will be responsible for assuring proper usage thereof, in strict accordance with the license agreement.

Students will need to present a valid student ID at the time of purchase, and may pay by cash or approved check. Departments may pay by IDO. Due to many different product configurations being available, we recommend that a department representative stop by to obtain the CD/License at our office in G-8 Campus Support Facility, to assure getting the desired product.

Access to the Product/Price List may be had at the following Web address: <http://www.umn.edu/~pmumr/mssp/MSSP.L.pdf>.

Recruiters' roundtable Sept. 23

The Career Opportunities Center will present the annual Recruiters' Roundtable next Wednesday night, September 23, at 7:30 p.m. in the Mechanical Engineering Miles Auditorium.

The informed panel of recruiters from Ernst and Young, Boeing and Lyondell-Citgo will offer their interviewing suggestions then answer questions from the audience.

Opinions

Mocking the presidency?

An editorial by News Editor Keith Missey

If anyone has heard the term "beating a dead horse," I'm sure that is what you think I'm about to do. However, if you don't have an opinion on this topic by now, you soon will because it will be shoved in your face for the next couple of weeks. I'm speaking of course of the possible impeachment of President Bill Clinton.

For those of you who don't know, here is a basic synopsis of what has happened. Kenneth Starr was called in to investigate the White-water scandal. Paula Jones brought her sexual harassment suit against the president and Starr began to investigate that. Pretty soon, it became apparent that the president had had other sexual relations with women like Monica Lewinsky and Gennifer Flowers. Now with the Starr report on the Internet and Clinton's own testimony, it is obvious that Clinton has been smelling the roses in someone else's garden.

I honestly don't see the problem with this. The guy is just like any other man out there, eager to propagate the species. If you want to look at it like this, he was doing his inherent genetic duty by getting with these three or probably more women. It's his life and he can do whatever he wants. Of course he has a wife and child, but if his wife wanted to leave him, she could have done it a

long time ago. She is just riding out the political power trip of having a husband for president. The only one I feel sorry for is poor Chelsea Clinton who has to put up with this public affair. But as long as she doesn't end up like Issy Borden, that's great.

Now the problem comes in with the possibility of Clinton being charged with lying, obstruction of justice, and the like. These are all serious offenses for the common man so Clinton should — just like everyone else — be brought up on charges.

The man has done a good job so far running the country, and no one wants Al Gore's circus sideshow running the U.S., but Clinton had his hands in the cookie jar so they should be smacked.

Besides all of this, the President of the United States, the most powerful man in the world and a role model, has made a mockery of his term. People everywhere see and hear about his actions, and they think the

United States is a joke. We need to show the world that these kinds of actions are inexcusable.

He should be impeached to show our nation and the world that no one is above the law, and even the man in charge is held accountable to a set of higher standards that everyone should strive toward.

The ethical questions of the Starr report

An editorial by Sports Editor Brad Neuville

How many of you read the Starr Report to Congress over the weekend? I know I did and I would suspect many of you did too. For some reason I was drawn to the president's devilish dilemma. Was it because I am Republican and want to see him impeached? No. Quite frankly I haven't liked Clinton from the beginning but the last thing that the United States needs is a presidential controversy.

I suspect the real reason I read the report is because of the promise of sex. Quite honestly sex is one of the major factors that runs our lives. Look at television commercials. Look at billboards. Look at what you talk about with your friends. Look at movies, television, everywhere there is symbols of sex.

In our society, sex sells. Maybe that is good, maybe that is bad. I am not one to pass judgement on anyone's beliefs. However, this sort of controversy, involving the very core of our ideals as a society, is a different matter. As I was reading through the report I realized what I was actually reading. I was reading about how the president of the greatest country in the world had sexual relations with a 22-year-old intern then lied about it and covered it up.

"Why was I reading this?", I asked myself. The only answer I could come up with was sex. I had heard that the report was detailed and explicit and I, just like many of you, wanted to see just how explicit and gruesome it was.

At that point I realized how incredibly shallow I was being. "There is absolutely no reason for me to read this," I thought to myself. The only people on the planet who needed to read this were those members of Congress who will eventually have to decide whether or not to proceed with impeachment proceedings.

Those very same members of Congress are the ones who authorized the release and subsequent feeding frenzy on this report. Personally, I think this is sick. I do not blame Kenneth Starr for including such detail in his report because I think it is necessary to make his point. I do however blame Congress for releasing this to the world.

What are parents supposed to tell their kids? And there are many, many kids who have already read this report. I would not want to be put into that situation and I doubt you would either. What would you say? Explaining sex to children in our society today is hard enough without having to talk about it in terms of a supposed role model, the president.

What are we supposed to tell the world? Yes, our president receives oral sex while talking to members of Congress but you can still discuss matters of international importance with him. He can be trusted, we can be trusted.

I applaud anyone who had the standards and ethics to refuse to read this report and challenge anyone who read it to examine his or her reasons for reading it. I suspect that once you look at the real reason you read it, you will find something similar to what I found, nothing good.

For girls, brain power is more important than vain power

by Susan Jane Gilman
LA Times/Washington Post

Do young women care more about their bodies than their brains? Time magazine recently answered "yes." In a cover story titled "Is feminism dead?" Time reported that young women today equate power with glamour and beauty. Said one 18-year-old: "Girl power means you wear hot pants and a bra with some sequins on it."

Yet the very same week, another piece of news made quieter headlines. According to the Census Bureau, for the first time in history, more women than men ages 25-29 are earning college and graduate degrees. This level of education, the study found, enables women to earn at least 40 percent more than their high school educated peers. It also improves women's income dramatically more than men's.

And so, as girls head back to school, it's important to remind them that their brains, not a bustier, are the real source of "girl power."

No woman's beauty has ever outlived her, with the possible exception of Marilyn Monroe — and that's

largely because Andy Warhol turned her face into wallpaper. And Monroe's image serves mostly as a hallmark of tragedy — a reminder that looks ultimately do not win women love, happiness or respect.

The women who have truly changed the world have done so because of their conviction and intellect. Jane Austen, Harriet Tubman, Marie Curie, Helen Keller, Indira Gandhi, even Oprah Winfrey — none of them made an impact because they were cute girls in hot pants. Millions of lives have been saved because Clara Barton founded the Red Cross. Margaret Sanger, who pioneered birth control, has done more than Madonna to liberate women sexually. Rosa Parks never made the cover of People magazine, but her impact on history is certainly greater than Jenny McCarthy's. As far as I know, Sojourner Truth never wore a sequined bikini. Nor, for that matter, did Joan of Arc or Golda Meir. Mother Teresa was not exactly a "10" in the looks department. Ditto for Eleanor Roosevelt, arguably the most important woman of the 20th century. And while Camille Paglia may argue that beauty and sexuality are the greatest

sources of women's power, her own influence was gained through academia, not the Miss America pageant.

Obviously, it's important for girls to be healthy and feel good in their own skin. And there's just no getting around the fact that looks are still the premium form of currency in much of junior high and high school. Girls everywhere understand that beauty has the power to excite teenage boys. But face it: So does a box of doughnuts. I want my younger sisters to aspire to more than being a flavor-of-the-month — or a Spice.

The women of tomorrow need a reality check: Ultimately their brains, not their bodies, have the capacity to enlighten and influence the world well into the next century. Why should they obsess about the shape of their legs when they can shape history? Real girl power lies between their ears.

Gilman is an editor for *Hues*, a young women's magazine.

Swing, baby, yeah!

by Nick Skupnik, G. I. T.

Verve Writer

Last Friday, September 11, 1998, a swing dancing program was put on in the Thomas Jefferson Hall South Lounge. Only three posters, an unofficial small tunnel "quote", and word-of-mouth, advertised the event. About 300 or so students showed up to the South Lounge eager to swing.

Flabbergasted (that anything I could put together could be so popular) and stressed-out trying to get the shin-dig organized, I just let it happen. Barely able to even get to the front of the lounge, I tried to organize things a little. (The South Lounge was so packed that the overflow clogged the lobby hall at the start of the program).

First, the instructors (Banning Bozarth, Sherry Reeves, Nick Ault, Craig Hunsicker, Mike Seal, Mike Damewood, Sarah Albers, and Jeff DeVasConCellos) and I separated the sexes. We took a few minutes to teach

them the basic step. Then, as they caught on, we encouraged them to ask someone to be their partner... and swing. Showing them a few twirls, a few variants, a few kicks, a few throws, a few different moves, the students took off, swinging the night away. Trying to integrate as many people as possible, we floated the room... gave a little advice here... showed a little demonstration there... yadda-yadda-yadda... the room was swinging. I was so proud. As I was swinging, I could just look around and see all the smiling faces of students having fun, and swinging. Even Tammy Pratt and her husband Corey came to learn how to swing. (By the way, you two were great.)

The purpose of the program was to teach students how to swing dance. I contacted as many people as possible to help me instruct (I assumed a large group of people, but nowhere near the grandiose amount

that showed up). I pooled together my CD's and theirs (as well as my friends

on 4 North). I checked out the TJHA sound system and set it all up in the South Lounge. As a side goal (but an

important one), the participants (hopefully) realized that they could have a good (no, GREAT) time without alcohol. Mocktails were served to reinforce this mission. The reason for this is that many of the swing clubs I have been to, will not serve alcohol during their swing nights (but they do have non-alcoholic drinks available).

As host (so to speak), I must congratulate all the participants for doing a great job. Also, I must sincerely thank all my instructors (I hope I didn't leave out anyone's name). I must also offer my deepest gratitude to my "bar"-tenders, Mike Miller and Josh Summers and to my DJ (what is your name? You never told me). I also have to thank all those on my floor (4 North) for their support and encouragement: James Pickrell, for your enthusiasm and support; Michael Vazquez, for your encouragement, stirring straws, bartending manual, and CLC fans;

Greg Savage, for your support and CD's (Glen Miller and Louis Armstrong); Shawn Maloney, for your belief in me, your help, guidance, and support; Mike Raska, for your advice and support; and all the rest of you for your friendship.

I must say it was not the easiest thing I've ever done - putting on a swing dancing program. Because so many people believed in me (or at least my vision), and because so many people participated and showed their interest in swing dancing, I am taking measures to make this a regular happening. Look for more details soon. Also, any of you who missed this (and of course, those of you who attended) might be interested to know that there already is another campus-wide program that will feature swing dancing. It will be happening in mid-late October. It will be part of an alcohol-awareness program hosted by Molly White (go Molly!). Stay tuned for more info, swingers...

Rocko's Review:

The Big Lebowski on video

by Justin Sutherland

Reviewer-at-Large

The Big Lebowski has made its inevitable way to video from its silver screen release earlier this year. The Big Lebowski is the latest installment by the Coen brothers into their bizarre worlds of crime, mystery and comedy.

Joel and Ethan Coen are best

known for their movie Fargo. Prior to Fargo, their works included Blood Simple and Raising Arizona. Each is a quite hilarious film in its own right.

photo courtesy of Gramercy Pictures

As with the other Coen films, The Big Lebowski has a unique mixture of characters and problems. How many movies do you know that have drugged out hippies, feminists, nihilists, pedophiles, pornographers, incompetent criminals and Vietnam veterans trying to overcome the challenges of bowling, kidnapping, debt collection, revenge and a soiled rug?

The Take:

The story begins with Jeff "the Dude" Lebowski (Jeff Bridges) being mistaken for Jeff

Lebowski (David Huddleston), the millionaire, by a couple of thugs collecting on a debt. The result is one of the thugs urinating on the Dude's living room rug.

If it had been any other rug, the Dude would not have cared, but this particular one "brought the room together." Enlisting the help of his bowling buddies, the Dude sets out to talk to Lebowski, the millionaire, to seek restitution for his rug.

Little does the Dude know that he is about to be intertwined in a seemingly complicated scheme dreamed up by the

other Lebowski.

Rocko's Two Cents:

The movie starts with a narration where the narrator eventually "loses his train of thought." Much like the narrator, the movie follows the same path. It begins, as all good movies do, with a grabbing opening sequence followed by an intriguing storyline. But eventually it seems to, in a comical way, lose its train of thought, thus bringing the story to an end. Any attempt to find a plot

see Lebowski on page 26

A weekend to forget -part 2

by M.T. Terry

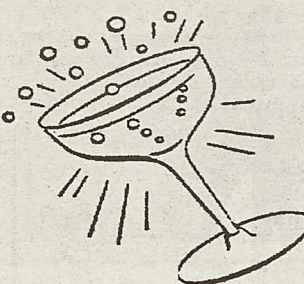

Verve Writer

I went over to Todd and basically picked him up off the floor and dragged him to my place. On the way out he told me to stop at the bathroom. He went straight for the john and just puked his brains out.

I got back to my place and thought that I could put Todd to bed and be done with the whole thing so I could get back to the party, but I was in for a surprise. One of the guys that lived down the street from me had Dave pinned up against my door ready to fight. I jumped in and told Dave to get the hell in my house, but he wasn't listening. He told me he wanted me to let him fight the whole neighborhood, that he could take them all. It didn't take a rocket scientist to tell what was wrong with him. I reached around him and opened the door and with all my strength shoved him inside.

My only thought then was to get him to go to sleep.

He really needed to sleep it off. But sleep was the last thing on his mind. No matter how much I begged him, he wouldn't listen. He just kept pleading with me to let him go fight. He pointed to his Ohio State keychain and told me that because he went

to the biggest school in the country he could fight people twice his size. I didn't really get scared, though, because I had seen plenty of people so drunk that they think they're invincible.

What really got me was when he looked right at me and called me Andy. I'd known this kid for four years and he was looking me right in the eye calling me Andy. I was terrified.

To make matters worse, Todd had come back to his senses a little and Steve wanted to help, too. Their drunken advice only got in the way. Dave didn't know them, either. He kept saying that Todd's name was John and that he didn't even know Steve. After ten minutes or so I knew that I couldn't do anything for him and left to go get help.

To be continued...

Fall Film Fest:

The Gingerbread Man

Kenneth Branagh, Daryl Hannah. Directed by Robert Altman. This contemporary thriller centers around an attractive woman who enlists the aid of a Memphis lawyer to win control of her father's estate on the premise that he is insane. After the lawyer succeeds, he comes to have thoughts about both his client and her motives. A screenplay written by best-selling novelist John Grisham. Rated R. This film will be shown on Tuesday, September 22 at 7:00 p.m. in Leach Theatre.

Southwinds Magazine is a phoenix from the ashes

by Bradley Jones
Literary Press Service

Southwinds Magazine, The University of Missouri-Rolla's literary magazine, has really come alive in the past year. Established in 1972, the magazine had been going downhill over the past two years and almost disappeared entirely. It received a breath of life during the fall semester of 1997 when internationally award-winning poet, and incoming freshman, Randal A. Burd, Jr. and a group of motivated students decided they wanted to take over. Burd commented on the status of the magazine when they set out to reactivate it:

"It was basically non-existent," Burd said. "The students had completely forgotten about it, and it had been a while since an issue had been printed. The last two issues had been done entirely on the Internet, which was a disappointment to many people."

The new staff started from scratch. They requested office space, financial support from the student council, and rewrote the organization's constitution. Then came the

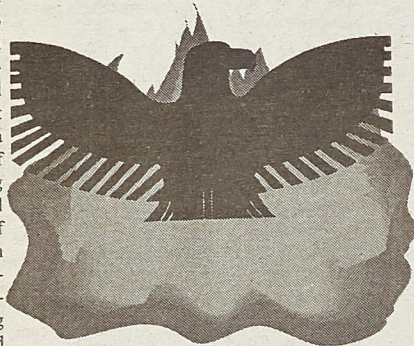

difficult part of creating the actual magazine. The staff set their goals high. The once yearly publication became a semesterly publication.

"We decided if we were going to really activate the magazine, we would have to go above and beyond what anyone had done in the past,"

Burd said. "Our Design Editor and Vice-President, Jonathan Erdman, gave the layout a whole new look. I didn't know much about running a literary magazine, but I sought a lot

of advice from my editor friends. Deborah-Anne Simeroth, editor of The Poets Edge in California, and Carl and Robin Heffley, editors of The Candlelight Poetry Journal in Maine (formerly in Florida), have continually given me advice on what makes a literary magazine work. I can literally say I have had help from coast to coast."

The new staff has changed somewhat over the last year, but Burd and Erdman are still working hard, as are the new staff members. Two issues have been published so far and a third is on the way. Southwinds Magazine has also sponsored poetry readings and is sponsoring a weekend writers' workshop in October.

Career Group!

Sponsored by the
Center for Personal & Professional Development

- Been thinking if you are in the *right* major?
- Want to explore what you can do *with* your major?
- Worried about what to do *after* graduating?

Join the Career Group!

This is a fun, interactive group to explore career options. The group is a 5 session program designed help you get your answers - right here, right now!

Here's what you'll get when you participate:

- Two free career inventories to explore your areas of interest
- Guided assistance on how to explore your major and your career options
- Information to make informed decisions
- Group support
- Information to help you plan for next semester
- Maybe a load off your shoulders!

To join, contact the Center for Personal & Professional Development: 341-4211. Schedule an informational meeting (about 15 minutes) to see if the group meets your needs.

*Act now, because the group is filling up!
Enrollment is limited*

All sessions are led by professional Counselors or Psychologists who are dedicated to your academic success and career development.

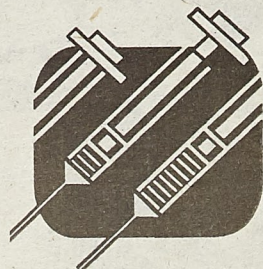

Call 341-4211 for more information

Organizational Update

Student Council getting things done

by Julie Crow
StuCo

The blood drive last week was a huge success. The first day alone

brought out over 100 donors. Many thanks to everyone who participated.

Unity Day is Thursday September 17th. There will be a BBQ at the puck during lunch. To get free food, you must have a Unity Day ribbon, so be sure to get a ribbon. There will be a march through campus at 10:30 a.m. led by Chancellor Park as well.

The issues we are currently working on include lighting on campus, getting swipe card access to buildings, and getting the TJ tunnel cleaned.

A few of the policy-related

issues we are working on include improving Freshman PRO and getting a student involved in the tenure process.

If you have any issues you would like to see us work on, e-mail stuco@umr.edu and let us know.

If your organization is planning to apply for funding from Club Appropriations, remember, applications are due September 25th at 4:30 p.m. in our office. The applications are available from a link on our web page at <http://www.umr.edu/~stuco>.

St. Pat's looking for more members

by Marci Medley
St. Pat's Board

I know there are artists out there somewhere here on this campus. We don't study physics and calculus all of the time. Why don't you put that talent to use and win a little cash?

The St. Pat's committee is still holding their sweatshirt design contest, and they still need a few good designs! The designs will be due on Friday, September 18th.

So, you better get moving and get a design put in the St. Pat's mailbox with your name, organiza-

tion, and phone number, or you are going to miss out on some great prizes! First place wins \$100, and there are second and third place prizes of \$50 and \$25, respectively.

If you are having a "drawer's block" contact Joe Ernst at 364-1433 or Matt Martin at 364-7176. They can

answer any questions that you might have.

Have you ever thought about what it would be like to wear one of those green jackets? Well, here is your opportunity to find out.

The St. Pat's committee is still looking for more members, and you could be one. For more information about us or our organization, call Todd Striok at 364-7176, or check out our web page at <http://www.umr.edu/~stpats>.

Have a great week everyone and good luck on the first round of tests!

TECHnicalities: TECHs introduce a new TARGET to campus

by Jen Carlson
UMR TECHs

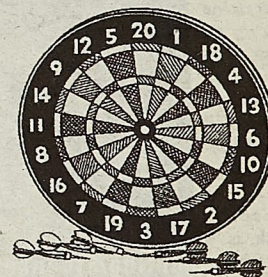

Are you interested in staying on target? Then let's make this year a fun and healthy one! UMR TECHs (Teaching, Encouraging, Caring, Helping Students) is together again with many new faces and plenty of great ideas! TECHs along with health educator (our advisor), Linda Burnette are coordinating a group called TARGET.

TARGET will consist of freshmen who are interested in staying

on target. Are you interested in promoting healthy choices or discussing the subjects with your peers? Have you been involved in SADD, DARE, or other peer counseling/educating in high school or would you like to get involved in college? We are looking for students who want to discuss, listen, and learn about a variety of topics.

The first meeting is Wednesday, September 23rd at 7 p.m. in McNutt 204. At this TARGET Meeting there will be snacks and drinks and great conversation! This

group is developing and will go where YOU want to go, please come and give us your ideas.

SUBConscious:

Triathlon coming next week

by Steven Treumper
SUB

This week's SUB movies are *Thelma & Louise* and *Pretty Women*. Geena Davis and Susan Sarandon are *Thelma & Louise* two female buddy/criminals who take out on the road for a few days for some self-discovery. *Pretty Women* is a Cinderella fairy tale, starring Richard Gere and Julie Roberts. Both movies will be shown Friday and Saturday in ME 104. *Thelma &*

Louise starts at 7 with *Pretty Women* starting at 9. All SUB movies are FREE with a student ID.

Find out the real reason for college September 24. Attend a presentation by John

Leonard Harris a Motivational speaker. He will speak from 6:30 p.m. - 8 p.m. in UC-East Centennial Hall. This is free to UMR students.

The Miner Triathlon is September 26. Contestants will swim 500 yards, followed by a 15 mile biking leg and finish with a five mile run. Applications can be picked up in the SUB office, 218 UC-West, and are due September 25. The triathlon is free to students but costs \$5 for non-students.

ROTC member tries to fly without wings

by Deborah Hummel

Air Force ROTC

There's nothing like jumping out of a perfectly good airplane. Just ask James Demis, a cadet in Air Force ROTC at UMR. This summer he was able to participate in a program through Air Force ROTC, called Freefall. That is exactly what he did.

On August the 2nd, Demis arrived at the Air Force Academy in Colorado Springs, CO. There he teamed up with 59 other cadets and started their training. Each cadet was personally instructed by an experienced jumper. For four days the cadets trained from 6:00 in the morning till 3:00 in the afternoon. Sometimes the training conditions weren't ideal, like practicing jumps in an unairconditioned warehouse. The final destination made up for any minor discomforts.

Finally, after four days of cramming about how to jump, what to do if your parachute doesn't open, how long to count before you open the parachute and all other sorts of safety drills, the cadets were ready to jump. Demis, along with all the others, was a bit hesitant. It isn't everyday that you take a plunge out an airplane and reach speeds up to 130 mph and watch as your body gets closer and closer to the ground. As Demis sat in the plane wallowing through his thoughts of fear, the jump master looked at him. The jumpmaster said laughingly "Just get in the door." Once Demis culminated enough courage to get to the door ... he was sailing through the air.

The rush that comes from freefall isn't really easy to explain to someone who has never experienced it. But, generally speaking, it is like having 'oodles' of butterflies having a party in your tummy. Demis was one of the 56 students who graduated out of the 59 cadets. He was able to take five jumps. In the jump the first 10 seconds were all freefall then he had to pull the chute and plan to land. For the many decades that the Air Force Academy has been doing this program they have had a perfect record, meaning no deaths. That is because the Academy has stringent guidelines for what each cadet must follow and learn to be qualified to jump. James Demis is one of the cadets who was able to reach those goals and graduate from Freefall.

ASUM encourages voting

by Tony Bradford

ASUM Board

Registering to vote and making it to the polls on Election Day are two activities more and more Americans are letting slide. They do not make the time to keep their voter registration current nor do they make the time to vote. The Associated Students of the University of Missouri (ASUM) are here to help ease the process for students.

Registering to vote is as simple as taking a minute or two to complete the Missouri Voter Registration card. In addition to new registrations, previous registrations can be canceled, name changes submitted and addresses updated all on the same card! On campus, students can register at the ASUM office weekdays 8:30-3:00 or at one of ASUM's Voter Registration Drives: Thursday September 17; Monday, September 21 or Tuesday, September 22 from 10:00 a.m. - 2:00 p.m. at the Puck. The last day to register to vote in the November General Election is October 7.

Missouri students who are already registered in their home county may choose to avoid the absentee ballot process and change their voter registration to Phelps County. If not, an absentee ballot application request and information is available from ASUM. In addition, notary service for those submitting an absentee ballot is also provided.

Offices on the November ballot include U.S. Representative, U.S. Senate, State Representative and State Senate as well as several local offices. Further information is available on ASUM's website at <http://www.umn.edu/~umrasum> or our display board inside UCW. Questions can be referred to our e-mail umrasum@umn.edu or call 341-4970.

Lady Miners split a pair of games at the Evansville Invitational

by Marci Medley
Staff Writer

The University of Missouri - Rolla's Lady Miner soccer team played two games this weekend in Evansville, Indiana. The Lady Miners beat Indianapolis University 1-0 on Saturday, but had a close loss to Southern Indiana University on Sunday.

The Lady Miners' team captain Jen Splaingard said, "We were hoping to come out winning the tournament, like we did last year."

Although the Lady Miners had 8 shots during the Indianapolis game, seven of those shots were blocked by Indianapolis' goalkeeper Melissa Bigam. Lady Miner junior defenseman Lori Douglas scored the only point in the game with an assist from Libby Stephenson.

"We played pretty well all over the field," Splaingard said.

On Sunday, Laura Preske from Southern Indiana came out and scored against UMR early in the first half. Preske scored at the 8:33 mark.

But UMR came right back with goals. Sarah Rudy scored the

"[The score in the beginning] fired us up," Splaingard said.

In the second half however, UMR was shut out by Southern Indiana, while Stephanie Minor scored two goals for SIU, bringing the score to the final 3-2.

"Southern Indiana is a good team, we were up 2-1 at half time, we just made some [mistakes] the second half," Splaingard said.

This week the Lady Miners travel to St. Louis to take on the University of Missouri - St. Louis on Wednesday at 5:30 p.m.

"St. Louis is a pretty good team, we beat them 3-0 last year," Splaingard said. "We just need to play well [and] score goals."

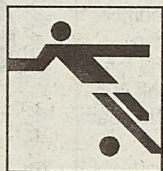

The Lady Miners also have two games at home this weekend. On Saturday, September 19th they play Central Methodist

first at 21:03 mark and Lori Douglas scored the other at the 33:17 mark to take the lead. Splaingard assisted on the second goal.

at 1 p.m. On Sunday, September 20th the Lady Miners will be on the field once again playing against Missouri Southern at 3 p.m.

Miners forced to take tough 19-14 defeat to NAIA Missouri Valley

by Adam Britt
Staff Writer

The University Missouri-Rolla football team lost their second game of the season at home to the Missouri Valley Vikings on the afternoon of Saturday, September 12, 1998.

Missouri Valley defeated UMR by capitalizing on the big plays that the Miners gave up.

"The 'big play hurts,'" head coach Jim Anderson said. "Like the fake punt that went back for a touchdown. We can't give them up."

The Vikings victory was a product of a lack of defense, their ability to make big plays and the Miners' inability to put the ball in the end zone.

Although UMR had more rushing yards and fewer penalties, the Vikings ability to run the ball off the punt, pass for more yards, and evade our defenders gave them the edge. This was all despite UMR's longer time of possession, greater rushing yards, and better kickoff return yardage leading to good field position.

Late in the fourth quarter the Miners made a tremendous effort to even the score, driving from their own 28 yard line to the Viking's 23 before falling short of a first down.

Scorers for UMR were Andy Singleton on a two yard run in the first quarter and Brad Clarke on a six yard run in the fourth quarter, both good for touch-

downs. Bobby Barton successfully kicked both extra points.

Jerry Davis and Sean Wallace both scored touchdowns for the Vikings. Davis scored twice on long passes from quarterback K. Ponticello.

The two connected in the second quarter for a 57-yard touchdown which evened the score at 7-7.

Ponticello and Davis connected again in the fourth quarter on the final score of the game on a 53-yard touchdown pass.

Wallace also scored when he took a handoff from Ponticello and skirted 39 yards for a touchdown in the second quarter.

Richard Cisman kicked in one extra point and missed the other. A two-point conversion attempt by Ponticello failed on the other extra point attempt.

After the Miners second loss of the season, coach Anderson did not seem discouraged and has faith in his team.

"There is a long year ahead of us and as far as the loss Saturday the players were disappointed," Anderson said. "But in the long point of working hard in the long MIAA season I'm sure they are willing to [work hard], and that's what they will have to do."

The Miners will travel to Central Missouri State University in Warrensburg, Mo., to play at 1 p.m. on Saturday, September 19th. The next home game for the Miners will be September 26 against Washburn University at 1 p.m. at Jackling Field.

NFL UPDATE

Week 2

Atlanta 17
Philadelphia 12

Fast Fact: Falcon's quarterback Chris Chandler equalled the team record with at least one touchdown pass in his last 14 games.

Cincinnati 34
Detroit 28

Fast Fact: Bengals cornerback Corey Sawyer intercepted Scott Mitchell's pass in overtime and returned it 53 yards for the game-winning score.

Green Bay 23
Tampa Bay 15

Fast Fact: The Packers' defense had six sacks, three of which caused fumbles, as the Packer defensive line held Trent Dilfer in check all day.

Jacksonville 21
Kansas City 16

Fast Fact: Two big kick returns (an 85-yard punt return for a touchdown by Reggie Barlow and a 65-yard kickoff return by rookie Tavian Banks) spelled the Elvis Grbac-less Chief's demise.

Miami 13
Buffalo 7

Fast Fact: Miami compensated for a sputtering, lackluster offense with a swarming pass rush and tight coverage in the secondary. As a result the

Bills gained just 187 total yards on the day.

New Orleans 19
Carolina 14

Fast Fact: The Panther's Kevin Greene, the only bright spot so far this year, moved into third all-time on the career sacks list with two on the day and 138 in his career.

Baltimore 24
N.Y. Jets 10

Fast Fact: Rod Woodson has found a home in Baltimore. The Raven's defensive back had two interceptions including one which he returned 60 yards for the clinching touchdown.

Pittsburgh 17
Chicago 12

Fast Fact: The Steelers egged out a victory on the back of Jerome "The Bus" Bettis who had 131 yards rushing and a touchdown.

Minnesota 38
St. Louis 31

Fast Fact: This shootout came down to the wire when Rams quarterback Tony Banks took off towards the end zone but was stopped inside the one yard line as time expired.

San Diego 13
Tennessee 7

Fast Fact: A poorly played game by both teams was

decided by the surprisingly cerebral play of Chargers rookie quarterback Ryan Leaf.

Denver 42
Dallas 23

Fast Fact: The Broncos showed the Cowboys why they are Super Bowl champions as Terrell Davis ran for 191 yards and three touchdowns and John Elway threw for 268 yards and two touchdowns and ran for another.

Oakland 20
N.Y. Giants 17

Fast Fact: Said Giants quarterback Danny Kanell of his teams self-destructive play, "There were too many penalties, and mental mistakes killed us. You can't expect to win when you shoot yourself in the foot so many times."

Seattle 33
Arizona 14

Fast Fact: Willie Williams and Shawn Springs returned interceptions for touchdowns and Ricky Watters had his first 100-yard rushing game for the Seahawks.

New England 29
Indianapolis 6

Fast Fact: The Colts' number one pick Peyton Manning threw three interceptions for the second straight week in a row giving him six on the year as well as a fumble.

Cross Country teams gain experience at tough Jayhawk Invitational

by Erin Gifford
Staff Writer

The University of Missouri-Rolla cross-country teams faced stiff competition this past weekend at their second race of the season, the Kansas Jayhawk Invitational. The Jayhawk Invitational was held at 8 a.m. on Sept. 12 in Lawrence, Kansas with 16 teams competing in the men's division and 14 in the women's division.

Though the men's team placed last among the 16 teams, they were competing against nine Division I schools.

"This was the who's who of cross country," coach Sarah Preston said. "The competition was rather stiff, but we knew it would be tough."

Arkansas topped the men's eight kilometer race with only 31 points. Oklahoma State placed second overall.

"Both [Arkansas and Oklahoma State] had top finishers, many of which were international athletes," Preston said. "Some of the Division II runners mixed in well in the men's race, and they will be the top contenders in the Division II championships."

The Miner's top runner, senior Matt Hagen, who finished in a time of 28:18 at the SIU-Edwardsville Twilight a week ago, finished 58th out of 131 this weekend with a time of 27:59.

Josh Sales came in with a time of 28:58, Kevin McGuire finished with a time of 29:10, Paul Whetstone and Tim Albers tied for a time of 29:30, Jason Burnes came in with 29:42, and Dan Saylor completed the course in 29:43.

"We didn't start off well in the race and we just weren't able to make the distance up," said Saylor. "It might have been more of a mental state [but] we found out some things we need to work on."

The women's cross-country team placed 14th out of the 14 teams participating in the Jayhawk Invitational, however, there were eight Division I schools to compete against.

"The Division I schools dominated the women's race," Preston noted.

Georgetown University took top honors in the women's five kilometer race with 38 points. Arkansas finished second with 42 points.

The Lady Miner's top finisher was junior Sheri Lentz, who placed 94th out of 120 and came in with a time of 21:39. Sheryl Ziccardi, also a senior, completed the course in a time of 21:57, followed by Kim Hoffman with a time of 23:13, Jennifer Garrison with a time of 24:00, and Debbie Leonard rounding out with a time

MIAA Cross Country Athletes of the Week

SHERI LENTZ

MATT HAGEN

Junior cross-country runner Sheri Lentz was selected to be the MIAA conference women's cross-country runner of the week last week.

Lentz lead the Lady Miners to a second place effort at the SIU-Edwardsville Twilight on Saturday, September 5 under sweltering conditions in Edwardsville, Ill. Lentz placed third at the meet with a time of 20:53 in the five kilometer race.

Senior cross-country runner Matt Hagen was selected to be the MIAA conference men's cross-country runner of the week last week.

Hagen lead the Miners to a second place finish at the SIU-Edwardsville Twilight on Saturday, September 5. The men's meet was also run under abnormally hot and muggy conditions. Hagen finished in sixth place with a time of 28:18 in the eight kilometer race.

Running from page 10

of 24:28.

"The girls were really fast; I took out fast and I was still behind," Garrison said, a freshman.

Both cross-country teams are looking forward to facing more of their conference schools.

"We are pretty competitive with the schools in our conference," Ziccardi said.

"Our main goal in the meet was to place well against the other conference schools," Saylor commented. "We expect to do a lot better next week against Emporia State, Truman State, and Missouri Southern."

Despite not doing as well as they would have liked at the Jay-

hawk Invitational, the Miners and Lady Miners are keeping a hopeful outlook on future races.

"Experience counts for a lot [in cross-country], you need a few races under your belt to know what to expect," Preston said.

"You have to stay mentally tough," Ziccardi said.

The 1998 NCAA Division II Cross Country Championships will also take place in Lawrence, Kansas, in November. Next week the Miners head to Missouri Southern in Joplin, Missouri, for the Southern Stampede and their first conference test.

During homecoming weekend, October 3rd and 4th, the Miners and Lady Miners will host the Miner Invitational at the University golf course behind the Multi-Purpose Building.

Men's soccer avenges last year's loss with 2-0 victory

by Marci Medley
Staff Writer

The University of Missouri - Rolla men's soccer team had a win over the Columbia College Cougars on Friday, September 11 at the soccer complex in Rolla.

After losing to the Cougars last year, the Miners came out pumped up and ready to win.

"We had a better start this year, that really helped us," UMR junior defenseman Alan McMahon said.

The fans were ready too, yelling and screaming, trying to show the team their support.

"The crowd was really great!" McMahon said. "It was probably the most packed I've ever seen it."

The Miners' defense played hard and strong throughout the game.

"The defense had a shut out, which was great since last year they scored around 4 points [against us]," McMahon said. Miner defenseman Ashley DuPree had to leave the game late in the

second half due to an ankle injury. Still the Miners battled on, and held the Cougars to zero points.

The first point for UMR was scored late in the first half by junior Matt Long. Long was assisted

"We're getting adapted to the coach's ways, and working more together as a team."

- Miner Alan McMahon

on the play by McMahon. The score occurred when McMahon passed the ball to Long off of a free kick.

This score was followed in the second half by a point scored by Brian Koscielski. Getting the assist on the goal was Michael Salcedo.

The score happened less than three minutes into the second half

and gave the Miners a commanding 2-0 lead throughout the second half.

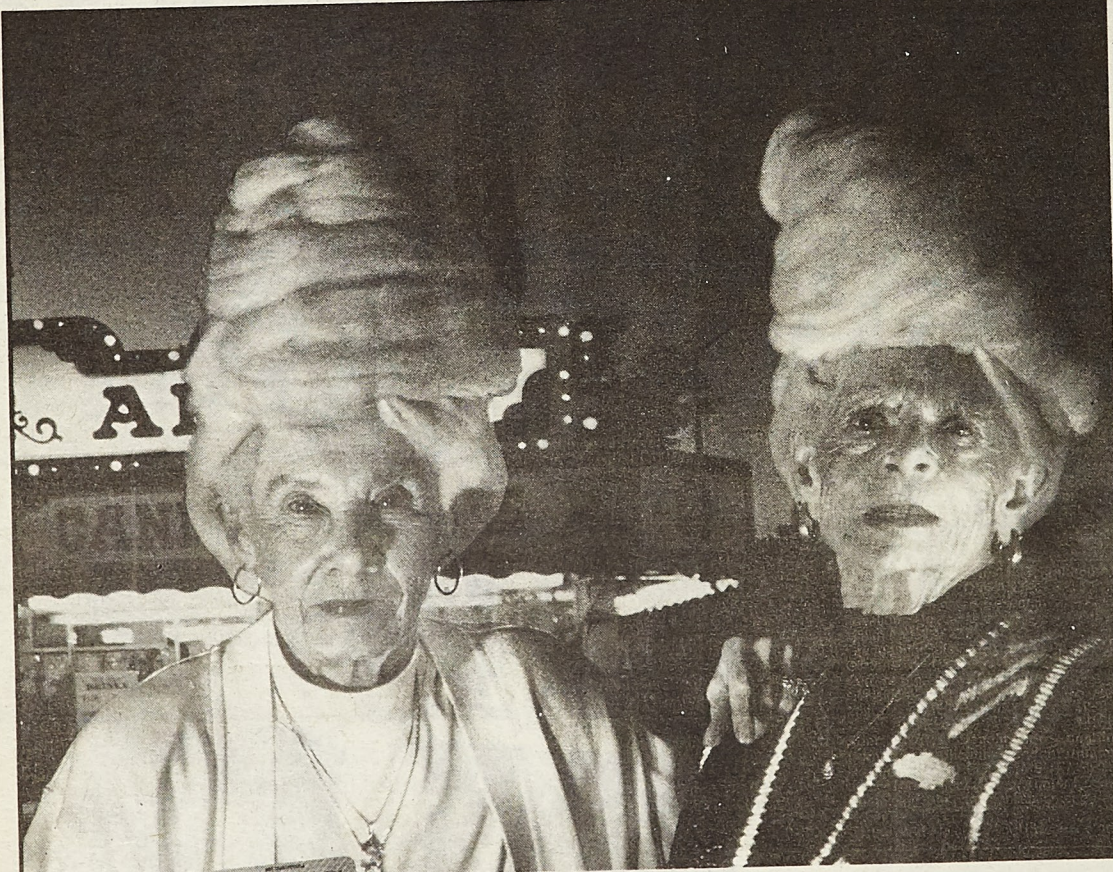

"We're getting adapted to the coach's ways, and working more together as a team," McMahon said.

And work as a team they did, winning the game handily and without much scare. While Columbia outshot the Miners 9-8, only two of those shots required a save by goalkeeper Todd Wilfling.

The Miners have a busy week ahead of them. Today they travel to St. Louis to take on the University of Missouri - St. Louis.

"We should do pretty well against St. Louis, we've beaten them the last couple of years, we need to keep the string up," McMahon said.

On Sunday, September 20, at 1 p.m., the Miners play their second game of the week. They will face Missouri Southern at home against in their first Missouri Intercollegiate Athletics Association conference game of the season.

McGwire and Sosa: Reviving a nation's pastime

by Randal Burd

Assistant Sports Editor

Once, the game was as popular as peanuts, popcorn, and ice cold beer. The hotdogs were hot, the soda was cold, and everything was cheap. People could cheer for their home team, old-timers could discuss the good old days, and children had role-models they could really look up to.

That dream-like past has gradually faded into dollars and cents. The conversations now concern whether a player will get four million dollars or six million dollars, who will be doing the next Nike commercial, and how much will he get for it. The professionals who used to be the role models for the nation's youth are getting arrested for DWIs, domestic violence, and drug possession. All of these shadows have covered up what was in the beginning a dream, our national pastime, baseball.

Just when things couldn't get any worse, when the dust had settled on the trading cards abandoned after the strike of '94, when the conversations had almost stopped completely, when the nation decided it was fed up with the obsession for wealth which threatened to doom our national pastime forever, Mark McGwire and Sammy Sosa came out of the woodwork and tried to save the dream.

And save it they did, one home run at a time. Sure, they had a hard time. Some people were angered McGwire was on the road to breaking Roger Maris' hard earned record. The press leak about McGwire's dietary supplements was just what some nostalgic critics needed to make one attempt at preserving Maris' record. Critics spoke with distaste on McGwire's use of the hormone raising supplements, declaring McGwire wasn't playing fair and suggesting maybe he should be disqualified in his race to the record. It was as if they had forgotten the same attempt had been made, with different reasoning, to disqualify Maris from breaking Babe Ruth's record some 37 years before.

But both men kept their eyes on the goal, ignoring the complaints and criticism as they drove on to the goal, coming closer to success or failure with

each swing of the bat. And the nation watched. The media covered the race with the vigor usually attributed to the Olympics. Papers and televisions across the nation featured the dueling duo daily. And on the long awaited night, when McGwire hit his 62nd home run at Busch Stadium with the Maris family watching, Sosa, following in McGwire's shadow just a couple of home runs behind, watched from the outfield as McGwire's record-breaking home run streaked over the wall. It was almost like a scene from the movie Star Wars, unfolding in real life before the nation's eyes — the young Skywalker-like McGwire completing his goal as his ethereal mentors, Ruth and Maris looked on proudly from beyond. The dying ember of another American icon flared to life.

The excitement is dying down now. Sosa has also broken the record, tying McGwire with 62 home runs. The competition has lost one member; Maris, no longer the record holder, fades out of the spotlight to take his place in history. The race no longer links the past with the present; focusing now only on who will hold the record when the season comes to an end. There are those who are still watching with much interest, but the edge-of-the-seat intensity is no longer

there as it was in the race to break Maris' record.

It is time now for reflection — time to take a deep breath and wonder what just happened and what it means to us. Now the time has come to ask ourselves: Does it really matter to anyone whether McGwire or Sosa finishes the season with 69 or 70 home runs? In the long run, does it matter who comes out with the most? I think what matters is the televisions came on, the radios were playing, and the games were sold out. The conversations began again. The next generation

of old-timers reminisced about the good old days, the trading cards were dusted off, old role models were remembered and new ones were found.

In the end, we must realize: it isn't about a ball and bat; it isn't who hits how many how far; it isn't about records broke or money made — it's a family on the front porch one summer night, listening to the game on the radio. It is the companionship shared when father and son watch from the stands. It is remembering the good old days...and bringing them back.

MOROSCOPES

by Lattie Dagh

ARIES (March 21 - April 19): Your days keep getting better and better. A rare alignment of the planets ensures your success in all you do today. Listen to Wagner's "Flight of the Valkries."

TAURUS (April 20 - May 20): The same rare alignment of planets that ensures Aries' success ensures your mediocrity. Don't fret - it could all change by tomorrow.

GEMINI (May 21 - June 20): A supernova in your constellation can only mean immediate tragedy. Stay in bed. Whatever you miss is better than what you could encounter.

CANCER (June 21 - July 22): Listen to your doctor. Eat an apple. Drink some milk (and eat a cookie along with it). Rest a lot. Drink lots of fluids.

LEO (July 23 - August 22): You will read yet another horoscope today.

VIRGO (August 23 - September 22): It is a dark time. It is a sad time. You are destined to save the universe today. Don't screw it up.

LIBRA (September 23 - October 22): What a beautiful day. Keep your chin held high. Smile as often as possible. This is a great day for you. Celebrate it. Celebrate life.

SCORPIO (October 23 - November 21): Ignore the stars. You CAN lead a wonderful and successful life - despite what anyone else says. Go out there. Be somebody. You won't fail. No, not at all, just ignore your instincts and everyone's snide comments.

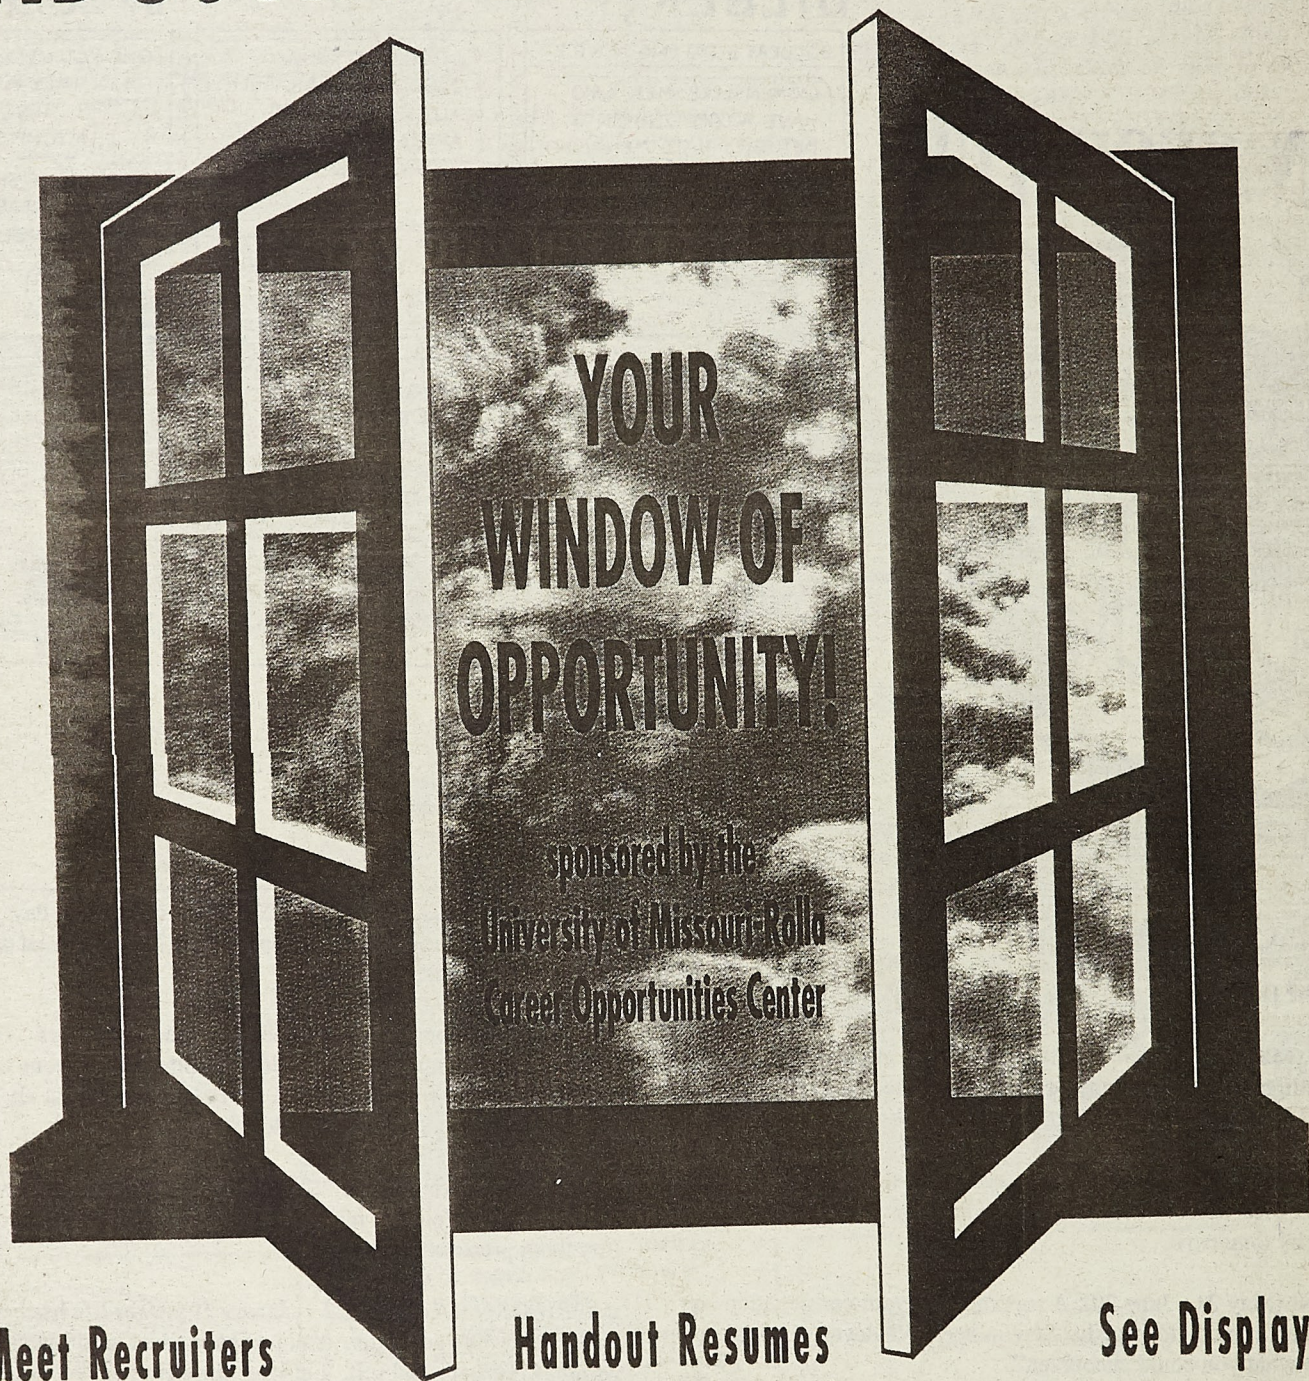

SAGITTARIUS (November 22 - December 21): Hang out with many Aries persons. You will realize, today, how cool Aries persons are. Buy them presents.

CAPRICORN (December 22 - January 19): Your life has been bad lately but it may get better. You just have to let go of the past and be willing to be your real self. Let your close friends see you through your dilemmas.

AQUARIUS (January 20 - February 18): Oh what a beautiful morning. Take advantage of it. Wear bright colors. Enjoy the morning - and try and extend the fun through the evening.

PISCES (February 19 - March 20): Today, you will realize that you are the almighty lord of pretty much nothing. But you are the almighty lord of something. Find that something and exploit it.

 Missouri Miner - Full-time and Summer

Groups!

Center for Personal and Professional Development
 204 Norwood Hall

- Career Group**
An exciting, interactive 5 session group for students unsure of their majors. The group helps people find the right major by matching personal interests and values with real career opportunities. Call now for more information!
- Self-Esteem Group**
Members rediscover ways to honor and celebrate the self ~ as well as ways to share with others in a safe group setting. This popular group has limited space - call now for an appointment.
- Family Based Issues Group**
The FBI group focuses on living successfully today and moving beyond the limits of negative family experiences. Space is limited - call for an appointment.
- Test Anxiety Workshop**
This is a special 2 session workshop designed for the UMR academic experience September 22 & 29, 1998. Registration is required; call for information.
- Anger Management Workshop**
A workshop designed for understanding anger and how to channel anger into effective communication rather than destructive behaviors. To register, please call the CPPD to set up an informational meeting with the co-leaders.
- Student Success Course**
This is a special 4 session class focusing on study skills, testing strategies, time management, and academic success. Registration is required; call for information.

To join a group, call 341-4211 and ask for an information meeting.

• All groups are confidential. •

TAKE THIS JOB AND LOVE IT.

The dream of becoming an engineer is far from a universal one. Engineers are a special breed. At the Cessna Aircraft Company, our special breed of engineers have designed the world's fastest, most versatile, and most popular business jets.

How would you like to do this for a living? Stop by the Cessna booth during the September 24th Career Fair and find out a few things that will help you answer that question.

PRINCIPLES of SOUND RETIREMENT INVESTING

RECENTLY, MORNINGSTAR CALLED US CHEAP. IT'S NOT EVERY DAY YOU GET A COMPLIMENT LIKE THAT.

All financial companies charge operating fees and expenses—some more than others. Of course, the lower the expenses you pay, the better. That way, more of your money goes where it should—towards building a comfortable future.

We make low expenses a top priority.

As the largest retirement system in the world¹—a nonprofit company focused exclusively on the financial needs of the educational and research communities—our expenses are among the lowest in the insurance and mutual fund industries.²

In fact, TIAA-CREF's 0.31% average fund expenses are less than half of the expense charges of comparable funds.³ It's why Morningstar—one of the nation's leading sources of annuity and mutual fund information—says, "At that level [TIAA-CREF] is cheaper than any other

[variable annuity] policy, and is even competitive with the cheapest mutual fund complexes, though it offers far more benefits."⁴

"TIAA-CREF sets the standard in the financial services industry."

Of course, expenses are only one factor to consider when you make an investment decision. Morningstar also noted our commitment to "consumer education, service" and "solid investment performance." Because that can make a difference in the long run, too.

At TIAA-CREF, we believe people would like to spend more in retirement, not on their retirement company. Today, over two million people count on that approach to help them build a comfortable and secure future. So can you. To find out more, call us at 1 800 842-2776. We'd consider it a compliment.

Lebowski

from page 5

in the thick of the story is almost futile. This is merely the style and charm of the movie which does not, in the least, take away from its entertainment and fun.

The comedy in *The Big Lebowski* is intelligent, mostly subtle, but always hilarious. The Coens, as in their previous films, do not just throw one-liners in your face to laugh at, but rather presents comedy and sarcasm with more depth and reality.

The Big Lebowski is worth your time and is an entertainment bargain at video rental prices.

Greek Week

from page 1

ties Assistant Director and advisor to the Greek system, said, "We talked about getting rid of those games for the last three to four years. With everything that has happened with St. Pat's in the past couple of years, it was in their best interest to get rid of these games."

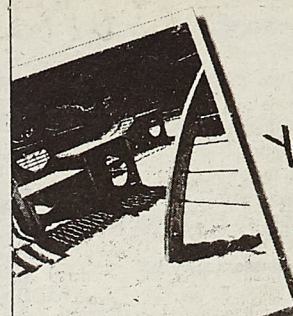

Potrafka added, "One of the purposes of Greek Week is to give a public display of what Greek Life is all about. I think with the changes IFC and the Panhellenic Council has made, it will really show the community what we are all about."

Fraser did clarify that for those students who are interested in alcohol and who are 21 and over, there will be the same alcohol served at the same price this year by a third party vendor.

Instead of the drinking games, Fraser said the games will be a more active and athletic style that rely on skill and teamwork. Fraser commented, "We did a lot more sports games last year, and we got some of the best reviews from the houses in a long time. That is what we are going to focus on this year."

"I think we are doing a good job of getting away from the typical Greek stereotype. If we don't start rolling with the changes, we're going to be left behind," Fraser said.

TAKE TECHNOLOGY TO THE NTH POWER.

When something is too extreme for words, it's to the Nth degree. And that's the level of technology you'll experience at Raytheon.

Raytheon has formed a new technological superpower—Raytheon Systems Company, composed of four major technological giants: Raytheon Electronic Systems, Raytheon E-Systems, Raytheon TI Systems and Hughes Aircraft. The new Raytheon Systems Company is driving technology to the limit. And we're looking for engineers who want to push the envelope. Break new ground. Make their mark.

At Raytheon, you'll take technology—and your career—to the highest possible level. You'll take it to the Nth.

We have a lot to tell you about the new Raytheon Systems Company and the exciting opportunities we have available. Plan on visiting our booth at your college career fair. If you are unable to attend the fair then check out our website at www.rayjobs.com and please send your resume to: Raytheon Resume Processing Center, P.O. Box 660246, MS-201, Dallas, TX 75266.

Financial Aid

CHRYSLER ANNOUNCES NEW SCHOLARSHIP PROGRAM

With an eye toward assisting outstanding college bound students, Chrysler Corporation recently awarded 1,000 grants to 40 recipients through its new Junior Golf Scholarship Program. Even though the majority of the winners play golf, all selections were made based upon their academic and extracurricular effort. For more information on this exciting program call 1-800-856-0764.

DEPARTMENT OF THE ARMY U.S. ARMY HEALTH PROFESSIONAL SUPPORT AGENCY

Let the Army pay your way through Medical, Dental Optometry School, or a Doctoral level degree in Clinical/Research Psychology. Scholarship includes: full educational fees, required books, lab fees, required equipment rental, \$865.00 monthly stipend.

FOR MORE INFORMATION ON ARMY SCHOLARSHIP OPPORTUNITIES CONTACT: CAPTAIN DINO L. MURPHY OR MRS. SHARON MACKENZIE AT 1-800-829-0924.

KIDS' CHANCE INC. OF MISSOURI

What is Kids' Chance? It is a non-profit corporation developed by interested employers, attorneys, laborers, insurers, third party administrators, government officials, health care representatives and rehabilitation providers. The purpose of Kids' Chance is to provide educational scholarships to financially assist the education of children of workers who have been seriously injured or killed in Missouri work related injuries.

Which Children are Eligible for the Scholarship? To be eligible for the scholarship the child's parent must have sustained a serious injury or fatality in a Missouri work related accident covered by workers compensation. The parent's injury or death must be compensable under Missouri Workers' Compensation Law, Chapter 287 RSMo. The child must be between the ages of 16 and 25.

When do you apply? Applications are accepted at any time. KIDS' CHANCE Scholarships are awarded on basis of need throughout the year as funds are available. The deadline for accepting applications for a one year scholarship (fall and spring semesters) is May 15th. The deadline for accepting applications for the spring semester only is October 30th. Applications available in the Student Financial Assistance Office, G-1 Parker Hall, Rolla, MO 65409-0250 or by calling 1-800-484-5733 - code 5437 (KIDS).

THE JOHN GYLES EDUCATION FUND

The John Gyles Education Fund is a private, benevolent endeavor established eight years ago with the help of a Canadian/American benefactor. Each year financial assistance is avail-

able to full-time students in both Canada and the United States. Full Canadian or American citizenship is a requirement. Awards are available to both male and female students for all areas of post secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic ability and financial need are considered in the selection process. Selected students will receive up to \$3,000. Filing dates for mailing applications in 1998 are April 1st, June 1st, and November 15th.

To receive an application please send only a stamped *** (US 32 cent), self-addressed, standard letter size (No. 10) envelope to the following address: The John Gyles Education Fund, Attention: R. James Cogle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick, Canada E3B 5G4.

AMERICORPS EDUCATION AWARDS

The AmeriCorps Education Awards Program offers members the standard AmeriCorps education stipend of over \$4,700 for one year of community service, but unlike AmeriCorps USA, it does not provide a living allowance or other benefits. For information on this program contact the Student Financial Assistance Office, G-1 Parker Hall.

CARAT SCHOLARSHIP FOUNDATION

To receive current information packets and applications for The Carat Scholarship, please have interested students send a stamped self addressed envelope to: Carat Scholarship Foundation, Attn: Carol McAuliffe-Director, 5 Magnolia Parkway, Hawthorn Woods, IL 60047. The schedule for the Carat Scholarship Foundation Awards is as follows: Academic semester Spring 1999, Applications Postmarked by: November 1, 1998, Awards Distributed by: December 15, 1998. Carat Scholarship Foundations is funded by the contributions of civic minded individuals, businesses and various fund raisers. The Foundation offers \$500 - \$1000 scholarships semiannually to graduate and undergraduate students who are United States citizens. The scholarships are awarded on the basis of career goals, financial need and academic record.

AIR FORCE SCHOLARSHIPS FOR MEDICAL STUDENTS ELIGIBILITY CRITERIA:

Applicants must be U.S. citizens, of good moral character, physically qualified for an Air Force commission, currently enrolled or accepted for the next enrolling class of an accredited allopathic or osteopathic school within the United or Puerto Rico, and not contractually obligated to serve a state or other party upon graduation. Interested persons should contact their Air Medical Recruiter for more information and/or and interview and application. (573-446-6750)

CRANE FUND FOR WIDOWS AND CHILDREN SCHOLARSHIP

The Admission Student Financial Assistance Office wishes to make students aware of the Crane Fund for widows and Children. This program is:

for needy and deserving widows and children of men who, at their death, have left their widows and children without adequate means of support or deserving wives and/or children of men whom they are dependent for support but, because of age or other disability, are unable or for other reasons, fail or neglect to adequately support them respective wives and/or children

If you meet the above terms for this program you must complete a Crane Fund for Widows and Children Applications to be considered for funding. Applications can be received in the Student Financial Assistance Office, G-1 Parker Hall. Application deadline must be received by the SFA Office by: September 18, 1998.

ROTARY CLUB OF FLORISSANT LOAN PROGRAM

The Florissant Rotary Club wishes to inform students of a loan program which is available for eligible students through the Flo-Ro Trust. This program is part of an overall effort by the Florissant Rotary Club to assist in the education of qualified students within the Florissant Rotary's service area. ELIGIBILITY CRITERIA: A candidate must reside in the Florissant Rotary Club service area. (North St. Louis County, north of Highway 270) A candidate must have completed a minimum of 60 semester hours at an accredited college or university. A candidate must complete the Flo-Ro Trust Loan application and provide all required materials. A candidate must be enrolled for a minimum of 12 semester credit hours during the semester of the loan period for a bachelor's degree, or 10 semester credit hours for a graduate degree. Interested students contact: Mr. Ronald Schmidt, 801 St. Francois Street, Florissant, MO 63031 or call (314) 921-5100.

STATE SPONSORED MISSOURI NATIONAL GUARD EDUCATIONAL ASSISTANCE PROGRAM

Any member of the Missouri National Guard who is serving in the Missouri National Guard satisfactorily, and who possesses the qualifications set forth in application may be awarded educational assistance to an approved public institution or an approved private institution, as those terms are defined in RSMO Section 173.205, of his/her choice while he/she is a member of the Missouri National Guard. ELIGIBILITY CRITERIA: Is a member of the Missouri National Guard. Is certified by the Unit commander that the soldier/airman is participating satisfactorily in required training of the Missouri National Guard Has not previously received a bachelor's degree

from an accredited post secondary institution. Has achieved and maintains a cumulative grade point average (GPA) of at least a 2.5, grade point on a 4.0 scale, or the equivalent on other scale approved by the program administrator, while in a secondary school. Is enrolled, or has been accepted for enrollment, as a full or part-time undergraduate student in an approved private or public institution. Has never been convicted in any court of an offense which involved the use of force, disruption, or seizure of property under the control of an institution of higher education to prevent officials or students in such institutions from engaging in their duties or pursuing their studies. Has not enrolled or who intends to use the award to enroll, in a course of study leading to a degree in theology or divinity. Has not received Educational Assistance under the MONGEAP which exceeds or will exceed financial assistance for more than a total of ten (10) semesters or their equivalent. Application deadlines: Spring Semester: taking applications from September 1, 1998 - December 1998, Summer Semester taking applications from January 1 - April 30. Applications available in the Student Financial Assistance Office, G-1 Parker Hall.

HISPANIC SCHOLARSHIP FUND

The Hispanic Scholarship Fund (formerly the National Hispanic Scholarship Fund) was founded in 1975 to help Hispanic American college students complete their education. The scholarships are available on a competitive basis for Community College, Four Year College and Graduate students of Hispanic background. The average award amount is \$1,000.

ELIGIBILITY REQUIREMENTS:

Must be at least half Hispanic U.S. Citizens or Permanent Residents Already completed at least 15 semester credits of undergraduate work with a minimum 2.5 GPA Enrolling full time for the 1998-99 academic year (at least 12 semester credits for undergraduates, 6 semester credits for graduates)

Applications available in the Student Financial Assistance Office, G-1 Parker Hall or by Mailing a self-addressed, stamped, business size (#10) envelope to: Hispanic Scholarship Fund, One Sansome Street, Suite

1000, San Francisco, CA 94104 or by web site after August 31st www.hsf.net

Applications taken from August 3 to October 15, 1998.

AMERICAN SOCIETY OF HEATING, REFRIGERATING AND AIR-CONDITIONING ENGINEERS, INC. GRANT-IN-AID PROGRAM FOR GRADUATE STUDENTS.

Applicants should be involved in the heating, ventilation, air conditioning or refrigeration (HVAC&R) fields or in related areas. These areas many include

indoor air quality, energy conservation, human comfort or HVAC system design, operation or maintenance. Applications available in the Student Financial Assistance Office, G-1 Parker Hall or by ASHRAE Home Page (www.ashrae.org). Click on "Student Activities and Scholarships" and then on "ASHRAE Research Grants for Graduate Students."

Application must be received at ASHRAE Headquarters by December 15 to be considered.

NATIONAL SECURITY EDUCATION PROGRAM FOR STUDY ABROAD

As an undergraduate student, you are eligible to apply for an NSEP scholarship if you meet the following conditions:

ELIGIBILITY:

- U.S. citizenship at the time of application.
 - Matriculated as a freshmen, sophomore, junior, or senior in a U.S. post-secondary institution, including universities, colleges and community colleges accredited by an accrediting body recognized by the U.S. Department of Education.
 - Applying to engage in a study abroad experience that meets home institution standards.
 - Planning to use the scholarship for study abroad. NSEP undergraduate scholarships are not for study in the U.S.
 - Your study abroad program ends before you graduate.
- Application available in the Student Financial Assistance office, G-1 Parker Hall.
- Deadline must be to NSEP by: FEBRUARY 8, 1999

STABILITY... WHERE IT MATTERS

Heavy Equipment Transporter

Aircraft Cargo Loader

Steerable-axle technology that helps the Army deliver its Abrams tank is the firm footing under a new Air Force aircraft cargo loader. The M1000 Heavy Equipment Transporter (HET) carries 70 tons off-road, over rough terrain, enabling the U.S. Army to move its Abrams tank to the battlefield quicker, more reliably, and at lower cost. Now, the M1000's steerable-axle technology, coupled with high-reach hydraulic engineering, allows the U.S. Air Force's new TUNNER loader to quickly and safely lift 60,000 pounds to the upper deck of a 747 cargo aircraft. Technology like this is developed every day at Systems & Electronics Inc.

The Third Annual National Leadership Series banquet will be held Thursday at 5:30 p.m. in the Mark Twain room at the Gateway Center Building. The banquet is a celebration of the history of the profession and a keynote address by Troy Williams, head of the EPLS Technology Center. The banquet offers an excellent opportunity for students to interact with American engineers. There will be about 300 students represented at the banquet. An excellent opportunity for students interested in developing national leadership skills and network with key professionals. Many of these companies are themselves engineers of whom understand the challenges of moving from a technical expertise to a professional engineering and science. Some of the companies represented at the banquet are General Electric, Amtek, The Boeing Company, and D Company Inc., J. I. Case, Illinois Power, Energy, Alcoa Aluminum, America, Computer, and Bechtel Corporation. Sarah Baggett, chemical engineering, last year's banquet, p.
